## INTRODUCTION

This document comprises two parts. Part One is a summary of the Registration Document and the Securities Note (the “**Summary**”) and Part Two is a securities note (the “**Securities Note**”), both prepared for the purposes of Article 5.3 of Directive 2003/71/EC, as amended from time to time (the “**Prospectus Directive**”). The Securities Note and the Summary have been prepared in connection with the issue by ING Bank N.V. (the “**Issuer**”) and the public offering in Belgium of minimum USD 2,000,000 5Y USD Participation Notes on LBMA Gold Price PM 09-23 (the “**Notes**”), under the Issuer’s EUR 40,000,000,000 Global Issuance Programme (the “**Programme**”).

On 30 March 2018, the Issuer published a registration document (the “**Original Registration Document**”). On 11 May 2018 and 22 June 2018, the Issuer published supplements to the Original Registration Document (respectively the “**First RD Supplement**” and the “**Second RD Supplement**” and together with the Original Registration Document, the “**Registration Document**”). On 22 June 2018, the Issuer published a base prospectus for the issuance of Medium Term Notes and Inflation Linked Notes of the Issuer (the “**Base Prospectus**”) in respect of the Programme.

This Securities Note and Summary should be read and construed in conjunction with the Registration Document, each of the sections headed “Summary of the Programme relating to non-exempt PD Notes”, “Risk Factors”, “Form of Notes”, “Use of Proceeds”, “Taxation”, “Subscription and Sale”, “General Information” and the details of relevant parties to the Programme on the last three pages of the Base Prospectus (the “**List of Parties**”) (all of which are incorporated by reference in the Securities Note as described below), in each case where and to the extent such section refers to “Global Issuer” and to Notes (as defined in the Base Prospectus). Together, the Registration Document and this Securities Note and Summary comprise a “prospectus” (the “**Prospectus**”) for the Notes, prepared for the purposes of Article 5.1 of the Prospectus Directive.

The Issuer accepts responsibility for the information contained in the Prospectus. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case), the information contained in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

Copies of this Securities Note and Summary, the Registration Document and of the Base Prospectus are available for viewing at [www.ingmarkets.com](http://www.ingmarkets.com) under the section “Products” and “Downloads” respectively. Copies may be obtained from the Issuer at Bijlmerplein 888, 1102 MG Amsterdam, The Netherlands.

The Original Base Prospectus was filed with, and approved on 22 June 2018 by the AFM.

The Prospectus should be read and construed in conjunction with the following documents (or part thereof) as listed in (a) to (d) below, which (x) have previously been published (or are published simultaneously with the Prospectus) and (y) have been approved by the AFM or filed with it, and shall be deemed to be incorporated in, and to form part of, the Prospectus:

The Q1 Press Release contains, among other things, the consolidated unaudited interim results of ING Group as at, and for the three month period ended, 31 March 2018, as well as information about recent developments during this period in the banking business of ING Group, which is conducted substantially through the Global Issuer and its consolidated group.

in each case where and to the extent such document refers to the Issuer and to Notes (as defined in the Base Prospectus). Terms used but not defined herein shall have the meanings given to them in the Base Prospectus. References in the Base Prospectus to "Final Terms" shall be deemed to be references to the Conditions of the Notes as set out in this Securities Note and Summary.

The Issuer has requested the AFM to provide the *Autorité des services et marchés financiers* ("FSMA") in Belgium, in its capacity as competent authority in Belgium as host Member State for the purposes of the Prospectus Directive, with a certificate of approval in accordance with Article 18 of the Prospectus Directive attesting that the Prospectus has been drawn up in accordance with the Prospectus Directive.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Securities Note and Summary and the Registration Document, and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

The document (i) is not intended to provide the basis of any evaluation of the financial condition, creditworthiness or affairs of the Issuer and (ii) should not be considered as a recommendation by the Issuer that any recipient thereof should purchase the Notes. Each investor contemplating purchasing the Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. This document does not constitute an offer or invitation by or on behalf of the Issuer to any person to subscribe for or to purchase the Notes.

Structured securities such as the Notes involve a high degree of risk and are intended for sale only to those investors capable of understanding the risk entailed in such instruments. Prospective investors should ensure that they understand the nature of the Notes and the extent of their exposure to risk, and that they understand

the nature of the Notes as an investment in the light of their own circumstances and financial condition. Prospective investors should conduct their own investigations and, in deciding whether or not to purchase Notes, should form their own views of the merits of an investment related to the Notes based upon such investigations and not in reliance upon any information given in the Prospectus. If in doubt potential investors are strongly recommended to consult with their financial advisers before making any investment decision.

