guaranteed as to payments of interest and principal by**

SNS COVERED BOND COMPANY B.V.

(incorporated under the laws of the Netherlands with limited liability
and having its statutory seat in Amsterdam, the Netherlands)

This document constitutes a base prospectus (the "**Base Prospectus**") within the meaning of Directive 2003/71/EC and any amendments thereto (the "**Prospectus Directive**") including Directive 2010/73/EU (the "**PD Amending Directive**"). This Base Prospectus has been approved by the Dutch Authority for the Financial Markets ("**Stichting Autoriteit Financiële Markten**", the "**AFM**"), which is the Dutch competent authority for the purpose of the Prospectus Directive and relevant implementing measures in the Netherlands, as a Base Prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in the Netherlands for the purpose of giving information with regard to the issue of bonds (the "**Covered Bonds**") under the Programme (as defined below) during the period of twelve months after the date hereof. This Base Prospectus will be published in electronic form on website www.snsbanknv.nl. This Base Prospectus is issued in replacement of a base prospectus dated 29 April 2014 as amended and supplemented, and accordingly supersedes any earlier base prospectus.

Under its €15,000,000,000 Covered Bond Programme (the "**Programme**") SNS Bank N.V. (the "**Issuer**" or "**SNS Bank**") may from time to time issue Covered Bonds denominated in any currency agreed between the Issuer and the relevant Dealer (as defined below), if any. Subject as set out herein, the maximum aggregate nominal amount of the Covered Bonds from time to time outstanding under the Programme will not exceed € 15,000,000,000 (or its equivalent in other currencies calculated as described herein) subject to any increase as described herein.

SNS Covered Bond Company B.V. (the "**CBC**") will as an independent obligation irrevocably undertake to pay interest and principal payable under the Covered Bonds pursuant to a guarantee issued under the Trust Deed (as defined below). The Covered Bonds will further be (indirectly) secured by a right of pledge (or such other security right as may be applicable) over the Transferred Assets (as defined below) vested by the CBC in favour of Stichting Security Trustee SNS Covered Bond Company (the "**Security Trustee**") and a right of pledge vested by the CBC in favour of the Security Trustee over all rights of the CBC under or in connection with the CBC Relevant Documents (as defined below). Recourse against the CBC under its guarantee will be limited to the Transferred Assets and the rights of the CBC under or in connection with the CBC Relevant Documents (the "**Security**").

The Covered Bonds may be issued on a continuing basis to one or more of the Dealers and any additional Dealer appointed in respect of Covered Bonds under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a "**Dealer**"). Covered Bonds may be distributed by way of a public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each relevant series of Covered Bonds (a "**Series**") (or tranche thereof (a "**Tranche**")) will be stated in the relevant final terms (the "**Final Terms**"). Notice of the aggregate nominal amount of Covered Bonds, interest (if any) payable in respect of Covered Bonds, the issue price of Covered Bonds and any other terms and conditions not contained herein which are applicable to the Covered Bonds will be set forth in the applicable Final Terms which, in respect to Covered Bonds to be listed and admitted to trading on the regulated market of the Luxembourg Stock Exchange and/or Euronext Amsterdam, as applicable, will be filed and delivered to the Luxembourg Stock Exchange and/or Euronext Amsterdam, as applicable, on or before the date of each issue of such Covered Bonds.

Application has been made for the Covered Bonds to be listed and admitted to trading on the official list of the Luxembourg Stock Exchange and/or Euronext Amsterdam, as the case may be, during the period of twelve (12) months from the date of this Base Prospectus and which listing will apply if so indicated in the Final Terms. In

addition, Covered Bonds issued under the Programme may be listed and admitted to trading on any other stock exchange or regulated market specified in the applicable Final Terms. The Issuer may also issue unlisted Covered Bonds under the Programme. The applicable Final Terms will state whether or not the relevant Covered Bonds are to be listed, quoted and/or traded and, if so, on or by which competent listing authority(ies) or stock exchange(s) and/or quotation system(s).

The Issuer has requested the AFM to provide the competent authority in Luxembourg with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with Chapter 5.1 of the Dutch Act on Financial Supervision ("*Wet op het financieel toezicht*", the "**Wft**") and related regulations which implement the Prospectus Directive in Dutch law ("**Notification**"). The Issuer may request the AFM to provide competent authorities in additional Member States within the European Economic Area (the "**EEA**") with a Notification.

The Issuer and the CBC may agree with any Dealer and the Security Trustee that Covered Bonds may be issued in a form not contemplated by the Terms and Conditions of the Covered Bonds set out herein, in which event a supplement to the Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Covered Bonds.

It is expected that each issue of a Series of Covered Bonds will, on issue, be assigned a rating equal to the rating of the then outstanding Covered Bonds. On the date of this Base Prospectus the outstanding Covered Bonds have an "Aaa" rating by Moody's Investors Service Limited ("**Moody's**") and an "AAA" rating by Fitch Ratings Limited ("**Fitch**") and the rating will be specified in the applicable Final Terms. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning Rating Agency. Whether or not each credit rating applied for in relation to a relevant Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies (as amended) (the "**CRA Regulation**") will be disclosed in the relevant Final Terms. For a discussion of some of the risks associated with an investment in the Covered Bonds, see Risk Factors herein. The Rating Agencies have been registered by the European Securities and Markets Authority as credit rating agencies in accordance with the CRA Regulation.

The Covered Bonds and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or the securities laws of any state of the U.S. or other jurisdiction. The securities may not be offered or sold within the U.S. or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state or local securities laws. Accordingly, the Covered Bonds are being offered, sold or delivered only to non-U.S. persons (as defined in Regulation S) outside the U.S. in reliance on Regulation S.

The Covered Bonds of each Tranche are in bearer form or in registered form. Bearer Covered Bonds will (unless otherwise specified in the applicable Final Terms) initially be represented by a global Covered Bond. Global Covered Bonds will be deposited on or about the issue date thereof (each an "**Issue Date**") either (i) with a common safekeeper or common depositary for Euroclear Bank S.A./N.V. ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") or (ii) with the *Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V.* ("**Euroclear Nederland**") and/or (iii) any other agreed clearance system. Registered Covered Bonds will be issued to each relevant holder by a registered covered bonds deed. See *Form of Covered Bonds*.

The Covered Bonds may be issued in a new global note form ("**NGN-form**") which will allow Eurosystem eligibility. This means that the Covered Bonds in NGN-form are intended upon issue to be deposited with one of the International Central Securities Depositories (the "**ICSDs**") as common safekeeper and does not necessarily mean that the Covered Bonds will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

For the page reference of the definitions of capitalised terms used herein see chapter 21 *Index of Defined Terms*.

In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Covered Bondholders, as the case may be, and the Issuer will be required to pay such additional amounts to cover such withholding or reduction to such Covered Bondholders or, if the Issuer so elects, it may redeem the Series affected. The CBC will not be required or liable to pay such additional amounts.

FATCA Withholding

Payments in respect of the Covered Bonds might be subject to any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof or any law implementing an intergovernmental approach thereto. Use of proceeds:

The net proceeds from each issue of Covered Bonds will be used by the Issuer for its general corporate purposes.

**SECURITY FOR THE
COVERED BONDS:**

Guarantee, Security, CBC:

Pursuant to a Guarantee issued under the Trust Deed, the CBC will as an independent obligation irrevocably undertake to pay interest and principal payable under the Covered Bonds. The obligations of the CBC under the Guarantee will constitute unsubordinated and unguaranteed obligations of the CBC, secured indirectly, through the Security Trustee, by (i) a first ranking undisclosed pledge (or such other security right as may be applicable) granted by the CBC to the Security Trustee over the Transferred Assets and (ii) a first ranking disclosed pledge by the CBC to the Security Trustee over the CBC's rights under or in connection with the CBC Relevant Documents.

Payments made by the CBC under the Guarantee (after the service of an Issuer Acceleration Notice or a CBC Acceleration Notice) will be made subject to, and in accordance with, the Post Issuer Acceleration Notice Priority of Payments or the Post CBC Acceleration Notice Priority of Payments, as applicable.

Parallel Debt Agreement:

On the Programme Date, the CBC and the Security Trustee have entered into a parallel debt agreement (the "**Parallel Debt Agreement**") for the benefit of the Covered Bondholders and the other Secured Parties under which the CBC, by way of parallel debt, undertakes to pay to the Security Trustee amounts equal to the amounts due by it to the Secured Parties, in order to create claims of the Security Trustee thereunder which can be validly secured by the rights of pledge created by any Security Trustee Receivables Pledge Agreement and any Security Trustee Rights Pledge Agreement.

**Security over Collection
Foundation Accounts balances:**

The Collection Foundation has granted a first ranking right of pledge on the balances standing to the credit of the Collection Foundation Accounts, in favour of the Security Trustee and the Previous Transaction Security Trustees jointly and a second ranking right of pledge to the CBC and the Previous Transaction SPVs jointly, both under the condition that future issuers (and any security trustees relating thereto) in securitisation transactions and future vehicles in conduit transactions or similar transactions (and any security trustees relating thereto) initiated by any Originator will after accession also have the benefit of such

right of pledge. Such rights of pledge have been notified to the Foundation Account Providers.

Interest under the Guarantee:

If the CBC is obliged to pay under the Guarantee, the CBC is obliged to pay any Guaranteed Amount (other than the Guaranteed Final Redemption Amount, see below) when Due for Payment.

Extendable obligations:

An Extended Due for Payment Date will apply in relation to each Series of Covered Bonds. In respect of each Series, if the CBC is obliged under the Guarantee to pay a Guaranteed Final Redemption Amount, then:

(a) the obligation of the CBC to pay the Guaranteed Final Redemption Amount shall be deferred to, and shall under the Guarantee be due on, the Extended Due for Payment Date, unless any amounts are available to the CBC for such purpose prior to such date and will be paid on the relevant Interest Payment Date or Extension Date; and

(b) the CBC shall under the Guarantee owe interest over the unpaid portion of the Guaranteed Final Redemption Amount.

Option to issue without extendable obligations:

The Issuer may at any time decide to issue Covered Bonds to which no Extended Due for Payment Date shall apply, provided that the Security Trustee consents thereto in writing. The Security Trustee is not required to consult with the Covered Bondholders prior to giving its approval. The Base Prospectus and the Relevant Documents will be amended accordingly, subject to Rating Agency Confirmation. A pre-maturity test will be included to ensure that sufficient liquidity is provided for the Covered Bonds if the Issuer's credit rating falls below a certain level.

Guarantee Support:

As consideration for the CBC issuing the Guarantee, and so as to enable the CBC to meet its obligations under the Guarantee, the Originators will transfer Eligible Assets to the CBC in accordance with the Guarantee Support Agreement. At the option of the Issuer, subject always to Rating Agency Confirmation, New Originators may accede to the Guarantee Support Agreement. The Issuer is obliged, and the CBC will use reasonable efforts, to ensure, among other things, that the Asset Cover Test is satisfied as at the end of each calendar month, as calculated on the immediately succeeding Calculation Date.

**THE MORTGAGE
RECEIVABLES:**

Mortgage Receivables:

Under the Guarantee Support Agreement, the Originators may assign any and all rights against a Borrower under Mortgage Loans ("**Mortgage Receivables**") of the relevant Originator against certain borrowers (the "**Borrowers**") and all claims which the Originators have or will have as beneficiary vis-à-vis an Insurance Company in respect of the

relevant Insurance Policy under which the relevant Originators have been appointed as first beneficiary ("*begunstigde*") in connection with a Mortgage Receivable (the "**Beneficiary Rights**"), subject to the fulfilment of certain conditions. The "**Mortgage Loans**" shall, after assignment of Eligible Receivables having taken place and to the extent not redeemed, retransferred, sold or otherwise disposed of, be the loans entered into by the relevant Originator and the relevant Borrowers set out in the relevant deed of assignment and pledge and will result from loans secured by a first-ranking Mortgage over (i) a real property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) a long lease ("*erfpacht*"), (together with real property and apartment rights, the "**Mortgaged Assets**"), situated in the Netherlands and entered into by the relevant Originator and the relevant Borrowers. See *Guarantee Support Agreement* below.

The Mortgage Loans have the characteristics that demonstrate the capacity to produce funds to service payments by the CBC under the Guarantee under the Covered Bonds.

Insurance Savings Participation Agreement:

The CBC has entered into an insurance savings participation agreement (the "**Insurance Savings Participation Agreement**") with the Insurance Savings Participant under which the Insurance Savings Participant will acquire participations under the condition precedent of an Assignment Notification Event in the relevant Mortgage Receivables resulting from any Insurance Savings Mortgage Loan, the "**Insurance Savings Mortgage Receivables**") equal to amounts of Savings Premium paid by the relevant Borrower to the Insurance Savings Participant in respect of a Savings Insurance Policy, with respect to SNS Bank, with the Savings Alternative. In the Insurance Savings Participation Agreement the Insurance Savings Participant has undertaken to pay to the CBC amounts equal to all amounts received as Savings Premium on the Savings Insurance Policies, with respect to SNS Bank, with the Savings Alternative. In return, the Insurance Savings Participant is entitled to receive the Insurance Savings Participation Redemption Available Amount from the CBC. The CBC will have the right, but not the obligation, to enter into an Insurance Savings Participation Agreement with any other Insurance Company which offers a Savings Insurance Policy connected to an Insurance Savings Mortgage Receivable which has been transferred to the CBC. See further *Participation Agreements* below.

Bank Savings Participation Agreement:

The CBC has entered into a bank savings participation agreement (the "**Bank Savings Participation Agreement**") with the Bank Savings Participants under which each Bank Savings Participant will acquire participations, under the condition precedent of an Assignment Notification Event in, with respect to each Bank Savings Participant, the relevant Mortgage Receivables in connection with the relevant Bank

Savings Mortgage Loans (the relevant "**Bank Savings Mortgage Receivables**") equal to amounts received as Bank Savings Deposit to the relevant Bank Savings Participant. In the Bank Savings Participation Agreement each Bank Savings Participant has undertaken to pay to the CBC amounts equal to all amounts received as Bank Savings Deposit. In return, the Bank Savings Participant is entitled to receive the Bank Savings Participation Redemption Available Amount from the CBC. See further *Participation Agreements* below.

Administration Agreement:

Under the terms of the Administration Agreement entered into on the Programme Date between the CBC, SNS Bank and the Security Trustee, as amended, restated and transferred from SNS Bank to the Administrator on 30 April 2014, the Administrator agrees to provide certain administration, calculation and cash management services for the CBC on a day-to-day basis, including without limitation, all calculations to be made pursuant to the Conditions in connection with the Covered Bonds. The Administrator is permitted to sub-contract its administration role to a third party administrator subject to any applicable conditions in the Administration Agreement.

Servicing Agreement:

Under the terms of a servicing agreement entered into on the Programme Date (the "**Servicing Agreement**") between the CBC, the Servicer and the Security Trustee, the Servicer agrees (i) to provide administration and management services in relation to the relevant Mortgage Loans on a day-to-day basis, including, without limitation, the collection of payments of principal, interest and all other amounts in respect of the relevant Mortgage Loans and the implementation of arrears procedures including, if applicable, the enforcement of mortgages; (ii) to communicate with the Borrowers and (iii) to investigate payment delinquencies. The Servicer is permitted to sub-contract its servicing role to its subsidiaries and, subject to any applicable conditions in the relevant Servicing Agreement to another third party servicer. If Substitution Assets are transferred to the CBC, the CBC will appoint a custodian to provide custody services in relation to such Substitution Assets.

GIC:

The CBC and the GIC Provider have entered into a floating rate guaranteed investment contract (the "**GIC**") on the Programme Date, under which the GIC Provider agrees to pay a guaranteed rate of interest determined by reference to EONIA less a margin of 0.15 per cent. (the "**GIC Margin**") on the balance standing to the credit of the GIC Accounts from time to time (the "**GIC Funds**") or such other interest rate as may be agreed between the GIC Provider and the CBC.

"**EONIA**" means for any day, the reference rate equal to the overnight rate as calculated by the Banking Federation of the European Union, if such day is a Business Day, on such

Business Day or, if such day is not a Business Day, on the first Business Day following that day, at or about 7 p.m. Brussels time on such Business Day and which appears for information purposes on the Reuters Screen EONIA (or its successor sources) (or, if not available, any other display page on any screen service maintained by any registered information vendor (including, without limitation, the Reuters Monitor Money Rate Service, the Dow Jones Telerate Service and the Bloomberg Service) for the display of the EONIA rate selected by the Administrator).

GIC Account:

The CBC shall maintain with the GIC Provider an account, or such replacement account with the consent of the Security Trustee (the "**GIC Account**" and together with any foreign currency account and any additional or replacement accounts, the "**GIC Accounts**") to which all amounts to be received in respect of the Transferred Asset and other amounts by the CBC are to be paid.

Collection Foundation Accounts

All payments made by the Borrowers in respect of the Mortgage Loans will be paid or have been directed to be paid into the Collection Foundation Accounts (as defined below).

Swaps:

There will be certain mismatches between the interest and principal and the currency thereof to be received on the Transferred Assets and the GIC Accounts and the amounts payable under the Covered Bonds. In order to mitigate these mismatches, the CBC may be required to enter into appropriate hedging arrangements. The CBC will swap the interest received on the Transferred Assets and the GIC Accounts to EURIBOR under the Total Return Swap.

In order to avoid any adverse rating action in relation to the Covered Bonds, the Issuer and the CBC entered into the Novation Agreements with each Standby Total Return Swap Provider to establish certain standby swap arrangements in relation to the Total Return Swap Agreement. Pursuant to the terms of the Novation Agreement, with effect from and including the Novation Trigger Date, the Total Return Swap Counterparty will transfer by novation to each Total Return Standby Swap Provider all of its rights and obligations under and in respect of a portion of the Total Return Swap Agreement, with the effect that the CBC, each Standby Total Return Swap Provider and the Security Trustee shall be deemed to enter into a new transaction and the rights and obligations of the CBC and the Total Return Swap Provider under the Total Return Swap Agreement will be released and discharged to the extent that the CBC and the relevant Standby Total Return Swap Provider have undertaken corresponding obligations to each other pursuant to the terms of the Standby Total Return Swap Agreements.

Payments under the Total Return Swap Agreement will be conditional upon the occurrence of an Assignment Notification Event or a Notice to Pay having been served. If

Portfolio Tests are implemented as an alternative to the Total Return Swap Agreement or any Standby Total Return Swap Agreement, then the Total Return Swap Agreement and the relevant Standby Total Return Swap Agreement may be terminated and, in the case of such an alternative hedging methodology, the CBC will be required to enter into such derivative transactions as are required to comply with such alternative hedging methodology. To enable the CBC to hedge its exposure arising from any Series (a) denominated in a currency other than euro or (b) denominated in euro but bearing non-EURIBOR interest SNS Bank will pursuant to the Swap Undertaking Letter be required to enter into (or procure a third party that is an Eligible Swap Counterparty to enter into) Interest Rate Swaps and Structured Swaps with the CBC in respect of such Series of Covered Bonds and the CBC has in relation to Series of Covered Bonds issued entered into Interest Rate Swap Agreements.

Management Agreements:

Each of the CBC, the Security Trustee and the Stichting Holding have entered into a management agreement (together the "**Management Agreements**") with the relevant Director, under which the relevant Director has undertaken to act as director of the CBC, the Security Trustee or the Stichting Holding, respectively, and to perform certain services in connection therewith.

Deposit Agreement:

Each of the CBC, the Security Trustee, the Issuer, the Transferors and a civil law notary have entered into a deposit agreement pursuant to which the Transferors will deposit escrow lists of loans with the notary, which lists contain the name and address of the Borrowers (the "**Deposit Agreement**") on the Programme Date as amended, supplemented, restated or otherwise modified.

Risk factors:

There are certain factors which may affect the ability of the Issuer and/or the CBC to fulfil its obligations under the Covered Bonds issued under the Programme. Prospective Bondholders should take into account the fact that the liabilities of the CBC under the Covered Bonds are limited recourse obligations and that the ability of the Issuer and/or the CBC to meet such obligations will be affected by certain factors. These include the fact that the Issuer's and/or the CBC's results can be adversely affected by (i) general economic conditions, (ii) competition, (iii) regulatory change, (iv) standard banking risks including changes in interest and foreign exchange rates, (v) operational, credit, market, liquidity, legal risk and (vi) certain factors which are material for the purpose of assessing the market risks associated with Covered Bonds issued under the Programme. In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Covered Bonds issued under the Programme (see in more detail *Risk Factors* below).

3. RISK FACTORS

The Issuer and the CBC believe that the following factors may affect their ability to fulfil their obligations under the Covered Bonds. Most of these factors are contingencies which may or may not occur and the Issuer and/or the CBC are not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risk associated with the Covered Bonds are also described below. The Issuer and the CBC believe that the factors described below represent the material risks inherent in investing in the Covered Bonds, but the inability of the Issuer or the CBC to pay interest, principal or other amounts on or in connection with the Covered Bonds may occur for other reasons not known to the Issuer nor the CBC or not deemed to be material enough. Neither the Issuer nor the CBC represents that the statements below regarding the risks of investing in any Covered Bonds are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Before making an investment decision with respect to any Covered Bonds, prospective investors should consult their own stockbroker, bank manager, lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Covered Bonds and consider such an investment decision in the light of the prospective investor's personal circumstances.

RISK FACTORS REGARDING THE ISSUER

The business of the Issuer is primarily concentrated in the Netherlands

The Issuer generates most of its income in the Netherlands and therefore is particularly exposed to the economic, political and social conditions in the Netherlands. Economic conditions in the Netherlands have been difficult and may be negatively influenced by conditions in the global financial markets and economy. Partly due to the recent economic crisis, growth of the Dutch gross domestic product ("GDP") has been subdued. Following a growth of 1.7 per cent. in 2011, GDP contracted by 1.1 per cent. in 2012 and the GDP contracted again by 0.7 per cent. in 2013 followed by a growth of 1.0 per cent. in 2014. Any deterioration or merely a long-term persistence of the difficult economic environment in the Netherlands could negatively affect the demand for products and services of the Issuer. In addition, the Issuer is exposed to the risk of a significant deterioration of the financial position of its customers which include small and medium enterprises ("SME") in the Netherlands.

The Issuer faces substantial funding and liquidity risk

The Issuer's funding strategy aims at optimising and diversifying the Issuer's funding sources in order to maintain the targeted long-term funding position, liquidity profile and compliance with regulatory requirements. The Issuer's primary sources of funding are customer deposits and wholesale funding.

Customer deposits are currently the main funding source of the Issuer. The amount of such deposits is generally volatile and future amounts cannot be predicted. The amount of mortgage loans on the Issuer's balance sheet is higher than the amount of customer deposits attracted. This has resulted in a certain dependency on wholesale funding in the money markets and capital markets including the use of securitisation of the mortgage loan portfolio and the issuance of covered bonds.

Good access to the money markets and capital markets may be necessary to finance the growth of the mortgage loan portfolio and to refinance all outstanding loans with a shorter maturity than the mortgage loans in which the money is invested. The access to the money markets and capital markets for wholesale funding may be affected by concerns about the credit strength of the Issuer, but may also be influenced, *inter alia*, by concerns about the market segments in which the Issuer is active, or by a general market disruption. Access to the markets may be further affected by the credit ratings of the Issuer. Depending on market conditions and credit ratings of the Issuer, the possibilities to access the capital markets for funding may be limited.

Liquidity risk is the risk that the Issuer has insufficient liquid assets available in the short or long term to meet its financial obligations, under normal circumstances or in times of stress, without incurring unacceptable costs or losses. Although in addition to customer deposits and wholesale funding the Issuer may have access to the European Central Bank (the "ECB") facilities, the sensitivity of the Issuer to this risk is substantial.

The Issuer is exposed to the level of interest rates

The level of interest rates, credit spreads and changes in prevailing interest rates and credit spreads (including changes in the difference between the levels of prevailing short- and long-term rates) could adversely affect the results of the Issuer.

The results of the Issuer's business are affected by the management of interest rate sensitivity. The composition of the assets and liabilities of the Issuer, and any maturity gap position resulting from that composition, causes the banking business' net interest income to vary with changes in interest rates. There can be no assurance that the Issuer will be able to successfully manage interest rate spreads or the potential negative impact of risks associated with sustained low interest rates. The results of the banking business of the Issuer are affected by the management of interest rate sensitivity. Further, a decrease in the general level of interest rates could affect the Issuer through, among other things, increased pre-payments on the loan and mortgage portfolio for instance as a result of low interest rates on saving accounts.

The Issuer is exposed to the risk of a decline and a high volatility in the securities markets and poor investment performance

The evolution and volatility of prices and indices of securities, both in terms of equity and fixed income, in which the Issuer invests, has a considerable impact on its investment income. Furthermore, securities and other financial markets can experience sustained periods of high volatility, unpredictable market movements, severe market dislocations and illiquidity or other liquidity disruptions. These market conditions can cause a reduction in the value of assets or collateral held by the Issuer, a decline in the profitability of certain assets, an increase in unrealised losses in the Issuer's various (asset) portfolios, a reduction in unrealised gains in the Issuer's various (asset) portfolios or in the demand for the products and services offered by the Issuer and may impede the Issuer's timely or cost-efficient access to funding on the capital markets.

In addition, financial markets are susceptible to severe events evidenced by rapid depreciation in asset values accompanied by a reduction in asset liquidity. Moreover, under these conditions market participants are particularly exposed to trading strategies employed by many market participants simultaneously and on a large scale, which may further exacerbate such rapid decreases in asset values, collateral or liquidity disruptions.

Since the start of the financial crisis in 2007, both the debt and the equity securities markets have been very volatile. Under these extreme conditions, funding transactions, as well as hedging and other risk management strategies may not be as effective at mitigating trading risks as they would be under more normal market conditions. The Issuer uses financial derivative measures as part of its risk management strategy and it may not be able to manage its exposures adequately through the use of such derivatives as a result of modelling, sensitivity analysis or other risk assessment method failures or as a result of appropriate derivative products not being available. Market conditions, and periods of high volatility can occur not only as a result of purely economic factors, but also as a result of war, acts of terrorism, natural disasters or other similar events outside the Issuer's control, please also see the risk factor "Catastrophic events, terrorist attacks and similar events could have a negative impact on the business and results of the Issuer" below. There is no assurance that market volatility will not result in a prolonged market decline, or that such market declines for other reasons will not occur in the future.

Severe market events have historically been difficult to predict and could lead to the Issuer realizing significant losses if extreme market events were to persist for an extended period of time. Therefore market volatility, liquidity disruptions or dislocations could have a material adverse effect on the Issuer's business, financial position and results of operations.

The Issuer is subject to currency-related risks

Currency risk exposure affects funding of the operations of the Issuer and part of its investment portfolios. To the extent these are not hedged or not hedged adequately, the Issuer is exposed to certain currency fluctuations between the euro and the U.S. dollar in particular, as well as other currencies, such as the Japanese yen, Hong Kong dollar, pound sterling and Australian dollar. The reporting currency of the Issuer is the euro. Non-euro income and expense items are translated into euro for consolidation of the profit and loss statement of the Issuer, on the basis of average exchange rates during the period. For the purposes of its consolidated balance sheet the

Issuer converts non-euro denominated assets and liabilities into euro at the exchange rate prevailing at the balance sheet date.

The Issuer is exposed to the risk of a downgrade of any of its credit ratings

Ratings in relation to the Issuer are described in the chapter headed 'SNS Bank N.V.', section 'Rating Agencies'. A downgrade of any of these ratings (for whatever reason) would result in higher funding and refinancing costs for the Issuer in the capital markets. Such downgrade may also affect or effectively limit access to the capital markets. In addition, a downgrade of any of the Issuer's ratings may limit its opportunities to operate in certain business areas and could have an adverse effect on the Issuer's image vis-à-vis the capital markets and its customers.

A significant portion of the results of the Issuer relates to its mortgage loan products

Mortgage loans constitute approximately 69.8 per cent. of the Issuer's total assets at year-end 2014. An economic downturn, stagnation or drop in property values, changes in or abolition of the tax deductibility of interest payments on residential mortgage loans in the Netherlands, increased interest rates or a combination thereof, could lead to a decrease in the production of new mortgage loans and/or increased default rates on existing mortgage loans. Further, a decrease in the general level of interest rates could affect the Issuer through, among other things, increased pre-payments on the loan and mortgage portfolio for instance as a result of low interest rates on saving accounts. Consequently prepayments on mortgage loans may be considered more beneficial to consumers than savings. Recently there has been a relatively high level of such prepayments. Also, fixation of lower margins for long interest rate periods on mortgage loans provided to customers may have a prolonged impact on the results of the Issuer.

The Dutch tax system allows borrowers to deduct, subject to certain limitations, mortgage interest payments for owner-occupied residences from their taxable income. The period allowed for is restricted to a term of 30 years. As of 1 January 2013, interest deductibility in respect of mortgage loans originated after 1 January 2013 is restricted and is only available in respect of mortgage loans which amortise in 30 years or less and are repaid on at least an annuity basis.

In addition to these changes, further restrictions on the interest deductibility have entered into force as of 1 January 2014. The tax rate against which the mortgage interest may be deducted will be gradually reduced as of 1 January 2014. The maximum interest deductibility for mortgage loans for tax purposes will decrease annually at a rate of 0.5 per cent. from the highest income tax rate of 52 per cent. (i.e., 51 per cent. in 2015) down to 38 per cent. in 2042.

The maximum permitted loan to value (**LTV**), currently at 103 per cent., will gradually be lowered until it reaches 100 per cent. in 2018 (i.e. 1 per cent. a year). It is too early to predict what the implications of these changes in tax deductibility will be. There is a trend within certain political parties in the Netherlands to limit the favourable tax treatment of mortgage debts, particularly for higher-income households. It is not clear if this will happen and, if so, when, but it cannot be ruled out. Changes in tax treatment could ultimately have an adverse impact on the ability of borrowers to pay interest and repay their mortgage receivables. In addition, changes in the deductibility of mortgage interest payments may lead to increased prepayments by borrowers on their mortgage loans or have an adverse effect on the value of the mortgaged assets.

A sharp increase in demands for mortgage loans may lead to a situation in which the Originators are unable to provide all requested loans due to funding and/or operational reasons. As a consequence, the Issuer may not be able to capitalise all business opportunities.

The Issuer faces substantial competitive pressures which could adversely affect its results of operations

There is substantial competition in the Netherlands for the types of products and services that the Issuer distributes or provides. Competition in the financial services industry is furthered by the high level of consolidation in the Netherlands in the markets where the Issuer operates. The Issuer faces competition from banking parties such as ING Bank N.V., ABN AMRO Bank N.V. and Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A. and from non-banking parties. If the Issuer is unable to offer competing and attractive products and services that are profitable, it may lose market share or incur losses on some or all of its activities. Consumer demand, technological changes, regulatory actions and other factors also affect competition.

Competitive pressures could result in increased pricing pressures, particularly as competitors seek to win market share, and may harm the ability of the Issuer to maintain or increase its market share and profitability.

The Issuer is exposed to financial risks, including counterparty exposure, and risks concerning the adequacy of its credit provisions

The Issuer is exposed to general credit risks, for example the Issuer is exposed to credit risks of borrowers. Third parties that owe the Issuer money, securities or other assets may not pay or perform under their obligations. These parties include customers (such as borrowers under loans granted), the issuers whose securities are being held by an entity within the Issuer's group, trading counterparties, counterparties under swaps and credit and other derivative contracts, clearing agents, exchanges, clearing houses, the Collection Foundation, the Foundation Account Providers and other financial intermediaries. These parties may default on their obligations to the Issuer or its subsidiaries due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons.

In addition, certain of the Issuer's financial products and services are distributed through third parties or form part of broader products and services sold by third parties. Any negative publicity in respect of such third parties or such broader products and services could result in significant damage to the Issuer's reputation, which could in turn greatly hinder the Issuer's ability to retain clients or compete for new business.

The business of the Issuer is also subject to risks that have their impact on the adequacy of its credit provisions. These provisions relate to the possibility that a counterparty may default on its obligations to the Issuer which arise from lending or other financial transactions. Depending on the actual realisation of such counterparty default, the current credit provisions may prove to be inadequate.

If future events or the effects thereof do not fall within any of the assumptions, factors or assessments used by the Issuer to determine its credit provisions, these provisions could be inadequate.

The Issuer manages the financial risks it is exposed to and has developed a policy framework in relation thereto. These risks are subject to defined limits and guidelines. Financial risks are measured periodically to ensure compliance with such limits and guidelines.

Rates and prices include a fee for expected risks, the cost of shareholders' equity and loan capital and management expenses. Examples of such price risks are the credit risk in a loan. The structure of the shareholders' equity and the funding also affect the theoretical pricing. The actual pricing towards clients is determined on the basis of the advice of pricing committees, with account being taken of market conditions, in addition to the theoretical price. However, the rates and prices issued by the Issuer are agreed on the basis of theoretical rates and, therefore, may be insufficient to cover the actual risk and consequently the Issuer may experience unanticipated losses.

The regulatory environment to which the Issuer is subject gives rise to significant costs and management time, and non-compliance could result in monetary and reputational damages

The Issuer conducts its business in an environment that is highly regulated by financial services laws and regulations, corporate governance and administrative requirements and policies. Supervisory authorities may impose restrictions and conditions on the Issuer, including but not limited to capital, liquidity, corporate governance requirements and behavioural requirements. Interpretation of requirements by supervisory authorities and courts may change over time.

When offering new products, the Issuer may become subject to other and additional legislation and regulatory requirements. The financial services industry continues to be the focus of significant regulatory scrutiny. This has led to a more intensive approach to supervision and oversight, increased expectations, enhanced requirements and enforcement, and an increasing frequency and amount of data requests and visits from competent supervisory authorities. Implementing and monitoring compliance with applicable requirements means that the Issuer must continue to have a substantial staff dedicated to these activities and to spend monetary and management resources and to create sufficient awareness with the business staff of the products and services the Issuer offers and the rules applicable to them. Furthermore, the Issuer will also need to continue monitoring compliance of products and services that the Issuer no longer offers, which may be more complex

than for products and services that are currently offered. If the Issuer is unable to commit sufficient resources for regulatory compliance, this could lead to delays and errors, and may force it to choose between prioritising compliance matters over administrative support for business activities, or may ultimately force the Issuer to cease the offering of certain products or services.

Any delays or errors in implementing regulatory compliance could lead to substantial monetary damages and fines, loss of significant assets, public reprimands, a negative effect on the Issuer's reputation, regulatory measures in the form of cease and desists orders, fines, increased regulatory compliance requirements or other potential regulatory restrictions on the Issuer's business, enforced suspension of operations and in extreme cases, withdrawal of licenses or authorisations to operate particular businesses, or criminal prosecution in certain circumstances. In addition to non-compliance by the Issuer itself, the Issuer may suffer negative consequences of non-compliance by its clients or any third parties. The Issuer may also suffer negative consequences of clients or any third parties operating businesses or schemes in violation of applicable rules and regulations whose activities the Issuer could be held to monitor and, where applicable, to denounce or to interrupt. The Issuer may be required to make greater expenditures and devote additional resources and management time to addressing these liabilities and requirements, which could have an adverse effect on the Issuer's business, financial position and results of operations.

As result of the introduction of the Single Supervisory Mechanism ("SSM") on 4 November 2014, the ECB has become the primary prudential supervisory authority of the Issuer. For certain matters the Issuer will remain subject to supervision by local supervisory authorities such as the Dutch Central Bank ("*De Nederlandsche Bank N.V.*", "**DNB**") and the AFM. The transition of prudential supervision from DNB to ECB may for the years to come have a significant impact on supervision of the Issuer. It cannot be excluded that the ECB, as the new prudential supervisory authority, will collect and adopt best practices in the Eurozone, which may impact and change local practices as they currently exist. This may result in a change in the interpretation of regulations. As the relationship between the Issuer and the ECB will likely be different from the Issuer's relationship with DNB, the Issuer may be forced to significantly invest in resources to familiarise the new supervisory authority with the Issuer's business and financial position and to adapt to the new supervisory approach.

The Issuer believes that oversight and scrutiny by supervisory authorities have increased significantly in recent years. This has in general led to more regulatory investigations and enforcement actions as well as an increase in the amount of fines against financial institutions. The last few years have seen a steep escalation in the severity of the terms which competent supervisory authorities and law enforcement authorities have required to settle legal and regulatory proceedings against financial institutions, with settlements including unprecedented monetary penalties as well as criminal sanctions. If this trend were to continue the negative effect to the Issuer of non-compliance could be more pronounced in the future than a similar event of non-compliance would have had in the past. Non-compliance with applicable regulation may also lead to civil liability towards affected clients and, increasingly, third parties.

The regulatory environment to which the Issuer is subject gives rise to significant legal and financial compliance costs and management time, which could have an adverse effect on the Issuer's business, financial position and results of operations.

The financial services industry is subject to intensive regulation. Major changes in laws and regulations as well as enforcement action could have a negative impact on the Issuer.

Since 2009, as many emergency government programs slowed or wound down, global regulatory and legislative focus has generally moved to a next phase of broader reform and a restructuring of financial regulation. Legislators and supervisory authorities are currently introducing and implementing a wide range of proposals that could result in major changes to the way the Issuer's operations are regulated and could have adverse consequences for its business, business model, financial position, results of operations, reputation and prospects. These changes could materially impact the profitability of the Issuer's businesses, the value of its assets or the collateral available for its loans, require changes to business practices or force the Issuer to discontinue businesses and expose the Issuer to additional costs, taxes, liabilities, enforcement actions and reputational risk and are likely to have a material impact on the Issuer. Recent and ongoing prudential, conduct of business and more general regulatory initiatives include, but are not limited to:

1. New regulatory capital requirements proposed by the Basel Committee on Banking Supervision (the "**Basel Committee**"), including its proposals set out in its paper released on 16 December 2010 (revised in June 2011) and press release of 13 January 2011 (the "**Basel III Final Recommendations**"), which are being implemented in the European Union through the CRD IV Directive and the CRD IV Regulation, known as CRR. The CRD IV Directive entered into force in the Netherlands on 1 August 2014, albeit that certain provisions will enter into effect at a later stage. The CRD IV Regulation entered into effect on 1 January 2014. On 22 December 2014, the Basel Committee published consultation documents for amendment of Basel III. Any amendment is likely to affect rules contained in CRD IV and/or the application of CRD IV and the rules and regulations based thereon.

CRD IV may result, *inter alia*, in the Issuer becoming subject to stricter capital and liquidity requirements and will also affect the scope, coverage, or calculation of capital. In addition, more stringent rules apply to instruments in order to constitute regulatory capital ("*toetsingsvermogen*"). The supervisory authorities could require the Issuer to take remedial action if it breaches any of the regulatory capital requirements. The remedial action could be to work closely with the authorities to protect customers' interests and to restore the Issuer's capital and solvency positions to acceptable levels. This may have a negative impact on the payments on the Covered Bonds.

In addition, at the end of 2014, the Basel Committee published for public consultation revisions to the standardised approaches for credit, operational and market risk, and the introduction of capital floors based on standardised approaches. Of these proposals, the introduction of the standardised credit risk RWA floor would have the most significant impact on the Issuer. The proposals for the new standardised credit risk RWA calculation rules include (i) introduction of new risk drivers, (ii) introduction of higher risk weights and (iii) removal of external ratings from the framework. In addition, the revisions are likely to require that banks which apply advanced approaches to risk categories, apply the higher of (i) the RWA floor based on (new) standardised approaches and (ii) the RWA floor based on advanced approaches in the denominator of their ratios. Although timing for adoption, content and impact of these proposals remain subject to considerable uncertainty, the implementation of the standardised RWA floors could have a significant impact on the calculation of the Issuer's parent company and its consolidated subsidiaries' risk weighted assets due to the substantial difference in RWA calculated on the basis of advanced approaches.

2. The Recast Deposit Guarantee Directive which will require the funding of the current Deposit Guarantee Scheme (both as defined in the risk factor "The Issuer's participation in Compensation Schemes may have a material adverse effect on its results of operations and financial condition." below) to be changed from an ex-post funded system to a partially ex-ante funded system. See also the risk factor "*The Issuer's participation in Compensation Schemes may have a material adverse effect on its results of operations and financial condition.*" below.
3. The European regulation establishing uniform rules and a uniform procedure for the resolution of banks and certain investment firms in the framework of the Single Resolution Mechanism (Regulation 806/2014) (the "**SRM**"), which was published in the Official Journal of the European Union on 30 July 2014 and entered into force on 19 August 2014, providing for a single resolution framework, a single resolution board ("**Resolution Board**") and a single resolution fund ("**Resolution Fund**").
4. The European Market Infrastructure Regulation ("**EMIR**") having introduced new obligations relevant for the Issuer, which are (i) central clearing for certain classes of OTC derivatives, (ii) the application of risk mitigation techniques for non-centrally cleared OTC derivatives and (iii) reporting of both exchange traded and OTC derivative transactions (see *Risks in relation to EMIR* below).
5. The Mortgage Credit Directive 2014/17/EU on credit agreements for consumers relating to residential immovable property adopted on 4 February 2014 (the "**Mortgage Credit Directive**") aiming to afford high level consumer protection throughout the EEA.

Adopted legislation, introduced by the Dutch government, banning referral fees relating to specific complex financial products and services, such as mortgages, reducing fee and commission income.

6. Restrictions applicable to the Dutch principal residence mortgage loan market for individuals, including a reduction in the maximum loan amount for government-guaranteed mortgage loans ("*Nationale Hypotheekgarantie*", "**NHG**"), a reduction of the maximum permissible amount of a mortgage loan relative to the value of the property and a reduction on tax deductibility of new mortgages loans, expected to put further downward pressure on the total outstanding volume of mortgages in the Netherlands which could decrease the size of the Issuer's mortgage portfolio and to have an effect on the house prices and the rate of economic recovery which may result in an increase of defaults, prepayments and repayments.

The mortgage lending rules and the restrictions to mortgage interest relief, applicable to the principal residence mortgage market, may have a particular impact on the Issuer's principal residence mortgage business. These measures might have a negative impact on the sale of the Issuer's principal residence mortgage products and therefore on the aggregate loan portfolio of the Issuer, on the interest margins that it is able to earn on new and existing principal residence mortgages, as well as on the ability of its clients to pay amounts due in time and in full.

7. A proposed new payment services directive ("**PSD II**") which may impose additional requirements on the Issuer with respect to payment services in the EEA and support the emergence of new players and the development of innovative mobile and internet payments in Europe.
8. A banking tax introduced by the Dutch government for all entities that are authorised to conduct banking activities in the Netherlands.
9. The revised EU Directive on Markets in Financial Instruments ("**MiFID**") and the accompanying regulation "**MiFIR**" (together "**MiFID II**"), which replaces, extends and improves existing European rules on markets in financial instruments, giving more extensive powers to supervisory authorities, increasing market infrastructure and reporting requirements, more robust investor protection, increasing both equity and non-equity market transparency, introducing a harmonised position-limits regime for commodity derivatives and introducing the possibility to impose higher fines in case of infringement of its requirements.
10. The European Commission ("**EC**") has published a proposal for a Directive for a common Financial Transactions Tax ("**FTT**") in Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia and Spain (the "**participating Member States**").

The proposed FTT has a very broad scope and could, if introduced in its current form, apply to certain dealings in the Covered Bonds (including secondary market transactions) in certain circumstances. Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Covered Bonds where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

Joint statements issued by participating Member States indicate an intention to implement the FTT by 1 January 2016. The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective Covered Bondholders are advised to seek their own professional advice in relation to the FTT.

11. A proposal adopted by the EC on 29 January 2014 for a regulation which would give banks' supervisors the power to require banks to separate certain potentially risky trading activities from their

deposit-taking business if the pursuit of such activities compromises financial stability, accompanied by a proposal for a regulation on reporting and transparency of securities financing transactions.

The tax regime applicable to the Issuer is to an extent based on the Issuer's interpretations of such laws and regulations. The Issuer cannot guarantee that such interpretations will not be questioned by the relevant authorities.

The timing and full impact of new laws and regulations, including the initiatives described above, cannot be determined yet and are beyond the Issuer's control. The introduction of these and other new rules and requirements could significantly impact the manner in which the Issuer operates, particularly in situations where regulatory legislation can interfere with or even set aside national private law. New requirements may adversely affect the Issuer's business, capital and risk management strategies and may result in the Issuer deciding to modify its legal entity structure, capital and funding structures and business mix or exit certain business activities altogether or determine not to expand in certain business areas despite their otherwise attractive potential.

The large number of legislative initiatives requires constant attention from the Issuer's senior management and consume significant levels of resources to identify and analyse the implications of these initiatives. The Issuer may have to adapt its strategy, operations and businesses, including policies, procedures and documentation, to comply with these new legal requirements. Especially in view of the volume of existing initiatives, it cannot be excluded that certain new requirements will not be implemented in a timely fashion or implemented without errors or in a manner satisfactory to the applicable regulatory authority, resulting in non-compliance and possible associated negative consequences. Additionally, the Issuer may be forced to cease to serve certain types of clients or offer certain services or products as a result of new requirements. Any of the other above factors, events or developments may materially adversely affect the Issuer's businesses, financial position and results of operations and prospects.

Capital and/or liquidity requirements may adversely affect the business of the Issuer

The Issuer is required by regulators to maintain adequate capital and liquidity levels, as such regulators may deem appropriate. Adequate capital and liquidity levels are also necessary for the Issuer's financial flexibility and to cope with adverse developments.

Changes to capital adequacy and liquidity requirements may require the Issuer to raise additional regulatory capital or hold additional liquidity buffers, for example because of different interpretations of or methods for calculating risk exposure amount, or because the Issuer does not comply with ratios and levels, or instruments and collateral requirements that currently qualify as capital or capital risk mitigating techniques no longer do so in the future. For example, there remains uncertainty regarding whether notes issued may or may not qualify as instruments for the purpose of complying with the minimum requirements for own funds and eligible liabilities ("MREL") under BRRD in the future. If the Issuer is unable to raise the requisite regulatory capital, it may be required to reduce its risk exposure amount, restrict certain activities or engage in the disposition of core and other non-core businesses, which may not occur on a timely basis or at prices which would otherwise be attractive to the Issuer.

As a result of stricter liquidity requirements or higher liquidity buffers, the Issuer may be required to alter its funding composition which may result in higher funding costs for the Issuer, and in having to maintain buffers of liquid assets which may result in lower returns than less liquid assets. Furthermore, if the Issuer is unable to adequately manage its liquidity position, this may prevent it from meeting its short-term financial obligations. In addition, if a net stable funding requirement or liquidity coverage ratio is implemented in the future, the Issuer might be required to attract additional stable sources of funding or hold a higher liquidity buffer, which may result in higher costs for the Issuer.

The above changes and any other future changes which are relevant for the Issuer's liquidity and capital position could have a material adverse impact on its financial position, regulatory capital position and liquidity position.

Proposals for resolution regimes may lead to fewer assets of the Issuer being available to investors for recourse for their claims, and may lead to lower credit ratings and possibly higher cost of funding

Dutch Intervention Act

Pursuant to banking legislation dealing with ailing banks (as implemented in the Wft), substantial powers are granted to DNB and the Dutch Minister of Finance enabling them to deal with, *inter alia*, ailing Dutch banks prior to insolvency. The legislation empowers DNB or the Minister of Finance, as applicable, to commence proceedings leading, *inter alia*, to:

- (i) transfer of all or part of the business (including deposits) of the relevant bank to a private sector purchaser;
- (ii) transfer of all or part of the business of the relevant bank to a "bridge bank"; and
- (iii) public ownership (nationalisation) of the relevant bank and expropriation of debt securities.

These powers (including the transfer of liabilities), if exercised with respect to the Issuer, may impact the Covered Bonds and will, subject to certain exceptions, lead to counterparties of the Issuer not being entitled to invoke certain events of default or set off their claims against the bank. Within the context of the resolution tools provided in the Dutch legislation, holders of debt securities of a bank subject to resolution could be affected by issuer substitution or replacement, transfer of debt, expropriation, modification of terms and/or suspension or termination of listings.

The national framework for intervention by DNB will be substantially amended by the law implementing the resolution framework set out in the BRRD and SRM (see below). However, the powers granted to the Dutch Minister of Finance under the Dutch legislation in relation to measures and expropriation of assets or securities issued by or with the consent of a financial firm ("*financiële onderneming*") or its parent, in each case if it has its corporate seat in the Netherlands, if in the Minister of Finance's opinion the stability of the financial system is in serious and immediate danger as a result of the situation in which the firm finds itself, are likely to remain. However, this seems to be incompatible with the SRM, which (i) provides for maximum harmonisation of the resolution tools with respect to failing banks, (ii) has direct effect and therefore prevails over Dutch law and (iii) grants exclusive power to the Resolution Board (and not to DNB or the Minister of Finance) to decide upon the resolution of significant banks. The explanatory memorandum to the law implementing the resolution framework set out in the BRRD and SRM finds a way around this issue by labelling those parts of the Dutch legislation in which the power to take measures and expropriation are laid down, as emergency legislation ("*staatsnoodrecht*"). However, the Explanatory Memorandum acknowledges that those parts of the Dutch legislation will in practice be of little or no importance for banks and groups of companies containing a bank due to the SRM's priority over Dutch law.

BRRD and SRM

The Bank Recovery and Resolution Directive ("**BRRD**") and the Single Resolution Mechanism Regulation ("**SRM Regulation**") provide for the European framework for the recovery and resolution of (amongst others) ailing banks, certain investment firms and their holdings companies.

The BRRD was adopted by the European Council on 6 May 2014 and the SRM Regulation was adopted on 15 July 2014. Member States should have implemented and applied the BRRD by 1 January 2015 (except for the bail-in tool which must be applied ultimately as of 1 January 2016). The SRM Regulation will be directly applicable in the Member States participating in the SSM and will to a large extent enter into force as of 1 January 2016. On 26 November 2015 the law to implement the BRRD and to facilitate the application of the SRM Regulation in Netherlands law entered into force.

The Issuer, as a bank established in a Member State participating in the SSM, will primarily be subject to the single resolution mechanism ("**SRM**") under the SRM Regulation. The BRRD, however, as to be implemented in Netherlands law, in addition provides for certain early intervention measures and for the powers of the competent resolution authority necessary to implement the decisions taken pursuant to the SRM Regulation. Although the SRM Regulation provides for the establishment of a European single resolution board (consisting of representatives of the ECB, the European Commission and the relevant national authorities) to be responsible for the effective and consistent functioning of the SRM (including the implementation of any resolution decisions), the Issuer, because it is a bank subject to the indirect supervision of the ECB, will in principle fall under the competency of the national resolution authority (i.e. DNB). In other words, the national resolution

authority will in principle be responsible for setting the level of the minimum requirement for own funds and eligible liabilities ("**MREL**"), writing down or converting relevant capital instruments, adopting resolution decisions and applying resolution tools in accordance with the resolution principles and in order to meet the resolution objectives.

The early intervention measures that may be imposed by the competent regulator in respect of the Issuer in the event its financial condition is deteriorating could pertain, amongst others, to a change of its legal or operational structure, the removal of (individuals within) senior management or the management body and the appointment of a temporary administrator to work together or replace such (individual within) senior management or management body. The national resolution authority may also under certain circumstances decide to write down or convert relevant capital instruments, including Common Equity Tier 1, Additional Tier 1 and Tier 2 instruments, in a certain order. If the issuer would be failing or is likely to fail and the other resolution conditions would also be met, the national resolution authority may decide to place the issuer under resolution. As part of the resolution scheme to be adopted by the national resolution authority it may decide to apply certain resolution tools and exercise its powers pursuant to the implemented BRRD in order to give effect to such resolution tools. The resolution tools under the single resolution mechanism include the sale of business tool, the bridge institution tool and the asset separation tool, each of which, in short, provides for a transfer of certain assets and/or liabilities of the institution under resolution to a third party. In addition, the single resolution mechanism introduces the bail-in tool which gives the national resolution authority the power to write down or convert into equity certain debt and other liabilities of the institution.

The SRM also requires banks to meet at all times a certain MREL, expressed as a percentage of the total liabilities and own funds. The competent resolution authority shall set a level of minimum MREL on a bank-by-bank basis based on assessment criteria to be set out in technical regulatory standards. We note that in addition hereto, the Financial Stability Board has developed proposals to enhance the total loss-absorbing capacity ("**TLAC**") of global systemically important banks in resolution. The FSB proposes minimum TLAC requirements to be set as a percentage of the loss-absorbing capital and debt against the balance sheet (both weighted and unweighted). It is unclear whether the TLAC will be adopted and, if so, in what form and when, and whether it will apply to the Issuer (see for the Financial Stability Board also risk factor The Financial Stability Board and additional governmental measures).

The resolution framework under the SRM and the BRRD purports, amongst others, to ensure the critical functionality of the relevant institution, to avoid significant adverse effects on the stability of the financial markets and to protect public funds. The SRM further introduces the single resolution fund ("**SRF**"), which for banks established in the members states participating in the SSM will replace the national resolution funds set up or to be set up further to the implementation of the BRRD. The SRF must be funded in order to ensure that the SRF has adequate financial resources to allow for an effective functioning of the resolution framework under the SRM. Similar to the national resolution funds under the BRRD, the SRF will be funded by ex-ante annual contributions from banks, such as the Issuer. For the SRF these will be calculated for each bank on the basis of their liabilities, excluding own funds and covered deposits, and adjusted for risk. The SRF will be built up over a period of eight years to reach a target level of at least 1 per cent. of the amount of covered deposits of all banks authorised in all the member states participating in the SSM.

It is possible that, with the implementation of the BRRD and the entry into force of the SRM Regulation, the relevant regulator or resolution authority may use its powers under the new regime in a way that could result in subordinated and/or senior debt instruments of the Issuers' absorbing losses. The use of certain powers pursuant to the SRM and BRRD could negatively affect the position of the Covered Bondholders and the credit rating attached to debt instruments then outstanding and could result in losses to Covered Bondholders, in particular if and when any of the above proceedings would be commenced against the Issuer. These measures could increase the Issuer's cost of funding and thereby have an adverse impact on the Issuer's financial position and results of operation. In addition, there could be amendments to the SRM and BRRD, which may add to these effects. Covered bonds should normally be exempted from the applicability of the write-down and conversion powers described above, however this exemption does not apply if and to the extent the aggregate Principal Amount Outstanding of the Covered Bonds would exceed the value of the collateral available to secure such Covered Bonds through the Guarantee and the Security. Therefore, it is likely that Covered Bonds issued under this programme are exempted. In addition, the resolution framework as described above provides for certain

safeguards against a partial transfer and the exercise of certain resolution powers in respect of covered bonds, which ensures that rights arising out of covered bonds will not be affected by such partial transfer or exercise of such resolution power. However, it is unclear if and to which extent some of the rules may be applied, and to what extent the safeguards apply, to covered bonds. This will to a certain extent also be subject to future Level II-legislation to be adopted by European legislators and regulatory authorities on the scope and interpretation of certain aspects of the BRRD and the SRM.

The Issuer is unable to predict what effects, if any, the BRRD and SRM Regulation may have on the financial system generally, the Issuer's counterparties, or on the Issuer, its operations and/or its financial position or the Covered Bonds.

State Aid

On 10 July 2013, the EC announced the adoption of its temporary state aid rules for assessing public support to financial institutions during the crisis (the "**Revised State Aid Guidelines**"). The Revised State Aid Guidelines impose stricter burden-sharing requirements, which require banks with capital needs to obtain additional contributions from equity holders and capital instrument holders before resorting to public recapitalizations or asset protection measures. The EC has applied the principles set out in the Revised State Aid Guidelines from 1 August 2013. In these guidelines, the EC has made it clear that any burden sharing imposed on subordinated debt holders will be made in line with principles and rules set out in BRRD.

The Dutch legislation, BRRD, SRM and the Revised State Aid Guidelines may increase the Issuer's cost of funding and thereby have an adverse impact on the Issuer's funding ability, financial position and results of operations. In case of a capital shortfall, the Issuer would first be required to carry out all possible capital raising measures by private means, including the conversion of junior debt into equity, before one is eligible for any kind of restructuring State aid.

The Issuer is exposed to regulatory scrutiny and potentially significant claims for violation of the duty of care owed by it to clients and third parties.

Due to their position in society ("*maatschappelijke functie*") and specific expertise, financial institutions in the Netherlands owe a duty of care ("*zorgplicht*"). Financial institutions must also comply with duty of care rules in Dutch law, which includes provisions on client classification, disclosure requirements and know-your-customer obligations. Pursuant to the General Banking Conditions ("*Algemene Bankvoorwaarden*") used by Dutch banks, a bank must always act in accordance with its duty of care, irrespective of whether the service or product is sold to a professional client or a non-professional client. The duty of care does not always end at the moment when the client has purchased a given product or service, but the financial institution may have to take action upon (known) changes in circumstances affecting the client, in particular if the product or service has a long life. The scope of the rules and standards referred to above differs depending on the type of service rendered or product sold, and the nature of (the activities of) the clients and third parties affected. If a duty of care is violated, claims may be based on general principles of contract, tort or securities law, including for violation of standards of reasonableness and fairness, error, wrongful treatment or faulty due diligence. Actions may be brought individually by persons that suffered losses or damages, or on behalf of a large number of – sometimes initially unnamed persons – in class action style proceedings. Proceedings may be brought in court and before the Dutch financial institute for out of court settlement of financial disputes "**Kifid**" ("*Klachteninstituut Financiële Dienstverlening*").

A number of proceedings have been initiated against the Issuer for violation of its duty of care. Also, a number of class action groups are actively soliciting plaintiffs for mass litigation proceedings against financial institutions in general. Accordingly, there can be no assurance that additional proceedings will not be brought. Current proceedings are still pending and their outcome is uncertain, as is the timing of reaching any finality on these legal claims and proceedings. These uncertainties are likely to continue for some time. As a result, although the consequences could be substantial for the Issuer, with a potentially material adverse effect on the Issuer's reputation, results of operations, financial position and prospects, it is not possible to reliably estimate or quantify the Issuer's exposure at this time.

European and national regulations, for example, increasingly require financial institutions to provide elaborate disclosure to clients on services and products, such as through the proposed key investor information document,

to permit clients to more reliably assess the service or product and to enable them to compare it with similar services or products offered by other providers. Increased price transparency rules have entered into force or are envisaged by proposed European regulations for various services and products, such as those based on MiFID II. In the Dutch market, the AFM and Dutch banks have agreed upon providing (non-professional) clients increased price transparency as of 1 January 2015 in anticipation of similar rules set forth in MiFID II. These rules impose obligations on financial institutions to make clear to potential clients what a service or product costs and when prices may be changed.

After the global financial crisis, the duty of care standards applicable to financial institutions have become more stringent as a result of new regulations and resulting from a more expansive interpretation of existing rules and standards by courts and supervisory authorities. The Issuer expects these trends to continue.

Where in the past the duty of care was held to apply predominantly to clients, the application of this standard has on the basis of case law been extended more broadly for the benefit of third parties that suffer damages inflicted by clients of the financial institution. In these cases, courts held, for example, that in certain circumstances financial institutions may be expected to monitor activities of their clients, denouncing or even halting any suspected illegal activity.

The developments described above could have substantial consequences for the Issuer, including an increase in claims by customers and increased costs and resources. Also, it cannot be excluded that additional sector-wide measures will be imposed by supervisory authorities or the legislator which can have a negative impact on the Issuer. All these developments may have a material adverse effect on the Issuer's business, reputation, results of operations, financial position and prospects.

The Issuer's participation in Compensation Schemes may have a material adverse effect on its results of operations and financial condition.

In the Netherlands and other jurisdictions deposit guarantee schemes and similar funds ("**Compensation Schemes**") have been implemented from which compensation may become payable to customers of financial institutions in the event the financial institution is unable to pay, or unlikely to pay, claims against it. In many jurisdictions these Compensation Schemes are funded, directly or indirectly, by financial institutions which operate and/or are licensed in the relevant jurisdiction. As a result of the increased number of bank failures, in particular since the fall of 2008, the levies in the industry may continue to rise as a result of the Compensation Schemes. In particular, the Issuer is a participant in the Dutch Deposit Guarantee Scheme ("*Depositogarantiestelsel*", the "**Deposit Guarantee Scheme**"), which guarantees an amount of EUR 100,000 per person per bank (regardless of the number of accounts held). The costs involved with making compensation payments under the Deposit Guarantee Scheme are allocated among the participating banks by DNB, based on an allocation key related to their market shares with respect to the deposits protected by the Deposit Guarantee Scheme. The ultimate costs to the industry of payments which may become due under the Compensation Schemes remain uncertain although they may be significant and the associated costs to the Issuer may have a material adverse effect on its results of operations and financial condition.

