(Incorporated in the Netherlands with its statutory seat in Amsterdam, the Netherlands)

€ 100,000,000,000

Residential Mortgage Backed Note Programme

This document constitutes a base prospectus (the '**Base Prospectus**') within the meaning of Directive 2003/71/EC, and any amendments thereto (the '**Prospectus Directive**'), including Directive 2010/73/EU (the '**PD Amending Directive**'), to the extent applicable and implemented in the Relevant Member State (as defined herein), and includes any relevant implementing measure in the Relevant Member State. This Base Prospectus has been approved by the Netherlands Authority for the Financial Markets ("*Stichting Autoriteit Financiële Markten*", the '**AFM**'), which is the Netherlands competent authority for the purpose of the Prospectus Directive and relevant implementing measures in the Netherlands, as a Base Prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in the Netherlands for the purpose of giving information with regard to the issue of Notes under the Programme during the period of twelve (12) months after the date hereof.

Under this € 100,000,000,000 Residential Mortgage Backed Note Programme (the '**Programme**') Dolphin Master Issuer B.V. (the '**Issuer**') may from time to time issue Class A notes, Class B notes, Class C notes, Class D notes and Class E notes (the '**Notes**') denominated in Euro or in another currency as set out in the relevant Final Terms, to the initial Dealers in respect of the first issue and any Dealer appointed under the Programme from time to time by the Issuer (each a '**Dealer**' and together the '**Dealers**'), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the "relevant Dealer(s)" shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes. The Notes may be issued in one or more Series. Each Series will consist of one or more Classes of Notes, and each Class may consist of two or more Sub-classes. One or more Series and Classes of Notes may be issued at any time. Notes of Series 0 are intended to be issued to ABN AMRO Bank N.V. or any direct or indirect subsidiary thereof.

The Notes, other than the Class E Notes, will be issued to finance loans (each advance an '**IC Loan**') to Asset Purchasers under IC Loan Agreements or to redeem other Notes. Each IC Loan will be used to finance the purchase of Mortgage Receivables and the Beneficiary Rights relating thereto from time to time from the relevant Seller. The net proceeds of the Class E Notes will be deposited on the Reserve Account. The Notes will be secured by a right of pledge over the Mortgage Receivables and the Beneficiary Rights relating thereto and a right of pledge over certain other assets of the Issuer and the Asset Purchasers in favour of the Security Trustee.

Application may be made for the Notes to be admitted to trading and listing on Euronext Amsterdam ('**Euronext Amsterdam**') by NYSE Euronext during the period of twelve (12) months from the date of this Base Prospectus. Notice of certain terms and conditions not contained in this Base Prospectus which are applicable to the Notes will be set out in the relevant final terms (the '**Final Terms**') which will be delivered to Euronext Amsterdam and filed with the AFM on or before the date of each issue of Notes. Notes issued under the Programme may also be listed on any other stock exchange specified in the applicable Final Terms.

The Notes of each Series and Class or, as the case may be, each Sub-class thereof will (unless otherwise specified in the applicable Final Terms) initially be represented by a temporary global note in bearer form (each a '**Temporary Global Note**'), without coupons, which is expected to be deposited on or about the date on which such Series and Class is issued (each an '**Issue Date**') either, as stated in the applicable Final Terms, (A) if the Notes are intended to be issued in the new global note ('**NGN**') form, with a common safekeeper for Euroclear Bank S.A./N.V. as operator of the Euroclear System ('**Euroclear**') and Clearstream Banking, société anonyme ('**Clearstream, Luxembourg**') or (B) if the Notes are not intended to be issued in NGN form, (i) with a common depository on behalf of Euroclear and Clearstream, Luxembourg or (ii) Euroclear Netherlands or (iii) a depository for another clearing system. Interests in each Temporary Global Note will be exchangeable for interests in a permanent global note of the relevant Series and Class, or Sub-class thereof, (each a '**Permanent Global Note**'), without coupons not earlier than forty (40) days after the relevant Issue Date upon certification as to non-U.S. beneficial ownership. Interests in each Permanent Global Note, will, in certain limited circumstances, be exchangeable for Notes in definitive form in bearer form (each a '**Definitive Note**') as described in the terms and conditions of the Notes (the '**Conditions**'). The expression '**Global Notes**' means the Temporary Global Notes of each Series and Class and the Permanent Global Notes of each Series and Class and the expression '**Global Note**' means each Temporary Global Note or each Permanent Global Note, as the context may require.

The AFM may be requested to provide other competent authorities in the European Economic Area with a certificate of approval so that application may be made for Notes issued under the Programme to be admitted to trading on other regulated markets. The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further listing authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

It is expected that, for each issuance of a Series of Notes, the Class A Notes, on issue, be assigned at least a 'AAA (sf)' rating by Standard & Poor's a division of Standard & Poor's Credit Market Services Europe Ltd. ('**S&P**'), a 'Aaa (sf)' rating by Moody's Investors Service Limited ('**Moody's**'), and a 'AAA (sf)' rating by DBRS Inc. ('**DBRS**'), and together with S&P, Moody's, the '**Rating Agencies**'), the Class B Notes, on issue, be assigned at least a 'AA (sf)' rating by S&P, a 'Aa3 (sf)' rating by Moody's and a 'AA (sf)' rating by DBRS, the Class C Notes, on issue, be assigned at least a 'A (sf)' rating by S&P, a 'A2 (sf)' rating by Moody's and a 'A (sf)' rating by DBRS and the Class D Notes, on issue, be assigned at least a 'BBB (sf)' rating by S&P, a 'Baa2 (sf)' rating by Moody's and a 'BBB (sf)' rating by DBRS, such ratings being the '**Minimum Ratings**'. The Rating Agencies are established in the European Union. As of the date of this Base Prospectus none of these rating agencies is registered under Regulation (EC) No 1060/2009 of 16 September 2009 on credit rating agencies.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. For a discussion on some of the risks associated with an investment in the Notes see *Risk Factors* herein.

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, in whatever capacity acting, including, without limitation, the Sellers, the Security Trustee, the Dealers, the Pool Servicers, the Issuer Administrator, the Asset Purchaser Administrators, the Insurance Companies, the Issuer GIC Provider, the Asset Purchaser GIC Provider, the Swap Counterparties, the Principal Paying Agent, the Paying Agent and the Reference Agent (each as defined herein). SUMMARY OF THE PROGRAMME

This summary should be read as an introduction to this Base Prospectus and any decision to invest in the Notes must be based on a consideration of the Base Prospectus as a whole, including any supplement thereto. Civil liability will only attach to the Issuer, if the summary is misleading, inaccurate or inconsistent when read together with other parts of the Base Prospectus. Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

Capitalised terms used, but not defined, in this section can be found elsewhere in this Base Prospectus. For the page reference of the definitions of the capitalised terms used herein see Index of Defined Terms.

The Asset Purchasers

Each Asset Purchaser will on a Mortgage Purchase Date purchase from the relevant Seller the Relevant Mortgage Receivables and the Beneficiary Rights relating thereto offered by such Seller, subject to the fulfilment of certain conditions and pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement (see further *Asset Purchaser Mortgage Receivables Purchase Agreement* below). On the Programme Closing Date each Asset Purchaser, and on each Asset Purchaser Accession Date any new Asset Purchaser, will enter into such Asset Purchaser Mortgage Receivables Purchase Agreement and certain other agreements, which will include the Programme Agreement, an Asset Purchaser GIC, an IC Loan Agreement, an Asset Purchaser Receivables Pledge Agreement, an Asset Purchaser Assets Pledge Agreement, an Asset Purchaser Trust Agreement and an Asset Purchaser Servicing Agreement.

Under the relevant IC Loan Agreement each Asset Purchaser will have the right to make drawings on any date. Each Asset Purchaser will use the proceeds of such drawings to pay to the relevant Seller (part of) the Initial Purchase Price for the Relevant Mortgage Receivables purchased by it.

Each Asset Purchaser will use receipts of principal and interest in respect of the Relevant Mortgage Receivables, amounts drawn from the relevant Asset Purchaser Collection Account and amounts received under the relevant Asset Purchaser Cashflow Swap Agreement to make payments of, *inter alia*, principal and interest due in respect of the relevant IC Loans. The obligations of an Asset Purchaser in respect of the IC Loans, will rank below the obligations of such Asset Purchaser in respect of certain items set forth in the applicable priority of payments (see *Credit Structure Issuer* and *Credit Structure Asset Purchasers*).

Pursuant to the relevant Asset Purchaser GIC, the relevant Asset Purchaser GIC Provider will agree to pay a guaranteed rate of interest on the balance standing from time to time to the credit of the relevant Asset Purchaser Accounts (see under *Credit Structure Asset Purchasers* below).

Pursuant to the relevant Asset Purchaser Servicing Agreement, the relevant Pool Servicer will, *inter alia*, (i) provide administration and management services to the relevant Asset Purchaser on a day-to-day basis in relation to the Mortgage Loans and the Mortgage Receivables, including, without limitation, the collection and recording of payments of principal, interest and other amounts in respect of the Mortgage Receivables and the implementation of arrears procedures including the enforcement of mortgage rights; (ii) communicate with the Borrowers; and (iii) investigate payment delinquencies; and the Asset Purchaser Administrator will provide certain administration, calculation and cash management services to the relevant Asset Purchaser (see further *Asset Purchaser Servicing Agreements and Issuer Administration Agreement* below).

To hedge the risk between the rate of interest to be received by the relevant Asset Purchaser on the Mortgage Receivables and the interest payable by the relevant Asset Purchaser on the IC Loans, each Asset Purchaser will enter into an Asset Purchaser Cashflow Swap Agreement with the relevant Asset Purchaser Cashflow Swap Counterparty (see under *Credit Structure Asset Purchasers* below).

Pursuant to the relevant Asset Purchaser Sub-participation Agreement each Savings Participant will acquire participations in the relevant Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables corresponding to the policy value of the Savings Insurance Policies or Hybrid Savings Insurance Policies involved.

The Issuer

The Issuer, Dolphin Master Issuer B.V., was incorporated as a private company with limited liability ("*besloten vennootschap met beperkte aansprakelijkheid*") under the laws of the Netherlands on 21 August 2007 under number B.V. 1450078. The corporate seat ("*statutaire zetel*") of the Issuer is in Amsterdam, the Netherlands. The Issuer is a special purpose vehicle. All shares of the Issuer are held by Stichting Holding Dolphin.

In order to fund the granting of IC Loans to the Asset Purchasers under the IC Loan Agreements, the Issuer may issue Notes from time to time under the Programme. Other than for the granting of IC Loans, the net proceeds of the Notes issued from time to time can be used to redeem other Notes, subject to fulfilment of the Repayment Test or, can be credited to the Issuer Pre-Funding Account. The proceeds of any Class E Notes will be credited to the Issuer Reserve Account or will be available to redeem other Notes, subject to fulfilment of the Repayment Test.

For each issue of Notes Final Terms will be made available and the Notes will be issued in Series only. Each Series may consist of one or more of the following classes: Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes and each Series and Class, may consist of two or more Sub-classes. The terms of each Series of Notes will be set forth in the relevant Final Terms. A separate Series 0 is intended to be issued to ABN AMRO Bank N.V. or any subsidiary thereof only. The Notes within one Class of different Series may have different terms and the Notes within a Series and Class of different Sub-classes may have different terms. The Notes issued on a certain date may be fungible with Notes issued on an earlier date.

On the Programme Closing Date the Issuer will enter into certain agreements including the Programme Agreement, the Issuer GIC, the IC Loan Agreements, the Issuer Assets Pledge Agreement, the Issuer Parallel Debt Agreement, the Issuer Administration Agreement and the Paying Agency Agreement.

The Issuer will use receipts of principal and interest in respect of the IC Loans together with, *inter alia*, drawings made under the Issuer Reserve Account and the Issuer Collection Account, to make payments of, *inter alia*, principal and interest due in respect of the Notes. The obligations of the Issuer in respect of the Notes, will rank below the obligations of the Issuer in respect of certain items set forth in the applicable priority of payments (see *Credit Structure Issuer*) and (i) the right to payment of interest and principal on the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be subordinated to, *inter alia*, the Class A Notes, (ii) the right to payment of interest and principal on the Class C Notes, the Class D Notes and the Class E Notes will be subordinated to, *inter alia*, the Class A Notes and the Class B Notes, (iii) the right to payment of interest and principal on the Class D Notes and the Class E Notes will be subordinated to, *inter alia*, the Class A Notes, the Class B Notes and the Class C Notes, (iv) the right to payment of interest and principal on the Class E Notes will be subordinated to, *inter alia*, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, as more fully described herein under *Credit Structure Issuer* and *Terms and Conditions of the Notes*.

Pursuant to the Issuer GIC, the Issuer GIC Provider will agree to pay a guaranteed rate of interest on the balance standing from time to time to the credit of the relevant Issuer Accounts (see under *Credit Structure Issuer* below).

Pursuant to the Issuer Administration Agreement, the Issuer Administrator will provide certain administration, calculation and cash management services to the Issuer (see further *Asset Purchaser Servicing Agreements and Issuer Administration Agreement* below).

Security

The Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking pledge granted by each Asset Purchaser to the Security Trustee over the Relevant Mortgage Receivables and the Beneficiary Rights, (ii) a first ranking pledge by each Asset Purchaser to the Security Trustee over the relevant Asset Purchaser's rights under or in connection with (most of) the Relevant Asset Purchaser Documents and (iii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with (most of) the Relevant Issuer Documents.

In order to ensure the valid creation of the security rights under Netherlands law in favour of the Security Trustee, the Issuer shall undertake in the Issuer Parallel Debt Agreement to pay to the Security Trustee, by way of a parallel debt, under the same terms and conditions, an amount equal to the aggregate of all its undertakings, liabilities and obligations to the Issuer Secured Parties pursuant to the Relevant Issuer Documents.

Each Asset Purchaser will undertake in the relevant Asset Purchaser Trust Agreement to guarantee the undertakings, liabilities and obligations of the Issuer to the Security Trustee pursuant to the Issuer Parallel Debt Agreement. In order to ensure the valid creation of the security rights under Netherlands law in favour of the Security Trustee in respect of the obligation of the relevant Asset Purchaser to the relevant Asset Purchaser Secured Parties, the relevant Asset Purchaser shall undertake in the Asset Purchaser Trust Agreement to pay to the Security Trustee, by way of a parallel debt, under the same terms and conditions, an amount equal to the aggregate of all its undertakings, liabilities and obligations to the Asset Purchaser Secured Parties pursuant to the Relevant Asset Purchaser Documents.

The Issuer Trust Deed sets out the priority of the claims of the Programme Secured Parties and the Issuer Secured Parties and the relevant Asset Purchaser Trust Agreement sets out the priority of the claims of the relevant Asset Purchaser Secured Parties. See for a more detailed description *Credit Structure Issuer* and *Credit Structure Asset Purchasers* and *Description of Security* below.

Interest on the Notes

The Notes will carry a floating rate of interest, payable quarterly in arrear on each Note Payment Date, or a fixed rate of interest payable annually in arrear on a Note Payment Date. On a Step-up Date, (i) Fixed Rate Notes will switch to a floating rate of interest plus a margin and (ii) Floating Rate Notes will be reset subject to and in accordance with the Conditions of the Notes and the applicable Final Terms.

Interest on the IC Loans and costs

The interest payable by the Asset Purchasers under the IC Loans will be equal to a *pro rata* part of the interest payable by the Issuer on the Notes. Under the IC Loan Agreements the Asset Purchasers will be obliged to pay certain costs of the Issuer on a *pro rata* basis.

Redemption of the Notes

Unless previously redeemed, the Issuer will, subject to Condition 9(b) and, in respect of the Subordinated Notes, subject to the Repayment Test, redeem all of the Notes of a Series and Class or Sub-class thereof at their respective Principal Amount Outstanding on the Final Maturity Date of such Series and Class or Sub-class thereof.

The Notes (other than the Class E Notes) may be issued in the form of Soft-bullet Notes or Pass-through Notes. Soft-bullet Notes will not be redeemable up to the relevant Step-up Date. After the Step-up Date relating to the relevant Series and Class or Sub-class thereof, the Soft-bullet Notes of such Series and Class or Sub-class will become Pass-through Notes. Furthermore, on the relevant Step-up Date and on each Note Payment Date thereafter the Issuer will have the option to redeem all of the Notes of a Series and Class, or, as the case may be, Sub-class (other than the Class E Notes), but not some only, at their Principal Amount Outstanding, subject to Condition 9(b) and, in respect of the Subordinated Notes, subject to the Repayment Test.

Pass-through Notes will be subject to (partial) mandatory redemption, if the Pro-rata Condition is satisfied, on a *pro rata* basis, and, if the Pro-rata Condition is not satisfied, on a sequential basis. On or after the occurrence of a Trigger Event, all Notes (other than the Class E Notes) will become Pass-through Notes and will be subject to mandatory redemption on a sequential basis.

The Issuer will have the option to redeem all of the Notes, but not some only, (i) for tax reasons or (ii) in case of a Regulatory Change affecting a Seller. Furthermore, the Issuer has a clean-up call option to redeem (i) all Notes or (ii) all Notes (other than the Class E Notes) of a Series and Class or Sub-class, if certain conditions are met.

In respect of the Class E Notes of a Series and Class or Sub-class, the Issuer will have the option to redeem such Notes on the relevant Step-up Date and on each Note Payment Date thereafter.

Listing

Application may be made for the Notes issued under the Programme to be admitted to trading and listing on Euronext Amsterdam by NYSE Euronext during the period of twelve (12) months from the date of this Base Prospectus. Notes issued under the Programme may also be listed on any other stock exchange specified in the applicable Final Terms.

Rating

It is expected that, for each issue of a Series of Notes, the Class A Notes, on issue, be assigned at least a "AAA (sf)" rating by S&P, a 'Aaa (sf)' rating by Moody's and a "AAA (sf)" rating by DBRS, the Class B Notes, on issue, be assigned at least a "AA (sf)" rating by S&P, a 'Aa3 (sf)' rating by Moody's and a "AA (sf)" rating by DBRS, the Class C Notes, on issue, be assigned at least a "A (sf)" rating by S&P, a 'A2 (sf)' rating by Moody's and a "A (sf)" rating by DBRS, the Class D Notes, on issue, be assigned at least a "BBB (sf)" rating by S&P, a 'Baa2 (sf)' rating by Moody's and a "BBB (sf)" rating by DBRS. It is expected that the Notes will have credit ratings assigned by the credit rating agencies Moody's, S&P and DBRS. These rating agencies are established in the European Union. As of the date of this Base Prospectus none of these rating agencies is registered under Regulation (EC) No 1060/2009 of 16 September 2009 on credit rating agencies.

Risk factors

There are certain factors which may affect the ability of the Issuer to fulfil its obligations under the Notes issued under the Programme. Prospective Noteholders should take into account the fact that the liabilities of the Issuer under the Notes are limited recourse obligations whereby the ability of the Issuer to meet such obligations will be dependent on the receipt by it of funds under the IC Loans from the Asset Purchasers, which receipt will be dependent on the receipt by the relevant Asset Purchaser of funds under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables and the receipt by it of other funds. Also, the Issuer has a risk that its counterparties will not perform their obligations, which may result in the Issuer not being able to meet its obligations. In addition, there are risks involved in investing in the Notes. Despite certain facilities on the level of the Issuer and Asset Purchaser, there remains a credit risk, liquidity risk, prepayment risk, maturity risk and interest rate risk relating to the Notes. Moreover, there are certain structural and legal risks relating to the Mortgage Receivables (see *Risk Factors* below).

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risk associated with the Notes are also described below. The Issuer believes that the factors described below represent the material risks inherent in investing in the Notes. The inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons not known to the Issuer or not deemed to be material enough and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

RISK FACTORS REGARDING THE MORTGAGE LOANS

Risk related to payments received by a Seller prior to notification of the assignment to the Asset Purchaser

Under Netherlands law, assignment of the legal title of claims, such as the Mortgage Receivables, can be effectuated by means of a notarial or registered deed of assignment, without notification of the assignment to the debtors being required ("*stille cessie*"). The legal ownership of the Relevant Mortgage Receivables will be assigned by the relevant Seller to the relevant Asset Purchaser through a registered deed of assignment. The relevant Mortgage Receivables Purchase Agreement will provide that the assignment of the Relevant Mortgage Receivables from the relevant Seller to the relevant Asset Purchaser will not be notified by the relevant Seller or the relevant Asset Purchaser to the Borrowers except if certain events occur. For a description of these notification events see *Asset Purchaser Mortgage Receivables Purchase Agreement*.

Until notification of the assignment has been made to the Borrowers, the Borrowers can only validly pay to the relevant Seller in order to fully discharge their payment obligations ("*bevrijdend betalen*"). Each Seller will undertake in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement to pay on each Mortgage Payment Date to the relevant Asset Purchaser any amounts received in respect of the Relevant Mortgage Receivables during the immediately preceding Mortgage Collection Period. However, receipt of such amounts by the relevant Asset Purchaser is subject to the relevant Seller actually making such payments. In case the relevant Seller is declared bankrupt or subjected to (preliminary) suspension of payments ("*voorlopige surseance van betaling*") or emergency regulations ("*noodregeling*") prior to making such payments, the relevant Asset Purchaser has no right of any preference in respect of such amounts.

Payments made by a Borrower to a Seller prior to notification, but after bankruptcy or (preliminary) suspension of payments (or emergency regulations, if applicable) in respect of such Seller having been declared, will be part of that Seller's bankruptcy estate. In respect of these payments, the Issuer will be a non-preferred creditor of the estate ("*boedelschuldeiser*") and will receive payment prior to creditors with ordinary insolvency claims, but after preferred creditors of the estate.

Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the Asset Purchasers

Part of the mortgage deeds relating to the Mortgage Receivables to be sold by each Seller to the relevant Asset Purchaser provide that the mortgage rights ("*hypotheekrechten*") created pursuant to such mortgage deed, not only secure the loan granted to the Borrower for the purpose of acquiring the Mortgaged Assets, but also other liabilities and monies that the Borrower, now or in the future may owe to the relevant Seller ("*bankhypotheken*" hereinafter '**Bank Mortgages**'). The remaining part of the Mortgage Receivables to be sold by a Seller to the relevant Asset Purchaser will be secured by mortgage rights created under a mortgage deed in which the Borrower has given security over the Mortgaged Asset in excess of the amount of the initial Mortgage Loan and it is likely that such mortgage rights should be regarded as "*krediethypotheken*" ('**Credit Mortgages**'). In the mortgage deeds or in separate deeds of pledge, rights of pledge ("*pandrechten*") have been vested in favour of the relevant Seller on certain assets, such as (i) the rights under any Insurance Policies (see *Risk that Borrower Insurance Pledges will not be effective* below) and (ii) the investment accounts (see *Risks related to Investment Mortgage Loans* below). These

pledges secure similar debts as the Bank Mortgages (the '**Bank Pledges**') or as the Credit Mortgages (the '**Credit Pledges**') (the Bank Mortgages and the Bank Pledges, together the '**Bank Security Rights**' and the Credit Mortgages and the Credit Pledges, together the '**Credit Security Rights**'). The comments set out below in respect of Bank Security Rights apply *mutatis mutandis* to Credit Security Rights.

Under Netherlands law a mortgage right is an accessory right ("*afhankelijk recht*") which follows by operation of law the receivable with which it is connected. Furthermore, a mortgage right is an ancillary right ("*nevenrecht*") and the assignee of a receivable secured by an ancillary right will have the benefit of such right, unless the ancillary right by its nature is, or has been construed as, a purely personal right of the assignor or such transfer is prohibited by law.

The prevailing view of Dutch commentators has been for a long time that upon the assignment of a receivable secured by a Bank Security Right, such security right does not pass to the assignee as an accessory and ancillary right in view of its non-accessory or personal nature. It was assumed that a Bank Security Right only follows a receivable which it secures, if the relationship between the bank and the borrower has been terminated in such a manner that following the assignment the bank cannot create or obtain further receivables from the relevant borrower secured by the security right. These commentators claim that this view is supported by case law.

There is a trend in recent legal literature to dispute the view set out in the preceding paragraph. Commentators following such trend argue that in case of assignment of a receivable secured by a Bank Security Right, the security right will in principle (partially) pass to the assignee as an accessory right. In this argument the transfer does not conflict with the nature of a bank mortgage, which is -in this argument- supported by the same case law. Any further claims of the assignor will also continue to be secured and, as a consequence, the Bank Security Right will be jointly-held by the assignor and the assignee after the assignment. In this view a Bank Security Right only continues to secure exclusively claims of the original holder of the security right and will not pass to the assignee, if this has been explicitly stipulated in the deed creating the security right.

Although the view prevailing in the past, to the effect that given its nature a Bank Security Right will as a general rule not follow as an accessory right upon assignment of a receivable which it secures, is still defended, the Issuer has been advised that the better view is that as a general rule a Bank Security Right in view of its nature follows the receivable as an accessory right upon its assignment. Whether in the particular circumstances involved the Bank Security Right will remain with the original holder of the security right, will be a matter of interpretation of the relevant deed creating the security right.

The mortgage deeds relating to the Mortgage Loans (other than those set out in the next paragraph) do not contain any explicit provision on the issue whether the Bank Security Rights follow the Mortgage Receivable upon its assignment. Consequently, there is no clear indication of the intention of the parties. The Issuer has been advised that even in such a case the Bank Security Rights should (partially) follow the receivable as accessory and ancillary right upon its assignment, but that there is no case law explicitly supporting this advice and that, consequently, it is not certain what the Netherlands courts would decide if this matter were to be submitted to them, particularly taking into account the prevailing view of Dutch commentators on Bank Security Rights in the past, which view continues to be defended by some legal commentators.

With respect to Mortgage Loans originated by Fortis Hypotheek Bank N.V. (which merged with Direktbank N.V. on 30 August 2010) after 1 August 2005 and with respect to Mortgage Loans originated by Direktbank N.V. after 8 November 2001 the general conditions (which are incorporated by reference in the Mortgage Deed) can probably be interpreted such that, if a Mortgage Receivable assigned to a third party, the Bank Security Right will follow the Mortgage Receivable that is assigned. If this provision should be interpreted in such manner, this provision is an indication of the intentions of the parties in respect of assignment of the Mortgage Receivable. The Issuer has been advised that, provided that there are no additional circumstances which would result in the mortgage deed being interpreted in a different manner, the inclusion of such a provision, whether or not by reference, makes clear that the Bank Security Right (partially) follows the Mortgage Receivable as an ancillary right upon assignment of such Mortgage Receivable. However, there is no case law explicitly supporting this analysis.

The above applies *mutatis mutandis* in the case of the pledge of the Mortgage Receivables to the Security Trustee

under the Pledge Agreements.

Risk related to jointly-held Bank Security Rights by the Seller, the Issuer and the Security Trustee

If the Bank Security Rights have (partially) followed the Mortgage Receivables upon their assignment, the Bank Mortgage would be jointly-held by the relevant Asset Purchaser and the relevant Seller and would secure both the Mortgage Receivables held by the relevant Asset Purchaser (or the Security Trustee, as pledgee) and any claims held by the relevant Seller on the same Borrowers (the 'Other Claims').

In case the Bank Security Rights are jointly-held by both the Asset Purchaser or the Security Trustee and the relevant Seller the rules applicable to a joint estate ("*gemeenschap*") apply. The Netherlands Civil Code provides for various mandatory rules applying to such jointly-held rights. In the relevant Asset Purchaser Mortgage Receivables Purchase Agreement the relevant Seller, the relevant Asset Purchaser and the Security Trustee will agree that the relevant Asset Purchaser and/or the Security Trustee (as applicable) will manage and administer such jointly-held rights. Certain acts, including acts concerning the day-to-day management ("*beheer*") of the jointly-held rights, may under Netherlands law be transacted by each of the participants ("*deelgenoten*") in the jointly-held rights. Certain other acts must be transacted by all of the participants acting together in order to bind the jointly-held rights. It is uncertain whether the foreclosure of the mortgage rights will be considered as day-to-day management, and, consequently the consent of the relevant Sellers bankruptcy trustee (in case of bankruptcy) or administrator (in case of emergency regulations) may be required for such foreclosure. Each Seller, each Asset Purchaser and/or the Security Trustee (as applicable) will agree that in case of foreclosure the share ("*aandeel*") in each jointly-held mortgage right of the Security Trustee and/or the relevant Asset Purchaser will be equal to the Outstanding Principal Amount of the Mortgage Receivable, increased with interest and costs, if any, and the share of the relevant Seller will be equal to the Net Proceeds less the Outstanding Principal Amount, increased with interest and costs, if any. The Issuer has been advised that although a good argument can be made that this arrangement will be enforceable against the relevant Seller or, in case of its bankruptcy or, (preliminary) suspension of payments, emergency regulations, its trustee ("*curator*") or administrator ("*bewindvoerder*"), as the case may be, this is not certain. Furthermore, it is noted that this arrangement may not be effective against the Borrower.

Each Seller will undertake that, if at any moment it shall grant or acquire any Other Claims on a Borrower, other than a Further Advance, it shall, to further secure the obligations under the arrangement set out above, have an obligation to pledge, upon the occurrence of an Asset Purchaser Assignment Notification Event relating to the relevant Seller, the Other Claims, if any, in favour of the relevant Asset Purchaser and the Security Trustee. Such pledge (if vested) will secure the claim of the relevant Asset Purchaser and/or the Security Trustee on the relevant Seller created for this purpose equal to the share of the relevant Seller in the foreclosure proceeds in relation to a defaulted Borrower, which claim becomes due and payable upon a default of the relevant Borrower.

In case the Mortgage Receivable is originated by a lender other than the relevant Seller and is secured by a Bank Security Right, the above applies *mutatis mutandis*. In such case the Seller undertakes that it shall procure that the Originator shall not obtain any Other Claims on a Borrower, other than a Further Advance which is sold to the relevant Seller and immediately sold and assigned to the relevant Asset Purchaser.

Risk that the mortgage rights on long leases cease to exist

The mortgage rights securing the Mortgage Loans may be vested on a long lease ("*erfpacht*"), as further described in *Description of Mortgage Loans*. A long lease will, *inter alia*, end as a result of expiration of the long lease term (in the case of a lease for a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease in the event the leaseholder has not paid the remuneration due for a period exceeding two (2) consecutive years or seriously breaches other obligations under the long lease. In case the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the mortgage right will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder on the landowner for such compensation. The amount of the compensation will, *inter alia*, be determined by the conditions of the long lease and may be less than the market value of the long lease.

When underwriting a Mortgage Loan to be secured by a Mortgage on a long lease, the relevant Seller will take into consideration the conditions, including the term, of the long lease. The acceptance conditions used by each Seller

provide that in such event the Mortgage Loan shall have a maturity that is shorter than the term of the long lease. Furthermore, the general terms and conditions applicable to the Mortgage Loans provide that the Mortgage Loan becomes immediately due and payable in certain events, which include, in most cases, the event that the long lease terminates or the leaseholder does not meet its obligations under the long lease.

Set-off by Borrowers may affect the proceeds under the Mortgage Receivables

Under Netherlands law a debtor has a right of set-off if it has a claim which corresponds to a debt to the same counterparty and it is entitled to pay its debt as well as to enforce payment of its claim. Subject to these requirements being met, each Borrower will be entitled to set off amounts due by the relevant Seller to it (if any) with amounts it owes in respect of the Mortgage Receivable prior to notification of the assignment of the Mortgage Receivable to the relevant Asset Purchaser having been made. As a result of the set-off the Mortgage Receivables will, partially or fully, be extinguished ("*gaat teniet*"). Set-off by Borrowers could lead to losses under the IC Loans and, therefore, to losses under the Notes.

Some, but not all, of the conditions applicable to the Mortgage Loans originated by each Seller, provide that payments by the Borrowers should be made without set-off. Although this clause is intended as a waiver by the Borrowers of their set-off rights vis-à-vis the relevant Seller, under Netherlands law it is uncertain whether such waiver will be valid. Should such waiver be invalid and in respect of Mortgage Loans which do not contain a waiver, the Borrowers will have the set-off rights described in this paragraph.

After assignment of the Mortgage Receivables to the relevant Asset Purchaser (and pledge to the Security Trustee) and notification thereof to a Borrower, such Borrower will also have set-off rights vis-à-vis the relevant Asset Purchaser (and/or the Security Trustee), provided that the legal requirements for set-off are met (see above), and further provided that (i) the counterclaim of the Borrower results from the same legal relationship as the relevant Mortgage Receivable, or (ii) the counterclaim of the Borrower has been originated ("*opgekomen*") and has become due and payable ("*opeisbaar*") prior to the assignment (or pledge, in respect of the Security Trustee) of the Mortgage Receivable and notification thereof to the relevant Borrower. The question whether a court will come to the conclusion that the Mortgage Receivable and the claim of the Borrower on the relevant Seller result from the same legal relationship will depend on all relevant facts and circumstances involved. But even if these would be held to be different legal relationships, set-off will be possible if the counterclaim of the Borrower has been originated and has become due and payable prior to notification of the assignment (or pledge, as the case may be), and, further, provided that all other requirements for set-off have been met (see above).

If notification of the assignment of the Mortgage Receivables is made after the bankruptcy, (preliminary) suspension of payments or emergency regulations of the relevant Seller having become effective, it is defended in legal literature that the Borrower will, irrespective of the notification of the assignment, continue to have the broader set-off rights afforded to it in the Netherlands Bankruptcy Code. Under the Bankruptcy Code a person which is both debtor and creditor of the bankrupt entity can set off its debt with its claim, if each claim (i) came into existence prior to the moment at which the bankruptcy became effective or (ii) resulted from transactions with the bankrupt entity concluded prior to the bankruptcy becoming effective. A similar provision applies in case of emergency regulations.

Claims of a Borrower against a Seller could, *inter alia*, result from current account balances or deposits made by such Borrower. In this respect, each Seller (other than ABN AMRO Bank N.V.) has represented that (i) it owes no amounts to a Borrower under a current account relationship and (ii) no deposits have been accepted by it from any Borrower, other than Construction Amounts on the Programme Closing Date or the Programme Accession Date, as the case may be. Claims of a Borrower on ABN AMRO Bank N.V., may result from deposits made by such Borrower with ABN AMRO Bank N.V. under the terms of the relevant Mortgage Loan, such as Construction Amounts, a savings account ("*meerkeuze spaarrekening*"), premium deposits ("*premiëdepots*") and deposits intended to mitigate housing expenses ("*woonlastenverlagingsdepots*"). Also, such claims of a Borrower on a Seller can, *inter alia*, result from services rendered by such Seller to the Borrower, such as investment advice or investment management services in connection with Investment Mortgage Loans rendered by such Seller or for which such Seller is responsible or liable.

Risk that Borrower Insurance Pledges will not be effective

All rights of a Borrower under the Insurance Policies have been pledged to each relevant Seller (the '**Borrower**

Insurance Pledge). The Issuer has been advised that it is probable that the right to receive payment, including the commutation payment ("*afkoopsoom*"), under the Insurance Policies will be regarded by a Netherlands court as a future right. The pledge of a future right is, under Netherlands law, not effective if the pledgor is declared bankrupt, granted a suspension of payments (debt rescheduling scheme) or is subject to emergency regulations, prior to the moment such right comes into existence. This means that it is uncertain whether such pledge will be effective. See also *Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the Asset Purchasers*.

Risks relating to Beneficiary Rights under the Insurance Policies

Each Seller has been appointed as beneficiary under the Insurance Policies (the '**Beneficiary Rights**'), except that in many cases another beneficiary has been appointed who will rank ahead of the relevant Seller, provided that the relevant Insurance Company is irrevocably authorised by such beneficiary to pay the insurance proceeds to the relevant Seller (the '**Borrower Insurance Proceeds Instruction**'). It is unlikely that the Beneficiary Rights will follow the Mortgage Receivables upon assignment or pledge thereof to the relevant Asset Purchaser or the Security Trustee. The Beneficiary Rights will be assigned by each Seller to the relevant Initial Asset Purchaser and will be pledged to the Security Trustee by the relevant Initial Asset Purchaser (see *Description of Security*), but it is uncertain whether this assignment and pledge will be effective.

With a view to the event that no Borrower Insurance Proceeds Instruction is given and the assignment and pledge of the Beneficiary Rights is not effective, ABN AMRO Bank N.V. (or its legal predecessor Fortis Bank (Nederland) N.V.) and Direktbank N.V. (or its legal predecessor Fortis Hypotheek Bank N.V.), the relevant Asset Purchaser, the ASR Insurance Companies and the Security Trustee have each entered into a beneficiary waiver agreement (the '**Asset Purchaser Beneficiary Waiver Agreement**') under which the relevant Seller, subject to the condition precedent of the occurrence of an Asset Purchaser Assignment Notification Event waives its rights as beneficiary under the Insurance Policies and appoints as first beneficiary (i) the relevant Asset Purchaser subject to the dissolving condition of the occurrence of an Asset Purchaser Pledge Notification Event relating to the Asset Purchaser and (ii) the Security Trustee under the condition precedent of the occurrence of an Asset Purchaser Pledge Notification Event relating to the Asset Purchaser. It is, however, uncertain whether such waiver and unlikely that such appointment will be effective. In the event that such waiver and appointment are not effective in respect of the Insurance Policies, the relevant Seller and the relevant ASR Insurance Companies will undertake in the relevant Asset Purchaser Beneficiary Waiver Agreement that, or in the case of Direktbank N.V., Quion 9 B.V. and Oosteroever Hypotheken B.V., the relevant Seller will undertake in the relevant Mortgage Receivables Purchase Agreement upon the occurrence of an Asset Purchaser Assignment Notification Event, they will use their best efforts to terminate the appointment of such Seller as beneficiary under the Insurance Policies and to appoint the relevant Asset Purchaser or the Security Trustee, as the case may be, as first beneficiary under the Insurance Policies.

In the event that a Borrower Insurance Proceeds Instruction has been given, each Seller and the relevant ASR Insurance Companies will undertake in an Asset Purchaser Beneficiary Waiver Agreement or, as applicable, the Seller will undertake in the relevant Mortgage Receivables Purchase Agreement, following an Asset Purchaser Assignment Notification Event to use their best efforts to withdraw the Borrower Insurance Proceeds Instruction in favour of the relevant Seller and to issue the Borrower Insurance Proceeds Instruction in favour of (i) the relevant Asset Purchaser subject to the dissolving condition of the occurrence of an Asset Purchaser Pledge Notification Event relating to such Asset Purchaser and (ii) the Security Trustee under the condition precedent of the occurrence of an Asset Purchaser Pledge Notification Event relating to such Asset Purchaser. A similar best efforts obligation applies to the Seller in respect of the Insurance Policies taken out with any Insurance Companies, other than the ASR Insurance Companies. The termination and appointment of a beneficiary under the Insurance Policies and the withdrawal and the issue of the Borrower Insurance Proceeds Instruction will require the co-operation of all relevant parties involved. It is uncertain whether such co-operation will be forthcoming.

If (i) the relevant Asset Purchaser or the Security Trustee, as the case may be, has not become beneficiary of the Insurance Policies and (ii) the assignment and pledge of the Beneficiary Rights are not effective and (iii) the waiver of the Beneficiary Rights is not effective, any proceeds under the Insurance Policies will be payable to the relevant Seller or to another beneficiary, instead of the relevant Asset Purchaser or the Security Trustee, as the case may be. If the proceeds are paid to a Seller, it will pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement be obliged to pay the amount involved to the relevant Asset Purchaser or the Security Trustee, as the

case may be. If the proceeds are paid to a Seller and this Seller does not pay the amount involved to the relevant Asset Purchaser or the Security Trustee, as the case may be, for example in the case of bankruptcy of the Seller, or if the proceeds are paid to another beneficiary instead of the relevant Asset Purchaser or the Security Trustee, as the case may be, this may result in the amount paid under the Insurance Policies not being applied in reduction of the Mortgage Receivable. This may lead to the Borrower invoking set-off or defences against the relevant Asset Purchaser or the Security Trustee, as the case may be, for the amounts so received by the relevant Seller or another beneficiary, as the case may be.

Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies

Under the Life Mortgage Loans and the Savings Mortgage Loans the relevant Seller has the benefit of rights under Insurance Policies. Under the Insurance Policies the Borrowers pay premium consisting of a risk element and a savings or investment element. The intention is that at maturity of the Mortgage Loan, the proceeds of the savings or investments can be used to repay the Mortgage Loan, whether in full or in part. If any of the insurance companies involved (the **'Insurance Companies'**) is no longer able to meet its obligations under the Insurance Policies, for example as a result of bankruptcy or having become subject to emergency regulations, this could result in the amounts payable under the Insurance Policies either not or only partly being available for application in reduction of the relevant Mortgage Receivables. This may lead to the Borrowers trying to assert set-off rights and defences which may have the result that the Mortgage Receivables will be, fully or partially, extinguished ("*teniet gaan*"), which could lead to losses under the Notes. The risk described herein does not apply to Annuity Mortgage Loans, Linear Mortgage Loans and Interest only Mortgage Loans.

