[1]Conversus Capital, L.P. is an authorized closed-ended investment scheme for Guernsey regulatory purposes and is subject to the supervision of the Guernsey Financial Services Commission and market conduct supervision by the Authority for the Financial Markets in the Netherlands.

NOTE ON NAMING AND OTHER CONVENTIONS

Conversus Capital, L.P. ("Conversus LP") makes all of its investments through Conversus Investment Partnership, L.P. ("Investment Partnership"), a Guernsey limited partnership, and its subsidiaries. Conversus LP, the Investment Partnership and the Investment Partnership's subsidiaries are collectively referred to as "Conversus." Where we use the terms "we," "ours," "us" and other such terms, we refer to Conversus.

Conversus Asset Management, LLC is referred to as "CAM" or the "Investment Manager."

Bank of America Corporation is referred to as "BAC" and Oak Hill Investment Management, L.P. (together with OHIM Investors, L.P.) as "OHIM."

The estimated net asset value ("NAV") of Conversus is referred to as "total NAV" or simply "NAV" and includes all net balance sheet items of Conversus. The NAV of Conversus' investments is referred to as "investment NAV."

Our collateralized fund obligation program (see Note 6 of the combined financial statements) is referred to as the "credit facility," the "collateralized fund obligation program" or "the Program."

Notes and interest payable less cash and cash equivalents is referred to as "net debt."

Derivative instruments held to partially hedge market exposure on our public equity securities are referred to as "derivative instruments," "derivatives" or "swaps."

Distributions and calls from fund investments are alternatively referred to "organic cash flows" or "net organic cash flows."

All amounts set forth in this report are in thousands, unless otherwise noted, except for per unit data. All dollar amounts are in U.S. dollars.

OPERATING SUMMARY

The following table displays a summary of operating results for the quarters ended 30 June 2010 and 30 June 2009.

Summary Operating Results
For the Quarters Ended:

	30 Jun 2010	30 Jun 2009
Net Change in Unrealized Depreciation on Investments	$ 929	$ 59,512
Net Realized Gains (Losses)	34,467	(13,368)
Investment Income	4,600	2,491
Total Expenses	(13,307)	(16,868)
Total Increase in Net Assets	$ 26,689	$ 31,767

- The net change in unrealized depreciation on investments of $0.9 million for the quarter ended 30 June 2010 was comprised of net unrealized gains of $19.4 million related to private holdings and unrealized gains of $12.6 million on a derivative instrument held to partially hedge market exposure on our public equity security portfolio, offset by net unrealized losses of $19.1 million related to public equity securities and $12.0 million in unrealized foreign currency losses. The net change in unrealized depreciation on investments of $59.5 million for the quarter ended 30 June 2009 was comprised of net unrealized gains of $62.8 million related to public equity securities and $8.2 million in unrealized foreign currency gains, partially offset by net unrealized losses of $4.0 million related to private holdings and an unrealized loss of $7.5 million on the derivative instrument.

- Net realized gains of $34.5 million for the quarter ended 30 June 2010 included $64.3 million in gross realized gains, $11.5 million in gross realized losses and $18.3 million in portfolio company write-offs by general partners. In comparison, net realized losses of $13.4 million for the quarter ended 30 June 2009 included $11.1 million in gross realized losses, $11.1 million in portfolio company write-offs by general partners and $8.8 million in gross realized gains.
- For the quarters ended 30 June 2010 and 2009, net investment income was $4.6 million and $2.5 million, respectively. This income was mainly comprised of dividend and interest income.
- Total expenses for the quarters ended 30 June 2010 and 2009 were $13.3 million and $16.9 million, respectively. Further expense detail can be found in the tables below.
- The increase in net assets from operations of $26.7 million during the quarter ended 30 June 2010 resulted in a gain per unit outstanding of $0.37. The increase in net assets from operations of $31.8 million during the quarter ended 30 June 2009 resulted in a gain per unit outstanding of $0.44.

The following table displays a summary of operating results for the six months ended 30 June 2010 and 30 June 2009.

Summary Operating Results
For the Six Months Ended:

	30 Jun 2010	30 Jun 2009
Net Change in Unrealized Depreciation on Investments	$ 24,266	$ 37,125
Net Realized Gains (Losses)	39,981	(17,225)
Investment Income	12,555	3,493
Total Expenses	(28,799)	(33,430)
Total Increase/(Decrease) in Net Assets	$ 48,003	$ (10,037)

- The net change in unrealized depreciation on investments of $24.3 million for the six months ended 30 June 2010 was comprised of net unrealized gains of $21.6 million related to public equity securities, net unrealized gains of $14.1 million related to private holdings and unrealized gains of $7.0 million on the derivative instrument, partially offset by $18.4 million in unrealized foreign currency losses. The net change in unrealized depreciation on investments of $37.1 million for the six months ended 30 June 2009 was comprised of net unrealized gains of $61.6 million related to public equity securities and $1.7 million in unrealized foreign currency gains, partially offset by net unrealized losses of $24.6 million related to private holdings and an unrealized loss of $1.6 million on the derivative instrument.
- Net realized gains of $40.0 million for the six months ended 30 June 2010 included $100.6 million in gross realized gains, $28.1 million in gross realized losses and $32.5 million in portfolio company write-offs by general partners. In comparison, net realized losses of $17.2 million for the quarter ended 30 June 2009 included $16.8 million in gross realized losses, $16.1

million in portfolio company write-offs by general partners and $15.7 million in gross realized gains.

- For the six months ended 30 June 2010 and 2009, net investment income was $12.6 million and $3.5 million, respectively.
- Total expenses for the six months ended 30 June 2010 and 2009 were $28.8 million and $33.4 million, respectively. Further expense detail can be found in the tables below.
- The increase in net assets from operations of $48.0 million during the six months ended 30 June 2010 resulted in a gain per unit outstanding of $0.66. The decrease in net assets from operations of $10.0 million during the six months ended 30 June 2009 resulted in a loss per unit outstanding of $0.14.

The following table displays operating expenses and related annualized operating percentages based on weighted average net assets for the quarters ended 30 June 2010 and 30 June 2009.

Total Operating Expenses and Percentages
For the Quarters Ended:

	30 Jun 2010		30 Jun 2009	
	Expense	**Percentage**	**Expense**	**Percentage**
Fund Fees and Expenses	$ 4,679	1.08%	$ 5,340	1.42%
Net Management Fees	4,302	0.99	5,385	1.43
Interest	757	0.17	2,032	0.54
Professional Service Fees	1,205	0.28	1,401	0.37
Personnel	1,147	0.26	1,069	0.28
Public Company Costs	615	0.15	589	0.16
Other General and Administrative	602	0.14	1,052	0.27
Total Expenses	$ 13,307	3.07%	$ 16,868	4.47%

- Fund fees and expenses represent charges by the general partners of the funds in which Conversus is invested and are expensed in the period to which they relate. These fees and expenses do not include performance fees or carried interest earned by the general partners. Fund fees and expenses are highly dependent on the billing cycles of the underlying general partners of our investments and fluctuate on a quarterly basis.
- Net management fees are paid to CAM based on an aggregate amount of (i) 1.0% per annum of the value of Conversus' non-cash assets and (ii) 0.5% per annum of Conversus' aggregate unfunded commitments. Of such amount, one-third is paid quarterly in cash ("cash management fee"), in arrears, and two-thirds is earned in the form of a contingent profits interest in the Investment Partnership. The contingent profits interest is paid quarterly, in arrears, to the extent there has been sufficient appreciation in Conversus' NAV. CAM has agreed to irrevocably waive its right to 30% of the contingent profits interest while Conversus operates under a realization strategy. This waiver was effective as of 1 July 2009 and results in annual savings of $4.3 million to Conversus based upon investment NAV and unfunded commitment levels as of 30 June 2010. Management fees in the operating expense tables are shown net of the fees waived.
- Interest expense represents the interest incurred on amounts borrowed under the credit facility. The expense reflected weighted average principal balances outstanding of $156.8 million and $256.8 million for the quarters ended 30 June 2010 and 2009, respectively. The balances outstanding bore weighted average rates of 1.9% and 1.8% as of 30 June 2010 and 2009, respectively.

- Professional service fees represent accounting, audit, tax, legal, compliance and related costs. The decrease in the second quarter of 2010 when compared to the same period in 2009 was primarily due to lower legal fees.
- Personnel expense includes compensation and benefits for CCAP's employees as well as employee costs reimbursed to CAM for administrative personnel under a services agreement (see Note 9 to the combined financial statements).
- Public company costs consist of insurance, third party valuation fees, Board of Director cash compensation, investor relations and regulatory expenses.
- Other General and Administrative expenses include fees related to the credit facility, income taxes, occupancy, travel, recruitment and miscellaneous employee and other costs. The decrease in the second quarter of 2010 when compared to the second quarter of 2009 is primarily due to lower tax expense.

The following table displays operating expenses and related annualized operating percentages based on weighted average net assets for the six months ended 30 June 2010 and 30 June 2009.

Total Operating Expenses and Percentages
For the Six Months Ended:

	30 Jun 2010		30 Jun 2009	
	Expense	**Percentage**	**Expense**	**Percentage**
Fund Fees and Expenses	$ 9,825	1.14%	$ 10,705	1.40%
Net Management Fees	8,758	1.02	10,516	1.38
Interest	1,672	0.19	4,239	0.56
Professional Service Fees	2,885	0.33	2,737	0.36
Personnel	3,208	0.37	2,203	0.29
Public Company Costs	1,188	0.14	1,324	0.17
Other General and Administrative	1,263	0.15	1,706	0.21
Total Expenses	$ 28,799	3.34%	$ 33,430	4.37%

- Interest expense reflected weighted average principal balances outstanding of $182.8 million and $257.1 million for the six months ended 30 June 2010 and 2009, respectively. The balances outstanding bore weighted average rates of 1.9% and 1.8% as of 30 June 2010 and 2009, respectively. The decrease in interest expense during the six months ended 30 June 2010 when compared to the same six months in 2009 was due to the lower average balances during the six months ended 30 June 2010.
- Personnel expense increased in the first half of 2010 in comparison to the first half of 2009 due to higher phantom equity expense.
- Other General and Administrative expenses decreased in the first half of 2010 when compared to the first half of 2009 primarily due to lower income tax expense.

BUSINESS OVERVIEW

Conversus is designed to provide unit holders with immediate exposure to a diversified portfolio of private equity assets, access to best-in-class general partners and consistent NAV returns that outperform the public markets. We are invested in a portfolio that includes commitments to new, or primary funds, funds purchased on the secondary market and direct co-investments in individual companies. We believe that the quality, diversity and maturity of our portfolio, our financial flexibility and our commitment to governance and transparency are our competitive strengths. During the second quarter of 2009, we implemented a realization strategy and discontinued, for now, substantially all new investment activity. This strategy, and the circumstances under which we would return to an active investment strategy, are further described in "Investment Strategy."

Since our inception in July 2007, our core investment strategy has been to invest in new private equity funds managed by general partners with a history of strong performance. To augment returns from this core strategy, we have purchased portfolios of funds in the secondary market with risk exposures and vintages that diversify our portfolio, are favorably priced or are otherwise attractive to us. Additionally, we have invested in a limited number of direct private equity co-investments which allow for the selection of specific portfolio company investments with the potential for superior returns, in part because of the possibility of reduced fees and carried interest. While operating in realization mode we will actively manage our current portfolio of funded investments and unfunded commitments to maximize unit holder value. We will continue to review our strategy in response to market conditions and will make strategic decisions consistent with the goal of maximizing unit holder value.

Since our portfolio is mature and cash flowing, we can operate with low levels of cash. We currently expect to meet capital calls on unfunded commitments with the cash flows from existing assets and through borrowings under our credit facility (see Notes 6 and 13 of the combined financial statements).

CAM implements our investment policies and procedures and carries out the day-to-day management and operations of our business pursuant to a services agreement. CAM is owned by BAC, OHIM, certain members of CAM's management, the California Public Employees Retirement System ("CalPERS") and affiliates of Harvard Management Company, Inc. (an investment vehicle for the Harvard University Endowment). CAM leverages the platforms of BAC and OHIM in sourcing and evaluating investments on behalf of Conversus. We believe the depth and breadth of the commercial activities of BAC and OHIM provide valuable perspectives into general market and industry trends, which enhance the ability of CAM to manage our investments and identify attractive investment opportunities.

Our portfolio is managed by the investment team comprised of employees of CAM and OHIM. The senior members of this group average over 15 years of experience in private equity and alternative asset management. CAM's Investment Committee includes senior investment professionals from CAM, BAC and OHIM.

INVESTMENT RESULTS

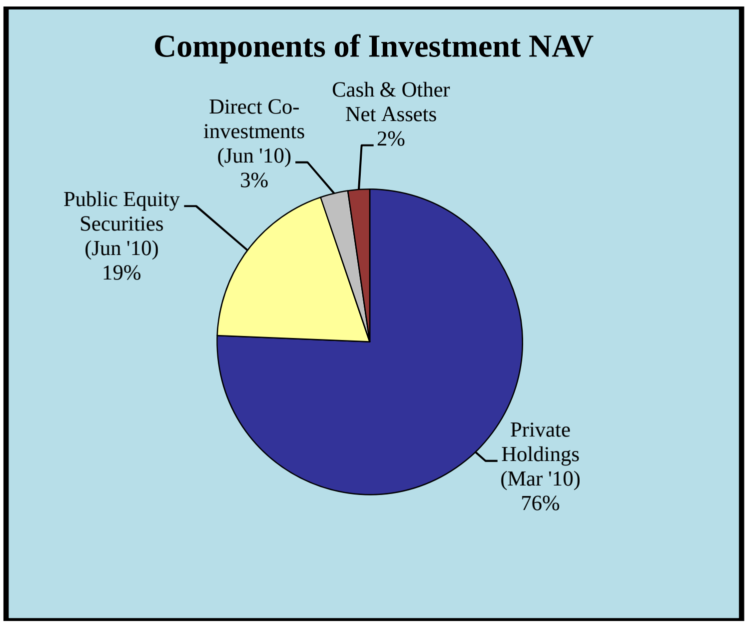
As of 30 June 2010, we had a NAV of $1,748.6 million, or $24.16 per unit. By comparison, our NAV as of 31 December 2009 was $1,700.6 million, or $23.50 per unit.

