The distribution of this Summary Note and the offer or sale of the Notes may be restricted by law in certain jurisdictions. Persons into whose possession this Summary Note or the Notes come must inform themselves about, and observe, any such restrictions. In particular, the restrictions set out in the section of Chapter 1 of the Base Prospectus (incorporated by reference into the Securities Note) headed "Subscription and Sale" on the distribution of the Base Prospectus and the offer or sale of Notes in the United States, the European Economic Area, the United Kingdom, Austria, The Netherlands, France, Italy, Australia, India, Mexico, Brazil, Chile, Switzerland, Japan, Hong Kong, Korea, Norway and Singapore and also apply to this Summary Note and the Notes.

Any representation to the contrary is a criminal offence in the United States.

In relation to any non-exempt offer of the Notes made in Sweden prior to the date of publication of this Prospectus, investors have the right to withdraw their acceptances within two working days commencing from the date of publication of this Prospectus.

Investing in the Notes involves risks. The Notes are not principal protected. Prospective investors risk losing their entire investment or part of it. See Parts 1 and 2 of the “Risk Factors” section of Chapter 1 of the Base Prospectus (incorporated by reference in the Securities Note) and the “Risk Factors” section of this Summary Note for information on the risk factors to be taken into account when considering an investment in the Notes.

This Summary Note must be read as an introduction to the Prospectus and any decision to invest in the Notes should be based on a consideration of the Prospectus as a whole, including the documents incorporated by reference. Civil liability in respect of this Summary Note, including any translation thereof, will attach to the Issuer but only if this Summary Note is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus. Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor may, under the national legislation of the Member States of the European Economic Area, have to bear the costs of translating the Prospectus before the legal proceedings are initiated.

DESCRIPTION OF THE ISSUER

The Issuer is a subsidiary company of ING Groep N.V., also called ING Group. ING Group is the holding company of a broad spectrum of companies (together called “ING”), offering banking, investments, life insurance and retirement services to about 85 million private, corporate and institutional clients in Europe, the United States, Canada, Latin America, Asia and Australia. Originating from The Netherlands, ING has a workforce of almost 109,000 people worldwide. ING Group holds all shares of ING Bank N.V., which is a non-listed 100% subsidiary of ING Group. On 26 October 2009, ING announced a new strategic direction. It will separate its banking and insurance operations and develop towards a mid-sized international Bank, anchored in the Netherlands and Belgium, and predominantly focused on the European retail market with selected growth options elsewhere. On the same date, ING announced that all Insurance operations (including Investment Management) would be divested over the following four years.

The Issuer is represented in about 40 countries around the world through a large network of subsidiaries, offices and agencies. It offers its commercial and retail customers a full range of banking and financial services, including lending, stock-broking, insurance broking, fund management, leasing, factoring, investment banking and the provision of funds for venture capital purposes. With almost 71,000 employees, the Issuer is active through three Business Lines: Retail Banking, ING Direct and Commercial Banking (formerly Wholesale Banking).

Retail Banking offers retail banking services in the mature markets of The Netherlands, Belgium and Luxembourg, and in the growth markets of Poland, Romania, Turkey, India, Thailand and China. Private Banking is offered in The Netherlands, Belgium, Luxembourg and various countries in Central Europe.

ING Direct operates direct retail banking activities for customers in Australia, Canada, France, Germany and Austria, Italy, Spain, the United Kingdom and the United States. The main products offered are savings accounts and mortgages, and also mutual funds and payment accounts.

Commercial Banking conducts operations for corporations and other institutions with a primary focus on The Netherlands, Belgium, Poland and Romania, where it offers a full range of products. Commercial Banking also manages ING Real Estate, a real estate investment manager.