On 16 April 2014, the (recast) EU Directive on deposit guarantee schemes (2014/49/EU) (the "**Recast Deposit Guarantee Directive**") was adopted. Pursuant to the Recast Deposit Guarantee Directive, the Deposit Guarantee Scheme changes from an ex-post scheme, where the Issuer contributes after the failure of a firm, to an ex-ante scheme where the Issuer and other financial institutions will pay risk-weighted contributions into a fund to cover future drawings under the Deposit Guarantee Scheme. The fund is expected to grow to a target size of 0.8 per cent. of all deposits guaranteed under the Deposit Guarantee Scheme. The target size should be reached by 2024. The costs associated with potential future ex-ante contributions are today unknown, and will depend on the methodology used to calculate risk-weighting, but may be significant. The Recast Deposit Guarantee Directive has been implemented in the Netherlands on 26 November 2015.

The Issuer is subject to stress tests

The banking sector, including the Issuer, is subject to periodic stress testing in respect of the resilience of banks to adverse market developments. Such stress tests are initiated and coordinated by the European Banking Authority ("**EBA**"). Stress tests and the announcements of their results by supervisory authorities can destabilise the banking or financial services sector and lead to a loss of trust with regard to individual banks or financial

services sector as a whole. The outcome of stress tests could negatively impact the Issuer's reputation, financing costs and trigger enforcement action by supervisory authorities. The outcome of stress tests could also result in the Issuer having to meet higher capital and liquidity requirements, which could have a negative impact on the Issuer's business, results of operations, profitability or reputation. In addition, stress tests could divulge certain information that would not otherwise have surfaced or which until then, the Issuer had not considered to be material and worthy of taking remedial action on. This could lead to certain measures or capital and funding requirements by supervisory authorities being imposed or taken, which could have a negative impact on the Issuer's business, results of operations, profitability or reputation.

The Issuer is subject to changes in financial reporting standards or policies which could materially adversely affect the Issuer's reported results of operations and financial condition

The Issuer's consolidated financial statements are prepared in accordance with IFRS as adopted in the EU, which is periodically revised or expanded. Accordingly, from time to time the Issuer is required to adopt new or revised accounting standards issued by recognised bodies, including the International Accounting Standards Board ("IASB"). It is possible that future accounting standards which the Issuer is required to adopt, or as a result of choices made by the Issuer, could change the current accounting treatment that applies to its consolidated financial statements and that such changes could have a material adverse effect on the Issuer's reported results of operations and financial condition and may have a corresponding impact on capital ratios.

The Issuer is exposed to risks of damage to its reputation

The Issuer is exposed to the risk that, among other things, litigation, employee misconduct, operational failures, outcome of current and future investigations by regulatory authorities and press speculation and the possible negative publicity resulting therefrom, whether or not founded, will harm its reputation. The reputation of the Issuer could also be harmed if products or services developed or recommended by it do not perform as expected.

Negative publicity could, for example, be based on allegations that the Issuer does not or does not fully comply with regulatory requirements or anti-money laundering or bribery rules, or could result from negative publicity about a third party linked to the Issuer (such as an intermediary or a partner) or about politically exposed persons in the customer base of the Issuer. Furthermore, negative publicity could result from failures in the information technology systems of the Issuer, loss of customer data or confidential information, or failure in risk management procedures. Negative publicity could also, but not exclusively, result from any misconduct or malpractice relating to intermediaries, business promoters or third party managers linked to the Issuer. For example, certain of the financial products and services of the Issuer and its subsidiaries are distributed through third parties or form part of broader products and services sold by third parties. Any negative publicity in respect of such third parties or such broader products and services could also have negative consequences for the Issuer.

Any resulting damage to the reputation of the Issuer, in particular with a view to its focus on retail and SME customers and the concentration of its business in the Netherlands, could cause disproportionate damage to its business, regardless whether the negative publicity is factually accurate. Negative publicity could also be repeated by third parties, which could damage the reputation of the Issuer further.

Any damage to the reputation of the Issuer could cause existing customers to withdraw their business from the Issuer and potential customers to be reluctant or elect not to do business with the Issuer. Furthermore, negative publicity could result in greater regulatory scrutiny and influence market or rating agency perception of the Issuer, which may make it more difficult for the Issuer to maintain its credit ratings.

Litigation or other proceedings or actions may adversely affect the business, financial condition and results of operations of the Issuer

The Issuer faces substantial legal risks in the conduct of its business. In the Netherlands, the number and size of claims that are the subject of litigation, regulatory proceedings and other adversarial proceedings (including, without limitation, class actions) against financial institutions are increasing. These legal risks could potentially involve, but are not limited to, disputes concerning violation of duty of care, the products and services in which the Issuer or any of its subsidiaries acts as principal, intermediary or otherwise. Increasingly, financial institutions are held liable by customers for actions of intermediaries even if there has been little to no control over the actions of such intermediaries. Companies in the Issuer's industry are increasingly exposed to collective claims (with or without merit) from groups of customers or consumer organisations seeking damages for an

unspecified or indeterminate amount or involving novel legal claims. Such claims may also be initiated against banks which have acted as intermediary for the sale of products of other companies, including unit-linked products (commonly referred to in Dutch as "*beleggingsverzekeringen*") (see also *Risks related to offering of Investment-based Mortgage Loans and Life Insurance Policies or Savings Insurance Policies with the Investment Alternative* below).

Following nationalisation (see the chapter 'SNS Bank N.V.' below), the Minister of Finance filed a proposal with the Enterprise Chamber of the Amsterdam Court of Appeal (the "**Enterprise Chamber**") to establish that no compensation is due for damages in connection with expropriated securities and capital components in the Issuer. Various original holders of expropriated securities and capital components objected against this proposal. In the event that the Enterprise Chamber rules that compensation is due, this compensation will be paid by the Dutch State. Further, various original holders of expropriated securities and capital components have initiated or could initiate legal proceedings against, amongst others, the Issuer, in view of compensation for alleged damages as a result of the expropriation. Currently, it is not possible to make an estimate of the probability that (possible) legal proceedings of original holders or other parties affected by the nationalisation may result in liability, or the level of the financial impact on the Issuer. For this reason, at 30 June 2015 no provisions have been made in respect of possible legal actions by holders concerning the expropriated securities and capital components and other affected parties.

As the outcomes of possible legal proceedings cannot be predicted with certainty, it is not possible to rule out that a negative outcome may have a material negative financial impact on the capital position, results and/or cash flows of the Issuer. It is inherently difficult to predict the outcome of many of the pending or future claims, regulatory proceedings and other adversarial proceedings involving the Issuer. The costs to defend future actions may be significant. There may also be adverse publicity associated with litigation that could decrease customer acceptance of the Issuer's services, regardless of whether the allegations are valid or whether the Issuer or any of its subsidiaries is ultimately found liable. As a result, litigation may adversely affect the Issuer's business, financial condition and results of operations (see also the risk factor '*The Issuer is exposed to risks of damage to its reputation*' and the paragraphs '*Legal proceedings*' in the chapter 'SNS Bank N.V.').

The Issuer may be exposed to failures in its risk management systems

The Issuer invests substantial time and effort in its strategies and procedures including statistical models, scenario analyses and stress tests for managing not only credit risk, but also other risks, such as strategic risk, market risk, liquidity risk, operational risk, reputation risk, legal risk, compliance risk, capitalisation risk and reporting risk. These strategies and procedures could nonetheless fail or not be fully effective under some circumstances, particularly if the Issuer is confronted with risks that it has not fully or adequately identified or anticipated. Some of the methods of the Issuer for managing risk are based upon observations of historical market behaviour. Statistical techniques are applied to these observations in order to arrive at quantifications of some of the risk exposures of the Issuer. These statistical methods may not accurately quantify the risk exposure of the Issuer if circumstances arise which were not observed in its historical data. For example, as the Issuer offers new products or services, the historical data may be incomplete or not accurate for such new products or services. As the Issuer gains a more complete and accurate set of data over time, it may need to make additional provisions.

If circumstances arise which the Issuer did not identify, anticipate or correctly evaluate in developing its statistical models, scenario analyses and stress tests its losses could be greater than the maximum losses envisaged by it. Furthermore, the quantifications do not take all risks or market conditions into account. If the measures used to assess and mitigate risks prove insufficient, the Issuer may experience unanticipated losses.

The Issuer is exposed to the risk of ineffective systems and processes, and interruption, failure or breach thereof

The Issuer relies heavily on its operational processes, and communication and information systems in particular to conduct its business. Even with the back-up recovery systems and contingency plans that are in place, the Issuer cannot ensure that interruptions, failures or breaches in security of these processes and systems will not occur or, if they do occur, that they will be adequately addressed. Any such interruptions, failures or breaches, even for a limited period of time, could result in, for example:

1. interruptions in the services offered or information provided to customers, or inability to serve customers' needs in a timely fashion;
2. interruptions or errors in management information and/or information reported to supervisory authorities;
3. a violation of applicable regulations;
4. inability to identify in time or at all, inadequate, fraudulent, negligent and/or unauthorised dealings by employees of the Issuer or third parties, or telecommunication connection failures or hacking of the website portal of the Issuer or other cybercrime activities against the Issuer or its clients; and
5. considerable costs in terms of, for example, information retrieval and verification.

The business operations of the Issuer are also vulnerable to interruption from fire, flood, bomb threats, explosions or other forms of terrorist activity and natural and man-made disasters. The same may apply for third parties on which the Issuer depends. Furthermore, the Issuer cannot ensure that interruptions, failures or breaches of its communication and information systems as a result of external fraud will not occur or, if they do occur, that they will be adequately addressed.

While the Issuer manages its operational risks, these risks remain an inherent part of all of the Issuer's businesses

The operational risks that the Issuer faces include the possibility of inadequate or failed internal or external processes or systems, human error, regulatory breaches, employee misconduct or external events such as fraud. These events may result in financial loss and may harm the reputation of the Issuer. Cybercrime risk is also a relevant and ongoing threat that may lead to an interruption of services to customers, loss of confidential information or erosion of trust and reputation. Additionally, inability to retain and attract key personnel could adversely affect its operations and results. The Issuer attempts to keep operational risks at appropriate levels by maintaining a well-controlled environment in light of the characteristics of its business, the markets and the regulatory environments in which it operates. While these control measures mitigate operational risks, they do not eliminate them.

Risks related to the disentanglement of SNS Bank N.V. from SNS REAAL N.V.

The Dutch State holds various stakes in Dutch financial institutions via *Stichting administratiekantoor beheer financiële instellingen* (NL Financial Investments, "NLFI"). Until 30 September 2015 the Issuer was wholly owned by SNS REAAL N.V. ("SNS REAAL", which was renamed to SRH N.V. on 30 September 2015), which is wholly owned by NLFI. Since 1 October 2015 the Issuer is a wholly owned subsidiary of SNS Holding B.V., which is also wholly owned by NLFI. Until the acquisition by Anbang Insurance Group as communicated in a press release by SNS REAAL on 26 July 2015, VIVAT N.V. (formerly REAAL N.V., "VIVAT") also was a wholly owned subsidiary of SNS REAAL and consequently a group company of the Issuer. The disentanglement of the various parties is described in more detail in the section *Sale of VIVAT* of this Base Prospectus.

Prior to the disentanglement, the Issuer and REAAL N.V. could benefit from synergy advantages including cross selling of products and clients. One of the consequences of the disentanglement may be that such advantages will no longer exist.

On 18 December 2013, SNS REAAL issued a press release relating to the decision of the European Commission ("EC") on nationalisation measures in support of SNS REAAL. Since the disentanglement, the Issuer continues to be subject to various restrictions, limitations and undertakings in light of the EC's decision, including to the extent currently material for the Issuer, an acquisition ban, an advertising restriction and a ban on commercial aggressive practices. The Issuer cannot accurately predict whether any such restrictions and limitations will have a negative effect on its business or financial flexibility.

Risks related to the potential divestment

It is expected that the Issuer will be divested in due course and that the Minister of Finance will make statements in relation thereto in the course of 2016 after having received advice from NLFI. A divestment could result in a change to the strategy, management and risk profile of the Issuer. There can be no assurance that a divestment would not adversely affect the Issuer's credit rating, the ability of the Issuer to effectively conduct its business or to satisfy its obligations under the Covered Bonds. In addition, a change of ownership of the Issuer could result in key contracts being terminated by the counterparties to such contracts (including pursuant to

termination rights that are exercisable upon such a change in ownership), which could give rise to material disruptions to the Issuer's business, additional costs to renegotiate those contracts, difficulties in managing its operations, and adverse impacts on the Issuer's customers. As a result of these effects, the eventual change in ownership could have a material adverse effect on the Issuer's business, revenues, results of operations, financial position and prospects.

The Issuer has issued guarantees

The Issuer has provided guarantees as referred to in Book 2, Section 403 of the Dutch Civil Code (the "**403-guarantee**") (exemption from filing and publishing financial statements).

The Issuer has issued 403-guarantees for ASN Bank N.V., RegioBank N.V., Pettelaar Effectenbewaarbedrijf N.V., SNS Mortgage Receivables B.V., SNS Global Custody B.V., Holland Woningfinanciering N.V., and SNS Securities N.V.

In the 403-guarantee the Issuer declares itself to be jointly and severally liable for the obligations of the relevant subsidiary resulting from legal acts executed by it. If enforced in accordance with its terms, the Issuer may be held liable under these guarantees and therefore may have to pay to that creditor of the relevant subsidiary.

On 7 August 2014, SNS REAAL, the former holding company of the Issuer, withdrew the 403-guarantee for the Issuer. Any remaining liabilities on the basis of this 403-guarantee prior to 7 August 2014 will remain in full force and effect until SNS REAAL terminates this remaining liability in accordance with the relevant statutory proceedings for such termination. For the avoidance of doubt, Covered Bondholders will therefore not be able to invoke a claim against SNS REAAL on the basis of a 403-guarantee with respect to a claim of such Covered Bondholder against the Issuer as these have been issued after the date of withdrawal of the 403-guarantee.

Following the transfer of the shares of SNS Property Finance B.V. (renamed to Propertize B.V., "**Propertize**") via the Dutch State to NLFI on 31 December 2013, the Issuer withdrew the 403-guarantee for Propertize on 31 December 2013. It also terminated the remaining liability pursuant to Article 2:404 of the Dutch Civil Code to. The Issuer also withdrew the 403-guarantees for four subsidiaries of Propertize on 31 December 2013, and terminated the remaining liability. The Issuer also issued separate guarantees to a number of counterparties of Propertize in the past, certain of which are still outstanding.

The 403-guarantee and remaining liability was irrevocably terminated for all creditors of Propertize, with the exception of two creditors of Propertize. They objected to the termination of the remaining liability of the Issuer during the objection period. On 9 December 2015 the Enterprise Chamber of the Court of Appeal in Amsterdam ruled that the 403-guarantee issued by the Issuer may not be withdrawn against these two creditors. Consequently, the Issuer will remain liable only to the two creditors which have objected to the withdrawal of the 403-guarantee and/or termination of the remaining liability.

Given (i) that Propertize was adequately capitalized at the time of the share transfer and (ii) the statements of Propertize in October 2015 on its financial position (in connection with the announcement of the start of its sales process), the Issuer expects Propertize to be able to meet its obligations towards these creditors. Consequently the Issuer deems the chance that the 403-guarantee will be invoked limited. However, if the Issuer is requested to pay under the 403-guarantee, it can take recourse against Propertize.

Some counterparties of Propertize who conduct legal proceedings against Propertize have thereby also arraigned SNS REAAL and/or SNS Bank. The legal basis of this is unclear and SNS Bank considers the potential success of these claims against SNS Bank to be limited. No specific agreements were made about these claims upon the transfer of Propertize on 31 December 2013. See also section *SNS Bank N.V. under Legal Proceedings - Guarantees pursuant to section 2:403 of the Dutch Civil Code for Propertize et al.*

The Issuer's extensive network of intermediaries is an important distribution channel and the Issuer may be unable to maintain a competitive distribution network

The Issuer uses a variety of distribution channels in the Netherlands for the marketing and offering of its products and services, including its network of branches, the internet, call centres, intermediaries and partnerships (special distribution).

A substantial part of the Issuer's business originates from distribution of its products and services by intermediaries who may also offer competitors' products and services. As a result, the success of the Issuer through these distribution channels depends on the preferences of these intermediaries for the products and services of the Issuer. Intermediaries' preferences are mainly determined by product quality, the services offered to customers and the support services. In light of current legislation, the level of compensation has become a less distinct feature for the preferences of intermediaries. The Issuer may not succeed in continuing to provide sufficient incentives to intermediaries to market its products and services successfully.

In seeking to attract and retain productive intermediaries, the Issuer competes with other financial institutions primarily on the basis of their support services, product features, financial position, and to a lesser extent compensation. The Issuer may not continue to succeed in attracting and retaining new (productive) intermediaries or maintaining the current quality and/or quantity of its distribution networks.

A significant portion of the Issuer's business relates to the Issuer's dealings with third parties

A significant portion of the business of the Issuer relates to products and services which it offers in co-operation with third parties or in relation to which it depends on third parties, for example for the distribution of such products and services. The Issuer cannot assure that these third parties will continue their co-operation, that the relationships with these third parties will continue to be beneficial or that the Issuer will be able to sustain its ability to successfully develop and market the products and services which are developed together with third parties.

Negative publicity about these third parties, whether or not founded, could also harm the reputation of the Issuer.

Catastrophic events, terrorist attacks and similar events could have a negative impact on the business and results of the Issuer

Catastrophic events, terrorist attacks and similar events, as well as the responses thereto may create economic and political uncertainties, which could have a negative impact on the economic conditions in the regions in which the Issuer operates and, more specifically, on the business and results of the Issuer in ways that cannot be predicted.

The performance of the Issuer depends on its ability to accurately price its products and services

The results of operations and the financial condition of the Issuer depends, among other things, on its ability to set rates and prices accurately. Rate adequacy is necessary to generate sufficient premiums to pay losses and expenses and to earn profits on income.

The ability of the Issuer to price its products and services accurately is subject to a number of uncertainties. As a result, rates and prices of products and services may be determined on the basis of inadequate or inaccurate data or inappropriate analyses, assumptions or methodologies. If the Issuer fails to establish adequate rates and prices for its products and services, its revenues could decline while its expenses increase resulting in proportionately greater losses.

The Issuer is exposed to (dis)integration risks following (de)merger(s)

Between 30 June 2008 and 18 March 2011, BLG Hypotheekbank N.V., DBV Finance B.V. and SNS Assurantiën B.V. merged into the Issuer. Unexpected risks or liabilities relating to the entities with whom the Issuer merged could adversely affect the Issuer. Following the approval of the restructuring plan by the EC (see further above 'Risks related to the disentanglement of SNS Bank N.V. from SNS REAAL'), the separation of the banking and insurances activities of SNS REAAL Group could mean that the synergy benefits realised as a result of combining activities in the SNS REAAL Group may lapse. The Issuer will, over time, be exposed to disintegration risks following such separation, which could cause significant dissynergy losses and could have a material adverse effect on the Issuer.

Different capacities

SNS Bank acts or may act in different capacities under the Relevant Documents, including as Issuer, Originator, Servicer, Foundation Administrator, a Foundation Account Provider and Total Return Swap Counterparty. The

Issuer has been advised that, as a matter of Dutch law, a party is not capable of contracting with itself. However, this general principle does not apply where such party (like SNS Bank) is acting with other parties (such as the Security Trustee and the CBC).

For payment under Covered Bonds the Issuer may be dependent on dividend payments received from its subsidiaries

In order to fulfil its payment obligations under the Covered Bonds it issues, the Issuer may be dependent on dividend payments received from its subsidiaries. Furthermore, the paying of dividend by regulated entities within the Issuer's group, including the Issuer, may be limited by applicable legislation or supervisory authorities.

RISK FACTORS REGARDING THE COVERED BONDS

The Covered Bonds will be solely the obligations of the Issuer

The Covered Bonds will be solely the obligations of the Issuer. The Covered Bonds will not be obligations or responsibilities of, or guaranteed by (other than pursuant to the Guarantee, as set out below), any other entity or person, in whatever capacity acting (other than as Issuer), including, without limitation, any Originator, the CBC, any Insurance Savings Participant, any Bank Savings Participant, any Swap Counterparty, the Servicer, the Administrator, the Directors, any Paying Agent, any Calculation Agent, the Arranger, any Dealer (excluding the Issuer), the GIC Provider, the Collection Foundation, the Foundation Administrator, the Foundation Account Providers and the Security Trustee. Furthermore, none of the Originators (other than the Issuer), the Insurance Savings Participants, the Bank Savings Participants, the Swap Counterparties, the Servicer, the Administrator, the Directors, the Paying Agents, the Calculation Agents, the Arranger, the Dealers (excluding the Issuer), the GIC Provider, the Collection Foundation, the Foundation Administrator, the Foundation Account Providers and the Security Trustee, nor any other person in whatever capacity acting (other than the Issuer), will accept any liability whatsoever to Covered Bondholders in respect of any failure by the Issuer to pay any amounts due under the Covered Bonds.

Factors which might affect an investor's ability to make an informed assessment of the risks associated with Covered Bonds issued under the Programme

Investors in the Covered Bonds must be able to make an informed assessment of the Covered Bonds, based upon full knowledge and understanding of the facts and risks. Investors must determine the suitability of that investment in light of its own circumstances. The following factors might affect an investor's ability to appreciate the risk factors outlined below, placing such investor at a greater risk of receiving a lesser return on his investment:

- (i) if such an investor does not have sufficient knowledge and experience to make a meaningful evaluation of the Covered Bonds and the merits of investing in the Covered Bonds in light of the risk factors outlined below;
- (ii) if such an investor does not have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of his particular financial situation, the significance of these risk factors and the impact the Covered Bonds will have on his overall investment portfolio;
- (iii) if such an investor does not have sufficient financial resources and liquidity to bear all of the risks of an investment in the Covered Bonds, including, but not limited to, where the currency for principal or interest payments is different from the investor's base currency;
- (iv) if such an investor does not understand thoroughly the terms of the Covered Bonds and is not familiar with the behaviour of any relevant indices in the financial markets (including the risks associated therewith); and
- (v) if such an investor is not able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect his investment and his ability to bear the applicable risks.

A wide range of Covered Bonds may be issued under the Programme. A number of these Covered Bonds may have features which contain particular risks for investors. Covered Bonds are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments but as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. Investors should not invest in Covered Bonds unless they have the expertise (either alone or with a financial adviser) to evaluate how the Covered Bonds will perform under changing conditions, the resulting effects on the value of the Covered Bonds and the impact this investment will have on the investor's overall investment portfolio.

Risks related to the structure of a particular issue of Covered Bonds

Covered Bonds issued under the Programme will either be fungible with an existing Series or have different

terms to an existing Series (in which case they will constitute a new Series). All Covered Bonds issued from time to time will rank *pari passu* with each other in all respects and will share equally in the Guarantee granted by the CBC. If an Issuer Event of Default or a CBC Event of Default occurs and results in acceleration, all Covered Bonds of all Series will accelerate at the same time (against the CBC only in case of a CBC Event of Default). Set out below is a description of the most common features of Covered Bonds:

Fixed/Floating Rate Covered Bonds

Fixed/Floating Rate Covered Bonds may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Covered Bonds since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Covered Bonds may be less favourable than then prevailing spreads on comparable Floating Rate Covered Bonds tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Covered Bonds. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Covered Bonds.

Covered Bonds subject to optional redemption by the Issuer

An optional redemption feature of Covered Bonds is likely to limit their market value. During any period when the Issuer may elect to redeem Covered Bonds, the market value of those Covered Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be the case prior to any redemption period.

The Issuer may be expected to redeem Covered Bonds when its cost of borrowing is lower than the interest rate on the Covered Bonds. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Covered Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

If the Issuer is specified as having the option to redeem the Covered Bonds in the applicable Final Terms prior to the Maturity Date and the Issuer cannot exercise its option because an Issuer Event of Default has occurred and is continuing, then the CBC will have the right to declare that all of the Covered Bonds then outstanding will mature on the relevant optional redemption date as specified in the applicable Final Terms and that the Maturity Date will be such Optional Redemption Date. If the CBC exercises its right, the Maturity Date will be the relevant Optional Redemption Date and the Extended Due for Payment Date will be the date falling one year after such date (or if indicated otherwise in the final terms, such date).

Covered Bonds issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Covered Bonds generally

Set out below is a brief description of certain risks relating to the Covered Bonds generally.

Certain decisions of Covered Bondholders taken at Programme level

Any Programme Resolution to direct the Security Trustee to serve an Issuer Acceleration Notice, a Notice to Pay or a CBC Acceleration Notice, and any direction to the Security Trustee to take any enforcement action must be passed at a single meeting of the holders of all Covered Bonds of all Series then outstanding as set out in more detail in Condition 15 (*Meetings of Covered Bondholders, Modification and Waiver*) and cannot be decided upon at a meeting of Covered Bondholders of a single Series. A Programme Resolution will be binding on all Covered Bondholders including Covered Bondholders who did not attend and vote at the relevant meeting and Covered Bondholders who voted in a manner contrary to the majority.

The Security Trustee may agree to modifications to the Relevant Documents without the Covered Bondholders' or other Secured Parties' prior consent, and the Standby Total Return Swap Providers consent requirement

Pursuant to the terms of the Trust Deed, the Security Trustee may, without the consent or sanction of any of the Covered Bondholders or any of the other Secured Parties (other than the Security Trustee (where applicable)), concur with any person in making or sanctioning any modifications to the Covered Bonds of any Series, the related Coupons or any Relevant Documents (**including without limitation designating further creditors as Secured Parties**):

- provided that (i) in the opinion of the Security Trustee such modification is not materially prejudicial to the interests of (a) any of the Covered Bondholders of any Series or (b) any of the other Secured Parties (other than the CBC) (in which respect the Security Trustee may rely upon the consent in writing of any other Secured Party as to the absence of material prejudice to the interests of such Secured Party) and (ii) it has not been informed in writing by any Secured Party (other than any Covered Bondholder(s)) that such Secured Party will be materially prejudiced thereby (other than a Secured Party who has given his/her written consent as aforesaid), and, in either case, such modification is notified to the Rating Agencies;
or
- which in the opinion of the Security Trustee are made to correct a manifest error or an error established as such to the satisfaction of the Security Trustee or of a formal, minor or technical nature or are made to comply with mandatory provisions of law.

In addition the Standby Total Return Swap Providers have certain consent rights in respect of amendments to the Relevant Documents and could potentially prevent that changes beneficial to Covered Bondholders are made.

Tax consequences of holding the Covered Bonds

Potential investors should consider the tax consequences of investing in the Covered Bonds and consult their tax adviser about their own tax situation.

Taxation

Potential purchasers and sellers of Covered Bonds should be aware that they may be required to pay stamp taxes or other documentary or fiscal charges in accordance with the laws and practices of the country where to the Covered Bonds are transferred, including but not limited to the financial transaction tax.

Potential purchasers should consult their own independent tax advisers about their tax position. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

U.S. Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code 1986 (commonly known as "FATCA") impose a 30 per cent. withholding tax on certain payments to certain non-U.S. financial institutions that fail to comply with information reporting requirements or certification requirements in respect of their direct and indirect United States shareholders and/or United States accountholders. United States accountholders subject to such information reporting or certification requirements may include holders of certain Covered Bonds and the Issuer may be required to withhold on a portion of any payment made under such Covered Bonds. In addition, the Issuer may be required to withhold on a portion of any payment under any Covered Bond that is made to a non-U.S. financial institution that has not agreed to comply with these information reporting requirements. Such withholding may be imposed at any point in a chain of payments if a non-U.S. payee fails to comply with U.S. information reporting, certification and related requirements. Accordingly, Covered Bonds held through a non-compliant institution may be subject to withholding even if the Covered Bondholders otherwise would not be subject to withholding. Under U.S. Treasury regulations, such withholding will generally not apply to payments made on the Covered Bonds before 1 January 2019 unless interest paid on a Covered Bond was treated as derived from sources within the United States for U.S. federal income tax purposes. Moreover, in certain cases, such withholding will only apply to Covered Bonds issued at least six months after the date on which final regulations implementing such rules are published in final form. It is impossible to determine at this time what impact, if any, these rules will have on Covered Bondholders.

Under the Netherlands-U.S. intergovernmental agreement in respect of FATCA ("**IGA**") and implementing legislation, a financial institution in the Netherlands generally will be able to be treated as deemed compliant with FATCA if it satisfies certain requirements. A financial institution in the Netherlands that complies with its obligations under the IGA generally will not be subject to FATCA withholding on amounts it receives, and generally will not be required to make FATCA withholding from payments it makes with respect to the Covered Bonds, other than in certain prescribed circumstances.

If an amount in respect of withholding tax were to be deducted or withheld from interest, principal or other payments on the Covered Bonds as a result of FATCA, none of the Issuer, any paying agent or any other person would, pursuant to the Terms and Conditions of the Covered Bonds be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive less interest or principal than expected.

FATCA is particularly complex and its application is uncertain at this time. Prospective Covered Bondholders should consult their tax advisers regarding the possibility of withholding under FATCA, and the general effect of FATCA, in their individual circumstances.

Payments to Covered Bondholders may be subject to withholding pursuant to the European Savings Directive
Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**Savings Directive**"), Member States of the European Union (the "**Member States**" and each a "**Member State**") are required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident in that other Member State; however, for a transitional period, Austria may instead apply a withholding system in relation to such payments, deducting tax at a rate of 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information arrangements or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Covered Bond as a result of the imposition of such tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Savings Directive.

However, on 10 November 2015, the Council of the European Union adopted a Directive that substantially repeals the Savings Directive from 1 January 2017, in the case of Austria and from 1 January 2016, in the case of all other Member States (subject to ongoing requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU).

Conflicts of Interest

Where the Issuer acts as Calculation Agent or the Calculation Agent is an Affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and holders of Covered Bonds, including with respect to certain determinations and judgments that the Calculation Agent may make pursuant to the Conditions that may influence the amount receivable upon redemption of the Covered Bonds.

Covered Bonds held in global form

The Bearer Covered Bonds which are in NGN form (as specified in the applicable Final Terms), will be held by a common safekeeper for Euroclear and/or Clearstream, Luxembourg and the Bearer Covered Bonds which are not in NGN form (as specified in the applicable Final Terms), will initially be held by a common depositary for Euroclear and/or Clearstream, Luxembourg, or Euroclear Nederland, or in either case any other agreed clearing system, and in each case in the form of a Global Covered Bond which will be exchangeable for Definitive Covered Bonds only in the limited circumstances as more fully described in *Form of Covered Bonds* below. For as long as a Covered Bond is represented by a Global Covered Bond held by the common safekeeper or common depositary on behalf of Euroclear and/or Clearstream, Luxembourg or by Euroclear Nederland, payments of principal, interest (if any) and any other amounts on a Global Covered Bond will be made through Euroclear and/or Clearstream, Luxembourg and/or Euroclear Nederland (as the case may be) against presentation or surrender (as the case may be) of the relevant Global Covered Bond and, in the case of a Temporary Global Covered Bond, certification as to non-U.S. beneficial ownership. The holder of the relevant Global Covered Bond, being the common safekeeper for Euroclear and/or Clearstream, Luxembourg or Euroclear Nederland, or any other agreed clearing system, shall be treated by the Issuer and any Paying Agent as the sole holder of the relevant Covered Bonds represented by such Global Covered Bond with respect to the payment of principal, interest (if any) and any other amounts payable in respect of the Covered Bonds.

In relation to any issue of Covered Bonds which have a denomination of euro 100,000 (or higher or its equivalent in another currency) (in such case defined as the minimum "**Specified Denomination**") plus a higher integral multiple of another smaller amount, it is possible that the Covered Bonds be traded in amounts in excess of euro 100,000 or its equivalent that are not integral multiples of euro 100,000 (or its equivalent). In such a case a Covered Bondholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination (a "**Stub Amount**") may not receive a Definitive Covered Bond in respect of such holding (should definitive Covered Bonds be printed) and would need to purchase a principal amount of Covered Bonds such that its holding amounts up to a Specified Denomination. As long as the Stub Amount is held in the relevant clearing system, the Covered Bondholder will be unable to transfer this Stub Amount.

Covered Bonds which are represented by a Global Covered Bond will be transferable only in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg or Euroclear Nederland (and in the latter case, the Dutch Securities Giro Transfer Act ("*Wet giraal effectenverkeer*," **Wge**)), as the case may be.

Registered Covered Bonds

Payments of principal, interest (if any) and any other amounts in respect of Registered Covered Bonds will be made to the person shown on the Register as being entitled to the relevant amount of principal or interest or other amount, or part thereof, as the case may be, at the opening of business on the second business day falling prior to the due date of such payments. If any Registered Covered Bondholder transfers any Registered Covered Bonds in accordance with Condition 20.3 and the Trust Deed and such transfer is notified to the Issuer and the CBC prior to the close of business on the Record Date, the Issuer, the CBC and the Security Trustee will in respect of the Registered Covered Bond so transferred, be discharged from their respective payment obligations only by payment to or to the order of the transferee. If the notification of transfer of the relevant Registered Covered Bond is made after the close of business on the Record Date, (i) the risk that the transfer is not timely recorded in the Register is borne by the transferee and (ii) the Issuer, the CBC, the Security Trustee, the Registrar and the relevant Paying Agent shall not be liable as a result of any payment being made to the person shown in the Register in accordance with Condition 20 (*Terms and Conditions of the Registered Covered Bonds*). The Registrar shall fulfil certain obligations of the Principal Paying Agent in relation to payments in respect of the Registered Covered Bonds.

To the extent that Dutch law is applicable, one of the requirements for a valid transfer of a Registered Covered Bond, is a valid delivery ("*levering*"). Investors should be aware that delivery of a Registered Covered Bond requires the execution of a deed of assignment ("*akte van cessie*") between the assignor and the assignee and notification thereof by the assignor or the assignee to the Issuer and the CBC.

Covered Bonds in NGN form

The NGN form has been introduced to allow for the possibility of Covered Bonds being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking

system for the euro (the "**Eurosystem**") and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. However in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time.

Base Prospectus to be read together with applicable Final Terms

The Terms and Conditions of the Covered Bonds included in this Base Prospectus apply to the different types of Covered Bonds which may be issued under the Programme. The full terms and conditions applicable to each Tranche of Covered Bonds can be reviewed by reading the master Terms and Conditions as set out in full in this Base Prospectus, which constitute the basis of all Covered Bonds to be offered under the Programme, together with the applicable Final Terms which applies and/or disappplies, supplements and/or amends the Conditions of the Programme in the manner required to reflect the particular terms and conditions applicable to the relevant Series of Covered Bonds (or Tranche thereof).

Change of law and jurisdiction

The terms and conditions of the Covered Bonds are governed by Dutch law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible change to Dutch law or administrative practice after the date of this Base Prospectus.

Prospective investors should note that the courts of the Netherlands shall have jurisdiction in respect of any disputes involving any Series or Tranche of Covered Bonds. Covered Bondholders may take any suit, action or proceedings arising out of or in connection with the Covered Bonds against the Issuer in any court of competent jurisdiction. The laws of the Netherlands may be materially different from the equivalent law in the home jurisdiction of prospective investors in its application to the Covered Bonds.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk.

The secondary market generally

Covered Bonds may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Covered Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Covered Bonds that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Covered Bonds generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Covered Bonds.

In addition, the secondary market for covered bonds, which also includes the Covered Bonds issued under this Programme, is currently experiencing severe disruptions resulting from reduced investor demand for covered bonds and increased investor yield requirements for those securities. As a result, the secondary market for covered bonds is experiencing limited liquidity. The conditions may continue or worsen in the future. Limited liquidity in the secondary market for covered bonds has had a severe adverse effect on the market value of covered bonds. Limited liquidity in the secondary market may continue to have a severe adverse effect on the market value of covered bonds. Consequently, an investor in the Covered Bonds may not be able to sell its Covered Bonds readily. The market values of the Covered Bonds are likely to fluctuate and may be difficult to determine. Any of these fluctuations may be significant and could result in significant losses to such investor. In addition, the forced sale into the market of Covered Bonds held by structured investment vehicles, hedge funds, issuers of collateralised debt obligations and other similar entities that are currently experiencing funding difficulties could adversely affect an investor's ability to sell, and/or the price an investor receives for, the Covered Bonds in the secondary market.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Covered Bonds in the currency as specified in the applicable Final Terms (the "**Specified Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's**

Currency") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Covered Bonds, (ii) the Investor's Currency-equivalent value of the principal payable on the Covered Bonds and (iii) the Investor's Currency-equivalent market value of the Covered Bonds.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Covered Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Covered Bonds.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Covered Bonds. Credit ratings may not reflect all risks and the methodologies of determining credit ratings may be changed from time to time leading to potential downgrades.

The expected ratings of the Covered Bonds are set out in the relevant Final Terms for each Series of Covered Bonds. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Covered Bonds. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. There is no assurance that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn by the relevant Rating Agency if, in its judgement, circumstances in the future so warrant.

Such change may, among other factors, be due to a change in the methodology applied by a Rating Agency to rating securities with similar structures to the Covered Bonds, as opposed to any revaluation of the Issuer's financial strength or other factors such as conditions affecting the financial services industry generally. Covered Bondholders and prospective investors should be aware that such a change in the methodology of a Rating Agency could result in certain series of Covered Bonds being downgraded, potentially to non-investment grade (if the relevant Covered Bonds are issued before the new methodology is applied by a Rating Agency to such Covered Bonds) or receiving a lower rating than that is currently expected from that Rating Agency (if the relevant Covered Bonds are issued after the new methodology is applied by that rating agency to such Covered Bonds).

In the event that a rating assigned to the Covered Bonds or the Issuer is subsequently lowered for any reason, the market value of the Covered Bonds is likely to be adversely affected, but no person or entity is obliged to provide any additional support or credit enhancement with respect to the Covered Bonds.

Return on an investment in Covered Bonds will be affected by charges incurred by investors

An investor's total return on an investment in any Covered Bonds will be affected by the level of fees charged by the nominee service provider and/or clearing system used by the investor. Such a person or institution may charge fees for the opening and operation of an investment account, transfers of Covered Bonds, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Covered Bonds.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Covered Bonds are legal investments for it, (2) Covered Bonds can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Covered Bonds. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Covered Bonds under any applicable risk-based capital or similar rules.

Solvency II

Insurance companies, to which Solvency II will apply, might be less interested in investing in instruments such as Covered Bonds. Solvency II - containing capital requirements for insurance companies - will likely enter into force as of 1 January 2016. Certain parts of Solvency II have already been implemented in the Netherlands prior to that date. Potential investors should consult their own advisers as to the consequences to and effect on them of Solvency II, to their holding of any Covered Bonds. Neither the Issuer, the Arrangers, the Dealers, the CBC nor the Security Trustee is responsible for informing Covered Bondholders of the effects on the changes to risk-weighting of regulatory capital which, amongst others, may affect investors as a result of the implementation of Solvency II in their own jurisdiction (whether or not implemented in its current form or otherwise).

Compliance of Covered Bonds with Dutch legislation, the UCITS Directive and/or CRD IV

In 2008 the Netherlands introduced a legal framework for regulated covered bonds which was replaced as of 1 January 2015 by a new framework. The applicable Dutch covered bond law and regulations relating to the legal requirements for the issuance of legal covered bonds as amended from time to time (the "**CB Regulations**") aim to provide more safeguards to covered bondholders, while respecting other interests that are connected with the issuance of covered bonds, such as avoiding an undesirable degree of asset encumbrance. The Dutch covered bond law and regulations relating to the legal requirements for the issuance of legal covered bonds as applicable prior to 1 January 2015 (the "**Old CB Regulations**") consisted of a limited, principle based framework.

The Issuer has obtained the status of being compliant with the Old CB Regulations. Due to the grandfathering provision of the CB Regulations and the approval and registration of the Issuer prior to 1 January 2015, the CB Regulations will become effective for the Programme of the Issuer twelve (12) months as from 1 January 2015, which means that this Programme remains subject to the Old CB Regulations as applicable before 1 January 2015 until 1 January 2016 or, if earlier, approval by DNB that the Covered Bonds and Issuer comply with the CB Regulations, after which the CB Regulations will apply to the Issuer and the Covered Bonds. The Issuer will under CB Regulations apply for the Issuer and the Covered Bonds issued by it to obtain the status of being compliant with the CB Regulations, which includes compliance with article 52(4) of the UCITS Directive and article 129 of the CRR and the Issuer will (I) continue to comply with the Old CB Regulations until the earlier to occur of (i) approval by DNB that the Covered Bonds and Issuer comply with the CB Regulations and (ii) 1 January 2016 and (II) thereafter comply with the CB Regulations (the "**Regulated Status**"). The Issuer will only issue Covered Bonds under this Base Prospectus that obtain the Regulated Status.

In the Trust Deed the Issuer has undertaken to utilise its best efforts to procure that the Covered Bonds that have obtained the Regulated Status, will keep the Regulated Status until redemption of such Covered Bonds of the relevant series in full. The "best efforts" undertaking set out in the preceding paragraph will no longer apply if, as a result of a change of law or regulations, Dutch residential mortgage receivables are insufficient for collateralisation of the Covered Bonds to keep the Regulated Status or are no longer eligible to collateralise covered bonds under CRD IV.

DNB will perform certain supervision and enforcement related tasks in respect of the Covered Bonds, including monitoring compliance with ongoing requirements set out in the Old CB Regulations and the CB Regulations, as applicable. If a Covered Bond no longer meets the requirements prescribed by the CB Regulations, or if the Issuer would no longer comply with its ongoing administration and/or reporting obligations towards DNB, DNB can take several measures, which include, without limitation, imposing an issuance-stop on the Issuer, which may be disclosed by DNB in the relevant register, and DNB has the authority to terminate the registration of the Issuer and, under the Old CB Regulations, the registration of the Covered Bonds that have been issued, but under the CB Regulations the registration of the Covered Bonds issued cannot be terminated.

DNB has the authority to include in the register that the Covered Bonds are no longer or are not compliant with article 129 CRR as a result of which the Covered Bonds would no longer maintain the status of being compliant with the requirements set out in article 129 of the CRR (the "**CRR Status**"). Although under the CB Regulations Covered Bonds will always continue to be registered as legal covered bonds and continue to keep the Regulated Status (except for the CRR Status), there is both under the Old CB Regulations and the CB Regulations a risk that the CRR Status will not be maintained until redemption in full of the relevant Series.

If under the Old CB Regulations at any time the registration of the Covered Bonds is withdrawn and under both the Old CB Regulations and the CB Regulations at any time the CRR Status is withdrawn or otherwise lost, a Covered Bondholder may experience adverse consequences (i.e. an adverse effect on the market value or on the regulatory treatment), depending on the reasons for making the investment in such Covered Bonds. Covered Bondholders should, amongst other things, conduct their own thorough analysis, and consult their legal advisers or the appropriate regulators from time to time to determine the appropriate status of Covered Bonds under any applicable risk-based capital or similar rules, including, without limitation, the UCITS Directive and/or CRD IV.

General risks

The value of the Covered Bonds may be influenced by national and international political, economic, social, environmental circumstances and developments.

No consent from Covered Bondholders required for different Covered Bonds

This Base Prospectus only describes Covered Bonds to be issued as part of the Programme under this Base Prospectus in the year following approval. In the future, the Issuer may issue Covered Bonds under the Programme (whether or not under a Base Prospectus) in different markets and/or with different features, which have not been described herein, and different risks associated with them, such as index or equity linked and dual currency Covered Bonds. It is not expected that the consent of Covered Bondholders will be obtained in order to provide for the inclusion of such Covered Bonds in the Programme.

Risks in relation to negative interest rates on the CBC Transaction Accounts

Pursuant to the GIC the interest rate accruing on the balances standing to the credit of any of the GIC Accounts could be less than zero. Any negative interest will be payable by the CBC to the GIC Provider. If the CBC has the obligation to pay interest accruing on the balances standing to the credit of any of the GIC Accounts to the GIC Provider instead of receiving interest thereon, this will reduce the income of the CBC and its possibility to generate further income on the assets held in the form of cash in the GIC Accounts. This risk increases if the amount deposited on the GIC Accounts becomes (more) substantial. Ultimately such negative interest rate and/or an enduring obligation of the CBC to make such payments in respect thereof to the GIC Provider could result in the CBC having insufficient funds to pay any amounts due under the Guarantee to Covered Bondholders.

RISK FACTORS REGARDING THE ASSET-BACKED GUARANTEE

The Guarantee will be solely the obligation of the CBC

The Guarantee will be solely the obligation of the CBC. The Guarantee will not be an obligation or responsibility of, any other entity or person, in whatever capacity acting, including, without limitation, the Issuer, the Originators, any Insurance Savings Participant, any Bank Savings Participant, any Swap Counterparty, the Servicer, the Administrator, the Directors, the Paying Agents, the Calculation Agents, the Arranger, the Dealers, the GIC Provider, the Collection Foundation, the Foundation Administrator, the Foundation Account Providers and the Security Trustee. Furthermore, none of the Issuer, the Originators, the Insurance Savings Participants, the Bank Savings Participants, the Swap Counterparties, the Servicer, the Administrator, the Directors, the Paying Agents, the Calculation Agents, the Arranger, the Dealers, the GIC Provider, the Collection Foundation, the Foundation Administrator, the Foundation Account Providers and the Security Trustee, nor any other person in whatever capacity acting, will accept any liability whatsoever to Covered Bondholders in respect of any failure by the CBC to pay any amounts due under the Guarantee.

None of the Issuer, the Originators, the Insurance Savings Participants, the Bank Savings Participants, the Swap Counterparties, the Servicer, the Administrator, the Directors, the Paying Agents, the Calculation Agents, the Arranger, the Dealers, the GIC Provider, the Collection Foundation, the Foundation Administrator, the Foundation Account Providers and the Security Trustee will be under any obligation whatsoever to provide additional funds to the CBC (save in the limited circumstances pursuant to the Relevant Documents).

CBC only obliged to pay Guaranteed Amounts when the same are Due for Payment

The CBC has no obligation to pay the Guaranteed Amounts payable under the Guarantee until service by the Security Trustee on the Issuer of an Issuer Acceleration Notice and on the CBC of a Notice to Pay, or, if earlier,

on the Issuer and the CBC of a CBC Acceleration Notice.

The CBC will not be obliged to pay any other amounts than the Guaranteed Amounts to the Covered Bondholders. Payments by the CBC will be made subject to any applicable withholding or deduction for or on account for tax including, for the avoidance of doubt, FATCA and the CBC will not be obliged to pay any additional amounts as a consequence.

A Notice to Pay can only be served if (a) an Issuer Event of Default occurs and results in service by the Security Trustee of an Issuer Acceleration Notice on the Issuer or (b) a Breach of the Asset Cover Test or Breach of any Portfolio Test (if implemented) occurs. A CBC Acceleration Notice can only be served if a CBC Event of Default occurs.

Following service of an Issuer Acceleration Notice on the Issuer, a Notice to Pay shall be served by the Security Trustee on the CBC. However, a failure by the Issuer to make a payment in respect of one or more Series will not automatically result in the service of an Issuer Acceleration Notice. The Security Trustee may, but is not obliged to, serve an Issuer Acceleration Notice unless and until requested or directed by Covered Bondholders of all Series then outstanding.

If a Notice to Pay is served by the Security Trustee on the CBC following (i) a Breach of the Asset Cover Test or (ii) a Breach of any Portfolio Test (if implemented), the CBC will not be obliged to make payments under the Guarantee until (a) an Issuer Event of Default has occurred and an Issuer Acceleration Notice has been served or (b) a CBC Event of Default has occurred and a CBC Acceleration Notice has been served.

Following service of a Notice to Pay on the CBC (provided (a) an Issuer Event of Default has occurred and an Issuer Acceleration Notice has been served and (b) no CBC Acceleration Notice has been served) under the terms of the Guarantee the CBC will be obliged to pay Guaranteed Amounts as and when the same are Due for Payment. Such payments will be subject to and will be made in accordance with the Post Issuer Acceleration Notice Priority of Payments. In these circumstances, other than in relation to the Guaranteed Amounts, the CBC will not be obliged to pay any amount, for example in respect of broken funding indemnities, penalties, premiums, default interest or interest on interest which may accrue on or in respect of the Covered Bonds.

Subject to applicable grace periods, if the CBC fails to make a payment when Due for Payment under the Guarantee or any other CBC Event of Default occurs then the Security Trustee may accelerate the Covered Bonds (to the extent not yet accelerated) by service of a CBC Acceleration Notice, whereupon the CBC will under the Guarantee owe the Early Redemption Amount of each Covered Bond, together with accrued interest and certain other amounts then due under the Covered Bonds. Following service of a CBC Acceleration Notice, the Security Trustee may enforce the Security. The proceeds of enforcement of the Security shall be applied by the Security Trustee in accordance with the Post CBC Acceleration Notice Priority of Payments, and Covered Bondholders will receive amounts from the CBC on an accelerated basis. Without limitation, if a CBC Acceleration Notice is served on the CBC then the Covered Bonds may be repaid sooner or later than expected or not at all.

Extendable obligations under the Guarantee

If the CBC is obliged under the Guarantee to pay a Guaranteed Final Redemption Amount and has insufficient funds available under the relevant Priority of Payments to pay the Guaranteed Final Redemption Amount on the Extension Date, then the obligation of the CBC to pay such Guaranteed Amounts shall automatically be deferred to the relevant Extended Due for Payment Date. However, to the extent the CBC has sufficient moneys available to pay in part the Guaranteed Final Redemption Amount in respect of the relevant Series of Covered Bonds, the CBC shall make such partial payment in accordance with the relevant Priority of Payments, as described in Condition 3 (*The Guarantee*) on the relevant Extension Date and any subsequent Interest Payment Date falling prior to the relevant Extended Due for Payment Date. Payment of the unpaid amount shall be deferred automatically until the applicable Extended Due for Payment Date. The Extended Due for Payment Date will fall one year after the Maturity Date. Interest will continue to accrue and be payable on the unpaid Guaranteed Final Redemption Amount on the basis set out in the applicable Final Terms or, if not set out therein, Condition 5, *mutatis mutandis*. In these circumstances, except where the CBC has failed to apply money in accordance with the relevant Priority of Payments in accordance with Condition 3, failure by the CBC to pay the relevant

Guaranteed Final Redemption Amount on the Extension Date or any subsequent Interest Payment Date falling prior to the Extended Due for Payment Date (or the relevant later date in case of an applicable grace period) shall not constitute a CBC Event of Default. However, failure by the CBC to pay any Guaranteed Final Redemption Amount or the balance thereof, as the case may be, on the relevant Extended Due for Payment Date and/or pay any other amount due under the Guarantee will (subject to any applicable grace period) constitute a CBC Event of Default.

No Gross-up for Taxes

As provided in Condition 8, if withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or changes of whatever nature are imposed by or on behalf of the Netherlands, any authority therein or thereof having power to tax, the CBC will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Covered Bondholders, as the case may be, and shall not be obliged to pay any additional amounts to the Covered Bondholders.

Limited resources available to the CBC

The ability of the CBC to meet its obligations under the Guarantee will depend on the receipt by it of funds under the Transferred Assets, the proceeds of the sale of any Transferred Assets, the timing thereof, the receipt by it of payments under the Swap Agreements and the receipt by it of interest in respect of the balance standing to the credit of the GIC Accounts. The CBC does not have any other resources available to it to meet its obligations under the Guarantee.

If a CBC Event of Default occurs and the Security is enforced, the proceeds may not be sufficient to meet the claims of all the Secured Parties, including the Covered Bondholders. If, following enforcement of the Security, the Secured Parties have not received the full amount due to them pursuant to the terms of the Relevant Documents, the Secured Parties will no longer have a claim against the CBC after enforcement of the Security. The Secured Parties may still have an unsecured claim against the Issuer for the shortfall.

Covered Bondholders should note that the Asset Cover Test has been structured to ensure that (i) the outstanding principal amount of the Transferred Assets is greater than the aggregate Principal Amount Outstanding of the Covered Bonds for so long as Covered Bonds remain outstanding and (ii) the First Regulatory Current Balance Amount will always be at least equal to 105 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds, and (iii) the Second Regulatory Current Balance Amount will always be at least equal to 100 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds, which should reduce the risk of there ever being a shortfall. However there is no assurance that there will not be a shortfall.

Reliance of the CBC on third parties

Counterparties to the CBC may not perform their obligations under the Relevant Documents, which may result in the CBC not being able to meet its obligations under the Guarantee.

If a termination event occurs pursuant to the terms of any Servicing Agreement, then the CBC and/or the Security Trustee will be entitled to terminate the appointment of the Servicer and appoint a new servicer in its place. There can be no assurance that a substitute servicer with sufficient experience of administering residential mortgages loans would be found who would be willing and able to service the Mortgage Receivables on the terms of the Servicing Agreement. Any delay or inability to appoint a substitute servicer may affect the realisable value of the Mortgage Receivables or any part thereof, and/or the ability of the CBC to make payments under the Guarantee.

The Servicer does not have any obligation itself to advance payments that Borrowers fail to make in a timely fashion. Covered Bondholders will have no right to consent to or approve of any actions taken by the Servicer under the Servicing Agreement.

Effectiveness of the rights of pledge to the Security Trustee in case of insolvency of the CBC

Under or pursuant to the Pledge Agreements, various rights of pledge will be granted by the CBC to the Security Trustee. On the basis of these pledges the Security Trustee can exercise the rights afforded by Dutch law to

pledgees notwithstanding bankruptcy or suspension of payments of the CBC. The CBC is a special purpose vehicle and is therefore unlikely to become insolvent. However, any bankruptcy or suspension of payments involving the CBC would affect the position of the Security Trustee as pledgee in some respects, the most important of which are: (i) payments made by the Borrowers to the CBC prior to notification of the relevant pledge but after bankruptcy or suspension of payments granted in respect of the CBC will be part of the bankruptcy estate of the CBC, although the Security Trustee has the right to receive such amounts by preference after deduction of certain costs, (ii) a mandatory 'cool-off' period of up to four months may apply in case of bankruptcy or suspension of payments involving the CBC, which, if applicable would delay the exercise of the right of pledge on the Transferred Assets and (iii) the Security Trustee may be obliged to enforce its right of pledge within a reasonable period following bankruptcy as determined by the judge-commissioner ("*rechter-commissaris*") appointed by the court in case of bankruptcy of the CBC. Similar or different restrictions may apply in case of insolvency proceedings other than Dutch insolvency proceedings.

To the extent the receivables pledged by the CBC to the Security Trustee are future receivables, the right of pledge on such future receivable cannot be invoked against the estate of the CBC, if such future receivable comes into existence after the CBC has been declared bankrupt or has been granted a suspension of payments. The CBC has been advised that some of the assets pledged to the Security Trustee under the Security Trustee Rights Pledge Agreement should probably be regarded as future receivables. This would for example apply to amounts paid to the GIC Accounts following the CBC's bankruptcy or suspension of payments. With respect to Beneficiary Rights, reference is made to the section *Risks relating to Beneficiary Rights under the Insurance Policies*.

Risks related to the creation of pledges on the basis of the Parallel Debt

Under Dutch law it is uncertain whether a security right can be validly created in favour of a party which is not the creditor of the claim which the security right purports to secure. Consequently, in order to secure the valid creation of the pledges under the Pledge Agreements in favour of the Security Trustee, the CBC has in the Parallel Debt Agreement, as a separate and independent obligation, by way of parallel debt, undertaken to pay to the Security Trustee amounts equal to the amounts due by it to the Secured Parties. There is no statutory law or case law available on the concept of parallel debts such as the Parallel Debt and the question whether a parallel debt constitutes a valid basis for the creation of security rights, such as rights of pledge (see also *Description of Security* below). However, the CBC has been advised that a parallel debt, such as the Parallel Debt, creates a claim of the Security Trustee thereunder which can be validly secured by a right of pledge such as the rights of pledge created by the Pledge Agreements.

The Security Trustee acts solely as security trustee for the purpose of this Programme. Any payments in respect of the Parallel Debt and any proceeds received by the Security Trustee are, in the case of an insolvency of the Security Trustee, not separated from the Security Trustee's other assets. The Secured Parties therefore have a credit risk on the Security Trustee.

Transfer of Guarantee

Under Dutch law an independent guarantee like the Guarantee is normally regarded as an independent claim and not an accessory right ("*afhankelijk recht*") and is unlikely to be an ancillary right ("*nevenrecht*") that by operation of law follows the receivables it secures upon transfer thereof. The Issuer and the CBC have been advised that, in the case of Bearer Covered Bonds, such a transfer of the Guarantee can be accomplished by ensuring that the Guarantee forms an integral part of the Covered Bonds. For this reason the Guarantee and the Covered Bonds will provide that the rights under the Guarantee (a) form an integral part of the Covered Bonds, (b) are of interest to a Covered Bondholder only if, to the extent that, and for so long as, it holds Covered Bonds and (c) can only be transferred together with all other rights under the relevant Covered Bond. The Issuer and the CBC have been advised that as a result, in case of a transfer of a Covered Bond to a transferee by way of book-entry transfer ("*girale overboeking*") or physical transfer of a Bearer Covered Bond, such transfer includes the corresponding rights under the Guarantee. For Registered Covered Bonds, the rights under the Guarantee are to be separately assigned, together with the corresponding rights under the relevant Registered Covered Bonds.

RISK FACTORS REGARDING THE MORTGAGE RECEIVABLES AND OTHER ASSETS

In case the CBC is required to pay under the Guarantee, the ability to comply with such obligations will depend

predominantly on the proceeds of the Transferred Assets. Payments on the Mortgage Receivables and other asset are subject to certain risks described in more detail below.

Risk related to payments received by an Originator prior to notification of the assignment to the CBC

Under Dutch law, assignment of the legal title of claims, such as the Eligible Receivables, can be effectuated by means of a notarial deed of assignment or a deed of assignment and registration thereof with the appropriate tax authorities, without notification of the assignment to the debtors being required ("*stille cessie*"). The legal title of the Eligible Receivables will be assigned by the relevant Originator to the CBC through a deed of assignment and registration thereof with the appropriate tax authorities. The Guarantee Support Agreement will provide that the assignment of the Eligible Receivables by the relevant Originator to the CBC will not be notified by the relevant Originator or, as the case may be, the CBC to the Borrowers except if certain events occur.

Until notification of the assignment has been made to the Borrowers, the Borrowers under the Mortgage Receivables can only validly pay to the relevant Originator in order to fully discharge their payment obligations ("*bevrijdend betalen*") in respect thereof. Each Originator has undertaken upon the earlier to occur of an Assignment Notification Event, the service of a Notice to Pay or a CBC Acceleration Notice to pay to the CBC any amounts received in respect of the Mortgage Receivables. However, receipt of such amounts by the CBC is subject to the relevant Originator actually making such payments. If the relevant Originator is declared bankrupt or subject to emergency regulations prior to making such payments, the CBC has no right of any preference in respect of such amounts.

Payments made by Borrowers to the relevant Originator prior to notification of the assignment but after bankruptcy, (preliminary) suspension of payments or emergency regulations in respect of the relevant Originator having been declared will be part of the relevant Originator's bankruptcy estate. In respect of these payments, the CBC will be a creditor of the estate ("*boedelschuldeiser*") and will receive payment prior to (unsecured) creditors with ordinary claims, but after preferred creditors of the estate.

The risks set out in the preceding three paragraphs are reduced by the following structural features. The CBC has been informed by each Originator that each Borrower has given a power of attorney to the relevant Originator or any sub-agent of the relevant Originator respectively to collect amounts from its account due under the Mortgage Loan by direct debit. Under the receivables proceeds distribution agreement (the "**Receivables Proceeds Distribution Agreement**") entered into by, *inter alia*, the Originators, the Collection Foundation and the Foundation Account Providers on 19 December 2011 (as amended), the Originators have requested the Collection Foundation to collect by direct debit all amounts of principal and interest to the bank accounts (the "**Collection Foundation Accounts**") held and maintained by the Collection Foundation.

