1.2 Risk factors

There are certain risk factors which the prospective Noteholders should take into account. Despite certain credit enhancement features, there remains a credit risk, liquidity risk, prepayment risk, maturity risk and interest rate risk relating to the Notes. Moreover, there are certain structural and legal risks relating to the Mortgage Receivables (see section 2 (*Risk factors*)).

The interest will be calculated on the basis of the actual number of calendar days elapsed in an Interest Period divided by 360 calendar days.

Interest on the Notes for the first Interest Period will accrue from (and include) the Closing Date at an annual rate equal to the linear interpolation between the EURIBOR for two-months deposits in euro and the EURIBOR for three-months deposits in euro (determined in accordance with Condition 4 (*Interest*)) plus a margin per annum which will be 0.30 per cent. for the Class A1 Notes, 0.53 per cent. for the Class A2 Notes, 2.00 per cent. for the Class B Notes, 3.00 per cent. for the Class C Notes, 4.00 per cent. for the Class D Notes and 6.00 per cent. for the Class E Notes.

Prior to the delivery of an Enforcement Notice, payment of principal on the Class E Notes will be made subject to and in accordance with the Conditions, on each Notes Payment Date to the extent Available Revenue Funds are available in accordance with the Revenue Priority of Payments.

Optional Redemption of the Notes

The Issuer will have the option to redeem, subject to Condition 9(b) (*Principal*), all (but not only part of) the Notes (other than the Class E Notes) on the First Optional Redemption Date and on each Optional Redemption Date thereafter at their Principal Amount Outstanding plus accrued but unpaid interest thereon, after payment of the amounts to be paid in priority to such Notes.

Redemption following clean-up call

On the Notes Payment Date following the exercise by the Seller of the Clean-Up Call Option, the Issuer shall redeem, subject to Condition 9(b) (*Principal*), all (but not only part of) the Notes (other than the Class E Notes) at their Principal Amount Outstanding plus accrued but unpaid interest thereon, after payment of the amounts to be paid in priority to such Notes.

Redemption for tax reasons

In the event of certain tax changes affecting any Class of Notes, including in the event that the Issuer is or will be obliged to make any withholding or deduction from payments in respect of any Class of Notes the Issuer (whilst not under any obligation to pay additional amounts in respect of any withholding or deduction) may (but is not obliged to) redeem all (but not only part of) the Notes (other than the Class E Notes) at their Principal Amount Outstanding together with accrued but unpaid interest thereon up to and including the date of redemption, subject to and in accordance with the Conditions, including, without limitation, Condition 9(b) (*Principal*).

Withholding tax

All payments of, or in respect of, principal and interest on the Notes will be made without withholding of, or deduction for any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless

the withholding or deduction of such taxes, duties, assessments or charges are required by law. In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not be obliged to pay any additional amounts to such Noteholders.

Use of proceeds The Issuer will apply the net proceeds from the issue of the Notes (other than the Class E Notes) towards payment of part of the Initial Purchase Price for the Mortgage Receivables purchased by the Issuer on the Closing Date pursuant to the provisions of the Mortgage Receivables Purchase Agreement. See section 7.1 (*Purchase, repurchase and sale*).

The proceeds from the issue of the Class E Notes will be used to fund the Reserve Account.

Security for the Notes The Noteholders will benefit from the security created by the Issuer in favour of the Security Trustee pursuant to the Pledge Agreements.

Under the Trust Deed, the Issuer will undertake to pay to the Security Trustee, under the same terms and conditions, an amount equal to the aggregate of all its undertakings, liabilities and obligations to the Managers as initial Noteholders, the Directors, the Servicer, the Issuer Administrator, the Paying Agents, the Reference Agent, the Participants, the Cash Advance Facility Provider, the Swap Counterparty, the Back-Up Swap Counterparty, the Noteholders and the Seller pursuant to the relevant Transaction Documents, provided that every payment in respect of such Transaction Documents for the account of or made to the Secured Creditors directly shall operate in satisfaction *pro tanto* of the corresponding covenant in favour of the Security Trustee (such a payment undertaking and the obligations and liabilities resulting from it being referred to as the Parallel Debt).

The Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking pledge granted by the Issuer to the Security Trustee over the Mortgage Receivables, including all rights ancillary thereto in respect of the Mortgage Loans and the Beneficiary Rights relating thereto, (ii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the Swap Agreement, the Conditional Deed of Novation, the Servicing Agreement, the Issuer Account Agreement, the Cash Advance Facility Agreement, the Participation Agreements, the Beneficiary Waiver Agreement, the Commingling Guarantee, the Construction Deposits Guarantee and (iii) a first ranking pledge granted by the Issuer to the Security Trustee over the Issuer's claims in respect of the Issuer Accounts. See for a more detailed description section 4.7 (*Security*).

The amounts payable by the Security Trustee to the Secured Creditors under the Trust Deed will be limited to the net amounts available for such purpose to

the Security Trustee which, for the greater part, will consist of amounts recovered by the Security Trustee from the Mortgage Receivables. Payments to the Secured Creditors (other than the Participants) will be made in accordance with the Post-Enforcement Priority of Payments.

Listing Application has been made to list the Notes on Euronext Amsterdam. Listing is expected to take place on or about 26 June 2014.

The identifier "sf" stands for "structured finance". The addition of the identifier (sf) indicates only that the instrument is deemed to meet the regulatory definition of "structured finance" as referred to in the CRA Regulation. In no way does it modify the meaning of the rating itself.

Seller (or the Servicer on its behalf) in accordance with the Servicing Agreement.

Reserve Account	The Issuer shall maintain with the Issuer Account Bank the Reserve Account to which the proceeds of the Class E Notes will be credited on the Closing Date. The purpose of the Reserve Account will be to enable the Issuer to meet the Issuer's payment obligations under items (a) up to and including (n) of the Revenue Priority of Payments in the event of a shortfall of the Available Revenue Funds (excluding any amount to be drawn from the Reserve Account and any amount to be drawn under the Cash Advance Facility or forming part of the Cash Advance Facility Stand-by Drawing) on any Notes Payment Date. See <i>Reserve Account</i> in section 5.6 (<i>Transaction Accounts</i>).

See section 5.4 (<i>Hedging</i>). If, <i>inter alia</i> , the Swap Counterparty fails to make, when

due, any payment to the Issuer under the Swap Agreement or is declared bankrupt (*failliet*), the Swap Agreement shall be novated to the Back-Up Swap Counterparty pursuant to the Conditional Deed of Novation.

1.6 Portfolio information

Mortgage Loans The Mortgage Receivables to be sold by the Seller pursuant to the Mortgage Receivables Purchase Agreement will result from Mortgage Loans which (a) in respect of NHG Mortgage Loan Parts have the benefit of an NHG Guarantee and (b) are secured by a first ranking Mortgage or, in case of Mortgage Loans (for the avoidance of doubt including any Further Advance, as the case may be) secured on the same Mortgaged Asset, first (1st) and sequentially lower ranking Mortgages over (i) real estate (*onroerende zaak*), (ii) an apartment right (*appartementsrecht*), or (iii) a long lease (*recht van erfpacht*) situated in the Netherlands and entered into by the Seller and the Borrowers which meet the criteria for such Mortgage Loans set forth in the Mortgage Receivables Purchase Agreement. The Mortgage Loans, in whole or in part, will consist of (i) Linear Mortgage Loans (*lineaire hypotheken*), (ii) Interest-only Mortgage Loans (*aflossingsvrije hypotheken*), (iii) Annuity Mortgage Loans (*annuïteitenhypotheken*), (iv) Life Mortgage Loans (*levenhypotheken*), (v) Investment Mortgage Loans (*beleggingshypotheken*), (vi) Savings Mortgage Loans (*spaarhypotheken*), (vii) Switch Mortgage Loans (*switchhypotheken*) or (viii) Bank Savings Mortgage Loans (*bankspaarhypotheken*). See further section 6.2 (*Description of Mortgage Loans*).

Each Mortgage Loan shall have the benefit of a Risk Insurance Policy (i.e. an insurance policy which pays out upon the death of the insured) taken out by the Borrower with an Insurance Company in the event and to the extent the relevant Mortgage Loan exceeds 100 per cent. of the Foreclosure Value of the relevant Mortgaged Asset, except in the event of NHG Mortgage Loan Parts which do not include a Life Mortgage Loan, Savings Mortgage Loan or Switch Mortgage Loan which will have the benefit of a separate Risk Insurance Policy in the event and to the extent the relevant Mortgage Loan exceeds eighty (80) per cent. of the Foreclosure Value of the relevant Mortgaged Asset. In the case of Mortgage Loans consisting of more than one Loan Part including a Life Mortgage Loan, Savings Mortgage Loan or Switch Mortgage Loan such Risk Insurance Policy will be included in the relevant Life Insurance Policy, Savings Insurance Policy or Savings Investment Insurance Policy.

NHG Mortgage Loan Parts A portion of the Mortgage Loans consists of one or more Loan Parts which have the benefit of an NHG Guarantee. See further *Table 26* under section 6.1 (*Stratification tables*) and under section 6.5 (*NHG Guarantee programme*).

Linear Mortgage Loans A portion of the Mortgage Loans or parts thereof will be in the form of Linear Mortgage Loans. Under a Linear Mortgage Loan the Borrower pays a fixed

amount of principal each month towards redemption of the relevant Mortgage Loan (or relevant part thereof) until maturity. Interest is payable monthly and is calculated on the outstanding balance of the Mortgage Loan (or relevant part thereof).

**Interest-only
Mortgage Loans**

A portion of the Mortgage Loans or parts thereof will be in the form of Interest-only Mortgage Loans. Under an Interest-only Mortgage Loan, the Borrower is not obliged to pay principal towards redemption of the relevant Mortgage Loan (or relevant part thereof) until maturity. Interest is payable monthly and is calculated on the outstanding balance of the Mortgage Loan (or relevant part thereof).

**Annuity
Mortgage Loans**

A portion of the Mortgage Loans or parts thereof will be in the form of Annuity Mortgage Loans. Under an Annuity Mortgage Loan, the Borrower pays a fixed monthly instalment, made up of an initially high and thereafter decreasing interest portion and an initially low and thereafter increasing principal portion, and calculated in such manner that the Annuity Mortgage Loan will be fully redeemed at maturity.

**Life Mortgage
Loans**

A portion of the Mortgage Loans or parts thereof will be in the form of Life Mortgage Loans, i.e. mortgage loans which have the benefit of a Life Insurance Policy. Under a Life Mortgage Loan, no principal is paid until maturity but instead the Borrower pays a premium to the relevant Insurance Company on a monthly basis. The premiums paid by such Borrower are invested by the relevant Insurance Company in certain investment funds. It is the intention that a Life Mortgage Loan will be fully repaid by means of the proceeds of the relevant Life Insurance Policy. The Life Insurance Policies are pledged to the Seller. See for more detail sections 2 (*Risk factors*) and 6.2 (*Description of Mortgage Loans*).

**Investment
Mortgage Loans**

A portion of the Mortgage Loans or parts thereof will be in the form of Investment Mortgage Loans, i.e. mortgage loans under which the Borrower does not pay principal prior to the maturity of the mortgage loan, but instead undertakes to invest, on an instalment basis or up front, defined amounts in certain investment funds. The amounts invested take the form of participations in the investment funds selected by the Borrower and are credited to a Borrower Investment Account in the name of the relevant Borrower. It is the intention that an Investment Mortgage Loan will be fully repaid with the proceeds of the investments held in the relevant Borrower Investment Account. The Borrower Investment Accounts are pledged to the Seller. See for more detail sections 2 (*Risk factors*) and 6.2 (*Description of Mortgage Loans*).

**Savings
Mortgage Loans**

A portion of the Mortgage Loans or parts thereof will be in the form of Savings Mortgage Loans which consist of mortgage loans entered into by the Seller and the relevant Borrowers combined with a Savings Insurance Policy. A Savings Insurance Policy consists of a combined risk and capital insurance policy taken out by a Borrower with ASR Levensverzekering N.V. or Interpolis in connection

with the relevant Savings Mortgage Loan. Under a Savings Mortgage Loan no principal is paid by the Borrower prior to the maturity of the loan. Instead, the Borrower pays a Savings Premium. The Savings Premium is calculated in such a manner that, on an annuity basis, the proceeds of the Savings Insurance Policy due by the relevant Savings Insurance Company to the relevant Borrower will be equal to the amount due by the Borrower to the Seller at maturity of the Savings Mortgage Loan. It is the intention that the Savings Mortgage Loans will be fully repaid by means of the proceeds of the Savings Insurance Policies. The Savings Insurance Policies are pledged to the Seller. See for more detail sections 2 (*Risk factors*) and 6.2 (*Description of Mortgage Loans*).

In respect of the Savings Mortgage Loans to which a Savings Insurance Policy of ASR Levensverzekering N.V. is connected, ASR Levensverzekering N.V. will, as Insurance Savings Participant, agree to use the amount of the Savings Premiums scheduled to be received by it (and the interest received on the Participation) to acquire a Participation in the relevant Savings Mortgage Receivables.

In respect of the Savings Mortgage Loans to which a Savings Insurance Policy of Interpolis is connected, Obvion will, as Insurance Savings Participant, agree to use an amount equal to the amount of the Savings Premiums scheduled to be received by Interpolis (and the interest received on the Participation) to acquire a Participation in the relevant Savings Mortgage Receivables.

Switch Mortgage Loans

A portion of the Mortgage Loans or parts thereof will be in the form of Switch Mortgage Loans which are offered by the Seller under the name of Obvion Switchhypotheek. Under a Switch Mortgage Loan the Borrower does not pay principal prior to maturity of the Mortgage Loan, but instead takes out a Savings Investment Insurance Policy with Interpolis whereby part of the premiums paid is invested in certain Switch Investment Funds and/or deposited into a Switch Savings Account. The Borrowers may at any time switch (*omzetten*) their investments among the Switch Investment Funds and to and from the Switch Savings Account. It is the intention that the Switch Mortgage Loans will be fully repaid by means of the proceeds of the Savings Investment Insurance Policies. The Savings Investment Insurance Policies are pledged to the Seller. See for more detail sections 2 (*Risk factors*) and 6.2 (*Description of Mortgage Loans*).

Obvion will, as Insurance Savings Participant, agree to use an amount equal to the amount of the Savings Premiums scheduled to be received by Interpolis (and the interest received on the Participation) to acquire a Participation in the Switch Mortgage Receivables.

Bank Savings Mortgage Loans

A portion of the Mortgage Loans or parts thereof will be in the form of Bank Savings Mortgage Loans which consist of mortgage loans entered into by the Seller and the relevant Borrowers combined with a Bank Savings Account held

by such Borrowers with the Bank Savings Account Bank. Under a Bank Savings Mortgage Loan no principal is paid by the Borrower prior to the maturity of the loan. Instead, the Borrower on a monthly basis pays a Bank Savings Deposit. The Bank Savings Deposit is calculated in such a manner that, on an annuity basis, the balance standing to the credit of the Bank Savings Account at maturity of the associated Bank Savings Mortgage Loan will be equal to the amount due by the Borrower to the Seller at maturity of such Bank Savings Mortgage Loan. It is the intention that the Bank Savings Mortgage Loans will be fully repaid by the balance standing to the credit of the Bank Savings Accounts. The Bank Savings Accounts are pledged to the Seller and subsequently re-pledged to the Bank Savings Account Bank. See for more detail sections 2 (*Risk factors*) and 6.2 (*Description of Mortgage Loans*).

