MODIFICATIONS TO THE BASE PROSPECTUS

1. The paragraph entitled “ING Bank N.V.” of the section entitled “Summary of the Programme” on page 8 of the Base Prospectus shall be deleted and restated as follows.

“ING Bank N.V. is part of ING Groep N.V. (“ING Group”). ING Group is the holding company for a broad spectrum of companies (together, “ING”), offering banking, investments, life insurance and retirement services to meet the needs of a broad customer base. ING Bank N.V. is a wholly-owned, non-listed subsidiary of ING Groep N.V. ING Bank N.V. is a large international player with over 65,000 employees and an extensive global network in over 40 countries. Since 2011, ING Bank N.V. has been operating as a stand-alone business under the umbrella of ING Group.

ING Bank N.V. is active through the following business lines: Retail Banking, including ING Direct, and Commercial Banking.”.

2. The paragraph entitled “Risk Factors Relating to the Issuers” of the section entitled “Summary of the Programme” beginning on page 11 of the Base Prospectus shall be deleted and restated as follows:

- “Because the Issuers are part of a financial services company conducting business on a global basis, the revenues and earnings of the relevant Issuer are affected by the volatility and strength of the economic, business and capital markets environments specific to the geographic regions in which it conducts business. The ongoing turbulence and volatility of such factors have adversely affected, and may continue to adversely affect the profitability and solvency of the relevant Issuer.
- Adverse capital and credit market conditions may impact an Issuer’s ability to access liquidity and capital, as well as the cost of credit and capital.
- The default of a major market participant could disrupt the markets.
- Because the Issuers’ businesses are subject to losses from unforeseeable and/or catastrophic events, which are inherently unpredictable, the relevant Issuer may experience an abrupt interruption of activities, which could have an adverse effect on its financial condition.
- The Issuers operate in highly regulated industries. There could be an adverse change or increase in the financial services laws and/or regulations governing the relevant Issuer’s business.
- Continued turbulence and volatility in the financial markets and the economy generally have adversely affected the Issuers, and may continue to affect their business and results of operations.
- Because each Issuer operates in highly competitive markets, including its home market, it may not be able to increase or maintain its market share, which may have an adverse effect on their results of operations.
- Because the Issuers do business with many counterparties, the inability of these counterparties to meet their financial obligations could have a material adverse effect on the relevant Issuer’s results of operations.

- Market conditions observed over the past few years may increase the risk of loans being impaired. The Issuers are exposed to declining property values on the collateral supporting residential and commercial real estate lending.
- Interest rate volatility and other interest rate changes may adversely affect the relevant Issuer's profitability.
- The Issuers may incur losses due to failures of banks falling under the scope of state compensation schemes.
- The Issuers may be unable to manage their risks successfully through derivatives.
- The Issuers may be unable to retain key personnel.
- The Issuers may not be able to protect their intellectual property and may be subject to infringement claims.
- Because the Issuers use assumptions to model client behaviour for the purpose of their market risk calculations, the difference between the realisation and the assumptions may have an adverse impact on the risk figures and future results.
- The Issuers may incur further liabilities in respect of their defined benefit retirement plans if the value of plan assets is not sufficient to cover potential obligations, including as a result of differences between results and underlying actuarial assumptions and models.
- The Issuers' risk management policies and guidelines may prove inadequate for the risks they face.
- The Issuers are subject to a variety of regulatory risks as a result of their operations in certain countries.
- Because the Issuers are continually developing new financial products, they might be faced with claims that could have an adverse effect on the relevant Issuer's operations and net results if clients' expectations are not met.
- Ratings are important to the Issuers' businesses for a number of reasons. A downgrade or a potential downgrade in the Issuers' credit ratings could have an adverse impact on the Issuers' operations and net result.
- The Issuers' businesses may be negatively affected by a sustained increase in inflation.
- Operational risks are inherent in the Issuers' businesses.
- The Issuers' businesses may be negatively affected by adverse publicity, regulatory actions or litigation with respect to such businesses, other well-known companies or the financial services industry in general.
- The implementation of ING's restructuring plan and the divestments anticipated in connection with ING's restructuring plan have and will significantly alter the size and structure of ING and involve significant costs and uncertainties that could materially impact the Issuers.
- The limitations required by the EC on ING's ability to compete and to make acquisitions or call certain debt instruments could materially impact the Issuers.

- Upon the implementation of its restructuring plan, ING will be less diversified and the Issuers may experience competitive and other disadvantages.
- ING's Restructuring Plan may not yield intended reductions in costs, risk and leverage.
- ING's agreements with the Dutch State impose certain restrictions regarding the issuance or repurchase of its shares and the compensation of certain senior management positions.
- Whenever the overall return on the (remaining) Core Tier 1 Securities issued to the Dutch State is expected to be lower than 10% per annum, and/or in the event that ING does not repay the remaining Core Tier 1 Securities in accordance with the repayment schedule that was submitted to the European Commission as part of the Amended Restructuring Plan, the European Commission may consider the imposition of additional behavioural constraints.”.
