Closing Date	The Issuer will issue the Notes in the classes set out above on 1 June 2016 (or such later date as may be agreed between the Issuer, the Seller, the Arranger, the Lead Manager and the Notes Purchaser).
Underlying Assets	The Issuer will make payments on the Notes from, among other things, payments of principal and interest received from a portfolio solely comprising mortgage loans originated by the Seller and secured over residential properties located in The Netherlands, legal title to which will be assigned to the Issuer on the Closing Date. See section 6.2 (<i>Description of Mortgage Loans</i>).

Ratings	<p>It is a condition precedent to issuance that, on issue, the Class A Notes be assigned a credit rating of 'AAAsf' by Fitch and a credit rating of 'Aaa(sf)' by Moody's. The ratings assigned by Fitch and Moody's address the likelihood of (a) timely payment of interest due on the Class A Notes on each Notes Payment Date and (b) full payment of principal by a date that is no later than the Final Maturity Date. The Class B Notes and the Class C Notes will not be rated.</p> <p>The assignment of ratings to the Class A Notes is not a recommendation to invest in the Notes. Any credit rating assigned to the Notes may be reviewed, revised, suspended or withdrawn at any time. Any such review, revision, suspension or withdrawal could adversely affect the market value of the Notes.</p>
Listing	<p>Application has been made to list the Class A Notes on Euronext Amsterdam, a regulated market of Euronext Amsterdam N.V. The other Classes of Notes will not be listed. This Prospectus has been approved by The Netherlands Authority for the Financial Markets (<i>Stichting Autoriteit Financiële Markten</i>) and constitutes a prospectus for the purposes of the Prospectus Directive.</p>
Eurosystem Eligibility	<p>The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with Euroclear Netherlands as one of the Central Securities Depositories (the "CSDs") that fulfils the minimum standard established by the European Central Bank, as common safekeeper and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon, among other things, satisfaction of the Eurosystem eligibility criteria. The Class B Notes and the Class C Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem.</p>
Limited recourse obligations	<p>The Notes will be limited recourse obligations of the Issuer only and will not be obligations or responsibilities of, or guaranteed by, any of the other parties to the Transaction Documents. The Issuer will have limited sources of funds available. See section 2 (<i>Risk Factors</i>).</p>

As at the Closing Date, such material net economic interest will be held by the Seller in accordance with Article 405 of the CRR and Article 51 of the AIFMR and will comprise an interest in the first loss tranche within the meaning of Article 405(1)(d) of the CRR and, if necessary, other tranches having the same or a more severe risk profile than those sold to investors as required by the text of each of Article 405 of the CRR and Article 51 of the AIFMR.</p> <p>In addition to the information set out herein and forming part of this Prospectus, the Seller has undertaken to grant readily available access, subject to an appropriate confidentiality agreement having been executed and subject to any applicable data protection rules, to all materially relevant information to investors with a view to such investor complying with Article 405 up to and including Article 409 of the CRR and Article 51 and 52 of the AIFMR, which information can be obtained from the Seller upon request.</p> <p>The Issuer Administrator on behalf of the Issuer will prepare investor reports wherein relevant information with regard to the Mortgage Loans and Mortgage Receivables will be disclosed publicly together with information on the retention of the material net economic interest by the Seller. The investor reports can be obtained at the website of the DSA: www.dutchsecuritisation.nl.</p> <p>Each prospective investor is required to independently assess and determine the sufficiency of the information described above for the purposes of complying, in each case to the extent applicable to such investor, with Article 405 up to and including Article 409 of the CRR and Article 51 and 52 of the AIFMR and none of the Issuer, the Seller, the Servicer, the Issuer Administrator nor the Arranger and the Lead Manager make any representation that the information described above is sufficient in all circumstances for such purposes.</p> <p>See section 4.4 (<i>Regulatory and Industry Compliance</i>) for more detail. For further information on the requirements referred to above and the corresponding risks (including the risks arising</p>

	from the current absence of any corresponding final technical standards to assist with the interpretation of the requirements), see the risk factor entitled " <i>Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes</i> ".

Prospective Noteholders are advised to read carefully, and to rely solely on, the detailed information appearing elsewhere in this Prospectus as a whole, including any supplement hereto and the documents incorporated by reference herein, and the Conditions and Transaction Documents referred to therein in making any decision whether or not to invest in any Notes. 1.2 RISK FACTORS

There are certain risk factors which prospective noteholders should take into account and which could affect the ability of the Issuer to fulfil its obligations under the Notes. These risk factors relate to, among other things, the Notes. One of these risk factors relates to the fact that the obligations of the Issuer under the Notes are limited recourse obligations, whereby the Issuer has limited resources to meet such obligations (in particular receipt by it of funds under the Mortgage Receivables). Despite certain structural mitigants in respect of these risks, there remains, among other things, credit risk, liquidity risk, prepayment risk, maturity risk and interest-rate risk relating to the Notes. Moreover, there are structural and legal risks relating to the Mortgage Receivables and Mortgaged Assets (see section 2 (*Risk Factors*)).

To the extent that the Available Principal Funds or the Available Revenue Funds are insufficient to redeem the Class A Notes in full or pay interest when due in accordance with the Conditions for a period of 7 (in the case of principal) or 14 (in the case of interest) calendar days or more, this will constitute an Event of Default in accordance with Condition 12.1 (*Event of Default*). Any Class of Notes ranking subordinated to the Class of Notes in respect of which the proceeds of enforcement are insufficient to be redeemed in full, will not be redeemed at all.

The Notes are limited recourse obligations of the Issuer. See Condition 9 (*Limited Recourse*).

The Notes will be (indirectly) secured, through the Security Trustee, by a first ranking right of pledge granted by the Issuer to the Security Trustee over (i) the Mortgage Receivables (including any Related Security), (ii) the Issuer's rights under or in connection with the Transaction Documents and (iii) the Issuer's rights in respect of the Issuer Transaction Accounts.

The Noteholders and the other Secured Creditors may, in principle, not institute, among other things, any proceeding or action or insolvency proceedings against the Issuer. See Condition 14 (*No action by Noteholders, Couponholders or any other Secured Creditor*).

In the Trust Deed, the Issuer will, by way of parallel debt, undertake to pay to the Security Trustee an amount equal to the aggregate amount, from time to time due by it to Noteholders and the other Secured Creditors, in order to create a claim of the Security Trustee thereunder which can be validly secured by the rights of pledge created by the Pledge Agreements.

Method of payment	For so long as the Notes are represented by a Global Note, payments of principal and interest will be made in euro through Euroclear Netherlands, for the credit of the respective accounts of the Noteholders. See section 4.2 (<i>Form</i>).
Taxation	<p>If any deduction or withholding on account of Tax is required to be made by the Issuer in respect of any payment in respect of the Notes, Coupons or Talons, neither the Issuer, the Security Trustee nor the Paying Agent will be required to make any additional payments to the holders of such Notes, Coupons or Talons in respect of such deduction or withholding on account of Tax.</p> <p>Notwithstanding any other provision in the Conditions, all payments in respect of the Notes by or on behalf of the Issuer shall be subject in all cases to any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any regulations thereunder or official interpretations thereof) or an intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any law implementing such an intergovernmental agreement). Any such amounts withheld or deducted will be treated as paid for all purposes under the Notes, and no additional amounts will be paid on the Notes with respect to any such withholding or deduction.</p>
Selling restrictions	There are selling restrictions in relation to the United States, the United Kingdom and the European Economic Area and such other restrictions as may apply in connection with the offering and sale of the Notes. See section 4.3 (<i>Subscription and Sale</i>).
Use of proceeds of the Notes	<p>The Issuer will use the net proceeds from the issue of the Class A Notes and the Class B Notes to pay to the Seller (part of) the Initial Purchase Price for the Mortgage Receivables to be purchased on the Closing Date, pursuant to the Mortgage Receivables Purchase Agreement.</p> <p>The net proceeds from the issue of the Class C Notes will be credited to the Reserve Account on the Closing Date.</p> <p>In addition, an amount of EUR 74,584,600.77 of the Initial Purchase Price will be withheld by the Issuer and deposited in the Construction Deposit Account in order to reflect those parts of the Mortgage Loans comprising Construction Deposits.</p> <p>An amount of EUR 92,805,857.99 will be paid by the Participants to the Issuer as consideration for the Participations granted to the Participants in the Participation Mortgage Receivables forming part of the Initial Portfolio on the Closing Date. The Issuer will apply such amount to pay part of the Initial Purchase Price for the Mortgage Receivables to be purchased on the Closing Date, pursuant to the Mortgage Receivables Purchase Agreement.</p>
Rating	It is a condition precedent to issuance that, upon issue, the Class A Notes be assigned an 'AAAsf' rating by Fitch and an 'Aaa(sf)' rating by Moody's. The Class B Notes and the Class C Notes will not, upon issue, be assigned a rating by Fitch and Moody's.

The identifier "sf" stands for "structured finance". The addition of the identifier "sf" (by Fitch) or "(sf)" (by Moody's) indicates only that the instrument is deemed to meet the regulatory definition of "structured finance" as referred to in the CRA Regulation. In no way does it modify the meaning of the rating itself.

Retention and disclosure requirements under the CRR and AIFMR

The Seller shall at all times comply with Article 405 of the CRR and Article 51 of the AIFMR. See section 4.4 (*Regulatory and Industry Compliance*).

Governing law

The Notes and the Transaction Documents, other than the Swap Agreement, and any non-contractual obligations arising out of or in relation to the Notes and the Transaction Documents other than the Swap Agreement, will be governed by and construed in accordance with Dutch law. The Swap Agreement and any non-contractual obligations arising out of or in relation to the Swap Agreement will be governed by and construed in accordance with the laws of England and Wales.

1.5 CREDIT STRUCTURE

Available Funds	<p>The Issuer will use receipts of principal and interest in respect of the Mortgage Receivables together with amounts it receives under the Swap Agreement and in respect of the Issuer Transaction Accounts, to make payments of, among other things, principal and interest due in respect of the Notes.</p>
Priorities of Payments	<p>The obligations of the Issuer in respect of the Notes will rank subordinated to the obligations of the Issuer in respect of certain items set forth in the applicable Priority of Payments (see section 5 (<i>Credit Structure</i>)). Any payment of principal from Available Principal Funds under the Redemption Priority of Payments or funds available for distribution in accordance with the Post-Enforcement Priority of Payments or payment of principal from Available Revenue Funds under the Revenue Priority of Payments in respect of each Class of Notes (other than the Class A Notes) is subordinated to payment of principal from Available Principal Funds under the Redemption Priority of Payments or interest in respect of the Class A Notes and funds available for distribution in accordance with the Post-Enforcement Priority of Payments. As more fully described herein under section 4.1 (<i>Terms and Conditions of the Notes</i>) and section 5 (<i>Credit Structure</i>).</p>
Loss Allocation	<p>To mitigate the risk that funds might otherwise be applied, the Issuer (or Issuer Administrator on its behalf) is required to maintain a Principal Deficiency Ledger in which Realised Losses are administered. To the extent any amount is debited to the Principal Deficiency Ledger, (i) such debit entries in the relevant sub-ledger of the Principal Deficiency Ledger are required to be made up before lower ranking obligations in the Revenue Priority of Payments are paid or provided for and (ii) this will give rise to a Notional Principal Amount Outstanding of the Notes (as opposed to a Principal Amount Outstanding), which may result in a reduced payment by the Issuer on redemption of a class of Notes.</p> <p>The Issuer will record as a debit entry in the Principal Deficiency Ledger on any Notes Payment Date an amount equal to any Realised Loss up to the Principal Amount Outstanding of the Notes from time to time (so as to give rise to a negative amount in the relevant sub-ledger). The Issuer will record as a credit entry in the Principal Deficiency Ledger on any Notes Payment Date:</p> <ul style="list-style-type: none">(i) (1) any amount equal to the lesser of (A) the Available Revenue Funds minus payments made in respect of items (a) up to and including (d) in the Revenue Priority of Payments and (B) the Class A Principal Deficiency and (2) any amount equal to the lesser of (A) the Available Revenue Funds minus payments made in respect of items (a) up to and including (f) in the Revenue Priority of Payments and (B) the Class B Principal Deficiency, which amounts are added to the Available Principal Funds on such Notes Payment Date; and(ii) where the balance of the relevant sub-ledger exceeds the Principal Amount Outstanding (including when zero after full redemption) of the relevant class of Notes, an amount equal to the relevant excess.
Administration	<p>Under the Administration Agreement the Issuer Administrator will</p>

Agreement	<p>agree to provide certain administration, calculation and cash management services for the Issuer to arrange for payments due to be made by the Issuer under any of the Transaction Documents.</p> <p>See section 5.7 (<i>Administration Agreement</i>).</p>
Hedging	<p>Interest on the Mortgage Loans is calculated on the basis of a variety of different rates and is set on a number of different interest fixing dates, whilst interest on the Class A Notes is calculated on the basis of the Reference Rate (set on the relevant Notes Calculation Date plus the Relevant Margin). Therefore the Issuer is exposed to a potential mismatch between the interest received on the Mortgage Loans and the interest due on the Class A Notes. In order to reduce the risk of such mismatch, the Issuer will enter into the Swap Transaction on or about the Closing Date with the Swap Counterparty. The Swap Transaction will be documented under a confirmation which forms part of and is subject to the Swap Agreement. The Swap Agreement is governed by and construed in accordance with the laws of England and Wales.</p>
Issuer Collection Account	<p>The Issuer shall maintain with the Issuer Account Bank an Issuer Collection Account into which are paid, among other things, all amounts received by the Issuer in respect of the Mortgage Receivables and the relevant Transaction Documents.</p>
Ledgers	<p>The Issuer (or the Issuer Administrator on its behalf) will maintain and administer the Issuer Collection Account with the following Ledgers: the Income Ledger, the Redemption Ledger, the Swap Replacement Ledger, the Participation Ledger and the Deposit Ledger. The Issuer (or the Issuer Administrator on its behalf) will maintain and administer the Principal Deficiency Ledger.</p>
Reserve Account	<p>The Issuer will maintain with the Issuer Account Bank the Reserve Account, to which the net proceeds of the Class C Notes will be credited on the Closing Date. The purpose of the Reserve Account will be to enable the Issuer to meet the Issuer's payment obligations under items (a) to (e) (inclusive) in the Revenue Priority of Payments in the event that the Available Revenue Funds are not sufficient to meet such payment obligations on a Notes Payment Date. If and to the extent that the Available Revenue Funds on any Notes Payment Date exceed the aggregate amounts payable under items (a) to (e) (inclusive) in the Revenue Priority of Payments, the (relevant part of the) remaining Available Revenue Funds will be used to deposit in or, as the case may be, to replenish the Reserve Account by debiting the Issuer Collection Account and crediting such amount to the Reserve Account up to the Reserve Account Target Level.</p> <p>To the extent that the balance standing to the credit of the Reserve Account on any Notes Payment Date exceeds the Reserve Account Target Level, such excess shall be drawn from the Reserve Account on such Notes Payment Date and shall form part of the Available Revenue Funds on that Notes Payment Date.</p> <p>On the Notes Payment Date on which all amounts of principal due in respect of the Notes, other than the Class C Notes, have been or will be paid, any amount remaining standing to the credit of the Reserve Account will on such date form part of the Available Revenue Funds and will be applied by the Issuer in or towards satisfaction of all items in the Revenue Priority of Payments in accordance with the priority set out therein.</p>

**Other Issuer
Accounts**

In addition to the Issuer Collection Account and the Reserve Account the Issuer shall also maintain with the Issuer Account Bank one or more Swap Collateral Accounts and a Construction Deposit Account.

Under the Issuer Account Agreement, the Issuer Account Bank will open and maintain the Issuer Accounts in the name of the Issuer. The Issuer Account Bank will also provide to the Issuer certain account management and cash handling services in respect of the Issuer Accounts. The Issuer Account Bank shall pay a certain guaranteed rate of interest on all funds standing to the credit of the Issuer Transaction Accounts.

1.6 PORTFOLIO INFORMATION

Mortgage Receivables

The Mortgage Receivables will result from Mortgage Loans secured by a first-ranking mortgage right or first and sequentially lower ranking mortgage rights over the Mortgaged Assets and entered into by the Seller with the relevant Borrowers which meet the criteria set forth in the Mortgage Receivables Purchase Agreement and which will be selected prior to or on the Closing Date.

The Mortgage Loan to which a Mortgage Receivable relates is either an Interest-only Mortgage Loan, an Annuity Mortgage Loan, a Linear Mortgage Loan, an Investment Mortgage Loan, a Life Mortgage Loan, a Savings Mortgage Loan, a Bank Savings Mortgage Loan or a Revolving Credit Mortgage Loan, or any combination of the foregoing.

NHG Guarantee

Some Mortgage Loans have the benefit of an NHG Guarantee. The aggregate Outstanding Principal Amount of the NHG Mortgage Loan Receivables on the Cut-Off Date amounts to EUR 1,506,929,112.24. As a result of the assignment and pledge of the relevant NHG Mortgage Loan Receivables, the Issuer and the Security Trustee, respectively, will have the benefit of the rights of the Seller under each NHG Guarantee in relation to the relevant NHG Mortgage Loan Receivables.

See section 6.2 (*Description of Mortgage Loans*) and 6.5 (*NHG Guarantee Programme*).

Beneficiary Rights

The Seller has the benefit of the Beneficiary Rights, which entitle the Seller to receive the final payout (*einduitkering*) under the relevant Insurance Policies, which payment is to be applied towards redemption of the relevant Mortgage Receivables. Pursuant to the Mortgage Receivables Purchase Agreement, the Seller will assign, to the extent legally possible and required, such Beneficiary Rights to the Issuer and the Issuer will accept such assignment.

1.7 PORTFOLIO DOCUMENTATION

Purchase by Issuer Pursuant to the Mortgage Receivables Purchase Agreement, the Issuer will purchase the Initial Portfolio on the Closing Date and may from time to time purchase Further Advance Receivables (including any Related Security) if offered to it by the Seller and on the condition that such purchase does not result in a breach of the Additional Purchase Conditions.

The Purchase Price for each Mortgage Receivable (including any Related Security) consists of an Initial Purchase Price and a Deferred Purchase Price. The Issuer will fund the Initial Purchase Price relating to the Initial Portfolio from (a) the net proceeds of the Notes (other than the Class C Notes) and/or (b) Initial Settlement Amounts to be received from the Participants. The Initial Purchase Price for any Further Advance Receivable will be funded from the Available Principal Funds.

If (a) following the grant of a Further Advance on or prior to the Notes Payment Date immediately preceding the First Optional Redemption Date, the purchase of the related Further Advance Receivable does not meet the Additional Purchase Conditions, or (b) the Further Advance is granted following the Notes Payment Date immediately preceding the First Optional Redemption Date, the Seller shall repurchase and accept the re-assignment of all Mortgage Receivables resulting from the Mortgage Loan in respect of which a Further Advance is granted.

**Repurchase of
Mortgage
Receivables**

Under the Mortgage Receivables Purchase Agreement the Seller has undertaken to repurchase and accept re-assignment of a Mortgage Receivable on the relevant Mortgage Collection Payment Date if at any time in relation to a Mortgage Receivable any of the following events occur:

- (i) a material breach of the Mortgage Receivables Warranties as of the relevant Transfer Date and (A) the Seller does not within 14 calendar days of receipt of written notice thereof from the Issuer remedy the matter giving rise to such breach if such matter is capable of being remedied or (B) such matter is not capable of being remedied; or
- (ii) the Seller or the Servicer agrees with a Borrower to an amendment or waiver of the terms of a Mortgage Loan which does not result from a deterioration in the creditworthiness of the Borrower, and as a result thereof (i) the maturity date of such Mortgage Loan is extended beyond its initial maturity date or (ii) the related Mortgage Receivable would not qualify as an Eligible Mortgage Receivable, if tested against the Eligibility Criteria at such time; or
- (iii) an NHG Mortgage Loan Receivable no longer has the benefit of an NHG Guarantee as a result of any action taken or omitted to be taken by the Seller and, as a consequence thereof, such Mortgage Receivable no longer qualifies as an Eligible Mortgage Receivable, as tested against the Eligibility Criteria at such time; or

- (iv) if (a) following the grant of a Further Advance on or prior to the Notes Payment Date immediately preceding the First Optional Redemption Date, the purchase of the related Further Advance Receivable does not meet the Additional Purchase Conditions, or (b) the Further Advance is granted following the Notes Payment Date immediately preceding the First Optional Redemption Date.

The repurchase price will be calculated as described in section 7.1 (*Purchase, Repurchase and Sale*) below.

**Sale of Mortgage
Receivables on an
Optional
Redemption Date**

The Issuer will have the right to sell and assign all but not some of the Mortgage Receivables on each Optional Redemption Date to the Seller or a third party, provided in any case that the Issuer shall apply the proceeds of such sale to redeem the Notes other than the Class C Notes (see Condition 8.7 (*Optional Redemption – Prepayment Call*)).

The Issuer may only sell and assign all but not some of the Mortgage Receivables, provided that the Issuer has provided to the Security Trustee a certificate signed by the Director to the effect that it expects to have the funds on the relevant Notes Payment Date required to redeem the Notes other than the Class C Notes pursuant to Condition 8.7 (*Optional Redemption – Prepayment Call*) and meet its payment obligations under each of the items (a) to (c) (inclusive) of the Revenue Priority of Payments.

The purchase price of the Mortgage Receivables is an amount equal to the higher of:

- (i)
 - (a) in respect of a Mortgage Receivable that has Arrears of Interest for a period exceeding 60 calendar days or with respect to which an instruction has been given to the civil law notary to sell the related Mortgaged Asset publicly, the lesser of: (x) the sum of the Gross Outstanding Principal Balance, Accrued Interest, Arrears of Interest and any other amount due in respect of the relevant Mortgage Receivable and any costs incurred by the Issuer in effecting and completing such sale and reassignment; and (y) the sum of (i) an amount equal to the most recently calculated Indexed Foreclosure Value of the related Mortgaged Asset, (ii) the value of any other collateral, including the amount claimable under any NHG Guarantee and (iii) any costs incurred by the Issuer in effecting and completing such sale and reassignment, all as at the final day of the calendar month preceding the calendar month in which the relevant reassignment date falls; or

- (b) in respect of any other Mortgage Receivable, (i) the Gross Outstanding Principal Balance together with any Accrued Interest and Arrears of Interest and any other amount due in respect of the relevant Mortgage Receivable and (ii) any costs incurred by the Issuer in effecting and completing such sale and reassignment; and
- (ii) the amount that is required to (A) redeem all relevant Notes at their Principal Amount Outstanding as at the day immediately prior to the relevant Optional Redemption Date and (B) meet the Issuer's payment obligations under each of the items (a) to (c) (inclusive) of the Revenue Priority of Payments.

Sale of Mortgage Receivables if the Clean-Up Call Option is exercised

If on any Mortgage Calculation Date, the aggregate Gross Outstanding Principal Balance of the Mortgage Receivables is not more than 10 per cent. of the aggregate Gross Outstanding Principal Balance of the Mortgage Receivables comprising the Initial Portfolio on the Cut-Off Date relating to the Transfer Date of the Initial Portfolio, the Seller has the option to exercise on the first following Notes Payment Date the Clean-Up Call Option.

In such case, the purchase price of the Mortgage Receivables will be calculated in the same manner as described in *Sale of Mortgage Receivables on an Optional Redemption Date* above. The Issuer must redeem all (but not some only) of the Notes (other than the Class C Notes) on the first Notes Payment Date following the Notes Payment Date on which the Seller exercises the Clean-Up Call Option. The proceeds of such sale shall be applied by the Issuer towards redemption of the Notes (other than the Class C Notes) in accordance with Condition 8.6 (*Redemption – Clean-Up Call Option*) and to meet its payment obligations under each of the items (a) to (c) (inclusive) of the Revenue Priority of Payments.

Sale of Mortgage Receivables for tax reasons

If the Issuer exercises its option to redeem the Notes on a Notes Payment Date for tax reasons in accordance with Condition 8.8 (*Optional Redemption – Tax Call*), the purchase price of such Mortgage Receivables will be calculated in the same manner as described in *Sale of Mortgage Receivables on an Optional Redemption Date* above. The proceeds of such sale shall be applied by the Issuer towards redemption of the Notes in accordance with Condition 8.8 (*Optional Redemption – Tax Call*) and to meet its payment obligations of a higher priority under each of the items (a) to (c) (inclusive) of the Revenue Priority of Payments.

Right of first refusal to Seller

If the Issuer decides to offer for sale (part of) the Mortgage Receivables in accordance with Condition 8.8 (*Optional Redemption - Tax Call*) it will first offer such Mortgage Receivables to the Seller. The Seller shall within a period of 15 Business Days from the offer inform the Issuer whether it wishes to repurchase the Mortgage Receivables. After such period, the Issuer may offer such Mortgage Receivables for sale to any third party.

Servicing Agreement

Under the Servicing Agreement the Servicer will agree to (a) administer the Mortgage Receivables in accordance with the Seller's servicing and administration manuals and (b) use all reasonable endeavours to collect all payments due under or in connection with the Mortgage Receivables and to enforce all covenants and obligations of each Borrower in accordance with the standard enforcement and collection procedures of the Servicer from time to time and take such action as is not materially prejudicial to the interests of the Issuer and in accordance with such actions as a person acting in accordance with the standards of a Reasonable Prudent Lender would undertake.

See section 6.3 (*Origination and Servicing*) and section 7.5 (*Servicing Agreement*).

Participation Agreements

Under each Participation Agreement, the Issuer grants the relevant Participant a Participation in each relevant Savings Mortgage Receivable or Bank Savings Mortgage Receivable, as the case may be, in return for the payment by the relevant Participant of the relevant Initial Settlement Amount and Further Settlement Amounts.

In return, the relevant Participant will be entitled to receive from the Issuer the relevant Participation Redemption Available Amount.

1.8 GENERAL

Management Agreements

Each of the Issuer, the Shareholder and the Security Trustee has entered into a Management Agreement with the relevant Director, under which the relevant Director will undertake to act as director of the Issuer, the Shareholder or, as the case may be, the Security Trustee and to perform certain services in connection therewith.

2. RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risk associated with the Notes are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons not known to the Issuer or not deemed to be material and the Issuer does not represent that the statements below regarding the risks of investing in any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

2.1 THE NOTES

Introduction

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes (i) is fully consistent with its (or if it is acquiring the Notes in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with any investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or, if it is acquiring the Notes in a fiduciary capacity, for the beneficiary). In particular, investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should therefore consult its legal advisers to determine whether and to what extent (i) the Notes are legal investments for it, (ii) the Notes can be used as underlying securities for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices, securities, assets and/or financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments. A potential investor should not invest in the Notes unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Subordination

The Classes of Notes, other than the Class A Notes, are subordinated, meaning that holders of any Class of Notes with a lower payment priority bear a greater risk than any Class of Notes with a higher payment priority than such Class of Notes. To the extent set forth in Condition 4 (*Ranking*), payments on any Class of Notes are subordinated to payments of higher ranking Classes of Notes as more fully described herein under sections 4.1 (*Terms and Conditions of the Notes*) and 5 (*Credit Structure*). There is no assurance that these subordination arrangements will protect the holders of the higher ranking Classes of Notes from any or all risks of loss.

The obligations of the Issuer in respect of the Class A Notes will rank in seniority and security *pari passu* among themselves and as to payment of interest and principal, behind the obligations of the Issuer in respect of certain items set out in the Revenue Priority of Payments and the Post-Enforcement Priority of Payments. The Class A Notes will at all times without preference or priority rank *pari passu* among themselves. To the extent that the Available Principal Funds or the Available Revenue Funds are insufficient to redeem each Class of Notes in full or to pay interest when due in accordance with the Conditions for a period of 7 (in the case of principal) or 14 (in the case of interest) calendar days or more, this will constitute an Event of Default in accordance with Condition 12 (*Events of Default*). If, on any date, the Security is to be enforced and the proceeds of the enforcement of all such Security would be insufficient to redeem the Class A Notes in full, such loss will be borne, *pro rata* and *pari passu*, by the holders of the Class A Notes. Any Class of Notes ranking subordinated to the Class of Notes in respect of which the proceeds of the enforcement are insufficient to be redeemed in full, will not be redeemed at all.

The Issuer has limited sources of funds to meet its obligations and its obligations are limited recourse obligations

The Issuer's ability to meet its obligations under the Notes will depend on the realisable value of the Mortgage Receivables (net of, without limitation, amounts due to the Participants in the case of Participation Mortgage Receivables) and the amount of principal and interest (or other revenue) proceeds generated by the Mortgage Receivables (net of, without limitation, amounts due to the Participants in the case of Participation Mortgage Receivables) and timely receipt thereof. In addition the Issuer's ability to meet its obligation under the Notes will depend on amounts received from the Swap Counterparty, the Participants and the Issuer Account Bank, amounts standing to the credit of the Reserve Account, amounts received from the Seller pursuant to a repurchase and re-assignment of Mortgage Receivables under the Mortgage Receivables Purchase Agreement and the receipt by the Issuer of interest in respect of the balances standing to the credit of the relevant Issuer Accounts and, in each case, timely receipt thereof.

The Issuer will not have any other funds available to it to meet its obligations under the Notes or any other payments ranking in priority to, or *pari passu* with, the Notes. All obligations of the Issuer to the Noteholders are limited in recourse as set out in the Conditions, which include a limitation to the effect that Noteholders will have a claim (*verhaalsrecht*) in respect of the Issuer's assets (including the Mortgage Receivables, the Issuer Account Rights and the Issuer Rights) subject to the Security only. There is no assurance that there will be sufficient funds to enable the Issuer to pay interest or repay principal in whole or in part in respect of any Class of Notes on the due date therefor. If an Enforcement Notice has been delivered and the Security is enforced, the Issuer's assets subject to the Security may not be sufficient to meet the claims of all the Secured Creditors, including the Noteholders. In such case, the Noteholders will have no further claims against the Issuer or the Security Trustee in respect of outstanding amounts under the Notes. In addition, the Noteholders and the other Secured Creditors are subjected to non-petition provisions.

There is a risk that the Issuer applies funds to make payments even though it may be expected that there will be insufficient funds to redeem the Notes in full. To mitigate this risk in respect of funds that might otherwise be applied, for example, to pay principal on the Class B Notes, the Issuer (or Issuer Administrator on its behalf) is required to maintain a Principal Deficiency Ledger in which Realised Losses are administered. To the extent any amount is debited to the relevant sub-ledger of the Principal Deficiency Ledger, (i) such debit entries in the relevant sub-ledger of the Principal Deficiency Ledger are required to be made up before lower ranking obligations in the Revenue Priority of Payments are paid or provided for and (ii) this will give rise to a Notional Principal Amount Outstanding of the Notes (as opposed to a Principal Amount Outstanding), which may result in a reduced payment by the Issuer

on redemption of a Class of Notes. Any debit entries in a sub-ledger of the Principal Deficiency Ledger will be made to the sub-ledger of the Principal Deficiency Ledger in reverse alphabetical order in an amount up to the Principal Amount Outstanding of the relevant Class of Notes.

Counterparty risk exposure

The ability of the Issuer to make payments under the Notes is subject to general credit risks, including credit risk on Borrowers. Third parties that owe the Issuer money, securities or other assets may not pay or perform under their obligations owed to the Issuer. These parties include borrowers under loans, trading counterparties, counterparties under swaps and other derivative contracts, agents and (other) financial intermediaries, including the Seller, the Swap Counterparty, the Issuer Account Bank and the Participants. These parties may default on their obligations to the Issuer due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons. If any of the counterparties of the Issuer does not perform its obligations owed to the Issuer this may result in the Issuer not being able to meet its obligations under the Notes. In addition, the Issuer and the Paying Agent will not have any responsibility for the proper performance by Euroclear Netherlands or its participants of their obligations under their respective rules, operating procedures and calculation methods.

Reliance of the Issuer on third parties

The Issuer has entered into agreements with a number of third parties, which have agreed to perform services for the Issuer. In particular, but without limitation, the Servicer has been appointed to, among other things, service the Mortgage Receivables and the Issuer Administrator has been appointed to provide administration services. In the event that any of those parties fails to perform its obligations under the relevant agreement to which it is a party, the value of the Mortgage Receivables or any part thereof may be affected, or, if the Security were to be enforced (and, for example, the Mortgage Receivables or any part thereof cannot be sold), the ability of the Issuer to make payments may be affected. For instance, if the Servicer has failed to adequately administer the Mortgage Receivables, this may lead to higher incidences of non-payment or default by Borrowers, which would affect the value of the Mortgaged Asset to which the Security Trustee (acting as creditor of the Parallel Debt for the benefit of the Secured Creditors, including the Noteholders) has recourse. The Issuer is also reliant on the Swap Counterparty to provide it with the funds matching its payment obligations in respect of interest due and payable under the Class A Notes.

New legislation dealing with ailing financial institutions give regulators resolution powers which may result in losses to, or otherwise affect rights of, Noteholders and/or may affect the credit ratings assigned to the Notes

Dutch Special Measures Financial Institutions Act

On 13 June 2012, the Dutch Special Measures Financial Institutions Act (*Wet bijzondere maatregelen financiële ondernemingen*) came into force, amending the Wft with retroactive application as from 20 January 2012 and giving DNB and the Dutch Minister of Finance additional powers to deal with ailing banks.

RRD and SRM

On 12 June 2014, a directive providing for the establishment of a European-wide framework for the recovery and resolution of credit institutions and investment firms (2014/59/EU, "**RRD**") was published in the Official Journal of the European Union. The RRD is currently in force and EU Member States were required to adopt and publish the laws, regulations and administrative provisions necessary to comply with the RRD by 31 December 2014. The majority of the measures set out in the RRD should have been implemented in national law with effect from 1 January 2015, with the bail-in power for other eligible liabilities to apply from 1 January 2016, at the latest. The RRD and the SRM (as defined below) have been implemented in The Netherlands by way of an amendment to the Wft as per 26 November 2015.