Obvion will, as Bank Savings Participant, agree to use an amount equal to the amount of the Bank Savings Deposits scheduled to be received by the Bank Savings Account Bank (and the interest received on the Participation) to acquire a Participation in the Bank Savings Mortgage Receivables. See for more detail section 7.6 (*Sub-participation*).

1.7 Portfolio documentation

Mortgage Receivables

Under the Mortgage Receivables Purchase Agreement, the Issuer will purchase and accept the assignment of any and all Mortgage Receivables, which will include any Further Advance Receivables and any New Mortgage Receivables and, for the avoidance of doubt, including any parts thereof corresponding with amounts placed on Construction Deposits of the Seller against certain Borrowers under or in connection with certain selected Mortgage Loans (which may consist of one or more Loan Parts) originated by the Seller and that are secured by a Mortgage.

The Seller has the benefit of Beneficiary Rights which entitles the Seller to receive final payment under the relevant Insurance Policies, which payment is to be applied towards redemption of the Mortgage Receivables. Under the Mortgage Receivables Purchase Agreement, the Seller will assign such Beneficiary Rights to the Issuer and the Issuer will accept such assignment.

Further Advances

A portion of the Mortgage Receivables is secured by Mortgages that will also secure any Further Advances to be granted by the Seller to the relevant Borrower whereby Further Advances include: (a) further advances made under a Mortgage Loan which will be secured by the same Mortgage as the loan previously disbursed under such Mortgage Loan (*verhoogde inschrijving*), (b) further advances made under a Mortgage Loan which will be secured by a second or sequentially lower ranking Mortgage as the loan previously disbursed under such Mortgage Loan (*verhoging*) and (c) withdrawals of monies which were previously repaid to redeem the Mortgage Loan (*heropname*). The

Mortgage Receivables Purchase Agreement provides that as from the Closing Date up to and including the Notes Payment Date immediately preceding the First Optional Redemption Date, if, subject to the Mortgage Conditions the Seller has agreed with a Borrower to grant a Further Advance, the Issuer will purchase and accept assignment of the Further Advance Receivables and the Beneficiary Rights relating thereto on the next succeeding Notes Payment Date provided, however, that the Further Advance Criteria are met (as described under section 7.1 (*Purchase, repurchase and sale*)) and the Issuer has sufficient funds available for payment of the Initial Purchase Price for the Further Advance Receivables.

The Issuer will, subject to and in accordance with the Conditions and subject to the applicable Priority of Payments, apply the Available Principal Funds or part thereof towards payment of the Initial Purchase Price for the Further Advance Receivables.

When a Further Advance is granted to the relevant Borrower and the Issuer purchases and accepts assignment of the relevant Further Advance Receivable and the Beneficiary Rights relating thereto, the Issuer will at the same time create a first right of pledge on such Further Advance Receivable and the Beneficiary Rights relating thereto in favour of the Security Trustee.

If, *inter alia*, (a) the Further Advance Receivables do not meet the Further Advance Criteria or (b) the Issuer does not have sufficient funds available for payment of the purchase price for the Further Advance Receivables, the Seller shall repurchase and accept the re-assignment of the Mortgage Receivables resulting from the Mortgage Loan in respect of which a Further Advance is granted and the Beneficiary Rights relating thereto.

New Mortgage Receivables

The Mortgage Receivables Purchase Agreement provides that, if any of the representations and warranties relating to the Mortgage Loans and the Mortgage Receivables proves to have been untrue or incorrect, the Seller shall, if such matter is not capable of being remedied or is not remedied in accordance with the terms of the Mortgage Receivables Purchase Agreement, at the Seller's expense, repurchase and accept re-assignment of the relevant Mortgage Receivable. The Issuer will on the Notes Payment Date immediately following the date of repurchase apply the Available Principal Funds up to the Replacement Available Amount to purchase and accept assignment from the Seller any New Mortgage Receivables and the Beneficiary Rights relating thereto, subject to the fulfilment of certain conditions and to the extent offered by the Seller. Such conditions include, *inter alia*, the requirement that any New Mortgage Receivables should meet the Mortgage Loan Criteria set forth in the Mortgage Receivables Purchase Agreement. See section 7.1 (*Purchase, repurchase and sale*)).

When the Issuer purchases and accepts assignment of the relevant New Mortgage Receivable and Beneficiary Rights relating thereto, the Issuer will at the same time create a first right of pledge on such New Mortgage Receivable and the Beneficiary Rights relating thereto in favour of the Security Trustee.

**Mandatory
repurchase of
Mortgage
Receivables**

In the Mortgage Receivables Purchase Agreement the Seller has undertaken to repurchase and accept re-assignment of a Mortgage Receivable sold by it to the Issuer:

- (a) on the Notes Payment Date immediately following the expiration of the relevant remedy period (if any), if any of the representations and warranties given by the Seller in respect of the relevant Mortgage Loan and/or the relevant Mortgage Receivable, including the representation and warranty that the Mortgage Loan or, as the case may be, the Mortgage Receivable meets the Mortgage Loan Criteria, are untrue or incorrect;
- (b) on the Notes Payment Date immediately following the date on which the Seller agrees with a Borrower under and in respect of such Mortgage Receivable to grant a Further Advance under the relevant Mortgage Loan, *inter alia*, if and to the extent that the Further Advance Receivables do not meet the Further Advance Criteria;
- (c) on the Notes Payment Date immediately following the date on which a modification of the terms of a Savings Mortgage Loan or a Bank Savings Mortgage Loan into any other form of mortgage loan becomes effective;
- (d) on the Notes Payment Date immediately following the date on which an amendment of the terms of the relevant Mortgage Loan becomes effective as a result of which such Mortgage Loan no longer meets certain criteria set forth in the Mortgage Receivables Purchase Agreement and/or the Servicing Agreement, unless such amendment is made as part of the enforcement procedures to be complied with upon a default by the Borrower under the relevant Mortgage Loan or is otherwise made as part of a restructuring or renegotiation of the relevant Mortgage Loan due to a deterioration of the credit quality of the Borrower of such Mortgage Loan;
- (e) on the Notes Payment Date immediately following the date on which subject to the terms of a Switch Mortgage Loan, a switch by a Borrower of whole or part of the premiums deposited into the Switch Savings Account into an investment in one (1) or more Switch Investment Funds becomes effective;

- (f) on the Notes Payment Date immediately following the date on which the Seller becomes aware that an NHG Mortgage Loan Part forming part of the relevant Mortgage Loan no longer has the benefit of an NHG Guarantee for the full amount of such NHG Mortgage Loan Part as adjusted in accordance with the NHG Conditions as a result of an action taken or omitted to be taken by the Seller or the Servicer; and
- (g) on the Notes Payment Date immediately following the date on which the Seller has notified the Issuer that, while it is entitled to make a claim under the NHG Guarantee, it will not make such claim.

The purchase price will be calculated as described in *Purchase price* section 7.1 (*Purchase, repurchase and sale*).

**Optional
Repurchase of
Mortgage
Receivables**

In addition, the Seller may (without the obligation to do so) repurchase and accept re-assignment of all (but not only part of) the Mortgage Receivables on any Notes Payment Date on which the aggregate Principal Amount Outstanding of the Notes (in case of a Principal Shortfall in respect of any Class of Notes, *less* such aggregate Principal Shortfall) is not more than ten (10) per cent. of the aggregate Principal Amount Outstanding of the Notes on the Closing Date. The purchase price will be calculated as described in section 7.1 (*Purchase, repurchase and sale*).

**Participation
Agreements**

The Issuer will enter into an Insurance Savings Participation Agreement with each of the Insurance Savings Participants under which each of the Insurance Savings Participants will acquire participations in the relevant Savings Mortgage Receivables and Obvion as Insurance Savings Participant will acquire participations in the Switch Mortgage Receivables if and to the extent the Borrowers invest part of the premiums paid on the relating Savings Investment Insurance Policy by making a deposit into the Switch Savings Account (see further *Savings Mortgage Loans and Switch Mortgage Loans* in section 2 (*Risk factors*)). In each of the Insurance Savings Participation Agreements the relevant Insurance Savings Participant will undertake to pay to the Issuer on each Mortgage Collection Payment Date an amount equal to the sum of all amounts scheduled to be received as Savings Premiums on the relevant Savings Insurance Policies or the relevant Savings Investment Insurance Policies, as well as the Switched Savings Participations.

In return, the Insurance Savings Participants are entitled to receive the Insurance Savings Participation Redemption Available Amount from the Issuer. The amount of the Participation with respect to a Savings Mortgage Receivable and a Switch Mortgage Receivable consists of (a) the initial participation at the Closing Date, or, in case of the purchase of a Further Advance Receivable or a New Mortgage Receivable to which a Savings Insurance Policy or Savings

Investment Insurance Policy is connected, on the relevant Notes Payment Date, which is equal to the sum of all amounts scheduled to be received up to such date by the relevant Insurance Company as Savings Premiums in respect of such Mortgage Receivables and accrued interest and (b) increased on a monthly basis with an amount equal to the sum of (i) the Savings Premiums scheduled to be received from the relevant Borrowers and paid by the relevant Insurance Savings Participant to the Issuer plus, in case of a Savings Investment Insurance Policy, the Switched Savings Participation, if any, and (ii) a *pro rata* part, corresponding to the Insurance Savings Participation in the relevant Savings Mortgage Receivable or Switch Mortgage Receivable, of the interest due by the Borrower in respect of such Savings Mortgage Receivable or Switch Mortgage Receivable. The aggregate Initial Insurance Savings Participations with respect to the Savings Mortgage Receivables and Switch Mortgage Receivables purchased by the Issuer on the Closing Date amounts to EUR 12,198,247.51. See further section 7.6 (*Sub-participation*).

Furthermore, the Issuer will enter into a Bank Savings Participation Agreement with the Bank Savings Participant under which the Bank Savings Participant will acquire participations in the Bank Savings Mortgage Receivables (see further *Bank Savings Mortgage Loans* in section 2 (*Risk factors*)). In the Bank Savings Participation Agreement, the Bank Savings Participant will undertake to pay to the Issuer on each Mortgage Collection Payment Date an amount equal to the sum of all amounts scheduled to be received by the Bank Savings Account Bank as Bank Savings Deposits.

In return, the Bank Savings Participant is entitled to receive the Bank Savings Participation Redemption Available Amount from the Issuer. The amount of the Bank Savings Participation with respect to a Bank Savings Mortgage Receivable consists of (a) the initial participation at the Closing Date, or, in case of the purchase of a Further Advance Receivable or a New Mortgage Receivable to which a Bank Savings Accounts is connected, on the relevant Notes Payment Date, which is equal to the sum of all amounts scheduled to be received up to such date by the Bank Savings Account Bank as Bank Savings Deposits in respect of such Mortgage Receivables and accrued interest, (b) increased on a monthly basis with an amount equal to the sum of (i) the Bank Savings Deposits scheduled to be received from the relevant Borrowers and paid by the Bank Savings Participant to the Issuer and (ii) a *pro rata* part, corresponding to the Bank Savings Participation in the relevant Bank Savings Mortgage Receivable, of the interest due by the Borrower in respect of such Bank Savings Mortgage Receivable. The aggregate Initial Bank Savings Participations with respect to the Bank Savings Mortgage Receivables purchased by the Issuer on the Closing Date amounts to EUR 7,297,661.14. See further section 7.6 (*Sub-participation*).

Construction

Pursuant to the Mortgage Conditions, in respect of certain Mortgage Loans, the Borrower has the right to request that part of the Mortgage Loan will be applied

Deposits

towards construction of, or improvements to, the relevant Mortgaged Asset. In that case the Borrower has placed part of the monies drawn down under the Mortgage Loan on deposit with the Seller, and the Seller has committed to pay out such deposits to or on behalf of the relevant Borrowers in order to enable them to pay for construction of, or improvements to, the relevant Mortgaged Asset, provided certain conditions are met (such mortgages are called construction mortgages (*bouwhypotheeken*)). The aggregate amount of the Construction Deposits as at the Cut-Off Date is EUR 1,072,084.95.

Pursuant to the NHG Conditions, a Construction Deposit has to be paid out after the building activities or renovation activities have been finalised. If the remaining Construction Deposit exceeds EUR 2,500 such Construction Deposit will be set-off against the Mortgage Receivable up to the amount of the Construction Deposit, in which case the Seller will pay the amount of the relevant Construction Deposit to the Issuer to form part of the Available Principal Funds on the next succeeding Notes Payment Date. Pursuant to the NHG Conditions, if the remaining Construction Deposit is less than EUR 2,500, the Seller has the right to pay out the remaining amount to the relevant Borrower.

If following the occurrence of an Assignment Notification Event a Borrower invokes a right of set-off of the amount due under the Mortgage Loan with the outstanding amount payable to it under or in connection with the Construction Deposit, the Issuer shall be entitled to invoke the Construction Deposits Guarantee in which case Rabobank in its capacity as Construction Deposits Guarantor shall promptly pay to the Issuer an amount equal to the outstanding payment obligations of the Seller to the Borrower with respect to the relevant Construction Deposits (if any) in relation to which the Borrower has claimed such right of set-off.

Sale of Mortgage Receivables

On any Optional Redemption Date and on any Notes Payment Date following the exercise by it of the Tax Call Option, the Issuer has the right to sell and assign all (but not only part of) the Mortgage Receivables to any party, provided that the Seller has a pre-emption right pursuant to which the Issuer shall first offer the Seller to buy and repurchase the Mortgage Receivables and that the Issuer will be entitled to sell and assign the Mortgage Receivables to any third party if the Seller does not inform the Issuer within a period of fifteen (15) Business Days from the date the offer was notified to the Seller of its intention to buy and repurchase the Mortgage Receivables. The Issuer shall be required to apply the proceeds of such sale, to the extent relating to principal, towards redemption of the Notes, other than the Class E Notes.

The purchase price will be calculated as described in section 7.1 (Purchase, repurchase and sale).

Servicing

Under the Servicing Agreement the Servicer will agree to provide administration

Agreement and management services in relation to the Mortgage Loans on a day-to-day basis, including, without limitation, the collection of payments of principal, interest and all other amounts in respect of the Mortgage Loans and the implementation of arrears procedures including, if applicable, the enforcement of Mortgages (see further sections 6.3 (*Origination and servicing by Originator*) and 7.5 (*Servicing Agreement*)). The Servicer has appointed Stater Nederland B.V. as its sub-mpt provider under the terms of the Servicing Agreement.

1.8 General

Administration Agreement Under the Administration Agreement the Issuer Administrator will agree to provide certain administration, calculation and cash management services for the Issuer on a day-to-day basis, including without limitation, all calculations to be made in respect of the Notes pursuant to the Conditions (see further section 5.7 (*Administration Agreement*)).

