

Stichting Oikocredit International Share Foundation

This prospectus expires on 3 June 2023.

The obligation to supplement a prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when a prospectus is no longer valid.

Ngoran Nguessan has five hectares of land and has been a member of the Coopérative Agricole Unité de Divo (CAUD) for three years. "I have earned a premium on top of the fixed price (the cacao price is fixed by the Ivorian government). Before it was very difficult to provide for my family, but since I have been a member of the cooperative, my life is better. We get training in good agricultural practices and as a result my yield is greater. The Fairtrade premium also helps a lot".

PROSPECTUS

Stichting Oikocredit International Share Foundation is a foundation (*Stichting Administratiekantoor*) incorporated in the Netherlands, having its registered office in Amersfoort ("OISF"). OISF offers Depositary Receipts for underlying Shares of OIKOCREDIT, Ecumenical Development Cooperative Society U.A. (the "**Cooperative**"). Therefore, this Prospectus must be read together with the Cooperative Prospectus.

This prospectus (the "**Prospectus**") is made available in connection with the offer of the Depositary Receipts in the Netherlands and in several other member states of the European Economic Area, and has been drawn up in accordance with Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") and approved by the Netherlands Authority for the Financial Markets (*Autoriteit Financiële Markten*, the "**AFM**"). OISF has requested the AFM to notify the competent authorities of the member states listed in Appendix 1 with a certificate of approval attesting that this Prospectus has been drawn up in accordance with the Prospectus Regulation.

The Prospectus is valid for a period of 12 months after [3] June 2022 (the "**Approval Date**"), provided that it is completed by any supplement required pursuant to Article 23 of the Prospectus Regulation. If significant new factors, material mistakes or material inaccuracies relating to the information included in this Prospectus which may affect the assessment of the Depositary Receipts arise or are noted during the life of this Prospectus, OISF shall publish this new information in a supplement to this Prospectus. Investors are advised to ascertain whether, as from the date of this Prospectus, supplements have been made publicly available. Supplements are published, if any, on the section of our website dedicated to the Prospectus. The obligation to supplement a Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when a Prospectus is no longer valid.

Prospective investors are expressly informed that an investment in Depositary Receipts entails certain risks. The realization of the risks of OISF's (and the Cooperative's) operations described in this Prospectus may have a material impact on OISF's (and the Cooperative's) future financial performance, on the possible return on Depositary Receipts, as well as the ability to recover the amount

invested in the Depositary Receipts altogether. Therefore, investors should read and carefully review the content of this Prospectus together with the information incorporated by reference and supplements to the Prospectus (if any).

Neither this Prospectus, nor any other information supplied in connection with the issuance of the Depositary Receipts, should be considered a recommendation by OISF to make an investment in the Shares. Before making an investment decision, each prospective investor should consult his or her own financial, legal or tax advisers.

Neither the delivery of this Prospectus nor any sale on the basis thereof shall, under any circumstances, imply that the information contained in this Prospectus is correct as of a date subsequent to the Approval Date. Investors should review, among other things, the most recent financial statements of OISF and the Cooperative when deciding whether or not to purchase any Depositary Receipts.

Unless explicitly stated otherwise, all financial information in this Prospectus is unaudited. The forward-looking statements in this Prospectus involve known and unknown risks, uncertainties and other factors that could cause OISF's (and the Cooperative's) actual future results, performance and achievements to differ materially from those forecasted or suggested herein.

The definitions as included in section 12 shall fully apply to all sections of this Prospectus, unless the context explicitly provides otherwise.

All qualifications of a legal nature contained in this Prospectus relate to Dutch law, unless the context requires otherwise. Dutch law is applicable to this Prospectus. This Prospectus is only available in the English language.

The distribution of this Prospectus and the offering of the Depositary Receipts may, in certain jurisdictions, such as the United States of America and Canada, be restricted by law. This Prospectus may not be used for the purpose of, or in connection with, any offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation. Please refer to Appendix 2 for more information.

SUMMARY

1.1 Introduction and warnings

1.1.1 Introduction

Stichting Oikocredit International Share Foundation ("**OISF**" or the "**Issuer**") offers depository receipts ("**Depository Receipts**") for shares (the "**Shares**") in the capital of OIKOCREDIT, Ecumenical Development Cooperative Society U.A (the "**Cooperative**"). OISF is a foundation incorporated in the Netherlands and operating under Dutch Law. OISF functions as an administrative office (*Stichting Administratiekantoor*) of the Cooperative for the sole purpose of issuing Depository Receipts. OISF has its statutory seat and office in Amersfoort and its head office at Berkenweg 7 (3818 LA) in Amersfoort. OISF is registered at the Gooi- Eem- and Flevoland Chamber of Commerce in Amersfoort under number 41190347. The Legal Entity Identifier of OISF is 724500YMVPDL98ME3045. The ISIN number of the Depository Receipts is NL0015026477. OISF's prospectus in connection with the offering of Depository Receipts for Shares (the "**Prospectus**") has been approved by the AFM, as competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"), on 3 June 2022. The AFM's address is Vijzelgracht 50, (1017 HS) Amsterdam, the Netherlands. Its telephone number is +31 (0)20 797 2000 and its website is www.afm.nl.

1.1.2 Warnings

The summary should be read as an introduction to the Prospectus. Any decision to invest in the Depository Receipts should be based on consideration of the Prospectus as a whole by the investor. Investors should be aware they could lose all or a part of their invested capital. Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the relevant national law, have to bear the costs of translating the Prospectus before the legal proceedings can be initiated. Civil liability attaches only to those persons who have tabled the summary including any translation thereof, but only the case where the summary is misleading, inaccurate or inconsistent or where it does not provide, when read together with the other parts of the Prospectus key information in order to aid investors when considering whether to invest in the Depository Receipts.

1.2 Key information on the Company

1.2.1 Who is the issuer of the securities?

Stichting Oikocredit International Share Foundation offers Depository Receipts for Shares in OIKOCREDIT, Ecumenical Development Cooperative Society U.A. OISF has its statutory seat and office in Amersfoort and is a foundation incorporated in the Netherlands and operating under Dutch law. The Legal Entity Identifier of OISF is 724500YMVPDL98ME3045. The purpose of OISF is issuing Depository Receipts for Shares in the Cooperative. The Cooperative's goal is to promote sustainable development by providing loans, equity investments and capacity building support to 'partners'. These are organisations to which the Cooperative has provided funding and that are engaged in economic activity or enterprises which provide both a financial and social return in mostly low-income countries (the "**Partners**"). OISF is a foundation without share capital and consequently without (major) shareholders. OISF is not (in)directly owned or controlled by others. OISF is being led by its board (*stichtingsbestuur*) (the "**OISF Board**") which consists of four members. Mr. Karsten Löffler is chair of the OISF Board. The other members of the OISF Board are Mr. Friedhelm Josef Boschert, Mr. Jorge Berezo and Mr. Patrick Stutvoet. The statutory auditor of OISF is KPMG Accountants N.V., member of the Dutch Association of

Accountants (*Nederlandse Beroepsorganisatie van Accountants*). KPMG Accountants N.V. has its statutory office in Amstelveen, the Netherlands, at the Laan van Langerhuize 1 (1186 DS).

1.2.2 What is the key financial information regarding the issuer?

As OISF only functions as an administrative office, the financial information regarding the Cooperative is presented in the tables below.

Income statement for non-financial entities	2021	2020	2019	Interim	Comparative interim from same period.
	€ ,000	€ ,000	€ ,000		
Total Income	67,354	80,114	97,034	N/A	N/A
*Operating profit/loss or another similar measure of financial performance used by the issuer in the financial statements	19,329	(21,133)	10,483	N/A	N/A
*Net profit or loss (for consolidated financial statements net profit or loss attributable to equity holders of the parent)	15,257	(22,182)	14,274	N/A	N/A
#Year on year revenue growth	(15.9%)	(17.4%)	18.3%	N/A	N/A
#Net profit margin	22.7%	(27.7%)	14.7%	N/A	N/A
Balance sheet for non-financial entities	2021	2020	2019	Interim	Comparative interim from same period.
	€ ,000	€ ,000	€ ,000		
Total Assets	1,258,134	1,241,713	1,310,359	N/A	N/A
*Total Equity	1,205,392	1,165,436	1,217,520	N/A	N/A
#Net financial debt (long term debt plus short term debt minus cash)	52,742	76,277	92,839	N/A	N/A
Cash flow statement for non-financial entities	2021	2020	2019	Interim	Comparative interim from same period.
	€ ,000	€ ,000	€ ,000		
*Relevant net Cash flows from operating activities and/or cash flows from investing activities and/or cash from financing activities.	(175,946)	126,636	520	N/A	N/A

1.2.3 What are the key risks that are specific to the issuer?

OISF functions as an administration office (*administratiekantoor*) of the Cooperative and is not involved in any other activities than the issuance of Depository Receipts for underlying Shares. As such, Depository Receipts entail at least the same level of risk as a direct investment in Shares. The risks at Cooperative level, as described below, may negatively impact the performance of the Cooperative as well as its financial results. These risks may therefore have a negative impact on the dividend to be paid out on the (Shares and consequently the) Depository Receipts, the net asset value of the (Shares and consequently the) Depository Receipts (the "**Net Asset Value**"), and/or the ability to redeem the (Shares and consequently the) Depository Receipts. The following risks pertain to the Cooperative being the issuer of the underlying Shares:

Financial Risks

- The Cooperative may not receive back outstanding loan amounts, as well as other amounts that are due (e.g. interest payments, fees), from a credit Partner (i.e. an organisation to which the Cooperative has extended a loan) as a result of negative developments with respect to the credit worthiness of a Partner.
- The Cooperative may experience financial losses involved in holding a particular equity stake in a Partner. This may occur if the Partner is facing financial issues because of a reduction of business opportunities or other risks in its own activities, or if there is no buyer to finance the Cooperative's exit from the investment.
- The Cooperative may not be able to meet its payment obligations, redemption requests from members of the Cooperative (the "**Members**"), and/or payment commitments and obligations to Partners and other counterparties. The Cooperative aims to have sufficient cash and other liquid assets available to be able to meet all its payment obligations and to accommodate redemption requests from its Members on an ongoing basis (the Shares do not have a lock-up period, i.e. there is no predetermined restricted period in which shares cannot be redeemed); at the same time, the Cooperative seeks to provide funding to Partners that is more long term in order to enable them to match funding needs with cash flows.
- The Cooperative may experience financial losses because of unexpected fluctuations in foreign currency positions. Although this risk is mitigated with the use of derivative contracts, hedges in less liquid currencies may not be always available and consequently the Cooperative may have to leave the exposures in such currencies unhedged. In the event the unhedged amounts are significant and the respective currencies depreciate relative to the euro, there can be a significant negative effect on the profitability of the Cooperative.
- Changes in interest rates may negatively affect the financial results of the Cooperative. Both hard (i.e. USD and EUR) and local (emerging and frontier market currencies) currency exposures may negatively affect the value of the investment portfolio (especially interest sensitive assets such as credit instruments, term investments, FX/IR derivatives, cash and deposits) and the financial income statement.
- The Cooperative has significant positions with financial institutions (not being Partners) ("**counterparties**") and a negative development in the creditworthiness of, or defaults on their contractual obligations by such counterparties could result in financial losses for the Cooperative.
- The Cooperative may see a reduction of its portfolio and liquidity buffers and it may incur significant additional credit and equity losses as a consequence of a resurgence of the Covid-19 outbreak.

Non-Financial Risks

- The Cooperative might incur significant costs or face financial losses resulting from inadequate or failed internal processes and/or systems, from human error, and/or from external events. The Cooperative is a relatively complex organisation with offices in 18 countries. Some of the offices are located in countries with generally higher chances of business disruptions because of climate events, political unrest and/or logistical issues. Loans are often created based on local law, in local currencies and tailored for specific requirements of the Partner. Many steps and controls are required to create these contracts and mistakes may occur during this process. The 'tailor-made' approach makes it difficult to create one-size-fits-all processes that could be easily monitored and automated; consequently the risk of internal or external fraud is elevated.
- The Cooperative may incur financial losses as a result of its business practices and internal policies failing to comply with (local) laws and regulations. Because of the spread of the Cooperative's activities across approximately 30 jurisdictions, the Cooperative needs to evaluate compliance and adjust its business processes and internal policies continuously. Some of the changes in laws and regulations may be

unexpected, which makes the prompt compliance with such laws and regulations difficult. Failures to comply with (unexpected) changing (local) laws and regulations may lead to (regulatory) sanctions or fines, financial losses, and reputational damage for the Cooperative.

•

Strategic Risks

- The Cooperative may fail to offer the right products in the right markets which could lead to a loss of business opportunities and in turn hinder the Cooperative's ability to make new loan and equity investments; it can also lead to the Cooperative's failing to attract sufficient funding for its activities.
- The Cooperative may face a reduction in efficiency and financial returns if the portfolio declines in value and it is not able to reduce its costs on a pro-rata basis.
- The Cooperative is subject to regulatory regimes in multiple jurisdictions in which it operates, including the Netherlands, and changes in these regulatory regimes can adversely affect its business and operations, and its financial results.

1.3 Key information on the Depository Receipts

1.3.1 What are the main features of the securities?

OISF issues Depository Receipts for Shares in the capital of the Cooperative. The ISIN number of the Depository Receipts is NL0015026477. OISF may at all times issue Depository Receipts, except to the extent that the Cooperative has suspended the issuance of Shares. Unless this exception applies at the level of the Cooperative, there is no limit to the number of Depository Receipts that can be issued by OISF. The managing board (*bestuur*) of the Cooperative (the "**Managing Board**") issues and redeems Shares at its discretion in accordance with the Cooperative's articles of association (the "**Articles of Association**") and the further elaboration in the Cooperative's member share issuance and redemption policy ("**Member Share Issuance and Redemption Policy**") which gradually applied from September 2020. The subscription price of the Depository Receipts is equal to the subscription price of the underlying Shares. In the past Depository Receipts have been issued in EUR, SEK, GDP, CAD, USD and CHF but during the validity of this Prospectus, OISF may issue Depository Receipts to eligible holders ("**Holders**") at a subscription price in EUR or SEK (for new investments and for reinvestment of dividend), USD and CHF (only for reinvestment of dividend), and any other currency as resolved by the OISF Board, provided that the Cooperative issues Shares in that currency. Depository Receipts in SEK will be issued only to residents of Sweden. The subscription price could be affected by (i) an administrative fee (if applicable) and/or (ii) deduction or withholding of taxes (if any). Depository Receipts do not give Holders any right to vote and no formal meetings of Holders will be held. OISF itself has only one vote for its Shares at the Cooperative's general meeting (*algemene ledenvergadering*) ("**General Meeting**"). All Depository Receipts entitle the Holder to a dividend proportional to the Nominal Value of the underlying Shares.

The annual net results are calculated by subtracting all operating costs, losses and depreciation costs (if any) from the gross revenue of the Cooperative, in accordance with generally accepted accounting principles in the Netherlands. The net income available for distribution is allocated by (the Cooperative and consequently) OISF to the Holders according to OISF's terms and conditions (*administratievoorwaarden*) (the "**Terms and Conditions**"). The proposed dividend per Share for 2021 amounts to 0.5%. It is up to the General Meeting in June 2022 to adopt this proposal of the Managing Board. Dividends made available in cash which are not claimed within five years shall

be forfeited for the benefit of OISF. Dividend in amounts below EUR 50, USD 50, SEK 500, CHF 50 will be automatically reinvested as a stock dividend.

Holders may transfer their Depository Receipts to other Holders, but such transfer requires an agreement in writing and acknowledgement of the transfer on behalf of OISF. As the Terms and Conditions determine that only Holders may hold Depository Receipts, it is not possible for Holders to transfer the Depository Receipts to non-Holders. In case of insolvency of the Cooperative liquidation of OISF will necessarily follow. In case of liquidation of OISF, the OISF Board will request redemption of the Shares corresponding to the Depository Receipts. Remaining funds in the Cooperative will first be allocated to the creditors of the Cooperative. Any remaining funds will be allocated to the members of the Cooperative, which include OISF. The redemption value of the Depository Receipts may be (far) below Nominal Value and even be zero. Considering that OISF is a *stichting administratiekantoor*, OISF will pass the funds allocated by the (receiver of the) Cooperative to its Holders. There is no priority in ranking amongst Holders of Depository Receipts.

1.3.2 *Where will the securities be traded?*

The Depository Receipts are currently not listed and OISF has no plans to have the Depository Receipts admitted to trading or distributed on a regulated market or a multilateral trading facility.

1.3.3 *What are the key risks that are specific to the securities?*

Dividends can vary and are not certain. The key risks specific to the Cooperative that result in financial losses for the Cooperative may negatively affect the Net Asset Value per Share and/or the amount of dividend to be paid out on the Shares and subsequently on the Depository Receipts. Because the number of Depository Receipts that can be offered is unlimited, distributable income may be diluted in case the additional funds cannot be invested by the Cooperative at least at the average yield of the existing portfolio. A lower financial return on the Cooperative's portfolio may negatively affect the amount of dividend to be paid out on the Shares and the Net Asset Value per Share. As the Depository Receipts reflect the Shares on a one-to-one basis, a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share negatively affects the Holders of Depository Receipts as dividend payments on Depository Receipts can be lower.

Risk that redemption of Depository Receipts is below the Nominal Value. The price at which OISF may redeem Depository Receipts will be based on the price at which the Cooperative is willing to repurchase the corresponding Shares. The redemption price will be lower than the Nominal Value if (i) the Net Asset Value per Share is less than the Nominal Value and the Cooperative is only willing to repurchase the corresponding Shares against that lower Net Asset Value or (ii) in the event taxes must be paid or withheld in connection with the repurchase by the Cooperative of the corresponding Shares. In addition, the redemption price of the Depository Receipts a particular Holder has requested for redemption may become lower during the time waiting for redemption.

Holders may not be always able to convert immediately their investment in the Depository Receipt into cash; they largely depend on the possibility of OISF to redeem these Depository Receipts, which redemption (depending on a repurchase decision by the Cooperative) could be delayed. In principle redemption may only take place if the Cooperative has agreed to repurchase from OISF a number of Shares equal to the number of Depository Receipts to be redeemed. If Shares are repurchased by the Cooperative the conditions mentioned in article 13 of the Articles of Association and the further elaboration thereof in the Member Share Issuance and Redemption Policy (which applies as of September 2020) will be taken into account. The policy outlines the circumstances under which redemptions or the issuance of Shares may be suspended by the Managing

Board. The aforementioned article 13 of the Articles of Association states that a request for redemption could be delayed for up to five years. The Articles of Association also contain a provision that would remove the five-year redemption period upon the occurrence of certain conditions. Up to the date of this Prospectus, none of the conditions are met, but the effect would be that the granting of any redemption request might be delayed indefinitely by the Cooperative. Holders largely depend on the possibility to redeem their Depository Receipts, since there is no public market for the Depository Receipts and Holders may only transfer their Depository Receipts to other Holders (with an agreement in writing and acknowledgement of the transfer by OISF). In case the redemption of Shares (and thus indirectly the Depository Receipts) is delayed by the Cooperative, the value of the Shares (and thus indirectly the Depository Receipts) could reduce in that time waiting for redemption.

1.4 Key information on the admission

1.4.1 Under which conditions and timetable can I invest in this security?

Depository Receipts may only be issued to Holders as set out in the Terms and Conditions. There is no specific timetable for the offering of Depository Receipts as these are (in principle) being offered continuously. OISF does not make use of placing agencies in the countries in which this Prospectus has been passported and/or any other intermediaries in connection with the offering of Depository Receipts. OISF profits from the name recognition of Oikocredit as a Cooperative (internationally). The Cooperative works closely with 'support associations' ("**Support Associations**"). Support Associations are members of the Cooperative and raise people's awareness in the relevant countries about the importance of development and socially responsible investments. The Cooperative also works with national support offices. These offices raise awareness of the Cooperative among the Members, investors and the public, build strategic partnerships, and liaise with Support Associations.

All Shares are offered and thereby issued against the nominal value. When new Shares are issued, the financial position of the Members may dilute, because such issuance reduces the Net Asset Value per Share when the financial return on the newly issued Shares is lower than the financial return on the existing Shares. The amount and percentage of the dilution cannot be calculated as Depository Receipts are issued on a continuous basis and the number of Depository Receipts that can be offered is unlimited.

The financial administration of OISF, the issuance of the Depository Receipts and related matters are carried out on behalf of OISF by the staff of the Cooperative pursuant to an administration and outsourcing agreement between OISF and the Cooperative (the "**Administration and Outsourcing Agreement**"). In accordance with this agreement, the Cooperative will reimburse OISF for all its costs and OISF will transfer all its income to the Cooperative for all services related to the administration, issuance, and redemption of the Depository Receipts. Besides the aforementioned costs (incurred by OISF but borne by the Cooperative), OISF incurs annual entity costs, which are costs other than directly in relation with or arising from the administration, issuance and redemption of Depository Receipts, for example a reasonable remuneration of OISF's board members, costs charged by the chamber of commerce in the Netherlands as well as in other countries in which OISF is registered as an entity regarding the existence of OISF as an entity, changes in the OISF board composition and its legal representation. Income could – amongst other items – consists of exchange rate income. If the income of OISF is not sufficient to cover the annual costs of OISF, an administrative fee may be charged to the Holders. This fee will not exceed 0.5% of the average yearly Nominal Value of the Depository Receipts. This fee will be deducted by OISF from the dividends to be paid to the Holder(s) but will not lead to a negative (dividend) amount.

1.4.2 Why is this Prospectus being produced?

This Prospectus is made available in connection with the offer of the Depositary Receipts in the Netherlands and in several other member states of the European Economic Area of which the competent authorities have been notified by the AFM with a certificate of approval attesting that this Prospectus has been drawn up in accordance with the Prospectus Regulation.

The main purpose of OISF is to provide additional investment opportunities for legal and natural persons who would like to participate in the Cooperative to support Oikocredit's mission through investing, but do not meet the criteria to become Members. Depositary Receipts are in principle continuously offered to Holders. Based on the foregoing years, we expect the net amount of the proceeds of the Depositary Receipts issuance during the life of this Prospectus to amount € 6.9 million. This number is an estimate and may change significantly if the capital raising model of the Cooperative changes. The actual net proceeds can deviate from the estimation. OISF will use the proceeds of the Depositary Receipts (after the deduction of taxes, if any) for the purchase of Shares. The offer is not subject to an underwriting agreement on a firm commitment basis. The costs of the offering are borne by the Cooperative on the basis of the Administration and Outsourcing Agreement.