As a consequence, the Collection Foundation has a claim against the relevant Foundation Account Provider, in respect of the balances standing to the credit of the Collection Foundation Accounts. Prior to the transfer of the Collection Foundation Accounts to the Foundation Account Provider or a Collection Foundation Eligible Counterparty (as the case may be), the Foundation Account Providers are the same legal entities as the Originators and thus the Collection Foundation will have a claim against the 'Originators' in their capacity as Foundation Account Provider for the amount standing to the credit of the relevant Collection Foundation Accounts.

The Collection Foundation Accounts are currently held with SNS Bank and RegioBank. If and for so long as any Originator is a Foundation Account Provider, in the event of a bankruptcy of such Originator, any amounts standing to the credit of the Collection Foundation Accounts relating to the relevant Mortgage Receivables will form part of the bankrupt estate of such Originator. In view of the current rating of the Issuer and in view of such risk of bankruptcy, an additional deduction in the Asset Cover Test has been implemented as item Y2 to constitute a Collection Foundation Trigger Commingling Remedial Action. The risk is that the amount so deducted is insufficient to cater for the risk of the CBC and therefore have a negative effect on the ability of the CBC to meet its payment obligations. This may lead to losses under the Covered Bonds.

The Collection Foundation is set up as a passive bankruptcy remote entity. The objects clause of the Collection Foundation is limited to collecting, managing and distributing amounts received on the Collection Foundation Accounts to the persons who are entitled to receive such amounts pursuant to the Receivables Proceeds

Distribution Agreement.

Upon receipt thereof and after each Originator being obliged to pay the proceeds of the Mortgage Receivables to the CBC, the Collection Foundation will distribute to the CBC or, after the Enforcement Date, to the Security Trustee any and all amounts relating to the Mortgage Receivables received by it on the Collection Foundation Accounts, in accordance with the relevant provisions of the Receivables Proceeds Distribution Agreement. Pursuant to the Receivables Proceeds Distribution Agreement, SNS Bank (the "**Foundation Administrator**"), and, after an insolvency event relating to the Foundation Administrator, a new administrator appointed for such purpose will perform such payment transaction services on behalf of the Collection Foundation (see for a description of the cash collection arrangements the chapter *Cashflows* below).

There is a risk that any Originator (prior to notification of the assignment) or its bankruptcy trustee (following bankruptcy or suspension of payments but prior to notification) instructs the Borrowers to pay to another bank account. Any such payments by a Borrower would be valid ("*bevrijdend*"). This risk is, however, reduced by the following. Firstly, each Originator has under the Receivables Proceeds Distribution Agreement undertaken to the CBC and the Security Trustee not to instruct the Borrowers to pay any amounts under Mortgage Receivables into an account other than the Collection Foundation Accounts without (i) the prior written approval of each of the Collection Foundation, the CBC and the Security Trustee, and (ii) notification to the Rating Agencies and, if required, confirmation from the Rating Agencies that the then current ratings of the Covered Bonds would not be adversely affected upon such instructions. In addition, SNS Bank in its capacity as administrator for the Collection Foundation has undertaken in the Receivables Proceeds Distribution Agreement to disregard any instructions or orders from any Originator to cause the transfer of amounts received in respect of the Mortgage Receivables to be made to another account than the relevant Collection Foundation Accounts without prior written approval of the CBC and the Security Trustee. Regardless of the above, each Originator is obliged to pay to the CBC any amounts received in respect of the Mortgage Receivables which were not paid to the Collection Foundation Accounts but to the relevant Originator directly upon receipt thereof and after such Originator being obliged to pay the proceeds of the Mortgage Receivables to the CBC. If any of the Originators or the Foundation Administrator do not comply with the relevant provisions of the Receivables Proceeds Distribution Agreement, this may lead to the Issuer or the CBC having insufficient funds available to meet its obligations under the Covered Bonds.

The Collection Foundation will grant first ranking rights of pledge on the balances standing to the credit of the Collection Foundation Accounts in favour of the Security Trustee and the Previous Transaction Security Trustees and second ranking rights of pledge to the CBC and the Previous Transactions SPV's jointly as security for (*inter alia*) any and all liabilities of the Collection Foundation to, respectively, the Previous Transaction SPVs, the CBC, the Previous Transaction Security Trustees and the Security Trustee in view of the (remote) bankruptcy risk of the Collection Foundation. The pledge is shared between the CBC, the Previous Transaction Security Trustees, the Security Trustee and the Previous Transaction SPVs, which are set up as bankruptcy remote securitisation special purpose vehicles. Each Previous Transaction Security Trustee and the Security Trustee have a certain *pari passu* ranking undivided interest, or "share" ("*aandeel*") in the co-owned pledge, entitling it to part of the foreclosure proceeds of the pledge over the Collection Foundation Accounts. As a consequence, the rules applicable to co-ownership ("*gemeenschap*") apply to the joint right of pledge. The share of the Security Trustee will be determined on the basis of the amounts in the Collection Foundation Accounts relating to the Mortgage Receivables owned by the CBC. Section 3:166 of the Dutch Civil Code provides that co-owners will have equal shares, unless a different arrangement follows from their legal relationship. The co-pledgees have agreed that each pledgee's share within the meaning of section 3:166 of the Dutch Civil Code ("*aandeel*") in respect of the balances of the Collection Foundation Accounts from time to time is equal to their entitlement in respect of the amounts standing to the credit of the Collection Foundation Accounts which relate to the mortgage receivables owned and/or pledged to them, from time to time. In case of foreclosure of the co-owned right of pledge on the Collection Foundation Accounts (i.e. if the Collection Foundation defaults in forwarding or transferring the amounts received by it, as agreed), the proceeds will be divided according to each Previous Transaction Security Trustee's and the Security Trustee's share. It is uncertain whether this sharing arrangement constitutes a sharing arrangement within the meaning of section 3:166 of the Dutch Civil Code and thus whether it is enforceable in the event of bankruptcy or suspension of payments of one of the pledgees. The same applies to the pledge for the CBC and the Previous Transaction SPVs. The Collection Foundation Accounts Pledge Agreement provides that future issuers (and any related security trustees) in securitisation

transactions or future similar transactions (and any security trustees relating thereto) initiated by any Originator will after accession also have the benefit of the right of pledge on the balance standing to the credit of the Collection Foundation Accounts and the relevant parties to the Collection Foundation Accounts Pledge Agreement undertake to cooperate with such provisions.

Set-off by Borrowers may affect the proceeds under the Mortgage Receivables

Under Dutch law a debtor has a right of set-off if it has a claim that corresponds to a debt to the same counterparty and it is entitled to pay its debt as well as to enforce payment of its claim. Subject to these requirements being met, each Borrower will be entitled to set off amounts due by the relevant Originator to it (if any) with amounts it owes in respect of the Relevant Mortgage Receivable prior to notification of the assignment of the Relevant Mortgage Receivable to the CBC having been made. Such amounts due and payable by an Originator to a Borrower could, *inter alia*, result from current account balances or deposits made with such Originator and, in respect of the Bank Savings Mortgage Loans, the aggregate Bank Savings Deposits (see *Risk of set-off or defences in case of Mortgage Receivables resulting from Bank Savings Mortgage Loans* below). Also, such claims of a Borrower could, *inter alia*, result from services rendered by an Originator to the Borrower, if rendered at all, such as investment advice rendered by SNS Bank in connection with Investment-based Mortgage Loans or services for which the relevant Originator is responsible or held liable. As a result of the set-off of amounts due and payable by an Originator to the Borrower with amounts the Borrower owes in respect of the Relevant Mortgage Receivable, the Relevant Mortgage Receivable will, partially or fully, be extinguished ("*gaat teniet*"). Set-off by Borrowers could thus affect the proceeds under the Mortgage Receivables.

The conditions applicable to the Mortgage Loans originated by SNS Bank (other than those originated by former BLG Hypotheekbank N.V.) and RegioBank provide that payments by the Borrowers should be made without set-off. Although this clause is intended as a waiver by the Borrowers of their set-off rights vis-à-vis SNS Bank or RegioBank, as the case may be, under Dutch law it is uncertain whether such waiver will be valid. Should such waiver be invalid, the Borrowers will have the set-off rights described in this paragraph.

After assignment of the Mortgage Receivables to the CBC and notification thereof to a Borrower, such Borrower will also have set-off rights vis-à-vis the CBC, provided that the legal requirements for set-off are met (see above), and further provided that (i) the counterclaim of the Borrower results from the same legal relationship as the relevant Mortgage Receivable, or (ii) the counterclaim of the Borrower has been originated ("*opgekomen*") and became due and payable ("*opeisbaar*") prior to the assignment of the relevant Mortgage Receivable and notification thereof to the relevant Borrower. The question whether a court will come to the conclusion that the relevant Mortgage Receivable and the claim of the Borrower against the relevant Originator result from the same legal relationship will depend on all relevant facts and circumstances involved. But even if these would be held to be different legal relationships, set-off will be possible if the counterclaim of the Borrower has originated and became due and payable prior to notification of the assignment, provided that all other requirements for set-off have been met (see above). A balance on a current account is due and payable at any time and, therefore, this requirement will be met. In the case of deposits, it will depend on the term of the deposit whether the balance thereof will be due and payable at the moment of notification of the assignment. The CBC has been informed by SNS Bank and RegioBank that in most cases a balance on a deposit account can be withdrawn at any time and, consequently, such balance is due and payable at any time. If following receipt of notification of assignment of the relevant Mortgage Receivable, amounts are debited from or credited to the current account or, as the case may be, the deposit account, the Borrower will only be permitted to set-off its claim vis-à-vis the CBC for the amount of its claim at the moment such notification has been received after deduction of amounts which have been debited from the current account or the deposit account after receipt of such notification, notwithstanding that amounts may have been credited. The above applies *mutatis mutandis* to the pledge of the Mortgage Receivables envisaged in the Security Trustee Receivables Pledge Agreement.

If notification of the assignment of the relevant Mortgage Receivables is made after the bankruptcy, (preliminary) suspension of payments or emergency regulations of the relevant Originator having become effective, it is defended in legal literature that the Borrower will, irrespective of the notification of the assignment, continue to have the broader set-off rights afforded to it in the Dutch Bankruptcy Code. Under the Bankruptcy Code a person which is both debtor and creditor of the bankrupt entity can set off its debt with its claims, if each claim (i) came into existence prior to the moment at which the bankruptcy become effective or

(ii) resulted from transactions with the bankrupt entity concluded prior to the bankruptcy becoming effective. A similar provision applies in case of suspension of payments or emergency regulations.

For specific set-off issues relating to the Life Insurance Policies or, as the case may be, Savings Insurance Policies connected to the Mortgage Loans or Investment-based Mortgage Loans, reference is made to the paragraph *Risk of set-off or defences by Borrowers in case of insolvency of Insurance Companies and Risks related to offering of Investment-based Mortgage Loans and Life Insurance Policies or Savings Insurance Policies with the Investment Alternative* below.

Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the CBC

The mortgage deeds relating to the Mortgage Receivables to be assigned to the CBC provide that the Mortgages created pursuant to such mortgage deeds, not only secure the loan granted to the Borrower for the purpose of acquiring the Mortgaged Assets, but also other liabilities and moneys that the Borrower, now or in the future, may owe to the relevant Originator ("**Bank Mortgages**"). The Mortgage Loans also provide for rights of pledge granted in favour of the relevant Originator, which secure the same debts as the Bank Mortgages ("**Bank Pledges**") and jointly with the Bank Mortgages, the "**Bank Security Rights**").

Under Dutch law a Mortgage is an accessory right ("*afhankelijk recht*") which follows by operation of law the receivable with which it is connected. Furthermore, a Mortgage is an ancillary right ("*nevenrecht*") and the assignee of a receivable secured by an ancillary right will have the benefit of such right, unless the ancillary right by its nature is, or has been construed as, a purely personal right of the assignor or such transfer is prohibited by law.

The prevailing view of Dutch legal commentators has been for a long time that upon the assignment of a receivable secured by a bank security right, such security right does not pass to the assignee as an accessory and ancillary right in view of its non-accessory or personal nature. It was assumed that a bank security right only follows a receivable which it secures, if the relationship between the bank and the borrower has been terminated in such a manner that following the assignment the bank cannot create or obtain further receivables from the relevant borrower secured by the security right. These commentators claim that this view is supported by case law.

There is a trend in legal literature for quite some time to dispute the view set out in the preceding paragraph. Legal commentators following such trend argue that in case of assignment of a receivable secured by a bank security right, the security right will in principle (partially) pass to the assignee as an accessory right. In this argument the transfer does not conflict with the nature of a bank security right, which is -in this argument- supported by the same case law. Any further claims of the assignor will also continue to be secured and as a consequence the bank security right will be jointly-held by the assignor and the assignee after the assignment. In this view, a bank security right only continues to secure exclusively claims of the original holder of the security right and will not pass to the assignee, if this has been explicitly stipulated in the deed creating the security right.

Although the view prevailing in the past, to the effect that given its nature a bank security right will as a general rule not follow as an accessory right upon assignment of a receivable which it secures, is still defended, the Issuer and the CBC have been advised that the better view is that as a general rule a bank security right in view of its nature follows the receivable as an accessory right upon its assignment. Whether in the particular circumstances involved the bank security right will remain with the original holder of the security right, will be a matter of interpretation of the relevant deed creating the security right.

In respect of (i) the Mortgage Loans originated by SNS Bank before the end of 2005 (other than those originated by former BLG Hypotheekbank N.V.) and (ii) the Mortgage Loans originated by former BLG Hypotheekbank N.V., the relevant mortgage deeds stipulate that in case of assignment of the receivable the Mortgage will follow if this is stipulated upon the assignment. The conditions applicable to Mortgage Loans originated by SNS Bank as of the end of 2005 (other than those originated by former BLG Hypotheekbank N.V.) provide that in case of assignment or pledge of the receivable the Borrower and SNS Bank have the explicit intention that the assignee or pledgee will have the benefit of (a *pro rata* part of) the Mortgages and rights of pledge securing such receivable, unless SNS Bank determines otherwise prior to the assignment or pledge. These stipulations are a clear indication of the intentions of the parties in this respect. The CBC has been advised that, in the absence of

circumstances giving an indication to the contrary, the inclusion of these provisions in the Mortgage Loans makes clear that the Bank Security Right (partially) follows the Relevant Mortgage Receivable as accessory and ancillary right upon its assignment, but that there is no case law explicitly supporting this advice.

The Mortgage Loans (i) originated by SNS Bank before the end of 2005 and (ii) the Mortgage Loans originated by former BLG Hypotheekbank N.V. do not provide for the Bank Pledges to partially follow the Relevant Mortgage Receivable upon assignment or pledge thereof. Also, the Mortgage Loans originated by RegioBank do not provide for the Bank Security Rights to follow the Mortgage Receivables upon the assignment or pledge thereof. Consequently, there is no clear indication of the intention of the parties. The Issuer and the CBC have been advised that also in such case the Bank Security Right should (partially) follow the receivable as accessory and ancillary right upon its assignment, but that there is no case law explicitly supporting this advice and that, consequently, it is not certain what the Dutch courts would decide if this matter were to be submitted to them, particularly taking into account the prevailing view of Dutch legal commentators on Bank Security Rights in the past as described above, which view continues to be defended by some legal commentators.

The above applies *mutatis mutandis* in the case of the pledge of the Mortgage Receivables by the CBC to the Security Trustee under the Security Trustee Receivables Pledge Agreement. However, the Mortgage Conditions in respect of (i) the Mortgage Loans originated by SNS Bank before the end of 2005 (other than those originated by former BLG Hypotheekbank N.V.) and (ii) the Mortgage Loans originated by former BLG Hypotheekbank N.V. and RegioBank do not provide that in case of a pledge of the Relevant Mortgage Receivable the Mortgage will (partially) follow the Relevant Mortgage Receivable. Therefore, there is no clear indication of the intention of the parties and, consequently, the view expressed above does not apply to the pledge of the relevant Mortgage Receivables. However, a good argument can be made that the intention of the parties in case of an assignment of the Mortgage Receivable also includes the intention in case of a pledge of such Mortgage Receivable. Even if the Mortgage Conditions do not provide a clear indication on the intentions of the parties in case of pledge, the Issuer and the CBC have been advised that the Security Trustee as pledgee should have the benefit of the Mortgage as accessory and ancillary right upon notification of the assignment of the Mortgage Receivables to the CBC and the pledge to the Security Trustee. It should be noted, however, that there is no case law explicitly supporting this view. Therefore, it is not certain what the Dutch courts would decide if the matter were to be submitted to them, particularly taking into account the prevailing view of Dutch legal commentators on Bank Security Rights in the past, which view continues to be defended by some legal commentators.

Furthermore, it is noted that if the CBC or the Security Trustee, as the case may be, does not have the benefit of the Mortgage, it also will not be entitled to claim under the related NHG Guarantee.

Risk related to jointly-held Bank Security Rights by the relevant Originator, the CBC and the Security Trustee

If the Bank Security Rights have (partially) followed the Mortgage Receivables upon their assignment, the Bank Security Rights will be jointly-held by the CBC (or the Security Trustee, as pledgee) and the relevant Originator and will secure both the relevant Mortgage Receivables held by the CBC (or the Security Trustee, as pledgee) and any claims held by the relevant Originator vis-à-vis the relevant Borrower (the "Other Claims"). This will not apply to the Mortgages securing the Mortgage Loans originated by SNS Bank before the end of 2005 and the Mortgage Loans originated by former BLG Hypotheekbank N.V., since the relevant mortgage deeds relating to those Mortgage Loans provide that following assignment or pledge of the Mortgage Receivable the Mortgage no longer secures such Other Claims.

Where Bank Security Rights are jointly-held by both the CBC or the Security Trustee and the relevant Originator, the rules applicable to a joint estate ("*gemeenschap*") apply. The Dutch Civil Code provides for various mandatory rules applying to such jointly-held rights. In the Guarantee Support Agreement each Originator, the CBC and the Security Trustee have agreed that the CBC and/or the Security Trustee (as applicable) will manage and administer such jointly-held rights. Certain acts, including acts concerning the day-to-day management ("*beheer*") of the jointly-held rights, may under Dutch law be transacted by each of the participants ("*deelgenoten*") in the jointly-held rights. All other acts must be transacted by all of the participants acting together in order to bind the jointly-held rights. It is uncertain whether the foreclosure of the Bank Security Rights will be considered as day-to-day management, and, consequently it is uncertain whether the consent of the relevant Originator, the relevant Originator's bankruptcy trustee ("*curator*") (in case of

bankruptcy) or administrator ("*bewindvoerder*") (in case of (preliminary) suspension of payments or emergency regulations), as the case may be, may be required for such foreclosure. Each Originator, the CBC and the Security Trustee have agreed that in case of foreclosure the share ("*aandeel*") in each jointly-held Bank Security Right of the Security Trustee and/or the CBC will be equal to the Outstanding Principal Amount of the Mortgage Receivable, increased with interest and costs, if any, and the share of the relevant Originator will be equal to the Net Proceeds less the Outstanding Principal Amount, increased with interest and costs, if any. The Issuer and the CBC have been advised that although a good argument can be made that this arrangement will be enforceable against the relevant Originator or, in case of its bankruptcy or emergency regulations, its bankruptcy trustee or administrator, as the case may be, this is not certain. Furthermore it is noted that this arrangement may not be effective against the Borrower.

If (a bankruptcy trustee or administrator of) the relevant Originator would, notwithstanding the arrangement set out above, enforce the jointly-held Bank Security Rights securing the relevant Mortgage Receivables, the CBC and/or the Security Trustee would have a claim against the relevant Originator (or, as the case may be, its bankruptcy estate) for any damages as a result of a breach of the contractual arrangements, but such claim would be unsecured and non-preferred.

Risk related to partial termination of the Bank Security Rights

The Guarantee Support Agreement provides that upon the occurrence of an Assignment Notification Event the relevant Originator is required to give notice to the Borrowers of partial termination of (i), in respect of SNS Bank, the Bank Security Rights securing the relevant Mortgage Receivable originated after the end of 2005 (other than the rights of pledge ("*pandrecht*") securing the relevant Mortgage Receivable, including a Borrower Insurance Pledge (each a "**Borrower Pledge**") vested on securities in respect of Investment-based Mortgage Loans (the "**Borrower Securities Pledges**")) and the Bank Pledges securing the relevant Mortgage Receivables originated before the end of 2005 (other than Borrower Insurance Pledges and the Borrower Securities Pledges) and (ii), in respect of former BLG Hypotheekbank N.V., the rights of pledge securing the relevant Mortgage Receivables and (iii) in respect of RegioBank, the Bank Security Rights securing the relevant Mortgage Receivables. As a consequence of such partial termination, the relevant Bank Security Rights will only secure the relevant Mortgage Receivables and the joint estate (see *Risk related to jointly-held Bank Security Rights by the Originator, the CBC and the Security Trustee*) will be terminated. The Issuer and the CBC have been advised that each Originator can effectively partially terminate the Bank Security Rights in this manner, but that there is no case law supporting this opinion.

Each Originator's undertaking to partially terminate the Bank Security Rights is no longer enforceable if such Originator would be declared bankrupt or becomes subject to emergency regulations. The co-operation of the relevant Originator's administrator (in case of (preliminary) suspension of payments or emergency regulations) or bankruptcy trustee (in case of bankruptcy) would be required for such act and it is not certain whether such co-operation will be forthcoming. Also, the power of attorney given to the CBC and the Security Trustee, respectively, to effectuate such partial termination on behalf of the relevant Originator would terminate or become ineffective in such event. Also, a notice of partial termination received by the Borrower after the relevant Originator has been declared bankrupt or subject to (preliminary) suspension of payments or emergency regulations, will not be effective.

Risk that the Mortgages on long leases cease to exist

The Mortgages securing the Mortgage Loans may be vested on a long lease ("*erfpacht*"), as further described in *Originators and Residential Mortgage Business* below. A long lease will, *inter alia*, end as a result of expiration of the long lease term (in the case of a lease for a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease if the leaseholder has not paid the remuneration due for a period exceeding two consecutive years or seriously breaches ("*in ernstige mate tekortschiet*") other obligations under the long lease. If the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the Mortgage will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder on the landowner for such compensation. The amount of the compensation will, *inter alia*, be terminated by the conditions of the long lease and may be less than the market value of the long lease.

When underwriting a Mortgage Loan to be secured by a Mortgage on a long lease, the relevant Originator will

take into consideration certain conditions, in particular the term of the long lease. Therefore, the mortgage conditions used by each Originator provide that the principal sum of a Mortgage Receivable, including interest, will become immediately due and payable, *inter alia*, if the long lease terminates or if the lease holder materially breaches the conditions of the long lease.

Risk that Borrower Insurance Pledges will not be effective

All rights of a Borrower under the Insurance Policies have been pledged to the relevant Originator (the "**Borrower Insurance Pledge**"). The Issuer and the CBC have been advised that it is probable that the right to receive payment, including the commutation payment ("*afkoopsom*"), under the Insurance Policies will be regarded by a Dutch court as a future right. The pledge of a future right is, under Dutch law, not effective if the pledgor is declared bankrupt, granted a suspension of payments or is granted a statutory debt adjustment ("*schuldsanering*"), prior to the moment such right comes into existence. This means that it is uncertain whether such pledge will be effective. The Borrower Insurance Pledge secures the same liabilities as the Bank Security Rights (and should therefore be regarded as Bank Pledges). The conditions applicable to the Borrower Insurance Pledges do not provide that in case of assignment or pledge of the receivable, the pledge will (partially) follow such receivable. Consequently, there is no clear indication of the intention of the parties. However, the CBC has been advised that, based upon recent legal literature the Borrower Insurance Pledges should partially follow the Mortgage Receivables upon their assignment and pledge (see *Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the CBC* above).

Risks relating to Beneficiary Rights under the Insurance Policies

The relevant Originator has been appointed as beneficiary under the relevant Insurance Policy (the "**Beneficiary Rights**"), except that in certain cases another beneficiary is appointed who will rank ahead of the relevant Originator, provided that, *inter alia*, the relevant Insurance Company is irrevocably authorised by such beneficiary to pay the proceeds of the Insurance Policy to the relevant Originator (the "**Borrower Insurance Proceeds Instruction**"). The appointment as beneficiary must be accepted to become binding. The Issuer and the CBC have been advised that it is unlikely that the appointment of the relevant Originator as beneficiary will be regarded as an ancillary right and that it will follow the Mortgage Receivables upon assignment or pledge thereof to the CBC or the Security Trustee. However, in the form of the Borrower Insurance Pledge with respect to Life Insurance Policies used by SNS Bank as of 25 September 2000 and in the forms of mortgage deeds with respect to Savings Insurance Policies used by SNS Bank as of the end of 2005, any successor in title ("*rechtsopvolgers onder algemene en bijzondere titel*") is also appointed as beneficiary, which may, subject to the legal requirements for a valid assignment and subject to any requirements stipulated by the Life Insurance Policy, or Savings Insurance Policy, as the case may be, include the CBC upon the assignment. The Beneficiary Rights will be assigned by the relevant Originator to the CBC and will be pledged to the Security Trustee by the CBC (see *Description of Security* below). The assignment and pledge of the beneficiary rights must be notified to the relevant insurance company before becoming effective, which is obligatory, subject to certain exceptions upon an Assignment Notification Event. However, the Issuer and the CBC have been advised that it is uncertain whether this assignment and pledge will be effective.

The CBC and the Security Trustee will enter into a beneficiary waiver agreement (the "**Beneficiary Waiver Agreement**") with the Originators and the Insurance Savings Participant under which the relevant Originator, without prejudice to the rights of the CBC as assignee and the rights of the Security Trustee as pledgee and subject to the condition precedent of the occurrence of an Assignment Notification Event, waives its rights as beneficiary under the Savings Insurance Policies and appoints as first beneficiary (i) the CBC subject to the dissolving condition ("*ontbindende voorwaarde*") of a Security Trustee Pledge Notification Event and (ii) the Security Trustee under the condition precedent ("*opschortende voorwaarde*") of the occurrence of a Security Trustee Pledge Notification Event. It is, however, uncertain whether such waiver, and unlikely that such appointment, will be effective. In the event that such waiver and appointment are not effective in respect of the Savings Insurance Policies and, furthermore, in respect of the Life Insurance Policies, each Originator and, in respect of the Savings Insurance Policies, the Insurance Savings Participant has undertaken in the Beneficiary Waiver Agreement that they will use their best efforts upon the occurrence of an Assignment Notification Event to terminate the appointment of the relevant Originator as beneficiary under the Insurance Policies and to appoint the CBC or the Security Trustee, as the case may be, as first beneficiary under the Insurance Policies.

In the event that a Borrower Insurance Proceeds Instruction has been given, the relevant Originator and, in

respect of the Savings Insurance Policies, the Insurance Savings Participant, will in the Beneficiary Waiver Agreement undertake to use their best efforts following an Assignment Notification Event to withdraw the Borrower Insurance Proceeds Instruction in favour of the relevant Originator and to issue such instruction in favour of (i) the CBC subject to the dissolving condition ("*ontbindende voorwaarde*") of a Security Trustee Pledge Notification Event and (ii) the Security Trustee under the condition precedent ("*opschortende voorwaarde*") of the occurrence of a Security Trustee Pledge Notification Event. The termination and appointment of a beneficiary under the Insurance Policies and the withdrawal and the issue of the Borrower Insurance Proceeds Instruction will require the co-operation of all relevant parties involved. It is uncertain whether such co-operation will be forthcoming.

If the CBC or the Security Trustee, as the case may be, will not become beneficiary of the Insurance Policies or the assignment, pledge or the waiver of the Beneficiary Rights is not effective, any proceeds under the Insurance Policies will be payable to the relevant Originator or to another beneficiary rather than to the CBC or the Security Trustee, as the case may be. If the proceeds are paid to the relevant Originator, it will pursuant to the Guarantee Support Agreement be obliged to pay the amount involved to the CBC or the Security Trustee, as the case may be, if an Assignment Notification Event has occurred in respect of this Originator. If the proceeds are paid to the relevant Originator and the relevant Originator does not pay such amount to the CBC or the Security Trustee, as the case may be, e.g. in case of bankruptcy of the relevant Originator, or if the proceeds are paid to another beneficiary instead of the CBC or the Security Trustee, as the case may be, this may result in the amount paid under the Insurance Policies not being applied in reduction of the relevant Mortgage Receivables. This may lead to the Borrower invoking set-off or defences against the CBC or, as the case may be, the Security Trustee for the amounts so received by the relevant Originator or another beneficiary, as the case may be.

Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies

Under certain types of Mortgage Loans the relevant Originator has the benefit of rights under Life Insurance Policies and Savings Insurance Policies (together the "**Insurance Policies**") with Life Insurance Companies and the Insurance Savings Participant respectively (together the "**Insurance Companies**"). Under the Insurance Policies the Borrowers pay premium consisting of a risk element and a savings or investment element. The intention of the Insurance Policies is that at maturity of the relevant Mortgage Loan, the proceeds of the savings or investments can be used to repay the relevant Mortgage Loan, whether in full or in part. If any of the Insurance Companies is no longer able to meet its obligations under the Insurance Policies, for example as a result of bankruptcy or having become subject to emergency regulations, this could result in the amounts payable under the Insurance Policies either not, or only partly, being available for application in reduction of the relevant Mortgage Receivables. This may lead to the Borrowers trying to invoke set-off rights and defences which may have the result that the Mortgage Receivables will be, fully or partially, extinguished ("*teniet gaan*") or cannot be recovered for other reasons, which could lead to losses under the Covered Bonds.

As set out in *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* above, the Borrowers, other than Borrowers under Mortgage Loans originated by former BLG Hypotheekbank N.V., have waived their set-off rights, but it is uncertain whether such waiver is effective. With a view to further reducing the risk of set-off by Borrowers, the general conditions applicable to Mortgage Loans originated by SNS Bank after the end of 2005 have been changed to provide that the Borrower will not have the right to set off claims under insurance policies with obligations under mortgage loans and confirm that (i) the bank and the relevant insurance company are different legal entities and (ii) the rights and obligations under the insurance policies are independent from the rights and obligations under the mortgage loans. This provision provides arguments for a defence against Borrowers invoking set-off rights or other defences (see below), but it is uncertain whether this provision in the general conditions will be effective.

If the provisions described above are not effective and in respect of Mortgage Loans originated by former BLG Hypotheekbank N.V., the Borrowers will, in order to invoke a right of set-off, need to comply with the applicable legal requirements for set-off. One of these requirements is that the Borrower should have a claim, which corresponds to his debt to the same counterparty. The Insurance Policies are contracts between the relevant Insurance Company and the Borrowers. Therefore, in order to invoke a right of set-off, the Borrowers would have to establish that the relevant Originator and the relevant Insurance Company should be regarded as one legal entity or, possibly, based upon interpretation of case law, that set-off is allowed, even if the relevant Originator and the relevant Insurance Company are not considered as one legal entity, since the Insurance

Policies and the Mortgage Loans might be regarded as one inter-related legal relationship. Furthermore, the Borrowers should have a counterclaim that is due and payable. If the relevant Insurance Company is declared bankrupt or subject to emergency regulations, the Borrower will have the right unilaterally to terminate the Insurance Policy and to receive a commutation payment ("*afkoopsom*"). These rights are subject to the Borrower Insurance Pledge. However, despite this pledge, it could be argued that the Borrower will be entitled to invoke a right of set-off for the commutation payment, subject, however, to what is stated above under *Risk that Borrower Insurance Pledges will not be effective*. However, apart from the right to terminate the Insurance Policies, the Borrowers are also likely to have the right to dissolve the Insurance Policies and to claim restitution of premiums paid and/or supplementary damages. It is uncertain whether such claim is subject to the Borrower Insurance Pledge. If not, the Borrower Insurance Pledge would not obstruct a right of set-off in respect of such claim by the Borrowers.

Set-off vis-à-vis the CBC after notification of the assignment would be subject to the additional requirements for set-off after assignment being met (see *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* above). In the case of Insurance Savings Mortgage Loans (one of) these requirements is likely to be met, since it is likely that the Insurance Savings Mortgage Loans and the Savings Insurance Policies are to be regarded as one legal relationship. If the Insurance Savings Mortgage Loan and the Savings Insurance Policy are regarded as one legal relationship the assignment will not interfere with the set-off. The Issuer and the CBC have been advised that it is unlikely, however, that the Mortgage Loans and the Life Insurance Policies should be regarded as one legal relationship.

Even if the Borrowers cannot invoke a right of set-off, they may invoke defences vis-à-vis the relevant Originator, the CBC and/or the Security Trustee, as the case may be. The Borrowers will have all defences afforded by Dutch law to debtors in general. A specific defence one could think of would be based upon interpretation of the Mortgage Conditions and the promotional material relating to the Mortgage Loans. Borrower could argue that the Mortgage Loans and the Insurance Policies are to be regarded as one inter-related legal relationship and could on this basis claim a right of annulment or rescission of the Mortgage Loans or possibly suspension of their obligations thereunder. They could also argue that it was the intention of the Borrower, the relevant Originator and the relevant Insurance Company, at least they could rightfully interpret the Mortgage Conditions and the promotional materials in such manner, that the Mortgage Receivable would be (fully or partially) repaid by means of the proceeds of the relevant Insurance Policy and that, failing such proceeds being so applied, the Borrower is not obliged to repay the (corresponding) part of the Mortgage Receivable. Also, a defence could be based upon principles of reasonableness and fairness ("*redelijkheid en billijkheid*") in general, i.e. that it is contrary to principles of reasonableness and fairness for the Borrower to be obliged to repay the Mortgage Receivable to the extent that he has failed to receive the proceeds of the Insurance Policy. The Borrowers could also base a defence on "error" ("*dwalings*"), i.e. that the Mortgage Loans and the Insurance Policy were entered into as a result of "error". If this defence would be successful, this could lead to annulment of the Mortgage Loan, which would have the result that the CBC no longer holds the relevant Mortgage Receivable.

Mortgage Loans to which a Life Insurance Policy is connected

In respect of the risk of such set-off or defences being successful, as described above, if, in case of bankruptcy or emergency regulations of any of the Life Insurance Companies, the Borrowers/insured will not be able to recover their claims under their Life Insurance Policies, the Issuer and the CBC have been advised that, in view of the preceding paragraphs and the representation by each Originator that with respect to Mortgage Loans whereby it is a condition for the granting of the relevant Mortgage Loan that a Life Insurance Policy is entered into by the Borrower (i) a Borrower Insurance Pledge is granted on the rights under such policy in favour of the relevant Originator (see Mortgage Loan Criteria sub (ix)), (ii) the Mortgage Loan and the Life Insurance Policy are not offered as one product or under one name, and (iii) the Borrowers are free to choose the relevant Life Insurance Company, it is unlikely that a court would honour set-off or defences of the Borrowers, as described above, if the Life Insurance Company is not a group company of the relevant Originator within the meaning of Article 2:24b of the Dutch Civil Code. However, if the Life Insurance Company is (or on the date of origination was) a group company of the relevant Originator, the Issuer and the CBC have been advised that the possibility cannot be disregarded ("*kan niet worden uitgesloten*") that the courts will honour set-off or defences by the Borrowers.

Insurance Savings Mortgage Loans

In respect of Insurance Savings Mortgage Loans the Issuer and the CBC have been advised that there is a considerable risk ("*een aanmerkelijk risico*") that such a set-off or defence would be successful in view of, *inter alia*, the close connection between the Insurance Savings Mortgage Loan and the Savings Insurance Policy and the wording of the mortgage deeds relating to the Insurance Savings Mortgage Loans.

In respect of Insurance Savings Mortgage Loans which are subject to an Insurance Savings Participation, the Insurance Savings Participation Agreement will provide that should a Borrower invoke a defence, including but not limited to a right of set-off or counterclaim in respect of such Insurance Savings Mortgage Loan if, for whatever reason, the Insurance Savings Participant does not pay the insurance proceeds when due and payable, whether in full or in part, under the relevant Savings Insurance Policy and, as a consequence thereof, the CBC will not have received any amount outstanding prior to such event in respect of the relevant Insurance Savings Mortgage Receivable, the relevant Insurance Savings Participation of the Insurance Savings Participant will be reduced by an amount equal to the amount which the CBC has failed to receive. The amount of the Insurance Savings Participation is equal to the amounts of Savings Premium received by the CBC plus the accrued yield on such amount (see *Participation Agreements* below), provided that the Insurance Savings Participant will have paid all amounts equal to the amounts due under the Insurance Savings Participation Agreement to the CBC. Therefore, normally the CBC will not suffer any damages if the Borrower would invoke any such set-off or defence, if and to the extent that the amount for which the Borrower would invoke set-off or defences does not exceed the amount of the Insurance Savings Participation. However, the amount for which the Borrower can invoke set-off or defences may, depending on the circumstances, exceed the amount of the Insurance Savings Participation. The remaining risk will be that if and to the extent that the amount for which a Borrower successfully invokes set-off or defences would exceed the relevant Insurance Savings Participation, such set-off or defences could result that the amount due by the Borrower will be reduced with such amount and could lead to losses under the Covered Bonds.

The Insurance Savings Participation Agreement does not apply to Savings Plus Mortgage Loans originated by SNS Bank to which a Savings Insurance Policy with the Investment Alternative is connected and the obligations under the Insurance Savings Participation Agreement are contingent upon the occurrence of an Assignment Notification Event.

Risk that interest rate reset rights will not follow Mortgage Receivables

The CBC has been advised that a good argument can be made that the right to reset the interest rate on the Mortgage Loans should be considered as an ancillary right and follows the Mortgage Receivables upon their assignment to the CBC and the pledge to the Security Trustee, but that in the absence of case law or legal literature this is not certain. To the extent the interest rate reset right passes upon the assignment of the Mortgage Receivables to the CBC or upon the pledge of the Mortgage Receivables to the Security Trustee, such assignee or pledgee will be bound by the contractual provisions relating to the reset of interest rates. If the interest reset right remains with the relevant Originator, the co-operation of the trustee (in bankruptcy) or administrator (in (preliminary) suspension of payments or emergency regulations) would be required to reset the interest rates.

Risk of set-off or defences in case of Mortgage Receivables resulting from Bank Savings Mortgage Loans

Each Bank Savings Mortgage Loan has the benefit of the balances standing to the credit of the relevant Bank Savings Account, which is held with the relevant Bank Savings Participant. If any of the Bank Savings Participants is no longer able to meet its obligations in respect of the relevant Bank Savings Account, for example as a result of bankruptcy, this could result in the balance standing to the credit of the relevant Bank Savings Account either not, or only partly, being available for application in reduction of the Mortgage Receivable. This may lead to the Borrower trying to invoke set-off rights and defences against the relevant Originator, the Issuer or the Security Trustee, as the case may be, which may have the result that the relevant Mortgage Receivables will be, fully or partially, extinguished ("*tenietgaan*") or cannot be recovered for other reasons.

As of 1 January 2014 the Bank Savings Deposit will be set-off with the relevant Bank Savings Mortgage Receivable by operation of law, if and when in respect of the relevant Bank Savings Participant (i) the DGS has been instituted by DNB, (ii) emergency regulations ("*noodregeling*") have been declared or (iii) bankruptcy

("faillissement") has been declared, irrespective of any rights of third parties, such as the Issuer, with respect to the Bank Savings Mortgage Receivable. In addition, in circumstances where the set-off by operation of law does not apply, since the Bank Savings Mortgage Loans have been originated by the relevant Bank Savings Participant as Originator, if the conditions for set-off by Borrowers have been met (see *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables*) each Borrower under such relevant Bank Savings Mortgage Loan will be entitled to set off amounts due by the relevant Originator under the Bank Savings Deposit, with the relevant Bank Savings Mortgage Receivable.

With a view to these risks the CBC, the Security Trustee and each Bank Savings Participant have entered into Bank Savings Participation Agreements. The obligations under the Bank Savings Participation Agreement are contingent upon the occurrence of an Assignment Notification Event. The Bank Savings Participation Agreement provides that should a Borrower invoke a defence, including but not limited to a right of set-off or counterclaim in respect of such Bank Savings Mortgage Loan if, for whatever reason, the relevant Bank Savings Participant does not pay the amount when due and payable, whether in full or in part, under the relevant Bank Savings Deposit and, as a consequence thereof, the CBC will not have received any amount outstanding prior to such event in respect of the relevant Bank Savings Mortgage Receivable, the relevant Bank Savings Participation of the relevant Bank Savings Participant will be reduced by an amount equal to the amount which the CBC has failed to receive. The amount of the Bank Savings Participation is equal to the amounts of Bank Savings Deposit received by the CBC plus the accrued yield on such amount (see *Participation Agreements* below), provided that the Bank Savings Participant will have paid all amounts equal to the amounts due under the Bank Savings Participation Agreement to the CBC. Therefore, normally the CBC would not suffer any damages if the Borrower would invoke any such right of set-off or defences, if and to the extent that the amount for which the Borrower would invoke set-off or defence does not exceed the amount of the relevant Bank Savings Participation. The amount for which the Borrower can invoke set-off or defences may, depending on the circumstances, exceed the amount of the relevant Bank Savings Participation. The remaining risk will be that if and to the extent that the amount for which a Borrower successfully invokes set-off or defences would exceed the relevant Bank Savings Participation, such set-off or defences could lead to losses under the Covered Bonds.

Risk of set-off or defences in respect of investments under Investment-based Mortgage Loans

The Originators have represented that under the Investment-based Mortgage Loans the securities are purchased by a bankruptcy remote securities giro ("effectengiro"), a bank or an investment firm ("beleggingsonderneming") for the account of the Borrowers. These aforementioned institutions are by law obliged to ensure that these securities are held in custody by an admitted institution for Euroclear Netherlands if these securities qualify as securities as defined in the Dutch Securities Giro Transfer Act ("Wet giraal effectenverkeer", the "Wge") or, if they do not qualify as such, by a separate depository vehicle. The CBC has been advised that on the basis of this representation the relevant investments should be effectuated on a bankruptcy remote basis and that, in respect of these investments, the risk of set-off or defences by the Borrowers should not be relevant in this respect. However, if this is not the case and the investments were to be lost, this may lead to the Borrowers trying to invoke set-off rights or defences against the CBC on similar grounds as discussed under *Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies*.

Risk related to the value of investments under Investment-based Mortgage Loans or Life Insurance Policies

The value of investments made under the Investment-based Mortgage Loans or by one of the Life Insurance Companies in connection with the Life Insurance Policies or by the Insurance Savings Participant in connection with the Insurance Savings Mortgage Loans to which a Savings Insurance Policy with the Investment Alternative is connected, may not be sufficient for the Borrower to fully redeem the related Mortgage Receivables at its maturity.

Risks related to offering of Investment-based Mortgage Loans and Life Insurance Policies or Savings Insurance Policies with the Investment Alternative

Apart from the general obligation of contracting parties to provide information, there are several provisions of Dutch law applicable to offerors of financial products, such as Investment-based Mortgage Loans and Mortgage Loans to which Life Insurance Policies or Savings Insurance Policies with the Investment Alternative are

connected. In addition, several codes of conduct apply on a voluntary basis. On the basis of these provisions offerors of these products (and intermediaries) have a duty, *inter alia*, to provide the customers with accurate, complete and non-misleading information about the product, the costs and the risks involved. These requirements have become more strict over time. A breach of these requirements may lead to a claim for damages from the customer on the basis of breach of contract or tort or the relevant contract may be dissolved ("*ontbonden*") or nullified or a Borrower may claim set-off or defences against the relevant Originator or the CBC (or the Security Trustee). The merits of such claims will, to a large extent, depend on the manner in which the product was marketed and the promotional material provided to the Borrower. Depending on the relationship between the offeror and any intermediary involved in the marketing and sale of the product, the offeror may be liable for actions of the intermediaries which have led to a claim. The risk of such claims being made increases, if the value of investments made under Investment-based Mortgage Loans or Life Insurance Policies or Savings Insurance Policies with the Investment Alternative is not sufficient to redeem the relevant Mortgage Loans.

In the case of Investment-based Mortgage Loans originated by former BLG Hypotheekbank N.V., Investment Firms provide for certain services, for example for investment advice or investment management services to the Borrowers. The Borrower may hold an Investment Firm liable if it does not meet its obligations towards the Borrower as investment adviser or investment manager, for example with respect to any investment advice or investment management services provided by such Investment Firm. In particular liability could arise if the sum of the investments is not sufficient to repay the Investment-based Mortgage Loan at maturity. Although SNS Bank has no contractual obligation to provide investment advice or investment management services to the Borrower, it cannot be excluded that the Borrower may hold SNS Bank liable for the non-fulfilment of the obligations of the Investment Firm and invoke set-off or defences similar to those described under *Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies*.

Since 2006, an issue has arisen in the Netherlands regarding the costs of investment insurance policies ("*beleggingsverzekeringen*"), such as the Life Insurance Policies or Savings Insurance Policies with the Investment Alternative, commonly known as the "usury insurance policy affair" ("*woekerpolisaffaire*"). It is generally alleged that the costs of these products are disproportionately high, that in some cases a legal basis for such costs is lacking and that the information provided to the insured regarding these costs has not been transparent. On this topic there have been (i) several reports, including reports from the AFM, (ii) a letter from the Minister of Finance to the Dutch Parliament and (iii) a recommendation, at the request of the Minister of Finance, by the Financial Services Ombudsman to insurers to compensate customers of investment insurance policies for costs exceeding a certain level. Furthermore, there have been press articles and press releases stating (i) that individual law suits and class actions may be, and have been, started against individual insurers and (ii) that certain individual insurers have reached agreement with claimant organisations on compensation of its customers for the costs of investment insurance policies entered into with the relevant insurer. The discussion on the costs of the investment insurance policies is currently still continuing, since consumer tv-shows and "no-win, no fee" legal advisors argue that the agreements reached with claimant organisations do not offer adequate compensation. Rulings of courts, including the Dutch Supreme Court ("*Hoge Raad der Nederlanden*") and the Complaint Institute for Financial Services ("*Klachteninstituut Financiële Dienstverlening*") have been published, some of which are still subject to appeal, which were generally favourable for consumers. While earlier attention mainly focused on the compensation of costs, Dutch insurers now see an increase in investment insurance policies complaints/claims based on different grounds.

In this respect the European Court of Justice recently rendered a decision on an individual case related to unit-linked products. Although the insurer complied with the applicable rules of public law, the policyholder believed he should have received additional information from the insurance company on individual costs and the risk premiums. The European Court of Justice ruled that the relevant Member State should implement the obligation to provide additional information provided for in national legislation, however, any additional information Member States may require must be clear, accurate and necessary for a proper understanding of the essential characteristics of the insurance product proposed to the policyholder, in order to guarantee the insurance companies a sufficient level of legal certainty.

Accordingly, it is for the Member State concerned to determine, on the basis of the characteristics of its legal order and the specific features of the situation which it seeks to regulate, the legal basis of the obligation to provide additional information in order to ensure both effective understanding by the policyholder of the

essential elements of the insurance products proposed to him and a sufficient level of legal certainty. The national court should assess whether the 'open and/or unwritten rules' at issue meet the requirements to provide additional information.

Moreover, in the Netherlands, there is increased discussion and litigation regarding the disclosure of contingent costs, commissions and premiums and other transparency issues. As for the mortgage lending business, the discussion in particular concerns the duty of care ("*zorgplicht*") and pricing of mortgage loans.

If Life Insurance Policies or Savings Insurance Policies with the Investment Alternative related to the Mortgage Loans would for the reasons described in this paragraph be dissolved or nullified, this will affect the collateral granted to secure these Mortgage Loans (the Borrower Insurance Pledges and the Beneficiary Rights would cease to exist). The Issuer and the CBC have been advised that, depending on the circumstances involved, in such case the Mortgage Loans connected thereto can possibly also be dissolved or nullified, but that this will depend on the particular circumstances involved. Even if the Mortgage Loan is not affected, the Borrower/policy holder may invoke set-off or other defences against the CBC. The analysis in that situation is similar to the situation of insolvency of the insurer (see *Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies*), except if the relevant Originator is itself liable, whether jointly with the insurer or separately, vis-à-vis the Borrower/policy holder. In this situation, which may depend on the involvement of the relevant Originator in the marketing and sale of the insurance policy, set-off or defences against the CBC may be invoked, which will probably only become relevant if the insurer and/or the relevant Originator will not indemnify the Borrower. Any such set-off or defences could thus affect the proceeds under the Mortgage Receivables.

No investigations in relation to the Mortgage Loans and the Mortgaged Assets

None of the CBC, the Security Trustee, the Arrangers, the Dealers or any other person has undertaken or will undertake an independent investigation, searches or other actions to verify the statements of the any of the Originators each concerning itself, the Mortgage Loans, the Mortgage Receivables and the Mortgaged Assets. The CBC and the Security Trustee will rely solely on the Representations and Warranties of the relevant Originator.

The Transferor shall repurchase and request the retransfer of a Mortgage Receivable from the CBC if a material breach of the Mortgage Receivables Warranties occurs on or appears after the relevant Transfer Date in respect of such Mortgage Receivable (see section 10 (Retransfers)). Should the relevant Originator fail to take the appropriate action, this may have an adverse effect on the ability of the Issuer to make payments under the Covered Bonds.

Valuation may not accurately reflect the value or condition of the Mortgaged Assets

In general, valuations represent the analysis and opinion of the person performing the valuation at the time the valuation is prepared and are not guarantees of, and may not be indicative of, present or future value. There can be no assurance that another person would have arrived at the same valuation, even if such person used the same general approach to and same method of valuing the property.

The valuations obtained in connection with the origination of the Mortgage Loans sought to establish the amount a typically motivated buyer would pay a typically motivated seller at the time they were prepared. Such amount could be significantly higher than the amount obtained from the sale of a Mortgaged Asset under a distressed or liquidation sale. In addition, in many real estate markets, including in the Netherlands, property values may have declined since the time the valuations were obtained, and therefore the valuations may not be an accurate reflection of the current Market Value of the Mortgaged Assets. The current market value of the Mortgaged Assets could be lower than the values indicated in the appraisals obtained at the origination of the Mortgage Loans. In addition, differences exist between valuations due to the subjective nature of valuations and appraisals, particularly between different appraisers performing valuations at different points in time.

Risks associated with defaults by Borrowers and declining values of Mortgaged Assets

Payments on the Mortgage Receivables and other asset are subject to credit, liquidity and interest rate risks. This may in respect of Mortgage Receivables be due to, among other things, market interest rates, general economic conditions, the financial standing of Borrowers and similar factors. Other factors such as loss of earnings,

illness, divorce and other similar factors may lead to an increase in delinquencies and bankruptcy filings by Borrowers and could ultimately have an adverse impact on the ability of Borrowers to repay their Mortgage Receivables.

No assurance can be given that values of the Mortgaged Assets have remained or will remain at the level at which they were on the date of origination of the related Mortgage Loans. For example, house prices in the Netherlands have, fluctuated in the recent years (see in this respect section 11 *Overview of the Dutch Residential Mortgage Market*). If the CBC is required to pay under the Guarantee, a decline in value may result in losses to the Covered Bondholders if the relevant security rights on the Mortgaged Assets are required to be enforced. The relevant Originator will not be liable for any losses incurred by the Covered Bondholders, or for any deficiency incurred by the CBC as a result of such decline in value in connection with the relevant Mortgage Loans. As set forth herein, however, Defaulted Receivables will be excluded from the calculation of the Asset Cover Test and the Amortisation Test.

Limited description of the Transferred Assets

The constitution of the Transferred Assets may constantly change. Therefore, the information received by Covered Bondholders may not reflect all and/or the most recent statistics or information in relation to the Transferred Assets. However, each Eligible Receivable and Substitution Asset will be required to meet the applicable eligibility criteria and the Representations and Warranties set out in the Guarantee Support Agreement (although such eligibility criteria and Representations and Warranties may change in certain circumstances).

Risks in respect of NHG Guarantees

Mortgage Loans may have the benefit of a guarantee, a "*Nationale Hypotheek Garantie*" ("**NHG Guarantee**") issued by the WEW. Pursuant to the terms and conditions ("*voorwaarden en normen*") applicable to the NHG Guarantee, the WEW has no obligation to pay any loss (in whole or in part) incurred by a lender after a private or a forced sale of the mortgaged property if such lender has not complied with the terms and conditions of the NHG Guarantee. Each Originator will in the Guarantee Support Agreement represent and warrant that (i) each NHG Guarantee connected to a Mortgage Receivable which has been transferred as having the benefit of a NHG Guarantee (each an "**NHG Mortgage Receivable**"), constitutes legal, valid and binding obligations of the WEW, enforceable in accordance with its terms, (ii) all terms and conditions applicable to the NHG Guarantee at the time of origination of the Mortgage Loan were complied with and (iii) the relevant Originator is not aware of any reason why any claim under any NHG Guarantee should not be met in full and in a timely manner.

The terms and conditions of the NHG Guarantee stipulate that the NHG Guarantee will terminate upon expiry of a period of thirty years after the issue of the NHG Guarantee. Mortgage Loans may have a maturity date which falls after the expiry date of the relevant NHG Guarantee. This will result in the Issuer, CBC or Security Trustee, as the case may be, not being able to claim for payment with the WEW of a loss incurred after the term of the NHG Guarantee has expired.

Furthermore, the terms and conditions of the NHG Guarantees stipulate that each NHG Guarantee (irrespective of the type of redemption of the mortgage loan) is reduced on a monthly basis by an amount which is equal to the amount of the monthly repayments plus interest as if the mortgage loan were to be repaid on a thirty year annuity basis. The actual redemption structure of a Mortgage Loan can be different. This may result in the Issuer, CBC or Security Trustee, as the case may be, not being able to fully recover a loss incurred with the WEW.

In view of government tax measures described below, annuity mortgage loans ("*annuïteitenhypotheek*") have become the standard. This will considerably reduce the risk described above. In alignment with this reduced risk, the Dutch government has introduced amendments to the NHG Conditions. In respect of NHG mortgage loans provided after 1 January 2014, the amount the mortgage provider can recover from the WEW in case of losses under a NHG mortgage loan will be 90 per cent. (instead of 100 per cent.) of the total loss under the relevant NHG mortgage loan.

Changes to the acceptance conditions of the Originators

Each of the Mortgage Loans originated by each Originator will have been originated in accordance with its

acceptance conditions at the time of origination. It is expected that each Originator's acceptance conditions will generally consider type of Mortgaged Asset, term of loan, age of applicant, the loan-to-value ratio, mortgage indemnity guarantee policies, high loan-to-value fees, status of applicants and credit history. In the event of a transfer of relevant Mortgage Receivables by an Originator to the CBC, each Originator will warrant only that such relevant Mortgage Receivables were originated in accordance with such Originator's acceptance conditions applicable at the time of origination. Each Originator retains the right to revise its acceptance conditions from time to time, provided that it acts as a reasonable prudent lender. If the acceptance conditions change in a manner that affects the creditworthiness of the Mortgage Receivables, that may lead to increased defaults by Borrowers and may affect the realisable value of the Mortgage Receivables, or part thereof, and the ability of the CBC to make payments under the Guarantee. As set forth herein, however, Defaulted Receivables will be excluded from the calculation of the Asset Cover Test and the Amortisation Test.

However, some of the Mortgage Receivables may have been acquired by an Originator in the course of its business. Such Mortgage Receivables may not have been originated in accordance with the existing acceptance conditions of any of the Originators, but will as at the relevant Transfer Date qualify as an Eligible Receivable as long as such Mortgage Receivable meets the Eligibility Criteria.

New Originators

The Issuer may propose that any of its subsidiaries may become a new originator, each a "New Originator" and that such New Originator may transfer Eligible Assets to the CBC. However, such New Originator will only be permitted to become an Originator if the conditions precedent set out in the Programme Agreement relating to New Originators acceding to the Programme are met, including Rating Agency Confirmation.

Any Mortgage Receivables originated by a New Originator will have been originated in accordance with the acceptance conditions of the New Originator, which may differ from the acceptance conditions of Mortgage Receivables originated by the Originators. If the acceptance conditions differ in a way that affects the creditworthiness of the Mortgage Receivables, that may lead to increased defaults by Borrowers and may affect the realisable value of the relevant Mortgage Receivables or any part thereof or the ability of the CBC to make payments under the Guarantee.

Limited recourse to the Originators

The CBC will not, and the Security Trustee will not, undertake any investigations, searches or other actions on any Mortgage Receivable and will rely instead on the Mortgage Receivables Warranties given in the Guarantee Support Agreement by the relevant Originators in respect of the relevant Mortgage Receivables.

If any Mortgage Receivable does not materially comply with any of the Eligibility Criteria as at the Transfer Date of that Mortgage Receivable or is or becomes a Defaulted Receivable, then such Mortgage Receivables will be excluded from the Asset Cover Test and the Amortisation Test.

There is no further recourse to the relevant Originator in respect of a breach of a Mortgage Receivables Warranty. There is no other recourse to the assets of the Originators if an Issuer Event of Default occurs or a CBC Event of Default occurs (save as is generally the case insofar as the assets of the Issuer for its obligations under the Covered Bonds are concerned).

Changes to tax treatment of interest may impose various risks

The Dutch tax system allows borrowers to deduct, subject to certain limitations, mortgage interest payments for owner-occupied residences from their taxable income. The period allowed for deductibility is restricted to a term of 30 years. Since 2004, the tax deductibility of mortgage interest payments has been restricted under the so-called additional borrowing regulation ("*Bijleenregeling*"). On the basis of this regulation, if a home owner acquires a new home and realises a surplus value on the sale of his old home in respect of which interest payments were deducted from taxable income, the interest deductibility is limited to the interest that relates to an amount equal to the purchase price of the new home less the net surplus value realised in the sale of the old home. Special rules apply to moving home owners that do not or cannot (immediately) sell their previous home.

As of 1 January 2013, interest deductibility in respect of mortgage loans originated after 1 January 2013 is restricted and is only available in respect of mortgage loans which amortise over 30 years or less and are repaid

on at least an annuity basis.

In addition to these changes further restrictions on the interest deductibility have entered into force as of 1 January 2014. The tax rate against which the mortgage interest may be deducted will be gradually reduced as of 1 January 2014. For taxpayers in the highest income tax rate bracket the interest deductibility will be reduced by 0.5 per cent. per year as of 2014 (i.e. 51 per cent. in 2015) until the rate is equal to 38 per cent. in 2042.

These changes and any other or further changes in the tax treatment could ultimately have an adverse impact on the ability of Borrowers to pay interest and principal on their Mortgage Loans. In addition, changes in tax treatment may lead to different prepayment behaviour by Borrowers on their Mortgage Loans resulting in higher or lower prepayment rates of such Mortgage Loans. Finally, changes in tax treatment may have an adverse effect on the value of the Mortgaged Assets, see *Risks associated with defaults and declining values of Mortgaged Assets*.

RISKS FACTORS REGARDING ASSET MONITORING AND SERVICING

Maintenance of Transferred Assets

If the collateral value of the Transferred Assets has not been maintained in accordance with the terms of the Asset Cover Test or the Amortisation Test, then that may affect the realisable value of the Transferred Assets or any part thereof (both before and after the occurrence of a CBC Event of Default) and/or the ability of the CBC to make payments under the Guarantee.

Prior to the service of a Notice to Pay, the Asset Monitor will test the arithmetic of the calculations performed by the Administrator in respect of the Asset Cover Test once each year on the Calculation Date immediately preceding each anniversary of the Programme Date and more frequently in certain circumstances. Following the service of a Notice to Pay, the Asset Monitor will be required to test the calculations performed by the Administrator in respect of the Amortisation Test on each Calculation Date.

The Security Trustee shall not be responsible for monitoring compliance with, nor the monitoring of, the Asset Cover Test or the Amortisation Test or any other test, or supervising the performance by any other party of its obligations under any Relevant Document.

Sale or refinancing of Selected Mortgage Receivables

If the CBC is required to pay under the Guarantee, the CBC may be obliged to sell or refinance Selected Mortgage Receivables (selected on a random basis) in order to make funds available to the CBC to make payments to the CBC's creditors including to make payments under the Guarantee.