The delivery of the Prospectus shall not in any circumstances imply that the information contained herein concerning the Issuer or the Notes is correct at any time subsequent to the date hereof. Potential investors should carefully review and evaluate, inter alia, the most recent financial statements of the Issuer when deciding whether or not to purchase the Notes.

Other than in Belgium, the Issuer does not represent that the Prospectus may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer which would permit a public offering of the Notes or distribution of the Prospectus in any jurisdiction where action for that purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither the Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction where such offer, sale, distribution and/or publication would be prohibited.

The distribution of the Prospectus and the offer or sale of the Notes may be restricted by law in certain jurisdictions. Persons into whose possession the Prospectus or the Notes come must inform themselves about, and observe, any such restrictions. In particular, the restrictions set out in the “Subscription and Sale” section of the Base Prospectus (incorporated by reference into the Prospectus) on the distribution of the Base Prospectus and the offer or sale of Notes in the United States, the European Economic Area, Switzerland and the United Kingdom, also apply to the Prospectus and the Notes. The Notes may not be sold to U.S. persons.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or with any securities regulatory authority of any state or other jurisdiction of the United States. Accordingly, the Notes may not be offered, sold, pledged or otherwise transferred within the United States or to or for the account or benefit of U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act and any applicable state securities laws.

The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission, any state securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or the adequacy of the Prospectus. Any representation to the contrary is a criminal offence in the United States.

## PART ONE: SUMMARY

Summaries are made up of disclosure requirements known as “Elements”. These Elements are numbered in Sections A to E (A.1 to E.7). This summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the nature of the Notes and the Issuer, it is possible that no relevant information can be given regarding the Element. In this case, a short description of the Element should be included in the summary with the mention of “Not Applicable”.

### Section A – Introduction and warnings

Element		
A.1	Warning and introduction	This summary must be read as an introduction to the Securities Note. Any decision to invest in the Notes should be based on a consideration of the Securities Note as a whole, including any documents incorporated by reference. Civil liability attaches only to those persons who have tabled the summary, including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Securities Note or it does not provide, when read together with the other parts of the Securities Note, key information in order to aid investors when considering whether to invest in the Notes.

(the “Issuer”). In consideration of the Issuer offering to grant its consent to our use of the Securities Note in connection with the offer of the Notes in Belgium during the Offer Period in accordance with the Authorised Offeror Terms (as specified in the Securities Note), we accept the offer by the Issuer. We confirm that we are authorised under the Markets in Financial Instruments Directive to make, and are using the Securities Note in connection with, the Public Offer accordingly. Terms used herein and otherwise not defined shall have the same meaning as given to such terms in the Securities Note.”</i></p>

Element		
		<p>A “<b>Public Offer</b>” of Notes is an offer of Notes (other than pursuant to Article 3(2) of the Prospectus Directive) in Belgium during the Offer Period specified below. Those persons to whom the Issuer gives its consent in accordance with the foregoing provisions are the “<b>Authorised Offerors</b>” for such Public Offer.</p> <p><i>Offer Period:</i> The Issuer’s consent referred to above is given for Public Offers of Notes during the period from 16 July 2018 to 31 August 2018 (the “<b>Offer Period</b>”).</p> <p><i>Conditions to consent:</i> The conditions to the Issuer’s consents (in addition to the conditions referred to above) are such that consent: (a) is only valid in respect of the relevant Tranche of Notes; (b) is only valid during the Offer Period; (c) only extends to the use of the Securities Note to make Public Offers of the relevant Tranche of Notes in Belgium.</p> <p>An investor intending to acquire or acquiring Notes in a Public Offer from an Authorised Offeror other than the Issuer will do so, and offers and sales of such Notes to an investor by such Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such investor, including as to price, allocations, expenses and settlement arrangements.</p> <p><b>Each investor must look to the relevant Authorised Offeror at the time of any such Public Offer for the provision of information regarding the terms and conditions of the Public Offer and the Authorised Offeror will be solely responsible for such information.</b></p>

**Section B – Issuer**

Element	Title	
<b>B.1</b>	Legal and commercial name of the Issuer	ING Bank N.V. (the “ <b>Issuer</b> ”).
<b>B.2</b>	The domicile and legal form of the Issuer, the legislation under which the Issuer operates and its country of incorporation	The Issuer is a public limited company ( <i>naamloze vennootschap</i> ) incorporated under the laws of The Netherlands on 12 November 1927, with its corporate seat ( <i>statutaire zetel</i> ) in Amsterdam, The Netherlands.