There could be potential conflicts of interests on governance levels which relates to ancillary activities, namely (i) Mr Boschert is chair and a member of the board of directors of Oikocredit Support Association Austria (a Member of the Cooperative), (ii) Mr Berezo is chair and a member of the board of Oikocredit Euskadi (a Member of the Cooperative) and (iii) Mr Stutvoet is member of the Managing Board of the Cooperative. For the remainder there are no potential conflicts of interests.

1

RISK FACTORS

Risk factors specific to the Cooperative

- a. Financial risk
- b. Non financial risk
- c. Strategic risk

Risk factors specific to the Depository Receipts

1 RISK FACTORS

Prospective investors in the Depository Receipts are explicitly advised that such investment entails financial risks.

OISF functions as an administration office (*administratiekantoor*) of the Cooperative and is not involved in any other activities than the issuance of Depository Receipts. Depository Receipts are investment instruments which may pay an annual dividend determined at the level of the underlying Shares. The underlying Shares are the Shares in the capital of the Cooperative. As such, Depository Receipts entail at least the same level of risk as a direct investment in Shares. The risks described in this section (mainly at Cooperative level) may have a negative impact on the price of the (Shares and consequently the) Depository Receipts. These risks could also negatively impact the dividends on the Depository Receipts.

Although OISF believes that the risks described below are material risks, they may not be the only ones that OISF faces. Additional risks not presently known to OISF, or ones OISF currently deems immaterial could also negatively affect the value and dividend of the Depository Receipts. The risks described below are divided in several categories in which the most material risks are described first.

1.1 Risk factors specific to the Cooperative

1.1.1 Financial risks

The Cooperative may not receive back outstanding loan amounts, as well as other amounts that are due (e.g. interest payments, fees), from a credit Partner (i.e. an organisation to which the Cooperative has extended a loan) as a result of negative developments with respect to the creditworthiness of a Partner.

Most of the Cooperative's counterparties are Partners. The Cooperative provides Partner Funding. Therefore, the risk that a Partner defaults on a loan is credit risk. For all other counterparties, such as Financial Institutions that provide financial services to the Cooperative, the risk of default on the contract with such counterparty is described as "counterparty risk" (please refer to the risk factor: "*The Cooperative has significant positions with Financial Institutions (not being Partners) ('counterparties') and a negative development in the creditworthiness of, or defaults by such counterparties can result in financial losses for the Cooperative .*" below).

Credit risk includes all potential reasons why a Partner cannot repay under its loan agreement, including changes in economic or political circumstances in the country where the Partner is located or operates, changes in the risks in the business activities of the Partner, changing conditions for its business activities (e.g. the effect of changing regulations, changes in climate and the environment). The risks of non-repayment can also result from specific Partner circumstances and actions, such as business malpractice or even fraud.

A part of the credit risk is the concentration in certain countries or sectors, or relatively high exposures to a certain Partner. Country-specific events, such as those of a political, climate or macroeconomic nature can have a negative impact on the creditworthiness of Partners. The top 10 countries with the highest capital outstanding as of 31 December 2021 is shown in the chart on the right. A negative impact on the creditworthiness of the Partners may result in non-payment from Partners which can lead to losses in the development financing portfolio of the Cooperative beyond the loan loss provisions as described in the most recent annual accounts of the Cooperative.

Problems associated with a certain sector (for example, natural disasters within the agricultural sector) can have a negative impact on Partners that are active within that sector. This may result in non-payment from Partners which can lead to losses in the Cooperative's development financing portfolio.

As of 31 December 2021, development financing outstanding represents 78.6% of total assets. Of this 85.1% consists of loans (€ 847 million). The Cooperative had loan loss provisions representing 7.8% (€ 66.0 million) of loans. Historic average write offs add up to around 2%. Higher loan loss provisions can lead to a loss in the financial results and have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative may experience financial losses involved in holding a particular equity stake in a Partner.

Financial losses on equity stakes the Cooperative holds may occur if the Partner is facing financial issues because of a reduction of business opportunities or other risks in its own activities, or if there is no buyer to finance the Cooperative's exit from the investment. An equity stake can also generate a long term loss due to the deterioration of the Partner's financial and business conditions.

Equity stakes have different risk characteristics compared to loans. The investment lock-up period of capital is usually longer (around ten years) and the equity stakes do not generate steady cash flows (i.e. dividends are uncertain).

As of 31 December 2021, development financing outstanding represents 78.6% of total assets. Of this 14.9% consists of equity (€ 148.7 million). The Cooperative had impairments representing 18.4% (€ 27.4 million) of equity investments. Higher impairments or even write offs may be incurred when the economic situation in a country deteriorates, or when the Partner does not meet its business objectives. This can lead to lower financial results and have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative may not be able to meet its payment obligations, redemption requests from Members, and/or payment commitments and obligations to Partners and other counterparties.

The Cooperative aims to have sufficient cash and other liquid assets available to be able to meet all its payment obligations and to accommodate redemption requests from its Members on an ongoing basis (the Shares do not have a lock-up period, i.e. there is no predetermined restricted period in which shares cannot be redeemed); at the

same time, the Cooperative seeks to provide funding to Partners that is more long term in order to enable them to match funding with cash flows.

As a result, liquidity risk is inherently an important risk that the Cooperative seeks to manage. Liquidity buffers are composed of the sum of cash and bank balances, the value of the Term Investment portfolio (adjusted for any portions of it pledged to third parties), and the available credit lines with banks. Liquidity divided by the total assets stated on the balance sheet is referred to as the liquidity ratio. The Cooperative aims to have a liquidity ratio above 12.5%, with the ideal ratio being 15%. When the liquidity ratio decreases below 12.5% for a prolonged period this is considered a stress situation in which the Cooperative may not be able to meet payment obligations, redemption requests from its Members and/or payment commitments to Partners and other counterparties.

The Cooperative may decide to delay redemption requests in case it believes that doing so is in the interest of all stakeholders and is important to protect the value of the Shares (for example, to avoid a forced liquidation of assets). A further elaboration of the risk that the Cooperative is not able to meet redemption requests from its Members can be found under the risk factor "Risk of delay in redemption."

The Company may also manage its liquidity by entering into additional credit facilities with financial institutions (not being Partners). The costs of entering into additional credit facilities may have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The assets that are considered liquid (cash, the Term Investments) are not generating the same financial return as the development financing portfolio because these assets need to be low risk and easy to convert to cash as opposed to the development financing portfolio, which is higher risk and generally less liquid. Keeping a consistently higher liquidity ratio is not desirable as this would result in lower total financial results. When the financial results and Net Asset Value or dividend pay outs are structurally too low for the risks of the total portfolio, this can result in additional redemption requests.

As of 31 December 2021, the Cooperative had a 21.5% liquidity ratio. The Cooperative expects the liquidity ratio to decrease in the coming year (which decrease may potentially be significant) as a result of the expected costs involved with, and the temporarily decreased funding opportunities as a result of the transition to a new capital raising model and changes in German law (please refer to subsection 4.7.2 below), and is contemplating establishing credit lines for supporting liquidity. Another factor that may decrease the liquidity ratio is the expected growth of the development finance portfolio.

The Cooperative may experience financial losses because of unexpected fluctuations in foreign currency positions.

Currency risks exist for the Cooperative, as the Cooperative's available Member capital is predominantly denominated in euro while 48.8% of the amounts outstanding in development financing were denominated in US dollars and 46% in local currencies, with 5.2% in euro, as of 31 December 2021.

As per year end 2021, the Cooperative has entered into derivative contracts to offset more than 90% of the loan exposure in foreign currency. The use of derivative contracts is the main way in which the Cooperative mitigates foreign exchange rate risk. However, hedges in less liquid currencies may not be always available and consequently the Cooperative may have to leave the exposures in such currencies unhedged. In the event the unhedged amounts are significant and the respective currencies depreciate relative to the euro, there can be a significant negative effect on the profitability of the Cooperative. Working with derivatives can also lead to increased liquidity risks and counterparty risks because of the mark-to-market of derivatives exposures and the collateral requirements (please

refer to the risk factor "*The Cooperative has significant positions with Financial Institutions (not being Partners) ('counterparties') and a negative development in the creditworthiness of, or defaults on their contractual obligations by such counterparties can result in financial losses for the Cooperative.*").

Changes in interest rates may negatively affect the financial results of the Cooperative.

Both hard (i.e. USD and EUR) and local (emerging and frontier market currencies) currency exposures may negatively affect the value of the investment portfolio (especially interest sensitive assets such as credit instruments, Term Investments, FX/IR derivatives, cash and deposits) and the financial income statement.

One of the main sources of interest rate risk for the Cooperative arises from exposure to the euro, because all financial results directly translate to the ability to pay dividend and the Shares themselves are mainly denominated in euro. Changes in the euro short-term interest rates affect the net interest income of the Cooperative, which constitutes the largest source of income because of the size of its loan portfolio relative to the total portfolio. When short-term interest rates go up in the euro zone, the financial results of the Cooperative would improve. In the opposite situation when short-term interest rates go down in the euro zone, the financial results of the Cooperative would deteriorate. The total effect of changing interest rates can be expressed by the average duration of the total portfolio and other interest generating assets on the balance sheet. From a net interest income perspective a 1 percentage point increase of euro short-term rates would lead to a 0.5-1% improvement in the net interest income on the total interest bearing portfolio for the Cooperative, and vice versa. During the last years, the euro denominated reference rates (such as the Euribor) have even been negative. Some increase of euro short-term rates is currently expected by the end of 2022. This would support the generation of a net profit for the Cooperative.

A reduction of the achievable net interest income can negatively affect the financial results of the Cooperative and consequently have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative has significant positions with Financial Institutions (not being Partners) ("counterparties") and a negative development in the creditworthiness of, or defaults on their contractual obligations by such counterparties can result in financial losses for the Cooperative.

The positions with these financial counterparties are used by the Cooperative to enable its main investments activities. They include, for example, hedging activities and the corresponding collateral requirements, placing excess liquidity or working capital in deposit and current accounts, including accounts in banks in emerging markets. The total exposure to individual counterparties can be up to 10% of total assets and therefore significant deterioration in the creditworthiness of these counterparties can have a negative effect on the financial results of the Cooperative and consequently on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative may see a reduction of its portfolio and liquidity buffers and it may incur significant additional credit and equity losses as a consequence of a resurgence of the Covid-19 outbreak.

During 2020 the Cooperative found itself facing the effects of the Covid-19 pandemic on the repayment behaviour of some of its partners. As a consequence, in order to bolster these partners' business continuity and in line with the actions undertaken by several governments from a regulatory perspective, the Cooperative had granted them the possibility to request a payment moratorium (referred to in the below as 'payment holiday'). The standard provisioning procedures were not suited for this particular payment status category because these would potentially lead to an underestimation of the expected losses arising from credit risk. For this reason, an ad-hoc procedure for

assessing the provisioning levels was developed in 2020 and applied to all the instruments that are comprised in the payment holiday category. This procedure continued throughout 2021. However, during 2021 there were only two new payment holidays granted to partners. At year-end 2021, five payment holiday partners remained. Four of these partners fall in the payment holiday category due to covenant breaches and only one partner is making use of a revised repayment schedule. Overall, loan loss provisioning returned to pre-Covid-19 levels.

However, with a potential rebound of the Covid-19 outbreak, the Cooperative may experience reductions in the net value of its loan and equity portfolio (due to potential higher loan loss provisions and impairments). In addition, Cooperative investors could also ask for redemptions for Covid-19 related reasons (such as loss of income), which could tighten the liquidity and funding available for development financing. This may impact the profitability of the Cooperative and therefore the Net Asset Value per Share.

The Cooperative posts ongoing updates at www.oikocredit.coop/covid-19.

1.1.2 Non-financial risks

The Cooperative may incur significant costs or face financial losses resulting from inadequate or failed internal processes and/or systems, from human error, and/or from external events.

From a process and operational perspective, the Cooperative is a relatively complex organisation with offices in 18 countries. Some of the offices are located in countries with generally higher chances of business disruptions because of climate events, political unrest and/or logistical issues. The Cooperative continuously updates its procedures for emergency situations.

Another factor which increases the risk of mistakes is that the loans are often created based on local law, in local currencies and tailored for specific requirements of the Partner. While this flexibility towards Partners allows the Cooperative to demand a higher price on its loans, many steps and controls are required to create these contracts and mistakes may occur during this process. Also regulations and legal systems in Partner countries are generally less stable and predictable compared to the legal systems in Europe. This makes it inherently difficult to ensure that contracts are created that will remain predictable in terms of the Cooperative's ability to enforce them for the entirety of their duration.

The complexity of this 'tailor-made' approach to Partners makes it difficult to create one-size-fits-all processes that can be easily monitored and automated; consequently the risk of internal or external fraud is elevated. Historically, only minor incidents of fraud have occurred, with the exception of one larger external cybercrime incident in 2019. The Cooperative has updated its procedures and processes to be able to face new risks such as the increase of various forms of cybercrime. There have not been significant failures or unavailability of systems so far. The Cooperative regularly assesses incidents. Most incidents relate to human error and inadequate or failed internal processes. The Cooperative will do everything in its power to ensure it has sufficient processes and controls in place to reduce the likelihood of the significant events described above, but it cannot avoid these events completely.

A significant event can result in financial losses directly, as well as indirectly by affecting the Cooperative's reputation among Investors and Partners as an effective and reliable organisation. In turn, financial losses affect the financial results negatively and consequently have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative may incur financial losses as a result of its business practices and internal policies failing to comply with (local) laws and regulations.

Because of the spread of the Cooperative's activities across approximately 30 jurisdictions, the Cooperative needs to evaluate the compliance of its business processes and internal policies with (local) laws and regulations, and make necessary adjustments, continuously. Some of the changes in laws and regulations may be unexpected, which makes the prompt compliance with such laws and regulations difficult. The Cooperative has processes and controls in place to mitigate the occurrence of such failures to comply with (local) laws and regulations. However, it cannot be ruled out that these events take place because of the complexity of the organisation, as it operates in many jurisdictions with changing regulations.

A particularly important and complex area is the screening of Partners according to Know Your Customer regulations, which includes a screening for compliance with Anti Money Laundering and sanctions laws. The Cooperative applies the Dutch Anti-Money Laundering and Anti-Terrorism Law (WWFT) for the screening of its Partners. However, in some jurisdictions where the Cooperative operates, the regulations against Anti Money Laundering are less strict and it is therefore more difficult for the Cooperative to obtain documentation that meets the requirements of the WWFT. On the other hand, it is crucial for the Cooperative that it can finance Partners that may be less sophisticated when the Cooperative starts the cooperation and the Cooperative often assists Partners to improve their processes, including compliance processes. Historically, there have been few incidents with Partners relating to non-compliance.

Failures to comply with (unexpected) changing (local) laws and regulations may lead to (regulatory) sanctions or fines, financial losses, and reputational damage for the Cooperative. (Regulatory) sanctions or fines and financial losses and reputational damage can affect the financial results of the Cooperative and consequently have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative may not be able to finance new activities and to grow its business due to a negative perception by its (potential) Members, Partners or other counterparties.

Typically, reputational risk arises from the failure to manage operational or compliance risk (please refer to the risk factor "*The Cooperative may incur financial losses as a result of its business practices and internal policies failing to comply with (local) laws and regulations*" above), from the failure to meet the standards and expectations of its (potential) Members concerning the social impact that the Cooperative achieves (whether or not informed by comparisons with similar organisations), from negatively perceived actions of Parties or (market) circumstances in the jurisdictions in which the Cooperative is active, or due to a general negative perception of social impact investing caused by negative publicity on competitors of the Cooperative.

The social impact that the Cooperative aims to achieve is difficult to measure, and there are no global standards for its measurement yet. We publish both the policies and the parameters followed to achieve such impact, but it cannot be avoided that certain (potential) Members have a different opinion on whether our achievements in this area are satisfactory, also in comparison with what other comparable organisations are doing. The Cooperative welcomes such debates with its Members and aims to improve its methods of measuring impact. The Cooperative welcomes the increased disclosure requirements introduced as part of the EU Sustainable Finance framework supporting the 'European green deal'. Even though the Cooperative is not subject to any of the regulations that have come into force thus far, it intends to comply in spirit with them in order to fulfil Members' expectations that it follows best practices in social impact reporting.

It cannot be fully avoided that actions of certain Partners or events or market circumstances in certain jurisdictions in which the Cooperative is active may give rise to negative perceptions. An example of where a negative perception caused a debate with Members is the ongoing newspaper coverage of the market circumstances in the micro finance sector in Cambodia, raising doubts as to whether the Cooperative's MFI Partners have treated their customers, the micro borrowers, fairly. Damage to the Cooperative's reputation can seriously affect future capital inflow because it might deter potential new Members from investing in the Cooperative and existing Members from increasing their investment. It might also impel existing Members to cease their membership and/or to make a redemption request which in turn also affects the Cooperative's ability to finance new activities.

1.1.3 Strategic risks

The Cooperative may fail to offer the right products in the right markets which could lead to a loss of business opportunities and in turn hinder its ability to make new loan and equity investments; it can also lead to the Cooperative's failing to attract sufficient funding for its activities.

As part of its 2018-2022 strategy, as well as the new strategy, which is under development, the Cooperative identifies two distinct sets of products and markets:

- Products and markets relating to the development financing portfolio ('outflow'); and
- Products and markets relating to the funding of these activities ('inflow').

For the past few years, the financial products that the Cooperative offers have become less unique due to the increased competition in the area of "impact investing" or "sustainable financing". As a consequence, this might create pressure on the pricing of the products (outflow) and lower appetite of Investors for the Shares (inflow). Lower pricing of outflow products, as well as insufficient inflow to fund the growth objectives can lead to a lower profitability of the Cooperative. The Cooperative regularly reviews its product criteria, pricing and distribution processes, however, financial products are relatively easy to copy and innovation of products often leads to increased costs in systems. This business model risk consequently can result in a decline in market share, competitive position and therefore negatively affect the financial results of the Cooperative. This can have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative may face a reduction in efficiency and financial returns if the portfolio declines in value and it is not able to reduce its costs on a pro-rata basis.

After the portfolio contraction as a result of Covid-19 in 2020 the Cooperative's outstanding portfolio showed a recovery with a growth of 18% compared to end of 2020. In 2021 the Cooperative's cost remained at approximately 2.3% of the total asset base, just below target level.

If the Cooperative is able to grow the portfolio at the same cost level, the ratio will go down. This will reflect that the Cooperative has become more efficient. If the portfolio declines in value, the Cooperative would aim for a reduction of costs. Such a reduction of costs may take time or may at some point no longer be feasible (because the Cooperative still requires a minimum amount of functions that cannot be outsourced or reduced further) and therefore this situation may lead to a temporary decrease of the financial results of the Cooperative, until such a reduction of costs is visible or viable again (or the portfolio is growing again).

The Cooperative is undertaking important change projects that aim to improve processes and organisational compliance with rules and regulations, and notably change its capital-raising model to make it more future-proof (please refer to subsection 4.7.2 below). Making processes more efficient may reduce costs while projects to comply

with rules and regulations may increase costs. Changing the capital-raising model will increase costs during the transition period. Furthermore, the Cooperative's ability to raise the capital necessary for supporting the development finance portfolio could temporarily hamper as a consequence of this project. Changes in the regulatory environment affecting the Cooperative's ability to raise funding via the Support Associations from German investors elevates the funding risk which could mean ability to grow the value of the development finance portfolio is under pressure leading to inefficiency.

Elevated risk levels remain with regard to the potential impact of Covid-19 on the growth of the portfolio, as potential new waves of Covid-19 may still be emerging with low vaccination rates in many of the markets we operate in. Therefore the Cooperative needs to remain alert and cost conscious.

A temporary decrease of the financial results of the Cooperative due to the realization of the risk of inefficiency can have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

The Cooperative is subject to regulatory regimes in multiple jurisdictions in which it operates, including the Netherlands, and changes in these regulatory regimes can adversely affect its business and operations, and its financial results.

The Cooperative is a relatively small institution to which Dutch law applies. In addition, due to the international scope of the Cooperative's activities and its offices in multiple jurisdictions, foreign law applies to its business activities. This wide range of applicable laws and regimes is continuously developing, and requirements can vary per jurisdiction. The diversity of requirements poses a cost challenge to a relatively small institution such as the Cooperative. Further, in the event a key regulation changes fundamentally, this change can impact the Cooperative's ability to carry out its business operations in a way that puts it at a disadvantage relative to its bigger competitors.

The obligations arising from applicable laws and regulations in all the jurisdictions where the Cooperative operates may not be always clear and may be subject to multiple interpretations. The activities of the Cooperative trigger the application of a relatively limited number of (financial services regulations) laws in the Netherlands. In some of the jurisdictions where the Cooperative operates there may be, based on how local entities with similar activities are more heavily regulated, an expectation and/or confusion surrounding the regulatory status of the Cooperative in the Netherlands. The Cooperative is not in a position to fully anticipate the views of foreign regulators in this respect and often needs to depend on the view of local legal experts. A different interpretation of laws and regulations or a misinterpretation of the regulatory status of the Cooperative by supervisory authorities may result in the obligation to obtain a licence to provide loans in a certain jurisdiction. The applicable licence provisions in a certain jurisdiction, in case, for example, in the view of the relevant foreign supervisor the Cooperative qualifies as a credit institution, can be too burdensome to comply with because of the Cooperative's relatively limited size and scale. This might require the Cooperative to stop its lending activities in that specific jurisdiction. A different interpretation of laws and regulations or a misinterpretation of the regulatory status of the Cooperative by foreign supervisory authorities, for example when the Cooperative would be considered to be a credit institution or an alternative investment fund, can make it also impossible for the Cooperative to continue raising capital in such jurisdiction. In turn this can affect the Cooperative's ability to fulfil its mission and can also affect the Cooperative's reputation (please also refer to the risk factor "*The Cooperative may not be able to finance new activities and to grow its business due to a negative perception by its (potential) Members, Partners or other counterparties*" above).