As announced in April 2009, ING will integrate its banking operations into one bank, with one management team and one balance sheet, as part of its strategy to become predominantly a European retail and commercial bank with selective growth options elsewhere. ING announced on 26 October 2009 that it had also decided to bring together all its retail banking activities, including ING Direct. Furthermore, the insurance business would focus on its long-term structural leadership positions in life and retirement services. Key building blocks would include the insurance operations in the Benelux, US, Central Europe, Latin America and Asia/Pacific as well as the global Investment Management operations. Under the new structure which was announced on 9 April 2009, the asset-management activities which were part of Insurance Europe, Insurance Americas and Insurance Asia/Pacific, would be centralised in due course in a separate global division under the name Investment Management. ING Investment Management will continue to be part of Insurance, consisting of three regional organisations and Real Estate Investment Management.

The Issuer was incorporated under Dutch law in The Netherlands on 12 November 1927 for an indefinite duration in the form of a public limited company. The Issuer is registered at the Chamber of Commerce of Amsterdam under no. 33031431 and its corporate seat is in Amsterdam, The Netherlands. The articles of association were last amended by notarial deed executed on 6 February 2009.

The Issuer and its consolidated subsidiaries are involved in lawsuits and arbitration cases in The Netherlands and in a number of other countries relating to claims by or against these companies arising in the course of ordinary activities, and also from acquisitions, including their activities as lenders, employers, investors and taxpayers. Several of these cases involve claims for either very large or indefinite amounts. Although it is not feasible to predict or to determine the outcome of all current or impending legal proceedings, ING Bank N.V. is of the opinion that neither it nor any of its consolidated subsidiaries is or has been involved in, or is or has been affected by, any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which ING Bank N.V. is aware), during a period covering at least the previous 12 months which may have, or have had in the recent past, significant effects on the financial position or profitability of ING Bank N.V. or its consolidated subsidiaries.

DESCRIPTION OF THE NOTES

Capitalised terms used in this section but not defined shall be deemed to be defined as such for the purposes of the Conditions set forth in the “Terms and Conditions of the Notes” section of the Securities Note.

GENERAL

The Notes are denominated in SEK and are expected to be issued by the Issuer on 14 April 2010 (the “**Issue Date**”). Unless redeemed early, the Notes are due to mature on 16 April 2012 (the “**Maturity Date**”). The total amount of the series will be a minimum of SEK 50,000,000 and each Note has a nominal amount of SEK 100,000 per Note (the “**Specified Denomination**”). The issue price of the Notes is 18 per cent. The Notes are senior notes in uncertificated and dematerialised book-entry form. The Notes will be cleared through Euroclear Sweden AB.

The Final Redemption Amount of each Note is equal to the Option Unit.

The Option Unit reflects the possible upside exposure in the Master Portfolio. The value of the Option Unit is determined on the basis of the average value of the Master Portfolio over the last 6 months of the tenor of the Notes (for a total of 7 observations) compared to the value of the Master Portfolio on the Strike Date. If the average value of the Master Portfolio across all Averaging Dates is lower than or equal to the value of the Master Portfolio on the Strike Date, the Option Unit equals zero. The Option Unit shall never be lower than zero.

The Master Portfolio is composed of a Reference Portfolio and a Deposit Portfolio. Within the Master Portfolio, notional investments may be allocated to the Reference Portfolio and/or the Deposit Portfolio. The Master Portfolio may be rebalanced on a daily basis between the Reference Portfolio and the Deposit Portfolio. Application of allocation adjustments within the Master Portfolio commences on the Strike Date. Any amounts allocated to the Deposit Portfolio do not bear no interest. Allocation to the Reference Portfolio in the Master Portfolio is dependent on the historical realized volatility of the Fund Interest Price (Realized Volatility), which is measured as the weighted standard deviation of the returns of the Fund Interest Price over the past 90 Fund Business Days. If the Realized Volatility increases, allocations within the Master Portfolio may be reallocated from the Reference Portfolio to the Deposit Portfolio up to a maximum of 100% of the Master Portfolio Value. If the Realized Volatility of the Reference Portfolio decreases, allocations within the Master Portfolio may be reallocated from the Deposit Portfolio to the Reference Portfolio up to a maximum allocation of 100% of the Master Portfolio Value. Reallocations within the Master Portfolio to the Reference Portfolio and the Deposit Portfolio combined will in each be 100% of the Master Portfolio Value.