There is no guarantee that a buyer will be found for the Selected Mortgage Receivables nor assurance as to the price which may be obtained, which may affect payments under the Guarantee. In addition, the CBC will not be permitted to give warranties or indemnities in respect of Selected Mortgage Receivables (unless expressly permitted to do so by the Security Trustee). There is no assurance that the Originators would give any warranties or representations in respect of the Selected Mortgage Receivables. Any Representations or Warranties previously given by the Originators in respect of the relevant Mortgage Receivables may not have value for a third party purchaser if the Originators are then subject to any insolvency proceedings. Accordingly, there is a risk that the realisable value of the Selected Mortgage Receivables could be adversely affected by the lack of representations and warranties which in turn could adversely affect the ability of the CBC to meet its obligations under the Guarantee.

License requirement under the Wft

Under the Wft, as amended from time to time, which entered into force on 1 January 2007, a special purpose vehicle which services ("*beheert*") and administers ("*uitvoert*") loans granted to consumers, such as the CBC, must have a license under that Act. An exemption from the license requirement is available, if the special purpose vehicle outsources the servicing of the loans and the administration thereof to an entity holding a license under the Wft. The CBC has outsourced the servicing and administration of the Mortgage Loans to the Servicer. The Servicer holds a license as intermediary ("*bemiddelaar*") and offeror of credit ("*aanbieder van krediet*") under the Wft and the CBC thus benefits from the exemption. However, if the Servicing Agreement is

terminated, the CBC will need to outsource the servicing and administration of the Mortgage Loans to another licensed entity or it needs to apply for and hold a license itself. In the latter case, the CBC will have to comply with the applicable requirements under the Wft. If the Servicing Agreement is terminated and the CBC has not outsourced the servicing and administration of the Mortgage Loans to a licensed entity and, in such case, it will not hold a license itself, the CBC will have to terminate its activities and settle ("*afwickelen*") its existing agreements.

Not all risks are deducted from the Asset Cover Test

As the Asset Cover Test and the Amortisation Test are composed of multiple tests, not all tests included therein provide for deduction of certain risks in the manner described herein. In particular certain set-off risks and other risks which are deducted from the Adjusted Aggregate Asset Amount are not deducted for the purpose of the calculation of the First Regulatory Current Balance Amount and the Second Regulatory Balance Amount. Therefore, the First Regulatory Current Balance Amount and the Second Regulatory Balance Amount do not include a deduction in respect of these risks. Where in the risk factors it is stated that such risks are to be deducted from the Asset Cover Test and/or the Amortisation Test, this means that these will be deducted from the Adjusted Aggregate Asset Amount and/or Amortisation Test Aggregate Asset Amount and does not mean that these are deducted from the First Regulatory Current Balance Amount and the Second Regulatory Balance Amount.

RISKS FACTORS REGARDING SWAPS

Risk related to the mismatches between income and liabilities and termination of a Swap Agreement

Variances are possible in (i) the rates of interest and/or the currency of the interest and/or principal payable on the Mortgage Receivables (which may, for instance, include variable rates of interest, discounted rates of interest, fixed rates of interest or rates of interest which track a base rate), the other Transferred Assets and the GIC Accounts and (ii) the rate of interest and/or the currency of the interest and/or principal payable on the outstanding Covered Bonds. The CBC will provide, to a certain extent, a hedge against these variances (and certain other variances) by entering into the Total Return Swap Agreement, the Standby Total Return Swap Agreements and, where applicable, Interest Rate Swap Agreements and Structured Swap Agreements. If Portfolio Tests are implemented as an alternative to the Total Return Swap Agreement or any Standby Total Return Swap Agreement, then the Total Return Swap Agreement and the relevant Standby Total Return Swap Agreement may be terminated. If an alternative hedging strategy is put in place, then the Total Return Swap Agreement and the Standby Total Return Swap Agreements may be terminated and the CBC will be required to enter into derivatives transactions to comply with such alternative hedging strategy.

The CBC will not provide a hedge against all variances in income and liabilities. The CBC will receive a rate equal to EURIBOR for one month deposits under the Total Return Swap Agreement or the Standby Total Return Swap Agreements, as the case may be, whilst it may be required to pay a rate equal to EURIBOR for deposits with a term other than one month under a Series or an Interest Rate Swap Agreement or a Structured Swap Agreement. This follows from the CBC not being obliged to enter into nor SNS Bank being obliged to procure that the CBC enters into an Interest Rate Swap Agreement (nor a Structured Swap Agreement), if a Series denominated in Euro bears an interest rate equal to EURIBOR for one month deposits, three month deposits, six month deposits or deposits with another floating term (if applicable). If the CBC enters into an Interest Rate Swap Agreement or a Structured Swap Agreement, the CBC has a choice to set the rate payable by it under the Interest Rate Swap Agreement or the Structured Swap Agreement, as applicable, at EURIBOR for one month deposits or EURIBOR for three month deposits. Therefore there may be a risk that the CBC has to pay a higher rate on a Series or to a Swap Counterparty, than the rate it receives under the Total Return Swap Agreement or the Standby Total Return Swap Agreements, as the case may be.

A Swap Counterparty will be obliged to make payments under the relevant Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the relevant Swap Counterparty will be required to pay such additional amount necessary to ensure that the net amount actually received by the CBC will equal the full amount that the CBC would have received had no such withholding or deduction been required. The relevant Swap Agreement will provide, however, that if due to (i) action taken by a relevant taxing authority or brought in a court of competent jurisdiction, or (ii) any change in tax law, in both cases after the date of the relevant Swap Agreement, the relevant Swap Counterparty

will, or there is a substantial likelihood that it will, be required to pay to the CBC additional amounts for or on account of tax (a "**Tax Event**"), the relevant Swap Counterparty may (with the consent of the CBC and subject to Rating Agency Confirmation) transfer its rights and obligations to another of its offices, branches or affiliates to avoid the relevant Tax Event. If the relevant Swap Counterparty is unable to transfer its rights and obligations under the relevant Swap Agreement to another office, branch or affiliate, it will have the right to terminate the relevant Swap Agreement. Upon such termination, the CBC or the relevant Swap Counterparty may be liable to make a termination payment to the other party.

A Swap Agreement will be terminable by one party if - *inter alia*- (i) an event of default (as defined therein) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the relevant Swap Agreement or (iii) a CBC Acceleration Notice is served. Events of default under the Swap Agreements in relation to the CBC will be limited to (i) non-payment under the relevant Swap Agreement and (ii) insolvency events. If the relevant Swap Agreement terminates the CBC will be exposed to changes in the relevant rates of interest and to various other mismatches associated with, for example Covered Bonds issued in a currency other than euro. As a result, unless a replacement swap is entered into, the CBC may have insufficient funds to make payments under the Guarantee, if it is required to pay there under.

To enable the CBC to hedge its exposure arising from any Series (x) denominated in a currency other than euro or (y) denominated in euro but bearing non-EURIBOR interest, SNS Bank will in accordance with the Swap Undertaking Letter be required to enter into (where applicable complying with appropriate collateralisation requirements) or procure a third party that is an Eligible Swap Counterparty to enter into Interest Rate Swaps and Structured Swaps with the CBC in respect of such Series of Covered Bonds.

On 13 March 2014, Moody's lowered the long-term deposit rating of RBS to Baa1 (from A3) with a negative outlook. Its short-term rating remained P-2. As a result thereof RBS did not meet the rating requirements of Moody's set forth in items (a) and (c) of the definition of Eligible Swap Counterparty at the time. As a result of the downgrade of RBS each of the Issuer as Total Return Swap Counterparty under the Total Return Swap Agreement and RBS as Standby Total Return Swap Provider under the Standby Total Return Swap Agreement and as the Interest Rate Swap Counterparty under its Interest Rate Swap Agreement, must take or continue to take certain mitigant actions. Such actions include the provision of additional collateral under the relevant Credit Support Annex to the CBC in accordance with the criteria of Moody's upon loss of the second trigger required rating, provided that the exposure of the CBC on the Issuer and/or RBS is greater than zero. In connection with the downgrade, the Issuer, the CBC, the Security Trustee and RBS, as applicable, entered into an amended Total Return Swap Agreement on 3 September 2014, an amended Interest Rate Swap Agreement on 3 September 2014 and an amendment agreement to the Novation Agreement on 3 September 2014 pursuant to which the second trigger required ratings are lowered to avoid being required to replace the Issuer as Total Return Swap Counterparty or RBS as the Standby Total Return Swap Provider and Interest Rate Swap Provider. Thereafter, Moody's upgraded the long-term deposit rating of RBS to A3 (from Baa1) with a stable outlook. See section *Standby Total Return Swap* in chapter 17 of the Base Prospectus.

Termination payments under Swap Agreements

If a Swap Agreement terminates, then the CBC may be obliged to make a termination payment to the relevant Swap Counterparty. There can be no assurance that the CBC will have sufficient funds available to make such a termination payment, nor can there be any assurance that the CBC will be able to enter into a replacement swap agreement, or if one is entered into, that the credit rating of the replacement swap counterparty will be sufficiently high to prevent a downgrade of the then current ratings of the Covered Bonds by the Rating Agencies.

If the CBC is obliged to pay a termination payment under any Swap Agreement, such termination payment will in most cases (see the applicable priority of payments) rank ahead of amounts due on the Covered Bonds except where default by, or downgrade of, the relevant Swap Counterparty has caused the relevant Swap Agreement to terminate. The obligation to make a termination payment other than arising from default by, or downgrading of, the Swap Counterparty, may adversely affect the ability of the CBC to meet its obligations under the Guarantee.

Risks relating to the Standby Total Return Swap Agreements

The notional amount of the Standby Total Return Swaps is capped by reference to the Standby TRS Calculation

Amount in respect of each CBC Payment Date. Accordingly, a portion of the Total Pool Assets may be left unhedged by the Standby Total Return Swaps (should novation occur). Furthermore, as the Standby TRS Calculation Amount may be reduced (but may not be increased without the consent of the relevant Standby Swap Provider) following the Novation Trigger Date, the portion of the Total Pool Assets left unhedged by the combined Standby Total Return Swaps may increase over time. Any risks left unhedged or uncatered for in respect of any portion of the Total Pool Assets will be borne by all the Covered Bondholders (including the holders of the Specified Bonds).

Risks relating to the Novation Agreements

If any Novation Agreement is terminated prior to the occurrence of the Novation Trigger Date, the relevant Standby Total Return Swap Agreement will not become effective and will fall away. This may lead to adverse ratings action being taken by the Ratings Agencies in respect of the Covered Bonds, unless the CBC or the relevant Total Return Swap Provider is able to implement other remedial measures in accordance with the requirements or applicable criteria of the Rating Agencies.

There can be no guarantee that, if any Novation Agreement terminates and the relevant Standby Total Return Swap Agreement falls away, the CBC will be able to enter into a replacement standby total return swap agreement or, if it does, as to the ratings of the replacement standby total return swap provider and the terms of such replacement standby total return swap agreement.

Risks relating to new issuances of Covered Bonds

The notional amount of the Standby Total Return Swaps will not automatically increase to reflect any new issuance of Covered Bonds or any addition of Mortgage Receivables and/or Transferred Collateral after the Novation Trigger Date. Each Standby Total Return Swap Provider would have to agree to any increase of the notional amount of the relevant Standby Total Return Swap in connection with an issue of Covered Bonds and/or to agree to an existing or a new Standby Total Return Swap Provider hedging such new Covered Bonds, in order to hedge the increase in the notional amount. There can be no guarantee that the CBC will be able to agree with the existing Standby Total Return Swap Provider to increase the notional amount of the relevant Standby Total Return Swap or to enter into additional standby total return swap arrangements and/or implement adequate portfolio tests in connection with any such new issuance and/or addition of Mortgage Receivables and/or Transferred Collateral. Even if additional standby total return swap arrangements and/or portfolio tests are implemented, there can be no guarantee that all of the Total Pool Assets will be hedged pursuant to a standby total return swap (or similar) or be otherwise catered for by way of Portfolio Tests. Any risks left unhedged or uncatered for in respect of any portion of the Total Pool Assets will be borne by all the Covered Bondholders (including the holders of the Specified Bonds).

Differences in timing of obligations of the CBC and Swap Counterparties

With respect to the Interest Rate Swaps and the Structured Swaps, the CBC (or the Issuer on its behalf) may be obliged to make monthly payments to the relevant Swap Counterparty, whereas the relevant Swap Counterparty may not be obliged to make corresponding swap payments for up to twelve months. If the relevant Swap Counterparty does not meet its payment obligations to the CBC, the CBC may have a larger shortfall than it would have had if the relevant Swap Counterparty's payment obligations had coincided with CBC's payment obligations under the relevant Swap. Hence, the difference in timing between the obligations of the CBC and the relevant Swap Counterparty may affect the CBC's ability to make payments under the Guarantee.

Payments with respect to Covered Bonds, Interest Rate Swaps and Structured Swaps during a CBC Payment Period (other than on the CBC Payment Date on which the CBC Payment Period commences)

Following the service of an Issuer Acceleration Notice and a Notice to Pay (but prior to a CBC Acceleration Notice), pursuant to the Trust Deed, the Interest Available Amount and the Principal Available Amount (less any amounts payable to third parties incurred by the CBC in its ordinary course of its business, which may be paid on each day by the CBC) will be applied in accordance with the Post Issuer Acceleration Notice Priority of Payments on each CBC Payment Date, which date will occur monthly. Payments in respect of interest and principal on a Series of Covered Bonds and in respect of Interest Rate Swaps and Structured Swaps may however become due and payable on other days than on the relevant CBC Payment Date during a CBC Payment Period. Such amounts will be payable by the CBC on the date on which such payments become due and payable as follows:

- (i) in respect of a Series of Covered Bonds, to the extent that the CBC has entered into an Interest Rate Swap or Structured Swap with respect to such Series of Covered Bonds, from the amounts received under the relevant Swap Agreement connected to such Series after the CBC Payment Date on which the relevant CBC Payment Period commenced;
- (ii) from the amounts reserved in respect of such Series of Covered Bonds or such Swap Agreement pursuant to items (f) and (g), as applicable, of the Post Issuer Acceleration Notice Priority of Payments on the CBC Payment Date on which the relevant CBC Payment Period commenced; and
- (iii) in respect of a Series of Covered Bonds, to the extent not so paid in full following application of the funds available in accordance with (i) and (ii) above, from the amounts as were credited to the GIC Accounts in accordance with item (h) of the Post Issuer Acceleration Notice Priority of Payments on the CBC Payment Date on which the relevant CBC Payment Period commenced.

To the extent that the amounts under (i) (ii) and (iii) are insufficient to pay the amounts due, the CBC will be unable to meet its obligations with respect to such Series of Covered Bonds.

It is noted that, consequently, should a Swap Counterparty default in its obligation to pay the CBC under an Interest Rate Swap Agreement or a Structured Swap Agreement, and despite the relevant mitigants described above there are insufficient funds available pursuant to items (f) and (g) of the Post Issuer Acceleration Notice Priority of Payments, one or more Series which are subject to an Interest Rate Swap Agreement or a Structured Swap Agreement may not be paid, or not be paid in full during the relevant CBC Payment Period, whereas one or more other Series may be paid in full during that same CBC Payment Period.

Risks in relation to EMIR

EMIR entered into force on 16 August 2012. EMIR is part of the European implementation of the commitments made at the G-20 Pittsburgh summit of September 2009 with regard to over-the-counter (OTC) derivatives. In line with these commitments, EMIR aims to increase transparency regarding OTC derivatives, reduce counterparty credit risks under OTC derivative transactions and reduce operational risks in relation to those transactions. EMIR lays the ground for, amongst other things, the mandatory clearing of designated OTC derivatives between certain parties through a central counterparty (CCP), risk management of derivatives transactions that are not centrally cleared and the mandatory reporting of all exchange-traded and OTC derivatives to a trade repository. EMIR is a Level-1 regulation and requires secondary rules for full implementation of all elements. Some (but not all) of these secondary rules have been finalised and certain requirements under EMIR are already in effect. Requirements pertaining to risk management entered into force on 15 March 2013. The mandatory reporting of derivatives to a trade repository has taken effect on 12 February 2014.

The mandatory central clearing of OTC-derivatives will apply to the classes of OTC derivatives that have been declared subject thereto in RTS in the form of delegated regulations developed by ESMA and adopted by the European Commission. On 6 August 2015 the European Commission has adopted the first set of RTS, which makes central clearing mandatory for certain OTC interest rate derivative contracts (including certain interest rate swaps). On the basis of this RTS it is expected that the applicability of the clearing obligation in respect of such derivative contracts will be phased-in over three years, depending on the type of counterparty to such derivative contract, following entry into force of the RTS. The RTS as adopted by the European Commission are however subject to scrutiny by the European Parliament and the Council of the European Union, and the exact date of entry into force of the RTS is also not yet clear, it is however currently expected that the central clearing obligation for the eligible OTC interest rate derivative contracts under the RTS, for the first category of counterparties (in short: clearing members within the meaning of EMIR), will take effect as of Q2 2016.

The Issuer cannot predict with absolute certainty the impact of these new regulations and rules and which impact it may have on financial markets generally, or on the Issuer's business, financial position and results of operations. Certain aspects of EMIR and its application remain unclear. On the basis of the aforementioned RTS, it is expected that the class of derivative contracts (to be) entered into by the CBC for the purpose of hedging interest rate or currency mismatches in relation to the Covered Bonds will be exempted from the

clearing obligation. However, the applicability of the exemption depends, *inter alia*, on certain conditions of the relevant derivative contracts, the structure of the covered bond programme and compliance with relevant legislation. It is not yet certain whether the derivative contracts (to be) entered into by CBC for the purpose of hedging interest rate or currency mismatches in relation with the Covered Bonds will meet these conditions.

If the CBC is required to comply with certain obligations under EMIR which may give rise to additional costs and expenses for the CBC, this may in turn reduce amounts available to make payments with respect to the Covered Bonds. The CBC may also need to appoint a third party and/or incur costs and expenses to enable it to comply with the regulatory requirements imposed by EMIR particularly in relation to reporting, record-keeping and central clearing. Pursuant to Article 12 (3) of EMIR any failure by a party to comply with the rules under Title II of EMIR shall not make an OTC derivative contract invalid or unenforceable. However, if any party fails to comply with the rules under EMIR it may be liable for an incremental penalty payment or administrative fine. If any such penalty or fine is imposed on the Issuer and/or the CBC, the Issuer and/or the CBC may have insufficient funds to pay its liabilities in full.

RISKS FACTOR REGARDING CASHFLOWS

For as long as no Assignment Notification Event has occurred and no Notice to Pay or CBC Acceleration Notice has been served on the CBC, the Originators will be entitled to receive and retain the proceeds from the Transferred Assets for their own benefit. In addition, the Issuer will, as consideration for the CBC issuing the Guarantee, pay all costs and expenses of the CBC and make and receive all payments to be made or received by the CBC under any swap agreement. Upon the earlier to occur of an Assignment Notification Event and service of a Notice to Pay or CBC Acceleration Notice on the CBC, these rights of the Originators will terminate and the amounts received by the CBC will be applied in accordance with the relevant Priority of Payments (except that any collateral to be provided by a Swap Counterparty following its downgrade will be delivered to the CBC irrespective of whether any Assignment Notification Event has occurred or any Notice to Pay or CBC Acceleration Notice has been served at such time).

The Covered Bonds have not been approved or disapproved by the US Securities and Exchange Commission, any state securities commission or any other regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the accuracy or adequacy of this Base Prospectus. Any representation to the contrary is unlawful.

The Covered Bonds have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the "**Securities Act**") and include Covered Bonds in bearer form that are subject to United States tax law requirements. The Covered Bonds may not be offered, sold or delivered within the United States or to United States persons as defined in Regulation S under the Securities Act, except in certain transactions permitted by US tax regulations and the Securities Act. See *Subscription and Sale* below.

The Covered Bonds and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or the securities laws of any state of the U.S. or other jurisdiction. The securities may not be offered or sold within the U.S. or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state or local securities laws. Accordingly, the Covered Bonds are being offered, sold or delivered only to non-U.S. persons (as defined in Regulation S) outside the U.S. in reliance on Regulation S.

The credit ratings included or referred to in this Base Prospectus will be treated for the purposes of the CRA Regulation as having been issued by Fitch Ratings Ltd. and Moody's Investors Services Limited upon registration pursuant to the CRA Regulation. The entities of each of Fitch and Moody's established in the European Union have been registered by the European Securities and Markets Authority as credit rating agencies in accordance with the CRA Regulation.

Whether or not a rating in relation to any Series of Covered Bonds will be treated as having been issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms.

In connection with each issue of Covered Bonds a stabilising manager (each a "**Stabilising Manager**") may be appointed. If a Stabilising Manager is appointed, the relevant Stabilising Manager will be set out in the applicable Final Terms. The Stabilising Manager or any duly appointed person acting for the Stabilising Manager may over-allot or effect transactions with a view to supporting the market price of the relevant Series of Covered Bonds at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Series or Tranche of Covered Bonds is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date and 60 days after the date of the allotment of the relevant Series or Tranche of Covered Bonds. Any stabilisation action or over-allotment must be conducted by the Stabilising Manager (or any persons acting on behalf of the Stabilising Manager) in accordance with all applicable laws and rules as amended from time to time.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the

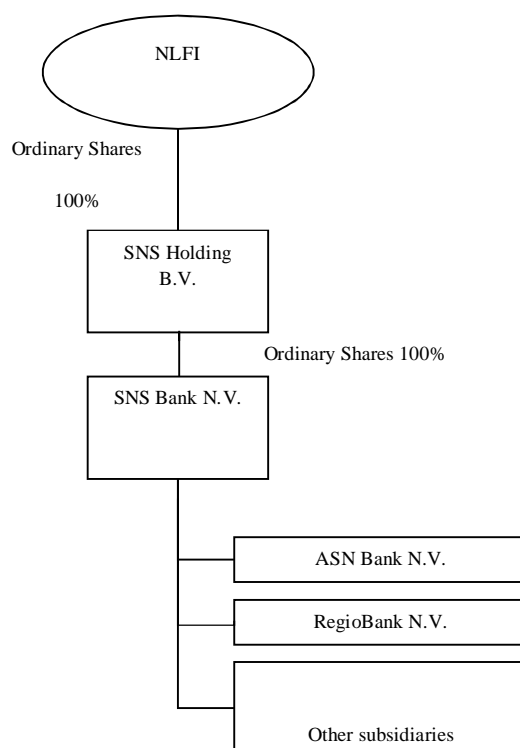

Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Covered Bonds issued under the Programme. Any such short positions could adversely affect future trading prices of Covered Bonds issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

SNS Bank and the Banking Code

The Banking Code came into force on 1 January 2010 and is applicable to all of the Issuer's banking activities. As at 31 December 2014, the Banking Code thus applied to SNS Bank N.V., RegioBank N.V. and ASN Bank N.V. In its annual report 2014, SNS Bank reports on the compliance with the Banking Code.

The Banking Code uses the 'comply or explain' principle. However, applying the principles also depends on the activities and other specific characteristics of the bank and the group of which they are part. Departures from the Banking Code, if substantiated, can therefore be justified.

In 2014, SNS Bank made strides in monitoring compliance with the Banking Code. Monitoring has shown that, with a few exceptions, the Banking Code is fully applied within SNS Bank. The website of SNS Bank provides information on these exceptions, please refer to www.snsbanknv.nl. The aforementioned website will also include a report on the way in which SNS Bank made preparations for implementation of the new Banking Code, which entered into force on 1 January 2015 and which will apply to reporting periods as of 1 January 2015.

Company profile

SNS Bank

SNS Bank operates in the Dutch retail market (private individuals, self-employed persons and SMEs) with a focus on mortgages, savings and payments. The company has five bank brands – ASN Bank, BLG Wonen, RegioBank, SNS and ZwitserlevenBank - each displaying its own identity and profile. SNS Bank aims to meet the specific financial needs of its customers in a people-oriented, efficient and sustainable manner. Together, the SNS Bank brands position themselves as challengers of the major Dutch banks. The brands of SNS Bank are

supported by a single back office, a strong IT organisation and a central staff organisation, enabling the bank to work effectively and efficiently.

Five brands:

- ASN Bank's mission is to be a bank that contributes to a more sustainable society, based on its pillars of climate change, human rights and biodiversity. ASN Bank fulfils this role by means of investments, loans (including project loans and sustainable investment funds). Supervision

The regulatory framework is under constant scrutiny, both at a national and international level. Many new rules and regulations have entered into force in recent years and will enter into force the following years. Important changes with respect to the supervision on the Issuer have been and will be introduced by CRD IV. Other important changes will be introduced as a result of the implementation of the BRRD by means of the Recovery and Resolution Act and by entry into force of the SRM Regulation. Please see Chapter 3 – *'Proposals for resolution regimes may lead to fewer assets of the Issuer being available to investors for recourse for their claims, and may lead to lower credit ratings and possibly higher cost of funding'*.

Within SNS Bank group the following subsidiaries of SNS Bank hold licences under the Wft (excluding finance

service providers licences):

Single Supervisory Mechanism

The SSM is one of the elements of the Banking Union. The SSM creates a new system of financial supervision comprising the ECB and the national competent authorities of participating EU countries. Among these EU countries are those whose currency is the euro and those whose currency is not the euro, but who have decided to enter into close cooperation with the SSM. Under the new system of supervision, the ECB directly supervises significant credit institutions since 4 November 2014. SNS Bank is considered a 'significant credit institution' under the SSM and is therefore since 4 November 2014 subject to direct supervision by the ECB. Specific tasks relating to the prudential supervision of credit institutions have been conferred to the ECB.

Recent developments

2014 Annual Results SNS Bank

In 2014, SNS Bank focused on regaining the trust of customers and improving its market share in retail mortgages and payments, while maintaining its market share in savings. In addition, the process of disentanglement from SNS REAAL and the need to prepare for new laws and regulations led to a considerable work load. During the year, the bank welcomed nearly 400 employees from the holding company followed by another 550 in January 2015. Furthermore, the bank introduced and implemented changes in governance and risk management, in order to prepare for a standalone future.

The brands of SNS Bank welcomed 231,000 new customers. On a net basis, the number of customers rose by 98,000. At the same time, the customer satisfaction score of the SNS brand continued the improving trend that started after the nationalisation in 2013. Customer satisfaction scores at BLG Wonen and RegioBank remained stable. ASN Bank continued to have one of the highest customer satisfaction rates in the industry ("*Consumentenbond, bankemonitor*"), although slightly lower compared to year-end 2013. SNS Bank will continue to strive for higher satisfaction scores.

SNS Bank's market share in new retail mortgages increased to 3.7 per cent. in 2014, compared to 1.8 per cent. in 2013. However, the difference with our target of 5-8 per cent. indicates that there still is work to do in 2015 and beyond. The market share in retail savings edged up to 10.7 per cent. and was in line with our target of above 10 per cent.

In 2014 SNS Bank posted a net profit excluding one-off items of €294 million, up 12 per cent. compared to the adjusted profit in 2013.

This 12 per cent. improvement was mainly driven by higher net interest income and lower impairment charges on loans. Net interest income increased markedly driven by lower funding costs. Higher impairment charges on SME loans and other retail loans were more than compensated by lower impairment charges on retail mortgages. This positive development was supported by a cautious recovery of the Dutch housing market. The credit quality of the mortgage portfolio showed clear signs of improvements. The inflow of new defaulting loans was lower compared to 2013.

Operating expenses, excluding the impact of one-off items, were 5 per cent. higher. The increase was mainly due to costs of regulatory projects and dis-synergies related to the disentanglement from SNS REAAL. The efficiency ratio adjusted for one-off items was 44.7 per cent. (2013: 43.5 per cent.).

SNS Bank's 2014 net profit was €151 million and included a €76 million one-off charge for the resolution levy on Dutch banks related to the nationalisation of SNS REAAL and a €67 million goodwill impairment related to the acquisition of RegioBank in 2007. Based on the reported net profit, return on equity was 5.4 per cent.; based on net profit excluding one-off items, it was 10.6 per cent.

SNS Bank's total capital consists almost entirely of core equity. The Common Equity Tier 1 ratio of SNS Bank on a stand-alone basis increased further to 18.3 per cent. at year-end 2014 from 15.0 per cent. at year-end 2013. This increase was due to profit retention and a decrease of risk-weighted assets. The leverage ratio of SNS Bank on a stand-alone basis increased to 3.8 per cent. at year-end 2014, from 3.1 per cent. at year-end 2013.

Taking into account the growing importance of non-risk weighted capital ratios (MREL and total loss-absorbency capacity (or "TLAC")), SNS Bank intends to further strengthen and diversify its total capital and tap financial markets for hybrid debt, now the sale of VIVAT has been completed (also see below section 'Sale of VIVAT').

DNB additional systemic capital buffer requirement

On 29 April 2014 DNB announced that it intends to impose an additional systemic capital buffer requirement of 1 per cent. of risk-weighted assets for SNS Bank, which it may phase in between 2016 and 2019 in the systemic buffer. This is further to the CRD IV Implementation Act, which lays down the basis for the systemic buffers. The CRD IV Implementation Act entered into force on 1 August 2014.

Comprehensive assessment SNS Bank

On 26 October 2014, the ECB published the results of the comprehensive assessment for 128 European banks, including SNS Bank. The comprehensive assessment consisted of an asset quality review (AQR) and an EU-wide stress test.

Asset quality review SNS Bank

During the AQR, the ECB extensively audited (at the loan level) the quality of the portfolios of individual banks. The audit at SNS Bank focused on the residential mortgages and on loans in excess of €1 million. Compared to SNS Bank's stand-alone Common Equity Tier 1 capital at year-end 2013 in the amount of €2,266 million (calculated according to CRD IV on a transitional basis), the calculation of capital according to the AQR approach resulted in a gross adjustment of minus €101 million. The net adjustment of €76 million corresponded to a decrease of the CET1 ratio of 15.5 per cent. to 14.9 per cent. (calculated according to CRD IV on a transitional basis). The €101 million gross adjustment was the result of a few differences in parameters and assumptions between loan provision models used in the AQR on the one hand and those used by SNS Bank in-house on the other. The main differences were the use of a longer assumed loss identification period (which is the difference in time between the occurrence of the actual loss and the identification thereof by SNS Bank) and a different method for the determination of the assumed recovery of loans in default. In this respect, internal assessment of data recovery has not resulted in changes to the internal model approved by the regulator. Based on the AQR results, SNS Bank made some changes to the provision process in the second half of 2014. For example, SNS Bank extended the average loss identification period for residential mortgages, as part of the calculation of provisions, from 6 to 10 months. This resulted in a one-off addition to the provision for residential mortgages (IBNR provision) of €23 million.

EU-wide stress test

The EU-wide stress test assessed the resilience of the European banking sector using hypothetical external shocks over a period of three years (2014-2016) based on two economic scenarios. This EU-wide stress test has revealed that SNS Bank's CET1 ratio remains virtually stable at 15.0 per cent. in the baseline scenario, thus comfortably meeting the 8 per cent. minimum requirement. In the adverse scenario of the stress test, the adjusted CET1 ratio dropped from 14.9 per cent. in 2013 to 6.8 per cent. in 2016, which is a drop of 8.1 percentage points. This is above the 5.5 per cent. threshold for the adverse scenario set by the ECB. The 8.1 per cent. drop was the result of stringent methodology assumptions (-5.7 per cent.) and SNS Bank-specific components (-2.4 per cent.). The results of the stringent methodology assumptions included:

- net interest income under high pressure due to higher calculated funding costs, an increase of loans in arrears, higher impairments; and

- an increase of risk-weighted assets driven by a higher risk weight of loans in arrears. Further, loans in arrears were not assumed to recover during the horizon of the stress test.

SNS Bank-specific components were:

- relatively high deferred tax assets. The losses at Property Finance, currently operating under the name Propertize, created relatively high deferred tax assets for SNS Bank in the years prior to the nationalisation, as did the nationalisation measures. Under CRD IV such deferred tax assets are deducted from the Common Equity Tier 1 capital (which is phased in by 20 per cent. each year as from 2014);
- the accounting treatment of the portion of the mortgage portfolio that is recognised at fair value. In the stress test methodology, mortgage portfolios included in the balance sheet at fair value and discounted using RMBS spreads are stressed as RMBS. This resulted in a considerably lower valuation of these mortgage portfolios in the stress test, despite the fact that SNS Bank does not hold this portfolio for trading purposes, but to maturity.

The current status of the deferred tax assets is described on page 26 of SNS Bank's publicly available reviewed condensed consolidated interim financial statements for the six month period ended 30 June 2015, which are incorporated by reference in this Base Prospectus. As described therein, the deferred tax assets resulting from the losses at Propertize is nil as per 30 June 2015.

The most recent description of the impact of the fair value movements of the mortgages is described under "*Results first half of 2015 compared to first half 2014*" and "*Results first half of 2015 compared to second half of 2014*" on pages 7 to 10 of SNS Bank's publicly available reviewed condensed consolidated interim financial statements for the six month period ended 30 June 2015, which are incorporated by reference in this Base Prospectus.

The outcome of the comprehensive assessment demonstrates SNS Bank's resilience under adverse economic conditions and when applying stringent methodology assumptions. As the comprehensive assessment demonstrates that SNS Bank has no capital shortfalls, it is under no obligation to submit capital plans to the ECB.

Semi-annual results 2015 SNS Bank

In the first half of 2015, SNS Bank focused on improving customer services and growing market shares in retail mortgages and current accounts, while maintaining a 10 per cent.-plus market share in retail savings balances.

The different brands of SNS Bank welcomed 131,000 new customers. On a net basis, the number of customers rose by 67,000. At the end of June 2015, the total number of customers had increased to nearly 3.0 million. Furthermore, overall customer satisfaction levels continued to improve. For the first time in its history, RegioBank achieved a positive Net Promoter Score (NPS) and is now, together with ASN Bank, one of three banks in the Netherlands with a positive NPS. At ASN Bank and SNS Bank, customer satisfaction improved slightly compared to year-end 2014. ASN Bank continues to have one of the highest NPS in the industry ("*Consumentenbond, bankmonitor*"). Only at BLG Wonen the NPS decreased.

In line with SNS Bank's ambition to gradually increase its market share in retail mortgages, new production increased to €0.9 billion from €0.6 billion in the first half of 2014 (+34 per cent.). SNS, BLG Wonen and RegioBank all contributed to this increase. However, in a growing market for new mortgages, total market share was up only slightly at 3.8 per cent. The gap with SNS Bank's 5-8 per cent. target indicates that there is still work to be done. The total retail mortgage loan portfolio decreased by €0.7 billion to €45.8 billion due to the high volume of redemptions, which increased to €1.5 billion from €1.2 billion in the first half of 2014. This increase was driven by the current low interest environment resulting in an increased mortgage refinancing market. Furthermore, increased house movements and a general trend towards partial repayments during the term of the mortgage both contributed to the higher level of redemptions.

Retail savings balances increased to €37.3 billion from €35.7 billion, at year-end 2014 (+5 per cent.). In a growing market, SNS Bank's market share in savings of 10.7 per cent. was stable compared to year-end 2014 and in line with SNS Bank's target of above 10 per cent.

In the first half of 2015 SNS Bank posted a sharply higher net profit of €244 million (first half of 2014: €111 million), including a €47 million one-off gain due to fair value movements of former DBV mortgages and related derivatives. The first half of 2014 had included a one-off charge of €51 million for the resolution levy on Dutch banks related to the nationalisation of SNS REAAL.

Adjusted for one-off items, net profit rose by 28 per cent. to €197 million. This improvement was mainly driven by higher net interest income, lower impairment charges on loans and a higher result on financial instruments.

Net interest income showed a limited increase, mainly due to lower retail funding costs, partly offset by declining customer interest rates on mortgage loans and a slight decrease of the retail mortgage portfolio.

Impairment charges on loans and advances to customers were 45 per cent. lower (17 bps of gross outstanding loans, compared to 30 bps in the first half of 2014). This positive development was supported by a further recovery of the Dutch economy and housing market. The credit quality of the retail mortgage portfolio improved, which manifested itself in a decrease in the total number of default mortgage loans and a lower inflow of defaulting loans.

Operating expenses were 11 per cent. higher. The increase was mainly driven by cost dis-synergies related to the transfer of employees from former holding company SNS REAAL, costs to facilitate increased activities at mortgage operations and investments to improve risk management, operational effectiveness and control. The increase in operating expenses resulted in an efficiency ratio adjusted for one-off items of 46.6 per cent., up slightly compared to previous periods. Including one-off items the efficiency ratio fell to 42.0 per cent. Based on net profit, return on equity (RoE) stood at 16.0 per cent. (first half of 2014: 8.0 per cent.); based on net profit excluding one-off items, RoE was 12.9 per cent.

At 30 June 2015, SNS Bank's total capital consisted entirely of common equity. Due to profit retention and a decrease of risk-weighted assets (RWA), the Common Equity Tier 1 (CET1) ratio on a stand-alone basis increased to 20.4 per cent. from 18.3 per cent. at year-end 2014. The leverage ratio of SNS Bank on a stand-alone basis increased to 4.3 per cent., from 3.8 per cent. at year-end 2014.

Announcement of the Minister of Finance regarding future of SNS Bank

On 22 May 2015 the Minister of Finance sent a letter to the Dutch Parliament, which includes a statement that no decision will be taken during 2015 in relation to the sale of SNS Bank. NLFJ will be requested to issue an advice in relation thereto mid-2016.

SNS Securities

On 6 November 2014 it was announced that the Issuer was going to investigate the strategic options for SNS Securities, the bank's securities specialist. On 18 December 2015 NIBC Bank NV and SNS Bank have reached an agreement on the acquisition of SNS Securities. The transaction is expected to close in the second quarter of 2016 and is subject to approval of regulatory authorities and works councils.

SNS Bank expects the sale to result in a substantial loss compared to the book value of SNS Securities, as disclosed in its 2015 half year results. This loss will be accounted for in the 2015 full year result of SNS Bank.

Sale of VIVAT

On 26 July 2015, SNS REAAL completed the sale of VIVAT to Anbang Insurance Group. A €250 million loan from SNS Bank to VIVAT will be repaid in full no later than 31 December 2015 and the €302 million intragroup loans from SNS REAAL to VIVAT within 180 days after the completion date of the sale on 26 July 2015.

Based on the book value of VIVAT as of 31 December 2014, the sale resulted in a book loss of €1,809 million for SNS REAAL. This led to a decrease of the CET1 ratio (and total capital ratio) at the prudential consolidated

level (transitional) from 15.6 per cent. at year-end 2014 to 14.1 per cent. as at end June 2015 and fully phased-in from 15.3 per cent. to 15.0 per cent. The CET1 ratio and the leverage ratio on a standalone basis were not impacted by the sale of VIVAT.

As mentioned above, the loan from SNS Bank of €250 million will be repaid no later than 31 December 2015. This will reduce the amount of RWA of SNS Bank on a stand-alone basis by €1,250 million. This, in turn, will result in an increase in the CET1 ratio of SNS Bank on a stand-alone basis from 20.4 per cent. to 22.5 per cent. (fully phased-in from 20.7 per cent. to 22.8 per cent.). The leverage ratio of SNS Bank will not be materially affected.

SNS Bank and SNS REAAL expect that the €100 million facility which is in place between them will be ended and repaid in the first quarter of 2016, but the term of the facility may be extended if requested by SNS REAAL and agreed by SNS Bank.

SNS Bank and VIVAT currently have a collaboration, as laid down in a long-term distribution agreement. Based upon this agreement SNS Bank distributes VIVAT's insurance products, uses the asset management capabilities of ACTIAM, and provides savings products under the ZwitserlevenBank label.

Share transfer SNS Bank

On 1 October 2015, SNS REAAL announced that it transferred all shares of SNS Bank to the Dutch State on 30 September 2015 for a sum of €2.7 billion at which time the name of SNS REAAL was changed into SRH N.V. The Dutch State immediately transferred SNS Bank to holding company SNS Holding B.V. The shares in SNS Holding B.V. were also obtained by the Dutch State from SNS REAAL and subsequently transferred by the Dutch State to NLF in exchange for certificates of deposit.

Appointment of new Chairman of the Managing Board and new Chairman of the Supervisory Board

On 17 August 2015, SNS Bank announced that M.B.G.M. (Maurice) Oostendorp was appointed as the new Chairman of the Managing Board effective the same date, while D.J. (Dick) Okhuijsen stepped down as Chairman of the bank. It was also announced that J.C.M. (Jan) van Rutte was appointed as Chairman of the Supervisory Board.

Tier 2 transaction

On 29 October 2015, SNS Bank placed EUR 500,000,000 subordinated (Tier 2) notes due 2025 with a wide range of institutional investors. The issue of the Tier 2 notes contributes to the strengthening and diversification of SNS Bank's capital base.

SME Interest Rate Derivatives

SNS Bank has a small SME interest rate derivatives portfolio. It stopped entering into SME interest rate derivatives as of 2010. As required by and in consultation with the AFM, SNS Bank reviewed its SME interest rate derivatives portfolio in 2014. The investigated portfolio consisted of 110 interest rate derivatives entered into between SNS Bank and 84 clients, mostly in relation to loans granted by Propertize. The current portfolio has decreased by nearly half compared to the investigated portfolio. The objective of this review was to determine whether SNS Bank acted in accordance with the laws and regulations applicable at the time. The review was completed at the beginning of 2015 to the satisfaction of the AFM.

On 4 December 2015 the Minister of Finance announced in a letter to the Dutch Parliament that a substantial part of the reviews of interest rate derivatives of SME clients conducted by Dutch banks in 2014 and 2015 have to be reassessed. The AFM has also requested SNS Bank to reassess its SME interest rate derivative portfolio (or part thereof). The outcome hereof is unknown.

Legal proceedings

SNS Bank and its subsidiaries are and may become from time-to-time involved in governmental, legal and arbitration proceedings that relate to claims by and against it which ensue from its normal business operations. The most important proceedings are described below.

Madoff

In April 2010, a foundation acting on behalf of a group of execution-only customers initiated legal proceedings against SNS Bank for alleged losses suffered on investments in certain foreign investment funds (including Madoff feeder funds). In January 2013, in the proceedings before the court, the court reached a verdict. The court ruled that SNS Bank made mistakes and therefore failed to meet its contractual obligations. SNS Bank lodged an appeal and has made a provision for the claim.

In 2010, three Madoff-feeder funds initiated legal proceedings in New York against, amongst others, the custody entity of SNS Bank, SNS Global Custody, and its clients as former beneficial owners of investments in these funds. A similar proceeding was initiated by one of these funds against SNS Global Custody in the British Virgin Islands (BVI). They claim repayment of payments made by the funds for redemptions of investments by these beneficial owners. In line with these lawsuits, Madoff's trustee initiated proceedings against SNS Bank and SNS Global Custody. The aforementioned proceedings in New York, in which many financial institutions worldwide are sued in similar proceedings, are mainly in the early stages. SNS Bank will strongly defend itself, but cannot give a reliable estimate of possible provisions resulting from these claims at the moment. With regard to a number of important preliminary questions about the claim on the BVI, judgment was given in favour of SNS Bank by final judgment.

Proceedings following the nationalization

General

Various former holders of expropriated securities and capital components have initiated legal proceedings to seek compensation for damages after the nationalization of SNS REAAL. At the date of this Base Prospectus, no court proceedings had (yet) been initiated against SNS Bank (and/or SNS REAAL) other than those stated below. Currently, it is not possible to make an estimate of the probability that possible legal proceedings of former holders or other parties affected by the nationalization may result in a liability, or the level of the financial impact on SNS Bank (and/or SNS REAAL). For this reason, at 30 June 2015 no provisions were made in respect of possible legal actions by former holders concerning the expropriated securities and capital components and other affected parties. As the outcomes of possible legal proceedings cannot be predicted with certainty, it cannot be ruled out that a negative outcome may have a material negative financial impact on the capital position, results and/or cash flows of SNS Bank (and/or SNS REAAL).

Inquiry proceedings by Dutch Investors' Association

On 6 November 2014 the Dutch Investors' Association ("*Vereniging van Effectenbezitters*"; "**VEB**") filed a petition with the Enterprise Chamber of the Court of Appeal in Amsterdam for an inquiry into the management of SNS REAAL, SNS Bank and Propertize (former SNS Property Finance B.V.), for the period 2006 – 2013. A preliminary hearing on the VEB's authority and cause of action took place on 19 February 2015. SNS REAAL, SNS Bank and Propertize dispute this authority. The Enterprise Chamber delivered judgment on 8 July 2015 and found VEB's request to institute inquiry proceedings admissible with respect to SNS REAAL and deferred its decision with respect to SNS Bank and denied the request in respect of Propertize. This judgment is open for appeal to the Supreme Court.

Guarantees pursuant to section 2:403 of the Dutch Civil Code for Propertize et al.

These proceedings are not directly related to the Expropriation Decree but ensue from the subsequent transfer of Propertize. In the context of this transfer, SNS REAAL and SNS Bank have withdrawn the 403-guarantees issued for Propertize et al. in the past. The expiry of the objection period made this withdrawal irrevocable for its creditors, with the exception of two parties that assert to have claims against Propertize et al. and objected to the withdrawal, being Commerzbank and - briefly put - the receivers in the bankruptcies of the 2SQR companies, former Propertize clients.

On 14 January 2015 the District Court approved the objection raised to the withdrawal of the 403-guarantee. The mere possibility of a claim is already sufficient for a court to rule in favor of a potential creditor. SNS REAAL, SNS Bank and Propertize appealed this decision. On 9 December 2015 the Enterprise Chamber of the Court of Appeal in Amsterdam ruled a decision in which it upheld the decision of the District Court of 14 January 2015. As a result thereof, the 403-guarantees issued by SNS Bank for Propertize may not be withdrawn against these two creditors. The judgment of the Enterprise Chamber of the Court of Appeal is open for appeal to the Supreme Court, which SNS Bank is taking into consideration. The judgment of the Enterprise Chamber of

the Court of Appeal as such does not have any material significance for the balance sheet of SNS Bank.

On 2 June 2015, the receivers in the 2QSR bankruptcies have formally started proceedings before the District Court against Propertize (and SNS Bank) to substantiate their asserted claim against Propertize. Propertize disputes the claim. SNS Bank will act as co-defendant. In case the claim will be awarded (irrevocably) by the court, given (i) that Propertize was adequately capitalized at the time of the share transfer and (ii) the statements of Propertize in October 2015 on its financial position (in connection with the announcement of the start of its sales process), the Issuer expects Propertize to be able to meet its obligations towards these creditors. Consequently the Issuer deems the chance that the 403-guarantee will be invoked limited. However, if the Issuer is requested to pay under the 403-guarantee, it can take recourse against Propertize. Therefore, currently no provision has been made for the underlying asserted claims.

Furthermore, some counterparties of Propertize who are conducting legal proceedings against Propertize have also summoned SNS REAAL and/or SNS Bank to appear. The legal basis of this is unclear and SNS REAAL and SNS Bank consider the chance of success of these claims against SNS REAAL and/or SNS Bank to be limited.

Other proceedings relevant to SNS Bank

In addition, there are proceedings to which SNS Bank is not a party or in which it is not the direct subject of investigation, but the course and results of which may have a material impact on SNS Bank's position.

This applies first and foremost to the compensation proceedings before the Enterprise Chamber initiated by former holders of expropriated securities and capital components. In the interim ruling rendered by the Enterprise Chamber on 11 July 2013, experts were appointed to assess the value of the capital components and securities expropriated on 1 February 2013, and the Enterprise Chamber itself also issued basic principles for the value assessment. The Supreme Court expressed its opinion on those principles in its judgment of 20 March 2015.

One of the principles was that the compensation must be higher than the offer of €0,-- as the Minister of Finance had failed to adequately explain that offer. According to the Supreme Court the Enterprise Chamber itself must determine the compensation, so independently of the offer, in which respect it is irrelevant how the Minister of Finance explained his offer. This means that the compensation might still be set at €0,--.

The Supreme Court also assessed a large number of other compensation principles given by the Enterprise Chamber, including the significance of the share price for the value assessment and the question whether DNB's actions prior to the expropriation (known as the SREP decision) may be taken into account. New principles will be formulated on several points. The result of the Supreme Court's judgment is that the compensation proceedings, which will be continued before the Enterprise Chamber, must be adjusted in several respects.

The judgment of the Enterprise Chamber is expected in December 2015. In the event that the Enterprise Chamber ultimately rules - with due observance of the frameworks given in the Supreme Court's ruling of 20 March 2015 - that compensation is due (contrary to what the Minister of Finance has offered), this compensation must be determined by expert assessment. Any ensuing damages will be paid by the State.

In addition, a number of parties have referred the outcome of the appeal proceedings before the Council of State, which upheld the Expropriation Decree, to the European Court of Human Rights ("**ECHR**") for review. In its decisions of 14 January 2014 and 11 February 2014, the ECHR declared the cases to be inadmissible on a number of points and, for the rest, ruled that national proceedings relating to (possible) compensation in connection with the expropriation are currently pending. This pertains in particular to the compensation proceedings before the Enterprise Chamber. The parties may appeal to the ECHR again after the proceedings before the Enterprise Chamber have irrevocably ended. However, in principle this legal action can then only pertain to the procedure concerning the compensation to be paid in connection with the nationalisation. This is because the ECHR ruled by judgment of 9 April 2015 that the appeal proceedings themselves are to be considered legitimate, while declaring the complaints directed at this to be inadmissible. The Court of Appeal stated that holders of expropriated securities and capital components had not been confronted with an unfair disadvantage during the expropriation process.

2. The IRB shortfall is the difference between the expected loss under the CRR/CRD IV Directives and the IFRS retail mortgages provision. As SNS Bank (stand-alone) does not have any additional Tier 1 capital, the portion of the IRB shortfall that would be related to the additional Tier 1 capital has been deducted from the Common Equity Tier 1 capital.

7. COVERED BONDS

FORM OF COVERED BONDS

Each Tranche of Covered Bonds will (as specified in the applicable final terms (each the "**Final Terms**") be in bearer or in registered form. Bearer Covered Bonds will initially be issued in the form of a temporary global covered bond without interest coupons attached (a "**Temporary Global Covered Bond**"). Each Temporary Global Covered Bond which is intended to be issued in new global note ("NGN") form, as specified in the applicable Final Terms, will be deposited on or prior to the issue date of a Tranche with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Each Temporary Global Covered Bond which is not intended to be issued in NGN form, as specified in the applicable Final Terms, will on or prior to the original issue date of the Tranche be deposited with the *Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V.* ("**Euroclear Nederland**") or with (a depository for) any other agreed clearing system. Registered Covered Bonds will be issued to each holder by a Registered Covered Bonds Deed. Registered Covered Bonds will either be issued by means of a Registered Covered Bonds Deed for all Covered Bonds issued (global) or for one or more Covered Bonds (individual). Registered Covered Bonds in global form may also be held by or on behalf of one of the ICSDs as common safekeeper (and registered in the name of a nominee of one of the ICSDs acting as common safekeeper) and may also be registered in the name of (i) Euroclear Nederland or of (ii) a common depository for Euroclear and/or Clearstream, Luxembourg or of (iii) (a depository for) any other agreed clearing system. Registered Covered Bonds will be issued to each holder by a Registered Covered Bonds Deed.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer, the Principal Paying Agent and the Security Trustee, but shall not include Euroclear Nederland.

Whilst any Covered Bond is represented by a Temporary Global Covered Bond payments of principal, interest (if any) and any other amount payable in respect of the Covered Bonds due prior to the Exchange Date will be made against presentation of the Temporary Global Covered Bond only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Covered Bond are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and/or Euroclear Nederland and Euroclear and/or Clearstream, Luxembourg and/or Euroclear Nederland, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the "**Exchange Date**") which is not less than 40 days (nor (if the Temporary Global Covered Bond has been deposited with Euroclear Nederland) more than 90 days) after the date on which the Temporary Global Covered Bond is issued (or the "restricted period" within the meaning of U.S. Treasury Regulations (Section 1.631-5(c)(2)(i)(D)(7)) or any successor U.S. Treasury Regulation section including, without limitation, regulations issued in accordance with U.S. Internet Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010), interests in such Temporary Global Covered Bond will be exchangeable (free of charge) upon a request as described therein for interests in a permanent global covered bond without interest coupons attached (a "**Permanent Global Covered Bond**" and, together with any Temporary Global Covered Bond, each a "**Global Covered Bond**") of the same Series, against certification of non-US beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Covered Bond will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Covered Bond for an interest in a Permanent Global Covered Bond is improperly withheld or refused. Payments of principal, interest (if any) and any other amounts on a Permanent Global Covered Bond will be made without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Covered Bond will only be exchangeable (free of charge), in whole but not in part, for definitive Covered Bonds (each a "**Definitive Covered Bond**") with, where applicable, receipts, interest coupons and talons attached only upon the occurrence of an "**Exchange Event**", subject to mandatory provisions of applicable laws and regulations. If and for as long as a Permanent Global Covered Bond is deposited with Euroclear Nederland, such laws include the Dutch Securities Giro

Transfer Act ("*Wet giraal effectenverkeer*") and delivery ("*uitlevering*") will only be possible in the limited circumstances prescribed by the Dutch Securities Giro Transfer Act. For these purposes, Exchange Event means that (i) the Covered Bonds become immediately due and repayable by reason of an Issuer Event of Default or (ii) the Issuer has been notified that Euroclear and Clearstream, Luxembourg or, if applicable in respect of the relevant Series, Euroclear Nederland have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention to cease business permanently or have in fact done so and no successor clearing system is available or (iii) the Issuer or the CBC has or will become subject to adverse tax consequences which would not be suffered if the Covered Bonds represented by the Permanent Global Covered Bond, were in definitive form. The Issuer will promptly give notice to Covered Bondholders of each Series in accordance with Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg and/or, if applicable, Euroclear Nederland (acting on the instructions of any holder of an interest in such Permanent Global Covered Bond) or the Security Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer or the CBC may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

Definitive Covered Bonds will be in the standard euromarket form (unless otherwise indicated in the applicable Final Terms). Definitive Covered Bonds and Global Covered Bonds will be in bearer form. The Global Covered Bonds are held in book-entry form.

Global Covered Bonds, Definitive Covered Bonds and Registered Covered Bonds will be issued in accordance with and subject to the terms of the Agency Agreement and the Trust Deed.

The following legend will appear on all Covered Bonds (other than Temporary Global Covered Bonds) which have an original maturity of more than one year and on all receipts and interest coupons relating to such Covered Bonds:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The Covered Bonds and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or the securities laws of any state of the U.S. or other jurisdiction. The securities may not be offered or sold within the U.S. or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state or local securities laws. Accordingly, the Covered Bonds are being offered, sold or delivered only to non-U.S. persons (as defined in Regulation S) outside the U.S. in reliance on Regulation S.

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Covered Bonds, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Covered Bonds, receipts or interest coupons.

The following legend will appear on all Global Covered Bonds held through Euroclear Nederland:

"NOTICE: THIS COVERED BOND IS ISSUED FOR DEPOSIT WITH *NEDERLANDS CENTRAAL INSTITUUT VOOR GIRAAL EFFECTENVERKEER B.V.* ("*EUROCLEAR NEDERLAND*") AT AMSTERDAM, THE NETHERLANDS. ANY PERSON BEING OFFERED THIS COVERED BOND FOR TRANSFER OR ANY OTHER PURPOSE SHOULD BE AWARE THAT THEFT OR FRAUD IS ALMOST CERTAIN TO BE INVOLVED."

Covered Bonds which are represented by a Global Covered Bond and are held through Euroclear or Clearstream, Luxembourg, will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be. In case of a Global Covered Bond deposited with Euroclear Nederland, the rights of Covered Bondholders will be exercised in accordance with and are subject to the Dutch Securities Giro Transfer Act ("*Wet Giraal Effectenverkeer*").

Pursuant to the Agency Agreement, the Principal Paying Agent shall arrange that, where a further Tranche of Covered Bonds is issued which is intended to form a single Series with an existing Tranche of Covered Bonds, the Covered Bonds of such further Tranche shall be assigned a temporary common code and ISIN Code by Euroclear and Clearstream, Luxembourg and/or any other relevant security code which are different from the common code, ISIN Code and other relevant security code assigned to Covered Bonds of any other Tranche of the same Series until at least the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Covered Bonds of such Tranche.

No Covered Bondholder or Couponholder shall be entitled to proceed directly against the Issuer or the CBC unless the Security Trustee, having become bound so to proceed, fails to do so within a reasonable period and the failure shall be continuing.

1. **FORM, DENOMINATION AND TITLE**

The Covered Bonds are either in bearer form ("**Bearer Covered Bonds**") or registered form ("**Registered Covered Bonds**") issued pursuant to the terms and conditions of a registered covered bonds deed ("**Registered Covered Bonds Deed**"), as set out in the applicable Final Terms, and, in the case of Definitive Covered Bonds, serially numbered, and in the case of Definitive Covered Bonds or Registered Covered Bonds in the Specified Currency and the Specified Denomination(s). Covered Bonds of one Specified Denomination may not be exchanged for Covered Bonds of another Specified Denomination.

This Covered Bond may be a Fixed Rate Covered Bond, a Floating Rate Covered Bond, a Zero Coupon Covered Bond or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

Definitive Covered Bonds are issued with Coupons attached, unless they are Zero Coupon Covered Bonds in which case references to Coupons and Couponholders in these Terms and Conditions are not applicable.

Under Dutch law, the valid transfer of Covered Bonds requires, among other things, delivery ("*levering*") thereof.

For Covered Bonds held by Euroclear Nederland deliveries will be made in accordance with the Dutch Securities Giro Transfer Act (as amended) ("*Wet giraal effectenverkeer*", "**Wge**").

The Issuer, the CBC, the Paying Agents and the Security Trustee may (except as otherwise required by law) deem and treat the holder of any Bearer Covered Bond or Coupon as the absolute owner thereof, whether or not any payment is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof and no person shall be liable for so treating such bearer for all purposes but, in the case of any Global Covered Bond, without prejudice to the provisions set out in the first succeeding paragraph. The signatures on this Covered Bond or the relevant Registered Covered Bonds Deed, as applicable, are manual and/or in facsimile.

For so long as any of the Covered Bonds are represented by a Global Covered Bond held on behalf of Euroclear Bank S.A./N.V. ("**Euroclear**") and/or Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") by a common safekeeper, each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Covered Bonds (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to such nominal amount of such Covered Bonds standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the CBC, the Paying Agents and the Security Trustee as the holder of such nominal amount of such Covered Bonds for all purposes other than with respect to the payment of principal or interest or other amounts on such nominal amount of such Covered Bonds, for which purpose the bearer of the relevant Global Covered Bond shall be treated by the Issuer, the CBC, any Paying Agent and the Security Trustee as the holder of such nominal amount of such Covered Bonds in accordance with and subject to the terms of the relevant Global Covered Bond and the expressions "**Covered Bondholder**" and "**holder of Covered Bonds**" and related expressions shall be construed accordingly. In determining whether a particular person is entitled to a particular nominal amount of Covered Bonds as aforesaid, the Security Trustee may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error or an error established as such to the satisfaction of the Security Trustee, be conclusive and binding on all concerned. Covered Bonds which are represented by a Global Covered Bond will be transferable only in accordance with the rules and procedures for the time being of Euroclear, Clearstream, Luxembourg, and/or Euroclear Nederland, as the case may be.

Where Covered Bonds represented by a Permanent Global Covered Bond are deposited with Euroclear Nederland, a Covered Bondholder shall not have the right to request delivery ("*utitlevering*") of his Covered Bonds under the Wge other than as set out in accordance with the rules and procedures of Euroclear Nederland.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms or as may otherwise be approved by the Issuer, the Principal Paying Agent and the Security Trustee but shall not include Euroclear Nederland.

2. **STATUS OF THE COVERED BONDS**

The Covered Bonds and any relative Coupons constitute unsubordinated and unsecured obligations of the Issuer, guaranteed by the Guarantee and rank *pari passu* without any preference among themselves and at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, present and future, other than any obligations preferred by mandatory provisions of applicable law.