During the six months ended 30 June 2010, our public equity securities experienced net unrealized gains of $21.6 million, in addition to net unrealized gains on our private holdings of $14.1 million and an unrealized gain of $7.0 million related to the derivative instrument. These gains were partially offset by net unrealized losses of $18.4 million related to foreign currency.

For the six months ended 30 June 2010, net realized gains were $40.0 million. Gross realized gains were $100.6 million, gross realized losses were $28.1 million and general partner write-offs totaled $32.5 million for the six month period.

As of 30 June 2010, 76% of the investment NAV was comprised of private holdings valued based on general partner estimates as of 31 March 2010 and 3% was comprised of direct co-investments valued as of 30 June 2010 based on Conversus' estimates. A further 19% of the investment NAV was comprised of public equity securities and the derivative marked to market as of 30 June 2010. The remaining 2% of the investment NAV represented cash and other net assets held by the funds in which Conversus is invested.

The chart below summarizes the components of our investment NAV as of 30 June 2010.



INVESTMENT STRATEGY

Realization Strategy

In the second quarter of 2009, in response to the significant discount at which our units were trading, we determined that a realization strategy was in the best interest of our unit holders. Despite Conversus' distinguishing characteristics as represented by its portfolio, financial flexibility and commitment to governance and transparency, our units are trading at a discount to our reported NAV of 41% as of 30 June 2010. Although the discount has improved from 52% as of 31 December 2009, under current market conditions we do not believe the unit price levels over the course of the first six months of 2010 reflected the value of our high-quality portfolio or the distinct strengths of our business model.

Under the realization strategy, we have discontinued substantially all investments and new commitments to focus on realizing the value of the existing portfolio by applying cash flow to fund capital calls and expenses, repay debt and, over time, return capital to unit holders through unit repurchases and cash distributions. We continue to actively manage the current portfolio of funded investments and unfunded commitments, as well as our liquidity and capital resources, to maximize unit holder value. Active management could include asset sales or swaps. During this phase, we will continue to gain exposure to the attractive opportunities we believe are presented by the market through the unfunded commitments that will be called and deployed by our top-tier general partners.

We will consider a return to a growth strategy if we believe three criteria are met: (i) the market price for our units fairly reflects the value of the portfolio, (ii) the trading volume in our units provides sufficient liquidity for investors and (iii) the reflection of fair value in the unit price and the level of trading volume are sustainable. We will continue to review our strategy in response to market conditions and will make strategic decisions consistent with the goal of maximizing unit holder value.

We have taken these proactive steps in order to increase the confidence of investors that the value of Conversus' portfolio will be delivered to our unit holders over time. We currently envision this to be achieved either through a fairly valued stock price or, if the market does not recognize that value, through cash flow to unit holders.

Long-term Investment Strategy

We believe that our portfolio is distinguished by its maturity, diversity and quality. Since our inception, the portfolio has been constructed in accordance with the long-term, core principles described below. While we are in realization mode, we will continue to follow these core principles, to the extent applicable, and we will actively manage the portfolio accordingly. We will consider proactive steps, if necessary, to retain a balance in our portfolio consistent with our long-term investment strategy.

On a long-term basis, we expect at least 80% of our total investments will be invested directly in new private equity funds and in existing funds purchased on the secondary market. We expect no more than 20% of our total investments will be invested in direct co-investments. However, we may deviate from these percentages if CAM deems it advisable. In terms of concentrations, we expect that no more than 15% of our total investments will be invested in funds managed by any single general partner, no more than 7.5% will be invested in any single fund and no more than 5% will be invested in any single direct co-investment. Our investment policies do not contain fixed requirements, and these limits may be exceeded under certain circumstances. This flexible investment mandate allows us to be responsive to market conditions and opportunistic in seeking the best risk adjusted returns. Moreover, the cash flow from our mature portfolio and our credit facility provide us with the ability to continue investing through various market conditions and phases of economic cycles.

To maintain our attractive position on the private equity J-curve, we have made direct co-investments and purchased portfolios of funds in the secondary market. Direct co-investments may increase exposure to a fund's most promising investments, frequently with partial or complete avoidance of fees and carried interest. Secondary transactions generally represent more seasoned portfolios, and they may offer more appealing risk-reward and liquidity profiles than primary commitments. Secondaries may also be a useful tool for adding exposure to select vintage years, investment stages, industries, geographic regions and other characteristics.

The recent credit crisis has substantially limited the ability of general partners to create returns through leverage. The best general partners have always emphasized operational improvements that grow cash flow and build franchises in their portfolio companies, and we believe this capability will be particularly critical in the current environment. We believe this expertise is well-represented in our current portfolio, and we will continue to focus on the general partners who we believe are best positioned to execute operational improvements successfully.

INVESTMENT PORTFOLIO

The following table displays a summary of our composition of portfolio investments as of 30 June 2010. See pages 33 to 35 of this financial report for a complete listing of our fund investments as of 30 June 2010.

Composition of Portfolio Investments

	# of Holdings	Investment NAV	% of Investment NAV	Unfunded Commitments	Total Exposure	% of Total Exposure
Buyout Funds						
> $7.5 billion	9	$ 160,473	8.8%	$ 169,467	$ 329,940	13.3%

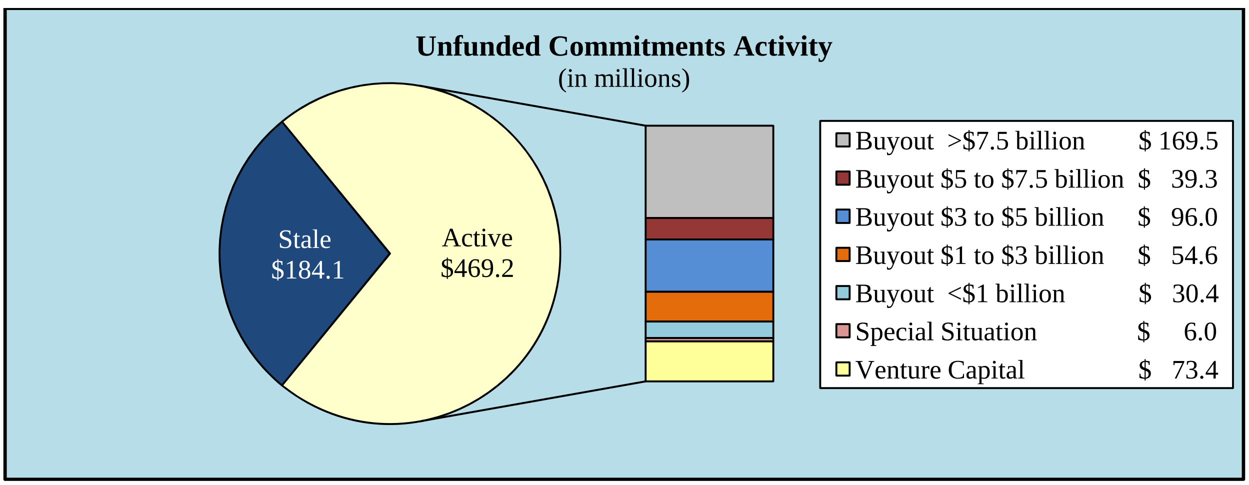
UNFUNDED COMMITMENTS

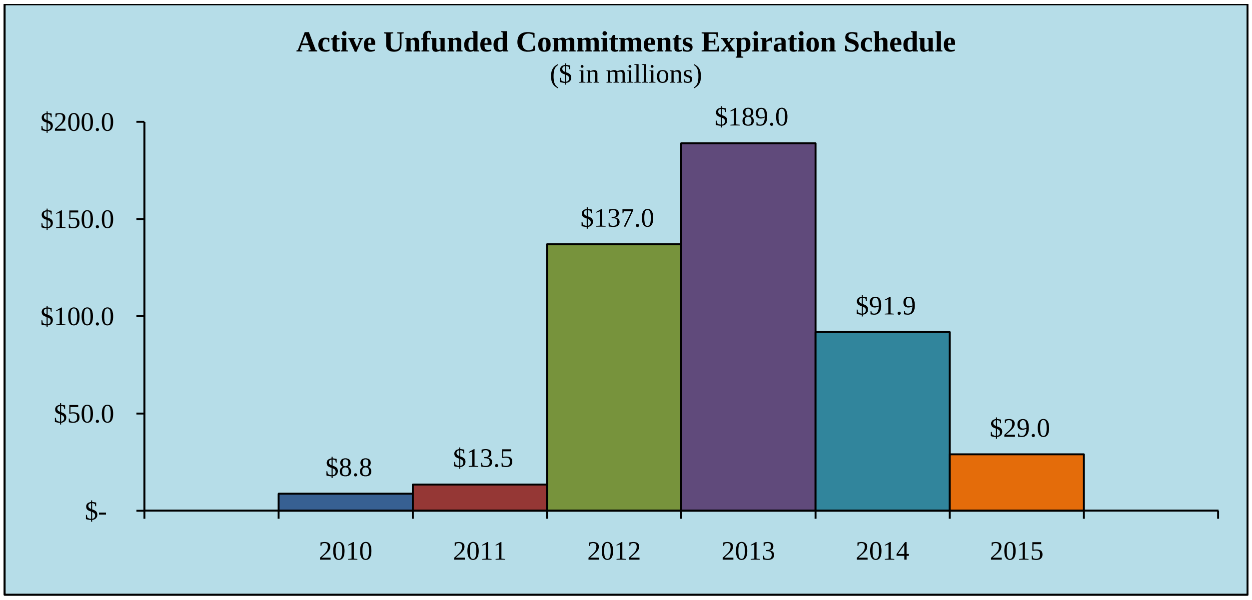
Total unfunded commitments were $653.3 million as of 30 June 2010. The following table displays a summary of our unfunded commitment activity for the six months ended 30 June 2010.

Unfunded Commitment Activity		
Unfunded Commitments as of 1 Jan 2010	$	731,727
Net Commitments Funded		(58,189)
Refunded Capital		4,304
FX and Other Adjustments		(24,571)
Unfunded Commitments as of 30 Jun 2010	$	653,271

Of the $653.3 million of total unfunded commitments as of 30 June 2010, $469.2 million represented active unfunded commitments, or commitments to funds that are still operating within the active investment periods defined by their limited partnership agreements, and $184.1 million represented stale unfunded commitments, or commitments to funds operating beyond the defined investment period. In general, after an investment period ends, unless otherwise extended, unfunded commitments can only be called for investments in process, follow-on investments in existing portfolio companies or for management fees and expenses. The following chart displays a summary of active and stale unfunded commitments as of 30 June 2010.



Active unfunded commitments of $469.2 million currently have investment periods lasting into 2015. Funds have the ability to request amendments to their limited partnership agreements to extend the investment period or to allow new investments beyond the previously agreed investment period. The following chart displays the year in which the investment period for active unfunded commitments ends, prior to any amendments, as of 30 June 2010.



PUBLIC EQUITY SECURITIES

The table below lists our twenty largest public equity securities held either directly or indirectly through one or more of our private equity fund investments, as of 30 June 2010, based on investment NAV. These twenty public equity securities totaled $177.2 million or 51.2% of our total public equity securities portfolio of $346.0 million as of 30 June 2010.

In total, public equity securities held either directly or indirectly through one or more of our private equity fund investments, including derivatives, represented 19.1% of the total investment NAV as of 30 June 2010, while the top twenty positions listed below comprised 9.7% of the total investment NAV as of 30 June 2010.

Cash Flow Activity

The maturity and quality of Conversus' diversified portfolio were demonstrated by our cash flows during the first half of 2010. For the six months ended 30 June 2010, our portfolio generated $152.5 million of net positive organic cash flow with distributions of $219.7 million and capital calls of $67.2 million. For the quarter ended 30 June 2010, our portfolio generated $94.9 million of net positive organic cash flow with distributions of $128.7 million and capital calls of $33.8 million.