Reallocations within the Master Portfolio will only occur if the Scaled Realized Volatility of the Master Portfolio is lower than 26% or higher than 30%. In that case the allocation to the Reference Portfolio shall be equal to the ratio of (a) 28% and (b) the Realized Volatility of the Fund Interest Price.

EXAMPLE 1:

If the allocation within the Master Portfolio to the Reference Portfolio is 100% (and thus the allocation to the Deposit Portfolio is 0%) at a certain Fund Business Day and the Realized Volatility is 35%, as a result the allocation to the Reference Portfolio becomes $28\% / 35\% = 80\%$. In that case the remaining 20% of the Master Portfolio will be allocated to the Deposit Portfolio.

EXAMPLE 2:

In case the Realized Volatility on a certain Fund Business Day is 21%, the allocation to the Reference Portfolio will be equal to $28\% / 21\% = 133\%$. However, allocations within the Master Portfolio can never be higher than 100%, the allocation to the Reference Portfolio will be 100%. Allocation to the Deposit Portfolio is 0%.

An investment in the Notes is a notional investment in the Master Portfolio and is not a direct investment in the Fund. Due to the reallocation mechanism based on observations of the volatility of the Fund Interest Price, an investment in the Notes (and subsequently in the Master Portfolio) may generate different returns compared to a direct investment in the Fund.

INTEREST

The Notes do not bear interest.

RETURN AT MATURITY

Subject to Condition 19(b) of the “Terms and Conditions of the Notes” section of the Securities Note and unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed on the Maturity Date by the Issuer at the Final Redemption Amount, which shall be an amount equal to the Option Unit.

Where:

“**Option Unit**” means the outcome of the following formula:

$$\text{Specified Denomination} \times \text{MAX} \left[0; \frac{\text{MPV}(\text{End})}{\text{MPV}(\text{Start})} - 1 \right]$$

Where:

“**Averaging Date**” means the 18th calendar day of each month in the period from and including 18 September 2011 to and including the Expiration Date, in each case subject to adjustment in accordance with the Fund Business Day Convention and Condition 19(b) of the “Terms and Conditions of the Notes” section of the Securities Note. There are 7 Averaging Dates.

“**Expiration Date**” means 19 March 2012, in each case subject to adjustment in accordance with the Fund Business Day Convention and Condition 19(b) of the “Terms and Conditions of the Notes” section of the Securities Note.

“**Fund**” means East Capital – Russia Fund or any Replacement Fund.

“**Fund Interest**” means a unit, share, partnership interest, or other similar direct interest in the Fund that entitles the holder of such interest to a share in the net assets of that Fund (ISIN SE0000777708, Bloomberg code: EACRUSS SS <EQUITY>), or such relevant interests in any Replacement Fund as determined by the Calculation Agent in accordance with Condition 19(c) of the “Terms and Conditions of the Notes” section of the Securities Note.

“**MPV(End)**” means the arithmetic mean of the Master Portfolio Value across all Averaging Dates.

“**MPV(Start)**” means the Master Portfolio Value on the Strike Date.

“**Strike Date**” means 18 March 2010, in each case subject to adjustment in accordance with the Fund Business Day Convention and Condition 19(b) of the “Terms and Conditions of the Notes” section of the Securities Note.

“**Master Portfolio Value**” means on the Strike Date, the Aggregate Nominal Amount of the Notes, and subsequently shall be equal to the sum of the value of the Reference Portfolio and the Deposit Portfolio.