<p><b>B.4b</b></p>	<p>A description of any known trends affecting the Issuer and the industries in which it operates</p>	<p>he results of operations of the Issuer are affected by demographics and by a variety of market conditions, including economic cycles, banking industry cycles and fluctuations in stock markets, interest and foreign exchange rates, political developments and client behaviour changes.</p> <p><i>Financial environment</i></p> <p>The following highlights several trends in the regulatory landscape and continuing uncertainty that have a major impact on the Issuer’s own operating environment, as well as on that of its competitors. This includes the economy and current low interest-rate environment; increasing regulatory scrutiny and costs; digitalisation and changing customer behaviour; and what the Issuer’s stakeholders expect of it.</p> <p><i>Increased global economic momentum</i></p> <p>Economic momentum picked up further in 2017, outpacing the global economic growth seen in 2016. In the United States, growth has remained strong. This is now the second-longest economic expansion since the end of World War II. At the same time inflation has stayed low, allowing the Federal Reserve to follow a very gradual path of interest rate increases.</p> <p>In the euro area, all member states’ economies are growing. The eurozone’s economic performance was particularly positive, as the area recorded its lowest unemployment rate in nine years and economic confidence reached pre-crisis levels.</p> <p>In the United Kingdom, economic growth has slowed, against a background of continued uncertainty about the future relationship with the European Union. The economy in Asia remained strong with growth rates of the advanced economies in that region generally accelerating. Growth in major emerging-market economies has improved overall, helped by a rebound in some commodity producers that experienced recessions in 2015–16.</p> <p><i>Rates increase, but remain low</i></p> <p>Longer-term government bond yields firmed somewhat compared to their 2016 lows on the back of a strengthening global economy, the Federal Reserve’s U.S. rate increases and the anticipated end to exceptionally easy monetary policy elsewhere.</p> <p>However, with inflation in most developed economies staying low, longer-term yields remained modest while equity markets in advanced economies performed well and corporate credit spreads were at, or close to, their tightest levels since the beginning of 2008. Volatility was subdued despite increased geopolitical tensions around North Korea.</p>

Element	Title	
		<p><i>Euro on the rise</i></p> <p>The euro rose against the U.S. dollar in 2017, propelled by the strengthening economic outlook in the euro area, diminishing political uncertainty and expectations about the tapering of quantitative easing in the euro area.</p> <p><i>Regulatory landscape and continuing uncertainty</i></p> <p>Continued delays around the Basel ‘IV’ discussions (i.e. the revisions to Basel III) addressing the variability of banks’ internal models, which were not finalised until December 2017, led to ongoing international uncertainty. This had an impact on strategic planning and business decisions for many banks. At a European level, the Single Supervisory Mechanism continued to strengthen its supervisory role through the European Central Bank (“<b>ECB</b>”). This was reflected in the priorities it set for 2017: business models and profitability drivers; credit risk, with a focus on non-performing loans and risk concentrations; and risk management.</p> <p>The Single Resolution Board adopted its first resolution decisions for banks from Italy and Spain. Meanwhile the resolvability of banks has been further improved by building up loss-absorption buffers. European global systemically important banks are advancing their bail-in issuances and will likely meet the internationally agreed total loss-absorbing capacity (“<b>TLAC</b>”) standards per 2022. Resolution authorities have provided European banks with initial targets for minimum requirement for own funds and eligible liabilities (“<b>MREL</b>”). These targets will be reviewed once the ongoing discussions on the bank recovery and resolution directive (“<b>BRRD</b>”) and the review of capital requirements regulations (“<b>CRR</b>”) have been finalised.</p> <p>The Single Resolution Fund is also showing a steady increase. The size of the fund is now almost EUR 18 billion, aiming to meet the target requirement of EUR 55 billion in 2023. Despite the fact that the discussion on the European Deposit Insurance Scheme (“<b>EDIS</b>”) didn’t show much progress throughout 2017, the completion of the Banking Union gained political momentum. In the course of 2018, further steps are expected to ensure its completion by 2019. The Issuer would also welcome a deepening of the Economic and Monetary Union, which would help to enhance economic and financial stability in the eurozone.</p> <p>The range and complexity of non-prudential regulation (regarding other things than financial strength) continues to increase. Regulation is becoming more stringent in areas like customer due diligence, and transaction monitoring to detect and report money laundering (“<b>AML</b>”), terrorist financing and fraud. Individual country laws and specific regulations often prevent cross-border information sharing, between public and private authorities and between private parties. This restricts the effectiveness of bank systems and is most</p>

