"In Q2, our organic sales growth accelerated to the highest level since 2011, driven by double-digit growth in Europe," says Randstad CEO Jacques van den Broek. "Also momentum in the Rest of the world region improved versus Q1, while growth in our North American business was stable. We are satisfied with the progress of our acquisitions and remain very excited about their future contribution to the Group. Supporting people and organizations in realizing their true potential is Randstad's role in society. We are committed to go above and beyond to make our candidates and clients successful. To this end we are working hard on our digital transformation. This is showing the first good signs in margin development in our Dutch Professionals business as technology supports our consultants, as well as in our French perm business, by providing additional services through better insights based on big data".

#### Revenue

Organic revenue per working day grew by 9.3% in Q2 to €5,866 million (Q1 2017: up 6.4%). Reported revenue was 14.8% above Q2 2016, of which FX accounted for 0.2% and M&A contributed 7.5%, while working days had a negative effect of 2.2%.

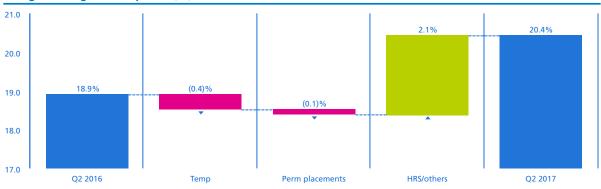

In North America, revenue per working day increased 1% (Q1 2017: up 1%). Growth in the US remained flat, while Canada grew by 9% (Q1 2017: up 6%). In Europe, revenue per working day grew by 11% (Q1 2017: 8%). Topline growth in France amounted to 14% (Q1 2017: 9%), and the Netherlands grew by 2% (Q1 2017: 1%). Germany was up 9% (Q1 2017: 9%), while sales growth in Belgium improved to 14% (Q1 2017: 10%). Italy accelerated to 29% (Q1 2017: 23%), while revenues in Iberia were up by 16% (Q1 2017: 8%). In the 'Rest of the world' region, revenue increased 12% (Q1 2017: up 9%); Australia & New Zealand rose by 14% and Japan increased by 6%.

Perm fees grew 7% (Q1 2017: up 11%), with Europe up 13% (Q1 2017: 16%) and North America up 3% (Q1 2017: 6%). In the 'Rest of the world' region, perm fee growth was flat (Q1 2017: 8%). Perm fees made up 9.9% of gross profit.

#### **Gross profit**

In Q2 2017, gross profit amounted to € 1,194 million. Organic growth was 7.9% (Q1 2017: 6.4%). Currency effects had a positive impact on gross profit of €3 million compared to Q2 2016.

#### YoY gross margin development (%)

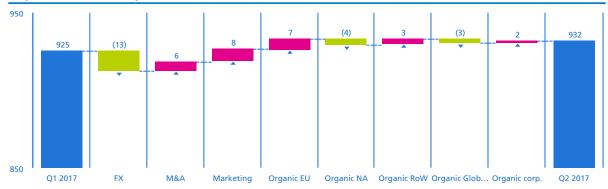

Gross margin was 20.4%, +150bp above Q2 2016 (as shown in the graph above). Temporary staffing had a negative impact of -40bp due to mix, pricing and an adverse working day effect, which is a reversal of Q1 2017. Permanent placements had a -10bp effect on gross margin, while HRS/others (including acquisitions) added +210bp.

#### **Operating expenses**

On an organic basis, operating expenses increased by  $\leq$  14 million sequentially to  $\leq$  932 million. This is primarily related to the previously announced extra marketing investments for Monster and investments in our organic sales growth. Compared to last year, operating expenses were up 5% (Q1 2017: 7%) organically, while there was a  $\leq$  2 million adverse FX impact.

#### Sequential OPEX development Q1 -> Q2 in € M

Personnel expenses were flat sequentially. Average headcount (in FTE) amounted to 37,930 for the quarter, 2% higher than Q1 2017 and 20% higher YoY.

Productivity (measured as gross profit per FTE) was 4% higher YoY (Q1 2017: 2%) on an organic basis. We operated a network of 4,789 outlets (Q1 2017: 4,790).

Operating expenses in Q2 2017 were adjusted for a total of  $\le$  12 million one-offs, of which  $\le$  8 million is derived from integration expenses related to prior M&A and  $\le$  4 million comes from restructuring mainly in the Netherlands and the US. Last year's cost base was adjusted for a total of  $\le$  4 million one-off costs.

#### **EBITA**

Underlying EBITA increased organically by 7% to  $\leq$  262 million, impacted by fewer working days. The quarter was also impacted by continued investments in our digital strategy including Monster (extra marketing). Currency effects were  $\leq$  1 million positive YoY. EBITA margin reached 4.5%, down from 4.7% in Q2 2016. Excluding Monster and the adverse working day impact, EBITA margin was 5.0%. We achieved an organic incremental conversion ratio (ICR) of 34% over the last four quarters.