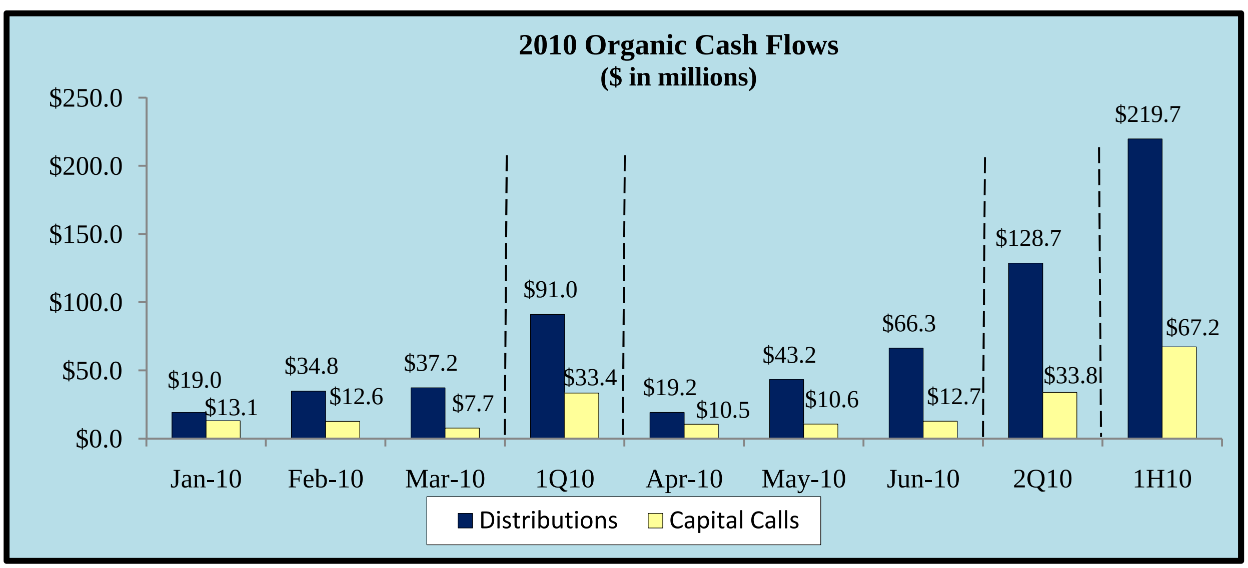
Although we have adopted a realization strategy, we continue to participate in new investments through our $653.3 million of unfunded commitments, including $469.2 million of active unfunded. We anticipate that much of the active unfunded will be called and deployed by our general partners in an environment that we expect to be attractive.

For the six months ended 30 June 2010, capital calls of $67.2 million, which represented 9.2% of beginning of year unfunded commitments, consisted of $58.2 million of calls for portfolio company investments and $9.0 million for fund fees and expenses. For the quarter ended 30 June 2010, capital calls of $33.8 million, which represented 4.9% of 31 March 2010 unfunded commitments, consisted of $30.1 million of calls for portfolio company investments and $3.7 million for fund fees and expenses.

Capital calls during the six months ended 30 June 2010 included $52.8 million for buyout funds, $11.7 million for venture funds and $2.7 million for special situation funds. Capital called by our fund investments came largely from more recent vintage year funds, with 70.5% of the calls coming from fund vintage years 2008 (37.8%), 2006 (20.6%) and 2007 (12.1%).

For the six months and quarter ended 30 June 2010, Conversus received distributions of $219.7 million and $128.7 million, respectively, representing 11.5% and 6.8%, respectively, of beginning of period investment NAV. During the six months ended 30 June 2010, buyout funds comprised 71.9% of the distributions, venture funds comprised 15.1% and special situation funds comprised 6.9% with the remaining 6.1% coming from sales of directly held public equities.

The sectors with the highest levels of distributions during the six months accounted for 56.5% of total distributions and included Industrials (18.5%), Consumer Discretionary (13.8%), Financials (12.4%) and Media (11.8%). The majority of distributions (58.9%) were from underlying portfolio company investments made in years 2005 (19.7%), 2004 (17.9%), 2003 (10.9%) and 2000 (10.4%).

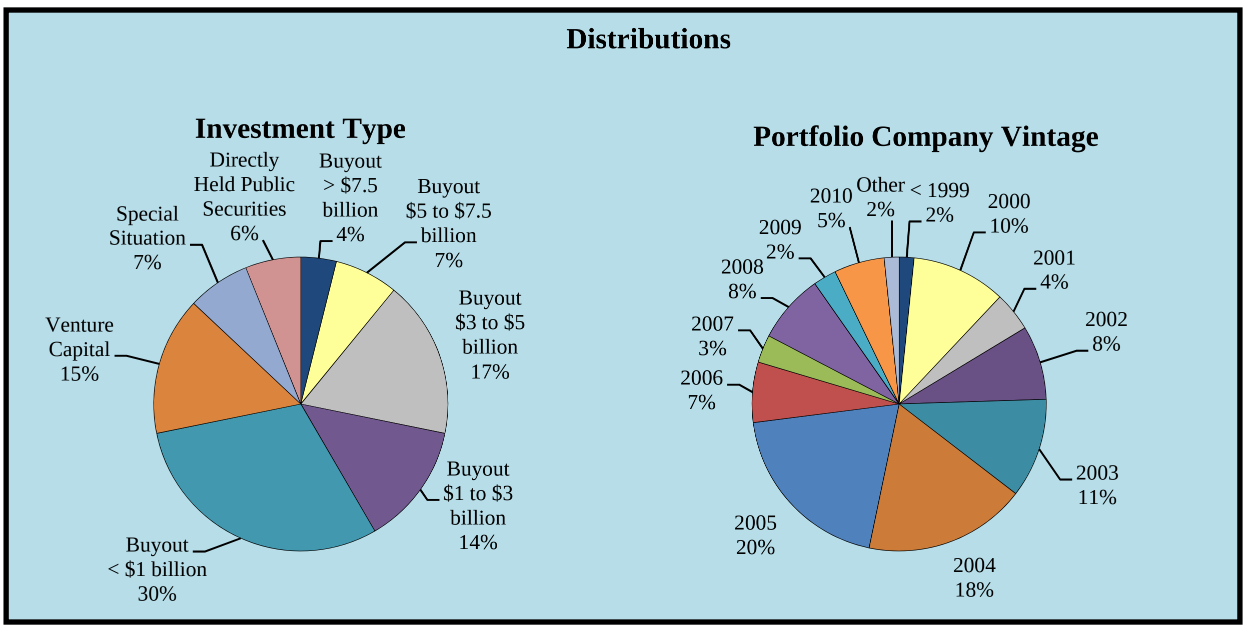


The following chart displays total investment activity for the quarter and six months ended 30 June 2010.

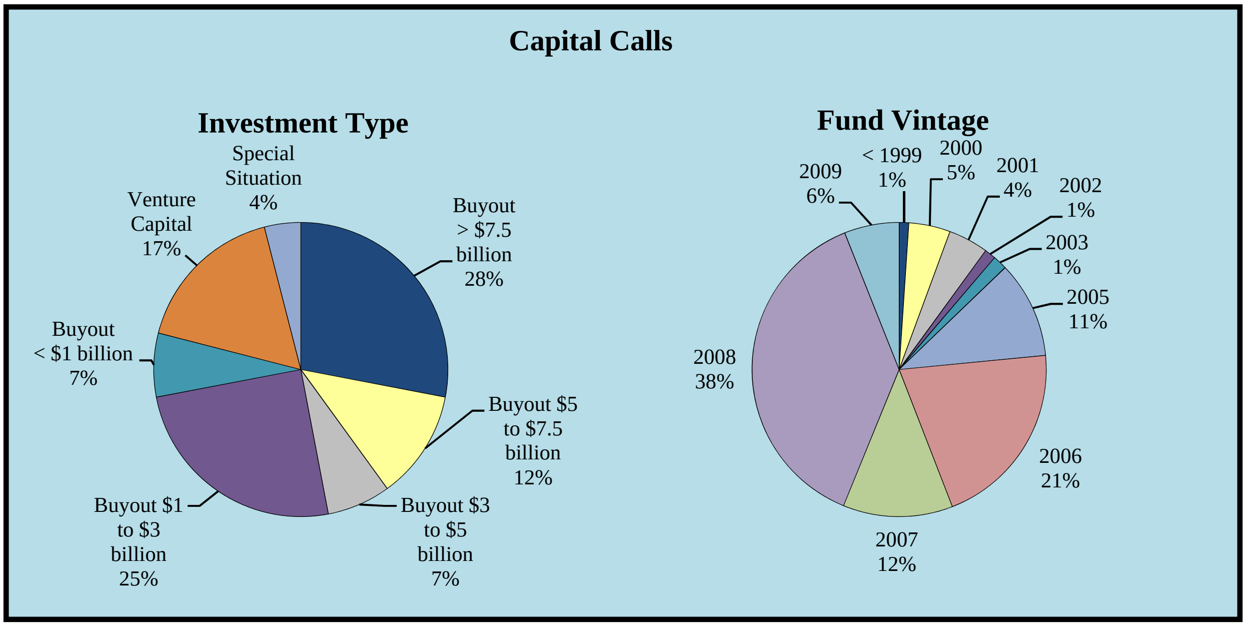
Investment Activity		
	Quarter Ended 30 Jun 10	Six Months Ended 30 June 10
Capital Calls:		
Capital Called for Investments	$ 30,104	$ 58,189
Capital Called for Fund Fees and Expenses	3,702	9,041
Total Capital Calls	$ 33,806	$ 67,230
Distributions:		
Return of Capital	$ 91,088	$ 163,961
Net Realized Gains *	32,167	38,895
Investment Income	4,596	12,548
Refunded Capital	896	4,304
Total Distributions	$ 128,747	$ 219,708
Realized Losses due to Non-cash Write-offs of Investments	$ 18,271	$ 32,515

* Excludes realized gains on stock distributions of $2,300 and $1,086, respectively

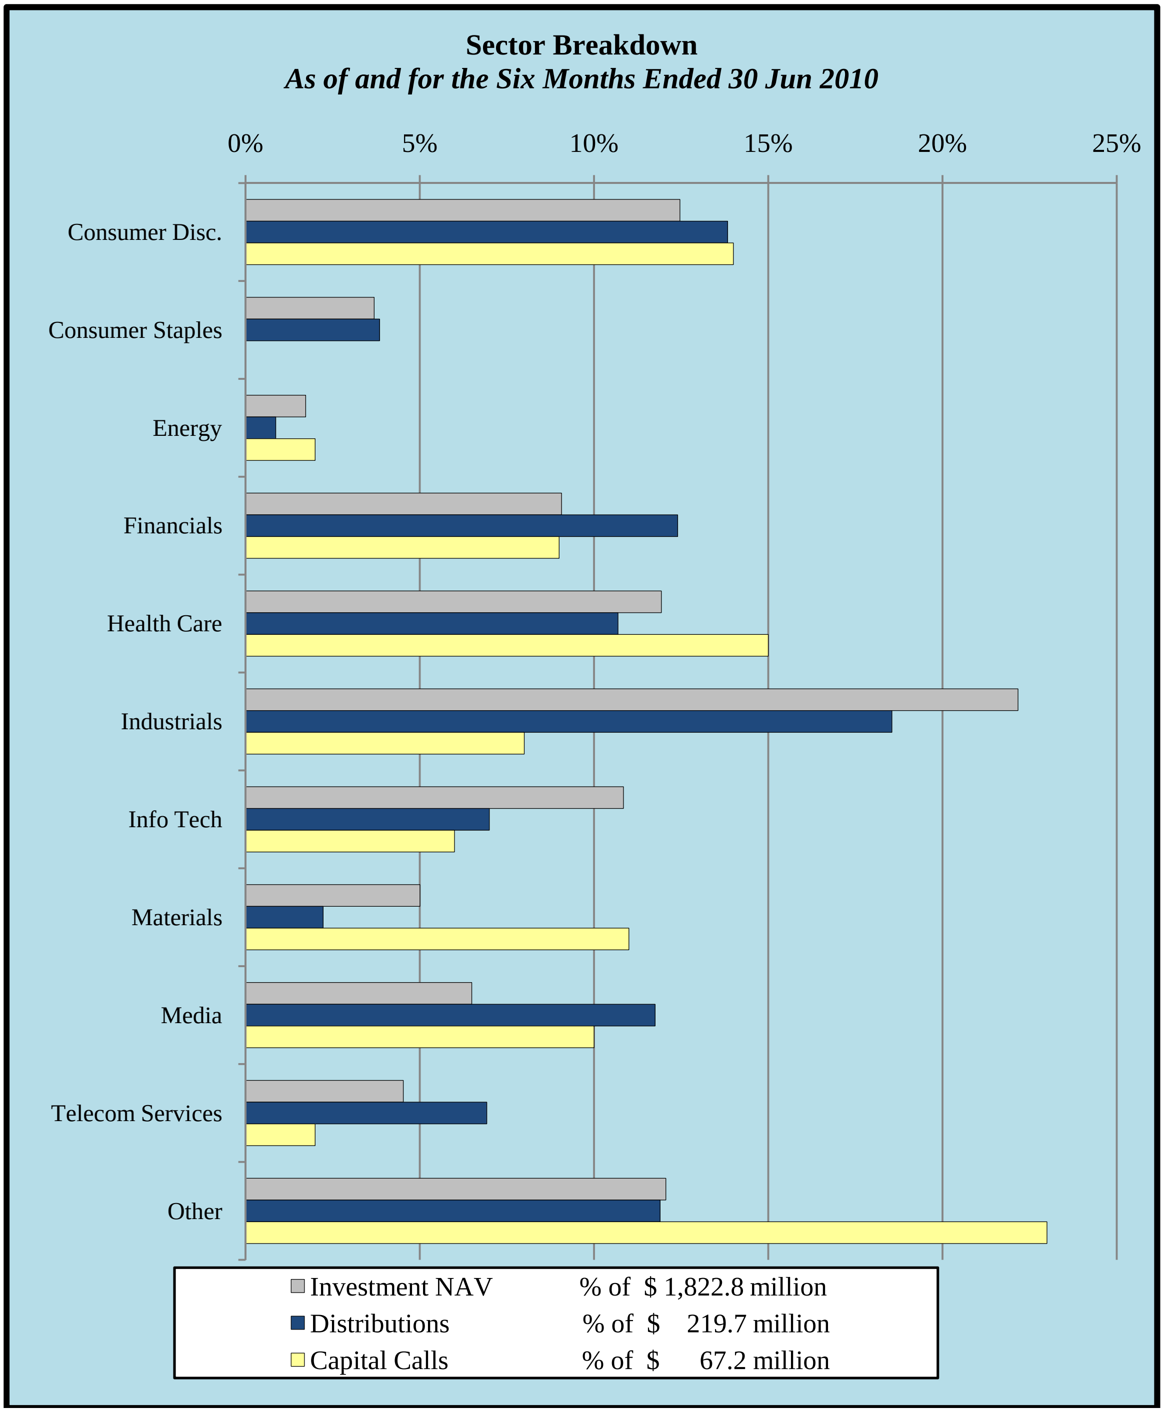
The following charts display distributions of $219.7 million received during the six months ended 30 June 2010 by investment type and portfolio company vintage.