3. **THE GUARANTEE**

Pursuant to a guarantee issued under the Trust Deed, the CBC has as an independent obligation irrevocably undertaken to pay the Guaranteed Amounts when the same shall become Due for Payment (the "**Guarantee**"). However, the CBC shall have no such obligation under the Guarantee until (i) the occurrence of an Issuer Event of Default, service by the Security Trustee on the Issuer of an Issuer Acceleration Notice and service by the Security Trustee on the CBC of a Notice to Pay or (ii) the occurrence of a CBC Event of Default and the service by the Security Trustee of a CBC Acceleration Notice on the Issuer and the CBC. In addition, if the CBC is obliged under the Guarantee to pay a Guaranteed Amount relating to Scheduled Principal payable on the Maturity Date (the "**Guaranteed**

Final Redemption Amount"), then:

- (a) the obligation of the CBC to pay the Guaranteed Final Redemption Amount shall be deferred to, and shall under the Guarantee be due on, the Extended Due for Payment Date, unless on the date when the Guaranteed Final Redemption Amount is Due for Payment (the "**Extension Date**") or any subsequent Interest Payment Date which applies pursuant to paragraph (b) below and which falls prior to the Extended Due for Payment Date, any moneys are available to the CBC after the CBC shall under the relevant Priority of Payments have paid or provided for (1) all higher ranking amounts and (2) all Guaranteed Final Redemption Amounts pertaining to any Series with an Extended Due for Payment Date falling prior to the CBC Payment Period in which the Extended Due for Payment Date for this Series falls, in which case the CBC shall (i) give notice thereof to the relevant holders of the Covered Bonds (in accordance with Condition 14 (*Notices*)), the Rating Agencies, the Security Trustee, the Principal Paying Agent and the Registrar (in the case of Registered Covered Bonds) as soon as reasonably practicable and in any event on the Extension Date (whereby such notice shall be deemed to have been given on the date on which such notice was given by the CBC and/or was given to the relevant clearing system) or at least two Business Days prior to such Interest Payment Date, respectively, and (ii) apply such remaining available moneys in payment, in whole or in part, of the Guaranteed Final Redemption Amount, if applicable *pro rata* with any Guaranteed Final Redemption Amount pertaining to a Series with an Extended Due for Payment Date falling in the same CBC Payment Period in which the Extended Due for Payment Date for this Series falls (and to such extent the Guaranteed Final Redemption Amount shall for the purpose of the relevant Priority of Payments and all other purposes be due) on the Extension Date and/or such Interest Payment Date, respectively; and
- (b) the CBC shall under the Guarantee owe interest over the unpaid portion of the Guaranteed Final Redemption Amount, which shall accrue and be payable on the basis set out in the applicable Final Terms or, if not set out therein, Condition 5 (*Interest*), provided that for this purpose all references in Condition 5 to the Maturity Date are deemed to be references to the Extended Due for Payment Date, *mutatis mutandis*,

all without prejudice to the CBC's obligation to pay any other Guaranteed Amount (i.e. other than the Guaranteed Final Redemption Amount) when Due for Payment.

The rights under the Guarantee (a) form an integral part of the Covered Bonds, (b) are of interest to a holder of Covered Bonds only if, to the extent that, and for so long as, it holds Covered Bonds and (c) can only be transferred together with all other rights under the relevant Covered Bond. The obligations of the CBC under the Guarantee are unsubordinated and unguaranteed obligations of the CBC, which are secured (indirectly, through a parallel debt) as set out below.

As security for a parallel debt corresponding to the CBC's obligations under the Guarantee and the other Relevant Documents to which it is a party, the CBC has granted the following security rights to the Security Trustee:

- (i) a first ranking right of pledge (or such other security right as may be applicable) over the Transferred Assets;
- (ii) a first ranking right of pledge over the CBC's rights under or in connection with the CBC Relevant Documents.

The holders of the Covered Bonds of each Series will, through the Security Trustee, benefit from the security rights and are deemed to have acknowledged, and are bound by the Trust Deed.

For the purposes of these Terms and Conditions:

"Extended Due for Payment Date" means, subject to Condition 7(c), the date falling one year after the Maturity Date, as specified as such in the applicable Final Terms.

4. **REDENOMINATION**

(a) *Redenomination*

Where redenomination is specified in the applicable Final Terms as being applicable, the Issuer may, without the consent of the Covered Bondholders, the Receiptholders and the Couponholders, on giving prior notice to the Principal Paying Agent, Euroclear, Clearstream, Luxembourg and, if applicable, Euroclear Nederland and at least 30 days' prior notice to the Covered Bondholders in accordance with Condition 14, elect that, with effect from the Redenomination Date specified in the notice, the Covered Bonds, the Receipts and the Coupons denominated in the Specified Currency (or Specified Currencies) (each the "**Old Currency**") shall be redenominated in another currency (the "**New Currency**") being either euro, or, in the event of redenomination upon the occurrence of a Convertibility Event, a currency other than euro, as the case may be.

The election will have effect as follows:

- (i) the Covered Bonds, the Receipts and the Coupons shall be deemed to be redenominated into the New Currency in the denomination of euro 0.01, or its equivalent in another currency, with a principal amount for each Covered Bond and Receipt equal to the principal amount of that Covered Bond or Receipt in the Specified Currency, converted into the New Currency at the Established Rate provided that, if the Issuer determines, with the agreement of the Security Trustee, that the market practice at the time of redenomination in respect of the redenomination into the New Currency of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Covered Bondholders, the stock exchange (if any) on which the Covered Bonds may be listed and the Paying Agents of such deemed amendments;
- (ii) save to the extent that an Exchange Notice (as defined below) has been given in accordance with paragraph (iv) below, the amount of interest due in respect of the Covered Bonds will be calculated by reference to the aggregate principal amount of Covered Bonds presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01 or its equivalent in another currency;
- (iii) if definitive Covered Bonds are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer in the denominations of euro 100,000 or such other amount as may be allowed pursuant to the relevant laws which are applicable to (the offering of) such Covered Bonds and notified to the Covered Bondholders;
- (iv) if issued prior to the Redenomination Date, all unmaturing Coupons denominated in the Specified Currency (whether or not attached to the Covered Bonds) will become void with effect from the date on which the Issuer gives notice (the "**Exchange Notice**") to the Covered Bondholders in accordance with Condition 14 that replacement of Old Currency denominated Covered Bonds, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Covered Bonds, Coupons and Receipts so issued will also become void on that date although those Covered Bonds, Coupons and Receipts will continue to constitute valid exchange obligations of the Issuer. New Currency denominated Covered Bonds, Receipts and Coupons will be issued in exchange for Covered Bonds, Receipts and Coupons denominated in the Specified Currency in such manner as the Issuer may specify and as shall be notified to the Covered Bondholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Covered Bonds;
- (v) on or after the Redenomination Date, all payments in respect of the Covered Bonds, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in the New Currency as though references in the Covered Bonds to the Specified Currency were to the New Currency. Payments will be made in the New Currency by credit or transfer to a New Currency account (or any other account to which the New Currency may be credited or transferred) specified by the payee or, at the option of the payee, by a New Currency cheque;
- (vi) if the Covered Bonds are Fixed Rate Covered Bonds and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest

- Payment Date, it will be calculated by applying the Rate of Interest to each Calculation Amount, multiplying such sum by the applicable Fixed Day Count Fraction (as defined in Condition 5(a)), and rounding the resultant figure to the nearest sub-unit of the relevant New Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. The amount of interest payable in respect of such Fixed Rate Covered Bonds shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding; and
- (vii) if the Covered Bonds are Floating Rate Covered Bonds, the applicable Final Terms will specify any relevant changes to the provisions relating to interest; and
 - (viii) the applicable Final Terms will specify the exact date on which the redenomination will occur in case the Covered Bonds were issued in a currency other than euro and in a country in which the TARGET2 does not apply.

"Treaty" means the treaty on the functioning of the European Union, as amended.

5. **INTEREST**

Each Covered Bond that has not been repaid on the Maturity Date will, if it is not a Floating Rate Covered Bond switch to a floating rate of interest as of such Maturity Date.

(a) *Interest on Fixed Rate Covered Bonds*

Each Fixed Rate Covered Bond bears interest on its Principal Amount Outstanding from (and including) the interest commencement date as specified in the applicable Final Terms (**"Interest Commencement Date"**) (or, if not specified in the applicable Final Terms, the Issue Date) at the rate(s) per annum equal to the Fixed Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date (if that date does not fall on an Interest Payment Date).

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date or the Maturity Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) the Following Business Day Convention, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (2) the Modified Following Business Day Convention, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediate preceding Business Day; or
- (3) the Preceding Business Day Convention, such Interest Payment Date (or other date) shall be brought forward to the immediate preceding Business Day; or
- (4) No Adjustment, such Interest Payment Date (or other date) shall not be adjusted in accordance with any Business Day Convention.

If "**Unadjusted**" is specified in the applicable Final Terms the number of days in each Interest Period shall be calculated as if the Interest Payment Date were not subject to adjustment in accordance with the Business Day Convention specified in the applicable Final Terms.

If "**Adjusted**" is specified in the applicable Final Terms the number of days in each Interest Period shall be calculated as if the Interest Payment Date is subject to adjustment in accordance with the Business Day Convention specified in the applicable Final Terms.

If interest is required to be calculated for a period starting or ending other than on an Interest Payment Date (the "**Interest Calculation Period**"), such interest shall be calculated by applying the Fixed Rate of Interest to each Calculation Amount, multiplying such sum by the applicable Fixed Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention and multiplying such rounded up figure by a fraction equal to the Specified Denomination of such Covered Bond divided by the Calculation Amount.

For the purposes of these Terms and Conditions, "**Fixed Day Count Fraction**" means:

- (i) if "**Actual/Actual (ICMA)**" is specified in the applicable Final Terms, it means:
 - (a) where the Interest Calculation Period is equal to or shorter than the Determination Period during which it falls, the actual number of days in the Interest Calculation Period divided by the product of (1) the actual number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and
 - (b) where the Interest Calculation Period is longer than one Determination Period, the sum of:
 - (A) the actual number of days in such Interest Calculation Period falling in the Determination Period in which it begins divided by the product of (1) the actual number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and
 - (B) the actual number of days in such Interest Calculation Period falling in the next Determination Period divided by the product of (1) the actual number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year;

where:

"Determination Period" means the period from and including an Interest Payment Date in any year up to but excluding the next Interest Payment Date;

if **"30/360"** is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent;

"Calculation Amount" has the meaning ascribed to it in the applicable Final Terms or, if no such amount is specified in the applicable Final Terms, the Specified Denomination;

"Fixed Interest Period" means the period from and including an Interest Payment Date (or in the case of a first interest period, the Interest Commencement Date, or if such is not specified in the applicable Final Terms, the Issue Date) to but excluding the next or first Interest Payment Date;

"Maturity Date" means, subject to Condition 7(c), in respect of a Series of Covered Bonds, the relevant Interest Payment Date which falls no more than 40 years after the Issue Date of such Series and on which the Covered Bonds of such Series are expected to be redeemed at their Principal Amount Outstanding in accordance with these Conditions, as specified in the relevant Final Terms; and

"Principal Amount Outstanding" means, on any date, the principal amount of a Covered Bond on the relevant Issue Date, less the aggregate amount of any principal payments in respect of such Covered Bond which have been paid to the relevant Covered Bondholder on or prior to that date.

The applicable Final Terms shall contain provisions (if necessary) relating to the calculation of interest in respect of Interest Payment Dates that fall in the interval between the Issue Date and the First Interest Payment Date or the interval between the Maturity Date and the immediately preceding Interest Payment Date.

(b) *Interest on Floating Rate Covered Bonds*
(i) *Interest Payment Dates*

Each Floating Rate Covered Bond bears interest on its Principal Amount Outstanding from (and including) the Interest Commencement Date at the rate equal to the Rate of Interest payable in arrear on either:

- (A) the Specified Interest Payment Date(s) in each year; or
- (B) if no express Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an **"Interest Payment Date"**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Terms and Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention is specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 5 (b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply mutatis mutandis or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediate preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date (or other date) shall be brought forward to the immediate preceding Business Day; or
- (5) No Adjustment, such Interest Payment Date (or other date) shall not be adjusted in accordance with any Business Day Convention.

If "**Unadjusted**" is specified in the applicable Final Terms the number of days in each Interest Period shall be calculated as if the Interest Payment Date were not subject to adjustment in accordance with the Business Day Convention specified in the applicable Final Terms.

If "**Adjusted**" is specified in the applicable Final Terms the number of days in each Interest Period shall be calculated as if the Interest Payment Date is subject to adjustment in accordance with the Business Day Convention specified in the applicable Final Terms.

In this Condition, "**Business Day**" means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in any Additional Business Centre specified in the applicable Final Terms; and
 - (B) either (1) in relation to any sum payable in a Specified Currency, a day on which commercial banks and foreign exchange markets settle payments in the principal financial centre of the country of the relevant Specified Currency or (2) in relation to any sum payable in euro, a day on which the TARGET2 is open. In these Terms and Conditions, "**TARGET2**" means the Trans-European Automated Real-Time Gross Settlement Express Transfer payment system which utilises a single shared platform and which was launched on 19 November 2007 or any successor thereof.
- (ii) *Rate of Interest*

The rate of interest ("**Rate of Interest**") payable from time to time in respect of the Floating Rate Covered Bonds will be determined in the manner specified in the applicable Final Terms.

(a) *ISDA Determination for Floating Rate Covered Bonds*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (a), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate

swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as amended and updated as at the Issue Date of the first Tranche of the Covered Bonds, published by the International Swaps and Derivatives Association, Inc. (the "**ISDA Definitions**") and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is the period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate ("**LIBOR**") or on the Euro-zone inter-bank offered rate ("**EURIBOR**"), the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (a), (i) "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions, (ii) the definition of "**Banking Day**" in the ISDA Definitions shall be amended to insert after the words "are open for" in the second line before the word "general" and (iii) "**Euro-zone**" means the region comprised of Member States of the European Union that adopt the single currency in accordance with the Treaty.

When this sub-paragraph (a) applies, in respect of each relevant Interest Period the Principal Paying Agent will be deemed to have discharged its obligations under Condition 5(b)(iv) in respect of the determination of the Rate of Interest if it has determined the Rate of Interest in respect of such Interest Period in the manner provided in this subparagraph (a).

(b) *Screen Rate Determination for Floating Rate Covered Bonds*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (1) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards or, if the relevant Screen Rate is EURIBOR, to the third decimal place, with 0.0005 being rounded upwards) of the offered quotations, (expressed as a percentage rate per annum) for the Reference Rates which appears or appear, as the case may be, on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent.

The Agency Agreement contains provisions for determining the Rate of Interest pursuant to this subparagraph (b) in the event that the Relevant Screen Page is not available or if, in the case of (1) above, no such offered quotation appears or, in the case of (2) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Covered Bonds is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Covered Bonds will be determined as provided in the applicable Final Terms.

(iii) *Minimum and/or Maximum Rate of Interest*

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(iv) *Determination of Rate of Interest and Calculation of Interest Amounts*

The Principal Paying Agent, in the case of Floating Rate Covered Bonds will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Principal Paying Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Floating Rate Covered Bonds, in respect of each Calculation Amount for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to each Calculation Amount, multiplying such sum by the applicable Floating Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Covered Bond in definitive form comprises more than one Calculation Amount, the amount of interest payable in respect of such Floating Rate Covered Bond shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

"Floating Day Count Fraction" means, in respect of the calculation of an amount of interest for any Interest Period:

- (i) if "**Actual/365**" or "**Actual/Actual ISDA**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if "**Actual/365 (Fixed)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (iii) if "**Actual/360**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (iv) if "**30/360**", "**360/360**" or "**Bond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction =

$$\text{where:} \quad \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

"**Y1**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y2**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M1**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M2" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D1" is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

"D2" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30; and

- (v) if "30E/360" or "Eurobond Basis" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360 calculated on a formula basis as follows:

Day Count Fraction =

$$\text{where:} \quad \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

"Y1" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y2" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M1" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M2" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D1" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

"D2" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30;

- (vi) if "30E/360 (ISDA)" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y1" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y2" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M1" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M2" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"D1" is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

"D2" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

(v) *Notification of Rate of Interest and Interest Amounts*

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Covered Bonds are for the time being listed and notice thereof to be published in accordance with Condition 14 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Covered Bonds are for the time being listed and to the Covered Bondholders in accordance with Condition 14. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of the Covered Bond having the minimum Specified Denomination. For the purposes of this paragraph, the expression "**London Business Day**" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in London.

(vi) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(b), whether by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Principal Paying Agent, the Calculation Agent, if applicable, the other Paying Agents and all Covered Bondholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Covered Bondholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or the Calculation Agent, if applicable, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *[Intentionally left blank]*

(d) *Accrual of interest*

Each Covered Bond (or in the case of the redemption of part only of a Covered Bond, that part only of such Covered Bond) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue as provided in the Trust Deed.

6. **PAYMENTS**

(a) *Method of payment*

Subject as provided below:

- (i) payments in a Specified Currency other than euro and U.S. Dollars will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively);
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (iii) payments in U.S. Dollars will be made by transfer to a U.S. Dollar account maintained by the payee with a bank outside of the United States (which expression, as used in this Condition 6, means the United States of America, including the State and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction), or by cheque drawn on a United States bank.

In no event will payment be made by a cheque mailed to an address in the United States. Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment in these Terms and Conditions, the Trust Deed, the Agency Agreement and the Final Terms, but without prejudice to the provisions of Condition 8 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 ("**the Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. References to Specified Currency will include any successor currency under applicable law.

(b) *Presentation of Definitive Covered Bonds and Coupons*

Payments of principal in respect of Definitive Covered Bonds will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Covered Bonds, and payments of interest in respect of Definitive Covered Bonds will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States.

Payments of instalments of principal (if any) on the Covered Bonds, other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender of the relevant Receipt. Payment of the final instalment will be made in the manner provided in paragraph (a) above against surrender of the relevant Covered Bonds. Each Receipt must be presented for payment of the relevant instalment together with the definitive Covered Bond to which it appertains. Receipts presented without the definitive Covered Bonds to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Covered Bond becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Covered Bonds in definitive form (other than Long Maturity Covered Bonds (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of five (5) years after the Relevant Date (as defined in Condition 8 (*Taxation*)) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 9 (*Prescription*) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Covered Bond in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Covered Bond or Long Maturity Covered Bond in definitive form becomes due and repayable in whole, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. Where any such Covered Bond is presented for redemption without all unmatured Receipts, Coupons or Talons relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require. A "**Long Maturity Covered Bond**" is a Fixed Rate Covered Bond (other than a Fixed Rate Covered Bond which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Covered Bond shall cease to be a Long Maturity Covered Bond on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the Principal Amount Outstanding of such Covered Bond.

If the due date for redemption of any Definitive Covered Bond is not an Interest Payment Date, interest

(if any) accrued in respect of such Covered Bond from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Covered Bond.

(c) *Payments in respect of Global Covered Bonds*

Payments of principal and interest (if any) in respect of Covered Bonds represented by any Global Covered Bond will (subject as provided below) be made in the manner specified above in relation to Definitive Covered Bonds and otherwise in the manner specified in the relevant Global Covered Bond against presentation or surrender (as the case may be) of such Global Covered Bond at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Global Covered Bond, distinguishing between any payment of principal and any payment of interest, will be made on such Global Covered Bond by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made and in respect of a Global Covered Bond in NGN-form the payment is entered *pro rata* in the record of Euroclear and Clearstream, Luxembourg.

(d) *General provisions applicable to payments*

The holder of a Global Covered Bond shall be the only person entitled to receive payments in respect of Covered Bonds represented by such Global Covered Bond and the Issuer or the CBC and the Security Trustee will be discharged by payment to, or to the order of, the holder of such Global Covered Bond in respect of each amount so paid.

Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or Euroclear Nederland as the beneficial holder of a particular nominal amount of Covered Bonds represented by a Global Covered Bond must look solely to Euroclear, Clearstream, Luxembourg or Euroclear Nederland, as the case may be, for his share of each payment so made by the Issuer or the CBC or the Security Trustee to, or to the order of, the holder of such Global Covered Bond.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Covered Bonds is payable in U.S. Dollars, such U.S. Dollar payments of principal and/or interest in respect of such Covered Bonds will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. Dollars at such specified offices outside the United States of the full amount of principal and interest on the Covered Bonds in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. Dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer and the CBC, adverse tax consequences to the Issuer or the CBC.

(e) *Payment Day*

If the date for payment of any amount in respect of any Covered Bond or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, "**Payment Day**" means any day which (subject to Condition 9 (*Prescription*)) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation; and
 - (B) any Additional Financial Centre specified in the applicable Final Terms; and
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which

commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation and any Additional Financial Centre and which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the TARGET2 is open.

(f) *Interpretation of principal and interest*

Any reference in these Terms and Conditions to principal in respect of the Covered Bonds shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 8 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed;
- (ii) the Final Redemption Amount of the Covered Bonds;
- (iii) the Early Redemption Amount of the Covered Bonds;
- (iv) the optional redemption amount(s) (if any) of the Covered Bonds as specified in the applicable Final Terms ("**Optional Redemption Amount**");
- (v) in relation to Zero Coupon Covered Bonds, the Amortised Face Amount (as defined in Condition 7(e) (*Redemption and Purchase - Early Redemption Amounts*));
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Covered Bonds; and
- (vii) any Excess Proceeds which may be payable by the Security Trustee to either the CBC or the Covered Bondholders under or in respect of the Covered Bond.

Any reference in these Terms and Conditions to interest in respect of the Covered Bonds shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed.

(g) *Set-off*

- (i) Any payments under or pursuant to the Covered Bonds shall be made by the Issuer free of set-off and withholding if and to the extent so specified in the applicable Final Terms.
- (ii) If in the Final Terms "German Insurers" are indicated Applicable, each of the Issuer and the CBC hereby waives, for the benefit of all present and future holders of the Registered Covered Bonds issued in such Final Terms, any right to set-off ("*verrekenen*", in German: "*aufrechnen*") any amount against, any right to retain ("*inhouden*", in German: "*zurückbehalten*") any amount from, and any right of pledge ("*pandrecht*", in German: "*Pfandrecht*"), including but not limited to any right of pledge created under the Issuer's General Banking Conditions with regard to, any amount it owes under or in respect of the Registered Covered Bonds.

If this waiver under (g)(ii) is applicable it applies as far as and as long as the Registered Covered Bonds are part of the security funds ("*Sicherungsvermögen*") and the other restricted assets ("*sonstiges gebundenes Vermögen*") within the meaning of section 54 of the German Insurance Supervisory Act ("*Versicherungsaufsichtsgesetz*") in connection with the German Regulation on the Investment of the Restricted Assets of Insurance Companies ("*Verordnung über die Anlage des gebundenen Vermögen von Versicherungsunternehmen*") also in case of an insolvency and (ii) prevails over any present or future agreement with a conflicting content, save in the case of future agreements only, where such future agreement has a conflicting content which explicitly refers to this specific waiver.

7. REDEMPTION AND PURCHASE

(a) *Redemption at maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Covered Bond will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Maturity Date (the "**Final Redemption Amount**").

(b) *Redemption for tax reasons*

The Covered Bonds may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Covered Bond is not a Floating Rate Covered Bond) or on any Interest Payment Date (if this Covered Bond is a Floating Rate Covered Bond), on giving not less than 30 nor more than 60 days' notice to the Security Trustee and the Principal Paying Agent and, in accordance with Condition 14 (*Notices*), the Covered Bondholders (which notice shall be irrevocable), if the Issuer satisfies the Security Trustee immediately before the giving of such notice that:

- (i) on the occasion of the next payment due under the Covered Bonds, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 8 (*Taxation*)) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Covered Bonds; and
- (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Covered Bonds then due.

Prior to the publication of any notice of redemption pursuant to this Condition 7, the Issuer shall deliver to the Security Trustee a certificate signed by two authorised signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and the Security Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Covered Bondholders and the Couponholders.

Covered Bonds redeemed pursuant to this Condition 7(b) will be redeemed at their Early Redemption Amount referred to in Condition 7(d) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) *Redemption at the option of the Issuer (Issuer Call)*

If the Issuer is specified as having the option to redeem the Covered Bonds in the applicable Final Terms, the Issuer may, subject as provided in paragraph (e) below and having given:

- (i) not less than 15 nor more than 30 days' notice, or such other period of notice as specified in the applicable Final Terms, to the Covered Bondholders in accordance with Condition 14 (*Notices*); and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Security Trustee, the Principal Paying Agent, the CBC and the Registrar;

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Covered Bonds then outstanding on any optional redemption date as specified in the applicable Final Terms ("**Optional Redemption Date**") and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date, provided that no Issuer Event of Default has occurred and is continuing.

If the Issuer is specified as having the option to redeem the Covered Bonds in the applicable Final Terms and it cannot exercise its option because an Issuer Event of Default has occurred and is continuing, then the CBC may declare with:

- (i) not less than 5 (or if the notice period of the Issuer has been shortened to 5 days' or less, the notice period will be 1 day less than the minimum notice period for the Issuer) nor more than 30 days' notice, or such other period of notice as specified in the applicable Final Terms, to the Covered Bondholders in accordance with Condition 14 (*Notices*); and

- (ii) not less than 5 days (or if the notice period of the Issuer has been shortened to 5 days' or less, the notice period will be 1 day less than the minimum notice period for the Issuer) before the giving of the notice referred to in (i), notice to the Security Trustee, the Principal Paying Agent, the Issuer and the Registrar;

that all of the Covered Bonds then outstanding of such Series will mature on the optional redemption date as specified in the applicable Final Terms ("**Optional Redemption Date**") and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms, and that the Maturity Date will be such Optional Redemption Date.

Any redemption pursuant to this Condition 7(c) must be of a nominal amount not less than the minimum redemption amount as specified in the applicable Final Terms ("**Minimum Redemption Amount**") and not more than the maximum redemption amount as specified in the applicable Final Terms ("**Maximum Redemption Amount**"), in each case as may be specified in the applicable Final Terms (and subject to Condition 3). In the case of a partial redemption of Covered Bonds, the Covered Bonds to be redeemed (the "**Redeemed Covered Bonds**") will be selected individually by lot, in the case of Redeemed Covered Bonds represented by Definitive Covered Bonds, and where applicable in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and/or Euroclear Nederland, in the case of Redeemed Covered Bonds represented by a Global Covered Bond, in each case, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**"). In the case of Redeemed Covered Bonds (i) represented by Definitive Covered Bonds, a list of the serial numbers and (ii) in the case of Registered Covered Bonds, the nominal amount drawn and the holders thereof, of such Redeemed Covered Bonds will be published in accordance with Condition 14 (Notices) not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Covered Bonds represented by Definitive Covered Bonds shall bear the same proportion to the aggregate nominal amount of all Redeemed Covered Bonds as the aggregate nominal amount of Definitive Covered Bonds outstanding bears to the aggregate nominal amount of the Covered Bonds outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Covered Bonds represented by a Global Covered Bond shall be equal to the balance of the Redeemed Covered Bonds. No exchange of the relevant Global Covered Bond will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph (c) and notice to that effect shall be given by the Issuer to the Covered Bondholders in accordance with Condition 14 (Notices) at least five days prior to the Selection Date.

If the option to redeem the Covered Bonds is exercised by the Issuer or the CBC has given a declaration that the Covered Bonds will mature on the Optional Redemption Date (each in accordance with this Condition 7(c)), then the Optional Redemption Date will for all purposes in all Relevant Documents be deemed to be the Maturity Date in respect of the Covered Bonds to which it applies instead of the Maturity Date specified as such in the applicable Final Terms. The Extended Due for Payment Date in respect of such Covered Bonds will for all purposes in all Relevant Documents be deemed to be one year after such new Maturity Date instead of the date included in the applicable Final Terms (unless in the section Issuer Call in the applicable Final Terms a specific date is included, in which case such date will apply).

If in the applicable Final Terms is specified that the manner of determining the interest on some or all Covered Bonds of a Series switches to another manner of determining the interest as of the Maturity Date, such switch will occur on the Maturity Date as determined pursuant to the previous paragraph.

(d) *Redemption of Covered Bonds at the Option of the Covered Bondholders*

Subject as provided in paragraph (e) below, if the Covered Bondholders are specified in the applicable Final Terms as having an option to redeem, upon the holder of any Covered Bond giving to the Issuer in accordance with Condition 14 not less than 15 nor more than 30 days' notice or such other period of notice as is specified in the applicable Final Terms (which notice shall be irrevocable), the Issuer will,

upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Covered Bond on the Optional Redemption Date and at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

If this Covered Bond is in definitive form, to exercise the right to require redemption of this Covered Bond its holder must deliver such Covered Bond at the specified office of any Paying Agent at any time during normal business hours of such Paying Agent falling within the notice period, accompanied by a duly signed and completed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent (a "**Put Notice**") and in which the holder must specify a bank account (or, if payment is by cheque, an address) to which payment is to be made under this Condition.

(e) *Early Redemption Amounts*

For the purpose of paragraph (b) above and Condition 10 (*Events of Default and Enforcement*), each Covered Bond will be redeemed at its Early Redemption Amount calculated as follows (each, the relevant "**Early Redemption Amount**"):

- (i) in the case of a Covered Bond with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof;
- (ii) in the case of a Covered Bond (other than a Zero Coupon Covered Bond) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Covered Bond is denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at its nominal amount; or
- (iii) in the case of a Zero Coupon Covered Bond, at an amount (the "**Amortised Face Amount**") equal to the product of:

(A) the Reference Price; and

(B) the sum of the figure "1" and the Accrual Yield, raised to the power of x, where "x" is a fraction the numerator of which is equal to the number of days (calculated on the basis of (i) if "**30/360**" is specified in the applicable Final Terms, a 360-day year consisting of 12 months of 30 days each, or (ii) if "**Actual/Actual ISDA**" is specified in the applicable Final Terms, the actual number of days in the relevant period and a year of 365 days (or, if any portion of that period falls in a leap year, the sum of (A) the actual number of days in that portion of the period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the period falling in a non-leap year divided by 365) from (and including) the Issue Date of the first Tranche of the Covered Bonds to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Covered Bonds become due and repayable and the denominator of which is (i) if "**30/360**" is specified in the applicable Final Terms, 360, or (ii) if "**Actual/Actual ISDA**" is specified in the applicable Final Terms, 365 days (or, if any portion of the period falls in a leap year, the sum of (A) the actual number of days in that portion of the period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the period falling in a non-leap year divided by 365).

(f) [Intentionally left blank]

(g) *Purchases*

The Issuer, the CBC and/or any member of the group formed by SNS Holding B.V. and its subsidiaries ("*dochtermaatschappijen*") (the "**SNS Group**") may at any time purchase Covered Bonds (provided that, in the case of Definitive Covered Bonds, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. If purchases are made by tender, tenders must be available to all Covered Bondholders alike. Covered Bonds purchased in accordance with this Condition 7(g) may be held, reissued, resold or, at the option of the Issuer or the CBC and/or such member of the SNS Group, surrendered to any Paying Agent for cancellation.

(h) *Cancellation*

All Bearer Covered Bonds which are redeemed will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Bearer Covered Bonds so cancelled and any Bearer Covered Bonds purchased and cancelled pursuant to paragraph (f) above (together with all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

(i) *Late payment on Zero Coupon Covered Bonds*

If the amount payable in respect of any Zero Coupon Covered Bond upon redemption of such Zero Coupon Covered Bond pursuant to paragraph (a), (b) or (c) above or upon its becoming due and repayable as provided in Condition 10 (*Events of Default and Enforcement*) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Covered Bond shall be the amount calculated as provided in paragraph (e)(iii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Covered Bond becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Covered Bond have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Covered Bonds has been received by the Principal Paying Agent or the Security Trustee and notice to that effect has been given to the Covered Bondholders in accordance with Condition 14 (*Notices*).

(j) *Redemption due to illegality*

The Covered Bonds of all Series may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30 nor more than 60 days' notice to the Security Trustee and the Principal Paying Agent and, in accordance with Condition 14 (*Notices*), all Covered Bondholders (which notice shall be irrevocable), if the Issuer satisfies the Security Trustee immediately before the giving of such notice that it has, or will, before the next Interest Payment Date of any Covered Bond of any Series, become unlawful for the Issuer to make any payments under the Covered Bonds as a result of any change in, or amendment to, the applicable laws or regulations or any change in the application or official interpretation of such laws or regulations, which change or amendment has become or will become effective before the next such Interest Payment Date.

Covered Bonds redeemed pursuant to this Condition 7(j) will be redeemed at their Early Redemption Amount referred to in Condition 7(e) (*Redemption and Purchase - Early Redemption Amounts*) above together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(k) *Certificate*

Prior to the publication of any notice of redemption pursuant to this Condition 7 (*Redemption and Purchase*), the Issuer shall deliver to the Security Trustee a certificate signed by two authorised signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and the Security Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on all Covered Bondholders.

8. **TAXATION**

(a) *General*

All payments of principal and interest in respect of the Covered Bonds and Coupons by the Issuer or the CBC, as the case may be, will be made without withholding or deduction of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In the event of a withholding or deduction being made by the Issuer in respect of a payment made by it, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Covered Bonds or Coupons after

such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Covered Bonds or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Covered Bond or Coupon:

- (i) presented for payment outside the Netherlands; or
- (ii) presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Covered Bond or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Covered Bond or Coupon; or
- (iii) presented for payment more than 30 days after the Relevant Date except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day; or
- (iv) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC, European Council Directive 2014/48/EU or any other European Directive implementing the conclusions of the ECOFIN Council meeting of 26th-27th November, 2000 on the taxation of savings income or any subsequent Council Meeting amending or supplementing those conclusions, or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (v) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Covered Bond, Receipt or Coupon to another Paying Agent in a Member State of the European Union; or
- (vi) where such withholding or deduction is imposed pursuant to FATCA.

Should any payments made by the CBC under the Guarantee be made subject to any withholding or deduction on account of taxes or duties of whatever nature imposed or levied by or on account of any Tax Jurisdiction the CBC will not be obliged to pay any additional amounts as a consequence.

As used herein:

"Relevant Date" in relation to a payment means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Security Trustee or the Principal Paying Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Covered Bondholders in accordance with Condition 14 (*Notices*); and

"Tax Jurisdiction" means the Netherlands or any political subdivision or any authority thereof or therein having power to tax.

(b) *FATCA Withholding*

Payments in respect of the Covered Bonds might be subject to any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof or any law implementing an intergovernmental approach thereto. Any such amounts withheld or deducted will be treated as paid for all purposes under the Covered Bonds, and no additional amounts will be paid by the Issuer or the CBC on the Covered Bonds with respect to any such withholding or deduction.

9. **PRESCRIPTION**

The Covered Bonds and Coupons will become void unless presented for payment within a period of five years after the Relevant Date therefore.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 9 or Condition 6(b) or any Talon which would be void pursuant to Condition 6(b).

10. **EVENTS OF DEFAULT AND ENFORCEMENT**

(a) *Issuer Events of Default*

An "**Issuer Acceleration Notice**" means a notice from the Security Trustee in writing to the Issuer that each Covered Bond of each Series is, and each such Covered Bond shall thereupon immediately become, due and repayable as against the Issuer (but not against the CBC) at its Early Redemption Amount together with accrued interest as provided in the Trust Deed.

Pursuant to the Trust Deed the Security Trustee at its discretion may, and in relation to the defaults set out in subparagraphs (i) and (v) below or if so directed by a Programme Resolution of the Covered Bonds shall, give an Issuer Acceleration Notice (subject in each case to being indemnified and/or secured to its satisfaction), if any of the following events (each an "**Issuer Event of Default**") shall occur and be continuing:

- (i) a default is made by the Issuer for a period of 7 calendar days or more in the payment of any principal or redemption amount, or for a period of 14 calendar days or more in the payment of any interest of the Covered Bonds of any Series when due; or
- (ii) a default is made in the performance by the Issuer of any material obligation (other than any obligation for the payment of principal, redemption amount or interest in respect of the Covered Bonds of any Series) under the provisions of the Covered Bonds of any Series or the Trust Deed or any other Relevant Document to which the Issuer is a party which (unless certified by the Security Trustee, in its opinion, to be incapable of remedy) shall continue for more than 30 calendar days after written notification requiring such default to be remedied and indicating that this provision may be invoked if it is not so remedied, shall have been given to the Issuer by the Security Trustee in accordance with the Trust Deed; or
- (iii) an order is made or an effective resolution passed for the dissolution or winding up of the Issuer (except a dissolution or winding up for the purpose of a reconstruction, amalgamation, merger or following the transfer of all or substantially all of the assets of the Issuer, the terms of which have previously been approved by an Extraordinary Resolution (as defined below) of the holders of the Covered Bonds or which has been effected in compliance with the terms of Condition 15 (*Meetings of Covered Bondholders, Modification and Waiver*)); or
- (iv) a liquidator, receiver or other similar officer is appointed in relation to the Issuer or in relation to the whole of its assets; or the Issuer initiates or consents to judicial proceedings relating to its bankruptcy ("*faillissement*") or equivalent or analogous proceedings under any applicable law, or shall make a conveyance, assignment or assignation for the benefit of, or shall enter into any composition ("*akkoord*") with, its creditors generally; or
- (v) the Issuer is adjudged or found bankrupt ("*failliet*") or emergency regulations ("*noodregeling*") in the interest of all creditors as referred to in Chapter 3 of the Wft, or equivalent or analogous judgments or measures under any applicable law, are imposed on the Issuer,

provided that in case an event described in paragraph (ii) above shall occur, the Security Trustee shall only deliver an Issuer Acceleration Notice if it shall have certified in writing to the Issuer that such event is, in its opinion, materially prejudicial to the interests of the Covered Bondholders of any Series.

Upon delivery of an Issuer Acceleration Notice pursuant to this Condition 10(a), the Security Trustee shall forthwith serve a notice to pay (the "**Notice to Pay**") on the CBC pursuant to the Guarantee and the CBC shall be required to make payments of Guaranteed Amounts when the same shall become Due for Payment in accordance with the terms of the Guarantee.

Following the occurrence of an Issuer Event of Default and service of an Issuer Acceleration Notice, the Security Trustee may or shall take such proceedings against the Issuer in accordance with the first paragraph of Condition 10(c) (*Events of Default and Enforcement*).

The Trust Deed provides that all moneys received by the Security Trustee from the Issuer or any administrator, liquidator, trustee or other similar official appointed in relation to the Issuer following the service of an Issuer Acceleration Notice and a Notice to Pay but prior to a CBC Acceleration Notice (the "**Excess Proceeds**"), may be paid by the Security Trustee to the CBC and shall be held by the CBC in the GIC Accounts and shall be used by the CBC in the same manner as all other moneys from time to time standing to the credit of the GIC Accounts. Any Excess Proceeds received by the Security Trustee shall

discharge the obligations of the Issuer in respect of the Covered Bonds, Receipts and Coupons for an amount equal to such Excess Proceeds. The Security Trustee shall not be required to pay such amounts to the CBC. However, the receipt by the Security Trustee of any Excess Proceeds shall not reduce or discharge any of the obligations of the CBC under the Guarantee.

(b) *CBC Events of Default*

A "**CBC Acceleration Notice**" means a notice from the Security Trustee in writing to the CBC, copied to the Issuer, that each Covered Bond of each Series is, and each Covered Bond of each Series shall as against the Issuer (if not already due and repayable against it following an Issuer Event of Default) and, through the Guarantee, as against the CBC, thereupon immediately become, due and repayable at its Early Redemption Amount together with accrued interest as provided in the Trust Deed and after delivery of such CBC Acceleration Notice, the Security shall become enforceable.

The Security Trustee at its discretion may, and, if so directed by a Programme Resolution, shall give a CBC Acceleration Notice (subject in each case to being indemnified and/or secured to its satisfaction), if any of the following events (each a "**CBC Event of Default**") shall occur and be continuing:

- (i) a default is made by the CBC under the Guarantee for a period of 7 calendar days or more in the payment of any principal or redemption amount, or for a period of 14 calendar days or more in the payment of any interest when due; or
- (ii) a default is made in the performance or observance by the CBC of any material obligation binding upon it (other than any obligation for the payment of Guaranteed Amounts in respect of the Covered Bonds of any Series) under the Trust Deed, the Pledge Agreements or any other Relevant Document to which the CBC is a party which (unless certified by the Security Trustee, in its opinion, to be incapable of remedy) shall continue for more than 30 calendar days after written notification requiring such default to be remedied and indicating that this provision may be invoked if it is not so remedied shall have been given to the CBC by the Security Trustee in accordance with the Trust Deed; or
- (iii) an order is made or an effective resolution passed for the dissolution or winding up of the CBC; or
- (iv) the CBC ceases to carry on its business or substantially all its business; or
- (v) a liquidator, receiver or other similar officer is appointed in relation to the CBC or in relation to the whole or any major part of its assets or a conservatory attachment ("*conservatoir beslag*") or an executory attachment ("*executoriaal beslag*") or other process is levied or enforced upon or sued out against the whole or any major part of its assets or the CBC initiates or consents to judicial proceedings relating to its bankruptcy ("*faillissement*") or (preliminary) suspension of payments ("*voorlopige surseance van betaling*"), or equivalent or analogous proceedings under any applicable law, or makes a conveyance, assignment or equivalent or assignation for the benefit of, or shall enter into any composition ("*akkoord*") with, its creditors generally; or
- (vi) the CBC is adjudged or found bankrupt ("*failliet*") or, if applicable, emergency regulations ("*noodregeling*") in the interest of all creditors as referred to in Chapter 3 of the Wft, or equivalent or analogous judgments or measures under any applicable law, are imposed on the CBC,
- (vii) the Guarantee is not, or is claimed by the CBC not to be, in full force and effect; or
- (viii) the Amortisation Test (as set out in the Asset Monitoring Agreement) is not satisfied on any Calculation Date following the service of a Notice to Pay on the CBC,

provided that in case an event described in paragraph (ii) above shall occur, the Security Trustee shall only deliver a CBC Acceleration Notice if it shall have certified in writing to the CBC that such event is, in its opinion, materially prejudicial to the interests of the Covered Bondholders of any Series.

Following the occurrence of a CBC Event of Default which is continuing and service of a CBC Acceleration Notice, the Security shall become enforceable and the Security Trustee may or shall take proceedings or steps against the Issuer and the CBC in accordance with Condition 10(c) (*Events of Default and Enforcement - Enforcement*) and the Covered Bondholders shall have a claim against the CBC, under the Guarantee, for the Early Redemption Amount together with accrued interest as provided in the Trust Deed in respect of each Covered Bond.

In these Terms and Conditions:

"Calculation Date" means the date falling two business days before each CBC Payment Date. The "relevant" Calculation Date in respect of any Calculation Period will be the first Calculation Date falling after the end of that period and the "relevant" Calculation Date in respect of any CBC Payment Date will be the last Calculation Date prior to that CBC Payment Date.

"Calculation Period" means the period from the Programme Date to the last day of December 2007 and thereafter, each period from (and including) the first day of each month to the last day of that same month.

"CBC Payment Date" means the 28th day of each month or, if such day is not a business day, the next following business day unless it would thereby fall into the next calendar month, in which event such CBC Payment Date shall be brought forward to the immediately preceding business day.

"Distribution Compliance Period" has the meaning given to that term in Regulation S under the Securities Act;

(c) *Enforcement*

The Security Trustee may at any time after service of an Issuer Acceleration Notice (in the case of the Issuer) or a CBC Acceleration Notice (in the case of both the Issuer and the CBC), at its discretion and without further notice, take such proceedings in accordance with the relevant provisions under Netherlands law against the Issuer and/or the CBC, as the case may be, to enforce the provisions of the Trust Deed, the Covered Bonds, Receipts and the Coupons, the Pledge Agreements and any other security rights of the Security Trustee on the Transferred Assets (if any) (the "**Security**") and the other Relevant Documents, but it shall not be bound to take any such enforcement proceedings in relation to the Trust Deed, the Covered Bonds, Receipts or the Coupons, the Security or any other Relevant Document unless (i) it shall have been so directed by a Programme Resolution and (ii) it shall have been indemnified and/or secured to its satisfaction.

(d) *No action by Covered Bondholders or Couponholders*

Subject to the provisions of the Trust Deed, only the Security Trustee may enforce the provisions of the Covered Bonds and the Relevant Documents. Neither the Covered Bondholders nor any other person shall be entitled to proceed directly against the Issuer or the CBC to enforce any provision of the Covered Bonds and/or the Relevant Documents, unless the Security Trustee fails to take any steps to enforce the Security in accordance with the Trust Deed within a reasonable time and such failure is continuing. All limitations and restrictions imposed under or by virtue of the Trust Deed, the Covered Bonds or any other Relevant Document on the Security Trustee in relation to the enforcement of rights and the availability of remedies, shall *mutatis mutandis* also fully apply to such Secured Parties.

Neither the Covered Bondholders nor the Security Trustee may institute against, or join any person in instituting any bankruptcy, winding-up, reorganisation, arrangement, insolvency or liquidation proceeding against the CBC until the expiry of a period of at least one (1) year after the latest maturing Covered Bond is paid in full. The only remedy of the Security Trustee against the CBC after a CBC Acceleration Notice has been given pursuant to this Condition 10 is to enforce the Security.

(e) *Limited Recourse*

The recourse of the Covered Bondholders and the Couponholders against the CBC pursuant to the Guarantee is limited. Covered Bondholder will have a right of recourse ("*verhaalsrecht*") only in respect of the Security and will not have any claim, by operation of law or otherwise, against, or recourse to any of the CBC's other assets.

No amounts under the Covered Bonds and the Relevant Documents shall be due and payable by the CBC or, as the case may be, the Security Trustee, except (i) in accordance with the Trust Deed and (ii) unless and until all amounts thereby required to be paid in priority thereto have been paid or discharged in full.

In the event that the Security has been fully enforced and the proceeds of such enforcement and any other

amounts received by the Security Trustee, after payment of all claims ranking in priority to any Covered Bonds, Receipts or Coupons of any Series in accordance with the Trust Deed, are insufficient to pay in full all amounts outstanding in respect of the Covered Bonds, Receipts or Coupons, then the Covered Bondholders, Receiptholders or Couponholders shall have no further claim against the CBC or the Security Trustee in respect of such unpaid amount.

11. REPLACEMENT OF COVERED BONDS, COUPONS AND TALONS

Should any Covered Bond, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Covered Bonds, Coupons or Talons must be surrendered before replacements will be issued.

12. PAYING AGENTS AND REGISTRAR

The names of the initial Paying Agents and the Registrar and their initial specified offices are set out in the Base Prospectus.

The Issuer or the CBC, as the case may be, is entitled, with the prior written approval of the Security Trustee (such approval not to be unreasonably withheld or delayed), to vary or terminate the appointment of any Paying Agent and the Registrar and/or appoint additional or other Paying Agents or Registrars and/or approve any change in the specified office through which any Paying Agent or Registrar acts, provided that:

- (i) there will at all times be a Principal Paying Agent;
- (ii) as long as any Registered Covered Bonds are outstanding, there will at all times be a Registrar;
- (iii) so long as the Covered Bonds are listed, quoted and/or traded on or by any competent listing authority, on any stock exchange or quotation system, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the relevant competent authority or stock exchange; and
- (iv) it will ensure that it maintains a Paying Agent in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC, European Council Directive 2014/48/EU, or any other European Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 or any subsequent Council Meeting amending or supplementing those conclusions, or any law implementing or complying with, or introduced in order to conform to, such Directive.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 6(d) (*Payments - General provisions applicable to payments*). Any variation, termination, appointment or change shall only take effect (other than in the case of a bankruptcy, an insolvency or any equivalent or analogous proceeding, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Covered Bondholders in accordance with Condition 14 (*Notices*).

In acting under the Agency Agreement, the Paying Agents and the Registrar act solely as agents of the Issuer and the CBC and, in certain circumstances specified therein, of the Security Trustee and do not assume any obligation to, or relationship of agency with, any Covered Bondholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent or the Registrar is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent or registrar.

13. EXCHANGE OF TALONS

On and after the Interest Payment Date or the Specified Interest Payment Date or the Specified Period, as the case may be, on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due

in respect of the Covered Bond to which it appertains) a further Talon, subject to the provisions of Condition 9 (*Prescription*). Each Talon shall, for the purposes of these Terms and Conditions, be deemed to mature on the Interest Payment Date or the Specified Interest Payment Date or for the Specified Period (as the case may be) on which the final Coupon comprised in the relative Coupon sheet matures.

14. NOTICES

All notices regarding the Covered Bonds shall be published (i) if and for so long as the Covered Bonds are listed on the Luxembourg Stock Exchange in a leading daily newspaper having general circulation in Luxembourg, or the website of the Luxembourg Stock Exchange (www.bourse.lu) and (ii) as long as the Covered Bonds are admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system, such notice shall be published in such other place as may be required by the rules and regulations of such competent authority, stock exchange and/or quotation system. It is expected that such publication in a daily newspaper will be made in the *Luxemburger Wort* (in the case of (ii) above). Any such notice will be deemed to have been given on the date of the first publication in all the newspapers in which such publication is required to be made or on the date of publication on the website of the Luxembourg Stock Exchange.

Until such time as any definitive Covered Bonds are issued, there may (provided that, in the case of any publication required by a stock exchange, the rules of the stock exchange so permit), so long as the global Covered Bond(s) is or are held in its or their entirety with a depository or a common depository or a common safekeeper on behalf of Euroclear and Clearstream, Luxembourg and/or any other relevant clearing system or with Euroclear Nederland, be substituted for publication in some or all of the newspapers referred to above, the delivery of the relevant notice to Euroclear and Clearstream, Luxembourg and/or Euroclear Nederland and/or any other relevant clearing system for communication by them to the holders of the Covered Bonds. Any such notice shall be deemed to have been given to the holders of the Covered Bonds on the seventh day after the day on which the said notice was given to Euroclear and Clearstream, Luxembourg and/or Euroclear Nederland and/or any other relevant clearing system, except that, for so long as such Covered Bonds are admitted to trading on the Luxembourg Stock Exchange and it is a requirement of applicable law or regulations, such notices shall be published in a leading newspaper having general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Notices to be given by any Covered Bondholder shall be in writing and given by lodging the same, together (in the case of any Definitive Covered Bonds or Registered Covered Bonds) with the relative Covered Bond or Covered Bonds, with the Principal Paying Agent. Whilst any of the Covered Bonds are represented by a Global Covered Bond, such notice may be given by any holder of a Covered Bond to the Principal Paying Agent through Euroclear, Clearstream, Luxembourg and/or Euroclear Nederland, as the case may be, in such manner as the Principal Paying Agent and Euroclear, Clearstream, Luxembourg and/or Euroclear Nederland, as the case may be, may approve for this purpose.

15. MEETINGS OF COVERED BONDHOLDERS, MODIFICATION AND WAIVER

The Trust Deed contains provisions for convening meetings of the Covered Bondholders of any Series to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Covered Bonds of such Series or the related Coupons or of any of the Relevant Documents (subject as provided below and in the Trust Deed). Such a meeting may be convened by the Issuer, the CBC or the Security Trustee and shall be convened by the Issuer if required in writing by Covered Bondholders of a Series holding not less than fifteen (15) per cent. of the aggregate Principal Amount Outstanding of the Covered Bonds of such Series for the time being remaining outstanding. The quorum at any such meeting in respect of any Series for passing an Extraordinary Resolution is: (i) one or more persons holding or representing not less than fifty (50) per cent. of the aggregate Principal Amount Outstanding of the Covered Bonds of such Series for the time being outstanding, or at any adjourned meeting one or more persons being or representing Covered Bondholders of such Series whatever the Principal Amount Outstanding of the Covered Bonds of such Series so held or represented; (ii) at any meeting the business of which includes the modification of certain provisions of the Covered Bonds of a Series, the related Coupons or the Trust Deed (including a reduction or cancellation of the amount payable in respect of such Covered Bonds, the alteration of the currency in which payments

under such Covered Bonds are to be made, the alteration of the majority required to pass an Extraordinary Resolution, any amendment to the Guarantee or the Security (except in a manner determined by the Security Trustee not to be materially prejudicial to the interests of the Covered Bondholders of any Series) or the sanction of any scheme or proposal for the exchange of such Covered Bonds in respect of such Series (each, a "**Series Reserved Matter**" all as more particularly set out in the Trust Deed)): one or more persons holding or representing not less than two-thirds of the aggregate Principal Amount Outstanding of the Covered Bonds of such Series for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third of the aggregate Principal Amount Outstanding of the Covered Bonds of such Series for the time being outstanding.

An Extraordinary Resolution passed at any meeting of the Covered Bondholders of a Series shall, subject as provided below, be binding on all the Covered Bondholders of such Series, whether or not they are present at the meeting, and on all Couponholders in respect of such Series. Pursuant to the Trust Deed, the Security Trustee may convene a single meeting of the holders of Covered Bonds of more than one Series if in the opinion of the Security Trustee there is no conflict between the holders of such Covered Bonds, in which event the provisions of this paragraph shall apply thereto *mutatis mutandis*.

Notwithstanding the preceding paragraphs of this Condition 15 (*Meetings of Covered Bondholders, Modification and Waiver*), any resolution to direct the Security Trustee (i) to accelerate the Covered Bonds pursuant to Condition 10 (*Events of Default and Enforcement*); (ii) to take any enforcement action, or (iii) to remove or replace the Security Trustee's Director shall only be capable of being passed by a Programme Resolution. Any such meeting to consider a Programme Resolution may be convened by the Issuer, the CBC or the Security Trustee or by Covered Bondholders of any Series. The quorum at any such meeting for passing a Programme Resolution is one or more persons holding or representing not less than two-thirds of the aggregate Principal Amount Outstanding of the Covered Bonds of all Series for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing Covered Bonds whatever the Principal Amount Outstanding of the Covered Bonds of any Series so held or represented. A Programme Resolution passed at any meeting of the Covered Bondholders of all Series shall be binding on all Covered Bondholders of all Series, whether or not they are present at the meeting, and on all related Couponholders in respect of such Series.

In connection with any meeting of the holders of Covered Bonds of more than one Series where such Covered Bonds are not denominated in euro, the aggregate Principal Amount Outstanding of the Covered Bonds of any Series not denominated in euro shall be converted into euro at the relevant Structured Swap Rate.

The Security Trustee, the Issuer and the CBC may also agree, without the consent of the Covered Bondholders or Couponholders of any Series (and for this purpose the Security Trustee may disregard whether any such modification relates to a Series Reserved Matter), to:

- (a) any modification of the Covered Bonds of one or more Series, the related Coupons or any Relevant Document provided that (i) in the opinion of the Security Trustee such modification is not materially prejudicial to the interests of any of the Covered Bondholders of any Series or any of the other Secured Parties (other than the CBC) (in which respect the Security Trustee may rely upon the consent in writing of any other Secured Party as to the absence of material prejudice to the interests of such Secured Party) and (ii) it has not been informed in writing by any Secured Party (other than any Covered Bondholder(s)) that such Secured Party will be materially prejudiced thereby (other than a Secured Party who has given its written consent as aforesaid); or
- (b) any modification of the Covered Bonds of any one or more Series, the related Coupons or any Relevant Document which is of a formal, minor or technical nature or is made to correct a manifest error or an error established as such to the satisfaction of the Security Trustee or to comply with its obligations under EMIR or to comply with mandatory provisions of law;
- (c) a replacement of a relevant counterparty provided that it has the minimum credit rating required for such role (if any);
- (d) any modification to the Covered Bonds of one or more Series, the related Coupons, and/or any Transaction Documents, required or necessary in connection with any change, after the relevant

Issue Date, to any laws or regulation (including but not limited to the laws and regulations of the Netherlands and the European Union) applicable or relevant with respect to covered bonds ("*gedekte obligaties*") to ensure that the Issuer, the CBC and/or Covered Bondholders enjoy the full benefits of such legislation, provided that in the sole opinion of the Security Trustee such modification is not materially prejudicial to interest of any of the Covered Bondholders or any of the other Secured Parties;

provided that any modification pursuant to paragraph (a) is notified to the Rating Agencies.

The Security Trustee may also agree, without the consent of the Covered Bondholders of any Series, and/or Couponholders or any other Secured Party, to the waiver or authorisation of any breach or proposed breach of any of the provisions of the Covered Bonds of any Series or the Relevant Documents, or determine, without any such consent as aforesaid, that any Issuer Event of Default or CBC Event of Default shall not be treated as such, where, in any such case, it is not, in the opinion of the Security Trustee, materially prejudicial to the interests of any of the Secured Parties (in which respect the Security Trustee may (without further enquiry) rely upon the consent in writing of any other Secured Party as to the absence of material prejudice to the interests of such Secured Party) provided that the Security Trustee has not been informed by any Secured Party (other than any Covered Bondholder(s)) that such Secured Party will be materially prejudiced thereby (other than a Secured Party who has given its written consent as aforesaid).

Any such modification, waiver, authorisation or determination shall be binding on all Covered Bondholders of all Series for the time being outstanding, the related Couponholders and the other Secured Parties, and unless the Security Trustee otherwise agrees, any such modification will be notified by the Issuer to the Covered Bondholders of all Series for the time being outstanding, the other Secured Parties and the Rating Agencies in accordance with the relevant terms and conditions as soon as practicable thereafter.

In connection with the exercise by it of any of its powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation, determination or substitution), the Security Trustee shall have regard to the general interests of the Covered Bondholders of each Series as a class (but shall not have regard to any interests arising from circumstances particular to individual Covered Bondholders or Couponholders whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Covered Bondholders, the related Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Security Trustee shall not be entitled to require, nor shall any Covered Bondholder or Couponholder be entitled to claim, from the Issuer, the CBC, the Security Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Covered Bondholders or Couponholders, except to the extent already provided for in Condition 8 (*Taxation*) and/or in any undertaking or covenant given in addition to, or in substitution for, Condition 8 (*Taxation*) pursuant to the Trust Deed.

The Security Trustee shall, as regards all the powers, authorities, duties and discretions vested in it by the Covered Bonds or the other Relevant Documents or, except where expressly provided otherwise, have regard to the interests of both the Covered Bondholders and the other Secured Parties.

The Issuer may, without the consent of the holders of the Covered Bonds of any Series or any Coupons relating thereto, or any other Secured Party consolidate with, merge or amalgamate into or transfer their respective assets substantially as an entirety to, any corporation organised under the laws of the Netherlands, or any political subdivision thereof, provided that (i) a certificate of two authorised signatories of the Issuer and the CBC is delivered to the Security Trustee to the effect that immediately after giving effect to such transaction no Issuer Event of Default and no CBC Event of Default, respectively, will have happened and be continuing and (ii) unless the Issuer is the surviving entity, the Issuer shall procure that the surviving or transferee company assumes its obligations as Issuer under the Trust Deed, each other Relevant Document and all of the outstanding Covered Bonds of all Series, in place of the Issuer and (iii) in the case of an assumption of the obligations of the Issuer by a successor or

transferee company, the Guarantee of the CBC is fully effective on the same basis in relation to the obligations of such successor or transferee company and (iv) certain other conditions set out in the Trust Deed are met. Upon the assumption of the obligations of the Issuer by such surviving or transferee company, the predecessor Issuer shall (subject to the provisions of the Trust Deed) have no further liabilities under or in respect of the Trust Deed or the outstanding Covered Bonds of each Series then outstanding or any Coupons appertaining thereto and the other Relevant Documents. Any such assumption shall be subject to the relevant provisions of the Trust Deed. The Trust Deed provides that any such assumption shall be notified to the holders of all Series in accordance with the relevant terms and conditions of such Covered Bonds and the other Secured Parties.

For the purposes hereof:

"Extraordinary Resolution" means a resolution at a meeting duly convened and held in accordance with the provisions for meetings of Covered Bondholders as set out in the Trust Deed, by not less than two-thirds of the votes cast.

"Programme Resolution" means either:

- (a) a written resolution of the holders of not less than twenty-five per cent. of the aggregate Principal Amount Outstanding of the Covered Bonds of all Series then outstanding as if they were a single Series; or
- (b) an Extraordinary Resolution (with the Covered Bonds of all Series taken together as a single Series),

in each case with the aggregate Principal Amount Outstanding of Covered Bonds not denominated in euro being converted into euro at the relevant Structured Swap Rate.