Management Agreements The Issuer, the Shareholder and the Security Trustee will each enter into Management Agreements with the relevant Director in which the relevant Director will undertake to act as a director of the Issuer, the Shareholder and the Security Trustee, respectively, and to perform certain services in connection therewith.

Secured Creditors Agreement Under the Secured Creditors Agreement each Secured Creditor agrees and confirms that the security provided pursuant to the provisions of the Pledge Agreements shall, indirectly, through the Security Trustee, be for the exclusive benefit of the Secured Creditors (including for the avoidance of doubt, the Noteholders). Under the Secured Creditors Agreement each Secured Creditor moreover agrees to be bound by the relevant terms and provisions of the Trust Deed including, but not limited to, the limited recourse and non-petition provisions contained therein.

Governing Law The Transaction Documents (which also include the Notes), other than the Swap Agreement, and any non-contractual obligations arising out of or in relation to the Transaction Documents other than the Swap Agreement, will be governed by and construed in accordance with Dutch law. The Swap Agreement and any non-contractual obligations arising out of or in relation to the Swap Agreement, will be governed by and construed in accordance with English law.

2 RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

The Issuer believes that the factors described below represent the material risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Additional risks or uncertainties not presently known to the Issuer or that the Issuer currently considers not material may also have an adverse effect on the Issuer's ability to pay interest, principal or other amounts on or in connection with the Notes. Prospective investors should read the information contained herein in conjunction with the detailed information set out elsewhere in this Prospectus and should reach their own views prior to making any investment decision. Before making an investment decision with respect to any Notes, prospective investors should consult their own stockbroker, bank manager, lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

RISKS RELATED TO THE NOTES

Liabilities under the Notes and limited recourse

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, acting in whatever capacity, including, without limitation, the Seller, the Servicer, the Issuer Administrator, the Arranger, the Managers, the Participants, the Issuer Account Bank, the Cash Advance Facility Provider, the Swap Counterparty, the Back-Up Swap Counterparty, the Paying Agents, the Reference Agent, the Construction Deposit Guarantor, the Commingling Guarantor, the Directors or the Security Trustee, provided that following delivery of an Enforcement Notice any amounts received or recovered by the Security Trustee under the Pledge Agreements will be distributed by the Security Trustee to, *inter alios*, the Noteholders subject to and in accordance with the Post-Enforcement Priority of Payments. Furthermore, none of the Seller, the Servicer, the Issuer Administrator, the Arranger, the Managers, the Participants, the Issuer Account Bank, the Cash Advance Facility Provider, the Swap Counterparty, the Back-Up Swap Counterparty, the Paying Agents, the Reference Agent, the Construction Deposit Guarantor, the Commingling Guarantor or the Directors or any other person, acting in whatever capacity, other than the Security Trustee in respect of limited obligations under the Trust Deed, will accept any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes.

The ability of the Issuer to meet its obligations to repay in full all principal of and to pay all interest on the Notes will be dependent on the receipt by it of funds under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables, payments under the Swap Agreement and the Participation Agreements, interest in respect of the balances standing to the credit of the Issuer Accounts, the availability of the Reserve Account and the amounts to be drawn under the Cash Advance Facility. See section 5 (*Credit structure*). The Issuer does not have other resources available. There can be no assurance that the Issuer will have sufficient funds to fulfil its payment obligations under the Notes.

In particular, the Issuer is subject to the risk of default in payment by the Borrowers and the failure by the Servicer to realise or recover sufficient funds under the arrears and default procedures in respect of the relevant Mortgage Receivables in order to discharge all amounts due and owing by the relevant Borrowers under the relevant Mortgage Receivables. This risk may affect the Issuer's ability to make payments on the Notes, but is mitigated to some extent by certain credit enhancement features which are described in section 5 (*Credit structure*). There is no assurance that these measures will protect the Noteholders of any Class against all risks of losses.

The obligations of the Issuer under the Notes are limited recourse obligations. Payment of principal and interest on the Notes will be secured indirectly by the security granted by the Issuer to the Security Trustee pursuant to the Pledge Agreements. If the security granted pursuant to the Pledge Agreements is enforced and the proceeds of such enforcement, after payment of all other claims ranking in priority to amounts due under the Notes, are insufficient to repay in full all principal and to pay all interest and other amounts due in respect of the Notes, then, as the Issuer has no other assets, it may be unable to satisfy claims in respect of any such unpaid amounts. As enforcement of the security by the Security Trustee pursuant to the terms of the Trust Deed, the Pledge Agreements and the Notes is the only remedy available to Noteholders for the purpose of recovering amounts owed in respect of the Notes, the Noteholders shall, following the application of the foreclosure proceeds subject to and in accordance with the Post-Enforcement Priority of Payments, have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

Risks inherent to the Notes

By acquiring the Notes, the Noteholders shall be deemed to have knowledge of, accept and be bound by the Conditions. Neither the Issuer nor the Paying Agents will have any responsibility for the proper performance by Euroclear and Clearstream, Luxembourg or their participants of their obligations under their respective rules, operating procedures and calculation methods.

(a) *Credit risk*

There is a risk of non-payment of principal and interest on the Notes due to non-payment of principal and interest on the Mortgage Receivables, despite the following:

- (i) in respect of the NHG Mortgage Loan Parts only, the fact that the NHG Mortgage Loan Parts have the benefit of an NHG Guarantee;

- (ii) in case of the Class A Notes, the subordinated ranking of the Class B Notes, the Class C Notes and the Class D Notes;
- (iii) in case of the Class B Notes, the subordinated ranking of the Class C Notes and the Class D Notes;
- (iv) in case of the Class C Notes, the subordinated ranking of the Class D Notes;
- (v) the Reserve Account; and
- (vi) the Excess Spread.

The proceeds of the Class E Notes will be credited to the Reserve Account. Principal on the Class E Notes will be paid out of the (i) Excess Spread and (ii) the balance standing to the credit of the Reserve Account upon redemption of the Class A Notes, Class B Notes, Class C Notes and Class D Notes in accordance with the Revenue Priority of Payments.

(b) *Liquidity risk*

There is a risk that payments to be made by the Borrowers on the Mortgage Loans are not received on time, thus causing temporary liquidity problems to the Issuer, despite (i) the Excess Spread, (ii) the Reserve Account (to the extent available for such purpose) and (iii) in certain circumstances, the Cash Advance Facility provided by the Cash Advance Facility Provider. There can be no assurance that this mitigation will protect the Noteholders in full against this risk.

(c) *Prepayment risk*

There is a risk that the level of prepayments by the Borrowers can vary and therefore result in an average life of the Notes which is shorter or longer than anticipated. The average life of the Notes is subject to some factors outside the control of the Issuer and consequently no assurance can be given that any estimates and assumptions will prove in any way to be realistic.

(d) *Maturity risk and risk that the Issuer will not exercise its option to redeem the Notes (other than the Class E Notes) on any Optional Redemption Date*

There is a risk that the Issuer will not have received sufficient principal to fully redeem the Notes at maturity. The Final Maturity Date for the Notes is the Notes Payment Date falling in March 2051. The Issuer has on any Optional Redemption Date pursuant to Condition 6(e) (*Optional redemption*) the option to sell and assign all (but not only part of) the Mortgage Receivables to any party, provided however that the Issuer shall, before selling the Mortgage Receivables to a third party, make an offer to the Seller to purchase such Mortgage Receivables. The Issuer shall be required to apply the proceeds of such sale, to the extent relating to principal, to redeem the Notes (other than the Class E Notes) in accordance with the Conditions. If the Issuer does not exercise this option on the First Optional Redemption Date, the interest margin for the Notes will increase and as from the First Optional

Redemption Date will be equal to a floating rate based on three-months EURIBOR plus the margin set out in Condition 4(d) (*Interest following the First Optional Redemption Date*). Accordingly, the Issuer may or may not have an incentive to exercise its right to redeem the Notes (other than the Class E Notes) on the First Optional Redemption Date or any Notes Payment Date thereafter. However, no guarantee can be given that the Issuer will exercise its option (which will depend, *inter alia*, on whether the Issuer will have sufficient funds, including, following any sale of the Mortgage Loans to the Seller or a third party (which may or may not be available)) and therefore that the Notes will be redeemed on the First Optional Redemption Date or any Notes Payment Date thereafter.

In addition to an optional redemption pursuant Condition 6(e) (*Optional redemption*) of the Notes, the Notes may be redeemed prematurely by the Issuer pursuant to Condition 6(f) (*Redemption following clean-up call*) following the exercise by the Seller of its Clean-Up Call Option, or pursuant to Condition 6(h) (*Redemption for tax reasons*), following the exercise by the Issuer of its Tax Call Option. In such circumstances, Noteholders may not be able to invest the amounts received as a result of the redemption of the Notes on conditions, including, the rate of investment return, similar to those of the relevant Notes.

See further section 4.1 (*Terms and conditions*).

(e) *Interest rate risk*

There is a risk that, due to interest rate movements, the interest received on the Mortgage Receivables and the Issuer Accounts is not sufficient to pay the floating rate of interest on the Notes.

(f) *Structural/legal risks*

As to the structural/legal risks relating to the Notes reference is made to, *inter alia*, paragraphs Transfer of legal title to Mortgage Receivables, Set-off by Borrowers may affect the proceeds under the Mortgage Receivables, Risks related to Mortgages and Borrower Pledges, Risks related to Insurance Policies and Reduced value of investments and incomplete or misleading material in this section below.

Credit rating may not reflect all risks

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. The ratings to be assigned to the Notes by the Credit Rating Agencies are based on the value and cash flow-generating ability of the Mortgage Receivables and other relevant structural features of the transaction, including, *inter alia*, the short-term and/or long-term unsecured and unsubordinated debt rating (in relation to S&P and Moody's) or the short-term and/or long-term issuer default rating (in relation to Fitch) of the other parties involved in the transaction, such as the providers and guarantors of ancillary facilities (i.e. the Issuer Account Bank, Back-Up Swap Counterparty and Cash Advance Facility Provider) and reflect only the view of each of the Credit Rating Agencies.

There is no assurance that any such rating will continue for any period of time or that they will not be reviewed, revised, suspended or withdrawn entirely by any of the Credit Rating Agencies as a result of changes in or unavailability of information or if, in any of the Credit Rating Agencies' judgement, circumstances so warrant. For the avoidance of doubt, any references to "ratings" or "rating" in this Prospectus are to ratings assigned by the Credit Rating Agencies only. Future events, including, but not limited to, events affecting the Back-Up Swap Counterparty and/or circumstances relating to the Mortgage Receivables and/or the Dutch residential mortgage market, in general could have an adverse effect on the ratings of the Notes as well. Any revision, suspension or withdrawal of the ratings of the Notes may have an adverse effect on the market value of the Notes and the ability of the Noteholders to sell or acquire credit protection on their Notes readily.

The ratings assigned to the Notes may be revised, suspended or withdrawn at any time despite Credit Rating Agency Confirmation

In addition, the Transaction Documents may provide that upon the occurrence of a certain event or matter, the Security Trustee needs to obtain a Credit Rating Agency Confirmation before it is allowed to take any action or consent to an amendment of the relevant Transaction Documents as a result of the occurrence of such event or matter. An exception applies only in the case of an amendment or alteration of a Transaction Document which is of a formal, minor or technical nature or is made to correct a manifest error and is notified to the Credit Rating Agencies.

The Noteholders should be aware that a Credit Rating Agency is not obliged to provide a written statement and that whether or not a Credit Rating Agency Confirmation has been obtained by the Security Trustee, this does not include a confirmation by a Credit Rating Agency of the then current ratings assigned to the Notes (even if such Credit Rating Agency Confirmation includes a statement in writing from a Credit Rating Agency that the then current rating assigned to the Notes will not be adversely affected by or withdrawn as a result of the relevant event or matter), nor does it mean that the Notes may not be downgraded or such ratings may not be withdrawn by a Credit Rating Agency, either as a result of the occurrence of the event or matter in respect of which the Credit Rating Agencies have been notified or such Credit Rating Agency Confirmation has been obtained or for any other reason.

Listing of the Notes

Application has been made for the Notes to be listed on Euronext Amsterdam on the Closing Date. However, there is no assurance that the Notes will be admitted to listing on Euronext Amsterdam. If the Class A Notes will not be admitted to listing, they will not be recognised as Eurosystem Eligible Collateral.

Risk related to unsolicited ratings on the Notes

Other credit rating agencies that have not been engaged to rate the Notes by the Issuer may issue unsolicited credit ratings on the Notes at any time. Any unsolicited ratings in respect of the Notes may differ from the ratings expected to be assigned by Moody's, Fitch and S&P and may not be reflected in any final terms. Issuance of an unsolicited rating which is lower than the ratings assigned by Moody's,

Fitch and S&P in respect of the Notes may adversely affect the market value and/or the liquidity of the Notes.

US Foreign Account Tax Compliance Act

Whilst the Notes are in global form and held by Clearstream, Luxembourg or Euroclear, in all but the most remote circumstances it is not expected that Sections 1471 through 1474 of the U.S. Internal Revenue Code (the **Code**) or regulations and other authoritative guidance thereunder (**FATCA**) will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. FATCA may also affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of FATCA withholding, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. Pursuant to the terms and conditions of the Notes, the Issuer's obligations under the Notes are discharged once it has paid the common safekeeper for the clearing systems (as bearer of the Notes) and neither the Issuer nor any Paying Agent will be required to pay additional amounts should FATCA withholding apply to any amount transmitted through the clearing systems and thereafter through custodians or other intermediaries.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and intergovernmental agreements implementing FATCA, all of which are subject to change. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

The market value of the Notes may be adversely affected by a lack of liquidity in the secondary market

Prior to this offering, there has been no public secondary market for the Notes and there can be no assurance that active trading in the Notes will commence or continue after the initial offering of the Notes. Furthermore, there can be no assurance that the Issue Price of the Notes will correspond to the price at which the Notes will be traded after the initial offering of the Notes. A lack of trading in the Notes could adversely affect the price of the Notes, as well as the Noteholders' ability to sell the Notes.

The secondary mortgage markets are currently experiencing disruptions resulting from reduced investor demand for mortgage loans and mortgage-backed securities and increased investor yield requirements for those loans and securities. As a result, the secondary market for mortgage-backed securities is experiencing limited liquidity. These conditions may improve, continue or worsen in the future. Limited liquidity in the secondary market for mortgage-backed securities has had and may

continue to have an adverse effect on the market value of mortgage-backed securities, especially those securities that are more sensitive to credit or interest rate risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, investors may not be able to sell or acquire credit protection on their Notes readily. The market values of the Notes are likely to fluctuate and may be difficult to determine. Any of these fluctuations may be significant and could result in significant losses to investors. In addition, the forced sale into the market of mortgage-backed securities held by structured investment vehicles, hedge funds, issuers of collateralised debt obligations and other similar entities that are currently experiencing funding difficulties could adversely affect an investor's ability to sell the Notes and/or the price an investor receives for the Notes in the secondary market.