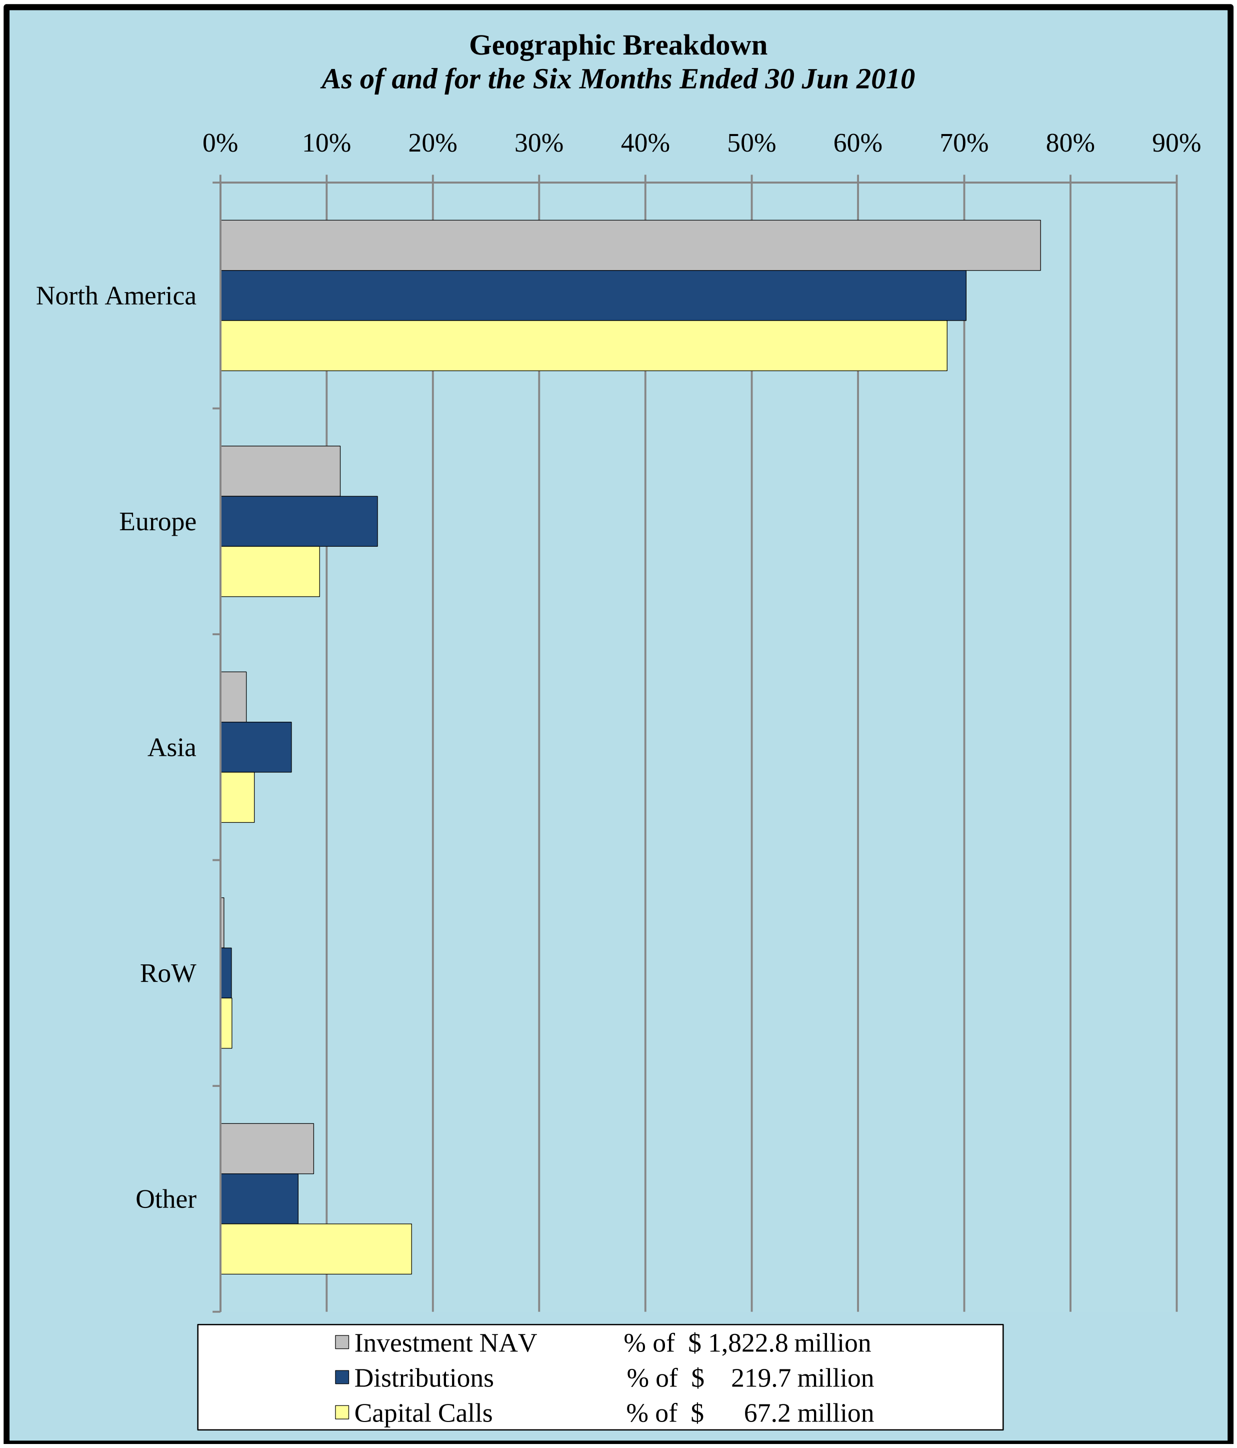
The following charts display capital calls of $67.2 funded during the six months ended 30 June 2010 by investment type and fund vintage.



The following charts display, by industry sector, the relative percentage of investment NAV as of 30 June 2010 and the relative percentages of distributions and capital calls for the six months ended 30 June 2010. Portions of the investment NAV, capital calls and distributions are categorized as "Other." This category includes: (i) other industries such as utilities and real estate (ii) unallocated cash flow activity for which we have not received adequate information from the general partners to allow for sector categorization or (iii) activity in special situation and buyout funds related to debt investments.



The following charts display, by geographic region, the relative percentage of investment NAV as of 30 June 2010 and the relative percentages of distributions and capital calls for the six months ended 30 June 2010. Portions of the investment NAV, capital calls and distributions are categorized as "Other." This category includes: (i) other industries such as utilities and real estate (ii) unallocated cash flow activity for which we have not received adequate information from the general partners to allow for sector categorization or (iii) activity in special situation and buyout funds related to debt investments.



MARKET OUTLOOK AND PORTFOLIO COMMENTARY

Global capital markets entered the second quarter of 2010 with cautious optimism but recoiled in response to the European sovereign debt concerns, thus ending the momentum experienced over the previous four quarters. In the U.S., the S&P 500 declined 12% for the quarter and globally, the MSCI EAFE lost 15%. Investors fled to the relative safety of U.S. Treasuries, and the 10-year yield reached a 14 month low of 2.96%, while corporate bond and bank loan spreads widened.

New private equity investment activity continued to trail expectations. According to Thompson Reuters, aggregate private equity transaction values reached $72 billion globally during the first half of 2010. Although 90% ahead of the activity levels seen in the same period in 2009, this volume represented only 40% of the average investment activity experienced in 2002-2006 and well short of 2007's peak levels. Continued firming of credit market volumes should support greater leveraged buyout activity through the balance of 2010 and into 2011. Despite widening credit spreads, the U.S. leveraged loan and high yield markets in the first half of 2010 relative to the first half of 2009 saw dollar volume increases in new issuances of 53% and 260%, respectively.

Moving from new investments to realization activity, exit events in private equity accelerated in the second quarter, as Thomson Reuters tracked an aggregate disclosed global deal value of $11 billion, compared to $4 billion in the first quarter of 2010 and $3.5 billion in the second quarter of 2009. Consistent with this trend, Conversus Capital received $128.7 million of second quarter distributions, the highest level since the third quarter of 2007, up from $91.0 million in the first quarter of 2010.

We believe the drivers of exits in the second half of the year will continue to be the backlog of strong companies not sold during the downturn, the cash rich balance sheets of large corporate purchasers and the general partners' desire to show liquidity to their limited partners to facilitate upcoming fundraising. The prospect of increasing capital gains taxes could also lead to accelerating realizations, although the magnitude of the impact remains unclear.

Despite equity market volatility, the number of IPOs globally in the second quarter increased by 14% over the first quarter and was 250% above the number of issuances in the second quarter of 2009. Nine of Conversus Capital's portfolio companies, representing $18.3 million in NAV as of 30 June, completed IPOs during the second quarter, with the largest being Amadeus, Metals USA and Christian Hansen. Our IPO pipeline remains deep, with 19 portfolio companies representing $71.2 million of NAV as of 30 June having filed for offerings, including five of our top 50 private portfolio companies as measured by investment NAV. While an important step toward the ultimate realization of the value on an investment, IPOs typically generate modest immediate cash distributions. Continued softness and volatility in the equity markets would likely delay or prevent many of these potential IPOs, along with the potential sales of other public equities in our portfolio.

In summary, while macroeconomic uncertainty resurfaced during the second quarter, our portfolio proved resilient with NAV increasing modestly in a volatile market. Our recent cash flow was quite strong, and our pipeline of expected exits and filed IPOs continues to build. Thus, we remain optimistic that strong trends in its cash flow will continue for the balance of the year. Private equity has historically been aggressive and opportunistic during market dislocations. As a consequence, we continue to expect deal activity to accelerate from the current low levels for the balance of 2010, despite the increase in capital markets volatility.

LIQUIDITY AND CAPITAL RESOURCES

We utilize leverage under our credit facility and employ an over-commitment strategy, and thus we are subject to the associated risks as explained in this report and in the combined financial statements.

The investments in our portfolio generate cash from time to time. This cash is in the form of distributions and dividends on equity investments, payments of interest and principal on fixed income investments and cash consideration received in connection with the realization of investments. We use our cash primarily to make investments, such as meeting capital calls, through the Investment Partnership and its subsidiaries, to pay our operating expenses and to repay debt.

Current and future liquidity depend primarily on cash distributions generated by the private equity fund investments, direct private equity co-investments and temporary investments that we make, capital contributions that we receive in connection with the issuance of additional units or other securities (if any) and borrowings under the credit facility.

Conversus LP depends on the Investment Partnership to distribute cash in a manner that allows it to meet its expenses as they become due. If Conversus LP does not receive cash distributions from the Investment Partnership or other entities in which Conversus LP has an interest, it may not be able to meet its expenses when they become due.

As of 30 June 2010, we had unfunded commitments of $653.3 million, representing an over-commitment level of 35.8% (unfunded commitments as a percentage of investment NAV) compared with an over-commitment level of 38.4% as of 31 December 2009. Because we employ an over-commitment strategy when making investments in private equity funds, the amount of capital we have committed for future private equity investments exceeds our available cash at a given time. Any available cash that we hold is temporarily invested in accordance with our cash management policy, which provides liquidity for funding capital calls that may be made by the private equity funds to which we have made commitments.

Through cash flows from our portfolio and prudent portfolio management, we believe that our liquidity position remains strong. As of 30 June 2010, we had a cash balance of $31.4 million and total principal and interest outstanding of $94.1 million under our credit facility with Citigroup (see Notes 6 and 13 of the combined financial statements). Public equity securities on our balance sheet plus the related derivative as of 30 June 2010 provide an additional $17.4 million in potential liquidity. The $331.0 million of public equities held by our general partners may, over time, be another source of liquidity. Consistent with the maturity profile of our portfolio, our $653.3 million of unfunded commitments included $184.1 to funds that were beyond their investment period.

While new investment activity levels remain modest, our distributions exceeded capital calls by $152.5 million in our portfolio during the first six months of 2010. Given that exit markets remain somewhat constrained, the broader private equity sector may see capital calls increase from current levels more quickly than distributions. However, we expect the maturity and quality of our portfolio to continue to positively impact the pace of our distributions in comparison to the broader market, and our organic cash flow over recent periods supports that view. We believe it is unlikely that our capital calls would exceed our distributions over substantial periods in the medium term, although, we have planned for potential imbalances. Rather, we believe that our distributions could continue to outpace calls, at least over the near term, assuming stable economic conditions. Nonetheless, we continue to be keenly focused on maintaining financial flexibility to participate in a market recovery or weather market turmoil. In light of the recent extension of our credit facility through 2014, along with our best estimate of expected organic cash flows, we believe that Conversus currently has sufficient liquidity tools to comfortably navigate either scenario for the foreseeable future. In the event we return to growth mode and begin actively investing, we also believe that we would have adequate capacity to make substantial commitments to primary investments, secondary purchases and direct co-investments.