In late 2020, the Cooperative initiated a process to review its capital raising model and look for possibilities to make it more resilient in the face of evolving financial markets regulation, especially in the European Union. This process

continued throughout 2021 and an Extraordinary General Meeting (EGM) was held in December 2021 to seek a mandate for next steps, which will be carried out in 2022. The new capital raising model is intended to be launched by the end of 2022, subject to approval by the General Meeting (please also refer to subsection 4.7.2 below)

A change in regulation can also impact the Cooperative more significantly relative to its perceived competitors who operate under a different regulatory framework. For example, changes in German law will make it impossible after 17 August 2022 to attract capital from new German investors via the trust model that has been used by the Support Associations in Germany (please refer to subsection 4.7.2below). These changes do not necessarily impact other social investment organizations (that may be organized as credit institutions or funds) to the same extent or at all, and as a result the Cooperative will have reduced funding opportunities compared to such perceived competitors while it is implementing its new capital raising model (which is expected to be finalized by the end of 2022) that would allow attracting capital from German investors again. During this transition period German investors may also reorient their investments to such perceived competitors which in turn could also decrease funding opportunities after the implementation of the new capital raising model if this means that such German investors no longer consider investments in Oikocredit or only consider investments for a lesser amount than they would have previously.

As a result of the differences in applicable regulation on the Cooperative's activities between the Netherlands and some of the countries it operates and the fact that it operates in multiple jurisdictions, the regulatory risks as described above are generally high and lead to increased cost levels and a reduction of efficiency and total financial performance (please also refer to the risk factor "*The Cooperative may face a reduction in efficiency and financial returns if the portfolio declines in value and it is not able to reduce its costs on a pro-rata basis*"). This can negatively affect the financial results of the Cooperative and consequently have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share.

1.2 Risk factors specific to the Depositary Receipts

Dividends can vary and are not certain.

The key risks specific to the Cooperative that result in financial losses for the Cooperative may negatively affect the Net Asset Value per Share and/or the amount of dividend to be paid out on the Shares and subsequently on the Depositary Receipts.

The impact of the key risks specific to the Cooperative (as listed in order of materiality in section 1.1 (except for the risk factor "*The Cooperative may not be able to finance new activities and to grow its business due to a negative perception by its Members, Partners or counterparties,*" as elaborated above)) may negatively affect the dividend to be paid out on the Depositary Receipts issued by OISF or the Net Asset Value of the Depositary Receipts. This is because these key risks can result in financial losses for the Cooperative and consequently have a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share. As the Depositary Receipts reflect the Shares on a one-to-one basis, a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share negatively affects the Holders of Depositary Receipts. In case one of the aforementioned key risks materialises at the level of the Cooperative, the dividend payments on the Depositary Receipts will be lower or even not occur or, in case of redemption, there is a risk that the redemption will be below Nominal Value (please refer to the risk factor: "*Risk that redemption will be below Nominal Value*" in section 1.2).

The underlying Shares of the Cooperative are in principle issued on a continuous basis. In September 2020, the Member Share Issuance and Redemption Policy began to apply to issuance and redemption requests. As a result the Cooperative assesses in- and outflows on a monthly basis and, following a positive assessment, processes issuance and redemption requests on a monthly basis. Because the number of Shares that may be offered is unlimited, distributable income may be diluted in case the additional funds cannot be invested at least at the average yield of the existing portfolio. Balancing in- and outflow of the Cooperative's capital is important to avoid unnecessary cash positions with a lower financial return compared to the return that is made on the other assets. Higher cash positions than the required cash buffer for working capital and liquidity management (with a target level of 15% of the balance sheet) could lead to a lower financial return. A lower financial return may negatively affect the amount of dividend to be paid out on the Shares and the Net Asset Value per Share. As the Depository Receipts reflect the Shares on a one-to-one basis, a negative impact on the amount of dividend to be paid out on the Shares and the Net Asset Value per Share negatively affects the Holders of Depository Receipts as dividend payments on Depository Receipts can be lower.

Risk that redemption of Depository Receipts is below the Nominal Value.

The price at which OISF may redeem Depository Receipts may be lower – but not higher – than the Nominal Value. Pursuant to article 9 of the Terms and Conditions, the price of the redemption will be based on the price at which the Cooperative is willing to repurchase the corresponding Shares.

The redemption price will be lower than the Nominal Value (i) if the Net Asset Value per Share is less than the Nominal Value of the Shares (please refer to the explanation below) or (ii) in the event taxes must be paid or withheld in connection with the repurchase by the Cooperative of the corresponding Shares.

In relation to (i) above, according to article 13 of the Articles of Association redemption of Shares shall (in principle) be at Nominal Value. However, if the Net Asset Value of Shares is lower than the Nominal Value of Shares, redemption will be at the (lower) Net Asset Value per Share. As the redemption price of the Depository Receipts will be based on the price at which the Cooperative is willing to repurchase the corresponding Shares, the redemption price of the Depository Receipts a particular Holder has requested for redemption could be below Nominal Value. In addition, the redemption price of the Depository Receipts a particular Holder has requested for redemption could reduce in the time waiting for redemption (please refer to the risk factor "*Holders are not always able to immediately convert their investment in the Depository Receipt into cash; they largely depend on the possibility of OISF to redeem these Depository Receipts, which redemption (depending on a repurchase decision by the Cooperative) could be delayed.*").

Holders may not be always able to convert immediately their investment in the Depository Receipt into cash; they largely depend on the possibility of OISF to redeem these Depository Receipts, which redemption (depending on a repurchase decision by the Cooperative) could be delayed.

In the following situations, at the discretion of the OISF Board, the Depository Receipts may be redeemed by OISF, under the conditions laid down in article 9 of the Terms and Conditions. Article 9 of the Terms and Conditions states that:

- OISF may, at its sole discretion, redeem (i.e. repurchase) all (and not some only) of the Depository Receipts in the event OISF is dissolved and liquidated (*ontbonden en vereffend*) or if it enters into a legal merger (*juridische fusie*) or demerger (*splitsing*).

- OISF may redeem all Depository receipts held by a Holder if, in the opinion of the OISF Board, the Holder ceases to comply with the criteria of an eligible Holder, in which case the Holder must offer and transfer the Depository Receipts to OISF.
- OISF may at its sole discretion and upon consideration of all facts and circumstances it deems relevant, redeem some or all of the Depository Receipts held by a particular Holder at the request of that Holder and acceptance thereof by OISF.

Redemption may only take place if the Cooperative has agreed to repurchase from OISF a number of Shares equal to the number of Depository Receipts to be redeemed. If Shares are repurchased by the Cooperative the conditions mentioned in article 13 of the Cooperative Articles of Association will be taken into account which are set out below. The Cooperative will also take into account the Member Share Issuance and Redemption Policy, which began to apply in September 2020. The policy outlines the circumstances under which redemptions or the issuance of Shares may be suspended by the Managing Board.

Article 13 of the Articles of Association states that:

- Shares shall be redeemed, if a Member has ceased to be a Member of Cooperative, no later than five years after cessation of membership;
- Shares shall be redeemed no later than five years after the redemption request, without prejudice to what has been provided in article 10 of the Articles of Association (i.e. provided that the Member retains holding at least one Share), without the Member ceasing its membership of the Cooperative;
- The redemption shall be at Nominal Value. However, if the Net Asset Value per Share is lower than the Nominal Value per Share in the most recently audited (interim) balance sheet preceding the redemption by the Cooperative, the amount payable upon redemption of the Share(s) shall not exceed the sum corresponding to the Net Asset Value of the Share(s) according to that balance sheet.

The aforementioned article 13 of the Articles of Association states that the granting of a request for redemption could be delayed for up to five (5) years. As the redemption will only take place if the Cooperative has agreed to repurchase from OISF, a redemption request of a Holder could be delayed for up to five (5) years. Holders may not be always able to convert immediately their investment in the Depository Receipt into cash. Holders largely depend on the possibility to request a redemption of their Depository Receipts, since there is no public market for the Depository Receipts and Holders may only transfer their Depository Receipts to other Holders (with an agreement in writing and acknowledgement of the transfer OISF). In case the redemption of Shares (and thus indirectly the Depository Receipts) is delayed by the Cooperative the value of the Shares (and thus indirectly the Depository Receipts) could reduce in that time waiting for redemption (please also refer to the risk factor "*Risk that redemption of Depository Receipts is below the Nominal Value*").

In June 2018 the General Meeting of the Cooperative approved the inclusion of a provision in the Articles of Association to remove the five-year redemption period of articles 13.1 and 13.2 of the Articles of Association of the Cooperative upon the occurrence of certain conditions before 1 July 2021 (please refer to section 5.5: *What are the terms and conditions for redemption of Shares?*). The effect would be that the granting of any redemption request might be delayed indefinitely by the Cooperative. The provision was included as a transition clause in the Articles of Association through a notarial deed dated 30 July 2018. The transition clause would have lapsed on 1 July 2021 if not triggered but was extended until 1 July 2022 at the 2021 annual general meeting. The Managing Board, following approval of the Supervisory Board, will propose to extend the inclusion of the transition clause for two

more years at the 2022 annual general meeting in June. Up to the date of this Prospectus, none of the conditions are met.

2

STICHTING OIKOCREDIT INTERNATIONAL SHARE FOUNDATION

1. Who is the issuer of the Depository Receipts?
2. Who manages OISF?

2 STICHTING OIKOCREDIT INTERNATIONAL SHARE FOUNDATION

2.1 Who is the issuer of the Depositary Receipts?

Stichting Oikocredit International Share Foundation is a foundation incorporated and operating under the laws of the Netherlands. OISF functions as an administrative office (*Stichting Administratiekantoor*) of the Cooperative for the sole purpose of issuing Depositary Receipts. OISF was established on 10 March 1995 for an indefinite period of time. OISF has its statutory seat and office in Amersfoort and its head office at Berkenweg 7 (3818 LA) in Amersfoort. OISF is registered at the Gooi- Eem- and Flevoland Chamber of Commerce in Amersfoort under number 41190347. The Legal Entity Identifier of OISF is 724500YMVPDL98ME3045. The contact details of OISF (including website) can be found in Appendix 4. The information on the website does not form part of the Prospectus unless that information is incorporated by reference into the Prospectus. The information on the website has not been scrutinised or approved by the competent authority.

2.2 Who manages OISF?

OISF is managed by the OISF Board according to the OISF Articles of Association. The OISF Board consists of at least three members. There are two categories of OISF Board members: 'members A' and 'members B'. The OISF Board appoints the members of the OISF Board and is authorised to suspend or dismiss those members.

The majority of the OISF Board consists of 'members A'. For reasons of independence, the following persons cannot be appointed as an 'OISF Board member A':

- a person who is a member of the Managing Board and Supervisory Board of the Cooperative;
- a person who is a spouse, legal partner or close family member of a member of the Managing Board by blood or marriage;
- a person who was a member of the Managing Board in the two years prior to the date of the appointment;
- a person who is an employee of the Cooperative or who was an employee of the Cooperative in the two years prior to the date of the appointment; or
- a person who is a regular advisor of the Cooperative or OISF or who was an advisor of the Cooperative or OISF in the two years prior to the date of the appointment such as, among others, the accountant, notary or lawyer.

The aforementioned limitations do not apply to an 'OISF Board member B'.

The OISF Board has full powers regarding the management of OISF. OISF is represented by the OISF Board or alternatively by any two members of the OISF Board acting jointly. For a complete description of the provisions with respect to the OISF Board, please refer to the OISF Articles of Association as incorporated by reference in this Prospectus.

2.2.1 Board members of OISF

The OISF Board currently consists of four members. Patrick Stutvoet recently joined the OISF Board, anticipating the resignation of Friedhelm Boschert. The following were members of the OISF Board as at the date of approval of this Prospectus:

Mr Karsten Löffler

<i>Chair - OISF Board Member A</i>	
Member since	1 July 2008
Principal activities outside OISF	<ul style="list-style-type: none"> • Head of Frankfurt School – UNEP Collaborating Centre for Climate & Sustainable Energy Finance, Frankfurt School of Finance & Management, gemeinnützige GmbH, Frankfurt, Germany. • Managing Director Green and Sustainable Finance Cluster Germany e.V. • Member of the Platform on Sustainable Finance at the EU Commission
Positions held in the last five years	<ul style="list-style-type: none"> • Head of Frankfurt School – UNEP Collaborating Centre for Climate & Sustainable Energy Finance, Frankfurt School of Finance & Management, gemeinnützige GmbH, Frankfurt, Germany. • Managing Director Green and Sustainable Finance Cluster Germany e.V. • Member of the Platform on Sustainable Finance at the EU Commission • Chair of the German Sustainable Finance Committee advising the Federal Government (until October 2021) • Member of the Technical Expert Group on Sustainable Finance to the EU Commission (until September 2020) • Supervisory Board member of the Cooperative during 2013-2019. • Board member of 2° Investing Initiative Deutschland e.V., Berlin (until March 2018).
Experience	Experienced in management and finance.
Qualifications	Diploma in Business Administration from the University of Göttingen (1996) Certified International Investment Analyst (2005)

Mr Friedhelm Josef Boschert <i>OISF Board Member A</i>	
Member since	1 January 2016
Principal activities outside OISF	Chairperson of the board of directors of Oikocredit Austria, Österreichischer Förderkreis (Support Association in Austria). Strategy advisor and business coach.
Positions held in the last five years	Strategy advisor and business coach. SBERBANK EUROPE Vienna (CEO until 2013). Chairperson of the board of directors of Oikocredit Austria, Österreichischer Förderkreis (Support Association in Austria).
Experience	Banking experience since 1976; business management; economics; retail banking management; controlling; academic teaching at university level; business strategy of a bank; microfinance; self-help organisations; and cooperatives.
Qualifications	Diploma in Business Management, University of applied Sciences Pforzheim, Germany Diploma in Economics, Albert-Ludwigs-University, Freiburg, Germany Doctorate in Economics, Hohenheim University, Stuttgart, Germany Honorary Professorship, IMC FH Krems, University of applied Sciences Krems, Austria

Mr Jorge Berezo <i>OISF Board Member A</i>	
Member since	20 November 2018

Principal activities outside OISF	<ul style="list-style-type: none"> Government of Biscay, Dept. of Economic Promotion. Head of Innovation Unit. Chairperson of the Board of directors of Oikocredit Euskadi, Support Association (Spain). Researcher and lecturer in universities: on business ethics at Deusto University, on NGO management at UNED. Member of the Ethical Committee of ETHSI, the ethical insurance brand scheme.
Positions held in the last five years	Government of Biscay, Dept. of Economic Promotion. Head of Section for fostering Innovation and Competitiveness
Experience	Experienced in economic development, innovation, corporate social responsibility, business ethics, NGO management, project management, mechanical engineering.
Qualifications	BS Industrial Mechanical Engineer, University of the Basque Country (1996).

Mr Patrick Stutvoet <i>OISF Board Member B</i>	
Member since	17 May 2022
Principal activities outside OISF	Director of IT and Operations and Interim Director of Investor Relations at Oikocredit International
Positions held in the last five years	Operations consultant at the Bank of England and Head of Transactions Banking (IT International) at ABN AMRO.
Experience	Experienced in IT for the financial services sector, including leadership roles.
Qualifications	Bachelor in Business Administration and ICT and Culture, Organisation and Management.

2.2.2 Remuneration of the OISF Board

The members of the OISF Board receive no remuneration or pensions or other similar benefits from OISF, but will receive reimbursement of necessary expenses.

2.2.3 Potential conflicts of interest of the OISF Board members

Members of the OISF Board may hold a limited number of Depository Receipts in OISF. However, all holdings are non-material to the OISF Board members and in all cases are far below 0.1% of the assets of OISF.

Potential conflicts of interest are presented by the facts that:

- Mr Boschert is chair and a member of the board of directors of Oikocredit Support Association Austria (a Member of the Cooperative).
- Mr Berezo is chair and a member of the board of Oikocredit Support Association Euskadi (a Member of the Cooperative).
- Mr Stutvoet is member of the Managing Board of the Cooperative (of which OISF is a Member).

In order to mitigate the risks inherent to the facts above, the following measures are in place:

- Although most situations would be of the same interest for OISF and Support Associations, because both are Members of the Cooperative, if the OISF board member would take part in the discussion on a topic

in which both entities are involved, and the person is a board member of both entities, this person has a dual role, which could appear as a potential conflict of interest.

- A member of the Managing Board of the Cooperative will not participate in discussions or decision-making of the OISF Board involving the Cooperative if this poses an actual conflict of interest. Whether there is an actual conflict of interest is decided by the chair of the OISF Board on a case-by-case basis.

An example of such a situation is when the OISF Board should decide on how to vote in the Cooperative's General Meeting and the agenda of the General Meeting contains a topic which is brought forward upon request of the Support Association of which the OISF Board member is also a board member. Although the relevant topic could be of the same interest for both entities, if the OISF board member would take part in the discussion on this topic, the person would have a dual role. This dual role could appear as a potential conflict of interest. The conflict would be actual only if the OISF board member has to act on the topic in an opposite way than they would have to act in their capacity as board member of the Support Association. Such situation is hard to arise in principle, taking into account that the mission of Support Associations and OISF are aligned with the Cooperative's mission, in practice it would be unlikely for the interest of OISF and the SAs to diverge.

In order to mitigate the risks inherent to the facts above, the following measures are in place:

- No board member of an Oikocredit Support Association will participate in discussions or decision-making of the OISF Board on matters posing an actual conflict with the interests of the Support Association. Whether a matter presents an actual conflict of interest is decided by the chair of the OISF Board on a case-by-case basis. There are measures in place to prevent arbitrariness of the chair's decision, such as advice from the Cooperative's compliance function and recording of its decision.

None of the members of the OISF Board have been convicted in relation to fraudulent offences for the previous five years. None of the members of the OISF Board have been associated, as members of the administrative, management or supervisory bodies or as senior manager, with bankruptcies, receiverships, liquidations or companies put into administration for the previous five years. None of the members of the OISF Board have been involved in official public incrimination and/or sanctions by statutory or regulatory authorities (including designated professional bodies) for the previous five years. None of the members of the OISF Board have been disqualified by a court from acting as a member of the administrative, management or supervisory bodies of an issuer or from acting in the management or conduct of the affairs of any issuer for the previous five years.

3

DEPOSITORY RECEIPTS

1. What are Depository Receipts?
2. Who is the issuer of the underlying Shares?
3. What is the relation between OISF and the Cooperative?

3 DEPOSITORY RECEIPTS

3.1 What are Depository Receipts?

Depository Receipts constitute registered claims (*vorderingen op naam*) against OISF, subject to Dutch law and the Terms and Conditions, and represent the economic beneficial interest in the (underlying) Shares of the Cooperative. The Shares are acquired and administered by OISF in the interest of the Holders and for which they are issued on a one-to-one basis. The value of the Depository Receipts is derived from the value of the underlying Shares in the Cooperative. More information about the Depository Receipts can be found in section 6 of this Prospectus.

3.2 Who is the issuer of the underlying Shares?

The OIKOCREDIT, Ecumenical Development Cooperative Society U.A., is a cooperative society with excluded liability (*coöperatie met uitsluiting van aansprakelijkheid*) incorporated in the Netherlands and operating under Dutch law. Members of a cooperative society with excluded liability (as opposed to other forms of cooperative societies under Dutch law) are not required to contribute in case the cooperative society has a deficit upon its dissolution. In other words, Members are only liable for the amount they invest in their Shares. The Cooperative has its statutory office in Amersfoort and its head office at Berkenweg 7 (3818 LA) in Amersfoort. The Cooperative can be reached by phone via: +31 (0)33 422 40 40. The website of the Cooperative is www.oikocredit.coop. The information on the website does not form part of the Prospectus unless that information is incorporated by reference into the Prospectus. The information on the website has not been scrutinised or approved by the competent authority. The Cooperative is registered at the Gooi- Eem- and Flevoland Chamber of Commerce in Amersfoort under number 31020744. The Legal Entity Identifier of the Cooperative is 724500O951PB3SFR7U57. The trade names of the Cooperative are "Oikocredit" and "Oikocredit International."

3.2.1 The Cooperative's Group

The Cooperative, including its offices abroad, forms the head of a group, as defined in section 2:24b of the Dutch Civil Code (*Burgerlijk Wetboek*). The Group includes the Cooperative's subsidiaries and other entities in which the Cooperative (i) exercises direct or indirect control based on a shareholding of more than 50%, (ii) control through voting rights, or (iii) whose financial and operating policies it otherwise has the power to govern.

The entities belonging to the Cooperative's group are: the Cooperative, in Amersfoort, the Netherlands; Stichting Oikocredit International Support Foundation in Amersfoort, the Netherlands; Maanaveeya Development & Finance Private Limited in Hyderabad, India.. Maanaveeya Development & Finance Private Limited is the only significant subsidiary of the Cooperative. Maanaveeya Development & Finance Private Limited is a wholly owned subsidiary of the Cooperative in India which conducts its development financing activities in India. The Cooperative considers this subsidiary as material as it contributes a significant part of the assets on the Cooperative's balance sheet.

In the following countries the Cooperative has offices which may have differing legal statuses depending on the laws of the country concerned. The Cooperative has its central office in Amersfoort, the Netherlands, and has regional offices in the following locations: Hyderabad, India; Lima, Peru; Manila, the Philippines; and Nairobi, Kenya. In addition, it has offices in Argentina, Brazil, Costa Rica, Côte d'Ivoire, Guatemala, Mexico, Nigeria, Paraguay and Uruguay.

The offices in Brazil, Costa Rica, Guatemala, Kenya, Nigeria, the Philippines and Uruguay are incorporated as legal entities. Due to the limited size of the assets of these legal entities, these legal entities are regarded as branch offices.

The Cooperative has representative offices in Austria, France and Germany called “National Support Offices”. These offices raise awareness of the Cooperative among the Members, investors and the public, build strategic partnerships, and liaise with Support Associations

Please refer to the below which provides for an overview of the active group entities of the Cooperative¹. The inactive group entities, please refer to subsections 4.6.2 and 4.7.3, are not included.

3.2.2 Statutory objectives of the Cooperative

The objective of the Cooperative is:

- to promote the interest of its Members in the field of cooperation in the development process; and

¹ The office in Ghana closed, effective 10 January 2022 and Ghana Oikocredit EDCS is in deregistration.

ii. to promote economic growth together with social justice and self-reliance,

in the poor areas of the world, in a manner consistent with the moral and social principles of the World Council of Churches.

The development process shall be promoted through (a) loans on concessionary terms, direct investments, grants and guarantees of loans made in accordance with responsible financial management and through (b) education and guidance with regard to the mobilisation of financial resources. For further details about the Cooperative's objectives, please refer to article 3 of the Articles of Association.