Whilst central bank schemes such as the European Central Bank liquidity scheme provide an important source of liquidity in respect of eligible securities, recent restrictions in respect of the relevant eligibility criteria for eligible collateral which apply and will apply in the future under such facilities are likely to adversely impact secondary market liquidity for mortgage-backed securities in general, regardless of whether the Notes are eligible securities.

The Notes may not be a suitable investment for all investors

The Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments but as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the investor's overall investment portfolio.

Potential investors in the Notes must therefore make an informed assessment of the Notes, based upon full knowledge and understanding of the facts and risks. A potential investor must determine the suitability of an investment in Notes in light of its own circumstances. In particular each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes and the merits of investing in the Notes and the information contained or incorporated by reference in this Prospectus;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, the significance of these risks factors and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including, but not limited to, where the currency for principal or interest payments is different from the investor's base currency;
- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices in the financial markets (including, but not limited to, the risks associated thereof) as an

investor who is not familiar with such behaviour is more vulnerable to any fluctuations in the financial markets generally; and

- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Subordination

To the extent set forth in Conditions 4 (*Interest*), 6 (*Redemption*) and 9 (*Revenue Shortfall, Principal Deficiency and Principal Shortfall*) the Class B Notes are subordinated in right of payment to the Class A Notes, (b) the Class C Notes are subordinated in right of payment to the Class A Notes and the Class B Notes, (c) the Class D Notes are subordinated in right of payment to the Class A Notes, the Class B Notes and the Class C Notes and (d) the Class E Notes are subordinated in right of payment to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes. With respect to any Class of Notes, such subordination is designed to provide credit enhancement to any Class of Notes with a higher payment priority than such Class of Notes.

If, upon default by the Borrowers and after exercise by the Servicer of all available remedies in respect of the applicable Mortgage Loans, the Issuer does not receive the full amount due from such Borrowers, Noteholders may receive by way of principal repayment on the Notes an amount less than the face amount of their Notes and the Issuer may be unable to pay in full interest due on such Notes, to the extent set forth in Condition 9 (*Revenue Shortfall, Principal Deficiency and Principal Shortfall*). On any Notes Payment Date, any such losses on the Mortgage Loans will be allocated as described in section 5.3 (*Loss allocation*).

Conflict of interest

Circumstances may arise when the interests of the holders of different Classes of Notes could conflict. The Trust Deed contains provisions requiring the Security Trustee to have regard to the interests of the Noteholders as regards all powers, trust, authorities, duties and discretions of the Security Trustee (except where expressly provided otherwise) each as a Class, but requiring the Security Trustee in any such case to have regard only to the interests of the most senior ranking Class of Noteholders, if, in the Security Trustee's opinion, there is a conflict between the interests of this Class of Noteholders on one hand and the lower ranking Class or, as the case may be, Classes of Noteholders on the other hand. In addition, the Security Trustee shall have regard to the interests of the other Secured Creditors, provided that in case of a conflict of interest between the Secured Creditors the Post-Enforcement Priority of Payments determines which interest of which Secured Creditor prevails, it being noted that, only for the purpose of determining which party's interest prevails in the case where the Security Trustee shall only have regard to the interest of the Secured Creditors mentioned under item d of the Post-Enforcement Priority of Payments, the interest of the Secured Creditor mentioned under item d (ii) of the Post-Enforcement Priority of Payments shall prevail over the interest of the Secured Creditor mentioned under item d (i) of the Post-Enforcement Priority of Payments.

Certain Transaction Parties, including but not limited to the Seller, the Managers, the Arranger, the Swap Counterparty, the Back-Up Swap Counterparty, the Cash Advance Facility Provider, the Issuer

Administrator, the Commingling Guarantor and the Paying Agent, may act in different capacities in relation to the Transaction Documents and may also be engaged in other commercial relationships, in particular, be part of the same group, be lenders, provide banking, investment banking and other financial services to the Transaction Parties and other relevant parties. In such relationships, *inter alios*, the Seller, the Managers, the Arranger, the Swap Counterparty, the Back-Up Swap Counterparty, the Cash Advance Facility Provider, the Issuer Administrator, the Commingling Guarantor and the Paying Agent are not obliged to take into consideration the interests of the Noteholders. Accordingly, because of these relationships, potential conflicts of interest may arise out of the transaction.

Specifically, the sole managing director of each of the Issuer and the Shareholder is Intertrust Management B.V. which together with the Amsterdamsch Trustee's Kantoor B.V. being the sole Director of the Security Trustee, are part of the same group of companies that also includes Intertrust Administrative Services B.V., the Issuer Administrator. See further section 3.1 (*Issuer*). Furthermore, Rabobank and Rabobank International act in different capacities under the Transaction Documents. Rabobank currently owns 100 per cent. stake in Obvion. See further section 3.4 (*Seller/Originator*).

Modification, authorisation and waiver without consent of Noteholders

The Security Trustee may agree, without the consent of the Noteholders, to (i) any modification of any of the provisions of the Transaction Documents which is of a formal, minor or technical nature, is made to correct a manifest error or is made in order for the Issuer to comply with its EMIR obligations, which is not considered to be a Basic Terms Change and is notified to the Credit Rating Agencies and (ii) any other modification (except if prohibited in the Transaction Documents), and any waiver or authorisation of any breach or proposed breach of any of the provisions of the Transaction Documents, which is in the opinion of the Security Trustee not materially prejudicial to the interests of the Noteholders, in respect of (ii) only, provided that each Credit Rating Agency has provided a Credit Rating Agency Confirmation in respect of the relevant event or matter.

By obtaining a Credit Rating Agency Confirmation each of the Security Trustee, the Noteholders and the other Secured Creditors will be deemed to have agreed and/or acknowledged that (i) a credit rating is an assessment of credit only and does not address other matters that may be of relevance to the Noteholders or the other Secured Creditors (ii) neither the Security Trustee, nor the Noteholders, nor the other Secured Creditors have any right of recourse to or against the relevant Credit Rating Agency in respect of the relevant Credit Rating Agency Confirmation which is relied upon by the Security Trustee and that (iii) reliance by the Security Trustee on a Credit Rating Agency Confirmation does not create, impose on or extend to the relevant Credit Rating Agency any actual or contingent liability to any person (including, without limitation, the Security Trustee and/or the Noteholders and/or the other Secured Creditors) or create any legal relations between the relevant Credit Rating Agency and the Security Trustee, the Noteholders, the other Secured Creditors or any other person whether by way of contract or otherwise.

Eligibility of the Class A Notes for Eurosystem monetary policy

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This does not necessarily mean that the Class A Notes will be recognised as Eurosystem Eligible Collateral either upon issue or at any or all times during their life. Such recognition will depend, *inter alia*, upon

satisfaction of the Eurosystem eligibility criteria as specified by the European Central Bank. If the Class A Notes do not satisfy the criteria specified by the European Central Bank, there is a risk that the Class A Notes will not be Eurosystem Eligible Collateral. The Issuer gives no representation, warranty, confirmation or guarantee to any investor in the Class A Notes that the Class A Notes will, either upon issue, or at any or all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem Eligible Collateral. Any potential investors in the Class A Notes should make their own determinations and seek their own advice with respect to whether or not the Class A Notes constitute Eurosystem Eligible Collateral. The Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes are not intended to be recognised as Eurosystem Eligible Collateral.

The Governing Council of the European Central Bank decided in December 2010 to implement loan-level data reporting requirements for asset-backed securities as part of the Eurosystem's collateral framework. For residential mortgage-backed securities, this has been mandatory since 3 January 2013. Accordingly, if loan-level data reporting requirements are not complied with, Eurosystem eligibility of the Class A Notes may not, or may not continue to be, recognised.

EU Council Directive on taxation of savings income

Under the EU Council Directive 2003/48/EC on the taxation of savings income, Member States are required, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories have adopted similar measures. Pursuant to Condition 5(d) (*Payment*), the Issuer undertakes that it will ensure that it maintains a paying agent in an EU Member State that will not be obliged to withhold or deduct any tax pursuant to the EU Council Directive 2003/48/EC. It may be possible that such a paying agent does not perform its obligations in this respect under its agreement with the Issuer, which may result in the Issuer not being able to meet its obligation pursuant to the afore-mentioned Condition 5(d) (*Payment*), in which case there remains a risk that under certain circumstances the interest payments under the Notes become subject to withholding tax.

The Issuer will not be obliged to gross-up for taxes

As provided for in Condition 7 (*Taxation*), if any withholding of, or deductions for, or on account of, any present or future taxes, duties or charges of whatever kind is imposed by, or on behalf of, the Netherlands or any other jurisdiction or any political subdivision or any authority of the Netherlands or in the Netherlands having power to tax, the Issuer or the Paying Agents (as applicable) will make the required withholding or deduction of such taxes, duties or charges, as the case may be, and shall not be obliged to pay any additional amount to the Noteholders.

Implementation of and/or changes to the Basel III framework may affect the regulatory capital requirements and/or the liquidity associated with a holding of the Notes for certain investors

The Basel Committee on Banking Supervision has made significant amendments to the Basel II Capital Accord (**Basel II**) which aim at a substantial strengthening of capital rules, including new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards and a maximum leverage ratio for financial institutions (**Basel III**). The changes refer to, amongst other things, new requirements for the capital base, measures to strengthen the capital requirements for counterparty credit exposures arising from certain transactions and the introduction of a leverage ratio as well as short-term and longer-term standards for funding liquidity (referred to as the **Liquidity Coverage Ratio** and the **Net Stable Funding Ratio**, respectively). Member countries are required to implement the new capital standards and the new Liquidity Coverage Ratio as soon as possible (with provision for phased implementation, meaning that the measures will not apply in full until January 2019), the new Liquidity Coverage Ratio from January 2015 and the Net Stable Funding Ratio from January 2018. The European authorities have indicated that they support Basel III in general. The capital rules of Basel III have been implemented through a directive and a regulation adopted on 26 June 2013 by the Council of the European Union (collectively referred to as **CRD IV**), which replaced the directives 2006/48/EC and 2006/49/EC, as amended by directive 2009/111/EC. CRD IV entered into force on 1 January 2014, with full implementation by January 2019; however, CRD IV allows individual Member States to implement a stricter definition and/or level of capital more quickly than is envisaged under Basel III.

In December 2013, the Basel Committee on Banking Supervision has issued a second consultative document on revisions to the securitisation framework, including draft standards text. The second consultative document follows the first consultative document published in December 2012. The major changes in the second consultative document in relation to the first consultative document include (i) changes to the hierarchy of approaches and (ii) changes to calibration and other clarifications (including the proposal of the Basel Committee on Banking Supervision to set a 15 per cent. risk-weight floor for all approaches, instead of the 20 per cent. floor originally proposed). Comments on the consultative document and the proposed standards text were due on 21 March 2014. Following review of the comments, the Basel Committee intends to publish the final standards. The exact timing for the publication of the final standards remains uncertain and detailed implementation arrangements remain subject to further discussion by the Basel Committee.

Furthermore, pursuant to the directive of the European Parliament and of the Council of the European Union of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance (**Solvency II**), more stringent rules will apply for European insurance companies from January 2016 in respect of instruments such as the Notes in order to qualify as regulatory capital (*toetsingsvermogen c.q. solvabiliteitsmarge*).

Basel II, Basel III and Solvency II even to a greater extent, will affect the risk-weighting of the Notes in respect of certain investors if those investors are regulated in a manner which will be affected by these rules. Consequently, prospective investors should consult their own advisers as to the consequences of and the effect on them of the application of Basel II, Basel III and Solvency II, as implemented by their own regulator, to their holding of any Notes. It cannot be excluded that further amendments will be

proposed and will have to be implemented in the legislation of the relevant EU Member States which may have a further impact on, among other things, the risk weighting, liquidity and value of the Notes. Neither the Issuer, the Arranger, the Managers nor the Security Trustee are responsible for informing Noteholders of the effects on the changes to risk-weighting of the Notes which amongst others may result from the adoption by their own regulator of Basel II, Basel III or Solvency II (whether or not in its current form or otherwise).

Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the Notes

In Europe, the United States of America and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a number of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Arranger, the Managers or the Seller makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the Closing Date or at any time in the future.

In particular, investors should be aware of the EU risk retention and due diligence requirements which currently apply, or are expected to apply in the future, in respect of various types of EU regulated investors including credit institutions, authorised alternative investment fund managers, investment firms, insurance and reinsurance undertakings and UCITS funds. Amongst other things, such requirements restrict a relevant investor from investing in asset-backed securities unless (i) that investor is able to demonstrate that it has undertaken certain due diligence in respect of various matters including its note position, the underlying assets and (in the case of certain types of investors) the relevant sponsor or originator and (ii) the originator, sponsor or original lender in respect of the relevant securitisation has explicitly disclosed to the investor that it will retain, on an on-going basis, a net economic interest of not less than 5 per cent. in respect of certain specified credit risk tranches or asset exposures. Failure to comply with one or more of the requirements may result in various penalties including, in the case of those investors subject to regulatory capital requirements, the imposition of a penal capital charge on the notes acquired by the relevant investor.

Aspects of the requirements and what is or will be required to demonstrate compliance to national regulators remain unclear and this uncertainty is increased by certain legislative developments. In particular, in the context of the requirements which apply in respect of EU regulated credit institution investors, investment firms and authorised alternative investment fund managers, the corresponding interpretation materials (to be made in the form of technical standards) have not yet been finalised. No assurance can be provided that such final materials will not affect the compliance position of previously issued transactions and/or the requirements applying to relevant investors in general.

The risk retention and due diligence requirements described above apply, or are expected to apply, in respect of the Notes. Investors should therefore make themselves aware of such requirements (and any corresponding implementing rules of their regulator), where applicable to them, in addition to any

other regulatory requirements applicable to them with respect to their investment in the Notes. With respect to the commitment of the Originator to retain a material net economic interest in the securitisation and with respect to the information to be made available by the Issuer or another relevant party (or, after the Closing Date, by Obvion in its capacity as the Servicer or on the Issuer's behalf), please see the statements set out in section 4.4 (*Regulatory & industry compliance*). Relevant investors are required to independently assess and determine the sufficiency of the information described above for the purposes of complying with any relevant requirements and none of the Issuer, Obvion (in its capacity as the Seller or the Servicer) nor any Manager makes any representation that the information described above is sufficient in all circumstances for such purposes.

The EU risk retention and due diligence requirements described above and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

Change of law

The structure of the transaction, the issue of the Notes and the ratings which are to be assigned to the Notes are based on Dutch law and, to the extent it relates to the Swap Agreement, English law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible change in Dutch law or English law or administrative practice in the Netherlands and England and Wales after the date of this Prospectus nor whether such change would adversely affect the ability of the Issuer to make payments under the Notes.