NON-GAAP FINANCIAL MEASUREMENT

In evaluating our performance and results of operations, management reviews a financial measure, referred to as "adjusted NAV," which is not determined in accordance with generally accepted accounting principles in the United States ("non-GAAP"). Non-GAAP measurements do not have any standardized meaning and are unlikely to be comparable to similar measures presented by other companies. As management believes the adjusted NAV to be useful and relevant in assessing our operational performance, we believe it is important to provide information with respect to this non-GAAP measurement so as to share this perspective of management. This non-GAAP financial measure should be considered in the context of our results reported under accounting principles generally accepted in the United States ("U.S. GAAP").

The NAV per unit and the change in NAV per unit over time are important indicators of Conversus' overall portfolio performance. U.S. GAAP requires that all capital transactions, including unit holder distributions, unit repurchases and unit issuances, be included in the reporting of NAV as well as in the number of shares outstanding, both of which are used to calculate the NAV per unit. Conversus' management also considers performance on a purely operational basis and calculates adjusted NAV by removing these capital transactions and the related impact on the shares outstanding since our inception. The following table displays the reported NAV per unit, as well as management's calculation of the adjusted NAV per unit.

Non-GAAP Financial Measurement - Adjusted NAV

	As of 30 Jun 2010	As of 31 Dec 2009	Increase / (Decrease)
Net Asset Value, as reported	$ 1,748,563	$ 1,700,560	2.8%

Units Repurchased	1,207	1,207	-%
New Units Issued	(172)	(172)	-%
Adjusted Units Outstanding	$ 73,402	$ 73,402	-%
NAV per Unit, as reported	$ 24.16	$ 23.50	2.8%
Adjusted NAV per Unit	$ 24.54	$ 23.88	2.8%

FORWARD-LOOKING STATEMENTS AND CERTAIN RISKS

This report contains certain forward-looking statements and an investment in Conversus involves certain risks. In some cases, forward-looking statements can be identified by terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "should," "will" and "would," or the negative of those terms or other comparable terminology. Forward-looking statements speak only as of the date of the document in which they are made and include statements relating to expectations, beliefs, projections (which may include statements regarding future economic performance, and the financial condition, results of operations, liquidity, investments, business, net asset value and prospects of Conversus), future plans and strategies and anticipated results thereof, anticipated events or trends and similar matters that are not historical facts.

By their nature, forward-looking statements involve risk and uncertainty, because they relate to events and depend on circumstances that will occur in the future, and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. Factors that could cause actual results to vary from our forward-looking statements and other risks and uncertainties to which Conversus is subject include, but are not limited to, the following:

- our investment strategy may not be successful in generating attractive rates of return or in otherwise meeting its objectives;
- changes in our financial condition, liquidity (including availability and cost of capital), cash flows and ability to meet our funding needs and satisfy our contractual obligations;
- our limited operating history and the limited track record of our Investment Manager;
- our historical performance since inception and the historical performance of our initial portfolio for periods prior to our inception may not be indicative of our future performance;
- we may be unable to successfully identify and consummate value-enhancing transactions;
- we may be unable to obtain reliable access to new funds managed by top-performing managers;
- the ability of the funds and portfolio companies in which we invest to achieve their business, operating, financial, investment and other objectives, including realizations;
- changes in the relationship with the Investment Manager as our service provider;
- changes in the relationship between the Investment Manager and BAC, OHIM and each of their respective key investment professionals;
- our organizational, ownership and investment structure may create certain conflicts of interest and our units are non-voting securities;
- securities market conditions (including changes to applicable regulations, investor sentiment, and the trading price, discount to NAV, liquidity and volatility of our units);
- private equity market conditions (including our performance and the performance of the funds and companies in which we have invested, timing and size of cash distributions and capital calls and changes in our NAV);
- competitive conditions;
- international, national and regional political conditions (including potential regulatory and tax reform); and
- the risks, uncertainties and other factors discussed elsewhere in this report (including, but not limited to, the combined financial statements) and in the filings made with the AFM available on the Conversus website (www.conversus.com).

The foregoing is not a comprehensive list of the risks and uncertainties to which we are subject. Except as required by applicable law, we undertake no obligation to update or revise any forward-looking statements to reflect any change in our expectations, or any changes in events, conditions or circumstances on which any forward-looking statement is based. In light of these risks, uncertainties and assumptions, the events described by our forward-looking statements might not occur. We qualify any and all of our forward-looking statements by these cautionary factors.

STATEMENT OF RESPONSIBILITY

Substantially all Conversus' investments are made through the Investment Partnership and its subsidiaries. Therefore, in order to present meaningful financial statements, the accounts of Conversus LP and the Investment Partnership have been combined as permitted under U.S. GAAP. All material balances between Conversus LP and the Investment Partnership have been eliminated.

We prepare combined financial statements on an annual, semi-annual and quarterly basis in accordance with U.S. GAAP. Our fiscal year ends on 31 December. We prepare our statements in accordance with U.S. GAAP rather than Dutch GAAP or International Financial Reporting Standards as permitted under Dutch and European law. In the instance where contradictory legislation is passed, Conversus could be required to prepare its combined financial statements on a basis other than U.S. GAAP.

The combined financial statements are the responsibility of the respective managing general partner, acting through its Board of Directors, of each of Conversus LP and the Investment Partnership (collectively, the "Managing General Partner"). The Managing General Partner is responsible for preparing combined financial statements which give a true and fair view of the state of affairs of Conversus and of the profit or loss of Conversus for the applicable period, in accordance with applicable Guernsey law, Dutch law and in accordance with U.S. GAAP. In preparing the combined financial statements, the Directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the combined financial statements; and
- prepare the combined financial statements on the going concern basis unless it is inappropriate to assume that Conversus will continue in business.

The Directors confirm that they have complied with the above requirements in preparing these combined financial statements. The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of Conversus. They are also responsible for safeguarding the assets of Conversus and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

PRINCIPAL RISKS

This financial report (including without limitation the combined financial statements) summarizes the principal risks affecting Conversus. Additional risks and uncertainties that are currently unknown or that are not believed to be principal risks may also adversely affect the results of operations or financial condition of Conversus. If any of the principal risks actually occur, the results of operations and financial condition of Conversus would likely be negatively impacted.

Report of the Independent Accountants

To the Board of Directors of the General Partner and partners of
Conversus Capital, L.P.

We have reviewed the accompanying combined statement of net assets of Conversus Capital, L.P. and Conversus Investment Partnership, L.P. (collectively "Conversus"), including the combined condensed schedule of investments as of June 30, 2010, and the related combined statements of operations for the quarter and six months period ended June 30, 2010, the combined statements of changes in net assets and combined statement of cash flows for the six months ended June 30, 2010, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the responsibility of management and the General Partner of Conversus.

A review consists principally of inquiries of Conversus' personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit conducted in accordance with the auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

This report has been prepared for and only for the General Partner and partners of Conversus as a body, and for no other purpose. We do not accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Based on our review, we are not aware of any material modifications that should be made to the accompanying combined interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

COMBINED STATEMENT OF CASH FLOWS

For the six months ended 30 June 2010
(US$ in thousands and Unaudited)

		Six months ended 30 Jun 2010
Cash flows from operating activities		
Net increase in net assets resulting from operations	$	48,003
Adjustments to reconcile net increase in net assets resulting from operations to net cash provided by operating activities:		
Net realized gains on investments		(39,981)
Net change in unrealized depreciation on investments		(24,266)
Capital Calls		(53,886)
Distributions		202,856
Changes in operating assets and liabilities:		
Net decrease in receivables and prepaid expenses		1,259
Net decrease in management fees payable		(250)
Net decrease in interest and other payables		(6,607)
Net cash provided by operating activities		**127,128**
Cash flows from financing activities		
Repayments of notes		(128,000)
Net cash used in financing activities		**(128,000)**
NET CHANGE IN CASH AND CASH EQUIVALENTS		**(872)**
CASH AND CASH EQUIVALENTS AT BEGINNING OF PERIOD		**32,313**
CASH AND CASH EQUIVALENTS AT END OF PERIOD	**$**	**31,441**
Supplemental cash flow disclosure		
Cash paid for interest	$	8,556
Cash paid for taxes	$	678
Supplemental non-cash flow disclosure		
In-kind public equity security distributions received	$	15,738

NOTES TO THE COMBINED FINANCIAL STATEMENTS

1. Business Overview

Conversus Capital, L.P. ("Conversus LP") is a Guernsey limited partnership established on 29 May 2007. Conversus LP is composed of a general partner, Conversus GP, Limited ("Conversus GP"), a Guernsey limited company which holds 100% of the voting interests of Conversus LP, and the limited partners of Conversus LP, represented by common units that are non-voting. The limited partnership interests in Conversus LP trade on the regulated market of Euronext Amsterdam by NYSE Euronext ("Euronext") under the symbol "CCAP."

Conversus LP owns all of the Class A limited partner interests in Conversus Investment Partnership, L.P. ("Investment Partnership"), a Guernsey limited partnership through which substantially all of Conversus LP's investments are made directly or indirectly through its subsidiaries. The Investment Partnership is composed of a general partner, Conversus Investment GP, Limited ("Investment GP"), a Guernsey limited company, which holds 100% of the voting interests of the Investment Partnership, as well as the Class A, B and C limited partners, all of which are non-voting. Conversus LP and the Investment Partnership are referred to collectively as "Conversus." The independent members of the Board of Directors of Conversus GP and the independent members of the Board of Directors of Investment GP are collectively referred to as the "Board of Directors."

Conversus Participation Company, LLC ("CPC") owns all Class B limited partner interests in the Investment Partnership. CPC has no operations and is a vehicle through which its owners receive performance fees from the Investment Partnership (see Note 2). Class C limited partner interests in the Investment Partnership have been issued to Conversus Asset Management, LLC ("CAM"). These interests entitle CAM to receive the profits interest portion of the management fee (see Note 2).

CAM and CPC are both owned by Bank of America Corporation ("BAC"), Oak Hill Investment Management, L.P. ("OHIM"), the California Public Employees Retirement System ("CalPERS"), affiliates of Harvard Management Company, Inc. (an investment vehicle for the Harvard University Endowment) ("Harvard") and certain members of CAM's management. CAM is Conversus' investment manager and carries out the day-to-day management and operations of Conversus' business, pursuant to a services agreement (see Note 9).

Conversus LP makes substantially all of its investments through the Investment Partnership and its subsidiaries and expects that Conversus LP's only investment assets will be Class A limited partner interests in the Investment Partnership and a 1% economic interest in certain of the Investment Partnership's subsidiaries. Conversus GP or the Investment Partnership controls each of these subsidiaries.

The Investment Partnership holds investments through a series of Delaware limited partnerships and non-U.S. corporations, none of which individually hold more than 20% of the Investment Partnership's gross assets. The Investment Partnership does not have and does not expect to have more than 20% of the gross assets of the Investment Partnership invested in any single underlying subsidiary. Conversus LP owns 1% of the economic interests in certain of these subsidiaries and the Investment Partnership owns the remaining 99%.

Realization Strategy

During the second quarter of 2009, Conversus implemented a realization strategy designed to deliver the value of its portfolio to investors. The realization strategy is designed to increase the confidence of investors that the value of Conversus' current portfolio will be delivered to its unit holders over time. Conversus has discontinued substantially all investments and new commitments and is focused on realizing the value of the existing portfolio by applying cash flow to fund capital calls and expenses, repay debt and, eventually, return capital to unit holders through unit repurchases and cash distributions. Conversus will continue to manage actively its current portfolio of funded investments and unfunded commitments as well as its liquidity and capital resources to maximize unit holder value.

Conversus will consider a return to a growth strategy if it believes three criteria are met: (i) the market price for its units fairly reflects the value of the portfolio, (ii) the trading volume in its units provides sufficient liquidity for investors and (iii) the reflection of fair value in the unit price and the level of trading volume are sustainable. Conversus will continue to review its strategy in response to market conditions and will make strategic decisions consistent with the goal of maximizing unit holder value.

2. Summary of Significant Accounting Policies

Basis of Presentation

The combined financial statements for Conversus are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Conversus has received approval from the Netherlands Authority for the Financial Markets ("AFM") to prepare its combined financial statements in accordance with U.S. GAAP rather than Dutch GAAP or International Financial Reporting Standards. In the instance where such approval is withdrawn by the AFM or contradictory legislation is passed, Conversus could be required to prepare its combined financial statements on a basis other than U.S. GAAP.

As disclosed in Note 1, Conversus LP owns all of the Class A limited partner interests in the Investment Partnership. Conversus LP does not own the general partner interests of the Investment Partnership, and therefore does not control the Investment Partnership. However, Conversus GP and Investment GP are controlled by the same Guernsey charitable trust. Therefore, Conversus LP and the Investment Partnership are under common control. Substantially all of Conversus' investments are made through the Investment Partnership and its subsidiaries. In order to present meaningful financial statements, the accounts of Conversus LP and the Investment Partnership have been combined as permitted under U.S. GAAP.

Principles of Combination

These combined financial statements include the accounts of Conversus LP combined with the Investment Partnership. The accounts of the Investment Partnership represent the consolidated accounts of the Investment Partnership and its subsidiaries. All material balances between Conversus LP, the Investment Partnership and subsidiaries of the Investment Partnership have been eliminated.

Currency

Conversus' functional currency is the U.S. dollar as a majority of its investments are denominated in U.S. dollars. When valuing investments that are denominated in currencies other than the U.S. dollar, Conversus converts the values of such investments into U.S. dollars based on prevailing exchange rates as of the end of the applicable accounting period.

Conversus does not separately report the changes relating to currency exchange rates from those relating to changes in the fair value of investments in the combined financial statements. These fluctuations are combined and included in the net change in unrealized depreciation on investments in the Combined Statements of Operations.