Element	Title	
		<p>evident when large financial institutions operate a global compliance model.</p> <p>The Issuer will participate in a public/private sector partnership initiated by Europol and the Institute of International Finance. This high-level forum aims to find better ways to share information within existing laws.</p> <p>In general, the Issuer continues to favour a more harmonised European approach to regulations. This would help to align the customer experience across borders and could accelerate the digitalisation of the Issuer's banking services.</p> <p>The Issuer's regulatory costs increased to EUR 901 million from the already elevated level of EUR 845 million in 2016. This was due to the Issuer's contribution to local deposit guarantee schemes, the European resolution fund and bank taxes.</p> <p>2017 marked the kick-off of Brexit negotiations. The Issuer is monitoring these closely to make Britain's exit from the EU as smooth as possible for its business and customers.</p> <p><i>Competitive landscape</i></p> <p>Technology is removing a number of the barriers to entry that once insulated the Issuer's business. The Issuer faces competition from many different directions, with relatively new players providing more segmented offers to its customers. Technology giants, payment specialists, retailers, telecommunication companies, crowd-funding initiatives and aggregators are all entering the market for traditional banking services. The Issuer's customers, in turn, are more willing to consider these offers.</p> <p>Safe banking requires specific knowledge of financial services, in-depth knowledge of customers, and rigorous risk-management systems. As competition from outside the banking sector continues to increase, the Issuer has to become faster, more agile and more innovative.</p> <p>With its long track record and strong brand, the Issuer believes it is well placed to seize these opportunities and become a better company for all of its stakeholders. The Issuer is a leader in digital banking, and it has scale combined with local market expertise. It is investing in building profitable, mutually beneficial relationships with its customers based on the quality of its service and the differentiating experience the Issuer offers them. The Issuer continues to work hard to win their hearts and minds, demonstrating its concern for them and all its stakeholders. The Issuer aims to be even clearer about the strategic choices it makes.</p>

Element	Title																						
		<p><i>Societal challenges</i></p> <p>In the Issuer’s view, both climate change and the so-called fourth industrial revolution can lead to societal changes.</p> <p>The effects of climate change, including the growing scarcity of water, food, energy and other material resources, pose daunting social and environmental challenges. The causes and the solutions to these challenges are complex, but the Issuer already knows that they will change traditional business models.</p> <p>Business models, but more importantly people’s lives, will also be influenced by the so-called fourth industrial revolution – fast-changing technology such as artificial intelligence that will cause many jobs to change, be relocated or eliminated altogether.</p> <p>The Issuer believes in taking the long view and in going beyond just mitigating the harm related to these challenges – it wants to drive sustainable progress. Banks can bring about change through their financing choices. The Issuer aims to use its position to help lead the global transition to a low-carbon and self-reliant society, tackling climate change and the fourth industrial revolution.</p>																					
<b>B.5</b>	A description of the Issuer’s group and the Issuer’s position within the group	The Issuer is part of ING Groep N.V. (“ING Group”). ING Group is the holding company of a broad spectrum of companies (together called “ING”) offering banking services to meet the needs of a broad customer base. The Issuer is a wholly-owned, non-listed subsidiary of ING Group and currently offers retail banking services to individuals, small and medium-sized enterprises and mid-corporates in Europe, Asia and Australia and wholesale banking services to customers around the world, including multinational corporations, governments, financial institutions and supranational organisations.