Reliance on third parties

Counterparties to the Issuer may not perform their obligations under the Transaction Documents, which may result in the Issuer not being able to meet its obligations. It should be noted that there is a risk that, *inter alios*, either (a) Obvion in its capacity as Seller, Servicer, Swap Counterparty, Insurance Savings Participant and Bank Savings Participant, (b) Rabobank International, in its capacity as Back-Up Swap Counterparty, (c) Rabobank International in its capacity as Arranger, Issuer Account Bank and Cash Advance Facility Provider, (d) Rabobank in its capacity as Commingling Guarantor and Construction Deposits Guarantor, or (e) Deutsche Bank AG, London Branch and Deutsche Bank AG, Amsterdam Branch in their capacity as Principal Paying Agent and Paying Agent, respectively, will not perform its obligations vis-à-vis the Issuer.

If a termination event occurs pursuant to the terms of the Servicing Agreement, then the Issuer and/or the Security Trustee will be entitled to terminate the appointment of the Servicer and appoint a new servicer in its place. There can be no assurance that a substitute servicer with sufficient experience of administering mortgages of residential properties would be found who would be willing and able to service the Mortgage Receivables on the terms of the Servicing Agreement. Any delay or inability to appoint a substitute servicer may affect the realisable value of the Mortgage Receivables or any part thereof, and/or the ability of the Issuer to make payments under the Notes. The Servicer does not have any obligation itself to advance payments to the Issuer that Borrowers fail to make in a timely fashion. Noteholders will have no right to consent to or approve of any actions taken by the Servicer under the Servicing Agreement.

Swap Agreement

On the Signing Date, the Issuer will enter into the Swap Agreement with the Swap Counterparty and the Security Trustee to hedge the risk of a difference between the rate of interest to be received by the Issuer on the Mortgage Receivables and the rate of interest payable by the Issuer on the Notes. The Issuer's income from the Mortgage Loans will be a mixture of floating and fixed rates of interest, which will not directly match (and may in certain circumstances be less than) its obligations to make payments of the Floating Rate of Interest due to be paid by it under the Notes.

Accordingly, the Issuer will depend upon payments made by the Swap Counterparty to assist it in making interest payments on the Notes on each Notes Payment Date on which a net payment is due from the Swap Counterparty to the Issuer under the Swap Agreement. If the Swap Counterparty fails to pay any amounts when due under the Swap Agreement, the Available Revenue Funds may be insufficient to make the required payments on the Notes and the Noteholders may experience delays and/or reductions in the interest and principal payments due to be received by them.

The Swap Counterparty will be obliged to make payments under the Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the Swap Counterparty will be required to pay such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount that the Issuer would have received had no such withholding or deduction been required. The Swap Agreement will provide, however, that if due to any change in tax law after the date of the Swap Agreement, the Swap Counterparty will, or there is a substantial likelihood that it will, be required to pay to the Issuer additional amounts for or on account of tax, the Swap Counterparty may (provided that the Security Trustee has notified the Credit Rating Agencies of such event and with the consent of the Issuer) transfer its rights and obligations to another of its offices, branches or affiliates or any other person that meets the criteria for a swap counterparty as set forth in the Swap Agreement to avoid the relevant tax event. The Swap Counterparty will at its own cost, if it is unable to transfer its rights and obligations under the Swap Agreement to another office, have the right to terminate the Swap Agreement. Upon such termination, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other party.

The Swap Agreement will be terminable by one party if, *inter alia*, (i) an event of default occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the Swap Agreement or (iii) an Enforcement Notice is served. Events of default in relation to the Issuer will be limited to (i) non-payment under the Swap Agreement and (ii) insolvency events.

The Conditional Deed of Novation provides that if, *inter alios*, the Swap Counterparty fails to make, when due, any payment to the Issuer under the Swap Agreement or if the Swap Counterparty is declared bankrupt (*failliet*), the Swap Agreement will be novated to the Back-Up Swap Counterparty.

In the event that the Swap Agreement is terminated by either party, then, depending on the total losses and costs incurred in connection with the termination of the Swap Agreement (including but not limited to loss of bargain, cost of funding and losses and costs incurred as a result of termination, liquidating, obtaining or re-establishing any hedge or related trading position), a termination payment may be due to the Issuer or to the Swap Counterparty. Any such termination payment could be substantial. If such

a payment is due to the Swap Counterparty (other than where it constitutes a Swap Counterparty Default Payment) it will rank in priority to payments due from the Issuer under the Notes under the Revenue Priority of Payments, and could affect the availability of sufficient funds of the Issuer to make payments of amounts due from it under the Notes in full.

In the event that the Swap Agreement is terminated, the Issuer may not be able to enter into a replacement swap agreement with a replacement swap counterparty immediately or at a later date. If a replacement swap counterparty cannot be found, the funds available to the Issuer to pay interest on the Notes will be reduced if the interest revenues received by the Issuer as part of the Mortgage Receivables are substantially lower than the rate of interest payable by it on the Notes. In these circumstances, the holders of Notes may experience delays and/or reductions in the interest and principal payments to be received by them, and the Notes may also be downgraded.

In the event that the Back-Up Swap Counterparty suffers a rating downgrade to below the Requisite Credit Rating, or such rating is withdrawn, the Issuer may terminate the related Swap Agreement if the Swap Counterparty fails, within a set period of time, to take certain actions intended to mitigate the effects of such downgrade or withdrawal. Such actions may include the Swap Counterparty collateralising its obligations under the Swap Agreement, transferring its obligations to a replacement swap counterparty having the Requisite Credit Rating or procuring that an entity with the Requisite Credit Rating becomes a co-obligor with or guarantor of the Swap Counterparty. However in the event the Back-Up Swap Counterparty is downgraded there can be no assurance that a co-obligor, guarantor or replacement swap counterparty will be found or that the amount of collateral provided will be sufficient to meet the Swap Counterparty's obligations. See section 5.4 (*Hedging*) below for further details of the provisions of the Swap Agreement related to a downgrade in the ratings of the Swap Counterparty.

If not previously terminated, the Swap Agreement will terminate on the earlier of the Final Maturity Date and the date on which the Notes have been redeemed or written off in full in accordance with the Conditions.

The Swap Agreement provides that, in the event that any payment by the Issuer to the Swap Counterparty is less than the amount which the Issuer would be required to pay to the Swap Counterparty, the corresponding payment obligation of the Swap Counterparty to the Issuer shall be reduced by an amount equal to such shortfall. See further in section 5.4 (*Hedging*).

Risk related to the Special Measures Financial Institutions Act

The *Wet bijzondere maatregelen financiële ondernemingen* (the **Special Measures Financial Institutions Act**), has been adopted and implemented in the Wft and has entered into effect on 13 June 2012, which introduces far-reaching intervention powers for (i) DNB with regard to a bank or insurer having its official seat (*statutaire zetel*) in the Netherlands or a Dutch branch of a bank or insurer having its official seat in a country which is not a Member State which DNB deems to be potentially experiencing problems of which it is reasonably foreseeable that these cannot be timely or adequately resolved (*probleeminstelling*) and (ii) the Dutch Minister of Finance with regard to financial institutions with their seat in the Netherlands (*financiële ondernemingen*), if the Dutch Minister of Finance deems it necessary to safeguard the stability of the financial system.

The Special Measures Financial Institutions Act includes (amongst others) powers for DNB to procure that a "*probleeminstelling*" is transferred, in whole or in part, to a third party. The Dutch Minister of Finance has been granted extensive powers to intervene at financial institutions if this is necessary to safeguard the stability of the financial system. In order to increase the efficacy of these special measures, the Special Measures Financial Institutions Act contains provisions restricting the contractual rights of counterparties of a bank or insurer, or a group company (*tot dezelfde groep behorende onderneming*) of such bank or insurer, including, without limitation, the right to invoke certain contractual provisions (including disclosure obligations) or notification events as a result of the bank or insurer having been subjected to certain measures pursuant to the Special Measures Financial Institutions Act (*gebeurtenis*). There is therefore a risk that the enforceability of the rights and obligations of the parties to the Transaction Documents, including without limitation the Seller, may be affected on the basis of the Special Measures Financial Institutions Act, which may lead to losses under the Notes. If a transfer of Mortgage Receivables is completed prior to the occurrence of a "*gebeurtenis*", such transfer will not be affected by the rules described in the previous two sentences.

RISKS RELATED TO THE MORTGAGE RECEIVABLES

Loan to foreclosure value ratio

The Mortgage Loans (excluding any NHG Mortgages Loan Parts) have an Original Loan to Original Foreclosure Value Ratio of up to and including 125 per cent. NHG Mortgage Loan Parts have a maximum Original Loan to Original Foreclosure Value Ratio of 135 per cent. The appraisal foreclosure value (*executiewaarde*) of the property on which a Mortgage is vested is normally lower than the market value (*vrije verkoopwaarde*) of the relevant mortgaged property. There can be no assurance that, on enforcement, all amounts owed by a Borrower under a Mortgage Loan can be recovered from the proceeds of the foreclosure on the relevant Mortgaged Asset or that the proceeds upon foreclosure will be at least equal to the Original Foreclosure Value or the Indexed Foreclosure Value of such Mortgaged Asset (see section 6.2 (*Description of Mortgage Loans*)). The higher the Original Loan to Original Foreclosure Value Ratio or the Current Loan to Indexed Foreclosure Value Ratio is, the higher the possibility that this risk will materialise. Materialisation of this risk may lead to losses under the Notes.

Risks related to the NHG Guarantee

The NHG Mortgage Loan Parts will have the benefit of an NHG Guarantee. Pursuant to the NHG Conditions, Stichting WEW has no obligation to pay any loss (in whole or in part), incurred by a lender after a private or a forced sale of the mortgaged property, if such lender has not complied with the NHG Conditions. The Seller will on the Signing Date and on the Closing Date, with respect to each NHG Mortgage Loan Part represent and warrant, *inter alia*, that (a) to the best of its knowledge and belief (having taken all reasonable care to ensure that such is the case) each NHG Guarantee connected to an NHG Mortgage Loan Part constitutes legal, valid and binding obligations of Stichting WEW, enforceable in accordance with its terms, (b) all NHG Conditions applicable to the NHG Guarantee at the time of origination of the NHG Mortgage Loan Part forming part of the Mortgage Loans were complied with and (c) it is not aware of any reason why any claim made in accordance with

the requirements pertaining thereto under any NHG Guarantee should not be met in full and in a timely manner.

In respect of mortgage loans offered as of 1 January 2014, the NHG Conditions stipulate that in determining the loss incurred by a lender after a private or a forced sale of the mortgaged property, an amount of ten (10) per cent. will be deducted from such loss and thus from the payment to be made by Stichting WEW to the lender. As pursuant to the NHG Conditions such lender in principle is not entitled to recover the remaining amount under the relevant mortgage loan in such case (see section 6.5 (NHG Guarantee Programme)), this may consequently lead to the Issuer not having sufficient funds to fully repay the Notes.

Furthermore, the NHG Conditions stipulate that an NHG Guarantee of Stichting WEW will terminate upon expiry of a period of thirty (30) years after the establishment of such NHG Guarantee.

Finally, the NHG Conditions stipulate that the amount guaranteed by Stichting WEW under an NHG Guarantee (irrespective of the type of redemption of the mortgage loan) is reduced on a monthly basis by an amount which is equal to the amount of the principal portion of the monthly instalment calculated as if the mortgage loan were to be repaid on a thirty (30) year annuity basis. The actual redemption structure of a Mortgage Loan can be different (see section 6.2 (*Description of Mortgage Loans*)). This may result in the Issuer not being able to fully recover any loss incurred with Stichting WEW under an NHG Guarantee and may consequently lead to the Issuer not having sufficient funds to fully repay the Notes.

Rating of the State of the Netherlands

The rating given to the Notes by the Credit Rating Agencies is based in part on modelling which takes into account any NHG Guarantee granted in connection with the Mortgage Loans. NHG Guarantees are backed by the State of the Netherlands. The State of the Netherlands is currently rated 'Aaa' by Moody's, 'AA+' by S&P and 'AAA' by Fitch. The current outlook for the State of the Netherlands of Moody's is negative and stable in respect of S&P and Fitch. In the event that (a) the rating assigned to the State of the Netherlands is lowered by a Credit Rating Agency or (b) Stichting WEW, if it has a rating assigned to it, has that rating lowered by a Credit Rating Agency, this may result in a review by the Credit Rating Agencies of the rating ascribed to the Notes and could potentially result in a downgrade to the rating of the Notes.

Considerations relating to the Parallel Debt

The Noteholders and the other Secured Creditors will benefit from the security granted in favour of the Security Trustee pursuant to the Pledge Agreements. Under the terms of the Trust Deed, the Issuer will undertake to pay to the Security Trustee, on the same terms and conditions, an amount equal to the aggregate of all amounts from time to time due and payable by the Issuer to the Secured Creditors (including, but not limited to, the Noteholders) in accordance with the terms and conditions of the relevant Transaction Documents (such payment undertaking and the obligations and liabilities resulting from it being referred to as the Parallel Debt). The Parallel Debt represents an independent claim of the Security Trustee to receive payment thereof from the Issuer, provided that (a) the aggregate amount that may become due under the Parallel Debt will never exceed the aggregate amount that may

become due under all of the Issuer's obligations to the Secured Creditors, including the Noteholders, pursuant to the Transaction Documents and (b) every payment in respect of such Transaction Documents for the account of or made to the Secured Creditors directly in respect of such undertaking shall operate in satisfaction *pro tanto* of the corresponding covenant in favour of the Security Trustee. The Parallel Debt is secured by the Pledge Agreements. Upon the occurrence of an Event of Default under the Notes, the Security Trustee may give notice to the Issuer that the amounts outstanding under the Notes (and under the Parallel Debt) are immediately due and payable and that it will enforce the Pledge Agreements. The Security Trustee will apply the amounts recovered upon enforcement of the Pledge Agreements in accordance with the provisions of the Trust Deed. The amounts payable to the Noteholders and other Secured Creditors under the Trust Deed will be limited to the amounts available for such purpose to the Security Trustee. Payments under the Trust Deed to the Secured Creditors (other than to the Participants) and to the Security Trustee will be made in accordance with the Post-Enforcement Priority of Payments as set forth in the Trust Deed.

It is generally assumed that under Dutch law a right of pledge cannot be validly created in favour of a person who is not the creditor of the claim that the right of pledge purports to secure. The Parallel Debt is included in the Trust Deed to address this issue. It is noted that there is no statutory law or case law available on the validity or enforceability of a parallel covenant such as the Parallel Debt or the security provided for such debts. However, the Issuer has been advised that there are no reasons why a parallel covenant such as the Parallel Debt will not create a claim of the pledgee (the Security Trustee) thereunder which can be validly secured by a right of pledge such as the rights of pledge created pursuant to the Pledge Agreements.