Use of Estimates
The preparation of combined financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities as of the date of the combined financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation of Investments
Conversus accounts for its investments at fair value in accordance with U.S. GAAP. Investments include private equity investments, publicly traded equity securities and a derivative instrument. The Board of Directors and the Chief Financial Officer are ultimately and solely responsible for estimating the fair value of investments in good faith. Due to their inherent uncertainty, the estimated fair values may differ significantly from the values that would have been used had a ready market for these investments existed, and such differences could be material to the combined financial statements.

Derivative Instruments
Derivative instruments are recorded at estimated fair value and are shown on the Combined Statements of Net Assets with changes in fair value reflected in the net change in unrealized depreciation on investments in the Combined Statements of Operations.

Cash and Cash Equivalents
Cash and cash equivalents consist of cash held in the bank and liquid investments with maturities, at the date of acquisition, not exceeding 90 days.

Treasury Units
Conversus LP’s purchases of its own common units are recorded as treasury units under the cost method and are shown as a reduction of partners’ capital on the Combined Statements of Net Assets.

Transactions in Foreign Currency
Foreign currency transactions are translated at the rate of exchange prevailing on the date of the transaction. The value of investments that are denominated in currencies other than the U.S. dollar are stated by converting the value of such investments into U.S. dollars based on the rate in effect on the last business day of each applicable accounting period, and the related gains/losses are included in the net change in unrealized depreciation on investments in the Combined Statements of Operations.

Income
Interest Income
Conversus may earn interest income from its private equity investments and from its cash and cash equivalents. Interest is recorded when earned, or when it is reported to Conversus by the private equity funds in which it is invested.

Dividend Income
Conversus may earn dividend income from its publicly traded equity securities or from its private equity investments. To the extent that a dividend represents a distribution of operating income, it is recorded when declared, or when it is reported to Conversus by the general partners. When a dividend represents a distribution resulting from a recapitalization, it is recorded as a return of capital and any related realized gain or loss is recognized.

Realized Gains and Losses on Investments
Realized gains and losses are recognized when Conversus is made aware of a realization event, which, in the case of underlying portfolio companies, normally occurs when a distribution is received or when Conversus is notified by a general partner that a transaction has occurred. For publicly traded equity securities, realizations are recorded on the trade date. Any realized gains or losses associated with direct co-investments and derivative instruments are recorded on the date of a transaction closing.

Public Equity Security Distributions
In-kind public equity security distributions from fund investments are recorded as of the declaration date and any associated gains or losses are included in net realized gains or losses on investments in the Combined Statements of Operations. The public equity security distributions are initially recorded at the value of the distribution received and subsequently marked to market at the end of each month.

Fund Fees and Expenses
Management fees and partnership expenses are charged by the general partners of the funds in which Conversus is invested and are expensed in the period to which they relate. These fees and expenses do not include performance fees or carried interest earned by the general partners.

Management Fees
CAM is entitled to management fees from the Investment Partnership in an aggregate amount of (i) 1.0% per annum of the value of Conversus' non-cash assets and (ii) 0.5% per annum of Conversus' aggregate unfunded commitments. Of such amount, one-third is payable quarterly in cash ("cash management fee"), in arrears, and two-thirds is earned in the form of a profits interest in the Investment Partnership. This profits interest is payable quarterly, in arrears, to the extent that there has been appreciation in Conversus' net asset value ("NAV"). CAM has voluntarily agreed to irrevocably waive its right to 30% of the profits interest while Conversus operates under the realization strategy.

For the quarter and six months ended 30 June 2010, management fee expense, net of the waiver, totaled $4.3 million and $8.8 million, respectively. As of 30 June 2010 and 31 December 2009, cash management fees of $1.8 million and $1.9 million were accrued, respectively. As of 30 June 2010 and 31 December 2009, profits interest of $2.5 million and $2.7 million were accrued, respectively.

Performance Fees
Performance fees are calculated at the end of each applicable quarter, based on the results to date. Each quarter, CPC is entitled to a 10% performance fee from the Investment Partnership based on increases in NAV, subject to a 7% preferred return to the Investment Partnership and a high water mark for the three year period ending as of the calculation date. No performance fees were incurred during the quarter and six months ended 30 June 2010, and there were no performance fees payable as of 30 June 2010 or 31 December 2009.

Other Expenses
Interest expense represents interest incurred through the collateralized fund obligation program (see Note 6).

Professional service fees represent accounting, audit, tax, legal and related costs.

Personnel expense includes compensation and benefits for Conversus' employees as well as employee costs reimbursed to CAM for administrative personnel under a services agreement (see Note 9).

Public company costs include insurance, third party valuation fees, Board of Director compensation, investor relations and regulatory expenses.

Other general and administrative expenses include taxes, occupancy, travel, training, recruitment and miscellaneous employee expenses.

Phantom Equity Incentive Plan
Based on the terms of the Phantom Equity Incentive Plan, Conversus accounts for phantom equity as liability awards under ASC 718-10, *Stock Compensation*. Grants are referenced to Conversus LP's unit price.

Income Taxes
Conversus LP, the Investment Partnership and the Investment Partnership's subsidiaries are not subject to taxation in Guernsey.

Under current Guernsey law, Conversus' income that is wholly derived from international operations and any distributions paid to Conversus LP's unit holders are not regarded as arising or accruing from a source in Guernsey in the hands of that unit holder if, being an individual, the unit holder is not solely or principally resident in Guernsey, or, being a company, is not resident in Guernsey. It is the intention of Conversus GP and Investment GP to ensure that Conversus' business is conducted in such a way as to constitute international operations for the purposes of the relevant legislation.

Conversus LP has made a protective election to be treated as a partnership for U.S. federal income tax purposes and manages its affairs so that it should not be treated as a publicly traded partnership that is taxable as a corporation. An entity that is treated as a partnership for U.S. federal income tax purposes is not a taxable entity and incurs no U.S. federal income tax liability. Instead, each partner is required to take into account its allocable share of items of income, gain, loss and deductions of the partnership in computing its U.S. federal income tax liability, regardless of whether cash distributions are made.

Investments made in entities that generate U.S. source income may indirectly subject Conversus LP and/or the Investment Partnership to certain U.S. federal and state income tax consequences. A U.S. withholding tax at the rate of 30% may be applied on the distributive shares of any U.S. source dividends and interest (subject to certain exemptions) and certain other income received directly or through one or more entities treated as either partnerships or disregarded entities for U.S. federal income tax purposes. Conversus LP's intention is to minimize income which could be deemed to be effectively connected with a U.S. trade or business.

Income from an investment that is effectively connected with a U.S. trade or business is subject to U.S. federal and state income taxation. The U.S. requires withholding on effectively connected income at the highest U.S. regular income tax rate. Such income effectively connected with a U.S.

trade or business (net of the U.S. regular income tax rate) may also be subject to a branch profits tax at a rate of up to 30%.

Under ASC 740-10, *Accounting for Uncertainty in Income Taxes* ("ASC 740-10"), management is required to determine whether a tax position of Conversus is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax liability to be recognized is measured as the largest amount of liability that is greater than fifty percent likely of being realized upon ultimate settlement which could result in Conversus recording a tax liability that would reduce partners' capital.

As of 30 June 2010 and 31 December 2009, management concluded that there was no material impact on Conversus' tax liabilities, financial position or results of operations under ASC 740-10. Conversus' management has determined that there is no material tax liability resulting from unrecognized tax liabilities related to uncertain tax positions taken or expected to be taken in future tax returns, which has not been recorded in the combined financial statements. Conversus is also not aware of any tax positions for which it is reasonably possible that the total amounts or unrecognized tax liabilities will significantly change in the next twelve months.

Conversus files tax returns as prescribed by the tax laws of the jurisdictions in which it operates. In the normal course of business, Conversus is subject to examination by federal, state, local and foreign jurisdictions, where applicable. As of 30 June 2010, the tax years that remained subject to examination by the relevant taxing authorities were 2007 through 2009. Conversus has no knowledge of any tax returns under examination. Conversus has evaluated its federal and state filings for all open tax years, and did not note any potential material penalties or interest.

Unit holders in certain jurisdictions could have tax consequences from ownership of Conversus LP's units, including making required tax payments in excess of any distributions received in any specific year. Conversus LP has not taken such tax consequences into account in the preparation of these combined financial statements.

3. Fair Value of Financial Assets and Liabilities

A fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value is established under ASC 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10"). The three levels of the hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly, as of the measurement date. These include quoted prices in markets that are not active, quoted prices in active markets but with restrictions impacting fair value and quoted prices in active markets for similar assets or liabilities. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Inputs are unobservable for the assets and liabilities. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset (or similar asset) at the measurement date.

The following tables display Conversus' financial assets and liabilities that were accounted for at fair value as of 30 June 2010 and 31 December 2009, by fair value hierarchy. As required by ASC 820-10, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Financial Assets and Liabilities at Fair Value as of 30 Jun 2010 (US$ in thousands)	Level 1	Level 2	Level 3	Total
Financial Assets and Liabilities				
Fund Investments				
Buyout	$ -	$ -	$ 1,308,540	$ 1,308,540
Venture Capital	-	-	279,101	279,101
Special Situation	-	-	164,598	164,598
Direct Co-Investments	-	-	53,249	53,249
Publicly Traded Equity Securities	14,966	-	-	14,966
Derivative Instrument	-	2,394	-	2,394
Total Investments	14,966	2,394	1,805,488	1,822,848
Cash and Cash Equivalents	31,441	-	-	31,441
Total Financial Assets and Liabilities	$ 46,407	$ 2,394	$ 1,805,488	$ 1,854,289

Financial Assets and Liabilities at Fair Value as of 31 Dec 2009 (US$ in thousands)	Level 1	Level 2	Level 3	Total
Financial Assets and Liabilities				
Fund Investments				
Buyout	$ -	$ -	$ 1,379,485	$ 1,379,485
Venture Capital	-	-	300,530	300,530
Special Situation	-	-	170,019	170,019
Direct Co-Investments	-	-	48,113	48,113
Publicly Traded Equity Securities	14,045	-	-	14,045
Derivative Instrument	-	(4,620)	-	(4,620)
Total Investments	14,045	(4,620)	1,898,147	1,907,572
Cash and Cash Equivalents	32,313	-	-	32,313
Total Financial Assets and Liabilities	$ 46,358	$ (4,620)	$ 1,898,147	$ 1,939,885

Conversus has assessed its financial assets and liabilities and concluded that all are classified as Level 3 with the exception of directly held publicly traded equity securities (Level 1), cash and cash equivalents (Level 1) and the derivative instrument (Level 2). Transfers between levels are recognized based on the actual date of the event that caused the transfer.

The following table summarizes the change in fair value of Level 3 financial assets for the six months ended 30 June 2010.

Summary of Changes in Level 3 Financial Assets (US$ in thousands)		
		Investments
Balance as of 1 Jan 2010	$	1,898,147
Distributions		(189,543)
Net Realized Gains		40,238
Net Change in Unrealized Depreciation		18,498
Capital Calls		53,886
In-Kind Distributions Transferred to Level 1		(15,738)
Balance as of 30 Jun 2010	$	1,805,488

Valuation Methodology

Investments in private equity funds do not have a readily available market and are generally valued based on the fair value of each private equity fund as reported by the respective general partner, which necessarily incorporates estimates made by those general partners. Conversus believes that this value, in most cases, represents fair value as of the relevant statement date, although, if other factors lead Conversus to conclude that fair value provided by the general partner does not represent actual fair value, Conversus will adjust the value of the investment from the general partner's estimate. Conversus estimates fair value based on publicly available information and the most recent financial information provided by the general partners, as adjusted for cash flows since the date of the most recent financial information. Additionally, the value of public equity securities known to be owned by the private equity funds, based on the most recent information reported to Conversus by the general partners, have been marked to market as of the last quoted price on the reporting date. Where applicable, a discount is applied to such securities based on an estimate of the discount applied by the general partners (to account for restrictions or other constraints) in calculating NAV.

The transfer of Conversus' investments in private equity funds generally requires the consent of the corresponding private equity fund manager, and the transfer of certain fund investments is subject to rights of first refusal or other preemptive rights, potentially further limiting Conversus from transferring an investment in a private equity fund. The weighted average life of Conversus' fund investments was 8.0 years as of 30 June 2010. The weighted average remaining contractual life for Conversus' fund investments prior to any extensions was 3.3 years based upon the funds' stated termination date. It is common practice for general partners to extend the life of a fund for a period of several years beyond the original termination date. Thus, it is likely that the average remaining life for Conversus' fund investments is materially greater than 3.3 years. Historical J-curves analysis for private equity investments indicates that the average life for a fund is fifteen years.

Direct co-investments are carried at fair value, as estimated by Conversus. In estimating fair value, Conversus considers the value assigned to such investment by the fund with which Conversus has co-invested, to the extent known. Conversus also considers the estimated fair value based on the projected enterprise value at which the underlying company could be sold in an orderly disposition over a reasonable period of time and in a transaction between willing parties other than in a forced sale or liquidation. In these instances, market multiples considering specified financial measures (such as EBITDA, adjusted EBITDA, cash flow, net income, revenues or NAV) and/or a discounted cash flow or liquidation analysis can be used. Consideration may also be given to such factors as the company's historical and projected financial data, valuations given to comparable companies, the size and scope of the company's operations, the company's strengths, weaknesses, applicable restrictions on transfer, industry information and assumptions, general economic and market conditions and other factors deemed relevant. Conversus may also engage the services of a third party valuation firm to assist with valuing the asset.