The RRD is complemented by the directly binding regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution

Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 ("**SRM**"). The SRM will complement the Single Supervisory Mechanism ("**SSM**") and will ensure that, if a bank subject to the SSM faces serious difficulties, its resolution can be managed efficiently with minimal costs to taxpayers and the real economy. The primary scope of the SRM is the euro area and SRM will be applied to, amongst others, ING Bank N.V. as a primary recovery and resolution code. The SRM establishes a single European resolution board (the "**Resolution Board**") having resolution powers over the institutions that are subject to the SRM, thus replacing or exceeding the powers of the national authorities. The Resolution Board will have the authority to exercise the specific resolution powers pursuant to the SRM similar to those of the national authorities under the RRD. The resolution tools available for the Resolution Board include the sale of business tool, the bridge institution tool, the asset separation tool and the bail-in tool as further specified in the SRM. The use of one or more of these tools will be included in a resolution plan to be adopted by the Resolution Board. The Resolution Board may apply interpretations of RRD or recovery and resolution strategies that differ from those applied by the relevant national resolution authority. Any change in the interpretation or strategy may affect the resolution plans for ING Bank N.V., as prepared by the relevant national resolution authority.

Resolution measures

Pursuant to the Dutch Special Measures Financial Institutions Act (*Wet bijzondere maatregelen financiële ondernemingen*), the RRD and the SRM, substantial powers are granted to the Dutch Central Bank (*De Nederlandsche Bank N.V.*, "**DNB**"), the Resolution Board and the Dutch Minister of Finance, enabling them to take certain measures in respect of struggling Dutch banks prior to insolvency. These powers will allow the relevant authorities to take measures in respect of such a financial institution which may result in: (a) the transfer of all or part of the business of the bank or insurance company to a private sector purchaser, (b) the transfer of all or part of the business of the bank or insurance company to a "bridge entity" and (iii) the transfer of shares in the bank or insurance company to a private sector purchaser or a "bridge entity". In addition, if circumstances arise which are not yet provided for under the RRD or SRM or for which the RRD or SRM do not provide sufficient instrument, the Dutch Minister of Finance may take the following measures pursuant to the Dutch Special Measures Financial Institutions Act (i) immediate interventions by the Minister of Finance with regard to the financial institution and (ii) public ownership (nationalisation) of all or part of the business of the financial institution or of all or part of the shares or other securities issued by that financial institution.

Subject to certain exceptions, as soon as any of these proposed proceedings have been initiated by DNB, the Resolution Board or, as applicable, the Dutch Minister of Finance, a counterparty of the relevant bank or insurance company is prohibited from invoking or enforcing certain contractual rights (for example, contractual rights to terminate a contract or to demand payment, performance or security) pursuant to (contemplated or actual) action undertaken by DNB, the Resolution Board or the Dutch Minister of Finance under the Wft or the SRM. However, subject to applicable insolvency laws, the Issuer's right to invoke or enforce provisions of the relevant Transaction Documents against such contracting parties would in principle not be affected by the Wft or the SRM if the exercise of those Issuer's rights is based on grounds other than the intervention by DNB, the Resolution Board or the Minister of Finance under the Wft or SRM (for example, on the basis of a payment default or a ratings downgrade not related to or resulting from intervention pursuant to the Wft or the SRM).

If at any time any resolution powers would be used by DNB, the Resolution Board or, as applicable, the Minister of Finance or any other relevant authority in relation to a counterparty of the Issuer pursuant to the Wft, the RRD, the SRM or otherwise, this could result in losses to, or otherwise affect the rights of, Noteholders and/or could affect the ratings assigned to the Notes.

The Notes are obligations solely of the Issuer

The Notes will be solely the obligations of the Issuer. The Notes will not represent an obligation or be the responsibility of the Seller, the Arranger, the Lead Manager, ING in its capacity as purchaser of the Retained Notes and Notes Purchaser, the Servicer, the Issuer Administrator, the Directors, the Swap Counterparty, the Security Trustee, the Issuer Account Bank or any other party to the Transaction Documents, their officers, members, directors, employees, security holders or incorporators, other than the Issuer. The Issuer will be liable solely in its corporate capacity for its obligations in respect of the Notes and such obligations will not be the obligations of its officers, members, directors, employees, security holders or incorporators.

None of the Seller, the Arranger, the Lead Manager, ING in its capacity as purchaser of the Retained Notes and Notes Purchaser, the Servicer, the Issuer Administrator, the Directors, the Swap Counterparty, the Issuer Account Bank or the Security Trustee will be under any obligation whatsoever to provide additional funds to the Issuer (save in the limited circumstances pursuant to the Transaction Documents, such as the payments due under the Swap Agreement by the Swap Counterparty).

Risk that the Issuer will not redeem the Notes on an Optional Redemption Date

There can be no assurance that the Issuer will redeem the Notes on the First Optional Redemption Date or on any subsequent Optional Redemption Date pursuant to Condition 8 (*Final Redemption, Mandatory redemption in part, Optional Redemption, Purchase and Cancellation*) even though the interest margin in respect of the Class A Notes will increase as of the First Optional Redemption Date. The exercise of such right will, among other things, depend on the Issuer having sufficient funds available for example through a sale of Mortgage Receivables. The Issuer shall first offer such Mortgage Receivables for sale to the Seller. The purchase price of the Mortgage Receivables will be calculated as described in section 7.1 (*Purchase, Repurchase and Sale*). However, there is no guarantee that such a sale of Mortgage Receivables at such or any other price will take place. If not, the Issuer may not be able to fully perform its obligations under the Notes thereafter.

Risk of early redemption as a result of the exercise of the Seller's Clean-Up Call Option or the Issuer's option upon the occurrence of a change in tax law

Should the Seller exercise its Clean-Up Call Option on any Notes Payment Date, the Issuer will, on the first Notes Payment Date following the date of such exercise, redeem all (but not some only) of the Notes other than the Class C Notes by applying the proceeds of the sale of the Mortgage Receivables towards redemption of the Notes other than the Class C Notes in accordance with Condition 8.6 (*Redemption – Clean-Up Call Option*) and subject to Condition 4 (*Ranking*) on such Notes Payment Date, whether falling before or after the First Optional Redemption Date. If the date on which the Seller exercises the Clean-Up Call Option falls less than 30 calendar days prior to the immediately following Notes Payment Date, the Issuer shall redeem all (but not some only) the Notes other than the Class C Notes on the second Notes Payment Date following the date on which the Seller exercises the Clean-Up Call Option. The Issuer will have the option to redeem all of the Notes if at any time the Issuer would be required to make any deduction or withholding on account of Tax or upon the occurrence of a change in tax law in accordance with Condition 8.8 (*Optional Redemption – Tax Call*). If the Seller or the Issuer exercises any of such options, the Notes will be redeemed prior to the Final Maturity Date. Upon any such redemption, Noteholders may not be able to find suitable alternative investments that offer the same or a better yield than the Notes.

Risk of early redemption as a result of the possibility for the Issuer to refinance its debt for a lower interest rate than offered on the Notes

In the event that the Issuer has the possibility to refinance its debt for a lower interest rate than offered on the Notes, the Issuer may decide to redeem the Notes other than the Class C Notes on the first possible occasion in accordance with Condition 8.7 (*Optional Redemption – Prepayment Call*). On such an occasion Noteholders may not be able to find suitable comparable alternative investments that offer the same or a better yield than the Notes.

Yield and prepayment risk

The yield to maturity of the Notes will depend on, among other things, the amount and timing of payment of principal and interest on the Mortgage Loans (including full and partial prepayments, foreclosure proceeds and repurchases by the Seller under the Mortgage Receivables Purchase Agreement due to breaches of representations and warranties), the amount from time to time required to be paid by the Issuer pursuant to items (a) and (b) of the Revenue Priority of Payments and the price paid by the Noteholders of each Class. The yield to maturity of the Notes of any Class may be adversely affected by, among other things, a higher or lower than anticipated rate of prepayments on the Mortgage Loans.

The rate of prepayment of Mortgage Loans is influenced by a wide variety of economic, social and other factors, including prevailing interest rates, changes in tax law (including, but not limited to, amendments to mortgage interest tax deductibility), changes in mortgage lender conduct codes and prevailing

underwriting and servicing criteria and changes in and local and regional economic conditions. No certainty can be given as to the level of prepayment that the Mortgage Loans may experience. A variation in the level of prepayments by the Borrowers could result in an average life of the Notes which is shorter or longer than anticipated. In certain scenarios, the Notes may not be paid in full and may be subject to a partial or a complete loss of invested capital.

Return on investment in the Notes will be affected by charges incurred by investors

An investor's total return on an investment in the Notes will be affected by the level of fees charged to the investor, including fees charged to the investor as a result of the Notes being held in a clearing system. Such fees may include charges for opening accounts, transfers of securities, custody services and fees for payment of principal, interest or other sums due under the terms of the Notes. Investors should carefully investigate these fees before making their investment decision.

Certain decisions of Noteholders

The Security Trustee may deliver an Enforcement Notice and institute enforcement proceedings at its discretion (as set out in more detail in Conditions 12 (*Events of Default*) and 13 (*Enforcement*)), and is bound to do so if so requested by the holders of at least 25 per cent. of the Principal Amount Outstanding of the Most Senior Class of Notes or directed by an Extraordinary Resolution of the holders of the Most Senior Class of Notes. Such Extraordinary Resolution will be binding on all Noteholders and, where relevant, Secured Creditors, including (i) Noteholders who did not attend and vote at the relevant meeting, (ii) Noteholders who voted in a manner contrary to the majority and (iii) Noteholders that are not holders of the Most Senior Class of Notes. Notwithstanding the occurrence of an Event of Default which is continuing and if so requested in writing by the holders of at least 25 per cent. of the Principal Amount Outstanding of the Most Senior Class of Notes or directed by an Extraordinary Resolution of the holders of the Most Senior Class of Notes, the Security Trustee shall not be obliged to deliver an Enforcement Notice unless (i) in case of the occurrence of any of the events or circumstances mentioned in Condition 12.1.2 (*Breach of other obligations*), the Security Trustee has certified in writing that the occurrence of such event or circumstance is in its opinion materially prejudicial to the interests of the Noteholders and (ii) it shall have been indemnified and/or secured to its satisfaction against all Liabilities to which it may thereby become liable or which it may incur by so doing.

In respect of any Reserved Matter, the Security Trustee may only concur with the Issuer and any other relevant party in making any modification or amendments which constitutes a Reserved Matter following an Extraordinary Resolution of the Noteholders of all Classes of Notes.

Modifications without Noteholders' or other Secured Creditors' consent

The Security Trustee may at any time and from time to time, without the consent or sanction of the Noteholders or any other Secured Creditor (other than the Swap Counterparty in respect of certain modifications, amendments, consents and waivers), concur with the Issuer and any other relevant parties in making:

- (i) any modification to the Conditions, the Transaction Documents (other than in respect of a Reserved Matter or any provisions of the Transaction Documents referred to in the definition of a Reserved Matter), the Notes or the other relevant Transaction Documents in relation to which its consent is required which, in the opinion of the Security Trustee, it may be proper to make and will not be materially prejudicial to the holders of the Most Senior Class of Notes and provided a Credit Rating Agency Confirmation is obtained; or
- (ii) any modification to the Conditions or the Transaction Documents in relation to which its consent is required, if, in the opinion of the Security Trustee, such modification is of a formal, minor or technical nature, is made to correct a manifest error or is necessary or desirable for the purposes of clarification.

In addition, the Security Trustee may, without the consent of the Noteholders or any other Secured Creditor (other than the Swap Counterparty in respect of certain modifications, amendments, consents and waivers) concur with the Issuer or any other relevant parties in authorising or waiving any proposed breach or breach of the covenants or provisions contained in the Transaction Documents or the Notes (including an Event of Default) if, in the opinion of the Security Trustee, the interests of the holders of

the outstanding Class A Notes, or, if none, the interests of the holders of the outstanding Class B Notes or, if none, the interests of the holders of the outstanding Class C Notes will not be materially prejudiced by such waiver.

Pursuant to the terms of the Trust Deed, the Security Trustee is obliged, without the consent or sanction of the Noteholders or any other Secured Creditor (other than any Secured Creditor party to the relevant Transaction Document to be amended) to concur with the Issuer in making any modifications to the Conditions, the Transaction Documents and/or the Notes that are requested in writing by the Issuer in order to enable the Issuer to comply with any requirements which apply to it under Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories ("**EMIR**") irrespective of whether or not such modifications might otherwise constitute a Reserved Matter (which the Security Trustee shall not be required to investigate), subject to receipt by the Security Trustee of a certificate of the Issuer (which certificate the Security Trustee shall be entitled to rely on without further investigation) certifying to the Security Trustee that the requested amendments are to be made solely for the purpose of enabling the Issuer to satisfy any requirements which apply to it under EMIR. The Security Trustee shall not be obliged to agree to any modification which, in the sole opinion of the Security Trustee, would have the effect of (a) exposing the Security Trustee to any liability against which it has not been indemnified and/or secured and/or pre-funded to its satisfaction or (b) increasing the obligations or duties, or decreasing the protections, of the Security Trustee in the Transaction Documents and/or the Notes.

Certain modifications, amendments, consents and waivers in respect of the Conditions and Transaction Documents may only be made with the Swap Counterparty's prior consent

The Swap Counterparty's prior consent is required for modifications, amendments, consents and waivers by the Security Trustee in respect of any Condition or any Transaction Document if: (i) it would cause, in the reasonable opinion of the Swap Counterparty (A) the Swap Counterparty to pay more or receive less under the Swap Agreement or (B) a decrease (from the Swap Counterparty's perspective) in the value of the Swap Transaction under the Swap Agreement; (ii) it would result in any of the Issuer's obligations to the Swap Counterparty under the Swap Agreement to be further contractually subordinated, relative to the level of subordination of such obligations as of the Closing Date, to the Issuer's obligations to any other Secured Creditor; or (iii) the Swap Counterparty were to replace itself as swap counterparty under the Swap Agreement it would be required to pay more or receive less in the reasonable opinion of the Swap Counterparty, in connection with such replacement, as compared to what the Swap Counterparty would have been required to pay or would have received had such modification or amendment not been made unless either (x) the Swap Counterparty has provided its prior written consent, such consent not to be unreasonably withheld or delayed or (y) the Swap Counterparty has failed to provide its written consent or to make the determinations required to be made by it under (i) or (iii) above within 15 Business Days of written request by the Security Trustee.

Furthermore, the Swap Counterparty's written consent is required prior to the Security Trustee providing its written consent to a waiver of certain negative undertakings of the Issuer related to a refinancing, sale, transfer or disposal of assets of the Issuer with a view to prematurely redeeming the Class A Notes in circumstances not expressly permitted or provided for in the Transaction Documents. The Swap Counterparty may not unreasonably withhold or delay such consent and no such consent will be required if the Swap Counterparty fails to provide its written consent within 15 Business Days of written request by the Security Trustee. Therefore, there is a risk to Noteholders that the Swap Counterparty effectively can veto certain proposed modifications, amendments or consents or waivers in respect of the Conditions and the Transaction Documents particularly if the proposed modification, amendment or waiver is intended to lead to a redemption of the Class A Notes prior to the Final Maturity Date.

Credit ratings may not reflect all risks and credit rating downgrades or withdrawals may reduce the market value of the Notes

It is a condition precedent to issuance that, on issue, the Class A Notes be assigned an 'AAAsf' credit rating from Fitch and an 'Aaa(sf)' credit rating from Moody's. The Class B Notes and the Class C Notes will not be rated.

Any credit ratings assigned to the Class A Notes may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this section, and other factors that may affect the value of the Class A Notes and the ability of the Issuer to make payments under the Class A Notes

(including but not limited to market conditions and funding related and operational risks inherent to the business of the Issuer). A credit rating is not a recommendation to buy, sell or hold securities. There is no assurance that a credit rating will remain for any given period of time or that a credit rating will not be reviewed, revised, suspended, lowered or withdrawn entirely by Fitch or Moody's, as the case may be, if, in its judgement, circumstances in the future so warrant.

In the event that a credit rating assigned to the Class A Notes is subsequently reviewed, revised, suspended, lowered or withdrawn entirely for any reason, no person or entity is obliged to provide any additional support or credit enhancement with respect to the Class A Notes, and therefore the Issuer may be adversely affected, the market value of the Class A Notes is likely to be adversely affected and/or the ability of the Noteholders to sell Notes and/or the ability of the Issuer to make payments under the Class A Notes may be adversely affected.

The credit ratings assigned to the Class A Notes by Fitch reflects Fitch's assessment of the likelihood of full and timely payments to Noteholders of all payments of interest and principal in accordance with the terms and conditions of the Class A Notes. The credit ratings assigned by Moody's address the expected loss posed to investors. Moody's ratings address only the credit risks associated with the transaction.

CRA Regulation

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings referred to in this Prospectus is set out in the table at the front of this Prospectus. For the avoidance of doubt, any references to "ratings" or "rating" in this Prospectus are to ratings assigned by the Credit Rating Agencies.

Risk related to unsolicited credit ratings on the Class A Notes

Other credit rating agencies that have not been engaged by (or on behalf of) the Issuer to rate the Class A Notes may issue unsolicited credit ratings on the Class A Notes at any time. Any unsolicited credit ratings in respect of the Class A Notes may differ from the credit ratings expected to be assigned by Fitch or Moody's and may not be reflected in this Prospectus. Issuance of an unsolicited credit rating which is lower than the credit ratings assigned by Fitch or Moody's in respect of the Class A Notes may adversely affect the market value and/or the liquidity of the Notes.

Limitations of any Credit Rating Agency Confirmation

The Security Trustee shall be entitled to assume, for the purposes of exercising any power, authority, duty or discretion under or in relation to the Notes, the Trust Deed, the Security Documents or any of the other Transaction Documents, that such exercise will not be materially prejudicial to the interests of the Noteholders if a Credit Rating Agency Confirmation has been given in respect of such exercise. However, a Credit Rating Agency Confirmation does not indicate that the action taken by the Security Trustee would not be prejudicial to the interests of the Noteholders.

Noteholders should be aware that, notwithstanding the above paragraph, a credit rating is an assessment of credit and does not address other matters that may be of relevance to the Noteholders. In being entitled in respect of any event to rely on a Credit Rating Agency Confirmation or confirmation that the then current rating of the relevant Notes would not thereby be adversely affected, it should be noted that this does not impose or extend any actual or contingent liability for the Credit Rating Agencies to the Security Trustee, the Noteholders or any other person or create any legal relations between the Credit Rating Agencies and the Security Trustee, the Noteholders or any other person whether by way of

contract or otherwise. In addition, Noteholders should be aware that the definition of Credit Rating Agency Confirmation also covers, among other things, the circumstances where no positive or negative confirmation or indication is forthcoming from any Credit Rating Agency provided that 30 days have passed since such Credit Rating Agency was notified of the relevant matter and that reasonable efforts were made to obtain a confirmation or an indication from such Credit Rating Agency. In such circumstance a Credit Rating Agency Confirmation will, for the purpose of the relevant Condition or Transaction Document, be deemed to have been obtained. Credit Rating Agencies are not bound to the Conditions or the Transaction Documents and may take any action in relation to the credit ratings assigned to the Class A Notes, including in circumstances where for the purposes of the Conditions or the Transaction Document a Credit Rating Agency Confirmation is (deemed to have been) obtained.

Potential conflicts of interests

The Trust Deed contains provisions requiring the Security Trustee, as regards all the powers, trusts, authorities, duties and discretions of the Security Trustee (except where expressly provided otherwise) to have regard to the interests of the Noteholders and the other Secured Creditors. If a conflict exists between the interests of the Noteholders and the interests of the other Secured Creditors, the Security Trustee is required to have regard solely to the interests of the Noteholders and no other Secured Creditor shall have any claim against the Security Trustee for so doing. Where, in the opinion of the Security Trustee there is a conflict between the interests of two or more Classes of Notes, the Security Trustee shall give priority to the interests of the holders of the Most Senior Class of Notes.

Any party to the Transaction Documents may engage in commercial relationships, in particular, be lenders, provide banking, investment banking and other financial services to the Borrowers and other relevant parties. In such relationships, such party is not obliged to take into consideration the interests of the Noteholders. Accordingly, conflicts of interests may arise.

The Servicer may hold and/or service claims against the Borrowers other than the Mortgage Receivables. The interests or obligations of the Servicer with regard to such other claims, may in certain aspects conflict with the interests of the Noteholders. In the Servicing Agreement, the Servicer has undertaken to the Issuer that it will provide the Mortgage Loan Services in such manner and with the same level of skill, care and diligence as would a person acting in accordance with the standards of a Reasonable Prudent Lender.

Intertrust Management B.V., being the sole director of the Issuer and the Shareholder, belongs to the same group of companies as Amsterdamsch Trustee's Kantoor B.V., being the sole director of the Security Trustee. Therefore, a conflict of interests could arise. In this respect, it is noted that each of Intertrust Management B.V. and Amsterdamsch Trustee's Kantoor B.V. is, with regard to the exercise of its powers and rights as the sole director of the Issuer, the sole director of the Shareholder or the sole director of the Security Trustee, under the relevant Management Agreement bound by the restrictions set out in such Management Agreement that are intended to ensure that the powers and rights are exercised in the interest of the Issuer, the Shareholder and the Security Trustee (as the case may be) and the other parties involved in the transaction contemplated by the Transaction Documents.

ING Group and/or Seller as Noteholder

For so long as any Notes are held by any entity within the ING Group and/or the Seller, it will be entitled to all of the rights to which the holders of such Notes are entitled (including voting rights, in respect of amendments, waivers and consents in respect of any of the Notes and the Transaction Documents). The interests of any entity within the ING Group and/or the Seller, with respect to the holding of such Notes, may in certain circumstances be different from that of third party Class A Noteholders. If any entity within the ING Group and/or the Seller continues to hold any Notes, in the exercise of the rights to which it is entitled under the relevant Notes, it will be in its interests to minimise any adverse impact or potential adverse impact on itself and/or any of its affiliates. Such interests of any entity within the ING Group and/or the Seller may conflict with the interests of third party Class A Noteholders.

Limited liquidity of the Notes and prevailing economic conditions

Application has been made to Euronext in Amsterdam for the Class A Notes to be admitted to trading on its regulated market. However, the Notes will be new securities for which there is no established

trading market. There can be no assurance that a secondary market for the Class A Notes will develop, or, if a secondary market does develop, that it will provide the Noteholders with liquidity or that it will continue for the life of the Class A Notes. A decrease in the liquidity of the Class A Notes may cause, in turn, an increase in the volatility associated with the price of such Notes. Any investor in the Class A Notes must be prepared to hold such Notes for an indefinite period of time or until redemption of the Notes. If any person begins making a market for such Notes, it is under no obligation to continue to do so and may stop making a market at any time. Illiquidity may have a severely adverse effect on the market value of the relevant Notes.

In addition, Noteholders should be aware of the prevailing and widely reported global credit market conditions (which continue at the date hereof), whereby there is a general lack of liquidity in the secondary market for instruments similar to the Notes. In particular, it should be noted that the market for the Notes is likely to be affected by any restructuring of sovereign debt by countries in the Eurozone. A lack of liquidity may result in investors suffering losses on the Notes in secondary trades even if there is no decline in the performance of the Portfolio. The Issuer cannot predict whether or when these circumstances will change or whether conditions of general market illiquidity for the Notes and instruments similar to the Notes will return in the future.

Noteholders should also be aware that the recent sovereign debt crisis in Europe may result in changes to the composition of the European Monetary Union and this may have an impact on the liquidity and the market value of the Notes.

Limited liquidity in the secondary market in mortgage loans and mortgage-backed securities

Despite recent improved market conditions in Dutch residential mortgage-backed securities, the secondary market for mortgage-backed securities is still experiencing disruptions resulting from reduced investor demand for such securities. This has had a material adverse impact on the market value of mortgage-backed securities similar to the Notes and resulted in the secondary market for mortgage-backed securities experiencing very limited liquidity. Limited liquidity in the secondary market may continue to have an adverse effect on the market value of mortgage-backed securities, especially those securities that are more sensitive to prepayment, credit or interest rate risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, an investor in the Notes may not be able to sell its Notes readily. The market values of the Notes are likely to fluctuate and may be difficult to determine. Any of these fluctuations may be significant and could result in significant losses to such investor. In addition, any forced sale into the market of mortgage-backed securities held by various investors that are currently experiencing funding or other difficulties could adversely affect an investor's ability to sell, and/or the price an investor receives for, the Notes in the secondary market. Whilst central bank schemes such as the European Central Bank liquidity scheme provide an important source of liquidity in respect of eligible securities, such as certain mortgage-backed securities, the eligibility criteria have become and are expected to continue to become more restrictive, which is likely to adversely impact secondary market liquidity for mortgage-backed securities in general, regardless of whether the Notes are eligible securities.

All these market conditions may continue or worsen in the future. This may, among other things, also affect the ability of the Issuer to obtain timely funding to fully redeem maturing Notes with the sale proceeds of Mortgage Receivables subject to and in accordance with the Mortgage Receivables Purchase Agreement and the Trust Deed.

Risks of weaker economic conditions in certain geographic regions in The Netherlands may ultimately result in losses to the Noteholders

To the extent that specific geographic regions within The Netherlands have experienced or may experience in the future weaker economic conditions and housing markets than other regions, a concentration of the loans in such a region may be expected to exacerbate all of the risks relating to the Mortgage Loans. The economy of each geographic region within The Netherlands is dependent on different mixtures of industries. Any downturn in a local economy or particular industry may adversely affect the regional employment levels and consequently the repayment ability of the Borrowers in that region or the region that relies most heavily on that industry. Any natural disasters in a particular region may reduce the value of affected Mortgaged Assets. This may result in a loss being incurred upon the sale of the Mortgaged Assets. These circumstances could affect receipts on the Mortgage Loans and ultimately result in losses on the Notes. For an overview of the geographical distribution of the

Mortgage Receivables sold to the Issuer in connection with the issuance of the Notes, see section 6.1 (*Stratification Tables*).

The performance of the Notes may be adversely affected by the recent conditions in the global financial markets and these conditions may not improve in the near future

Global markets and economic conditions have been negatively impacted in recent years by the banking and sovereign debt crisis in the EU and globally. The economies in many countries in the EU and the Eurozone in particular have not yet recovered and are to be considered to be subject to deflation risk, failing economic reforms, budgetary discipline and unrest in regions such as the Middle East and Ukraine, which in turn may have an adverse impact on global markets and economic conditions throughout the world.

The market's anticipation of these (potential) impacts could have a material adverse effect on the business, financial condition and liquidity of the Seller, the Swap Counterparty and the Issuer Account Bank. In particular, these developments could disrupt payment systems, money markets, long-term or short-term fixed income markets, foreign exchange markets, commodities markets and equity markets and adversely affect the cost and availability of funding. Certain impacts, such as increased spreads in money markets and other short term rates, have already been experienced as a result of market expectations.

In the event of continued or increasing market disruptions and volatility, the Seller, the Swap Counterparty and the Issuer Account Bank may experience reductions in business activity, increased funding costs, decreased liquidity, decreased asset values, additional credit impairment losses and lower profitability and revenues, which may affect their ability to perform their respective obligations under the relevant Transaction Documents. Failure to perform obligations under the relevant Transaction Documents may adversely affect the performance of the Notes.

These factors and general market conditions could adversely affect the performance of the Notes. There can be no assurance that governmental or other actions will improve these conditions in the future.

The Class A Notes may not be recognised as eligible Eurosystem collateral

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with Euroclear Netherlands. This does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria as amended from time to time, which criteria will include the requirement that loan-by-loan information be made available to investors in accordance with the template which is available on the website of the European Central Bank. Accordingly, if such loan-by-loan data reporting requirements are not complied with, Eurosystem eligibility of the Class A Notes may not, or may not continue to be, recognised. The Class B Notes and the Class C Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem.

No gross-up for Taxes

As provided in Condition 11 (*Taxation*), all payments of interest and principal in respect of the Notes shall be made free of Tax unless the Issuer, the Security Trustee or the Paying Agent (as the case may be) is required by law to make any deduction or withholding on account of Tax. In that event, the Issuer, the Trustee or the Paying Agent (as the case may be) will make the required deduction or withholding, and shall not be obliged to pay any additional amounts to the Noteholders in respect of such deduction or withholding.

Foreign Account Tax Compliance Act

In certain circumstances the Issuer and certain other non-U.S. financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. pursuant to sections 1471 through 1474 of the U.S. Internal Revenue Code and the regulations and other guidance promulgated thereunder ("**FATCA**") on all, or a portion of, payments made after 31 December 2016 in respect of (i) Notes that are treated as debt for U.S. federal tax purposes and are issued or materially modified on or after the date that is six months after the date on which the final regulations applicable to

"foreign passthru payments" are filed and (ii) Notes that are treated as equity for U.S. federal tax purposes and issued at any time.

If an amount in respect of FATCA were required to be withheld from any payment on the Notes, there will be no "gross up" (or any other additional amount) payable by way of compensation to the investor for the withheld amount. An investor that is able to claim the benefits of an income tax treaty between its own jurisdiction and the United States may be entitled to a refund of amounts withheld pursuant to the FATCA rules, though the investor would have to file a U.S. tax return to claim this refund and would not be entitled to interest from the Internal Revenue Service (IRS) for the period prior to the refund.

Whilst the Notes are in global form and held within the clearing systems, in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Notes are discharged once it has paid the clearing systems and the Issuer has therefore no responsibility for any amount thereafter transmitted through the clearing systems and custodians or intermediaries.

FATCA is particularly complex and its application to the Issuer and the Notes issued by it is uncertain at this time. Each holder of Notes should consult its own tax advisor to obtain a more detailed explanation of FATCA and to learn how it might affect such holder in its specific circumstance, in particular if it may be, or hold its interest through an entity that is, classified as a financial institution under FATCA.

Financial Transaction Tax

On 14 February 2013, the EU Commission adopted a proposal for a Council Directive (the "**Draft Directive**") on a common financial transaction tax ("**FTT**"). According to the Draft Directive, the FTT shall be implemented and enter into effect in eleven EU Member States (Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Spain, Slovakia and Slovenia; the "**Participating Member States**" and each a "**Participating Member State**"). However, Estonia has since stated that it will not participate.

The proposed FTT has a very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

Joint statements issued in May 2014 by participating Member States indicate an intention to implement the FTT by 1 January 2016.

However, the FTT proposal remains subject to negotiation between participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

Changes in law

The structure of the issue of the Notes and the credit ratings which may be assigned to them are based on Dutch law or the laws of England and Wales (in respect of the Swap Agreement) in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible change to Dutch law or the laws of England and Wales or administrative practice in The Netherlands or England and Wales after the date of this Prospectus.

Exchange rates and exchange controls

The Issuer will pay principal and interest, if any, on the Notes in euros. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit other than euros. These include the risk that exchange rates may significantly change (including changes due to devaluation of the euro or revaluation of the investor's currency) and the risk that authorities with jurisdiction over the investor's currency may impose or modify exchange controls. An appreciation in the value of the investor's currency relative to euro would decrease (1) the investor's currency-equivalent yield on the Notes, (2) the investor's currency-equivalent value of the principal payable on the Notes and (3) the investor's currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate and/or restrict the convertibility or transferability of currencies within and/or outside of a particular jurisdiction. As a result, investors may receive less interest or principal than expected, or receive it later than expected or not at all.

Notes held in global form

The Notes will be held by Euroclear Netherlands, in each case in the form of a Global Note which will be exchangeable for Definitive Notes only in the limited circumstances and subject to mandatory provisions of applicable laws and regulations, as more fully described in section 4.2 (*Form*). For as long as any Note is represented by a Global Note held by Euroclear Netherlands, payments of principal, interest (if any) and any other amounts on a Global Note will be made through Euroclear Netherlands against presentation or surrender (as the case may be) of the relevant Global Note and, in the case of a Temporary Global Note, certification as to non-U.S. beneficial ownership. The holder of the relevant Global Note, being Euroclear Netherlands, shall be treated by the Issuer and the Paying Agent as the sole holder of the relevant Notes represented by such Global Note with respect to the payment of principal, interest (if any) and any other amounts payable in respect of the Notes.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear Netherlands.

Minimum Denomination

As the Notes have a denomination consisting of the minimum denomination plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of EUR 100,000 (or its equivalent) that are not integral multiples of EUR 100,000 (or its equivalent). In such case a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum denomination may not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to the minimum denomination.

Insolvency risk

In the event that the Issuer becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of the Issuer's place of incorporation, which is The Netherlands. The insolvency laws of the Issuer's place of incorporation may be different from the insolvency laws of an investor's home jurisdiction and the treatment and ranking of Noteholders in respect of Notes and the Issuer's other

creditors and shareholders under the insolvency laws of the Issuer's place of incorporation may be different from the treatment and ranking of those Noteholders and the Issuer's other creditors and shareholders if the Issuer was subject to the insolvency laws of the investor's home jurisdiction.

Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the United States and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a number of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Issuer Administrator, the Arranger, the Lead Manager, the Security Trustee or the Seller makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the Closing Date or at any time in the future.

General - Basel III and Solvency II

In particular, investors should note that the Basel Committee on Banking Supervision ("**BCBS**") has approved significant changes to the Basel regulatory capital and liquidity framework (such changes being commonly referred to as "**Basel III**"), including certain revisions to the securitisation framework. Basel III provides for a substantial strengthening of existing prudential rules, including new requirements intended to reinforce capital standards (with heightened requirements for global systemically important banks) and to establish a leverage ratio "backstop" for financial institutions and certain minimum liquidity standards (referred to as the Liquidity Coverage Ratio ("**LCR**") and the Net Stable Funding Ratio ("**NSFR**"). BCBS member countries agreed to implement Basel III from 1 January 2013, subject to transitional and phase-in arrangements for certain requirements (e.g. the LCR requirements refer to implementation from the start of 2015, with full implementation by January 2019, and the NSFR requirements refer to implementation from January 2018).