Transfer of legal title to Mortgage Receivables

Under Dutch law a transfer of title by way of assignment of a receivable can be effected either by means of (a) a deed of assignment executed between the assignee and the assignor and a notification of the assignment to the relevant debtor (the so-called *openbare cessie*) or (b) a notarial deed or a registered deed of assignment, without notification, until an Assignment Notification Event occurs, of the assignment to the relevant debtor being required (the so-called *stille cessie*). In the latter case notification to the debtor, however, will still be required to prevent such debtor from validly discharging its obligations (*bevrijdend betalen*) under the receivable by making a payment to the relevant assignor. The legal ownership of the Mortgage Receivables will be transferred by the Seller to the Issuer on the relevant date of purchase and assignment through a registered deed of assignment and pledge. The Mortgage Receivables Purchase Agreement provides that such transfer of legal title to the Mortgage Receivables by the Seller to the Issuer will not be notified to the Borrowers unless certain events (referred to as Assignment Notification Events) occur. For a description of these Assignment Notification Events reference is made to section 7.1 (*Purchase, repurchase and sale*).

Until notification of the transfer of legal title has been made to the Borrowers, the Borrowers can only validly discharge their obligations (*bevrijdend betalen*) under the relevant Mortgage Loan by making a payment to the Seller. The Seller has undertaken in the Mortgage Receivables Purchase Agreement to pay (or procure that the Servicer shall pay on its behalf) on the tenth (10th) Business Day of each calendar month all amounts received by it in respect of the Mortgage Loans with respect to the immediately preceding Mortgage Calculation Period. However, receipt of such amounts by the Issuer is

subject to the Seller actually making such payments. There is a risk that the Seller is not able to make such payment which would affect the ability of the Issuer to perform its payment obligations under the Notes.

Payments made by the Borrowers to the Seller prior to notification but after bankruptcy or suspension of payments in respect of the Seller having been declared, will be part of the Seller's bankruptcy estate. However, the Issuer has the right to receive such amounts by preference after deduction of the general bankruptcy costs (*algemene faillissementskosten*). There is thus a risk that in such case the Issuer will not receive the proceeds under the Mortgage Receivables on time and in full, which could affect its ability to meet its obligations under the Notes.

Construction Deposits

Pursuant to the Mortgage Conditions, in respect of certain Mortgage Loans, the Borrower has the right to request that part of the Mortgage Loan will be applied towards construction of, or improvements to, the Mortgaged Asset. In that case the Borrower has placed part of the monies drawn down under the Mortgage Loan on deposit with the Seller, and the Seller has committed to pay out such deposits to or on behalf of the Borrower in order to enable the Borrower to pay for such construction of, or improvements to, the relevant Mortgaged Asset, provided certain conditions are met (such mortgages are called construction mortgages (*bouwhypotheeken*)). Pursuant to the NHG Conditions, a Construction Deposit in respect of an NHG Mortgage Loan Part has to be paid out after the building activities or renovation activities have been finalised. If the remaining Construction Deposit exceeds EUR 2,500, such Construction Deposit will be set-off against the Mortgage Receivable up to the amount of the Construction Deposit, in which case the Seller will pay the amount of the relevant Construction Deposit to the Issuer to form part of the Available Principal Funds on the next succeeding Notes Payment Date. Pursuant to the NHG Conditions, if the remaining Construction Deposit is less than EUR 2,500, the Seller has the right to pay out the remaining amount to the relevant Borrower.

Under the Mortgage Receivables Purchase Agreement, the Seller will sell to the Issuer the full amount of the Mortgage Receivables, which therefore includes the amounts represented by the Construction Deposits. A Borrower will be entitled to set off the amounts represented by the relevant Construction Deposits against the amounts due by it to the Seller under the relevant Mortgage Loan (see further *Set-off by Borrowers may affect the proceeds under the Mortgage Receivables* in this section below).

Upon the occurrence of an Assignment Notification Event, the Servicer will notify the Issuer of the outstanding Construction Deposits (if any) and provide to the Issuer details of the Borrowers to which such Construction Deposits relate. Furthermore, if following the occurrence of an Assignment Notification Event, a Borrower invokes a right of set-off of the amount due under the Mortgage Loan with the outstanding amount payable to it under or in connection with the Construction Deposit, the Issuer shall be entitled to invoke the Construction Deposits Guarantee in which case the Construction Deposits Guarantor shall promptly pay to the Issuer an amount equal to the outstanding payment obligations of the Seller to a Borrower with respect to the relevant Construction Deposit (if any) in relation to which such Borrower has claimed a right of set-off. Receipt of such amount by the Issuer under the Construction Deposit Guarantee is subject to the ability of the Construction Deposit

Guarantor to actually make such payments. This may result in the Issuer not having sufficient funds to meet its payment obligations under the Notes.

Furthermore, under Dutch law the distinction between 'existing' receivables and 'future' receivables is relevant in connection with Construction Deposits. If receivables are to be regarded as future receivables, an assignment and/or pledge thereof will not be effective to the extent the receivable comes into existence after or on the date on which the assignor or, as the case may be, the pledgor has been declared bankrupt or has had a suspension of payments granted to it. If, however, receivables are to be considered as existing receivables, the assignment and pledge thereof are not affected by the bankruptcy or suspension of payments of the assignor/pledgor.

Whether such part of a Mortgage Receivable relating to a Construction Deposit should be considered as an existing or future receivable is difficult to establish on the basis of the applicable terms and conditions of the relevant Mortgage Loans and has not been addressed conclusively in case law or legal literature. If the full Mortgage Receivable is considered to be drawn down under the Mortgage Loan when the Construction Deposit is created, the part of the Mortgage Receivable relating to the Construction Deposit will be deemed to be existing as from the creation of the Construction Deposit. However, it is also conceivable that such part of the Mortgage Loan concerned is considered drawn down only when and to the extent the Construction Deposit is paid out to or on behalf of the Borrower in which case such part of the Mortgage Receivable is deemed to be a future receivable until the Construction Deposit is paid out.

If the part of the Mortgage Receivable relating to the Construction Deposit is to be regarded as a future receivable, the assignment and/or pledge of such part will not be effective if the Construction Deposit is paid out on or after the date on which the Seller is declared bankrupt or granted a suspension of payments. In that case, the part of the Mortgage Receivable that is not subject to the assignment or pledge will no longer be available to the Issuer.

Set-off by Borrowers may affect the proceeds under the Mortgage Receivables

The Issuer is exposed to the risk of receiving reduced amounts due to set-off rights of the Borrowers. Under Dutch law a debtor has a right of set-off if it has a claim which corresponds to its debt to the same counterparty and it is entitled to pay its debt as well as to enforce payment of its claim. Subject to these requirements being met, each Borrower will, prior to notification of the assignment of the Mortgage Receivable to the Issuer having been made, be entitled to set off amounts due and payable by the Seller to it (if any) with amounts it owes in respect of the Mortgage Receivable. As a result of the set-off of amounts due and payable by the Seller to the Borrower with amounts the Borrower owes in respect of the Mortgage Receivable, the Mortgage Receivable will, partially or fully, be extinguished (*gaat teniet*) without the Issuer actually having received a cash payment in respect thereof which it could use towards satisfaction of its obligations under, *inter alia*, the Notes. Set-off by Borrowers could thus lead to losses under the Notes. The legal requirements for set-off are met in respect of the Construction Deposits.

After assignment of the Mortgage Receivables to the Issuer and notification thereof to a Borrower, such Borrower will also have set-off rights vis-à-vis the Issuer, provided that the legal requirements for set-off are met (see above), and further provided that (a) the counterclaim of the Borrower results from

the same legal relationship as the relevant Mortgage Receivable or (b) the counterclaim of the Borrower has been originated (*opgekomen*) and become due (*opeisbaar*) prior to the assignment of the Mortgage Receivable and notification thereof to the relevant Borrower. The question whether a court will come to the conclusion that the Mortgage Receivable and the claim of the Borrower against the Seller result from the same legal relationship will depend on all relevant facts and circumstances involved. But even if these would be held to be different legal relationships, set-off will be possible if the counterclaim of the Borrower has originated (*opgekomen*) and become due (*opeisbaar*) prior to notification of the assignment, and, further, provided that all other requirements for set-off have been met (see above). The Construction Deposits result from the same legal relationship as the relevant Mortgage Receivables and, therefore, the legal requirements for the relevant Borrower being able to invoke set-off rights against the Issuer in respect of such Construction Deposits will be met.

If notification of the assignment of the Mortgage Receivables is made after the bankruptcy or suspension of payments of the Seller having become effective, it is defended in legal literature that the Borrower will, irrespective of the notification of the assignment, continue to have the broader set-off rights afforded to it in the Dutch Bankruptcy Act (*Faillissementswet*). Under the Dutch Bankruptcy Act (*Faillissementswet*) a person which is both debtor and creditor of the bankrupt entity can set-off its debt with its claim, if each claim (a) came into existence prior to the moment at which the bankruptcy became effective or (b) resulted from transactions with the bankrupt entity concluded prior to the bankruptcy becoming effective.

The Mortgage Receivables Purchase Agreement provides that if a Borrower sets off amounts due to it by the Seller against the relevant Mortgage Receivable and, as a consequence thereof, the Issuer does not receive the amount which it would otherwise have been entitled to receive in respect of such Mortgage Receivable, the Seller will pay to the Issuer an amount equal to the difference between (a) the amount which the Issuer would have received in respect of the relevant Mortgage Receivable if no set-off had taken place and (b) the amount actually received by the Issuer in respect of such Mortgage Receivable. Receipt of such amount by the Issuer from the Seller is subject to the ability of the Seller to actually make such payments. There is a risk that the Seller is not able to make such payments which would affect the ability of the Issuer to perform its payment obligations under the Notes.

Provided certain conditions are met under the relevant Mortgage Loans, the Borrower has the right to require the Seller to pay out the Construction Deposit to or on behalf of such Borrower. Under Dutch law a creditor is entitled to dissolve (*ontbinden*) an agreement and/or demand payment of damages if its debtor defaults in the performance of its obligations under such agreement. A possible bankruptcy involving the Seller in itself would not be grounds for the Borrower to dissolve the agreements under which the Mortgage Loans arise unless the parties have agreed otherwise. Should the Seller in that case make the Construction Deposits available to the Borrower in the manner agreed between the Seller and the Borrower, the Borrower will in turn have to perform its obligations to the Seller under the Mortgage Receivables (including in respect of the amounts placed on the Construction Deposit). Upon a bankruptcy or suspension of payments involving the Seller, the Borrower is entitled to require the Seller's bankruptcy trustee to confirm within a reasonable term whether it will perform the Seller's obligations under the relevant Mortgage Loan, i.e. making available to the Borrower the Construction Deposit. The Borrower can request that the Seller's bankruptcy trustee provides in these circumstances security for the performance of its obligations. If the Seller's bankruptcy trustee fails to

provide such confirmation or such security the Seller's bankruptcy trustee (and possibly also the Issuer and/or the Security Trustee) will lose its/their right to demand performance by the Borrower of his obligations to the extent relating to the relevant Construction Deposit. The Borrower, however, will not be released from his payment obligations in respect of the amounts that it has received under the relevant Mortgage Loan from the Seller by a payment out of the relevant Construction Deposit.

In addition, if the Seller would for any reason fail to fulfil its obligations relating to the Construction Deposits, the Borrower could invoke rights of set-off or other defences vis-à-vis the Issuer, which would reduce the proceeds of the Mortgage Receivables. In such event, provided an Assignment Notification Event has occurred, the Issuer is entitled under the terms of the Construction Deposits Guarantee to invoke the Construction Deposits Guarantee for payment by the Construction Deposits Guarantor to it at first written request of an amount equal to the outstanding payment obligations of the Seller to the Borrower with respect to the relevant Construction Deposits (if any). Receipt of such amount by the Issuer under the Construction Deposit Guarantee is subject to the ability of the Construction Deposit Guarantor to actually make such payments. This may result in the Issuer not having sufficient funds to meet its payment obligations under the Notes.

For specific set-off issues relating to Life Mortgage Loans, Switch Mortgage Loans and Savings Mortgage Loans reference is made to *Risks related to Insurance Policies* below in this section.

Risks related to Mortgages and Borrower Pledges

Mortgages

The Mortgage Receivables sold to the Issuer will be secured by Mortgages which not only secure the initial loan granted to the Borrower, but also other liabilities and monies that the Borrower, now or in the future, may owe to the Seller (the so-called All Moneys Mortgages).

Under Dutch law a mortgage right is an accessory right (*afhankelijk recht*) which follows by operation of law the receivable with which it is connected. Furthermore, a mortgage right is an ancillary right (*nevenrecht*) and the assignee of a receivable secured by an ancillary right will have the benefit of such right, unless the ancillary right by its nature is, or has been construed as, a purely personal right of the assignor or such transfer is prohibited by law. However, Dutch legal commentators have different views on whether, in the event of assignment or pledge of a receivable secured by an All Moneys Mortgage, the mortgage right will follow such receivable. Based upon case law, the prevailing view has been for a long time that an All Moneys Mortgage will only follow the receivable which it secures if the relationship between the bank and a borrower has been terminated in such a manner that following the transfer, the bank cannot create or obtain new receivables against the borrower. However, in recent legal literature this view is generally disputed and it is argued, in particular where the mortgage deed indicates that the parties intended this to happen, that the All Moneys Mortgage will (partially) follow the receivable to the extent that it has been assigned, irrespective of whether the banking relationship between the bank and the borrower has terminated.

In the Mortgage Receivables Purchase Agreement the Seller represents and warrants that, upon creation of the Mortgages securing the Mortgage Receivables, the Mortgage Conditions contained a provision to the effect that, upon assignment or pledge of the relevant receivable, in whole or in part,

the Mortgage will *pro rata* follow such receivable as an ancillary right. This provision is a clear indication of the intention of the parties in respect of assignment and pledge of the receivable. In the determination of whether an All Moneys Mortgage follows the receivable to which it is connected, the wording of the Mortgage Conditions in the relevant mortgage deed is an all important factor. The inclusion of this provision in the Mortgage Conditions therefore provides strong support for the view that, in this case, the Mortgage will follow the Mortgage Receivable on a *pro rata* basis upon assignment or pledge as an ancillary right, albeit that there is no conclusive case law which supports this view.

If the All Moneys Mortgages would (*pro rata*) have followed the Mortgage Receivables upon assignment or pledge, this would imply that the Mortgages may be co-held by the Seller and the Issuer in respect of which the rules applicable to co-ownership (*gemeenschap*) apply. The Dutch Civil Code provides for various mandatory rules applying to such co-owned rights. In the Mortgage Receivables Purchase Agreement the Seller, the Issuer and the Security Trustee will agree that the Issuer and/or the Security Trustee, as the case may be, will manage and administer such co-held rights. It is uncertain whether the foreclosure of the Mortgages will be considered as day-to-day management, and, consequently whether, upon the Seller being declared bankrupt or being granted a suspension of payments, the consent of the Seller's bankruptcy trustee or administrator may be required for such foreclosure. The Seller, the Issuer and the Security Trustee will agree in the Mortgage Receivables Purchase Agreement that in case of foreclosure the share (*aandeel*) in each co-held Mortgage of the Security Trustee and/or the Issuer will be equal to the Outstanding Principal Amount of the Mortgage Receivable, increased with interest and costs, if any, and the share of the Seller will be equal to the Net Foreclosure Proceeds less the Outstanding Principal Amount of the Mortgage Receivables, increased with interest and costs, if any. It is uncertain whether this arrangement will be enforceable. In this respect it will be agreed that in case of a breach by the Seller of its obligations under these arrangements or if any of such agreements are dissolved, void, nullified, or ineffective for any reason in respect of the Seller, it shall compensate the Issuer and/or the Security Trustee, as the case may be, forthwith for any and all loss, cost, claim, damage and expense whatsoever which the Issuer and/or the Security Trustee, as the case may be, incurs as a result thereof. Receipt of such amount by the Issuer and/or the Security Trustee is subject to the ability of the Seller to actually make such payments. There is a risk that the Seller is not able to make such payment which would affect the ability of the Issuer to perform its payment obligations under the Notes.