Valuations for private equity funds acquired in secondary purchases are determined on a fund by fund basis taking into consideration a number of factors including: the purchase price paid for the fund, the valuation applied by the general partner in the most recently available statements (adjusted for cash flows through the purchase date), the conditions under which the assets were purchased, market and economic conditions at the time of purchase and other factors considered relevant at the time of the transaction. The public equity securities known to be owned within the purchased private equity fund, based on the most recent information reported to Conversus by the general partners, are marked to market and a discount applied to such securities based on an estimate of the discount applied by the general partners (to account for restrictions or other constraints) in calculating NAV in the month in which the assets are purchased. Subsequent valuations follow aforementioned valuation guidelines for investments in private equity funds.

Conversus generally reports its estimated quarterly NAV prior to receiving fair value information from all general partners. As a result, Conversus' estimate of fair value for investments in private equity funds could differ materially from the fair values ultimately reported by the general partners.

Duff & Phelps, LLC ("Duff & Phelps"), an independent valuation firm, provides third party valuation consulting services to Conversus LP which consist of certain limited procedures that Conversus LP identifies and requests them to perform. On a quarterly basis, Duff & Phelps reviews valuations covering a minimum of 20% of investment NAV with an annual target of reviewing approximately 80% of the investment NAV, exclusive of any direct co-investments, directly held publicly traded equity securities and publicly traded equity securities owned by the private equity funds in which Conversus is invested. Upon completion of the limited procedures outlined in Conversus LP's engagement letter with Duff & Phelps, Duff & Phelps concluded that the fair value as estimated by Conversus LP, on an aggregate basis, of those investments subjected to the limited procedures as of 30 June 2010 did not appear to be unreasonable.

4. Disclosures about Fair Value of Financial Instruments

Disclosures of estimated fair values for all financial instruments and the methods and assumptions used by management to estimate the fair value for each type of financial instrument are required under ASC 825-10, *Financial Instruments*.

Short-term Assets and Liabilities

For items that are short-term in nature, such as cash and cash equivalents, receivables, prepaid expenses, management fees payable and other liabilities, Conversus estimates that the carrying value approximated fair value as of 30 June 2010 and 31 December 2009.

Notes and Interest Payable
Conversus' notes payable are valued according to the terms of the collateralized fund obligation program discussed in Note 6. The notes utilize a variable interest rate based on the overnight, one or three month LIBOR rate plus a fixed premium. Conversus' notes payable contain certain terms and provisions which make it impracticable to precisely estimate fair value. However, Conversus believes the fair value of its notes payable did not differ materially from its carrying amount as of 30 June 2010 and 31 December 2009.

5. Derivative Instrument

Conversus entered into a $100 million notional total return swap (the "swap") with Citigroup ("Citi") in September 2009 to manage market risk associated with publicly traded equity securities (see Note 12). Under the swap agreement, Citi will make a payment at the maturity date to Conversus based on a set rate over the life of the swap while Conversus will make or receive a payment to/from Citi at the maturity date based on the performance of the S&P 500 Total Return index over the life of the swap.

The swap matures on 22 October 2010, and the estimated fair value of the swap as of 30 June 2010 was an unrealized gain of $2.4 million. Conversus values the swap based on a market approach that uses observable inputs which include the S&P 500 Total Return index and one-month LIBOR. The estimated fair value as of 30 June 2010 was calculated as if the swap was settled as of that date.

For the quarter and six months ended 30 June 2010, the total unrealized gain on the swap was $12.6 million and $7.0 million, respectively, which is included in the net change in unrealized depreciation on investments in the Combined Statements of Operations.

The table below summarizes terms of the swap.

Summary of Total Return Swap
(US$ in thousands)

Counterparty	Notional Amount	Underlying Index	Floating Amount	Payment Frequency	Maturity Date	Estimated Fair Value as of 30 Jun 2010	Estimated Fair Value as of 31 Dec 2009
Citigroup	$100,000	S&P 500 Total Return	1-month USD LIBOR minus 16 bps	At Maturity Date	22 Oct 2010	$2,394	($4,620)

The swap will be terminated and settled if, for any reason, the collateralized fund obligation program (see Note 6) terminates or if Conversus defaults.

6. Collateralized Fund Obligation Program

Conversus LP has entered into a collateralized fund obligation program (the "Program") with Citi pursuant to which Conversus LP has the ability to issue up to $650.0 million of notes to Citi on a continuous basis, subject to certain conditions and covenants. The Program has a term of five years terminating in July 2012, and Conversus LP has the right to repurchase some or all of the outstanding notes at any time. Conversus LP has the option to terminate the Program on six months notice upon payment of an early termination fee. This early termination fee is calculated as: the product of a fixed percentage of $200.0 million and three, less the fixed percentage accrued and paid on all notes issued over the life of the Program, from inception through the early termination date.

The Program is secured by a first priority security interest in the cash accounts maintained by Conversus. All distributions from Conversus' investments must be deposited into these accounts.

Ratio covenants included in the Program that can require prepayment of the notes and limit the borrowing base are as follows:

1. Commitment Ratio – Minimum of 35% - Ratio of (a) the undrawn amount of the Program plus cash and cash equivalents to (b) total unfunded commitments. As of 30 June 2010 and 31 December 2009, the commitment ratio was 88% and 60%, respectively.
2. Loan-to-value Ratio – Maximum of 40% - Ratio of (a) the drawn amount of the Program plus accrued interest plus unrealized loss on the swap, if any, to (b) the total NAV of investments plus cash and cash equivalents. As of 30 June 2010 and 31 December 2009, the loan-to-value ratio was 6% and 13%, respectively.
3. NAV Ratio – Minimum of 50% - Ratio of (a) total NAV to (b) total NAV of investments plus unfunded commitments. As of 30 June 2010 and 31 December 2009, the NAV ratio was 71% and 64%, respectively.

The Program also contains certain investment guidelines that include concentration limits with respect to the diversification of Conversus' private equity fund portfolio, as well as other conditions and covenants that Conversus must adhere to during the life of the Program. Failure to adhere to these conditions and covenants could result in an event of default or trigger termination event. If Conversus fails to comply with the terms of the Program, Citi is not obligated to provide additional advances under the Program.

After the occurrence of an event of default or trigger termination event as defined in the Program, the notes may become immediately due and payable. In such case, or if a payment would result in such an event, no payments out of the cash accounts would be permitted without the prior written consent of Citi, except to meet capital calls and similar obligations required by Conversus' private equity investments and to make distributions to pay management fees or performance fees, as defined in Note 2. Conversus determined it was in compliance with all covenants and conditions as of 30 June 2010 and 31 December 2009.

To the extent that less than $200.0 million of notes and accrued and unpaid interest are outstanding, on average, during the first three years of the Program, Conversus LP will incur a minimum issuance fee. This minimum issuance fee is calculated as: the product of a fixed percentage of $200.0 million and three, less the fixed percentage accrued and paid on all notes issued over the first three years of the Program. Any calculated minimum issuance fee can be paid by Conversus or would be added to the principal balance of Class A Notes outstanding as of the third anniversary of the Program. Minimum issuance fees of $1.2 million and $1.1 million were accrued as of 30 June 2010 and 31 December 2009, respectively. Other than interest charged on drawn amounts and the termination and minimum issuance fees described, no fees or costs are payable to Citi as a part of the Program.

When permitted by the terms of the Program, Conversus may incur additional long-term indebtedness in connection with future investment activity.

The table below summarizes activity under the Program for the six months ended 30 June 2010.

Summary of Program Activity
(US$ in thousands)

	Class A Notes	Class B Notes	Accrued Interest	Total
Balance as of 1 Jan 2010	$ 1,000	$ 215,002	$ 13,002	$ 229,004
Notes Issued/Purchased Interest	-	-	-	-
Repayments of Notes/Interest	-	(128,000)	(8,556)	(136,556)
Interest Expense	-	-	1,672	1,672
Balance as of 30 Jun 2010	$ 1,000	$ 87,002	$ 6,118	$ 94,120
Interest Expense	$ 9	$ 1,663		$ 1,672

The notes bear interest at a rate equal to the overnight, one or three month LIBOR rate plus a premium which is fixed over the life of the Program. Unpaid interest is capitalized and added to the principal balance of the notes. The Class A Notes outstanding as of 30 June 2010 and 31 December 2009 had interest rates of 1.69% and 1.68%, respectively. The Class B Notes outstanding as of 30 June 2010 and 31 December 2009 had interest rates of 1.94% and 1.65%, respectively.

On 23 July 2010, Conversus LP entered into an amendment of the Program with Citi (see Note 13).

7. Partners' Capital

Conversus LP's common units represent limited partner interests in Conversus LP and are issued in registered form. Unit holders are not entitled to the withdrawal or return of capital contributions in respect of Conversus LP's common units, except to the extent, if any, that distributions are made to such holders pursuant to Conversus LP's limited partnership agreement. Except to the extent expressly provided in Conversus LP's limited partnership agreement, a unit holder does not have priority over any other holder of Conversus LP's common units, either as to the return of capital contributions or as to profits, losses or distributions. The unit holders are not granted any preemptive or other similar right to acquire additional interests in Conversus LP. In addition, unit holders do not have any right to have their common units redeemed by Conversus LP.

Conversus LP currently owns all of the Class A limited partner interests in the Investment Partnership. Class A interests are not entitled to the withdrawal or return of any capital contributions in respect of Class A limited partner interests, except to the extent, if any, which distributions are made to such holders in terms of the Investment Partnership's limited partnership agreement, upon the liquidation of the Investment Partnership or otherwise required by applicable law. The Class B limited partner interests in the Investment Partnership are held by CPC. Class B interests have no preemptive or other similar rights to acquire any additional interests in the Investment Partnership. The Class C limited partner interests in the Investment Partnership are held by CAM. Class C interests have no preemptive or other similar rights to acquire any additional interests in the Investment Partnership.

Conversus LP entered into a liquidity enhancement agreement (the "Agreement") in November 2007 with Royal Bank of Scotland ("RBS"). The Agreement provides the parameters and requirements for

Conversus LP's liquidity enhancement policy. Under the Agreement, RBS has sole discretion, in the name and for the account of Conversus LP and subject to all applicable legal and regulatory requirements, to effect buy-backs of units and sales of units held in treasury on Euronext within the parameters set out in the Agreement. Units will not be sold out of treasury under the Agreement at a price which is lower than the last reported NAV per unit. The aggregate number of units which may be purchased in accordance with the Agreement is subject to a maximum of 3.7 million units, which represented five percent of the total number of units outstanding as of November 2007. Conversus LP can elect to increase such maximum. Pursuant to applicable laws, the maximum price which may be paid for a unit is an amount equal to the higher of (a) the price of the last independent trade and (b) the highest current independent bid price for units on Euronext.

Pursuant to the terms of the Agreement, in December 2009, Conversus notified RBS that it had elected to extend the terms of the Agreement for an additional twelve months. Repurchase activity under the Agreement was suspended in April 2009 and remains suspended despite the term extension of the Agreement. The Agreement may be terminated at any time by either Conversus LP or RBS.

Conversus LP did not repurchase any units during the six months ended 30 June 2010. In total, 1,162,940 Conversus LP units were held in treasury as of 30 June 2010 and 31 December 2009.

Conversus LP has also engaged RBS to act as Liquidity Provider to render brokerage services with respect to Conversus' LP common units listed on Euronext. Under the engagement, RBS issues a continuous quote in the Euronext order book, in compliance with applicable laws.

OHIM is obligated to invest 25% of its share of performance fees received by CPC in Conversus units until it reaches a $25.0 million commitment level. OHIM has made an election to increase its reinvestment to 37.5% of its performance fee. Conversus issued no units to OHIM during the six months ended 30 June 2010. Since the global offering, Conversus LP has issued 171,669 common units to OHIM, representing a total reinvestment of $4.0 million. The issuances are based on the Conversus LP average closing price for the ten days leading up to and including the last day of the period to which they relate.

8. Phantom Equity Plan and Directors Compensation

Conversus has established a long term incentive plan under which it may make discretionary grants of phantom equity to certain qualified persons. Vesting of the phantom equity awards will be determined on a grant by grant basis. Pursuant to the phantom equity plan, these awards are referenced to Conversus LP's unit price and will be settled in cash, typically at the earlier of the fifth anniversary of the grant or the termination of the recipient's employment or association with Conversus.

Conversus will ultimately record compensation expense equal to the amount of cash for which the awards are settled. During the vesting period, compensation expense is recorded on a straight-line basis, adjusted for changes in the market value of Conversus LP's units. Subsequent to vesting but prior to payment, compensation expense or benefit will be recorded based on the changes in Conversus LP's unit price, resulting in an increase or decrease in the associated phantom equity liability.

During the six months ended 30 June 2010, Conversus granted two phantom equity awards that vest on 30 June 2011.

For the quarter and six months ended 30 June 2010, total phantom equity award (benefit)/expense was $(0.02) million and $0.8 million, respectively. As of 30 June 2010 and 31 December 2009, $1.9 million and $1.1 million, respectively, was payable with respect to total phantom equity awards.

The chart below summarizes the unit activity of the phantom equity plan for the six months ended 30 June 2010.

Summary of Phantom Equity Plan Unit Activity

	Unvested	Vested
Units Outstanding as of 1 Jan 2010	129,137	39,655
Issued	8,064	-
Vested	(39,056)	39,056
Units Outstanding as of 30 Jun 2010	98,145	78,711

Each member of Conversus GP's Independent Board of Directors receives annual compensation of $62,500 in cash and $62,500 in phantom equity awards. For the quarter and six months ended 30 June 2010, Board of Director compensation expense was $0.1 million and $0.3 million, respectively. As of 30 June 2010 and 31 December 2009, $0.5 million and $0.3 million, respectively, was payable with respect to Board of Director compensation.