As set out in *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* above, in some, but not all of the conditions applicable to the Mortgage Loans the Borrowers have waived their set-off rights, but it is uncertain whether such waiver is effective. If the waiver is not effective or the conditions applicable to the Mortgage Loans do not contain a waiver of set-off rights, the Borrowers will in order to assert a right of set-off, need to comply with the applicable legal requirements for set-off. One of these requirements is that the Borrower should have a claim, which corresponds to its debt to the same counterparty. The Insurance Policies are contracts between the relevant Insurance Company and the Borrowers and the Mortgage Loans are contracts between the relevant Seller and the Borrowers. Therefore, in order to assert a right of set-off the Borrowers would have to establish that the relevant Seller and the relevant Insurance Company should be regarded as one legal entity or, possibly, based upon interpretation of case law, that set-off is allowed, even if the relevant Seller and the Insurance Companies are not considered as one legal entity, since the Insurance Policies and the Mortgage Loans might be regarded as one interrelated relationship.

Furthermore, the Borrowers should have a counterclaim which is enforceable. If the relevant Insurance Company is declared bankrupt or subject to emergency regulations, the Borrower will have the right to unilaterally terminate the Insurance Policy and to receive a commutation payment ("*afkoopsom*"). These rights are subject to the Borrower Insurance Pledge (see above). It may be argued that the Borrower will on this basis not be entitled to assert a right of set-off for the commutation payment vis-à-vis the relevant Seller. However, apart from the right to terminate the Insurance Policies, the Borrowers may have the right to dissolve the Insurance Policies and may assert a right of set-off vis-à-vis the relevant Seller for its claim for restitution of premiums paid and/or supplementary damages. It is uncertain whether such claim is subject to the Borrower Insurance Pledge. If not, the Borrower Insurance Pledge would not obstruct a right of set-off in respect of such claim by a Borrower.

Set-off vis-à-vis an Asset Purchaser after notification of the assignment (or the Security Trustee after notification of the pledge) would be subject to the additional requirements for set-off after assignment being met (see *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables*). The Issuer has been advised that (one of) these requirements is likely to be met, since it is likely that the Mortgage Loans and the Insurance Policies are to be regarded as one legal relationship, except in the case of certain Life Mortgage Loans granted by a Seller (other than Direktbank N.V., to the extent relating to Life Mortgage Loans to which a Life Insurance Policy is connected that have been sold by Direktbank N.V.'s legal predecessor Fortis Hypotheek Bank N.V. or originated under the name *ASR Woninghypotheek*) to which a Life Insurance Policy with an Insurance Company, which at the time of origination of the Mortgage Loans was not a group company of the relevant Seller, is connected. If the Mortgage Loan and the Insurance Policy is regarded as one legal relationship the assignment of the Mortgage Receivables will not interfere

with the set-off.

Even if the Borrowers cannot assert a right of set-off, they may assert defences vis-à-vis the relevant Seller, the relevant Asset Purchaser and/or the Security Trustee. The Borrowers could, *inter alia*, argue that it was the intention of the parties involved, or at least argue that the Borrowers could rightfully interpret the mortgage documentation and the promotional materials in such a manner, that the Mortgage Receivable and the relevant Insurance Policy are to be regarded as one inter-related legal relationship and could on this basis claim a right of annulment or dissolution of the Mortgage Loans or possibly suspension of their obligations thereunder or, alternatively, claim that the Mortgage Receivable would be (fully or partially) repaid by means of the proceeds of the Insurance Policy and that, failing such proceeds being so applied, the Borrower is not obliged to repay the (corresponding) part of the Mortgage Receivable. Also, a defence could be based upon principles of reasonableness and fairness ("*redelijkheid en billijkheid*") in general, i.e. that it is contrary to principles of reasonableness of fairness for the Borrower to be obliged to repay the Mortgage Receivable to the extent that he has failed to receive the proceeds of the Insurance Policy. The Borrowers could also base a defense on "error" ("*dwalings*"), i.e. that the Mortgage Loan and the Insurance Policy were entered into as a result of error. If this defence would be successful, this could lead to annulment of the Mortgage Loan, which would have the result that the relevant Asset Purchaser no longer holds a Mortgage Receivable.

Life Mortgage Loans

In respect of Life Mortgage Loans originated by Direktbank N.V. (or its legal predecessor Fortis Hypotheek Bank N.V.) to which Life Insurance Policies with any of the ASR Insurance Companies are connected, the Issuer has been advised that, in view of the factual circumstances involved, the possibility cannot be disregarded that the courts will honour set-off or defences by Borrowers, as described above, if in case of bankruptcy or emergency regulations of any of the ASR Insurance Companies the Borrowers/insured will not be able to recover their claims under their Life Insurance Policies.

Each Seller (other than Direktbank N.V., to the extent relating to Life Mortgage Loans to which a Life insurance Policy is connected that have been sold by Direktbank N.V.'s legal predecessor Fortis Hypotheek Bank N.V. or originated under the name *ASR Woninghypotheek*) has represented that in respect of the Life Mortgage Loans to which a Life Insurance Policy is connected with an Insurance Company which is not a group company of the relevant Seller, the Life Mortgage Loans and the Life Insurance Policy are not offered as one product under one name, and the Borrowers are free to choose the relevant Insurance Company. The Issuer has been advised that in these cases it is unlikely that a court would honour set-off or defences of the Borrowers as described above. However, if the relevant Insurance Company was, at the time of origination of the Life Mortgage Loan, a group company of the relevant Seller, the Issuer has been advised that in the case of these Life Mortgage Loans the possibility cannot be disregarded that the courts will honour set-off or defences by the Borrower.

Hybrid Mortgage Loans

In respect of Hybrid Mortgage Loans, the Issuer has been advised that the risk that such a set-off or defence would be successful is comparable to the risk in case of Savings Mortgage Loans, since under Life Insurance Policies connected to Hybrid Mortgage Loans (part of) the premium can be invested in a savings fund and in such manner a Savings Insurance Policy is "imitated". For the risk of set-off or defences involved in Savings Mortgage Loans reference is made to the following paragraph. The Asset Purchaser Sub-Participation Agreements do not apply to Hybrid Mortgage Loans, other than Hybrid Savings Mortgage Loans, and consequently, the protection afforded by the Asset Purchaser Sub-Participation Agreements does not apply to these Hybrid Mortgage Loans.

Savings Mortgage Loans

In respect of the Savings Mortgage Loans, the Issuer has been advised that there is a considerable risk ("*een aanmerkelijk risico*") that such a set-off or defence would be successful in view, *inter alia*, of the close connection between the Savings Mortgage Loans on the one hand and the Savings Insurance Policy on the other hand.

In respect of the Savings Mortgage Loans and the Hybrid Savings Mortgage Loans, an Asset Purchaser Sub-Participation Agreement has been entered into with the relevant Savings Participants. Each Asset Purchaser Sub-Participation Agreement provides that in case a Borrower invokes a defence, including but not limited to a right of set-off or a counterclaim against any person in respect of the relevant Savings Mortgage Receivable or Hybrid Savings

Mortgage Receivable, based upon a default in the performance, whether in whole or in part, by the relevant Savings Participant or, for whatever reason, the relevant Savings Participant does not pay the insurance proceeds when due and payable, whether in full or in part, under the relevant Savings Insurance Policy or Hybrid Insurance Policy and, as a consequence thereof, the relevant Asset Purchaser will not have received any amount in respect of such Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable, which was outstanding prior to such event, the Participation of the relevant Savings Participant will be reduced by an amount equal to the amount which the relevant Asset Purchaser has failed to receive. The amount of the Participation is equal to the amount of Savings Premia received by the relevant Asset Purchaser plus the accrued yield on such amount (see *Sub-Participation Agreement* below), provided that each Savings Participant will have paid all amounts due under the Asset Purchaser Sub-Participation Agreement to the relevant Asset Purchaser. Therefore, normally the relevant Asset Purchaser would not suffer any damages if the Borrower would assert any such right of set-off or defence, if and to the extent that the amount for which the Borrower would assert set-off or defences does not exceed the amount of the Participation. The amount for which the Borrower can assert set-off or defences may, depending on the circumstances, exceed the amount of the Participation.

In respect of (i) the Savings Mortgage Loans sold by ABN AMRO Bank N.V. (or its legal predecessor Fortis Bank (Nederland) N.V.) under which the Savings Insurance Policy is taken out with REAAL Levensverzekeringen N.V., Levob Levensverzekering N.V. or Robein Leven N.V., as applicable, and all Savings Mortgage Loans sold by Direktbank N.V., other than those that have been sold by Direktbank N.V.'s legal predecessor Fortis Hypotheek Bank N.V. or originated under the name *ASR Woninghypotheek*, Quion 9 B.V. and Oosteroever Hypotheken B.V. and (ii) the Hybrid Savings Mortgage Loans (other than those that have been sold by Direktbank N.V.'s legal predecessor Fortis Hypotheek Bank N.V. or originated under the name *ASR Woninghypotheek*), the relevant Seller, instead of the relevant Insurance Companies, will act as Savings Participant. Each Seller acting as Savings Participant will agree to pay all amounts scheduled to be received by the relevant Insurance Companies as Savings Premia to the relevant Asset Purchaser under the relevant Asset Purchaser Sub-participation Agreement. The Issuer has been advised that if a Seller acting as Savings Participant no longer pays these Savings Premia to the relevant Asset Purchaser (for instance, in case such Seller is declared bankrupt or subject to emergency regulations), whereas the Borrowers continue to pay under the relevant Savings Insurance Policies or Hybrid Savings Insurance Policies, as the case may be, for such Savings Premia paid by the Borrowers the protection afforded by the Asset Purchaser Sub-participation Agreement against the risk of set-off or defences (as described above) no longer applies to the relevant Savings Mortgage Loan and Hybrid Savings Mortgage Loans.

Risk of set-off or defences in respect of investments under Investment Mortgage Loans

The Sellers have represented that under the Investment Mortgage Loans the securities are purchased by a bankruptcy remote securities giro ("*effectengiro*"), a bank or an investment firm ("*beleggingsonderneming*") for the account of the Borrowers and that these securities are held in custody by an admitted institution of Euroclear Netherlands if these securities qualify as securities as defined in the Dutch Securities Giro Transfer Act ("*Wet giraal effectenverkeer*") or, if they do not qualify as such, by a separate depository vehicle. The Issuer has been advised that on the basis of this representation the relevant investments should be effectuated on a bankruptcy remote basis and that, in respect of these investments, the risk of set-off or defences by the Borrowers should not become relevant in this respect. However, if this is not the case and the investments were to be lost, this may lead to the Borrowers trying to invoke set-off rights or defences against the Issuer on similar grounds as discussed under *Risk of Set-off and defences by Borrowers in case of insolvency of Insurance Companies*.

Risk related to savings accounts

Under the Investment Mortgage Loans sold by Direktbank N.V. or its legal predecessor Fortis Hypotheek Bank N.V. the Borrowers may transfer certain amounts to a savings account held with Fortis ASR Bank N.V. If Fortis ASR Bank N.V. was no longer able to repay (part of) any funds deposited by a Borrower on such a savings account in connection with an Investment Mortgage Loan, e.g. in case it was declared bankrupt or subject to emergency regulations, this would have the result that such funds would not be available for application in reduction of the relevant Mortgage Receivable. This may lead to the Borrowers trying to assert set-off rights or defences against the Issuer on similar grounds as discussed under *Risk of Set-off and defences by Borrowers in case of insolvency of Insurance Companies*.

Risks related to maturity of Mortgage Loans

The conditions applicable to some of the Mortgage Loans do not provide for a maturity date. The Borrower is only obliged to repay the principal sum of the Mortgage Loan (or the relevant loan-part) in certain events provided for in the applicable general terms and conditions. One of these events is death of a Borrower. It is uncertain whether any of the other events will occur and, consequently, it is possible that Mortgage Loans will only become due and repayable upon death of a Borrower.

Risk related to the value of investments under Investment Mortgage Loans or Unit-Linked Life Insurance Policies

The value of investments made under the Investment Mortgage Loans or by an Insurance Company under the Unit-Linked Life Insurance Policies, may not be sufficient for the Borrower to fully redeem the related Mortgage Receivables at its maturity.

Risks related to offering of Investment Mortgage Loans, Hybrid Insurance Policies and Life Mortgage Loans with Unit-Linked Life Insurance Policies connected to it

Apart from the general obligation of contracting parties to provide information, there are several provisions of Netherlands law applicable to offerors of financial products, such as Investment Mortgage Loans, Hybrid Insurance Policies and Mortgage Loans to which Unit-Linked Life Insurance Policies are connected. In addition, several codes of conduct apply on a voluntary basis. On the basis of these provisions offerors of these products (and intermediaries) have a duty, *inter alia*, to provide the customers with accurate, complete and non-misleading information about the product, the costs and the risks involved. These requirements have become more strict over time. A breach of these requirements may lead to a claim for damages from the customer on the basis of breach of contract or tort or the relevant contract may be dissolved ("*ontbonden*") or nullified or a Borrower may claim set-off or defences against the relevant Seller or the relevant Asset Purchaser (or the Security Trustee). The merits of such claims will, to a large extent, depend on the manner in which the product was marketed and the promotional material provided to the Borrower. Depending on the relationship between the offeror and any intermediary involved in the marketing and sale of the product, the offeror may be liable for actions of the intermediaries which have led to a claim. The risk of such claims being made increases, if the value of investments made under Investment Mortgage Loans or Unit-Linked Life Insurance Policies is not sufficient to redeem the relevant Mortgage Loans.

In relation to investment insurance policies ("*beleggingsverzekeringen*"), such as the Unit-Linked Life Insurance Policies, a specific issue has arisen concerning the costs of these products. In 2006, the AFM has issued a report on these products in which it concludes that these types of insurances are relatively expensive and that the information about costs is in many cases incomplete, inadequate and sometimes incorrect. This report was followed by a letter of the Minister of Finance and a report issued in December 2006 by an independent committee, the Committee de Ruiter, containing recommendations to the insurers to improve the information provided to customers. The Dutch Association of Insurers has in a public communication (a) underwritten the recommendations of the Committee De Ruiter, stating that it sees these as a logical step in the various steps which have in previous years been made to improve transparency and (b) said that insurers will (1) verify whether in the past in individual cases mistakes have been made and if so, correct these mistakes and (2) provide costumers having an investment insurance policy with all relevant information regarding their insurance policy. In the press class actions have been announced against certain insurers and some civil law suits are pending.

The Dutch Minister of Finance has informed Parliament that the Dutch Government intends to stimulate a balanced approach for resolving complaints, to prevent a multitude of individual disputes before a complaint institute or in public courts, and has requested the Financial Services Ombudsman and Chairman of the Complaint Institute for Financial Services ("*Klachteninstituut Financiële Dienstverlening*") to propose a balanced approach to deal with complaints. This Ombudsman has concluded in its recommendation (published on 4 March 2008) that insurers in general have not provided sufficient transparency concerning the costs of life insurance policies and/or savings insurance policies with an investment alternative. This may, however, vary per insurer. He recommends insurers to compensate customers of life insurance policies and/or savings insurance policies with an investment alternative of which the costs over the duration of the policy is higher than 3.5 per cent. of the gross fund output at least for the incremental costs. If all parties would cooperate with these recommendations, this could accelerate a solution and could result in a compromise for an important number of cases.

The Dutch Association of Insurers has in a public communication stated that the recommendation offers a clear framework for a solution in a cumbersome file and that it expects that insurers will take this recommendation seriously. The recommendation addresses primarily individual insurers who should decide on the basis of their portfolio if and to what extent they will adopt this recommendation. It concludes that the recommendation of the Ombudsman makes fast, clear and transparent adaptation possible and prevents lengthy legal procedures which will benefit both insurers and customers. Recently some Insurers, including ASR Levensverzekering N.V., each acting separately, announced that it reached agreement with claimant organisations on compensation of its customers for the costs of investment insurance policies entered into with the relevant insurer.

If Unit-Linked Life Insurance Policies or Hybrid Insurance Policies related to the Mortgage Loans would for the reasons described in this paragraph be dissolved or nullified, this will affect the collateral granted to secure these Mortgage Loans (the Borrower Insurance Pledges and the Beneficiary Rights would cease to exist). The Issuer has been advised that in such case the Mortgage Loans connected thereto can possibly also be dissolved or nullified, but that this will depend on the particular circumstances involved. Even if the Mortgage Loan is not affected, the Borrower/insured may invoke set-off or other defences against the Asset Purchasers. The analysis in that situation is similar to the situation in case of insolvency of the insurer (see *Risk of set-off and defences by Borrowers in case of insolvency of Insurance Companies*), except if the relevant Seller is itself liable, whether jointly with the insurer or separately, vis-à-vis the Borrower/insured. In this situation, which may depend on the involvement of the relevant Seller in the marketing and sale of the insurance policy, set-off or defences against the Asset Purchasers could be invoked, which will probably only become relevant if the insurer and/or the relevant Seller will not indemnify the Borrower. Any such set-off or defences may lead to losses under the Notes.

Risk related to the Construction Amounts being set-off with the Mortgage Receivable

Pursuant to the Mortgage Conditions of each Seller, the Borrowers have the right to request to withhold a Construction Amount on deposit. Such amount will be paid out in case certain conditions are met. Each Asset Purchaser and the relevant Seller will agree in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement that the Asset Purchaser will be entitled to withhold from the relevant Initial Purchase Price an amount equal to the aggregate Construction Amounts. Such amount will be deposited on the relevant Construction Account. On each relevant Note Payment Date, the relevant Asset Purchaser will release from the relevant Construction Account such part of the Initial Purchase Price which equals the difference between the aggregate Construction Amounts relating to the relevant Mortgage Receivables and the balance standing to the credit of the relevant Construction Account and pay such amount to the relevant Seller.

Construction Amounts have to be paid out after the building activities or renovation activities have been finalised. Upon the expiry of such period, the remaining Construction Amount will be set off against the relevant Mortgage Receivable up to the amount of the Construction Amount, in which case the relevant Asset Purchaser shall have no further obligation towards the relevant Seller to pay the remaining part of the relevant Initial Purchase Price, and consequently any remaining part of the amounts of the relevant Construction Account will be used for redemption of the Notes. If an Asset Purchaser Assignment Notification Event set out under (e) (see *Asset Purchaser Mortgage Receivables Purchase Agreements*) has occurred, the relevant Asset Purchaser will no longer be under the obligation to pay such remaining part of the relevant Initial Purchase Price. The amount for which the Borrower can invoke set-off or defences may, depending on the circumstances, exceed the amount of the Construction Amount.

Risk regarding assignment and pledge of Mortgage Receivables relating to Construction Amounts

Under Netherlands law the distinction between "existing" ("*bestaande*") receivables and "future" ("*toekomstige*") receivables is relevant. If receivables are to be regarded as future receivables, an assignment and/or pledge thereof will not be effective to the extent the receivable comes into existence after or on the date on which the assignor or, as the case may be, the pledgor has been declared bankrupt or granted a suspension of payments (emergency regulations). If, however, receivables are to be considered as existing receivables, the assignment and pledge thereof are not affected by the bankruptcy or suspension of payments (emergency regulations) of the assignor/pledgor. The Issuer has been advised that based on case law and legal literature uncertainty remains whether on the basis of the applicable terms and conditions the part of the Mortgage Receivables relating to the Construction Amounts are considered to be existing receivables. It could be argued that such part of the Mortgage Loan concerned comes into

existence only when and to the extent the Construction Amount is paid out. If the part of the Mortgage Receivable relating to the Construction Amount is to be regarded as a future receivable, the assignment and/or pledge of such part will not be effective if the Construction Amount is paid out on or after the date on which the relevant Seller is declared bankrupt or has become subject to (preliminary) suspension of payments or emergency regulations.

Risks related to Revolving Credit Mortgage Loans

Certain Mortgage Loans originated by ABN AMRO Bank N.V. (or its legal predecessor Fortis Bank (Nederland) N.V.) and Direktbank N.V. are in the form of a Revolving Credit Mortgage Loan. Under a Revolving Credit Mortgage Loan the Borrower may make drawings up to the agreed maximum amount and may repay any part of the loan at any time. The Issuer has been advised that based on case law and legal literature the balances resulting from and/or the claims administered in Revolving Credit Mortgage Loans should be capable of being assigned and pledged.

Under Dutch law it is possible to validly assign or create a valid right of pledge on receivables without notification to the Borrower, provided that the receivable (i) already exists at the time of the assignment or the right of pledge is established or (ii) will be directly acquired pursuant to a legal relationship already existing at that time. The Issuer has been advised that an undisclosed assignment or pledge in advance of claims arisen out of future drawings of the Borrower under a revolving credit facility might not result from a legal relationship already existing at that time. Advances under a Revolving Credit Mortgage Loan may not automatically be transferred on the date these come into existence. In view hereof, in respect of Revolving Credit Mortgage Loans each of ABN AMRO Bank N.V. and Direktbank N.V. will in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement agree to transfer on each Monthly Payment Date or on each Mortgage Payment Date the Outstanding Principal Amount of each Revolving Credit Mortgage Loan at such time.

Under a Revolving Credit Mortgage Loan each of ABN AMRO Bank N.V. and Direktbank N.V. are, in principle, obliged to comply with any drawing request of a Borrower up to the maximum amount agreed. If ABN AMRO Bank N.V. or Direktbank N.V., as applicable, is unable to comply with such request, it may be held liable for damages the Borrower incurs as a result of not being able to draw the amount under such conditions. Prior to notification of the assignment of the Mortgage Receivable the relevant Borrower will have the right to set off the amount of such damages with its payments obligations under the relevant Mortgage Loan. After notification of the assignment of the Mortgage Receivable the Borrower may also be allowed to set off the amount of such damages with its payments obligations under the relevant Mortgage Loan to the Relevant Asset Purchaser, because such damages are likely to result from the same legal relationship as the Mortgage Loan (see further *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables*). In order to mitigate this risk each of ABN AMRO Bank N.V. and Direktbank N.V. undertake in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement upon the occurrence of an Asset Purchaser Assignment Notification Event to either, at its option, (a) repurchase all Revolving Credit Mortgage Receivables or (b) terminate all existing Revolving Credit Mortgage Loans in respect of the Available Credit Facility under such Revolving Credit Mortgage Loans and to enter into new revolving credit facility agreements with the relevant Borrowers. For such termination the cooperation of the Borrowers will be required and it is uncertain whether such cooperation will be forthcoming. If such a new revolving credit facility agreement has been entered into, the Issuer has been advised that a good argument can be made that any drawings thereunder do not result from the same legal relationship as the Mortgage Loan. If this argument is followed, one possible ground for set-off vis-à-vis the Asset Purchaser after assignment and notification would no longer be available (see *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables*).

In some cases the Borrower may have agreed up-front not to pay interest under its Revolving Credit Mortgage Loan and that the interest not paid will be administered on in the balance of the Revolving Credit Mortgage Loan up to a certain maximum amount. The Issuer has been informed that ABN AMRO Bank N.V. or Direktbank N.V., as the case may be, will in such case pay an amount equal to the increase of the Revolving Credit Mortgage Loan resulting from the debiting of the interest, which is equal to the interest that would have been paid by the Borrower to ABN AMRO Bank N.V. or Direktbank N.V., as the case may be. if such amount was not administered in the balance of the Revolving Credit Mortgage Loan, to the relevant Asset Purchaser. The increase of the Revolving Credit Mortgage Loan, will be treated as a Further Advance.

Risk relating to Further Advances

Part of the Mortgage Receivables sold and assigned to the Asset Purchasers relate to Mortgage Loans which have been originated by group companies of ABN AMRO Bank N.V. (or its legal predecessor Fortis Bank (Nederland) N.V.) which have subsequently merged into ABN AMRO Bank N.V. (either directly or indirectly through its predecessors) or originated by other Originators, including in the case of Quion 9 B.V. by another lender forming part of the Quion generic funding system, and subsequently transferred (by way of transfer ("*contractsoverneming*") assignment or otherwise) to the relevant Seller. The Issuer has been advised that in case of such merger or transfer (other than by means of assignment) it is not certain whether any Further Advances granted, or to be granted, by the relevant Seller after any such merger or transfer are validly secured by the mortgage right and borrower pledges vested in favour of the original lender (which in case of a merger has ceased to exist as a result of the merger). For this question it is relevant, *inter alia*, whether the Further Advance resulted from the same legal relationship as the Mortgage Loan or whether it constitutes a new legal relationship. In case a Mortgage Receivable is assigned by the Originator to the relevant Seller, a Further Advances will only be validly secured if it is granted by the Originator (and not the Seller) and subsequently assigned to such Seller.

The mortgage deed used by Oosteroever Hypotheken B.V. and Quion 9 B.V. from 2002 to 2008 stipulates that the mortgage right and the rights of pledge secure the principal sum of the Mortgage Loan and, furthermore, all other amounts which the Borrower owes or may at any time owe to the relevant Seller pursuant to the loan ("*geldlening*"), as defined in the general conditions applicable to the mortgage deed. These general conditions define the loan as the loan agreement or the credit agreement, including any offer letters, whether entered into or to be entered into and, thus do not give much guidance as to whether also Further Advances are secured. The general conditions, however, include a provision on the drawing of further advances for which no additional mortgage right or right of pledge is required to be vested. The Issuer has been advised that, based upon case law, when interpreting the relevant provision in the mortgage deed the meaning of the parties ("*partijbedoeling*") will be decisive, which should be based upon the wording of the deed according to objective criteria and that when interpreting the wording of the mortgage deed, the general conditions, which are referred to in the mortgage deed may be taken into account assuming that the general conditions are accessible ("*kenbaar*") by third parties. The Issuer has been advised that on this basis a reasonable interpretation of such deed, read in conjunction with the general conditions applicable thereto, is that the mortgage right and the right of pledge granted therein secure also Further Advances granted to a Borrower, to the extent the Further Advance falls within the maximum principal sum secured by the mortgage deed.

If a Further Advance Receivable is not validly secured by a mortgage right, this could affect the ability of the relevant Asset Purchaser to recover the Outstanding Principal Amount of such Further Advance Receivable. If it would be established that a Further Advance Receivable is not validly secured by a mortgage right, this constitutes a breach of the representations and warranties granted by the relevant Seller, resulting in an obligation of the relevant Seller to repurchase the relevant Further Advance Receivable.

The characteristics of the Mortgage Receivables may change from time to time

There is no guarantee that the characteristics of any new Mortgage Receivables assigned to the relevant Asset Purchaser will have the same characteristics as the Mortgage Receivables as of the first purchase, in particular, new Mortgage Loans may have different payment characteristics from the Mortgage Loans assigned to the Asset Purchaser as of the first purchase. If a new Asset Purchaser accedes to the Programme, it is unlikely that new Mortgage Receivables sold to such new Asset Purchaser will have the same characteristics as the Mortgage Receivables sold prior to such date. The ultimate effect of this could be to delay or reduce the payments on the Notes or to increase the rate of repayment of the Notes.

Payments on the Mortgage Receivables are subject to credit, liquidity and interest rate risks

Payments on the Mortgage Receivables are subject to credit, liquidity and interest rate risks. This may be due to, among other things, market interest rates, general economic conditions, the financial standing of Borrowers and similar factors. Other factors such as loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies and bankruptcy filings by Borrowers and could ultimately have an adverse impact on the ability of Borrowers to repay their Mortgage Loans. The ultimate effect of this could be to delay or reduce the payments on the Notes or to increase the rate of repayment of the Notes.

Risk that interest rate reset rights will not follow Mortgage Receivables

The Issuer has been advised that a good argument can be made that the right to reset the interest rate on the Mortgage Loans should be considered as an ancillary right and follows the Mortgage Receivables upon their assignment to the relevant Asset Purchaser and the pledge to the Security Trustee. However, in the absence of case law or legal literature this is not certain. To the extent the interest rate reset right passes upon the assignment of the Mortgage Receivables to the relevant Asset Purchaser or upon the pledge of the Mortgage Receivables to the Security Trustee, such assignee or pledgee will be bound by the contractual provisions relating to the reset of interest rates. If the interest reset right remains with the relevant Seller, the co-operation of the receiver (in bankruptcy) or administrator (in suspension of payments) would be required to reset the interest rates. Losses on the Mortgage Receivables could lead to losses under the IC Loans and therefore to losses under the Notes.

Risks of losses associated with declining values of Mortgaged Assets

The security for the Notes created under the Asset Purchaser Receivables Pledge Agreement may be affected by, among other things, a decline in the value of the Mortgaged Assets. No assurance can be given that values of the Mortgaged Assets have remained or will remain at the level at which they were on the date of origination of the related Mortgage Loans. A decline in value of the relevant Mortgaged Assets may result in losses to the relevant Noteholders if the relevant security rights on the relevant Mortgaged Assets are required to be enforced. The relevant Seller will not be liable for any losses incurred by the relevant Asset Purchaser in connection with the Mortgage Loans.

RISK FACTORS REGARDING THE ASSET PURCHASERS

Each Asset Purchaser has limited resources available to meet its obligations

The ability of an Asset Purchaser to meet its obligations in full to pay the principal and interest on the IC Loans will be dependent on the receipt by it of funds under the relevant Mortgage Receivables, the proceeds of the sale of Mortgage Receivables, the receipt by it of payments under the relevant Asset Purchaser Cashflow Swap Agreement and the receipt by it of interest in respect of the balance standing to the credit of the relevant Asset Purchaser Accounts (other than on the Construction Account). See further *Credit Structure Asset Purchasers*.

The Asset Purchasers have counterparty risk exposures

Counterparties to an Asset Purchaser may not perform their obligations under the Relevant Asset Purchasers Documents (as defined in the Conditions), which may result in an Asset Purchaser not being able to meet its obligations under the relevant IC Loan Agreement. In respect of obligations of Direktbank N.V., Oosterover Hypotheken B.V. and Quion 9 B.V. reference is made to the section *Risk of withdrawal of, or termination of liability under the 403-Declarations*.

License requirement under the Act on Financial Supervision

Under the Act on Financial Supervision ("*Wet op het financieel toezicht*" or "*Wft*") as amended from time to time, which entered into force on 1 January 2007, a special purpose vehicle which services ("*beheert*") and administers ("*uitvoert*") loans granted to consumers, such as an Asset Purchaser, must have a license under that Act. An exemption from the license requirement is available, if the special purpose vehicle outsources the servicing of the loans and the administration thereof to an entity holding a license under the Act on Financial Supervision. Each Asset Purchaser has outsourced the servicing and administration of the Relevant Mortgage Loans to the relevant Pool Servicer. The current Pool Servicers are duly licensed to act as intermediary ("*bemiddelaar*") and offeror ("*aanbieder*") under the Act on Financial Supervision and the Asset Purchasers thus benefit from the exemption. However, if a relevant Asset Purchaser Servicing Agreement is terminated, the relevant Asset Purchaser will need to outsource the servicing and administration of the Relevant Mortgage Loans to another licensed entity or it needs to apply for and hold a license itself. In the latter case, the Asset Purchaser will have to comply with the applicable requirements under the Act on Financial Supervision. If an Asset Purchaser Servicing Agreement is terminated and the Asset Purchaser has not outsourced the servicing and administration of the Relevant Mortgage Loans to a licensed entity and, in such case, it will not hold a license itself, the Asset Purchaser will have to terminate its activities and settle ("*afwickelen*") its existing agreements.

Risk related to the termination of the Asset Purchaser Cashflow Swap Agreements

There will be a difference between the rate of interest to be received by the relevant Asset Purchaser on the Mortgage

Receivables and the rate of interest payable by the relevant Asset Purchaser on the relevant IC Loans. To mitigate this risk, each Asset Purchaser will enter into Asset Purchaser Cashflow Swap Agreements in respect of each IC Loan Agreement. The Asset Purchaser Swap Counterparty will be obliged to make payments under each Asset Purchaser Cashflow Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the Asset Purchaser Swap Counterparty will be required to pay such additional amount as is necessary to ensure that the net amount actually received by the relevant Asset Purchaser will equal the full amount that the relevant Asset Purchaser would have received had no such withholding or deduction of taxes been required. The relevant Asset Purchaser Cashflow Swap Agreement will provide, however, that if due to (i) action taken by a relevant taxing authority or brought in a court of competent jurisdiction, or (ii) any change in tax law, in both cases after the date of the Asset Purchaser Cashflow Swap Agreement, the Asset Purchaser Swap Counterparty will, or there is a substantial likelihood that it will, be required to pay to the Asset Purchaser additional amounts for or on account of tax (a '**Tax Event**'), the Asset Purchaser Swap Counterparty may (with the consent of the relevant Asset Purchaser and provided that the then current rating of any of the Notes will not be downgraded below the Minimum Ratings or, if the then current ratings are below the Minimum Ratings, the then current ratings will not be adversely affected) transfer its rights and obligations to another of its offices, branches or affiliates to avoid the relevant Tax Event.

Each Asset Purchaser Cashflow Swap Agreement will be terminable by one party in certain circumstances, including if (i) an event of default (as defined therein) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the relevant Asset Purchaser Cashflow Swap Agreement, or (iii) an Enforcement Notice is served. Events of default under the relevant Asset Purchaser Cashflow Swap Agreement in relation to the relevant Asset Purchaser will be limited to (i) non-payment under the relevant Asset Purchaser Cashflow Swap Agreement, (ii) a merger or similar transaction with another entity or person without assumption of the relevant Asset Purchaser's obligation under the relevant Asset Purchaser Cashflow Swap Agreement and (iii) certain insolvency events. If any Asset Purchaser does not receive any payments under the Relevant Asset Purchaser Cashflow Swap Agreement and/or no new asset purchaser cashflow swap counterparty can be found, the relevant Asset Purchaser will be exposed to a possible mismatch between the rate of interest to be received by the relevant Asset Purchaser on the Mortgage Receivables and the rate of interest payable by the relevant Asset Purchaser on the relevant IC Loans, as a result of which the Issuer may have insufficient funds to make payments of interest under the Notes.

Risk of receipt of insufficient amounts under IC Loans from the Asset Purchasers

Primarily, the ability of the Issuer to fulfil its obligations under the Notes will depend on receipt of amounts due under the IC Loans. Investors should be aware that the ability of an Asset Purchaser to fulfil its obligations under the relevant IC Loan will depend mostly upon receipt by such Asset Purchaser of payments of interest and principal under the relevant Mortgage Receivables. If an Asset Purchaser does not receive sufficient funds it will not be able to fulfil its obligations under the IC Loan and the Issuer may therefore not receive sufficient funds to fulfil its obligations under the Notes.

Risks associated with accession by other Sellers and Asset Purchasers

In the Programme Agreement the transaction parties have agreed that a direct or indirect subsidiary of ABN AMRO Bank N.V. may accede to (some of) the Relevant Documents and become a Seller under the Programme and may therefore sell Mortgage Receivables to the relevant Asset Purchaser set up for such Seller and such purpose. The Issuer and the Noteholders may therefore be exposed to risks on such other Seller than on the current Sellers. In addition, as a result of such accession, other mortgage products than those described in this Base Prospectus, which may have been originated in a different manner and with different eligibility criteria, may be sold and assigned to an Asset Purchaser.

The Noteholders will not have any right of prior review or consent before the Issuer enters into any additional IC Loan Agreements with new Asset Purchasers and advance new IC Loans or the corresponding issuance of Notes by the Issuer. Similarly, the terms of the Relevant Asset Purchaser Documents and the criteria for new IC loans to such Asset Purchaser may be amended to reflect the accession of the new Asset Purchaser. The consent of the Noteholders to these changes will not be required. There can be no assurance that these changes will not affect the cashflow available to pay amounts due on the Notes. Before entering into such IC Loan Agreements, the new Asset Purchaser will be required to satisfy a number of conditions, including that the then current ratings of the Notes will not

be downgraded below the Minimum Ratings or such ratings are withdrawn or qualified at the time of the accession of a new Asset Purchaser.

Risk of withdrawal of, and termination of liability under, the 403-Declarations

Under the 403-Declarations the 403-Guarantor is jointly and severally liable for the debts ("*schulden*") resulting from legal acts ("*rechtshandelingen*") of each of Direktbank N.V., Oosteroever Hypotheken B.V. and Quion 9 B.V. (the '**Relevant ABN AMRO Subsidiaries**'). The Issuer has been advised that each Asset Purchaser Mortgage Receivables Purchase Agreement, Asset Purchaser Cashflow Swap Agreement, Asset Purchaser Servicing Agreement and Asset Purchaser Sub-Participation Agreement, to the extent relating to the Relevant ABN AMRO Subsidiaries, will be regarded as such a legal act and, therefore the 403-Guarantor will be jointly and severally liable with the Relevant ABN AMRO Subsidiary for all debts under these agreements. ABN AMRO Bank N.V. has, furthermore, undertaken that it shall be jointly and severally liable for the performance by the relevant Relevant ABN AMRO Subsidiary of its obligations under the relevant Asset Purchaser Cashflow Swap Agreement, if and to the extent that ABN AMRO Bank N.V. (as 403-Guarantor) is not jointly and severally liable with the Asset Purchaser Cash Swap Counterparty for these obligations on the basis of the 403-Declaration.

The 403-Guarantor will not be a party to any of the abovementioned agreements. In order to enhance the chances that in case of a default by a Relevant ABN AMRO Subsidiary, the 403-Guarantor timely pays any debts hereunder in accordance with the 403-Declarations, the 403-Guarantor will be notified at closing of each Asset Purchaser Mortgage Receivables Purchase Agreement, Asset Purchaser Cashflow Swap Agreement, Asset Purchaser Servicing Agreement and Asset Purchaser Sub-Participation Agreement, to the extent relating to the Relevant ABN AMRO Subsidiaries, and the obligations thereunder, including the timing thereof. Furthermore, in the Asset Purchaser Servicing Agreements, the Asset Purchaser Administrators and in the Issuer Administration Agreement, the Issuer Administrator, respectively, have undertaken to inform the 403-Guarantor in case of a default or a threatened default by a Relevant ABN AMRO Subsidiary under any of these agreements (to the extent applicable) immediately of such a default or threatened default and of the amounts and dates of payments to be made by the 403-Guarantor under the 403-Declarations in respect of these agreements.

The 403-Guarantor will have the right to withdraw the 403-Declarations at any time by depositing a declaration to this effect with the Commercial Register of the relevant Chamber of Commerce in Rotterdam or Utrecht, as applicable. The Issuer has been advised that irrespective of such withdrawal, the 403-Guarantor will continue to be jointly and severally liable for all debts of the Relevant ABN AMRO Subsidiaries resulting from each Asset Purchaser Swap Agreement, Asset Purchasing Servicing Agreement and Asset Purchasing Sub-Participation Agreement. However, in respect of the debts of the Relevant ABN AMRO Subsidiaries (to the extent applicable) under each Asset Purchaser Mortgage Receivables Purchase Agreement, to the extent relating to the Relevant ABN AMRO Subsidiaries, this is not certain, because any sale and assignment of Mortgage Receivables under an Asset Purchaser Mortgage Receivables Purchase Agreement, to the extent relating to the Relevant ABN AMRO Subsidiaries, could be considered as a new legal act and, to the extent effectuated after withdrawal of the relevant 403-Declaration, may not be covered by the 403-Declaration. Therefore, the withdrawal of the relevant 403-Declaration will be an Assignment Notification Event in respect of the relevant Seller. The 403-Guarantor has undertaken to inform the Issuer, the Asset Purchasers, the Issuer Administrator, the Asset Purchaser Administrator and the Security Trustee at least thirty (30) days prior to the withdrawal of any of the 403-Declarations.

The 403-Guarantor can also file a notice of its intention to terminate its remaining liability after withdrawal of the 403-Declarations. Such remaining liability will terminate if certain conditions are met, *inter alia*, that (i) the relevant company no longer belongs to the same group of companies as the 403-Guarantor and (ii) a two (2) month notice period has expired and the relevant creditor has not opposed the intention to terminate in time or such opposition was dismissed by the court. If the creditor so demands, it must be provided with security for the payment of its claims, failing which the opposition will be upheld. This shall not apply if, after termination of the liability, the creditor has sufficient security ("*waarborg*") that such claims will be paid. The courts will have discretionary authority when deciding on this question. The 403-Guarantor has undertaken to inform the Issuer, the Asset Purchasers, the Security Trustee, the Issuer Administrator and the Asset Purchaser Administrators at least thirty (30) days prior to the filing of its intention to terminate its remaining liability under the 403-Declarations.

In addition, under the ABN AMRO Group 403 Declaration, ABN AMRO Group N.V. is jointly and severally liable for the debts ("*schulden*") resulting from legal acts ("*rechtshandelingen*") of ABN AMRO Bank N.V. Since ABN AMRO Group N.V. is a holding company with no significant activities of its own, it would have to look at its operating subsidiaries to satisfy a claim brought against it by the Issuer on the basis of the ABN AMRO Group 403 Declaration. As ABN AMRO Group N.V.'s only direct subsidiary is ABN AMRO Bank N.V., the Issuer has been advised that a claim under the ABN AMRO Group 403 Declaration would not result in material recourse.