The European authorities support the work of the BCBS on the approved changes in general and, on 26 June 2013, a legislative package of proposals implemented the changes through the replacement of the existing Capital Requirements Directive with a new Directive (Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013, as amended, "**CRD IV**") and Regulation (Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013, as amended, the "**CRR**"). Both CRD IV and the CRR entered into force as of 1 January 2014, with full implementation by January 2019; however, CRD IV allows individual Member States to implement a stricter definition and/or level of capital more quickly than is envisaged under Basel III. Except for certain liquidity requirements relating to investment firms which have been implemented as per 1 January 2015, CRD IV was implemented into Dutch legislation on 1 August 2014. The Net Stable Funding Ratio will apply from 1 January 2018 while the Liquidity Coverage Ratio will be phased in between 2015 and 2018.

As implementation of any changes to the Basel framework (including those made via Basel III) requires national legislation, the final rules and the timetable for its implementation in each jurisdiction, as well as the treatment of asset-backed securities (e.g. as LCR eligible assets or not), may be subject to some level of national variation. It should also be noted that changes to regulatory capital requirements have been made for insurance and reinsurance undertakings through participating jurisdiction initiatives, such as the Solvency II framework in Europe.

Furthermore, pursuant to the directive of the European Parliament and of the Council of the European Union of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance ("**Solvency II**"), more stringent rules will apply for European insurance companies from January 2016 in respect of instruments such as the Notes in order to qualify as regulatory capital (*toetsingsvermogen c.q. solvabiliteitsmarge*). On 18 January 2015 the Commission Delegated Regulation (EU) 2015/35 ("**Implementing Rules**") entered into force. The Implementing Rules set out more detailed requirements for individual insurance undertakings as well as for groups, based on the provisions set out in Solvency II.

Basel II, Basel III and (even to a greater extent) Solvency II, will affect the risk-weighting of the Notes in respect of certain investors if those investors are regulated in a manner which will be affected by

these rules. Consequently, investors should consult their own advisers as to the regulatory capital and liquidity requirements in respect of the Notes and as to the consequences for and effect on them of any changes to the Basel II framework (including the Basel III changes described above) and Solvency II, and the relevant implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

EU risk retention under the CRR and the AIFMR

In particular, investors should be aware of the risk retention and due diligence requirements in Europe ("**EU Risk Retention and Due Diligence Requirements**") which currently apply, or are expected to apply in the future, in respect of various types of EU regulated investors including credit institutions, authorised alternative investment fund managers, investment firms, insurance and reinsurance undertakings, UCITS funds and institutions for occupational retirement provision (together "**Affected Investors**"). Amongst other things, such requirements restrict an Affected Investor from investing in securitisations unless (i) that investor is able to demonstrate that it has undertaken certain due diligence in respect of various matters including its note position, the underlying assets and (in the case of certain types of investors) the relevant sponsor or originator and (ii) (in the case of certain types of investors) the originator, sponsor or original lender in respect of the relevant securitisation has explicitly disclosed to the investor that it will retain, on an on-going basis, a material net economic interest of not less than 5 per cent. in total in respect of certain specified credit risk tranches or securitised exposures. Failure to comply with one or more of the requirements may result in various penalties including, in the case of those investors subject to regulatory capital requirements, the imposition of a punitive capital charge on the Notes acquired by the relevant investor. Aspects of the requirements and what is or will be required to demonstrate compliance to national regulators remain unclear.

The EU Risk Retention and Due Diligence Requirements described above apply, or are expected to apply, in respect of the Notes. Each investor should therefore make itself aware of such requirements (and any corresponding rules of their regulator), where applicable to it, in addition to any other regulatory requirements applicable to it with respect to its investment in the Notes. With respect to the commitment of the Seller to retain a material net economic interest in the securitisation and with respect to the information to be made available by the Issuer, the Seller or another relevant party (or, after the Closing Date, by the Issuer Administrator on the Issuer's behalf), please see the statements set out in section 4.4 (*Regulatory and Industry Compliance*). Relevant investors are required to independently assess and determine the sufficiency of the information described above for the purposes of complying with any relevant requirements and none of the Issuer, the Issuer Administrator, the Arranger, the Lead Manager, the Security Trustee or the Seller makes any representation that the information described above is sufficient in all circumstances for such purposes or that the structure of the Notes and the transactions described herein are compliant with the EU Risk Retention and Due Diligence Requirements or any other applicable legal regulatory or other requirements and no such person shall have any liability to any prospective investor or any other person with respect to any deficiency in such information or any failure of the transactions contemplated hereby to comply with or otherwise satisfy such requirements.

It should also be noted that the European Commission has published legislative proposals for two new regulations related to securitisation. Amongst other things, the proposals include provisions intended to implement the revised securitisation framework developed by BCBS and provisions intended to harmonise and replace the risk retention and due diligence requirements (including the corresponding guidance provided through technical standards) applicable to certain EU regulated investors. There are material differences between the legislative proposals and the current requirements. It is not clear whether, and in what form, the legislative proposals (and any corresponding technical standards) will be adopted. In addition, the compliance position under any adopted revised requirements of transactions entered into prior to adoption, and of activities undertaken by a party (including an investor) in respect of such transactions, is uncertain.

Prospective investors should therefore make themselves aware of the changes and requirements described above (and any corresponding implementing rules of their regulator), where applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Notes. The matters described above and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

2.2 SECURITY

Pledges to Trustee

General

Under or pursuant to the Pledge Agreements, various Dutch law pledges are granted by the Issuer to the Security Trustee. A Dutch pledge can serve as security for monetary claims (*geldvorderingen*) only and can only be enforced upon default (*verzuim*) of the obligations secured thereby. Foreclosure on pledged property is to be carried out in accordance with the applicable provisions and limitations of the Dutch Civil Code and the Dutch Code of Civil Procedure (*Wetboek van Burgerlijke Rechtsvordering*).

The Issuer is a special purpose entity. It has been set up as a bankruptcy remote entity, principally in two ways. First, non-petition wording has been included in the Conditions and the relevant Transaction Documents, by which the Transaction Parties that have agreed thereto, are bound. Notwithstanding such wording, it is possible that a Dutch court would consider a petition for bankruptcy (*faillissement*) initiated by third party creditors (such as tax authorities) or parties to the Transaction Documents even if such petition was presented in breach of a non-petition covenant applying to the relevant party. Secondly, recourse by the Issuer's counterparties under the Transaction Documents has been limited to the Mortgage Receivables and any other assets the Issuer may have. It is therefore unlikely that the Issuer will become subject to an Insolvency Proceeding. Should the Issuer be subjected to a Dutch Insolvency Proceeding, nevertheless, the Security Trustee as pledgee can exercise the rights afforded by Dutch law to pledgees as if there were no Dutch Insolvency Proceedings. However, Dutch Insolvency Proceedings involving the Issuer would affect the position of the Security Trustee as pledgee in some respects under Dutch law.

Future Assets

First, if and to the extent that assets purported to be pledged by the Issuer to the Security Trustee are future assets (i.e. assets that have not yet been acquired by the Issuer or that have not yet come into existence) at the moment Dutch Insolvency Proceedings take effect (i.e. at 0:00 hours on the date Dutch Insolvency Proceedings are declared), such assets are no longer capable of being pledged by the Issuer (unless the liquidator agrees). This would, for example, apply with respect to amounts that are paid to an account following the Issuer's Dutch Insolvency Proceedings taking effect. As such crediting of the account would not yet have occurred when the Dutch Insolvency Proceedings take effect, the resulting receivable of the Issuer *vis-à-vis* the Issuer Account Bank would qualify as a future asset.

However, if following the Dutch Insolvency Proceedings taking effect, amounts are due to be paid under receivables that have been pledged to the Security Trustee prior to such Dutch Insolvency Proceedings taking effect, the Security Trustee as pledgee could, through notification to the relevant debtors, prevent that such pledged receivables are discharged through payment to the Issuer Collection Account by instructing the relevant debtors to pay to a different account. The reason for this is that the Security Trustee as pledgee is entitled itself to collect such receivables following notification of the pledge (and, where applicable, the assignment preceding the pledge) to the relevant debtor. Notification of the pledge may occur following the occurrence of a Pledge Notification Event (which includes Dutch Insolvency Proceedings being declared in respect of the Issuer).

As long as no notification of the assignment has taken place in respect of pledged Mortgage Receivables, the relevant debtor must continue to pay to the Seller. Under section 2.3 (*Commingling risk*), the position of the Issuer is described in respect of payments so made to the Seller prior to or after the Seller's possible Dutch Insolvency Proceedings taking effect. In respect of payments under pledged Mortgage Receivables made to the Issuer following notification of the assignment but prior to notification of the pledge and prior to Dutch Insolvency Proceedings of the Issuer taking effect and not on paid to the Security Trustee, the Security Trustee will be an ordinary, non preferred creditor, having an insolvency claim (*voor verificatie vatbare vordering*). In respect of post insolvency payments made by debtors of the insolvent Seller, the Security Trustee will be a preferred creditor having an insolvency claim. Creditors of insolvency claims have to share in the general insolvency costs and have to await finalisation of a (provisional) distribution list (*(voorlopige) uitdelingslijst*).

Mandatory insolvency rules

Secondly, the following mandatory rules of Dutch insolvency law may affect the enforcement of the Security Trustee's pledges:

- a statutory stay of execution ('cooling off period') of up to two months - with a possible extension by up to two more months - may be imposed during each type of Dutch Insolvency Proceedings by court order. Such stay of execution does not prevent the Security Trustee from giving notice to the debtors of any pledged receivables and collecting the proceeds thereof. However, where applicable, it will prevent the Security Trustee from (i) taking recourse against any amounts so collected during such stay of execution and (ii) selling pledged assets to third parties;
- the liquidator in bankruptcy can force the Security Trustee to enforce its security right within a reasonable period of time, failing which the liquidator in bankruptcy will be entitled to sell the pledged assets and distribute the proceeds. In such case, the Security Trustee will receive payment prior to ordinary, non preferred creditors having an insolvency claim but after creditors of the estate (*boedelschuldeisers*). It should be noted, however, that the authority of the liquidator in bankruptcy only aims to prevent a secured creditor from delaying the enforcement of the security without good reason; and
- excess proceeds of enforcement must be returned to the Issuer in its Dutch Insolvency Proceedings; they may not be set off against an unsecured claim (if any) of the Security Trustee against the Issuer. Such set off is in principle allowed prior to the Dutch Insolvency Proceedings.

Similar or different restrictions may apply in case of Insolvency Proceedings other than Dutch Insolvency Proceedings.

Parallel Debt

It is intended that the Issuer grants pledges to the Security Trustee for the benefit of the Secured Creditors. However, under Dutch law there is no concept of trust and it is uncertain whether a pledge can be granted to a party other than the creditors of the receivables purported to be secured by such pledge. The Issuer has been advised that under Dutch law a 'parallel debt' structure can be used to give a security trustee its own, separate, independent right of claim on identical terms as the relevant creditors. For this purpose, the Trust Deed creates a parallel debt ("**Parallel Debt**") of the Issuer to the Security Trustee equal to the corresponding principal obligations, so that the Security can be granted to the Security Trustee in its own capacity as creditor of the parallel debt. In the Trust Deed it is agreed that obligations of the Issuer to the Security Trustee under the Parallel Debt shall be decreased to the extent that the corresponding principal obligations to the Secured Creditors are reduced (and *vice versa*). In the Trust Deed the Security Trustee agrees to act as Security Trustee as abovementioned and agrees:

- to act for the benefit of the Secured Creditors in administering and enforcing the Security; and
- to distribute the proceeds of the enforcement of the Security in accordance with the provisions set out in the Trust Deed.

Any payments in respect of the Parallel Debt and any proceeds of the enforcement of the Security (in each case to the extent received by the Security Trustee) are, in the event that the Security Trustee becomes subject to Dutch Insolvency Proceedings, not separated from the Security Trustee's other assets, so the Secured Creditors accept a credit risk on the Security Trustee. However, the Security Trustee is a special purpose entity and is therefore unlikely to become subject to an Insolvency Proceeding.

2.3 COMMINGLING RISK

Payments by the Borrowers under the Mortgage Receivables are due on the first day of each month, interest being payable in arrear. For as long as no Assignment Notification Event has occurred, all payments made by Borrowers will be paid into the Seller Collection Accounts. The Seller Collection Accounts are not pledged to any party and are also used for the collection of moneys paid in respect of mortgage loans other than the Mortgage Loans in respect of which the Mortgage Receivables are sold to the Seller and in respect of any other moneys belonging to the Seller. In respect of payments so made under the Mortgage Receivables prior to a Dutch Insolvency Proceeding (i.e., bankruptcy (*faillissement*), suspension of payments (*surseance van betaling*) or, as applicable, emergency regulations (*noodregeling*)) of the Seller, the Issuer will be an ordinary, non preferred creditor, having an insolvency claim against the Seller. In respect of post insolvency payments, the Issuer will be a creditor of the estate (*boedelschuldeiser*), and will receive payment prior to creditors with insolvency claims, but after preferred creditors of the estate.

There is therefore a risk that the cashflows under the Mortgage Receivables through the Seller Collection Accounts are interrupted by a Dutch Insolvency Proceeding of the Seller. To mitigate this risk, the Mortgage Receivables Purchase Agreement provides that if the credit rating of the Seller's debt obligations falls below the Requisite Credit Rating, the Seller will as soon as reasonably practicable and in any event within 14 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) after such assignment of the credit rating open an escrow account in the name of the Issuer, for its own account, with a party having at least the Requisite Credit Rating and transfer to such escrow account an amount equal to the highest monthly value of Revenue Funds and Principal Funds in the last 6 months. The aforementioned deposit shall no longer be required if the Seller has ensured that (i) the Borrowers have been notified that they should immediately make their payments to the Issuer Collection Account, or into such other account as the Security Trustee may direct, provided that the transfer of such amounts to such an account shall not negatively affect the then current ratings assigned to the Notes, (ii) payments to be made with respect to amounts received on the Seller Collection Accounts will be guaranteed by way of an unlimited and unconditional guarantee by a party having at least the Requisite Credit Rating, or, if (i) or (ii) is not reasonably practicable, (iii) take such other action that would result in the Credit Rating Agencies continuing the then current ratings of the Class A Notes.

2.4 HEDGING

Interest Rate risk

The Issuer is exposed to the risk that the interest received on the Mortgage Loans is not sufficient to pay the interest on the Class A Notes. This risk is mitigated only by the Swap Agreement.

Swap termination/default

The Swap Counterparty will be obliged to make payments under the Swap Agreement subject to the Issuer (or the Issuer Administrator acting on its behalf) making payments under the Swap Agreement.

The Swap Agreement will provide that, upon the occurrence of certain events (including certain tax events and events of default), the Issuer or the Swap Counterparty may terminate the Swap Transaction. If the Swap Agreement terminates early, the Issuer may be obliged to make a termination payment to the Swap Counterparty which could be substantial. If such a payment is due to the Swap Counterparty (other than where it constitutes a Subordinated Swap Payment) it will rank in priority to payments due from the Issuer under the Notes under the applicable Priority of Payments, and could affect the availability of sufficient funds of the Issuer to make payments of amounts due from it under the Notes in full, including its ability to redeem the Class A Notes and/or the Class B Notes on an Optional Redemption Date.

In circumstances where the Swap Agreement is terminated, endeavours will be made, but no assurance can be given as to the ability of the Issuer to enter into one or more replacement transactions, or if one or more replacement transactions are entered into, as to the credit rating(s) of the swap counterparty(s) for the replacement transaction(s). The credit rating of a replacement swap counterparty may adversely affect the credit rating(s) and/or the marketability of the Notes.

Tax Event in Relation to the Swap Transaction

The Swap Counterparty will be obliged to make payments under the Swap Agreement without any withholding or deduction of taxes unless required by law. If by reason of a change in tax law affecting the transaction under the Swap Agreement which becomes effective on or after the Closing Date, the Issuer would be required to make a withholding or deduction for or on account of tax from any payment it makes under the Swap Agreement and/or the Swap Counterparty would be required to make a withholding or deduction for or on account of tax from any payment it makes under the Swap Agreement and is obliged to gross up its payments to the Issuer under the Swap Agreement to account for such tax, then the Swap Counterparty shall use its reasonable endeavours to appoint a substitute swap counterparty (or act through another office of the Swap Counterparty) so that such deduction or gross up is no longer required.

In circumstances where the Swap Counterparty is not able to make such a substitution, then the Swap Counterparty may be entitled to terminate the Swap Agreement, and, if it does so, there may be a swap termination payment to be made by the Issuer thus reducing the funds available to the Issuer to make payments in respect of the Notes. If the Issuer is required to make such payment to the Swap Counterparty then the Issuer may not have sufficient funds to make payments due in respect of the Notes and to the extent that one or more comparable replacement swap transactions cannot be entered into, the Issuer will be exposed on a continuing basis to the possible variance between the different rates payable by Borrowers on the Mortgage Loans and the amount due in respect of the Notes. As a result the Issuer may have insufficient funds to make payments due on the Notes on an ongoing basis.

European Market Infrastructure Regulation (EMIR)

EMIR introduced requirements to improve transparency and reduce the risks associated with the derivatives market. EMIR requires entities that enter into any form of derivative contract to: report every derivative contract entered into to a trade repository; implement new risk management standards for all bilateral over-the-counter ("OTC") derivative trades that are not cleared by a central counterparty; and clear, through a central counterparty, OTC derivatives that are subject to a mandatory clearing obligation or, for any OTC derivatives that are not subject to such mandatory clearing obligation, a requirement for counterparties to post mandatory margin. The CRR aims to complement EMIR by applying higher capital requirements for bilateral, OTC derivative trades. Lower capital requirements for cleared trades are only available if the central counterparty is recognised as a 'qualifying central

counterparty', which has been authorised or recognised under EMIR (in accordance with related binding technical standards). Further significant market infrastructure reforms will be introduced by amendments to the EU Markets in Financial Instruments Directive that are being finalised by the EU legislative institutions and are expected to be implemented in 2017.

Under EMIR, OTC derivatives contracts that are not cleared by a central counterparty may be subject to margining requirements, which are to be phased in from 1 September 2016. The regulatory technical standards relating to the collateralisation obligations in respect of OTC derivatives contracts which are not cleared have not yet been adopted. In any event, on the basis that the Issuer is currently a non-financial counterparty whose positions, together with the positions of all other non-financial counterparties in its "group", in OTC derivatives (after the exclusion of hedging positions) do not exceed any of the specified clearing thresholds (each an "NFC-"), OTC derivatives contracts that are entered into by the Issuer would not be subject to any margining requirements. If the Issuer's counterparty status as an NFC- changes then certain OTC derivatives contracts that are entered into by the Issuer may become subject to margining requirements. If the Issuer is required to comply with certain obligations under EMIR that give rise to margin posting or additional costs and expenses for the Issuer, this may in turn reduce amounts available to make payments with respect to the Notes. The Issuer may also need to appoint a third party and/or incur costs and expenses to enable it to comply with the regulatory requirements imposed by EMIR. In the event that under EMIR additional provisions or technical standards do come into force, this may necessitate amendments to the Transaction Documents. The Security Trustee may consent to these amendments without the consent or sanction of the Noteholders, see the paragraph named "*Modifications without Noteholders' or other Secured Creditors' consent*".

It cannot be excluded that the Issuer will in the future, pursuant to the final secondary rules, become subject to mandatory statutory collateral requirements. If so, the Issuer will either have to (i) agree with the Seller or any of its group entities on an arrangement to enable the Issuer to post the required collateral or (ii) agree on another approach subject to a Credit Rating Agency Confirmation. If no such agreement is reached, this could result in a termination of the Swap Agreement. Any early termination amount payable by the Issuer to the Swap Counterparty in this respect would rank senior to the Noteholders. Moreover, a termination of the Swap Agreement could negatively affect the Issuer's ability to hedge its interest rate risk. As a result, the amounts payable to Noteholders may be negatively affected.

2.5 MORTGAGE RECEIVABLES AND MORTGAGED ASSETS

No notification of assignment of Mortgage Receivables to Issuer

The Mortgage Receivables Purchase Agreement provides that the transfer of the Mortgage Receivables and any Related Security will be effected through an undisclosed (save as disclosed pursuant to any Beneficiary Waiver Agreement in relation to Beneficiary Rights) assignment (*stille cessie*) by the Seller to the Issuer. This means that legal ownership of the Mortgage Receivables will be transferred to the Issuer either by (i) registration with the tax authorities (*Belastingdienst*) of a duly executed Deed of Assignment and Pledge or (ii) execution of a Deed of Assignment and Pledge before a civil law notary, in each case without notifying the debtors of the transfer of such Mortgage Receivables. The assignment will only be notified to the debtors under the Mortgage Receivables if an Assignment Notification Event occurs. Notification is only necessary to ensure that the debtors under the Mortgage Receivables can no longer discharge their obligations by paying to the Seller.

As long as no notification has taken place, any payments made by the debtors under the Mortgage Receivables must continue to be made to the Seller. In respect of payments so made prior to a Dutch Insolvency Proceeding of the Seller, the Issuer will be an ordinary, non-preferred creditor, having an insolvency claim against the Seller. In respect of post-insolvency payments, the Issuer will be a creditor of the estate (*boedelschuldeiser*), and will receive payment prior to creditors with insolvency claims, but after preferred creditors of the estate.

Transfer to Issuer of Mortgage Receivables secured by All Moneys Mortgage

Under Dutch law mortgages and pledges are in principle accessory rights (*afhankelijke rechten*) which pursuant to articles 3:7, 3:82 and 6:142 of the Dutch Civil Code automatically follow the receivables they secure, for example if such receivables are transferred to a third party. The rights of mortgage and pledge securing the Mortgage Receivables qualify as either Fixed Security Rights or All Moneys Security Rights. In the past a considerable degree of uncertainty existed in Dutch legal writing as to whether a transfer of a receivable secured by an All Moneys Mortgage, results in a transfer of the All Moneys Mortgage, or a share therein, to the transferee.

The Issuer has been advised that like any other right of mortgage or pledge, a mortgage or pledge constituting an All Moneys Mortgage under Dutch law is in principle an accessory right and that, therefore, upon a transfer of a receivable secured by All Moneys Mortgage, the transferee will in principle become entitled to a share in the All Moneys Mortgage by operation of law. The Issuer has been advised that the above is confirmed by the *Onderrecht v. FGH and PHP* decision of the Dutch Supreme Court (HR 16 September 1988, NJ 1989, 10). In this decision, the Dutch Supreme Court ruled that the main rule is that a right of mortgage as an accessory right transfers together with the receivable it secures. The Dutch Supreme Court also held that it is a question of interpreting the relevant clause in the mortgage deed whether the definition of the secured receivables entails that the right of mortgage exclusively vests in the original mortgagee, in deviation of said main rule. The Issuer has been advised that where the interpretation of the mortgage or pledge deed does not reveal a specific intention regarding the transfer of the right of mortgage or pledge, the abovementioned main rule applies, so that following a transfer of a secured receivable, the relevant receivable will continue to be secured by the right of mortgage or pledge.

Under or pursuant to the Mortgage Receivables Purchase Agreement the Seller warrants and represents in relation to each Mortgage Receivable that the relevant mortgage and pledge deeds contain either (i) no specific wording regarding the transfer of any right of mortgage or pledge securing such Mortgage Receivable or (ii) an express confirmation to the effect that upon a transfer of the relevant Mortgage Receivable, such Mortgage Receivable will, following the transfer, continue to be secured by the right of mortgage or pledge.

Joint security of Issuer and Seller

As a consequence of the transfer to the Issuer of Mortgage Receivables secured by All Moneys Security Rights (or Fixed Security Rights if not all receivables which are secured by the relevant security right are, or if not the entire contractual relationship (*rechtsverhouding*) from which receivables may arise which will be secured by the relevant security right is, transferred to the Issuer), the relevant All Moneys Security Rights (or where applicable Fixed Security Rights) will become part of a joint estate (*gemeenschap*) of the Issuer, any other transferee of receivables secured by such All Moneys Security

Rights (or where applicable Fixed Security Rights) and the original mortgagee or pledgee, governed by articles 3:166 *et seq.* of the Dutch Civil Code. This means, among other things, that in the case of foreclosure of the All Moneys Security Rights (or where applicable, Fixed Security Rights), the relevant original mortgagee or pledgee, the Issuer and any other transferee of secured receivables will in principle need to act jointly and share the proceeds *pro rata* on the basis of their respective shares in the joint estate.

For this purpose the Mortgage Receivables Purchase Agreement contains an intercreditor arrangement granting the Issuer and/or the Security Trustee (as applicable) the right to (i) foreclose on the All Moneys Security Rights (or where applicable Fixed Security Rights) without involvement of the Seller and (ii) take recourse to the foreclosure proceeds prior to the Seller. The Issuer has been advised that irrespective of there being good arguments it is uncertain whether such an arrangement is binding on the Seller's liquidator or administrator in Dutch Insolvency Proceedings. However, the Issuer has also been advised that on the basis of articles 3:166, 168, 170 and 172 of the Dutch Civil Code there are good arguments to state that such arrangement is binding, although the position is not certain. Moreover, generally the above only becomes relevant in the event that each of the following conditions is met:

- the Borrower does not meet his secured obligations in full to either the Seller or the Issuer, in particular because he is insolvent;
- the Seller is subject to an Insolvency Proceeding; and
- the proceeds of the related Mortgaged Asset are insufficient to fully satisfy the secured receivables of the Seller and the Issuer.

The abovementioned intercreditor arrangement will be supported by an undertaking by the Seller that in the event that any of the Seller's credit ratings ceases to be at least the Requisite Credit Ratings, and if such downgrade or withdrawal relates to short-term credit ratings, the Seller does not regain such Requisite Credit Ratings on the date falling one month (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) after the date of such downgrade, or any such credit rating is withdrawn, it will within 10 Business Days after the occurrence of such downgrade or withdrawal (or end of the relevant month, as the case may be), grant to the Issuer a right of pledge on its Other Claims *vis-à-vis* the relevant Borrowers which are secured by the relevant All Moneys Security Rights (or where applicable Fixed Security Rights), unless an appropriate remedy to the satisfaction of the Security Trustee is found after having received Credit Rating Agency Confirmation.

If, after the pledge of the Other Claims, the Seller regains short-term credit ratings from the relevant Credit Rating Agency of at least the Requisite Credit Ratings and retains such Requisite Credit Ratings for a consecutive period of at least one month (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time), the Issuer and the Security Trustee will be obliged to release the rights of pledge vested on the Other Claims. In addition, each of the Issuer and the Security Trustee has undertaken to release such right of pledge on any Other Claims of a Borrower if (i) the principal amount outstanding in respect of the relevant Mortgage Receivable has been repaid in full together with all accrued interest and other secured amounts due under or in connection with the related Mortgage Loan or (ii) if all Mortgage Receivables that are secured by the same Related Security as such Other Claims have been retransferred to the Seller in accordance with the terms of the Mortgage Receivables Purchase Agreement.

The pledge (if implemented) will secure a special indemnity created in the Mortgage Receivables Purchase Agreement for this purpose, under which the Seller undertakes to pay to the Issuer an amount equal to its share in the foreclosure proceeds. Recourse in respect of the indemnity is limited to the Seller's share in the foreclosure proceeds. The indemnity will be immediately due and payable in case the relevant Borrower defaults (*in verzuim is*) in respect of the relevant Mortgage Receivable or the receivable(s) he owes to the Seller. If and to the extent the pledge is implemented and any foreclosure proceeds are applied in discharge of the indemnity, the Seller's pledged receivables *vis-à-vis* the relevant Borrower would be discharged. For this reason, the Issuer undertakes in the Mortgage Receivables Purchase Agreement that it will in such event retransfer to the Seller a part of the unsatisfied part of the relevant Mortgage Receivable for a principal amount corresponding to the principal amount of the Other Claims so applied.

The Mortgage Receivables Purchase Agreement provides that:

- (i) the Seller warrants and represents in relation to each Mortgage Receivable that:
 - (A) the relevant Mortgage Receivable was originated by the Seller (which includes origination by an originator (a) which has merged (*gefuseerd*) into the Seller or (b) whose relevant assets and liabilities have been acquired by the Seller pursuant to a demerger (*afsplitsing*)) and the Seller has not (nor has any such relevant merged originator or demerged originator (as the case may be)) transferred any receivable (including but not limited to any Other Claim) secured by the Related Security, which also secures such Mortgage Receivable, to any party other than the Issuer (or in the case of a merged originator or demerged originator (as the case may be), other than the Seller) or, in the case of Savings Mortgage Receivables, the relevant Savings Insurance Company; or
 - (B) the relevant Mortgage Receivable is secured by Related Security which does not include All Moneys Security Rights and any and all present and future receivables which are secured by the Fixed Security Rights forming part of the Related Security, together with any and all contractual relationships (*rechtsverhoudingen*) from which receivables have arisen or may arise which are or will be secured by such Fixed Security Rights, have, together with all Related Security, been transferred to the Seller; and
- (ii) if (a) the Seller transfers any Other Claims *vis-à-vis* the relevant Borrowers which are secured by the relevant All Moneys Security Rights (or where applicable Fixed Security Rights), it will simultaneously transfer its corresponding obligations and rights under the intercreditor arrangement to the relevant transferee and (b) the Issuer transfers a Mortgage Receivable to any transferee other than the Seller, it is entitled to transfer its corresponding rights and obligations under the intercreditor arrangement to the relevant transferee. In addition, the Seller will ensure that upon a transfer as referred to in (a), the relevant transferee (other than any transferee that is a subsidiary (*dochtermaatschappij*) of ING Groep N.V.) shall immediately pledge to the Issuer such Other Claims if such transferee's credit ratings are less than the Requisite Credit Ratings, or if such transferee does not have any long-term credit rating assigned to it.

In the Mortgage Receivables Purchase Agreement, the Seller furthermore covenants, among other things, that if it makes any Further Advance under the Mortgage Conditions relating to a Mortgage Receivable, then on the first following Mortgage Collection Payment Date, the Seller will offer such Further Advance Receivable for sale and assignment to the Issuer for an amount equal to the Gross Outstanding Principal Balance of such Further Advance Receivable as at the relevant Cut-off Date. Until the Notes Payment Date immediately preceding the First Optional Redemption Date, the Issuer is obliged to accept each such offer of Further Advance Receivables, on the condition that the purchase of such Further Advance Receivable does not result in a breach of any of the Additional Purchase Conditions. If the purchase of such Further Advance Receivable would, if completed, result in a breach of any of the Additional Purchase Conditions then the Issuer will not be obliged to purchase such Further Advance Receivable and will instead be obliged to sell, and the Seller will be obliged to repurchase and accept reassignment of, all Mortgage Receivables relating to the Mortgage Loan in respect of which the relevant Further Advance was granted.

The Issuer will not purchase any Mortgage Receivables other than Further Advance Receivables from the Seller following the acquisition of the Initial Portfolio on the Closing Date. The Initial Purchase Price for any Further Advance Receivable will be funded from the Available Principal Funds.

Set-off by Borrowers

Notwithstanding the assignment and pledge of the Mortgage Receivables to the Issuer and Security Trustee, respectively, the Borrowers may be entitled to set off the relevant Mortgage Receivable against a claim (if any) they may have against the Seller, such as (i) counterclaims resulting from a current account relationship, (ii) counterclaims resulting from securities issued by the Seller (e.g. *ING Garantiebiljetten*), (iii) counterclaims resulting from damages incurred by a Borrower as a result of acts performed by the Seller, and, depending on the circumstances, (iv) other counterclaims such as counterclaims (a) relating to a Construction Deposit, (b) resulting from deposits that pursuant to the

terms of a relevant Investment Mortgage Loan have been made by the Borrower in a savings account maintained in his name with the Seller which is connected to his securities account, deposits that pursuant to the terms of a relevant Bank Savings Mortgage Loan have been made by the Borrower in the related Bank Savings Account, or deposits that have been made by the Borrower in any other account maintained in his name with the Seller, (c) relating to an employee agreement with the Borrower as employee and (d) under the Mortgage Conditions relating to a Revolving Credit Mortgage Loan (for example, because of non-compliance by the Seller with its obligations under the relevant Mortgage Conditions).

In the absence of contractual provisions expanding statutory set-off possibilities, mutuality of claims is one of the requirements for set-off to be allowed: the parties have to be each other's creditor and debtor. Following an assignment of a Mortgage Receivable by the Seller to the Issuer, the Seller would no longer be the creditor of the Mortgage Receivable. However, for as long as the assignment has not been notified to the relevant Borrower, the Borrower remains entitled to set off the Mortgage Receivable as if no assignment had taken place. After notification of the assignment or the pledge, the relevant Borrower can still invoke set-off pursuant to article 6:130 of the Dutch Civil Code. On the basis of such provision a Borrower can invoke set-off against the Issuer (and the Security Trustee as pledgee) if the Borrower's claim against the Seller (if any) stems from the same legal relationship as the Mortgage Receivable (such as the Borrower's right to receive payments from the Bank Savings Account stemming from the same legal relationship as the related Bank Savings Mortgage Receivable) or became due and payable before the notification. In addition, the possibility cannot be excluded that on the basis of an analogous interpretation of article 6:130 of the Dutch Civil Code, a Borrower will be entitled to invoke set-off against the Issuer (or the Security Trustee) if prior to the notification, the Borrower was either entitled to invoke set-off against the Seller (e.g. on the basis of article 53 of the Dutch Bankruptcy Code (*Faillissementswet*)) or had a justified expectation that he would be entitled to such set-off against the Seller.

Some of the Mortgage Conditions provide for a waiver by the Borrower of his rights of set-off against the Seller. However, the waiver of set-off by a Borrower could be voided pursuant to Dutch contract law and may therefore not be enforceable. Some of the standard form mortgage documentation provide for a right for the Borrower to, subject to certain conditions, set off claims it may have *vis-à-vis* the Seller with claims that the Seller has against the Borrower pursuant to the relevant Mortgage Loan. The Mortgage Receivables Purchase Agreement provides that if a Borrower sets off amounts due to it by the Seller against the relevant Mortgage Receivable, the Seller will pay to the Issuer an amount equal to the amount so set-off.

In respect of Bank Savings Mortgage Loans, amounts standing to the credit of a Bank Savings Account will if the deposit guarantee scheme is activated in respect of the Bank Savings Participant by DNB or the Bank Savings Participant is subjected to emergency regulations (*noodregeling*) or declared bankrupt (*failliet*), by operation of law, be set-off against the related Bank Savings Mortgage Loan, irrespective of whether the Bank Savings Mortgage Loan is owed to ING (as Bank Savings Participant) or a third party, such as the Seller or the Issuer.

