The director presents the half yearly report and condensed financial statements of the company for the six months ended 30 June 2009.

#### Introduction

The company was established in 2006 as a wholly owned subsidiary of R.E.A. Holdings plc ("REAH"), a company incorporated under the Companies Acts of the United Kingdom, for the principal purpose of issuing debt securities.

At 30 June 2009 the company had in issue £37 million nominal of 9.5 per cent guaranteed sterling notes 2015/17 ("sterling notes"), which are irrevocably and unconditionally guaranteed by REAH and admitted to the Official List and trading on the Regulated Market of London Stock Exchange plc.

Substantially all the company's assets comprise loans made to Indonesian subsidiaries of REAH ("the Indonesian debtor companies").

#### **Business Review**

During the period the company received interest on loans made to the Indonesian debtor companies, paid interest to the holders of the sterling notes and paid interest on the loan to the company from REAH. These activities are anticipated to continue for the remainder of the financial year.

#### Results

The result after taxation for the six months to 30 June 2009 was a loss of £22,000 (2008: profit of £32,000). The net asset value of the company as at 30 June 2009 amounted to £634,000 (31 December 2008: £ 656.000).

#### Risks and uncertainties

The principal risks and uncertainties facing the company relate to the due performance by group entities of their obligations under their respective loan agreements with the company. Any shortfall in performance would impact negatively on the company's ability to perform its obligations to REAH with respect to its loans to the company of \$36.5 million and to the holders of £37 million nominal of 9.5 per cent guaranteed sterling notes 2015/17 with respect to those notes. Further details of these risks and uncertainties were set out on page 3 of the company's annual report and accounts for 2008 ("2008 Annual Report"), a copy of which is available on the company's website at  $\frac{\text{www.rea.co.uk/reafinance}}{\text{reafinance}}$ . There has been no subsequent change in the principal risks and uncertainties facing the business, nor in the arrangements designed to limit the extent of the principal risks.

#### Risk management objectives

The company's risk management objectives and policies were set out on page 3 of the 2008 Annual Report and there has been no subsequent change.

## **Related party transactions**

There has been no change to related party transactions since 31 December 2008.

## **Future outlook**

The management is of the opinion that the present level of activities will be maintained during the remaining six months of the financial year.

## Statement of directors' responsibilities

In the annual financial statements for 2006, 2007 and 2008 the company took credit for the withholding taxes deducted from interest received on loans to Indonesian group entities. During the period under review the Dutch fiscal authorities have asserted that such withholding taxes are not in accordance with the Dutch/Indonesian tax treaty and, therefore, are not eligible for credit against the company's liability to Dutch corporate income tax. The charge of £61,000 for such tax for the six months ended 30 June 2009 includes £49,000 in respect of prior periods.

## **OTHER INFORMATION**

In accordance with a restriction prescribed by Dutch law, a company may only make a distribution of profit provided that shareholders' equity exceeds its issued share capital and legal reserves, in which case the remaining reserves and the unappropriated profit for the year may be dealt with by shareholders in accordance with the company's articles of association.

## Appropriation of the result for the year

At the company's Annual General Meeting held on 22 May 2009, the shareholder resolved to transfer the result for 2008 to other reserves.

## **Subsequent events**

No events have occurred since the balance sheet date, which would change the financial position of the company and which would require adjustment of or disclosure in the interim report and condensed financial statements now presented.