RISK FACTORS REGARDING THE ISSUER

The Issuer has limited resources available to meet its obligations

The ability of the Issuer to meet its obligations in full to pay principal and interest on the Notes will be dependent on the receipt by it of funds under the IC Loans, the receipt by it of payments under any Issuer Currency Swap Agreement and the receipt by it of interest in respect of the balance standing to the credit of the Issuer Accounts. In addition, the Issuer will have available to it the balances standing to the credit of the Issuer Reserve Account. See further *Credit Structure Issuer*.

The Issuer has counterparty risk exposures

Counterparties to the Issuer may not perform their obligations under the Relevant Documents (as defined in the Conditions), which may result in the Issuer not being able to meet its obligations. In respect of obligations of Direktbank N.V., ABN AMRO Bank N.V., Oosteroever Hypotheken B.V. and Quion 9 B.V. reference is made to the section *Risk of withdrawal of, or termination of liability under, the 403-Declarations*.

Effectiveness of the rights of pledge to the Security Trustee

Under or pursuant to the Pledge Agreements, various Dutch law pledges will be granted by the Asset Purchasers and the Issuer to the Security Trustee. On the basis of these pledges the Security Trustee can exercise the rights afforded by Netherlands law to pledgees as if there were no bankruptcy or suspension of payments of the Asset Purchasers and the Issuer. The Asset Purchasers and the Issuer are special purpose vehicles and are therefore unlikely to become insolvent. However, any bankruptcy or (preliminary) suspension of payments involving the Asset Purchasers and the Issuer would affect the position of the Security Trustee as pledgee in some respects, the most important of which are: (i) payments made by any Borrower to the relevant Asset Purchaser prior to notification but after bankruptcy or (preliminary) suspension of payments will be part of the bankruptcy estate of the relevant Asset Purchaser, although the Security Trustee has the right to receive such amounts by preference after deduction of certain costs, (ii) a mandatory 'cool-off' period of up to four (4) months may apply in case of bankruptcy or (preliminary) suspension of payments involving the Issuer or any Asset Purchaser, which, if applicable would delay the exercise of the relevant right of pledge and (iii) the Security Trustee may be obliged to enforce its right of pledge within a reasonable period as determined by the judge-commissioner ("*rechter- commissaris*") appointed by the court in case of bankruptcy of the Issuer or any Asset Purchaser .

To the extent the receivables pledged by the Asset Purchasers and the Issuer to the Security Trustee are future receivables, such assets are no longer capable of being pledged after a bankruptcy or suspension of payments of the Issuer takes effect. The Issuer has been advised that the assets pledged to the Security Trustee under (i) the Asset Purchaser Assets Pledge Agreements and (ii) the Issuer Pledge Agreement, other than the rights under any IC Loans, should probably be regarded as future receivables.

Risks related to the creation of pledges on the basis of the Programme Parallel Debts

Under Netherlands law it is uncertain whether a security right can be validly created in favour of a party which is not the creditor of the claim which the security right purports to secure. Consequently, in order to secure the valid creation of the pledges in favour of the Security Trustee, (i) the Issuer will undertake in the Issuer Parallel Debt Agreement, as separate and independent obligations, by way of parallel debt, to pay to the Security Trustee amounts equal to the amounts due by it to the Issuer Secured Parties and (ii) each Asset Purchaser will undertake in the relevant Asset Purchaser Trust Agreement, as separate and independent obligations by way of parallel debt, to pay to the Security Trustee amounts equal to these amounts due by it to the Asset Purchaser Secured Parties. There is no statutory law or case law available on parallel debts such as the Issuer Parallel Debt and the Asset Purchaser Parallel Debts and the question whether a parallel debt constitutes a valid basis for the creation of security rights, such as rights of

pledge. However, the Issuer has been advised that a parallel debt, such as the Issuer Parallel Debt and each Asset Purchaser Parallel Debt, create claims of the Security Trustee thereunder which can be validly secured by a right of pledge such as the rights of pledge created by the Issuer Assets Pledge Agreement and each Asset Purchaser Receivables Pledge Agreement and Asset Purchaser Assets Pledge Agreement (see also *Description of Security* below).

Any payments in respect of the Programme Parallel Debts and any proceeds received by the Security Trustee are in the case of an insolvency of the Security Trustee not separated from the Security Trustee's other assets, so the Secured Parties accept a credit risk on the Security Trustee.

Risk related to the termination of an Issuer Currency Swap Agreement and exchange rate risks

Repayments of principal and payments of interest on a Series and Class of Notes may be made in a currency other than Euro, but the IC Loans made by the Issuer to the Asset Purchasers and repayments of principal and payments of interest by the Asset Purchasers to the Issuer will be in Euro. To hedge the currency exchange and interest rate exposure on the closing date for a Series and Class of Notes the Issuer will enter into currency swap transactions for such Notes with an Issuer Currency Swap Provider as specified in the Final Terms (see *Credit Structure Issuer*).

An Issuer Swap Counterparty will be obliged to make payments under the relevant Issuer Currency Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the relevant Issuer Currency Swap Counterparty will be required to pay such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount that the Issuer would have received had no such withholding or deduction been required. The relevant Issuer Currency Swap Agreement will provide, however, that if a Tax Event occurs, the Issuer Swap Counterparty may (with the consent of the Issuer and provided that the rating of the Notes will not be downgraded below the Minimum Ratings or, if the then current rating is below the Minimum Ratings, the then current rating of any of the Notes will not adversely be affected) transfer its rights and obligations to another of its offices, branches or affiliates to avoid the relevant Tax Event.

Each Issuer Currency Swap Agreement will be terminable by one party in certain circumstances, including if (i) an event of default (as defined therein) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the Issuer Currency Swap Agreement, or (iii) an Enforcement Notice is served. Events of default under the Issuer Currency Swap Agreement in relation to the Issuer will be limited to (i) non-payment under the Issuer Currency Swap Agreement, (ii) a merger or similar transaction with another entity or person without assumption of the Issuer's obligation under the Issuer Currency Swap Agreement and (iii) insolvency events.

Each Issuer Currency Swap Provider is obliged only to make payments under an Issuer Currency Swap Agreement as long as the Issuer makes timely payments thereunder. If such Issuer Currency Swap Provider is not obliged to make payments of, or if it defaults in its obligations to make payments of, amounts equal to the full amount scheduled to be paid to the Issuer on the dates for payment specified under the relevant Issuer Currency Swap Agreement or such Issuer Currency Swap Agreement is otherwise terminated (and no replacement issuer currency swap counterparty is found), the Issuer will be exposed to changes in the exchange rates between Euro and the currency in which such Notes are denominated. As a consequence, the Issuer may have insufficient funds to make payments due on the applicable Series and Classes of Notes.

RISK FACTORS REGARDING THE NOTES

Factors which might affect an investor's ability to make an informed assessment of the risks associated with Notes issued under the Programme

Investors in the Notes must be able to make an informed assessment of the Notes, based upon full knowledge and understanding of the facts and risks. Investors must determine the suitability of that investment in light of its own circumstances. The following factors might affect an investor's ability to appreciate the risk factors outlined below, placing such investor at a greater risk of receiving a lesser return on his investment:

- (i) if such an investor does not have sufficient knowledge and experience to make a meaningful evaluation of the Notes and the merits of investing in the Notes in light of the risk factors outlined below;

- (ii) if such an investor does not have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of his particular financial situation, the significance of these risk factors and the impact the Notes will have on his overall investment portfolio;
- (iii) if such an investor does not have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the investor's currency;
- (iv) if such an investor does not understand thoroughly the terms of the Notes and is not familiar with the behaviour of any relevant indices in the financial markets (including the risks associated thereof) as such investor is more vulnerable from any fluctuations in the financial markets generally; and
- (v) if such an investor is not able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect his investment and his ability to bear the applicable risks.

The Notes will be solely the obligations of the Issuer

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, in whatever capacity acting, including, without limitation, any of the Asset Purchasers, the Sellers, the Pool Servicers, the Issuer Administrator, the Asset Purchaser Administrators, the Dealers, the GIC Providers, the Swap Counterparties, the Directors, the Paying Agents, the Reference Agent or the Security Trustee. Furthermore, none of the Asset Purchasers, the Sellers, the Pool Servicers, the Issuer Administrator, the Asset Purchaser Administrators, the Dealers, the GIC Providers, the Swap Counterparties, the Directors, the Paying Agents, the Reference Agent, the Security Trustee or any other person in whatever capacity acting, will accept any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. None of the Asset Purchasers, the Sellers, the Pool Servicers, the Issuer Administrator, the Asset Purchaser Administrator, the Dealers, the GIC Provider, the Swap Counterparties, the Directors, the Paying Agents, the Reference Agent or the Security Trustee will be under any obligation whatsoever to provide additional funds to the Issuer, save in the limited circumstances described in the *Credit Structure Asset Purchasers* and *Credit Structure Issuer*.

The Notes will, however, be indirectly guaranteed by the Asset Purchasers through a guarantee undertaken by each Asset Purchaser in the relevant Asset Purchaser Trust Agreement for the obligations of the Issuer under the Issuer Parallel Debt Agreement (which includes a Parallel Debt for the obligations of the Issuer to the Noteholders) to the Security Trustee.

Risks related to prepayment on the Mortgage Loans and consequently the IC Loans

The Issuer is obliged to apply the Principal Available Amount towards repayment of the Notes in accordance with Condition 6(b). The maturity of the Notes of a Series and of a Series and Class and a Sub-class, in particular Pass-through Notes, will depend on, *inter alia*, the amount and timing of payment of principal on the IC Loans, and the amount and timing of payment of principal on the IC Loans will depend on the amount and timing of payment of principal (including full and partial prepayments, sale of the Mortgage Receivables by the relevant Asset Purchaser, Net Proceeds upon enforcement of a Mortgage Loan and repurchase by the relevant Seller of Mortgage Receivables) on all relevant Mortgage Loans. The average maturity of the Notes may be adversely affected by a higher or lower than anticipated rate of prepayments on the IC Loans and therefore by a higher or lower than anticipated rate of prepayments on the Mortgage Loans. The rate of prepayment of Mortgage Loans is influenced by a wide variety of economic, social and other factors, including prevailing market interest rates, changes in tax laws (including, but not limited to, amendments to mortgage interest tax deductibility), local and regional economic conditions and changes in Borrowers' behaviour (including, but not limited to, home-owner mobility). No guarantee can be given as to the level of prepayment that the Mortgage Loans and thus the IC Loans may experience, and variation in the rate of prepayments of principal on the Mortgage Loans and thus on the IC Loans may affect each Series and each Class of Notes differently. The estimated average lives must therefore be viewed with considerable caution and Noteholders should make their own assessment thereof.

Changes to tax treatment of interest may impose various risks

The Netherlands tax system allows borrowers to deduct all mortgage interest payments for owner-occupied residences from their taxable income. There is currently a tendency within certain political parties in the Netherlands to end (part of) the favourable tax treatment of mortgage debts or to introduce other changes to the tax treatment of such residences or the funding thereof that may affect the value of the tax deduction of mortgage interest payments (hereinafter: '*changes in tax treatment*'). It is not clear whether such changes in tax treatment will be effected in the future. Changes in tax treatment could ultimately have an adverse impact on the ability of Borrowers to pay interest and principal on their Mortgage Loans. In addition, changes in tax treatment may lead to increased (or decreased) prepayments by Borrowers on their Mortgage Loans. Finally, changes in tax treatment may have an adverse effect on the value of the Mortgaged Assets.

EU Council Directive on taxation of savings income

Under the EU Council Directive 2003/48/EC on the taxation of savings income, Member States are required, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. For a transitional period, currently Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories have adopted similar measures. Pursuant to Condition 5(d), the Issuer undertakes that it will ensure that it maintains a paying agent in an EU Member State that will not be obliged to withhold or deduct any tax pursuant to the EU Council Directive 2003/48/EC. It may be possible that such a paying agent does not perform its obligations in this respect under its agreement with the Issuer, which may result in the Issuer not being able to meet its obligation pursuant to the afore-mentioned Condition 5(d), in which case there remains a risk that under certain circumstances the interest payments under the Notes become subject to withholding tax.

The Issuer will not be obliged to gross-up for taxes

As provided for in Condition 7, if any withholding of, or deductions for, or on account of, any present or future taxes, duties or charges of whatever kind is imposed by, or on behalf of, any jurisdiction or any political subdivision of any authority having power to tax, the Issuer or any of the Paying Agents (as applicable) will make the required withholding or deduction of such taxes, duties or charges, as the case may be, and shall not be obliged to pay any additional amount to the Noteholders.

Tax consequences of holding the Notes

Potential investors should consider the tax consequences of investing in the Notes and consult their tax advisor about their own tax situation.

Risk that the Issuer will not exercise its right to redeem the Notes at the Step-up Dates

As a result of the possible switch to a floating rate of interest or an increase in the margin payable on and from the relevant Step-up Date in respect of the floating rate of interest on Notes of a Series and Class, or, as the case may be, a Sub-class, the Issuer may have an incentive to exercise its right to redeem such Notes, on the relevant Step-up Date or on any Note Payment Date thereafter. No guarantee can be given that the Issuer will actually exercise such right. The exercise of such right will, *inter alia*, depend on the ability of the Issuer to have sufficient funds available to redeem the relevant Notes, and, in respect of the Subordinated Notes, on the satisfaction of the Repayment Test. In the Issuer Trust Deed, the Issuer has undertaken vis-à-vis the Security Trustee to use its best efforts to redeem each Note on the Step-Up Date of such Note with the issue of new notes for such purpose. Furthermore, each Asset Purchaser has a best efforts obligation on the Step-Up Date and on each Note Payment Date thereafter to repay a pro rata part of the relevant IC Loan and, for this purpose, to sell and assign Mortgage Receivables.

Notes Clean-up Call Option, Programme Clean-up Call Option, Tax Call Option and Regulatory Call Option

The Issuer has the option to redeem the Notes prematurely, in the following circumstances: (i) subject to and in accordance with Condition 6(e), if the aggregate Principal Amount Outstanding of the Series and Class (or Sub-Class) is less than 10 per cent. of the aggregate Principal Amount Outstanding of such Notes as at the Issue Date of such Notes (the "**Notes Clean-up Call Option**"); (ii) subject to and in accordance with Condition 6(f), if the aggregate

Principal Amount Outstanding of all Mortgage Receivables falls below 10 per cent. of the highest Principal Amount Outstanding of all Mortgage Receivables reached since the Programme Closing Date (the "**Programme Clean-up Call Option**"); (iii) subject to and in accordance with Condition 6(h), for certain tax reasons (the "**Tax Call Option**"); and (iv) subject to and in accordance with Condition 6(i), upon exercise by any of the Sellers of its option to repurchase Mortgage Receivables in certain regulatory events (the "**Regulatory Call Option**"). Should the Notes Clean-up Call Option, the Programme Clean-up Call Option, the Tax Call Option or the Regulatory Call Option be exercised, certain Notes may be redeemed prematurely. Noteholders may not be able to invest the amounts received as a result of the redemption of the Notes on conditions similar to those of the relevant Notes.

Subordinated Notes bear a greater risk of non payment than higher ranking Classes of Notes

To the extent set forth in Condition 9, (a) all Class B Notes, Class C Notes, Class D Notes and Class E Notes are subordinated in right of payment to all Class A Notes, (b) all Class C Notes, Class D Notes and Class E Notes are subordinated in right of payment to all Class A Notes and Class B Notes, (c) all Class D Notes and Class E Notes are subordinated in right of payment to all Class A Notes, Class B Notes and Class C Notes, (d) all Class E Notes are subordinated in right of payment to all Class A Notes, Class B Notes, Class C Notes and Class D Notes, (all Class B Notes, Class C Notes, Class D Notes and Class E Notes together the "**Subordinated Notes**"). With respect to any Class of Notes, such subordination is designed to provide credit enhancement to any Class of Notes with a higher payment priority than such Class of Notes.

If, upon default by the Borrowers and after exercise by the relevant Pool Servicer of all available remedies in respect of the applicable Mortgage Loans, the Asset Purchaser does not receive the full amount due from such Borrowers, and the Issuer as a consequence thereof does not receive the full amount due from such Asset Purchaser under an IC Loan, the relevant Noteholders may receive by way of principal repayment on the Notes of the relevant Series and Class of Notes an amount less than the Principal Amount Outstanding of their Notes and the Issuer may be unable to pay in full interest due on such Notes, to the extent set forth in Condition 9. On any relevant Note Payment Date, any Realised Losses on the Mortgage Loans will be allocated as described in *Credit Structure Asset Purchaser and Credit Structure Issuer* below.

Risk resulting from Repayment Test

If on any Note Payment Date on which a repayment of principal is due on any Subordinated Notes at a time when, if the repayment was made, the Principal Amount Outstanding of the remaining relevant Classes of Subordinated Notes is not sufficient to provide the level of credit enhancement required to support the ratings on the remaining Series and Classes of Notes and the Issuer is unable to issue the relevant additional Subordinated Notes or obtain acceptable alternative forms of credit enhancement, the Issuer will not be entitled to repay on such date such Series and Classes of Notes. See for more detailed description *Repayment Test* below. Consequently, there is a risk that the holders of Subordinated Notes may not receive the principal sum due under such Notes on the due date for redemption.

Risk of redemption of Subordinated Notes with a Principal Shortfall

In accordance with Condition 9(b), a Class B Note, a Class C Note, a Class D Note or a Class E Note may be redeemed with a Class B Principal Shortfall, a Class C Principal Shortfall, a Class D Principal Shortfall or a Class E Principal Shortfall. As a consequence a holder of a Class B Note, a Class C Note, a Class D Note or a Class E Note may not receive the full Principal Amount Outstanding of such Note on the due date for redemption.

Risk that in case of a Trigger Event the repayment of Notes may be accelerated or delayed

Upon the occurrence of a Trigger Event any Soft-bullet Notes will become Pass-through Notes and all Pass-through Notes will be subject to mandatory (partial) redemption on a sequential basis. This may have the result that the repayment of Notes may, depending on the type of Note, be accelerated or delayed.

The Issuer may change the required subordination level

The Issuer may change the percentage of subordination required for each Class of Notes, other than the Class E Notes (see *Issuance of Notes* below), or the method of calculating the required amount of subordination for such Class of Notes, at any time without the consent of any Noteholders if certain conditions are met, including confirmation from each Rating Agency, other than Moody's, that the then-current ratings of any outstanding Notes will not be downgraded below the Minimum Ratings or, if the then current ratings are below the Minimum Ratings, the then

current ratings will not be adversely affected by such change and, in respect of Moody's, Moody's is notified of such change.

Risk that Notes are not repaid upon maturity

The ability of the Issuer to redeem all the Notes of a Series and Class, or Sub-class thereof, on each relevant Step-up Date or, as the case may be, on the relevant Final Maturity Date in full and to pay all amounts due to the Noteholders of a Series or all Series, including after the occurrence of an Event of Default, may depend upon whether the payments under the IC Loans are sufficient to redeem the Notes of a Series and Class, or Sub-class thereof or all Series, which payments will ultimately depend on whether the value of the Mortgage Receivables is sufficient to redeem the Notes.

Risk that changes of law will have an effect on the Notes

The structure of the issue of the relevant Notes and the relevant ratings which are to be assigned to them are based on the laws of the Netherlands (or England and Wales) in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible change to the laws of the Netherlands (or England and Wales) or administrative practice in the Netherlands (or England and Wales) after the date of this Base Prospectus.

Risks related to the limited liquidity of the Notes

The secondary market for mortgage-backed securities is currently experiencing severe disruptions resulting from reduced investor demand for mortgage loans and mortgage-backed securities and increased investor yield requirements for those loans and securities. As a result, the secondary market for mortgage-backed securities is experiencing extremely limited liquidity. The conditions may continue or worsen in the future. Limited liquidity in the secondary market for mortgage-backed securities has had a severe adverse effect on the market value of mortgage-backed securities. Limited liquidity in the secondary market may continue to have a severe adverse effect on the market value of mortgage-backed securities, especially those securities that are more sensitive to prepayment, credit or interest rate risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, an investor in the Notes may not be able to sell its Notes readily. The market values of the Notes are likely to fluctuate and may be difficult to determine. Any of these fluctuations may be significant and could result in significant losses to such investor. In addition, the forced sale into the market of mortgage-backed securities held by structured investment vehicles, hedge funds, issuers of collateralised debt obligations and other similar entities that are currently experiencing funding difficulties could adversely affect an investor's ability to sell, and/or the price an investor receives for, the Notes in the secondary market.

Credit ratings may not reflect all risks

The (future) rating of each of the Notes addresses the assessment made by the Rating Agencies of the likelihood of full and timely payment of interest and ultimate payment of principal on or before the Final Maturity Date of the relevant Notes.

Any decline in the credit ratings of the Notes or changes in rating methodologies may affect the market value of the Notes. Furthermore, the credit ratings may not reflect the potential impact of all rights related to the structure, market, additional factors discussed above or below and other factors that may affect the value of the Notes .

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating organisation if in its judgement, the circumstances (including a reduction in the credit rating of the GIC Providers, the Asset Purchaser Swap Counterparties or any Issuer Currency Swap Counterparty) in the future so require.

Notes held in global form

The Notes will initially be held by either (A) a common safekeeper for Euroclear and Clearstream, Luxembourg, if the Notes are intended to be issued in the NGN form, as stated in the applicable Final Terms, or (B) if the Notes are not intended to be issued in NGN form, with (i) a common depositary on behalf of Euroclear and Clearstream, Luxembourg, (ii) Euroclear Netherlands or (iii) a depositary for another clearing system, in each case in the form of a Global Note which will be exchangeable for Definitive Notes only in the limited circumstances as more fully described in *Form of the Notes* below. For as long as any Notes are represented by a Global Note held by a common safekeeper

or a common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg, payments of principal, interest (if any) and any other amounts on a Global Note will be made through Euroclear and/or Clearstream, Luxembourg (as the case may be) against presentation or surrender (as the case may be) of the relevant Global Note and, in the case of a Temporary Global Note, certification as to non-U.S. beneficial ownership. The holder of the relevant Global Note, being the common safekeeper or common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg shall be treated by the Issuer and any Paying Agents as the sole holder of the relevant Notes represented by such Global Note with respect to the payment of principal, interest (if any) and any other amounts payable in respect of the Notes.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg, or Euroclear Netherlands, as the case may be.

Certain decisions are taken at Programme level which may affect all Notes

Any Programme Resolution must be passed at a single meeting of the holders of all Notes (of a Class) of all Series then outstanding as set out in more detail in Condition 14 (Meetings of Noteholders, Modification; Consent; Waiver) and cannot be decided upon at a meeting of Noteholders of a single Series. A Programme Resolution will be binding on all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Security Trustee may agree to modifications without the Noteholders' prior consent

Pursuant to the terms of the Issuer Trust Deed, the Security Trustee may agree without the consent of the Noteholders and the other Programme Secured Parties, to (i) any modification of any of the provisions of the Issuer Trust Deed, the Notes of any Series or any other Relevant Documents which is of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification, and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Issuer Trust Deed, the Notes of any Series or any other Relevant Documents which is in the opinion of the Security Trustee not materially prejudicial to the interests of the Noteholders and the other Programme Secured Parties, provided that the Rating Agencies are notified of such modification, authorisation or waiver. Any such modification, authorisation or waiver shall be binding on the Noteholders and other Programme Secured Parties.

No consent of the Noteholders is required for new issues

The Issuer may issue Notes from time to time. New Notes may be issued without notice to existing Noteholders and without their consent, and may have different terms from outstanding Notes. For a description of the conditions that must be met before the Issuer can issue new Notes, see *Issuance of Notes*. The issuance of new Notes could adversely affect the timing and amount of payments on outstanding Notes. For example, if Notes of the same Class as existing Notes are issued and have a higher interest rate than the existing Notes, this could result in a reduction in the available funds used to pay interest on the existing Notes. Also, when new Notes are issued, the voting rights of existing Notes will be diluted.

Series of Notes

Notes issued under the Programme will either be fungible with an existing Series or have different terms to an existing Series (in which case they will constitute a new Series). All Notes of a Class (whether or not from the same Series or another Series) issued from time to time will rank *pari passu* with each other in all respects and will share equally in the security granted to the Security Trustee in order of subordination of the Class. If a Trigger Event occurs or an Enforcement Notice is served and results in acceleration, all Notes of all Series will accelerate at the same time.

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for investors. Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments but as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. Investors should not invest in Notes which are complex financial instruments unless they have the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the investor's overall investment portfolio.

Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Dealers, the Managers, Asset Purchasers or the Sellers makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the relevant Issue Date or at any time in the future.

In particular, in Europe, investors should be aware of Article 122a of the Capital Requirements Directive, as implemented in the Netherlands by the Dutch Regulation Securitisations of 26 October 2010 (*'Regeling securitisaties Wft 2010'*) which applies in general to new securitisations issued on or after 1 January 2011 and, after 31 December 2014, to existing securitisations where new underlying exposures are added or substituted after 31 December 2014. Article 122a restricts an EU regulated credit institution from investing in asset-backed securities unless the originator, sponsor or original lender in respect of the relevant securitisation has explicitly disclosed to the EU regulated credit institution that it will retain, on an ongoing basis, a net economic interest of not less than 5% in respect of certain specified credit risk tranches or asset exposures as contemplated by Article 122a. Article 122a also requires an EU regulated credit institution to be able to demonstrate that it has undertaken certain due diligence in respect of, amongst other things, its note position and the underlying exposures and that procedures are established for such activities to be conducted on an on-going basis. Failure to comply with one or more of the requirements set out in Article 122a will result in the imposition of a penal capital charge on the notes acquired by the relevant investor. Prospective noteholders should therefore make themselves aware of the requirements of Article 122a, where applicable to them, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes.

There remains considerable uncertainty with respect to Article 122a and it is not clear what will be required to demonstrate compliance to national regulators. Investors who are uncertain as to the requirements that will need to be complied with in order to avoid the additional regulatory charges for non compliance with Article 122a should seek guidance from their regulator. Similar requirements to those set out in Article 122a are expected to be implemented for other EU regulated investors (such as investment firms, insurance and reinsurance undertakings and certain hedge fund managers) in the future.

Article 122a of the Capital Requirements Directive and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

Proposed Changes to the Basel Capital Accord

On 26 June 2004, the Basel Committee on Banking Supervision published the text of the new capital accord under the title "Basel II: International Convergence of Capital Measurement and Capital Standards: a Revised Framework" ("**Basel II**"). Basel II, which places enhanced emphasis on market discipline and sensitivity to risk, serves as a basis for national and supra-national rulemaking and approval processes for banking organisations. Basel II has been put into effect for credit institutions in Europe via the recasting of a number of prior directives in a consolidating directive referred to as the Capital Requirements Directive. In October 2008, the European Commission adopted proposals to amend the Capital Requirements Directive in light of the financial crisis, which are expected to be implemented in 2010. Recently, the Basel Committee on Banking Supervision proposed new rules amending the existing Basel II Accord on bank capital requirements ("**Basel III**"). It is uncertain when these new rules will be implemented. Basel II, as published, and Basel III even to a greater extent, will affect risk-weighting of the Notes for investors subject to the new framework following its implementation (whether via the Capital Requirements Directive or otherwise by non-EU regulators if not amended from its current form when or if implemented by non-EU regulators). Consequently, potential investors should consult their own advisers as to the consequences to and effect on them of the application of Basel II, as implemented by their own regulator, to their holding of any Notes. The Issuer and the Security Trustee are not

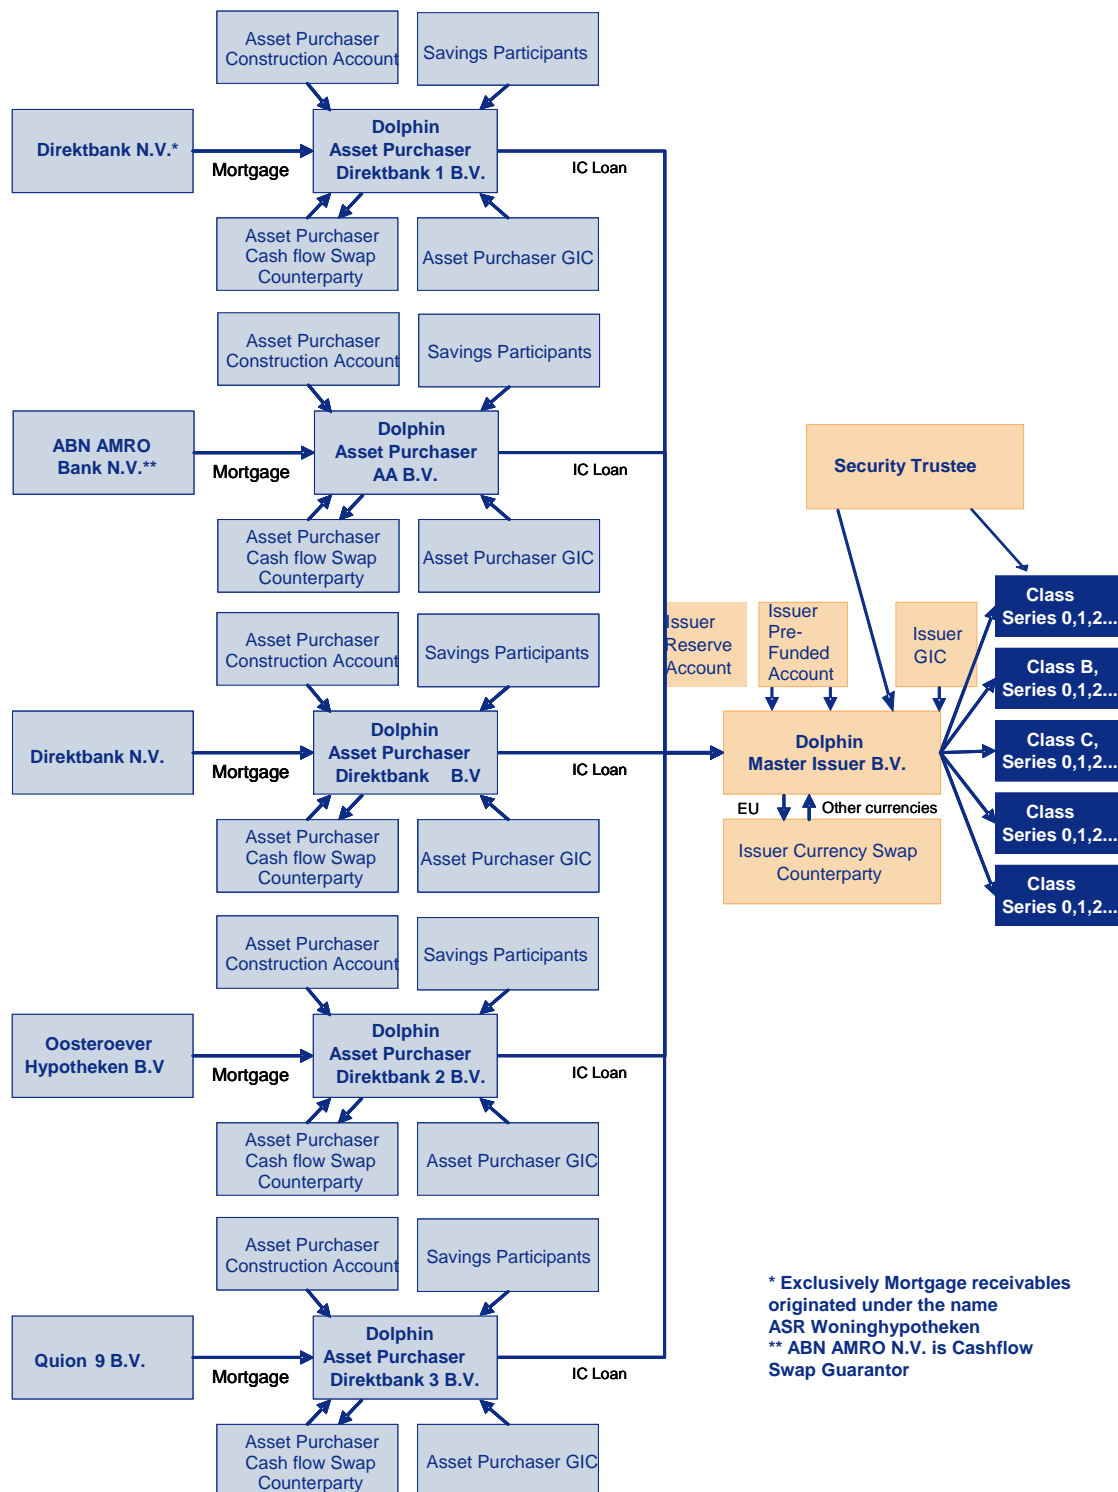

responsible for informing Noteholders of the effects on the changes to risk-weighting which amongst others may result for investors from the adoption by their own regulator of Basel II (whether or not implemented by them in its current form or otherwise).

Notes may not be recognized as eligible Eurosystem collateral

If it is specified in the applicable Final Terms that the Notes are intended to be held in a manner which will allow Eurosystem eligibility, this means that such Notes are intended upon issue to be deposited with one of the ICSDs as Common Safekeeper. This does not necessarily mean that such Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

PRINCIPAL FEATURES IN RESPECT OF AN ASSET PURCHASER

The following is an overview of the principal features of the Asset Purchasers. Any new Asset Purchaser will have substantially the same features as described below. If a new Asset Purchaser accedes to the Programme, a supplemental prospectus will be prepared which sets out the features of such new Asset Purchaser to the extent these features are different from the features as described below.

PURCHASE OF MORTGAGE RECEIVABLES:

Purchase of New Mortgage Receivables:

Under the relevant Asset Purchaser Mortgage Receivables Purchase Agreement, the relevant Seller may on each Mortgage Payment Date and Monthly Payment Date (each a '**Mortgage Purchase Date**') sell and assign and the relevant Asset Purchaser will purchase up to the Asset Purchaser Purchase Available Amount, any and all rights against a Borrower under New Mortgage Loans ('**New Mortgage Receivables**') and all claims which the Seller has or will have as beneficiary vis-à-vis an Insurance Company in respect of the relevant Insurance Policy under which the relevant Seller has been appointed as first beneficiary ("*begunstigde*") in connection with a Mortgage Receivable (the '**Beneficiary Rights**'), subject to the

fulfilment of certain conditions. '**New Mortgage Loans**' are loans entered into by the relevant Seller and the relevant Borrowers set out in the relevant Deed of Sale, Assignment and Pledge. See *Asset Purchaser Mortgage Receivables Purchase Agreement* below.

Purchase of Further Advance Receivables:

The relevant Asset Purchaser Mortgage Receivables Purchase Agreement will provide that on each Mortgage Purchase Date the relevant Seller will sell and the relevant Asset Purchaser will purchase Further Advance Receivables resulting from Further Advances granted by such Seller in the preceding Mortgage Collection Period and the Beneficiary Rights relating thereto, subject to the fulfilment of certain conditions.

Repurchase of Mortgage Receivables:

Under the relevant Asset Purchaser Mortgage Receivables Purchase Agreement, the relevant Seller will be obliged to repurchase and accept re-assignment of the Relevant Mortgage Receivable:

- (i) if any of the representations and warranties given by the relevant Seller in respect of such Relevant Mortgage Receivable or the Relevant Mortgage Loan on its Mortgage Purchase Date is untrue or incorrect in any material respect, on the Mortgage Payment Date on or immediately following the day on which the relevant remedy period ends, or on the Monthly Payment Date following such Mortgage Payment Date;
- (ii) if the relevant Seller agrees with a Borrower to amend the terms of the Relevant Mortgage Loan as a result of which such Mortgage Loan no longer meets certain criteria set forth in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement, on the Mortgage Payment Date on or immediately following the day on which such agreement is made, or on the Monthly Payment Date following such Mortgage Payment Date;
- (iii) if in a Mortgage Collection Period the relevant Seller agrees with a Borrower to grant a new mortgage loan or a further advance (which is offered as mortgage loan and complies with the description of one of the mortgage loans described herein), whether or not under the Mortgage Loan (including any increase which if purchased will result in an increase in the Outstanding Principal Amount under a Revolving Credit Mortgage Loan) which is only secured by the mortgage right which also secures the Mortgage Receivable (a '**Further Advance**') and any and all claims of the Seller on the relevant Borrower in connection with the relevant Further Advance (the relevant '**Further Advance Receivable**') and such Further Advance

Receivable is not purchased by the relevant Asset Purchaser on or before the Monthly Payment Date immediately succeeding such Mortgage Collection Period, on such Monthly Payment Date;

- (iv) if, (i) in the case of an Investment Mortgage Loan sold by Direktbank N.V. or its legal predecessor Fortis Hypotheek Bank N.V., the relevant Seller agrees to comply with a request from the Borrower to switch the premia accumulated in the relevant Savings Insurance Policy with any of the Savings Participants into another eligible investment under the Mortgage Loan and (ii) in respect of a Hybrid Savings Mortgage Loan, a switch of the premia accumulated in the relevant savings part of the Insurance Policy into another eligible investment under the Mortgage Loan (items (i) and (ii) each a '**Policy Switch**') and the Participation by the relevant Savings Participant in the Mortgage Loan has not terminated on the Mortgage Payment Date immediately following the date on which the relevant Seller has agreed to such Policy Switch, on the Mortgage Payment Date following such Policy Switch or on the Monthly Payment Date following such Mortgage Payment Date; and
- (v) in respect of a Mortgage Receivable relating to a Mortgage Loan originated by Quion 9 B.V. only, if (i) the Borrower decides to accept the interest rate offered by another lender and such lender prefers to take over the existing Relevant Mortgage Loan rather than granting a new mortgage loan to such Borrower, on the Mortgage Payment Date following such interest rate reset date of such Mortgage Loan, (ii) the relevant Seller refuses to amend the terms of the Relevant Mortgage Loan upon the request of a Borrower and another lender prefers to take over the existing Relevant Mortgage Loan rather than granting a new mortgage loan to such Borrower, on the Mortgage Payment Date immediately following such refusal and (iii) in a Mortgage Collection Period a further advance under the Relevant Mortgage Loan is granted by another lender, on the Mortgage Payment Date immediately following such Mortgage Collection Period.

The purchase price in case of a repurchase by the relevant Seller of Relevant Mortgage Receivables in any of the events described above, will be equal to the '**Outstanding Principal Amount**' (which means with respect to a Mortgage Receivable (a) on any date the (then remaining) aggregate principal sum ("*hoofdsom*")

due by the relevant Borrower under the relevant Mortgage Receivable and (b) after the occurrence of a Realised Loss in respect of such Mortgage Receivable, zero) of the Relevant Mortgage Receivable together with interest and reasonable costs relating thereto (including any costs incurred by the relevant Asset Purchaser in effecting and completing such purchase and assignment) accrued up to but excluding the date of purchase and assignment of the Relevant Mortgage Receivable. However, in the event of a repurchase as a result of the occurrence of a Mortgage Loan Amendment, the purchase price shall be equal to the Outstanding Principal Amount of the Relevant Mortgage Receivable, as described above, except that with respect to Mortgage Receivables which are in arrears for a period exceeding ninety (90) days or in respect of which an instruction has been given to the civil-law notary to start foreclosure proceedings, the purchase price shall be at least the lesser of (i) an amount equal to the foreclosure value of the Mortgaged Assets or, if no valuation report of less than twelve (12) months old is available, the indexed foreclosure value thereof and (ii) the sum of the Outstanding Principal Amount together with accrued interest due but not paid, if any, and any other amounts due under the Mortgage Receivable.

Mortgage Loans:

The rights of the Sellers against certain borrowers (the '**Borrowers**'), which will be sold by the relevant Seller pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement (the '**Mortgage Receivables**') will relate to the Mortgage Loans. The '**Mortgage Loans**' shall, after any purchase and assignment of New Mortgage Receivables and Further Advance Receivables having taken place, be the loans entered into by the relevant Seller and the relevant Borrowers set out in the relevant Deed of Sale, Assignment and Pledge. The Mortgage Loans should be secured by a mortgage right over (i) a real property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) a ground lease ("*erfpacht*"), together with real property and apartment rights, the '**Mortgaged Assets**', situated in the Netherlands and should meet the eligibility criteria set out in a schedule to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement (the '**Eligibility Criteria**') and the other criteria set forth in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement.

The Mortgage Loans consist of several different types: (i) Annuity Mortgage Loans ("*annuïteiten hypotheek*"), (ii) Linear Mortgage Loans ("*lineaire hypotheek*"), (iii) Interest-only Mortgage Loans ("*aflossingsvrije hypotheek*"), (iv) Investment Mortgage Loans ("*beleggingshypotheek*"), (v) Savings Mortgage Loans

("spaarhypotheeken"), (vi) Revolving Credit Mortgage Loans ("krediet in rekening-courant"), (vii) Life Mortgage Loans ("levenhypotheeken") with either a Traditional Life Insurance Policy or a Unit-Linked Life Insurance Policy connected to it, or in the form of Hybrid Mortgage Loans ("hybride hypotheeken") and (viii) combinations of any of these types of Mortgage Loans with a variety of characteristics. See *Description of Mortgage Loans* below for a more detailed description of the Mortgage Receivables sold by each Seller to the relevant Asset Purchaser.