"Security Trustee's Director" means SGG Securitisation Services B.V. and/or such other person(s) who may be appointed as director(s) ("*bestuurder*") of the Security Trustee from time to time.

16. **SECURITY TRUSTEE**

The Trust Deed contains provisions for the indemnification of the Security Trustee and for the Security Trustee's relief from responsibility, including provisions relieving it from taking any action unless indemnified and/or secured to its satisfaction.

The Security Trustee will not be responsible for any loss, expense or liability, which may be suffered as a result of any Transferred Assets, or any deeds or documents of title thereto, being uninsured or inadequately insured or being held by clearing organisations or their operators or by intermediaries such as banks, brokers or other similar persons on behalf of the Security Trustee. The Security Trustee will not be responsible for (i) supervising the performance by the Issuer or any other party to the Relevant Documents of their respective obligations under the Relevant Documents and will be entitled to assume, until it has written notice to the contrary, that all such persons are properly performing their duties; (ii) considering the basis on which approvals or consents are granted by the Issuer or any other party to the Relevant Documents under the Relevant Documents; (iii) monitoring the Transferred Assets, including, without limitation, whether the Transferred Assets are in compliance with the Asset Cover Test, any Portfolio Test or the Amortisation Test; or (iv) monitoring whether Mortgage Receivables satisfy the applicable Eligibility Criteria or such other criteria as may be agreed with the CBC and subject Rating Agency Confirmation in relation to other Transferred Assets. The Security Trustee will not be liable to any Covered Bondholder or other Secured Party for any failure to make or to cause to be made on their behalf the searches, investigations and enquiries which would normally be made by a prudent chargee in relation to the security rights and have no responsibility in relation to the legality, validity, sufficiency and enforceability of the security rights and the Relevant Documents.

17. **SUBSTITUTION OF THE ISSUER**

- (a) The Issuer may, with the consent of the Covered Bondholders or Couponholders which will be deemed to have been given in respect of each issue of Covered Bonds on which no payment of principal or of interest on any of the Covered Bonds is in default and after written approval of DNB ("*De Nederlandsche Bank N.V.*"), be replaced and substituted by any directly or indirectly

wholly owned subsidiary of the Issuer (the "**Substituted Debtor**") as principal debtor in respect of the Covered Bonds and the relative Receipts and Coupons provided that:

- (i) such documents shall be executed by the Substituted Debtor and the Issuer as may be necessary to give full effect to the substitution (the "**Documents**") and (without limiting the generality of the foregoing) pursuant to which the Substituted Debtor shall undertake in favour of each Covered Bondholder and Couponholder to be bound by the Terms and Conditions of the Covered Bonds and the provisions of the Agency Agreement as fully as if the Substituted Debtor had been named in the Covered Bonds, and the relative Receipts and Coupons and the Agency Agreement as the principal debtor in respect of the Covered Bonds and the relevant Receipts and Coupons in place of the Issuer and pursuant to which the Issuer shall guarantee, which guarantee shall be unconditional and irrevocable, (the "**Guarantee**") in favour of each Covered Bondholder and each holder of the relative Receipts and Coupons the payment of all sums (including any additional amounts payable pursuant to Condition 8 (Taxation)) payable in respect of the Covered Bonds and the relative Receipts and Coupons;
- (ii) where the Substituted Debtor is incorporated, domiciled or resident for taxation purposes in a territory other than the Netherlands, the Documents shall contain a covenant and/or such other provisions as may be necessary to ensure that each Covered Bondholder has the benefit of a covenant in terms corresponding to the provisions of Condition 8 with the substitution for the references to the Netherlands of references to the territory in which the Substituted Debtor is incorporated, domiciled and/or resident for taxation purposes. The Documents shall also contain a covenant by the Substituted Debtor and the Issuer to indemnify and hold harmless each Covered Bondholder and Couponholder against all liabilities, costs, charges and expenses, which may be incurred by or levied against such holder as a result of any substitution pursuant to this Condition and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, such liabilities, costs, charges and expenses shall include any and all taxes or duties which are imposed on any such Covered Bondholder or Couponholder by any political subdivision or taxing authority of any country in which such Covered Bondholder or Couponholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);
- (iii) the Documents shall contain a warranty and representation by the Substituted Debtor and the Issuer (a) that each of the Substituted Debtor and the Issuer has obtained all necessary governmental and regulatory approvals and consents for such substitution and the performance of its obligations under the Documents, and that all such approvals and consents are in full force and effect and (b) that the obligations assumed by each of the Substituted Debtor and the Issuer under the Documents are all valid and binding in accordance with their respective terms and enforceable by each Covered Bondholder;
- (iv) each stock exchange which has Covered Bonds listed thereon shall have confirmed that following the proposed substitution of the Substituted Debtor such Covered Bonds would continue to be listed on such stock exchange;
- (v) the Substituted Debtor shall have delivered to the Security Trustee or procured the delivery to the Security Trustee of a legal opinion from a leading law firm in the jurisdiction in which the Substituted Debtor is situated to the effect that the Documents and the Substituted Debtor's obligations under the Covered Bonds, Receipts and Coupons will constitute legal, valid and binding obligations of the Substituted Debtor, such opinion to be dated not more than three (3) days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for

inspection by Covered Bondholders and Couponholders at the specified office of the Security Trustee;

- (vi) the Issuer shall have delivered to the Security Trustee or procured the delivery to the Security Trustee of a legal opinion from a Dutch law firm to the effect that the Documents (including the Guarantee) will constitute legal, valid and binding obligations of the Issuer, such opinion to be dated not more than 3 days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Covered Bondholders and Couponholders at the specified office of the Security Trustee; and
 - (vii) the Issuer shall have delivered to the Security Trustee or procured the delivery to the Security Trustee of a legal opinion from a Dutch law firm to the effect that the Documents (including the Guarantee) constitute legal, valid and binding obligations of the Substituted Debtor and the Issuer under Dutch law, such opinion to be dated not more than 3 days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Covered Bondholders and Couponholders at the specified office of the Security Trustee.
- (b) In connection with any substitution effected pursuant to this Condition, neither the Issuer nor the Substituted Debtor need have any regard to the consequences of any such substitution for individual Covered Bondholders or Couponholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Covered Bondholder or Couponholder, except as provided in Condition 17(a)(ii), shall be entitled to claim from the Issuer or any Substituted Debtor under the Covered Bonds and the relative Receipts and Coupons any indemnification or payment in respect of any tax or other consequences arising from such substitution.
 - (c) Upon the execution of the Documents as referred to in paragraph (a) above, the Substituted Debtor shall be deemed to be named in the Covered Bonds and the relative Receipts and Coupons as the principal debtor in place of the Issuer and the Covered Bonds and the relative Receipts and Coupons shall thereupon be deemed to be amended to give effect to the substitution. The execution of the Documents shall operate to release the Issuer as issuer from all of its obligations as principal debtor in respect of the Covered Bonds and the relative Receipts and Coupons save that any claims under the Covered Bonds and the relative Receipts and Coupons prior to release shall ensure for the benefit of Covered Bondholders and Couponholders.
 - (d) The Documents shall be deposited with and held by the Security Trustee and the Principal Paying Agent for so long as any Covered Bonds or Coupons remain outstanding and for so long as any claim made against the Substituted Debtor by any Covered Bondholder or Couponholder in relation to the Covered Bonds or the relative Receipts and Coupons or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor and the Issuer shall acknowledge in the Documents the right of every Covered Bondholder and Couponholder to the production of the Documents for the enforcement of any of the Covered Bonds or the relative Receipts and Coupons or the Documents.
 - (e) Not later than fifteen (15) business days after the execution of the Documents, the Substituted Debtor shall give notice thereof to the Covered Bondholders in accordance with Condition 14 (Notices).

18. **FURTHER ISSUES**

The Issuer shall be at liberty from time to time without the consent of the Covered Bondholders or the Couponholders to create and issue further bonds having terms and conditions the same as the Covered Bonds of any Series or the same in all respects save for the amount and date of the first payment of interest thereon, issue date and/or purchase price and so that the same shall be consolidated and form a single Series with the outstanding Covered Bonds of such Series.

19. **GOVERNING LAW AND SUBMISSION TO JURISDICTION**

The Covered Bonds and the Relevant Documents (except for the Swap Agreements) are governed by, and shall be construed in accordance with, the laws of the Netherlands.

The Issuer and the CBC submit for the exclusive benefit of the Covered Bondholders, the Receipholders and the Couponholders to the jurisdiction of the courts of Amsterdam, the Netherlands, judging in first instance, and in its appellate courts. Without prejudice to the foregoing, the Issuer and the CBC further irrevocably agree that any suit, action or proceedings arising out of or in connection with the Covered Bonds and the Relevant Documents may be brought in any other court of competent jurisdiction.

20. **TERMS AND CONDITIONS OF REGISTERED COVERED BONDS**

20.1 If the applicable Final Terms specify that Registered Covered Bonds are issued, then the following terms and conditions shall apply in addition to the terms and conditions set out in Conditions 1 to and including 19 above. In the event of any inconsistency between Conditions 1 to and including 19 and this Condition 20, this Condition 20 will prevail with regard to Registered Covered Bonds.

20.2 Registered Covered Bonds are registered claims ("*vorderingen op naam*") which will be issued to each holder by a Registered Covered Bonds Deed. The holder of a Registered Covered Bond is the creditor of the relevant registered claim and "**Covered Bondholder**" shall be construed accordingly, provided that if the provision at the end of Condition 20.3 applies, the transferee shall, from the moment the transfer takes effect be treated as a Covered Bondholder for all purposes, without prejudice to any entitlement of the transferor pursuant to Condition 20.5.

20.3 Under Dutch law, the valid transfer of Covered Bonds requires, among other things, delivery ("*levering*") thereof, which in the case of Registered Covered Bonds is effected by assignment ("*cessie*") of both the rights under the Registered Covered Bonds and the corresponding rights under the Guarantee by execution of a deed of assignment ("*akte*") between the transferor and the transferee and notification ("*mededeling*") thereof to the Issuer and the CBC. A form of deed of assignment and notification is attached to each Registered Covered Bonds Deed. Registered Covered Bonds may be transferred in whole, but not in part, provided that the relevant transferor and transferee may otherwise agree in the relevant assignment deed in respect of amounts that have accrued but not yet been paid in respect of the period up to the relevant transfer.

20.4 The Issuer shall procure that a register be kept by the Registrar in accordance with the provisions of the Agency Agreement (the "**Register**"). The Registrar shall register details of any holder of Registered Covered Bonds in the Register and amend the Register to reflect any transfer and/or redemption of Registered Covered Bonds.

20.5 Payments of principal, interest (if any) and any other amounts in respect of Registered Covered Bonds will be made to the person shown on the Register as being entitled to the relevant amount of principal or interest or other amount at the opening of business on the second business day falling prior to the due date of such payments. If any Registered Covered Bondholder transfers any Registered Covered Bonds in accordance with Condition 20.3 and the Trust Deed and such transfer is notified to the Issuer and the CBC prior to the close of business on the business day before the due date for payment (the "**Record Date**"), the Issuer, the CBC and the Security Trustee will in respect of the Registered Covered Bond so transferred, be discharged from their respective payment obligations only by payment to or to the order of the transferee. If the notification of transfer of the relevant Registered Covered Bond is made after the close of business on the Record Date, (i) the risk that the transfer is not timely recorded in the Register is borne by the transferee and (ii) the Issuer, the CBC, the Security Trustee, the Registrar and the relevant Paying Agent shall not be liable as a result of any payment being made to the person shown in the Register in accordance with this Condition.

20.6 Notices to holders of Registered Covered Bonds shall be mailed or faxed to them at their respective addresses as recorded in the Register and shall be deemed to have been given on the fourth business day (being a day other than a Saturday or a Sunday) following the date of mailing or faxing.

TAXATION IN THE NETHERLANDS

The following summary describes the principal Netherlands tax consequences of the acquisition, holding, redemption and disposal of the Covered Bonds, which term, for the purpose of this summary, includes Coupons and Talons. This summary does not purport to be a comprehensive description of all Netherlands tax considerations that may be relevant to a decision to acquire, to hold, and to dispose of the Covered Bonds. Each prospective Covered Bondholder should consult a professional adviser with respect to the tax consequences of an investment in the Covered Bonds. The discussion of certain Netherlands taxes set forth below is included for general information purposes only.

This summary is based on the Netherlands national tax legislation and published case law, in force as of the date hereof and as interpreted in published case law until this date, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect. Where in this summary the terms "the Netherlands" and "Dutch" are used, these terms solely refer to the part of the Kingdom of the Netherlands that is situated in Europe.

With the exception of paragraph (a) under 'General' below, this summary does not address the Netherlands tax consequences of:

- (a) a Covered Bondholder holding a substantial interest (aanmerkelijk belang) in the Issuer, within the meaning of Section 4.3 of the Dutch Income Tax Act 2001 ("**Wet inkomstenbelasting 2001**"). Generally speaking, a Covered Bondholder (including both individuals and entities) holds a substantial interest in the Issuer, if such Covered Bondholder, alone or together with his or her partner (statutory defined term) or certain other related persons, directly or indirectly, holds (i) an interest of five per cent. or more of the total issued and outstanding capital of the Issuer or of five per cent. or more of the issued and outstanding capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;*
- (b) a Covered Bondholder qualifying as an investment institution (fiscale beleggingsinstellingen); and*
- (c) a Covered Bondholder qualifying as a pension fund, exempt investment institution (vrijgestelde beleggingsinstellingen) or other entity that is, in whole or in part, not subject to exempt from Netherlands corporate income tax.*

Where in this summary reference is made to a "Covered Bondholder", this includes, without limitation, an individual to whom, or an entity to which, benefits derived from Covered Bonds are attributed for Dutch tax purposes.

General

The Issuer has been advised that under the existing laws of the Netherlands:

- (a) all payments by the Issuer under the Covered Bonds can be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein;
- (b) a Covered Bondholder deriving income from a Covered Bond or realising a gain on the disposal or redemption of a Covered Bond will not be subject to Netherlands taxation on income or capital gains unless:
 - (i) the holder is treated as resident in the Netherlands for the purpose of the relevant provisions; or
 - (ii) such income or gain is attributable to an enterprise or part thereof which is carried on by or for the benefit of the Covered Bondholder through a permanent establishment, deemed permanent establishment or a permanent representative in the Netherlands; or
 - (iii) the holder is an individual and such income or gain qualifies as income from

miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in section 3.4 of the Wet inkomstenbelasting 2001;

- (c) Netherlands gift, estate or inheritance taxes will not be levied on the occasion of the transfer of a Covered Bond by way of gift by, or on the death, of a Covered Bondholder, unless:
 - (i) the Covered Bondholder is, or is deemed to be, a resident of the Netherlands for the purpose of the Netherlands gift and inheritance tax (Successiewet 1956); or
 - (ii) the transfer is construed as an inheritance or as a gift made by or on behalf of a person who, at the time of the gift or death, is or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions;
- (d) there is no Netherlands registration tax, stamp duty or any other similar documentary tax or duty, other than court fees, payable in the Netherlands in respect of or in connection with the execution, delivery and enforcement by legal proceedings (including any foreign judgment in the courts of the Netherlands) of the Covered Bonds or the performance of the Issuer's obligations under the Covered Bonds;
- (e) there is no Netherlands value added tax payable in respect of payments in consideration for the issue of a Covered Bond or in respect of the payment of interest or principal under the Covered Bonds or the transfer of a Covered Bond; and
- (f) a holder of a Covered Bond will not become, and will not be deemed to be, resident of the Netherlands for Netherlands tax purposes by reason only of the holding of a Covered Bond or the execution, performance delivery and/or enforcement of a Covered Bond.

EUROPEAN SAVINGS DIRECTIVE

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**Savings Directive**"), Member States of the European Union (the "Member States" and each a "Member State") are required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident in that other Member State; however, for a transitional period, Austria may instead apply a withholding system in relation to such payments, deducting tax at a rate of 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information arrangements or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Covered Bond as a result of the imposition of such tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Savings Directive.

However, on 10 November 2015, the Council of the European Union adopted a Directive that substantially repeals the Savings Directive from 1 January 2017, in the case of Austria and from 1 January 2016, in the case of all other Member States (subject to ongoing requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU).

COVERED BOND LEGISLATION AND COMPLIANCE WITH UCITS- AND CAPITAL REQUIREMENTS DIRECTIVE

Description of the Dutch Covered Bond Regulations

In 2008 the Netherlands introduced a legal framework for regulated covered bonds which was replaced as of 1 January 2015 by a new framework. The applicable Dutch covered bond law and regulations relating to the legal requirements for the issuance of legal covered bonds as amended from time to time (the "**CB Regulations**") aim to provide more safeguards to covered bondholders, while respecting other interests that are connected with the issuance of covered bonds, such as avoiding an undesirable degree of asset encumbrance. The Dutch covered bond law and regulations relating to the legal requirements for the issuance of legal covered bonds as applicable prior to 1 January 2015 (the "**Old CB Regulations**") consisted of a limited, principle based framework that gave issuers flexibility. While a considerable amount of flexibility is retained, the new framework contains more detailed provisions to increase transparency and protection for investors.

Due to the grandfathering provision of the CB Regulations and the approval and the registration of the Issuer prior to 1 January 2015, the CB Regulations will become effective for the Programme of the Issuer twelve (12) months as from 1 January 2015, which means that this Programme remains subject to the Old CB Regulations as applicable before 1 January 2015 as set out below until 1 January 2016 or, if earlier, approval by DNB that the Covered Bonds and Issuer comply with the CB Regulations, after which the CB Regulations will apply to the Issuer and the Covered Bonds.

The CB Regulations apply to the issuance of DNB-registered covered bonds, which are bonds included in the list made publicly available pursuant to Article 52(4) of the UCITS Directive or, where such registration has not yet occurred, a covered bond which is registered by DNB in accordance with the CB Regulations. Therefore, like any other issuance of debt instruments and legal transfers of assets made in accordance with Dutch law, the issuance of a DNB-registered covered bond and the legal transfer of cover assets are subject to the provisions of the Dutch Civil Code and the Dutch Bankruptcy Code.

Whereas the Old CB Regulations were part of a government and ministerial decree, the new CB Regulations will include rules on the level of parliamentary law and form a collection of rules forming part of three layers of legislation: the Wft, the Wft Prudential Rules Decree ("*Besluit prudentiële regels Wft*") and the Wft Implementing Regulation ("*Uitvoeringsregeling Wft*"). The inclusion of rules on parliamentary law level enables a more extensive and proportional sanctions regime, such as fines. Under the Old CB Regulations, DNB could only eliminate the registration of a covered bond and the issuer, if the issuer did not meet the requirements and could order an issuance stop. It had no other sanctioning powers. Under the new CB Regulations the sanction first mentioned above has been eliminated and, consequently, the registration of a covered bonds issued under a programme cannot be cancelled anymore. However, DNB can still eliminate the registration of the issuer and order an issuance stop, after which the issuing bank will not be allowed to issue more covered bonds.

The CB Regulations include various requirements relating to issuers, owners of the asset pool, eligible assets and the contractual arrangements made in respect of such assets. The CB Regulations also require a valid safeguarding or sufficient cover assets for holders of DNB-registered covered bonds. Furthermore, the issuer must be a licensed bank with its registered address in the Netherlands.

As a main principle the CB Regulations require that DNB-registered covered bonds will have to comply with the conditions for preferential treatment of article 52(4) UCITS Directive. In addition the CB Regulations also includes mandatory compliance with article 129 CRR.

The CB Regulations introduce a minimum level of overcollateralisation of 5 per cent. This means that the nominal value of the cover assets must be 105 per cent. of the nominal value of the outstanding covered bonds under the relevant programme. An additional collateralisation requirement, which is calculated separately, is that the nominal size of the cover assets taking into account the cut-off rules for collateralised assets of article 129 CRR is at least equal to the nominal value of the outstanding covered bonds. The Issuer as part of the programme undertakes as part of the Asset Cover Test that it will meet the requirements pursuant to the Wft in respect of the collateralisation of the Covered Bonds, including, that (i) the First Regulatory Current Balance Amount will always be at least equal to 105 per cent., or such other percentage as may be required from time to

time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds for so long as Covered Bonds remain outstanding and (ii) the Second Regulatory Current Balance will always be at least equal to 100 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds for so long as Covered Bonds remain outstanding (see section 16 *Asset Monitoring*).

An issuer is required to ensure that the owner of the asset pool maintains a liquidity buffer that covers interest payments, principal payments and senior costs that will be due in the coming six (6) months. If an extension period of at least six (6) months is included, (as in this programme), no liquidity buffer needs to be held for principal payments. Liquid assets are public sector loans and exposures to institutions as defined in article 129 CRR. The Issuer will comply with this requirement once applicable by ensuring that the Liquidity Reserve Required Amount will be deposited on the GIC Account.

There are strict criteria as to which assets may be included in an asset pool for the purposes of a DNB-registered covered bond and are limited to the assets listed in article 129 CRR under (a), (b), (d) sub (i), (e), (f) sub (i) and (g), i.e. public sector loans, residential real estate loans, commercial real estate loans, and shipping loans, subject to certain limitations. The issuer must choose which asset class it primarily includes in the programme. In addition, up to 20 per cent. of the outstanding covered bonds under a program may be covered by substitution assets. These are the liquid assets that are allowed under CRR: public sector exposures and exposures to institutions. Residential mortgage backed securities and commercial mortgage backed securities are excluded as cover assets. The Eligibility Criteria require that the Issuer only includes residential real estate loans as primary assets and the definition of Substitution Asset complies with the CB Regulations.

The CB Regulations includes rules on valuation of cover assets. As a main rule, cover assets will be valued at their nominal value. Substitution assets will have to be valued at market value according to an internationally accepted accountancy standard. Several categories of assets will be awarded no value when applying the overcollateralization and liquidity requirements are met:

- defaulted loans, as defined by article 178 CRR;
- assets which are the subject of a sub-participation or similar arrangement up to an amount to which a third party has an entitlement to (part of) such assets;
- assets that consist of exposures of the CBC on the issuer or entities of the same group.

Issuers will be required to appoint an external accountant as asset monitor which will have to perform an annual check of certain aspects of the administration and valuation process on the cover assets. More specifically, the external accountant has to:

- perform a check on the calculation of the legal overcollateralisation requirements;
- perform a check on the calculation of the legal liquidity buffer requirement.

In addition the issuer must ensure that an external accountant performs a yearly check on a sample of the files related to the cover assets.

As under the old framework, the issuer must maintain a healthy ratio between the outstanding covered bonds and the balance sheet of the issuer (the latter to protect other stakeholders). As a new element, the issuer will be required to perform annual stress tests to assess whether the healthy ratio will be maintained in adverse scenarios. Risks to be taken into account include credit risk, interest rate risk, currency risk and liquidity risk.

The issuer will also need to have solid and effective strategies and procedures for verifying and procuring the sufficiency of the cover assets, taking into account the composition of the cover assets, the over-collateralisation and the applicable risks and stress tests.

Also, the CB Regulations continue to provide for ongoing administration and reporting obligations towards DNB and include new reporting obligations towards the covered bondholders.

Under the CB Regulations the covered bonds no longer need to have a (minimum) credit rating as was

obligatory under the Old CB Regulations.

Compliance CB Regulations with UCITS- and/or Capital Requirements Directive

The Issuer has obtained the Regulated Status pursuant to the Old CB Regulations at the date of this Base Prospectus. The Issuer will apply with DNB for admission of the Issuer and the Covered Bonds to be issued by the Issuer under the Programme to the register of DNB in accordance with the CB Regulations and until such admission or, ultimately until 1 January 2016, the Issuer will comply with the Old CB Regulations. Thereafter, the CB Regulations will apply and as of such moment the Issuer has undertaken to comply therewith. The Issuer has already included the relevant mandatory asset test in the Asset Cover Test and the Amortisation Test. The Issuer will only issue Covered Bonds under this Base Prospectus that obtain the Regulated Status. See also Compliance of Covered Bonds with the UCITS Directive and/or CRD IV above.

In the Trust Deed the Issuer has undertaken to utilise its best efforts to procure that the Covered Bonds that have obtained the Regulated Status, will keep the Regulated Status until redemption in full.

It is the intention of the Issuer that the Covered Bonds have the CRR Status and such status is mandatory as of 1 January 2016. The criteria for Eligible Assets and the limitations as a result of the LTV Cut-Off Percentage in the Asset Cover Test procure that the Covered Bonds issued have the CRR Status, when these have the Regulated Status.

The "best efforts" undertakings set out in this section will no longer apply if, as a result of a change of law or regulations, Dutch residential mortgage receivables are insufficient for collateralisation of the Covered Bonds to keep the Regulated Status or are no longer eligible to collateralise covered bonds under the CRR.

8. ASSET BACKED GUARANTEE

GUARANTEE

Pursuant to the Guarantee, if (i) an Issuer Acceleration Notice and a Notice to Pay are served or (ii) a CBC Acceleration Notice is served, the CBC will be liable to pay Guaranteed Amounts when the same become Due for Payment.

Following (i) the service of an Issuer Acceleration Notice on the Issuer, (ii) a Breach of the Asset Cover Test or (iii) a Breach of any Portfolio Test (if implemented), the Security Trustee shall serve a Notice to Pay on the CBC. However, service of a Notice to Pay under (ii) or (iii) above will not require the CBC to pay under the Guarantee, until an Issuer Acceleration Notice or a CBC Acceleration Notice has been served.

All payments of Guaranteed Amounts by or on behalf of the CBC will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature, unless the withholding or deduction of such taxes, assessments or other governmental charges are required by law or regulation or administrative practice of any jurisdiction. If any such withholding or deduction is required, the CBC will pay the Guaranteed Amounts net of such withholding or deduction and shall account to the appropriate tax authority for the amount required to be withheld or deducted. The CBC will not be obliged to pay any additional amount to the Security Trustee or any holder of Covered Bonds in respect of the amount of such withholding or deduction.

An Extended Due for Payment Date will apply to each Series of Covered Bonds to be issued under the Programme. However the Issuer may at any time decide to issue Covered Bonds to which no Extended Due for Payment Date shall apply, provided that the Security Trustee consents thereto in writing. The Security Trustee is not required to consult with the Covered Bondholders prior to giving its approval. The Base Prospectus and the Relevant Documents will be amended accordingly, subject to Rating Agency Confirmation. A pre-maturity test may be included to ensure that sufficient liquidity is provided for the Covered Bonds if the Issuer's credit rating falls below a certain level.

In respect of each Series, if the CBC is obliged under the Guarantee to pay a Guaranteed Final Redemption Amount, then:

- (a) the obligation of the CBC to pay the Guaranteed Final Redemption Amount shall be deferred to, and shall under the Guarantee be due on, the Extended Due for Payment Date, unless on the Extension Date or any subsequent Interest Payment Date which applies pursuant to paragraph (b) below and which falls prior to the Extended Due for Payment Date, any moneys are available to the CBC after the CBC shall under the relevant Priority of Payments have paid or provided for (1) all higher ranking amounts and (2) all Guaranteed Final Redemption Amounts pertaining to any Series with an Extended Due for Payment Date falling prior to the CBC Payment Period in which the Extended Due for Payment Date for this Series falls, in which case the CBC shall (i) give notice thereof to the relevant holders of the Covered Bonds (in accordance with Condition 14 (*Notices*)), the Rating Agencies, the Security Trustee, the Principal Paying Agent and the Registrar (in the case of Registered Covered Bonds) as soon as reasonably practicable and in any event on the Extension Date (whereby such notice shall be deemed to have been given on the date on which the notice was given by the CBC and/or was given to the relevant clearing system) or at least two Business Days prior to such Interest Payment Date, respectively, and (ii) apply such remaining available moneys in payment, in whole or in part, of the Guaranteed Final Redemption Amount, if applicable *pro rata* with any Guaranteed Final Redemption Amount pertaining to a Series with an Extended Due for Payment Date falling in the same CBC Payment Period in which the Extended Due for Payment Date for this Series falls (and to such extent the Guaranteed Final Redemption Amount shall for the purpose of the relevant Priority of Payments and all other purposes be due) on the Extension Date and/or such Interest Payment Date, respectively; and
- (b) the CBC shall under the Guarantee owe interest over the unpaid portion of the Guaranteed Final Redemption Amount, which shall accrue and be payable on the basis set out in the applicable Final Terms or, if not set out therein, Condition 5 (*Interest*), provided that for this purpose all references in Condition 4 to the Maturity Date are deemed to be to references the Extended Due for Payment Date,

mutatis mutandis,

all without prejudice to the CBC's obligation to pay any other Guaranteed Amount (i.e. other than the Guaranteed Final Redemption Amount) when Due for Payment.

Failure by the CBC to pay Guaranteed Final Redemption Amounts or the balance thereof, as the case may be, on the Extended Due for Payment Date and/or pay the other Guaranteed Amounts on any Scheduled Payment Date or the Extended Due for Payment Date will (subject to any applicable grace period) be a CBC Event of Default.

For the purposes hereof:

"Due for Payment" means, with respect to a Guaranteed Amount, (i) prior to the service of a CBC Acceleration Notice, the Scheduled Payment Date in respect of such Guaranteed Amount or, if later, the day which is two Business Days after service of an Issuer Acceleration Notice and a Notice to Pay on the CBC or (ii) after the service of a CBC Acceleration Notice, the date on which the CBC Acceleration Notice is served (or, in either case, if such day is not a Business Day, the first following Business Day).

"Guaranteed Amounts" means, in respect of a Series:

- (a) with respect to any Scheduled Payment Date falling prior to the service of a CBC Acceleration Notice, the sum of the Scheduled Interest and Scheduled Principal payable on such Scheduled Payment Date; or
- (b) with respect to any date after the service of a CBC Acceleration Notice, an amount equal to the aggregate of (i) the relevant Early Redemption Amount specified in the Terms and Conditions as being payable on that date and (ii) all accrued and unpaid interest and all other amounts due and payable in respect of the Covered Bonds and all amounts payable by the CBC under the Trust Deed, provided that any Guaranteed Amounts representing interest paid after the Maturity Date shall be paid on such dates and at such rates as specified in the applicable Final Terms.

"Scheduled Interest" means, in respect of a Series, any amount of scheduled interest payable (i) under the Covered Bonds as specified in Condition 5 (*Interest*) (but excluding (a) any additional amounts relating to premiums, default interest or interest upon interest payable by the Issuer following an Issuer Event of Default and (b) any additional amounts the Issuer would be obliged to pay as a result of any gross-up in respect of any withholding or deduction made under the circumstances set out in Condition 8 (*Taxation*)), for this purpose disregarding any Excess Proceeds received by the Security Trustee on account of scheduled interest and on-paid to the CBC in accordance with the Trust Deed, or (ii) under the Guarantee as specified in Condition 3(b) (*The Guarantee*).

"Scheduled Payment Dates" means, in respect of a Series, each Interest Payment Date and the Maturity Date as specified in (i) in the case of Scheduled Interest, Condition 5 (*Interest*) or Condition 3(b) (*The Guarantee*), as the case may be, or (ii) in the case of Scheduled Principal, Condition 7(a) (*Redemption at Maturity*).

"Scheduled Principal" means, in respect of a Series, any amount of scheduled principal payable under the Covered Bonds as specified in Condition 7(a) (*Redemption at Maturity*) (but excluding (a) any additional amounts relating to prepayments, early redemption, broken funding indemnities, penalties, premiums or default interest payable by the Issuer following an Issuer Event of Default and (b) any additional amounts the Issuer would be obliged to pay as a result of any gross-up in respect of any withholding or deduction made under the circumstances set out in Condition 8 (*Taxation*)), for this purpose disregarding any Excess Proceeds received by the Security Trustee on account of scheduled principal and on-paid to the CBC in accordance with the Trust Deed.

SECURITY

In the Parallel Debt Agreement the CBC has irrevocably and unconditionally undertaken to pay to the Security Trustee (the "**Parallel Debt**") an amount equal to the aggregate amount due ("*verschuldigd*") by it (i) to the Covered Bondholders under the Covered Bonds, (ii) as fees or other remuneration to the Directors under the Management Agreements, (iii) as fees and expenses to the Servicer under the Servicing Agreement, (iv) as fees and expenses to the Administrator under the Administration Agreement, (v) as fees and expenses to the Paying Agents and the Registrar under the Agency Agreement, (vi) as fees and expenses to the Calculation Agents under the Calculation Agent Agreements, (vii) to the Swap Counterparties under the Swap Agreements, (viii) to any Insurance Savings Participant under an Insurance Savings Participation Agreement, (ix) as fees and expenses to the Asset Monitor under the Asset Monitor Appointment Agreement and (x) to any Bank Savings Participants under a Bank Savings Participation Agreement (the parties referred to in items (i) through (x) together the "**Secured Parties**"). The Parallel Debt constitutes a separate and independent obligation of the CBC and constitutes the Security Trustee's own separate and independent claims ("*eigen en zelfstandige vordering*") to receive payment of the Parallel Debt from the CBC. Upon receipt by the Security Trustee of any amount in payment of the Parallel Debt, the payment obligations of the CBC to the Secured Parties shall be reduced by an amount equal to the amount so received.

To the extent that the Security Trustee irrevocably and unconditionally receives any amount in payment of the Parallel Debts, the Security Trustee shall distribute such amount among the Secured Parties in accordance with the Post CBC Acceleration Notice Priority of Payments, save for amounts due to the Insurance Savings Participant and the Bank Savings Participants in connection with, in respect of each Insurance Savings Mortgage Receivable, the Insurance Savings Participation and in respect of each Bank Savings Mortgage Receivable, the Bank Savings Participation (together the "**Participations**"). The amounts due to the Secured Parties, other than the Insurance Savings Participant and the Bank Savings Participants, will, broadly, be equal to amounts recovered ("*verhaald*") by the Security Trustee on (i) the Mortgage Receivables (other than the Savings Mortgage Receivables) and other assets pledged to the Security Trustee under any Security Trustee Receivables Pledge Agreement, any Security Trustee Rights Pledge Agreement and any other Pledge Agreements and (ii) on each of the Savings Mortgage Receivables which are subject to a Participation to the extent the amount recovered exceeds the Participation in the relevant Savings Mortgage Receivables.

The amounts due to the Insurance Savings Participant and the Bank Savings Participants will be equal to the Participation in each of the Savings Mortgage Receivables or if the amount recovered is less than the Participation in such Savings Mortgage Receivable the amount equal to the amount actually recovered.

Pursuant to a receivables pledge agreement (the "**Security Trustee Receivables Pledge Agreement**") the CBC has undertaken to vest a right of pledge in favour of the Security Trustee on the Mortgage Receivables and the Beneficiary Rights immediately following the transfer thereof to the CBC, which will secure the payment obligations of the CBC to the Security Trustee under the Parallel Debt Agreement and any other Relevant Documents. The pledge on the Mortgage Receivables will not be notified to the Borrowers and the Insurance Companies, respectively, except in the event that certain notification events occur relating to the CBC, including the occurrence of a CBC Event of Default, by the Security Trustee (the "**Security Trustee Pledge Notification Events**"). Prior to notification of the pledge to the Borrowers, the pledge of the Mortgage Receivables will be an "undisclosed" right of pledge ("*stil pandrecht*") within the meaning of section 3:239 of the Dutch Civil Code.

The CBC has also undertaken to vest a first ranking right of pledge or such other appropriate first ranking security interest in favour of the Security Trustee on any other Transferred Assets transferred to the CBC on the relevant Transfer Date.

In addition, a right of pledge (the "**Security Trustee Rights Pledge Agreement**", and together with the Security Trustee Receivables Pledge Agreement and any other agreement pursuant to which security is granted to the Security Trustee on any Transferred Asset other than the Mortgage Receivables and the Beneficiary Rights relating thereto entered into with the Security Trustee, the "**Pledge Agreements**") was vested by the CBC in favour of the Security Trustee on the Programme Date over all rights of the CBC under or in connection with (i) the Guarantee Support Agreement, (ii) the Servicing Agreement, (iii) the Administration Agreement, (iv) any Insurance Savings Participation Agreement, (v) any Bank Savings Participation Agreement, (vi) any Swap

Agreement, (vii) the Asset Monitor Appointment Agreement; (viii) the GIC and (ix) in respect of the GIC Accounts (the "**CBC Relevant Documents**"). This right of pledge has been notified to the relevant obligors and will, therefore, be a disclosed right of pledge ("*openbaar pandrecht*").

The Collection Foundation has in a collection foundation accounts pledge agreement dated 31 January 2012 (including any future collection foundation pledge agreements entered into in replacement of such agreement) (the "**Collection Foundation Accounts Pledge Agreement**") granted a first ranking right of pledge on the balances standing to the credit of the Collection Foundation Accounts in favour of, *inter alia*, the Security Trustee and the Previous Transaction Security Trustees jointly as security for any and all liabilities of the Collection Foundation to the Security Trustee and the Previous Transaction Security Trustees, and a second ranking right of pledge in favour of, *inter alia*, the CBC and the Previous Transaction SPVs jointly as security for any and all liabilities of the Collection Foundation to the CBC and the Previous Transaction SPVs, both under the condition that future issuers (and any security trustees) in securitisations or similar transactions (and any security trustees relating thereto) initiated by any Originator will after accession also have the benefit of such right of pledge. Such rights of pledge have been notified to the Foundation Account Provider.

Since the Previous Transaction SPVs and/or the Previous Transaction Security Trustees, as the case may be, and the CBC and/or the Security Trustee, as the case may be, have a second and a first ranking right of pledge, respectively, on the amounts standing to the credit of the Collection Foundation Accounts, the rules applicable to co-ownership ("*gemeenschap*") apply.

9. THE SECURITY TRUSTEE

Stichting Security Trustee SNS Covered Bond Company (the "**Security Trustee**") is a foundation ("*stichting*") incorporated under the laws of the Netherlands on 13 November 2007. It has its registered office in Amsterdam, the Netherlands.

The objects of the Security Trustee are (a) to act as security trustee for the benefit of holders of covered bonds issued by the Issuer or one of its legal successors and for the benefit of other creditors of the Issuer and of the CBC, insofar they are a Secured Party, (b) to acquire, hold and administer security rights in its own name and/or as agent and/or as trustee, and if necessary to enforce such security rights, for the benefit of the creditors of the CBC, including the beneficiaries of a guarantee to be issued by the CBC, and to perform acts and legal acts, including the acceptance of a parallel debt obligation from the CBC, which is conducive to the holding of the above mentioned security rights, (c) to borrow money and (d) to perform any and all acts which are related, incidental or which may be conducive to the above. The Security Trustee does not have the intent to make profits.

The sole director of the Security Trustee is SGG Securitisation Services B.V. (as the successor of SGG Netherlands N.V.), having its registered office at Hoogoorddreef 15, 1101 BA Amsterdam, the Netherlands.

The Security Trustee has agreed to act as security trustee for the holders of the Covered Bonds and to pay any amounts received from the Issuer or the CBC or amounts collected by the Security Trustee under the Security to the Covered Bondholders subject to and pursuant to the Parallel Debt Agreement and the Trust Deed subject to and in accordance with the Post CBC Acceleration Notice Priority of Payments.

In addition, the Security Trustee has agreed to act as security trustee vis-à-vis the other Secured Parties and to pay to such Secured Parties any amounts received from the Issuer or the CBC or amounts collected by the Security Trustee under the Security to which the relevant Secured Party is a party subject to and pursuant to the Parallel Debt Agreement and the Trust Deed subject to and in accordance with the Post CBC Acceleration Notice Priority of Payments.

The Security Trustee shall not be liable for any action taken or not taken by it or for any breach of its obligations under or in connection with the Trust Deed or any other Relevant Document to which it is a party, except in the event of its wilful misconduct ("*opzet*") or negligence ("*nalatigheid*"), and it shall not be responsible for any act or negligence of persons or institutions selected by it in good faith and with due care.

Without prejudice to the right of indemnity by law given to it, the Security Trustee and every attorney, manager, agent, delegate or other person appointed by it under the Trust Deed shall be indemnified by the Issuer against and shall on first demand be reimbursed in respect of all liabilities and expenses properly incurred by it in the execution or purported execution of the powers of the Trust Deed or of any powers, authorities or discretions vested in it or him pursuant to the Trust Deed and against all actions, proceedings, costs, claims and demands in respect of any matter or thing done or omitted in any way relating to the Trust Deed or otherwise.

As set out in the Trust Deed, the Management Agreement and the Security Trustee's articles of incorporation, the Security Trustee shall not retire or be removed from its duties under the Trust Deed until all amounts payable by the Issuer or the CBC to the Secured Parties have been paid in full.

However, the Covered Bondholders can resolve to dismiss the Director of the Security Trustee as the director of the Security Trustee by a Programme Resolution, on the basis of Clause 23 of the Trust Deed. The Director of the Security Trustee shall only resign from its position as director of the Security Trustee as soon as a suitable person, trust or administration office, reasonably acceptable to the Issuer and the CBC, after having consulted the Secured Parties, other than the Covered Bondholders, and subject to Rating Agency Confirmation, has been contracted to act as director of the Security Trustee.

10. GUARANTEE SUPPORT

TRANSFERS

As consideration for the CBC issuing the Guarantee, and so as to enable the CBC to meet its obligations under the Guarantee, the Originators have agreed in the guarantee support agreement originally dated the Programme Date between the Issuer, the Originators, the CBC and the Security Trustee, as the same may be amended and restated from time to time (the "Guarantee Support Agreement") to transfer Eligible Assets to the CBC. The transfers are effectuated as follows:

- (a) in the case of Eligible Receivables, by way of undisclosed assignment ("*stille cessie*"). This takes place through due execution by the relevant Originator and the CBC of a deed of assignment in the form attached to the Guarantee Support Agreement and offering the same for registration to the Dutch tax authorities ("*Belastingdienst*") or by way of a notarial deed incorporating such deed of assignment. Notification ("*mededeling*") of the assignment to the Borrowers will only take place if an Assignment Notification Event occurs in respect of the relevant Originator. Following receipt of notification by the relevant Borrowers, in principle, only payment to the CBC will be capable of discharging a Borrower's obligations under the relevant Mortgage Receivable; and/or
- (b) in the case of Eligible Collateral, by way of book-entry transfer ("*girale overboeking*").

On the first Transfer Date, the Originators will transfer to the CBC the respective Eligible Receivables. Thereafter:

- (i) each Originator may at any time offer to transfer further Eligible Assets to the CBC; and
- (ii) the Issuer undertakes, upon request of the CBC, to offer to transfer further Eligible Assets to the CBC. The CBC will only make such a request if it (or the Administrator on its behalf) determines that the Asset Cover Test or any Portfolio Test (if implemented) has been breached under the Asset Monitoring Agreement. The Issuer will have the right to comply with this undertaking by the other Originators offering to transfer (part of) such Eligible Assets to the CBC.

The CBC shall accept each such offer if the relevant conditions precedent set out in the Guarantee Support Agreement have been met, including in the case of transfer of mortgage receivables (the "New Mortgage Receivables") receipt of a confirmation that the Mortgage Receivables Warranties are true and correct in all material respects and not misleading in any material respect as at the relevant Transfer Date.

If in respect of an Originator an Assignment Notification Event has occurred, the Issuer or, at its option, the relevant Originator shall notify or ensure that the relevant Borrowers and, solely in relation to the Beneficiary Rights, the Insurance Companies are forthwith notified of:

- (a) the partial termination of any Bank Security Rights jointly-held by the CBC and/or the Security Trustee and this Originator to the extent that such Bank Security Rights secure other debts than the relevant Mortgage Receivables; and
- (b) the assignment of the relevant Mortgage Receivables and the Beneficiary Rights relating thereto.

The CBC has the right to make these notifications itself. No notification is required if the Security Trustee instructs the Issuer otherwise subject to Rating Agency Confirmation.

For as long as no Assignment Notification Event has occurred and no Notice to Pay and no CBC Acceleration Notice has been served, pursuant to the Guarantee Support Agreement, the CBC is not entitled to receive or retain any proceeds from the Transferred Assets; such proceeds will all be received and retained by the Originators for their own benefit. If an Assignment Notification Event occurs or a Notice to Pay or CBC Acceleration Notice is served on the CBC, pursuant to the Guarantee Support Agreement, the CBC shall, subject to the rights of the Security Trustee as pledgee, be entitled to receive for its own benefit all proceeds of the Transferred Assets to the extent relating to the period following such Assignment Notification Event or service of such Notice to Pay or CBC Acceleration Notice. On 31 January 2013 Moody's downgraded the rating of SNS

Bank's long term unsecured, unsubordinated and unguaranteed debt obligations below Baa1. After such downgrade the original assignment notification event occurred and SNS Bank, the CBC and the Security Trustee discussed the consequences of the occurrence of such event and SNS Bank, the CBC and the Security Trustee have agreed that a rating trigger for notification, which was included in the original assignment notification events, is no longer required, taking into account, *inter alia*, measures implemented to reduce the commingling risk, such as the new structure of the Collection Foundations (see below). It was furthermore agreed that none of the possible consequences of the occurrence of an Assignment Notification Event will need to be implemented and that no Assignment Notification Event will be deemed to have occurred. The rating of SNS's long term unsecured, unsubordinated and unguaranteed debt obligations has thereafter been upgraded by Moody's to Baa2 (see section 5 *SNS Bank N.V.* under Rating Agencies).

CASHFLOWS

In the Guarantee Support Agreement each Originator covenants, among other things, that if (i) it makes any Further Advance under any mortgage loan agreement, (ii) such Further Advance is secured by the same Mortgage that secures the Mortgage Receivable and (iii) (a) such Further Advance results in an Eligible Receivable, then it will transfer such further Eligible Receivable to the CBC as soon as reasonably practicable and, if possible, prior to the following Calculation Date, or (b) such Further Advance does not result in an Eligible Receivable, then it will request a retransfer of the relevant Mortgage Receivable in accordance with the Guarantee Support Agreement.

Neither the CBC, the Security Trustee nor the Issuer has made or has caused to be made on its behalf any enquiries, searches or investigations in respect of the Transferred Assets. Instead, each is relying entirely on the Representations and Warranties by the relevant Originator contained in the Guarantee Support Agreement. The parties to the Guarantee Support Agreement may, with the prior written consent of the Security Trustee and subject to Rating Agency Confirmation, amend the Representations and Warranties. The mortgage receivables warranties, (the "**Mortgage Receivables Warranties**") are as follows and are given on the relevant Transfer Date by the relevant Originator in respect of the New Mortgage Receivables to be transferred by it to the CBC:

- (i) each New Mortgage Receivable is an Eligible Receivable; and
- (ii) the particulars of the Eligible Receivables set out in Annex 1 to the relevant deed of assignment and pledge, are true, complete and accurate in all material respects and the Outstanding Principal Amount in respect of each Eligible Receivable as at the relevant Transfer Date and the aggregate Outstanding Principal Amount of the Eligible Receivables is correctly stated in the relevant deed of assignment.

The Programme Agreement provides a mechanism for (i) at the option of the Issuer, members of SNS Group wishing to transfer Eligible Assets to the CBC, to accede to the Relevant Documents as a New Originator, subject always to Rating Agency Confirmation and (ii) Originators that have not originated any of the CBC's Transferred Assets held by the CBC at such time, to withdraw from the Relevant Documents as an Originator.

In the Trust Deed, the Security Trustee agrees to, upon receipt of each Asset Cover Report, verify whether such Asset Cover Report states that an Assignment Notification Event has occurred.

For the purpose hereof:

"Assignment Notification Event" means in respect of an Originator the earliest to occur of the following:

- (i) a default is made by such Originator in the payment on the due date of any amount due and payable by it under any Relevant Document to which it is a party and such failure is not remedied within ten (10) Business Days after notice thereof has been given by the CBC or the Security Trustee to the relevant Originator;
- (ii) such Originator fails duly to perform or comply with any of its obligations under any Relevant Document to which it is a party and if such failure is capable of being remedied, such failure, is not remedied within ten (10) Business Days after notice thereof has been given by the CBC or the Security Trustee to the relevant Originator or such other party;
- (iii) such Originator takes any corporate action or other steps are taken or legal proceedings are started or

- threatened against it for its dissolution ("*ontbinding*"), liquidation ("*vereffening*") or legal demerger ("*juridische splitsing*") involving the relevant Originator or for its being converted in a foreign entity, or its assets are placed under administration ("*onder bewind gesteld*");
- (iv) such Originator takes any corporate action, or other steps are taken or legal proceedings are started or threatened against it, for (i) its entering into emergency regulations ("*noodregeling*") as referred to in Chapter 3 of the Wft or suspension of payments ("*surseance van betaling*"), as the case may be, (ii) its bankruptcy, (iii) any analogous insolvency proceedings under any applicable law or (vii) the appointment of a liquidator, administrator or a similar officer of it or of any or all of its assets;
 - (v) a Notice to Pay is served on the Issuer and the CBC (but for the avoidance of doubt, not a Notice to Pay on the Issuer following a Breach of Asset Cover Test);
 - (vi) a CBC Event of Default occurs;
 - (vii) a Security Trustee Pledge Notification Event occurs;
 - (viii) RegioBank ceases to be a subsidiary of SNS Bank within the meaning of section 2:24a of the Dutch Civil Code (unless RegioBank has merged with SNS Bank in which case this notification event will cease and will be deemed to be deleted); or
 - (ix) SNS Bank withdraws its 403-declaration issued in respect of RegioBank (unless RegioBank has merged with SNS Bank in which case this notification event will cease and will be deemed to be deleted);

"Further Advance" means, in relation to a Mortgage Receivable, a new mortgage loan or a further advance to be made to a Borrower by the relevant Originator, whether or not under the relevant Mortgage Loan, which is only secured by the Mortgage which also secures the Mortgage Receivable.

"Net Outstanding Principal Amount" means in relation to a Mortgage Receivable, at any date, the Outstanding Principal Amount of such Mortgage Receivable less, if it is a Savings Mortgage Receivable subject to a Participation, an amount equal to the Participation on such date.

"Outstanding Principal Amount" in respect of a Mortgage Receivable, on any date the (then remaining) aggregate principal sum ("*hoofdsom*") due by the relevant Borrower under the relevant Mortgage Receivable, including any Further Advance, and after the foreclosure of the relevant Mortgage Receivable resulting in a loss being realised, zero.

"Representations and Warranties" means the representations and warranties given by each of the Originators as set out in Schedule 1 (*Representations and Warranties*) to the Guarantee Support Agreement.

"Transfer Date" means the date of transfer of any Eligible Assets to the CBC in accordance with the Guarantee Support Agreement.

"Transferred Assets" means the Mortgage Receivables and the Transferred Collateral.

"Transferred Collateral" means any Eligible Collateral transferred or purported to be transferred to the CBC pursuant to the Guarantee Support Agreement, to the extent not retransferred, sold or otherwise disposed of by the CBC.

"Rating Agency Confirmation" means, with respect to a matter which requires Rating Agency Confirmation under the Relevant Documents and which has been notified to each Rating Agency with a request to provide a confirmation, receipt by the Security Trustee, in form and substance satisfactory to the Security Trustee, of

- (a) a confirmation from each Rating Agency that its then current ratings of the Covered Bonds will not be adversely affected by or withdrawn as a result of the relevant matter (a "**confirmation**");
- (b) if no confirmation is forthcoming from any Rating Agency, a written indication, by whatever means of communication, from such Rating Agency that it does not have any (or any further) comments in respect of the relevant matter (an "**indication**");
- (c) if no confirmation and no indication is forthcoming from any Rating Agency and such Rating Agency has not communicated that the then current ratings of the Covered Bonds will be adversely affected by or withdrawn as a result of the relevant matter or that it has comments in respect of the relevant matter:
 - (i) a written communication, by whatever means, from such Rating Agency that it has completed its review of the relevant matter and that in the circumstances (x) it does not consider a confirmation

- required or (y) it is not in line with its policies to provide a confirmation; or
- (ii) if such Rating Agency has not communicated that it requires more time or information to analyse the relevant matter, evidence that thirty (30) days have passed since such Rating Agency was notified of the relevant matter and that reasonable efforts were made to obtain a confirmation or an indication from such Rating Agency;

RETRANSFERS

Pursuant to the Guarantee Support Agreement:

1. Prior to the service of a Notice to Pay and provided that the Asset Cover Test shall not be breached upon such retransfer, the CBC will retransfer a Mortgage Receivable to the relevant Originator if (i) a material breach of the Mortgage Receivables Warranties occurs as of the relevant Transfer Date in respect of such Mortgage Receivable or (ii) if the Administrator identifies a Defaulted Receivable, subject to applicable grace periods.
2. Prior to the occurrence of a CBC Event of Default (1) the Issuer may from time to time request a retransfer from the CBC to an Originator of any Transferred Asset, and (2) the Issuer may from time to time request a retransfer from the CBC to the relevant Originator of other assets that did not comply with the definition of Eligible Assets, but were transferred as Eligible Assets and (3) the Issuer shall request a retransfer of a Mortgage Receivable from the CBC to an Originator if (i) such Originator makes a Further Advance, such Further Advance is secured by the same Mortgage that secures the Mortgage Receivable and such Further Advance does not result in an Eligible Receivable, and/or (ii) a Mortgage Receivable transferred by such Originator to the CBC no longer has the benefit of an NHG Guarantee as a result of any action taken or omitted to be taken by the relevant Originator, the Administrator or the Servicer and, as a consequence thereof, such Mortgage Receivable would not qualify as an Eligible Receivable if it were tested against the Eligibility Criteria at that time. The CBC shall comply with such request so long as the Asset Cover Test is not breached upon such retransfer.
3. If the CBC intends to sell Mortgage Receivables on terms permitted or required by the Asset Monitoring Agreement, it shall first offer such Mortgage Receivables for sale on the same terms to the Originators (or any party appointed by such Originator) in accordance with the Guarantee Support Agreement.

A retransfer of a Mortgage Receivable will take place in accordance with the Guarantee Support Agreement. A retransfer by the CBC as abovementioned will be effectuated in substantially the same manner as the transfers to the CBC described above, *mutatis mutandis*. If the retransfer concerns Mortgage Receivables which are transferred to an Originator further to the relevant Originator's right of pre-emption ("*voorkeursrecht*"), the underlying sale and purchase will be concluded through execution and registration of a deed of sale and assignment.

11. OVERVIEW OF DUTCH RESIDENTIAL MORTGAGE MARKET

Dutch residential mortgage market

The Dutch residential mortgage debt stock is relatively sizeable, especially when compared to other European countries. Since the 1990s, the mortgage debt stock of Dutch households has grown considerably, mainly on the back of mortgage lending on the basis of two incomes in a household, the introduction of tax-efficient product structures such as mortgage loans with deferred principal repayment vehicles and interest-only mortgage loans, financial deregulation and increased competition among originators. Moreover, Loan-to-Value (**LTV**) ratios have been relatively high, as the Dutch tax system implicitly discouraged amortisation, due to the tax deductibility of mortgage interest payments. The mortgage debt growth continued until Q4 2012, when total Dutch mortgage debt stock peaked at EUR 652 billion¹. The correction on the housing market caused a modest decline in mortgage debt in subsequent years, but as the market has been recovering since 2013, there is recently again a tendency to higher debt growth visible. In Q2 2015, the mortgage debt stock of Dutch households equalled EUR 635 billion.¹

Tax system

The Dutch tax system plays an important role in the Dutch mortgage market, as it allows for full deductibility of mortgage interest payments from taxable income. This tax system has been around for a very long time, but financial innovation has resulted in a greater leverage of this tax benefit. From the 1990s onwards until 2001, this tax deductibility was unconditional. In 2001 and 2004, several conditions have been introduced to limit the usage of tax deductibility, including a restriction of tax deductibility to the (mortgage interest payments for) the borrower's primary residence and a limited duration of the deductibility of 30 years.

A further reform of the tax system was enforced on 1 January 2013. Since this date, all new mortgage loans have to be repaid in full in 30 years, at least on an annuity basis, in order to be eligible for tax relief (linear mortgage loans are also eligible). The tax benefits on mortgage loans, of which the underlying property was bought before 1 January 2013, have remained unchanged and are grandfathered, even in case of refinancing and relocation. As such, new mortgage originations still include older loan products, including interest-only. However, any additional loan on top of the borrower's grandfathered product structure, has to meet the mandatory full redemption standards to allow for tax deductibility.

Another reform imposed in 2013 to reduce the tax deductibility is to lower the maximum deduction percentage. This used to be equal to the highest marginal tax bracket (52 per cent.), but since 2013 the maximum deduction is lowered by 0.5 per cent. per annum to 38.0 per cent. in 2042 (2015: 51.0 per cent.).

There are several housing-related taxes which are linked to the fiscal appraisal value ("WOZ") of the house, both imposed on national and local level. Moreover, a transfer tax (stamp duty) of 2 per cent. is applied when a house changes hands. Although these taxes partially unwind the benefits of tax deductibility of interest payments, and several restrictions to this tax deductibility have been applied, tax relief on mortgage loans is still substantial.

Loan products

The Dutch residential mortgage market is characterised by a wide range of mortgage loan products. In general, three types of mortgage loans can be distinguished.

Firstly, the "classical" Dutch mortgage product is an annuity loan. Annuity mortgage loans used to be the norm until the beginning of the 1990s, but they have returned as the most popular mortgage product in recent years. Reason for this return of annuity mortgage loans is the tax system. Since 2013, tax deductibility of interest payments on new loans is conditional on full amortisation of the loan within 30 years, for which only (full) annuity and linear mortgage loans qualify.

Secondly, there is a relatively big presence of interest-only mortgage loans in the Dutch market. Full interest-only mortgage loans were popular in the late nineties and in the early years of this century. Mortgage loans including an interest-only loan part were the norm until 2013, and even today, grandfathering of older tax benefits still

¹ Dutch Central Bank. Statistics table 11.1: Aggregate household balance sheet

results in a considerable amount of interest-only loan origination.

Thirdly, there is still a big stock of mortgage products including deferred principal repayment vehicles. In such products, capital is accumulated over time (in a tax-friendly manner) in a linked account in order to take care of a bullet principal repayment at maturity of the loan. The principal repayment vehicle is either an insurance product or a bank savings account. The latter structure has been allowed from 2008 and was very popular until 2013. Mortgage loan products with insurance-linked principal repayment vehicles used to be the norm prior to 2008 and there is a wide range of products present in this segment of the market. Most structures combine a life-insurance product with capital accumulation and can be relatively complex. In general, however, the capital accumulation either occurs through a savings-like product (with guaranteed returns), or an investment-based product (with non-guaranteed returns).

A typical Dutch mortgage loan consists of multiple loan parts, e.g. a bank savings loan part that is combined with an interest-only loan part. Newer mortgage loans, in particular those for first-time buyers after 2013, are full annuity and often consists of only one loan part. Nonetheless, tax grandfathering of older mortgage loan product structures still results in the origination of mortgage loans including multiple loan parts.

Most interest rates on Dutch mortgage loans are not fixed for the full duration of the loan, but they are typically fixed for a period between 5 and 15 years. Rate term fixings differ by vintage, however. More recently, there has been a bias to longer term fixings (10-20 years). Most borrowers remain subject to interest rate risk, but compared to countries in which floating rates are the norm, Dutch mortgage borrowers are relatively well-insulated against interest rate fluctuations.

Underwriting criteria

Most of the Dutch underwriting standards follow from special underwriting legislation (*Tijdelijke regeling hypothecair krediet*). This law has been present since 2013 and strictly regulates maximum LTV and Loan-to-Income (**LTI**) ratios. The current maximum LTV is 103 per cent. (including all costs such as stamp duties), but it will be gradually lowered to 100 per cent. by 2018, by 1 per cent. per annum. LTI limits are set according to a fixed table including references to gross income of the borrower and mortgage interest rates. This table is updated annually by the consumer budget advisory organisation “NIBUD” and ensures that income after (gross) mortgage servicing costs is still sufficient to cover normal costs of living.