If the All Moneys Mortgages would not (*pro rata*) have followed the relevant Mortgage Receivables upon assignment by the Seller, this means that it is uncertain, depending on the specific facts and circumstances involved, (i) whether the Issuer and, consequently, the Security Trustee (as pledgee), would have the benefit of a Mortgage securing such Mortgage Receivables and (ii) if subsequently a Borrower fails to comply with its obligations under the relevant Mortgage Loan, whether the Issuer or the Security Trustee (as the case may be) would be in a position to foreclose the All Moneys Mortgage (respectively, as legal owner and as pledgee of the relevant Mortgage Receivables). If not, the assistance of the Seller's administrator (in the case of suspension of payments) or bankruptcy trustee (in the case of bankruptcy) would be required to effect a foreclosure which would, in whole or in part, be for the benefit of the Issuer or the Security Trustee, as the case may be. It is uncertain whether such assistance would be forthcoming.

It is noted that if the Issuer does not have the benefit of the Mortgage, it will not be entitled to claim under the associated NHG Guarantee (if any).

Borrower Pledges

What is stated in the various paragraphs under *Mortgages* above in this section in respect of Mortgages applies *mutatis mutandis* in respect of a Borrower Pledge granted by the Borrower as security for its payment obligations towards the Seller where such right of pledge qualifies as an All Moneys Pledge, unless otherwise stipulated below.

Risks related to Insurance Policies

The Mortgage Loans which in whole or in part consist of a Life Mortgage Loan, a Savings Mortgage Loan or a Switch Mortgage Loan have the benefit of a Life Insurance Policy, Savings Insurance Policy, or Savings Investment Insurance Policy, respectively. The Mortgage Loans which do not include such a Life Mortgage Loan, Savings Mortgage Loan or Switch Mortgage Loan will have the benefit of a separate Risk Insurance Policy in the event and to the extent the relevant Mortgage Loan exceeds 100 per cent. of the Foreclosure Value of the relevant Mortgaged Asset, except in the event of NHG Mortgage Loan Parts which do not include a Life Mortgage Loan, Savings Mortgage Loan or Switch Mortgage Loan which will have the benefit of a separate Risk Insurance Policy in the event and to the extent the relevant Mortgage Loan exceeds eighty (80) per cent. of the Foreclosure Value of the relevant Mortgaged Asset.

In this paragraph, certain legal issues relating to the effects of the assignment of the Mortgage Receivables on the Insurance Policies are set out. Investors should be aware that it is possible that (i) the Issuer will not benefit from the Insurance Policies and/or (ii) the Issuer may not be able to recover any amounts from the relevant Borrower if the relevant Insurance Company defaults in its obligations as further described in this paragraph. As a consequence thereof the Issuer may not have a claim for such amounts on the Borrower and may, therefore, not have the benefit of the Mortgage securing such claim. In such case the rights of the Security Trustee will be similarly affected.

Pledge

Many of the Mortgage Loans have the benefit of an Insurance Policy. All rights of the Borrowers under the Insurance Policies have been pledged to the Seller. However, the Issuer has been advised that it is possible that the right to receive payment, including the commutation payment (*afkoopsom*), under the Insurance Policies will be regarded by a Dutch court as a future right. The pledge of a future right is, under Dutch law, not effective if the pledgor is declared bankrupt or granted a suspension of payments prior to the moment such right comes into existence. This means that it is uncertain whether such right of pledge will be effective. Even if the pledge over the rights under the Insurance Policies was effective, it would be uncertain whether such right of pledge would pass to the Issuer or, as the case may be, the Security Trustee upon the assignment or pledge of the Mortgage Receivables, where such pledge qualifies as an All Moneys Pledge (see *Risks related to Mortgages and Borrower Pledges* above in this section).

Appointment of beneficiary

The Seller has been appointed as beneficiary under the Insurance Policies up to the amount owed by the Borrowers to the Seller at the moment when the insurance proceeds under the Insurance Policies become due and payable by the relevant Insurance Company, except for cases where another beneficiary has been appointed who will rank ahead of the Seller. In such cases such beneficiary has provided a Borrower Insurance Proceeds Instruction. It is unlikely that the Beneficiary Rights will follow the Mortgage Receivables upon assignment or pledge thereof to the Issuer or the Security Trustee. The Beneficiary Rights will, to the extent legally possible, be assigned by the Seller to the Issuer and will be pledged by the Issuer to the Security Trustee (see section 4.7 (*Security*)), but it is uncertain whether this assignment and pledge will be effective.

Because of the uncertainty as to whether the Issuer becomes beneficiary of the Insurance Policies and whether the pledge of the Beneficiary Rights is effective, the Issuer will enter into the Beneficiary Waiver Agreement with the Seller and the Security Trustee. In the Beneficiary Waiver Agreement the Seller, subject to the condition precedent of the occurrence of an Assignment Notification Event, waives its rights as beneficiary under the Insurance Policies and appoints as first beneficiary (i) the Issuer subject to the dissolving condition of the occurrence of a Pledge Notification Event as referred to in clause 7 of the Issuer Mortgage Receivables Pledge Agreement and (ii) the Security Trustee under the condition precedent of the occurrence of a Pledge Notification Event referred to in the Issuer Mortgage Receivables Pledge Agreement. It is, however, uncertain whether such waiver and appointment will be effective, mainly because it is unclear whether or not the right to change the appointment can be validly assigned to the Issuer or is included in the rights of the Seller as pledgee or as beneficiary under the Insurance Policies. In view of this, the Seller will undertake to use its best efforts following an Assignment Notification Event to obtain the co-operation of all relevant parties to appoint the Issuer or the Security Trustee, as the case may be, as first beneficiary under the Insurance Policies. It is uncertain whether such co-operation will be forthcoming. In the event that a Borrower Insurance Proceeds Instruction exists, the Seller will undertake in the Beneficiary Waiver Agreement, following an Assignment Notification Event, to use its best efforts to change the payment instruction in favour of (i) the Issuer subject to the dissolving condition of the occurrence of a Pledge Notification Event and (ii) the Security Trustee under the condition precedent of the occurrence of a Pledge Notification Event. If the Issuer or the Security Trustee, as the case may be, has not become beneficiary of the Insurance Policies and the pledge and the waiver of the Beneficiary Rights are not effective, any proceeds under the Insurance Policies will be payable to the Seller or to another beneficiary, instead of the Issuer or the Security Trustee, as the case may be. If the proceeds are paid to the Seller, it will be obliged to pay the amount involved to the Issuer or the Security Trustee, as the case may be. There is a risk that the Seller is not able to make such payment which would affect the ability of the Issuer to perform its payment obligations under the Notes. If the proceeds are paid to the Seller and the Seller does not pay the amount involved to the Issuer or the Security Trustee, as the case may be, e.g. in the case of bankruptcy of the Seller or if the proceeds are paid to another beneficiary instead of the Issuer or the Security Trustee, as the case may be, this may result in the amount paid under the Insurance Policies not being applied in reduction of the Mortgage Receivable. This may lead to the Borrower invoking defences against the Issuer or the Security Trustee, as the case may be, for the amounts so received by the Seller as further discussed under *Set-off or defences*

in relation to Life Mortgage Loans, Savings Mortgage Loans and Switch Mortgage Loans below in this section.

Insolvency of the Insurance Companies

If any of the Insurance Companies is no longer able to meet its obligations under the Insurance Policies, e.g. in case it is declared bankrupt or subjected to emergency regulations, this could result in the amounts payable under the Insurance Policies not or only partly being available for application in reduction of the relevant Mortgage Receivables. This may lead to the Borrowers invoking set-off rights and defences as further discussed under *Set-off or defences in relation to Life Mortgage Loans, Savings Mortgage Loans and Switch Mortgage Loans* below in this section.

Set-off or defences in relation to Life Mortgage Loans, Savings Mortgage Loans and Switch Mortgage Loans

If the amounts payable under the Insurance Policies do not serve as a reduction of the Mortgage Receivable (see *Appointment of beneficiary* and *Insolvency of the Insurance Companies* above in this section), the Borrower may try to invoke a right of set-off of the amount due under the Mortgage Receivable with amounts payable under or in connection with the relevant Insurance Policy.

In order to successfully invoke a right of set-off, the Borrowers will need to comply with the applicable legal requirements. One of these requirements is that the relevant Borrower should have a claim which corresponds to his debt to the same counterparty. The Insurance Policies are contracts between the Insurance Companies and the Borrowers on the one hand and the Mortgage Loans are contracts between the Seller and the Borrowers on the other hand. Therefore, in order to invoke a right of set-off the Borrowers would have to establish that the Seller and the Insurance Companies are to be regarded as one legal entity or that, based upon interpretation of case law, set-off is allowed, even if the Seller and the Insurance Companies are not considered as one legal entity, since the Mortgage Loans and the Insurance Policies are to be regarded as one interrelated relationship.

Furthermore, the Borrowers should have a counterclaim. If one of the Insurance Companies is declared bankrupt or is subjected to emergency regulations, the Borrower will have the right to unilaterally terminate the Insurance Policy and to receive a commutation payment (*afkoopsom*). These rights are subject to the Borrower Pledge (see *Pledge* above). However, despite this pledge it may be argued that the relevant Borrower will be entitled to invoke a right of set-off for the commutation payment. Apart from the right to terminate the Insurance Policies, the Borrowers are also likely to have the right to rescind the Insurance Policies and to claim restitution of premiums paid and/or supplementary damages. It is uncertain whether such claim is subject to the Borrower Pledge. If not, the Borrower Pledge would not obstruct a right of set-off with such claim by the Borrowers.

Even if the Borrowers cannot successfully invoke a right of set-off, they may invoke other defences vis-à-vis the Seller, the Issuer and/or the Security Trustee. The Borrowers will have all defences afforded by Dutch law to debtors in general. The Borrowers could, *inter alia*, argue that it was the intention of the parties involved - at least that they could rightfully interpret the mortgage documentation and the promotional materials in such manner - that the Mortgage Loan and the relevant Insurance Policy are to be regarded as one interrelated legal relationship, and could on this basis claim a right of annulment

or rescission of the Mortgage Loan or that the Mortgage Receivable would be (fully or partially) repaid by means of the proceeds of the Insurance Policy and that, failing such proceeds being so applied, the Borrower is not obliged to repay the (corresponding) part of the Mortgage Receivable. On the basis of similar reasoning, Borrowers could also argue that the Mortgage Loans and the Insurance Policies were entered into as a result of 'error' (*dwaling*) or that it would be contrary to principles of reasonableness and fairness (*redelijkheid en billijkheid*) for a Borrower to be obliged to repay the Mortgage Receivable to the extent that he has failed to receive the proceeds of the relevant Insurance Policy.

Life Mortgage Loans

Although the possibility cannot be disregarded that the courts will honour any set-off or other defences, as described above, made by the Borrowers, if in the case of bankruptcy or emergency regulations of the relevant Insurance Company the Borrowers are not able to recover their claims under their Life Insurance Policies, the Issuer has been advised in respect of Life Mortgage Loans that, in view of the factual circumstances involved, the risk that the courts will honour such set-off or other defences is remote. This view is based on the fact that (i) the relevant Insurance Companies and the Seller are not the same entity; therefore, the legal requirement for set-off that both the debt and the claim are owed and due to the same entity is not met, (ii) such Insurance Companies do not form part of the same group of companies to which the Seller belongs, (iii) there are no marketing ties between the Seller and the Insurance Companies, (iv) the Life Mortgage Loan and the relevant Life Insurance Policy are not sold as one single package, i.e. the Borrowers do have a free choice as to the Insurance Company with which they will take out a Life Insurance Policy in relation to their mortgage loan to be entered into with the Seller, provided that any such insurance company selected is established in the Netherlands and (v) there is no connection, whether from a legal or commercial view, between the Life Mortgage Loans and the relevant Life Insurance Policies other than the relevant Borrower Pledge and Beneficiary Rights. All Life Insurance Policies are taken out with Insurance Companies which do not form part of the same group of companies as the Seller.

Savings Mortgage Loans and Switch Mortgage Loans

In respect of Savings Mortgage Loans and Switch Mortgage Loans the Issuer has been advised that the risk that the invoking of a right of set-off or other defences, as described above, would be successful is substantially greater than in case of Life Mortgage Loans in view, inter alia, of the close connection between such Mortgage Loans and the relevant Insurance Policies and the fact that these Mortgage Loans and Insurance Policies are sold as one single package. However, the Insurance Savings Participation Agreements entered into between the Issuer and each of the Insurance Savings Participants (i.e. ASR Levensverzekering N.V. and Obvion) in respect of the Savings Mortgage Loans and Switch Mortgage Loans will provide that in case of set-off or defences by Borrowers, including but not limited to a right of set-off or defence based upon a default in the performance by the relevant Savings Insurance Company (i.e. ASR Levensverzekering N.V. or Interpolis) of its obligations under the relevant Savings Insurance Policy or Savings Investment Insurance Policy, as a consequence of which the Issuer has not received any amount due and outstanding, the relevant Insurance Savings Participation of the Insurance Savings Participant will be reduced by an amount equal to the amount which the Issuer has failed to receive. The amount of the Insurance Savings Participation in respect of

a Savings Mortgage Loan or Switch Mortgage Loan is equal to the amount of Savings Premiums scheduled to be received by the Issuer plus the accrued yield on such amount (see section 7.6 (Sub-participation)), provided that the Insurance Savings Participant will have paid all amounts due under the relevant Insurance Savings Participation Agreement to the Issuer. Therefore, normally the Issuer would not suffer any loss if the Borrower was to successfully invoke any such right of set-off or defence, if and to the extent that the amount for which the Borrower was to successfully invoke set-off or defences did not exceed the amount of the Insurance Savings Participation. It is of note, however, that in respect of the Switch Mortgage Loans and the Savings Mortgage Loans to which a Savings Insurance Policy of Interpolis is connected, Obvion and not the relevant Insurance Company (i.e. Interpolis) is the Insurance Savings Participant which means that there is a risk that an amount equal to the Savings Premiums can no longer be paid to the Issuer if Obvion becomes insolvent. Obvion has undertaken to use its best efforts upon the occurrence of an Assignment Notification Event to (i) find a substitute insurance savings participant, provided that each Credit Rating Agency has provided a Credit Rating Agency Confirmation in respect of such substitution or, alternatively, to (ii) repurchase and accept re-assignment of the Mortgage Receivables resulting from the Switch Mortgage Loans and Savings Mortgage Loans to which a Savings Investment Insurance Policy or Savings Insurance Policy of Interpolis is connected. However, if the Seller fails to find a substitute insurance savings participant or to repurchase and accept re-assignment the above arrangement will not apply to any Savings Premiums paid by the Borrower in respect of the relevant Savings Mortgage Loan or Switch Mortgage Loan after Obvion becoming insolvent (and therefore unable to comply with its obligations under the relevant Insurance Savings Participation Agreement) and the accrued yield thereon.