3.2.3 *Is the Alternative Investment Fund Managers Directive applicable to the Cooperative?*

The Alternative Investment Fund Managers Directive ("**AIFMD**") came into effect in July 2013 in the Netherlands and aims to regulate certain collective investment undertakings, which includes a license obligation and continuous regulatory requirements for the manager of the collective investment undertaking. The Cooperative is of the opinion that considering its purpose and activities it cannot be regarded as undertaking investment activities, and that it therefore does not qualify as a collective investment undertaking for the purposes of the AIFMD as implemented into the Act on Financial Supervision (*Wet op het financieel toezicht*) and, therefore, is not subject to the Dutch implementation of the AIFMD.

3.3 What is the relation between OISF and the Cooperative?

OISF is a Member of the Cooperative (please refer to section 4.3). The Members of the Cooperative provide the capital for the Cooperative. The main purpose of OISF is to provide additional investment opportunities for legal and natural persons who would like to participate in the Cooperative to support Oikocredit's mission through investing, but do not meet the criteria to become Members. Only the Members of the Cooperative are permitted to hold Shares in the Cooperative. To achieve its purpose, OISF functions as an administrative office (*Stichting Administratiekantoor*) of the Cooperative. OISF conducts no activities other than acquiring and administering Shares in the interest of the Holders (*ten titel van beheer*), issuing Depository Receipts to the Holders and activities directly related to the foregoing. The Cooperative is undertaking important change projects that aim to improve processes and organisational compliance with rules and regulations, and notably change its capital-raising model to make it more future-proof (please refer to subsection 4.7.2 below). The need for OISF to serve as administrative office of the Cooperative may disappear or change if the new capital raising model, which envisions the Cooperative offering a direct investment opportunity and is described in subsection 4.7.2 below, is approved and implemented.

4

BUSINESS ACTIVITIES OF THE COOPERATIVE

1. How was the Cooperative established?
2. What are the mission, vision and values of the Cooperative?
3. How does the Cooperative create awareness and attract equity capital?
4. What are the Cooperative's principal activities?
5. In which way has the Cooperative structured its principal activities?
6. What are the Cooperative's principal markets?
7. What are the important events in the development in the business of the Cooperative?
8. How is the Cooperative being challenged?
9. What are the Cooperative's other assets or investments in order to support the principal activities?

4 BUSINESS ACTIVITIES OF THE COOPERATIVE

4.1 How was the Cooperative established?

The Cooperative is an initiative which was inspired, founded and incorporated by the World Council of Churches (www.oikoumene.org) together with the Council of Churches in the Netherlands on 4 November 1975 under the laws of the Netherlands. The official name of the Cooperative is "OIKOCREDIT, Ecumenical Development Cooperative Society U.A." (before 1999 called: "Ecumenical Development Cooperative Society U.A."). It is often referred to simply as "Oikocredit" although this is also the name used by the Support Associations, which are different legal entities in their own countries (please refer to section 4.3).

The Cooperative was founded to provide churches and church-related organisations with an investment tool aiming to support disadvantaged people in low-income countries. It is the Cooperative's objective to make a lasting contribution to the struggle against poverty in developing countries. The aim is to invest in justice by financing the productive enterprises of disadvantaged people.

The Cooperative is to some extent a unique organisation, as it:

- provides long-term financing via Partners to low-income people who might not be able to get a loan from commercial, mainstream Financial Institutions;
- has a network of regional and country offices, despite its relatively small size;
- is one of the few cooperative societies operating with a worldwide membership;
- runs its operations with the predominant aim of maximising social and environmental impact as well as a fair financial return for its Investors;
- through its staff, provides technical assistance to strengthen the capacity of Partner and other organizations
- supports activities to raise awareness of development goals in the global North

The Cooperative's first loan was granted in 1978 to a Partner in Ecuador and since then the Member capital of the Cooperative has grown. The table below shows the Member capital development as from 1993:

Year	Member Capital (€ million)
1993	€ 50
1998	€ 100
2003	€ 175
2008	€ 358
2013	€ 636
2018	€ 1,100
2019	€ 1,130
2020	€ 1,104
2021	€ 1,129

4.2 What are the mission, vision and values of the Cooperative?

The mission of the Cooperative is to challenge all to invest responsibly. It provides financial services and supports organisations to improve the quality of life of low-income people or communities in a sustainable way.

The vision of the Cooperative is a global, just society in which resources are shared sustainably and all people are empowered with the choices they need to create a life of dignity.

The strategic ambitions of the Cooperative are:

- The Cooperative focuses on low-income people in three priority sectors: financial inclusion, agriculture and renewable energy.
- The Cooperative works in markets where the combination of need and opportunity is the greatest.
- The Cooperative maximises social impact. At the same time, the Cooperative will safeguard the environment and generate fair financial returns
- The Cooperative leads positive change as a catalyst institution with a global network and local footprint, amplifying impact through both investments and capacity building.
- The Cooperative wants to be the preferred social investor and development partner for its Partner organisations.
- The Cooperative grows its global Member and investor community and offers its investors the chance to be part of a global movement for social change.

In performing its activities, the Cooperative takes the following values into account:

Sharing

The Cooperative provides a vehicle for meaningful sharing. An uneven distribution of resources, wealth and power can lead to a world of conflict. When the global community is prepared to share what they have, respect each other and work together, justice and peace can prevail.

Ecumenical spirit

Around the world, people of faith and others are willing to share their resources. The Cooperative forms part of that worldwide coalition of solidarity.

Grassroots

Development is most effective when it stems from grassroots. In the cooperative culture of the Cooperative, people's initiative and participation are central to all acts and policies.

People

The Cooperative supports organisations that provide financial opportunities to disadvantaged people irrespective of their faith, culture, age or gender.

Integrity

Respect between people implies honesty and truthfulness. The Cooperative is determined to listen with an open mind and communicate in full transparency on all parameters of its own policies.

Environment

A balanced ecosystem is the basis for life and as such, should be preserved. The Cooperative believes that a healthy balance in nature can only be achieved in a world where resources and power are spread evenly.

4.3 How does the Cooperative create awareness and attract equity capital?

4.3.1 Support Associations

The Cooperative works closely with Support Associations. Support Associations are Members of the Cooperative and raise people's awareness in their regions about the importance of development and socially responsible investments. They focus on raising awareness of the Cooperative's work as well as wider education on development-related topics. Some of the Support Associations also raise capital exclusively for the Cooperative, providing for the possibility to participate indirectly (and locally) in the Cooperative. The way in which Support Associations offer the opportunity to (indirectly) invest in the Cooperative differs for each country and depends on, among other things, the local regulatory environment. The capital-raising role of the Support Associations may be discontinued or changed if the new capital raising model, which envisions the Cooperative offering a direct investment opportunity and is described in subsection 4.7.2 below, is approved and implemented.

Support Associations are not part of the Cooperative group, however they carry "Oikocredit" as part of their names. Typically they employ a small number of staff and rely on the engagement of volunteers.

The Support Associations are located in the following countries:

- Austria, Belgium, France, Germany, Italy, the Netherlands, Spain and Switzerland (*Europe*)
- Canada and the United States of America (*North America*)

The Support Associations in the Netherlands are Oikocredit Nederland Fonds ("ONF") and Oikocredit Ontwikkelingsvereniging.

The Support Associations which raise capital, attract (indirectly) the largest part (around 76% at 31 December 2021 of the Cooperative's Share capital).

In total, as at 31 December 2021 the Cooperative had approximately 58,900 Investors (including the indirect investors via 23 Support Associations and its direct Members). The group of Investors consists of about 53,600 individuals and over 5,300 church parishes, congregations and other organisations).

4.3.2 National Support Offices

The Cooperative has representative offices in Austria, France and Germany called "National Support Offices". These offices raise awareness of the Cooperative among the Members, investors and the public, build strategic partnerships, and liaise with Support Associations.

In Austria and France, the staff of the National Support Offices serves separately as representatives of OISF, and in that capacity facilitates investment in the Cooperative via OISF. In Germany, the office does not currently play such role because investment in the Cooperative there is available via the Support Associations. However, it is expected that the office in Germany will assume a capital raising role on behalf of the Cooperative if the new capital raising model, expected to be proposed for approval in a general meeting before the end of 2022, is successfully implemented. The offices in Austria and France will continue their capital raising role but on behalf of the Cooperative directly, rather than OISF (please refer to subsection 4.7.2 below).

4.4 What are the Cooperative's principal activities?

The Cooperative's goal is to promote sustainable development by providing loans, equity investments and capacity building support to Partners. These Partners are active in the financial inclusion, agriculture and renewable energy

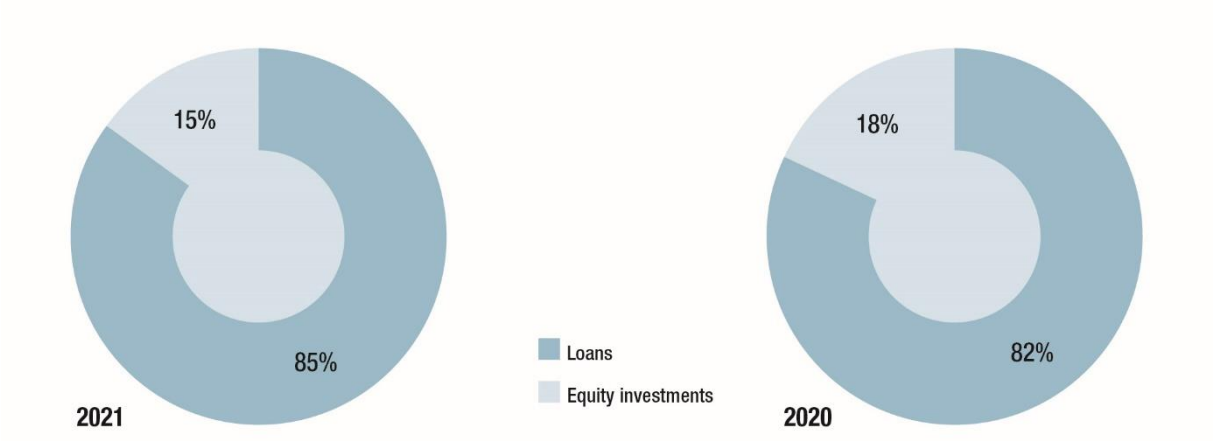

sectors in developing countries. The Cooperative seeks to work closely together with its Partners and to offer services that answer their needs.

4.4.1 Financing and funding of Partners

The funding of Partners by the Cooperative mainly takes the form of loans with an average loan repayment period of around four years. The remainder of the funding is invested in the form of equity, which made up 15% of the development financing portfolio at end 2021.

The Partner portfolio of the Cooperative (total development financing outstanding portfolio) amounted to 517 Partners in 55 countries for a total of approximately € 996 million outstanding capital at 31 December 2021 (€ 845 million at 31 December 2020 and € 1.065 million at 31 December 2019). The outstanding development financing per region at 31 December 2021 and 31 December 2020 is shown in the following charts.

Development financing outstanding by type of financing as at 31 December

Development financing outstanding by type of currency as at 31 December

The loans generally range from a minimum of € 50,000 to a maximum of € 10 million per entity. The average outstanding loan amount per Partner rose to € 1.9 million in 2021 (€ 1.5 million in 2020, € 1.6 million in 2019). Equity investments are typically between € 2 million and € 10 million, for a 10% to 35% significant minority stake. If the Cooperative acquires an equity stake, it usually negotiates the right to fill a seat in the board of the company in which it invests. As mentioned above, the decrease of the value of the portfolio impacted the distribution percentages between loans and equity investments.

Larger loans outside the above-mentioned range are generally offered to Financial Institutions or to groups of such institutions. These institutions are local MFIs and/or Financial Institutions focusing on small and medium enterprises. Relatively larger loans have also been provided to renewable energy infrastructure projects. In specific cases, funds are also made available in the form of guarantees, or through direct or indirect capital participations.

The Cooperative's portfolio performance in low-income countries may be affected by economic and political circumstances which could result in a default in the payment obligations of a Partner. Please refer to section 1 of the chapter "Risk Factors".

4.4.2 *Income from development financing*

The Cooperative receives income from interest and fees paid on loans, dividends on equity investments and the sale of equity investments. The Cooperative reports the value of its equity portfolio at the original cost price minus impairments. The Cooperative has the intention to include the fair market value amount of the equity investments in the disclosure note as of annual closing year 2022. The Cooperative is currently building valuation models and updating its policies and procedures to be able to report the fair market value of the equity investments.

Income from development financing	2021	2020	2019
Interest on development financing loan portfolio (minus hedge premiums and provisions)	€ 52.3 million	€ 52.8 million	€ 56.9 million
Result from sale of equity investments	- € 3.5 million	- € 2.9 million	€ 6.1 million
Dividends	€ 1.5 million	€ 2.2 million	€ 2.1 million

4.4.3 *Capacity building*

In addition to financing or funding Partners, the Cooperative provides capacity building support to its Partners. The Cooperative's capacity building programmes help Partners become more resilient and supports them in achieving their social mission and sustainability goals for the benefit of their clients and members. Funding for capacity building comes from donor grants and the Cooperative Group's own funds. In 2021, the Cooperative Group provided € 0.4 million in capacity building to 21 current and potential Partners (2020: € 0.7 million for 71 organisations; 2019: € 0.7 million for 75 organisations). For much of 2021, as in 2020, the Covid-19 pandemic restricted the Cooperative's capacity building for Partners to online encounters. In the second half of the year, however, the Cooperative carefully returned to providing capacity building on site and in person. As Partners and clients increasingly resumed business as usual despite the pandemic, fewer Partners required the Cooperative's support with special measures, and during the year only two Partners needed financial assistance from the Stichting Oikocredit International Support Foundation (ISUP) coronavirus solidarity fund. The ISUP coronavirus solidarity fund was created in 2020 in

response to the hardship caused by the Covid-19 pandemic. The Cooperative used the fund to support the most at-risk Partners and their clients in acquiring personal protective gear and sanitation materials as well as to assist Partners in conducting awareness training for communities. By the end of 2020, the fund had distributed €70,287 to 38 Partners in 19 countries in Africa, Asia, Latin America and the Caribbean. In 2021, the fund distributed €13,000 to, as mentioned above, two Partners, and the activities of the fund were ceased.

4.5 In which way has the Cooperative structured its principal activities?

4.5.1 Introduction

The operations of the Cooperative are structured to manage the primary processes of attracting capital in order to offer Partner Funding by means of loans and equity investments with the maximum efficiency and capacity to anticipate Partner needs.

The Cooperative Group has regional offices in Hyderabad, India; Lima, Peru; Manila, the Philippines and Nairobi, Kenya. A regional office is headed by a Regional Director. Regional offices are responsible for identifying and reviewing Partners that are presented for funding. The Cooperative also maintains two specialist business units: one focusing on equity investments, and headed by the Equity Director; and the other, focusing on the renewable energy sector and headed by the Renewable Energy Manager. These units are also responsible for identifying proposals for partner funding and collaborate with colleagues in the regional offices.

The Managing Board has established an Integrated Investments Analysis Credit Committee, a Managing Board Credit Committee, and an Oikocredit Investment Committee, which approve applications for funding (loans and equity investments, respectively). Moreover, the Supervisory Board established a Supervisory Board Investment Committee. Loans and equity investments that result in a total exposure to the Partner above € 10,000,000 or its equivalent (in other currencies) require Supervisory Board approval.

4.5.2 Loans

Upon approval by the Managing Board Credit Committee (and if necessary the Supervisory Board) and before any payments will be made, the Cooperative, based on advice from local lawyers, (i) drafts loan agreements in accordance with local law, (ii) establishes collateral documentation, if any, and (iii) prepares all necessary steps to obtain any government approval (if required).

4.5.3 Equity investments

Upon approval by the Oikocredit Investment Committee (and if necessary the Supervisory Board) and before any payments will be made, the legal department of the Cooperative advises on the preparation of the legal documents and the conditions to be fulfilled.

Stage	Stage 1	Stage 2	Stage 3	Stage 4	Stage 5	Stage 6
	Selection of Partners	Due diligence	Approval of funding	Drafting documents	Providing funding	Monitoring Partners

Bodies / functions/ departments involved	Country/regional Office/Equity Unit/Renewable Energy Unit	Country/regional Office/Equity Unit/Renewable Energy Unit	Integrated Investments Analysis Credit Committee (low/medium credit risk and less than €3 million)	Legal and Investments department with advice from local lawyers	Country/regional Office/Equity Unit/Renewable Energy Unit (verifying conditions for disbursement)	Country/regional Office/Equity Unit/Renewable Energy Unit
			Managing Board Credit Committee (medium/high credit risk and less than €10 million))		Operations (screening payment request)	
			Oikocredit Investment Committee (equity investments)		Finance (execution of payment)	
			Supervisory Board (higher than €10 million)			

4.5.4 Selection and monitoring of Partners

As the Cooperative is financially dependent on timely interest and principal repayments from its Partners, a great deal of attention is paid to monitoring loans and the performance of its Partners. Detailed procedures are in place, determining which steps are to be taken in the event that payments are delayed. The business and legal departments of the Cooperative play a crucial role in this process. The Cooperative also has a Special Collections Unit, focusing on Partners with payment arrears. Legal proceedings against Partners will be commenced in the event of a continuing default in making loan repayments to the Cooperative and restructuring efforts have been unsuccessful. If applicable and considered necessary, the Cooperative will take steps to recover a defaulting loan through the sale of collateral.

4.6 What are the Cooperative's principal markets?

4.6.1 Sectors

The Cooperative operates in the following principal sectors:

- Financial inclusion
- Agriculture
- Renewable Energy

Development financing outstanding by sector as at 31 December

Financial inclusion

The Cooperative's work promotes financial inclusion through partnerships with microfinance institutions and with Financial Institutions that support small to medium enterprises ("**SMEs**") and individuals. It also seeks partnerships with financial intermediaries beyond traditional Financial Institutions, such as fintech companies that target underserved communities with innovative financial technologies and business models.

The target audience – low-income people – benefits from the Cooperative's work both through the provision of financial services through microfinance partners as well as job creation and the provision of loans for small and medium businesses through SME Financial Institution partners.

In 2021, the Cooperative continued with its strategy of working directly with Microfinance Institutions, Financial Institutions serving SMEs, and fintech (financial technology) organisations. The Cooperative's financial inclusion portfolio, including loans to and investments in MFIs and Financial Institutions that support SMEs, increased by 18.7% to € 761.4 million (2020: € 641.3 million; 2019: € 826.3 million), with 352 Partners (2020: 395; 2019: 463). Approvals were € 383.8 million (2020: € 157.7; 2019: € 343.9 million) and disbursements € 352.5 million (2020: € 164.4; 2019: € 312.0 million). Financial inclusion's proportion of the Cooperative's total development financing increased slightly to 76.5% (2020: 75.9%; 2019: 77.6%). Financial inclusion markets remain competitive, often with high liquidity. Digitisation of financial inclusion is generally on the rise, and technology offers efficient solutions for reaching financially excluded people with formal financial services. The challenge is to deliver responsible services that are well-suited to the needs of clients at affordable cost. This is a theme the Cooperative diligently addresses when it engages with fintech partners to finance their growth with loans or equity.

Agriculture

The Cooperative is one of the leading global social investors in agriculture. It believes that investment in this sector is one of the most effective ways to reduce rural unemployment and poverty and contribute to local food security.

The Cooperative's agriculture portfolio supports small-scale farmers by providing access to finance and capacity building for agricultural cooperatives, producers, processors and distributors.

Risks are traditionally high in the agriculture sector, where the Cooperative continues to engage because of the substantial benefits to smallholder farmers and low-income rural populations. Among the challenges in agriculture it has faced in recent years are higher than expected portfolio at risk (PAR) levels. As a result, in 2020 the

Cooperative's focused on managing risks in its agricultural portfolio and slowed the financing of new partners in several subsectors, while analysing portfolio performance. While the actions are still ongoing and the results are still expected to fully materialize, the overall quality of the agriculture portfolio has improved during 2021 as measured in portfolio at risk (PAR). In 2021 agriculture loans and investments increased by 22.8% to € 182.6 million (2020: € 148.7 million; 2019: € 172.3 million), with 128 Partners (2020: 131; 2019: 165). As a share of the Cooperative's total loan and investment portfolio, Agriculture grew slightly to 18.3% (2020: 17.6%; 2019: 16.2%). Approvals were € 67.8 million (2020: € 22.8 million; 2019: € 53.4 million), and disbursements up by 64.1% to € 113.4 million (2020: € 69.1 million; 2019: € 83.2 million). The Cooperative's agriculture partners have proved to be generally resilient in the face of Covid-19, although many have been challenged by increased supply chain costs and the lack of availability of shipping containers. The Cooperative aims to address previous high levels of portfolio risk in the sector through its Fresh Fields programme, which has improved processes and portfolio quality and given it greater confidence to continue to invest in agriculture. Through this programme, the Cooperative has specifically aimed to clarify the investment criteria for agriculture, improve its due diligence and monitoring guidelines and tools, and provide related training to staff, among other measures.

Renewable energy

The Cooperative focuses its renewable energy investments on three segments:

- Off-grid solar
- On-grid projects aiming at the UN Social Development Goal 7
- Clean cooking

It invests in small and medium-sized renewable energy projects. The Cooperative chooses the projects for their social impact and the benefit the Cooperative can bring.

To track its contribution to clean energy access, it measures how its investments avoid CO2 emissions and provide households with improved access to energy.

In 2021 the renewable energy portfolio decreased by 4.3% to € 43.7 million (2020: € 45.7 million; 2019: € 52.1 million), to a total of 20 Partners (2020: 19; 2019: 22). Approvals were € 12.2 million (2020: 4.3 million; 2019: € 13.2 million) and disbursements € 7.6 million (2020: € 9.5 million; 2019: € 8.6 million). Renewable energy's share of the total loan and investment portfolio decreased to 4.4% (2020: 5.4%; 2019: 4.9%). Despite challenges such as disruptions in global supply chains affecting this relatively young industry, off-grid solar has shown resilience throughout the pandemic, and the market for commercial and industrial (C&I) solar in sub-Saharan Africa has seen continued growth of installed capacity and investment opportunities.

4.6.2 Countries

The Cooperative provided funding to Partners in 55 countries in 2021 (2020: 63; 2019: 65). The number of countries has been going down in line with the Cooperative's decision communicated in early 2018 to focus on offering loans, equity investments and capacity building in 33 countries in Africa, Asia, and Latin America and the Caribbean going forward.