REDEMPTION BEFORE THE MATURITY DATE

The Notes may be redeemed before the Maturity Date in the following circumstances:

- (i) an event of default by the Issuer;
- (ii) if 90 per cent. or more in nominal amount of the Notes issued have already been redeemed (at the discretion of the Issuer); and
- (iii) If the Calculation Agent determines that that an Early Redemption Event, as specified in Condition 5(c) of the “Terms and Conditions of the Notes” section of the Securities Note, has occurred.

If the Notes are to be redeemed in the circumstances described in (i), (ii) or (iii) above, the Issuer shall redeem each Note at an amount (in SEK) equal to the fair market value of a Note determined by the Calculation Agent in its sole and absolute discretion.

OTHER TERMS

The Notes include other terms relevant to investors, including the following:

- certain dates for payment of principal on the Notes and determination of the Fund Interest Price and the Master Portfolio Value to which payments on the Notes are linked may be delayed if, among other things a Disrupted Day (as defined in the “Terms and Conditions of the Notes” section of the Securities Note) occurs.
- the Issuer may amend the terms of the Notes (including amounts payable under them) if an Substitution Event (as defined in the “Terms and Conditions of the Notes” section of the Securities Note) or any other event or events occur which the Calculation Agent determines necessitate(s) an adjustment or adjustments to the Final Redemption Amount, the Early Redemption Amount and/or any other relevant Term of the Notes.

COSTS

The costs associated with the issue of the Notes (for marketing, legal work, administration, and distribution of the Notes) are reflected in the pricing of the Notes and will not be separately charged to investors.

RISK FACTORS

Investing in the Notes involves risks. The Notes are not principal protected. Prospective investors risk losing their entire investment or part of it. See Parts 1 and 2 of the “Risk factors” section of Chapter 1 of the Base Prospectus, and the risk factors below for information on the risk factors to be taken into account when considering an investment in the Notes. If in doubt, potential investors are strongly recommended to consult with their financial advisers before making any investment decision.

The Notes may not be a suitable investment for all investors

A prospective investor should conduct its own thorough analysis (including its own accounting, legal and tax analysis) prior to deciding whether to invest in the Notes. Any evaluation of the suitability for an investor of an investment in the Notes depends upon a prospective investor’s particular financial and other circumstances, as well as on the specific terms of the Notes. If a prospective investor does not have experience in financial, business and investment matters sufficient to permit it to make such a determination, the investor should consult with its financial adviser prior to deciding to make an investment as to the suitability of the Notes.

The Notes are complex financial instruments. A potential investor should not invest in the Notes unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor’s overall investment portfolio. Prospective investors risk losing their entire investment or part of it.

The return on the Notes is linked to the performance of the underlying Fund

The return on the Notes is linked to the performance of the underlying Fund. The levels of the Fund Interest Price may go down as well as up throughout the life of the Notes. Fluctuations in the levels of the Fund Interest Prices will affect the value of the Notes.

Accordingly, before investing in the Notes, prospective investors should carefully consider the performance of the Fund. Results of Fund achieved in the past are no guarantee of future performances. Prospective investors risk losing their entire investment or part of it.

No gross-up

All payments made by the Issuer in respect of the Notes shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted. Noteholders will not be entitled to receive grossed-up amounts to compensate for any such tax, duty, withholding or other payment.

Postponement of redemption of the Notes

Redemption of the Notes on the Maturity Date or the Early Redemption Date (as applicable) is subject to a holder of Fund Interests receiving the proceeds of redemption of such Fund Interests deemed to have submitted for redemption. Should such redemption of Fund Interests and/or the receipt of proceeds of redemption of Fund Interests be postponed, redemption of the Notes and subsequent payment of the Final Redemption Amount or the Early Redemption Amount (as applicable) will be postponed accordingly. In case such redemption of Fund Interests or the receipt of the proceeds of redemption of such Fund Interests be postponed for a period of 2 years or more following the Maturity Date or the Early Redemption Date (as applicable), the Notes shall be redeemed at zero or such other amount as the Issuer determines in its sole and absolute discretion.