The Mortgage Loans may consist of one or more loan-parts ("leningdelen"). If a Mortgage Loan consists of one or more loan parts, the relevant Seller shall sell and assign and the relevant Asset Purchaser shall purchase and accept the assignment of all, but not some, loan parts of such Mortgage Loan at the relevant Mortgage Purchase Date.

The Mortgage Loans have characteristics that demonstrate the capacity to produce funds to service payments under the Notes.

IC LOANS

IC Loan Agreement:

On 25 September 2007 (the '**Programme Closing Date**') the Issuer has entered into, and on each date a new Asset Purchaser will accede to, the Programme (each an '**Asset Purchaser Accession Date**') the Issuer will enter into a loan agreement (each an '**IC Loan Agreement**') with the relevant Asset Purchaser. Under each IC Loan Agreement, the Asset Purchaser may borrow monies (each advance an '**IC Loan**') on any date on which a request for a drawing under a IC Loan is made (each a '**Utilisation Date**') and the Issuer shall be obliged to grant IC Loans on such date subject to certain conditions being met. An Asset Purchaser will use the net proceeds from the IC Loan, together with the Initial Participation (as defined in *Asset Purchaser Sub-participation Agreements* below) (if any), to pay to the relevant Seller the Initial Purchase Price for the purchase of New Mortgage Receivables pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement from time to time.

Interest on the IC Loans:

Interest will accrue on each IC Loan for a certain period (each an '**IC Interest Period**'). Each IC Interest Period starts on, and includes, a Monthly Payment Date and ends on, but excludes, the next succeeding Monthly Payment Date (unless an IC Loan is repaid prior to such date, in which case the date of repayment applies), provided that the first IC Interest Period for an IC Loan

will be the period commencing on (and including) the Utilisation Date on which the IC Loan was granted to the relevant Asset Purchaser and ending on (and excluding) the immediately following Monthly Payment Date (unless an IC Loan is repaid prior to such date, in which case the date of repayment applies).

The interest payable on an IC Loan in respect of an IC Interest Period will be paid to the Issuer on the immediately following Note Payment Date.

The interest payable on all IC Loans by all Asset Purchasers on a Note Payment Date (the '**Aggregate IC Loan Interest**') will be equal to (a) the amounts due by the Issuer on this Note Payment Date under items (e) to (m) (inclusive), but excluding items (f), (j), (h) and (l), of the Issuer Interest Priority of Payments and, furthermore, excluding any interest accrued due but unpaid on the Notes, but including interest accrued in the relevant Floating Rate Interest Period on such accrued due but unpaid interest on the Notes, (b) less any interest actually received on the Issuer Accounts in the Note Collection Period immediately preceding such Note Payment Date and (c) less any interest actually received by the Issuer on all Subordinated Loans on such Note Payment Date.

On each Note Payment Date, each Asset Purchaser will pay to the Issuer a pro-rata share of the Aggregate IC Loan Interest. See *IC Loan Agreements*.

The '**Principal Outstanding Amount**' on any date of any IC Loan shall be the principal amount outstanding on the date such IC Loan was granted to the relevant Asset Purchaser less the aggregate amount of all principal paid to the Issuer up to such date in respect of such IC Loan.

IC Loan Costs:

Each Asset Purchaser shall pay on each Note Payment Date a *pro rata* part of certain costs of the Issuer. The '**Aggregate IC Loan Costs**' due by all Asset Purchasers shall mean on a Note Payment Date the amounts due by the Issuer on that Note Payment Date under items (a) to (d) (inclusive) of the Issuer Interest Priority of Payments. On each Note Payment Date, each Asset Purchaser will pay to the Issuer a pro-rata share of the Aggregate IC Loan Costs (the '**IC Loan Costs**'). See *IC Loan Agreements*.

Repayment of Principal:

On each Note Payment Date each Asset Purchaser is obliged to pay all principal receipts received by it on the relevant Mortgage Receivables to the Issuer as repayment of principal under the IC Loans up to the Asset Purchaser Pass-through Payable Amount

calculated in respect of the preceding Note Collection Period. Furthermore, each Asset Purchaser will undertake its best efforts to repay such amounts as are required by the Issuer to redeem one or more Series and Class or Sub-class of Notes on a Note Payment Date, multiplied by the relevant IC Loan Quarterly Fraction or any other allocation among the Asset Purchasers as agreed between the Issuer and each Asset Purchaser, in certain events, including the exercise by the Issuer of its call option on a Step-up Date relating to a Series and Class or Sub-class of Notes.

Subordinated Loan:

On each Note Payment Date on which the amounts credited to the Reserved Ledger of the Reserve Account exceed the lower of (i) the Class D Required Subordinated Amount and (ii) the Principal Amount Outstanding of all Class E Notes, the Issuer will advance the Subordinated Loan Minimum Amount to the Asset Purchasers as Subordinated Loan. The amount will be advanced on a pro rata basis to all Asset Purchasers by reference to the amounts recorded on the IC Loan Principal Deficiency Ledgers on such Note Payment Date. Each Asset Purchaser has an obligation to accept such Subordinated Loan. Each Subordinated Loan will be credited to the relevant IC Loan Principal Deficiency Ledger and will form part of the Asset Purchaser Principal Available Amount on such date.

CASH FLOW STRUCTURE ASSET PURCHASER:

Asset Purchaser GIC:

The relevant Asset Purchaser and the relevant Asset Purchaser GIC Provider will enter into a guaranteed investment contract (each an '**Asset Purchaser GIC**') on the Programme Closing Date or the relevant Asset Purchaser Accession Date, whereunder the relevant Asset Purchaser GIC Provider will pay an agreed interest rate on the balance standing from time to time to the credit of the relevant Asset Purchaser Accounts.

Asset Purchaser Collection Account:

The relevant Asset Purchaser shall maintain with the relevant Asset Purchaser GIC Provider an account (each an '**Asset Purchaser Collection Account**', and together with the relevant Asset Purchaser Construction Account as defined below, the '**Asset Purchaser Accounts**') to which all amounts of interest and principal received under the Mortgage Receivables will be transferred by, *inter alia*, the relevant Pool Servicer in accordance with the relevant Asset Purchaser Servicing Agreement.

Asset Purchaser Construction Account:

Each Asset Purchaser shall also maintain with the Asset

Purchaser GIC Provider an account (each an '**Asset Purchaser Construction Account**'), to which on each relevant Mortgage Purchase Date an amount corresponding to the relevant aggregate Construction Amounts will be credited. The relevant Asset Purchaser Construction Account will be debited (i) for payments for the benefit of the relevant Seller upon Construction Amounts being paid out to or on behalf of the Borrowers; and (ii) in case the relevant Asset Purchaser has no obligation to pay any further part of the Initial Purchase Price, the Asset Purchaser Construction Account may be debited and the relevant Asset Purchaser Collection Account will be credited accordingly. For this purpose the '**Construction Amount**' means such part of a Mortgage Loan that at the request of the relevant Borrower is withheld by the relevant Seller on deposit to be paid out for the building or improvements of the mortgaged property.

Asset Purchaser Cashflow Swap Agreement:

Each Asset Purchaser will enter into a cashflow swap agreement, a schedule thereto and a cashflow swap confirmation with the relevant Asset Purchaser Cashflow Swap Counterparty (in respect of each Borrower an '**Asset Purchaser Cashflow Swap Agreement**') to hedge the risk between the rates of interest scheduled to be received by the Asset Purchaser on the relevant Mortgage Receivables and received on the Asset Purchaser Accounts and the rates of interest payable by the Asset Purchaser on the IC Loans.

Asset Purchaser Servicing Agreement:

Under the terms of an Asset Purchaser Servicing Agreement to be entered into on the Programme Closing Date or the relevant Asset Purchaser Accession Date (the '**Asset Purchaser Servicing Agreement**') between the relevant Asset Purchaser, the Asset Purchaser Administrator, the relevant Pool Servicer and the Security Trustee, (i) the relevant Pool Servicer will agree to provide administration and management services in relation to the Mortgage Loans on a day-to-day basis, including, without limitation, the collection of payments of principal, interest and all other amounts in respect of the Mortgage Loans and the implementation of arrears procedures including, if applicable, the enforcement of mortgages (see *Mortgage Loan Underwriting and Servicing* below) and (ii) the Asset Purchaser Administrator will agree to provide certain administration, calculation and cash management services for the relevant Asset Purchaser on a day-to-day basis, including without limitation, all calculations to be made in respect of the IC Loans.

Oosteroever Hypotheken B.V. as Pool Servicer will subcontract Quion Hypotheekbegeleiding B.V. and Quion Services B.V. and Quion 9 as Pool Servicer will

appoint Quion Hypotheekbemiddeling B.V. to provide certain services in respect of the Relevant Mortgage Loans, under the terms of an Asset Purchaser Sub-servicing Agreement in relation to each such Pool Servicer, to be entered into on the relevant Asset Purchaser Accession Date between the relevant Asset Purchaser, the relevant Pool Servicer, Quion Hypotheekbegeleiding B.V. and Quion Services or Quion Hypotheekbemiddeling, as the case may be, and the Security Trustee.

Asset Purchaser Sub-participation Agreement:

On the Programme Closing Date or the relevant Asset Purchaser Accession Date, the relevant Asset Purchaser will enter into an Asset Purchaser Sub-participation Agreement with the relevant Savings Participants (each an '**Asset Purchaser Sub-participation Agreement**') under which each of the relevant Savings Participants will acquire participations in the Mortgage Receivables related to the Savings Mortgage Loans ('**Savings Mortgage Receivables**', which will include any Mortgage Receivables related to Investment Savings Mortgage Loans) and Hybrid Savings Mortgage Loans. In the relevant Asset Purchaser Sub-participation Agreement the relevant Savings Participant will undertake to pay to the relevant Asset Purchaser all amounts received as Savings Premium on the Savings Insurance Policies and Hybrid Savings Insurance Policies. In return, the Savings Participant is entitled to receive the relevant Participation Redemption Available Amount from the relevant Asset Purchaser. The amount of the Participation with respect to a Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable consists of (a) the Initial Participation at the relevant Mortgage Purchase Date (b) increased on a monthly basis with the sum of (i) the Savings Premium due to the Savings Participants and received by the relevant Asset Purchaser and (ii) a *pro rata* part, corresponding to the Participation in the relevant Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable, of the interest received by the relevant Asset Purchaser in respect of such Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable. See *Asset Purchaser Sub-participation Agreement* below.

A '**Business Day**' means a day on which banks are open for business in Amsterdam, London, Brussels and Luxembourg provided that such day is also a day on which the Trans-European Automated Real-Time Gross Settlement European Transfer payment system which utilises a single shared platform and which was launched on 19 November 2007 ('**TARGET System**') or any successor thereto is operating credit or transfer instructions in respect of payments in euro and in the case such is specified in the Applicable Final Terms in respect of such Notes means also a day on which (i) US Dollar deposits may be dealt in on the London interbank market and foreign banks are open for general business in London and (ii) banks are open for general business in New York City.

Unless otherwise provided in the applicable Final Terms, Notes with a floating rate of interest ('**Floating Rate Notes**') denominated in euros will bear interest at an annual rate equal to the sum of Euribor for three-months deposits in euro, plus a margin as specified in the

Soft-bullet Notes:

A soft-bullet Note (a '**Soft-bullet Note**') will not be redeemable up to the relevant Step-up Date specified in the applicable Final Terms, except in certain circumstances as described in the Conditions and the applicable Final Terms. On the relevant Step-up Date and on each Note Payment Date thereafter, the Issuer has the option to redeem the relevant Series and Class of Notes or Sub-class thereof, subject to the Repayment Test. Following the Step-up Date in relation to a Series and Class of Notes or Sub-class thereof, all Soft-bullet Notes of such Series and Class or Sub-class thereof, will switch to Pass-through Notes and will be subject to mandatory (partial) redemption. In the case of a Trigger Event, all Soft-bullet Notes will switch to Pass-through Notes and will be subject to mandatory (partial) redemption on a sequential basis.

Redemption of Class E Notes

The Class E Notes will always have a Step-up Date. On the Step-up Date and on each Note Payment Date thereafter, the Issuer has the right to redeem the Class E

Notes of the relevant Series and Class of Notes or Sub-class thereof, subject to the Repayment Test.

Notes Clean-up Call Option:

Subject to the Repayment Test, the Issuer will have the option to redeem all of the Notes, but not some only, (other than the Class E Notes) of a Series and Class, or, if applicable, Sub-class at their aggregate Principal Amount Outstanding (subject to and in accordance with Condition 6(e) and 9(b)), on each Note Payment Date on which the aggregate Principal Amount Outstanding of such Notes is less than 10 per cent. of the aggregate Principal Amount Outstanding of such Notes as at the Issue Date of such Notes (each a '**Notes Clean-up Call Option**').

Programme Clean-up Call Option:

The Issuer will have the option to redeem all of the Notes, but not some only, at their aggregate Principal Amount Outstanding (subject to and in accordance with Condition 6(f) and 9(b)), if the percentage of the Principal Amount Outstanding of all Mortgage Receivables falls below 10 per cent. of the highest Principal Amount Outstanding of all Mortgage Receivables at any time since the Programme Closing Date (the '**Programme Clean-up Call Option**').

Regulatory Call Option:

On the 28th day of each month (or if such day is not a Business Day, the next succeeding Business Day, unless such Business Day falls in the next succeeding calendar month in which event the Business Day immediately preceding such day) (each a '**Monthly Payment Date**') each Seller has the option to repurchase the Relevant Mortgage Receivables upon the occurrence of a Regulatory Change relating to such Seller (the '**Regulatory Call Option**').

Each Asset Purchaser shall undertake in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement to sell and assign the Relevant Mortgage Receivables to the relevant Seller, or any third party appointed by the relevant Seller at its sole discretion, in case the relevant Seller exercises the Regulatory Call Option. The purchase price will be calculated as described in *Sale of Mortgage Receivables* in *Credit Structure Asset Purchaser* below. If any of the Sellers exercises the Regulatory Call Option, then the Asset Purchasers have the option to repay the relevant IC Loans by applying the proceeds of the sale of the Mortgage Receivables and the Issuer has the option to redeem (part of) the Notes by applying the repayments of IC Loans towards redemption of the Notes subject to and in accordance with Condition 6(i) and 9(b).

Redemption for tax reasons:

If the Issuer is or will be obliged to make any withholding

or deduction for, or on account of, any taxes, duties or charges of whatsoever nature from payments in respect of any Class of Notes as a result of any change in, or amendment to, the laws or regulations of the Netherlands (including any guidelines issued by the tax authorities) or any other jurisdiction or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which becomes effective on or after the relevant Issue Date and such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Issuer has the option to redeem the Notes, in whole but not in part, on any Note Payment Date at their Principal Amount Outstanding, together with interest accrued up to and including the date of redemption. No Series and Class of Notes may be redeemed under such circumstances unless all Series Classes of Notes (or such of them as are then outstanding) are also redeemed in full at the same time, subject to and in accordance with Condition 6(h) and 9 (b).

Purchase of Notes:

The Issuer may purchase Notes that are offered to it on any date, prior to (i) the occurrence of a Trigger Event which is continuing or (ii) the delivery of any Enforcement Notice and provided that the Issuer has sufficient funds available for such purpose in accordance with the Issuer Trust Deed. In the case of purchase of Class B Notes, Class C Notes, Class D Notes and Class E Notes the Repayment Test will apply *mutatis mutandis*. Any Class A Notes may, at the option of the Issuer be held, re-issued or resold at their Principal Amount Outstanding together with accrued interest thereon subject to and in accordance with the Conditions, or may be surrendered to any of the Paying Agents for cancellation in accordance with the Paying Agency Agreement. Any Class B Notes, Class C Notes, Class D Notes or Class E Notes so purchased should be surrendered to any of the Paying Agents for cancellation in accordance with the Paying Agency Agreement.

Method of Payment:

For as long as the Notes are represented by a Global Note, payments of principal and interest will be made (i) by giro transfer in the relevant currency to Euroclear Netherlands or (ii) as the case may be, in the relevant currency to the Principal Paying Agent for the credit of the respective accounts of the Noteholders through Euroclear and Clearstream, Luxembourg or (iii) as the case may be, in accordance with the rules of another agreed clearing system.

Use of proceeds:

The Issuer will use the net proceeds from the issue of

the Notes, other than the Class E Notes, to provide one or more Asset Purchasers with an IC Loan, to redeem other Notes or to credit to the Issuer Pre-Funded Account. An Asset Purchaser will use the net proceeds from each IC Loan to pay to the relevant Seller (part of) the Initial Purchase Price for the purchase of Mortgage Receivables pursuant to the relevant mortgage receivables purchase agreement between the relevant Asset Purchaser, the relevant Seller and the Security Trustee (each a '**Asset Purchaser Mortgage Receivables Purchase Agreement**') from time to time. The Issuer will credit the net proceeds from the Class E Notes to the Unreserved Ledger of the Reserve Account.

Security for the Notes:

The Notes will be secured (i) by a first ranking right of pledge to the Security Trustee by each Asset Purchaser over the Mortgage Receivables and the Beneficiary Rights relating thereto, (ii) by a first ranking right of pledge to the Security Trustee by each Asset Purchaser over the relevant Asset Purchaser's rights under or in connection with the Programme Agreement, the relevant Asset Purchaser Servicing Agreement, the relevant Asset Purchaser Trust Agreement, the relevant Asset Purchaser GIC, the relevant Asset Purchaser Sub-participation Agreement, the relevant Asset Purchaser Accounts, and the relevant Asset Purchaser Cashflow Swap Agreement (the '**Asset Purchaser Rights**') and (iii) by a first ranking right of pledge to the Security Trustee by the Issuer over the Issuer's rights under or in connection with the IC Loan Agreements, the Issuer Administration Agreement, the Issuer GIC, in respect of the Issuer Accounts, and, if applicable, the Issuer Currency Swap Agreement (the '**Issuer Rights**').

The amount payable to the Noteholders and to the Programme Secured Parties will be limited to the amounts available for such purpose to the Security Trustee which, *inter alia*, will consist of amounts recovered by the Security Trustee on the Mortgage Receivables, the balance standing to the credit of the Transaction Accounts and other amounts received by the Security Trustee as creditor under the Issuer Parallel Debt and the Asset Purchaser Parallel Debt. Payments to the Programme Secured Parties will be made in accordance with the Priority of Payments upon Enforcement if an Enforcement Notice has been issued.

All Notes issued under the Programme are secured by the entire pool of Mortgage Receivables held by all Asset Purchasers. If new Notes will be issued such Notes will also be secured by the same pool of Mortgage Receivables.

Regulatory Matters:

Each issue of Notes in respect of which particular laws,

guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements from time to time. See *Subscription and Sale* below.

The AFM may be requested to provide other competent authorities in the European Economic Area with a certificate of approval so that application may be made for Notes issued under the Programme to be admitted to trading on other regulated markets. The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further listing authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

Retention and disclosure requirements under the Capital Requirements Directive:

(i) in its capacity as Seller, and (ii) with respect to Direktbank N.V., Oosteroever Hypotheken B.V. and Quion 9 B.V., in its capacity as allowed entity under paragraph 2 of article 122a of Directives 2006/48/EC and 2006/49/EC, as amended by Directive 2009/111/EC, as the same may be amended from time to time (the "**Capital Requirements Directive**"), shall, or undertakes that any entity designated by ABN AMRO Bank N.V. as allowed entity under paragraph 2 of article 122a of the Capital Requirements Directive shall, retain, on an ongoing basis, a material net economic interest which, in any event, shall not be less than 5%. At the date of this Base Prospectus such interest is retained in accordance with item (a) of article 122a paragraph 1 of the Capital Requirements Directive, by holding at least 5% of the Notes of each tranche (i.e. Class) issued under the Programme. In addition, each Seller shall (i) adhere to the requirements set out in paragraph 6 of article 122a of the Capital Requirements Directive and (ii) make appropriate disclosures to Noteholders about the retained net economic interest in the Programme and ensure that the Noteholders have readily available access to all materially relevant data as required under paragraph 7 of article 122a of the Capital Requirements Directive.

In each Notes Purchase Agreement, each Seller shall undertake to the relevant Managers and the Issuer that it shall at all times comply with Dutch Regulation Securitisations of 26 October 2010 (*'Regeling securitisaties Wft 2010'*) implementing *inter alia* article 122a of the Capital Requirements Directive.

The Sellers accept responsibility for the information set out in this paragraph.

All payments of, or in respect of, principal of and interest on the Notes will be made without withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or charges are required by law. In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not pay any additional amounts to such Noteholders. In particular, but without limitation, no additional amounts shall be payable in respect of any Note or Coupon presented for payment, where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to the European Union Directive on the taxation of savings that was adopted on 3 June 2003 or any law implementing or complying with, or introduced in order to conform to, such Directive.

CASH FLOW STRUCTURE ISSUER:

Issuer GIC:

The Issuer and the Issuer GIC Provider will enter into a guaranteed investment contract (the '**Issuer GIC**') on the Programme Closing Date, whereunder the Issuer GIC Provider will agree to pay an agreed interest rate on the balance standing from time to time to the credit of the Issuer Accounts.

Issuer Collection Account:

The Issuer shall maintain with the Issuer GIC Provider an account (the '**Issuer Collection Account**', and together with the Issuer Reserve Account and the Issuer Pre-Funded Account, the '**Issuer Accounts**') to which all amounts of interest, costs and principal received under the IC Loans will be transferred by the Asset Purchasers.

Issuer Reserve Account:

The Issuer will open an account (the '**Issuer Reserve Account**') held with the Issuer GIC Provider to deposit amounts from time to time which are available to cover any shortfall in certain senior expenses and in interest on the Notes and to reserve amounts in the event of a shortfall recorded on any of the Issuer Principal Deficiency Ledgers. The Issuer Reserve Account will comprise two sub ledgers, an unreserved ledger (the '**Unreserved Ledger**') and a reserved ledger (the '**Reserved Ledger**').

Amounts credited to the Unreserved Ledger will be available to meet items (a) to (m) inclusive of the Issuer Interest Priority of Payments. Amounts applied towards items (f), (h), (j) and (l) of the Issuer Interest Priority of Payments will be credited to the Reserved Ledger. If and to the extent the amount credited to the Reserved Ledger exceeds the aggregate amount of the IC Loan Principal Deficiencies of all Asset Purchasers on a Note Payment Date after application of the Asset Purchaser Interest Priority of Payments, the Reserved Ledger will be debited for an amount corresponding to this excess and, after application of the Issuer Interest Priority of Payments on that Note Payment Date, the amount applied towards item (n) will be transferred to the Unreserved Ledger up to the Unreserved Ledger Required Amount.

The net proceeds of any Class E Notes issued by the Issuer will be credited to the Issuer Reserve Account

Issuer Pre-Funded Account:

With respect to the Issuer Pre-Funded Amount, no conditions are applicable, including conditions with regard to the level of the Issuer Pre-Funded Amount and the period during which it can be held in deposit on the Issuer Pre-Funded Account. This may have the result that the net proceeds of the issue of Notes will not immediately be applied to grant IC Loans or to purchase Notes. The Issuer Pre-Funded Amount will be available to the Issuer (i) to grant IC Loans to Asset Purchasers (ii) to purchase Notes (other than Class E Notes) on any date or (iii) to redeem Notes on their Step-up Date.

Issuer Currency Swap Agreements:

The Issuer may enter into Issuer Currency Swap Agreements with an Issuer Currency Swap Counterparty to hedge certain risks resulting from variations in the exchange rate of the euro vis-à-vis other currencies in which the Notes may be denominated and the interest rate risk on such Notes.

OTHER:**Management Agreements:**

The Issuer, each Asset Purchaser, the Security Trustee and the Holding will on the Programme Closing Date each enter into a management agreement (respectively the '**Issuer Management Agreement**', an '**Asset Purchaser Management Agreement**' the '**Security Trustee Management Agreement**' and the '**Holding Management Agreement**' and together the '**Management Agreements**') with the relevant Director, whereunder the relevant Director will undertake to act as director of the Issuer, the relevant Asset Purchaser, the Security Trustee or the Holding respectively and to perform certain services in connection therewith. New Asset Purchasers will on or prior to the relevant Asset Purchaser Accession Date enter into a management agreement (each an '**Asset Purchaser Management Agreement**') with the Asset Purchaser Director, whereunder the Asset Purchaser Director will undertake to act as director of the relevant Asset Purchaser and to perform certain services in connection therewith.

CREDIT STRUCTURE ASSET PURCHASERS

The structure of the credit arrangements for each Asset Purchaser under the Programme may be summarised as follows. If a new Asset Purchaser accedes to the Programme, a supplemental prospectus will be prepared which sets out the credit structure for such new Asset Purchaser, if different from the structure described below.

Mortgage Loan Interest Rates

The Mortgage Loans bear interest on a floating rate basis or a fixed rate basis, subject to a reset from time to time on dates agreed with the Borrower. Interest rates vary between individual Mortgage Loans. The actual amount of interest received by the relevant Asset Purchaser will vary during the life of the Programme as a result of the level of delinquencies, defaults, repayments and prepayments, purchase of New Mortgage Loans and the reset of interest rates from time to time in respect of the Mortgage Receivables. Similarly, the actual amounts payable under the relevant Asset Purchaser Interest Priority of Payments will vary during the life of the transaction as a result of fluctuations in Euribor and possible variations in certain other costs and expenses of the Asset Purchaser. The eventual effect of such variations in certain other costs and expenses of the Asset Purchaser could lead to non-payment of certain items under the Asset Purchaser Interest Priority of Payments.

Cash Collection Arrangements

All payments made by Borrowers will be paid into the collection account of the relevant Seller which is held with ABN AMRO Bank N.V. (the '**Seller Collection Account Provider**'). Such collection account may also be used for the collection of monies paid in respect of mortgage loans other than the Mortgage Loans and in respect of other monies belonging to the relevant Seller.

On each sixth business day following the fifth calendar day following the last day of a Mortgage Collection Period (each a '**Mortgage Payment Date**') the relevant Seller shall, *inter alia*, transfer (or procure that the relevant Pool Servicer transfers on its behalf) all amounts of interest, including any prepayment penalties and penalty interest ("*boeterente*") and in respect of ABN AMRO Bank N.V. and Direktbank N.V., an amount equal to the interest not paid but administered to the balance of the Revolving Credit Mortgage Loan, if any, and principal, less amounts applied to the purchase of Mortgage Receivables (see *Purchase of Mortgage Receivables on Mortgage Payment Dates* below) received by the relevant Seller in respect of the Mortgage Loans and paid to the relevant Seller's collection account during the immediately preceding Mortgage Collection Period, to the relevant Asset Purchaser Collection Account, except that in respect of amounts received as interest on the first Mortgage Payment Date the relevant Seller shall transfer the quotient of (i) amounts of interest received multiplied by the number of days elapsed from the first Issue Date up to and including the last day of the first Mortgage Collection Period and (ii) the number of days of the first Mortgage Collection Period. The '**Mortgage Collection Period**' means the period commencing on (and including) the first day of each calendar month and ending on (and including) the last day of the same calendar month, except for the first Mortgage Collection Period which has commenced on (and includes) 1 September 2007 and has ended on (and includes) 30 September 2007. The '**Mortgage Calculation Date**' means the day falling three (3) business days prior to a Mortgage Payment Date.

If at any time a Seller Collection Account Provider Rating Downgrade Event occurs, then the relevant Seller will, to maintain the then current ratings assigned to the Notes at least at the Minimum Ratings or, if the then current ratings of the Notes are lower than the Minimum Ratings, to maintain the then current ratings assigned to the Notes, within thirty (30) days of any such event, either: (i) ensure that payments to be made in respect of amounts received on the collection account relating to the relevant Mortgage Receivables will be guaranteed by a party having at least the Seller Collection Account Provider Required Rating; or (ii) (a) open an escrow account in the name of the relevant Asset Purchaser, for its own account, with a party having at least the Seller Collection Account Provider Required Rating, and (b) transfer to the escrow account an amount equal to 2 per cent. of the Outstanding Principal Amount of all Mortgage Loans held by the relevant Asset Purchaser; or (iii) implement any other actions subject to the consent of the Security Trustee and written confirmation from the Rating Agencies, other than Moody's, that such actions would not adversely affect the then current ratings assigned to the Notes and that Moody's has been notified.

Asset Purchaser Accounts

Each Asset Purchaser will maintain with the Asset Purchaser GIC Provider an Asset Purchaser Collection Account to which all amounts received (i) in respect of the Mortgage Loans, (ii) from the Savings Participants under the Asset Purchaser Sub-participation Agreement and (iii) from the other parties to the Relevant Asset Purchaser Documents to which the relevant Asset Purchaser is a party will be paid. The '**Relevant Asset Purchaser Documents**' are the Programme Agreement, the Asset Purchaser Mortgage Receivables Purchase Agreements, the Asset Purchaser Pledge Agreements, the Asset Purchaser GICs, the Asset Purchaser Cashflow Swap Agreements, IC Loan Agreements, the Asset Purchaser Trust Agreement, the Asset Purchaser Beneficiary Waiver Agreements, the Asset Purchaser Sub-participation Agreements, the Asset Purchaser Servicing Agreements, the Issuer Trust Deed, the Holding Management Agreement, the Security Trustee Management Agreement and the Asset Purchaser Management Agreements and, in respect of a specific Asset Purchaser, to the extent it is a party thereto.

The Asset Purchaser Administrator will identify all amounts paid into the relevant Asset Purchaser Collection Account by crediting such amounts to ledgers established for such purpose. Payments received on each Mortgage Payment Date in respect of the Mortgage Loans will be identified as principal or revenue receipts and credited to the Principal Ledger or the Revenue Ledger, as the case may be.

If during any Note Collection Period, the balance remaining on the credit of the Asset Purchaser Collection Account exceeds 1.5 per cent. of the Principal Outstanding Amount of all IC Loans of the relevant Asset Purchaser, the relevant Asset Purchaser may at its option, invest such funds into (A) euro denominated securities, subject to certain conditions, including that such securities may not have a maturity beyond the immediately succeeding Note Payment Date and that such securities have been assigned the Eligible Investment Minimum Ratings or (B) in other securities provided that the Rating Agencies, other than Moody's, have given prior confirmation that such investment will not result in a change to the ratings assigned to the Notes below the Minimum Ratings of the Notes or, if the ratings of the Notes are below the Minimum Ratings of the Notes, will not adversely affect the then current ratings assigned to the Notes and, in respect of Moody's, Moody's is notified of such investments (the '**Asset Purchaser Eligible Investments**').

Payments from the relevant Asset Purchaser Collection Account other than (a) on a Note Payment Date in respect of all items referred to in the Asset Purchaser Interest Priority of Payments and (b) on a Monthly Payment Date in respect of principal, may only be made to satisfy (i) amounts due to third parties (other than pursuant to the Relevant Asset Purchaser Documents) and under obligations incurred in the Asset Purchaser's business, (ii) amounts due to the Insurance Companies under the Asset Purchaser Sub-participation Agreement (iii) investments in Asset Purchaser Eligible Investments or (iv) to grant IC Loans. For the avoidance of doubt, on a Mortgage Payment Date the relevant Asset Purchaser may set-off amounts payable by the relevant Seller with the Initial Purchase Price of Mortgage Receivables or apply the proceeds of a new IC Loan towards payment of the Initial Purchase Price of Mortgage Receivables (see *Purchase of Mortgage Receivables on Mortgage Payment Dates* below).

In addition, the relevant Asset Purchaser will maintain with the Asset Purchaser GIC Provider an Asset Purchaser Construction Account. On each Mortgage Purchase Date an amount corresponding to the aggregate Construction Amounts in respect of the Mortgage Receivables purchased by the relevant Asset Purchaser on such date will be credited to the Asset Purchaser Construction Account of such Asset Purchaser. Payments may be made from the relevant Asset Purchaser Construction Account on a Mortgage Payment Date only to satisfy payment by the relevant Asset Purchaser to the relevant Seller of part of the Initial Purchase Price as a result of the distribution of (part of) the Construction Amount by the relevant Seller to the relevant Borrowers. Besides this, the relevant Asset Purchaser Construction Account will be debited on each Mortgage Payment Date with the amount Borrowers have set off against the relevant Mortgage Receivables in connection with the Construction Amounts and, as a result, in respect of which the relevant Asset Purchaser has no further obligation to pay such part of the Initial Purchase Price. Such amount will be credited to the relevant Asset Purchaser Collection Account and will form part of the Asset Purchaser Principal Available Amount.

If at any time an Asset Purchaser GIC Provider Rating Downgrade Event occurs, then the Asset Purchaser GIC Provider will use its best efforts within thirty (30) days of any such event (i) to obtain a third party, having at least the GIC Provider Required Rating to guarantee the obligations of the Asset Purchaser GIC Provider, or (ii) to find an

alternative Asset Purchaser GIC Provider having at least the GIC Provider Required Rating or (iii) to find any other solution acceptable to the Security Trustee and subject to the written confirmation from the Rating Agencies, other than Moody's, that such solution will not result in a downgrade of the Notes below the Minimum Ratings of the Notes, or, if the ratings of the Notes are below the Minimum Ratings of the Notes, that the then current ratings assigned to the Notes will not be affected and, in respect of Moody's, that Moody's has been notified.

Asset Purchaser Interest Cash Flows

On each third business day prior to a Note Payment Date (in respect of such Note Payment Date a '**Note Calculation Date**') the Asset Purchaser Administrator will calculate for each Asset Purchaser the sum of the following amounts received or held by it in relation to the three successive Mortgage Collection Periods (a '**Note Collection Period**'), except for the first Note Collection Period, which will mean the two successive Mortgage Collection Periods preceding the first Note Calculation Date immediately preceding such Note Calculation Date (items (i) up to and including (viii) together the '**Asset Purchaser Interest Available Amount**' in respect of the relevant Asset Purchaser:

A ledger will be established by or on behalf of each Asset Purchaser in order to record any Realised Losses (as defined below) (each such ledger an '**IC Loan Principal Deficiency Ledger**') on the Mortgage Receivables of the relevant Asset Purchaser including any Realised Losses on the repurchase or sale of the Mortgage Receivables of the relevant Asset Purchaser (such amounts together in respect of the relevant Asset Purchaser the '**IC Loan Principal Deficiency**' in respect of such Asset Purchaser). Any Realised Loss shall be debited to the relevant IC Loan Principal Deficiency Ledger (such debit item being reccredited at item (f) of the Asset Purchaser Interest Priority of Payments) so long as the debit balance on such ledger is less than the Principal Outstanding Amount of all IC Loans of such Asset Purchaser.

If on a Note Payment Date the Notes of a Series and Class or Sub-class (other than the Class E Notes) are redeemed and such Notes are repaid in full (for the avoidance of doubt, except for any Issuer Principal Deficiency), or if on a Note Payment Date, a Reserved Ledger Repayment Debit is made, then the Principal Outstanding Amount of all IC Loans and the IC Loan Principal Deficiency Ledgers of all Asset Purchasers (who have an amount recorded on the IC Loan Principal Deficiency Ledger) will be reduced with a pro rata part of the amount equal to the unpaid Issuer Principal Deficiency on such Notes (if any), other than Class E Notes, and the Reserved Ledger Repayment Debit. Such amount shall be allocated to each Asset Purchaser for a *pro rata* part, calculated by reference to the balance recorded on the relevant IC Loan Principal Deficiency Ledger divided by the debit balance recorded on all IC Loan Principal Deficiency Ledgers.

On each Note Payment Date the amounts credited to the relevant IC Loan Principal Deficiency Ledger as item (f) of the Asset Purchaser Interest Priority of Payments will form part of the Asset Purchaser Principal Available Amount. On each Note Payment Date the amounts received by the relevant Asset Purchaser as Subordinated Loan will be credited to IC Loan Principal Deficiency Ledger on such date and will form part of the Asset Purchaser Principal Available Amount.

On each Note Payment Date each Asset Purchaser shall pay the Shortfall Payable Amount relating to it (if any) to the other Asset Purchasers on a pro rata basis (by reference to the share of each such Asset Purchaser in the IC Loan Principal Deficiency Ledger After Excess Spread). Any Shortfall Payable Amount is intended to reduce any Principal Deficiency of the receiving Asset Purchaser, however can also be used to make up any other shortfall and such amount shall form part of the relevant Asset Purchaser Interest Available Amount.

Any Shortfall Payable Amount paid by an Asset Purchaser shall constitute a DPP Subordinated Loan by such Asset Purchaser to the Asset Purchaser who receives such amount. An Asset Purchaser shall only be required to repay any DPP Subordinated Loans if and to the extent it has moneys available for such purpose pursuant to the relevant Asset Purchasers Interest Priority of Payments (under item (j)) (see further chapter *IC Loan Agreement*)

'**Realised Losses**' means, in respect of any period and in respect of an Asset Purchaser, the sum of (a) the amount of the difference between (y) the aggregate Outstanding Principal Amount in respect of all Mortgage Receivables in respect of which the relevant Seller, the relevant Pool Servicer or the relevant Asset Purchaser has foreclosed in such period, less with respect to the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables, the Participations, and (z) the amount of the Net Proceeds applied to reduce the Outstanding Principal Amount of such Mortgage Receivables, less with respect to the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables, the Participations, (b) with respect to the Mortgage Receivables sold by the Asset Purchaser, the amount of the difference, if any, between (y) the aggregate Outstanding Principal Amount of the Mortgage Receivables, less with respect to the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables, the Participations, and (z) the purchase price of the Mortgage Receivables sold to the extent relating to principal, less with respect to the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables, the Participations and (c) with respect to

the Mortgage Receivables in respect of which the Borrower has (i) successfully asserted set-off or defence to payments or (ii) repaid or prepaid any amounts, in both cases the amount by which the Mortgage Receivables have been extinguished ("*teniet gegaan*") unless, and to the extent, such amount is received from the relevant Seller or otherwise pursuant to any of items (i), (iv), (v) or (vii) of the Asset Purchaser Principal Available Amount.

Interest Rate Hedging

The Mortgage Loans bear a fixed rate of interest, which is subject to a reset from time to time, or a floating rate of interest. The IC Loans bear a floating interest rate. Each Asset Purchaser will hedge its interest rate exposure by entering into an Asset Purchaser Cashflow Swap Agreement with the relevant Asset Purchaser Cashflow Swap Counterparty on the Programme Closing Date or the Asset Purchaser Accession Date.

Under the relevant Asset Purchaser Cashflow Swap Agreement, the relevant Asset Purchaser will agree to pay on each Note Payment Date amounts equal to the sum of:

- (a) the interest, including any prepayment penalties and penalty interest, received on the Mortgage Receivables in the preceding Note Collection Period, less with respect to the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables, an amount equal to such interest times the Participation Fraction; and
- (b) the interest accrued on the Asset Purchaser Collection Account during the immediately preceding Note Collection Period and revenue on any relevant Eligible Investments made by the Asset Purchaser; less
- (c) an excess margin of 0.5 per cent. per annum applied to (a) the Principal Outstanding Amount of all IC Loans of the relevant Asset Purchaser on the first day of each IC Interest Period in the relevant Floating Rate Interest Period, less (b) any IC Loan Principal Deficiency recorded on the relevant IC Loan Principal Deficiency Ledger, on the first day of the relevant Floating Rate Interest Period (the '**Excess Margin**'); and less
- (d) the expenses set out in items (a) up to and including (c) of the Asset Purchaser Interest Priority of Payments payable on such Note Payment Date; and less
- (e) the IC Loan Costs payable by the relevant Asset Purchaser on such Note Payment Date; and less
- (f) an amount equal to Euro 1,620 on the first Note Payment Date of each year.

On each Note Payment Date, the relevant Asset Purchaser Cashflow Swap Counterparty will agree to pay amounts equal to the interest due under the IC Loans of the relevant Asset Purchaser, provided that if there is an IC Loan Principal Deficiency recorded on the relevant IC Loan Principal Deficiency Ledger as at the first day of such Floating Rate Interest Period (taking into account the amount of principal repaid and any amount credited to such IC Loan Principal Deficiency Ledger on such day), the relevant Asset Purchaser Cashflow Swap Counterparty shall not pay such part of interest payable on the IC Loans that corresponds to such IC Loan Principal Deficiency.

Each Asset Purchaser Cashflow Swap Agreement entered into by the Asset Purchaser will be documented under an ISDA Master Agreement. The Asset Purchaser Cashflow Swap Agreements may be terminated in accordance with Events of Default and Termination Events (each as defined in the relevant ISDA Master Agreement) commonly found in standard ISDA documentation. Each Asset Purchaser Cashflow Swap Agreement will be terminable by one party if (i) an applicable Event of Default or Termination Event (as defined therein) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the relevant Asset Purchaser Cashflow Swap Agreement, (iii) an Asset Purchaser Enforcement Notice is served in respect of the relevant Asset Purchaser or (iv) an Enforcement Notice is served. Events of Default under the Asset Purchaser Cashflow Swap Agreements in relation to the relevant Asset Purchaser will be limited to (i) non-payment under the relevant Asset Purchaser Cashflow Swap Agreement and (ii) certain insolvency events.