Development financing outstanding by region as at 31 December

The countries where the Cooperative invested the largest percentage of total Partner Funding as at 31 December 2021, 2020 and 2019 were as follows:

Countries invested in (> 4% of total outstanding)	2021
India	19.3%
Cambodia	6.3%
Bolivia	5.9%
Ecuador	5.9%
Mexico	5.2%
Kenya	5.1%

Countries invested in (> 4% of total outstanding)	2020
India	17.3%
Mexico	6.6%

Bolivia	6.5%
Ecuador	6.1%
Cambodia	4.8%
Paraguay	4.5%
Kenya	4.0%

Countries invested in (> 4% of total outstanding)	2019
India	16.6%
Ecuador	7.4%
Cambodia	6.3%
Bolivia	5.7%
Mexico	5%

NB: all other countries invested in were below 4%.

4.7 What are the important events in the development in the business of the Cooperative?

4.7.1 2022-2026 purpose-driven strategy

The Cooperative has developed a new purpose-driven strategy, the development of which began in mid-2020. The Cooperative has reviewed its current purpose and remains confident that the Cooperative's mission of investing responsibly by supporting organisations that help low-income people improve their quality of life is as necessary as ever, if not more so, with both poverty and inequality rising worldwide.

The 2022-2026 strategy is close to being finalised. A key element in the new strategy is its innovative focus on increasing community resilience by investing in strategic cooperation with Partners and with other like-minded organisations in sectors such as housing, education, healthcare, and water and sanitation. The Cooperative has begun to pilot a small number of such community-focused projects that Partners have identified, with a view to more comprehensive implementation in 2022. Part of this initiative is to apply an agile 'minimum viable product' (MVP) approach of testing and validating new projects before implementing them. The Cooperative has received considerable positive feedback from Partners wanting to develop such projects with us.

The other key element of the community-focused approach is the community of members and investors. The Cooperative wants to create a global movement by nurturing the locally organised investor communities of our Support Associations and expanding to a globally-connected community of people and organizations who want their money to have a positive impact. It is planned to do this by enabling people and organizations to participate in impact through investment, donation and coordinated action. Providing investors with tangible impact from their investments will be key and can also be enhanced by facilitating a more direct connection to our outflow community.

4.7.2 New capital-raising model

The task of identifying a future-proof, new capital-raising model has been a major undertaking during 2021. It was initiated in late 2020, in response to increasing and always evolving financial markets regulation, the Cooperative and/or the Support Associations have to keep up with, particularly in the European Union but locally, in the particular jurisdictions the Cooperative and/or the Support Associations are active, as well. The new capital-raising model is also an effort to reduce complexity of the current model, making it easier to manage, to adapt to changes and overall more transparent. The aim with a new model is to safeguard the Cooperative's mission, decrease complexity and regulatory risk, increase transparency to investors and regulators, prove effective in the Cooperative's main inflow markets and be replicable elsewhere.

The relevance of this task increased with anticipated changes in German law. In May 2021, the German Bundestag passed an amendment to the Investment Law (*Vermögensanlagegesetz*) which amendment will take effect on 17 August 2022. The amendment will make it impossible after 17 August 2022 to attract capital from new German investors in the manner, i.e. via a trust agreement, the German Support Associations have attracted capital from German investors. This affects half of the Cooperative's current member capital base. In order to comply with the new regime and to continue attracting capital from new German investors, the German Support Associations would have to make changes that are not deemed feasible or too costly. These include, for example, the annual publication of a new prospectus instead of the current practice of supplementing a previously issued prospectus, which prospectus would have to include very detailed information on the use of proceeds by the Cooperative, which would not be feasible for the Cooperative given its business practices. It would also mean introducing a minimum period of 2 years in which investors would have to hold on to their investment and a notice period of 6 months for redemption requests of investors. Both of these changes would not align with the terms of the (redemption of) the Member Shares. The German Support Associations would also no longer be allowed to directly distribute the offered securities but only with the intermediation of an external or newly established licensed investment service provider or licensed financial investment intermediary.

The task of identifying a new capital-raising model is undertaken in close collaboration with the Support Associations in Belgium, Germany, the Netherlands and Switzerland as well as with other stakeholders.

At the December 2021 Extraordinary General Meeting, the Managing Board presented to the Members a proposed model, and the Members mandated the Managing Board to continue to gather input and work out the model in more detail and put a proposal to the General Meeting.

Under the proposed new model, the Cooperative will retain its legal form and identity as a cooperative, as well as the core eligibility criteria for becoming a Member. The main change entails introducing a 'participation' as the sole instrument through which the Cooperative will continue raising its equity capital instead of the current member shares. The difference is that a participation will be available for subscription by Members and non-Members alike, in contrast to the member share which is available only to Members. The effect from the change is that investors that currently invest through the Support Associations, including ONF and OISF, in the future should be able to

invest directly in the Cooperative. The participation will not carry voting rights, which will continue to attach to the membership of the Cooperative. Non-Member investors can continue, as is the case now, to participate in discussions about the Cooperative through obtaining membership in their local Support Associations, which will remain Members of the Cooperative with a voting right. The economic features of the participation (currency, price and dividend) will remain the same, except that a redemption request, if assets are available, will not have to be honoured within 5 years, as is currently provided for the member shares. Notwithstanding, for as long as member shares are outstanding in the capital of the Cooperative, the member shares and the participations will be treated equally in all respects, including with respect to the obligation to honour a redemption request within 5 years, so long as assets are available for distribution.

If and when the new model will be launched depends on whether the General Meeting approves it. The Cooperative will seek approval for the proposed model at a general meeting before the end of 2022, and to start implementing at the end of 2022, beginning with Germany and the countries where OISF has an active offering, and then phasing in investors in Switzerland and Belgium in 2023-24, and finally the Netherlands after that.

4.7.3 Organizational developments

Maintaining a focus on continuous improvement, the Cooperative will seek further organisational efficiencies. People development will remain crucial in building the Cooperative's capabilities and strengthening its culture of performance feedback and collaboration. Its people's well-being remains a priority.

The Cooperative continued to implement its current 2018-2022 strategy by means of a balanced scorecard, team and individual objectives, and the Cooperative's change framework. The latter includes a continuous improvement programme involving self-directed change managed by the business units. In 2021, the Cooperative improved 48 processes, compared to 30 in 2020. In addition, it led 16 cross-organizational change initiatives of which 12 were completed in 2021. Examples include the client self-perception survey, the digitalization of operations processes, improving the lead times of our month-end closing and the implementation of a bank account management platform.

All Oikocredit Partners now use the partner portal, a change initiative we piloted in 2020, to update their monitoring data on a quarterly basis. This is the first step in the move from paper-based processes to digitalization of the Cooperative's lending operations, which is a major undertaking. The portal also includes an online system for the monitoring of social indicators. Partners can now upload to the portal information relating to each loan or investment's outreach objectives, and increasingly they also update information on their ESG performance. The Cooperative has started work on the second stage, digitalizing the loan origination process.

With its operational controls now working effectively, the Cooperative is increasingly focusing on achieving greater efficiencies and improving service management for investors and partners. The Cooperative's IT systems enable increasing use of data for analysis and decision-making. One such example is a new tool that brings together information from the support associations to provide real-time data on investor numbers and capital inflow, enabling a full Oikocredit-wide view of inflow trends and better forecasting.

Part of the Cooperative's strategy as a relatively small organization from an IT perspective is to limit itself to core functions and to use third-party IT platforms where they serve its needs and increase effectiveness. For example, the Cooperative is moving its capital-rising operation and inflow network to the Salesforce platform. It is also supporting development of MicroFinanza Rating's ATLAS joint monitoring platform to pool inclusive finance partners' reporting with data from other investors and investees, reducing reporting burdens and enabling wider

information sharing across the sector. Another relevant platform is Beyond Coffee, where coffee buyers and sellers broker deals and for which the Cooperative aims to develop a trade financing component to embed there.

4.7.4 Covid-19

During 2020 the Cooperative found itself facing the effects of the Covid-19 pandemic on the repayment behaviour of some of its partners. As a consequence, in order to bolster these partners' business continuity and in line with the actions undertaken by several governments from a regulatory perspective, the Cooperative had granted them the possibility to request a payment moratorium (referred to in the below as 'payment holiday'). The standard provisioning procedures were not suited for this particular payment status category hence potentially lead to an underestimation of the expected losses arising from credit risk. For this reason, an ad-hoc procedure for assessing the provisioning levels was developed in 2020 and applied to all the instruments that are comprised in the payment holiday category. This procedure continued throughout 2021. However, during 2021 there were only two new payment holidays granted to partners. At year-end 2021, five payment holiday partners remained. Four of these partners fall in the payment holiday category due to covenant breaches and only one partner is making use of a revised repayment schedule. Overall, loan loss provisioning returned to pre-Covid-19 levels.

4.8 How is the Cooperative being challenged?

4.8.1 Competition

Financial Institutions offering financial and other services to low-income people have historically had difficulties financing their operations. However in recent years, more organisations across the world have been offering financing to those types of Financial Institutions in the global south, particularly to larger Financial Institutions. This means that these institutions have had opportunities to get access to loans and equity funding from various national and international sources. The Cooperative has therefore faced more competition. The Cooperative has the benefit of longstanding partnerships and networks, local presence and proximity to the market. This allows the Cooperative to also work with less mature, earlier-stage Financial Institutions which are more difficult to serve for competing organisations. The Cooperative adds value due to its blend of social mission, local expertise and combination of knowledge and networks. The Cooperative is unique compared to its competitors as it:

- has been lending to Partners that serve low-income people for over 45 years;
- offers products and conditions that differ to some extent from those offered by other institutions and organisations (for example: loans in local currencies, long-term loans and equity investments);
- provides capacity building and social performance improvement opportunities to Partners via grants and technical assistance programmes;
- is active via offices with local experts that have knowledge of the local markets and conditions; and
- holds a strong position in providing financing opportunities to all types of Financial Institutions, not only the larger ones, but also to the relatively small and less well-known Financial Institutions.

4.8.2 Regulatory environment

The Cooperative is a relatively small institution to which Dutch regulation is applicable. In addition, due to the international scope of the Cooperative's activities, also local regulations could apply to its business activities. This wide range of applicable laws and regimes is continuously developing and requirements can vary significantly per jurisdiction which has impacted, which still impacts and which could impact the business activities of the Cooperative.

The main activities performed by the Cooperative are subject to laws, regulations and supervision in various fields, including privacy and data protection regulation, anti-money laundering regulation in its performance of providing loans and equity investments, as well as the applicable financial regulation regarding the issuance of the Shares. These compliance requirements mainly originate from the European Union-level (complemented with national implementations laws) but is not limited to this because of the global activities of the Cooperative Group and its offices.

The Cooperative aims to be compliant with all applicable laws and regulations, internal rules and policies governing its operations, and good business practices. Failures to aforementioned compliance might lead to sanctions and fines, financial losses and reputational damage. Therefore, the Cooperative has a very low tolerance when a legal or ethical bright line has been crossed, for example by breaches of laws and regulations, internal rules and policies governing its operations, and good business practices. The Cooperative ensures that its very low tolerance for compliance risk is embedded in the culture of its business operations by continuously creating awareness.

Ongoing monitoring of compliance with the regulatory environment the Cooperative operates in does materially affect the business of the Cooperative. The wide range of applicable laws and regimes, which are developing and therefore continuously subject to changes, requires a high level of adaptability from the Cooperative. Especially from its risk, legal and compliance departments, but the business lines, being responsible for compliant operations, are involved as well.

Changes in the regulatory environment may prevent the Cooperative from engaging in raising capital (inflow) or investing (outflow). Also, the introduction of new legal requirements could be too burdensome to adjust to because of the Cooperative's relatively limited size and scale. Unexpected changes in regulation may also lead to increased cost levels and a reduction of efficiency. To address these challenges, in late 2020 the Cooperative initiated a review of its capital raising model in order to make it more resilient in the face of evolving financial markets regulation, particularly in the European Union, as well as less complex, and therefore easier to adapt to changes and more transparent overall. This initiative coincided with legal changes in Germany, which will take effect 17 August 2022, and will make it impossible to raise capital from German investors via the trust model used by the German Support Associations (please refer to subsection 4.7.2 above).

4.9 What are the Cooperative's other assets or investments in order to support the principal activities?

4.9.1 *The Currency Exchange Fund N.V.*

The Cooperative holds an equity stake in The Currency Exchange Fund N.V. ("**TCX**"). TCX is a special purpose fund that provides "Over-the-counter" (OTC) derivatives to hedge the currency and interest-rate mismatch that is created in cross-border investments between international investors and local borrowers in frontier and less liquid emerging markets. The goal is to promote long-term local currency financing, by contributing to a reduction in the market risks associated with currency mismatches.

The Cooperative was one of the first investors in TCX when TCX was incorporated in 2007. As at 31 December 2021, the Cooperative held 27 shares of the shares in TCX. This represents a value of approximately € 18.4 million (fair value) ((€ 15.2 million in 2020 and € 13.1 million in 2019). Besides acting as an investor in TCX, the Cooperative also hedges its exposure to local currency with, among others, TCX.

4.9.2 *Term Investment Portfolio*

In order to balance the total risks and for liquidity purposes, the Cooperative has invested a percentage of its financial resources in a Term Investment ("TI") portfolio. A minimum of 90% of the TI portfolio must be invested in an ethical bond portfolio and a maximum of 10% can be invested in shares in socially responsible investment funds.

Portfolio performance continued to deteriorate with respect to the interest income as compared to prior year. Interest income totalled € 2.3 million in 2021 (€ 2.4 million in 2020 and € 2.3 million in 2019). The revaluations amounted to € -4.2 million in 2021 (€ 0.6 million in 2020 and € 3.2 million in 2019).

The fund manager (AXA Investment Managers Paris) managing the TI portfolio screens the investment universe by applying three filters to create a high-quality and ESG-compliant (Environmental, Social and Governance) investment portfolio. The three filters consist of:

- A systematic filter, removing the riskiest bonds from the universe;
- A fundamental filter, removing names which have a negative credit review;
- A responsible investment filter, removing names and sectors which do not comply with the ESG risk criteria defined by the Cooperative and the Cooperative's own exclusion list.

In accordance with its policy regarding the selection and retention of a fund manager, in 2022 the Cooperative will evaluate whether to continue with the current fund manager or retain a new one.

4.9.3 GLS Alternative Investments Microfinance Fund (GLS)

In the past the Cooperative bought shares in funds managed by GLS to help GLS start up these funds as GLS is aligned with the Cooperative's mission and as we work together with GLS on other areas as well. There is no interference with GLS's investment strategies for the funds and the shares in these funds can be sold within a certain time frame and are therefore part of the liquidity portfolio.

As at 31 December 2021, the Cooperative held 10,645 shares in GLS. This represents a value of approximately € 9.5 million (2020: € 9.5 million 2019: € 9.5 million).

Separately, the Cooperative used to hold 211,291.7198 shares in ASN-Novib Microcredit Fund (ASN) which represented a value of approximately € 11.3 million. The Cooperative sold this investment in 2021 with the aim to instead fund its own development financing portfolio.

5

UNDERLYING SHARES

1. What are the characteristics of the Shares?
2. What rights are attached to the Shares?
3. Is there any dilutive effect?
4. What are the terms and conditions for redemption of Shares?
5. Are Shares in the Cooperative transferable?
6. What are the rules on a takeover?

5 UNDERLYING SHARES

5.1 What are the characteristics of the Shares?

During the life of the Cooperative's Prospectus, Shares are in principle continuously issued at the discretion of the Managing Board to Members. The Managing Board has the authority to stop and reopen the issuance and redemption of Shares at its discretion in accordance with the Articles of Association and the further elaboration thereof in the Member Share Issuance and Redemption Policy. There is no limit to the number of Shares that can be issued. Fractions of Shares may also be issued. Each Member must hold at least one Share. Organisations of other types than the ones specifically listed, which can be invited to become a Member by the Supervisory Board have a EUR 50,000 minimum investment requirement in Shares (please refer to section 5.2 of the Cooperative's Prospectus to see the different Member categories).

The Shares are in registered form, meaning that the Cooperative holds a register stating the number of Shares registered in each Member's name. Upon the issuance of Shares, the name and details of the shareholder are entered into the share register. Each Member may at any time apply for a certified extract from the register stating the number of Shares registered in their name.

Shares are issued and registered with a Nominal Value of EUR 200, CAD 200, CHF 250, GBP 150, SEK 2,000, or USD 200. According to the Articles of Association of the Cooperative, the Managing Board, following the prior approval of the Supervisory Board can decide to issue Shares in currencies other than the euro, Canadian dollar, Swiss franc, British pound, Swedish krona or US dollar. Before issuing Shares in other currencies, the Nominal Value per Share will be determined for each additional currency in which the Shares are issued.

Shares are governed by, and shall be construed in accordance with, the laws of the Netherlands. The ISIN number of the Shares is NL0015026469. The Managing Board has the discretion to revoke or suspend the offer or to reduce subscriptions (please refer to section 5.6 of the Cooperative's Prospectus).

5.2 What rights are attached to the Shares?

5.2.1 Voting rights

Each Member may exercise one vote at the General Meeting. This is irrespective of the number of Shares held because the voting rights are attached to the membership, not to the Shares. There are no different voting rights in relation to major shareholders.

5.2.2 Redemption rights

Shares can be redeemed taking into account the conditions mentioned in article 13 of the Articles of Association and the further elaboration thereof in the Member Share Issuance and Redemption Policy of the Cooperative. For more information in relation to the redemption of Shares, please refer to section 5.5.

5.2.3 Dividend

a. Rights attached to the Shares

Dividend and other rights attached to the Shares apply from the moment those Shares are issued. All Shares entitle the holder to a dividend proportional to the Nominal Value of the Shares. Members participating in the General Meeting, having considered the proposal by the Managing Board as approved by the Supervisory Board, decide how the net profits are allocated. Dividend is paid either by allotting additional fractions of Shares or in cash.

b. Dividend policy

The annual net income is calculated by subtracting all operating costs, loan losses and depreciation from the gross income of the Cooperative, in accordance with generally accepted accounting practices in the Netherlands.

Net income available for distribution is calculated by correcting the annual net income for any extraordinary costs or income not arising from normal operations and an addition to the general reserves. The remaining net income available for distribution could be paid out as dividend. The distribution of dividends takes place according to the following:

- A dividend of 1/12th of the dividend percentage as approved by the General Meeting for every calendar month that the Shares have been registered.
- Dividends may be payable in the form of one or more fractions of Shares and/or in cash upon the Member's choice.
- Dividends made available in cash which are not claimed within five years shall be forfeited for the benefit of the Cooperative.
- Dividend in amounts below EUR 50, CAD 50, CHF 50, GBP 50, SEK 500, or USD 50, will not be paid out but automatically reinvested as long as the Member maintains the minimum required Shares. If this is not the case, dividend will be paid out in cash, unless the Member chooses to donate it toward capacity building.

The dividend calculation method has been applicable since 2012. The General Meeting, after consideration of the Managing Board's proposal (as approved by the Supervisory Board), decides on the allocation of annual net income in June of the year following the financial year for which the allocation is applicable. Upon that decision, the dividend payable (if any) is made available as Shares or fractions of Shares issued to the Members or in cash (see also articles 43 and 44 of the Articles of Association).

Dividend proposal 2021

For 2021 the Managing Board proposed, with approval from the Supervisory Board, a dividend of zero point five percent (0.5%). It is up to the General Meeting to adopt the proposal of the Managing Board at the General meeting in June 2022.

Dividend 2020

The total dividend for 2020 amounted to € 0.

Please refer to the dividend proposal in "Other information" on page 83 in the Cooperative's consolidated financial statements 2020 as incorporated by reference.

Dividend 2019

The total dividend for 2019 amounted to € 0.

Please also refer to the dividend proposal in "Other information" on page 84 in the Cooperative's consolidated financial statements 2019 as incorporated by reference.

5.3 What are the terms and conditions to the offering of Shares?

During the life of this Prospectus, the Shares are in principle continuously offered to Members and organisations eligible to be Members. As a result, there is no specific timetable for the offering of Shares. The Managing Board issues Shares at its discretion in accordance with the Articles of Association and the Member Share Issuance and Redemption Policy (please refer to section 5.4 of the Cooperative's Prospectus). The Cooperative does not make use of placing agencies and/or any other intermediaries in connection with the offering of Shares.

There is no realistic estimation of the proceeds of Shares issued and how many Shares will be issued. The number of new Shares issued during a financial year can be derived from the annual audited consolidated financial statements of the Cooperative, and the number of new Shares issued during the life of this Prospectus will be published on the [website](#) of the Cooperative.

Each new Member (except for new Members in the category "Other organisations invited by the Supervisory Board" for which there is a EUR 50,000 minimum investment requirement [see for the different Member categories paragraph 5.2 of the Cooperative's Prospectus]) is required to hold a minimum of one share (of EUR 200, CAD 200, CHF 250, GBP 150, SEK 2,000, or USD 200 or the Nominal Value of any other currency in which the Shares are issued by the Cooperative). As fractions of Shares may be purchased, all amounts received from a Member in excess of the Nominal Value of Shares are used for issuing new share capital to the Member concerned. In other words: no refunds take place unless a Member (i) uses its right to withdraw its request to purchase Shares within 14 days after the confirmation of its request or (ii) requests for redemption of (a part of) its Shares. The redemption of Shares is described in more detail in section 6 "Redemption and Transfer of Shares" of the Cooperative's Prospectus.

5.4 Is there any dilutive effect?

All Shares are offered and thereby issued against the nominal value. When new Shares are issued, the financial position of the Members may dilute, because issuance reduces the Net Asset Value per Share when the financial return on the newly issued Shares is lower than the financial return on the existing Shares. Provided that new Shares are issued to existing Members, there is no dilutive effect insofar voting rights are concerned. Each Member has one vote at the General Meeting, irrespective of the amount invested. The amount and percentage of the dilution cannot be calculated as Shares are issued on a continuous basis and the number of Shares that can be offered is unlimited. The Cooperative publishes quarterly information about its financial results and total outstanding Member capital.

5.5 What are the terms and conditions for redemption of Shares?

Shares may be redeemed by the Cooperative in accordance with article 13 of the Articles of Association. The following conditions are taken into account:

- Shares shall be redeemed, if a Member has ceased to be a Member of the Cooperative, no later than five years after cessation of membership;
- Shares shall be redeemed no later than five years after the redemption request, without prejudice to what has been provided in article 10 of the Articles of Association (i.e. provided that the Member retains holding at least one Share), without the Member ceasing its membership of the Cooperative;
- the redemption shall be at Nominal Value. However, if the Net Asset Value per Share is lower than the Nominal Value per share in the most recently audited (interim) balance sheet preceding the redemption

by the Cooperative, the amount payable upon redemption of Share(s) shall not exceed the sum corresponding to the Net Asset Value of the Share(s) according to that balance sheet.

