This Summary Note constitutes a summary note and, together with the Registration Document and the Securities Note (each as defined below), a prospectus (the “**Prospectus**”) for the purposes of Article 5 of Directive 2003/71/EC (the “**Prospectus Directive**”) for the purpose of giving information with regard to the Issuer and the Notes which, according to the particular nature of the Issuer and the Notes, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuer and of the rights attached to the Notes.

The Issuer accepts responsibility for the information contained in this Summary Note. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case), the information contained in this Summary Note, when read together with the Registration Document and the Securities Note, is in accordance with the facts and does not omit anything likely to affect the import of such information.

Written or oral requests for such documents should be directed to the Issuer at Foppingadreef 7, 1102 BD Amsterdam, The Netherlands, telephone number +31 20 501 3209.

This Summary Note and the Securities Note have each been filed with, and approved by, the *Autoriteit Financiële Markten* (the “**AFM**”) in its capacity as competent authority under the *Wet op het financieel toezicht* (Dutch Financial Supervision Act). The Base Prospectus was filed with the AFM and approved by it on 15 September 2008. The Registration Document was filed with the AFM and approved by it on the same date. Terms used but not defined herein shall have the meanings given to them in the Securities Note.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Summary Note, the Registration Document, the Securities Note and the relevant chapters of the Base Prospectus incorporated into the Securities Note and the Registration Document as described above, and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

This Summary Note (i) when read alone, is not intended to provide the basis of any credit or other evaluation and (ii) should not be considered as a recommendation by the Issuer that any recipient

of this Summary Note should purchase the Notes. Each investor contemplating purchasing the Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. This Summary Note does not constitute an offer or invitation by or on behalf of the Issuer to any person to subscribe for or to purchase the Notes.

Structured securities such as the Notes involve a high degree of risk and are intended for sale only to those investors capable of understanding the risk entailed in such instruments. Prospective purchasers of the Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risk and that they understand the nature of the Notes as an investment in the light of their own circumstances and financial condition. Prospective purchasers of the Notes should conduct their own investigations and, in deciding whether or not to purchase Notes, should form their own views of the merits of an investment related to the Notes based upon such investigations and not in reliance upon any information given in this Summary Note, the Securities Note (which incorporates by reference certain sections of Chapter 1 of the Base Prospectus), the Registration Document (which incorporates by reference Chapter 1 of the Base Prospectus) or the Base Prospectus. If in doubt potential investors are strongly recommended to consult with their financial advisers before making any investment decision.

The delivery of this Summary Note shall not in any circumstances imply that the information contained herein concerning the Issuer or the Notes is correct at any time subsequent to the date hereof. Investors should carefully review and evaluate, *inter alia*, the most recent financial statements of the Issuer when deciding whether or not to purchase the Notes.

Other than in the Netherlands the Issuer does not represent that this Summary Note may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer which would permit a public offering of the Notes or distribution of this document in any jurisdiction where action for that purpose is required, other than in the Netherlands. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this Summary Note nor any advertisement or other offering material may be distributed or published in any jurisdiction where such offer, sale, distribution and/or publication would be prohibited.

The distribution of this Summary Note and the offer or sale of the Notes may be restricted by law in certain jurisdictions. Persons into whose possession this Summary Note or the Notes come must inform themselves about, and observe any such restrictions. In particular, the restrictions set out in the section of Chapter 1 of the Base Prospectus (incorporated by reference into the Securities Note) headed "Subscription and Sale" on the distribution of the Base Prospectus and the offer or sale of Notes in the United States, the European Economic Area, Australia, Austria, Brazil, Chile, France, Hong Kong, India, Italy, Japan, Korea, Mexico, Singapore, Switzerland, The Netherlands, Norway and the United Kingdom and also apply to this Summary Note and the Notes.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States. Accordingly, the Notes may not be offered, sold, pledged or otherwise transferred within the United States or to or for the account or benefit of U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act and any applicable state securities laws.