Upon the early termination of an Asset Purchaser Cashflow Swap Agreement, the relevant Asset Purchaser or the relevant Asset Purchaser Cashflow Swap Counterparty may be liable to make a termination payment to the other party. The amount of any termination payment will be based on the market value of the relevant terminated Asset Purchaser Cashflow Swap Agreement. The market value will be based on market quotations of the cost of entering into a transaction with the same terms and conditions and that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that no market quotation can be obtained).

In the event that an Asset Purchaser is required to withhold or deduct an amount in respect of tax from payments due from it to the relevant Asset Purchaser Cashflow Swap Counterparty, the relevant Asset Purchaser will not be required pursuant to the terms of the relevant Asset Purchaser Cashflow Swap Agreement to pay the Asset Purchaser Cashflow Swap Counterparty such amounts as would otherwise have been required to ensure that the Asset Purchaser Cashflow Swap Counterparty received the same amounts that it would have received had such withholding or deduction not been made.

In the event that an Asset Purchaser Cashflow Swap Counterparty is required to withhold or deduct an amount in respect of tax from payments due from it to the relevant Asset Purchaser, the Asset Purchaser Cashflow Swap Counterparty will be required pursuant to the terms of the relevant Asset Purchaser Cashflow Swap Agreement to pay to the relevant Asset Purchaser such additional amounts as are required to ensure that the relevant Asset Purchaser receives the same amounts that it would have received had such withholding or deduction not been made.

In either event, the Asset Purchaser Cashflow Swap Counterparty will at its own cost, if it is unable to transfer its rights and obligations under the Asset Purchaser Cashflow Swap Agreement to another office, have the right to terminate such Asset Purchaser Cashflow Swap Agreement. Upon such termination, the relevant Asset Purchaser or the Asset Purchaser Cashflow Swap Counterparty may be liable to make a termination payment to the other party.

In an Asset Purchaser Cashflow Swap Counterparty Downgrade Event, the relevant Asset Purchaser Cashflow Swap Counterparty will be required to take certain remedial measures which may include the provision of collateral for its obligations under the relevant Asset Purchaser Cashflow Swap Agreement, arranging for its obligations under the relevant Asset Purchaser Cashflow Swap Agreement to be transferred to an entity with the Asset Purchaser Cashflow Swap Required Ratings, procuring another entity with at least the Asset Purchaser Cashflow Swap Required Ratings to become co-obligor in respect of its obligations under the relevant Asset Purchaser Cashflow Swap Agreement, or the taking of such other action as it may agree with the Rating Agencies.

A failure to take such steps, subject to certain conditions, will give the Asset Purchaser a right to terminate the relevant Asset Purchaser Cashflow Swap Agreement.

Any collateral transferred by an Asset Purchaser Cashflow Swap Counterparty in accordance with the provisions set out above which is in excess of its obligations to the relevant Asset Purchaser under the relevant Asset Purchaser Cashflow Swap Agreement will be returned to such Asset Purchaser Cashflow Swap Counterparty prior to the distribution of any amounts due to the Noteholders or the other Asset Purchaser Secured Parties.

ABN AMRO Bank N.V. as Cashflow Swap Guarantor shall be jointly and severally liable for the performance by each Asset Purchaser Cashflow Swap Counterparty (other than ABN AMRO Bank N.V.) of its obligations under the relevant Asset Purchaser Cashflow Swap Agreement, if and to the extent ABN AMRO Bank N.V. is not jointly and severally liable with the Asset Purchaser Cashflow Swap Counterparty for these obligations on the basis of the 403-Declaration.

Sale of Mortgage Receivables

Under the terms of each Asset Purchaser Trust Agreement, the relevant Asset Purchaser will have the right to sell and assign all or part of the Mortgage Receivables on a Note Payment Date, provided that the Asset Purchaser shall apply the proceeds of such sale (i) to repay principal that is due under the relevant IC Loans or (ii) to repay principal that is not due under the relevant IC Loans, but in respect of which the Asset Purchaser has a best efforts obligation to repay certain amounts in order to enable the Issuer to redeem a Series and Class, or Sub-class, of Notes or all Notes in certain events. See *IC Loan Agreements* below. Furthermore, under the terms of the Asset Purchaser Mortgage Receivables Purchase Agreement, the relevant Asset Purchaser shall be obliged to sell and assign the Mortgage Receivables to the relevant Seller, or any third party appointed by such Seller at its sole discretion, if it exercises its Regulatory Call Option and in such event the Asset Purchaser has the right to sell the Mortgage Receivables to the relevant Seller, provided that it shall apply the proceeds of such sale to repay principal due under the relevant IC Loan Agreement. The purchase price of each Mortgage Receivable in the event of such sale shall at least be equal to the Outstanding Principal Amount, together with accrued interest due but unpaid, if any, in respect of each Mortgage Receivable except that with respect to Mortgage Receivables which are in arrears for a period exceeding ninety (90) days or in respect of which an instruction has been given to the civil-law notary to start foreclosure proceedings, the

purchase price shall be at least the lesser of (i) an amount equal to the indexed foreclosure value of the Mortgaged Assets or, if no valuation report of less than twelve (12) months old is available, the indexed foreclosure value of the Mortgaged Assets and (ii) the sum of the Outstanding Principal Amount of the Mortgage Receivable, together with accrued interest due but unpaid, if any, and any other amounts due under the Mortgage Receivable.

If an Asset Purchaser decides to offer for sale (part of) the Mortgage Receivables, it will first offer such Mortgage Receivables to the relevant Seller. The relevant Seller shall within a period of fifteen (15) business days of the offer inform the relevant Asset Purchaser whether it wishes to repurchase the Mortgage Receivables. After such 15 business day period, the relevant Asset Purchaser may offer such Mortgage Receivables for sale to any third party.

Concentration limits upon downgrade

If (i) the credit rating of ABN AMRO Bank N.V.'s short-term unsecured, unsubordinated and unguaranteed debt obligations falls below A-1 by S&P or such rating is withdrawn by S&P and (ii) the percentage of the Available Credit Facilities of all Revolving Credit Mortgage Receivables held by all Asset Purchasers together exceeds 15 per cent. of the Outstanding Principal Amount of all Mortgage Receivables held by all Asset purchasers together each Asset Purchaser shall sell within sixty (60) days Revolving Credit Mortgage Receivables with an Outstanding Principal Amount at least equal to a pro-rata part of the percentage by which the Available Credit Facilities exceed 15 per cent. of all Mortgage Receivables held by all Asset Purchasers together multiplied by the Outstanding Principal Amount of all Mortgage Receivables held by such Asset Purchaser, whereby the pro-rata part will be calculated by dividing the Outstanding Principal Amount of the Revolving Credit Mortgage Receivables held by such Asset Purchaser by the Outstanding Principal Amount of all Mortgage Receivables held by all Asset Purchasers.

DPP Subordinated Loan Agreement

The Asset Purchasers and the Security Trustee have entered into a deferred purchase price subordinated loan Agreement (the "**DPP Subordinated Loan Agreement**") (and each new Asset Purchaser shall on the relevant Asset Purchaser Accession Date accede to the DPP Subordinated Loan Agreement) governed by Netherlands law. In this agreement each Asset Purchaser has undertaken to pay on each Note Payment Date the Shortfall Payable Amount relating to it (if any) to the other Asset Purchasers on a *pro rata* basis (by reference to the share of each such Asset Purchaser in the IC Loan Principal Deficiency Ledger After Excess Spread).

Any Shortfall Payable Amount advanced by an Asset Purchaser shall constitute a DPP Subordinated Loan by such Asset Purchaser to the Asset Purchaser who receives such amount. Interest will accrue at a rate equal to the rate of interest for the relevant period on the Asset Purchaser Collection Account of the Asset Purchaser which owes the DPP Subordinated Loan. An Asset Purchaser shall only be required to pay interest and repay any DPP Subordinated Loans if and to the extent it has moneys available for such purpose pursuant to the relevant Asset Purchasers Interest Priority of Payments (under item (j) and (k) respectively).

Whereby:

"Aggregate Shortfall Available Amount" means on each Note Payment Date an amount equal to the Shortfall Available Amounts of all Asset Purchasers on such Note Payment Date;

"Shortfall Available Amount" means in respect of an Asset Purchaser on each Note Payment Date an amount equal to the Asset Purchaser Interest Available Amount of such Asset Purchaser less an amount equal to the amounts payable under item (a) up to and including (h) of the Asset Purchaser Interest Priority of Payments of such Asset Purchaser on such date;

"Aggregate Shortfall Payable Amount" means on each Note Payment Date an amount equal to the lower of (i) the Aggregate Shortfall Available Amount on such date and (ii) IC Loan Principal Deficiency Ledger After Excess Spread;

"IC Loan Principal Deficiency Ledger After Excess Spread " means an amount equal to the aggregate balance on the IC Loan Principal Deficiency Ledgers of all Asset Purchasers on the relevant Note Payment Date, as such amount would be reduced by any amounts credited to each IC Loan Principal Deficiency Ledger on such date after application

of the relevant Asset Purchaser Interest Available Amount but before application of any Shortfall Payable Amount received from any other Asset Purchaser;

"Shortfall Payable Amount" means on each Note Payment Date an amount equal to the Aggregate Shortfall Payable Amount multiplied with the Shortfall Available Amount Percentage of such Asset Purchaser;

"Shortfall Available Amount Percentage" means in respect of an Asset Purchaser the quotient of the Shortfall Available Amount in respect of such Asset Purchaser (if any) and the Aggregate Shortfall Available Amount;

"DPP Subordinated Loan" means any loan granted by one Asset Purchaser to another Asset Purchaser on the basis of the DPP Subordinated Loan Agreement;

CREDIT STRUCTURE ISSUER

The structure of the credit arrangements for the issue of Notes under the Programme may be summarised as follows.

Issuer Accounts

The Issuer will maintain with the Issuer GIC Provider the Issuer Collection Account to which all amounts received (i) in respect of the IC Loans and (ii) from the other parties to the Programme Agreement, the Issuer Pledge Agreement, the Issuer Currency Swap Agreements, IC Loan Agreements, the Issuer Trust Deed, the Issuer Parallel Debt Agreement, the Notes Purchase Agreements, the Paying Agency Agreement, the Holding Management Agreement, the Security Trustee Management Agreement and the Issuer Management Agreement (together with the Issuer GIC, the **'Relevant Issuer Documents'**) will be paid. The Issuer GIC Provider will agree to pay an agreed interest rate on the balance standing from time to time to the credit of the Issuer Accounts.

The Issuer Administrator will identify all amounts paid into the Issuer Collection Account by crediting such amounts to ledgers established for such purpose. Payments received on each Monthly Payment Date in respect of the IC Loans will be identified as principal or revenue receipts and credited to the Principal Ledger or the Revenue Ledger, as the case may be.

If during any Issuer Collection Period the balance due on the credit of the Issuer Collection Account and/or the Issuer Pre-Funded Account (see below) exceeds 1.5 per cent. of the Principal Amount Outstanding of all Notes, the Issuer may at its option, invest such funds into (A) euro denominated securities, subject to certain conditions, including that such securities may not have a maturity beyond the immediately succeeding Note Payment Date and that such securities have been assigned the Eligible Investments Minimum Ratings or (B) in other securities provided that the Rating Agencies, other than Moody's, have given prior confirmation that such investment will not result in a reduction of the ratings assigned to the Notes below the Minimum Ratings of the Notes or, if the ratings of the Notes are below the Minimum Ratings of the Notes, will not adversely affect the then current ratings assigned to the Notes and, in respect of Moody's, Moody's is notified of such investments (the **'Issuer Eligible Investments'** and together with the Asset Purchaser Eligible Investments as defined under *Credit Structure Asset Purchasers* below, the **'Eligible Investments'**).

Payments from the Issuer Collection Account other than on a Note Payment Date, may only be made to satisfy (i) amounts due to third parties (other than pursuant to the Relevant Issuer Documents) and under obligations incurred in the Issuer's business, (ii) amounts applied towards the granting of IC Loans or towards the purchase of Notes and (iii) investments in Issuer Eligible Investments.

The Issuer will also maintain with the Issuer GIC Provider the Issuer Reserve Account and the Issuer Pre-Funded Account (see below).

If at any time an Issuer GIC Provider Rating Downgrade Event occurs, then the Issuer GIC Provider will use its best efforts within thirty (30) days of any such event (i) to obtain a third party, having at least the GIC Provider Required Rating to guarantee the obligations of the Issuer GIC Provider, or (ii) to find an alternative gic provider having at least the GIC Provider Required Rating or (iii) to find any other solution acceptable to the Security Trustee and subject to the written confirmation from the Rating Agencies, other than Moody's, that such actions will not result in a downgrade of the Notes below the Minimum Ratings of the Notes, or, if the ratings of the Notes are below the Minimum Ratings of the Notes, that the then current ratings assigned to the Notes will not be affected and, in respect of Moody's, that Moody's has been notified.

Issuer Interest Cash Flows

On each Note Calculation Date the Issuer Administrator will calculate the sum of the following amounts received or to be received (a) in relation to item (i), (iii) up to and including (v) the Issuer Collection Period in which such Note Calculation Date falls, and (b) in relation to item (ii) a Note Collection Period immediately preceding such Note Calculation Date (items (i) up to and including (v) together the **'Issuer Interest Available Amount'**):

- (i) as interest and IC Loan Costs on each IC Loan and as interest and as principal on the Subordinated Loans;
- (ii) as interest and any revenue on any Eligible Investments made by the Issuer credited to the Issuer Accounts in the Note Collection Period immediately preceding such Note Calculation Date;
- (iii) as amounts to be received on the relevant Issue Date in excess of the Principal Amount Outstanding of the Notes issued on such date;
- (iv) as amounts to be drawn from the Unreserved Ledger (excluding any amounts applied towards the redemption of Class E Notes in accordance with the Issuer Trust Deed) and/or released from the Reserved Ledger following a Reserved Ledger Release (as defined below);
- (v) as amounts to be received from an Issuer Currency Swap Counterparty under an Issuer Currency Swap Agreement, to the extent not relating to principal;
- (vi) on the Note Payment Date on which all Notes (excluding the Class E Notes) are redeemed in full or will be redeemed in full at the following Note Payment Date, the remaining balance of the Issuer Accounts, if any.

Each Issuer Collection Period will commence on (but exclude) a relevant Note Payment Date and end on (and include) the next succeeding Note Payment Date, except for the first Issuer Collection Period which will commence on and include the first Issue Date and end on (and include) the next succeeding Note Payment Date (each such period an '**Issuer Collection Period**').

Issuer Interest Priority of Payments

Prior to the delivery of an Enforcement Notice, the Issuer Interest Available Amount will pursuant to terms of the Issuer Trust Deed be applied by the Issuer on the immediately succeeding Note Payment Date as follows (in each case only if and to the extent that payments or provisions of a higher order of priority have been made in full) (the '**Issuer Interest Priority of Payments**')

- (a) *first*, in or towards satisfaction, *pro rata*, according to the respective amounts thereof, of the fees or other remuneration due and payable to the Issuer Director, the Security Trustee Director and the Holding Director in connection with the Issuer Management Agreement, the Security Trustee Management Agreement and the Holding Management Agreement and any costs, charges, liabilities and expenses incurred by the Security Trustee under or in connection with any of the Relevant Issuer Documents to the extent not paid by an Asset Purchaser on such date;

- (p) *sixteenth*, in or towards satisfaction of an Interest Discount Payment to the Asset Purchasers.

Principal Cash Flows

On each Note Calculation Date the Issuer Administrator will calculate the sum of the following amounts received or held in relation to the Issuer Collection Period in which such Note Calculation Date falls (items (i) up to and including (vii) hereinafter referred to as the '**Issuer Principal Available Amount**')

- (i) as repayment and prepayment in full or in part of principal under the IC Loans;
- (ii) any part of the relevant Issuer Principal Available Amount calculated on the immediately preceding Note Calculation Date which has not been applied towards (a) redemption of the Notes, (b) granting of any IC Loan and (c) investments in Eligible Investments;

- (ix) the amounts to be paid to the Issuer Currency Swap Counterparty under the Issuer Currency Swap Agreement to the extent relating to principal and not included in the Issuer Interest Priority of Payments.

Granting of IC Loans and Purchase of Notes

The Issuer may (a) on each Monthly Payment Date that is not a Note Payment Date, but prior to (i) the occurrence of a Trigger Event or (ii) the delivery of an Enforcement Notice or an Asset Purchaser Enforcement Notice with respect to the relevant Asset Purchaser, apply (or reserve to be applied after such Monthly Payment Date) amounts received as items (i), (ii) and (iii) of the Issuer Principal Available Amount in the relevant Issuer Collection Period until such Monthly Payment Date less the sum of the Asset Purchaser Pass-through Payable Amounts payable in the relevant Issuer Collection Period until such Monthly Payment Date, towards (i) the granting of further IC Loans to Asset Purchasers on such Monthly Payment Date or on any date thereafter up to (but excluding) the immediately succeeding Monthly Payment Date or (ii) the purchase of Notes (other than the Class E Notes), subject to the Conditions and the Issuer Trust Deed on such Monthly Payment Date or on any date thereafter up to (but excluding) the immediately succeeding Monthly Payment Date and (b) on any date use the proceeds of the issue of a Class of Notes and the Issuer Pre-Funded Amount (or part thereof) towards the purchase of Notes of the same Class on such date or towards the granting of IC Loans on such date.

On each Monthly Payment Date that is not a Note Payment Date, but prior to (i) the occurrence of a Trigger Event or (ii) the delivery of an Enforcement Notice, the Issuer may apply amounts credited on the Unreserved Ledger towards the purchase of Class E Notes (subject to the Conditions)

Issuer Principal Available Amount for redemption of Pass-through Notes

The amount available for redemption of the Pass-through Notes (the '**Issuer Pass-through Principal Available Amount**') will, in the case of mandatory redemption within the meaning of Condition 6(b), be equal to the sum of:

(i) all Asset Purchaser Pass-through Payable Amounts in respect of each Asset Purchaser payable in the relevant Issuer Collection Period; and

- (vi) *seventh*, in or towards purchase of Notes.

Issuer Principal Priority of Payments after a Trigger Event

After the occurrence of a Trigger Event and before delivery of an Enforcement Notice, the Issuer Principal Available Amount will be applied by the Issuer on the immediately succeeding Note Payment Date as follows (and in each case only if and to the extent that payments or provisions of a higher priority have been made in full) (the '**Issuer Principal Priority of Payments after a Trigger Event**'):

- (i) *first*, in or towards satisfaction, on a *pro rata* basis, of principal due under the Class A Notes until fully repaid;
- (ii) *second*, in or towards satisfaction, on a *pro rata* basis, of principal due under the Class B Notes until fully repaid;
- (iii) *third*, in or towards satisfaction, on a *pro rata* basis, of principal due under the Class C Notes until fully repaid;
- (iv) *fourth*, in or towards satisfaction, on a *pro rata* basis, of principal due under the Class D Notes until fully repaid.

Trigger Event

A '**Trigger Event**' means any of the following events:

- an amount is debited to the Class A Principal Deficiency Ledger; or
- the 403-Guarantor or any Seller (other than the 403-Guarantor) takes any corporate action or other steps are taken or legal proceedings are started or threatened against it for its dissolution ("*ontbinding*") and liquidation ("*vereffening*") or any of its assets are placed under administration ("*onder bewind gesteld*"); or
- the 403-Guarantor or any Seller (other than the 403-Guarantor) has been declared subject to (i) suspension of payments ("*surseance van betaling*") or, if applicable, emergency regulations ("*noodregeling*") as referred to in the Act on Financial Supervision ("*Wet op het financieel toezicht*" or "*Wft*") which has continued for a period of one (1) month, whereby such suspension of payments, or if applicable, emergency regulations, is deemed to have continued for a period of one (1) month if the 403-Guarantor or any Seller (other than the 403-Guarantor) has been declared subject to such suspension of payments or, if applicable, emergency regulations and the Security Trustee has not been provided with sufficient proof that such suspension of payments or, if applicable, emergency regulations have been lifted within one (1) month or (ii) bankruptcy ("*faillissement*") or (iii) for any analogous insolvency proceedings under any applicable law;

Priority of Payments upon Enforcement

Following delivery of an Enforcement Notice, any amounts payable by the Security Trustee will be paid to the Programme Secured Parties (including the Noteholders) in the following order of priority (and in each case only if and to the extent payments of a higher priority have been made in full) (the '**Priority of Payments upon Enforcement**'):

- (a) *first*, in or towards satisfaction, *pro rata*, according to the respective amounts thereof, of (i) the fees or other remuneration due to the Directors (ii) any cost, charge, liability and expenses incurred by the Security Trustee

under or in connection with any of the Relevant Documents, which will include, *inter alia*, fees and expenses of the Rating Agencies, any legal advisor, auditor or accountant appointed by the Security Trustee, (iii) the fees and expenses of the Principal Paying Agent, the Paying Agent and the Reference Agent incurred under the provisions of the Paying Agency Agreement, (iv) the fees and expenses of the Issuer Administrator and the Asset Purchaser Administrators and the Pool Servicers under the Asset Purchaser Servicing Agreements and the Issuer Administration Agreement;

- (b) *second*, in or towards satisfaction of amounts, *pro rata*, if any, due but unpaid under the Swap Agreements, except for any Issuer Currency Swap Counterparty Default Payments and Asset Purchaser Cashflow Swap Counterparty Default Payments payable under subparagraph (m) below;
- (c) *third*, in or towards satisfaction of all amounts of interest due in respect of the Class A Notes;
- (d) *fourth*, in or towards satisfaction of all amounts of principal and any other amount due but unpaid in respect of the Class A Notes;
- (e) *fifth*, in or towards satisfaction of all amounts of interest due or accrued due but unpaid in respect of the Class B Notes;
- (f) *sixth*, in or towards satisfaction of all amounts of principal and any other amount due but unpaid in respect of the Class B Notes;
- (g) *seventh*, in or towards satisfaction of all amounts of interest due or accrued due but unpaid in respect of the Class C Notes;
- (h) *eighth*, in or towards satisfaction of all amounts of principal and any other amount due but unpaid in respect of the Class C Notes;

- (l) *twelfth*, in or towards satisfaction of all amounts of principal and any other amount due but unpaid in respect of the Class E Notes;
- (m) *thirteenth*, in or towards satisfaction, *pro rata*, of the Issuer Currency Swap Counterparty Default Payments and Asset Purchaser Cashflow Swap Counterparty Default Payments payable to the Swap Counterparties under the terms of the Swap Agreements;
- (n) *fourteenth*, in or towards satisfaction, *pro rata* (calculated according to the respective Outstanding Principal Amounts of the Mortgage Receivables sold by such Seller), of the Deferred Purchase Price Instalments to the relevant Seller or relevant Sellers, as the case may be.

Issuer Reserve Account

The net proceeds of each issue of Class E Notes will be credited to the Issuer Reserve Account and the Unreserved Ledger.

Amounts credited to the Unreserved Ledger will be available on any Note Payment Date to meet items (a) to (m) inclusive of the Issuer Interest Priority of Payments.

If and to the extent that the relevant Issuer Interest Available Amount on any Note Calculation Date exceeds the amounts required to meet items ranking higher than item (n) of the Issuer Interest Priority of Payments, the excess amount will be applied to replenish the Unreserved Ledger, to the extent required until the balance remaining on the Unreserved Ledger equals the Unreserved Ledger Required Amount.

The '**Unreserved Ledger Required Amount**' shall, on any date, be equal to the aggregate Principal Amount Outstanding of the Class E Notes of all Series on their respective Issue Dates that are outstanding on such date, taking into account any redemptions and any issuances of Class E Notes to be made on such date.

Amounts applied towards items (f), (h), (j) and (l) of the Issuer Interest Priority of Payments will be credited to the Reserved Ledger.

On a Note Payment Date on which any Class E Note is repaid in full (for the avoidance of doubt, except for any Class E Principal Shortfall on such Class E Note), the Issuer Administrator will credit a sub-ledger of the Reserved Ledger of the Reserve Account created for such purpose (the '**Reserved Ledger Repayment Debit Ledger**') (if and to the extent there is a credit balance on the Reserved Ledger) with the amount of the Class E Principal Shortfall, if any, in respect of such Class E Note.

On any Note Payment Date, the Issuer has the option to debit the Reserved Ledger for an amount up to the credit balance of the Reserved Ledger Repayment Debit Ledger on such date (after repayment of any Class E Note on such date).

On any Note Payment Date on which the Issuer Principal Available Amounts is insufficient to repay the Series and Class or Sub-class of Notes to be redeemed on such date, other than Class E Notes, the Issuer has the obligation to debit the Reserved Ledger for the amount of such shortfall firstly from the Reserved Ledger Repayment Debit Ledger and thereafter the other amounts credited to the Reserved Ledger.

Any such debit from the Reserved Ledger on any Note Payment Date will be referred to as a '**Reserved Ledger Repayment Debit**', and will be transferred from the Issuer Reserve Account to the Issuer Collection Account and will form part of the Issuer Principal Available Amount on that Note Payment Date and will be debited from the Reserved Ledger Repayment Debit Ledger and/or the Reserved Ledger, as the case may be.

On a Note Payment Date on which all Class E Notes of a Series and Class, or, if such Class E Notes comprises of two or more Sub-classes, all Notes of the relevant Sub-class will be repaid, the Unreserved Ledger will be debited on that Note Payment Date (such debit being referred to as '**Unreserved Ledger Repayment Debit**') with an amount equal to:

- a) the Principal Amount Outstanding of the Class E Notes of that Series and Class or Sub-class thereof, divided by the Principal Amount Outstanding of all Class E Notes on such Note Payment Date (after giving effect to any issue of Class E Notes on such date, but before any repayment of any Class E Notes on such date); multiplied by
- b) the amount standing to the credit of the Unreserved Ledger on such Note Payment Date, after giving effect to any issue of Class E Notes on such date and any other drawing from the Unreserved Ledger on such date.

The amount of the Unreserved Ledger Repayment Debit shall be applied towards the redemption of the Class E Notes of the relevant Series and Class or Sub-class.

Subordinated Loan

On each Note Payment Date on which the amounts credited to the Reserved Ledger of the Reserve Account exceed the lower of (i) the Class D Required Subordinated Amount and (ii) the Principal Amount Outstanding of all Class E Notes, the Issuer will advance an amount equal to the amount by which the Reserve Ledger exceeds the lower of items (i) and (ii) (the Subordinated Loan Minimum Amount) to the Asset Purchasers as Subordinated Loans (after taking into account any Reserve Ledger Release and any Reserved Ledger Repayment Debit on such date). The

amount will be advanced on a pro rata basis to all Asset Purchasers by reference to the amounts recorded on the IC Loan Principal Deficiency Ledgers on such Notes Payment Date (after application of the relevant Asset Purchaser Interest Available Amount, without taking into account any Subordinated Loans advanced on such date). Each Asset Purchaser has an obligation to accept such Subordinated Loan. Each Subordinated Loan will be credited to the relevant IC Loan Principal Deficiency Ledger (outside the relevant Asset Purchaser Interest Priority of Payments) and will form part of the Asset Purchaser Principal Available Amount on such date.

Issuer Pre-Funded Account

The Issuer will maintain with the Issuer GIC Provider the Issuer Pre-Funded Account. The Issuer will credit to the Issuer Pre-Funded Account any part of the net proceeds of the issue of the Notes (other than the Class E Notes) which has not been used to grant IC Loans or to purchase Notes. With respect to the Issuer Pre-Funded Amount, no conditions are applicable, including conditions with regard to the level of the Issuer Pre-Funded Amount and the period during which it can be held in deposit on the Issuer Pre-Funded Account. This may have the result that the net proceeds of the issue of Notes will not immediately be applied to grant IC Loans or to purchase Notes. The rate of interest on the Issuer Pre-Funded Account is equal to the weighted average interest rate on the Notes during the relevant period. The Issuer Pre-Funded Amount will only be applied by the Issuer (i) to grant IC Loans to Asset Purchasers, (ii) to purchase Notes (other than the Class E Notes) on any date or (iii) to redeem Notes on the Step-up Date of such Notes. The Issuer shall release from the Issuer Pre-Funded Account, to the extent available, an amount equal to the amount required to redeem each Note on the Step-up Date of such Note.

Issuer Interest Deficiency Ledger and Issuer Principal Deficiency Ledger

An Issuer Interest Deficiency Ledger (the '**Issuer Interest Deficiency Ledger**' comprising five sub-ledgers, known as the '**Class A Interest Deficiency Ledger**', the '**Class B Interest Deficiency Ledger**', the '**Class C Interest Deficiency Ledger**', the '**Class D Interest Deficiency Ledger**', and the '**Class E Interest Deficiency Ledger**' respectively, will be established by or on behalf of the Issuer in order to record any amounts of unpaid interest on the (relevant Class of) Notes.

An issuer principal deficiency ledger (the '**Issuer Principal Deficiency Ledger** comprising four sub-ledgers, known as the '**Class A Principal Deficiency Ledger**', the '**Class B Principal Deficiency Ledger**', the '**Class C Principal Deficiency Ledger**' and the '**Class D Principal Deficiency Ledger**', respectively, will be established by or on behalf of the Issuer in order to record any amounts standing to the debit of all IC Loan Principal Deficiency Ledgers (each balance standing to the relevant Issuer Principal Deficiency Ledger respectively the '**Class A Principal Deficiency**', the '**Class B Principal Deficiency**', the '**Class C Principal Deficiency**' and the '**Class D Principal Deficiency**', together a '**Issuer Principal Deficiency**').

The balance on the Class D Principal Deficiency Ledger will be an amount equal to the aggregate balance on the IC Loan Principal Deficiency Ledgers of all Asset Purchasers on the relevant Note Payment Date (for the avoidance of doubt, as reduced by any amounts credited to each IC Loan Principal Deficiency Ledger on such date after application of the relevant Asset Purchaser Interest Available Amount) less any amounts standing to the credit of the Reserved Ledger (prior to the application of the Issuer Interest Available Amount) on such date until and to the extent the balance on all IC Loan Principal Deficiency Ledgers does not exceed the Principal Amount Outstanding on all Class D Notes.

If the aggregate balance on each IC Loan Principal Deficiency Ledger on the relevant Note Payment Date less any amounts remaining on the balance of the Reserved Ledger on such date (for the avoidance of doubt, as reduced with any amounts credited to each IC Loan Principal Deficiency Ledger on such date after application of the relevant Asset Purchaser Interest Available Amount) exceeds the Principal Amount Outstanding of all Class D Notes outstanding on such date but only to the extent the balance on the IC Loan Principal Deficiency Ledgers (less any amounts on the balance of credit of the Reserved Ledger on such date) does not exceed the Principal Amount Outstanding on all Class C Notes and all Class D Notes, the balance on the Class C Principal Deficiency Ledger will be an amount equal to the balance on the IC Loan Principal Deficiency Ledgers of all Asset Purchasers less (i) the balance on the Class D Principal Deficiency Ledger on such date and (ii) any amounts on the balance of the Reserved Ledger on such date.

If the aggregate balance on each IC Loan Principal Deficiency Ledger on the relevant Note Payment Date less any amounts on the balance of the Reserved Ledger on such date (for the avoidance of doubt, as reduced with any amounts credited to each IC Loan Principal Deficiency Ledger on such date after application of the relevant Asset Purchaser Interest Available Amount) exceeds the Principal Amount Outstanding on all Class C Notes and Class D Notes outstanding on such date but only to the extent the balance on the IC Loan Principal Deficiency Ledgers (less any amounts standing to the credit of the Reserved Ledger on such date) does not exceed the Principal Amount Outstanding on all Class B Notes, all Class C Notes and all Class D Notes, the balance on the Class B Principal Deficiency Ledger will be an amount equal to the balance on the IC Loan Principal Deficiency Ledgers of all Asset Purchasers less (i) the balance on the Class C Principal Deficiency Ledger on such date, (ii) the balance on the Class D Principal Deficiency Ledger on such date and (iii) less any amounts remaining on the balance of the Reserved Ledger on such date.

If the aggregate balance on each IC Loan Principal Deficiency Ledger on the relevant Note Payment Date less any amounts standing on the balance of the Reserved Ledger on such date (for the avoidance of doubt, as reduced with any amounts credited to each IC Loan Principal Deficiency Ledger on such date after application of the relevant Asset Purchaser Interest Available Amount) exceeds the Principal Amount Outstanding on all Class B Notes, Class C Notes and Class D Notes outstanding on such date, the balance on the Class A Principal Deficiency Ledger will be an amount equal to the balance on the IC Loan Principal Deficiency Ledgers of all Asset Purchasers less (i) the balance on the Class B Principal Deficiency Ledger on such date, (ii) the balance on the Class C Principal Deficiency Ledger on such date and (iii) the balance on the Class D Principal Deficiency Ledger on such date and (iv) less any amounts on the balance of the Reserved Ledger on such date.

Amounts credited to the relevant Issuer Principal Deficiency Ledgers in accordance with items (f), (h), (j) and (l) of the Issuer Interest Priority of Payments will be reserved and recorded in a ledger for such purpose (the '**Reserved Ledger**').

On any Note Payment Date, before application of the Issuer Interest Priority of Payments, the amounts remaining on the Reserved Ledger exceeding the aggregate balance on the IC Loan Principal Deficiency Ledgers of all Asset Purchasers on such date, after application of the Asset Purchaser Interest Priority of Payments, shall be released from the Reserved Ledger (such release being a '**Reserved Ledger Release**') firstly from the Reserved Ledger Repayment Debit Ledger and thereafter the other amounts credited to the Reserved Ledger and will form part of the Issuer Interest Available Amount.

Currency Hedging

In order to hedge its payment obligations in any currency other than euros under any Class or Sub-class of Notes against variations in the exchange rate of the euro vis-à-vis such currency, the Issuer will enter into an Issuer Currency Swap Agreement with an Issuer Currency Swap Counterparty.

Each Issuer Currency Swap Agreement entered into by the Issuer will be documented under an ISDA Master Agreement. The Issuer Currency Swap Agreements may be terminated in accordance with Events of Default and Termination Events (each as defined in the relevant ISDA Master Agreement) commonly found in standard ISDA documentation. Each Issuer Currency Swap Agreement will be terminable by one party if (i) an applicable Event of Default or Termination Event (as defined therein) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the relevant Issuer Currency Swap Agreement or (iii) an Enforcement Notice is served. Events of Default under the Issuer Currency Swap Agreements in relation to the Issuer will be limited to (i) non-payment under the relevant Issuer Currency Swap Agreement and (ii) certain insolvency events.

Upon the early termination of a Issuer Currency Swap Agreement, the Issuer or the relevant Issuer Currency Swap Counterparty may be liable to make a termination payment to the other party. The amount of any termination payment will be based on the market value of the relevant terminated Issuer Currency Swap Agreement. The market value will be based on market quotations of the cost of entering into a transaction with the same terms and conditions and that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that no market quotation can be obtained).

In the event that the Issuer is required to withhold or deduct an amount in respect of tax from payments due from it to an Issuer Currency Swap Counterparty, the Issuer will not be required pursuant to the terms of the relevant Issuer Currency Swap Agreement to pay the Issuer Currency Swap Counterparty such amounts as would otherwise have been required to ensure that the Issuer Currency Swap Counterparty received the same amounts that it would have received had such withholding or deduction not been made.

In the event that the Issuer Currency Swap Counterparty is required to withhold or deduct an amount in respect of tax from payments due from it to the Issuer, the Issuer Currency Swap Counterparty will be required pursuant to the terms of the relevant Issuer Currency Swap Agreement to pay to the Issuer such additional amounts as are required to ensure that the Issuer receives the same amounts that it would have received had such withholding or deduction not been made.

In either event, the Issuer Currency Swap Counterparty will at its own cost, if it is unable to transfer its rights and obligations under the Issuer Currency Swap Agreement to another office, have the right to terminate such Issuer Currency Swap Agreement. Upon such termination, the Issuer or the Issuer Currency Swap Counterparty may be liable to make a termination payment to the other party.

In an Issuer Currency Swap Counterparty Downgrade Event, the relevant Issuer Currency Swap Counterparty will be required to take certain remedial measures which may include the provision of collateral for its obligations under the relevant Issuer Currency Swap Agreement, arranging for its obligations under the relevant Issuer Currency Swap Agreement to be transferred to an entity with the Issuer Currency Swap Required Rating, procuring another entity with at least the Issuer Currency Swap Required Rating to become co-obligor in respect of its obligations under the relevant Issuer Currency Swap Agreement, or the taking of such other action as it may agree with the Rating Agencies.

A failure to take such steps, subject to certain conditions, will give the Issuer a right to terminate the relevant Issuer Currency Swap Agreement.

Any collateral transferred by an Issuer Currency Swap Counterparty in accordance with the provisions set out above which is in excess of its obligations to the Issuer under an Issuer Currency Swap Agreement will be returned to such Issuer Currency Swap Counterparty prior to the distribution of any amounts due to the Noteholders or the other Programme Secured Parties.

Repayment of Notes on and after the Step-up Date

Pursuant to the Issuer Trust Deed the Issuer shall use its best efforts to redeem each Note on the relevant Step-up Date of such Note with the proceeds of the issue of new Notes, and if the Issuer is unable to issue sufficient new Notes for such purpose, the Issuer will inform the Asset Purchasers thereof. Pursuant to the IC Loan Agreement the Asset Purchasers undertake their best efforts to repay a *pro rata* part of the IC Loans or any other allocation agreed between the Issuer and each Asset Purchaser, on the Step-up Date, which best efforts undertaking includes the sale of Mortgage Receivables to the extent necessary. The Issuer shall use the proceeds of the repayment of IC Loans to redeem such Note, to the extent available for such purpose.

Purchase of Notes

Under the terms of the Issuer Trust Deed, the Issuer will have the right to purchase Notes that are offered to it on any date, prior to (i) the occurrence of a Trigger Event which is continuing or (ii) the delivery of an Enforcement Notice and provided that it has the necessary funds available for such purpose in accordance with the provisions of the Issuer Trust Deed. In the case of purchase and cancellation of Subordinated Notes the Repayment Test will apply *mutatis mutandis*. The purchase price payable by the Issuer when purchasing a Note will be equal to its aggregate Principal Amount Outstanding, together with any accrued interest thereon less in the case of the purchase of (i), a Class B Note, any Class B Principal Shortfall, (ii) a Class C Note, any Class C Principal Shortfall and (iii) a Class D Note, any Class D Principal Shortfall and (iv) Class E Note, any Class E Principal Shortfall. Any Class A Notes purchased by the Issuer may, at the option of the Issuer, be held, re-issued or resold at their Principal Amount Outstanding together with accrued interest thereon subject to and in accordance with the Conditions of the Notes, or may be surrendered to any of the Paying Agents for cancellation in accordance with the Paying Agency Agreement. Any Subordinated Notes so

purchased by the Issuer should be surrendered to any of the Paying Agents for cancellation in accordance with the Paying Agency Agreement.

OVERVIEW OF THE DUTCH RESIDENTIAL MORTGAGE MARKET

Historical overview

Since the 19th century, the Dutch housing market has been predominantly a rental market. The Second World War resulted in serious housing shortage. The government solved this problem by building a considerable number of houses to let over very long periods (thirty (30) years or more). As a result home-ownership rates in the Netherlands are still lagging the European average.

The Dutch government took several measures to increase home-ownership rates. One of the earliest measures was the establishment of the municipality guarantee program ("*gemeentegarantie*"), now known as the national guarantee system (NHG), in 1956. This made it easier for lower income households to qualify for a residential mortgage loan and hence purchase their own home.

In the 1960's the government also decided to make interest payments on mortgage loans tax deductible. Despite some minor changes in recent years, the mortgage interest tax deductibility still has a positive effect on home ownership percentage in The Netherlands. Following the June 2010 elections the new government indicated that the tax advantages would be maintained.

Aside from measures taken by the government, the rapid growth of economic activity and the increase in the number of double income families led to an increased demand for houses during the 1970s. Towards the end of the 1970s the housing market slowed as a result of a significant downturn in the economy. While the 1980's were characterised by stable market, the strong economic growth and declining interest rate environment experienced throughout most of the 1990s led to a renewed growth in the demand for properties. Mortgage lenders developed new products in order to optimise borrowing capacity and tax benefit. All of these measures led to an increase in home ownership from less than 30 per cent. post Second World War to 59 per cent.¹ in recent years. This rate is still lower than average for the rest of Europe. Moreover home ownership in the Netherlands is mainly concentrated in rural areas 70 per cent.² While growing, the owner occupation rates in the cities is around 45 per cent.³ A major hurdle towards the increase of home ownership remains the structural shortage of suitable houses on the market.