In June 2018 the General Meeting approved the inclusion of a provision in the Articles of Association to remove the five-year redemption period of articles 13.1 and 13.2 of the Articles of Association upon the occurrence of certain conditions before 1 July 2021, and the Managing Board subsequently resolving with the approval of the Supervisory Board to this effect. The effect of the removal would be that, in principle, any redemption request might be delayed indefinitely by the Cooperative. The abovementioned conditions are:

- 1) the decision is made to prepare the Cooperative's consolidated financial statements in accordance with International Financial Reporting Standards (IFRS); or
- 2) the Cooperative continues preparing its consolidated financial statements in accordance with Dutch GAAP and the Shares are classified as financial liability under Dutch GAAP as a result of a) changed Dutch GAAP rules; or b) a change in the interpretation of the Dutch GAAP rules by external auditors.

The provision was included as a transition clause in the Articles of Association through a notarial deed dated 30 July 2018. The transition clause would have lapsed on 1 July 2021 if not triggered but was extended until 1 July 2022 at the 2021 annual General Meeting. The Managing Board, with approval by the Supervisory Board will propose to extend the inclusion of the transition clause for two more years at the annual General Meeting in June 2022. Up to the date of this Prospectus, none of the abovementioned conditions are met. The Managing Board of the Cooperative issues and redeems Shares at its discretion in accordance with the Articles of Association and the Member Share Issuance and Redemption Policy (please refer to section 5.4 of the Cooperative's Prospectus).

5.6 Are Shares in the Cooperative transferable?

Members may transfer their Shares to other Members upon written notice to the Cooperative (article 14 of the Articles of Association). As the Articles of Association determine that only Members may hold Shares (based on articles 5 and 9 of the Articles of Association), it is not possible for Members to transfer the Shares to non-Members. If all the Shares are transferred, then the Member ceases to be a Member of the Cooperative.

5.7 What are the rules on a takeover?

No mandatory takeover bid, squeeze-out or sell-out rules apply in relation to the Shares. The Cooperative has no plan to have the Shares admitted to trading or distributed on a regulated market or a multilateral trading facility.

6

ISSUANCE OF DEPOSITORY RECEIPTS

1. What are the characteristics of the Depository Receipts?
2. What rights are attached to the Depository Receipts?
3. Who is eligible to become a Holder of Depository Receipts?
4. What are the terms and conditions to the offering of Depository Receipts?
5. How can I subscribe?
6. Under which conditions could the issuance of Depository Receipts be suspended?
7. Is there any dilutive effect?

6 ISSUANCE OF DEPOSITORY RECEIPTS

6.1 What are the characteristics of the Depository Receipts?

As introduced in section 2.2, Depository Receipts constitute registered claims (*vorderingen op naam*) against OISF. Shares in the Cooperative cannot be obtained via the Depository Receipts of OISF and this investment opportunity in Depository Receipts therefore does not constitute an offer of Shares in the Cooperative.

During the life of this Prospectus, OISF offers Depository Receipts. During the offering period, OISF may at all times issue Depository Receipts, except to the extent that the Cooperative has suspended the issuance of Shares. Unless this exception applies at the level of the Cooperative, there is no limit to the number of Depository Receipts that can be issued by OISF. The Managing Board of the Cooperative issues and redeems Shares at its discretion in accordance with the Articles of Association and the further elaboration of thereof in the Member Share Issuance and Redemption Policy. Fractions of Depository Receipts may be issued as well provided that the minimum investment is one (1) Depository Receipt. The ISIN number of the Depository Receipts is NL0015026477.

The subscription price of the Depository Receipts is equal to the subscription price of the underlying Shares. However, the subscription price could be affected by (i) an administrative fee (if applicable) or (ii) deduction or withholding of taxes (if any). Please refer to section 8.4 respectively chapter 10.

In the past Depository Receipts have been issued in EUR, SEK, GDP, CAD, USD and CHF but during the validity of this Prospectus, OISF will issue Depository Receipts to Holders at a subscription price in EUR, or SEK (for new investments and for reinvestment of dividend), USD and CHF (only for reinvestment of dividend), and any other currency as resolved by the OISF Board, provided that the Cooperative issues Shares in that currency. Depository Receipts in SEK will only be issued to residents of Sweden.

The Depository Receipts are in registered form, meaning that OISF holds a Register with the names, addresses and bank account details of Holders and the number and denomination of the Depository Receipts held. Each Holder must notify OISF of its residency address and bank account details and any change thereof. Each Holder may at any time, free of charge, apply for an extract from the Register stating the number of Depository Receipts in its name.

Newly issued Depository Receipts are indicated in the annual financial statements of OISF. After the period of the life of this Prospectus, OISF will publish the total amount of Depository Receipts issued during this period. Depository Receipts cannot be charged with a right of pledge or usufruct or any other right or encumbrance.

The Depository Receipts are currently not listed and OISF has no plans to have the Depository Receipts admitted to trading or distributed on a regulated market or a multilateral trading facility.

Please refer to the Terms and Conditions for more detailed information about the characteristics of the Depository Receipts.

6.2 What rights are attached to the Depository Receipts?

6.2.1 No voting rights

Depository Receipts do not give Holders any right to vote and no formal meetings of Holders will be held. Like all members of the Cooperative, OISF has one vote for its Shares at the General Meeting of the Cooperative. This is irrespective of the number of Shares that are held by OISF. OISF may exercise the rights attached to the Shares in accordance with article 7 of the Terms and Conditions and without instructions of the Holders.

OISF is an administrative office. Generally, an administrative office does not generate profits. The reason is that any dividends and distributions it receives are to be passed on to holders of depository receipts (which are issued by such an administrative office) pursuant to their registered claims against the administrative office. Unlike, for example, shares, no profit entitlement is attached to depository receipts (such as the Depository Receipts issued by OISF).

In case of liquidation of OISF, Holders are entitled to a share in funds that remain, if any, in accordance with article 13 of OISF Articles of Association. Holders will receive to the fullest extent possible an amount corresponding to their beneficial interest in the underlying Shares of the Cooperative. In case of insolvency of the Cooperative liquidation of OISF will necessarily follow. In case of liquidation of OISF, OISF will request a redemption of the Shares corresponding to the Depository Receipts. Remaining funds in the Cooperative will first be allocated to the creditors of the Cooperative. Any other remaining funds will be allocated to the members of the Cooperative, which include OISF. The redemption value of the Depository Receipts may be (far) below Nominal Value and even be zero. Since OISF is a *stichting administratiekantoor*, OISF will pass the funds allocated by the (receiver of the) Cooperative to its Holders. There is no priority in ranking amongst Holders of Depository Receipts.

6.2.2 Dividend

What is the process of dividend payments?

OISF will pass on all dividend or other distributions received by it on the Shares to the Holders after deduction of:

- taxes, if any, that OISF must pay or withhold on the dividend or distribution (please refer to chapter 10 of this Prospectus)
- an administrative fee, if applicable (please refer to section 8.4 of this Prospectus)

Upon subscribing for a first investment in Depository Receipts, prospective Holders can indicate in what form they wish to receive the dividend:

- i. the net dividend to be added to their Depository Receipts in the form of a stock dividend (which is the default option if no answer is received from the Holder);
- ii. to be paid out to them in cash; or
- iii. as a gift to Stichting Oikocredit International Support Foundation (ISUP).

Until the dividend decision by the General Meeting of the Cooperative has been made, Holders can put a request to OISF in writing to change their dividend allocation.

If a Holder has opted to receive dividend in cash, but the payable dividend is below EUR 50, USD 50, CHF 50, SEK 500, option (ii) is not possible; these dividends will be automatically reinvested as a stock dividend (option (i)). If all Depository Receipts have been redeemed in the previous calendar year, or if the Depository Receipts are in CAD or GBP, any dividends that become payable in the current year will be paid out in cash (option (ii)), unless the Holder chooses option (iii).

Dividend payable in cash will be paid by OISF to the Holder's bank account number notified by the Holder. Such payment will release OISF from liability for the amount concerned. The rights of a Holder against OISF, in respect to dividends or any other distribution of the Depository Receipts, will lapse five years after the dividend or other distribution has become payable.

There is no difference in the dividend process for resident and non-resident Holders (except for possible tax implications, please refer to chapter 10 of this Prospectus).

Dividend on the Shares (and consequently on the Depository Receipts) over 2020 and 2019 amounted to 0% of their Nominal Value. For 2021 the Managing Board proposed a dividend of zero point five percent (0.5%). It is up to the General Meeting of the Cooperative in June 2022 to adopt the proposal of the Managing Board.

6.3 Who is eligible to become a Holder of Depository Receipts?

Depository Receipts may be issued to both organisations and to individuals in the markets where OISF has an established active offering (namely Austria, France, Italy, Spain and Sweden). Depository Receipts may only be issued to Eligible Holders as defined and set out in the Terms and Conditions of OISF. Eligible Holders are persons, entities or organisations that:

- fully subscribe to the objectives of the Cooperative and can confirm so in writing upon request;
- pass the (legal) requirements of a "Know Your Customer risk assessment"; and
- are admitted as Eligible Holders by OISF at its discretion.

6.4 What are the terms and conditions to the offering of Depository Receipts?

The Depository Receipts, and the issuance, purchase and redemption thereof, are subject to the OISF Articles of Association, the Terms and Conditions and Dutch law. The most recent version of the Terms and Conditions as of the date of this Prospectus are attached to the Prospectus (please refer to Appendix 3 of this Prospectus). The most recent version of the Terms and Conditions can always be found on OISF's website (please refer to Appendix 4 of this Prospectus).

OISF may at all times issue Depository Receipts, except to the extent that the Cooperative has revoked or suspended the issuance of Shares. Unless this exception applies at the level of the Cooperative, there is no limit to the number of Depository Receipts that can be issued by OISF.

The subscription of a Holder is always subject to a minimum amount of EUR 200 and SEK 2,000, or its equivalent in any other currency in which Depository Receipts are resolved to be issued.

6.5 How can a Holder subscribe?

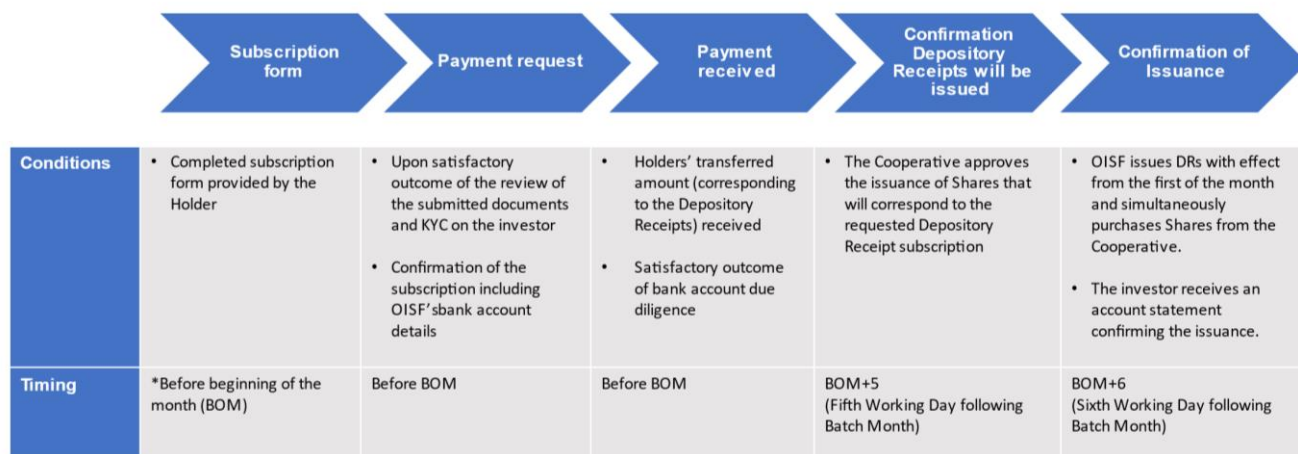

OISF may accept a request from a prospective Holder to purchase (a) Depository Receipt(s), but is not obligated to do so. OISF can issue Depository Receipts as soon as possible after (in short):

- OISF has approved the applicant as an Eligible Holder and a positive outcome of the KYC risk assessment; and
- OISF has received the relevant amount in its bank account; and
- the Cooperative has decided to issue Shares.

The subscription process is aligned with the Cooperative's Member Share Issuance and Redemption Policy. The Member Share Issuance and Redemption Policy, as adopted by the Managing Board and by the Supervisory Board, is to be considered as a further elaboration of the Cooperative's Articles of Association in relation to the issuance and redemption of Shares. The purpose of the Member Share Issuance and Redemption Policy is to enable the continuous monitoring of in- and outflows in the Cooperative, in order to accommodate issuance and redemption requests. Beginning in Q3 2020, the Cooperative assesses in- and outflows on a monthly basis and, following a positive assessment, processes issuance and redemption requests on a monthly basis.

The Member Share Issuance and Redemption Policy outlines, amongst others, the circumstances under which the issuance and redemption of Shares may be suspended or resumed by the Managing Board. As a result of the Policy, the Cooperative will only issue and redeem Shares once a month.

The OISF subscription process has been visualised in the following graph:

*"Batch Month" is a calendar month during which investors submit issuance and redemption requests. "Beginning Of Month" refers to the month following the Batch Month. All days refer to Working Days. For example, BOM+5 refers to the Fifth Working Day of month following on the Batch Month.

The first request of a prospective Holder for the issuance of Depository Receipts takes place by sending a fully completed subscription form to OISF in accordance with the Terms and Conditions. Any further request from a Holder for additional Depository Receipts takes place either by an additional purchase or top-up form or via MyOikocredit and such further requests will follow the same procedure as explained below. Any request to issue Depository Receipts must mention the amount in EUR or SEK (for residents of Sweden) or any other currency as resolved by the OISF Board, provided that the Cooperative issues Shares in that currency.

After receipt of the completed subscription form, OISF will assess the (prospective) holder of Depository Receipts. This assessment contains the check whether a person, entity or organisation meets the criteria to be an Eligible holder. OISF also assesses whether a person, entity or organisation passes the (legal) requirements of know your customer ("**KYC**"), by means of a KYC risk assessment. The outcome of the KYC risk assessment intends to prevent OISF and the Cooperative being used to facilitate criminal activity, such as terrorist financing or money laundering.

In the meantime, OISF will promptly confirm the receipt of the subscription form and provide to the prospective Holder its bank account details. OISF will request the prospective Holder to transfer the amount (corresponding to the Depository Receipts) before the end of the month (but only once the KYC assessment is complete) from the Holder's bank account, in order for OISF to consider issuing the Depository Receipts with an effective date of the first of the following month). OISF will confirm the receipt of the amount to the (prospective) Holder.

Prospective Holders have the right to withdraw their request to subscribe for Depository Receipts (as further explained in the subscription form) within fourteen (14) days after they receive OISF's confirmation that OISF has received the subscription request. Any amounts received toward the subscription will be refunded to the bank account that the prospective Holder has indicated on the subscription form.

Under the Member Share Issuance and Redemption Policy, which was implemented in September 2020, OISF processes issuance and redemption requests on a monthly basis. Depository Receipts are issued as claims on the underlying Shares in the Cooperative. Therefore, for OISF to be able to issue a Depository Receipt, it must first purchase a Cooperative Share. Hence at the end of every month OISF will collect all the subscription requests for Depository Receipts, and then send to the Cooperative its own subscription request for a corresponding number of Cooperative Shares. OISF sends its request to the Cooperative on the third business day of the following month (BOM+3). The Cooperative announces whether it will accept the request of OISF and those of the rest of the Cooperative members two business days later (BOM+5). If the Cooperative's decision is positive, the Cooperative will issue Shares to OISF on the following business day (BOM+6), with an effective date of the first calendar day of the month. OISF will then issue the Depository Receipts to the Holder on the same day (BOM+6), also with an effective date of the first calendar day of the month.

OISF will inform the Holder of the amount of Depository Receipts registered to its name, in writing, by making available an account statement in accordance with the Terms and Conditions.

There are two situations in which a prospective Holder may have transferred to OISF an amount corresponding to the requested Depository Receipts to OISF without receiving Depository Receipts in return. In both situations, OISF will refund the amount paid by the prospective Holder to the bank account indicated on the subscription request. No interest will be paid on any subscriptions that are refunded. This can be the case when:

- the person requesting subscription does not qualify as Eligible Holder; or
- the Cooperative has suspended the issuance of Shares (and consequently OISF the issuance of Depository Receipts).

6.6 Under which conditions could the issuance and/or redemption of Depository Receipts be suspended?

OISF will suspend the offer of Depository Receipts if the Managing Board of the Cooperative decides to suspend the issuance of Shares.

The Managing Board of the Cooperative issues Shares at its discretion in accordance with the Articles of Association. The process under which Shares are issued is further elaborated in the Cooperative's Member Share Issuance and Redemption Policy, which began to apply in September 2020. Under the policy, the Cooperative assesses in- and outflows on a monthly basis and, following a positive assessment, processes issuance and redemption requests on a monthly basis.

OISF will suspend the redemption of Depository Receipts if the Managing Board of the Cooperative decides to suspend the redemption of Shares.

The Managing Board has the discretion to suspend the redemption of Shares. The Managing Board announces its decision to continue or suspend redemption on BOM+5. In the case the Managing Board decides to suspend redemption of shares, it may decide to apply its decision with effect from the next month (i.e. honouring the requests in the Batch Month), or with effect from the Batch Month. In general, the decision not to honour requests for the preceding Batch Month is appropriate when an event has or may have impacted materially the Net Asset Value per Share or there is material uncertainty about the Net Asset Value, while the decision not to honour requests pertaining to the next Batch Month is appropriate when the impact is confined to liquidity. However, the Managing Board will take into account all factors it deems relevant next to solvency and liquidity.

In the event the Cooperative will not resume the redemption of Shares within three months after the Batch Month, the Managing Board shall prepare a plan (a "**Specific Measures Plan**"), in which it shall consider all available measures that can bring about a result which is in the Cooperative's best interest. In the event doing so is required or deemed prudent, the Specific Measures Plan or relevant parts thereof shall be put for approval to the General Meeting.

6.7 Is there any dilutive effect?

All Depository Receipts are offered and thereby issued against the Nominal Value. When new Depository Receipts are issued, the financial position of Holders may dilute, because issuance of underlying Shares reduces the Net Asset Value per Share when the financial return on the newly issued Shares is lower than the financial return on the existing Shares. The amount and percentage of the dilution cannot be calculated as Depository Receipts are issued on a continuous basis and the number of Depository Receipts that can be offered is unlimited. Please refer to paragraph 5.4 for the dilutive effect on Shares.

7

REDEMPTION AND TRANSFER OF DEPOSITORY RECEIPTS

1. Am I able to redeem my Depository Receipts?
2. Am I able to transfer my Depository Receipts?

7 REDEMPTION AND TRANSFER OF DEPOSITORY RECEIPTS

7.1 Am I able to redeem my Depository Receipts?

Depository Receipts cannot be exchanged (*niet royeerbaar*) by Holders for Shares. OISF may redeem Depository Receipts from Holders in the cases of and subject to the conditions described in the Terms and Conditions at a price that may (depending on the financial results and conditions of the Cooperative and on taxes, if any, that the Cooperative may have to pay on the repurchase of the corresponding Shares) be lower but not higher than EUR 200, CAD 200, GBP 150, CHF 250, USD 200 and SEK 2,000 per Share, or any other nominal amount in any other currency in which Depository Receipts are issued.

The yield of the Depository Receipts on the basis of their issuing price is equal to the dividend received from the Cooperative on the underlying Shares after deduction of taxes and, within the discretion of the OISF Board, a fee to cover capital mobilisation, investor relations, the promotion and administration costs (under the current Terms & Conditions, the latter not exceeding 0.5% of average yearly Nominal Value of the Depository Receipts). To date, these costs (if any) have been covered by Cooperative. Dividends issued by the Cooperative have not been higher than 2% of the Nominal Value of the Shares. The yield will be negative in the event that the redemption of Depository Receipts is below the Nominal Value.

Depository Receipts are redeemed free of charge to Holders, however OISF may withhold taxes from the price to be paid by or to the Holder(s) which must be paid, retained or withheld by OISF, if any, in respect of any subscription, redemption or repurchase of Depository Receipts.

Any redemption of Depository Receipts requested by a Holder may only take place if the Cooperative has not stopped accepting redemptions. Since September 2020, OISF processes issuance and redemption requests on a monthly basis, following the confirmation by the Cooperative that Shares will be available for purchase and redemption. Under the Share issuance and redemption policy, the Cooperative assesses in- and outflows on a monthly basis and, following a positive assessment, processes issuance and redemption requests on a monthly basis (for more detail on the Cooperative's process, please refer to sections 5.6 and 6.4 of the Cooperative's Prospectus).

For further details about the redemption of Depository Receipts, please refer to article 9 of the Terms and Conditions (please refer to Appendix 3).

7.2 Am I able to transfer my Depository Receipts?

Pursuant to the Terms and Conditions, OISF, at its discretion, may decide on the transferability of Depository Receipts. As the OISF Articles of Association (article 3.1 sub a) determine that only (eligible) Holders may hold Depository Receipts. Holders may transfer their Depository Receipts to other Holders, but such transfer requires an agreement in writing and acknowledgement of the transfer on behalf of OISF. Transfers to persons who are not admitted as Eligible Holders will be not recognised as valid transfers and OISF will continue to administer the Depository Receipts for the account of the original Holder.

8

FINANCIAL INFORMATION RELATED TO THE OFFERING OF DEPOSITORY RECEIPTS

1. What is the estimation and use of proceeds?
2. Which costs are involved with the offering of Depository Receipts?
3. How does OISF generate income?
4. Do I have to pay an administrative fee?
5. Balance sheet of OISF

8 FINANCIAL INFORMATION RELATED TO THE OFFERING OF DEPOSITORY RECEIPTS

8.1 What is the estimation and use of proceeds?

During the life of this Prospectus, Depository Receipts are (in principle) continuously offered to Holders. There is no upfront realistic estimation of the number of Depository Receipts that will be issued. The reason is that Depository Receipts are issued on a continuous basis and OISF cannot assess upfront how many subscriptions will be placed for the continuous offer each year. After this Prospectus expires in June 2023, OISF will publish on its webpages (please refer to Appendix 4) the total amount of Depository Receipts that are issued during the life of this Prospectus. Accordingly, it is difficult to estimate the net amount of the proceeds of the Depository Receipt issuance.