## Section D – Risks

Element	Title

The on-going turbulence and volatility of such factors have adversely affected, and may continue to adversely affect the profitability, solvency and liquidity of the business of the Issuer. The Issuer has identified a number of specific factors which could adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> <li>• continued risk of resurgence of turbulence and on-going volatility in the financial markets and the economy generally</li> <li>• adverse capital and credit market conditions as well as changes in regulations</li> <li>• interest rate volatility and other interest rate changes</li> <li>• negative effects of inflation and deflation</li> <li>• changes in financial services laws and/or regulations</li> <li>• inability to increase or maintain market share</li> <li>• the default of a major market participant</li> <li>• inability of counterparties to meet their financial obligations</li> <li>• market conditions and increased risk of loan impairments</li> <li>• failures of banks falling under the scope of state compensation schemes</li> <li>• ratings downgrades or potential downgrades</li> <li>• deficiencies in assumptions used to model client behaviour for market risk calculations</li> <li>• inability to manage risks successfully through derivatives</li> <li>• inadequacy of risk management policies and guidelines</li> <li>• business, operational, regulatory, reputational and other risks in connection with climate change</li> <li>• operational risks such as systems disruptions or failures, breaches of security, cyber attacks, human error, changes in operational practices or inadequate controls</li> <li>• regulatory risks</li> <li>• inability to retain key personnel</li> <li>• liabilities incurred in respect of defined benefit retirement plans</li> <li>• adverse publicity, claims and allegations, litigation and regulatory investigations and sanctions</li> <li>• inability to protect intellectual property and possibility of being subject to infringement claims</li> <li>• claims from customers who feel misled or treated unfairly</li> <li>• changes in Dutch fiscal unity regime</li> </ul>

D.3	Key information on the key risks that are specific to the Notes	The following key risks may arise in relation to the Notes: (a) the value of the Notes and principal repayment in relation to them may be affected by, but may not necessarily correlate to, movements and fluctuations in the price of the commodity; (b) the Issuer may enter into activities that present conflicts of interest and adversely affect the value of the Notes; (c) the timing of changes in commodity price may impact the yield on the Notes and (d) the Issuer may have the option to redeem the Notes early, which may affect their value in the secondary market
		Furthermore, the terms of the Notes provide that: (a) redemption amounts will be capped; (b) the redemption amount will be determined by reference to specified preconditions and (c) the redemption amount is linked to the performance of the commodity.
D.6	Risk warning that investors may lose value of entire investment or part of it	<b>The capital invested in the Notes is at risk. Consequently, the amount a prospective investor may receive on redemption of its Notes may be less than the amount invested by it and may be zero.</b> Investors may lose up to the entire value of their investment if (a) the investor sells its Notes prior to the scheduled redemption in the secondary market at an amount that is less than the initial purchase price; (b) the Issuer is subject to insolvency or bankruptcy proceedings or some other event which negatively affects the Issuer's ability to repay amounts due under the Notes or (c) the Notes are redeemed early for reasons beyond the control of the Issuer, such as a change in law (including any changes to tax rules, regulation or legislation), and the amount paid or delivered is less than the initial purchase price; and/or (d) the payout conditions do not provide for full repayment of the initial purchase price upon redemption or specified early redemption if the underlying asset(s) perform(s) in such a manner that the amount due under the Notes is less than the initial purchase price.

## PART TWO: SECURITIES NOTE

### RISK FACTORS

*Investing in the Notes involves risks. The Notes are principal protected but the market value of the Notes may fluctuate during their term. In the Base Prospectus (incorporated by reference into this Securities Note), see the sections “General Risk Factors”, “Risk Factors Relating to the Issuer” and the provisions “No gross-up”, “Legal investment considerations may restrict certain investments” and “Modification” in the section “Risk Factors Relating to the Notes”.*

*In addition, see the risk factors below for information on the risk factors to be taken into account when considering an investment in the Notes. Potential investors are strongly recommended to consult with their independent financial advisers before making any investment decision.*

*Special consideration should be given to the following risk factors:*

#### **Exchange rates and exchange controls**

The Issuer will pay principal on the Notes in a Specified Currency. This presents certain risks relating to currency conversions if an investor’s financial activities are denominated principally in a currency or currency unit (the “Investor’s Currency”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to the Specified Currency would decrease (1) the Investor’s Currency-equivalent yield on the Notes, (2) the Investor’s Currency-equivalent value of the principal payable on the Notes and (3) the Investor’s Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate and/or restrict the convertibility or transferability of currencies within and/or outside of a particular jurisdiction which in turn could adversely affect the ability of an Issuer to make payments in respect of the Notes. As a result, investors may receive less principal than expected, or receive it later than expected or not at all.

