RECENT DEVELOPMENTS AND INFORMATION INCORPORATED BY REFERENCE

On 2 November 2017, ING Groep N.V. published a supplement to its Registration Document (the “ING Group Registration Document Supplement”) and ING Bank N.V. published a supplement to its Registration Document (the “ING Bank Registration Document Supplement”). Copies of the ING Group Registration Document Supplement and the ING Bank Registration Document Supplement have been approved by and filed with the AFM and, by virtue of this Supplement, are incorporated by reference in, and form part of, the Base Prospectus (along with each Registration Document as supplemented to the date hereof).

MODIFICATIONS TO THE BASE PROSPECTUS

1. In the section entitled “Risk Factors – Risks related to the structure of a particular issue of Notes” beginning on page 8 of the Base Prospectus there shall be inserted the following:

“Risks related to Notes which are linked to “benchmarks”

The London Interbank Offered Rate (“LIBOR”), the Euro Interbank Offered Rate (“EURIBOR”) and other interest rates or other types of rates and indices which are deemed to be “benchmarks” are the subject of ongoing national and international regulatory reform. Following the implementation of any such potential reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the past, or benchmarks could be eliminated entirely, or there could be other consequences which cannot be predicted. For example, on 27 July 2017, the United Kingdom Financial Conduct Authority (“FCA”) announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. The announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. The potential elimination of the LIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require an adjustment to the terms and conditions, or result in other consequences, in respect of any Notes linked to such benchmark (including but not limited to Notes whose interest rates are linked to LIBOR). Any such consequence could have a material adverse effect on the value of and return on any such Notes.”