9. Related Parties

The sole shareholders of Conversus GP and Investment GP are two Guernsey charitable trusts, Conversus Charitable Trust I and Conversus Charitable Trust II. Conversus Charitable Trust I is considered the ultimate controlling party. The trustee of each of the Charitable Trusts is Northern Trust Fiduciary Services (Guernsey) Limited, which is independent of CAM, BAC and OHIM and is formed under the laws of Guernsey. The trust administration fees for the Charitable Trusts are paid by the Investment Partnership. The applicable fees are currently a minimum annual fee of $25,000 per trust. The trustee for the Charitable Trusts is affiliated with Conversus' Guernsey administrator, Northern Trust International Fund Administration Services (Guernsey) Limited ("Northern Trust"). The Trustee's duties are to the Charitable Trusts and not to Conversus LP or the Investment Partnership, and no material fees are payable by Conversus under the trust administration arrangements.

Conversus LP, Conversus GP, Investment GP, the Investment Partnership and the Investment Partnership's subsidiaries (the "Service Recipients") have entered into a single services agreement with CAM pursuant to which CAM has agreed to carry out the day-to-day management and operations of the respective businesses. Under the services agreement, CAM is entitled to management fees, as discussed in Note 2, as well as the reimbursement of all fees, costs and expenses incurred in connection with the management and operation of the Service Recipients' businesses, including compensation and benefits associated with administrative personnel. CAM is not reimbursed for compensation or benefits associated with the provision of investment services by investment professionals. For the quarter and six months ended 30 June 2010, total expenses reimbursable to CAM under the services agreement were $1.1 million and $2.3 million, respectively. The total amount payable to CAM under the services agreement as of 30 June 2010 and 31 December 2009 was $1.5 million and $1.6 million, respectively.

CAM has entered into a subadvisory and services agreement with OHIM. Under the subadvisory and services agreement, OHIM performs those functions and has such authority as may be delegated to it by CAM. Pursuant to the subadvisory and services agreement, CAM is required to reimburse OHIM for its portion of certain fees and expenses incurred by CAM, as well as other fees, costs and expenses incurred by OHIM. Pursuant to the services agreement, the Service Recipients are required to reimburse CAM for certain out of pocket and other administrative fees paid to OHIM, such as expenses incurred in connection with travel, professional service fees and the pro rata portion of certain overhead costs. For the quarter and six months ended 30 June 2010, total expenses reimbursable to CAM under the subadvisory and services agreement were $0.01 million and $0.02 million, respectively. The total amount payable to CAM under the subadvisory and services agreement was $0.03 million as of 30 June 2010 and 31 December 2009.

Conversus GP has retained Northern Trust and its affiliates to act as its Guernsey administrator to provide certain accounting services, including the accounting and administration of the private equity funds in which Conversus has invested. Paul Guilbert, Chairman of the Board of Directors of Conversus GP, is employed by Northern Trust. For the quarter and six months ended 30 June 2010, total accounting and administration expenses were $0.4 million and $0.7 million, respectively. The total amount payable to Northern Trust for accounting and administration services as of 30 June 2010 and 31 December 2009 was $0.7 million.

BAC, OHIM, CalPERS and Harvard, who are owners of CAM, are also unit holders of Conversus LP. From time to time, Conversus may invest alongside these unit holders in private equity fund investments or direct co-investments.

10. Commitments and Contingencies

As of 30 June 2010, Conversus held interests in 228 investments, including private equity funds, direct co-investments and publicly traded equity securities and had unfunded commitments to private equity funds of $653.3 million. In addition, Conversus may make capital commitments to private equity funds in the future and may make purchases of existing private equity funds in the secondary market, many of which will be subject to additional funding requirements. Conversus generally employs an over-commitment strategy when making investments in private equity funds in order to maximize the amount of its capital that is invested at any given time. When an over-commitment strategy is employed, the aggregate amount of capital committed by Conversus to private equity funds at a given time may exceed the aggregate amount of cash that Conversus has available for immediate investment. Because the managers of private equity funds will typically be permitted to make calls for capital contributions following the expiration of a relatively short notice period, employing an over-commitment approach requires Conversus to time investments and manage available cash in a manner that allows the funding of its capital commitments when capital calls are made. CAM is primarily responsible for managing Conversus' cash and the timing of its investments. CAM takes into account expected cash flows to and from its investments and amounts available from the issuance of notes under the Program when planning investment and cash management activities with the objective of seeking to ensure that Conversus is able to honor its commitments to funds when they become due. Conversus believes it currently has sufficient liquidity to meet this over-commitment strategy.

In the normal course of business, Conversus enters into contracts which contain indemnification provisions, including, but not limited to, purchase contracts, service agreements and subadvisory agreements. Among other things, these indemnification provisions may be related to Conversus' conduct, performance or the occurrence of certain events. These indemnification provisions will vary based on the contract. Conversus may in turn obtain indemnifications from other parties in certain contracts. These indemnification provisions are not expected to have a material impact on Conversus' combined results of operations or financial condition.

11. Gain per Unit Outstanding

The gain per unit outstanding due to the change in net assets resulting from operations for the quarter and six months ended 30 June 2010 is calculated by dividing the net change in net assets by the weighted average number of units outstanding during the period, as outlined in the table below.

Gain per Unit Outstanding ($ and units outstanding in thousands except for per unit amounts)				
		Quarter Ended 30 Jun 2010		Six Months Ended 30 Jun 2010
Net change in net assets resulting from operations	$	26,689	$	48,003
Weighted average number of units outstanding		72,367		72,367
Gain per unit outstanding	$	0.37	$	0.66

12. Risks

Conversus is exposed to a number of risks due to the types of investments it makes and its structure. Its exposure to risk relates to, among other things, changes in the values of publicly traded equity securities and private securities that are held for investment, movements in prevailing interest rates, changes in foreign currency exchange rates, changes in the laws and regulations under which it operates, general market and economic conditions and the management of liquidity resources.

Securities Market Risks

Conversus and the private equity funds in which it invests may make investments in portfolio companies whose securities are offered to the public in connection with the process of exiting an investment. The market prices and values of publicly traded equity securities of companies in which Conversus has investments may be volatile and can fluctuate due to a number of factors beyond its control. Conversus values investments in publicly traded equity securities based on current market prices at the end of each accounting period, which could lead to significant changes in the NAV and operating results of Conversus.

Interest Rate Risks

As described in Note 10, Conversus will, from time to time, incur indebtedness to support its over-commitment strategy and its liquidity needs. An increase in interest rates could increase the cost of making payments under the Program, as described in Note 6, or make it more difficult or expensive for Conversus to obtain debt financing in the future, and could decrease the returns that its investments generate.

Foreign Currency Risks

Conversus' functional currency is the U.S. dollar because a majority of its investments are denominated in U.S. dollars. As a result, the investments that are carried as assets in the combined financial statements are stated in U.S. dollars. When valuing investments that are denominated in currencies other than the U.S. dollar, the values of such investments are converted into U.S. dollars based on prevailing exchange rates as of the end of the applicable accounting period. Due to the foregoing, changes in exchange rates between the U.S. dollar and other currencies could lead to significant changes in NAV.

Counterparty Credit Risk
Conversus has entered into agreements providing for services and transactions that expose Conversus to risk in the event that the counterparties do not meet the terms of such agreements. Conversus may be exposed to a concentration of credit risk in the Program where there is currently a single lender (see Note 6), the swap agreement under which there is a lone counterparty (see Note 5) and in depository and accounting administration services where Conversus utilizes a single service provider (see Note 9).

Conversus depends on the Program's sole lender to provide funds as requested pursuant to the Program. To the extent that the lender fails to perform under the terms of the Program, the non-performance may have a detrimental impact on Conversus' ability to meet its funding requirements.

Under current market conditions, the availability of new financing is not assured. To the extent that new financing is required and available, the terms for such financing may be significantly less favorable to Conversus than the terms in the current Program, with lenders seeking higher rates, additional equity requirements and more restrictive covenants.

Hedging Arrangements and Risk Management
When managing its exposure to market risks, Conversus is authorized to use forward contracts, options, swaps, caps, collars and floors or pursue other strategies or use other forms of derivative instruments (see Note 5) to limit its exposure to changes in the relative values of investments that may result from market developments, including changes in prevailing interest rates and currency exchange rates. Conversus anticipates that the scope of risk management activities it undertakes will vary based on the level and volatility of interest rates and public equity indexes, prevailing foreign currency exchange rates, the type of investments that are made and other changing market conditions. The use of hedging transactions and other derivative instruments to reduce the effects of changes in the value of a position does not eliminate the possibility of fluctuations in the value of the position or prevent losses if the value of the position declines. However, such activities can establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of the position. Such transactions may also limit the opportunity for gain if the value of a position increases. Moreover, it may not be possible to limit the exposure to a market development that is so generally anticipated that a hedging or other derivative transaction cannot be entered into at an acceptable price.

Although Conversus may enter into hedging transactions in order to reduce its exposure to market risks, unanticipated market changes may result in poorer overall investment performance than if the transaction had not been executed. In addition, the degree of correlation between price movements of the instruments used in connection with hedging activities and price movements in a position being hedged may vary. Moreover, for a variety of reasons, Conversus may not be successful in establishing a perfect correlation between the instruments used in a hedging or other derivative transaction and the position being hedged. An imperfect correlation could prevent Conversus from achieving the intended result and create new risks of loss. In addition, Conversus will not be able to fully limit exposure against all changes in the values of its investments, because the values of its investments are likely to fluctuate as a result of a number of factors, some of which will be beyond Conversus' control, and it may not be able to respond to such fluctuations in a timely manner or at all.

Conversus may also invest in private equity related derivative instruments to enhance its returns as part of its investment strategy. Such efforts may prove unsuccessful and result in losses in excess of amounts invested.

Regulatory Risk
Conversus, and the funds and companies in which it invests, are subject to a variety of laws and regulations by national, regional and local governments and supranational organizations. These laws and regulations, and their interpretation and application, may change from time to time and those changes could have a material adverse effect on the results of operations or financial position of Conversus.

Tax Risk
Conversus, and many of the funds and companies in which it invests, have a complex and multi-jurisdictional structure and are subject to a variety of tax laws and tax regulations by national, regional and local governments and supranational organizations. These tax laws and regulations (including the applicable tax rates), and their interpretation and application, may change from time to time and those changes could have a material adverse effect on the results of operations or financial position of Conversus.

Market Risk
The private equity funds and direct private equity investments in Conversus' portfolio may be materially affected by conditions in the global financial markets and economic conditions. The capital and credit markets have experienced unprecedented volatility and disruption over recent periods. Uncertainty created by market and economic conditions and a tightening of credit could lead to declines in valuations of equity and debt securities without regard to the underlying financial condition of the issuer in certain cases.

The global financial markets and economic conditions may become dislocated or deteriorate, due to a variety of factors beyond the control of Conversus. The general partners of the funds held by Conversus may face reduced opportunities to sell and realize value from their existing portfolio companies, and many of these portfolio companies employ substantial indebtedness that may be difficult to extend or replace and which may magnify the impact of any valuation changes. Changes in market or economic conditions, including an increase in interest rates or lack of available credit, could have a material adverse effect on the results of operations and financial position of Conversus.

The rate of capital calls from the private equity funds in which Conversus invests may increase significantly. As a passive investor with very limited rights, Conversus has virtually no ability to influence the activities of the funds in which it invests or their portfolio companies. Moreover, it may not be possible for Conversus to raise new capital in the debt or equity markets or to sell assets on acceptable terms. If Conversus were not able to fund a capital call when due, it may lead to a default under the fund documents and give the fund in which Conversus invested a variety of remedies. Any such default could also be a default under the Program. A failure by Conversus to meet its capital call obligations may have a material adverse effect on the results of operation and financial position of Conversus.

Valuation Risk
Investment valuations for which there is no readily available market, such as the illiquid assets in Conversus' portfolio, require estimates and assumptions about matters that are inherently uncertain. Given this uncertainty, the fair values of such investments as reflected in the estimated NAV of Conversus may not reflect the prices that would actually be obtained when such investments are sold.

13. Subsequent Events

In accordance with ASC 855-10, *Subsequent Events,* Conversus has evaluated subsequent events for recognition or disclosure through 23 July 2010, which was the date after which these combined financial statements were available to be issued.

On 7 July 2010, Conversus LP entered into a liquidity provider agreement with Amsterdams Effectenkantoor BV ("AEK") with respect to Conversus' common units listed on Euronext. Pursuant to the agreement, AEK will issue a continuous quote in the Euronext order book, in compliance with applicable laws.

On 23 July 2010, Conversus LP entered into an amendment of the Program. The amendment extends the maturity date of the Program to December 2014. The amended Program provides for maximum borrowings of $375.0 million through December 2013 and $200.0 million from January 2014 through December 2014. Conversus LP will pay LIBOR plus 2.95% on borrowed amounts and a commitment fee of 0.75% on undrawn amounts. The amended Program is subject to various covenants and conditions.

Financial Highlights

For the quarter and six months ended 30 June 2010
(US$ in thousands except for per unit amounts)

	Quarter ended 30 Jun 2010		Six months ended 30 Jun 2010	
Per Unit Operating Performance				
Net asset value per unit at beginning of period	**$ 23.79**		**$ 23.50**	
Increase / (decrease) from operating activities				
Net investment loss	(0.12)		(0.22)	
Net realized gains on investments	0.48		0.55	
Net change in unrealized depreciation on investments	0.01		0.33	
Total increase from operating activities	0.37		0.66

Net investment loss and expense ratios are presented on an annualized basis.

Beginning 1 July 2009, CAM voluntarily agreed to waive its right to 30% of the profits interest portion of its management fees. Absent this waiver, the percentage for management fees would have been approximately 1.24% and 1.27% on an annualized basis for the quarter and six months ended 30 June 2010, respectively.