The issuance of Depository Receipts in the periods in the last three years mentioned below, corrected for the redemption of Depository Receipts in the same periods, amounted to:

- 1 June 2021 – 31 May 2022: approximately € -9.0million (this amount takes into account funds received in connection with the issuance of Depository Receipts that took place on 1 May 2022 but not any funds received on or before 31 May 2022 in connection with the issuance of Depository Receipts that took place on 1 June 2022)
- 1 June 2020 – 31 May 2021: € -8.0 million
- 1 June 2019 – 31 May 2020: € -1.8 million

Based on the foregoing years, OISF expects the net amount of the proceeds of the Depository Receipts issuance during the life of this Prospectus to amount € 6.9 million. This number is an estimate and may change significantly if the capital raising model of the Cooperative changes (please refer to subsection 4.7.2 above). The actual net proceeds can deviate from the estimation, for example because of the Covid-19 pandemic. The costs of the Offering are absorbed by the Cooperative pursuant to the Administration and Outsourcing Agreement (see further section 8.2 below).

OISF will use the proceeds of the Depository Receipts (after the deduction of taxes, if any) for the purchase of Shares. OISF will settle with the Cooperative the net amounts received from Holders for the issued Depository Receipts and the Cooperative then issues the corresponding number of Shares to OISF. For information on the use of the proceeds obtained by Cooperative by the issuance of Shares, please refer to section 5.1 of the Cooperative Prospectus.

8.2 Which costs are involved with the continuous offering of Depository Receipts?

The administration of OISF, the issuance and redemption of the Depository Receipts as “*administratiekantoor*”, including the financial administration, subscription and registration of Depository Receipt Holders, the processing of distributions to the Holders, and all other matters related to or arising from the administration of Depository Receipts are carried out on behalf of OISF by the staff of the Cooperative following an administration and outsourcing agreement between OISF and the Cooperative (the “Administration and Outsourcing Agreement”). In accordance with this agreement, the Cooperative bears the costs in relation to these administrative services. In other words: the Cooperative does not charge OISF any fees under the Administration and Outsourcing Agreement.

Besides the aforementioned costs (incurred by OISF but borne with the Cooperative), OISF incurs annual entity costs which consist of:

- a) maintenance costs charged by the bank for OISF’s bank account(s);

- b) registration costs charged by the chamber of commerce in the Netherlands as well as in other countries in which OISF is registered as an entity regarding the existence of OISF as an entity, changes in the OISF board composition and its legal representation; and
- c) costs directly in relation to a physical meeting of the board of OISF to be held once a year in the Netherlands.

8.3 How does OISF generate income?

OISF's income consists of interest received on deposits in bank accounts which can also be a costs dependent on the average interest of the banks. OISF does not currently charge any fee to the Cooperative for the attraction of funds.

8.4 Do I have to pay an administrative fee?

If the income of OISF from aforementioned sources (excluding dividends and other distributions received from the Cooperative) is not sufficient to cover the annual entity costs of OISF, an administrative fee may be charged to the Holders. This fee will not exceed 0.5% of the average yearly Nominal Value of the Depository Receipts. This fee will be deducted by OISF from the dividends to be paid to the Holder(s) but will not lead to a negative (dividend) amount. If such fee would become applicable, OISF will announce it with reasonable notice via its websites and in written communication to the Holders.

8.5 Balance sheet of OISF

The following key figures and sections were extracted from the financial statements of OISF of 2021, 2020 and 2019. The financial statements are incorporated by reference in this Prospectus. The financial statements comply with generally accepted accounting principles in the Netherlands.

Balance Sheet

The annual financial statements of OISF are not incorporated in full. The parts of these reports that are not incorporated are either not relevant for investors or are covered elsewhere in this Prospectus. Up to the date of this Prospectus there was no significant change to the financial performance of OISF since 31 December 2021, the end of the last financial period for which financial information has been published to the date of this Prospectus.

9

IMPORTANT INFORMATION FOR THE INVESTOR

1. Who is responsible for the content of this Prospectus?
2. When does OISF report to its Holders?
3. What information is incorporated by reference?

9 IMPORTANT INFORMATION FOR THE INVESTOR

9.1 Who is responsible for the content of this Prospectus?

This Prospectus is made available by Stichting Oikocredit International Share Foundation in connection with the offer of Depositary Receipts in the Netherlands and in several other member states of the European Economic Area of which the competent authorities have been notified by the AFM with a certificate of approval attesting that this Prospectus has been drawn up in accordance with the Prospectus Regulation. Its registered office is located in Amersfoort and at Berkenweg 7 (3818 LA) in Amersfoort. OISF accepts responsibility for the information contained in this Prospectus. OISF declares that, to the best of its knowledge, the information contained in this Prospectus is in accordance with the facts and that this Prospectus makes no omission likely to affect its import.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Prospectus or any information supplied by OISF or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by OISF.

9.2 Is this Prospectus being approved?

The Prospectus has been approved by the AFM, as competent authority under the Prospectus Regulation, on 3 June 2022. The AFM only approves a Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the issuer or of the quality of the securities that are the subject of this Prospectus. Investors should make their own assessment as to the suitability of investing in the securities.

9.3 When does OISF report to its Holders?

OISF is legally required to have its annual accounts prepared and audited by its external auditors within six months after the end of the financial year. However, OISF aims to have its annual accounts prepared and audited within four months after the end of the financial year. The financial year is equal to the calendar year. Every Holder annually receives:

- a dividend announcement detailing the dividend (if any) which has been made payable per Depositary Receipt with the choices for payment, and confirming the number of Depositary Receipts that the Holder has registered in the records of OISF; and
- upon request, the annual report of the Cooperative and OISF.

9.4 What information is incorporated by reference?

The following information is incorporated by reference and forms an integral part of the Prospectus:

- the specific information of the [Prospectus of the Cooperative](#) as listed in the cross reference list below;
- [the most recent version of the OISF Articles of Association as per the publication date](#) (in the original Dutch language version as well as in an English translation);
- [audited financial statements 2021 OISF, Amersfoort, the Netherlands](#);
- [audited financial statements 2020 OISF, Amersfoort, the Netherlands](#);
- [audited financial statements 2019 OISF, Amersfoort, the Netherlands](#);

- [the most recent version of the Cooperative Articles of Association](#) (in the original Dutch language version as well as in an English translation);
- [the Cooperative audited annual report 2021](#);
- [the Cooperative audited annual report 2020](#);
- [the Cooperative audited annual report 2019](#).

All documents listed above can be found by using the hyperlinks and the websites listed in Appendix 4. In addition, a subscriber will receive the Prospectus including all information incorporated by reference upon request for a subscription pack through an OISF contact form on www.oikocredit.coop/invest-in-oikocredit/contact-form-oisf or by contacting the Investor Support team at oi.support@oikocredit.org.

Specific information incorporated by reference to the Cooperative Prospectus is summarised in the cross reference checklist given below. The non-incorporated parts of the Cooperative's Prospectus are either not relevant for investors in OISF or covered elsewhere in this Prospectus.

TAX

1. Tax position of OISF
2. Tax position of holders of Depository Receipts

This section provides a brief summary of the most relevant Dutch tax implications of being a Holder of Depository Receipts. The summary of the Dutch tax implications is based on the current facts and circumstances as laid down in this Prospectus and current Dutch tax law, case law and policy rules, all as in effect on the date of approval of this Prospectus. Future changes in the Dutch tax regime, with or without retroactive effect, or changes in facts and circumstances could affect the tax implications as described in this section.

The tax legislation of the investor's country of tax residence and of the Netherlands may have an impact on the income received from the securities.

The information below is not to be regarded as specific tax advice and does not purport to describe all of the tax considerations that may be relevant to a prospective Holder of Depository Receipts. Prospective investors are strongly advised to inform themselves as to the overall tax consequences of purchasing, holding and/or selling Depository Receipts.

10.1 Tax position of OISF

10.1.1 Corporate income tax

OISF is not liable for paying corporate income tax in the Netherlands.

10.1.2 Dividend withholding tax

No Dutch dividend withholding tax is due on dividends distributed by OISF to its Holders of Depository Receipts, resident either in the Netherlands or outside the Netherlands. Currently, no Dutch dividend withholding tax is due upon the payment of dividends distributed by the Cooperative to OISF either.

However, as of 1 January 2024, a Dutch conditional withholding tax will be imposed on dividends distributed by the Cooperative to entities related (*gelieerd*) to the Cooperative (within the meaning of the Dutch Withholding Tax Act; *Wet bronbelasting 2021*), if such related entity:

- (i) is considered to be resident (*gevestigd*) in a jurisdiction that is listed in the yearly updated Dutch Regulation on low-taxing states and non-cooperative jurisdictions for tax purposes (*Regeling laagbelastende staten en niet-coöperatieve rechtsgebieden voor belastingdoeleinden*) (a "Listed Jurisdiction"); or
- (ii) has a permanent establishment located in a Listed Jurisdiction to which the shares in the Cooperative are attributable; or
- (iii) holds the shares with the main purpose or one of the main purposes of avoiding taxation for another person or entity and there is an artificial arrangement or transaction or a series of artificial arrangements or transactions; or
- (iv) is not considered to be the beneficial owner of the shares in its jurisdiction of residence because such jurisdiction treats another entity as the beneficial owner of the shares (a hybrid mismatch); or
- (v) is not resident in any jurisdiction (also a hybrid mismatch); or
- (vi) is a reverse hybrid (within the meaning of Article 2(12) of the Dutch Corporate Income Tax Act; *Wet op de vennootschapsbelasting 1969*), if and to the extent (x) there is a participant in the reverse hybrid which is related (*gelieerd*) to the reverse hybrid, (y) the jurisdiction of residence of such participant treats the reverse hybrid as transparent for tax purposes and (z) such participant would have been subject to Dutch withholding tax in respect of dividends distributed by the Cooperative without the interposition of the reverse hybrid, all within the meaning of the Dutch Withholding Tax Act (*Wet bronbelasting 2021*).

The Dutch conditional withholding tax on dividends will be imposed at the highest Dutch corporate income tax rate in effect at the time of the distribution (currently 25.8%).

10.1.3 Gift taxes and inheritance taxes

OISF does not receive donations or inheritances from OISF Depository Receipt Holders. However, Holders can donate their investments and/or dividend to Stichting Oikocredit International Support Foundation (ISUP). OISF will process the requests to donate investments as redemption requests on a monthly basis, following the confirmation by the Cooperative that Shares will be available for purchase and redemption. The redemption proceeds will then be paid by OISF to Stichting Oikocredit International Support Foundation (ISUP). ISUP is a qualifying Dutch charity (*algemeen nut beogende instelling*) and therefore, the donations received by ISUP will be exempt from Dutch gift and inheritance taxes, if and to the extent the donations are used in the public interest and ISUP continues to meet the conditions for being such a Dutch charity.

10.1.4 Value-added tax

The sole holding of Shares in the Cooperative by OISF is not subject to Dutch value-added tax (VAT, the general consumption tax). Any activities with regard to the Depository Receipts are exempt from Dutch VAT. No VAT will be due in the Netherlands in respect of payments made in consideration for the issue, transfer or redemption of Depository Receipts.

10.2 Tax position of Holders of Depository Receipts

Holders (or prospective Holders) of Depository Receipts should consult their own professional advisers as to the implications of their subscribing for, purchasing, holding, selling and/or donating Depository Receipts under the laws of their jurisdiction. In general, the following applies:

10.2.1 Holders of Depository Receipts that are tax resident in the Netherlands

It is assumed that the Depository Receipts and income received or capital gains derived therefrom are not attributable to employment activities of the Holder of the Depository Receipts. It is further assumed that the Holders of the Depository Receipts do not hold a substantial interest in the Cooperative. Generally speaking, an interest in the Cooperative should not be considered a substantial interest if the Holder of such interest, and, if the Holder is an individual, his or her spouse, registered partner, certain other relatives or certain persons sharing the Holder's household, do not hold, alone or together, whether directly or indirectly, the ownership of, or certain rights over, Depository Receipts representing 5% or more of the total issued and outstanding share capital of the Cooperative.

Income derived or deemed to be derived from a Depository Receipt or a gain realised on the disposal or redemption of a Depository Receipt, by a Holder of a Depository Receipt who is an individual who is a resident or deemed a resident of the Netherlands for Dutch personal income tax purposes, may, amongst others, be subject to Dutch personal income tax at progressive individual income tax rates up to 49.5% (2022 rate) if:

- the individual carries on a business, or is deemed to carry on a business, for example pursuant to a co-entitlement to the net value of an enterprise (*medegerechtigde*), to the assets of which such Depository Receipt is attributable; or
- such income or gain qualifies as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which e.g. include activities with respect to the Depository Receipt that exceed regular, active portfolio management (*normaal actief vermogensbeheer*).

If the conditions set out in paragraphs (a) and (b) above do not apply to an individual Holder of a Depositary Receipt, actual received income derived from a Depositary Receipt or gains realised on the disposal or redemption of a Depositary Receipt are, in general, not taxable as such. Instead, such Holder of a Depositary Receipt will be taxed at a flat rate of 31% (2022 rate) on deemed income from “savings and investments” (*sparen en beleggen*). This deemed income is calculated on the basis of ascending percentages (1.82% up to 5.53%; 2022 rates) depending on the individual’s “yield basis” (*rendementsgrondslag*) at the beginning of the calendar year (1 January) to the extent it exceeds a certain threshold. The fair market value of the Depositary Receipt will be included in the individual’s yield basis.

Income derived from the Depositary Receipts or a gain realised on the disposal or redemption of Depositary Receipts, by a holder of a Depositary Receipts who is a resident or a deemed resident of the Netherlands for Dutch corporate income tax purposes and who is subject to Dutch corporate income tax, is generally taxable in the Netherlands at a rate of 25.8%, with an initial rate of 15.0% on the first € 395,000 of taxable income (2022 rate).

10.2.2 Holders of Depositary Receipts that are tax resident outside the Netherlands

A Holder of Depositary Receipts who is neither resident nor deemed to be resident of the Netherlands for Dutch corporate or personal income tax purposes who derives income from such Depositary Receipts, or who realises a gain on the disposal or redemption of the Depositary Receipts will not be subject to Dutch taxation on income or capital gains, unless:

- such Holder has an interest in an enterprise or deemed enterprise (as defined in the Dutch Income Tax Act 2001 and the Dutch Corporate Income Tax Act 1969) which, in whole or in part, is either effectively managed in the Netherlands or carried on through a permanent establishment or a permanent representative in the Netherlands to which the Depositary Receipts are attributable; or
- the Holder is an individual, and such income or gain qualifies as income from miscellaneous activities in the Netherlands (*resultaat uit overige werkzaamheden in Nederland*), which e.g. include activities with respect to the Depositary Receipts that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

DEFINITIONS

12 DEFINITIONS

In this Prospectus and in the general introduction, unless the context otherwise requires, the following terms shall have the following meanings:

Administration and Outsourcing agreement	The agreement between the Cooperative and OISF in which is agreed that the administration of OISF, the issuance and redemption of the Depository Receipts as "administratiekantoor", including the financial administration, subscription and registration of Depository Receipt Holders, the processing of distributions to the Holders, and all other matters related to or arising from the administration of Depository Receipts are carried out on behalf of OISF by the staff of the Cooperative.	Cooperative	OIKOCREDIT, Ecumenical Development Cooperative Society U.A., which has its registered office in Amersfoort, the Netherlands.
Appendix	An appendix to this Prospectus which forms an integral part of this OISF Prospectus.	Cooperative Group or the Group	The economic unit in which the Cooperative and other legal entities and commercial partnerships are organisationally connected within the meaning of article 2:24b of the Dutch Civil Code. See section 2.2 of the Cooperative Prospectus for details.
Approval Date	The date on which this Prospectus was approved by the Authority for the Financial Markets (<i>Autoriteit Financiële Markten</i> - AFM) in the Netherlands for the purposes of the Prospectus Regulation. Pursuant to this Prospectus, Depository Receipts may be offered by OISF for a period of 12 months from the Approval Date – which is 3 June 2020.	Cooperative Prospectus	The separate Prospectus of OIKOCREDIT, Ecumenical Development Cooperative Society U.A.
Articles of Association	The Cooperative's Articles of Association, as incorporated by reference in this Prospectus and can be read at: www.oikocredit.coop/articles-of-association .	Depository Receipt	Each of the registered claims (<i>vorderingen op naam</i>) against OISF subject to the Terms and Conditions and representing the beneficial interest in a share for which it has been issued by OISF; where the context so permits, depository receipt includes fractions thereof, issued by OISF for fractions of a Share.
CAD	Canadian dollar, the currency of Canada.	EUR	Euro, the currency of the Netherlands and other European countries.
CHF	Swiss franc, the currency of Switzerland	Financial Institution	Financial Institutions are organisations or intermediaries such as Micro Finance Institutions, duly registered non-bank financial institutions, banks, savings and credit cooperatives or other entities duly organised to provide access to credit, savings and other financial services to individuals and micro and small to medium enterprises (SME).
		FX	Foreign exchange

GBP	British pound sterling, the currency of the United Kingdom.		of association of the Cooperative.
Holder(s)	Persons, entities or organisations duly admitted as eligible holders in accordance with the Terms and Conditions and entitled to (<i>rechthebbenden op</i>) the Depository Receipts.	Stichting Oikocredit International Support Foundation (ISUP)	A foundation that mainly mobilises grant funds to support the Cooperative's activities, its Partners and other parties, in reaching organisations that support low-income people and their communities, f.e. through capacity building projects, including the provision of training. .
Know Your Customer (KYC) risk assessment	Procedure to identify and assess possible money laundering/financing threats and reputational risks	Oikocredit Nederland Fonds	An investment fund incorporated by Oikocredit Nederland, having its registered office in Utrecht, the Netherlands.
Managing Board	The Cooperative's Managing Board (<i>bestuur</i>) as mentioned in articles 35-46 of the Articles of Association of the Cooperative.	Oikocredit Nederland	The Cooperative's Support Association in the Netherlands (<i>Oikocredit Ontwikkelingsvereniging Nederland</i>), having its registered office in Utrecht, the Netherlands.
Member	A member (and shareholder) of the Cooperative as mentioned in article 5 of the Articles of Association of the Cooperative.	OISF Articles of Association	The OISF articles of association, incorporated by reference in this Prospectus, as they may be amended from time to time.
Member Share Issuance and Redemption Policy	The Cooperative's policy with regard to issuance and redemption requests regarding Shares, as amended from time to time.	OISF Board	The board (<i>Stichtingsbestuur</i>) of OISF, as referred to in article 6 of the OISF Articles of Association.
Micro Finance Institution or MFI	A microfinance institution, which provides financial services to low-income people and other disadvantaged people.	Stichting Oikocredit International Share Foundation or OISF	OISF is a member of the Cooperative established to enable individuals and non-Member organisations to invest indirectly in the Cooperative. To achieve its purpose, OISF conducts no activities other than acquiring and administering Shares in the interest of the Holders (<i>ten titel van beheer</i>), issuing Depository Receipts to Holders and activities directly related to the foregoing and therefore functions as an administrative office (<i>administratiekantoor</i>) of the Cooperative.
Net Asset Value (per Share)	The current value of a Share as calculated by the Cooperative. Note however, that the redemption value can never be higher than the Nominal Value.		
MyOikocredit	MyOikocredit is an internet-based service which enables investors to self-manage their personal data and investments with OISF. The service consists of an online portal for the investor, and an interface to exchange data with the investor administration system	Partner Funding	Partners financed by the Cooperative, referred to in the audited consolidated financial statements of the Cooperative as "outstanding development financing".
Nominal Value (per Share)	The value of the Share when issued as set out in the articles		

Partner(s)	Organisations to which the Cooperative has provided funding and that are engaged in economic activity or engaged in enterprises which provide both a financial and social return mostly in low-income countries.	Term Investment or TI	The term investment portfolio of the Cooperative that is the portion of total assets used for liquidity management reasons, such as to redeem share capital or to provide for operating funds. It consists of bonds and shares.
Prospectus	This Prospectus of OISF, including any supplements to be made publicly available via the websites listed in Appendix 4.	Terms and Conditions	The Terms and Conditions (<i>administratievoorwaarden</i>) of OISF, attached to this Prospectus as Appendix 3, as they may be amended from time to time.
Register	The record of the names, addresses and bank account details of the Holders and the number and denomination of the Depository Receipts held.	USD	United States Dollar, the currency of the United States of America.
SEK	Swedish krona, the currency of Sweden.		
Share(s)	The Share(s) in the issued share capital of the Cooperative, regardless of their class or denomination; where the context so permits, Shares shall include fractions thereof.		
Subscription Price	The price to be paid upon issuance of a Depository Receipt.		
Supervisory Board or SB	The Cooperative's Supervisory Board (<i>raad van toezicht</i>) as mentioned in the articles 29-33 of the Articles of Association of the Cooperative.		
Support Association or SA	Legal entities not consolidated in the Cooperative Group that are established locally to raise awareness about the importance of development and socially responsible investments and to offer individuals, church congregations, parishes or other organisations an opportunity to invest in the Cooperative. Not all the Support Associations directly raise investment for the Cooperative, and they focus on raising general awareness of the Cooperative's work in developing countries, as well as wider development education.		

APPENDIX 1 LIST OF MEMBER STATES AND COMPETENT AUTHORITIES TO WHICH THE PROSPECTUS HAS BEEN NOTIFIED

Austria	Finanzmarktaufsicht
Belgium	Financial Services and Markets Authority
Finland	Finanssivalvonta
France	Autorité des Marchés Financiers
Germany	Bundesanstalt für Finanzdienstleistungsaufsicht
Italy	Commissione Nazionale per le Società e la Borsa
Luxembourg	Commission de Surveillance du Secteur Financier
Spain	Comisión Nacional del Mercado de Valores
Sweden	Finansinspektionen

APPENDIX 2 SELLING AND TRANSFER RESTRICTIONS

1. General

The distribution of this Prospectus may be restricted by law in certain jurisdictions and therefore persons into whose possession this Prospectus comes should inform themselves about and observe any restrictions. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdiction.