Prior to the underwriting legislation, the underwriting criteria followed from the Code of Conduct for Mortgage Lending, which is the industry standard. This code, which limits the risk of over crediting, has been tightened several times in the past decade. The 2007 version of the code included a major overhaul and resulted in tighter lending standards, but deviation in this version was still possible under the “explain” clause.² In 2011, another revised and stricter version of the Code of Conduct was introduced. Moreover, adherence to the “comply” option was increasingly mandated by the Financial Markets Authority (*AFM*). Although the Code of Conduct is currently largely overruled by the underwriting legislation, it is still in force. The major restriction it currently regulates, in addition to the criteria in the underwriting legislation, is the cap of interest-only loan parts to 50 per cent. of the total mortgage amount. This cap was introduced in 2011 and is applicable to all new mortgage contracts, including those for refinancing and/or relocations (i.e. no grandfathering is applied to older mortgage loans).

Recent developments in the Dutch housing market

The Dutch housing market has shown clear signs of recovery since the second half of 2013. Existing house prices (*PBK-index*) continued to increase in the third quarter of 2015, by 1.3 per cent on a quarterly basis. This is in line with the rise in sales numbers. Compared to a year ago, prices also rose (2.9 per cent.). Nonetheless, by comparison with the peak in 2008, the average price drop amounts to 16.5 per cent.

In the third quarter of 2015, the upward momentum in housing sales was maintained. The Land Registry registered a total of 50,609 transactions, which was the highest number in the third quarter since 2008. Forward looking indicators, such as the sales figures by the Dutch association of real estate agents (*NVM*), suggest that the

² Under the “explain” clause it is in exceptional cases possible to deviate from the loan-to-income and loan-to-value rules set forth in the Code of Conduct

more positive sales momentum will prevail in the fourth quarter of 2015.

Forced sales

Compared to other jurisdictions, performance statistics of Dutch mortgage loans show relatively low arrears and loss rates³. The most important reason for default is relationship termination, although the increase in unemployment following the economic downturn in recent years is increasingly also a reason for payment problems. The ultimate attempt to loss recovery to a defaulted mortgage borrower is the forced sale of the underlying property.

For a long time, mortgage servicers opted to perform this forced sale by an auction process. The advantage of this auction process is the high speed of execution, but the drawback is a discount on the selling price. In 2014, the Dutch Land Registry (*Kadaster*) recorded 2,178 forced sales by auction. This number is slightly higher than in 2013, but the trend in such auctions is roughly stable over recent years. As house prices have fallen between 2008 and 2013, and loss-given-defaults are no longer zero, originators increasingly attempt to circumvent such forced sales by auction, for example by selling the property in the normal market using an estate agent.

12. NHG GUARANTEE PROGRAMME

NHG Guarantee

In 1960, the Netherlands government introduced the 'municipal government participation scheme', an open ended scheme in which both the Dutch State and the municipalities guaranteed, according to a set of defined criteria, residential mortgage loans made by authorised lenders to eligible borrowers to purchase a primary family residence. The municipalities and the Dutch State shared the risk on a 50/50 basis. If a municipality was unable to meet its obligations under the municipality guarantee, the Dutch State would make an interest free loan to the municipality to cover its obligations. The aim was to promote home ownership among the lower income groups.

Since 1 January 1995 Stichting WEW, a central privatised entity, is responsible for the administration and granting of the NHG Guarantee, under a set of uniform rules. The NHG Guarantee covers the outstanding principal, accrued unpaid interest and disposal costs. Irrespective of scheduled repayments or prepayments made on the mortgage loans, the NHG Guarantee is reduced on a monthly basis by an amount which is equal to the principal repayment part of the monthly instalment as if the mortgage loan were to be repaid on a thirty year annuity basis. In respect of each mortgage loan, the NHG Guarantee decreases further to take account of scheduled repayments and prepayments under such mortgage loan. Also, amounts paid as savings or investment premium under savings insurance policies or life insurance policies, respectively, are deducted from the amount outstanding on such mortgage loans for purposes of the calculation of the amount guaranteed under the NHG Guarantee (See Risk Factors).

Financing of Stichting WEW

Stichting WEW finances itself, *inter alia*, by a one-off charge to the borrower of 1.00 per cent. (0.85 per cent. until 31 January 2013 and 0.70 per cent. until 31 December 2012) of the principal amount of the mortgage loan. Besides this, the scheme provides for liquidity support to Stichting WEW from the Dutch State and the participating municipalities. Should Stichting WEW not be able to meet its obligations under guarantees issued, (i) in respect of all loans issued before 1 January 2011, the Dutch State will provide subordinated interest free loans to Stichting WEW of up to 50 per cent of the difference between Stichting WEW's own funds and a pre-determined average loss level and municipalities participating in the NHG Guarantee scheme will provide subordinated interest free loans to Stichting WEW of the other 50 per cent. of the difference, and (ii) in respect of all loans issued on or after 1 January 2011, the Dutch State will provide subordinated interest free loans to Stichting WEW of up to 100 per cent of the difference between Stichting WEW's own funds and a pre-determined average loss level. Both the keep well agreement between the Dutch State and Stichting WEW and the keep well agreements between the municipalities and Stichting WEW contain general 'keep well' undertakings of the Dutch State and the municipalities to enable Stichting WEW at all times (including in the event of bankruptcy ("*faillissement*"), suspension of payments ("*surseance van betaling*") or liquidation ("*ontbinding*") of Stichting WEW) to meet its obligations under guarantees issued.

Terms and Conditions of the NHG Guarantees

Under the NHG scheme, the lender is responsible for ensuring that the guarantee application meets the NHG Conditions. If the application qualifies, various reports are produced that are used in the processing of the application, including the form that will eventually be signed by the relevant lender and forwarded to the NHG to register the mortgage and establish the guarantee. Stichting WEW has, however, no obligation to pay any loss (in whole or in part) incurred by a lender after a private or a forced sale of the mortgaged property if such lender has not complied with the NHG Conditions, which were applicable at the date of origination of the mortgage loan, unless such non-payment is unreasonable towards the lender.

The specific terms and conditions for the granting of NHG Guarantees, such as eligible income, purchasing or building costs etc., are set forth in published documents by Stichting WEW.

The NHG has specific rules for the level of credit risk that will be accepted. The creditworthiness of the applicant must be verified with the BKR, a central credit agency used by all financial institutions in the Netherlands. All financial commitments over the past five years that prospective borrowers have entered into

with financial institutions are recorded in this register. In addition, as of 1 January 2008 the applicant itself must be verified with the Foundation for Fraud Prevention of Mortgages ("*Stichting Fraudepreventie Hypotheken*", "SFH"). If the applicant has been recorded in the SFH system, no NHG Guarantee will be granted.

To qualify for an NHG Guarantee various conditions relating to valuation of the property must be met. In addition, the mortgage loan must be secured by a first ranking mortgage right (or a second ranking mortgage right in case of a further advance). Furthermore, the borrower is required to take out insurance in respect of the mortgaged property against risk of fire, flood and other accidental damage for the full restitution value thereof. The borrower is also required to create a right of pledge in favour of the lender on the rights of the relevant borrower against the insurance company under the relevant life insurance policy connected to the mortgage loan or to create a right of pledge in favour of the lender on the proceeds of the investment funds. The terms and conditions also require a risk insurance policy which pays out upon the death of the borrower/insured for the period that the amount of the mortgage loan exceeds 80 per cent of the value of the property.

The mortgage conditions applicable to each mortgage loan should include certain provisions, among which the provision that any proceeds of foreclosure on the mortgage right and the right of pledge on the life insurance policy or the investment funds shall be applied firstly towards repayment of the mortgage loan guaranteed under the NHG scheme.

Claiming under the NHG Guarantees

When a borrower is in arrears with payments under a mortgage loan for a period of two (2) months, a lender informs Stichting WEW in writing within 30 days of the outstanding payments, including the guarantee number, the borrower's name and address, information about the underlying security, the date of the start of late payments and the total of outstanding payments. If an agreement cannot be reached, Stichting WEW reviews the situation with the lender to endeavour to generate the highest possible proceeds from the property. The situation is reviewed to see whether a private sale of the property, rather than a public auction, would generate proceeds sufficient to cover the outstanding mortgage loan. Permission of Stichting WEW is required in case of a private sale unless the property is sold for an amount higher than the foreclosure value. A forced sale of the mortgaged property is only allowed in case the borrower is in arrears with payments under the mortgage loan for a period of seven or more monthly instalments, unless Stichting WEW has agreed that the forced sale may take place for other reasons or within a period of seven months.

Within one month after receipt of the private or forced sale amount of the property, the lender must make a formal request to Stichting WEW for payment, using standard forms, which request must include all of the necessary documents relating to the original mortgage loan and the NHG Guarantee. After receipt of the claim and all the supporting details, Stichting WEW must make payment within two months. If the payment is late, provided the request is valid, Stichting WEW must pay interest for the late payment period.

In the event that a borrower fails to meet its obligation to repay the mortgage loan and no or no full payment is made to the lender under the NHG Guarantee by Stichting WEW because of the lender's culpable negligence, the lender must act vis-à-vis the borrower as if Stichting WEW were still guaranteeing the repayment of the mortgage loan during the remainder of the term of the mortgage loan. In addition, the lender is not entitled to recover any amounts due under the mortgage loan from the borrower in such case. This is only different if the borrower did not act in good faith with respect to his inability to repay the mortgage loan and has failed to render his full cooperation in trying to have the mortgage loan repaid to the lender to the extent possible.

Additional loans

Furthermore, on 1 July 2005 provisions were added to the NHG Conditions pursuant to which a borrower who is or threatens to be in arrears with payments under the existing mortgage loan may have the right to request Stichting WEW for a second guarantee to be granted by it in respect of an additional mortgage loan to be granted by the relevant lender. The monies drawn down under the additional loan have to be placed on deposit with the relevant lender and may, up to a maximum period of two years, be used for, *inter alia*, payment of the amounts which are due and payable under the existing mortgage loan, interest due and payable under the additional mortgage loan and the costs made with respect to the granting of the additional mortgage loan. The relevant borrower needs to meet certain conditions, including, *inter alia*, the fact that the financial difficulties are caused by a divorce, unemployment, disability or death of the partner.

Main NHG Underwriting Criteria ("*Normen*") as per January 2015

With respect to a borrower, the underwriting criteria include but are not limited to:

- The lender has to perform the BKR check. "A", "A1" and "2" registrations are allowed in certain circumstances.
- As a valid source of income, *inter alia*, the following applies: indefinite contract of employment, temporary contract of employment unless the employer has indicated that the employee will not be provided an indefinite contract of employment or that the temporary contract of employment will not be extended, for flexworkers or during a probational period (*proeftijd*), three year history of income statements or, if less than three year history of income statements are available, the available income statements and for self-employed, three year annual statements or, if less than three year annual statements are available, an income forecast prepared by an auditor.
- The maximum allowed mortgage expenses (*financieringslast*) of the mortgage loan based on the income will be based on the "mortgage expenses percentage" tables and an annuity style redemption (even if the actual loan is (partially) interest only). The mortgage lender shall calculate the maximum allowed mortgage expenses of a borrower of a mortgage loan with a fixed interest term of less than 10 years on the basis of a percentage determined by the AFM, which is in turn based on a market share weighted average of the interest on loans applied by at least five of the six largest providers of mortgage loans for mortgage loans (i) with a fixed interest term of 10 years, (ii) with an annuity style redemption and (iii) of which the amount is equal to the loan-to-value-ratio. The average interest rate is at least 5 per cent. The mortgage lender may also apply a higher notional interest rate when calculating the borrowing capacity of the borrower. The mortgage lender shall calculate the borrowing capacity for a mortgage loan with a fixed interest term of 10 years or more on the basis of the interest rate actually charged by the mortgage lender during that fixed interest term. In case the mortgage loan consists of multiple loan parts, the average interest rate of all loan parts must be weighted on the basis of the principal amount of each loan part, the interest rate of each loan part and the maturity of each loan part.

With respect to the mortgage loan, the underwriting criteria include but are not limited to:

As of 1 July 2015, the maximum amount of the mortgage loan is €245,000. This amount will be reduced to €225,000 as of 1 July 2016. As of 2017, the maximum amount of the mortgage loan will be linked to the average property value. When relating to the improvement of an existing property the maximum loan amount is also €245,000.

- The loan amount is also limited by the amount of income and the market value of the property. With respect to the latter, as of 1 July 2014:
 - For the purchase of existing properties, the loan amount is broadly based on the sum of (i) the lower of the purchase price and the market value based on a valuation report, (ii) the costs of improvements, (iii) 6 per cent. of the amount under (i) plus (ii). In case an existing property can be bought without paying transfer taxes (*vrij op naam*), the purchase amount under (i) is multiplied by 97 per cent.
 - For the purchase of a property to be built, the maximum loan amount is broadly based on the sum of (i) purchase-/construction cost increased with a number of costs such as the cost of construction interest, VAT and architects (to the extent not included already in the purchase-/construction cost), (ii) 6 per cent. of the amount under (i).
- In 2015, the maximum amount of the mortgage loan compared to the market value of the property (the Loan-to-Value-ratio, "LTV-ratio") is 103 per cent. As of 2016 the LTV-ratio will be 102 per cent. The LTV-ratio will be 100 per cent as of 2018.

- As of 1 January 2013, for new borrowers the redemption types are limited to Annuity Mortgage Loans and Linear Mortgage Loans with a maximal term of 30 years.

A risk insurance policy should cover at least the amount by which the mortgage loan exceeds 80 per cent. of the market value of the mortgaged asset.

In addition, in respect of mortgage loans originated after 1 January 2014, a deductible has been adopted for the mortgage providers. On any loss claim of a mortgage provider *vis-à-vis* Stichting WEW, a deduction of 10 per cent. will be applied to such loss claim, which will be for the account of such mortgage provider.

13. ORIGINATORS AND RESIDENTIAL MORTGAGE BUSINESS

The entities that intend to transfer Eligible Assets to the CBC under the Guarantee Support Agreement are: SNS Bank and RegioBank (the "**Originators**").

BLG Hypotheekbank N.V. as disappearing entity has merged with SNS Bank as acquiring entity effective as of 10 October 2010 whereby BLG Hypotheekbank N.V. has ceased to exist.

A. Mortgage Origination

SNS Bank originates mortgage loans through two separate channels: directly, through its branch network and indirectly, through independent agents, such as estate agents, financial advisers and insurance intermediaries. RegioBank originates mortgages through its franchise network.

Borrower Income Requirements

The maximum amount that can be borrowed depends on, *inter alia*, the Borrower's income. The relevant Originator calculates the maximum proportion of a Borrower's income that may be applied to service principal and interest on the mortgage loan and the entire Borrower's other financial commitments.

Other Conditions

The following general conditions also apply to mortgage loans offered:

- The borrowers must be at least 18 years old;
- Self employed and contractors are subject to additional income tests;
- Credit assessment of the borrower is required, and
- Insurance in respect of the property against risk of fire and other accidental damage for its full restitution value is required.

B. Residential Mortgage Products

The Originators offer a full range of mortgage products with various interest rate and repayment mechanisms. Only certain specified mortgage products are intended to be assigned to the CBC. The characteristics of these products are described further below.

Legal Form

Details of all land and properties are recorded in public registers in the Netherlands. All Mortgage Loans are secured by a mortgage evidenced by a notarial mortgage deed recorded in these registers. Although other legal forms of mortgage loans are available in the Netherlands, all mortgage loans originated are "**Bank Mortgages**". A Bank Mortgage is a mortgage that secures not only the loan granted to finance a property, long lease or apartment right, but also any other liabilities owed at any time by the relevant Borrower to the relevant Originator. Accordingly, the Mortgaged Asset provides security for all debts up to a maximum amount as registered in the relevant public registry. For a further description of Bank Mortgages see *Risk Factors* above.

Mortgaged Assets

The Mortgages securing the Mortgage Loans are vested on (i) a real property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) a long lease ("*erfpacht*"). For over a century different municipalities and other public bodies in the Netherlands have used the long lease ("*erfpacht*") as a system to provide land without giving up the ownership of it. There are three types of long lease: temporary ("*tijdelijk*"), ongoing ("*voortdurend*") and perpetual ("*eeuwigdurend*"). A long lease is a right in rem ("*zakelijk recht*") which entitles the leaseholder ("*erfpachter*") to hold and use a real property ("*onroerende zaak*") owned by another party, usually a municipality. The long lease can be transferred by the leaseholder without permission from the landowner being required, unless the lease conditions provide otherwise and it passes to the heirs of the leaseholder in case of his death. Usually a remuneration ("*canon*") will be due by the leaseholder to the landowner for the long lease.

Repayment Mechanism

Apart from Interest-Only mortgage loans ("*aflossingsvrije hypotheek*" herein "**Interest-only Mortgage Loans**") whereby principal is repaid at final maturity of the mortgage loan (which to the extent compulsory under the relevant acceptance conditions, have the benefit of combined risk and capital life insurance policies taken out by

Borrowers with an insurance company), the following repayment mechanisms are offered by all or some Originators:

Insurance Savings Mortgage Loans ("*spaarhypotheek*")

An Insurance Savings Mortgage Loan (the "**Insurance Savings Mortgage Loan**") consists of a Mortgage Loan entered into by the relevant Originator and the relevant Borrower, which has the benefit of a Savings Insurance Policy taken out by the Borrower with an insurance company.

Most of the Mortgage Loans of SNS Bank are documented as savings plus mortgage loans ("**Savings Plus Mortgage Loans**") ("*Spaarhypotheek Plus*"), whereby the Savings Premium under the Savings Insurance Policy is either (i) deposited by the Insurance Savings Participant in a savings account held with SNS Bank (the "**Savings Alternative**") or (ii), at the option of the Borrower, invested in certain investment funds offered by SNS Beleggingsfondsen N.V. (the "**Investment Alternative**"). Furthermore, the terms and conditions of the Savings Insurance Policy in connection with the Savings Plus Mortgage Loans provide that on each interest rate reset date the Borrower can (i) switch whole or part of the premia accumulated in the relevant Savings Insurance Policy with the Savings Alternative into the Investment Alternative (the "**Savings Switch**") and (ii) switch whole or part of the value of the investments of the Investment Alternative into the Savings Alternative.

Bank Savings Mortgage Loans ("*bankspaarhypotheek*")

The Mortgage Loans (or parts thereof) may be in the form of Mortgage Loans in respect of which the Borrower is not required to repay principal until maturity but instead makes a deposit into the relevant Bank Savings Account on a monthly basis (the "**Bank Savings Mortgage Loans**") entered into by the relevant Originator and the relevant Borrower combined with a blocked Bank Savings Account. Under the Bank Savings Mortgage Loan no principal is paid by the Borrower prior to the maturity of the Mortgage Loan. Instead, the Borrower pays a monthly deposit ("**Bank Savings Deposit**") in the relevant blocked savings account in the name of a Borrower, held with the relevant Bank Savings Participant (the "**Bank Savings Account**"). The Bank Savings Deposit is calculated in such a manner that, on an annuity basis, the balance standing to the credit of the Bank Savings Account is equal to the relevant part of the amount due by the Borrower to the relevant Originator at maturity of the Bank Savings Mortgage Loan. The balances standing to the credit of the Bank Savings Accounts are pledged to the relevant Originator as security for repayment of the relevant Bank Savings Mortgage Loan.

Investment-based Mortgage Loans ("*beleggingshypotheek*")

In case of SNS Bank the Borrower undertakes to invest, whether on a lump sum basis or on an instalment basis, by applying his own funds or (part of) the proceeds of the Investment-based Mortgage Loan by means of an 'SNS Rendementrekening', an investment account held with SNS Bank (the "**Investment Account**") in certain investment funds of SNS Beleggingsfondsen N.V. (the "**Investment Funds**"). The investments in Investment Funds are effectuated by the Borrowers paying the relevant amount from the Investment Account to an account held with SNS Bank, designated by SNS Bank for the purchasing of securities of Investment Funds by Stichting SNS Beleggersgiro ("**SNS Beleggersgiro**"). The securities purchased by SNS Beleggersgiro, will be in the form of "*Wge-effecten*" (securities regulated under the Wge and will be administrated on the Investment Account.

With respect to the Investment-based Mortgage Loans originated by former BLG Hypotheekbank N.V., the Borrower has undertaken to invest, whether on a lump sum basis or on an instalment basis, by applying an agreed amount in certain investment funds or certain other securities selected by the Borrower out of a range of investment funds and/or securities offered by the bank or investment firm ("*beleggingsonderneming*") (the "**Investment Firm**"). The Investment Firm has been notified of the fact that the Borrower is only allowed to purchase investment funds and/or securities selected by former BLG Hypotheekbank N.V. (now part of SNS Bank). The securities purchased will be administered on an investment account held with a bank or a beleggersgiro in the Netherlands.

Life Mortgage Loans ("*levenhypotheek*")

An Interest-only Mortgage Loan to which a life insurance policy (the "**Life Insurance Policy**" with a Life Insurance Company (the "**Life Insurance Company**") is connected (the "**Life Mortgage Loan**"). Principal repayments will be paid out from the proceeds of the Life Insurance Policy.

Linear Mortgage Loans ("*lineaire hypotheek*")

Scheduled (usually monthly) repayments of principal are fixed over the term of the mortgage.

Annuity Mortgage Loans ("annuïteitenhypotheek")

Scheduled (usually monthly) repayments of principal plus interest are fixed (provided that the interest rates do not change).

Combined Mortgage Loans ("combinatiehypotheek")

In order to tailor a Mortgage Loan to meet as closely as possible the specific fiscal and economic needs of a Borrower, it is common for a Mortgage Loan to be constructed from a combination of mortgage types.

Interest Rate

The mortgage loans bear interest on the basis of any of the following alternatives:

- fixed rate, whereby the interest rates can be fixed for a specific period between 1 to 30 years;
- floating rate; or
- any other type of interest alternatives offered, including:
 - Ceiling Interest ("Plafond Rente"). The interest payable by the Borrower is a floating interest rate with a cap. The Borrower can choose a Ceiling Interest for five or ten years. In this period the borrower pays the floating Ceiling Interest rate with an agreed maximum ("plafond") interest rate.
 - Interest Dampner ("Rente Demper"). The interest payable by the Borrower equals the interest as described under Stable Interest with the difference that the bandwidth is not fixed for 30 years but, at the option of the Borrower, for 5, 10 or 15 years;
 - and type of interest alternatives the Issuer used to offer, including:
 - Stable Interest ("Stabiel Rente"). In such case, the interest payable by the Borrower is determined on an annual basis, whereby the Borrower chooses a bandwidth between 1.0 per cent. and 3.5 per cent., (increased by steps of 0.5 per cent.) at the beginning of the Mortgage Loan. At any time, the Borrower is entitled to choose another bandwidth, subject to payment of certain administrative costs. Each bandwidth has its own SNS Stable Interest rate. Every year the interest rate in the contract ("contractrente") will be compared with the actual SNS Stable Interest rate ("toetsrente") for the applicable bandwidth. When the difference falls within the bandwidth, the interest rate for that year will be fixed at the interest rate equal to the interest rate in the contract of the Borrower ("contractrente"). When the difference falls outside the bandwidth, the interest rate for that year will be fixed at the interest rate equal to the interest rate in the contract of the Borrower ("contractrente") adjusted for the percentage which did fall outside the bandwidth.
 - Ideal Interest ("Ideaal Rente"). The interest rate is the average interest rate over five years. The interest payable by the Borrower is determined using a fraction in which the numerator is the sum of five interest percentages determined by SNS as the Ideal Interest and in which the denominator is five. In the first year, the numerator equals the Ideal Interest percentage for that year multiplied by five. In the second year the numerator equals the Ideal Interest percentage for year one multiplied by four plus the Ideal Interest percentage for year two. In the years thereafter, the most recent Ideal Interest percentage is included and the oldest Ideal Interest percentage is excluded from the numerator.
 - Middle Interest ("Middelrente"). The interest rate is the average interest rate over ten years. The interest payable by the Borrower is determined using a fraction in which the numerator is the sum of ten interest percentages determined by SNS Bank as the Ideal Interest and in which the denominator is ten. In the first year, the numerator equals the Middle Interest percentage for that year multiplied by ten. In the second year the numerator equals the Middle Interest percentage for year one multiplied by nine plus the Middle Interest percentage for year two. In the years thereafter, the most recent Middle Interest percentage is included and the oldest Ideal Interest percentage is excluded from the numerator.

Although the Issuer no longer offers these kinds of interest rate alternatives, it is possible that these are or will be included in the cover pool.

Prepayments

Annual prepayments of not more than 20 per cent. of the original mortgage loan are allowed without a penalty being due. In addition, full prepayments can be made without penalty in specific situations:

- at the time of rate resetting;
- on sale or destruction of the property;
- if the Borrower dies.

In other cases, except for Ceiling Interest mortgage loans and Interest Dampner mortgage loans, penalty charges apply which are calculated as the net present value of the difference between the fixed rate being paid and the current mortgage rate, if lower, for the remaining term of the fixed period. For mortgage loans with a Ceiling Interest, the penalty is calculated by multiplying an agreed percentage with the remaining term of the Ceiling Interest and the loan balance.

Other mortgage products

The Banks may originate, offer and assign to the CBC other products than described herein, provided that these comply with the Eligibility Criteria at the time.

C. Mortgage Administration

Collection Procedures

Interest payments and repayments due will be debited directly from the account of the client.

The loan administration calculates the repayment schedules and reconciles collected funds with the appropriate account. A range of exception reports are automatically produced and are used by arrears management to monitor the status of individual loans.

Arrears Management

The procedures for the monitoring and collection of late payments include the following actions:

At the beginning of each month late payments are being signalled. After ten days a reminder letter is automatically generated and sent to the Borrower. Further reminder letters are being generated if the arrear persists. Besides reminder letters the client may be contacted by phone either directly by the bank or with the use of the intermediary. In case of increasing arrears and limited possibilities to become current an attempt is made to come to an agreement for a private sale of the property. If all negotiations with the borrower fail the civil-law notary will be instructed, who will then organise a forced sale by way of public auction.

Rate re-setting procedures

Prior to the reset date, the loan administration system automatically generates a letter to the Borrower advising that a rate re-setting is imminent and, in addition, listing the rate(s) that would apply. The Borrower does not have to choose the same fixed rate period as the previous one. If there is no response from the Borrower before the rate re-setting date, the Borrower receives the offered interest rate.

14. PARTICIPATION AGREEMENTS

Insurance Savings Participation Agreement

Under each Insurance Savings Participation Agreement entered into between the CBC, the relevant Insurance Savings Participant and the Security Trustee, the CBC grants the relevant Insurance Savings Participant a sub-participation in the Insurance Savings Mortgage Receivables, originated by SNS Bank and RegioBank, provided that, to the extent Savings Plus Mortgage Loans originated by SNS Bank are involved, this will only apply to Savings Plus Mortgage Loans to which a Savings Insurance Policy with the Savings Alternative is connected.

Savings Premium

The conditions applicable to the Insurance Savings Mortgage Loans originated by SNS Bank and RegioBank to which a Savings Insurance Policy is connected, stipulate that the Savings Premium paid by the Borrowers/insured will be deposited by the Insurance Savings Participant on a savings account held with SNS Bank or RegioBank, as the case may be.

Each of SNS Bank and RegioBank have agreed with the Insurance Savings Participant that it shall on-lend to the Insurance Savings Participant amounts equal to the Savings Premium deposited on the savings account in order to facilitate the Insurance Savings Participant in meeting its obligations under the Insurance Savings Participation Agreement. However, the obligations of the Insurance Savings Participant under the Insurance Savings Participation Agreement are not conditional upon the receipt of such amounts from SNS Bank or RegioBank, as the case may be.

Insurance Savings Participation

Subject to the condition precedent of the occurrence of an Assignment Notification Event, in an Insurance Savings Participation Agreement the relevant Insurance Savings Participant has undertaken to pay to the CBC:

- (i) at the CBC Payment Date immediately succeeding the fulfilment of the condition precedent to the Insurance Savings Participation Agreement, or if such date is a later date (a) in respect of Insurance Savings Mortgage Receivables the CBC Payment Date immediately succeeding the relevant Transfer Date or (b) in respect of a switch from any type of Mortgage Loan into an Insurance Savings Mortgage Loan, the next succeeding CBC Payment Date, an amount equal to the sum of the Savings Premium received by the Insurance Savings Participant with accrued interest up to the first day of the month in which such CBC Payment Date falls (the "**Initial Insurance Savings Participation**") in relation to each of the Insurance Savings Mortgage Receivables;
- (ii) on each CBC Payment Date falling after the CBC Payment Date set out above an amount equal to the amount received by the Insurance Savings Participant as Savings Premium during the previous month in respect of the relevant Savings Insurance Policies,

provided that in respect of each relevant Insurance Savings Mortgage Receivable which is subject to a Participation, no amounts will be paid to the extent that, as a result thereof, the Insurance Savings Participation in such relevant Insurance Savings Mortgage Receivable would exceed the Outstanding Principal Amount of the relevant Insurance Savings Mortgage Receivable.

If and when such payment has been made, as a consequence of such payments the Insurance Savings Participant will acquire a participation (the "**Initial Insurance Savings Participation**") in each of the relevant Insurance Savings Mortgage Receivables, which is equal to the Initial Insurance Savings Participation in respect of the relevant Insurance Savings Mortgage Receivables increased during each month on the basis of the following formula (the "**Insurance Savings Participation Increase**"):

$(P/H \times R) + S$, whereby:

P = the Participation on the first day of the relevant month in the relevant Insurance Savings Mortgage Receivable;

- S = the amount received by the CBC from the Insurance Savings Participant in such month in respect of the relevant Insurance Savings Mortgage Receivable pursuant to the Insurance Savings Participation Agreement;
- H = the Outstanding Principal Amount of the relevant Insurance Savings Mortgage Receivable on the first day of the relevant month;
- R = the amount of interest, due by the Borrower on the relevant Insurance Savings Mortgage Receivable and actually received by the CBC in such month.

In consideration for the undertakings of the Insurance Savings Participant described above, the CBC has undertaken to pay to the Insurance Savings Participant on each CBC Payment Date an amount equal to the Insurance Savings Participation, in respect of each Insurance Savings Mortgage Receivable, which is subject to a participation in respect of which amounts have been received during the relevant month or, in the case of a transfer during a month, which falls in the period which commences on the date on which the condition precedent is fulfilled or if later, the Transfer Date or the date of the Savings Switch and ends on the last day of such month (i) by means of repayment and prepayment under the relevant Insurance Savings Mortgage Receivable which is subject to a Participation but excluding any prepayment penalties and interest penalties, if any, and, furthermore, excluding amounts paid as partial prepayments on the relevant Insurance Savings Mortgage Receivable which is subject to an Insurance Savings Participation (ii) in connection with the retransfer of an Insurance Savings Mortgage Receivable which is subject to an Insurance Savings Participation pursuant to the Guarantee Support Agreement to the extent such amounts relate to principal, (iii) in connection with the transfer of an Insurance Savings Mortgage Receivable which is subject to an Insurance Savings Participation pursuant to the Asset Monitoring Agreement to the extent such amounts relate to principal and (iv) as Net Proceeds on any Insurance Savings Mortgage Receivable which is subject to an Insurance Savings Participation to the extent such amounts relate to principal (the "**Insurance Savings Participation Redemption Available Amount**").

Reduction of Participation

If a Borrower invokes a defence, including but not limited to a right of set-off or counterclaim against any person in respect of an Insurance Savings Mortgage Receivable, which is subject to an Insurance Savings Participation if, for whatever reason, the Insurance Savings Participant does not pay the insurance proceeds when due and payable, whether in full or in part, under the relevant Savings Insurance Policy, and, as a consequence thereof, the CBC will not have received any amount outstanding prior to such event in respect of such Insurance Savings Mortgage Receivable, the Insurance Savings Participation of the Insurance Savings Participant in respect of such Insurance Savings Mortgage Receivable, will be reduced by an amount equal to the amount which the CBC has failed to so receive and the calculation of the Insurance Savings Participation Redemption Available Amount shall be adjusted accordingly.

Enforcement

If a CBC Acceleration Notice is served by the Security Trustee to the CBC, then and at any time thereafter the Security Trustee on behalf of the Insurance Savings Participant may, and if so directed by the Insurance Savings Participant shall, by notice to the CBC:

- (i) declare that the obligations of the Insurance Savings Participant under the Insurance Savings Participation Agreement are terminated;
- (ii) declare the Insurance Savings Participation to be immediately due and payable, whereupon it shall become so due and payable, but such payment obligations shall be limited to the Insurance Savings Participation Redemption Available Amount received or collected by the CBC or, in case of enforcement, the Security Trustee under the Insurance Savings Mortgage Receivables, which are subject to an Insurance Savings Participation.

Termination

If one or more of the Insurance Savings Mortgage Receivables which are subject to an Insurance Savings Participation are sold by the CBC to a third party pursuant to the Asset Monitoring Agreement or are retransferred to the relevant Originator, the Insurance Savings Participation in such Insurance Savings Mortgage Receivables will terminate and the Insurance Savings Participation Redemption Available Amount in respect of

such Insurance Savings Mortgage Receivables will be paid by the CBC to the Insurance Savings Participant. If so requested by the Insurance Savings Participant, the CBC will use its best efforts to ensure that the acquirer of the Insurance Savings Mortgage Receivables which are subject to an Insurance Savings Participation will enter into an insurance savings participation agreement with the Insurance Savings Participant in a form similar to the Insurance Savings Participation Agreement. Furthermore, the Insurance Savings Participation envisaged in the Insurance Savings Participation Agreement shall terminate if at the close of business of any CBC Payment Date the Insurance Savings Participant has received the Insurance Savings Participation in respect of the relevant Insurance Savings Mortgage Receivable.

If, in case of an Insurance Savings Mortgage Loan with the Savings Alternative originated by SNS Bank, all or part of the premia accumulated in the relevant Savings Insurance Policy with the Savings Alternative are switched into the Investment Alternative, the sub-participation envisaged in the Insurance Savings Participation Agreement shall terminate, in whole or in part, and the Insurance Savings Participation Redemption Available Amount (or part thereof, if applicable) in respect of such Insurance Savings Mortgage Receivable will be paid by the CBC to the Insurance Savings Participant, but only if and to the extent that on the relevant CBC Payment Date or any later CBC Payment Date the amounts received by the CBC under the Insurance Savings Participation Agreement are sufficient for this purpose on such date.

"Insurance Savings Participation" means, in respect of each Insurance Savings Mortgage Receivable originated by SNS Bank and RegioBank, provided that to the extent Savings Plus Mortgage Loans originated by SNS Bank are involved, this will only apply to Savings Plus Mortgage Loans to which a Savings Insurance Policy with the Savings Alternative is connected, an amount equal to the Initial Insurance Savings Participation in respect of the relevant Savings Mortgage Receivable increased during each month by each Insurance Savings Participation Increase.

Bank Savings Participation Agreement

Under the Bank Savings Participation Agreement the CBC will grant to each Bank Savings Participant a Bank Savings Participation in the relevant Bank Savings Mortgage Receivables.

Bank Savings Accounts

The conditions applicable to the Bank Savings Mortgage Loans stipulate that amounts paid by the Borrowers will be deposited by the relevant Bank Savings Participants on the relevant Bank Savings Account held with SNS Bank or RegioBank, as the case may be.

Bank Savings Participation

Subject to the condition precedent of the occurrence of an Assignment Notification Event, in the Bank Savings Participation Agreement each Bank Savings Participant has undertaken to pay to the CBC:

- (i) at the CBC Payment Date immediately succeeding the fulfilment of the condition precedent to the Bank Savings Participation Agreement, or if such date is a later date in respect of Bank Savings Mortgage Receivables the CBC Payment Date immediately succeeding the relevant Transfer Date, an amount equal to the sum of the Bank Savings Deposits received by the Bank Savings Participant with accrued interest up to the first day of the month in which such CBC Payment Date falls (the **"Initial Bank Savings Participation"**) in relation to each of the relevant Bank Savings Mortgage Receivables;
- (ii) on each CBC Payment Date falling after the CBC Payment Date set out under (i) an amount equal to the amount received by such Bank Savings Participant on the relevant Bank Savings Account in relation to the relevant Bank Savings Mortgage Receivables during the Calculation Period immediately preceding such CBC Payment Date,

provided that no amounts will be paid to the extent that, as a result thereof, an amount equal to, the Bank Savings Participation in the relevant Bank Savings Mortgage Receivable would exceed the Outstanding Principal Amount of the relevant Bank Savings Mortgage Receivable.

If and when such payment has been made, as a consequence of such payments the Bank Savings Participant will acquire a participation (the **"Initial Bank Savings Participation"**) in each of the relevant Bank Savings

Mortgage Receivables, which is equal to the Bank Savings Participation in respect of the relevant Bank Savings Mortgage Receivables increased during each month on the basis of the following formula (the "**Bank Savings Participation Increase**"):

$(P/H \times R) + S$, whereby:

- P = Bank Savings Participation on the first day of the relevant month;
- S = the amount received by the CBC pursuant to the Bank Savings Participation Agreement on the CBC Payment Date immediately succeeding the relevant Calculation Date in respect of the relevant Bank Savings Mortgage Receivable from the Bank Savings Participant;
- H = the Outstanding Principal Amount of the relevant Bank Savings Mortgage Receivable on the first day of the relevant month;
- R = the amount of interest due by the Borrower on the relevant Bank Savings Mortgage Receivable and actually received by the CBC in respect of such Calculation Period;

In consideration for the undertakings of the Bank Savings Participant described above, the CBC has undertaken to pay to the Bank Savings Participant on each CBC Payment Date an amount equal to the Bank Savings Participation in each of the Bank Savings Mortgage Receivables in respect of which amounts have been received during the relevant month or, in the case of a transfer during a month, which falls in the period which commences on the date on which the condition precedent is fulfilled or if later, the Transfer Date and ends on the last day of such month (i) by means of repayment and prepayment under the relevant Bank Savings Mortgage Receivable which is subject to a Participation but excluding any prepayment penalties and interest penalties, if any, and, furthermore, excluding amounts paid as partial prepayments on the relevant Bank Savings Mortgage Receivable which is subject to a Bank Savings Participation (ii) in connection with the retransfer of a Bank Savings Mortgage Receivable which is subject to a Bank Savings Participation pursuant to the Guarantee Support Agreement to the extent such amounts relate to principal, (iii) in connection with the transfer of a Bank Savings Mortgage Receivable which is subject to a Bank Savings Participation pursuant to the Asset Monitoring Agreement to the extent such amounts relate to principal and (iv) as Net Proceeds on any Bank Savings Mortgage Receivable which is subject to a Bank Savings Participation to the extent such amounts relate to principal (the "**Bank Savings Participation Redemption Available Amount**").

Reduction of Participation

If a Bank Savings Deposit is automatically set-off with the relevant Bank Savings Mortgage to which it is connected, or a Borrower invokes a defence, including but not limited to a right of set-off or counterclaim against any person in respect of a relevant Bank Savings Mortgage Receivable if, for whatever reason, any Bank Savings Participant does not pay the amounts due under the relevant Bank Savings Mortgage Receivable, whether in full or in part, and, as a consequence thereof, the CBC will not have received any amount outstanding prior to such event in respect of such relevant Bank Savings Mortgage Receivable, the Bank Savings Participation of the Bank Savings Participants in respect of such relevant Bank Savings Mortgage Receivable, will be reduced by an amount equal to the amount which the CBC has failed to so receive and the calculation of the Bank Savings Participation Redemption Available Amount shall be adjusted accordingly.

Enforcement Notice

If a CBC Acceleration Notice is served by the Security Trustee to the CBC, then and at any time thereafter the Security Trustee on behalf of any Bank Savings Participant may, and if so directed by any Bank Savings Participants shall, by notice to the CBC:

- (i) declare that the obligations of the relevant Bank Savings Participant under the Bank Savings Participation Agreement are terminated;
- (ii) declare the Bank Savings Participation in relation to the relevant Bank Savings Mortgage Receivables to be immediately due and payable, whereupon it shall become so due and payable, but such payment obligations shall be limited to the Bank Savings Participation Redemption Available Amount received or collected by the CBC or, in case of enforcement, the Security Trustee under the relevant Bank Savings Mortgage Receivables.

Termination

If one or more of the relevant Bank Savings Mortgage Receivables are sold by the CBC to a third party pursuant to the Asset Monitoring Agreement or are retransferred to the relevant Originator, the Bank Savings Participation in such relevant Bank Savings Mortgage Receivables will terminate and the Bank Savings Participation Redemption Available Amount in respect of the relevant Bank Savings Mortgage Receivables will be paid by the CBC to the relevant Bank Savings Participant. If so requested by the relevant Bank Savings Participant, the CBC will use its best efforts to ensure that the acquirer of the Relevant Bank Savings Mortgage Receivables will enter into a bank savings participation agreement with the relevant Bank Savings Participant in a form similar to the Bank Savings Participation Agreement. Furthermore, the Bank Savings Participation envisaged in the Bank Savings Participation Agreement shall terminate if at the close of business of any CBC Payment Date the relevant Bank Savings Participants have received the Bank Savings Participation in respect of the relevant Bank Savings Mortgage Receivables.

"Bank Savings Participation" means, in respect of each Bank Savings Mortgage Receivable an amount equal to the Initial Bank Savings Participation in respect of the relevant Bank Savings Mortgage Receivable increased during each month by each Bank Savings Participation Increase.

15. SERVICING, ADMINISTRATION AND CUSTODY

Servicing

In the Servicing Agreement SNS Bank agrees to act as the Servicer in respect of the Mortgage Receivables and SNS Bank shall act as Servicer in respect of the Mortgage Receivables transferred by each New Originator, unless otherwise agreed between the parties. The Servicer will agree (i) to provide management services to the CBC on a day-to-day basis in relation to the Mortgage Loans and the Mortgage Receivables, including, without limitation, the collection and recording of payments of principal, interest and other amounts in respect of the Mortgage Receivables and the implementation of arrears procedures including the enforcement of Mortgages (see further *Residential Mortgage Business* above); (ii) to communicate with the Borrowers and (iii) to investigate payment delinquencies.

The Servicer will be obliged to service the Mortgage Loans and the Mortgage Receivables with the same level of skill, care and diligence as mortgage loans in its own portfolio.

Administration

In the Administration Agreement the Administrator will agree to provide certain administration, calculation and cash management services to the CBC, including (i) all calculations to be made in respect of the Covered Bonds and the Relevant Documents and (ii) to prepare monthly asset cover reports for the CBC including the relevant calculations in respect of the Asset Cover Test.

Termination

The Servicing Agreement and the Administration Agreement may be terminated by the Security Trustee or the CBC (with the consent of the Security Trustee) in certain circumstances (in respect of the relevant party only), including (a) a default by the Servicer and/or the Administrator in the payment on the due date of any payment due and payable by it under the Servicing Agreement or, as the case may be, Administration Agreement, (b) a default is made by the Servicer and/or the Administrator in the performance or observance of any of its other covenants and obligations under the Servicing Agreement or, as the case may be, Administration Agreement, (c) the Servicer and/or the Administrator has taken any corporate action or any steps have been taken or legal proceedings have been instituted or threatened against it for its entering into emergency regulations ("*noodregeling*") as referred to in Chapter 3 of the Wft) or suspension of payments, as applicable, or for any analogous insolvency proceedings under any applicable law or for bankruptcy or for the appointment of a receiver or a similar officer of its or any or all of its assets or (d) the Servicer is no longer licensed to act as intermediary ("*bemiddelaar*") or offeror ("*aanbieder*") under the Wft.

Upon termination of the Servicing Agreement or, as the case may be, the Administration Agreement in respect of the Administrator or the Servicer, the Security Trustee and the CBC undertake to appoint a substitute servicer and/or administrator, as the case may be, and such substitute servicer and/or administrator, as the case may be, shall enter into an agreement with the CBC and the Security Trustee substantially on the terms of the Servicing Agreement or, as the case may be, Administration Agreement, provided that such substitute servicer and/or administrator shall have the benefit of a servicing fee and an administration fee at a level to be then determined. Any such substitute servicer must (i) have experience of administering mortgage loans and mortgages of residential property in the Netherlands and (ii) hold a licence under the Wft. The CBC shall, promptly following the execution of such agreement, pledge its interest in such agreement in favour of the Security Trustee on the terms of the Security Trustee Rights Pledge Agreement, *mutatis mutandis*, to the satisfaction of the Security Trustee.

The Servicing Agreement and the Administration Agreement may be terminated by the CBC or the Servicer or, as the case may be, the Administrator upon the expiry of not less than 12 months' notice of termination given by the Servicer or, as the case may be, the Administrator to each of the CBC and the Security Trustee or by the CBC to the Servicer or Administrator and the Security Trustee provided that – *inter alia* – (a) the Security Trustee consents in writing to such termination and (b) a substitute servicer or administrator, as the case may be, shall be appointed, such appointment to be effective not later than the date of termination of the Servicing Agreement or, as the case may be, the Administration Agreement and the Servicer or Administrator shall not be released from its obligations under the Servicing Agreement or, as the case may be, the Administration Agreement until such substitute servicer or administrator has entered into such new agreement.

Custody

If Substitution Assets are transferred to the CBC, the CBC will appoint a custodian to provide custody services in relation to such Substitution Assets. The Substitution Assets will be serviced in accordance with a custody agreement to be entered into between the CBC and an eligible custodian (the "**Custody Agreement**") the terms and conditions of which will be agreed with the Security Trustee.

16. ASSET MONITORING

ASSET COVER TEST

Under the asset monitoring agreement entered into on the Programme Date between the Issuer, the CBC and the Security Trustee (the "**Asset Monitoring Agreement**") and the Guarantee Support Agreement, the CBC and the Issuer, respectively, must ensure that as at the end of each calendar month until the service of a Notice to Pay, Issuer Acceleration Notice or CBC Acceleration Notice,

- (i) the Adjusted Aggregate Asset Amount is an amount at least equal to the euro equivalent of the aggregate Principal Amount Outstanding of the Covered Bonds at the end of such calendar month, all as calculated on the immediately succeeding Calculation Date;
- (ii) the First Regulatory Current Balance Amount will always be at least equal to 105 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds at the end of such calendar month, all as calculated on the immediately succeeding Calculation Date; and
- (iii) the Second Regulatory Current Balance Amount will always be at least equal to 100 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds at the end of such calendar month, all as calculated on the immediately succeeding Calculation Date, (item (i) up to and including item (iii), the "**Asset Cover Test**").

If at the end of a calendar month the Asset Cover Test has not been met, then the Administrator will notify the CBC thereof under the Asset Monitoring Agreement, and the CBC will notify the Issuer thereof under the Guarantee Support Agreement, and the Issuer (or any other Originator) will transfer sufficient further Eligible Assets to the CBC in accordance with the Guarantee Support Agreement to ensure that the Asset Cover Test is met as at the end of the next succeeding calendar month.

Such a breach of the Asset Cover Test will not constitute an Issuer Event of Default. However, it will prevent the Issuer from issuing any further Series after such Calculation Date, until remedied and, if it is not remedied as calculated on the next Calculation Date (such failure to remedy the Asset Cover Test as calculated on the next succeeding Calculation Date being a "**Breach of the Asset Cover Test**") the Security Trustee will be entitled to serve a Notice to Pay on the Issuer.

As of the date of this Base Prospectus, the Asset Percentage is 75 per cent. The Issuer may request the CBC to increase or decrease the Asset Percentage. The CBC will accept any request for a decrease of the Asset Percentage and the Asset Percentage will be adjusted accordingly. The CBC will only accept any request for an increase of the Asset Percentage and the Asset Percentage will only be adjusted accordingly if (i) Fitch has been notified thereof and by the third calendar day after such notification, Fitch has not communicated that any such increase of the Asset Percentage will have a negative effect on the then current ratings assigned by it on the Covered Bonds and (ii) subject to confirmation in writing from Moody's that the new Asset Percentage is sufficient to maintain an Aaa rating by Moody's of the Covered Bonds on an expected loss basis (regardless of whether the actual rating of the Covered Bonds is Aa2 or otherwise).

The Asset Percentage will be included in the investor report, drawn up by the Administrator following the end of each Calculation Period in the form set out in a Schedule to the Administration Agreement and delivered to, *inter alia*, the CBC and the Security Trustee two business days prior to the immediately succeeding CBC Payment Date (the "**Investor Report**").

In the Administration Agreement entered into on the Programme Date between the CBC, SNS Bank and the Security Trustee, as amended, restated and transferred on 30 April 2014 from SNS Bank to Intertrust Administrative Services B.V. as administrator (the "**Administrator**"), with retroactive effect as of January 2012 the Administrator agrees to prepare monthly asset cover reports for the CBC including the relevant calculations in respect of the Asset Cover Test (each an "**Asset Cover Report**") and to provide certain administration, calculation and cash management services for the CBC on a day-to-day basis, including without limitation, all calculations to be made pursuant to the Conditions in connection with the Covered Bonds, subject to and in

accordance with the Administration Agreement. Each Asset Cover Report will be included in the Investor Report. In the Trust Deed, the Security Trustee agrees to, upon receipt of each Asset Cover Report, verify whether such Asset Cover Report states that the Asset Cover Test has been passed or failed and, if failed, whether the following Asset Cover Report states that the Asset Cover Test has been failed for the second time, meaning that a Breach of the Asset Cover Test shall have occurred.

For the purposes hereof:

"Adjusted Aggregate Asset Amount" means $A + B + C + D + E - X - Y1 - Y2 - Z$.

The Deposit Amount will be adjusted as follows. If the outcome of A(a) is lower than A(b) as described above, the Deposit Amount will be reduced with an amount equal to A(b) minus A(a) provided that the Deposit Amount will always be at least 0. PORTFOLIO TESTS

As an alternative or supplement to the Total Return Swap Agreement (and the Standby Total Return Swap Agreement) the Issuer will at any time be allowed to opt for (i) implementation of portfolio tests or (ii) an alternative hedging methodology, subject to Rating Agency Confirmation. If as a result of a rating downgrade a Swap Counterparty ceases to be an Eligible Swap Counterparty, then the CBC will be allowed to, instead of collateralisation or substitution of a Swap Counterparty, opt for implementation of portfolio tests.

If implemented, such portfolio tests (the **"Portfolio Tests"**) will be carried out by the Administrator and will be required to be met by the CBC and the Issuer under the Asset Monitoring Agreement at the end of each calendar month, as calculated on the immediately succeeding Calculation Date. An example of a Portfolio Test is set out below, the final Portfolio Tests are subject to discussions with the Rating Agencies and may change:

- (a) the difference between the sum of $A + B + C + D + E + F + G$ and the net present value of the Covered Bonds ("**NPV**") is a certain amount, where:
- A = the NPV of any future cash flows (interest, principal and any other payments such as prepayment penalties) resulting from the Net Outstanding Principal Amount of the Mortgage Receivables;
 - B = the amount of any receipts (interest, principal and any other payments such as prepayment penalties) on the Net Outstanding Principal Amount of the Mortgage Receivables up to the end of the immediately preceding calendar month which have not been applied as at the relevant Calculation Date in accordance with the Trust Deed;
 - C = the outstanding principal amount of any Transferred Collateral other than Substitution Assets;
 - D = The NPV of any future cash flows (interest, principal and any other payments) resulting from the Substitution Assets (and any interest accrued thereon);
 - E = without double counting, any other cash or deposits held by the CBC;
 - F = the mark-to-market value of any Structured Swaps that are entered into by the CBC; and
 - G = the mark-to-market value of any Interest Rate Swaps that are entered into by the CBC;
- (b) the difference in Basis Point Duration between the sum of $A + B + C + D + E + F + G$ and the Covered Bonds is not more than a certain percentage to be agreed upon; and
- (c) the difference in Basis Point Duration between the sum of $A + B + C + D + E + F + G$ for that Term

Point and the Covered Bonds is not more than a certain percentage to be agreed upon, where the following Term Points can be defined:

- 1 to 3, 4 to 6, 7 to 9 and 10 to 12 months
- 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 15, 20, 25, 30 years.

A breach of a Portfolio Test will not constitute an Issuer Event of Default but will prevent the Issuer from issuing any further Series after such Calculation Date until remedied and, if not remedied by the next Calculation Date as calculated per such Calculation Date will constitute a "**Breach of Portfolio Test**" and will entitle the Security Trustee to serve a Notice to Pay on the Issuer.

For the purpose hereof:

"**Basis Point Duration**" means the percentage change in net present value of a financial asset due to the change of one basis point in the relevant interest rate.

AMORTISATION TEST

Under the Asset Monitoring Agreement and the Guarantee Support Agreement, the CBC must ensure that as at the end of each calendar month following service of a Notice to Pay (but prior to service of a CBC Acceleration Notice):

- (i) the Amortisation Test Aggregate Asset Amount is in an amount at least equal to the euro equivalent of the aggregate Principal Amount Outstanding of the Covered Bonds as at the end of such calendar month, as calculated on the immediately succeeding Calculation Date;
- (ii) the First Regulatory Current Balance Amount will always be at least equal to 105 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds at the end of such calendar month, all as calculated on the immediately succeeding Calculation Date; and
- (iii) the Second Regulatory Current Balance Amount will always be at least equal to 100 per cent., or such other percentage as may be required from time to time under the CB Regulations, of the aggregate Principal Amount Outstanding of the Covered Bonds at the end of such calendar month, all as calculated on the immediately succeeding Calculation Date, (item (i) up to and including item (iii) the "Amortisation Test"),

If on any Calculation Date following the service of a Notice to Pay the Amortisation Test is not met per the end of the previous month, then that shall constitute a **"Breach of the Amortisation Test"** and the CBC (or the Administrator on its behalf) shall immediately notify the Security Trustee thereof, and the Security Trustee shall be entitled to serve a CBC Acceleration Notice under the Terms and Conditions.

For this purpose:

"Amortisation Test Aggregate Asset Amount" means $A + B + C - X - Z$.

"A" means the sum of all Amortisation Test Current Balances of all Mortgage Receivables. The **"Amortisation Test Current Balance"** of a Mortgage Receivable is the lower of:

- (i) if it is a Savings Mortgage Receivable an amount calculated on the basis of a method notified to the Rating Agencies and subject to Rating Agency Confirmation from Moody's, related to the Savings and Accrued Savings Interest and Bank Savings Deposits in connection with such Mortgage Receivable, provided that no amount will be deducted if and to the extent that a Participation Agreement is in place in relation to the relevant Mortgage Receivable;
- (ii) if it corresponds to fund a Construction Deposit: the amount of the Construction Deposit;
- (iii) if it was in breach of the Receivable Warranties as of the relevant Transfer Date: such amount as is necessary to reduce its Adjusted Current Balance or Current Balance, as the case may be, to zero; and/or
- (iv) if it is 3 months or more in arrears: such amount as is necessary to arrive at 30 per cent. of its Current Balance and/or
- (v) if it is a Defaulted Receivable: such amount as is necessary to reduce its Current Balance to zero.

" β " means for each Mortgage Receivable the lower of (i) the LTV Cut-Off Percentage of its Indexed Valuation and (ii) α minus L.

"L" means for each Mortgage Receivable its Current Balance minus the LTV Cut-Off Percentage of its Indexed Valuation provided that if the result is negative, L shall be zero and if the result exceeds α , L shall equal α .

"B" means the amount of any cash standing to the credit of the GIC Accounts (excluding any Interest Receipts

received in the immediately preceding calendar month).

"C" means the outstanding principal balance of any Substitution Assets.

"X" means an amount equal to the Supplemental Liquidity Reserve Amount.

"Z" means (i) zero as long as the Total Return Swap is, or, after the Novation Trigger Date, the Standby Total Return Swap Agreements are, as the case may be, in place, and (ii) if a Portfolio Test is implemented as an alternative or supplement to the Total Return Swap or the Standby Total Return Swap or an alternative hedging methodology is put in place, is equal to the weighted average maturity in years of all outstanding Covered Bonds multiplied by the euro equivalent of the aggregate Principal Amount Outstanding of such Covered Bonds (and in respect of those Covered Bonds not denominated in euro, converted into euro at the Structured Swap Rate) multiplied by P per cent., where "P" means the weighted average margin of all outstanding Covered Bonds taken into consideration the remaining life of the relevant Series minus the GIC Margin agreed in the GIC.

"Structured Swap Rate" means the currency exchange rate set out in any Structured Swap Agreement.

"First Regulatory Current Balance Amount" means an amount equal to sum of (i) the aggregate amount of the Current Balance of the Mortgage Receivables, excluding any Defaulted Receivables, and (ii) the Substitution Assets Amount, or in each case such other amount as must be used in accordance with the CB Regulations.

"Substitution Assets Amount" means an amount equal to the sum of (i) B (as defined above) and (ii) C (as defined above), less any cash standing to the credit of the GIC Accounts held with an entity within the SNS group, which amount will be limited to a maximum of 20 per cent., or such other percentage as required under the Wft, of the aggregate Principal Amount Outstanding of the Covered Bonds.

"Second Regulatory Current Balance Amount" means an amount equal to the sum of (A) the aggregate balance of all Mortgage Receivables whereby the balance is determined for each such Mortgage Receivable as the lower of (i) the sum of the Current Balance of the Mortgage Receivables, excluding any Defaulted Receivables, and (ii) the Regulatory Cut-Off Percentage of the Indexed Valuation relating to such Mortgage Receivable and (B) the Substitution Assets Amount, or in each case such other amount as must be used in accordance with the CB Regulations.

"Regulatory Cut-Off Percentage" means 80 per cent. for all Mortgage Receivables, or such other percentage as may be required from time to time under the CB Regulations.

SALE OR REFINANCING OF SELECTED ASSETS

The Asset Monitoring Agreement provides that the CBC shall sell or refinance Selected Mortgage Receivables following the service of a Notice to Pay and an Issuer Acceleration Notice, but prior to the service of a CBC Acceleration Notice, if on any date the relevant Series that has the earliest Maturity Date as specified in the applicable Final Terms (ignoring any acceleration of amounts due under the Covered Bonds prior to the occurrence of a CBC Event of Default) (the "**Earliest Maturing Covered Bonds**") have an Extended Due for Payment Date which falls within twelve months, or such other date as the Security Trustee may approve, of such date. The proceeds from any such sale or refinancing will, in the case of each Mortgage Receivable, and in respect of a Savings Mortgage Receivable to which a Participation applies, after deduction of an amount equal to such Participation, form part of the Principal Available Amount. The CBC will be obliged to sell or refinance Selected Mortgage Receivables in the Portfolio in accordance with the Asset Monitoring Agreement (as described below), subject to the rights of pre-emption enjoyed by the Originators to purchase the Selected Mortgage Receivables pursuant to the Guarantee Support Agreement.

If the CBC is required to sell or refinance Selected Mortgage Receivables as abovementioned, the Asset Monitoring Agreement provides that the CBC shall ensure that Selected Mortgage Receivables will be selected on a random basis as described in the Asset Monitoring Agreement, provided that (i) no more Selected Mortgage Receivables will be selected than are necessary for the estimated sale or refinancing proceeds to equal the Adjusted Required Redemption Amount and (ii) subject to provisions relating to the Supplemental Liquidity Reserve Ledger the aggregate Current Balance of such Selected Mortgage Receivables shall never exceed the Adjusted Required Redemption Amount multiplied by A/B,

where:

"Adjusted Required Redemption Amount" means an amount equal to the euro equivalent of the Required Redemption Amount of the Earliest Maturing Covered Bonds less amounts standing to the credit of the GIC Accounts and Substitution Assets (excluding all amounts to be applied on the following CBC Payment Date to repay higher ranking amounts in the Post Issuer Acceleration Notice Priority of Payments and those amounts that are required to repay any Series which mature prior to or on the same date as the relevant Series).

"Required Redemption Amount" means in respect of a Series, the amount calculated as follows: the aggregate Principal Amount Outstanding of such Series $\times (1 + (0.005 \times (\text{days to the Extended Due for Payment Date of such Series} : 365)))$.

"A" means an amount equal to the aggregate of the Current Balance of all Mortgage Receivables and the market value of all other Transferred Assets less an amount equal to Supplemental Liquidity Available Amount;

"B" means the euro equivalent of the Required Redemption Amount in respect of all Series then outstanding less the euro equivalent of the Required Redemption Amount in respect of all Series outstanding which has been provided for in cash;

"Supplemental Liquidity Available Amount " means (i) prior to the service of a Notice to Pay an amount equal to the Supplemental Liquidity Reserve Amount minus, if a Supplemental Liquidity Event has occurred which is continuing, an amount equal to the aggregate Current Balance of Selected Mortgage Receivables sold or refinanced to fund or replenish the Supplemental Liquidity Reserve Ledger, unless otherwise notified to the Rating Agencies and (ii) following the service of a Notice to Pay, an amount equal to the Supplemental Liquidity Reserve Amount.