Home ownership development in the future

Recent drivers of the demand for housing encompass both demographic and economic factors. Supported by a natural birth surplus, the Dutch population continues to grow, albeit at a slower pace than in the past decade. In addition, the increase in the number of one person households and the life expectancy rates continues to drive the demand for new housing units. Taking all these effects into account, the average person to housing unit ratio is projected to fall to 2.18 in 2011 and 2.07 in 2030 from 2.33 in November 2008.

From a macroeconomic perspective, The Netherlands has the fourth highest gross domestic product per capita in the EU. This has been achieved over many years and sustained by a strong economy for most of the last ten (10) years. Growth was particularly strong in 2006 and 2007, which helped to keep up demand in the housing market despite rising interest rates, the increase in the value of the Euro and rising labour costs and commodity prices. These unfavourable aspects which may affect the housing market in the short term, are offset by a very tight labour market.

By EU standards, unemployment in the Netherlands is low and is expected to stay comparatively low, from 3.7% in 2008 to 5,3% in 2009, it reached 5,5 in 2010⁴.

House price development

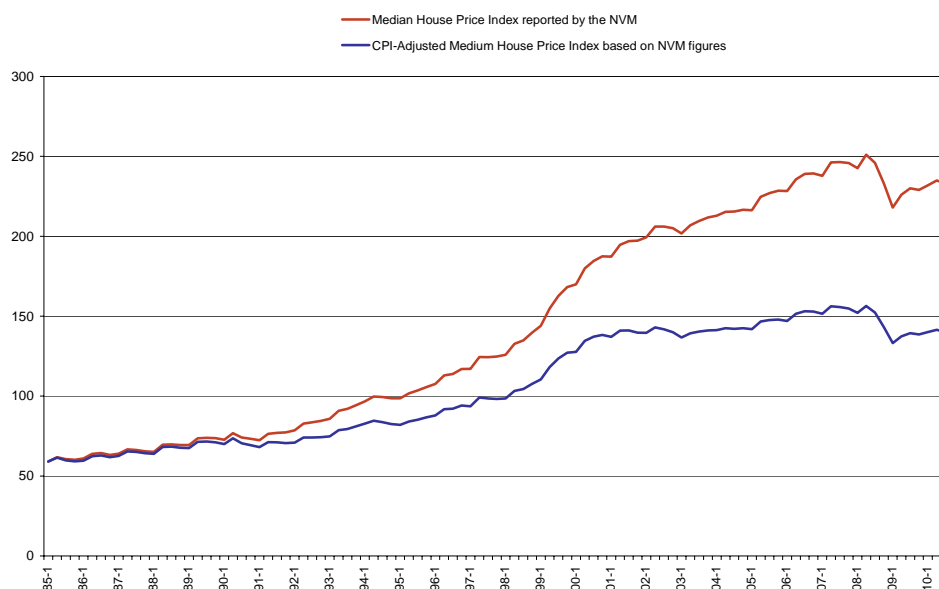

Following the rapid increase in house prices during the 1970's, on the back of high inflation and new government measures to support owner-occupancy, the Dutch housing market was significantly affected by the economic downturn experienced during the years 1980 and 1981. House prices dropped substantially towards the end of the

1970's and only slowly recovered thereafter. Since 1991 house prices inflation has gradually picked up and peaked in the second half of the 1990's.

Following a period of more modest house price growth since 2001, house price growth strengthened between 2004 and 2006, as mortgage interest rates reached their lowest point since the 1950's in mid 2005. In 2007, the growth of house prices decreased from an annual growth in December 2006 of 4,7% to an annual growth in December 2007 of 2,8%. Due to the economic developments housing prices have experienced a further decline of 3.3% in 2008. This trend continued in 2009, when housing prices further decreased by 1.7% (Q4, 2009 compared to Q4, 2008). 2010 showed a slight increase of 0,4% (Q4, 2010 compared to Q4, 2009).⁵

Numbers show a decrease of 13% of houses sold in Q3 (compared to Q2) 2010. Also prices have slightly decreased by 1,3% (Q3 2010, compared to Q2 2010). Average price was EUR 233.000.⁶

Relatively high Loan-to-Values

The tax deductibility of mortgage interest results in relatively high loan to value ratios. The maximum loan-to-value in the Netherlands for existing property is 125% of the foreclosure value (or 130% if the last 5% is used for a down-payment on a payment protection insurance). The foreclosure value is about 85% of the market value. Borrowers often have considerable investments and savings available but choose not to use such funds to acquire a house or to repay their mortgage but instead to minimize their tax liabilities.

Mortgage types

The most common term of legal life is thirty (30) years, corresponding with the maximum allowable for tax deductibility. Because of the fiscal treatment, mortgage loans with no redemption on the principal such as investment-based

mortgages, savings mortgages and interest-only mortgages are most popular. Under these mortgages no principal is repaid during the term of the contract. Instead, the borrower makes payments in a saving account, endowment insurance or investment fund. Upon maturity the loan is repaid with the money in the savings account, the insurance contract or the investment fund respectively. The government encourages this method of redemption by exempting from tax the capital sum received under the policy, up to a certain amount, including annual indexing, provided the term of insurance is at least twenty (20) years. In addition, the insurance policies are exempted from wealth tax.

Long term fixed interest periods most popular

Unlike the UK mortgage market in which mortgages (while evolving) remain predominantly floating rate, Dutch mortgages are predominantly of a fixed rate nature and are set for a period of between five and twenty (20) years. The historically low mortgage interest rate in 2005 has proved an additional incentive to opt for mortgages with a long-term fixed interest rate (up to as much as thirty (30) years, which gives people almost life-long certainty). For this reason Dutch mortgage consumers are relatively well insulated against interest rate shocks.

Mortgage portfolio reset due to high prepayments

Borrowers are allowed to prepay 10% to 20% free of penalty per year. In addition, full prepayment without penalty can only be made at times of interest rate resetting, on sale of the property or in case of death of the borrower. Otherwise a penalty is calculated as the net present value of the difference between the contract rate and the applicable market rate. Interest rates have decreased since the early 1990s, which has made it attractive for borrowers to refinance their mortgage loans in the past decade. The increasing role of intermediaries also had a stimulating effect on prepayments. This resulted in a mortgage portfolio that is characterized by relative low mortgages rates and long fixed interest rates.

Relatively low defaults

Despite the relatively high loan-to-foreclosure value ratios, default losses have always been relatively low. During the decrease in house prices (1978-1982) losses peaked up to 30 basis points on an annual basis. In the following years losses have been negligibly low. Currently default losses are showing an upward trend due to the recession and declining house prices.

Defaults and foreclosures will probably rise in the near future due to rising unemployment. However, the delinquency rate in the Netherlands is the lowest in Europe (less than 0,5%) and barely rising. In most cases Dutch households manage to recover from delinquency avoiding a foreclosure. We do not expect that rising foreclosures will cause remarkable increases in the supply of private dwellings.

National credit register (BKR) to prevent over-indebtedness

The national credit register ("*Bureau Krediet Registratie*", or "*BKR*") was founded in 1965 by financial institutions to take care of central credit registration. At BKR almost all credit obligations of retail clients in the Netherlands are registered. Credits are registered as of origination until a period of five (5) years after maturity. Before providing a mortgage loan, lenders are obligated to check the history of the borrower in order to prevent over-indebtedness by the client and to limit the risks for the lender.

The ABN AMRO businesses acquired by the Dutch State from the Former ABN AMRO group comprised Dutch commercial clients (SMEs and corporates), Dutch consumer clients, and Dutch and international private clients, including the international diamonds and jewellery business.

Separation of ABN AMRO businesses acquired by the Dutch State from Former ABN AMRO group

The legal separation of assets and liabilities of the Former ABN AMRO group acquired by the Dutch State from the assets and liabilities acquired by the other consortium members was effected in two steps. On 6 February 2010, a legal demerger ("*juridische splitsing*") was effectuated, demerging the majority of the Dutch State acquired businesses of the Former ABN AMRO group from the Former ABN AMRO group to ABN AMRO Bank Standalone, in accordance with the demerger proposal filed with the Amsterdam Chamber of Commerce on 30 September 2009 (the '**Legal Demerger**'). On 1 April 2010, became effective the transfer of the shares in the share capital of ABN AMRO Bank Standalone by ABN AMRO Holding N.V. (renamed RBS Holdings N.V. since the Legal Separation) to ABN AMRO Group N.V. (the '**Legal Separation**').

The Legal Demerger

On 30 September 2009 the Former ABN AMRO group filed a proposal for the Legal Demerger with the Amsterdam Chamber of Commerce. Following confirmation by the Amsterdam District Court that no creditor objections to the

Legal Demerger were filed, the Former ABN AMRO group was able to proceed with the restructuring process of transferring the businesses acquired by the Dutch State into a newly formed entity, ABN AMRO II N.V., which was renamed ABN AMRO Bank N.V. following completion of the Legal Demerger.

On 6 February 2010 the deed of demerger was executed in accordance with the demerger proposal filed with the Amsterdam Chamber of Commerce on 30 September 2009. As a result of the Legal Demerger, the majority of the Dutch State acquired businesses of the Former ABN AMRO group was transferred from Former ABN AMRO Bank N.V. to ABN AMRO Bank Standalone.

Additionally, as part of the overall separation process, some subsidiaries and assets and liabilities forming part of the Dutch State acquired businesses of the Former ABN AMRO group were separately transferred from the Former ABN AMRO Bank N.V. to ABN AMRO Bank Standalone ahead of the execution of the Legal Demerger. Furthermore, certain additional assets and liabilities were separately transferred to ABN AMRO Bank Standalone around the same time or shortly after completion of the Legal Demerger.

Effective at the same date, the Former ABN AMRO Bank N.V. (from which the Dutch State acquired businesses of the Former ABN AMRO group were demerged) was renamed The Royal Bank of Scotland N.V. ABN AMRO Bank Standalone was also renamed, from ABN AMRO II N.V. to ABN AMRO Bank N.V.

Until the Legal Separation both The Royal Bank of Scotland N.V. and ABN AMRO Bank Standalone were wholly-owned by ABN AMRO Holding N.V.

The Legal Separation

On 1 April 2010 the Legal Separation was effected through a transfer of the shares in the share capital of ABN AMRO Standalone by ABN AMRO Holding N.V. to ABN AMRO Group N.V., a new holding company wholly-owned by the Dutch State, established on 18 December 2009 and independent of ABN AMRO Holding N.V.

After the Legal Separation the former parent company of ABN AMRO Bank Standalone, ABN AMRO Holding N.V., was renamed RBS Holdings N.V. and currently forms part of The Royal Bank of Scotland Group plc.

After the Legal Separation ABN AMRO Bank Standalone was no longer governed by ABN AMRO Holding N.V.'s managing board and supervisory board and was no longer regulated on a consolidated basis with ABN AMRO Holding N.V. Instead, ABN AMRO Bank Standalone operated as an independent bank with its own corporate governance and is regulated independently with separate capital adequacy, liquidity measures and exposure, which were reported to and regulated by the Dutch Central Bank ("*De Nederlandsche Bank N.V.*").

ABN AMRO Bank Standalone went through a period of transition and change as a result of the Legal Demerger and Legal Separation. During this period, ABN AMRO Bank Standalone and The Royal Bank of Scotland N.V. remained interdependent with respect to certain business areas, for which they inter alia provided certain services to each other including, for instance, IT related services.

2. History of Fortis Bank (Nederland) N.V.

Separation of Fortis Bank (Nederland) N.V. from Fortis Bank SA/NV, the Fortis group, ASR Nederland and Fortis Corporate Insurance N.V.

On 3 October 2008 the Dutch State acquired Fortis Bank (Nederland) N.V. from Fortis Bank SA/NV.

Due to its cross border organisation, the split between the Fortis Bank (Nederland) N.V. and Fortis Bank SA/NV has led to a number of separation projects, particularly within global markets, client & deal administration, website & online banking, securities handling and finance & risk systems. The intentions are that by the end of the third quarter of 2010, both entities will be fully separated. As a result of the separation, the Dutch government granted Fortis Bank (Nederland) N.V. EUR 9,200,000,000 long term debt funding.

On 21 November 2008, the Dutch government communicated that Fortis Bank (Nederland) N.V. insurance business will not be part of the bank in the future. At the time of communication, ASR Nederland and Fortis Bank (Nederland) N.V. were equally dependent on each other for information technology, human resources and facilities related services due to the fact that the former Fortis group had set up a cross-border structure to service its business from a central organisation. A separation plan has been constructed and signing is pending due to finalisation of financial negotiations. All cross services are expected to be terminated by the end of the third quarter of 2010.

On 20 May 2009, a separation agreement with Fortis Corporate Insurance N.V. was signed. The scope of the separation from Fortis Corporate Insurance N.V. is limited to nine projects and is in progress as of the date of this Base Prospectus. This separation is expected to be completed by the third quarter of 2010. A joint cross-border governance structure between Fortis NV/SA and Fortis Bank (Nederland) N.V. has been set up to execute the separation and address upcoming issues. Furthermore a tailored governance structure has been set up within Fortis Bank (Nederland) N.V. to steer its domestic and international separation activities. A similar structure has been set up for the separation of ASR Nederland.

Simplification of the legal structure of Fortis Bank (Nederland) N.V.

Fortis Bank (Nederland) N.V. simplified its legal structure on 1 September 2009. By way of a legal merger in accordance with the Dutch Civil Code, Fortis Bank (Nederland) N.V. (the '**Disappearing Company**') (a 100% subsidiary of Fortis Bank Nederland (Holding) N.V. under the old legal structure) merged with Fortis Bank Nederland (Holding) N.V. (the '**Acquiring Company**'). As a result, the Acquiring Company acquired all assets and liabilities of the Disappearing Company by universal succession; the Disappearing Company has ceased to exist; and on the effective date of the merger, the Acquiring Company changed its statutory name into Fortis Bank (Nederland) N.V.

3. Integration of ABN AMRO Bank Standalone and Fortis Bank (Nederland) N.V.

On 21 November 2008 the Dutch Minister of Finance announced the intention of the Dutch State to integrate the businesses of the Former ABN AMRO group acquired by the Dutch State with Fortis Bank (Nederland) N.V. into a new bank operating under the name ABN AMRO Bank N.V. The legal integration took place in two steps: the composition of a single group and the Legal Merger.

The integration of ABN AMRO Bank Standalone with Fortis Bank (Nederland) N.V. was subject to approval of the Dutch State, the relevant (inter)national supervisory authorities (including the Dutch Central Bank) and successful completion of the legal merger process.

Composition of a single group

On 1 April 2010, following the Legal Separation, ABN AMRO Bank Standalone and Fortis Bank (Nederland) N.V. became direct subsidiaries of a joint parent company, ABN AMRO Group N.V.

As from 1 April the managing boards and the supervisory boards of ABN AMRO Bank Standalone, Fortis Bank (Nederland) N.V. and ABN AMRO Group N.V. consisted of the same members. In addition, joint senior management for select parts of both ABN AMRO Bank Standalone and Fortis Bank (Nederland) N.V. was appointed, i.e. one manager was be responsible for managing comparable teams and activities at both banks. However, both ABN AMRO Bank Standalone and Fortis Bank (Nederland) N.V. operated as separate and independent banks until the Legal Merger took effect.

The Legal Merger

On 1 July 2010, ABN AMRO Bank Standalone and Fortis Bank (Nederland) N.V. merged pursuant to the Legal Merger, following which ABN AMRO Bank Standalone was the surviving entity (verklrijgende vennootschap) and Fortis Bank (Nederland) N.V. was the disappearing entity (verdwijnende vennootschap). As a result of the Legal Merger ABN AMRO Bank Standalone assumed all of the rights and obligations of Fortis Bank (Nederland) N.V. by operation of law under universal title (onder algemene titel).

EC Remedy

The integration of ABN AMRO Bank Standalone with Fortis Bank (Nederland) N.V. was subject to completion of the transaction concluded between ABN AMRO Bank Standalone and Deutsche Bank AG in order to satisfy the conditions for integration imposed by the European Commission (the 'EC Remedy').

On 23 December 2009, ABN AMRO Bank Standalone and Deutsche Bank AG signed the Share Purchase Agreement (SPA) confirming the agreements reached for the sale of New HBU II N.V. and IFN Finance B.V. On 1 April 2010 the sale of New HBU II N.V. and IFN Finance B.V. to Deutsche Bank AG was completed.

DESCRIPTION OF MORTGAGE LOANS

The Mortgage Loans will be selected on the basis of the Eligibility Criteria set out in the relevant Asset Purchaser Mortgage Receivables Purchase Agreement and the representations and warranties given by the relevant Sellers (see Asset Purchaser Mortgage Receivables Purchase Agreements).

Mortgage Loans are loans secured by a mortgage right evidenced by notarial mortgage deeds ("*notariële akten van hypotheekstelling*"), that the relevant Seller has entered into with the relevant Borrowers. Part of the mortgage deeds relating to the Mortgage Receivables sold to the Asset Purchasers by the Sellers provide that the mortgage rights created pursuant to such mortgage deeds, not only secure the loan granted to the Borrower for the purpose of acquiring the Mortgaged Assets, but also other liabilities and moneys that the Borrower, now or in the future may owe to the Sellers. A portion of the Mortgage Receivables sold to the Asset Purchasers by the Sellers will be secured by mortgage rights created under a mortgage deed in which the Borrower has given security over the Mortgaged Assets in excess of the amount of the initial Mortgage Loan. The mortgage deeds relating to such Mortgage Receivables provide that any Further Advances granted by the Sellers to the relevant Borrower are secured by the same mortgage right (see Risk that the Bank Security Rights will not follow the Mortgage Receivables upon assignment to the Asset Purchasers under the Risk Factors above).

Mortgaged Assets

The mortgage rights securing the Mortgage Loans are vested on (i) immovable property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) ground leases ("*erfpacht*").

For over a century, local authorities and other public bodies in the Netherlands have issued ground leases whereby they retain ownership of the land but grant the right to build and live on it. There are three types of ground lease, i.e. temporary ("*tijdelijk*"), continuous ("*voortdurend*") and perpetual ("*eeuwigdurend*"). A ground lease is a right in rem ("*zakelijk recht*") which entitles the lessee ("*erfpachter*") to hold and use an immovable property ("*onroerende zaak*") on land owned by another party, usually a local authority. The lessee can transfer the ground lease without the need to obtain the permission of the landowner, unless the terms of the lease provide otherwise. Upon the death of the lessee, the lease will pass to his or her heirs. Ground rent ("*canon*") is usually payable under the terms of lease.

Mortgage Loans originated by ABN AMRO Bank N.V. (or its legal predecessor Fortis Bank (Nederland) N.V.)

This description is limited to Mortgage Loans originated by ABN AMRO Bank N.V. and its legal predecessor Fortis Bank (Nederland) N.V. to the extent the Mortgage Receivables relating to these Mortgage Loans have been sold to the relevant Asset Purchaser and does not include a description of all mortgage loans originated by ABN AMRO Bank N.V.

Mortgage Types

Life Mortgage Loans: *Hypotheek met ProfijtPlan*
 MeerKeuze hypotheekverzekering
 Hypotheek met ASR Garantieverzekering
 Hypotheek met ASR Beleggingsverzekering
 Levenhypotheek

A life mortgage loan ("*levenhypotheek*", hereinafter '**Life Mortgage Loan**') and each Mortgage Receivable relating to a Life Mortgage Loan, a '**Life Mortgage Receivable**') is connected to a life insurance policy that the Borrower takes out with one of the Insurance Companies. A life Insurance Policy ('**Life Insurance Policy**') combines death cover and capital accumulation. Under this type of Mortgage Loan, the Borrower does not repay any principal, but instead pays life insurance premiums and interest on the Mortgage Loan. The premiums are used to provide death cover and to accumulate capital. There are different types of Life Insurance Policies, depending on (i) the way in which the capital insurance element of the premium is invested by the relevant Insurance Company and (ii) whether the return on the invested capital is guaranteed or not. Endowment policies (including "*Hypotheek met ASR Garantieverzekering*") ('**Traditional Life Insurance Policies**') guarantee a guaranteed yield. Life Insurance Policies that do not guarantee the return on invested capital, invest the capital in certain investment funds ("*Hypotheek met ProfijtPlan*", "*Hypotheek*

met ASR Beleggingsverzekering") (**'Unit-Linked Life Insurance Policies'**) and/or invest the premium in a fund, called "Hypotheekrentefonds", whereby the return corresponds to the return on a Savings Insurance Policy ("MeerKeuze hypotheekverzekering") (**'Hybrid Insurance Policies'**) (the Mortgage Loan to which such MeerKeuze hypotheekverzekering relates, and the Mortgage Loan to which (i) such MeerKeuze hypotheekverzekering relates, and the Mortgage Loan to which a Hybride Hypotheekverzekering or a Maximum+ Hybride Hypotheek Plan relate described hereunder in respect of Direktbank acting as *ASR Woninghypotheeken* and (ii) the Mortgage Loan to which a Hybride Hypotheekverzekering relates as described hereunder in respect of Direktbank N.V., each a **'Hybrid Mortgage Loan'**) and each Mortgage Receivable relating to a Hybrid Mortgage Loan a **'Hybrid Mortgage Receivable'** and each Hybrid Mortgage Loan in which premia is accumulated in a savings part, a **'Hybrid Savings Mortgage Loan'** and each Insurance Policy connected thereto a **'Hybrid Savings Insurance Policy'**).

The Hypotheek met ASR Garantieverzekering gives the right to profit sharing. The Borrower decides whether any return above the guaranteed interest is added to the guaranteed payout or is invested in certain investment funds.

The life insurance benefits are generally used to repay the Mortgage Loan (whether in full or in part) upon maturity. These benefits are paid out either upon the maturity of the Life Insurance Policy (generally after thirty (30) years) or upon the death of the Borrower, if this occurs earlier.

Savings Mortgage Loans: *Spaarhypotheek*
 Spaarhypotheek VSB Leven
 Spaarhypotheek AXA
 Spaarhypotheek AMEV

A savings mortgage loan ("*spaarhypotheek*") (together with each of the savings mortgage loans described hereunder in respect of Direktbank N.V.), a **'Savings Mortgage Loan'** and each Mortgage Receivable relating to a Savings Mortgage Loan, a **"Savings Mortgage Receivable"**) consists of a savings insurance policy that the Borrower takes out with one of the Insurance Companies. A savings insurance policy (**'Savings Insurance Policy'**) combines death cover with a savings plan. Under this type of Mortgage Loan, the Borrower does not repay any principal, but instead pays a premium, which consists of a risk element and a savings element (the **'Savings Premium'**) and interest on the Mortgage Loan. The premiums are used to provide death cover and accumulate savings. The savings are calculated so that the benefits of the Savings Insurance Policy paid out by the Insurance Companies to the pertinent Borrower are equal to the amount that the Borrower owes the relevant Seller upon the maturity of the Mortgage Loan. These benefits will be used to repay the Mortgage Loan (whether in full or in part). They are paid out either upon the maturity of the Savings Insurance Policy (which will correspond with the term of the Mortgage Loan and will usually be after thirty (30) years) or upon the death of the Borrower if this occurs earlier.

Investment Mortgage Loans: *MeerKeuze hypotheekrekening*

An investment mortgage loan (together with each of the investment mortgage loans described hereunder in respect of Direktbank N.V., an **'Investment Mortgage Loan'** and the Mortgage Receivable relating to an Investment Mortgage Loan, an 'Investment Mortgage Receivable') is a loan covered by an investment plan, which also includes a Life Insurance Policy, which the Borrower takes out with one of the Insurance Companies. Under this type of Mortgage Loan, the Borrower does not repay any principal. Instead he or she pays interest on the Mortgage Loan and monthly instalments that are used (i) to purchase units in certain investment funds, or at the option of the Borrower to make deposits in a savings account with ABN AMRO Bank N.V. and (ii) to pay insurance premiums under a risk insurance contract.

The units in the investment funds are held in an investment account at Stichting Fortis Bank (Nederland) Beleggersgiro/rekeningen. The investment funds are all managed by BNP Paribas Investment Partners Netherlands N.V. Borrowers can switch investments or decide to apply future instalments differently.

Upon maturity (which is generally after thirty (30) years), the investments will be sold and the proceeds used to repay the Mortgage Loan (whether in full or in part). Should the Borrower die, the payout from the Life Insurance Policy will go towards repaying the Mortgage Loan.

Revolving Credit Mortgage Loans: Krediethypotheek

A revolving credit mortgage loan ("*Krediethypotheek*"), (together with each of the revolving credit mortgage loans described hereunder in respect of Direktbank N.V. ,'**Revolving Credit Mortgage Loan**') is a mortgage loan under which the Borrower has the right, up to a limit agreed in advance, to withdraw monies and repay monies at any time. The client pays interest on the outstanding principal amount at a variable interest rate percentage, which at any requested moment, without earlier notice, can be adjusted.

Annuity Mortgage Loans: Annuïteitenhypotheek

The Borrower pays off the Mortgage Loan in equal monthly instalments, consisting of both interest and principal repayments. Each month the interest component will diminish and the amount of principal repaid will increase.

Linear Mortgage Loans: Lineaire Hypotheek

The Borrower repays the capital in equal monthly principal instalments, plus additional interest. The principal repayments will remain the same, while the interest will diminish.

Interest Only Mortgage Loans: Aflossingsvrije Hypotheek

The Mortgage Loan must be repaid upon maturity or upon the death of the Borrower, if this occurs earlier.

Interest Rates

Borrowers are offered the following options for paying interest:

Fixed Interest

Interest on the Mortgage Loans is fixed for a specified period. The client can choose for an optional extendable specified period.

Floating Interest

Interest on the Mortgage Loans is variable based on a benchmark. The Interest is fixed at a pre determined interval.

Starter Interest

The Borrower pays interest at a fixed rate for the first twelve (12) months or twenty four (24) months of the Mortgage Loan. During the chosen period, the Borrower can opt for a fixed interest rate for a specified future period, see Fixed Interest above. The 12-month or 24-month period cannot be extended.

Ideaalrente

Ideaalrente is a proceeding average of the interest rate. The applicable interest rate is calculated once a year and is based on the average rate for mortgage loans over the previous five (5) years. The interest is set in advance, so it will be applied for 1 year starting from the fixing date.

Rentebedenktijd achteraf

On the agreed interest review date (respectively after the 5th or 10th year since the starting date of the mortgage loan) the Borrower opts for a twenty four (24) months period, during which he can choose the fixing of the interest rate that will be applied to his loan during the next fixed period. The Borrower can choose the length of the next fixed period from the then available offer (starter Interest is excluded as an option).

Life Insurance Policies that do not guarantee the return on invested capital, invest the capital in certain investment funds ("Beleggingsverzekering", "ABC Spaarplan", "VIP", "Waerdije Hypotheekplan" and "Maximum+ Hypotheek Plan") and/or invest the premia in a fund (called "Hypotheekrenterekening") whereby the return corresponds to the return on a Savings Insurance Policy ("Hybride Hypotheekverzekering" and "Maximum+ Hybride Hypotheek Plan") or in fixed income products ("Stad Rotterdam Plan").

The Garantieverzekering and the Beleggingsverzekering give the right to profit sharing. The Borrower decides whether any return above the guaranteed interest is added to the guaranteed payout or is invested in certain investment funds.

The life insurance benefits are generally used to repay the Mortgage Loan (whether in full or in part) upon maturity. These benefits are paid out either upon the maturity of the Life Insurance Policy (generally after thirty (30) years) or upon the death of the Borrower, if this occurs earlier.

De Amersfoortse Spaarhypotheek (Oosteroever Hypotheken B.V.)

As described above a Savings Mortgage Loan consists of a Savings Insurance Policy that the Borrower in case of Direktbank N.V. takes out with one of the relevant Insurance Companies. Under this type of Mortgage Loan, the Borrower does not repay any principal, but instead pays a premium, which consists of a risk element and a savings element and interest on the Mortgage Loan. The premiums are used to provide death cover and accumulate savings. The savings are calculated so that the benefits of the Savings Insurance Policy paid out by the relevant Savings Participant to the pertinent Borrower are equal to the amount that the Borrower owes the Sellers upon the maturity of the Mortgage Loan. These benefits will be used to repay the Mortgage Loan (whether in full or in part). They are paid out either upon the maturity of the Savings Insurance Policy (which will correspond with the term of the Mortgage Loan and will usually be after thirty (30) years) or upon the death of the Borrower if this occurs earlier.

Investment Mortgage Loans:

- Effecthypotheek ASR Woninghypotheken*
- Beleggingshypotheek ASR Woninghypotheken*
- Direkt-Effect-Hypotheek*
- Direkt-Effect-Hypotheek Budget*
- Beleggingshypotheek*
- Beleggershypotheek (Quion 9 B.V.)*
- Solide Koers Beleggingshypotheek (Oosteroever Hypotheken B.V.)*
- Overwaarde Hypotheek (Quion 9 B.V.)*

As set out above an Investment Mortgage Loan is a loan covered by an investment plan, which also includes a Life Insurance Policy in the case of the *Effecthypotheek ASR Woninghypotheken* and the *Beleggingshypotheek ASR Woninghypotheken* (with death cover only), which the Borrower takes out with one of the relevant ASR Insurance Companies. Under this type of Mortgage Loan, the Borrower does not repay any principal. Instead he or she pays interest on the Mortgage Loan and monthly instalments that are used (1) to purchase units in certain investment funds or, in the case of the *Beleggingshypotheek ASR Woninghypotheken*, at the option of the Borrower (i) to pay the premiums on a Savings Insurance Policy with any of the relevant Savings Participants ("*ASR Spaarhypotheek Garantie*") (each an '**Investment Savings Mortgage Loan**') or (ii) to make deposits in a savings account with the ASR Bank ("*ASR Liquide Middelen*") or (iv) for a combination of the above and (2) to pay insurance premiums.

The units in the investment funds for *Effecthypotheek ASR Woninghypotheken*, *Beleggingshypotheek ASR Woninghypotheken*, *Direkt-Effect-Hypotheek* and *Direkt-Effect-Hypotheek Budget*, are held in an investment account at Stichting ASR Beleggersgiro. The investment funds are all managed by BNP Paribas Investment Partners Netherlands N.V. Borrowers of the *Effecthypotheek ASR Woninghypotheken* and *Beleggingshypotheek ASR Woninghypotheken*, can switch investments or decide to apply future instalments differently.

The units in the investment funds for the *Beleggingshypotheek*, *Beleggershypotheek* and *Solide Koers Beleggingshypotheek* are held in an investment account with an investment manager or bank in the Netherlands.

Upon maturity (which is generally after thirty (30) years), the investments will be sold and the proceeds used to repay the Mortgage Loan (whether in full or in part). Should the Borrower die, the payout from the Life Insurance Policy will go towards repaying the Mortgage Loan.

Revolving Credit Mortgage Loans: Doorloop Hypotheek (only originated by Direktbank N.V.)

As set out above a Revolving Credit Mortgage Loan is a mortgage loan under which the Borrower has the right, up to a limit agreed in advance, to withdraw and repay an amount of money at any time. The Borrower pays interest on the outstanding principal amount at a variable interest rate, which can be adjusted by the Bank without early notice. The Revolving Credit Mortgage Loan is repaid in full upon maturity or upon the death of the Borrower, if this occurs earlier.

Annuity Mortgage Loans: Annuïteitenhypotheek

The Borrower pays off the Mortgage Loan in equal monthly instalments, consisting of both interest and capital repayments. Each month the interest component will diminish and the amount of capital repaid will increase.

Linear Mortgage Loans: Lineaire Hypotheek

The Borrower repays the capital in equal monthly instalments, plus additional interest. The capital repayments will remain the same, while the interest will diminish.

Interest Only Mortgage Loans: Aflossingsvrije Hypotheek

The Mortgage Loan is repaid upon maturity or upon the death of the Borrower, if this occurs earlier.

Interest Rates

Borrowers are offered the following options for paying interest:

Fixed Interest

Interest on the Mortgage Loans is fixed for a specified period. The Borrower is given option for an extended specified period (six (6) months to thirty (30) years).

Floating Interest

Interest on the Mortgage Loans is variable based on a benchmark. The Interest is fixed at a pre determined (monthly) interval.

Floating Interest (Quion 9 B.V and Oosteroever Hypotheken B.V.)

Interest on the Mortgage Loans is variable based on euribor. The Interest is fixed at a pre determined (every three (3) months) interval.

Starter Interest (Rentebedenktime vooraf)

The Borrower pays interest at a fixed rate for the first twelve (12) months of the Mortgage Loan. During this period, the Borrower can opt for a fixed interest rate for a specified future period, see Fixed Interest above. The 12-month option period cannot be extended.

Rentebedenktime vooraf (OC 951) (Quion 9 B.V.)

The Borrower pays interest at a fixed rate for the first twelve (12) months of the Mortgage Loan. During this period, the Borrower can opt for a fixed interest rate for a specified future period, see Fixed Interest above. The 12-month option period can be extended.

Rentebedenktime vooraf (OC) (Quion 9 B.V.)

The Borrower pays interest at a fixed rate for the first twelve (12) months of the Mortgage Loan. During this period, the Borrower can opt for a fixed interest rate for a specified future period, see Fixed Interest above. The 12-month option period cannot be extended.

Rentebedenktime achteraf

On the agreed interest review date (respectively after the 5th, 10th or 13th year since the starting date of the mortgage loan) the Borrower opts for a twenty four (24) months period, during which he can choose the fixing of the interest rate that will be applied to his loan during the next fixed period. The Borrower can choose the length of the next fixed period from the then available offer (starter Interest is excluded as an option).

Rentebedenktime achteraf (Quion 9 B.V, Oosteroever Hypotheken B.V. and ASR Woninghypotheken)

On the agreed interest review date (respectively after the 5th or 10th year since the starting date of the mortgage loan) the Borrower opts for a twenty four (24) months period, during which he can choose the fixing of the interest rate that will be applied to his loan during the next fixed period. The Borrower can choose the length of the next fixed period from the then available offer (Starter Interest/ Rente bedenktime vooraf is excluded as an option).

Relax/Plus interest

Interest on the Mortgage Loans is fixed for a specified period, one (1) or three (3) months. The interest rate after the specified period does not change for another one (1) or three (3) months if the interest rate stays within a pre determined margin.

RenteRiant interest (Quion 9 B.V.)

Interest on the Mortgage Loans is fixed for a specified period, three (3) months. The interest rate after the specified period does not change for another three (3) months if the interest rate stays within a pre determined margin.

Margin Interest

The rate of interest payable on the Mortgage Loan is reset annually, subject to caps and floors (relative to a base rate), which provides the Borrower with some protection against interest rate changes. The base rate itself may be reset from time to time.

Details of Mortgage Receivables

In the Final Terms relating to each issue of Notes, certain numerical information will be provided regarding the Mortgage Receivables held by each Asset Purchaser on the relevant Issue Date (the '**Current Pool**'). The numerical information in respect of the Current Pool will relate to the Current Pool which will be determined prior to the relevant Issue Date. Therefore, the information in respect of the Current Pool may not entirely reflect the Current Pool as it is at the relevant Issue Date.

If on the relevant Issue Date New Mortgage Receivables will be sold and assigned to the relevant Asset Purchaser or Asset Purchasers and no Consolidated Pool is provided (see below), apart from the Current Pool a provisional pool of Mortgage Loans to be sold and assigned on the relevant Issue Date will be provided (the '**Provisional Pool**'). A final portfolio will be selected on or before the Issue date and may include mortgage loans which were not included in the Provisional Pool. The information on the Provisional Pool in the Final Terms may therefore not necessarily correspond with the Mortgage Receivables actually sold by the relevant Seller or Sellers to the relevant Asset Purchaser or Asset Purchasers on the Issue Date.

The numerical information in respect of the Current Pool and the Provisional Pool can also be combined in a consolidated pool of mortgage loans (the '**Consolidated Pool**') in the Final Terms.

MORTGAGE LOAN UNDERWRITING AND SERVICING

Introduction

This description, to the extent referring to mortgage loans originated by ABN AMRO Bank N.V., is limited to the underwriting and servicing of Mortgage Loans originated by ABN AMRO Bank N.V. and its legal predecessor Fortis Bank (Nederland) N.V. to the extent the Mortgage Receivables relating to these Mortgage Loans have been sold to the relevant Asset Purchaser and does not include a description of the mortgage loan underwriting and servicing of all mortgage loans originated by ABN AMRO Bank N.V.

Applications for new mortgage loans are accepted on the basis of an established underwriting protocol. The principal features of this underwriting protocol are borrower as well as property related.

Borrower

Income

By far the majority of the Sellers' mortgage loan borrowers are salaried employees or wage earners. The remainder are self-employed. The protocol stipulates the income components. Mortgage Loan applicants are asked to provide an original, recently issued, employers' declaration and recent pay-slip to prove their income, or, if self-employed, to submit full annual accounts (including an auditor's report or stamp) of their business and income tax returns for the previous three (3) years. A director/majority shareholder is regarded as self-employed.

Housing ratio

The housing ratio, i.e. the ratio of the mortgage loan payment to gross income, is a major determinant of the maximum mortgage loan, as it reflects the maximum percentage of income that can be committed to making mortgage loan payments. The mortgage loan payment is estimated on an annuity basis, taking into account both interest and principal repayment.

A distinction is made between single and dual income households. In case of a dual income household, the housing ratio associated with the highest income of the two, is applied on the total income of the household. The housing ratios are based on the tariffs used by the NIBUD (National Institute for Budget Information). From 1st of January 2007, the housing ratios given by the CHF ('Contact Organ Mortgage Financers') will be required.

National Credit Register

A check on every mortgage loan borrower is carried out with the National Credit Register ("*Bureau Krediet Registratie*" or "*BKR*") in Tiel. The register contains all active records and all (positive and negative) commitments redeemed into with financial institutions over the previous five (5) years.

Property

All collateral offered in the form of existing buildings is valued by an independent appraiser not involved in the transaction, or under the WOZ-calculation ("*Wet Onroerende Zaak Belasting*"). Any appraiser used for this purpose must be a member of one of the following organisations:

- Dutch Association of Real Estate Brokers ("*Nederlandse Vereniging van makelaars*" or "*NVM*")
- National Real Estate Broker's Association ("*Landelijke Makelaars Vereniging*" or "*LVM*")
- Society of Chartered Surveyors ("*Vereniging van Registrérvastgoed Taxateurs*" or "*RVT*")
- Estate Agents Association ("*Vereniging Bemiddeling Onroerend Goed*" or "*VBO*")
- Dutch Association of Estate Managers ("*Nederlandse Vereniging van Rentmeesters*" or "*NVR*")

These are the same appraisers that are accepted for mortgages covered by the National Mortgage Guarantee Scheme ("*NHG*").

Other underwriting conditions

In addition to the above underwriting conditions, the following rules apply for mortgages under the NHG-guarantee:

- mortgage loans are granted only to individuals;
- joint and several liability for mortgage commitments (all owners are jointly and severally liable);
- the property to be mortgaged must be located in the Netherlands; and

- the property to be mortgaged must be for owner occupation only (not for rental).

Software tool

The underwriters are supported by a customized software tool, which encompasses the entire acceptance protocol. This tool checks NHG Guarantee status and calculates the maximum loan that can be advanced. It also forecasts the future value of any life insurance policy or investment account that forms part of the collateral. Furthermore, the tool produces the proposals.

In the case of Direktbank N.V., that sells its mortgage loans via independent brokers and intermediaries, the mortgage applications reach the acceptance departments via mail, e-mail, fax or an electronic data network.

Regular internal audits check whether the mortgage loans granted conform to the underwriting protocol.

Servicing

Introduction

In addition to its corporate support departments, the servicer has three major units, i.e. the middle office, the notary department and the back office. The middle office deals with all activities that lead to the granting of mortgages, the notary department handles documentation and money transfer via the notary, while the back office is responsible for the technical management of the portfolio, collection of interest payments, standard accounting routines and initiating of any procedures for arrears management

ABN AMRO Bank N.V. uses the generic backup server TSM (Tivoli Storage Manager) for the mainframe. The back-up is incremental (new and/or changed files). Three data file versions are saved (one active, two earlier date versions). The active version will be saved indefinitely, the others for a maximum of thirty (30) days. A back-up of the mortgage administration system 'NINJA' is made every last workday of the month and at the end of the year a year back-up is made. All data is back-upped in Woerden and mirrored in Utrecht, the housekeeping of TSM tapes the most recent data. These tapes are stored in the tape library in Woerden. Networks and personal computers are provided with back-up in the same way. In case of calamity the complete generic server can be moved to the fallback environment in Utrecht, in accordance with the service level agreement.

Direktbank N.V. acting as *ASR Woninghypotheken* has a mainframe production environment in Utrecht. Backups are made on a daily basis for local recovery purposes, in addition all production data in Utrecht is mirrored at ABN AMRO in Woerden.

Early next year all its notary department and back office activities will be outsourced to the service provider ABN AMRO Bank N.V. Therefore after the middle office activities its mortgages are transferred to the mortgage administration system of ABN AMRO Bank N.V.

In the case of Direktbank N.V. it has outsourced all its notary department and back office activities to the service provider ABN AMRO Bank N.V. Therefore after the middle office activities its mortgages are transfer to the mortgage administration system of ABN AMRO Bank N.V.