#### **Potential Conflicts of Interest**

The Issuer and its affiliates may engage in trading activities (including hedging activities) related to the underlying Commodity for their proprietary accounts or for other accounts under their management. The Issuer and its affiliates may also issue other derivative instruments in respect of such Commodity. The Issuer may invest in the underlying Commodity for its own account, and may exercise its discretion in respect of matters concerning its holdings of fund interests as it sees fit, without regard to the interests of any investor in the Notes.

#### **Limited Liquidity and Restrictions on Transfer**

The Notes will not be listed on a regulated market and it is unlikely that an active secondary market for the Notes will develop and Noteholders may find it difficult or uneconomic to liquidate their investment at any particular time. A decrease in the liquidity of the Notes may cause, in turn, an increase in the volatility associated with the price of the Notes. Any investor in the Notes must be prepared to hold the Notes for an indefinite period of time or until redemption of the Notes. If any person begins making a market for the Notes, it is under no obligation to continue to do so and may stop making a market at any time. Illiquidity may have a severely adverse effect on the market value of Notes.

The Notes may be subject to certain transfer restrictions and may only be transferable to certain transferees and in limited circumstances. Such transfer restrictions may further limit the liquidity of the Notes.

### **Potential Early Redemption**

The Notes may redeem prior to their Maturity Date due to events of default in respect of the Issuer or a Change in Law Event. In such instances, amounts payable to the Noteholders will be dependent, among other factors, on the prevailing fair market value of the Notes, taking into account (without limitation) the cost or gain to the Issuer in amending or liquidating any related hedging or trading position(s) and any additional costs, fees or taxes relating thereto. It should be understood that in such circumstances, it is likely that the amount due to Noteholders will be less than the outstanding principal amount of the Notes.

### **Potential partial or total loss of investment**

Investors may lose up to the entire value of their investment if (a) the investor sells its Notes prior to the scheduled redemption in the secondary market at an amount that is less than the initial purchase price; (b) the Issuer is subject to insolvency or bankruptcy proceedings or some other event which negatively affects the Issuer's ability to repay amounts due under the Notes or (c) the Notes are redeemed early for reasons beyond the control of the Issuer, such as a change in law (including any changes to tax rules, regulation or legislation), and the amount paid or delivered is less than the initial purchase price; and/or (d) the payout conditions do not provide for full repayment of the initial purchase price upon redemption or specified early redemption if the underlying asset(s) perform(s) in such a manner that the amount due under the Notes is less than the initial purchase price.

### **General risks relating to Commodity Linked Notes**

Principal will be determined by reference to the price of the underlying Commodity, being Gold (Bloomberg Code: GOLDLNPM <Comdy> hereinafter the "Commodity"). Potential investors should understand that:

- *Market Risks*

There are market risks associated with an actual investment in the underlying Commodity, and though the Notes do not create an actual interest in the Commodity, the return on the Notes generally involves the same associated risks as an actual investment in the underlying Commodity. Potential investors in Notes should understand that the Issuer has not purported and does not purport to be a source of information concerning the market risks associated with such underlying Commodity.

- *Volatility*

The market price of the Notes may be very volatile. The market price of the Notes at any time is likely to be affected primarily by changes in the price of the Commodity to which the Notes are linked. It is impossible to predict how the price of the Commodity will vary over time.

- *Price of the underlying Commodity*

The return on the Notes is linked to the price of the underlying Commodity. The price of the Commodity may go down as well as up throughout the life of the Notes. Fluctuations in the levels of the Commodity will affect the value of the Notes. Accordingly, before investing in the Notes, prospective investors should carefully consider the price of the Commodity. The price of the Commodity in the past is no guarantee of future prices.

- *Cap*

The return on the Notes is capped at 140 per cent.

### **Specific risk related to Gold Linked Notes**

The price of gold is influenced by a number of factors. Rising interest rates often cause the price of precious materials like gold to drop, falling interest rates have the reverse effect. The performance of stock markets also affect the price of gold. When the stock markets perform well, demand for gold lowers which in turn causes the price of gold to decrease. Inflation, fluctuating exchange rates and (geo)political tensions and instability also have an impact on the price of gold, as gold is traditionally regarded as a safe haven investment in uncertain times.