To mitigate the set-off risk relating to Bank Savings Mortgage Receivables ING will enter into the Bank Savings Participation Agreement on the Signing Date. Pursuant to the Bank Savings Participation Agreement, an Initial Settlement Amount and Further Settlement Amounts will be payable by ING as Bank Savings Participant to the Issuer in return for a Participation. If the relevant Borrower invokes set-off, set-off is applied by operation of law or for any reason set-off is applied in relation to any part of the relevant Bank Savings Deposit against any Mortgage Receivable, the relevant Participation of ING will be reduced by an amount equal to such amount so off-set.

To mitigate the risk of set-off by a Borrower of a Mortgage Receivable against a claim he may have against the Seller for a cash deposit (other than Bank Savings Deposits and Construction Deposits) held by the Seller (if, for example, the Seller becomes subject to Insolvency Proceedings and cannot pay out such cash deposit (other than Bank Savings Deposits and Construction Deposits) to the Borrower), the Seller undertakes in the Mortgage Receivables Purchase Agreement to, in the event of a downgrade of the credit rating of the Seller's debt obligations below the Requisite Credit Rating, within 14 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) of such downgrade deposit cash collateral in the Deposit Ledger for an amount equal to the aggregate of all cash deposits (other than Bank Savings Deposits and Construction Deposits) it holds for all Borrowers in relation to any Mortgage Receivables.

Non-payment by insurer and Deduction Risk

Some of the Mortgage Receivables relate to Mortgage Conditions which are connected to a Mixed Insurance Policy. The Borrower of such a Mortgage Receivable does not repay principal during the term of the relevant Mortgage Loan, but instead, apart from paying a risk premium, invests capital premium under the Mixed Insurance Policy which consists of a savings part and/or an investment part, as the case may be. The intention is that at maturity, the principal proceeds of the savings or investments (if any) (the "**Savings/Investment Proceeds**") can be used to repay the Mortgage Loan, in whole or in part, following pay-out of the Savings/Investment Proceeds by the insurer. However, it is possible that the relevant insurer becomes subject to an Insolvency Proceeding or for any other reason does not (fully) pay out the Savings/Investment Proceeds. In cases where the Savings/Investment Proceeds are so lost and a Borrower is requested to repay the full principal amount of the relevant Mortgage Loan, the Borrower may invoke defences purporting to establish that an amount equal to the lost Savings/Investment Proceeds is deducted from the Mortgage Receivable he owes to the Issuer (the risk that such a defence is successfully invoked is hereinafter referred to as the "**Deduction Risk**").

The Issuer has been advised that a Borrower's relationships with the Seller and insurer are in principle two separate relationships. The Issuer has also been advised that under Dutch law generally a range of defences is available to the Borrower, but that in cases as described above, the Borrower's defence is likely to focus on information provided by or on behalf of the Seller which may have led the relevant Borrower to believe that he was not entering into two separate relationships. In this respect, a general factor which to a certain extent increases the Deduction Risk, is that all Borrowers are consumers, many of whom may have limited or no legal knowledge. On this basis the Issuer has been advised that insofar as the Deduction Risk is concerned, the products to which the Mortgage Receivables relate can generally be divided into five categories:

1. *Products with no investment part and no Mixed Insurance Policy*

Certain Mortgage Receivables do not relate to any investment product or Mixed Insurance Policy. Under or pursuant to the Mortgage Receivables Purchase Agreement, the Seller warrants and represents in relation to each Mortgage Receivable which is related to an Interest-only Mortgage Loan, an Annuity Mortgage Loan, a Linear Mortgage Loan, a Bank Savings Mortgage Loan or a Revolving Credit Mortgage Loan, that the relevant Mortgage Receivable does not relate to any investment product or Mixed Insurance Policy. Therefore, provided that these representations and warranties are correct, the Deduction Risk does not apply to Mortgage Loans containing no savings, investment part or Mixed Insurance Policy.

2. *Products with investment part (and no Mixed Insurance Policy)*

Certain Mortgage Receivables do not relate to any Mixed Insurance Policy but relate to a securities account agreement between the relevant Borrower and:

- an investment firm (*beleggingsonderneming*) in the meaning ascribed thereto in the Wft, being either a broker (*bemiddelaar*) or an asset manager (*vermogensbeheerder*); or
- a bank.

The securities account agreement provides for a securities account maintained in the name of the relevant Borrower with the relevant investment firm or bank. The Issuer has been advised that by law:

- the investment firm is obliged to administer the securities through a bank (see the next paragraph) or a separate securities giro (*beleggersgiro*); and
- the bank is obliged to administer the securities through a separate depositary vehicle unless the transfer of any such securities is subject to the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*), in which case the bank can administer such securities itself.

The Issuer has been advised that this means that the relevant Borrower is expected to be investing through a bankruptcy remote securities account arrangement. Should the relevant

investment firm or bank not be able to meet its obligations towards the Borrowers, this could lead to set-off or defences by Borrowers being invoked.

Under or pursuant to the Mortgage Receivables Purchase Agreement, the Seller warrants and represents in relation to each Mortgage Receivable which is related to an Investment Mortgage Loan, that (i) the relevant Mortgage Receivable does not relate to any Mixed Insurance Policy and (ii) the relevant securities account is maintained in the relevant Borrower's name with an investment firm or bank as abovementioned. Therefore, provided that these representations and warranties are correct, the Deduction Risk does not apply to Mortgage Loans containing only an investment part which have no Mixed Insurance Policy.

The Issuer has been advised that for Mortgage Receivables of this category in respect of which deposits have been made by the Borrower in a savings account maintained in his name with the Seller which is connected to his securities account such Borrower may be entitled to set off the relevant Mortgage Receivable against the claims he may have against the Seller in respect of such deposits made into his accounts even in circumstances where the Mortgage Receivable is transferred to the Issuer (see also the paragraph named *Set-off by Borrowers* above). The Mortgage Receivables Purchase Agreement provides that (i) if a Borrower sets off amounts due to him by the Seller against the relevant Mortgage Receivable, the Seller will pay to the Issuer an amount equal to the amount so set-off and (ii) to mitigate the risk of set-off by a Borrower of a relevant Mortgage Receivable against a claim it may have against the Seller for a cash deposit (other than Bank Savings Deposits and Construction Deposits) held by the Seller, the Seller will, in the event of a downgrade of the credit rating of the Seller's debt obligations below the Requisite Credit Rating, within 14 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) of such downgrade deposit cash collateral in the Deposit Ledger for an amount equal to the aggregate of all cash deposits (other than Bank Savings Deposits and Construction Deposits) it holds for all Borrowers in relation to any Mortgage Receivables.

3. *Products with Mixed Insurance Policy where Borrower selects insurer*

Certain Mortgage Receivables relate to a Mixed Insurance Policy between the relevant Borrower and an insurer chosen by the Borrower (and approved by the Seller). The Mixed Insurance Policy provides for (a) a risk element for which risk premium is paid and (b) a capital element for which capital premium is paid and which consists of a savings part and/or an investment part, as the case may be. The insurer keeps the savings and/or investments in its own name. The Issuer has been advised that for Mortgage Receivables of this category, the Deduction Risk cannot be excluded, as there may be specific circumstances which justify an erroneous impression of the relevant Borrower that he was not entering into two separate relationships. For example, (i) sales people or sales materials may have created an impression (or sales people may have allowed to subsist an apparent impression) with the Borrower that his payments of capital premium were 'as good as' repayments of the relevant Mortgage Loan or that the Borrower could not himself choose the relevant insurer and/or (ii) the insurance conditions may have been printed on the letterhead of, or otherwise contain eye catching references to, the Seller (or *vice versa*). However, the Issuer has been advised that absent such specific circumstances, it is unlikely for the Deduction Risk to apply to Mortgage Receivables of this category. As the Borrower selects an insurer of his own choice (subject to prior approval by the Seller), this emphasises that it concerns two separate relationships.

Under or pursuant to the Mortgage Receivables Purchase Agreement, the Seller warrants and represents in relation to each Mortgage Receivable which is related to a Life Mortgage Loan falling under this category 3 that (i) the relevant Mixed Insurance Policy and the relevant Life Mortgage Loan (other than a Life Mortgage Loan in respect of which the related Mixed Insurance Policy is entered into by the Borrower with a Savings Insurance Company) are not offered as one product and (ii) the relevant Borrowers are not obliged to enter into a Mixed Insurance Policy with an insurer which is a group company of the Seller and are free to choose the insurer (subject to prior approval by the Seller).

The Deduction Risk for Mortgage Receivables relating to a Life Mortgage Loan falling under this category 3 in respect of which the related Mixed Insurance Policy is entered into by the Borrower with a Savings Insurance Company will not be catered for.

4. *Products with Mixed Insurance Policy (but no switch element) where Seller pre-selects insurer*

Certain Mortgage Receivables relate to a Mixed Insurance Policy between the relevant Borrower and an insurer pre-selected by the Seller. The Mixed Insurance Policy provides for (a) a risk element for which risk premium is paid and (b) a capital element for which capital premium is paid and which consists of a savings part and/or an investment part, as the case may be. The insurer keeps the savings and/or investments in its own name. The Issuer has been advised that for Mortgage Receivables of this category, the Deduction Risk cannot be excluded, as there may be specific circumstances which justify an erroneous impression with the relevant Borrower that he was not entering into two separate relationships. For example, sales people or sales materials may have created an impression (or sales people may have allowed to subsist an apparent impression) with the Borrower that his payments of capital premium were 'as good as' repayments of the relevant Mortgage Loan. The Issuer has been advised that, although such specific circumstances may be absent, in general there may still be a certain Deduction Risk for Mortgage Receivables of this category. As the Borrower has no option to choose an insurer, this could, possibly with other circumstances, have led the Borrower to believe that he was not entering into two separate relationships. Other relevant circumstances include whether:

- the Mortgage Conditions and the Mixed Insurance Policy, respectively, or (other) documents or general terms and conditions pertaining thereto, have been printed on the letterhead of, or otherwise contain eye catching references to, the insurer or the Seller, respectively;
- the representative of the Seller also represents the insurer (or *vice versa*), for example in taking care of the medical acceptance of the Borrower or otherwise in entering into, executing or carrying out the Mixed Insurance Policy or the Mortgage Conditions;
- the insurer is, or was when entering into the agreements, an affiliate of or otherwise associated with the Seller; and/or
- as is the case in respect of Savings Mortgage Loans, the interest base applicable to the savings is linked to the interest base applicable to the relevant Mortgage Loan.

Under or pursuant to the Mortgage Receivables Purchase Agreement, the Seller warrants and represents in relation to each Mortgage Receivable which is related to a Life Mortgage Loan and a Mixed Insurance Policy where an insurer is pre-selected by the Seller that (i) the relevant Mixed Insurance Policy and the relevant Life Mortgage Loan (other than a Life Mortgage Loan in respect of which the related Mixed Insurance Policy is entered into by the Borrower with a Savings Insurance Company) are not offered as one product and (ii) the guaranteed yield of the capital/investment element under the Mixed Insurance Policy is not linked to the interest base applicable to the relevant Mortgage Loan. The Deduction Risk for Mortgage Receivables relating to a Life Mortgage Loan falling under this category 4 in respect of which the related Mixed Insurance Policy is entered into by the Borrower with a Savings Insurance Company will not be catered for.

The Deduction Risk will be catered for as follows in relation to Savings Mortgage Loans. Insurance Savings Participation Agreements have been entered into between an Insurance Savings Participant, the Issuer and the Security Trustee and signed for acknowledgement and acceptance by the Seller in relation to Savings Mortgage Receivables. Pursuant to the Insurance Savings Participation Agreements relating to any Savings Mortgage Receivables, an Initial Settlement Amount and Further Settlement Amounts will be payable by the relevant Insurance Savings Participant to the Issuer in return for an Insurance Savings Participation. If the relevant Borrower invokes against the Issuer that he may deduct lost Savings/Investment Proceeds from the relevant Savings Mortgage Receivable, the relevant Insurance Savings Participation of the relevant Insurance Savings Participant (who would be in default under the relevant Mixed Insurance Policy) will be reduced by an amount equal to such lost Savings/Investment Proceeds.

Investment products

Some of the Mortgage Receivables relate to Mortgage Conditions which are connected to an investment product, i.e. Investment Mortgage Loans and Life Mortgage Loans. The Borrower of such a Mortgage Receivable does not repay principal during the term of the relevant Mortgage Loan, but instead invests in the investment product (where applicable combined with a Mixed Insurance Policy). The intention is that at maturity, the principal proceeds of the investment can be used to repay the Mortgage Loan, in whole or in part. However, it is possible that the value of the investment will have reduced considerably and will be insufficient to repay the loan in full. In addition to this general risk, there might in such circumstances be a risk that the Borrower successfully claims that he was not properly informed of the risks involved in making the investment and, for example, that therefore he may deduct an amount equal to the amount by which the outstanding principal amount of the relevant Mortgage Loan exceeds the value of the investments, from the Mortgage Receivable he owes to the Issuer or he may claim a breach of contract (*wanprestatie*) or tort (*onrechtmatige daad*) or he may dissolve (*ontbinden*) or nullify (*vernietigen*) the relevant contract.

Some of the Mortgage Receivables are linked to Mixed Insurance Policies with an investment element (*beleggingsverzekeringen*), i.e. Life Mortgage Loans. The Dutch insurance industry sold mixed insurance policies (such as the Mixed Insurance Policies) with an investment element to customers either directly or through intermediaries. Many Borrowers of Mortgage Receivables took out Mixed Insurance Policies with an investment element from (former) affiliates of ING Groep N.V. There may in certain circumstances be a risk that a Borrower successfully claims that he was not properly informed of the cost element applied by the relevant insurer to the investment premiums paid by such Borrower and/or that the insurer did not properly perform the related insurance agreement in applying the cost element and in either case, for example, that therefore he may terminate the Mixed Insurance Policy (which in turn could affect the collateral granted to the Seller (e.g. Beneficiary Rights and rights of pledge in respect of such Mixed Insurance Policy) and trigger early termination of the related Mortgage Loan) and/or deduct from, or set-off against, the Mortgage Receivable he owes to the Issuer an amount equal to any (additional) amount owed to him under or in respect of such Mixed Insurance Policy as a result of or in connection with such claim. Any such deduction or set-off risk may likely become more relevant in a scenario where the insurer and/or, depending on any involvement of the Seller in the marketing and sale of the relevant Mixed Insurance Policy, the Seller were liable in connection with any successful claim of the Borrower, and the insurer and/or the Seller did not indemnify the Borrower. Please see also the paragraphs named "*Set-off by Borrowers*" and "*Non-payment by insurer and Deduction Risk*" above.

Since the end of 2006, unit-linked products have received negative attention in the Dutch media, and from the Dutch Parliament, the AFM and consumer protection organisations. Costs of unit-linked products sold in the past are perceived as too high and Dutch insurers are in general being accused of being less transparent in their offering of such unit-linked products. The criticism on unit-linked products led to the introduction of compensation schemes by Dutch insurance companies that have offered unit-linked products. ING's (former) Dutch affiliates have issued, sold or advised on approximately one million individual unit-linked policies. There has been for some time, and there continues to be political, regulatory and public attention focused on the unit-linked issue in general. Elements of unit-linked policies are being challenged or may be challenged on multiple legal grounds in current and future legal proceedings. There is a risk that one or more of those legal challenges will succeed.

The Issuer has been advised that the above risks largely depend on which specific information has been provided to the relevant Borrower through sales people and/or sales materials and that in this respect it is also relevant whether applicable statutory and contractual duties, including statutory duties to provide information to prospective investors, have been complied with. The risks described in this risk factor "*Investment products*" will not be catered for through the Transaction Documents. Under or pursuant to the Mortgage Receivables Purchase Agreement, the Seller warrants and represents in relation to an Investment Mortgage Loan relating to a Mortgage Receivable where the related investment product is offered by the Seller itself (and not by a third party securities institution or bank) that such investment product has been offered in accordance with all applicable laws and legal requirements prevailing at the time of origination, including those on the information that is to be provided to prospective investors.

Security rights by Borrowers

Some of the Mortgage Receivables relate to Mortgage Conditions which are connected to (i) an insurance policy with a risk, savings and/or investment element, (ii) a securities account, or (iii) a Bank Savings Account, as the case may be. All rights of such a Borrower in respect of such an insurance policy, a securities account or a Bank Savings Account, as the case may be, have been pledged to the Seller. The above considerations on pledge and insolvency, made in the context of pledges to the Security Trustee (see section 2.2 (*Security*)), apply *mutatis mutandis* to all Borrower Pledges and Mortgages granted by the Borrowers.

In particular, the Issuer has been advised that under Dutch law it is possible that the receivables purported to be pledged by the Borrowers in respect of insurance policies, qualify as future receivables. As mentioned above, if an asset is a future asset at the moment a bankruptcy, suspension of payments or debt restructuring arrangement (*schuldsaneringsregeling*) takes effect in relation to the relevant pledgor, such assets are no longer capable of being pledged (unless the liquidator would agree). The Issuer has been advised that under Dutch law there is no general rule that is readily applicable to determine whether a claim arising from an insurance policy is an existing or a future claim. As a result, it is uncertain whether and to what extent the pledges of receivables under said insurance policies by the Borrowers are effective. The Issuer has been advised that, in respect of capital insurances (*sommenverzekeringen*) it is likely that the beneficiary's claims against the insurer corresponding with premiums which have already been paid to the insurer are existing claims, while claims relating to periods for which no premiums have yet been paid are likely to be future claims. The Issuer has been advised that in respect of risk insurances (*schadeverzekeringen*) it is uncertain whether the beneficiary's claim can be characterised as an existing claim before the insured event occurs.

Beneficiary Rights under Insurance Policies

Some of the Mortgage Receivables result from Mortgage Conditions which are connected to an insurance policy with a risk, savings and/or investment element. In addition to being granted a pledge of rights under insurance policies, as abovementioned, either:

- the Seller has been appointed as beneficiary under the relevant insurance policy; or
- if another person has been appointed as beneficiary, that person has irrevocably authorised the relevant insurer to pay out the insurance proceeds to the Seller.

With respect to the first alternative, the Issuer has been advised that under Dutch law it is uncertain whether Beneficiary Rights will follow the relevant Mortgage Receivable upon assignment thereof to the Issuer (and subsequent pledge thereof to the Security Trustee). For this purpose the Beneficiary Rights will, insofar as they will not follow the relevant Mortgage Receivable upon assignment, themselves be assigned by the Seller to the Issuer by way of silent assignment and be pledged by the Issuer to the Security Trustee by way of silent pledge. In the Mortgage Receivables Purchase Agreement the Seller undertakes to, upon the occurrence of an Assignment Notification Event, notify the relevant insurer of the (purported) assignment (save that each Savings Insurance Company will execute a Beneficiary Waiver Agreement prior to the Closing Date and will be notified through the relevant Beneficiary Waiver Agreement and, thereafter, through each Deed of Assignment and Pledge). However, the Issuer has been advised that under Dutch law it is uncertain whether such assignment (and subsequent pledge) will be effective.

Insofar as the transfer of the Beneficiary Rights as abovementioned is not effective, the Seller will:

- in each Deed of Assignment and Pledge to be executed with the Issuer pursuant to the Mortgage Receivables Purchase Agreement to the extent possible, under the condition subsequent (*ontbindende voorwaarde*) that the relevant Mortgage Receivable is retransferred to the Seller, (a) appoint the Issuer as beneficiary in its place and (b) to the extent such appointment is ineffective, waive its Beneficiary Rights. The Issuer has been advised that it is uncertain whether such appointment and/or waiver is effective. If such conditional appointment is ineffective and such conditional waiver is effective, either the relevant Borrower, or any other person ranking behind the Seller as beneficiary (a "**Second Beneficiary**"), will become the beneficiary under the relevant insurance policy. Under or pursuant to the Mortgage Receivables Purchase Agreement the Seller warrants and represents that if the relevant Mortgage Receivable

results from a Life Mortgage Loan or Savings Mortgage Loan, all receivables under the relevant Mixed Insurance Policy have been validly pledged by the relevant Borrower to the Seller, which pledge has been notified to the relevant insurer. As mentioned above, a pledge is in principle an accessory right, so that upon a transfer of the relevant Mortgage Receivable to the Issuer, the Issuer will in principle become entitled to (a share in) the pledge, if following the waiver of the Beneficiary Rights by the Seller, the Borrower has become the beneficiary. If, however, following a waiver of Beneficiary Rights by the Seller, a Second Beneficiary has become the beneficiary, the pledge by the Borrower will not be effective; and

- in the Mortgage Receivables Purchase Agreement undertake to use its reasonable endeavours to procure that (1) a Beneficiary Waiver Agreement is entered into with the Issuer, the Security Trustee and each Savings Insurance Company on or around the Closing Date, and (2) a beneficiary waiver agreement on terms similar to a Beneficiary Waiver Agreement is, or is put, in effect between itself, the Issuer, the Security Trustee and each of the Insurance Companies other than each Savings Insurance Company upon the occurrence of an Assignment Notification Event, in which it is, among other things, agreed that to the extent necessary:
 - (i) the insurer (a) accepts the (purported) (conditional) appointment of the Issuer as beneficiary in the Seller's place and (b) to the extent such appointment is ineffective, accepts the (conditional) waiver by the Seller of its Beneficiary Rights; and
 - (ii) the Seller and insurer will use their reasonable endeavours to obtain the co-operation from all relevant Borrowers and, where applicable, Second Beneficiaries to change the Beneficiary Rights in favour of the Issuer.

The Seller may not be able to enter into a beneficiary waiver agreement without the co-operation of the liquidator, if and to the extent such Assignment Notification Event has occurred as a result of the Seller having become subject to any Dutch Insolvency Proceedings.

With respect to the second alternative, the Issuer has been advised that it is uncertain whether the Borrower Insurance Proceeds Instruction entails that the insurer should pay the insurance proceeds to the Seller or, following assignment of the relevant Mortgage Receivable, to the Issuer, and that this depends on the interpretation of the Borrower Insurance Proceeds Instruction. Insofar as the Borrower Insurance Proceeds Instructions do not entail that the relevant insurer should, following assignment of the relevant Mortgage Receivable, pay the insurance proceeds to the Issuer, the Issuer, the Security Trustee, the Seller and each Savings Insurance Company will furthermore agree in the relevant Beneficiary Waiver Agreement that the Seller and the relevant Savings Insurance Company will use their reasonable endeavours to obtain the co-operation from all relevant Borrowers and (other) beneficiaries to change the Borrower Insurance Proceeds Instructions in favour of the Issuer.

If:

- in the case of the first alternative (a) the transfer of the Beneficiary Rights is not effective, (b) the (conditional) appointment of the Issuer as beneficiary in the place of the Seller is not effective and (c) the (conditional) waiver of Beneficiary Rights by the Seller is ineffective or, if it is effective, results in a Second Beneficiary having become the beneficiary; or
- in the case of the second alternative, the Borrower Insurance Proceeds Instructions do not entail that insurance proceeds should be paid to the Issuer,

and, in either case, (i) in the case of Insurance Companies other than the Savings Insurance Companies, no beneficiary waiver agreement as described above will be entered into with the relevant Insurance Company and/or (ii) the relevant Borrowers, Second Beneficiaries and/or (other) beneficiaries do not co-operate as described above, then the proceeds under the relevant insurance policies could, as the case may be, either be paid to:

- the Seller, in which case the Seller will be obliged to on-pay the proceeds to the Issuer or the Security Trustee, as the case may be. If the Seller breaches such payment obligation, for example because the Seller is subject to an Insolvency Proceeding, this

may result in the proceeds not being applied in reduction of the relevant Mortgage Receivable and in a Deduction Risk; or

- the Second Beneficiary or the (other) beneficiary, which may result in the proceeds not being applied in reduction of the relevant Mortgage Receivable.

Interest reset rights

The Issuer has been advised that it is uncertain whether any interest reset right will transfer to the Issuer with the assignment of the relevant Mortgage Receivable. If such interest reset right remains with the Seller despite the assignment, this means that in case the Seller becomes subject to a Dutch Insolvency Proceeding, the co-operation of the liquidator in insolvency would be required to reset the interest rates (unless such right is transferred to the Issuer prior to the Dutch Insolvency Proceeding taking effect, but this may require the co-operation of the Borrower).

Construction Deposits

Certain Mortgage Receivables result from the Mortgage Conditions under which the relevant Borrower has requested part of the loan to be disbursed into a blocked deposit account, specifically opened in his name for such purpose, in anticipation of construction or improvement costs to be incurred by him at a later stage in connection with the Mortgaged Asset. The intention is that when the applicable conditions are met, the Construction Deposit is applied towards the relevant construction or improvement costs of the Borrower and/or in repayment of the relevant part of the Mortgage Loan. In the Mortgage Receivables Purchase Agreement it is agreed that in cases as abovementioned, the full Mortgage Receivable will be transferred to the Issuer. The Construction Deposits are held with the Seller. There is a risk that the Seller becomes subject to an Insolvency Proceeding and that the Seller cannot pay out the Construction Deposits. If this happens a Borrower may be allowed to set off his receivable in respect of the Construction Deposit against the related Mortgage Receivable.

The Issuer will be entitled to withhold from each Initial Purchase Price an amount equal to the related Construction Deposit, if applicable. Such amount will be deposited in the Construction Deposit Account. On each Notes Payment Date the Issuer will pay any remaining part of an Initial Purchase Price to the Seller following distribution by the Seller of a corresponding part of the relevant Construction Deposit to the relevant Borrower.

Pursuant to the relevant Mortgage Conditions, each Construction Deposit must be paid out within 24 months. After such period, any remaining part of the relevant Construction Deposit will either (i) be paid out by the Seller to the relevant Borrower and consequently the remaining part of the Initial Purchase Price will be paid by the Issuer to the Seller or (ii) be set-off against the Mortgage Loan, up to the amount of the remaining part of the relevant Construction Deposit, in which case the Issuer shall have no further obligation towards the Seller to pay the remaining part of the Initial Purchase Price in respect of the relevant Mortgage Receivable and any amount equal to such part of the Initial Purchase Price will be transferred from the Construction Deposit Account into the Issuer Collection Account and be credited to the Redemption Ledger.

Risk that the mortgage rights on long lease cease to exist

The mortgage rights securing the Mortgage Loans may be vested on a long lease (*erfpacht*), as further described in section 6.2 (*Description of Mortgage Loans*).

A long lease will, among other things, end as a result of expiration of the long lease term (in case of lease for a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease in the event the leaseholder has not paid the remuneration due for a period exceeding two consecutive years or seriously breaches (*in ernstige mate tekortschieten*) other obligations under the long lease. In case the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the mortgage right will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder on the landowner for such compensation. The amount of the compensation will, among other things, be determined by the conditions of the long lease and may be less than the market value of the long lease. The long lease also terminates when the leaseholder gets full legal title to the property (*vermenging*). In such event the Mortgage will remain in effect but on execution only a long lease can be sold (not the full legal title due

to the *nemo plus* rule). The replacement of the landowner may have an adverse effect on the market value of the long lease.

In cases where a mortgage is vested on long lease, a paragraph is added to the relevant mortgage deed, providing that the relevant loan becomes immediately due and payable in the event the long lease is terminated or the leaseholder has not paid the remuneration or seriously breaches other obligations under the long lease. When underwriting a loan to be secured by a mortgage on a long lease, the Seller has taken into consideration the conditions of the long lease, including the term thereof in comparison to the proposed term of the loan.

Risks of losses associated with declining values of Mortgaged Assets and/or Mortgage Receivables

The security created in favour of the Security Trustee under the Issuer Mortgage Receivables Pledge Agreement may be affected by, among other things, a decline in the value of the Mortgaged Assets or a decline in the market value of the Mortgage Receivables. No assurance can be given that values of the Mortgaged Assets remained or will remain at the level at which they were on the date of origination of the related Mortgage Loans. Please refer to section 6.1 (*Stratification Tables*) for an overview of the loan to foreclosure value, loan to indexed foreclosure value, loan to market value and loan to indexed market value of the Provisional Portfolio as at 31 March 2016. In addition, a forced sale of the Mortgaged Assets will in most cases, compared to a private sale, result in lower proceeds of the Mortgaged Assets and/or Mortgage Receivables. A decline in value may result in losses to the Noteholders if such security is required to be enforced. The Seller will not be liable for any losses incurred by the Issuer in connection with the Mortgage Receivables.

Underwriting guidelines may not identify or appropriately assess repayment risks

The Seller has represented to the Issuer and the Security Trustee that, when originating Mortgage Loans it did so in accordance with underwriting guidelines it has established and, in certain cases, based on exceptions to those guidelines by way of manual overrules. The guidelines may not have identified or appropriately assessed the risk that the interest and principal payments due on a Mortgage Loan will be repaid when due, or at all, or whether the value of the Mortgaged Asset will be sufficient to otherwise provide for recovery of such amounts. To the extent exceptions were made to the Seller's underwriting guidelines in originating a Mortgage Loan, those exceptions may increase the risk that principal and interest amounts may not be received or recovered and compensating factors, if any, which may have been the premise for making an exception to the underwriting guidelines may not in fact compensate for any additional risk.

Limited recourse to the Seller

Neither the Issuer nor the Security Trustee will undertake any investigations, searches or other actions on any Mortgage Receivable and will rely instead on the representations and warranties given in the Mortgage Receivables Purchase Agreement by the Seller in respect of the Mortgage Receivables.

There is no further recourse to the Seller in respect of a breach of a representation or warranty. There is no recourse to the assets of the Seller if an Event of Default occurs.

The Mortgage Receivables Purchase Agreement provides that if at any time after the Closing Date (or relevant Transfer Date as the case may be) any Mortgage Receivables Warranty proves to have been untrue or incorrect in any material respect, the Seller shall within 14 calendar days of receipt of written notice thereof from the Issuer (i) remedy such breach, if capable of being remedied or (ii) repurchase and accept re-assignment of the relevant Mortgage Receivable on the first following Mortgage Collection Payment Date.

Changes to tax deductibility of interest may result in an increase of defaults

The Dutch tax system allows borrowers to deduct, subject to certain limitations, mortgage interest payments for owner-occupied residences from their taxable income.

The period allowed for deductibility is restricted to a term of 30 years and it only applies to mortgage loans secured by owner occupied properties (primary residence). Since 2004, the tax deductibility of mortgage interest payments has been restricted under the so-called Additional Borrowing regulation (*Bijleenregeling*). On the basis of this regulation, if a home owner acquires a new home and realises a

profit on the sale of his old home, the home owner is considered to invest this net profit into the new home. Broadly speaking, the net profit is deducted from the value of the new home and mortgage loan interest deductibility is limited to the interest that relates to a maximum loan equal to the value of the new home less the net profit of the old home. Special rules apply to moving home owners that do not (immediately) sell their previous home.

As of 1 January 2013, interest deductibility in respect of newly originated mortgage loans is only available in respect of mortgage loans which amortize over 30 years or less and are repaid on at least an annuity basis and are actually paid off in compliance with a statutory formula.

In addition to these changes further restrictions on the interest deductibility came into effect on 1 January 2014. Under these rules, the income tax rate against which the mortgage interest may be deducted will be gradually reduced as of 1 January 2014. For taxpayers currently deducting mortgage interest, the interest deductibility will be reduced from 52 per cent. to 38 per cent. in 2042, so a 0.5 per cent.-point reduction per year. As of 1 January 2015 mortgage interest can be deducted by taxpayers at a rate of 50.5 per cent. (2016 rate).

These changes and any other or further changes in the tax treatment could ultimately have an adverse impact on the ability of borrowers to repay their Mortgage Receivables. In addition, changes in tax treatment may lead to different prepayment behaviour by Borrowers on their Mortgage Loans resulting in higher or lower prepayment rates of such Mortgage Loans. See also the paragraph named *Yield and prepayment risk* above. Finally, changes in tax treatment may have an adverse effect on the value of the Mortgaged Assets. See also the paragraphs named *Risks of Losses associated with declining values of Mortgaged Assets and/ or Mortgage Receivables* above.

Effect of deductibility and prepayment penalties on Mortgage Loans

Any other or further change to such deductibility and the right to deduct mortgage loan interest payments may among other things have an adverse effect on house prices and the rate of recovery on mortgage loans and, also depending on whether changes will be proposed to the treatment of existing mortgage loans, may result in an increase of defaults and/or an increase or decrease of prepayments and repayments. The fiscal incentives mentioned above resulted in a tendency amongst borrowers to opt for products that do not directly involve principal repayment. The most common mortgage loan types in The Netherlands are interest-only, savings, life and investment mortgage loans or a combination of these types. Under the interest-only, savings, life and investment types of mortgage loans no principal is required to be repaid during the term of the contract. Instead, except for interest-only mortgage loans, the Borrower makes payments into a savings account, towards capital insurance or into an investment fund. Upon maturity, amounts available pursuant to the savings accounts, the insurance contract or the investment funds are applied to repay the mortgage loans.

Prepayment penalties that are incorporated in mortgage loan contracts tend to lower prepayment rates in The Netherlands. Penalties are generally calculated as the net present value of the interest loss to the lender upon prepayment. Lower rates of prepayment may lead to slower repayments of the principal amount outstanding of mortgage loans in The Netherlands. As a result, the exposure of the Issuer to the Borrowers of the Mortgage Loans tends to remain high over time and the Issuer will have a similar position following the acquisition of the Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement. The Seller currently has a scheme in place which enables Borrowers to prepay their Mortgage Loan without incurring a penalty, provided that the value of the Mortgage Loan is higher than the value of the Mortgaged Asset at that time.