If the CBC is required or permitted to sell or refinance Selected Mortgage Receivables, the CBC will offer the Selected Mortgage Receivables for sale to purchasers for the best terms reasonably available but in any event for an amount not less than the Adjusted Required Redemption Amount plus, in the case of Savings Mortgage Receivables which are subject to a Participation, an amount equal to the aggregate Participations.

If the Selected Mortgage Receivables have not been sold or refinanced (in whole or in part) in an amount equal to the Adjusted Required Redemption Amount (or a proportional part thereof if only a part of the Selected

Mortgage Receivables have been sold) plus, in the case of each Savings Mortgage Receivable to which a Participation applies, an amount equal to the relevant Participation by the date which is six months prior to the Extended Due for Payment Date of the Earliest Maturing Covered Bonds (after taking into account all payments, provisions and credits to be made in priority thereto), then the CBC will (i) offer the Selected Mortgage Receivables for sale for the best terms reasonably available, including but not limited to the best price reasonably available, or (ii) seek to refinance the Selected Mortgage Receivables on the best terms reasonably available, both (i) and (ii) subject to the consent of the Security Trustee, notwithstanding that such amount may be less than the Adjusted Required Redemption Amount plus, in the case of each Savings Mortgage Receivable to which a Participation applies, an amount equal to the relevant Participation.

In respect of the sale or refinancing of Selected Mortgage Receivables following service of a Notice to Pay on the CBC, in addition to offering Selected Mortgage Receivables for sale to purchasers in respect of the Earliest Maturing Covered Bonds, the CBC (subject to the rights of pre-emption enjoyed by the Originators pursuant to the Guarantee Support Agreement) is under the Asset Monitoring Agreement permitted to sell a portfolio of Selected Mortgage Receivables, in accordance with the provisions summarised above, in respect of other Series and the CBC shall be required to do so if the Extended Due for Payment Date falls within 12 months (or such other later date as the Security Trustee may approve) of such Date.

In respect of any sale or refinancing of Selected Mortgage Receivables following the service of a Notice to Pay and an Issuer Acceleration Notice, but prior to the service of a CBC Acceleration Notice, the CBC will instruct the portfolio manager to use all reasonable efforts to procure that Selected Mortgage Receivables are sold as quickly as reasonably practicable (in accordance with the recommendations of the portfolio manager) taking into account the market conditions at that time and the scheduled repayment dates of the Covered Bonds and the terms of the Guarantee Support Agreement and the Asset Monitoring Agreement.

Supplemental Liquidity Reserve Ledger

In addition to any required sale or refinancing of Selected Mortgage Receivables as described above (if any), if the CBC is required to sell or refinance Selected Mortgage Receivables as abovementioned, or if a Supplemental Liquidity Event has occurred which is continuing, then the CBC is permitted (but not required) to sell or refinance Selected Mortgage Receivables with the aim to fund or replenish the Supplemental Liquidity Reserve Ledger, provided that the aggregate Current Balance of such Selected Mortgage Receivables shall not exceed the Supplemental Liquidity Available Amount. The CBC will (i) offer the Selected Mortgage Receivables for sale for the best terms reasonably available, including the best price reasonably available, or (ii) seek to refinance the Selected Mortgage Receivables on the best terms reasonably available, both (i) and (ii) subject to the consent of the Security Trustee. Any proceeds of such sale or refinancing shall be credited to the Supplemental Liquidity Reserve Ledger.

General Sales Requirements

The terms of any sale and purchase agreement with respect to the sale of Selected Mortgage Receivables or the terms of any refinancing will be subject to the prior written approval of the Security Trustee.

If purchasers accept the offer or offers from the CBC, then the CBC will, subject to the foregoing paragraph, enter into a sale and purchase agreement with the relevant purchasers which will require, among other things, a cash payment from the relevant purchasers.

Any such sale or any refinancing will not include any representations or warranties from the CBC in respect of the Selected Mortgage Receivables unless expressly agreed by the Security Trustee.

After a CBC Acceleration Notice has been served on the CBC, the Security Trustee may institute such proceedings or take such action as it thinks fit against the Issuer and the CBC to enforce its rights under the Trust Deed and the Security in accordance with the terms of the Trust Deed.

Sale of Substitution Assets

The Asset Monitoring Agreement provides that the CBC (or the Administrator on its behalf) shall sell all Substitution Assets as quickly as reasonably practicable, subject to the pre-emption rights enjoyed by the

Originators pursuant to the Guarantee Support Agreement, following service of an Issuer Acceleration Notice and a Notice to Pay.

For the purposes hereof

"Supplemental Liquidity Event" means the event that the Issuer's short term unsecured and unsubordinated debt obligations cease to be rated as high as F1 by Fitch and A2 by Moody's.

ASSET MONITOR

Under the terms of an asset monitor appointment agreement entered into on the Programme Date between the Asset Monitor, the CBC, the Administrator, the Issuer and the Security Trustee (the "**Asset Monitor Appointment Agreement**"), the Asset Monitor has been appointed as an independent party to perform the role as Asset Monitor. It is being considered to transfer the role as Asset Monitor from KPMG Accountants N.V. (in its current capacity as Asset Monitor) to Ernst & Young Accountants LLP and such transfer is likely to occur early 2016, and after such transfer Ernst & Young Accountants LLP will be the Asset Monitor in all respects. The identity and the contact information of the then current Asset Monitor is included in each Investor Report, which is available for viewing on www.snsbanknv.nl. The Asset Monitor has agreed, subject to due receipt of the information to be provided by the Administrator to the Asset Monitor, to conduct tests on the arithmetic accuracy of certain calculations performed by the Administrator in respect of the Asset Cover Test, the Amortisation Test and the Liquidity Reserve Required Amount with a view to confirmation of the accuracy of such calculations, including as required by and in accordance with the Wft.

The Asset Monitor will conduct such tests (i) in respect of the Asset Cover Test, on the Calculation Date immediately preceding each anniversary of the Programme Date; and (ii) in respect of the Amortisation Test, on each Calculation Date, as applicable. If the long-term unsecured, unguaranteed and unsubordinated debt obligation ratings of the Issuer falls below BBB- by Fitch or the counterparty risk assessment of the Issuer falls below Baa3 (cr) as determined by Moody's, respectively, the Asset Monitor will be required to conduct such tests in respect of the Asset Cover Test following each Calculation Date.

Following a determination by the Asset Monitor of any material errors in the arithmetic accuracy of the calculations performed by the Administrator such that (a) the Asset Cover Test has been failed on the applicable Calculation Date (in respect of the previous month's end) (where the Administrator had recorded it as being satisfied) or (b) the Adjusted Aggregate Asset Amount or the Amortisation Test Aggregate Asset Amount is misstated by an amount exceeding 1 per cent. of the Adjusted Aggregate Asset Amount or the Amortisation Test Aggregate Asset Amount, as applicable, the Asset Monitor will be required to conduct such tests for each of the four consecutive Calculation Dates thereafter.

The Asset Monitor is entitled, in the absence of manifest error, to assume that all information provided to it by the Administrator for the purpose of conducting such tests is true and correct and is complete and not misleading, and is not required to conduct a test or otherwise take steps to verify the accuracy of any such information. The results of the tests conducted by the Asset Monitor will be delivered to the Administrator, the CBC, the Issuer, the Security Trustee and the Rating Agencies (the "**Asset Monitor Report**") in accordance with the Asset Monitor Appointment Agreement. If the calculations performed by the Administrator have not been performed correctly, the Asset Monitor Report shall set out the correct calculation of the Asset Cover Test or Amortisation Test, as applicable.

Under the terms of the Asset Monitor Appointment Agreement the CBC will pay to the Asset Monitor a fee per test for the tests to be performed by the Asset Monitor.

The CBC may, at any time, but subject to the prior written consent of the Security Trustee, terminate the appointment of the Asset Monitor by providing at least 30 days' prior written notice to the Asset Monitor, provided that such termination may not be effected unless and until a replacement asset monitor has been found by the CBC (such replacement to be approved by the Security Trustee) which agrees to perform the duties (or substantially similar duties) of the Asset Monitor set out in the Asset Monitor Appointment Agreement.

The Asset Monitor may, at any time, resign from its appointment under the Asset Monitor Appointment Agreement upon providing the CBC and the Security Trustee (copied to the Rating Agencies) with 60 days' prior written notice. If a replacement asset monitor has not been found by the CBC within 60 days of notice of resignation by the Asset Monitor, the Asset Monitor shall immediately undertake to seek a replacement (such replacement to be approved by the Security Trustee) which agrees to perform the duties (or substantially similar duties) of the Asset Monitor set out in the Asset Monitor Appointment Agreement.

If a replacement asset monitor has not been found by the CBC within 30 days of the giving of notice of

termination by the CBC, the Asset Monitor may identify a replacement (such replacement to be approved by the Security Trustee) which agrees to perform the duties of the Asset Monitor set out in the Asset Monitor Appointment Agreement.

In the Trust Deed the Security Trustee agrees to, upon receipt of each Asset Cover Report, verify whether it states that the Asset Cover Test or Amortisation Test, as the case may be, has been passed or failed.

Agreed upon procedures regarding mortgage files

Under the terms of the Trust Deed and pursuant to the Wft, the Issuer shall undertake to request an independent auditor to perform an agreed upon procedure on a sample of randomly selected mortgage files at least once a year.

17. SWAPS

There will be differences between the amounts and/or currency of interest and/or principal (as applicable) (i) received in respect of the Mortgage Receivables (the rates applicable to which may, for instance, include variable rates of interest, discounted rates of interest, fixed rates of interest or rates of interest which track a base rate), the other Transferred Assets and the GIC Accounts and (ii) payable in respect of the outstanding Covered Bonds. The CBC will enter into the Total Return Swap Agreement, the Standby Total Return Swap Agreements and/or, where applicable, Interest Rate Swap Agreements and Structured Swap Agreements (such agreements together the "**Swap Agreements**") in order to hedge these mismatches.

The CBC is only permitted to enter into swap agreements with (a) SNS Bank (with appropriate collateralisation requirements if at such time SNS Bank is no longer an Eligible Swap Counterparty) or (b) third party Eligible Swap Counterparties, as the case may be. The Security Trustee shall be a party to such Swap Agreements only for the purposes of taking certain benefits and assuming certain obligations with respect to making determinations on behalf of the CBC. An Issuer Event of Default will not constitute an event of default or a termination event under any Swap Agreement.

On the Programme Date, the CBC entered into the Total Return Swap Agreement with the Issuer and the Security Trustee pursuant to which various amounts of interest received by the CBC on the Transferred Assets and the GIC Accounts are exchanged for an amount calculated with respect to EURIBOR for one month deposits (as further described in *Total Return Swap* below) and a letter pursuant to which the Issuer, the Security Trustee and the CBC agree that the CBC shall enter into Interest Rate Swaps and Structured Swaps with an Eligible Swap Counterparty (the "**Swap Undertaking Letter**"). Payments under the Total Return Swap will, and under the Interest Rate Swaps and Structured Swaps (except if the relevant Series of Covered Bonds to which such Structured Swap relate is denominated in a currency other than euro) may, be conditional upon the occurrence of an Assignment Notification Event or a Notice to Pay having been served.

The Total Return Swap Agreement provides that in case of a sale or refinancing of Selected Mortgage Receivables, the prospective purchaser (if such purchaser has been approved by the Swap Counterparty) has the option to purchase such Selected Mortgage Receivables with or without the corresponding Total Return Swap. If the prospective purchaser of the Selected Mortgage Receivables elects to purchase such Selected Mortgage Receivables with the corresponding part of the Total Return Swap, the Total Return Swap Agreement will permit the CBC to transfer the corresponding rights and obligations thereunder to such purchaser. If the Selected Mortgage Receivables are, or part thereof is, purchased or refinanced without the corresponding (part of the) Total Return Swap, the Total Return Swap then will be terminated in relation to such (part of the) Selected Mortgage Receivables and if the purchaser purchases the Selected Mortgage Receivables with the corresponding part of the Total Return Swap the Swap Counterparty will enter into a corresponding transaction.

Rating downgrade language acceptable to the Rating Agencies other than Fitch and, with respect to Fitch, in accordance with the then current Fitch criteria, is included in the Total Return Swap and will be included in the other Swap Agreements in relation to the Swap Counterparties.

In order to reduce the likelihood of any adverse rating action in relation to the Covered Bonds, the Issuer and the CBC entered into a Novation Agreement and a Standby Total Return Swap Agreement with each Standby Total Return Swap Provider, consisting in relation to each Standby Total Return Swap Agreement of an ISDA Master Agreement, a Schedule and a Credit Support Annex thereto. The Novation Agreements establish certain standby swap arrangements in relation to the Total Return Swap Agreement and govern certain collateralisation obligations of the relevant Standby Total Return Swap Provider. Pursuant to the terms of the Novation Agreements, with effect from and including the Novation Trigger Date, the Total Return Swap Counterparty will transfer by novation to each Standby Total Return Swap Provider all of its rights and obligations under and in respect of a portion of the Total Return Swap, with the effect that the CBC and the relevant Standby Total Return Swap Provider shall be deemed to enter into a new transaction as set forth in the Standby Total Return Swap Confirmation. Simultaneously, the rights and obligations of the CBC and the Total Return Swap Provider under the Total Return Swap will be released and discharged to the extent that the CBC and the relevant Standby Total Return Swap Provider have undertaken corresponding obligations to each other pursuant to the terms of the Standby Total Return Swap Agreements.

Provisions further include collateralisation and counterparty substitution provisions. For the Total Return Swap there are provisions allowing the CBC to, instead of the entering into the Novation Agreements, collateralisation or counterparty substitution, opt for implementation of Portfolio Tests. The Issuer also has the right to implement the Portfolio Tests at any time.

If Portfolio Tests are implemented as an alternative or supplement to the Total Return Swap or the Standby Total Return Swap then the Total Return Swap Agreement and the Standby Total Return Swap Agreements may be terminated. Further, if an alternative hedging methodology is put in place and Rating Agency Confirmation is obtained, then the Total Return Swap Agreement and the Standby Total Return Swap Agreements may be terminated and the CBC will be required to enter into such derivatives transactions as are required to comply with such alternative hedging methodology.

To enable the CBC to hedge its exposure arising from any Series (a) denominated in a currency other than euro or (b) denominated in euro but bearing non-EURIBOR interest, SNS Bank will, in accordance with the Swap Undertaking Letter, be required to enter into (or procure a third party that is an Eligible Swap Counterparty to enter into) Interest Rate Swap Agreements and Structured Swap Agreements with the CBC in respect of such Series of Covered Bonds. In relation to existing Series of Covered Bonds, the CBC has entered into several Interest Rate Swap Agreements.

Upon the termination of a Swap Agreement, the CBC or any Swap Counterparty may be liable to make a termination payment to the other party in accordance with the provisions of the relevant Swap Agreement. The amount of this termination payment will be calculated and made in euro or such other currency as may be agreed. In the event that such a termination payment is payable by the CBC following the service of an Issuer Acceleration Notice, such amount will in most cases (see the applicable priority of payments below) rank ahead of any interest amounts in respect of the Total Return Swap and the Standby Total Return Swaps or principal amounts in respect of Interest Rate Swaps and Structured Swaps due on the Covered Bonds except where default by, or downgrade of, the relevant Swap Counterparty has caused the relevant Swap Agreement to terminate.

For as long as no Assignment Notification Event has occurred and no Notice to Pay has been served, all amounts to be paid and (other than in respect of any collateral arrangements) received, respectively, by the CBC under any Swap Agreement, will be paid and received, respectively, on behalf of the CBC by the Issuer for its own account, see *Cashflows*.

For the purpose hereof:

"Eligible Swap Counterparty" means a financial institution which is permitted under Dutch law to enter into derivative contracts with Dutch residents and whose unsecured, unsubordinated and unguaranteed debt obligations or counterparty risk assessment as determined by Moody's, as the case may be, are rated not lower than:

- (a) in the case of the Total Return Swap and any Standby Total Return Swap, A2 (long term) (cr) and Prime-1 (short term) (cr) or, if no short-term rating is available, A1 (cr) by Moody's and A (long term) and F1 (short term) by Fitch;
- (b) in the case of a Structured Swap, A2 (long term) (cr) and Prime-1 (short term) (cr) or, if no short-term rating is available, A1 (cr) by Moody's and A (long term) and F1 (short term) by Fitch; and
- (c) in the case of an Interest Rate Swap, A2 (long term) (cr) and Prime-1 (short term) (cr) or, if no short-term rating is available, A1 by Moody's (cr) and A (long term) and F1 (short term) by Fitch,

or such other rating as may be approved by the Rating Agencies to maintain the then current rating of the Covered Bonds.

TOTAL RETURN SWAP

Interest will be received by the CBC in respect of the Mortgage Receivables, the other Transferred Assets and

the GIC Accounts. Some of the Mortgage Receivables pay a variable rate of interest linked to an index while other Mortgage Receivables pay a fixed rate of interest for a period of time. To provide a hedge between possible variances between, on a monthly basis:

the rates of interest received by the CBC on the various Transferred Assets and the balance of the GIC Accounts; and
EURIBOR for one month deposits,
the CBC and SNS Bank (in its capacity as total return Swap Counterparty, the "**Total Return Swap Counterparty**") have entered into a swap transaction (the "**Total Return Swap**") with the Security Trustee (the "**Total Return Swap Agreement**").

The Total Return Swap has been entered into on the Programme Date, however the effective date of this swap will be the date on which (i) an Assignment Notification Event occurs and/or (ii) a Notice to Pay has been served and therefore, the CBC will not be obliged to make any payments under the Total Return Swap (and the Issuer will not be obliged to make any payments on its behalf) until such effective date.

In respect of any further Eligible Receivables acquired by the CBC, the Total Return Swap Agreement ensures that the interest rate risks in respect of such further Eligible Receivables are hedged.

On the CBC Payment Date following the effective date of the Total Return Swap and on each CBC Payment Date thereafter, the following payments will be made under the Total Return Swap in respect of the immediately preceding Calculation Period:

- (a) the Total Return Swap Counterparty will pay to the CBC an amount equal to (i) the sum of then Net Outstanding Principal Amount of all Mortgage Receivables (other than Defaulted Receivables) plus the balance of the GIC Accounts and (without double counting) other Transferred Assets, as calculated at the first day of the related Calculation Period (the "**Total Pool Assets**") multiplied by (ii) EURIBOR for one month deposits (the "**TRS Calculation Amount**"); and
- (b) the CBC will pay to the Total Return Swap Counterparty an amount equal to (i) the sum of all Interest Receipts received in respect of Mortgage Receivables during the related Calculation Period, plus (ii) the accrued interest on the GIC Accounts and the revenue proceeds from the Transferred Assets received by the CBC during the related Calculation Period, minus (iii) an amount equal to the product of the swap margin of 90 basis points (or such other margin that may be agreed by the CBC and the Total Return Swap Provider under the Total Return Swap from time to time, subject to Rating Agency Confirmation), the Total Pool Assets and the relevant day count fraction, and minus (iv) an amount equal to the costs and fees paid by the CBC (or the Issuer on its behalf) to the Servicer during the related Calculation Period.

The related Calculation Period means in relation to a CBC Payment Date the Calculation Period immediately preceding such date.

On 13 March 2014, Moody's lowered the long-term deposit rating of RBS to Baa1 (from A3) with a negative outlook. Its short-term rating remained P-2. As a result thereof RBS did not meet the rating requirements of Moody's set forth in items (a) and (c) of the definition of Eligible Swap Counterparty at the time and is pursuant to the Standby Total Return Swap Agreement and the Interest Rate Swap Agreement entered into by it with, amongst others, the CBC, required to provide collateral under the relevant Credit Support Annex to the CBC in accordance with the criteria of Moody's upon loss of the second trigger required rating (provided that the exposure of the CBC is greater than zero) (the "**Standby RBS Collateral Amount**"). In addition, as a result of the aforementioned downgrade of RBS, SNS Bank is required to provide collateral in an amount equal to the Standby RBS Collateral Amount less the amount posted by RBS. In order to avoid being required to replace the Total Return Swap Counterparty and/or the Standby Total Return Swap Provider and/or RBS as the Interest Rate Swap Provider, the Issuer, the CBC, the Security Trustee and RBS, as applicable, entered into an amended Total Return Swap Agreement on 3 September 2014, an amended Interest Rate Swap Agreement on 3 September 2014 and an amendment agreement to the Novation Agreement on 3 September 2014 pursuant to which the second trigger required ratings are lowered (but not with respect to the Standby Total Return Swap

Agreement with Rabobank). As a result of this amendment, RBS nor SNS Bank will be required to find a replacement Total Return Swap Counterparty and/or a replacement Standby Total Return Swap Provider for the part relating to RBS or in respect of RBS find a replacement Interest Rate Swap Counterparty as a result of the aforementioned downgrade. Thereafter, Moody's upgraded the long-term deposit rating of RBS to A3 (from Baa1) with a stable outlook.

STANDBY TOTAL RETURN SWAP

In order to reduce the likelihood of adverse ratings action being taken by the Rating Agencies in respect of the Covered Bonds, the Issuer, the CBC, the Total Return Swap Provider and the Standby Total Return Swap Providers entered into Novation Agreements (as defined below) thereby putting in place certain standby swap arrangements with respect to the Total Return Swap Agreement.

In connection with these standby swap arrangements, the CBC and each relevant Standby Total Return Swap Provider have entered into a Novation Agreement and an ISDA Master Agreement (Multicurrency-Cross Border) (including the Schedule and Credit Support Annex thereto) (together a "**Standby Total Return Swap Agreement**"). Pursuant to the terms of the Novation Agreements, with effect from and including the Novation Trigger Date (as defined below), the Total Return Swap Counterparty will transfer by novation to each Standby Total Return Swap Provider all of its rights and obligations under and in respect a portion of the Total Return Swap, with the effect that the CBC, each Standby Total Return Swap Provider and the Security Trustee shall be deemed to enter into a new total return swap transaction (the "**Standby Total Return Swap**") and the rights and obligations of the CBC and the Total Return Swap Provider under the Total Return Swap will be released and discharged to the extent that the CBC and each Standby Total Return Swap Provider have undertaken corresponding obligations to each other pursuant to the terms of the Standby Total Return Swap Agreements and Standby Total Return Swaps. In addition, pursuant to the Standby Total Return Swap Agreements, the relevant Standby Total Return Swap Provider will be required to post collateral if the rating of such Standby Total Return Swap Provider falls below any required rating.

The notional amount of the Standby Total Return Swaps is capped by reference to the Standby TRS Calculation Amount (as defined below). In particular, for the purpose of calculating the Standby TRS Calculation Amounts in respect of any CBC Payment Date, (i) only the principal amount outstanding of the Specified Bonds (as defined below) is taken into account and (ii) any Mortgage Receivables and/or Transferred Collateral transferred to the CBC after the Novation Trigger Date are disregarded. Accordingly, for the purposes of this Section, all references to "**Mortgage Receivables**" and "**Transferred Collateral**" shall mean only those Mortgage Receivables and Transferred Collateral transferred to the CBC on or prior to the Novation Trigger Date.

Each Standby Total Return Swap Provider may, at its discretion, (but is not obliged to) extend the scope of the Standby Total Return Swap and/or enter into additional standby total return swap(s) or similar arrangements with the CBC in order to cover any new issuances of Covered Bonds. Alternatively, the CBC may (i) enter into additional standby total return swap(s) or similar arrangements with other standby total return swap providers (subject to obtaining the prior written consent of the Standby Total Return Swap Provider), or (ii) implement portfolio tests as an alternative to standby total return swap arrangements, or (iii) put in place a combination of standby total return swaps and portfolio tests.

Under each Standby Total Return Swap, the following payments will be made, on each CBC Payment Date with effect from the Novation Trigger Date:

the relevant Standby Total Return Swap Provider will pay to the CBC an amount equal to the product of (i) the Standby TRS Calculation Amount, (ii) EURIBOR for one month deposits and (iii) the relevant day count fraction, where "**Standby TRS Calculation Amount**" equals the product of: (i) the Total Pool Assets, (ii) the Cap Percentage and (iii) the TRS Percentage, in each case calculated on the first day of the Calculation Period immediately preceding the Calculation Period in which such CBC Payment Date falls;

the CBC will pay to the relevant Standby Total Return Swap Provider an amount equal to the product of:

- (1) an amount equal to (i) the aggregate sum of the Scheduled Interest Receipts as are scheduled to be

received by the CBC in respect of the Relevant Mortgage Receivables (and that would have been scheduled to be received in respect of Selected Mortgage Receivables that were Relevant Mortgage Receivables and that were sold and transferred) in each case during the related Calculation Period (but excluding any prepayment penalties that have been received or recovered by the CBC in respect of the Relevant Mortgage Receivables during such Calculation Period); plus (ii) the aggregate sum of all prepayment penalties received or recovered by the CBC in respect of the Relevant Mortgage Receivables during such Fixed Rate Payer Calculation Period); plus (iii) the accrued interest on the GIC Account less the balance of the GIC Asset Sale Ledger and the revenue proceeds from the Relevant Assets received by the CBC during the Calculation Period immediately preceding the Calculation Period in which such CBC Payment Date falls; less (iv) an amount equal to any costs and fees paid by the CBC (or the Issuer on its behalf) to the servicer providers (including the Administrator, the Paying Agent and the Servicers) during the Calculation Period immediately preceding the Calculation Period in which such CBC Payment Date falls, subject to a maximum of 0.20 per cent of the notional amount; and

- (2) the quotient of (i) the Standby TRS Calculation Amount determined for such period and (ii) the Total Pool Assets, as calculated at the first day of the Fixed Rate Payer Calculation Period immediately preceding the Fixed Rate Payer Calculation Period in which the Fixed Rate Payer Payment Date falls.

If, on the Novation Trigger Date part or all of the amounts payable by the Total Return Swap Counterparty on the CBC Payment Date immediately preceding the Novation Trigger Date, remains unpaid the Relevant Portion of such payment (such amount the Due Payment) shall be discharged on behalf of the Total Return Swap Counterparty. The relevant Standby Total Return Swap Provider shall pay the Due Amount on or before the 10th Relevant Business Day following the day on which it is notified of the amount of such Due Payment.

Termination of the Novation Agreements

The Novation Agreements may be terminated if, at any time prior to the Novation Trigger Date, any of the following events occurs (a "Novation Termination Event"):

- (a) subject to Rating Agency Confirmation being obtained from each Rating Agency, such Novation Agreement is no longer necessary for any reason;
- (b) the Extended Due For Payment Date in respect of the last-to-mature Specified Bond has occurred;
- (c) all Specified Bonds are irrevocably redeemed in full;
- (d) subject to Rating Agency Confirmation being obtained from each Rating Agency, the relevant Total Return Swap Provider has found a replacement third party who has agreed to act as a Standby Total Return Swap Provider in respect of all of the Specified Bonds and has entered into replacement documentation with such replacement;
- (e) an Early Termination Date or other event has occurred under the Total Return Swap Agreement which results in a termination of the entire Total Return Swap Agreement and not only a part of the Total Return Swap Agreement and no Novation Trigger Date has occurred;
- (f) a date has been effectively designated for the termination of the relevant part of the Total Return Swap Agreement (relating to the relevant Standby Total Return Swap Provider) as a result of the Total Return Swap Counterparty not having taken the appropriate remedial actions where the relevant Standby Total Return Swap Provider has ceased to have the Second Trigger Required Ratings (as defined below) or the Fitch Second Subsequent Required Ratings (as defined below);
- (g) the Total Return Swap Counterparty is replaced by an eligible replacement which is an Eligible Swap Counterparty in accordance with clause 9(b) of the Novation Agreements, in a manner contrary to clause 3(g) of the Novation Agreement (which means that the consent of the Standby Total Return Swap Providers (when required) has not been obtained for such replacement); or
- (h) and for the Novation Agreement between the Issuer, the CBC, the Security Trustee and RBS entered into on 3 September 2014, the Transferor is rated by Moody's at or below the Second Trigger Required Ratings (as defined below) and is rated by Fitch at or below the Fitch Second Subsequent Required Ratings.

In the case of a Novation Termination Event resulting from paragraph (b), (c), (e) or (f) above the Novation Agreements shall immediately terminate upon the occurrence of such Novation Termination Event (such date a

"Novation Termination Date"). In the case of a Novation Termination Event resulting from paragraph (a) or (d) above and which is continuing, the Standby Total Return Swap Provider may by no less than three Relevant Business Days notice in writing to each of the Total Return Swap Counterparty, CBC and the Security Trustee designate a day not earlier than the day such notice is effective as the day on which the relevant Novation Agreement shall terminate and the relevant Novation Agreement shall terminate on such date (also a **"Novation Termination Date"**). In the case of a Novation Termination Event resulting from paragraph (g) above and which is continuing, the Standby Total Return Swap Provider may by no less than three business days' notice in writing to each of the Total Return Swap Counterparty, the CBC and the Security Trustee designate a day not earlier than the day such notice is effective as the day on which this Novation Agreement shall terminate and this Novation Agreement shall terminate on such date (also a **"Novation Termination Date"**). In the case of paragraph (d), such Novation Termination Date shall be the same date as the effective date of such replacement documentation. The Total Return Swap Counterparty agrees that it shall within three Relevant Business Days following the Novation Termination Date pay to the Standby Total Return Swap Provider any amounts due but unpaid from (and including) the date of this Novation Agreement to (and including) the Novation Termination Date.

If a Novation Agreement in relation to any Standby Total Return Swap Provider is terminated prior to the occurrence of the Novation Trigger Date, the Standby Total Return Swap Agreement in relation to such Novation Agreement in relation to any Standby Total Return Swap Provider will not become effective and will fall away. This may lead to adverse ratings action being taken by the Ratings Agencies in respect of the Covered Bonds, unless the then current ratings of the Total Return Swap Provider satisfy the minimum requirements of the Rating Agencies or the Total Return Swap Provider takes other remedial measures in accordance with the requirements of the Rating Agencies.

Rights to prevent amendments to the Relevant Documents

The Standby Total Return Swap Providers have the right to prevent amendments to the Relevant Documents being implemented without their consent, provided that the Standby Total Return Swap Providers may only prevent such amendments if these are material prejudicial to their interests.

For the purposes of the foregoing:

"Amended Second Trigger Required Ratings" means in respect of an entity a Moody's Long-Term Rating of "Baa2" or above.

"Cap" means the product of (a) the aggregate of the outstanding principal balances of all Covered Bonds for which the Extended Due for Payment Date has not occurred on the Effective Date and (b) 1.38.

"Cap Percentage" means $\min 1, X/Y$ where **"X"** means the Cap on the Effective Date; and **"Y"** means the Total Pool Assets on the Effective Date.

"Effective Date" means the Novation Trigger Date.

"Fitch Second Subsequent Required Ratings" means (i) BBB- by Fitch (long term) or (b) F3 by Fitch (short term).

"GIC Asset Sale Ledger" means in respect of each relevant calculation period, an amount determined by the swap calculation agent equal to the lesser of:

- (a) the balance of the GIC Account; and
- (b) the sum of (x) the aggregate of the proceeds of the sale of any Mortgage Receivables credited to the GIC Account during the relevant calculation period immediately preceding the last Payment Date (or, in respect of the first relevant calculation period, during the immediately preceding calendar month), (y) the balance of the GIC Asset Sale Ledger as at the last Payment Date (which shall be zero for the first Payment Date) and (z) the interest credited (which will be a negative if the applicable interest rate is negative and interest amounts are debited from the GIC Account) to the GIC Account which is attributable to that portion of the balance of the GIC Account represented by (x) above.

"Novation Agreement" means each of the novation agreement dated on or about 25 November 2011 as amended and restated from time to time, between the Total Return Swap Provider, the CBC and Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A and the novation agreement dated on or about 25 November 2011 as amended and restated from time to time, between the Total Return Swap Provider, the CBC and The Royal Bank of Scotland plc.

"Novation Trigger Date" means, the earlier to occur of (i) the first date on which both an Issuer Acceleration Notice and a Notice to Pay have been delivered on the CBC, the Total Return Swap Provider and the relevant Standby Total Return Swap Provider, (ii) the first date on which a trigger notice is delivered that the Issuer has failed to comply with its obligations under the side agreements entered into by the Issuer and the Standby Total Return Swap Providers and (iii) an early termination date has been designated under the Total Return Swap Agreement as a result of either an event of default in respect of which the Issuer is the defaulting party or a termination event in respect of which the Issuer is an affected party (including an additional termination event resulting from a failure by the Issuer to transfer to the CBC any delivery amount pursuant to the terms of the Total Return Swap Agreement), but provided that no Novation Trigger Date will occur if such early termination date is designated as a result of the occurrence of (w) an illegality, (x) a tax event, (y) an additional termination event relating to the redemption of the covered bonds or (z) an additional termination event relating to the failure to transfer its rights and obligations under the Total Return Swap Agreement in circumstances where the Standby Total Return Swap Provider ceases to have the required rating to provide credit support with collateral for the obligations of the Issuer under the Total Return Swap Agreement.

"Relevant Assets" means the Mortgage Receivables and the Beneficiary Rights relating thereto and the Eligible Collateral, in each case transferred to the CBC pursuant to the Guarantee Support Agreement, to the extent not redeemed, retransferred, sold or refinanced pursuant to the Asset Monitor Agreement.

"Relevant Mortgage Receivables" means any Eligible Receivables transferred to the CBC pursuant to the Guarantee Support Agreement on or prior to the Novation Trigger Date, to the extent not redeemed, retransferred, sold or refinanced pursuant to the Asset Monitor Agreement, or otherwise disposed of by the CBC.

"Relevant Portion" means the fraction determined as the result of (A) the Standby TRS Calculation Amount for the Calculation Period immediately preceding the Calculation Period in which such Novation Trigger Date falls divided by (B) the TRS calculation Amount for the Calculation Period immediately preceding the Calculation Period in which such Novation Trigger Date falls.

"Scheduled Interest Receipts" means Interest Receipts, but where the words "scheduled to be" are deemed to be inserted before the word "received" wherever it appears in the definition of Interest Receipts, the word "Relevant" is inserted before the words "Mortgage Receivables" and sub paragraph (ii) and (iii) are deleted. For the avoidance of doubt, the Scheduled Interest Receipts in respect of a Relevant Mortgage Receivable will not include any interest arrears provided that such Mortgage Receivable is not a Defaulted Receivable.

RBS

The Royal Bank of Scotland plc (the **"Bank"**) is a wholly-owned subsidiary of The Royal Bank of Scotland Group plc (**"RBSG"** or the **'holding company'**), a banking and financial services group. The 'Group' comprises the Bank and its subsidiary and associated undertakings. The Group has a diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers. 'RBS Group' comprises the holding company and its subsidiary and associated undertakings.

RBS Group had total assets of £965 billion and owners' equity of £56 billion as at 30 June 2015. RBS Group's capital ratios on the end-point CRR basis as at 30 June 2015 were a total capital ratio of 14.8 per cent., a CET1 capital ratio of 12.3 per cent. and a Tier 1 capital ratio of 12.3 per cent. RBS Group's capital ratios on the PRA transitional basis as at 30 June 2015 were a total capital ratio of 18.5 per cent., a CET1 capital ratio of 12.3 per cent. and a Tier 1 capital ratio of 14.3 per cent.

On 13 March 2014, Moody's lowered the long-term deposit rating of RBS to Baa1 (from A3) with a negative outlook. Its short-term rating remains P-2. As a result RBS did not meet the rating requirements of Moody's set forth in item (a) and (c) of the definition of Eligible Swap Counterparty at the time and is pursuant to the Standby Total Return Swap Agreement and the Interest Rate Swap Agreement entered into by it with, amongst others, the CBC, be required to provide collateral under the relevant Credit Support Annex to the CBC in accordance with the criteria of Moody's upon loss of the Second Trigger Required Rating (provided that the exposure of the CBC is greater than zero). In addition, as a result of the aforementioned downgrade of RBS, SNS Bank is required to provide collateral in an amount equal to the Standby RBS Collateral Amount less the amount posted by RBS. In order to avoid being required to replace the Total Return Swap Counterparty and/or the Standby Total Return Swap Provider and/or RBS as the Interest Rate Swap Provider, the Issuer, the CBC, the Security Trustee and RBS, as applicable, entered into an amended Total Return Swap Agreement on 3 September 2014, an amended Interest Rate Swap Agreement on 3 September 2014 and an amendment agreement to the Novation Agreement on 3 September 2014 pursuant to which the Amended Second Trigger Required Ratings apply (but not with respect to the Standby Total Return Swap Agreement with Rabobank). Thereafter, Moody's upgraded the long-term deposit rating of RBS to A3 (from Baa1) with a stable outlook.

Following the amendments set out in the previous section, RBS and the Issuer are not required to find a replacement Total Return Swap Counterparty and/or a replacement Standby Total Return Swap Provider for the part relating to RBS nor a replacement Interest Rate Swap Counterparty nor to procure a party to guarantee the relevant part of the obligations of the Issuer and/or the obligations of RBS.

INTEREST RATE SWAPS

Interest Rate Swaps are used to hedge mismatches between EURIBOR and the interest guaranteed by the CBC with respect to the Covered Bonds in the following manner.

The interest rate guaranteed by the CBC with respect to a Series denominated in euro may bear a non-EURIBOR rate of interest. To provide a hedge against the possible variance between:

- (a) EURIBOR for one month deposits or EURIBOR for three month deposits, as the case may be; and
- (b) the rate of interest payable by the CBC under the euro denominated Series,

(a) the CBC and (b) SNS Bank (where applicable with the appropriate collateralisation requirements) or a third party Eligible Swap Counterparty, as the case may be, (each an "**Interest Rate Swap Counterparty**") will enter into interest rate swap transactions (the "**Interest Rate Swaps**") with (c) the Security Trustee in relation to each relevant Series subject to Rating Agency Confirmation (the "Interest Rate Swap Agreements") if the Covered Bonds of such Series are denominated in euro but bearing a non EURIBOR interest.

Notwithstanding that the CBC will receive a rate equal to EURIBOR for one month deposits under the Total Return Swap Agreement, if the CBC elects to or is obliged to enter into and/or SNS Bank is obliged to procure that the CBC enters into an Interest Rate Swap Agreement, the CBC has a choice to set the rate payable by it under the Interest Rate Swap Agreement at EURIBOR for one month deposits or EURIBOR for three month deposits. It should be noted that the CBC may, but is not obliged to, enter into nor is SNS Bank obliged to procure that the CBC enters into an Interest Rate Swap Agreement, if a Series denominated in Euro bears an interest rate equal to EURIBOR for one month deposits, three month deposits, six month deposits or deposits with another term (if applicable).

Although the relevant Interest Rate Swap may be entered into on or before the date on which the relevant Series of Covered Bonds are issued, the effective date of such swap may be the date on which (i) an Assignment Notice Event and/or (ii) a Notice to Pay has been served and in such case, the CBC will not be obliged to make any payments (and the Issuer will not be obliged to make any payments on its behalf) until such effective date under the Interest Rate Swap.

The following payments will be made under each Interest Rate Swap entered into in respect of a Series:

- (a) on each Interest Payment Date (or such other date falling earlier than the relevant Interest Payment Date as agreed between the parties), the relevant Interest Rate Swap Counterparty will pay the CBC an amount equal to the outstanding principal amount of such Series as at the preceding Interest Payment Date multiplied by the relevant swap rate which will correspond to the rate of interest payable pursuant to the terms of such Series; and
- (b) on each CBC Payment Date (or such other date as agreed between the parties), the CBC will pay to the Interest Rate Swap Counterparty an amount equal to the outstanding principal amount of such Series as at the preceding Interest Payment Date multiplied by EURIBOR for one month deposits or EURIBOR for three month deposits, as the CBC may elect, plus any spread (if any) as further specified in the relevant Interest Rate Swap.

If Portfolio Tests are implemented and the Total Return Swap is terminated, Interest Rate Swaps will be used to comply with the Portfolio Tests.

A Swap Counterparty may have an option right to terminate the relevant Interest Rate Swap prior to its scheduled termination date. The Issuer and the CBC have undertaken in the Swap Undertaking Letter not to agree to any option to terminate an Interest Rate Swap prior to the Maturity Date of the relevant Series to which it is linked, unless the Issuer and the CBC have the right to exercise the Issuer Call specified in Condition 7(c) in respect of such Series, (provided that this undertaking will not apply if another Interest Rate Swap will automatically replace such Interest Rate Swap on termination).

STRUCTURED SWAPS

Structured Swaps are used to hedge mismatches between EURIBOR and euro and the amounts guaranteed by the CBC with respect to the Covered Bonds in the following manner.

The Transferred Assets will be denominated in euro and the CBC will receive Euribor for one month deposits over the outstanding principal amount pursuant to the Total Return Swap. However, (i) the interest payable by the CBC with respect to a Series may be denominated in a currency other than euro and/or (ii) principal under a Series may be payable in a currency other than euro.

To provide a hedge against the variance between:

- (a) (i) EURIBOR for one month deposits or EURIBOR for three month deposits,
as the case may be; and
(ii) the euro; and
- (b) (i) the rate of interest payable by the CBC in respect of a Series; and
(ii) the currency of a Series,

(a) the CBC and (b) SNS Bank (where applicable with the appropriate collateralisation requirements) or a third party Eligible Swap Counterparty, as the case may be, (each a "**Structured Swap Counterparty**") will enter into swap transactions (the "**Structured Swaps**", and together with the Interest Rate Swaps, the Total Return Swap and the Standby Total Return Swaps, the "**Swaps**") with (c) the Security Trustee in relation to each relevant Series subject to Rating Agency Confirmation (the "**Structured Swap Agreements**") if the Covered Bonds of such Series are denominated in a currency other than euro.

Notwithstanding that the CBC will receive a rate equal to EURIBOR for one month deposits under the Total Return Swap Agreement, the CBC has a choice to set the rate payable by it under the Structured Swap Agreement at EURIBOR for one month deposits or EURIBOR for three month deposits.

Although the relevant Structured Swap will be entered into on or before the date on which the relevant Series of Covered Bonds are issued, the effective date of such swap may be the date on which (i) an Assignment Notification Event Notice and/or (ii) a Notice to Pay has been served and as a result, the CBC will not be obliged to make any payments (and the Issuer will not be obliged to make any payments on its behalf) until such effective date under such Structured Swap.

The following payments may be made under each Structured Swap entered into in respect of a Series:

- (a) if such Series is denominated in a currency other than euro, which means that there is an exchange of principal, on or about the date of issue of each such Series, the Issuer on behalf of the CBC may pay the proceeds of issue of such Series to the Structured Swap Counterparty and the Structured Swap Counterparty will then pay to the CBC a euro amount in respect of such proceeds (at the exchange rate specified in the relevant confirmation);
- (b) on each Interest Payment Date (or such other date falling earlier than the relevant Interest Payment Date as agreed between the parties), the Structured Swap Counterparty will pay the CBC an amount equal to the outstanding principal amount of such Series as at the preceding Interest Payment Date, multiplied by the relevant swap rate which will correspond to the rate of interest (for example the fixed or floating rate of interest) payable pursuant to the terms of such Series;
- (c) on each CBC Payment Date (or such other date as agreed between the parties), the CBC will pay to the Structured Swap Counterparty an amount equal to the euro equivalent of the then outstanding principal amount of such Series multiplied by EURIBOR for one month deposits or EURIBOR for three month deposits, as the CBC may elect, plus any spread as further specified in the relevant Structured Swap;
- (d) if such Series is denominated in a currency other than euro, which means that there is an exchange of principal, on the date of repayment of such Series, the CBC will pay to the Structured Swap Counterparty an amount equal to the euro equivalent of the outstanding

principal amount of such Series (as determined by the relevant swap confirmation) as at the preceding Interest Payment Date (or such other date falling earlier than the relevant Interest Payment Date as agreed between the parties), and the Structured Swap Counterparty will pay the CBC an amount equal to the outstanding principal amount of such Series in the currency in which such Series is denominated.

A Swap Counterparty may have an option right to terminate the relevant Structured Swap prior to its scheduled termination date. The Issuer and the CBC have undertaken in the Swap Undertaking Letter not to agree to any option to terminate a Structured Swap prior to the Maturity Date of the relevant Series to which it is linked, unless the Issuer and the CBC have the right to exercise the Issuer Call specified in Condition 7(c) in respect of such Series (provided that this undertaking will not apply if another Structured Swap will automatically replace such Structured Swap on termination).

18. CASHFLOWS

- A. For as long as no Assignment Notification Event has occurred and no Notice to Pay or CBC Acceleration Notice has been served, pursuant to the Guarantee Support Agreement, the CBC is not entitled to receive or retain any proceeds from the Transferred Assets; such proceeds will all be received and retained by the Originators for their own benefit. Pursuant to the Trust Deed, the following will then apply:
- (i) all costs and expenses of the CBC, including any costs of the Security Trustee and the Stichting Holding, will be paid on behalf of the CBC by the Issuer for its own account as consideration for the CBC issuing the Guarantee;
 - (ii) all amounts to be paid and received, respectively by the CBC under any Swap Agreement will be paid and received, respectively on behalf of the CBC by the Issuer for its own account, except that any collateral to be provided by a Swap Counterparty following its downgrade ("**Swap Collateral Amounts**") will be delivered directly by the relevant Swap Counterparty to the CBC irrespective of whether any Assignment Notification Event has occurred or any Notice to Pay or CBC Acceleration Notice has been served at such time and, accordingly, any payments or deliveries to be made in respect of the return of any such collateral shall be made directly by the CBC to the relevant Swap Counterparty ("**Collateral Return Payments**"); and
 - (iii) on each CBC Payment Date the CBC (or the Administrator on its behalf) will distribute all amounts (if any) then standing to the credit of the GIC Accounts (except for any collateral provided by a Swap Counterparty, the Supplemental Liquidity Reserve, the Reserve Fund and the Liquidity Reserve Fund) to the Issuer or, if the Issuer is insolvent and one or more Originators are not insolvent, to such Originator or Originators to the extent permitted by the Asset Cover Test. The CBC does not need to concern itself as to how such proceeds are allocated between the Issuer and the Originators; and
- B. If an Assignment Notification Event occurs or a Notice to Pay or CBC Acceleration Notice is served on the CBC, pursuant to the Guarantee Support Agreement, the CBC shall, subject to the rights of the Security Trustee as pledgee, be entitled to receive for its own benefit all proceeds of the Transferred Assets to the extent relating to the period following such Assignment Notification Event or service of such Notice to Pay or CBC Acceleration Notice. Pursuant to the Trust Deed, the following will then apply:
- (i) if an Assignment Notification Event has occurred but no Notice to Pay or CBC Acceleration Notice has been served, all costs, expenses and all amounts to be paid and received under the Swap Agreements and the Participation Agreements will be settled on behalf of the CBC by the Issuer except that Collateral Return Payments shall be made directly by the CBC to the relevant Swap Counterparty and all amounts standing to the credit of the GIC Accounts except for Swap Collateral Amounts will continue to be distributed as abovementioned;
 - (ii) if a Notice to Pay has, but no Issuer Acceleration Notice or CBC Acceleration Notice has been served, all costs, expenses and all amounts to be paid and received under the Swap Agreements and the Participation Agreements will continue to be settled on behalf of the CBC by the Issuer except that Collateral Return Payments shall be made directly by the CBC to the relevant Swap Counterparty, but no amounts standing to the credit of the GIC Accounts will be distributed to the Issuer or the Originator as mentioned under paragraph (A)(iii) above (except that Collateral Return Payments shall continue to be made directly by the CBC to the relevant Swap Counterparty).
 - (iii) if an Issuer Acceleration Notice and a Notice to Pay have, but no CBC Acceleration Notice has, been served, the CBC (or the Administrator on its behalf) will apply the Interest Available Amount and the Principal Available Amount in accordance with the Post Issuer Acceleration Notice Priority of Payments and the Insurance Savings Participation Redemption Available Amounts to the Insurance Savings Participant and the Bank Savings Participation Redemption Available Amounts to the Bank Savings Participant; or
 - (iv) if a CBC Acceleration Notice has been served, all moneys received or recovered by the Security Trustee or any other Secured Party and all moneys held by or on behalf of the CBC will be applied in accordance with the Post CBC Acceleration Notice Priority of Payments except for any Insurance Savings Participation Redemption Available Amounts which will be paid to the Insurance Savings Participant and except for any Bank Savings Participation Redemption Available Amounts which will be paid to the Bank Savings Participants and except for any Swap

Collateral Amounts which shall first be subject to the provisions set out in the relevant Swap Agreement.

Reserve Fund

Pursuant to the Trust Deed, if the Issuer's counterparty risk assessment falls below P-1 (cr) as determined by Moody's or if the short-term issuer default rating falls below F1 (short-term) and A (long-term) by Fitch, the CBC will be required to establish a reserve fund (the "**Reserve Fund**") on the GIC Account which will be credited by the Issuer with an amount equal to the Reserve Fund Required Amount and such further amounts as are necessary from time to time to ensure that an amount up to the Reserve Fund Required Amount is credited to the Reserve Fund for as long as the above rating trigger is breached.

After the earlier of (i) the date falling three months after the occurrence of an Assignment Notification Event pursuant to which the relevant Borrowers have been notified of the transfer of the related Mortgage Receivables and have been instructed to direct any payments under such Mortgage Receivables to the CBC or (ii) the date on which the CBC demonstrates that the relevant Borrowers pay the required amounts under the Mortgage Receivables to the CBC, the CBC will no longer be required to maintain the Reserve Fund and any amounts standing to the credit of the Reserve Fund will be added to certain other income of the CBC in calculating the Interest Available Amount and applied in accordance with the relevant Priority of Payments.

After a Notice to Pay has been served on the CBC, all amounts credited to the Reserve Fund will be available on any CBC Payment Date to meet items (a) to (k) inclusive of the Post Issuer Acceleration Notice Priority of Payments and will be released accordingly.

Liquidity Reserve Fund

Pursuant to the Trust Deed the CBC will be required to establish a liquidity reserve fund ("**Liquidity Reserve Fund**") on the GIC Account which will be credited by the Issuer with an amount equal to the Liquidity Reserve Required Amount and such further amounts as are necessary from time to time to ensure that an amount required by the CB Regulations is credited to the Liquidity Reserve Fund taking into account the amount deposited in the Reserve Fund (if any).

Payments with respect to Covered Bonds, Interest Rate Swaps and Structured Swaps during a CBC Payment Period (other than on the CBC Payment Date on which the CBC Payment Period commences)

Following the service of an Issuer Acceleration Notice and a Notice to Pay, pursuant to the Trust Deed, the Interest Available Amount and the Principal Available Amount (less any amounts payable to third parties incurred by the CBC in its ordinary course of its business, which may be paid on each day by the CBC) will be applied in accordance with the Post Issuer Acceleration Notice Priority of Payments on each CBC Payment Date, which dates will occur monthly. Payments in respect of interest and principal on a Series of Covered Bonds and, in respect of Interest Rate Swap Agreements and Structured Swap Agreements, may however become due and payable on other days than on the relevant CBC Payment Date during a CBC Payment Period. Such amounts will be payable by the CBC on the date on which such payments become due and payable as follows:

- (i) in respect of a Series of Covered Bonds to the extent that the CBC has entered into an Interest Rate Swap or Structured Swap with respect to such Series of Covered Bonds, from the amounts received under the relevant Swap Agreement connected to such Series after the CBC Payment Date on which the relevant CBC Payment Period commenced;
- (ii) from the amounts reserved for such Series of Covered Bonds or such Swap Agreement pursuant to items (f) and (g) of the Post Issuer Acceleration Notice Priority of Payments (as applicable) on the CBC Payment Date on which the relevant CBC Payment Period commenced; and
- (iii) in respect of a Series of Covered Bonds to the extent not so paid in full following application of the funds available in accordance with (i) and (ii) above, from the amounts as were credited to the GIC Accounts in accordance with item (h) of the Post Issuer Acceleration Notice Priority of Payments on the CBC Payment Date on which the relevant CBC Payment Period commenced.

For the purposes hereof:

"Principal Available Amount" means on a Calculation Date an amount equal to the aggregate of (without double counting):

- (iv) any amount required to be transferred to the GIC Accounts in accordance with item (h) of the Post Issuer Acceleration Notice Priority of Payments (for the purpose of determining such amount this item (iv) will not be included in the Principal Available Amount for determining the amount available for application to such item (h));

- (iv) following the service on the CBC of a Notice to Pay, any amounts in the Reserve Fund and/or the Liquidity Reserve Fund released in accordance with the Trust Deed;
- (v) any amounts received as Excess Proceeds in the CBC Payment Period immediately preceding the relevant CBC Payment Date to the extent such proceeds do not relate to principal; and

Cash Collection Arrangements

All payments made by the Borrowers are paid into the Collection Foundation Accounts maintained by the Collection Foundation with the Foundation Account Providers. The Collection Foundation Accounts are also used for the collection of moneys paid in respect of mortgage loans other than the Mortgage Loans and in respect of other moneys to which the Originators are entitled *vis-à-vis* the Collection Foundation.

The Collection Foundation is set up as a passive bankruptcy remote entity. The objects clause of the Collection Foundation is limited to collecting, managing and distributing amounts received on the Collection Foundation Accounts to the persons who are entitled to receive such amounts pursuant to the Receivables Proceeds Distribution Agreement. Upon receipt of such amounts, the Collection Foundation will distribute to the Issuer or, after an Assignment Notification Event or a Notice to Pay, to the CBC, or after the Enforcement Date, to the Security Trustee, any and all amounts relating to the Mortgage Receivables received by it on the Collection Foundation Accounts, in accordance with the relevant provisions of the Receivables Proceeds Distribution Agreement. Pursuant to the Receivables Proceeds Distribution Agreement, SNS Bank as Foundation Administrator and, after an insolvency event relating to SNS Bank, a new foundation administrator appointed for such purpose, respectively, will perform such payment transaction services on behalf of the Collection Foundation.

The Receivables Proceeds Distribution Agreement provides that upon the occurrence of a Collection Foundation Trigger Event, the Collection Foundation and SNS Bank and RegioBank (in all their respective capacities) will within 30 calendar days after SNS Bank has ceased to have the Collection Foundation Trigger Required Ratings or, with respect to S&P only (only to the extent S&P assigns a rating to any of the notes issued by any of the SPVs) the later of (a) 30 calendar days have elapsed since SNS Bank has ceased to have the Collection Foundation Trigger Required Rating or (b) if, on or before the 30th calendar day after SNS Banks ceases to have the Collection Foundation Trigger Required Ratings, SNS Bank has submitted a written proposal for a remedy to S&P (only to the extent S&P assigns a rating to any of the notes issued by any of the SPVs), 60 calendar days have elapsed since SNS Bank has ceased to have the Collection Foundation Trigger Required Ratings, (i) have one of the Collection Foundation Trigger Commingling Remedial Actions in place or (ii) will procure that either:

GIC ACCOUNTS AND SWAP REPLACEMENT LEDGER

GIC Account

Pursuant to the terms of the GIC entered into on the Programme Date between the CBC, Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A. as GIC Provider and the Security Trustee, the CBC will maintain, with the GIC Provider, the GIC Account:

- into which are paid all amounts received by the CBC in respect of Transferred Assets; and
- moneys standing to the credit of which will on each CBC Payment Date be applied by the Administrator in accordance with the relevant Priority of Payments as described above in more detail.

If the short term, unsecured, unsubordinated and unguaranteed debt obligations of the GIC Provider cease to be rated at least P-1 by Moody's and F1 (short-term) and A (long-term) by Fitch (the "**GIC Provider Required Ratings**") then within 30 calendar days of such occurrence either:

- the GIC Account will be closed and new accounts opened under the terms of a new GIC substantially on the same terms as the GIC opened with a financial institution whose short term, unsecured, unsubordinated and unguaranteed debt obligations are rated at least the GIC Provider Required Ratings; or
- the GIC Provider will obtain a guarantee of its obligations under the GIC on terms acceptable to the Security Trustee, acting reasonably, from a financial institution whose short term, unsecured, unsubordinated and unguaranteed debt obligations are rated at least the GIC Provider Required Ratings,

unless, (i) in case the GIC Provider is downgraded by Moody's, a Rating Agency Confirmation in respect of Moody's is available that the then current rating of the Covered Bonds will not be adversely affected as a result of the rating of the GIC Provider falling below the GIC Provider Required Ratings (or the reason for this having occurred) within 15 calendar days of such downgrade, and/or, as applicable, (ii) in case the GIC Provider is downgraded by Fitch, a Rating Agency Confirmation in respect of Fitch is available that the then current rating of the Covered Bonds will not be adversely affected as a result of the rating of the GIC Provider falling below the GIC Provider Required Ratings (or the reason for this having occurred) within 15 calendar days of such downgrade, in case of (i) and/or (ii) the GIC Accounts will continue to be held by the current GIC Account Provider. If any of the confirmation is given as set out above, reference to the "**GIC Provider Required Ratings**" shall instead be deemed to be the relevant rating of the GIC Provider at the time of such confirmations, but the original rating shall be reinstated if the relevant rating of the GIC Provider is subsequently upgraded to the original level.

Pursuant to the GIC, the GIC Provider has agreed to pay interest on the GIC Funds at the rate determined in accordance with the GIC.

The CBC and the GIC Provider may from time to time agree to create additional accounts for the purpose of making deposits with a different interest rate in the name of the CBC with the GIC Provider (provided that the Security Trustee has consented in writing). Any such additional accounts will be kept separate from the GIC Account to which it is connected. The CBC may only transfer amounts from such additional accounts to the relevant GIC Account to which it is connected and any amount to be transferred to such additional accounts may only be transferred from the relevant GIC Account.

In the event the CBC is obliged to open any other accounts than the GIC Account, the GIC Provider will, on the instructions of the CBC, open such new accounts under the terms of this GIC in the name of the CBC.

Swap Replacement Ledger

The CBC shall maintain a ledger to the GIC Account to which shall be credited (a) those amounts received from any replacement Swap Counterparty in consideration of the entry into between the CBC and such replacement Swap Counterparty of a swap transaction to replace any Total Return Swap, Interest Rate Swap or Structured Swap and (b) those amounts received from any Swap Counterparty in respect of the Total Return Swap, any Standby Total Return Swap, any Interest Rate Swap or any Structured Swap which has terminated for any reason (either such amounts "**Swap Replacement Amounts**"). Pursuant to the Administration Agreement, the CBC has agreed that it shall only debit to the Swap Replacement Ledger the following amounts:

- (i) those amounts payable to the replacement Swap Counterparty by the CBC in consideration of the entry into between the CBC and such replacement Swap Counterparty of a swap transaction to replace any Total Return Swap, Standby Total Return Swap, Interest Rate Swap or Structured Swap, to the extent that Swap Replacement Amounts have been received by the CBC in respect to such swap transaction as is being so replaced; and
- (ii) those amounts payable by the CBC to a Swap Counterparty in respect of the termination of the Total Return Swap, any Standby Total Return Swap, any Interest Rate Swap or any Structured Swap, to the extent that Swap Replacement Amounts have been received by the CBC in respect to such swap transaction as is being so terminated,

provided that in the event that the Total Return Swap, any Standby Total Return Swap, any Interest Rate Swap or any Structured Swap has been replaced and the Swap Replacement Amounts received by the CBC with respect to such transaction as is being so replaced exceed the amounts debited to the Swap Replacement Ledger under paragraphs (i) or (ii) above in respect of the replacement of such transaction, then such excess proceeds shall be debited from the Swap Replacement Ledger and shall form part of the Interest Available Amount on the immediately succeeding CBC Payment Date and shall be distributed on such CBC Payment Date accordingly (such amounts "**Excess Swap Replacement Amounts**").

Foreign Currency Accounts

If an Assignment Notification Event occurs or a Notice to Pay or CBC Acceleration Notice is served, and the Issuer has any Covered Bonds denominated in a currency other than euro outstanding or issues such Covered Bonds at any time thereafter, the Administrator shall, on behalf of the CBC, establish and maintain an account in that currency and, unless otherwise specified in the Relevant Documents, all amounts received by the CBC in that currency shall be promptly deposited into such account.