### *(b) Presentation of Notes*

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against surrender of definitive Bearer Notes, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the State and District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of principal in respect of Notes represented by any global Bearer Note will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant global Bearer Note (against presentation or surrender, as the case may be, of such global Bearer Note at the specified office of any Paying Agent outside the United States). A record of each payment made against presentation or surrender of such global Bearer Note,

distinguishing between any payment of principal, will be made on such global Note by such Paying Agent and such record shall be prima facie evidence that the payment in question has been made.

The holder of a global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such global Note. No person other than the holder of such global Note shall have any claim against the Issuer in respect of any payments due on that global Note.

(c) *Payment Day*

If the date for payment of any amount in respect of any Note is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay.

For these purposes, “**Payment Day**” means any day which is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the Specified Currency and on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (known as TARGET 2) System which was launched on 19 November 2007 or any successor thereto (the “**TARGET System**”) is operating

(b) *Redemption for Tax Reasons (Tax Call)*

If the Issuer on the occasion of the next payment due in respect of the Notes, would be required by law to withhold or account for tax in respect of the Notes, then the Issuer shall forthwith give notice of such circumstance to Noteholders. If (i) such event results from any change in, or amendment to, the laws or regulations of any particular jurisdiction or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, the Issuer may, but shall not be obliged to, on giving not less than 15 nor more than 30 days’ notice to the Noteholders (or such other period of notice as is specified in the applicable Final Terms), and upon expiry of such notice, redeem all but not some of the Notes at the amount determined in accordance with Condition 17(c)(ii).

Notwithstanding the foregoing, if any of the taxes referred to above arises (i) by reason of any Noteholder’s connection with any particular jurisdiction otherwise than by reason only of the holding of any Note or receiving or being entitled to principal or interest in respect thereof; or (ii) by reason of the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax, then to the extent it is able to do so, the Issuer shall deduct such taxes from the amounts payable to such Noteholder and all other Noteholders shall receive the due amounts payable to them.

(c) *Purchases*

Neither the Issuer nor any other person will be required to pay additional amounts to the Noteholders in respect of FATCA Withholding.

## **7 Prescription**

then any holder of such Notes may, by written notice to the Issuer at the specified office of the Agent, effective upon the date of receipt thereof by the Agent, declare the Note held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount (as described in Condition 17(c)(ii)), without presentment, demand, protest or other notice of any kind, provided that such right to declare Notes due and payable shall terminate if the situation giving rise to it has been cured before the relevant notice has become effective.

The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the holders of the Notes and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

The Issuer irrevocably appoints the Head of Legal for the time being of their London Branch, currently at 8-10 Moorgate, London EC2R 6DA, United Kingdom, as their agent in England to receive, for them and on their behalf, service of process in any Proceedings in England. ### 5 DETAILS OF THE UNDERLYING COMMODITY

The return on the Notes is linked to the performance of the underlying Commodity. The price of the Commodity may go down as well as up throughout the life of the Notes. Fluctuations in the price of the Commodity will affect the value of and return on the Notes. A negative performance of the underlying Commodity will have an adverse effect on the value of and return on the Notes.

Information and details of the past and further performance of the underlying Commodity and its volatility can be obtained on [www.lmba.org.uk](http://www.lmba.org.uk) and on [www.bloomberg.com](http://www.bloomberg.com) (Bloomberg code: GOLDLNPM <Cmdty>).

***By way of example***, two scenarios can be specified:

- 1) *Neutral Scenario*: if Price(End) is lower than Price(Start), the Final Redemption Amount will be an amount equal to the Specified Denomination.

Example 1, if:

- Price(End) = USD 50
- Price(Start) = USD 70

On Maturity Date, the Noteholder will receive the following: USD 100 per Note.

- 2) Optimistic Scenario: if Price(End) is equal to or higher than Price(Start), the Final Redemption Amount will be an amount equal to the Specified Denomination as multiplied by the minimum of (a) 140% and (b) the Performance.

Example 1, if:

- Price(End) = USD 80
- Price(Start) = USD 70

On Maturity Date, the Noteholder will receive the following: USD 114 (= 100 x **min** (140%; ((80/70))) per Note.

Example 2, if:

- Price(End) = USD 120
- Price(Start) = USD 70

On Maturity Date, the Noteholder will receive the following: USD 130 = (= 100 x **min** (140%; (120/70))) per Note.

These examples are no indication, prediction or guarantee of future performance of the Notes. No rights may be derived from these examples.