#### Amortization of intangible assets and impairment of goodwill

Amortization of acquisition-related intangible assets amounted to  $\leq$  36.5 million in the quarter (Q2 2016:  $\leq$  21.3 million). This includes the amortization on the intangibles related to acquisitions that took place in the second half of 2016 and in 2017.

#### Net finance costs

In Q2 2017, net finance costs were  $\in$  7.9 million, compared with  $\in$  4.9 million in Q2 2016. Interest expenses on our net debt position were  $\in$  5.4 million (Q2 2016:  $\in$  3.5 million). Foreign currency effects had a negative impact of  $\in$  2.2 million (Q2 2016: positive impact of  $\in$  0.4 million). The remaining  $\in$  0.3 million income (Q2 2016:  $\in$  1.8 million expense) relates primarily to the adjustments in the valuation of certain assets and liabilities.

#### Tax

The effective tax rate before amortization and impairment of acquisition-related intangibles and goodwill, integration costs, and one-offs amounted to 27.2% in the first six months (H1 2016: 26.6%), and is based on the estimated effective tax rate for the whole year 2017. For 2017, we continue to expect an effective tax rate before amortization and impairment of acquisition-related intangibles and goodwill, integration costs, and one-offs of between 24% and 27%.

#### Net income, earnings per share

In Q2 2017, adjusted net income rose by 6% YoY to  $\leq$  181 million. Diluted underlying EPS amounted to  $\leq$  0.98 (Q2 2016:  $\leq$  0.93). The average number of diluted ordinary shares outstanding remained almost stable compared to Q2 2016 (183.9 million versus 183.7 million).

#### **Invested capital**

Our invested capital mainly comprises goodwill, net tax assets, and operating working capital.

<sup>1</sup> Operating working capital: Trade and other receivables minus the current part of financial fixed assets, deferred receipts from disposed Group companies and interest

Return on invested capital (ROIC) reached 15.2%. The main reason for the decrease year-on-year is the impact of acquisitions on our invested capital. We are strongly focused on improving the returns of acquired businesses, which should also lift the Group's ROIC going forward.

Operating working capital was impacted sequentially by the normal seasonal patterns in our business. In line with previous years we paid holiday allowances in the Netherlands and Belgium. Working capital as a percentage of sales was 4.4%, up 30bp compared to last year, the increase YoY driven by continued business investment/growth, M&A and adverse mix effects. The moving average of Days Sales Outstanding (DSO) increased to 52.1 days (Q2 2016: 50.7), primarily due to M&A and adverse mix effects (faster sales growth in countries with above average DSO).

All other asset/liabilities comprise property, plant & equipment, financial assets, and associates, less provisions and other liabilities. The sequential increase is mainly explained by the timing of the dividend announcement (€ 358.9 million) in Q1 2017 and included as a liability at March 31, 2017. The increase YoY is mainly explained by the increase of the CICE receivable. The total CICE subsidy receivable is € 470 million, including the current portion of € 70 million.

At the end of Q2 2017, net debt was € 1,556 million, compared to € 634 million at the end of Q2 2016. A further analysis of the cash flow is provided in the next section. The leverage ratio was 1.5, compared to 0.7 in the previous year, impacted by seasonality and M&A. The syndicated credit facility allows a leverage ratio of up to 3.5, while we set ourselves a maximum leverage ratio of 2.

receivable minus trade and other payables excluding interest payable.

Net tax assets: Deferred income tax assets and income tax receivables less deferred income tax liabilities.

All other assets/(liabilities), mainly containing property, plant & equipment, software plus financial assets and associates, less provisions and employee benefit obligations and

other liabilities. As per June 30, 2017 and June 30, 2016 dividend payable is also included.

4 Return on invested capital: underlying EBITA (last 12 months) less income tax paid (last 12 months) as percentage of invested capital.

In the quarter, free cash flow was  $\in$  -/- 97 million, versus  $\in$  -/- 10 million the prior year. Over the L4Qs, free cash flow was  $\in$  435 million, down 24% compared to the prior-year L4Qs.

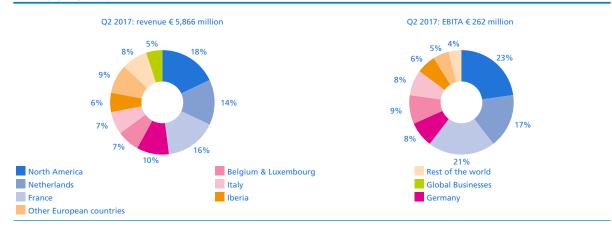

Main driver for the strong decrease in free cash flow YoY was the working capital investment related to our revenue growth acceleration. Our quarterly and L4Qs free cash flow has also been impacted by investments in our digital strategy (including Monster).