Defaulted Mortgage Receivables

The ability of the Issuer to repay the full amount under the Notes will depend on, among other things, the proceeds of the Mortgage Receivables. Borrowers may default on their obligations due under the Mortgage Receivables. Defaults may occur for a variety of reasons. The Mortgage Receivables are affected by credit, liquidity and interest rate risks. Various factors influence mortgage delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic or housing conditions, changes in tax laws, changes in mortgage lender conduct codes and prevailing underwriting and servicing criteria, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Other factors in Borrowers' individual, personal or

financial circumstances may affect the ability of Borrowers to make the required payments under the Mortgage Receivables. Loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies by and bankruptcies (*faillissementen*) of Borrowers or the Borrowers becoming subject to debt rescheduling arrangements (*schuldsaneringsregelingen*), and could ultimately have an adverse impact on the ability of Borrowers to make the required payments under the Mortgage Receivables. In addition, the ability of a Borrower to sell a Mortgaged Asset at a price sufficient to repay the amounts outstanding under that Mortgage Receivable will depend upon a number of factors, including the availability of buyers for that Mortgaged Asset, the value of that Mortgaged Asset and property values in general at the time.

Risks related to NHG Guarantees

Certain of the Mortgage Receivables have the benefit of an NHG Guarantee. Pursuant to the terms and conditions of the NHG Guarantee, Stichting WEW has no obligation to pay any loss (in whole or in part) incurred by a lender after a private or a forced sale of the mortgaged property if such lender has not complied with the terms and conditions of the NHG Guarantee. Under or pursuant to the Mortgage Receivables Purchase Agreement, the Seller warrants and represents in relation to each NHG Mortgage Loan Receivable that:

- (i) the NHG Guarantee is granted for the full amount of the relevant NHG Mortgage Loan Receivable outstanding at origination, and constitutes legal, valid and binding obligations of Stichting WEW, enforceable in accordance with such NHG Guarantee's terms;
- (ii) all terms and conditions (*Voorwaarden en Normen*) applicable to the NHG Guarantee at the time of origination of the related NHG Mortgage Loans were complied with; and
- (iii) the Seller is not aware of any reason why any claim under any NHG Guarantee, if applicable, in respect of the relevant NHG Mortgage Loan Receivable should not be met in full and in a customary manner.

Furthermore, if a Mortgage Receivable no longer has the benefit of an NHG Guarantee as a result of any action taken or omitted to be taken by the Seller, and, as a consequence thereof, such Mortgage Receivable would not meet the Eligibility Criteria, if tested at that time, then the Seller is obliged under the Mortgage Receivables Purchase Agreement to purchase and accept a reassignment of the relevant NHG Mortgage Loan Receivable on the first following Mortgage Collection Payment Date in accordance with the Mortgage Receivables Purchase Agreement.

The terms and conditions of an NHG Guarantee (irrespective of the type of redemption of the mortgage loan) stipulate that the guaranteed amount is reduced on a monthly basis by an amount which is equal to the amount of the monthly repayments plus interest as if the mortgage loan were to be repaid on a thirty year annuity basis. The actual redemption structure of a Mortgage Receivable can be different. In addition, in respect of mortgage loans originated after 1 January 2014, a deductible has been introduced which is applicable to claims under the NHG Guarantees. On any claim *vis-à-vis* Stichting WEW for a loss incurred, a deduction of 10% will be applied. This may result in the lender not being able to fully recover any loss incurred with Stichting WEW under the NHG Guarantee and consequently, in a Realised Loss.

Although the Credit Rating Agencies give credit to the existence of the NHG Guarantees in respect of the relevant Mortgage Loans in assigning credit ratings to the Class A Notes because of the perceived lower risks associated with such Mortgage Loans, the levels of credit enhancement applied to the Class A Notes achieved the same credit ratings as if no benefit was given to such Mortgage Loans in the Initial Portfolio at the time the credit rating is assigned.

Credit rating of the State of The Netherlands

The credit rating given to the Class A Notes by the Credit Rating Agencies is based in part on modelling which takes into account any NHG Guarantee granted in connection with the Mortgage Loans. NHG Guarantees are backed by the State of The Netherlands (see section 6.5 (*NHG Guarantee Programme*)). In the event that (i) the credit rating assigned to the State of The Netherlands is lowered by a Credit Rating Agency, or (ii) Stichting WEW, if it has a credit rating assigned to it, has that credit rating lowered by a Credit Rating Agency, this may result in a review by the Credit Rating Agencies of the

credit rating ascribed to the Class A Notes and could potentially result in a downgrade to the credit rating of the Class A Notes.

Risks that the foreclosure proceeds will be insufficient

As further described in section 6.3 (*Origination and Servicing*), valuations of the Mortgaged Assets have been obtained in the form of valuations by a qualified Dutch surveyor, valuations by the Dutch tax authorities in the context of the WOZ or contracts for construction/brochure price.

In general, a valuation represents the analysis and opinion of the person undertaking the valuation at the time that the relevant valuation is prepared. The valuation is not a guarantee, indication or assurance of the present or future value of any relevant Mortgaged Asset. There can be no assurance that a different person valuing any of the Mortgaged Assets would have arrived at the same or similar valuation attributable to the Mortgaged Asset associated with the Mortgage Receivable, even if such different person used the same approach and/or methodology to value such Mortgaged Asset.

Also, there is a risk that the valuation amounts determined in relation to a property, regardless of the type of valuation obtained, could be significantly higher than the actual amount recoverable from the sale of a property under a distressed or liquidation sale. In addition, in many real estate markets property values have declined since the time that the underlying valuations were obtained. Therefore, any underlying valuations of Mortgaged Assets may not be a true and accurate reflection of the current market value of such Mortgaged Assets. No revaluation of the Mortgaged Assets has taken place for the purpose of the issuance of the Notes and, unless expressly stated otherwise, all valuations quoted are dated within the last 6 months prior to the date of the origination of the relevant Mortgage Loan. Please refer to section 6.1 (*Stratification Tables*) for an overview of the loan to foreclosure value, loan to indexed foreclosure value, loan to market value and loan to indexed market value of the Provisional Portfolio as at 31 March 2016.

Accordingly, there is a risk that, on the enforcement of security over the relevant Mortgaged Asset not all amounts owing by a Borrower under a Mortgage Loan can be recovered from the proceeds of the foreclosure of the related Mortgaged Asset together with any proceeds of the enforcement of any other rights securing the Mortgage Receivable. If there is a failure to recover such amounts, this would result in a Realised Loss which may adversely affect the Notes.

EU directive on credit agreements for consumers relating to residential property

On 31 March 2011, the European Commission published a proposal for a directive on credit agreements relating to residential immovable property for consumers. The proposed directive applies to: (a) credit agreements secured by a mortgage or comparable security commonly used in a Member State on residential immovable property, or secured by a right relating to residential immovable property; and (b) credit agreements the purpose of which is to purchase or retain rights in land or in an existing or proposed residential building. The proposed directive does not apply to credit granted free of interest or other charges and to certain credit granted by an employer to its employees.

The proposed directive requires (among other things): standard information in advertising; standard precontractual information; adequate explanations to the borrower on the proposed credit agreement and any ancillary service; calculation of the annual percentage rate of charge in accordance with a prescribed formula; assessment of creditworthiness of the borrower; and a right of the borrower to make early repayment of the credit agreement. The proposed directive also imposes prudential and supervisory requirements for credit intermediaries and non-bank lenders. Member States shall be allowed to impose or maintain more stringent consumer protection laws.

On 4 February 2014 the directive was adopted by the European Parliament and the Member States will be required to implement the directive into national law before 21 March 2016. However, the Dutch Minister of Finance has announced that the Netherlands will not make this deadline. The Dutch Minister of Finance aims for the implementation of the directive into national law around the summer of 2016. In this respect, a legislative proposal to amend, among other things, the Wft and the Dutch Civil Code was published for consultation on 21 May 2015. The latest revised proposal was published on 7 March 2016. Until the directive is implemented into Dutch Law, it is not possible to tell what effect the implementation of the directive into Dutch law would have on the Mortgage Loans, the Seller, the Issuer and/or the Servicer and their respective businesses and operations.

2.6 SERVICING

The Servicer will be permitted to sub contract its servicing role to a third party servicer subject to any applicable conditions in the Servicing Agreement.

By acquiring the Mortgage Receivables, the Issuer is deemed to provide consumer credit, which is a licensable activity under the Wft. The Issuer can rely on an exemption from this licence requirement, if the Issuer outsources the servicing of the Mortgage Receivables and the administration thereof to an entity which is adequately licensed under the Wft to act as consumer credit provider or intermediary and which complies with certain information duties towards the Borrowers. Pursuant to the Servicing Agreement, the Issuer outsources the servicing and administration of the Mortgage Receivables to the Servicer. In the Servicing Agreement, the Servicer represents and warrants that it is, and covenants that it shall remain, adequately licensed under the Wft to act as consumer credit provider or intermediary and undertakes to comply with the information duties towards the Borrowers under or pursuant to the Wft. Furthermore, the Servicer has covenanted that it shall only engage any sub-contractor with due observance of the applicable rules under the Wft. If the Servicing Agreement is terminated, the Issuer will need to appoint a substitute Servicer which must be adequately licensed in order for the Issuer to keep the benefit of exemptive relief. Alternatively, the Issuer needs to obtain a licence itself. The Servicing Agreement stipulates that the Servicer may only terminate the Servicing Agreement if a substitute Servicer is appointed prior to such termination which holds the requisite licences, including being duly licensed under the Wft to act as consumer credit provider or intermediary.

If an event of default (which includes, subject to applicable grace periods, a payment default, breach of undertaking and Insolvency Proceedings in respect of the Servicer) occurs in respect of the Servicer under the Servicing Agreement which is continuing, then the Issuer and/or the Security Trustee will be entitled to terminate the appointment of the Servicer and appoint a substitute servicer in its place. There can be no assurance that a substitute servicer with sufficient experience of servicing and administering residential mortgage loans would be found who would be willing and able to service the Mortgage Receivables on the terms of the Servicing Agreement. The ability of a substitute servicer to perform fully the required services would depend, among other things, on the information, software and records available at the time of the appointment. Any delay or inability to appoint a substitute servicer may affect the ability of the Issuer to make payments under the Notes. If the Servicer ceases to be assigned at least the Requisite Credit Rating, then the Servicer shall use reasonable efforts to procure that the parties to the Servicing Agreement enter into a servicing agreement with a third party in such form as the Issuer and the Security Trustee shall reasonably require, within 60 calendar days after receipt of such request from the Security Trustee.

The Servicer does not have (or will not have, as applicable) any obligation itself to advance payments that Borrowers fail to make in a timely fashion. Noteholders will have no right to consent to or approve of any actions taken by a Servicer under a Servicing Agreement.

The Security Trustee is not obliged in any circumstances to act as a Servicer or to monitor the performance by any Servicer of its obligations.

2.7 GENERAL

Forecasts and Estimates

Forecasts and estimates in this Prospectus are forward looking statements. Such projections are speculative in nature and it can be expected that some or all of the assumptions underlying the projections will not prove to be correct or will vary from actual results. Consequently, the actual result might differ from the projections and such differences might be significant.

Different Capacities

ING acts in different capacities under the Transaction Documents, including as Issuer Account Bank, Issuer Administrator, Arranger, Lead Manager, Seller, Paying Agent, Servicer, Swap Counterparty, as purchaser of the Retained Notes and the Notes Purchaser. ING in acting in such capacities in connection with such transactions shall have only the duties and responsibilities expressly agreed to by it in its relevant capacity and shall not, by virtue of its acting in any other capacity, be deemed to have other duties or responsibilities or be deemed to hold a standard of care other than as expressly provided with respect to each such capacity.

Noteholders should therefore be aware that a conflict of interests could arise between the various roles of ING and that ING has no implicit or explicit obligation or duty to act in the best interests of the Noteholders when performing its various functions.

The Issuer has been advised that, as a matter of Dutch law, a party is not capable of contracting with itself. However, this general principle does not apply where such party (like ING) is acting with other parties (such as the Security Trustee and the Issuer).

3. PRINCIPAL PARTIES

3.1 ISSUER

Introduction

The issuer of the Notes is Orange Lion XV RMBS B.V., a private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*), incorporated under Dutch law, having its seat (*statutaire zetel*) in Amsterdam, The Netherlands and its registered address at Prins Bernhardplein 200, 1097 JB Amsterdam, The Netherlands and registered with the Chamber of Commerce (*Kamer van Koophandel*) under number 65866126. The telephone number of the Issuer is +31 20 521 4777.

The Issuer has been incorporated on 19 April 2016 as a special purpose vehicle for the purpose of purchasing the Mortgage Receivables, entering into and performing its obligations under the Transaction Documents and issuing the Notes.

Principal Activities

The objects clause in the Issuer's articles of association allows the Issuer to carry out the following activities:

- (a) to acquire, purchase, manage, dispose of and encumber claims (*vorderingen op naam*) deriving from or in connection with loans provided by a third party or third parties and to exercise all rights attached to the aforementioned claims;
- (b) to raise funds through the issuance of bonds, securities, or entering into loan agreements or similar agreements in order to acquire the claims referred to under (a);
- (c) to enter into loan agreements or to otherwise raise funds in order to comply with the obligations of the Issuer under or in connection with the bonds and/or securities referred to under (b);
- (d) the hedging of interest and other financial risks by entering into hedging arrangements such as interest and/or currency swap transactions and other swap transactions;
- (e) to invest, including the lending of funds, the assets of the Issuer;
- (f) to grant security in connection with the foregoing for itself or for third parties; and
- (g) to enter into agreements and/or other legal acts in connection with the foregoing and to exercise rights and to comply with its obligations under such agreements and legal acts.

The Issuer may do all such further acts that are related to the above or that are conducive thereto.

The Issuer has not engaged since its incorporation, and will not engage whilst the Notes remain outstanding, in any material activities other than activities which are incidental or ancillary to the foregoing as set out below under the paragraph "Issuer covenants".

Issuer Share Capital

The Issuer has an authorised share capital of EUR 100 which has been issued in full and is fully paid. The authorised share capital is divided into one hundred (100) ordinary shares with a nominal value of one euro (EUR 1) each, numbered 1 up to and including 100. All shares of the Issuer are registered shares and are held by the Shareholder.

Director

The Issuer will enter into the Issuer Management Agreement with Intertrust Management B.V. as Director on or around the date hereof, pursuant to which the Director agrees to provide corporate services to the Issuer. The Issuer Management Agreement will provide that it will continue until terminated by either of the parties in writing, and that the Issuer may terminate the Issuer Management Agreement with a notice period of 14 calendar days and the Issuer's Director may retire from its obligations under the Issuer Management Agreement by giving at least two months' notice in writing to the Issuer, all subject to the letter of undertaking to be dated on or about the date hereof by, among

others, the Issuer, the Director and the Security Trustee. In such letter of undertaking, the parties thereto undertake with the Security Trustee that, among other things, for so long as the Issuer has any liabilities under the Notes or any relevant Transaction Documents (i) the Issuer Management Agreement will not be terminated, assigned, novated, varied or amended without prior written consent from the Security Trustee and (ii) the Director will not resign except in the situation that suitable person(s), entities, trust(s) or administration office(s) reasonably acceptable to the Security Trustee has or have been contracted to act as managing director(s) of the Issuer. The following table sets out the Director and its business address and occupation.

Name	Business Address	Business Occupation
Intertrust Management B.V.	Prins Bernhardplein 200, 1097 JB Amsterdam, The Netherlands	Corporate Services Provider

There is no potential conflict of interests between any duties to the Issuer of the Director and its private interests or other duties.

Audit Committee

The Issuer has not instituted an audit committee, because it benefits from an exemption as stated in Article 3 paragraph d of the Decree of 26 July 2008 implementing Article 41 of Directive 2006/43/EC of the European Parliament and of the Council of 17 May 2006 on statutory audits of financial statements and consolidated financial statements. There is no reason to institute such a committee because the Issuer believes that the Issuer's Noteholders, being the only material creditors of the Issuer, will be adequately informed in respect of their risks through the mechanisms set out in this Prospectus.

Financial Statements

So long as any Note remains outstanding, copies of the most recent annual audited financial statements of the Issuer, when published, can be obtained at the specified offices of the Paying Agent during normal business hours. The first financial statements of the Issuer will be in respect of the period from incorporation to 31 December 2017. The annual financial statements of the Issuer will be audited. Incorporation and history

ING Bank was incorporated under Dutch law in The Netherlands on 12 November 1927 for an indefinite duration in the form of a public limited company as *Nederlandsche Middenstandsbank N.V.* ("**NMB Bank**").

On 4 October 1989, NMB Bank merged with Postbank, the leading Dutch retail bank. The legal name of NMB Bank was changed into NMB Postbank Groep N.V. On 4 March 1991, NMB Postbank Groep N.V. merged with Nationale-Nederlanden N.V., the largest Dutch insurance group. On that date, the newly formed holding company Internationale Nederlanden Groep N.V. honoured its offer to exchange the shares of NMB Postbank Groep N.V. and of Nationale-Nederlanden N.V. NMB Postbank Groep N.V. and Nationale-Nederlanden N.V. continued as sub-holding companies of Internationale Nederlanden Groep N.V. An operational management structure ensured a close co-operation between the banking and insurance activities, strategically as well as commercially. The sub-holding companies remained legally separate. After interim changes of name, the statutory names of the above-mentioned companies were changed into ING Groep N.V., ING Bank N.V. and ING Verzekeringen N.V. on 1 December 1995.

In May 2009, ING announced that – in line with its April 2009 strategy announcement – it was taking measures to simplify its governance. These measures have been implemented. In October 2009, ING announced that it would move towards a separation of ING's banking and insurance operations, clarifying the strategic direction for the bank and the insurance company going forward. This has also led to changes in the structure and composition of the respective Management Boards. ING Bank and NN Group (the European insurance operations of ING) now each have their own Management Board, consisting of the Group CEO, CFO and CRO and positions for four other members.

On 1 March 2014, NN Group N.V., formerly called ING Insurance Topholding N.V., merged with ING Verzekeringen N.V. As a result, the legal entity ING Verzekeringen N.V. ceased to exist and NN Group N.V. became the legal successor of ING Verzekeringen N.V.

The registered office of ING Bank N.V. is at Bijlmerplein 888, 1102 MG Amsterdam, The Netherlands (telephone number: +31 20 563 9111). ING Bank N.V. is registered at the Dutch Chamber of Commerce under no. 33031431 and its corporate seat is in Amsterdam, The Netherlands. The Articles of Association of ING Bank N.V. were last amended by notarial deed executed on 13 December 2013. According to Article 2 of its Articles of Association, the objects of ING Bank N.V. are to conduct the banking business in the broadest sense of the word, including insurance brokerage, to acquire, construct and operate immovable properties, and furthermore to participate in, conduct the management of, finance and furnish personal or real security for the obligations of, and provide services to, other enterprises and institutions of whatever kind, but in particular enterprises and institutions active in the credit business, investments and/or other financial services, as well as to perform all that which is related or may be conducive to the foregoing.

As a non-listed company, ING Bank N.V. is not bound by the Dutch Corporate Governance Code (for the purpose of this Section, the "**Code**"). ING Group, as the listed holding company of ING Bank N.V., is in compliance with the Code.

Dutch State aid repaid

The Dutch State has been repaid in full. In November 2008, ING received EUR 10 billion in aid from the Dutch State in the form of core Tier 1 securities. In 2009, ING started repaying the Dutch State and made the final payment on 7 November 2014. This was achieved six months ahead of the repayment schedule agreed with the European Commission in 2012.

Total payments on this aid package amount to EUR 13.5 billion, resulting in an annualised return of 12.7 percent for the Dutch State.

In 2009, ING and the Dutch State agreed to transfer/sell a portfolio of US mortgage securities. The agreement to unwind this facility, also known as the Illiquid Assets Back-up Facility (IABF), was

completed at the end of 2013. The actual unwinding took place and was completed early 2014, when the Dutch State sold the remaining securities in the market. This generated a EUR 1.4 billion cash profit for the Dutch State.

Finally, the remaining Government Guaranteed Notes still outstanding in 2014 were all redeemed. Over the years, ING has paid EUR 0.4 billion to the Dutch State to benefit from this scheme.

A copy of the Conditions is set out below. Any amendments to the Conditions will be made by way of, and in accordance with the applicable requirements for, amendments to the Trust Deed. While the Notes remain in global form, the same terms and conditions govern the Notes, except to the extent that they are not appropriate for Notes in global form. See the section 4.2 (Form).

- 1.2 The Paying Agency Agreement records certain arrangements in relation to the payment of interest and principal in respect of the Notes.
- 1.3 Certain provisions of these Conditions are summaries of the Trust Deed and the Paying Agency Agreement and are subject to their detailed provisions.

2. Definitions

In these Conditions, defined terms have the meanings ascribed to them in Schedule 1 to the Incorporated Terms Memorandum, as amended from time to time (the "**Definitions**"). A copy of the Definitions is attached to these Conditions as Annex 1.

In addition, in these Conditions:

"**Extraordinary Resolution**" means, in relation to each class of Notes, a resolution at a meeting duly convened and held in accordance with the Provisions for Meetings of Noteholders, by a majority of not less than three quarters of the votes cast.

3. Form, Denomination and Title

- 3.1 **Form and Denomination:** The Notes are in bearer form in the denomination of EUR 100,000 and integral multiples of EUR 1,000 thereafter without Coupons and Talons attached. Title to the Notes will pass by delivery.
- 3.2 **Title:** Under Dutch law, the valid transfer of Notes requires, among other things, delivery (*levering*) thereof, where applicable in accordance with the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*). The holder of any Notes shall (except as otherwise required by law) be treated as the absolute owner of such Notes for all purposes (including the making of any payment) whether or not any payment is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof and no person shall be liable for so treating such holder.

4. Ranking

- 4.1 **Ranking:** The Notes in each Class will at all times rank without preference or priority *pari passu* among themselves.
- 4.2 **Sole obligations:** The Notes are obligations solely of the Issuer and are not obligations of, or guaranteed by any of the other parties to the Transaction Documents.

- 4.3 **Interest:** Interest on the Notes shall be payable in accordance with the provisions of Condition 7 (*Interest*) and Condition 10 (*Payments*), subject to the terms of these Conditions and the terms of the Trust Deed. If on any Notes Payment Date, the Issuer has insufficient Available Revenue Funds to pay all amounts then due and payable, it shall be under no obligation to pay any (default) interest or damages or other form of compensation to Noteholders in respect of any amounts of interest that remains unpaid as a result of there being insufficient Available Revenue Funds on any Notes Payment Date.

Until the date on which the Principal Amount Outstanding of all Class A Notes is reduced to zero, the holders of the Class B Notes will not be entitled to any repayment of principal from Available Principal Funds under the Redemption Priority of Payments in respect of the Class B Notes. If on any Notes Calculation Date all interest and principal due and payable in respect of the Notes except for principal amounts due and payable under the Class C Notes, have been paid or will be available for payment in full on the Notes Payment Date immediately following such Notes Calculation Date, then the Reserve Account Target Level will be reduced to zero. In such circumstances, all amounts standing to the credit of the Reserve Account will be credited to the Income Ledger upon deposit of the same in the Issuer Collection Account and form part of the Available Revenue Funds and will be available to redeem or partially redeem the Class C Notes until the earlier of (i) the Class C Notes are fully redeemed in accordance with the Revenue Priority of Payments and (ii) if the Available Revenue Funds are insufficient to repay the Principal Amount Outstanding payable in relation to such Class C Notes, the date on which the Issuer has no further rights under or in connection with any of the Transaction Documents, in which case no Class C Noteholder shall have any further claim against the Issuer for any amount of shortfall in principal.

5. **Security**

- 5.1 **Security:** The Notes shall have the benefit of the Security which has been granted to the Security Trustee as security for the Secured Obligations owed to the Security Trustee (including the Parallel Debt).
- 5.2 **Parallel Debt:** The Noteholders are deemed to have acknowledged, and are bound by, without limitation, Clause 2.4 (*Parallel Debt*) of the Trust Deed.
- 5.3 **Enforceability:** The Security will become enforceable upon the delivery by the Security Trustee of an Enforcement Notice in accordance with Condition 12 (*Events of Default*) and subject to the matters referred to in Condition 13 (*Enforcement*), provided that any default (*verzuim*) in the proper performance of any of the Secured Obligations has occurred.

6. **Issuer Covenants**

The Issuer Covenants contain certain covenants in favour of the Security Trustee from the Issuer which, among other things, restrict the ability of the Issuer to create or incur any indebtedness (save as permitted in the Trust Deed), dispose of assets or change the nature of its

business. So long as any Note remains outstanding, the Issuer shall comply with the terms of the Trust Deed, including the Issuer Covenants.

7. **Interest**

7.1 **Accrual of Interest:** Each Class A Note bears interest on its principal amount outstanding from the Closing Date less the aggregate of all amounts of Note Principal Payments that have been paid by the Issuer in respect of that Note on or prior to that date (the "**Principal Amount Outstanding**"). No interest will be payable on the Class B Notes or the Class C Notes.

7.2 **Cessation of Interest:** Each Class A Note shall cease to bear interest from its due date for redemption unless, upon due presentation, payment of the principal is improperly withheld or refused, in which case, it will continue to bear interest in accordance with this Condition until whichever is the earlier of:

7.2.1 the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder; and

7.2.2 the day which is seven calendar days after the Paying Agent or the Security Trustee has notified the Noteholders of such class that it has received all sums due in respect of the Notes of such class up to such seventh calendar day (except to the extent that there is any subsequent default in payment).

7.3 **Interest Rate:** Interest on the Class A Notes for each Notes Calculation Period (other than the first Notes Calculation Period immediately following the Closing Date) will accrue at a rate equal to the sum of the Euro Interbank Offered Rate administered by the European Money Markets Institute (or any other person which takes over the administration of that rate) ("**Euribor**") for three months deposits in euro plus the Relevant Margin. If the method for determining the rate of interest applicable to the Class A Notes would result in a negative figure, the applicable rate of interest will be deemed to be zero. The interest on the Class A Notes for the first Notes Calculation Period immediately following the Closing Date will accrue at a rate equal to 0.14197 per cent. per annum. "**Interest Rate**" means the rate of interest calculated in accordance with this Condition 7 (*Interest*).

ANNEX 1 TO CONDITIONS

DEFINITIONS

[Remainder of page intentionally left blank.]

4.2 FORM

The Notes will be in bearer form and the Notes of each Class shall initially be issued in the form of a Temporary Global Note without interest coupons attached and/or a Permanent Global Note without interest coupons attached. Each Global Note will initially be deposited on or prior to the Closing Date with Euroclear Netherlands.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear Netherlands, or Euroclear Netherlands has given a similar certification (based on the certifications it has received) to the Paying Agent.

On and after the date (the "**Exchange Date**") which is not less than 40 calendar days after the date on which the Temporary Global Note is issued (or the "restricted period" within the meaning of U.S. Treasury Regulations Section 1.163-5(c)(2)(i)(D)(7)), interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein for interests in a Permanent Global Note, against certification of non-US beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear Netherlands without any requirement for certification.

A Permanent Global Note will only be exchangeable (free of charge), in whole but not in part, for Definitive Notes with, where applicable, receipts, interest coupons and talons attached, if an Exchange Event occurs and subject to mandatory provisions of applicable laws and regulations. For these purposes, "**Exchange Event**" means one of the following events: (i) the Notes become immediately due and payable as a result of the occurrence of an Event of Default, (ii) Euroclear Netherlands is closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so or (iii) by reason of any amendment to, or change in, the laws and regulations of The Netherlands, the Issuer is or will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes which are represented by a Permanent Global Note were in definitive form. In the event of the occurrence of an Exchange Event, Euroclear Netherlands, (acting on the instructions of any holder of an interest in such Permanent Global Note) or the Security Trustee may give notice to the Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Paying Agent requesting exchange. Any such exchange shall occur not later than 45 calendar days after the date of receipt of the first relevant notice by the Paying Agent.

In the case of Notes represented by a Permanent Global Note deposited with Euroclear Netherlands, on the occurrence of an Exchange Event as described above, an exchange for Definitive Notes will only be possible in the limited circumstances as described in the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*) and in accordance with the rules and regulations of Euroclear Netherlands.

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria specified by the European Central Bank. The Class B Notes and the Class C Notes are not intended to be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem.

Definitive Notes will be in the standard euromarket form. Definitive Notes and Global Notes will be in bearer form. Global Notes and Definitive Notes will be issued in accordance with and subject to the terms of the Paying Agency Agreement and the Trust Deed.

The following legends will appear on all Notes and on all receipts and interest coupons relating thereto:

"NOTICE: THIS NOTE IS ISSUED FOR DEPOSIT WITH NEDERLANDS CENTRAAL INSTITUUT VOOR GIRAAL EFFECTENVERKEER B.V. (EUROCLEAR NETHERLANDS) AT AMSTERDAM, THE NETHERLANDS. ANY PERSON BEING OFFERED THIS NOTE FOR TRANSFER OR ANY OTHER PURPOSE SHOULD BE AWARE THAT THEFT OR FRAUD IS ALMOST CERTAIN TO BE INVOLVED.

THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933 (THE "SECURITIES ACT") AND MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO ANY U.S. PERSON UNLESS AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT IS AVAILABLE.

ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE INTERNAL REVENUE CODE."

The sections referred to in the second legend paragraph above provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on the Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear Netherlands.

The Issuer will (to the extent permissible) disclose any amount initially retained by a member of the same group as the Seller, but subsequently placed with investors which are not in the same group as the Seller in the next investor report.

4.6 TAXATION IN THE NETHERLANDS

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could have retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Note, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph "Taxes on Income and Capital Gains" below it is assumed that a holder of Notes, being an individual or a non-resident entity, does not have a substantial interest (aanmerkelijk belang) or – in the case of such holder being an entity – a deemed substantial interest in the Issuer and that no connected person (verbonden persoon) to the holder has or will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has or is deemed to have, or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have, (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of such company.

Generally speaking, a non-resident entity has a substantial interest in a company if such entity directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of such company. Generally, an entity has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to a holder of Notes, an individual holding Notes or an entity holding Notes, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Notes or otherwise being regarded as owning Notes for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate and gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the summary refers to "the Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands..

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Note.

1. WITHHOLDING TAX

If neither condition (i) nor (ii) applies, such individual will be subject to Dutch income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. The deemed return amounts to 4% of the value of the individual's net assets as at the beginning of the relevant fiscal year (including the Notes). Subject to application of certain allowances, the deemed return will be taxed at a rate of 30%. As of 1 January 2017 the 4% will be replaced by variable progressive rates ranging from 2.9% to 5.5%. The applicable rates will be updated annually on the basis of historic market yields..

5. **OTHER TAXES AND DUTIES**

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in the Netherlands by a holder of Notes in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Notes or the performance of the Issuer's obligations under the Notes..

6. **RESIDENCE**

A holder of Notes will not be and will not be deemed to be resident in the Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation, by reason only of acquiring, holding or disposing of Notes or the execution, performance, delivery and/or enforcement of Notes.

4.7 SECURITY

In the Trust Deed, the Issuer undertakes to pay the Parallel Debt to the Security Trustee. The Trust Deed provides that (i) the Security Trustee shall be the obligee of the Parallel Debt and shall be entitled to claim performance thereof in its own name and not as agent or trustee acting on behalf of the Secured Creditors, (ii) the Parallel Debt is and/or shall be separate and independent from, and without prejudice to, the Principal Liabilities, (iii) the Parallel Debt shall be decreased to the extent that the Issuer satisfies the Principal Liabilities and *vice versa*, (iv) the Parallel Debt shall not exceed the aggregate of the Principal Liabilities at any time, (v) any Security granted to the Security Trustee to secure the Parallel Debt is granted to the Security Trustee in its capacity as creditor of the Parallel Debt and (vi) the Security Trustee shall act for the benefit of the Secured Creditors in administering and enforcing the Security and shall apply any amounts received by it pursuant to clause 2.4 (*Parallel Debt*) of the Trust Deed in accordance with the Trust Deed.

Pursuant to the provisions of the terms and conditions set out in Schedule 2 (*Common Terms*) to the Incorporated Terms Memorandum regarding the authorisation to acknowledge the Parallel Debt and Condition 5.2 (*Parallel Debt*), the Secured Creditors and the Noteholders, respectively, have acknowledged or are deemed to have acknowledged the Parallel Debt.

The Secured Obligations (including the Parallel Debt) owed by the Issuer to the Security Trustee are secured by the following security rights granted by the Issuer to the Security Trustee:

- (a) pursuant to the Issuer Mortgage Receivables Pledge Agreement, a first ranking non-disclosed right of pledge (*stil pandrecht*) over the Mortgage Receivables (including, where possible, any Related Security). The right of pledge created pursuant to the Issuer Mortgage Receivables Pledge Agreement will not be notified to the Borrowers or Insurance Companies other than upon the occurrence of a Pledge Notification Event, in which circumstances the Security Trustee is authorised to serve (or may require the Issuer to serve) notice of the right of pledge on the relevant Borrowers and Insurance Companies other than the Savings Insurance Company, as the debtors of the Mortgage Receivables. Notification of the right of pledge to each Savings Insurance Company will take place through the Beneficiary Waiver Agreements and each subsequent Deed of Assignment and Pledge. Upon notification of the right of pledge and the assignment of the relevant Mortgage Receivables, only the Security Trustee is entitled to receive payment under the pledged Mortgage Receivables;
- (b) pursuant to the Issuer Account Pledge Agreement, a first ranking disclosed right of pledge (*openbaar pandrecht*) over the Issuer Account Rights is created. The right of pledge created pursuant to the Issuer Account Pledge Agreement has been notified to the Issuer Account Bank through a notification letter; and
- (c) pursuant to the Issuer Rights Pledge Agreement, a first ranking disclosed right of pledge over the Issuer Rights is created. The right of pledge created pursuant to the Issuer Rights Pledge Agreement has been notified to the parties to the Transaction Documents through the provisions of the terms and conditions set out in Schedule 2 (*Common Terms*) to the Incorporated Terms Memorandum regarding notification of the rights pledge.

Upon the occurrence of any default (*verzuim*) in the proper performance of any of the Secured Obligations, the Security Trustee will be entitled to enforce the Security and/or take such steps as it shall deem necessary, subject in each case to being indemnified and/or secured to its satisfaction and the Conditions and the relevant Transaction Documents.

5. CREDIT STRUCTURE

The structure of the credit arrangements for the proposed issue of the Notes may be summarised as follows.