The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission, any state securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or the adequacy of this Summary Note. Any representation to the contrary is a criminal offence in the United States.

Investing in the Notes involves risks. See Parts 1 and 2 of the “Risk Factors” section of Chapter 1 of the Base Prospectus (incorporated by reference in the Securities Note) and the “Risk Factors” section of this Summary Note for information on the risk factors to be taken into account when considering an investment in the Notes.

This Summary Note must be read as an introduction to the Prospectus and any decision to invest in the Notes should be based on a consideration of the Prospectus as a whole, including the documents incorporated by reference. Civil liability in respect of this Summary Note, including any translation thereof, will attach to the Issuer but only if this Summary Note is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus. Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor may, under the national legislation of the Member States of the European Economic Area, have to bear the costs of translating the Prospectus before the legal proceedings are initiated.

The Notes include other terms relevant to investors, including the following:

- certain dates for payment of principal on the Notes and determination of the Index Levels to which payments on the Notes are linked will be delayed if, among other things a Disrupted Day in respect of the Index (as defined in the “Terms and Conditions of the Notes” section of the Securities Note) occurs.

RISK FACTORS

Investing in the Notes involves risks. See Parts 1 and 2 of the “Risk factors” section of Chapter 1 of the Base Prospectus and the risk factors below for information on the risk factors to be taken into account when considering an investment in the Notes. Potential investors are strongly recommended to consult with their independent financial advisers before making any investment decision.

The Notes may not be a suitable investment for all investors

A prospective investor should conduct its own thorough analysis (including its own accounting, legal and tax analysis) prior to deciding whether to invest in the Notes. Any evaluation of the suitability for an investor of an investment in the Notes depends upon a prospective investor’s particular financial and other circumstances, as well as on the specific terms of the Notes. If a prospective investor does not have experience in financial, business and investment matters sufficient to permit it to make such a determination, the investor should consult with its independent financial adviser prior to deciding to make an investment as to the suitability of the Notes.

The Notes are complex financial instruments. A potential investor should not invest in the Notes unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor’s overall investment portfolio. Prospective investors risk losing their entire investment as a result of an Event of Default or part of it otherwise.

The Notes are perpetual investments

The Notes have no Maturity Date. Unless redeemed early, the Notes are perpetual investments. The redemption of the Notes on the Optional Redemption Date is at the sole and absolute discretion of the Issuer. There is no guarantee that the Issuer will redeem the Notes.

If a Noteholder wishes to realise their investment at other points in time, they will do so at their own risk by selling the Notes in the secondary market, provided that a secondary market exists. The Noteholder may receive a negative return on their investment.

The Optional Redemption Amount (in case of Optional Redemption) and the notional value of the Notes are linked to the performance of the underlying Index

The Optional Redemption Amount (in case of Optional Redemption) and the notional value of the Notes are linked to the performance of the underlying Index. The levels of the Index may go down as well as up throughout the life of the Notes.

Accordingly, before investing in the Notes, prospective investors should carefully consider the performance of the Index. Results of the Index achieved in the past are no guarantee of future performance. Prospective investors risk losing their entire investment as a result of an Event of Default or part of it otherwise.

No gross-up

All payments made by the Issuer in respect of the Notes shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. Noteholders will not be entitled to receive grossed-up amounts to compensate for any such tax, duty, withholding or other payment.

Limited liquidity of the Notes

Prospective investors should be aware that there is no assurance that a secondary market for the Notes will develop, and if a secondary market does develop, that it will provide the holders of the Notes with liquidity or that it will continue for the life of the Notes. Given that the Notes are perpetual investments, any investor in the Notes must be prepared to hold the Notes until redeemed early at the option and sole discretion of the Issuer. Investors wishing to on-sell Notes will do so at their own risk and the Issuer will not be responsible for any losses suffered by an investor due to the illiquidity of the Notes or otherwise. If any person begins making a market for the Notes it is under no obligation to continue to do so and may stop making a market at any time. Illiquidity may have a severely adverse effect on the market value of the Notes.