Other items include an amount of  $\le$  38.5 million resulting from the implementation of the Tax Credit and Competitive Employment Act (CICE) in France. In Q3 2017, we will receive the first cash-in, amounting to  $\le$  70 million (including the receivable from our acquired companies), related to the receivable originating from 2013.

#### Risk profile

With regard to risks and opportunities, reference is made to our 2016 annual report (pages 80 to 88). The key risks and opportunities did not change materially in H1 2017. The risks identified represent the key challenges we currently face, and we expect them to be applicable in the second half of 2017. We continue to closely monitor the key risks and opportunities, and will respond appropriately to any emerging risk.

We have a wide geographical coverage, which spreads our exposure across mature and emerging markets, which are experiencing different economic conditions. Since it remains difficult to predict future economic developments, we focus on

responding to actual performance in each of our local markets. Our business model, processes and weekly indicators help to ensure that we are flexible enough to respond to these economic conditions. To protect our working capital positions, we keep the cash levels in our countries to a minimum.

More information on how we manage performance can be found on pages 59-78 of our 2016 annual report.

# notes to the consolidated interim financial statements

#### Reporting entity

Randstad Holding nv is a public limited liability company incorporated and domiciled in the Netherlands and listed on Euronext Amsterdam.

The consolidated interim financial statements of Randstad Holding nv as at and for the six-month period ended June 30, 2017 include the company and its subsidiaries (together called 'the Group').

#### Significant accounting policies

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards and its interpretations issued by the International Accounting Standards Board (IASB), as adopted by the European Union (hereinafter: IFRS).

The accounting policies applied by the Group in these consolidated interim financial statements are unchanged from those applied by the Group in its consolidated financial statements as at and for the year ended December 31, 2016.

#### Basis of presentation

These consolidated interim financial statements have been condensed and prepared in accordance with (IFRS) IAS 34 'Interim Financial Reporting'; they do not include all the information required for full (i.e., annual) financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended December 31, 2016.

The consolidated financial statements of the Group as at and for the year ended December 31, 2016 are available upon request at the Company's office or on www.randstad.com.

#### Estimates

The preparation of consolidated interim financial statements requires the Group to make certain judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

In preparing these consolidated interim financial statements, the significant judgments, estimates, and assumptions are the same as those applied to the consolidated financial statements as at and for the year ended December 31, 2016.

#### Seasonality

The Group's activities are affected by seasonal patterns. The volume of transactions throughout the year fluctuates per quarter, depending on demand as well as on variations in items such as the number of working days, public holidays and holiday periods. The Group usually generates its strongest revenue and profits in the second half of the year, while the cash flow in the second quarter is usually negative due to the timing of payments of holiday allowances and dividend; cash flow tends to be strongest in the second half of the year.

#### Effective tax rate

The effective tax rate for the six-month period ended June 30, 2017 is 25.5% (H1 2016: 26.0%), and is based on the estimated tax rate for the whole year 2017 (FY 2016: 26.0%).

#### **New Segmentation**

As a result of acquisitions and changes in the governance and managerial reporting structure of the Group, the external (primary) segmentation (of results) has changed as of Q1 2017; comparative figures for prior periods have been adjusted accordingly for presentation purposes.

Main changes are the creation of one segment called Global Businesses consisting of Monster, Randstad Sourceright, RiseSmart and twago. Reporting of Italy as a separate segment due to increasing size and inclusion of the UK in the segment 'Other European countries' due to limited size.

Ausy is included in the existing geographies mainly being France, Belgium & Luxembourg, Germany and North America.

External (secondary) segmentation on revenue categories now also shows Global Businesses next to Staffing, Inhouse Services and Professionals; comparative figures for prior periods have been adjusted accordingly for presentation purposes.

As a result of this new external segmentation, revenues between segments appear in our tables.

#### Acquisition of Group companies and equity investments

The cash outflow for acquisitions of Group companies ( $\in$  0.2 million payment in respect of an acquisition in preceding years) and equity investments/associates ( $\in$  1.1 million) amounts to  $\in$  1.3 million (Q2 2016:  $\in$  5.4 million).

During the quarter, the Group finalized the purchase price allocation relating to the acquisitions of Careo (Japan) and OL (Obiettivo Lavoro in Italy), resulting in a minor adjustment of € 1.3 million added to goodwill. The amount involved is neither considered material in relation to the total consideration nor to the total goodwill of the two acquisitions.

During the quarter, the purchase consideration of our acquisition BMC in Q1 2017 has been finalized in line with the share purchase agreement. This resulted in an increase of the consideration of € 1.6 million, which is added to goodwill.

#### **Disposal of Group companies**

In Q2 2017 and YTD Q2 2017, we had no disposal of Group companies (2016: € 0.5 million for Q2 and YTD Q2, 2016).