Direktbank N.V. uses the generic backup server TSM (Tivoli Storage Manager) for all its production servers in Woerden. Daily back-ups are incremental (new and/or changed files are updated). Three data file versions are saved (one active and two versions with an earlier date). When a file is modified a new version is backed up. The active version will be saved indefinitely, inactive files for a maximum of thirty (30) days. Deleted files are marked as expired and will be saved for sixty (60) days after which they are removed from TMS. TMS backups are saved for three (3) weeks. All data in Woerden is mirrored in Utrecht. In case of a calamity complete generic servers can be moved to the fallback environment in Utrecht, in accordance with the service level agreement.

In the case of Quion 9 B.V. and Oosteroever Hypotheken B.V. the middle office, notary department and back office activities have been outsourced to the service provider Quion Groep B.V. and its subsidiaries Quion Hypotheekbegeleiding B.V., Quion Services B.V. and Quion Hypotheekbemiddeling B.V.

The central backup system generates a daily automatic back up of the IT systems HYPOS, QLAS, HYPAS and the central file servers. 3 times a day a backup is made of all the fileservers, while at night a complete database server backup is generated. The backup tapes are stored internal and at an external secure location. Furthermore, weekly, monthly and annual backup tapes are also stored at an external secure location. An emergency plan is in place that enables all the applications to run at a location in Lelystad in the Getronics Business Continuity Centre (GBC). In case of a calamitous event, Quion Groep B.V. will relocate 10 key staff members to the GBC. In this way all servicing and administration activities can be fully operational at the GBC within four (4) business days. This procedure is tested annually. Quion Hypotheekbemiddeling B.V., Quion Hypotheekbegeleiding B.V. and Quion Services B.V. have established a software depot foundation (escrow) to guarantee servicer continuity. If Quion Hypotheekbemiddeling B.V., Quion Hypotheekbegeleiding B.V. or Quion Services B.V. ceases to exist, Quion 9 B.V. and Oosteroever Hypotheken B.V. have the right to continue to use the IT systems and data files and the right to access the software source code. All mortgage loan information is stored and operated using HYPAS.

Collection

Mortgage Loan interest is generally collected by direct debit. Each month, the mainframe automatically calculates the interest due. This is then debited from the Borrower's account. If there is not enough money in the account, the direct debit procedure will be repeated. Should the direct debit fail again, an automatic reminder will be sent (after twenty one (21) days) to the Borrower. If the Borrower still fails to make payment, another letter will be sent (fourteen (14) days after the first reminder). If the Borrower fails to make the payment, the file will be passed on to the arrears management department.

Arrears management

If Borrowers fail to make payment within a certain period of the due date, the arrears management procedure will apply, as follows;

ABN AMRO Bank N.V.

- if payment has not been received within six (6) weeks after the due date, and if clearance with other accounts of Borrower is not possible, a manually written letter will be sent to the client
- the Account manager first tries to contact the Borrower by phone. If not possible, a letter of demand will be sent
- if payment has not been received four (4) months after the due date, any guarantors will be notified accordingly
- if payment has still not been received seven (7) months after the due date (see explanatory notes below) and no suitable solution has been found, the loan will finally be called in

Direktbank N.V. acting as ASR Woninghypotheken.

- if payment has not been received within fifty four (54) days of the due date, a first reminder will be sent by the Arrears Management
- if payment has not been received after eighty four (84) days after the due date, a second reminder will be sent
- if payment has not been received four (4) months after the due date, any guarantors (among others: NHG) will be notified accordingly
- if payment has still not been received seven (7) months (for NHG)/ one hundred and fourteen (114) days(for non-NHG) after the due date, and no suitable solution has been found, the loan will be called in.

Direktbank N.V.

- if payment has not been received within six (6) weeks after the due date and two reminders, a more specific reminder will be sent to the client
- the Account manager first tries to contact the Borrower by phone. If not possible, a letter of demand will be sent
- if payment has not been received four (4) months after the due date, any guarantors will be notified accordingly
- if payment has still not been received seven (7) months after the due date (see explanatory notes below) and no suitable solution has been found, the loan will finally be called in.

During the period in which arrears build up, efforts (including personal visits to the Borrower) are always made to find a solution acceptable to both the Borrower and the lender

Quion 9 B.V. and Oosteroever Hypotheken B.V.

- if payment is two (2) days overdue, first reminder will be sent. A number of various reminders will follow on a weekly basis.
- after twenty six (26) days overdue, the possibility of claim on wages is considered
- if payment is thirty four (34) days overdue and the borrower has shown themselves to be unable or unwilling to live up to their obligations, the case will be forwarded to a Bailiff.
- if payment is fifty two (52) days overdue, WEW will be informed
- if payment is fifty seven (57) days overdue, arrears department will organise a field visit to the borrower
- if no payment is received within sixty seven (67) days, the borrower is offered three options: full payment, private sale, auction
- after seventy two (72) days overdue, valuation is ordered
- if payment is eighty two (82) days overdue, the servicer will send a letter demanding the payment of the full amount
- if payment has not been received four (4) months after the due date, any guarantors will be notified accordingly
- if payment has still not been received seven (7) months after the due date (see explanatory notes below) and no suitable solution has been found, the loan will finally be called in by the Collection department of the servicer after final agreement from Direktbank N.V.

Auctions

Sale at public auction is arranged only as a last resort. In principle, bids may be made up to a certain percentage of the value at execution (real estate brokers' valuation price).

ASSET PURCHASER SUB-PARTICIPATION AGREEMENTS

Under each Asset Purchaser Sub-participation Agreement the relevant Asset Purchaser grants to the relevant Savings Participants a sub-participation in the relevant Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables.

Participation

In the relevant Asset Purchaser Sub-participation Agreement the relevant Savings Participants will undertake to pay to the relevant Asset Purchaser in respect of the relevant Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables:

- (i) on (a) with respect to Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables purchased by the Asset Purchaser, the relevant Mortgage Purchase Date, (b) with respect to Investment Mortgage Loans with Direktbank N.V., to the extent originated under the name *ASR Woninghypotheek*, or its legal predecessor Fortis Hypotheek Bank N.V. on the Mortgage Purchase Date immediately succeeding the date of a switch of premia accumulated in eligible investments into a Savings Insurance Policy with any of the Savings Participants and (c) with respect to a Hybrid Savings Mortgage Loans on the Mortgage Purchase Date immediately succeeding the date of a switch of premia accumulated in the investment part of the Insurance Policy into a savings part of the Insurance Policy, the Savings Premia received by the Savings Participants, or in respect of ABN AMRO Bank N.V., Direktbank N.V., Oosteroever Hypotheken B.V. and Quion 9 B.V. as Savings Participant the Savings Premium received by the Insurance Companies as Savings Premium, and accrued interest thereon up to the first day of the month in which the Mortgage Purchase Date falls (the '**Initial Participation**');
- (ii) on each Mortgage Payment Date an amount equal to (i) the amount received by the relevant Savings Participants as Savings Premium in respect of Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables other than those referred to in item (i) below and (ii) in respect of Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables in which ABN AMRO Bank N.V., Direktbank N.V., Oosteroever Hypotheken B.V. or Quion 9 B.V. holds a sub-participation, the amount scheduled to be received by the relevant Insurance Company as Savings Premium, during the Mortgage Collection Period then ended.

As a consequence of such payments each of the relevant Savings Participants will acquire a participation (the '**Participation**') in each relevant Savings Mortgage Receivable and Hybrid Savings Mortgage Receivable, which is equal to the Initial Participation in respect of the relevant Savings Mortgage Receivable and Hybrid Savings Mortgage Receivable, increased during each Mortgage Collection Period on the basis of the following formula (the '**Participation Increase**')

$$\frac{(P + T)}{H} \times R + S, \text{ whereby}$$

P = the Participation on the first day of the relevant Mortgage Collection Period in the relevant Savings Mortgage Receivable or such Hybrid Savings Mortgage Receivable;

T = the amount of the Savings Premium scheduled to be received at the beginning of the Mortgage Collection Period in respect of the relevant Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable and actually received by the relevant Asset Purchaser from the relevant Savings Participant;

S = the amount of the Savings Premium scheduled to be received at the end of the Mortgage Collection Period in respect of the relevant Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable and actually received by the relevant Asset Purchaser from the relevant Savings Participant;

R = in respect of the relevant Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable the amount of interest due by the Borrower and actually received by the relevant Asset Purchaser in such Mortgage Collection Period;

H = the principal sum outstanding on the relevant Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable on the first day of the relevant Mortgage Collection Period.

In consideration for the undertaking of the Savings Participants described above, the relevant Asset Purchaser will undertake to pay to each Savings Participant on each Mortgage Payment Date an amount equal to the Participation in each of the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables in respect of which amounts have been received during the relevant Mortgage Collection Period (i) by means of repayment and prepayment in full for the Mortgage Receivables, but excluding prepayment penalties, if any, (ii) in connection with a repurchase of Savings Mortgage Receivables and/or Hybrid Savings Mortgage Receivables pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement and any other amounts received pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement to the extent such amounts relate to principal, (iii) in connection with a sale of relevant Savings Mortgage Receivables and/or Hybrid Savings Mortgage Receivables pursuant to the Asset Purchaser Trust Agreement to the extent such amounts relate to principal, and (iv) as Net Proceeds on the relevant Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables to the extent such amounts relate to principal (the '**Participation Redemption Available Amount**').

Reduction of Participation

If a Borrower asserts a defence, including but not limited to a right of set-off or counterclaim against any person in respect of a Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable, based upon a default in the performance, whether in whole or in part, by the relevant Savings Participant or, for whatever reason, the relevant Savings Participant does not pay the insurance proceeds when due and payable, whether in full or in part, under the relevant Savings Insurance Policy or Hybrid Insurance Policy and, as a consequence thereof, the relevant Asset Purchaser will not have received any amount in respect of such Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable, which was outstanding prior to such event, the Participation of the relevant Savings Participant in respect of such Savings Mortgage Receivable or Hybrid Savings Mortgage Receivable will be reduced by an amount equal to the amount which the relevant Asset Purchaser has failed to receive as a result of such defence and the calculation of the Participation Redemption Available Amount shall be adjusted accordingly.

Asset Purchaser Enforcement Notice

If an Enforcement Notice, or an Asset Purchaser Enforcement Notice, is given by the Security Trustee to the relevant Asset Purchaser, then and at any time thereafter the Security Trustee on behalf of the Savings Participants may, and if so directed by the Savings Participants shall, by notice to the relevant Asset Purchaser:

- (i) declare that the obligations of the Savings Participants under the relevant Asset Purchaser Sub-participation Agreement are terminated;
- (ii) declare the Participation to be immediately due and payable, whereupon it shall become so due and payable, but such payment obligations shall be limited to the Participation Redemption Available Amount received or collected by the relevant Asset Purchaser or, in case of enforcement, the Security Trustee under the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables.

Termination

If one or more of the Savings Mortgage Receivables and/or Hybrid Savings Mortgage Receivables are (x) repurchased by the relevant Seller from the relevant Asset Purchaser pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement or (y) sold by the relevant Asset Purchaser to a third party pursuant to the relevant Asset Purchaser Trust Agreement or (z), in respect of Investment Mortgage Loans sold and assigned by Direktbank N.V. and/or Hybrid Savings Mortgage Loans, in case of a Policy Switch, provided that on the relevant Mortgage Payment Date the Participation Increase relating to the relevant Savings Participant is at least equal to the Participation in the relevant Savings Mortgage Receivable or the relevant Hybrid Savings Mortgage Receivable, the Participation in such Savings Mortgage Receivable and/or Hybrid Savings Mortgage Receivable will terminate and the Participation Redemption Available Amount in respect of the Savings Mortgage Receivable and Hybrid Savings Mortgage Receivable will be paid by the relevant Asset Purchaser to the relevant Savings Participants. If so requested by the relevant Savings Participants, the relevant Asset Purchaser will undertake its best efforts to ensure that the purchaser of the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables will enter into a sub-

participation agreement with the Savings Participants in a form similar to the Asset Purchaser Sub-participation Agreement. Furthermore, the Participation envisaged in the Asset Purchaser Sub-participation Agreement shall terminate if at the close of business of any Mortgage Payment Date each of the Savings Participants has received the Participation in respect of the Savings Mortgage Receivables and the Hybrid Savings Mortgage Receivables.

IC LOAN AGREEMENTS

On the Programme Closing Date and on each Asset Purchaser Accession Date the Issuer will enter into an IC Loan Agreement (governed by Netherlands law) with the relevant Asset Purchaser. Under each IC Loan Agreement each Asset Purchaser, at its request, may borrow monies on each Monthly Payment Date and the Issuer shall be obliged to lend monies on such date, if the Issuer has sufficient funds available for such purpose and certain other conditions are met, including the condition that no Asset Purchaser Enforcement Notice has been served in respect of this Asset Purchaser and no Trigger Event has occurred. An Asset Purchaser will use the net proceeds from each IC Loan to pay to the relevant Seller (part of) the Initial Purchase Price for the purchase of Relevant Mortgage Receivables from time to time pursuant to the relevant Asset Purchaser Mortgage Receivables Purchase Agreement.

On each Monthly Calculation Date the relevant Asset Purchaser will inform the Issuer whether it wishes to make a drawing under the IC Loan Agreement, or that it will repay any part of the IC Loan on the succeeding Monthly Payment Date or any date thereafter. If a new IC Loan is requested and if the Issuer foresees that it will not have sufficient funds available for such purpose, the Issuer will undertake its best efforts to issue new Notes on (or prior to) the Monthly Payment Date following the next succeeding Monthly Payment Date, subject to the conditions for the issue of such Notes being complied with.

In addition, under the IC Loan Agreement the Issuer shall advance and the relevant Asset Purchaser shall accept Subordinated Loans subject to certain conditions.

IC Loan Interest

Interest will accrue on each IC Loan for a certain period (each an '**IC Interest Period**'). Each IC Interest Period starts on, and includes, a Monthly Payment Date and ends on, but excludes, the next succeeding Monthly Payment Date (unless an IC Loan is repaid prior to such date, in which case the date of repayment applies), provided that the first IC Interest Period for an IC Loan will be the period commencing on (and including) the Utilisation Date on which the IC Loan was granted to the relevant Asset Purchaser and ending on (and excluding) the immediately following Monthly Payment Date (unless an IC Loan is repaid prior to such date, in which case the date of repayment applies).

The interest payable on all IC Loans on a Note Payment Date (the '**Aggregate IC Loan Interest**') will be equal to (a) the amounts due by the Issuer on this Note Payment Date under items (e) to (m) (inclusive) excluding items (f), (h), (j) and (l) of the Issuer Interest Priority of Payments and, furthermore, excluding any interest accrued due but unpaid on the Notes, but including interest accrued in the relevant Floating Rate Interest Period on such accrued due but unpaid interest on the Notes, (b) less any interest actually received on the Issuer Accounts in the Note Collection Period immediately preceding such Note Payment Date and (c) less any interest actually received on all Subordinated Loans on such Note Payment Date.

The interest payable on an IC Loan by an Asset Purchaser on a Note Payment Date will be the sum of the amounts of interest payable on this IC Loan in respect of the last three IC Interest Periods and will be paid to the Issuer on the immediately following Note Payment Date.

The interest payable on an IC Loan in respect of an IC Interest Period will be equal to the product of the following items:

- i) the Aggregate IC Loan Interest; and
- ii) a fraction (the '**IC Loan Monthly Fraction**') in respect of such IC Loan and of such IC Interest Period.

The IC Loan Monthly Fraction in respect of an IC Loan and of an IC Interest Period is the fraction of:

- i) the Principal Outstanding Amount of such IC Loan on the first day of such IC Interest Period (taking into account the amount of principal repaid on such day, if any) divided by:
- ii) the sum of the following elements:

a) The Principal Outstanding Amount of all IC Loans then outstanding on the first day of the first IC Interest Period of the current Floating Rate Interest Period (taking into account the amount of principal repaid on such day, if any)

b) The Principal Outstanding Amount of all IC Loans then outstanding on the first day of the second IC Interest Period of the current Floating Rate Interest Period (taking into account the amount of principal repaid on such day)

c) The Principal Outstanding Amount of all IC Loans then outstanding on the first day of the third IC Interest Period of the current Floating Rate Interest Period (taking into account the amount of principal repaid on such day)

provided always that all IC Loan Monthly Fractions of all IC Loans in respect of a Floating Rate Interest Period will be equal to 1.

In the event that on any relevant Note Calculation Date the relevant Asset Purchaser has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the IC Loans on the next Note Payment Date, the relevant Asset Purchaser shall credit the relevant IC Loan Interest Deficiency Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the IC Loans, on such relevant Note Payment Date, in accordance herewith falls short of the aggregate amount of interest payable on such IC Loan on that date. Such shortfall shall not be treated as due on that date for the purposes of IC Loan Event of Default, and shall not accrue interest, and such shortfall shall be aggregated with the amount of, and treated for the purpose of hereof as if it were interest due, subject to this provision, on each IC Loan on the next succeeding Note Payment Date.

Any shortfall in the amount payable as interest on the IC Loans will be recorded on the relevant IC Loan Interest Deficiency Ledger.

IC Loan Costs

Each Asset Purchaser shall pay, on each Note Payment Date, a *pro rata* part of certain costs of the Issuer. The relevant part of the Aggregate IC Loan Costs payable by an Asset Purchaser on the succeeding Note Payment Date in respect of an IC Interest Periods will be equal to the Aggregate IC Loan Costs payable by all Asset Purchasers on the succeeding Note Payment Date, multiplied by the aggregate IC Loan Monthly Fractions in respect of all IC Loans of the relevant Asset Purchaser (in respect of such Asset Purchaser on any Note Payment Date, the amounts so calculated for the three successive IC Interest Periods immediately preceding such Note Payment Date together the '**IC Loan Costs**'). The '**Aggregate IC Loan Costs**' shall mean on a Note Payment Date the amounts due by the Issuer on that Note Payment Date under items (a) to (d)(inclusive) of the Issuer Interest Priority of Payments.

Interest Discount

Until an Asset Purchaser Enforcement Notice has been served the relevant Asset Purchaser shall be entitled to receive an interest discount on each Note Payment Date equal to the Interest Discount Payment on such Note Payment Date multiplied by the relevant IC Loan Quarterly Fraction. On each Note Payment Date the '**Interest Discount Payment**' will mean the amount by which the Issuer Interest Available Amount exceeds the Issuer Interest Payable Amount on such Note Payment Date. The '**Issuer Interest Payable Amount**' shall mean the amounts payable on the relevant Notes Payment Date under items (a) to (o) of the Issuer Interest Priority of Payments.

Repayment of principal

Any IC Loan Agreement will have a maximum maturity of twenty five (25) years, counting from the date the IC Loan is granted by the Issuer to the Asset Purchaser (the '**IC Loan Final Maturity Date**'). Any IC Loan outstanding on the Programme Final Maturity Date or, as the case may be, the IC Loan Final Maturity Date, shall be repaid in full on such date, subject to the relevant Asset Purchaser Trust Agreement.

If an IC Loan is repaid on the IC Loan Final Maturity Date, the Asset Purchaser may request a new IC Loan for a maximum amount equal to the Principal Outstanding Amount of such IC loan on the relevant IC Loan Final Maturity

Date. Any payment in respect of such request, or requests, as the case may be, may be set-off with the IC Loan that is repaid on such date.

On each Monthly Payment Date each Asset Purchaser has the right to pay all principal receipts received by it on the relevant Mortgage Receivables in the immediately preceding Mortgage Collection Period, up to the Asset Purchaser Pass-through Payable Amount, to the Issuer as repayment of principal under the IC Loans. On each Note Payment Date each Asset Purchaser shall pay all principal receipts received by it on the relevant Mortgage Receivables in the immediately preceding Note Collection Period, less any such amount paid on the two immediately preceding Monthly Payment Dates, up to the sum of the Asset Purchaser Pass-through Payable Amounts in respect of each Mortgage Collection Period falling in such Note Collection Period, to the Issuer as repayment of principal under the IC Loans (in order of seniority). The '**Programme Final Maturity Date**' means the Final Maturity Date of the last maturing Series and Class or Sub-class of Notes (which, for the avoidance of doubt, will automatically be prolonged through the issue of Notes with a later Final Maturity Date).

Furthermore, each Asset Purchaser shall undertake its best efforts to repay, which best efforts undertaking includes the sale of Mortgage Receivables to the extent necessary, on:

- a) each Step-Up Date relating to a Series and Class of Notes, or Sub-class thereof, as the case may be, and on each Note Payment Date thereafter an amount equal to the amount the Issuer requires on such Note Payment Date to redeem such Series and Class of Notes, or Sub-class thereof, as the case may be, in accordance with Condition 6(d) multiplied by the relevant IC Loan Quarterly Fraction, or any other allocation among the Asset Purchasers as agreed between the Issuer and each Asset Purchaser.
- b) each Note Payment Date on which a Notes Clean-up Call Option set out in Condition 6(e) relating to a Series and Class of Notes is exercised, an amount equal to the amount the Issuer requires on such Note Payment Date to redeem such Series of Notes in accordance with Condition 6(e) multiplied by the relevant IC Loan Quarterly Fraction, or any other allocation among the Asset Purchasers as agreed between the Issuer and each Asset Purchaser.
- c) each Note Payment Date on which a Programme Clean-up Call Option set out in Condition 6(f) is exercised by the Issuer, an amount equal to the amount the Issuer requires on such Note Payment Date to redeem the Notes in accordance with Condition 6(f) multiplied by the relevant IC Loan Quarterly Fraction, or any other allocation among the Asset Purchasers as agreed between the Issuer and each Asset Purchaser.
- d) each Note Payment Date on which the Notes are redeemed by the Issuer for tax reasons as set out in Condition 6(h), an amount equal to the amount the Issuer requires on such Note Payment Date to redeem the Notes in accordance with Condition 6(h) multiplied by the relevant IC Loan Quarterly Fraction, or any other allocation among the Asset Purchasers as agreed between the Issuer and each Asset Purchaser.

On each Note Payment Date on which the relevant Seller exercises its Regulatory Call Option, the relevant Asset Purchaser shall repay the IC Loans then owing under the relevant IC Loan Agreement to the Issuer by applying the proceeds of such sale to the Seller.

The amount payable to the Issuer under the IC Loans will be limited to the amounts available for such purpose to the relevant Asset Purchaser in accordance with the relevant Asset Purchaser Trust Agreement.

IC Loan Event of Default

In respect of the relevant Asset Purchaser if:

- a) an Enforcement Notice is given; or
- b) the relevant Asset Purchaser fails to pay any amount due and payable by it under or pursuant to the relevant IC Loan Agreement or any other Relevant Document to which it is party and, if such failure is capable of being remedied, such failure is not remedied within ten (10) business days after notice thereof has been given by the Security Trustee to such Asset Purchaser or such Asset Purchaser becoming aware of the failure to comply; or
- c) the relevant Asset Purchaser fails duly to perform or comply with any other obligation expressed to be assumed

- by it in the relevant IC Loan Agreement or under any other Relevant Document to which it is a party, if such failure is capable of being remedied, such failure is not remedied within ten (10) business days after notice thereof has been given by the Security Trustee to such Asset Purchaser or any such other party; or
- d) any representation, warranty or statement made by the relevant Asset Purchaser in the relevant IC Loan Agreement or in any of the other Relevant Documents to which it is a party or in any notice or other document, certificate or statement delivered by it pursuant hereto or thereto proves to have been, and continues to be after the expiration of any applicable grace period provided for in any Relevant Document, untrue or incorrect in any material respect; or
 - e) the relevant Asset Purchaser takes any corporate action or other steps are taken or legal proceedings are started or threatened against it for its dissolution ("*ontbinding*"), liquidation ("*vereffening*"), legal merger ("*juridische fusie*") or legal demerger ("*juridische splitsing*"); or
 - f) the Asset Purchaser has been declared bankrupt ("*faillissement*") or has been granted a suspension of payments ("*surseance van betaling*"), or has become subject to any analogous insolvency proceedings under any applicable law or the Asset Purchaser has applied for a declaration of bankruptcy or suspension of payments or its assets are placed under administration ("*onder bewindgesteld*") pursuant to such procedures; or
 - g) at any time it becomes unlawful for the Asset Purchaser to perform any or all of its obligations hereunder or under any other Relevant Documents to which it is a party; or
 - h) a creditor of the Asset Purchaser attaches, or takes possession of, all or any parts of the undertakings, assets, rights or revenues of the Asset Purchaser and the same is not released or discharged within thirty (30) days.

(each an '**IC Loan Event of Default**') then, except in the case of the occurrence of the event described under item (a) and (f), in which case the IC Loans, and each IC Loan, automatically becomes immediately due and payable together with accrued interest, the Security Trustee (on behalf of the Issuer) at its discretion may give notice (an '**Asset Purchaser Enforcement Notice**') (but in the case of the occurrence of any of the events mentioned under (b), (c), (d), (g) and (h), only if the Security Trustee shall have certified in writing to the relevant Asset Purchaser and the Issuer that such an event is, in its opinion, materially prejudicial to the Issuer) to the relevant Asset Purchaser that the IC Loans are, and each IC Loan shall become, immediately due and payable together with accrued interest.

Subordinated Loan

On each Note Payment Date on which the amounts credited to the Reserved Ledger of the Reserve Account exceed the lower of (i) the Class D Required Subordinated Amount and (ii) the Principal Amount Outstanding of all Class E Notes, the Issuer will advance an amount equal to the amount by which the Reserve Ledger exceeds the lower of (i) and (ii) (after taking into account any Reserve Ledger Release and any Reserved Ledger Repayment Debit on such date) (the "**Subordinated Loan Minimum Amount**") to the Asset Purchasers as subordinated loans under the relevant IC Loan Agreement (each such subordinated loan a "**Subordinated Loan**"). The amount will be advanced on a pro rata basis to all Asset Purchasers by reference to the amounts recorded on the IC Loan Principal Deficiency Ledgers on such Notes Payment Date (after application of the Asset Purchaser Interest Available Amount, without taking into account any Subordinated Loans advanced on such date). Each Asset Purchaser has an obligation to accept such Subordinated Loan.

Each Subordinated Loan will be credited to the relevant IC Loan Principal Deficiency Ledger (outside the relevant Asset Purchaser Interest Priority of Payments) and will form part of the Asset Purchaser Principal Available Amount on such date.

The interest on each Subordinated Loan will be equal to the interest on the Asset Purchaser Collection Account for the relevant period. The interest on the Subordinated Loans will only become due and payable on each Note Payment Date if and to the extent the relevant Asset Purchaser Interest Available Amount on such Note Payment Date exceeds the amounts required to meet items ranking higher than item (g) of the Asset Purchaser Interest Priority of Payments.

On each Note Payment Date the relevant Asset Purchaser shall be required to repay the Subordinated Loan with an amount equal to the amount by which the relevant Asset Purchaser Interest Available Amount on such Note Payment Date exceeds the amounts required to meet items ranking higher than item (h) of the Asset Purchaser Interest Priority

of Payments (if any)(for the avoidance of doubt, only to the extent such amount does not exceed the amount outstanding under the Subordinated Loans of such Asset Purchaser).

FORM OF THE NOTES

Each Series and Class of Notes, or if two or more Sub-classes of a Series and Class Notes will be issued, each such Sub-class will (unless otherwise indicated in the applicable Final Terms) be in bearer form and will be initially represented by a Temporary Global Note (or, if so specified in the applicable Final Terms a Permanent Global Note), without receipts, interest coupons or talons, which will either:

- (i) if the Global Notes are intended to be issued in New Global Note ('**NGN**') form, as stated in the applicable Final Terms, be delivered on or prior to the original Issue Date of the Series and Class to a common safekeeper (the '**Common Safekeeper**') for Euroclear and Clearstream, Luxembourg; and
- (ii) if the Global Notes are not intended to be issued in NGN form be delivered on or prior to the Issue Date of the Series and Class to (i) a common depositary (the '**Common Depositary**') on behalf of Euroclear and Clearstream, Luxembourg or (ii) Euroclear Netherlands or (iii) a depositary for other agreed clearing system.

Whilst any Note is represented by a Temporary Global Note and subject to TEFRA D selling restrictions, payments of principal and interest (if any) due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by the relevant clearing system(s) and the relevant clearing system(s) have given a like certification (based on the certifications they have received) to the Principal Paying Agent or the Paying Agent, as the case may be.

On and after the date (the '**Exchange Date**') which is not less than forty (40) days nor more than ninety (90) days after the date on which the Temporary Global Note is issued, interests in the Temporary Global Note will be exchangeable (free of charge), upon request as described therein, either for interests in a Permanent Global Note without receipts, interest coupons or talons or for definitive Notes (as indicated in the applicable Final Terms) in each case (if the Notes are subject to TEFRA D selling restrictions) against certification of beneficial ownership as described in the preceding paragraph unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest or principal due on or after the Exchange Date, unless upon due presentation of this Temporary Global Note for exchange as aforesaid, delivery of any of the Notes in definitive form or Coupons is improperly withheld or refused.

Payments of principal and interest (if any) on a Permanent Global Note will be made through the relevant clearing system(s) (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

Each Permanent Global Note will be exchangeable for Definitive Notes only in the circumstances described below. The Notes will be issued in such denominations as set forth in the applicable Final Terms save that the minimum denomination of each Notes will be such as may be allowed or required from time to time by the relevant central bank or regulatory authority (or equivalent body) or any laws or regulations applicable to the relevant Currency and save that the minimum denomination of each Note admitted to trading on a regulated market within the European Economic Area or offered to the public in a Member State of the European Economic Area in circumstances which would otherwise require the publication of a prospectus under the Prospectus Directive will be € 50,000 (or if the Notes are denominated in a currency other than euro, the equivalent amount in such currency). In respect of a Note held through a Common Depositary or a Common Safekeeper for Euroclear or Clearstream, Luxembourg, each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note will be entitled to receive any payment made in respect of that Note in accordance with the respective rules and procedures of Euroclear or, as the case may be, Clearstream, Luxembourg. Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes, which must be made by the holder of a Global Note, for so long as such Global Note is outstanding.

For so long as any Notes are represented by a Global Note, such Notes will be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, or Euroclear Netherlands or another agreed clearing system, as appropriate.

For so long as all of the Notes are represented by the Global Notes and such Global Notes are held by Euroclear Netherlands or on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear Netherlands or Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant accountholders rather than by publication as required by Condition 13 (provided that, in the case any publication required by a stock exchange, that stock exchange agrees or, as the case may be, any other publication requirement of such stock exchange will be met). Any such notice shall be deemed to have been given to the Noteholders on the seventh day after the day on which such notice is delivered to Euroclear Netherlands or Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

A Permanent Global Note will only be exchangeable upon an Exchange Event (free of charge), in whole or (subject to the Notes which continue to be represented by the Permanent Global Note being regarded by the relevant clearing system(s) as fungible with the Notes in definitive form issued in partial exchange for such Permanent Global Note) in part in accordance with the Issuer Trust Deed and the Conditions and the Applicable Final Terms, for security printed Notes in definitive form. An **'Exchange Event'** means (a) the Notes become immediately due and repayable by reason of an Event of Default, (b) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have or Euroclear Netherlands has, or any other agreed clearing system, as applicable, been closed for business for a continuous period of fourteen (14) days (other than by reason of holiday, statutory or otherwise) or has announced an intention permanently to cease business or has in fact done so and no alternative clearing system satisfactory to the Security Trustee is available or (c) as a result of any addition to, or change in the laws or regulations of the Netherlands or of any authority therein or thereof having power of tax, or in the interpretation or administration of such laws or regulations which becomes effective on or after the relevant Issue Date, the Issuer or any Paying Agent is or will be required to make any deduction or withholding on account of tax from any payment in respect of the Notes which would not be required if the Notes were in definitive form. If an Exchange Event occurs, then the Issuer shall, within thirty (30) days of the occurrence of the relevant event ((a), (b) or (c)) but not prior to the Exchange Date, subject to certification as to non-United States beneficial ownership, issue Definitive Notes (together with Coupons attached) in exchange for the whole (or the remaining part(s) outstanding) of the relevant Permanent Global Note which represents such Notes.

The Issuer will promptly give notice to Noteholders in accordance with Condition 13 upon the occurrence of an Exchange Event. In the event of the occurrence of any Exchange Event, Euroclear Netherlands or Euroclear and/or Clearstream, Luxembourg acting on the instructions of any holder of an interest in the Global Note may give notice to any of the Paying Agents requesting exchange and in the event of the occurrence of an Exchange Event as described in (b) above, the Issuer may also give notice to the Paying Agents requesting exchange. At the date hereof, Euroclear and Clearstream, Luxembourg and Euroclear Netherlands do not regard Notes in global form as fungible with Notes in definitive form.

In the case of Notes represented by a Global Note deposited with Euroclear Netherlands, a Noteholder shall not have the right to request delivery ("*uitlevering*") thereof under the Dutch Securities Giro Transfer Act ("*Wet giraal effectenverkeer*") other than in the Exchange Event as described above.

The following legend will appear on all Global Notes, Definitive Notes, receipts and interest coupons (including talons) which are subject to TEFRA D selling restrictions:

'ANY UNITED STATES PERSON (AS DEFINED IN THE UNITED STATES INTERNAL REVENUE CODE OF 1986 (THE "CODE")) WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165 (j) AND 1287 (a) OF THE CODE.'

The sections referred to in such legend provide that a United States person who holds a Note will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note and any gain (which might

otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

The following legend will appear on all Global Notes receipts and interest coupons (including talons) which are held by Euroclear Netherlands:

'NOTICE: THIS NOTE IS ISSUED FOR DEPOSIT WITH NEDERLANDS CENTRAAL INSTITUUT VOOR GIRAAL EFFECTENVERKEER (EUROCLEAR NETHERLANDS) AT AMSTERDAM, THE NETHERLANDS. ANY PERSON BEING OFFERED THIS NOTE FOR TRANSFER OR ANY OTHER PURPOSE SHOULD BE AWARE THAT THEFT OR FRAUD IS ALMOST CERTAIN TO BE INVOLVED.'

4. Interest

(I) *Interest on Fixed Rate Notes*

(a) *Period of Accrual*

Fixed Rate Notes shall bear interest on their Principal Amount Outstanding from and including the relevant Issue Date. Each Fixed Rate Note (or in the case of the redemption of part only of a Note that part only of such Fixed Rate Note) shall cease to bear interest from its due date for redemption unless, upon due presentation payment of the relevant amount of principal or any part thereof is improperly withheld or refused. In such event, interest will continue to accrue thereon (before and after any judgment) at the rate applicable to such Note up to but excluding the date on which, on presentation of such Note, payment in full of the relevant amount of principal is made or (if earlier) the seventh day after notice is duly given by any of the Paying Agents to the holder thereof (in accordance with Condition 13) that upon presentation thereof, such Fixed Rate payments will be made, provided that upon such presentation payment is in fact made. Whenever it is necessary to compute an amount of interest in

respect of any Fixed Rate Note for any period, such interest shall be calculated on the basis of the actual number of days in the Fixed Rate Interest Period concerned divided by a year of three hundred and sixty five (365) days or, in the case of a Fixed Rate Interest Period falling in a leap year, three hundred and sixty six (366) days.

(b) *Fixed Rate Interest Periods and Accrual Payment Dates*

Up to (but excluding) the Step-up Date interest on the Notes shall be payable by reference to successive yearly Fixed Rate Interest Period and will be payable per annum in arrear in euros or any other currency indicated in the Applicable Final Terms on the Note Payment Date specified in the Final Terms as Annual Payment Date. The first fixed rate interest period will commence on (and include) the interest commencement date set out in the Applicable Final Terms (the '**Interest Commencement Date**') and end on (but exclude) the same date in the next succeeding year and each following interest period will start (and include) on the same date in the relevant year and end on (but exclude) the same date in the next succeeding year or such other periods as may be specified in the Applicable Final Terms (each such Period an '**Fixed Rate Interest Period**').

(c) *Interest up to the Step-up Date*

Up to (but excluding) the relevant Step-up Date the rate of interest applicable to the Fixed Rate Notes will be as stated in the Applicable Final Terms.

(d) *Interest following the Step-up Date*

If on the relevant Step-up Date the Fixed Rate Notes of any Series and Class or Sub-class thereof have not been redeemed in full, a floating rate of interest will be applicable to such Notes from and including the relevant Step-up Date, equal to the sum of Euribor for three (3) months deposits, payable by reference to Floating Rate Interest Periods on each succeeding relevant Note Payment Date, plus a margin as specified in the Applicable Final Terms as calculated in accordance with Condition 4 II.

If the Fixed Rate Notes of a Series and Class or Sub-class are not redeemed on the relevant Step-up Date, and the Issuer notifies all Noteholders of such Series and Class or Sub-class:

- (i) within one (1) month after such Step-up Date that it will redeem the Notes on the immediately succeeding Note Payment Date, the interest rate applicable in respect of such Notes will be equal to the sum of two times the interest rate applicable prior to the Step-up Date for a Floating Rate Interest Period (which, for the avoidance of doubt means in respect of Fixed Rate Notes one quarter of annual interest applicable to such Fixed Rate Notes prior to the Step-up Date for a Fixed Rate Interest Period) and the interest rate applicable after the Step-up Date for a Floating Rate Interest Period, divided by three; and
- (ii) after one (1) month but within the second month after such Step-up Date that it will redeem the Notes on the immediately succeeding Note Payment Date, the interest rate applicable in respect of such Notes will be equal to the sum of the interest rate applicable prior to the Step-up Date for a Floating Rate Interest Period (which, for the avoidance of doubt means in respect of Fixed Rate Notes one quarter of annual interest applicable to such Fixed Rate Notes prior to the Step-up Date for a Fixed Rate Interest Period) and two times the interest rate applicable after the Step-up Date for a Floating Rate Interest Period, divided by three;

unless the Notes are not repaid on such Note Payment Date, in which case the Margin after the Step-up Date applies.

(II) *Interest on Floating Rate Notes*

(a) *Period of Accrual*

The Floating Rate Notes shall bear interest on their Principal Amount Outstanding (as defined in Condition 6(c)) from and including the relevant Issue Date. Each Floating Rate Note (or in the case of the redemption of part only of a Floating Rate Note that part only of such Note) shall cease to bear interest from its due date for redemption unless, upon due presentation payment of the relevant amount

of principal or any part thereof is improperly withheld or refused. In such event, interest will continue to accrue thereon (before and after any judgment) at the rate applicable to such Floating Rate Note up to but excluding the date on which, on presentation of such Floating Rate Note, payment in full of the relevant amount of principal is made or (if earlier) the seventh day after notice is duly given by the Paying Agent to the holder thereof (in accordance with Condition 13) that upon presentation thereof, such payments will be made, provided that upon such presentation payment is in fact made. Whenever it is necessary to compute an amount of interest in respect of any Floating Rate Note for any period, such interest shall be calculated on the basis of the actual number of days in the Floating Rate Interest Period (as defined below) concerned divided by a year of three hundred and sixty (360) days.

(b) *Floating Rate Interest Periods and Note Payment Dates*

Interest on the Notes shall be payable by reference to Floating Rate Interest Periods. Each successive floating rate interest period will commence on (and include) a relevant Note Payment Date and end on (but exclude) the next succeeding relevant Note Payment Date, except for the first Floating Rate Interest Period, which will commence on (and include) the relevant Issue Date and end on (but exclude) the first Note Payment Date as set out in the Applicable Final Terms (each such floating rate interest period a '**Floating Rate Interest Period**').

Interest on each of the Floating Rate Notes will be payable quarterly in arrear in euros or any other currency indicated in the Applicable Final Terms, in respect of the Principal Amount Outstanding of such Floating Rate Notes on the 28th day of September, December, March and June or if otherwise indicated in the Applicable Final Terms the months indicated in the Applicable Final Terms or, if such day is not a Business Day, the next succeeding Business Day, unless such Business Day falls in the next succeeding calendar month in which event interest on the Notes will be payable on the Business Day immediately preceding such day, in each year (each such day being a '**Note Payment Date**').

(c) *Interest up to the Step-up Date*

Unless otherwise specified in the Final Terms, up to (but excluding) the relevant Step-up Date, interest on the Floating Rate Notes denominated in euro (€) for each Floating Rate Interest Period will accrue at a rate equal to the sum of the Euro Interbank Offered Rate ('**Euribor**') for three (3) months deposits (or, in respect of the first Floating Rate Interest Period, the rate which represents the linear interpolation of Euribor for the relevant months deposits in euro, rounded, if necessary, to the 5th decimal place with 0.00005, being rounded upwards) plus a margin as specified in the Final Terms.

Unless otherwise specified in the Final Terms, up to (but excluding) the relevant Step-up Date, interest on the Floating Rate Notes denominated in Dollar (\$) for each Floating Rate Interest Period will accrue at a rate equal to the sum of the London Interbank Offered Rate for three (3) months deposits in US Dollars ('**Dollar Libor**') (or, in respect of the first Floating Rate Interest Period, the rate which represents the linear interpolation of Dollar Libor for the relevant months deposits in euro, rounded, if necessary, to the 5th decimal place with 0.00005, being rounded upwards) plus a margin as specified in the Final Terms.

