The Royal Bank of Scotland plc

Schedule

Litigation – London Interbank Offered Rate (LIBOR)

Certain members of the Group have been named as defendants in a number of class actions and individual claims filed in the US with respect to the setting of LIBOR. It is possible that further claims may be threatened or brought in the US or elsewhere relating to the setting of interest rates or interest rate-related trading.

Investigations

LIBOR

The Group continues to co-operate fully with investigations by various governmental and regulatory authorities into its submissions, communications and procedures relating to the setting of LIBOR and other interest rates. The relevant authorities include, amongst others, the US Commodity Futures Trading Commission, the US Department of Justice (Fraud Division), the Financial Services Authority and the Japanese Financial Services Agency. The Group has dismissed a number of employees for misconduct as a result of its investigations into these matters.

The Group is also under investigation by competition authorities in a number of jurisdictions, including the European Commission, Department of Justice (Antitrust Division) and Canadian Competition Bureau, stemming from the actions of certain individuals in the setting of LIBOR and other interest rates, as well as interest rate-related trading. The Group is also co-operating fully with these investigations.

It is not possible to reliably measure what effect these investigations, any regulatory findings and any related developments may have on the Group, including the timing and amount of fines or settlements.

Technology incident

On 19 June 2012, the Group was affected by a technology incident, as a result of which the processing of certain customer accounts and payments were subject to considerable delay. The cause of the incident is being investigated by independent external counsel with the assistance of third party advisers, who have been instructed to carry out an independent review. The Group has agreed to reimburse customers for any loss suffered as a result of the incident and has made a provision of £125 million in the RBSG Interim Results 2012 for this matter. Additional costs may arise once all redress and business disruption items are clear and a further update will be given in the third quarter.

The incident, the Group's handling of the incident and the systems and controls surrounding the processes affected, are the subject of regulatory enquiries (both from the UK and Ireland) and the Group could become a party to litigation. In particular, the Group could face legal claims from those whose accounts were affected and could itself have claims against third parties.