5.1 AVAILABLE FUNDS

Collections

Payments by the Borrowers of scheduled interest and principal (if any) under the Mortgage Loans are due on the first day of each month, interest being payable in arrear. For as long as no Assignment Notification Event has occurred, all payments made by Borrowers will be paid into the Seller Collection Accounts. No Seller Collection Account is pledged to any party and each Seller Collection Account is also used for the collection of moneys paid in respect of mortgage receivables other than Mortgage Receivables and in respect of other moneys belonging to the Seller.

Pursuant to the Mortgage Receivables Purchase Agreement, as long as the assignment of the Mortgage Receivables has not been notified to the relevant Borrowers and Insurance Companies, the Seller will on each Mortgage Collection Payment Date transfer to the Issuer Collection Account or such other account as the Security Trustee may direct, all amounts received by the Seller during the immediately preceding Mortgage Calculation Period in respect of the Mortgage Receivables. If a credit rating of the Seller or the Seller Collection Account Bank falls below the Requisite Credit Rating, the Seller will as soon as reasonably practicable and in any event within 14 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) after such assignment of rating open an escrow account in the name of the Issuer, for its own account, with a party having at least the Requisite Credit Rating, and transfer to such escrow account an amount equal to the highest monthly value of Revenue Funds and Principal Funds in the last 6 months. The aforementioned deposit shall no longer be required if the Seller has ensured that (i) the Borrowers shall be notified that they should immediately make their payments to the Issuer Collection Account, or into such other account as the Security Trustee may direct, provided that the transfer of such amounts to such an account shall not negatively affect the then current ratings assigned to the Class A Notes, (ii) payments to be made with respect to amounts received on the Seller Collection Accounts will be guaranteed by way of an unlimited and unconditional guarantee by a party having at least the Requisite Credit Rating, or, if (i) or (ii) is not reasonably practicable, (iii) take such other action that would result in the Credit Rating Agencies continuing the then current ratings of the Class A Notes.

Available Revenue Funds

The aggregate of the items set out below calculated as at each Notes Calculation Date, comprise the "Available Revenue Funds":

- (a) the amount of Revenue Funds received by the Issuer in respect of the three Mortgage Calculation Periods preceding the Mortgage Calculation Period in which such Notes Calculation Date falls;

5.3 LOSS ALLOCATION

The Issuer Administrator shall agree in the Administration Agreement to manage and maintain the Principal Deficiency Ledger for and on behalf of the Issuer.

Debits

The Issuer (or the Issuer Administrator on its behalf) will record as a debit entry in the Principal Deficiency Ledger on any Notes Payment Date an amount equal to any Realised Loss up to the Principal Amount Outstanding of the Notes from time to time (so as to give rise to a negative amount in the relevant sub-ledger).

Credits

It has been agreed that the Issuer (or the Issuer Administrator on its behalf) will record as a credit entry in the Principal Deficiency Ledger on any Notes Payment Date:

- (i) (1) any amount equal to the lesser of (A) the Available Revenue Funds minus payments made in respect of items (a) up to and including (d) in the Revenue Priority of Payments and (B) the Class A Principal Deficiency and (2) any amount equal to the lesser of (A) the Available Revenue Funds minus payments made in respect of items (a) up to and including (f) in the Revenue Priority of Payments and (B) the Class B Principal Deficiency, which amounts are added to the Available Principal Funds on such Notes Payment Date; and
- (ii) where the balance of the relevant sub-ledger exceeds the Principal Amount Outstanding (including when zero after full redemption) of the relevant Class of Notes, an amount equal to the relevant excess.

Sub-ledgers

Within the Principal Deficiency Ledger, two sub-ledgers will be maintained, to be known as the Class A Principal Deficiency Ledger and the Class B Principal Deficiency Ledger.

Amounts recorded as a debit entry in the Principal Deficiency Ledger shall be allocated as of the first calendar day of the related Notes Calculation Period to each of such sub-ledgers in the following order:

- (a) *first*, to the Class B Principal Deficiency Ledger, subject to a maximum amount equal to the Principal Amount Outstanding of the Class B Notes then outstanding; and
- (b) *second*, to the Class A Principal Deficiency Ledger, subject to a maximum amount equal to the Principal Amount Outstanding of the Class A Notes then outstanding.

Amounts recorded as a credit entry in the Principal Deficiency Ledger shall be allocated as of the first calendar day of the related Notes Calculation Period:

- (a) if it concerns amounts referred to under (i) under "Credits" above:
 - (i) *first*: to the Class A Principal Deficiency Ledger until the debit balance thereof is reduced to zero; and
 - (ii) *second*: to the Class B Principal Deficiency Ledger until the debit balance thereof is reduced to zero; or
- (b) if it concerns an excess of the relevant sub-ledger over the Principal Amount Outstanding of the relevant Class of Notes, to the sub-ledger in question.

5.4 HEDGING

Hedging of interest rate risk

The interest rates payable by Borrowers on some of the Mortgage Loans are payable by reference to rates other than the Reference Rate and are calculated on a number of different dates. However, the interest rates payable by the Issuer with respect to the Class A Notes are calculated by reference to the Reference Rate (set on the relevant Notes Calculation Date) plus the Relevant Margin.

In order to reduce the risk of a potential interest rate mismatch between:

- (a) the variety of different rates of interest payable by Borrowers on the Mortgage Loans and the dates on which those rates are set; and
- (b) the Reference Rate applicable to the Class A Notes only, set on the relevant Notes Calculation Date,

the Issuer will enter into the Swap Transaction with the Swap Counterparty, on or about the Closing Date.

The Swap Agreement will govern the terms of the Swap Transaction.

The Swap Transaction

Under the Swap Transaction, on each Notes Payment Date:

- (a) the Swap Counterparty shall have an obligation to pay an amount determined by calculating the product of (i) the sum of the relevant Reference Rate and the Relevant Margin, (ii) the Notional Principal Amount Outstanding of the Class A Notes on such Notes Payment Date (without taking into account any principal amounts due to be paid or written off on such date in relation to the Class A Notes) and (iii) the relevant day count fraction; and
- (b) the Issuer shall have an obligation to pay the sum of (i) any Issuer Scheduled Income in respect of the three Mortgage Calculation Periods preceding the Mortgage Calculation Period in which the relevant Notes Payment Date falls, less (ii) any amounts payable by the Issuer on such Notes Payment Date under items (a) and (b) of the Revenue Priority of Payments, less (iii) an amount equal to the product of (x) the Notional Principal Amount Outstanding of the Notes on such Notes Payment Date (other than the Class C Notes), (y) 0.50 per cent. and (iii) the relevant day count fraction, on the condition that if the above calculation produces a negative number, such amount shall be deemed to be zero.

The Swap Transaction provides that if the amount payable under (a) on the relevant Notes Payment Date is a negative number, then that amount will be deemed to be zero, and the Issuer will not be required to pay to the Swap Counterparty the absolute value of that negative amount and will only be required to pay those amounts otherwise payable by it for the related Mortgage Calculation Period.

The Swap Transaction furthermore provides that, in the event that the Issuer Actual Income in respect of the three Mortgage Calculation Periods preceding the relevant Notes Payment Date (less any amounts due under items (a) and (b) of the Revenue Priority of Payments and an amount equal to 0.50 per cent. of the Notional Principal Amount Outstanding of the Notes (other than the Class C Notes), without taking into account any principal amounts due to be paid or written off on such date in relation to the Notes (other than the Class C Notes)) is less than the amount to be paid by the Issuer as referred to under (b) above, the Issuer will only be obliged to pay such lesser amount under the Swap Transaction to the Swap Counterparty. In circumstances where such income shortfall arises, the corresponding amount to be paid by the Swap Counterparty shall be reduced in proportion to the reduction in the Issuer's payment obligations under the Swap Agreement. The amounts due from the Issuer to the Swap Counterparty and from the Swap Counterparty to the Issuer under the Swap Transaction (as reduced, if applicable) will be netted against each other. If a net payment is due from the Swap Counterparty, the net amount will be included in the Available Revenue Funds for such Notes Payment Date and will be applied on that Notes Payment Date according to the relevant Priorities of Payments. If a net payment is due to the Swap Counterparty, the net amount will be payable from the Available Revenue Funds for such Notes Payment Date.

Under the terms of the Swap Agreement, in the event that the relevant credit ratings of the Swap Counterparty are downgraded by a Credit Rating Agency below (i) a short-term issuer default rating of F1 and a long-term derivative counterparty rating (or if such rating is not assigned to such entity, a long-term issuer default rating) of A by Fitch, or (ii) A3 (long-term) by Moody's, the Swap Counterparty will at its own cost and in accordance with the terms of the Swap Agreement, be required to elect to take certain remedial measures within the time frame stipulated in the Swap Agreement which may include providing collateral for its obligations under the Swap Agreement, procuring for its obligations under the Swap Agreement to be transferred to an entity with the Requisite Credit Rating, procuring another entity with the Requisite Credit Rating to become co-obligor or guarantor, as applicable, in respect of its obligations under the Swap Agreement or taking such other action that would result in the Credit Rating Agencies continuing the then current credit ratings of the Class A Notes. Following further rating downgrades below the ratings specified above, the remedial measures available to the Swap Counterparty may be more limited than those specified above.

The Swap Transaction may be terminated by the Swap Counterparty in certain circumstances including, but not limited to, the following:

- (a) if there is a failure by the Issuer to pay amounts due under the Swap Agreement in circumstances where the Issuer has Available Revenue Funds to pay such amounts in accordance with the relevant Priority of Payments and any applicable grace period has expired;
- (b) if certain insolvency events occur with respect to the Issuer;
- (c) if a change of law results in it becoming unlawful for one of the parties to perform one or more of its obligations under the Swap Agreement; and
- (d) in certain circumstances, if a deduction or withholding for or on account of taxes is imposed either (i) on payment of the relevant amount by the Swap Counterparty which results in the Swap Counterparty being obliged to gross up its payments under the Swap Agreement, or (ii) on payment of the relevant amount by the Issuer.

The Swap Transaction may be terminated by the Issuer in certain circumstances, including but not limited to, the following:

- (a) if there is a failure by the Swap Counterparty to pay amounts due under the Swap Agreement and any applicable grace period has expired;
- (b) if certain insolvency events occur with respect to a the Swap Counterparty;
- (c) if a breach of a provision of the Swap Agreement by the Swap Counterparty is not remedied within the applicable grace period;
- (d) if a change of law results in it becoming unlawful for one of the parties to perform one or more of its obligations under the Swap Agreement;
- (e) if the Swap Counterparty is downgraded and fails to comply with the requirements of the downgrade provisions contained in the Swap Agreement; and
- (f) if the Class A Notes are to be redeemed in full prior to the Final Maturity Date pursuant to Conditions 8.6 (*Redemption – Clean-Up Call Option*), 8.7 (*Optional Redemption – Prepayment Call*) or 8.8 (*Optional Redemption – Tax Call*).

Upon an early termination of the Swap Transaction, the Issuer or the Swap Counterparty may be liable to make a swap termination payment to the other. Such swap termination payment will be calculated and paid in euros. The amount of any such swap termination payment will, subject to the terms of the Swap Agreement, initially be based on the market value of the Swap Transaction as determined on the basis of quotations sought from leading dealers as to the payment required to be made in order to enter into a transaction that would have the effect of preserving the economic equivalent of the respective payment obligations of the parties (or, if an insufficient number of quotations can be obtained or if basing the valuation on quotations would not produce a commercially reasonable result, based upon a good faith determination of one of the party's total losses and costs (or gains)) and will include any unpaid amounts that became due and payable prior to the date of termination.

The Swap Counterparty may, subject to certain conditions specified in the Swap Agreement, transfer its obligations under the Swap Agreement to another entity provided that such entity has the Requisite Credit Rating.

Withholding Tax

The Swap Counterparty will be obliged to make payments under the Swap Agreement without any withholding or deduction of taxes unless required by law. The Swap Counterparty will be obliged to gross up payments made by it to the Issuer under the Swap Transaction if withholding taxes are imposed on such payments, although in such circumstances the Swap Counterparty may terminate the Swap Transaction early. The Issuer will not be obliged to gross up payments made by it to the Swap Counterparty under the Swap Transaction if withholding taxes are imposed on such payments. However, the Swap Counterparty may have the right to terminate such Swap Transaction in such circumstances. If the Swap Counterparty (or the Issuer) terminates the Swap Transaction then the Issuer may be required to pay (or entitled to receive) a swap termination payment.

Credit Support

On or around the Closing Date, the Swap Counterparty and the Issuer will enter into a 1995 ISDA Credit Support Annex (Bilateral Form – Transfer) with the Security Trustee in support of the obligations of the Swap Counterparty under the Swap Agreement. The credit support annex forms part of the Swap Agreement. If at any time the Swap Counterparty is required to provide collateral in respect of any of its obligations under the Swap Agreement following a credit ratings downgrade of the Swap Counterparty, in accordance with the terms of the Swap Agreement, the amount of collateral (if any) that, from time to time, (i) the Swap Counterparty is obliged to transfer to the Issuer or (ii) the Issuer is obliged to return to the Swap Counterparty, shall be calculated in accordance with the terms of the Swap Agreement.

The Issuer will receive any collateral from the Swap Counterparty pursuant to the Swap Agreement in any Swap Collateral Account. The Issuer may make payments utilising any monies held in the relevant Swap Collateral Account if such payments are made in accordance with the terms of the Swap Agreement. Amounts standing to the credit of any Swap Collateral Account will not, upon enforcement of the Security, be available to the Secured Creditors generally and may only be applied in satisfaction of amounts owing by the Swap Counterparty, or to be repaid to the Swap Counterparty, in accordance with the terms of the Swap Agreement.

The Swap Agreement will be governed by the laws of England and Wales.

The initial Swap Counterparty is ING. See section 3.4 (*Seller/Originator*).

5.5 LIQUIDITY SUPPORT

Not applicable.

5.6 ISSUER ACCOUNTS

Issuer Collection Account

Pursuant to the terms of the Issuer Account Agreement, the Issuer will maintain, with the Issuer Account Bank, the Issuer Collection Account:

- (a) into which are paid all amounts received by the Issuer in respect of the Mortgage Receivables and the Transaction Documents; and
- (b) monies standing to the credit of which will on each Notes Payment Date be applied by the Issuer Administrator in accordance with the relevant Priority of Payments and the relevant Transaction Documents.

Reserve Account

Pursuant to the terms of the Issuer Account Agreement, the Issuer will maintain, with the Issuer Account Bank, the Reserve Account. The proceeds of the Class C Notes will be credited to the Reserve Account on the Closing Date.

The amounts standing to the credit of the Reserve Account will on each Notes Payment Date form part of the Available Revenue Funds, provided that amounts may only be debited from the Reserve Account and credited to the Issuer Collection Account (for credit to the Income Ledger and appliance by the Issuer in accordance with the Revenue Priority of Payments) if (i) the amounts standing to the credit of the Issuer Collection Account are insufficient to meet the Issuer's obligations under items (a) to (f) (inclusive) of the Revenue Priority of Payments in full or (ii) in accordance with Condition 4.5 (*Class C Notes*).

If and to the extent that the Available Revenue Funds calculated on any Notes Calculation Date exceed the amounts required by the Issuer to satisfy its obligations under items (a) to (f) (inclusive) of the Revenue Priority of Payments in full, then the Issuer (or the Issuer Administrator on its behalf) shall ensure that the (relevant part of the) remaining Available Revenue Funds will be debited from the Issuer Collection Account and credited to the Reserve Account up to the Reserve Account Target Level. Any Available Revenue Funds remaining after the Reserve Account having been replenished up to the Reserve Account Target Level will be applied by the Issuer (or the Issuer Administrator on its behalf) in accordance with the Revenue Priority of Payments.

If on any Notes Calculation Date all amounts of interest and principal due and payable in respect of the Notes, except for the amounts of principal due and payable in respect of the Class C Notes, have been paid in full on the Notes Payment Date before such Notes Calculation Date or will be available for payment in full on the Notes Payment Date immediately after such Notes Calculation Date, then the Reserve Account Target Level will be reduced to zero and the Issuer (or the Issuer Administrator on its behalf) shall ensure that all amounts standing to the credit of the Reserve Account will be credited to the Income Ledger upon deposit of the same in the Issuer Collection Account and form part of the Available Revenue Funds.

Construction Deposit Account

Pursuant to the terms of the Issuer Account Agreement, the Issuer will maintain, with the Issuer Account Bank, the Construction Deposit Account. Pursuant to the Mortgage Receivables Purchase Agreement, in respect of a purchase of Mortgage Receivables by the Issuer, the Issuer will be entitled to withhold from each Initial Purchase Price an amount equal to the related Construction Deposit, if applicable. Such amount will be deposited in the Construction Deposit Account.

The Issuer (or the Issuer Administrator on its behalf) will not transfer any monies standing to the credit of the Construction Deposit Account, except (x) following delivery of an Enforcement Notice by the Security Trustee, in accordance with the Post-Enforcement Priority of Payments and (y) as long as no Enforcement Notice has been delivered by the Security Trustee, as follows:

- (a) to pay any remaining part of an Initial Purchase Price to the Seller following distribution by the Seller of a corresponding part of the relevant Construction Deposit to the relevant Borrower; and

- (b) following set-off of a Construction Deposit against the associated Mortgage Receivable, for transfer to the Issuer Transaction Account and credit to the Redemption Ledger.

Swap Collateral Account

Pursuant to the terms of the Issuer Account Agreement, the Issuer will maintain, with the Issuer Account Bank, one or more Swap Collateral Accounts. Any collateral provided by the Swap Counterparty pursuant to the Swap Agreement will, unless otherwise agreed with the Issuer and the Security Trustee, be deposited in the relevant Swap Collateral Account. The Issuer (or the Issuer Administrator on its behalf) will not use the amounts standing to the credit of any Swap Collateral Account, except (x) following delivery of an Enforcement Notice by the Security Trustee, in accordance with the Post-Enforcement Priority of Payments and (y) as long as no Enforcement Notice has been delivered by the Security Trustee, as follows:

- (a) to return collateral to the Swap Counterparty in accordance with the terms of the Swap Agreement and collateral arrangements; and
- (b) following termination of the Swap Agreement to the extent not required to satisfy any termination payment due to the Swap Counterparty, (x) if a replacement swap agreement is to be entered into, for deposit in the Issuer Transaction Account and credit to the Swap Replacement Ledger or (y) if no replacement swap agreement is to be entered into, for deposit in the Issuer Transaction Account and credit to the Income Ledger.

Change of Issuer Account Bank

If the debt obligations of the Issuer Account Bank are not rated at least the Requisite Credit Rating, and within 30 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) of such occurrence:

- (a) the Issuer Accounts are not closed and new accounts opened under the terms of a new account agreement substantially on the same terms as the Issuer Account Agreement with a financial institution (i) whose debt obligations are rated at least the Requisite Credit Rating and (ii) having the regulatory capacity for offering such services as a matter of Dutch law; or
- (b) the Issuer Account Bank does not obtain a guarantee of its obligations under the Issuer Account Agreement on terms acceptable to the Security Trustee, acting reasonably, from a financial institution whose debt obligations are rated at least the Requisite Credit Rating; or
- (c) the Issuer Account Bank does not take any other action, or takes action which would not result in the Credit Rating Agencies continuing the then current ratings of the Class A Notes,

then pursuant to the Issuer Account Agreement, the Issuer (or the Issuer Administrator on its behalf) is required to terminate the Issuer Account Agreement, unless a Credit Rating Agency confirms that its then current rating of the Notes will not be adversely affected as a result of the credit ratings of the Issuer Account Bank falling below the minimum credit rating as determined to be applicable by such Credit Rating Agency from time to time (or the reason for this having occurred) within 15 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) of such downgrade. If such confirmation is given by a Credit Rating Agency, for this purpose only, reference to "minimum credit rating" in respect of such Credit Rating Agency shall be deemed to be instead the relevant credit rating assigned by a Credit Rating Agency of the Issuer Account Bank at the time of such confirmation, but the original rating shall be reinstated if the relevant rating of the Issuer Account Bank is subsequently upgraded to the original level.

Pursuant to the Issuer Account Agreement, the Issuer Account Bank has agreed to pay interest on the moneys standing to the credit of the Issuer Accounts at specified rates determined in accordance with the Issuer Account Agreement (with a minimum of zero per cent.).

The initial Issuer Account Bank is ING. See section 3.4 (*Seller/Originator*).

In the Administration Agreement, the Issuer Administrator agrees to manage and maintain the following

ledgers as a sub-ledger of the Issuer Collection Account for and on behalf of the Issuer.

The following amounts shall be credited to the following ledger upon deposit of the same into the Issuer Collection Account:

- (i) the Income Ledger:
 - (a) all Revenue Funds;

 - (e) all amounts not required to be credited to any other ledger;
- (ii) the Redemption Ledger:

- (v) the Deposit Ledger: following a downgrade of the Seller and for as long as it is continuing, any amount paid by the Seller on any Mortgage Collection Payment Date equal to or to replenish the Deposit Required Amount.

Debits to ledgers

The Issuer (or the Issuer Administrator on its behalf) will not debit any amounts to any ledger, except (x) following the delivery of an Enforcement Notice by the Security Trustee, in accordance with the Post-Enforcement Priority of Payments (which contains separate provisions in respect of the Participation Ledger) and (y) as long as no Enforcement Notice has been delivered by the Security Trustee, as follows:

- (i) the Income Ledger: in accordance with the Revenue Priority of Payments;
- (ii) the Redemption Ledger: in accordance with the Redemption Priority of Payments;
- (iii) the Swap Replacement Ledger:
 - (a) to pay any termination amount due to the Swap Counterparty in respect of a termination of the Swap Agreement;

- (b) to pay any premium due to a replacement swap counterparty upon entry into a replacement swap agreement; and
 - (c) to the extent in excess of amounts owed to the Swap Counterparty in respect of (x) a termination of the Swap Agreement or (y) any premium payable to a replacement swap counterparty upon entry into a replacement swap agreement, for credit to the Income Ledger;
- (iv) the Participation Ledger: for on-payment to the relevant Participant under the relevant Participation on a Mortgage Collection Payment Date; and
- (v) the Deposit Ledger:
 - (a) if a Borrower invokes defences purporting to establish that an amount equal to an unpaid cash deposit (other than Bank Savings Deposits and Construction Deposits) is deducted from the relevant Mortgage Receivables it owes to the Seller, an amount equal to such deducted amount for credit to (if such deduction relates to interest on the relevant Mortgage Receivable, for addition to the Revenue Funds) the Income Ledger or (if such deduction relates to principal on the Mortgage Receivable, for addition to the Principal Funds made in the immediately preceding Mortgage Calculation Period) the Redemption Ledger; and
 - (b) following any decrease in the Deposit Required Amount, for repayment to the Seller.

5.7 ADMINISTRATION AGREEMENT

Pursuant to the Administration Agreement, the Issuer Administrator will provide certain administration services to the Issuer, including to:

- (a) operate the Issuer Accounts and ensure that payments are made into and from such accounts in accordance with the Administration Agreement, the Mortgage Receivables Purchase Agreement, the Security Documents, the Issuer Account Agreement and any other applicable Transaction Document, provided however that nothing herein shall require the Issuer Administrator to make funds available to the Issuer to enable such payments to be made other than as expressly required by the Administration Agreement;
- (b) keep any records necessary for all Taxation purposes;
- (c) assist the auditors of the Issuer and provide such information to them as they may reasonably request for the purpose of carrying out their duties as auditors;

- (e) arrange for all payments due to be made by the Issuer under any of the Transaction Documents (including under each relevant Priority of Payments), provided that such monies are at the relevant time available to the Issuer and provided further that nothing herein shall constitute a guarantee by the Issuer Administrator of all or any of the obligations of the Issuer under any of the Transaction Documents;
- (f) arrange for all payments due to be made by the Issuer pursuant to Clause 9 (*Priorities of Payments*) of the Trust Deed;
- (g) provide accounting services, including reviewing receipts and payments, supervising and assisting in the preparation of interim statements and final accounts and supervising and assisting in the preparation of Tax returns;
- (h) on behalf of the Issuer, provided that such monies are at the relevant time available to the Issuer, pay all the out-of-pocket expenses of the Issuer, incurred by the Issuer Administrator on behalf of the Issuer in the performance of the Issuer Administrator's duties hereunder including:
 - (i) all Taxes which may be due or payable by the Issuer;
 - (ii) all registration, transfer, filing and other fees and other charges payable in respect of the transfer by the Seller of Mortgage Receivables to the Issuer;

Fee, Costs and Expenses

The Issuer shall for each Notes Calculation Period pay to the Issuer Administrator for its services provided under the Administration Agreement in arrear on the first following Notes Payment Date a fee and an indemnification for out-of-pocket costs, expenses and charges (plus any applicable value added

tax), incurred by the Issuer Administrator in the performance of such services, such fee to be agreed between the Issuer, the Issuer Administrator and the Security Trustee from time to time.

Termination

If an event of default (which includes subject to applicable grace periods, a payment default, breach of undertaking and Insolvency Proceedings in respect of the Issuer Administrator) occurs in respect of the Issuer Administrator under the Administration Agreement, then the Issuer and/or the Security Trustee may at once or at any time thereafter while such event of default is continuing, terminate the Administration Agreement with effect from a date specified by the Issuer and/or the Security Trustee. Upon the termination of the Administration Agreement, the Issuer or, following an event of default, the Security Trustee shall use its reasonable endeavours to appoint a substitute issuer administrator that satisfies the conditions set forth in the Administration Agreement. The appointment of the Issuer Administrator under the Administration Agreement may be terminated upon the expiry of not less than 12 months' notice of termination given by the Issuer Administrator to each of the Issuer and the Security Trustee (or such shorter time as may be agreed between the Issuer Administrator, the Issuer and the Security Trustee) provided that, among other things, a substitute administrator has been appointed by the Issuer and such appointment will be effective not later than the date of such termination.

Obligations of the Issuer Administrator

Upon termination of the appointment of the Issuer Administrator under the Administration Agreement the Issuer Administrator shall:

- (c) provide all relevant information contained on computer records in the form of a flat file and/or CD Rom, together with details of the layout of the files set out in such flat file and/or CD Rom; and
- (d) co-operate and consult with and assist the Issuer or the Security Trustee or its nominee, as the case may be, for the purposes of explaining the file layouts and the format of the flat file/CD Rom containing such computer records on the computer system of the Issuer or the Security Trustee or such nominee, as the case may be.

The initial Issuer Administrator is ING. See section 3.4 (*Seller/Originator*).

6.2 DESCRIPTION OF MORTGAGE LOANS

The loan products or loan parts to which the Mortgage Receivables relate can be categorised and described as follows (regardless of the different names used by the Seller to refer to its loan products falling under the same category):

1. **Interest-only Mortgage Loan:** Under an Interest-only Mortgage Loan only interest is due until maturity. The full principal amount is repayable in one instalment at maturity. An Interest-only Mortgage Loan is not connected to a Mixed Insurance Policy and does not have an investment part;
2. **Annuity Mortgage Loan:** An Annuity Mortgage Loan is characterised by equal periodical payments by the Borrower. These payments contain both an interest and a principal component. Given that with each principal payment part of the Mortgage Loan is redeemed, the interest component declines after each successive payment. The principal component increases in such a way that the remaining balance of the Mortgage Loan at maturity will be zero. An Annuity Mortgage Loan is not connected to a Mixed Insurance Policy and does not have an investment part;
3. **Linear Mortgage Loan:** The periodical payment under a Linear Mortgage Loan consists of a constant principal component plus an interest component based on the remaining Mortgage Loan balance. The balance of the Mortgage Loan is thus being repaid in a straight-line fashion i.e. linear, and will be zero at maturity, while the interest payment declines after each successive payment. A Linear Mortgage Loan is not connected to a Mixed Insurance Policy and does not have an investment part;
4. **Investment Mortgage Loan:** Under an Investment Mortgage Loan, like an Interest-only Mortgage Loan, only interest is due until maturity. The full principal amount is repayable in one instalment at maturity. To secure the Investment Mortgage Loan, the Borrower pledges a securities account (a Borrower Investment Account) which it maintains with an investment firm or a bank established in The Netherlands. Under the related securities account agreement, the Borrower pays (upfront and/or on a regular basis) a sum which is invested in a variety of investment funds offered by the investment firm or bank. Upon maturity the investment proceeds are applied towards repayment of the Investment Mortgage Loan. If the proceeds are insufficient, the relevant Borrower is obliged to make up any shortfall. An Investment Mortgage Loan has an investment part and with respect to certain Investment Mortgage Loans, the Borrower has the possibility to open a savings account which is connected to his Borrower Investment Account. The savings account is maintained in the name of the Borrower with ING. Subject to the terms and conditions of the relevant Investment Mortgage Loan, at the option of the Borrower, (part of) the sum which is to be paid by the Borrower (upfront and/or on a regular basis) is deposited in such savings account (rather than being invested through the Borrower Investment Account). The Borrower will be allowed to switch from investments to savings and *vice versa* in accordance with the terms and conditions of the relevant Investment Mortgage Loan. To secure such Investment Mortgage Loan, the Borrower pledges the savings account. An Investment Mortgage Loan is not connected to a Mixed Insurance Policy;
5. **Life Mortgage Loan:** Under a Life Mortgage Loan (including a life insurance loan), like an Interest-only Mortgage Loan, only interest is due until maturity. The full principal amount is repayable in one instalment at maturity. To secure the Life Mortgage Loan, the Borrower pledges the rights under a Life Insurance Policy to the Seller. Under the Life Insurance Policy the Borrower pays premium consisting of (apart from a cost element) a risk and a capital/investment element. The Borrower has the choice between (i) the Traditional Alternative and (ii) the Unit-Linked Alternative. "**Traditional Alternative**" means the alternative under which the amount to be received upon pay out of the Life Insurance Policy depends on the performance of certain (bond) investments chosen by the relevant Insurance Company with a guaranteed minimum yield. "**Unit-Linked Alternative**" means the alternative under which the amount to be received upon pay out of the Life Insurance Policy depends on the performance of certain investment funds chosen by the Borrower out of a selection of funds selected by the Seller. The insurance proceeds of the Life Insurance Policy are due by the Insurance Company at the earlier of the maturity of the Life Insurance Policy (which is generally thirty years) and the death of the Borrower, and are applied towards repayment of the Life Mortgage Loan. If the

proceeds are insufficient, the relevant Borrower is obliged to make up any shortfall. A Life Mortgage Loan is connected to a Life Insurance Policy;

6. **Savings Mortgage Loan:** Under a Savings Mortgage Loan, like an Interest-only Mortgage Loan, only interest is due until maturity. The full principal amount is repayable in one instalment at maturity. To secure the Savings Mortgage Loan, the Borrower pledges the rights under a Savings Insurance Policy to the Seller. Under the Savings Insurance Policy the Borrower pays premium consisting of (apart from a cost element) a risk and a savings element. The savings element is calculated in such a manner that, on an annuity basis, the proceeds of the Savings Insurance Policy due by the relevant Savings Insurance Company are equal to the principal amount due by the Borrower at maturity of the Savings Mortgage Loan. The insurance proceeds of the Savings Insurance Policy are due at the earlier of the maturity of the Savings Insurance Policy (which is generally thirty years) and the death of the Borrower, and are applied towards repayment of the Savings Mortgage Loan. If the proceeds are insufficient, the relevant Borrower is obliged to make up any shortfall. A Savings Mortgage Loan is connected to a Savings Insurance Policy, but does not have an investment part;
7. **Bank Savings Mortgage Loan:** Under a Bank Savings Mortgage Loan, like an Interest-only Mortgage Loan, only interest is due until maturity. The full principal amount is repayable in one instalment at maturity. To secure the Bank Savings Mortgage Loan, the Borrower pledges the rights in respect of a Bank Savings Account to the Seller, which is held in the name of the Borrower with the Bank Savings Participant and which is connected to the Bank Savings Mortgage Loan. The Bank Savings Account is a blocked account and the amounts standing to the credit thereto shall in principle only be released at maturity of the Bank Savings Mortgage Loan (which is generally thirty years), the death of the Borrower or, subject to the applicable general conditions, in certain other limited circumstances (e.g. a sale of the Mortgaged Asset) and shall, subject to the applicable general conditions, in principle only be applied to repay the related Bank Savings Mortgage Loan. The Borrower has the choice between (i) Alternative I and (ii) Alternative II. Under Alternative I the Borrower during the life of the Bank Savings Mortgage Loan makes a monthly fixed payment into the Bank Savings Account, which will only be adjusted upon a prepayment being made in respect of the Bank Savings Mortgage Loan. The monthly fixed payment is calculated in such a manner that, on an annuity basis, the aggregate amount (consisting of such monthly fixed payments and accrued interest thereon) credited to the Bank Savings Account at maturity of the Bank Savings Mortgage Loan is equal to the principal amount due by the Borrower at maturity of the Bank Savings Mortgage Loan. The interest rate payable by the Bank Savings Participant in respect of the Bank Savings Deposit is not linked to the interest rate payable by the Borrower under the Bank Savings Mortgage Loan. In respect of Alternative I, in the event that the Bank Savings Account is terminated within ten years from the date on which the Bank Savings Account became effective, the Borrower is obliged to repay the Bank Savings Mortgage Loan in full. Under Alternative II, the Borrower during the life of the Bank Savings Mortgage Loan makes a monthly fixed payment into the Bank Savings Account whereby the interest rate payable by the Bank Savings Participant in respect of the Bank Savings Deposit is linked to the interest rate payable by the Borrower under the Bank Savings Mortgage Loan. The monthly fixed payment will be adjusted each time that either a prepayment is made in respect of the Bank Savings Mortgage Loan, an amendment is made to the maturity date of the Bank Savings Mortgage Loan, the Borrower makes an additional payment into the Bank Savings Account or the interest rate payable by the Borrower under the Bank Savings Mortgage Loan is reset (i.e. at the end of each fixed-interest period), to ensure that (similar to Alternative I) the aggregate amount credited to the Bank Savings Account (consisting of such payments and accrued interest thereon and calculated in such manner on an annuity basis) at maturity of the Bank Savings Mortgage Loan is equal to the principal amount due by the Borrower at maturity of the Bank Savings Mortgage Loan. If at maturity of the Bank Savings Mortgage Loan, the related Bank Savings Deposit is insufficient to repay the Bank Savings Mortgage Loan in full, the Borrower is obliged to make up the shortfall. A Bank Savings Mortgage Loan has a savings part but not an investment part and is not connected to a Mixed Insurance Policy; and/or
8. **Revolving Credit Mortgage Loan:** A Revolving Credit Mortgage Loan (a "**Revolving Credit Mortgage Loan**") is a loan which can be repaid at any time by the Borrower without incurring any prepayment penalty. Under the relevant Mortgage Conditions the Borrower may at any

time make drawings up to the agreed maximum amount and reborrow amounts which have been repaid,

provided, in each case, that if and to the extent that the amount of the relevant Mortgage Loan (other than an NHG Mortgage Loan (see section 6.5 (*NHG Guarantee Programme*))) exceeds a certain percentage of the foreclosure value (*executiewaarde*) or market value (*marktwaaarde*) (as the case may be) of the relevant Mortgaged Asset as set out in the applicable Lending Criteria, the Borrower is advised (but not obliged) to enter into a Risk Insurance Policy under which the Borrower pays premium consisting of (apart from a cost element) a risk element only, and to pledge such Risk Insurance Policy to the Seller as security for the Mortgage Loan.