No action has been or will be taken in any jurisdiction (other than the Netherlands and the Member States listed in Appendix 1) that would permit a public offering of the Depository Receipts or the Shares, or possession or distribution of this Prospectus or any other offering material in any country or jurisdiction where action for that purpose is required. Accordingly, the Depository Receipts and the Shares may not be offered or sold, directly or indirectly, and neither this Prospectus nor any other offering material or advertisement in connection with the Depository Receipts and the Shares may be distributed or published in or from any country or jurisdiction except under circumstances that will result in compliance with any and all applicable rules and regulations of any such country or jurisdiction. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdiction. This Prospectus does not constitute an offer to subscribe for any of the Depository Receipts and the Shares offered hereby to any person in any jurisdiction to whom it is unlawful to make such offer or solicitation in such jurisdiction.

2. United States of America

The Shares or the Depository Receipts have not been and will not be registered under the United States Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States of America. The securities may not be offered, sold or delivered in the United States of America to or for the account of any US person (as defined in the United States Securities Act), except in accordance with all applicable securities laws of any state or territory of the United States of America and of any other jurisdiction. Each purchaser of the Shares or the Depository Receipts understands this restriction and understands that these Shares or the Depository Receipts may not be (re)offered, (re)sold, pledged or otherwise transferred except in accordance with all applicable securities laws of any state or territory of the United States of America and of any other jurisdiction.

3. Canada

The Shares or Depository Receipts may only be offered in those jurisdictions in Canada and to those persons where and to whom they may be lawfully offered for sale, and therein only by persons permitted to sell the Shares or the Depository Receipts. This Prospectus is not, and under no circumstances is to be construed as, an advertisement or public offering of the Shares or the Depository receipts in Canada. No securities commission in Canada has reviewed or in any way passed upon this Prospectus or the merit of the offering and any representations to the contrary is an offense.

4. European Economic Area

In relation to each member state of the European Economic Area (each, a "Relevant Member State") with effect from and including the date on which the Prospectus Regulation entered into force, an offer to the public of any Shares or Depository Receipts may not be made in that Relevant Member State prior to the publication of a prospectus in relation to the Shares or Depository Receipts which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State, and notified to

the competent authority in that Relevant Member State, all in accordance with the Prospectus Regulation, except that an offer to the public in that Relevant Member State of any Shares or Depositary Receipts may be made at any time under the following exemptions under the Prospectus Regulation, subject to obtaining prior consent from the Cooperative or OISF for such an offer:

- to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- to fewer than 150 natural or legal entities (other than qualified investors as defined in the Prospectus Regulation);
- or in any other circumstances falling within article 1 of this Prospectus Regulation, provided that no such offer of Shares or Depositary Receipts shall require the Cooperative or OISF to publish a prospectus pursuant to article 3 of the Prospectus Regulation or any measure implementing the Prospectus Regulation in a Relevant Member State or supplement a prospectus pursuant to article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression “offer to the public” in relation to any Shares or Depositary Receipts in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offering of the Shares or the Depositary Receipts and any Shares or Depositary Receipts to be offered so as to enable an investor to decide to purchase any Shares or Depositary Receipts, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Regulation in that Relevant Member State and the expression “Prospectus Regulation” means Regulation 2017/1129, and includes any relevant delegated regulation and implementing measure in each Relevant Member State.

5. United Kingdom

The Depositary Receipts are not available for sale to, or subscription by, prospective investors in the United Kingdom ("UK"). This Prospectus is not, and under no circumstances is it to be construed as, a financial promotion under section 21 of the Financial Services and Markets Act 2000 ("FSMA") or a public offering of the Depositary Receipts in the UK. The Prospectus has not been, and will not be approved by, the Financial Conduct Authority ("FCA") in the UK, nor by any person who is authorised by the FCA in the UK. Each purchaser of the Depositary Receipts acknowledges and understands this.

APPENDIX 3 TERMS AND CONDITIONS OISF

Terms and Conditions of Administration of Stichting Oikocredit International Share Foundation (Administratievoorwaarden)

These terms and conditions (as amended from time to time) apply to each of the Depository Receipts (as defined below) issued by OISF (as defined below). These terms and conditions also apply to any written proof of participation in Shares in the capital of the Cooperative (as defined below) issued by OISF prior to 1 July 2003.

1. DEFINITIONS APPLICABLE

In these terms and conditions, the following terms shall have the following meanings:

Articles	The articles of association of OISF as amended from time to time.
Cooperative	OIKOCREDIT, Ecumenical Development Cooperative Society U.A., a cooperative society with excluded liability organised (<i>coöperatie met uitsluiting van aansprakelijkheid</i>) under the laws of the Netherlands with its statutory seat in Amersfoort, the Netherlands.
Cooperative Board	The managing board (<i>bestuur</i>) of the Cooperative as duly appointed and constituted (<i>samengesteld</i>) from time to time according to its articles of association.
Depository Receipt(s)	The registered claims (<i>vorderingen op naam</i>) against OISF subject to the Terms and Conditions and representing the beneficial interest in a Share for which it has been issued by OISF; where the context so permits, Depository Receipt includes Fractions, issued by OISF for fractions of a Share.
Eligible Holders	The persons, entities or organisations, duly admitted as eligible holders according to article 4 of the Terms and Conditions and entitled to (<i>rechthebbenden op</i>) the Depository Receipts.
Fraction(s)	A fraction of a Depository Receipt which will be reported up to two decimal places.
Holder(s)	The persons, entities or organisations, duly admitted as Eligible Holders in accordance with the Terms and Conditions and entitled to (<i>rechthebbende op</i>) the Depository Receipts.
KYC	Know Your Customer, stands collectively for the requirements related to anti-money laundering (AML), anti-terrorist financing (ATF), and sanctions laws. To assess whether a person, entity or organisation fulfils the (legal) requirements of KYC, OISF will perform a "KYC risk assessment." The outcome of the "KYC risk assessment" intends to prevent OISF and the Cooperative being used to facilitate criminal activity, such as terrorist financing and money laundering.
Members	The organisations duly admitted as members of the Cooperative in accordance with its articles of association.

Membership Rights	The rights conferred upon the Members according to the articles of association of the Cooperative.
Member Share Issuance and Redemption Policy	The Cooperative's policy with regard to issuance and redemption requests regarding Shares, as amended from time to time.
MyOikocredit	An internet-based service which enables investors to self-manage their personal data and investments with OISF. The service consists of an online portal for the investor, and an interface to exchange data with the investor administration system.
Net Amount Received	The amount of money received from the relevant Holder in the bank account of OISF minus taxes to be paid, retained or withheld in respect thereof, if any.
Nominal Value	The nominal value of a Share as set out in the articles of association of the Cooperative.
OISF	Stichting Oikocredit International Share Foundation, a foundation (<i>stichting</i>) organised under the laws of the Netherlands with its statutory seat in Amersfoort, the Netherlands.
OISF Board	The board (<i>stichtingsbestuur</i>) of OISF as duly appointed and constituted (<i>samengesteld</i>) from time to time according to the Articles.
Privacy Statement	The privacy statement regarding the processing of personal data of the Holders, which can be found on the Subscription Form and through the websites and offices listed in Appendix 4 of the OISF Prospectus.
Redemption Price	The price at which OISF may repurchase a Depositary Receipt.
Relevant Currency	In respect of a Share or a Depositary Receipt, means the currency of the Nominal Value of such Share or the Depositary Receipt, in accordance with the articles of association of the Cooperative or the Terms and Conditions, respectively.
Share(s)	The Share(s) in the issued share capital of the Cooperative, regardless of their class or denomination; where the context so permits, Shares shall include fractions thereof.
Subscription Form	The application form for the purchase of Depositary Receipts which can be requested through the websites, MyOikocredit and offices listed in Appendix 4 of the OISF Prospectus. These websites and offices in countries where Depositary Receipts are offered are also listed in the country list on the website https://www.oikocredit.coop/invest/select-your-country .
Subscription Price	The price to be paid upon issuance of a Depositary Receipt.

2. FORM AND DENOMINATION

- 2.1. OISF will issue a Depositary Receipt for each Share that it holds for the purpose of administration (*ten titel van beheer*).
- 2.2. Depositary Receipts are denominated in Shares in the Relevant Currency and with the same Nominal Value as those Shares. Depositary Receipts will at all times be issued in registered form. No certificates will be issued for Depositary Receipts.

3. ISSUE AND DESCRIPTION

- 3.1. OISF may (but is not obligated to) issue Depositary Receipts upon request. Depositary Receipts may be issued only to Eligible Holders.
- 3.2. The applicable Subscription Price per Depositary Receipt follows the price of the underlying Shares.
- 3.3. The first request by a prospective Holder for the issuance of Depositary Receipts takes place by sending a fully completed OISF Subscription Form to OISF through offline or online channels. Any further request by a Holder for additional Depositary Receipts takes place in a manner determined by OISF. Any first request to issue Depositary Receipts must state the amount in euro (EUR) for which the request is made, subject always to a minimum amount corresponding to one Depositary Receipt (EUR 200 or the Nominal Value in any other currency in which Depositary Receipts are issued).
- 3.4. The Holder is entitled to cancel its request for obtaining Depositary Receipts only by using the right of withdrawal (*herroepingsrecht*) within fourteen (14) days after receipt of confirmation from OISF. Thereafter, a Holder may not cancel its request and should, if the Holder wishes so, request for redemption of its Depositary Receipts.
- 3.5. OISF will issue Depositary Receipts as soon as possible after (i) OISF has admitted the applicant as an Eligible Holder as set out in article 4 of these Terms and Conditions, (ii) OISF has received the total amount of the Subscription Price with regard to the number of Depositary Receipts in its bank account and (iii) the Cooperative has decided to issue Shares subject to the limitations of and in compliance with the articles of association of the Cooperative which are further elaborated in the Member Share Issuance and Redemption Policy.
- 3.6. The number of the Depositary Receipts to be issued will be equal to the Net Amount Received divided by the applicable Subscription Price per Depositary Receipt. If the outcome is different from the number of Depositary Receipts referred to in the request of the Holder, the request will be honoured for the Net Amount Received divided by the applicable Subscription Price per Depositary Receipt.
- 3.7. OISF will inform the Holder either in writing or through the MyOikocredit portal by an account statement each time Depositary Receipts are issued to the Holder. If a Holder does not object to the contents of an account statement within one month after it could have reasonably received it, the contents of the account statement will be deemed to have been approved by the Holder.

- 3.8. OISF may at all times issue Depository Receipts except to the extent that the Cooperative has revoked or suspended the issuance of Shares.

4. ELIGIBLE HOLDERS

- 4.1. Depository Receipts may only be issued to Eligible Holders. Eligible Holders are persons or organisations that:

- fully subscribe to the objectives of the Cooperative and can confirm so in writing upon request;
- fulfil the (legal) requirements of KYC; and
- are admitted as Eligible Holders by OISF at its discretion.

- 4.2. To decide whether a person or an organisation fulfils the (legal) requirements of KYC, OISF will perform a KYC risk assessment. For this purpose, OISF will collect, verify and keep records of personal data of potential Holders and will use this information to assess whether potential Holders can be accepted as Eligible Holders and/or retain their status as Eligible Holders. The performance of the KYC risk assessment prevents OISF and the Cooperative being used to facilitate criminal activity, such as terrorist financing and money laundering.

- 4.3. For the purposes of deciding whether a person or an organisation can be accepted as an Eligible Holder as set out in this article 4, certain personal data will be processed. For individuals, this includes a copy of the identification document (to verify the identity of the Holder), other personal details requested in the Subscription Form, as well as personal data relating to criminal convictions and offences.

For entities, in addition to identification documents of the representatives of the entity, official documents stating ownership structures, representation authority and extracts from relevant company registries will be processed.

The Privacy Statement provides further details on how, for which purposes and what kind of personal data will be processed by OISF and/or the Cooperative.

5. REGISTER

- 5.1. OISF will maintain a Register at its office, in which it will keep record of the Holders' names, telephone numbers, e-mail addresses, addresses and bank account numbers or other data required in the country where the Holder is resident, as well as the number and denomination of the Depository Receipts held by them.

- 5.2. Each Holder must notify OISF of its email and residential address, as well as its bank account details for the purpose of payments of dividend or other communications in relation to OISF and the Cooperative. Any change to the foregoing information should be made known to OISF as soon as possible, and within 30 days of the change. If a Holder has failed to notify any changes to the foregoing information, the consequences of not (timely) informing OISF will be for the account and risk of the Holder and OISF shall therefore not be liable for any damages to the Holder arising from the Holder's failure to notify OISF.

- 5.3. Each Holder may obtain an extract of the Register of only its own entry.

6. DIVIDENDS

- 6.1. OISF will pass all dividends or other distributions received by it with respect to the Shares administered by it on to the Holders in proportion to the number of Depository Receipts held by them, after deduction (i) of taxes, if any, which OISF must pay or withhold on the dividends or distributions and (ii) if applicable (see

article 12 below), of an administrative fee not exceeding 0.5% of average yearly Nominal Value of the Depository Receipts held by the respective Holders.

6.2. On the Subscription Form, the Eligible Holder can indicate how the dividend should be distributed. Each Holder is asked to indicate whether it wants the net dividends to be added to its Depository Receipts in the form of a stock dividend, to be paid to it in cash, or as a gift to the Stichting Oikocredit International Support Foundation. Holders may put a request to OISF in writing to change their dividend allocation for a specific year, e.g. 2020, until the 1st of June of the following year, e.g. 2021 in this case.

6.3. Dividends applicable on Depository Receipts issued in EUR, USD, CHF and SEK will be paid in cash only if they are equal to or above EUR 50, USD 50, CHF 50 or, SEK 500. Dividends below EUR 50, USD 50, CHF 50 or, SEK 500 will be automatically reinvested as stock dividend unless the full account balance has been redeemed in the previous calendar year in which case the dividend will be paid out in cash or, if so chosen, donated to the Stichting Oikocredit International Support Foundation. All dividends in CAD and GBP will be paid in cash or, if the Holder has so chosen, donated to the Stichting Oikocredit International Support Foundation.

OISF will pay any amount of dividends payable in cash to the bank account number notified by the relevant Holder. Payment of any amount to such bank account will release OISF from the liability for the amount of that payment.

6.4. The rights of a Holder against OISF in respect of dividends or any other distribution by virtue of the holding of Depository Receipts will lapse (*verjaren*) five years after the dividend or other distribution has become payable. In any event, all payments will lapse five years after full redemption of all Depository Receipts of the Holder (see article 9 below). OISF will divert any unclaimed amount to the Stichting Oikocredit International Support Foundation.

6.5. OISF is authorised to deposit the amounts referred to in this article for the purpose of payment with one or more reputable banks, for the account and risk of the interested Holder.

7. RELATIONS BETWEEN HOLDERS AND OISF; MEMBERSHIP RIGHTS OF OISF IN THE COOPERATIVE

7.1. Any person or organisation that has subscribed to or acquired Depository Receipts pursuant to these Terms and Conditions shall be deemed to have accepted the Terms and Conditions.

7.2. The Depository Receipts and all rights of Holders vis-à-vis OISF will also be governed by the provisions of the Articles, the Prospectus and the Subscription Form.

7.3. Depository Receipts do not give the Holders any right to vote in the Cooperative or OISF, and there will be no meetings of Holders.

7.4. If a Holder does not object to the contents of an account statement within one month after it could have reasonably received it, the contents of the account statement will be deemed to have been approved by the Holder.

7.5. OISF is a Member and shareholder of the Cooperative and will exercise all rights conferred to it by the Shares it administers in the interest of the Holders, such as the right to receive dividends (if any) and other distributions, including liquidation distributions, and will exercise the Membership Rights, such as the right to vote at the General Meeting of the Cooperative, without instructions from the Holders.

8. ENCUMBRANCE; JOINT OWNERSHIP; TRANSFERABILITY

- 8.1. Depository Receipts cannot be charged with a right of pledge, usufruct or any other right or encumbrance.
- 8.2. OISF at its discretion can decide upon the transferability of Depository Receipts. Holders may transfer their Depository Receipts only to other Holders. Transfer of Depository Receipts between Holders is free of charge by OISF and requires an agreement in writing and acknowledgement of the transfer on behalf of OISF.
- OISF will not recognise as valid transfers of Depository Receipts by Holders to non-Holders (that is, transfers to persons who are not admitted as Eligible Holders will be not recognised as valid transfers and OISF will continue to administer the Depository Receipts for the account of the original Holder.
- 8.3. If Depository Receipts are jointly held, the joint Holders must, on penalty of suspension of their rights, designate a person to act as the sole representative vis-à-vis OISF in writing and accordance with the requirements set by OISF. A designation may be revoked or amended by the joint Holders at any time in writing and accordance with the requirements set by OISF.

9. REDEMPTION

- 9.1. OISF may, always subject to its sole discretion, redeem (i.e. repurchase) Depository Receipts, but only as described in this paragraph 9.1.
- a. OISF may, at its discretion, redeem all (and not only some) of the Depository Receipts:
 - i. if it is dissolved and liquidated (*ontbonden en vereffend*); or
 - ii. if it enters into a legal merger (*juridische fusie*) or demerger (*splitsing*)
 - b. OISF may redeem all Depository Receipts held by a particular Holder if, in the opinion of OISF, the particular Holder ceases to comply with the criteria of an Eligible Holder, in which case the Holder must offer and transfer the Depository Receipts to OISF;
 - c. OISF may at its sole discretion and upon consideration of all facts and circumstances it deems relevant, redeem some or all of the Depository Receipts held by a particular Holder at the request of that Holder and acceptance thereof by OISF.
- 9.2. Any redemption as referred to in article 9.1 may only take place if the Cooperative has not stopped accepting redemptions – subject to the limitations of and in compliance with the articles of association of the Cooperative which are further elaborated in the Member Share Issuance and Redemption Policy. OISF will redeem a number of Shares equal to the number of Depository Receipts to be redeemed.
- 9.3. A Holder may request redemption by sending the fully completed redemption form through which a Holder can request OISF to repurchase Depository Receipts or in another manner determined by OISF. Any request for redemption must state the amount in EUR or other currency in which the Depository Receipts were issued for which redemption is requested. After submission of the redemption request, the Holder is not entitled to cancel the request.
- 9.4. The Redemption Price may be lower – but not higher – than the Subscription Price and will be based on the price at which the Cooperative is willing to repurchase the corresponding Shares. In any case, the Redemption Price will be lower than the Subscription Price if the intrinsic value of the Shares is less than the Subscription Price or if taxes must be paid or withheld in connection with the repurchase by the Cooperative of the corresponding Shares. From this price, an amount will be deducted for taxes to be paid, retained or withheld by OISF, if any, in respect of the redemption of Depository Receipts.

- 9.5. If Depository Receipts are redeemed while OISF is being dissolved and liquidated, the redemption proceeds will only be paid after OISF has received the proceeds from the Cooperative and after payment of all debts.
- 9.6. OISF shall confirm any redemption request which it has approved through an account statement which it will provide through MyOikocredit, email or paper mail, depending on the Holder's preferences. If a Holder does not object to the contents of an account statement within one month after it was provided to the Holder, the contents of the account statement will be deemed to have been approved by the Holder. OISF will remit the redemption proceeds as soon as reasonably possible to the bank account of the Holder.
- 9.7. If, after redemption of Depository Receipts, a Holder holds less than one Depository Receipt, that Holder must offer and transfer its remaining fractions of a Depository Receipt to OISF for redemption and the Holder ceases being a Holder.
- 9.8. Depository Receipts redeemed or purchased by OISF will be cancelled by operation of law by way of amalgamation (*vermenging*).

10. NO EXCHANGE

Depository Receipts are not exchangeable (*niet royeerbaar*) into Shares, neither at the request of any Holder nor at the discretion of the OISF Board.

11. ADMINISTRATION

The administration the issuance and redemption of the Depository Receipts for Shares as "*administratiekantoor*" in accordance with the Articles, these Terms and Conditions and all applicable regulations, including the financial administration, subscription and registration of Depository Receipt Holders, the processing of distributions to the Depository Receipt Holders, and all other matters related to or arising from the administration of Depository Receipts and related matters are carried out on behalf of OISF by the Cooperative pursuant to an administration and outsourcing agreement between OISF and the Cooperative (the "Administration and outsourcing Agreement").

12. COSTS; ADMINISTRATIVE FEE; TAXES; DONATIONS

12.1. OISF incurs entity costs consisting of:

- a) maintenance costs charged by the bank for OISF's bank account(s);
- b) registration costs charged by the chamber of commerce in the Netherlands as well as in other countries in which OISF is registered as an entity regarding the existence of OISF as an entity, changes in the OISF board composition and its legal representation; and
- c) costs directly in relation to a physical meeting of the board of OISF to be held once a year in the Netherlands.

Pursuant to the Administration and outsourcing Agreement, the Cooperative will bear the costs of the activities as referred to in article 11 as its own costs, to the extent that such costs are not charged to Holders and/or third parties.

12.2. OISF's income consists of interest received; and reimbursements received from the Cooperative.

12.3. If the income of OISF is not sufficient to cover any costs of OISF, an administrative fee may be charged to the Holders not exceeding 0.5% of average yearly Nominal Value of the Depository Receipts. This fee will be deducted by OISF from the dividend to be paid to the Holder(s) but will not lead to a negative amount.

- 12.4. OISF will not charge any fee to Holders for the issuance and redemption of Depository Receipts. However, a Holder's bank might charge a fee when an international payment is made into a Holders' bank account in respect of the payment of redeemed Depository Receipts and/or dividend.
OISF may withhold from the price paid by/to the Holder(s) an amount for taxes that OISF is obligated to retain or withhold in respect of any subscription or redemption of Depository Receipts.
- 12.5. Any bequests or donations made to OISF will be diverted to the Stichting Oikocredit International Support Foundation and will not be deemed income of OISF.

13. NOTICES

- 13.1. Notices to the Holders shall be given in writing to the addresses or email addresses of the Holders entered in the Register referred to in article 5.
- 13.2. Notices to OISF must be sent by mail or e-mail to the following address:

Stichting Oikocredit International Share Foundation
PO Box 2136
3800 CC Amersfoort
The Netherlands
oi.support@oikocredit.org

14. AMENDMENTS

The provisions of the Terms and Conditions may be amended by the OISF Board. In such case, OISF will publish the amended Terms and Conditions on its websites, which are accessible via www.oikocredit.coop/en/invest-in-oikocredit/select-your-country.

15. GOVERNING LAW JURISDICTION

- 15.1. The Terms and Conditions shall be governed exclusively by the laws of the Netherlands.
- 15.2. All disputes arising in connection with the Terms and Conditions, including disputes concerning the existence and validity thereof, shall be submitted to arbitration in accordance with the rules of the Netherlands Arbitration Institute at the discretion of OISF.