If specified otherwise in the Final Terms, the rate of interest payable from time to time in respect of the Notes will be determined in the manner set out in the Applicable Final Terms.

(d) *Interest following the Step-up Date*

Unless otherwise specified in the Applicable Final Terms, if on the Step-up Date of any Series and Class, or Sub-class, as the case may be, of Floating Rate Notes denominated in euro (€) have not been redeemed in full, a floating rate of interest will be applicable to each such Notes denominated in euro (€) equal to the sum of Euribor for three (3) months deposits, payable by reference to Floating Rate Interest Periods on each succeeding relevant Note Payment Date, plus a margin as specified in the Applicable Final Terms.

- (i) within one (1) month after such Step-up Date that it will redeem the Notes on the immediately succeeding Note Payment Date, the Margin in respect of such Notes will be equal to the sum of two times the Margin prior to the Step-up Date and the Margin after the Step-up Date, divided by three; and
- (i) after one (1) month but within the second month after such Step-up Date that it will redeem the Notes on the immediately succeeding Note Payment Date, the interest rate applicable in respect of such Notes will be equal to the sum of the Margin prior to the Step-up Date and two times the Margin after the Step-up Date, divided by three;

unless the Notes are not repaid on such Note Payment Date, in which case the Margin after the Step-up Date applies.

(e) *Euribor*

For the purpose of Conditions 4(c) and (d) Euribor will be determined as follows:

- (i) the Reference Agent will obtain for each Floating Rate Interest Period the rate equal to the amount of Euribor for three (3) months deposits in euros. The Reference Agent shall use the Euribor rate as determined and published jointly by the European Banking Federation and ACI - The Financial Market Association and which appears for information purposes on the Reuters Screen EURIBOR 01 Page (or its successor sources)(or, if not available, any other display page on any screen service maintained by any registered information vendor (including, without limitation, the Reuter Monitor Money Rate Service, the Dow Jones Telerate Service and the Bloomberg Service) for the display of the Euribor rate selected by the Reference Agent) as at or about 11:00 a.m. (Central European time) on the day that is two (2) Business Days preceding the first day of each Floating Rate Interest Period (each an '**Euribor Interest Determination Date**').
- (ii) If, on the relevant Euribor Interest Determination Date, such Euribor rate is not determined and published jointly by the European Banking Association and ACI - The Financial Market Association, or if it is not otherwise reasonably practicable to calculate the rate under (i) above, the Reference Agent will:
 - (A) request the principal euro-zone office of each of four major banks in the euro-zone interbank market (Reference Banks) to provide a quotation for the rate at which three (3) months euro deposits are offered by it in the euro-zone interbank market at approximately 11.00 a.m. (Central European time) on the relevant Euribor Interest Determination Date to prime banks in the euro-zone interbank market in an amount that is representative for a single transaction at that time; and determine the arithmetic mean (rounded, if necessary, to the fifth decimal place with 0.000005 being rounded upwards) of such quotation as is provided; and

- (B) if fewer than two such quotations are provided as requested, the Reference Agent will determine the arithmetic mean (rounded, if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the rates quoted by major banks, of which there shall be at least two in number, in the euro-zone, selected by the Reference Agent, at approximately 11.00 a.m. (Central European time) on the relevant Euribor Interest Determination Date for three (3) months deposits to leading euro-zone banks in an amount that is representative for a single transaction in that market at that time,

and Euribor for such Floating Rate Interest Period shall be the rate per annum equal to the euro interbank offered rate for euro deposits as determined in accordance with this paragraph (e), provided that if the Reference Agent is unable to determine Euribor in accordance with the above provisions in relation to any Floating Rate Interest Period, Euribor applicable to the relevant Class of Notes during such Floating Rate Interest Period will be Euribor last determined in relation thereto.

(f) *Dollar Libor*

For the purpose of Condition 4(c) and (d) Dollar Libor will be determined as follows:

- (i) The Reference Agent will determine the rate sponsored by the British Bankers' Association for deposits in US Dollars ('**Dollar Libor**') for a period equal to the relevant Floating Rate Interest Period which appears on the Reuters Screen LIBOR01 (or its successor sources)(or such other service as may be nominated as the information vendor, for the purpose of displaying British Bankers' Association settlement rates for US Dollars) as of 11.00 a.m. (London time) on the day that is two (2) Business Days preceding the first day of each Floating Rate Interest Period (each a '**Dollar Libor Interest Determination Date**', and together with the Euribor Interest Determination Date, the '**Interest Determination Date**').
- (ii) If such rate does not appear on that page, or if it is not otherwise reasonably practicable to calculate the rate under (i) above, the Reference Agent will:
 - (A) request the principal London office of each of four major banks in the London interbank market (Reference Banks) to provide a quotation for the rate at which it offers deposits in US Dollars at approximately 11.00 a.m. (London time) on the relevant Dollar Libor Interest Determination Date to prime banks in the London interbank market for a period equal to the relevant Floating Rate Interest Period and in an amount that is representative for a single transaction in that market at that time; and
 - (B) if at least two quotations are provided, determine the arithmetic mean (rounded, if necessary, to the fifth decimal place with 0.000005 being rounded upwards) of such quotations; and
- (iii) if fewer than two such quotations are provided, the Reference Agent will determine the arithmetic mean (rounded if necessary as aforesaid) of the rates quoted by major banks in New York City, selected by the Reference Agent, at approximately 11.00 a.m. (New York City time) on the first day of the relevant Floating Rate Interest Period for deposits in US Dollars to leading European banks for a period equal to the relevant Floating Rate Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Dollar Libor for such Floating Rate Interest Period shall be the rate per annum equal to the London Interbank Offered Rate for deposits in US Dollars as determined in accordance with this paragraph (f), provided, however, that if the Reference Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Floating Rate Interest Period, Dollar Libor applicable to the Notes during such Floating Rate Interest Period will be the rate, or as the case may be, the arithmetic mean last determined in relation to the Notes in respect of a preceding Floating Rate Interest Period.

(g) *Determination of Floating Rate of Interest and Calculation of the Floating Interest Amount*

The Reference Agent will, as soon as practicable after 11.00 a.m. (Central European Time in respect of euros (€) and London time or New York Time, as the case may be, in respect of dollars (\$)) on each relevant Interest Determination Date, determine the floating rates of interest referred to in paragraphs (c) and (d) above for each Series and Class, or Sub-class, as the case may be, of Notes (the '**Floating Rate of Interest**') and calculate the amount of interest payable on such Notes for the following Floating Rate Interest Period (the '**Floating Interest Amount**') by applying the relevant Floating Rate of Interest to the Principal Amount Outstanding of the relevant Series and Class, or Sub-class, as the case may be, of Notes. The determination of the relevant Floating Rate of Interest and the Floating Interest Amount by the Reference Agent shall (in the absence of manifest error) be final and binding on all parties.

(h) *Notification of the Floating Rate of Interest and the Floating Interest Amount*

The Reference Agent will cause the relevant Floating Rate of Interest and the relevant Floating Interest Amount and the relevant Note Payment Date applicable to each relevant Series and Class, or Sub-class, as the case may be, of Notes to be notified to the Issuer, the Security Trustee, the Paying Agents, the Administrator, Euronext Amsterdam N.V. and to any competent listing authority, stock exchange and/or quotation system on or by which the Notes are listed, quoted and/or traded and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth Business Day thereafter. The Floating Interest Amount and relevant Note Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Floating Rate Interest Period.

(i) *Determination or Calculation by Security Trustee*

If the Reference Agent at any time for any reason does not determine the relevant Floating Rate of Interest or fails to calculate the relevant Floating Interest Amount in accordance with paragraph (e) or (f) above, as the case may be, the Security Trustee shall determine the relevant Floating Rate of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the procedure described in paragraph (g) above), it shall deem fair and reasonable under the circumstances, or, as the case may be, the Security Trustee shall calculate the Floating Interest Amount in accordance with paragraph (g) above, and each such determination or calculation shall be final and binding on all parties.

(j) *Reference Banks and Reference Agent*

The Issuer will procure that, as long as any of the Notes remains outstanding, there will at all times be four Reference Banks and a Reference Agent. The Issuer has, subject to prior written consent of the Security Trustee, the right to terminate the appointment of the Reference Agent or of any Reference Bank by giving at least ninety (90) days' notice in writing to that effect. Notice of any such termination will be given to the holders of the relevant Class of Notes in accordance with Condition 13. If any person shall be unable or unwilling to continue to act as a Reference Bank or the Reference Agent (as the case may be) or if the appointment of any Reference Bank or the Reference Agent shall be terminated, the Issuer will, with the prior written consent of the Security Trustee, appoint a successor Reference Bank or Reference Agent (as the case may be) to act in its place, provided that neither the resignation nor removal of the Reference Agent shall take effect until a successor approved in writing by the Security Trustee has been appointed.

- (b) At the applicable Final Maturity Date, or such earlier date the Notes of a Series and Class, or Sub-class, as the case may be, become due and payable, such Notes should be presented for payment together with all unmatured Coupons appertaining thereto, failing which the full amount of any such missing unmatured Coupons (or, in the case of payment not being made in full, that proportion of the full amount of such missing unmatured Coupons which the sum of principal so paid bears to the total amount of principal due) will be deducted from the sum due for payment. Each amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of five (5) years following the due date for payment of such principal (whether or not such Coupons would have become unenforceable pursuant to Condition 8).
- (c) If the relevant Note Payment Date is not a day on which banks are open for business in the place of presentation of the relevant Note or Coupon ('**Local Business Day**'), the holder thereof shall not be entitled to payment until the next following such day, or to any interest or other payment in respect of such delay, provided that in the case of payment by transfer to an euro account or any other currency account as referred to above, the Paying Agents shall not be obliged to credit such account until the Local Business Day immediately following the day on which banks are open for business in the Netherlands and Luxembourg.  - (i) the Issuer has appointed paying agents with specified offices outside the United States with the reasonable expectation that such paying agents would be able to make payment in US Dollars at such specified offices outside the United States of the full amount of principal and interest on the notes in the manner provided above when due;
 - (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in US Dollars; and
 - (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it

remains outstanding at the rate of interest applicable to the Class C Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class C Note on the next succeeding Note Payment Date.

In the event that on any relevant Note Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class D Notes on the next Note Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of the interest due on such Note Payment Date to the holders of the Class D Notes. In the event of a shortfall, the Issuer shall credit the Class D Interest Deficiency Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the Class D Notes, on any relevant Note Payment Date, in accordance with this Condition falls short of the aggregate amount of interest payable on the Class D Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Class D Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class D Note on the next succeeding Note Payment Date.

In the event that on any relevant Note Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class E Notes on the next Note Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of the interest due on such Note Payment Date to the holders of the Class E Notes. In the event of a shortfall, the Issuer shall credit the Class E Interest Deficiency Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the Class E Notes, on any relevant Note Payment Date, in accordance with this Condition falls short of the aggregate amount of interest payable on the Class E Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Class E Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class E Note on the next succeeding Note Payment Date.

(b) *Principal*

Upon and after the occurrence of a Trigger Event or the service of an Enforcement Notice until the date on which the Principal Amount Outstanding of the Class A Notes is reduced to zero, the Class B Noteholders will not be entitled to any repayment of principal in respect of the Class B Notes. If, on any Note Payment Date, there is a balance on the Class B Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption, including mandatory redemption in accordance with and subject to Condition 6(b), of each Class B Note on such Note Payment Date shall not exceed its Principal Amount Outstanding less the Class B Principal Shortfall on such Note Payment Date. The '**Class B Principal Shortfall**' shall mean an amount equal to the quotient of the balance on the Class B Principal Deficiency Ledger divided by the Principal Amount Outstanding of Class B Notes on such Note Payment Date multiplied by the Principal Amount Outstanding of such Class B Note. The Class B Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class B Notes after such redemption.

Upon and after the occurrence of a Trigger Event or the service of an Enforcement Notice until the date on which the Principal Amount Outstanding of the Class A Notes and the Class B Notes is reduced to zero, the Class C Noteholders will not be entitled to any repayment of principal in respect of the Class C Notes. If, on any Note Payment Date, there is a balance on the Class C Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption, including mandatory redemption in accordance with and subject to Condition 6(b), of each Class C Note on such Note Payment Date shall not exceed its Principal Amount Outstanding less the Class C Principal Shortfall. The '**Class C Principal Shortfall**' shall mean an amount equal to the quotient of the balance on the Class C Principal Deficiency Ledger, divided by the Principal Amount Outstanding of Class C Notes on such Note Payment Date

multiplied by the Principal Amount Outstanding of such Class C Note. The Class C Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class C Notes after such redemption.

Upon and after the occurrence of a Trigger Event or the service of an Enforcement Notice until the date on which the Principal Amount Outstanding of the Class A Notes, the Class B Notes and the Class C Notes is reduced to zero, the Class D Noteholders will not be entitled to any repayment of principal in respect of the Class D Notes. If, on any Note Payment Date, there is a balance on the Class D Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption, including mandatory redemption in accordance with and subject to Condition 6(b), of each Class D Note on such Note Payment Date shall not exceed its Principal Amount Outstanding less the Class D Principal Shortfall. The '**Class D Principal Shortfall**' shall mean an amount equal to the quotient of the balance on the Class D Principal Deficiency Ledger, divided by the Principal Amount Outstanding of Class D Notes outstanding on such Note Payment Date multiplied by the Principal Amount Outstanding of such Class D Note. The Class D Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class D Notes after such redemption.

If, on any Note Payment Date, the amount on the balance of the Unreserved Ledger is less than the Principal Amount Outstanding of all Class E Notes, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Class E Note on such Note Payment Date shall not exceed its Principal Amount Outstanding less the Class E Principal Shortfall. The '**Class E Principal Shortfall**' shall mean, on any Note Payment Date, the Principal Amount Outstanding of the relevant Class E Note on such Note Payment Date minus an amount equal to the balance on the Unreserved Ledger on such Payment Date (after giving effect to any issue of Class E Notes on such date and any other drawing from the Unreserved Ledger on such date), divided by the Principal Amount Outstanding of all Class E Notes outstanding on such Note Payment Date (after giving effect to any issue of Class E Notes on such date but before any repayment of Class E Notes on such date), multiplied by the Principal Amount Outstanding of such Class E Note. The Class E Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class E Notes after such redemption.

(c) *General*

In the event that the Security in respect of the Notes and the Coupons appertaining thereto has been fully enforced and the proceeds of such enforcement, after payment of all other claims ranking under the Issuer Trust Deed in priority to a Class of Notes are insufficient to pay in full all principal and interest and other amounts whatsoever due in respect of such Class of Notes, the Noteholders of the relevant Class of Notes shall have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

10. Events of Default

The Security Trustee at its discretion may, and if so directed by an Extraordinary Resolution (in respect of all Series) of the Noteholders of the highest ranking Class of Notes outstanding (subject, in each case, to being indemnified to its satisfaction) (in each case, the '**Relevant Class**') shall (but in the case of the occurrence of any of the events mentioned in (b) below, only if the Security Trustee shall have certified in writing to the Issuer that such an event is, in its opinion, materially prejudicial to the Noteholders of the Relevant Class) give notice (an '**Enforcement Notice**') to the Issuer that the Notes are, and each Note shall become, immediately due and payable at their or its Principal Amount Outstanding, together with accrued interest, if any of the following shall occur:

- (a) default is made for a period of fifteen (15) days or more in the payment on the due date of any amount due in respect of the Notes; or
- (b) the Issuer fails to perform any of its other obligations binding on it under the Notes, the Issuer Trust Deed, the Paying Agency Agreement or the Pledge Agreements and, except where such failure, in the reasonable opinion of the Security Trustee, is incapable of remedy, such default continues for a period

of thirty (30) days after written notice by the Security Trustee to the Issuer requiring the same to be remedied; or

- (c) if a conservatory attachment ("*conservatoir beslag*") or an executory attachment ("*executoriaal beslag*") on any major part of the Issuer's assets is made and not discharged or released within a period of thirty (30) days; or
- (d) if any order shall be made by any competent court or other authority or a resolution passed for the dissolution or winding-up of the Issuer or for the appointment of a liquidator or receiver of the Issuer or of all or substantially all of its assets; or
- (e) the Issuer makes an assignment for the benefit of, or enters into any general assignment ("*akkoord*") with its creditors; or
- (f) the Issuer files a petition for a suspension of payments ("*surseance van betaling*") or for bankruptcy ("*faillissement*") or is declared bankrupt;

provided that, if Notes of a higher ranking Class are outstanding, no Enforcement Notice may or shall be given by the Security Trustee to the Issuer in respect of a lower ranking Class of Notes, irrespective of whether an Extraordinary Resolution is passed by the Noteholders of the lower Class(es) of Notes, unless an Enforcement Notice in respect of the highest ranking Class of Notes outstanding has been given by the Security Trustee. In exercising its discretion as to whether or not to give an Enforcement Notice to the Issuer in respect of the highest ranking Class of Notes outstanding, the Security Trustee shall not be required to have regard to the interests of the Noteholders of a lower ranking Class of Notes.

11. Enforcement

- (a) At any time after the Notes of any Class become due and payable, the Security Trustee may, at its discretion and without further notice, take such steps and/or institute such proceedings as it may think fit to enforce the terms of the Issuer Trust Deed, the Pledge Agreements and the Notes, but it need not take any such proceedings unless (i) it shall have been directed by an Extraordinary Resolution of the Noteholders of the highest ranking Class of Notes of all Series outstanding and (ii) it shall have been indemnified to its satisfaction.
- (b) No Noteholder may proceed directly against the Issuer unless the Security Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.
- (c) The Noteholders and the Security Trustee may not institute against, or join any person in instituting against, the Issuer any bankruptcy, winding-up, reorganisation, arrangement, insolvency or liquidation proceeding. The Noteholders accept and agree that the only remedy of the Security Trustee against the Issuer after any of the Notes have become due and payable pursuant to Condition 10 above is to enforce the Security.

12. Indemnification of the Security Trustee

The Issuer Trust Deed contains provisions for the indemnification of the Security Trustee and for its relief from responsibility.

13. Notices

With the exception of the publications of the Reference Agent in Condition 4 and of the Issuer in Condition 6, all notices to the Noteholders will only be valid if published in at least one daily newspaper of wide circulation in the Netherlands, or, if all such newspapers shall cease to be published or timely publication therein shall not be practicable, in such newspaper as the Security Trustee shall approve having a general circulation in Europe and as long as the Notes are admitted to listing, trading and/or quotation on Euronext Amsterdam or by any other competent authority, stock exchange and/or quotation system, notice shall also be published in such other place as may be required by the rules and regulations of such competent authority, stock exchange and/or quotation system. Any such notice shall be deemed to have been given on the first date of such

publication. If publication as provided above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Security Trustee shall approve.

14. **Meetings of Noteholders; Modification; Consents; Waiver**

The Issuer Trust Deed contains provisions for convening meetings of the Noteholders to consider matters affecting the interests, including the sanctioning by Extraordinary Resolution of a change of any of these Conditions or any provisions of the Relevant Documents.

(a) Meetings of Noteholders

A meeting of Noteholders may be convened by the Issuer, the Security Trustee or by Noteholders of any Series and Class holding not less than 10 per cent. in Principal Amount Outstanding of the Notes of such Series and Class.

In respect of each Class of Notes the Issuer Trust Deed provides that :

- (i) A resolution which, in the sole opinion of the Security Trustee, affects the interests of the holders of a Class of Notes of one Series only, shall be deemed to have been duly passed, if passed at a meeting of the Noteholders of such Class of that Series;
- (ii) A resolution which, in the sole opinion of the Security Trustee, affects the interests of the holders of a Class of Notes of any two or more Series but does not give rise to a conflict of interest between the Noteholders of such Class of such two or more Series, shall be deemed to have been duly passed, if passed at a single meeting of the Noteholders of such Class of such two or more Series;
- (iii) A resolution which, in the sole opinion of the Security Trustee, affects the interests of the holders of a Class of Notes of any two or more Series and gives or may give rise to a conflict of interest between the Noteholders of such Class of such two or more Series, shall be deemed to have been duly passed only, instead of being passed in a single meeting of such Noteholders, if passed at separate meetings of the Noteholders of such Class of such two or more Series;

In respect of each Sub-class of Notes the Issuer Trust Deed provides that :

- (i) A resolution which, in the sole opinion of the Security Trustee, affects the interests of the holders of one Sub-class of a Class of Notes only, shall be deemed to have been duly passed, if passed at a meeting of the Noteholders of such Sub-class of that Class;
- (ii) A resolution which, in the sole opinion of the Security Trustee, affects the interests of the holders of more than one Sub-class of Notes of the same Class but does not give rise to a conflict of interest between the Noteholders of such Sub-classes of Notes, shall be deemed to have been duly passed, if passed at a single meeting of the Noteholders of such Sub-classes of Notes;
- (iii) A resolution which, in the sole opinion of the Security Trustee, affects the interests of the holders of more than one Sub-class of the same Class of Notes and gives or may give rise to a conflict of interest between the Noteholders of such Sub-classes, shall be deemed to have been duly passed only, instead of being passed in a single meeting of such Noteholders, if passed at separate meetings of the Noteholders of such Sub-classes of Notes;

(b) Basic Terms Change

No change of certain terms by the Noteholders of any Class of any Series including the date of maturity of the Notes of the relevant Class of the relevant Series, or a change which would have the effect of postponing any day for payment of interest in respect of such Notes, reducing or cancelling the amount of principal payable in respect of such Notes or altering the majority required to pass an Extraordinary Resolution or any alteration of the date or priority of redemption of such Notes (any such change in respect of any such class of Notes referred to below as a '**Basic Terms Change**') shall be effective unless such Basic Term Change is sanctioned

by an Extraordinary Resolution of the Noteholders of the relevant Class and Series, except that, if the Security Trustee is of the opinion that such a Basic Terms Change is being proposed by the Issuer as a result of, or in order to avoid, an Event of Default, no such Extraordinary Resolution is required.

(c) Extraordinary Resolution

Quorum and majority

The quorum for any meeting convened to consider an Extraordinary Resolution for the Notes of any Series and Class or of any one or more Series of the same Class or of one or more Sub-classes, will be two-thirds of the Principal Amount Outstanding of the Notes of such Series and Class or of such one or more Series of the same Class, or of such one or more Sub-classes and at such a meeting an Extraordinary Resolution is adopted with not less than a two-third majority of the validly cast votes, except that the quorum required for an Extraordinary Resolution including the sanctioning of a Basic Terms Change shall be at least 75 per cent. of the amount of the Principal Amount Outstanding of the Notes of such Series and Class or of such one or more Series of the same Class, or of such one or more Sub-classes and the majority required shall be at least 75 per cent. of the validly cast votes at that Extraordinary Resolution. If at such meeting the aforesaid quorum is not represented, a second meeting of Noteholders will be held within one (1) month, with due observance of the same formalities for convening the meeting which governed the convening of the first meeting; at such second meeting an Extraordinary Resolution is adopted with not less than a two-thirds majority of the validly cast votes, except that for an Extraordinary Resolution including a sanctioning of a Basic Terms Change the majority required shall be 75 per cent. of the validly cast votes, regardless of the Principal Amount Outstanding of the Notes of such Series and Class or of such one or more Series of the same Class, or of such one or more Sub-classes then represented.

Any Extraordinary Resolution duly passed shall be binding on all Noteholders of the relevant Class and relevant one or more Series, or of such one or more Sub-classes (whether or not they were present at the meeting at which such resolution was passed).

A resolution signed by or on behalf of all the Noteholders of the relevant one or more Series and Class or relevant one or more Sub-classes, who for the time being are entitled to receive notice of a meeting under the Issuer Trust Deed shall for all purposes be as valid and effective as an Extraordinary Resolution passed by a meeting of such one or more Series and Class of Noteholders or such one or more Sub-classes of Noteholders.

Limitations

No Extraordinary Resolution to sanction a change which would have the effect of accelerating or increasing the maturity of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes of any one or more Series, as the case may be, or any date for payment of interest thereon, increasing the amount of principal or the rate of interest payable in respect of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes of any one or more Series, as the case may be, shall take effect unless it shall have been sanctioned by an Extraordinary Resolution of the Noteholders of the other Classes of each Series of the Notes then outstanding or such change is in the opinion of the Security Trustee not materially prejudicial to the interests of other Noteholders of each Series.

An Extraordinary Resolution of the Class B Noteholders of any Series or any Sub-class thereof and/or the Class C Noteholders of any Series or any Sub-class thereof and/or the Class D Noteholders of any Series or any Sub-class thereof shall only be effective when the Security Trustee is of the opinion that it will not be materially prejudicial to the interests of the Class A Noteholders of each Series and/or, as the case may be, the Class B Noteholders of each Series and/or, as the case may be, the Class C Noteholders of each Series and/or, as the case may be, the Class D Noteholders of each Series or it is sanctioned by an Extraordinary Resolution of the Class A Noteholders of each Series, the Class B Noteholders of each Series, or the Class C Noteholders of each Series, or the Class D Noteholders of each Series, as the case may be. The Issuer Trust Deed imposes no such limitations on the powers of the Class A Noteholders of any Series, or Sub-class thereof (subject to this Condition 14), the

exercise of which will be binding on the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders (in any case of that Series or of any other Series), irrespective of the effect on their interests.

(d) Programme Resolution

The quorum at any such meeting for passing a Programme Resolution shall be one or more persons holding or representing more than two-thirds of the aggregate Principal Amount Outstanding of the Notes of such Class or, at any adjourned and reconvened meeting, one or more persons being or representing Noteholders of such Class of Notes, whatever the aggregate principal Amount Outstanding of such Class of Notes so held or represented by them, provided that if such Programme Resolution relates to the removal and replacement of any or all of the managing directors of the Security Trustee, at least 30 per cent. of the Notes of the relevant Class of all Series should be represented on any second meeting. Any such meeting to consider a Programme Resolution may be convened by the Issuer, the Security Trustee or by Noteholders of such Class of Notes. A Programme Resolution passed at any meeting of the Noteholders of all Series of such Class of Notes shall be binding on all Noteholders of all Series of such Class of Notes, whether or not they are present at the meeting.

Any such modification, authorisation or waiver shall be binding on the Noteholders and, if the Security Trustee so requires, such modification shall be notified to the Noteholders of such Series and Class or such Sub-class of Notes or of any Series and Class of Notes in accordance with Condition 13 as soon as practicable thereafter.

(f) Exercise of Security Trustee's functions

In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Security Trustee shall have regard to the interests of the Noteholders of a Class, Series or Series and Class or Sub-class thereof, and shall not have regard to the consequences of such exercise for individual Noteholders and the Security Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

15. Replacements of Notes and Coupons

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the office of the Paying Agents upon payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered, in the case of Notes together with all unmatured Coupons appertaining thereto, in the case of Coupons together with the Note and all unmatured Coupons to which they appertain ("*mantel en blad*"), before replacements will be issued.

16. Governing Law

The Notes and Coupons are governed by, and will be construed in accordance with, the laws of the Netherlands. In relation to any legal action or proceedings arising out of or in connection with the Notes and Coupons the Issuer irrevocably submits to the jurisdiction of the District Court in Amsterdam, the Netherlands.

DESCRIPTION OF SECURITY

As further security for the performance by the Issuer and each Asset Purchaser of its obligations under the Relevant Documents, the Issuer and each Asset Purchaser grant rights of pledge on (most of) their assets in favour of the Security Trustee. In order to secure the valid creation of these pledges, the Issuer and each Asset Purchaser will undertake as a separate and independent obligation, by way of parallel debt, to pay to the Security Trustee amounts due by it to the Programme Secured Parties. These Programme Parallel Debts and the corresponding Pledge Agreements are described in more detail below.

The Issuer will enter into an Issuer Parallel Debt Agreement. In the Issuer Parallel Debt Agreement the Issuer will irrevocably and unconditionally undertake to pay to the Security Trustee (the '**Issuer Parallel Debt**') which will be equal to the aggregate amount due ("*verschuldigd*") by the Issuer:

- (i) as fees or other remuneration to the Issuer Director, the Security Trustee Director and the Holding Director under the Issuer Management Agreement, the Security Trustee Management Agreement and the Holding Management Agreement;
- (ii) as fees and expenses to the Issuer Administrator under the Issuer Administration Agreement;
- (iii) as fees and expenses to the Paying Agents and the Reference Agent under the Paying Agency Agreement;
- (iv) after accession of an Issuer Currency Swap Counterparty, to each such Issuer Currency Swap Counterparty under the relevant Issuer Currency Swap Agreement; and
- (v) to the Noteholders under the Notes;

(the parties referred to in item (i) through (v), together the '**Issuer Secured Parties**').

The Issuer Parallel Debt constitutes the separate and independent obligations of the Issuer and constitutes the Security Trustee's own separate and independent claim ("*eigen en zelfstandige vordering*") to receive payment of the Issuer Parallel Debt from the Issuer. Upon receipt by the Security Trustee of any amount in payment of the Issuer Parallel Debt, the payment obligations of the Issuer to the Issuer Secured Parties shall be reduced by an amount equal to the amount so received.

Each Asset Purchaser will enter into an Asset Purchaser Trust Agreement. In the relevant Asset Purchaser Trust Agreement, the relevant Asset Purchaser will irrevocably and unconditionally guarantee the obligations of the Issuer under the Issuer Parallel Debt to the Security Trustee (each an '**Asset Purchaser Guarantee**').

In the relevant Asset Purchaser Trust Agreement the relevant Asset Purchaser will also irrevocably and unconditionally undertake to pay to the Security Trustee (the '**Asset Purchaser Parallel Debt**') and together with the Issuer Parallel Debt, the '**Programme Parallel Debts**') which will be equal to the aggregate amount due ("*verschuldigd*") by the relevant Asset Purchaser:

- (i) as fees or other remuneration to the relevant Asset Purchaser Director under the Asset Purchaser Management Agreement;
- (ii) as fees and expenses to the Asset Purchaser Administrator and the Pool Servicer under the relevant Asset Purchaser Servicing Agreement;
- (iii) to the Asset Purchaser Cashflow Swap Counterparty under the relevant Asset Purchaser Cashflow Swap Agreement;
- (iv) to the relevant Seller (a) under the relevant Asset Purchaser Mortgage Receivables Purchase Agreement and (b) under the relevant Deeds of Sale, Assignment and Pledge;
- (v) to the relevant Savings Participants under the relevant Sub-participation Agreement;
- (vi) to the Issuer under the relevant IC Loan Agreement; and
- (vii) to any of the other Asset Purchasers under the DPP Subordinated Loan Agreement;

(the parties referred to in item (i) through (vii), together the relevant '**Asset Purchaser Secured Parties**' and together with the Issuer Secured Parties, the '**Programme Secured Parties**').

As set out above, each Asset Purchaser undertakes to guarantee all obligations of the Issuer under the Issuer Parallel Debt towards the Security Trustee. This Asset Purchaser Guarantee is only granted to enable each Asset Purchaser to also secure the obligations of the Issuer under the Issuer Parallel Debt without causing a subrogation claim ("*vordering uit subrogatie*") to arise when such security is enforced.

The relevant Asset Purchaser Parallel Debt constitutes the separate and independent obligations of the relevant Asset Purchaser and constitutes the Security Trustee's own separate and independent claim ("*eigen en zelfstandige vordering*") to receive payment of the relevant Asset Purchaser Parallel Debt from the relevant Asset Purchaser. Upon receipt by the Security Trustee of any amount in payment of the relevant Asset Purchaser Parallel Debt, the payment obligations of the relevant Asset Purchaser to the relevant Asset Purchaser Secured Parties shall be reduced by an amount equal to the amount so received.

To the extent that the Security Trustee irrevocably and unconditionally receives any amount in payment of the Programme Parallel Debts or any of the Asset Purchaser Guarantees, the Security Trustee shall distribute such amount among the relevant Programme Secured Parties in accordance with the Priority of Payments upon Enforcement, save for amounts due to the Savings Participants in connection with the Participation. The amounts due to the Programme Secured Parties, other than the Savings Participants, will broadly be equal to amounts recovered ("*verhaald*") by the Security Trustee on the Mortgage Receivables and the other assets pledged under the Asset Purchaser Receivables Pledge Agreements and the Asset Purchaser Assets Pledge Agreements and the Issuer Assets Pledge Agreement, but in respect of the Savings Mortgage Receivables and Hybrid Savings Mortgage Receivables, only to the extent the amount received exceeds the Participation in the relevant Savings Mortgage Receivables and the relevant Hybrid Savings Mortgage Receivables.

Each Asset Purchaser undertakes to grant a first ranking right of pledge ("*pandrecht*") in the relevant Deed of Sale, Assignment and Pledge under a receivables pledge agreement between such Asset Purchaser and the Security Trustee dated the Programme Closing Date or the relevant Asset Purchaser Accession Date (each an '**Asset Purchaser Receivables Pledge Agreement**') over the Relevant Mortgage Receivables and any Beneficiary Rights relating thereto to the Security Trustee. Such right of pledge will in respect of the Mortgage Receivables and any Beneficiary Rights relating thereto be vested on each Mortgage Purchase Date on which they are acquired, and will secure the payment obligations of the relevant Asset Purchaser to the Security Trustee under the relevant Asset Purchaser Trust Agreement, including the Asset Purchaser Parallel Debt and the Asset Purchaser Guarantee and any other Relevant Asset Purchaser Documents. The pledge on the relevant Mortgage Receivables and the Beneficiary Rights relating thereto will not be notified to the Borrowers, except in case certain events occur relating to the Asset Purchaser and/or the Issuer, including the giving of an Enforcement Notice by the Security Trustee (the '**Asset Purchaser Pledge Notification Events**'). Prior to notification of the pledge to the Borrowers and the Insurance Companies, the pledge will be a 'silent' right of pledge ("*stil pandrecht*") within the meaning of section 3:239 of the Netherlands Civil Code.

Each Asset Purchaser will also vest rights of pledge in favour of the Security Trustee under an assets pledge agreement between, *inter alia*, such Asset Purchaser and the Security Trustee dated the Programme Closing Date or the relevant Asset Purchaser Accession Date (each an '**Asset Purchaser Assets Pledge Agreement**'). The rights of pledge created in the Asset Purchaser Assets Pledge Agreement secure, *inter alia*, any and all liabilities of the relevant Asset Purchaser to the Security Trustee resulting from or in connection with the relevant Asset Purchaser Trust Agreement, including the Asset Purchaser Parallel Debt and the Asset Purchaser Guarantee, and any other Relevant Asset Purchaser Documents and will be vested on all rights of the relevant Asset Purchaser under or in connection with (i) the relevant Asset Purchaser Mortgage Receivables Purchase Agreement, (ii) the relevant Asset Purchaser Servicing Agreement, (iii) the relevant Asset Purchaser GIC (iv) the relevant Asset Purchaser Sub-participation Agreement, (v) the relevant Asset Purchaser Cashflow Swap Agreement and (vi) the relevant Asset Purchaser Accounts. These rights of pledge will be notified to the obligors and will, therefore be a "disclosed" right of pledge ("*openbaar pandrecht*").

The Issuer will also vest rights of pledge in favour of the Security Trustee under the assets pledge agreement between, *inter alia*, the Issuer and the Security Trustee dated the Programme Closing Date (the '**Issuer Assets**

Pledge Agreement'). The rights of pledge created in the Issuer Assets Pledge Agreement secure, *inter alia*, any and all liabilities of the Issuer to the Security Trustee resulting from or in connection with the Issuer Parallel Debt Agreement and any other Relevant Issuer Documents and will be vested on all rights of the Issuer under or in connection with (i) the Issuer Administration Agreement, (ii) each IC Loan Agreement, including but not limited to the IC Loans, (iii) the Issuer GIC, including but not limited to all balances standing to the credit of the Issuer Accounts from time to time, (iv) any Issuer Currency Swap Agreement, and (v) all rights of the Issuer against the Security Trustee. These rights of pledge will be notified to the obligors and will, therefore be a "disclosed" right of pledge ("*openbaar pandrecht*").

The security rights described above shall serve as security for the benefit of the Programme Secured Parties, including each of the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders, but, *inter alia*, amounts owing to Noteholders of a lower ranking Class of Notes will rank in priority of payment after amounts owing to the Noteholders of a higher ranking Class of Notes (see *Credit Structure Issuer* above).

TAXATION IN THE NETHERLANDS

This section provides a general description of the main Netherlands tax issues and consequences of acquiring, holding, redeeming and/or disposing of the Notes. This summary provides general information only and is restricted to the matters of Netherlands taxation stated herein. It is intended neither as tax advice nor as a comprehensive description of all Netherlands tax issues and consequences associated with or resulting from any of the above-mentioned transactions. Prospective acquirers are urged to consult their own tax advisors concerning the detailed and overall tax consequences of acquiring, holding, redeeming and/or disposing of the Notes.

The summary provided below is based on the information provided in this Base Prospectus and on the Netherlands tax laws, regulations, resolutions and other public rules with legal effect, and the interpretation thereof under published case law, all as in effect on the date of this Base Prospectus and with the exception of subsequent amendments with retroactive effect.

Subject to the foregoing:

1. No registration, stamp, transfer or turnover taxes or other similar duties or taxes will be payable in the Netherlands in respect of the offering and the Issue of the Notes by the Issuer or in respect of the signing and delivery of the Relevant Documents.
2. No Netherlands withholding tax will be due on payments of principal and/or interest.
3. A holder of Notes (a '**Holder**') will not be subject to Netherlands taxes on income or capital gains in respect of the acquisition or holding of Notes or any payment under the Notes or in respect of any gain realised on the disposal or redemption of the Notes, provided that:

- (i) such Holder is neither a resident nor deemed to be a resident nor has opted to be treated as a resident in the Netherlands; and
- (ii) such Holder does not have an enterprise or an interest in an enterprise that, in whole or in part, is carried on through a permanent establishment or a permanent representative in the Netherlands and to which permanent establishment or permanent representative the Notes are attributable;

and, if the Holder is a legal person, an open limited partnership ("open commanditaire vennootschap") or another company with a capital divided into shares or a special purpose fund ("doelvermogen"),

- (iii) such Holder does not have a substantial interest* in the share capital of the Issuer and/or any Asset Purchaser and/or Seller or in the event that such Holder does have such an interest, such interest forms part of the assets of an enterprise; and

and, if the Holder is a natural person,

- (iv) such Holder does not derive income and/or capital gains from the Notes that forms a "benefit from miscellaneous activities" in the Netherlands (*resultaat uit overige werkzaamheden*) which, for instance, would be the case if the activities in the Netherlands with respect to Notes exceed "normal active asset management" (*normaal, actief vermogensbeheer*) or if income and gains are derived from the holding, whether directly or indirectly, of (a combination of) shares, debt claims or other rights (together, a *lucratief belang*) that the holder thereof has acquired under such circumstances that such income and gains are intended to be remuneration for work or services performed by such holder (or a related person) in the Netherlands, whether within or outside an employment relation, where such lucrative

interest provides the holder thereof, economically speaking, with certain benefits that have a relation to the relevant work or services; and

- (v) such Holder or a person related to the Holder by law, contract, consanguinity or affinity to the degree specified in the tax laws of the Netherlands does not have, or is not deemed to have, a substantial interest* in the share capital of the Issuer and/or any Asset Purchaser and/or Seller.
4. No Netherlands gift or inheritance taxes will arise on the transfer of the Notes by way of a gift by, or on the death of, a Holder who is neither resident nor deemed to be resident in the Netherlands, unless:
- (i) in case of a gift of the Notes under a suspensive condition by an individual who at the date of the gift was neither resident nor deemed to be resident in the Netherlands, such individual is resident or deemed to be resident in the Netherlands at the date
 - (a) of the fulfillment of the condition; or
 - (b) of his/her death and the condition of the gift is fulfilled after the date of his/her death.
 - (ii) in case of a gift of Notes by an individual who at the date of the gift or - in case of a gift under a suspensive condition - at the date of the fulfillment of the condition was neither resident nor deemed to be resident in the Netherlands, such individual dies within 180 days after the date of the gift or the fulfillment of the condition, while being resident or deemed to be resident in the Netherlands.

For purposes of Netherlands gift and inheritance tax, an individual with the Netherlands nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the ten years preceding the date of the gift or his death..

For purposes of Netherlands gift tax, an individual not holding the Netherlands nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the twelve months preceding the date of the gift.

Applicable tax treaties may override the tax implications of deemed residency.

For purposes of Netherlands gift and inheritance tax, a gift that is made under a condition precedent is deemed to have been made at the moment such condition precedent is satisfied.

*Generally speaking, an interest in the share capital of the Issuer and/or any Asset Purchaser and/or Seller should not be considered as a substantial interest if the Holder of such interest, and if the Holder is a natural person his spouse, registered partner, certain other relatives or certain persons sharing the Holder's household, do not hold, alone or together, whether directly or indirectly, the ownership of, or certain rights over, shares or rights resembling shares representing 5 per cent. or more of the total issued and outstanding capital, or the issued and outstanding capital of any class of shares, of the Issuer and/or Seller.