Based on the numerical information set out in the section 6.1 (*Stratification Tables*) but subject to what is set out in section 2 (*Risk Factors*), the Mortgage Loans have characteristics that demonstrate the capacity to produce funds to service any amounts due and payable under the Class A Notes and the Class B Notes.

Interest types

The Seller offers a number of different types of interest on its mortgage products, which are up to the date of this Prospectus as summarised below.

Floating rate interest (Variabele rente)

The floating interest rate is fixed for a period of one, three, six or twelve months. The interest rate can be changed on the first day of a subsequent period of one, three, six or twelve months in line with the prevailing interest rate on the last banking day previous to such subsequent period.

Fixed rate interest (Vaste rente)

The Borrower pays the same interest rate throughout the fixed-interest period. The fixed-interest periods are available in terms of one year to twenty years. Subject to certain conditions it is possible to change the term (of the fixed-interest period) by means of either interest rate averaging or by paying up front the cash value of the interest difference.

The Borrower may opt for an interest consideration period (*rentebedenktijd*), in which case the Borrower can during the last year or, as the case may be, during the last two years of a fixed interest period choose a new fixed interest period.

Combination of interest periods (Renteknip)

A Borrower may divide its Mortgage Loan into two or more parts. Different interest periods may be applicable to the various parts of the Mortgage Loan. The intention is to avoid a sudden interest rate increase that would otherwise apply to the entire amount of the Mortgage Loan.

No revaluation

No revaluation of the Mortgaged Assets has taken place for the purpose of the issuance of the Notes.

6.3 ORIGINATION AND SERVICING

General

ING (in its capacity as Seller), a subsidiary of ING Groep N.V., is supervised by DNB, and has transferred and may transfer further Mortgage Receivables to the Issuer pursuant to the Mortgage Receivables Purchase Agreement.

Origination

Introduction

The mortgage loans are distributed through independent broker agents and ING Groep N.V. broker agents or by telephone or internet in combination with regular mail. New mortgage loans are accepted on the basis of a fixed underwriting protocol.

The principal items in the underwriting protocol are:

Ministerial Regulation and the Code of Conduct (Gedragscode Hypothecaire Financieringen)

The Ministerial Regulation (*Tijdelijke regeling hypothecair krediet*) and the Code of Conduct on mortgage financing are applicable to all Dutch financial institutions offering mortgage loans for the purchase, reconstruction or refinancing of the borrower's property. The Ministerial Regulation dictates the income criteria for the borrower and the maximum loan to value, which are hence incorporated in Dutch law. The Code of Conduct dictates amongst others how to determine the maximum loan capacity of the borrower, and operates on a "comply or explain" basis. This means that each mortgage provided needs to comply with the Code of Conduct or appropriate explanation needs to be provided on a per mortgage basis. The calculation of the maximum loan capacity is based on an annuity test, an interest rate determined quarterly by the AFM and the maximum debt-to-income ratios (housing ratios). Currently, a minimum interest rate of 5.0 per cent. applies to mortgage loans with a floating or fixed rate of interest of up to a term of 10 years or the actual interest rate of the loan if it is higher. Based on this interest rate and the duration of the loan a monthly annuity is calculated. The total annuity payments per year should be less than the maximum housing ratio (i.e. compliant with the annuity test). The Code of Conduct also dictates under which conditions it is allowed to deviate from this annuity test in order to test with the real mortgage expenses. In case of a dual income household, the housing ratio is determined by the higher of the two incomes plus half of the lower of the two incomes. The total of incomes is accounted to determine the maximum loan amount. In order to meet the underwriting criteria, the maximum acceptable housing ratio ranges between 9.0 per cent. and 38.0 per cent. and where the borrower is eligible for Old Age Pension, currently at the age of 65 years and three months, between 13.5 per cent. and 47.0 per cent., depending of the income of the borrower. The higher the income, the higher the maximum housing ratio.

Since 1 August 2011, the mortgage lending conditions set out in the Code of Conduct have become more strict. As of 1 January 2016, (i) mortgages may not exceed 102 per cent. of the market value (*marktwaarde*) of the property, (ii) the interest-only element of a mortgage may not exceed 50 per cent. of the property's market value and (iii) the rules surrounding the approval of "explain" mortgages (i.e. mortgages that do not necessarily comply in full with the Code of Conduct) have been tightened.

Income

A vast majority of borrowers under mortgage loans receive income from paid employment. For most other borrowers under mortgage loans, the income is generated from self-employed activity, pensions, social benefits or alimony. The income components are stipulated in the protocol. A check on the income is conducted by requesting salary statements and a recent employer's declaration. Self-employed persons have to comply with predefined ratings from an internal rating model and/or have to submit full annual accounts (including an independent auditor's report or sign-off) for the business over the past three years. A director/majority shareholder is regarded as self-employed.

National Credit Register (Bureau Krediet Registratie – BKR)

A check is completed on every borrower under a mortgage loan with the BKR. A negative credit registration on the borrower's name will, in principle, lead to a rejection of the mortgage request.

Collateral

To determine the market value of the property either (i) a valuation report, (ii) a WOZ value statement (which is a value statement of the property by the Dutch Tax authorities), (iii) a purchase and construction agreement may be used, depending on the type of property it concerns (existing property, existing property being partly reconstructed, a newly built property).

If a valuation report is required, the valuation will have to be carried out by a registered valuer, who is a member of *Nederlands Register Vastgoed Taxateurs* ("NRVT"). The registered valuer must be independent and may (therefore) not take part in the purchase or sale of the relevant property and must operate in the area in which the property is located. The valuation report must be based on "*Taxatierapport financiering woonruimte, April 2016*" and have been validated by a certified validation institute which is a member of the Stichting Taxaties en Validaties ("STenV")

A valuation report will be required:

- (a) in case of an existing property not already owned by the borrower;
- (b) if a mortgage loan is intended to have the benefit of an NHG Guarantee (except for newly built properties);
- (c) in case of a newly built property, provided that the principal amount of the mortgage loan exceeds EUR 1,000,000;
- (d) in all cases where the Seller deems necessary.

A valuation report dated within the last 6 months, or WOZ value statement dated within the last 12 months and that adheres to all other criteria set by the Seller, is deemed acceptable.

Currently, newly originated mortgage loans have a maximum principal amount outstanding of 102 per cent. of the market value of the property at origination.

Other underwriting conditions

Apart from the principal underwriting factors set out above, the following conditions apply: (i) mortgage loans are granted only to individuals, (ii) the relevant owners assume joint and several liability for the mortgage receivable and (iii) mortgage loans are granted on the borrower's own residential property only.

Mortgage Analysis Programme

First checks are performed against the BKR and the EVA (*Externe Verwijzings Applicatie*) database verifying the amount of other outstanding credit lines in the name of the borrower and whether the borrower has been registered on a fraud list. The mortgage calculations are processed through a proprietary software mortgage analysis tool, which also calculates the maximum mortgage loan amounts that can be advanced. Once the mortgage loans have been approved, the mortgage loan offer software will generate the approved mortgage loan offer. Certain mortgage loans that are not approved in first instance (e.g. due to the loan amount requested or applications that do not comply with the standard protocols) can be approved manually on two levels, depending, among other things, on the amount of the mortgage loan requested. Periodically, internal audit checks are conducted to determine whether the mortgage loans are granted in conformity with the Seller's origination criteria applying to mortgage loans. Approved and accepted mortgage loans are administered in 'HYPOS', the applicable mortgage loan administration system.

Acceptance

Before final acceptance of a mortgage loan by a borrower, a check is performed on whether the borrower has met all the pre-conditions stated in the mortgage offer. After acceptance, the final terms of the mortgage deed are sent to the civil law notary. The civil law notary can only make the relevant advances (paid to it by the Seller) to the borrower after the mortgage deed has been signed.

Insurance

A borrower is required to take out insurance in respect of the property against risk of fire and other accidental damage for the full restitution of the value thereof.

Security

Each mortgage loan is secured by a first priority right (*eerste in rang*) or a first and sequentially lower priority right of mortgage in the form of a notarial deed, which is duly registered at the Dutch land registry (*Dienst van het Kadaster en de Openbare Registers*). When a mortgage deed is first presented for submission for registration an entry to this effect is made in the land register. The first entry in the land register establishes priority over any subsequent claims, encumbrances and attachments, in respect of the relevant property. ING accepts no second ranking (or lower) mortgage right if the first entry of a mortgage right is made in the name of third parties other than ING. Currently ING, only in the case of a bridge loan, accepts a second or lower ranking right of mortgage where a first ranking right of mortgage has already been registered in the name of a third party whereby additional conditions will apply to the relevant mortgage loan in relation to the outcome of the selling price:

- (i) if the property has already been sold, the bridge loan consists of the selling price minus selling costs and minus the current mortgage loan on the property;
- (ii) if the property has not yet been sold, the bridge loan consists of 90 per cent. of the current market value minus the current mortgage loan on the property.

A bridge loan is based on an expected increase in the value of the current property to finance a new property, before the current property is sold.

Servicing

Introduction

The Servicer is responsible for the mortgage administration of the Dutch business units of ING, including the non-commercial contacts with the clients. Currently, the Servicer provides mortgage administration services for approximately 700,000 mortgage loans (ING), amounting to approximately EUR 109 billion. Most of the Servicer's mortgage administration and arrears management services are carried out in Amsterdam.

Mortgage administration

Following the granting of the loan and the creation of the mortgage, the normal administration of the mortgage loan in 'HYPOS' commences. The Servicer's portfolio administrative control is divided into collection procedure, administration, administrative control of arrears, technical administrative control, interest rate reviews and file creation.

Interest collection

For the vast majority of the mortgage loans, interest is collected by a direct debit account. Each month, the mainframe automatically calculates the amount of interest due. The interest on loans originated by ING is collected in arrears on the first business day of each month. The interest received is recorded in each borrower's ledger account. From then on, all payments per borrower are automatically recorded under each operating entity. This automated process has a very low fail rate. Failure can be caused by a change in bank account of the borrower without the Servicer being notified or an insufficient balance on the bank account to satisfy the payment. In case the first direct debit attempt has failed, new attempts will automatically be made every week. The borrower will receive a first reminder on the tenth day following the first unsuccessful automatic collection.

Individual mortgage management

ING has an additional policy with respect to individual changes in outstanding mortgage loans, entailing that the standard acceptance policy must be followed. Complementary policy rules also apply in specific situations, such as mortgage loan conversions, a discharge of a borrower, death, changes in relation to

the property or to the maturity of a mortgage loan or in case of a(n) (expected) default under the mortgage loan.

Arrears management

The arrears management procedure starts on the first day that the borrower fails to meet its payment obligations. Borrowers are informed of arrears of payment after each direct debit failure. Moreover, the provision of information must be correct and comprehensive; the borrower must be aware of the possible means and measures that he may be entitled to receive. Attention is also paid to the consequences of observing/not observing arrangements made. In relation hereto, there are possible consequences of mortgage payment arrears, such as fiscal consequences, reporting to the BKR, attachment of the borrower's salary or sale of the property (private sale, sale based on a power of attorney, private foreclosure sale or foreclosure by auction). The communication with the borrower may be via telephone, digital, in writing (email or letter) or in person.

The arrears management control procedure globally consists of two phases. In the first phase, the goal is to re-instate the normal payment pattern and to retain the borrower. In this phase, contact is made with the borrower.

The second phase consists of preventing losses and liquidation where the intention is to control risk and to maximise collections. A final effort can be made to re-instate the payment pattern. Priority is given to urging customers to voluntarily sell the collateral (private sale), a process that is co-ordinated by the arrears management department and a real estate agent to maximise the collections. Foreclosure occurs if and when the borrower is unwilling or unable to sell the property voluntarily or the borrower cannot be located. In this case, particular attention is given to the foreclosure procedure in order to maximise revenues.

Although the arrears management control procedure can be adjusted to reflect risk considerations, in general the procedure is as follows:

- (a) the amount to be debited will be updated according to the payments due at that date (i.e. any premium, penalty, interest and repayments). In this direct debit procedure the outstanding amounts to be collected are debited in the following order: (i) premium (in relation to insurance, investment and/or savings), (ii) penalty payment, (iii) interest and (iv) repayment;
- (b) all borrowers who have become in arrears are contacted by telephone within the first month in which the arrears have come into existence. Depending on the risk assessment made of the borrower's financial difficulties, the borrower is contacted at either the beginning of the month or later during that month;
- (c) if the borrower is repeatedly in arrears, i.e. more than once in arrears in six months, extrajudicial costs are charged if the payments due are not made within 14 days. The extrajudicial costs (EUR 40 per invoice) are charged if the borrower still is in arrears after the final direct debit. This is collected at the moment of the first direct debit in the next month. The purpose of this policy to charge such a penalty is to give the borrower an incentive to contact the arrears department or to make its payments in a timely manner. Each administrator of the arrears department has the authority to decide not to charge the extrajudicial costs if, given the borrower's individual situation, such a charge would not contribute to reaching a solution;
- (d) at the moment of the first contact arrangements are made to repay the arrear based on the financial situation of the borrower. After a further (financial) analysis based on information about the borrower, either suitable means are implemented for the borrower (such as a payment arrangement, budget coaching or restructuring of the mortgage loan) or a (substantiated) decision is made to terminate the client relationship;
- (e) the borrower is considered to be cured at the moment that all arrears are paid and the following regular payment is made on time. The payment arrangement ends at the moment the last instalment is paid;
- (f) in the following cases the client relationship is terminated:

- (i) there is no contact with the borrower despite external research into retrieving client contact information and the measures taken have had no effect; and
 - (ii) the borrower no longer can be cured. All possible means to resolve this have been examined but have not been adequate to financially cure the borrower. There is also no prospect of a change in the financial situation of the borrower that could still result in recovery; and
- (g) until the actual moment of a forced sale, the borrower has the possibility to pay the amount due to prevent that forced sale.

Foreclosure procedures

If a borrower fails to comply with the agreed payment schemes, or if it is clear that there is no prospect of the interest, principal and/or premium arrears being paid in the near future, the borrower's file is handed over to the intensive arrears management department to initiate foreclosure. Foreclosure on the property is only undertaken if the intensive arrears management department determines that there is no foreseeable solution.

ING has the right to publicly sell (auction) the mortgaged property if the borrower remains in breach of its obligations and no other arrangements are made. As a first ranking mortgagee, ING does not have to obtain court permission prior to foreclosing on the mortgaged property. If the proceeds from the sale (by auction) of the mortgaged property do not fully cover ING's claims, ING may also sell any pledged insurance policy or deposit. However, after giving such notification, Dutch law requires that before a lender can foreclose on a borrower's mortgaged property, the borrower must be notified in writing that it is in default and must be given reasonable time to comply with the lender's claims.

In the case of a borrower's bankruptcy, ING may foreclose on the borrower's property as if there was no bankruptcy. Nevertheless, foreclosure must take place within a reasonable time. Failing this deadline could cause the bankruptcy trustee to take over the foreclosure proceedings. If this occurs, ING must contribute to the general bankruptcy costs.

If ING decides to sell the property, it is required to notify the parties directly involved, including the borrower as well as the person owning the asset (in the event that these are not the same parties). The notification must include the amount outstanding and the expenses incurred to date as well as the name of the civil notary responsible for the foreclosure sale.

Prior to foreclosure, ING will calculate the best method of maximising the sale value of the mortgaged property. Based on this calculation, ING may decide that the property should be sold either in a private sale or by public auction. A private sale can, and often does, replace a public auction, provided that the legal requirements are fulfilled (which include obtaining permission from the relevant district court for the private sale). When notification of foreclosure is made by ING, formal instructions are given to a (dedicated) civil law notary. The date of the sale will be set by the civil law notary within, in principle, three weeks of this instruction and will usually be approximately six weeks after the decision to foreclose has been made (depending on the region and the number of other foreclosures being handled by the relevant district court at the time).

The distribution of the foreclosure proceeds depends on whether there is only one mortgage holder or whether there are several. If there is one mortgage holder, the proceeds will be distributed to the mortgage holder after deducting the costs of foreclosure. In the case of more than one mortgage holder, the distribution of proceeds takes place according to the priority of the mortgages.

In general, it takes on average two to four months to foreclose on a property once the decision to foreclose has been made. Throughout the foreclosure process, ING follows the requirements set forth in Dutch law and its so-called "Intensive Arrears Management Manual".

In the auction ING's employees from arrears management are present. Their goal is to ensure that the minimum price determined beforehand is achieved. That includes active bidding in the auction. If at the end of the auction ING's employee is the highest bidder, then ING will become the owner of the property. For this purpose a purchase company is established. This full subsidiary of ING, called JUZA, aims to sell the property again on a cost-covering basis within a period of 6 months. This period of 6 months allows the JUZA to ask for a refund of the 2 per cent. transfer tax (*overdrachtsbelasting*).

Outstanding amounts

If a residual debt remains after foreclosure, the borrower concerned remains liable for this residual. A collection agency is brought in to determine whether the claim can be collected. In principle, a new payment scheme is arranged for the residual debt. If the borrower does not wish to agree to a payment scheme or does not comply with an agreed payment scheme, other measures can also be taken, including distraint of the borrower's salary. These measures also include the engagement of a bailiff.

Fraud desk

All banks in The Netherlands have a working relationship with respect to mortgage loan fraud through the Dutch Association of Banks (*Nederlandse Vereniging voor Banken*). A national fraud desk (*Counter Hypotheken Fraude*) has been established through which all the banks notify each other of possible fraud cases. Within ING, a fraud desk has been established for all mortgage loans. All known fraud cases are registered in an internal and external verification system that identifies fraudulent borrowers. Each new mortgage loan application is automatically run through this register. Additionally, new names added to the register are automatically crosschecked within the existing mortgage loans of ING. Besides the check on individual mortgage loans, intermediaries are checked periodically as well.

ING actively manages mortgage fraud by giving anti-fraud presentations to all parties involved in the origination process (i.e. different departments of ING and the different originating labels of ING). In addition, a fraud site has been created on the intranet within ING (as Servicer or Seller), including a checklist of indicators for fraud. Employees are well trained on the different aspects of possible fraud. All suspicious applications are screened and if necessary sent to the special fraud desk.

In case of the detection of fraud in respect of an existing mortgage loan, the policy of ING (as Servicer or Seller) is to accelerate the mortgage loan concerned and report the borrower to the police. The official reporting route of this procedure is undertaken in close cooperation with ING's prevention and security team.

6.4 DUTCH RESIDENTIAL MORTGAGE MARKET

This paragraph 6.4 is substantially derived from the Dutch Residential Mortgage Market Overview over the period until May 2016, which overview is publicly available at the website of the Dutch Securitisation Association¹. The information has been accurately reproduced and ING believes that this source (namely the Dutch Securitisation Authorisation) is reliable and as far as ING is aware and is able to ascertain from the relevant source, no facts have been omitted which would render the reproduced information inaccurate or misleading.

Dutch residential mortgage market

The Dutch residential mortgage debt stock is relatively sizeable, especially when compared to other European countries. Since the 1990s, the mortgage debt stock of Dutch households has grown considerably, mainly on the back of mortgage lending on the basis of two incomes in a household, the introduction of tax-efficient product structures such as mortgage loans with deferred principal repayment vehicles and interest-only mortgage loans, financial deregulation and increased competition among originators. Moreover, Loan-to-Value (LTV) ratios have been relatively high, as the Dutch tax system implicitly discouraged amortisation, due to the tax deductibility of mortgage interest payments. The mortgage debt growth continued until Q4 2012, when total Dutch mortgage debt stock peaked at EUR 669 billion¹. The correction on the housing market caused a modest decline in mortgage debt in subsequent years, but as the market has been recovering rapidly since 2013, there is recently again a tendency to higher debt growth visible. In Q4 2015, the mortgage debt stock of Dutch households equalled EUR 655 billion.² This represents a rise of EUR 4.4 billion in 2015 as a whole, following two years of a slight fall.

Tax system

The Dutch tax system plays an important role in the Dutch mortgage market, as it allows for almost full deductibility of mortgage interest payments from taxable income. This tax system has been around for a very long time, but financial innovation has resulted in a greater leverage of this tax benefit. From the 1990s onwards until 2001, this tax deductibility was unconditional. In 2001 and 2004, several conditions have been introduced to limit the usage of tax deductibility, including a restriction of tax deductibility to (mortgage interest payments for) the borrower's primary residence and a limited duration of the deductibility of 30 years.

A further reform of the tax system was enforced on 1 January 2013. Since this date, all new mortgage loans have to be repaid in full in 30 years, at least on an annuity basis, in order to be eligible for tax relief (linear mortgage loans are also eligible). The tax benefits on mortgage loans, of which the underlying property was bought before 1 January 2013, have remained unchanged and are grandfathered, even in case of refinancing and relocation. As such, new mortgage originations still include older loan products, including interest-only. However, any additional loan on top of the borrower's grandfathered product structure, has to meet the mandatory full redemption standards to allow for tax deductibility.

Another reform imposed in 2013 to reduce the tax deductibility is to lower the maximum deduction percentage. This used to be equal to the highest marginal tax bracket (52%), but since 2013 the maximum deduction is lowered by 0.5% per annum to 38.0% in 2042 (2016: 50.5%). There are several housing-related taxes which are linked to the fiscal appraisal value (WOZ) of the house, both imposed on national and local level. Moreover, a transfer tax (stamp duty) of 2% is applied when a house changes hands. Although these taxes partially unwind the benefits of tax deductibility of interest payments, and several restrictions to this tax deductibility have been applied, tax relief on mortgage loans is still substantial.

Loan products

The Dutch residential mortgage market is characterised by a wide range of mortgage loan products. In general, three types of mortgage loans can be distinguished.

¹ See: <http://www.dutchsecuritisation.nl/dutch-residential-mortgage-market>.

² Statistics Netherlands, household data.

Firstly, the "classical" Dutch mortgage product is an annuity loan. Annuity mortgage loans used to be the norm until the beginning of the 1990s, but they have returned as the most popular mortgage product in recent years. Reason for this return of annuity mortgage loans is the tax system. Since 2013, tax deductibility of interest payments on new loans is conditional on full amortisation of the loan within 30 years, for which only (full) annuity and linear mortgage loans qualify.

Secondly, there is a relatively big presence of interest-only mortgage loans in the Dutch market. Full interest-only mortgage loans were popular in the late nineties and in the early years of this century. Mortgage loans including an interest-only loan part were the norm until 2013, and even today, grandfathering of older tax benefits still results in a considerable amount of interest-only loan origination.

Thirdly, there is still a big stock of mortgage products including deferred principal repayment vehicles. In such products, capital is accumulated over time (in a tax-friendly manner) in a linked account in order to take care of a bullet principal repayment at maturity of the loan. The principal repayment vehicle is either an insurance product or a bank savings account. The latter structure has been allowed from 2008 and was very popular until 2013. Mortgage loan products with insurance-linked principal repayment vehicles used to be the norm prior to 2008 and there is a wide range of products present in this segment of the market. Most structures combine a life-insurance product with capital accumulation and can be relatively complex. In general, however, the capital accumulation either occurs through a savings-like product (with guaranteed returns), or an investment-based product (with non-guaranteed returns).

A typical Dutch mortgage loan consists of multiple loan parts, e.g. a bank savings loan part that is combined with an interest-only loan part. Newer mortgage loans, in particular those for first-time buyers after 2013, are full annuity and often consists of only one loan part. Nonetheless, tax grandfathering of older mortgage loan product structures still results in the origination of mortgage loans including multiple loan parts.

Most interest rates on Dutch mortgage loans are not fixed for the full duration of the loan, but they are typically fixed for a period between 5 and 15 years. Rate term fixings differ by vintage, however. More recently, there has been a bias to longer term fixings (10-20 years). Most borrowers remain subject to interest rate risk, but compared to countries in which floating rates are the norm, Dutch mortgage borrowers are relatively well-insulated against interest rate fluctuations.

Underwriting criteria

Most of the Dutch underwriting standards follow from special underwriting legislation (*Tijdelijke regeling hypotheekair krediet*). This law has been present since 2013 and strictly regulates maximum LTV and Loan-to-Income (LTI) ratios. The current maximum LTV is 102% (including all costs such as stamp duties), but it will be gradually lowered to 100% by 2018, by 1% per annum. LTI limits are set according to a fixed table including references to gross income of the borrower and mortgage interest rates. This table is updated annually by the consumer budget advisory organisation "NIBUD" and ensures that income after (gross) mortgage servicing costs is still sufficient to cover normal costs of living.

Prior to the underwriting legislation, the underwriting criteria followed from the Code of Conduct for Mortgage Lending, which is the industry standard. This code, which limits the risk of over crediting, has been tightened several times in the past decade. The 2007 version of the code included a major overhaul and resulted in tighter lending standards, but deviation in this version was still possible under the "explain" clause³. In 2011, another revised and stricter version of the Code of Conduct was introduced. Moreover, adherence to the "comply" option was increasingly mandated by the Financial Markets Authority (AFM). Although the Code of Conduct is currently largely overruled by the underwriting legislation, it is still in force. The major restriction it currently regulates, in addition to the criteria in the underwriting legislation, is the cap of interest-only loan parts to 50% of the market value of the residence. This cap was introduced in 2011 and is in principle applicable to all new mortgage contracts. A mortgage lender may however diverge from the cap limitation if certain conditions have been met.

³ Under the "explain" clause it is in exceptional cases possible to deviate from the loan-to-income and loan-to-value rules set forth in the Code of Conduct.

Recent developments in the Dutch housing market

The Dutch housing market has shown clear signs of recovery since the second half of 2013. Important factors are among others the economic recovery, high consumer confidence and low mortgage rates.

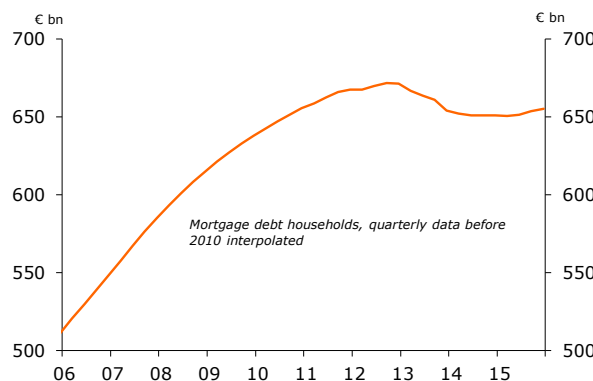

Existing house prices (PBK-index) in Q1 2016 rose by 1.1% compared to Q4 2015. Compared to Q1 2015 this was 4%, the sharpest rise since early 2008. Nonetheless, by comparison with the peak in 2008, the average price drop amounts to 15%. The continued increase in house prices is in line with the rise in sales numbers. Compared to a year ago, sales numbers rose to 24%. This growth figure, however, is somewhat flattering: during Q1 2015 the number of sales of existing homes was lower than normal due to the fact that up to the end of December 2014 households could make use of the temporary extension of the limit for tax-free gifts of EUR 100,000. This measure caused that the number of sales in Q4 2014 was particularly high and lower in Q1 2015. Even so, an annual growth rise of 24% is sizeable. The twelve month total of existing home sales now stands at 190,000, approaching pre-crisis levels.

Forced sales

Compared to other jurisdictions, performance statistics of Dutch mortgage loans show relatively low arrears and loss rates⁴. The most important reason for default is relationship termination, although the increase in unemployment following the economic downturn in recent years is increasingly also a reason for payment problems. The ultimate attempt to loss recovery to a defaulted mortgage borrower is the forced sale of the underlying property.

For a long time, mortgage servicers opted to perform this forced sale by an auction process. The advantage of this auction process is the high speed of execution, but the drawback is a discount on the selling price. In Q1 2016, only 604 sales were forced, which is 1.4% of the total number of sales.

6.5 NHG GUARANTEE PROGRAMME

NHG Guarantee

Since 1 January 1995 Stichting WEW, a central, privatised entity, has been responsible for the administration and granting of the NHG Guarantee (*Nationale Hypotheek Garantie*), under a set of uniform rules which must be approved by the Minister of Finance. The NHG Guarantee covers the outstanding principal, accrued unpaid interest and disposal costs. Irrespective of scheduled repayments or prepayments made on a mortgage loan, the NHG Guarantee is reduced on a monthly basis by an amount which is equal to the principal repayment part of the monthly instalment as if such mortgage loan were to be repaid on a thirty year annuity basis. In respect of each mortgage loan, the NHG Guarantee decreases further to take account of scheduled repayments and prepayments under such mortgage loan (see section 2.5 (*Mortgage Receivables and Mortgaged Assets*)). Also, amounts paid as savings or investment premium under savings insurance policies or life insurance policies, respectively, are deducted from the amount outstanding on such mortgage loan for purposes of the calculation of the amount guaranteed under the NHG Guarantee.

Financing of Stichting WEW

Stichting WEW finances itself, inter alia, by an annually reviewed one-off charge to the borrower at origination of 1.00 per cent. (as of 1 January 2014) of the principal amount of the mortgage loan. Besides this, the NHG scheme provides for liquidity support to Stichting WEW from the Dutch State and, for mortgage loans, benefiting from the NHG Guarantee, originated before 1 January 2011, the participating municipalities. If Stichting WEW is not able to meet its obligations under guarantees issued in respect of mortgage loans originated before 1 January 2011, the Dutch State will provide subordinated interest-free loans to Stichting WEW of up to 50 per cent. of the difference between Stichting WEW's own funds and a pre-determined average loss level, while municipalities participating in the NHG scheme will provide subordinated interest free loans to Stichting WEW in respect of the other 50 per cent. of the difference. If Stichting WEW is not able to meet its obligations under guarantees issued relating to mortgage loans originated after 1 January 2011, the Dutch State will provide subordinated interest free loans to Stichting WEW for up to 100 per cent. of the difference between Stichting WEW's own funds and the pre-determined average loss level. Both the 'keep well' agreement entered into between the Dutch State and Stichting WEW and the 'keep well' agreements entered into between the municipalities and Stichting WEW contain general undertakings of the Dutch State and the municipalities to enable Stichting WEW at all times (including in the event of bankruptcy (*faillissement*), suspension of payments (*surseance van betaling*) or liquidation (*ontbinding*) of Stichting WEW) to meet its obligations under guarantees issued.

Terms and Conditions of the NHG Guarantees

Under the NHG scheme, the lender is responsible for ensuring that the guarantee application meets the NHG terms and conditions. If the application meets these terms and conditions, various reports are produced that are used in the processing of the application, including the form that will eventually be signed by the relevant lender and forwarded to the NHG to register the mortgage and establish the guarantee. Stichting WEW has, however, no obligation to pay any loss (in whole or in part) incurred by a lender after a private or a forced sale of the relevant mortgaged property if such lender has not complied with the terms and conditions of the NHG Guarantee which were applicable at the date of origination of the mortgage loan, unless such non-payment is unreasonable towards the lender.

The specific terms and conditions for the granting of NHG Guarantees, such as eligible income, purchasing or building costs etc. are set forth in published documents by Stichting WEW.

The NHG has specific rules for the level of credit risk that will be accepted. The creditworthiness of the applicant must be verified with the BKR, a central credit agency used by all financial institutions in The Netherlands. All financial commitments over the past five years that prospective borrowers have entered into with financial institutions are recorded in this register. In addition, as of 1 January 2008 the applicant itself must be verified with the Foundation for Fraud Prevention of Mortgages (*Stichting Fraudepreventie Hypotheken*, "SFH"). If the applicant has been recorded in the SFH system, no NHG Guarantee will be granted.

To qualify for an NHG Guarantee various conditions relating to valuation of the property must be met. In addition, the mortgage loan must be secured by a first ranking mortgage right (or a second ranking

mortgage right in case of a further advance). Furthermore, the borrower is required to take out insurance in respect of the mortgaged property against risk of fire, flood and other accidental damage for the full restitution value thereof. The borrower is also required to create a right of pledge in favour of the lender on the rights of the relevant borrower against the insurance company under the relevant life insurance policy connected to the mortgage loan or to create a right of pledge in favour of the lender on the proceeds of the investment funds. The terms and conditions also require a risk insurance policy which pays out upon the death of the borrower/insured for the period that the amount of the mortgage loan exceeds 80 per cent. of the value of the relevant property.

The mortgage conditions applicable to each mortgage loan should include certain provisions such as the provision that any proceeds of foreclosure on the mortgage right and the right of pledge on the life insurance policy or the investment funds shall be applied firstly towards repayment of the mortgage loan guaranteed under the NHG scheme.

An NHG Guarantee for new mortgage loans could be issued up to a maximum of EUR 265,000 (two hundred sixty-five thousand euros) as of 1 July 2014 until 1 July 2015. The maximum amount of the NHG Guarantee was reduced to EUR 245,000 (two hundred forty-five thousand euros) as of 1 July 2015. As from 1 January 2017, the maximum amount will be adjusted each year to match the average house price in the Netherlands (source is Statistics Netherlands (CBS)). The maximum amount of the NHG Guarantee previously was:

- from 1 January 2007 until 1 July 2009 EUR 265,000 (two hundred sixty-five thousand euros);
- from 1 July 2009 until 1 July 2012 EUR 350,000 (three hundred fifty thousand euros);
- from 1 July 2012 until 1 July 2013 EUR 320,000 (three hundred twenty thousand euros);
- from 1 July 2013 until 1 July 2014 EUR 290,000 (two hundred ninety thousand euros);
- from 1 July 2014 to 1 July 2015 EUR 265,000 (two hundred sixty-five thousand euros); and
- from 1 July 2015 to 1 July 2016 EUR 245,000 (two hundred forty-five thousand euros).

On 31 October 2013, the Dutch government announced various changes to the NHG Guarantee which have become effective as of 1 January 2014. One of the changes is the introduction of a loss-sharing mechanism for new originations under which lenders take 10 per cent. of losses if a mortgage defaults. According to the Dutch government, historically lenders in respect of NHG guaranteed loans bore some risk due to the amortizing nature of the NHG Guarantee given that mortgages were predominantly of an interest-only nature creating a gap between the guaranteed amount and the outstanding loan amount of the life of the mortgage. As a result of fiscal regulatory changes, mortgage loans taken out for houses purchased after 1 January 2013 are predominantly repaid on annuity basis and this risk has therefore disappeared. To maintain a lender risk, the Dutch government has now introduced a risk for lenders of 10 per cent. on the realised loss in case of a defaulted mortgage loan.

One of the other changes announced by the Dutch government in respect of the NHG Guarantee is that as of 1 January 2014 homeowners can, after they sold their house, finance an outstanding residual debt into a new mortgage subject to the NHG Guarantee, provided the residual debt arises from the sale of a property that is financed with an NHG Guarantee. One of the conditions is that the costs of the new property and the residual debt remain below the overall limit as mentioned above. Any exceeding outstanding debt must be financed alternatively.

Claiming under the NHG Guarantees

When a borrower is in payment arrears under a mortgage loan for a period of four months, a lender informs Stichting WEW in writing within 30 calendar days of the outstanding payments, including the guarantee number, the borrower's name and address, information about the underlying security, the date of the start of late payments and the total of outstanding payments. When the borrower is in arrears Stichting WEW may approach the lender and/or the borrower to attempt to solve the problem and make the borrower aware of the consequences. If an agreement cannot be reached, Stichting WEW reviews the situation with the lender to endeavour to generate the highest possible proceeds from the property. The situation is reviewed to see whether a private sale of the property, rather than a public auction, would generate proceeds sufficient to cover the outstanding mortgage loan. Permission of Stichting

WEW is required in case of a private sale, unless the property is sold for an amount higher than 95 per cent. of the foreclosure value, as well as in case of a forced sale and execution sale.

Within one month after receipt of the proceeds of the private or forced sale of the property, the lender must make a formal request to Stichting WEW for payment, using standard forms, which request must include all of the necessary documents relating to the original mortgage loan and the NHG Guarantee. After receipt of the claim and all the supporting details, Stichting WEW must make payment within two months. If the payment is late, provided the request is valid, Stichting WEW must pay interest for the late payment period.

In the event that a borrower fails to meet its obligation to repay the mortgage loan and no or no full payment is made to the lender under the NHG Guarantee by Stichting WEW because of the lender's culpable negligence (*verwijtbaar handelen of nalaten*), the lender must act *vis-à-vis* the borrower as if Stichting WEW were still guaranteeing the repayment of the mortgage loan during the remainder of the term of the mortgage loan. In addition, the lender is not entitled to recover any amounts due under the mortgage loan from the borrower in such case. This is only different if the borrower did not act in good faith with respect to his inability to repay the mortgage loan and has failed to render his full cooperation in trying to have the mortgage loan repaid to the lender to the extent possible.

Additional loans

Furthermore, on 1 July 2005 provisions were added to the NHG Conditions pursuant to which a borrower who is or threatens to be in arrears with payments under the existing mortgage loan may request that Stichting WEW grants a second guarantee in respect of an additional mortgage loan to be granted by the relevant lender (*woonlastenfaciliteit*). The aim of the so-called *woonlastenfaciliteit* is to avoid a forced sale of the property. The monies drawn down under the additional loan have to be placed on deposit with the relevant lender and may, up to a maximum period of two years, be used for, among other things, payment of the amounts which are due and payable under the existing mortgage loan, interest due and payable under the additional mortgage loan and the costs made with respect to the granting of the additional mortgage loan. The granting of such an additional loan is subject to certain conditions, including, among other things, the fact that the financial difficulties are caused by a divorce, unemployment, disability or death of the partner of the borrower.

Main NHG underwriting criteria (*Normen*) as of 1 January 2016

With respect to a borrower, the underwriting criteria include but are not limited to:

- (i) The lender must perform a BKR check.
- (ii) As a valid source of income the following qualifies: indefinite contract of employment, temporary contract of employment if the employer states that the employee will be provided an indefinite contract of employment in case of equal performance of the employee and equal business circumstances, for workers with flexible working arrangements or during a probational period (*proeftijd*) a three year history of income statements, for self-employed three year (annual) statements.
- (iii) The maximum loan based on the income of the borrowers is based on the "*toetsinkomen toegestane financieringslasten*" tables and an annuity style redemption (even if the actual loan is (partially) interest only). The mortgage lender shall calculate the borrowing capacity of a borrower of a mortgage loan with a fixed interest terms of less than 10 years on the basis of a percentage determined and published by the AFM, which is based on a weighted average (according to market share) of the mortgage interest rate of at least five of the six large mortgage originators. According to law, the applicable interest rate is a minimum of five per cent.
- (iv) The mortgage lender may also apply a higher notional interest rate when calculating the borrowing capacity of the borrower. The mortgage lender shall calculate the borrowing capacity for a mortgage loan with a fixed interest term of 10 years or more on the basis of the interest rate actually charged by the mortgage lender during that fixed interest term.

With respect to the mortgage loan, the underwriting criteria include but are not limited to:

- (i) As of 1 January 2013, for new borrowers the redemption types are limited to annuity mortgage loans and linear mortgage loans with a maximum term of 30 years.
- (ii) As of 1 July 2014, the maximum amount of the mortgage loan is EUR 265,000. This amount was reduced to EUR 245,000 as of 1 July 2015.
- (iii) As from 1 January 2017, the maximum amount will be adjusted each year to match the average house price in the Netherlands (source is Statistics Netherlands (CBS)). For borrowers with an existing NHG mortgage taking a further advance relating to the improvement of an existing property, the maximum loan amount is EUR 245,000.

The loan amount is also limited by the amount of income and the market value of the property. With respect to the latter:

- (a) For the purchase of existing properties, the maximum loan amount is broadly based on the sum of (i) the lower of the purchase price and the market value based on a valuation report, (ii) the costs of improvements and (iii) 6 per cent. of the amount under (i) plus (ii). This way the maximum loan to market value is 102 per cent. In case an existing property can be bought without paying transfer taxes (*vrij op naam*), the purchase amount under (i) is multiplied by 97 per cent.
- (b) For the purchase of a property to be built, the maximum loan amount is broadly based on the sum of (i) the purchase or construction cost increased with a number of costs such as the cost of construction interest, value added tax and architects (to the extent not included already in the purchase or construction cost) and (ii) 6 per cent. of the amount under (i). This way the maximum loan to market value is 102 per cent.

A risk insurance policy should cover at least the amount by which the mortgage loan exceeds 80 per cent. of the market value of the property.

7. PORTFOLIO DOCUMENTATION

7.1 PURCHASE, REPURCHASE AND SALE

Purchase

In the Mortgage Receivables Purchase Agreement the Seller has agreed to sell and assign, and the Issuer has agreed to purchase and accept assignment of, Mortgage Receivables (including, where applicable, any Related Security) comprising the Initial Portfolio and, subject to certain conditions, Further Advance Receivables (including, where applicable, any Related Security) from time to time. The Mortgage Receivables will be assigned by way of undisclosed assignment (*stille cessie*). This takes place through due execution by the Seller and the Issuer of a Deed of Assignment and Pledge and either (i) registering that deed with the Dutch tax authorities (*Belastingdienst*) or (ii) ensuring such execution is before a civil law notary. Notification (*mededeling*) to the Borrowers or any insurance companies other than the Savings Insurance Companies of the assignment may, at the option of the Issuer or the Security Trustee, only take place if an Assignment Notification Event occurs. Notification to the Savings Insurance Companies will take place through the relevant Beneficiary Waiver Agreement and each subsequent Deed of Assignment and Pledge. Following receipt by the Borrowers or Insurance Companies, as the case may be, of notification of the assignment, only payment to the Issuer will discharge a Borrower's or an Insurance Company's obligations under the relevant Mortgage Receivable or relevant insurance policy (as the case may be), subject to the rights of the Security Trustee as pledgee. The purchase price for the Mortgage Receivables shall consist of:

- (a) an Initial Purchase Price for each Mortgage Receivable equal to the Gross Outstanding Principal Balance of such Mortgage Receivable as at the relevant Cut-Off Date; and
- (b) a Deferred Purchase Price which is not calculated on a Mortgage Receivable by Mortgage Receivable basis but for all Mortgage Receivables together and which is equal to the aggregate Deferred Purchase Price Instalments.

Each Initial Purchase Price is payable on the relevant Transfer Date, save to the extent the relevant Mortgage Receivable relates to a Construction Deposit, in which case the Issuer will withhold the equivalent of such Construction Deposit as at the relevant Cut-Off Date and deposit the same in the Construction Deposit Account. Amounts standing to the credit of the Construction Deposit Account will be applied as described in section 5.6 (*Issuer Accounts*). Each Deferred Purchase Price Instalment is payable in accordance with the relevant Priority of Payments.

The Issuer is entitled to all proceeds relating to a Mortgage Receivable to the extent relating to the period starting on the relevant Transfer Date or, if it concerns principal proceeds, the period starting on the relevant Cut-Off Date.

Purchase of Initial Portfolio

On the Closing Date, the Seller will sell and assign to the Issuer the Initial Portfolio. The Initial Purchase Price for the Initial Portfolio is EUR 5,953,260,433.22, being the equivalent of the aggregate Gross Outstanding Principal Balance of the Initial Portfolio as at the relevant Cut-Off Date.

The Initial Purchase Price for the Initial Portfolio will be funded by the Issuer from the net proceeds of the issue of the Notes (other than the Class C Notes) and the aggregate Initial Settlement Amounts to be received from the Participants in relation to the Initial Portfolio.

Purchases of Further Advance Receivables

In the Mortgage Receivables Purchase Agreement, the Seller covenants, among other things, that if it makes any Further Advance under any Mortgage Conditions relating to a Mortgage Receivable, then on the first following Mortgage Collection Payment Date, the Seller will offer such Further Advance Receivable for sale and assignment to the Issuer for an amount equal to the Gross Outstanding Principal Balance of such Further Advance Receivable as at the relevant Cut-off Date. Until the Notes Payment Date immediately preceding the First Optional Redemption Date, the Issuer is obliged to accept each such offer of Further Advance Receivables, on the condition that the purchase of such Further Advance Receivable does not result in a breach of any of the Additional Purchase Conditions. If the purchase of such Further Advance Receivable would, if completed, result in a breach of any of the Additional

Purchase Conditions then the Issuer will not be obliged to purchase such Further Advance Receivable and will instead be obliged to sell, and the Seller will be obliged to repurchase and accept reassignment of, all Mortgage Receivables relating to the Mortgage Loan in respect of which the relevant Further Advance was granted.

The Initial Purchase Price for any Further Advance Receivable will be funded from the Available Principal Funds.

Additional Purchase Conditions

The purchase by the Issuer of any Further Advance Receivable will be subject to a number of conditions (the "**Additional Purchase Conditions**"), which include that at the relevant date of completion of the sale and purchase of such Further Advance Receivable:

- (i) the Further Advance relates to a Mortgage Receivable;
- (ii) the Seller will represent and warrant to the Issuer and the Security Trustee the matters specified in (i) up to and including (iv) as listed in section 7.2 (*Representations and Warranties*) in respect of such Further Advance Receivable;
- (iii) no Assignment Notification Event has occurred and is continuing;
- (iv) there has been no failure by the Seller to repurchase any Mortgage Receivable which it is required to repurchase pursuant to the Mortgage Receivables Purchase Agreement;
- (v) all receivables with a higher ranking than the Further Advance Receivable are owned by the Issuer;
- (vi) the Available Principal Funds as at the Notes Calculation Date immediately preceding the relevant Transfer Date are sufficient to pay the Initial Purchase Price for the relevant Further Advance Receivable;
- (vii) the aggregate outstanding principal amount of the Further Advance Receivables sold and assigned by the Seller to the Issuer during the immediately preceding 12 calendar months does not exceed 1.00 per cent. of the aggregate outstanding principal amount of all Mortgage Receivables as at the first calendar day of such 12 month period; and
- (viii) the Weighted Average Loan to Foreclosure Value (as determined at the Cut-Off Date in relation to the Closing Date in accordance with the then applicable Seller's Lending Criteria) of all Mortgage Receivables (including such Further Advance Receivable as if it had been purchased on the Closing Date) does not exceed (y) the Weighted Average Loan to Foreclosure Value of the Initial Portfolio (as determined at the Cut-Off Date in relation to the Closing Date in accordance with the then applicable Seller's Lending Criteria) by 1.00 per cent. or more on the Closing Date.

If either (a) following the grant of a Further Advance on or prior to the Notes Payment Date immediately preceding the First Optional Redemption Date, the purchase of the related Further Advance Receivable does not meet the Additional Purchase Conditions, or (b) the Further Advance is granted following the Notes Payment Date immediately preceding the First Optional Redemption Date, the Seller shall repurchase and accept the re-assignment of all Mortgage Receivables resulting from the Mortgage Loan in respect of which a Further Advance is granted.

Set-off

The Mortgage Receivables Purchase Agreement provides that if a Borrower invokes set-off in respect of any amount he owes under, pursuant to or in connection with a Mortgage Receivable against any amount he is entitled to receive from the Seller, then the Seller shall forthwith pay to the Issuer an amount equal to the amount in respect of which set-off is so invoked.

The Mortgage Receivables Purchase Agreement provides that in the event that, and for as long as, the debt obligations of the Seller are rated below the Requisite Credit Rating, the Seller will within 14 calendar days (or such other period as may be determined to be applicable by or acceptable to the Credit

Rating Agencies from time to time) of such assignment of rating post collateral to cover the risk that a Borrower invokes set-off in respect of any cash deposit (other than Bank Savings Deposits and Construction Deposits) it has with the Seller. Such collateral will be posted by transferring an amount equal to the Deposit Required Amount to the Issuer Collection Account for further credit to the Deposit Ledger, and where applicable replenishing such Deposit Ledger up to the Deposit Required Amount from time to time. Each time when and to the extent that a Borrower invokes set-off in respect of any amount up to its cash deposit (other than Bank Savings Deposits and Construction Deposits) against any amount it owes under, pursuant to or in connection with a Mortgage Receivable, the Issuer shall debit the Deposit Ledger for an amount equal to the amount in respect of which set-off is so invoked and apply such amount, to the extent related to (i) interest, to the Income Ledger for addition to the Revenue Funds made in the immediately preceding Mortgage Calculation Period or (ii) principal, to the Redemption Ledger for addition to the Principal Funds made in the immediately preceding Mortgage Calculation Period, in accordance with the Administration Agreement. The amount deposited by the Seller as collateral will be repaid to the Seller each time when and to the extent that the Deposit Required Amount is decreased and there is a surplus standing to the credit of the Deposit Ledger over the new Deposit Required Amount, and to the extent not repaid at such time, on the Final Maturity Date.

Intercreditor arrangements

In the Mortgage Receivables Purchase Agreement, the following intercreditor arrangement is agreed between the Seller, the Issuer and the Security Trustee, which may be relevant if the Seller has or will have Other Claims. If:

- (i) and to the extent that any Related Security secures both a Mortgage Receivable and any Other Claim, the Seller and the Issuer have agreed that the Issuer shall have, and the Seller has granted the Issuer, exclusive authority to perform all acts of management (*beheer*) and/or of disposal (*beschikking*) pertaining to such Related Security and in any event, without prejudice to the generality of the foregoing, to:
 - (a) foreclose (*uitwinnen*) on such Related Security without any involvement of the Seller; and
 - (b) apply the foreclosure proceeds in payment of the Mortgage Receivable such that only the remaining proceeds (if any) will be available for application in payment of the Other Claim,

provided that (i) for as long as no Assignment Notification Event has occurred, the Issuer has agreed to delegate such authority to the Seller, and (ii) such authority shall not be vested in the Issuer but in the Seller if the Seller can prove that such Related Security was specifically created to secure the Other Claim and was not intended to secure the Mortgage Receivable;

- (ii) paragraph (i) above is not effective to procure compliance therewith by the Seller (or its liquidator in any Insolvency Proceedings), the Seller will owe the Issuer an amount equal to its share in the foreclosure proceeds of each relevant Related Security, which amount shall be immediately due and payable in case the relevant Borrower defaults (*in verzuim is*) in respect of the relevant Mortgage Receivable or the Other Claim(s) such Borrower owes to the Seller, provided that the Issuer's recourse to the Seller in relation to any Related Security is limited to the Seller's share in the foreclosure proceeds of such Related Security;
- (iii) any of the Seller's credit ratings ceases to be at least the Requisite Credit Ratings, and if such downgrade or withdrawal relates to short-term credit ratings, the Seller does not regain such Requisite Credit Ratings on the date falling one month (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time) after the date of such downgrade, or any such credit rating is withdrawn, it will within 10 Business Days after the occurrence of such downgrade or withdrawal (or end of the relevant month, as the case may be), grant to the Issuer a right of pledge on its Other Claims as security for the payment of the relevant amount it owes to the Issuer pursuant to paragraph (ii) above, unless an appropriate remedy to the satisfaction of the Security Trustee is found after having received Credit Rating Agency

Confirmation. If, after the pledge of the Other Claims, the Seller regains short-term credit ratings from the relevant Credit Rating Agency of at least the Requisite Credit Ratings and retains such Requisite Credit Ratings for a consecutive period of at least one month (or such other period as may be determined to be applicable by or acceptable to the Credit Rating Agencies from time to time), the Issuer and the Security Trustee will be obliged to release the rights of pledge vested on the Other Claims. In addition, each of the Issuer and the Security Trustee has undertaken to release such right of pledge on any Other Claims of a Borrower if (i) the principal amount outstanding in respect of the relevant Mortgage Receivable has been repaid in full together with all accrued interest and other secured amounts due under or in connection with the related Mortgage Loan or (ii) if all Mortgage Receivables that are secured by the same Related Security as such Other Claims have been retransferred to the Seller in accordance with the terms of the Mortgage Receivables Purchase Agreement;

- (iv) the pledge pursuant to paragraph (iii) above is implemented, any foreclosure proceeds are applied in discharge of amounts due pursuant to paragraph (ii) above and the Related Security is no longer in place or, as reasonably determined by the Issuer and the Security Trustee, no longer expected to generate any proceeds, the Issuer will retransfer to the Seller a part of (the unsatisfied part of) the relevant Mortgage Receivable for a principal amount corresponding to the principal amount of the pledged Other Claims so applied;
- (v) the Issuer transfers a Mortgage Receivable in accordance with the Mortgage Receivables Purchase Agreement to any transferee other than the Seller, it is entitled to transfer its corresponding rights and obligations pursuant to Clause 12 (*Intercreditor Arrangements*) of the Mortgage Receivables Purchase Agreement to such transferee and the Seller has in advance irrevocably granted its cooperation to any such transfer (within the meaning of article 6:159 of the Dutch Civil Code); and
- (vi) the Seller transfers an Other Claim to any transferee it will simultaneously transfer its corresponding rights and obligations pursuant to Clause 12 (*Intercreditor Arrangements*) of the Mortgage Receivables Purchase Agreement to such transferee and will notify the Issuer and the Security Trustee of such transfer, and the Issuer has in advance irrevocably agreed to co-operate with any such transfer (within the meaning of article 6:159 of the Dutch Civil Code), and in addition, the Seller will ensure that upon such transfer the relevant transferee (other than any transferee that is a subsidiary (*dochtermaatschappij*) of ING Groep N.V.) shall immediately pledge to the Issuer such Other Claims if such transferee's credit ratings are less than the Requisite Credit Rating, or if such transferee does not have any long-term credit rating assigned to it. The Seller has warranted and represented that it has not transferred any Other Claims to any party prior to the relevant Transfer Date on which the Mortgage Receivable that is secured by the same Related Security is transferred to the Issuer in accordance with the terms of the Mortgage Receivables Purchase Agreement.

Repurchase and sale

After the Closing Date the Issuer may from time to time sell Mortgage Receivables, either to the Seller or to third parties, as described in more detail below. Any sale and assignment of Mortgage Receivables by or to the Issuer will include any Related Security.

Mandatory repurchase by Seller

Other than in the events set out below, the Seller will not be obliged to repurchase any Mortgage Receivables from the Issuer. If at any time in relation to a Mortgage Receivable any of the following events occur:

- (i) a material breach of the Mortgage Receivables Warranties as of the relevant Transfer Date and (A) the Seller does not within 14 calendar days of receipt of written notice thereof from the Issuer remedy the matter giving rise to such a breach if such matter is capable of being remedied or (B) such matter is not capable of being remedied;

- (ii) the Seller or the Servicer agrees with a Borrower to an amendment or waiver of the terms of a Mortgage Loan which does not result from a deterioration in the creditworthiness of the Borrower, and as a result thereof (i) the maturity date of such Mortgage Loan is extended beyond its initial maturity date or (ii) the related Mortgage Receivable would not qualify as an Eligible Mortgage Receivable, if tested against the Eligibility Criteria at such time;
- (iii) a Mortgage Receivable no longer has the benefit of an NHG Guarantee as a result of any action taken or omitted to be taken by the Seller and, as a consequence thereof, such Mortgage Receivable no longer qualifies as an Eligible Mortgage Receivable, as tested against the Eligibility Criteria at such time; or
- (iv) if (a) following the grant of a Further Advance on or prior to the Notes Payment Date immediately preceding the First Optional Redemption Date, the purchase of the related Further Advance Receivable does not meet the Additional Purchase Conditions, or (b) the Further Advance is granted following the Notes Payment Date immediately preceding the First Optional Redemption Date,

then the Seller is obliged to repurchase (at the relevant purchase price described below under *Purchase price for repurchased / sold Mortgage Receivables*) and accept reassignment of the relevant Mortgage Receivable on the first following Mortgage Collection Payment Date, other than (a) in respect of subparagraph (iv) above where the Seller is obliged to repurchase (at the relevant purchase price described below under *Purchase price for repurchased / sold Mortgage Receivables*) and accept reassignment of all Mortgage Receivables relating to the Mortgage Loan in respect of which the relevant Further Advance was granted and (b) in respect of a Breach of Portfolio Condition, where the Seller is obliged to repurchase and accept the reassignment of such Mortgage Receivables as selected by or on behalf of the Issuer so that the remaining Mortgage Loans would have met the Portfolio Condition on the Closing Date (at the relevant purchase price described below under *Purchase price for repurchased / sold Mortgage Receivables*).

Optional repurchase by Seller; sale to third party

If on any Mortgage Calculation Date the aggregate Gross Outstanding Principal Balance of the Mortgage Receivables is less than 10 per cent. of the aggregate Gross Outstanding Principal Balance of the Mortgage Receivables comprising the Initial Portfolio on the Cut-Off Date relating to the Transfer Date of the Initial Portfolio, the Seller may, but is not obliged to, on the second following Note Payment Date repurchase and accept reassignment of all (but not only part of) the Mortgage Receivables. The Issuer has undertaken in the Mortgage Receivables Purchase Agreement to sell and assign the Mortgage Receivables to the Seller, or to any third party appointed by the Seller at its sole discretion on the immediately following Notes Payment Date. If the date on which the Seller exercises the Clean-Up Call Option falls less than 30 calendar days prior to the immediately following Notes Payment Date, such sale shall be completed on the second Notes Payment Date following the date on which the Seller exercises the Clean-Up Call Option.

In addition, the Issuer has the right to sell and assign all but not some of the Mortgage Receivables (a) on any Optional Redemption Date or (b) following its exercise of the option to redeem the Notes pursuant to Condition 8.8 (*Optional Redemption – Tax Call*). If the Issuer decides to sell and assign all but not some of the Mortgage Receivables on (a) an Optional Redemption Date or (b) following the exercise of its right to redeem the Notes pursuant to Condition 8.8 (*Optional Redemption – Tax Call*), as the case may be, it shall, on the Notes Payment Date (a) immediately preceding such Optional Redemption Date or (b) on which the Notes will be redeemed following the exercise of its option to redeem the Notes pursuant to Condition 8.8 (*Optional Redemption – Tax Call*), as the case may be, first offer to the Seller all of the Mortgage Receivables for sale (such sale to be completed on such (a) Optional Redemption Date or (b) the Notes Payment Date following the exercise of its right of its option to redeem the Notes pursuant to Condition 8.8 (*Optional Redemption – Tax Call*), as the case may be). The Seller shall within a period of fifteen Business Days inform the Issuer whether it wishes to repurchase all of the Mortgage Receivables. If the Seller does on such date not so inform the Issuer that it wishes to repurchase and accept reassignment of the Mortgage Receivables, the Issuer may select a third party for the sale and assignment of the Mortgage Receivables on the relevant Notes Payment Date.

Purchase price for repurchased / sold Mortgage Receivables

The purchase price for each Mortgage Receivable so sold to the Seller or to a third party (other than in connection with a redemption of Notes pursuant to Condition 8.6 (*Redemption – Clean-Up Call Option*), Condition 8.7 (*Optional Redemption – Prepayment Call*) or Condition 8.8 (*Optional Redemption – Tax Call*) or in connection with an obligation of the Seller to repurchase and accept reassignment of a Mortgage Receivable from the Issuer in accordance with the Mortgage Receivables Purchase Agreement in relation to which a material breach occurs of the Mortgage Receivables Warranties as of the relevant Transfer Date or in case of a Breach of Portfolio Condition) shall be an amount equal to at least the relevant Gross Outstanding Principal Balance of such Mortgage Receivable increased with Accrued Interest and Arrears of Interest, all as at the final day of the calendar month preceding the calendar month in which the relevant reassignment date falls, provided that with respect to a Mortgage Receivable that has Arrears of Interest for a period exceeding 60 calendar days or with respect to which an instruction has been given to the civil law notary to sell the related Mortgaged Asset publicly, the purchase price shall be the lesser of: (x) the sum of the Gross Outstanding Principal Balance, any Accrued Interest, Arrears of Interest and any other amount due in respect of the relevant Mortgage Receivables and together with any costs incurred by the Issuer in effecting and completing such sale and reassignment; and (y) the sum of (i) an amount equal to the most recently calculated Indexed Foreclosure Value of the related Mortgaged Asset, (ii) the value of any other collateral, including the amount claimable under any NHG Guarantee and (iii) any costs incurred by the Issuer in effecting and completing such sale and reassignment, all as at the final day of the calendar month preceding the calendar month in which the relevant reassignment date falls. If a Mortgage Receivable is repurchased by and reassigned to the Seller, the Seller is entitled to all proceeds relating to such Mortgage Receivable to the extent relating to the period starting on the relevant Mortgage Collection Payment Date or, if it concerns principal proceeds, the period starting on the final day of the calendar month preceding the calendar month in which the relevant reassignment date falls.

7.6 SUB-PARTICIPATION

Under each Participation Agreement, the Issuer grants the relevant Participant a Participation in each relevant Savings Mortgage Receivable or Bank Savings Mortgage Receivable, as the case may be, in return for the payment by the Participant of the relevant Initial Settlement Amount and, Further Settlement Amounts, as follows.

Participation

First, the Participant undertakes to pay to the Issuer for each Participation Mortgage Receivable:

- (a) on the Transfer Date relating to such Participation Mortgage Receivable: an amount equal to the Initial Settlement Amount as at such Transfer Date for such Participation Mortgage Receivable; and
- (b) on each subsequent Mortgage Collection Payment Date an amount equal to: a Further Settlement Amount for such Participation Mortgage Receivable, unless as a result of such payment the Participation in respect of such Participation Mortgage Receivable would exceed the Gross Outstanding Principal Balance of such Participation Mortgage Receivable at such time or, if lower and if such Participation Mortgage Receivable is a Bank Savings Mortgage Receivable, the related Bank Savings Deposit at such time, in which case only such amount shall be paid as is necessary for such Participation (which includes Accrued Savings Increases) to reach such Gross Outstanding Principal Balance or the related Bank Savings Deposit, as the case may be.

In return, in relation to each Participation Mortgage Receivable, the Issuer undertakes to pay to the relevant Participant on each Mortgage Collection Payment Date the Participation Redemption Available Amount, if any, received by the Issuer in respect of such Participation Mortgage Receivable since the preceding Mortgage Collection Payment Date.

If a Borrower with respect to:

- (i) a Savings Mortgage Receivable invokes any defence purporting to establish that he may deduct an amount from the Participation Mortgage Receivable based on any default by the relevant Participant in the performance of any of its obligations under the relevant Mixed Insurance Policy; or
- (ii) a Bank Savings Mortgage Receivable invokes a right of set-off, set-off is applied by operation of law or for any other reason set-off is applied in respect of any part of the related Bank Savings Deposit against the Participation Mortgage Receivable,

and, in each case, as a consequence thereof, the Issuer does not receive such amount in respect of such Participation Mortgage Receivable, then such amount will be deducted from the relevant Participation.

Enforcement Notice

If an Enforcement Notice is delivered by the Security Trustee on the Issuer, then the Security Trustee may and, if so directed by the relevant Participant, shall on behalf of such Participant by notice to the Issuer:

- (a) terminate the obligations of the relevant Participant under the relevant Participation Agreement; and
- (b) declare the relevant Participations to be immediately due and payable, provided that such payment obligation shall for each Participation Mortgage Receivable be limited to the relevant Participation Redemption Available Amount received by or on behalf of the Issuer or the Security Trustee under the relevant Participation Mortgage Receivable.

Sale of relevant Participation Mortgage Receivable

If a Participation Mortgage Receivable is sold by or on behalf of the Issuer to the Seller or a third party, then the Issuer will (apart from, for the avoidance of doubt, paying the Participation Redemption Available Amount in respect of such Participation Mortgage Receivable), if so requested by the relevant

Participant use reasonable endeavours to ensure that the acquirer of the relevant Participation Mortgage Receivable will (a) enter into a participation agreement with the relevant Participant in a form similar to the relevant Participation Agreement or (b) by way of partial take-over of contract (*partiële contractsoverneming*) take over the contractual relationship (*rechtsverhouding*) under the relevant Participation Agreement to the extent relating to the Participation associated to the relevant Participation Mortgage Receivable (in which case the relevant Participation Redemption Available Amount will be zero).

Priorities of Payments

The Revenue Priority of Payments and the Redemption Priority of Payments will be funded by Available Revenue Funds and Available Principal Funds. When calculating the relevant Principal Funds, certain deductions will be made by reference to the relevant Participation Redemption Available Amounts, which deducted amounts will not be applied in accordance with the Redemption Priority of Payments, but will be credited to the Participation Ledger and be paid to the relevant Participants in accordance with the Administration Agreement and the relevant Participation Agreement. When calculating the relevant Revenue Funds, certain deductions will be made by reference to the relevant Participation Fractions, with a view to the relevant Increases in the relevant Participations. The equivalent of such Increases is in turn treated as a Principal Fund, for application in accordance with the Redemption Priority of Payments.

Likewise, the Post-Enforcement Priority of Payments will not be funded by amounts which have been received by or on behalf of the Issuer and which are required to be credited to the Participation Ledger and paid to Participants on account of Participation Redemption Available Amounts.

For this purpose:

"Bank Savings Participation Redemption Available Amount" means (i) if the full Gross Outstanding Principal Balance has been repaid or prepaid since the preceding Mortgage Collection Payment Date: an amount equal to the Bank Savings Participation, (ii) in the case of partial (p)repayment of the Gross Outstanding Principal Balance since the preceding Mortgage Collection Payment Date: the surplus, if any, of the amount received over the Net Outstanding Principal Balance up to the Bank Savings Participation or (iii) in the case of (a) a sale of the relevant Bank Savings Mortgage Receivable pursuant to the Mortgage Receivables Purchase Agreement: an amount received pursuant to such sale of such Bank Savings Mortgage Receivable up to the Bank Savings Participation, unless the corresponding rights and obligations under or pursuant to the Bank Savings Participation Agreement are transferred in connection therewith or (b) a foreclosure on any Related Security to the extent relating to the relevant Bank Savings Mortgage Receivable: an amount up to the Bank Savings Participation received pursuant to such foreclosure, the Net Foreclosure Proceeds to the extent relating to the Gross Outstanding Principal Balance of such Bank Savings Mortgage Receivable.

"Insurance Savings Participation Redemption Available Amount" means (i) if the full Gross Outstanding Principal Balance has been repaid or prepaid since the preceding Mortgage Collection Payment Date: an amount equal to the relevant Insurance Savings Participation, (ii) in the case of partial (p)repayment of the Gross Outstanding Principal Balance since the preceding Mortgage Collection Payment Date: the surplus, if any, of the amount received over the Net Outstanding Principal Balance up to the relevant Insurance Savings Participation or (iii) in the case of (a) a sale of the relevant Mortgage Receivable pursuant to the Mortgage Receivables Purchase Agreement: an amount received pursuant to such sale of such Mortgage Receivable up to the relevant Insurance Savings Participation, unless the corresponding rights and obligations under or pursuant to the relevant Insurance Savings Participation Agreement are transferred in connection therewith or (b) a foreclosure on any Related Security to the extent relating to the relevant Mortgage Receivable: an amount up to the relevant Insurance Savings Participation received pursuant to such foreclosure, the Net Foreclosure Proceeds to the extent relating to the Gross Outstanding Principal Balance of such Mortgage Receivable.