Investment Mortgage Loans

Under the Investment Mortgage Loans the Borrowers do not repay principal prior to maturity of the Mortgage Loans. Instead the Borrowers undertake to invest agreed amounts in certain investment funds. See section 6.2 (*Description of Mortgage Loans*).

Under the Investment Mortgage Loans the investments in certain investment funds are effected by the Borrowers paying certain agreed amounts to an entity (usually a foundation (*stichting*) which qualifies as a so-called 'effectengiro' or 'beleggersgiro' (see below) (each a **Custodian**)), which amounts are subsequently applied to acquire participations (*deelnemingsrechten*) in certain selected investment funds in accordance with the instructions of the relevant Borrowers. Each of the investment funds are managed by separate legal entities. The participations that are purchased are credited to the Borrower Investment Accounts of the relevant Borrowers. It is the intention that the Mortgage Receivables will be fully or partially repaid with the proceeds of the investments. In this structure the Borrowers have a claim on the relevant Custodian for the value of the investments. The purpose of each of the Custodians is to hold participations in investment funds for custody purposes and normally its obligations to holders of the Borrower Investment Accounts should be equal to the value of the corresponding participations of the relevant Custodian in the investment funds. Provided that each of the Custodians is in full compliance with all applicable laws, in particular the Wft, and provided the limitations on the scope of its business as set out in its corporate objective (pursuant to which it will be prohibited from conducting any commercial activity other than its activities as custodian in respect of the securities held for the Borrowers and the keeping of the books in respect of the securities accounts) are observed, the investments made by the Borrowers through any of the Custodians will

form part of the estate of the relevant Custodian and each of the Custodians can be considered a bankruptcy remote entity. Should any of the Custodians not be able to meet its obligations towards the Borrowers, this could lead to set-off or defences by Borrowers similar to those described under *Risks related to Insurance Policies*, except for the set-off or defences described in *Appointment of beneficiary* in respect of the situation where the Seller is insolvent.

Pledge

All rights of a Borrower in connection with the relevant Borrower Investment Account have been pledged to the Seller in order to secure the same liabilities as the relevant Mortgage. The observations made above in relation to *Risks related to Mortgages and Borrower Pledges* apply equally here. Furthermore, any rights of pledge on the rights of the relevant Borrower in connection with the Borrower Investment Accounts to the extent the rights of the Borrower qualify as future claims, such as options (*opties*) will not be effective.

Bank Savings Mortgage Loans

Each Bank Savings Mortgage Loan has the benefit of the balance standing to the credit of the associated Bank Savings Account which is held at the Bank Savings Account Bank. The relevant Mortgage Loan and Bank Savings Account are sold as one single package. In respect of the balance standing to the credit of a Bank Savings Account, it is the intention that at the maturity of the relevant Bank Savings Mortgage Loan, such balance will be used to repay the relevant Bank Savings Mortgage Loan, whether in full or in part. With respect to each Bank Savings Mortgage Loan, if (i) the Seller or (ii) the Bank Savings Account Bank, has been declared bankrupt or has become subject to a suspension of payments or, as the case may be, emergency regulations, the amounts the Borrower owes in respect of the Mortgage Receivables will be subject to, respectively, (a) a contractual set-off, as agreed between the Seller, the Bank Savings Account Bank and the relevant Borrower, or (b) set-off by operation of law, whereby, in respect of both (a) and (b), the amounts owed by the Borrower under the Bank Savings Mortgage Loan will be reduced with the balance standing to the credit of the relevant Bank Savings Account. If the contractual set-off as described under (a) would not be enforceable or effective for whatever reason upon the Seller being declared bankrupt or becoming subject to a suspension of payments or emergency regulations, as the case may be, the Borrower may invoke other defences vis-à-vis the Seller as set forth in paragraphs *Risks related to Insurance Policies; Set-off or defences in relation to Life Mortgage Loans, Savings Mortgage Loans and Switch Mortgage Loans* above. The Issuer has been advised that after notification of the assignment to the Borrower, the Borrower will be entitled to invoke such contractual set-off right or other defences against the Issuer or the Security Trustee, as the case may be, as the Seller, the Bank Savings Account Bank and the relevant Borrower have agreed and acknowledged that the Bank Savings Mortgage Loan and the associated Bank Savings Account are to be regarded as one interrelated legal relationship. Based on the foregoing, if the Seller or the Bank Savings Account Bank has been declared bankrupt or has become subject to a suspension of payments or, as the case may be, emergency regulations, the Mortgage Receivables owed by Borrowers that have entered into a Bank Savings Mortgage Loan will be extinguished (*tenietgaan*) up to the amount of the balances standing to the credit of the relevant Bank Savings Accounts. This could lead to losses under the Notes. In view hereof, the Bank Savings Participation Agreement will be entered into by the Seller in its capacity as Bank Savings Participant

with the Issuer and the Security Trustee, which agreement will be materially in the same form as the Insurance Savings Participation Agreements as described in paragraphs *Risks related to Insurance Policies, Savings Mortgage Loans and Switch Mortgage Loans* above. Therefore, normally the Issuer would not suffer any loss in respect of a Bank Savings Mortgage Loan in case the set-off as described above under (a) or (b) takes place or the relevant Borrower successfully invokes other defences, if and to the extent that the amount for which the set-off takes place or the Borrower successfully invokes other defences did not exceed the amount of the relevant Bank Savings Participation. Obvion has undertaken to use its best efforts upon the occurrence of an Assignment Notification Event to (i) find a substitute Bank Savings Participant, provided that each Credit Rating Agency has provided a Credit Rating Agency Confirmation in respect of such substitution or, alternatively, to (ii) repurchase and accept re-assignment of the Mortgage Receivables resulting from the Bank Savings Mortgage Loans. However, if the Seller fails to find a substitute Bank Savings Participant or to repurchase and accept re-assignment the above arrangement will not apply to any Bank Savings Deposits paid by the Borrower in respect of the relevant Bank Savings Mortgage Loan after Obvion becoming insolvent (and therefore unable to comply with its obligations under the Bank Savings Participation Agreement) and the accrued yield thereon.

Pledge and re-pledge

All rights of a Borrower in connection with the relevant Bank Savings Account have been pledged to the Seller in order to secure the same liabilities as the relevant Mortgage. The observations made above in relation to *Mortgages* apply equally here. Furthermore, any rights of pledge on the rights of the relevant Borrowers in connection with the Bank Savings Accounts to the extent the rights of the Borrowers qualify as future claims will not be effective.

The Seller has re-pledged the rights in connection with Bank Savings Accounts to the Bank Savings Account Bank which have been pledged to it by the relevant Borrowers as security for its payment obligations under the co-operation and ancillary agreements entered into between the Seller and the Bank Savings Account Bank in relation to the Bank Savings Mortgage Loans. As a result the balances standing to the credit of the Bank Savings Accounts may be used by the Bank Savings Account Bank to fulfil the outstanding payment obligations of the Seller towards the Bank Savings Account Bank upon its bankruptcy and it being granted a suspension of payments which will result in each of the relevant Borrowers acquiring a claim against the Seller up to an amount equal to the balance standing to the credit of the relevant Bank Savings Account. These claims will be automatically off-set with the amounts owed by such Borrowers under the Bank Savings Mortgage Loans as set forth above.

Reduced value of investments and incomplete or misleading marketing material

The value of investments made by the Insurance Companies in connection with the Life Insurance Policies and Savings Investment Insurance Policies or made on behalf of the Borrowers under the Investment Mortgage Loans, may not provide the Borrower with sufficient proceeds to fully repay the related Mortgage Receivables at their maturity. Further, if the development of the value of these investments is not in line with the expectations of a Borrower, such Borrower may invoke set-off or other defences against the Seller or the Issuer, as the case may be, by arguing that he has not been properly informed of the risks involved in the investments. Apart from the general obligation of

contracting parties to provide information, there are several provisions of Dutch law applicable to offerors of financial products, such as Investment Mortgage Loans, Life Mortgage Loans and Switch Mortgage Loans. In addition, several codes of conduct apply on a voluntary basis. On the basis of these provisions offerors of these products (and intermediaries) have a duty, *inter alia*, to provide the customers with accurate, complete and non-misleading information about the product, the costs and the risks involved. These requirements have become more strict over time. A breach of these requirements may lead to a claim for damages from the customer on the basis of breach of contract or tort or the relevant contract may be dissolved (*ontbonden*) or nullified or a Borrower may claim set-off or defences against the Seller or the Issuer (or the Security Trustee). The merits of any such claim will, to a large extent, depend on the manner in which the relevant Mortgage Loans have been marketed by the Seller and/or its intermediaries and the promotional material provided to the Borrower. Depending on the relationship between the offeror and any intermediary involved in the marketing and sale of the product, the offeror may be liable for actions of the intermediaries which have led to a claim. The risk of such claims being made increases, if the value of investments made under Investment Mortgage Loans or Life Insurance Policies or Savings Investment Insurance Policies is not sufficient to redeem the relevant Mortgage Loans.

In this respect it is further of note that in respect of so-called investment insurance policies, particularly those which were entered into prior to 1 January 2008, the promotional material and contract conditions provided by the relevant Insurance Company to its customers may have been incomplete or misleading as to costs charged to the customer and the level thereof. The issue relating to the costs and lack of transparency may have been solved to a certain extent by measures taken by an Insurance Company to decrease the costs in accordance with a recommendation thereto by the Financial Services Ombudsman issued in 2008 and additional measures. However, participation in such a compensation arrangement generally does not affect the right of a customer to instigate legal proceedings against an Insurance Company or other parties in respect of the issue connected to the costs or other issues. In this respect, it is noted that various consumer organizations take the position that the recommendation by the Financial Services Ombudsman and additional measures that have been offered may be insufficient. The existing case law – which is limited and mainly from the lower courts and quite casuistic – points in the direction of a duty of care of insurers and/or intermediaries that could result in liability for compensation in addition to measures taken in accordance with the recommendation referred to above. Therefore, Insurance Companies and other parties that are involved, currently still run a risk to be subject of claims brought by customers with investment insurance policies in legal proceedings or complaints procedures.

The above mentioned investment insurance policies may also be linked to Life Mortgage Loans and Switch Mortgage Loans granted by the Seller. If Life Insurance Policies or Savings Investment Insurance Policies related to the Mortgage Loans would for the reasons described in this paragraph be dissolved or terminated, this will affect the collateral granted to secure these Mortgage Loans (e.g. the Beneficiary Rights would cease to exist). The Issuer has been advised that, depending on the circumstances involved, in such case the Mortgage Loans connected thereto can possibly also be dissolved or nullified, but that this will be different depending on the particular circumstances involved. Even if the Mortgage Loan is not affected, the Borrower/insured may invoke set-off or other defences against the Issuer. The analysis in that situation is similar to the situation in case of insolvency of the

Insurance Company, except if the Seller is itself liable, whether jointly with the Insurance Company or separately, vis-à-vis the Borrower/insured. In this situation, which may depend on the involvement of the Seller in the marketing and sale of the insurance policy, set-off or defences against the Issuer could be invoked, which will probably only become relevant if the Insurance Company and/or the Seller will not indemnify the Borrower. Any such set-off or defences may lead to losses under the Notes.

Changes to tax deductibility of interest may result in adverse effects on house prices and an increase of defaults, prepayments and repayments

In the Netherlands, subject to a number of conditions, mortgage loan interest payments are partly or wholly deductible from the income of the Borrowers for income tax purposes. The period allowed for deductibility is restricted to a term of thirty (30) years and it only applies to mortgage loans in relation to owner occupied properties. Interest in relation to any equity extractions, after a refinancing or otherwise, is not deductible. If a new property is bought with an increased mortgage loan, interest may only be deducted if and to the extent the increase in the amount borrowed under a mortgage loan is used to finance the difference between the purchase price of the new property (including expenses relating to the acquisition of that property) and the proceeds of the previous property (after deduction of expenses relating to the sale of that property).

For mortgage loans originated since 1 January 2013 – subject to certain grandfathering rules in case on that date a purchase or construction agreement has been entered into but no legal transfer has taken place yet – interest is deductible only in respect of mortgage loans which amortise over thirty (30) years or less and are being amortised on at least an annuity basis. In addition to the mortgage loan, a second loan can be taken to a maximum of fifty (50) per cent. of the mortgage loan. With this additional loan the property is not being financed, but the (repayments on the) mortgage loan are. The interest on this additional loan will not be deductible. Finally, an increasing rate of deemed income a property generates (*huurwaardeforfait*) implies a reducing net tax benefit as a result of interest deductions.

As from 2014, the maximum interest deductibility for mortgage loans for tax purposes will decrease annually at a rate of 0.5 percent-point from the main income tax rate of 52 per cent. down to 38 per cent. in 2042.

Any change or any other or further change to such deductibility and the right to deduct mortgage loan interest payments, may among other things have an effect on the house prices and the rate of recovery and, depending on the changes in treatment of existing mortgage loans, may result in an increase of defaults, and/or an increase or decrease of prepayments and repayments.

Prepayment penalties that are incorporated in mortgage loan contracts tend to lower prepayment rates in the Netherlands. Penalties are generally calculated as the net present value of the interest loss to the lender upon prepayment. Lower rates of prepayment may lead to slower repayments of the principal amount outstanding of mortgage loans in the Netherlands. As a result, the exposure of the Seller to the Borrowers of the Mortgage Loans tends to remain high over time and the Issuer will have

a similar position following the acquisition of the Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement.

The deductibility of mortgage interest remains the subject of political debate in the Netherlands, and hence it remains uncertain if, to what extent and how long such deductibility remains in force.

Long leases

The Mortgages securing the Mortgage Loans may be vested on a long lease (*erfpacht*), as further described under section 6.2 (*Description of Mortgage Loans*).

A long lease will, *inter alia*, end as a result of expiration of the long lease term (in the case of a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease in the event the leaseholder has not paid the remuneration due for a period exceeding two (2) consecutive years or commits a material breach of other obligations under the long lease. If the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the Mortgage will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder against the landowner for such compensation. The amount of the compensation will, *inter alia*, be determined by the conditions of the long lease and may be less than the market value of the long lease.

Enforcement of Dutch security rights

The Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking undisclosed right of pledge granted by the Issuer to the Security Trustee over the Mortgage Receivables (including any parts thereof corresponding with amounts placed on Construction Deposits), including all rights ancillary thereto in respect of the Mortgage Loans and the Beneficiary Rights relating thereto and (ii) a first ranking disclosed pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the Swap Agreement, the Conditional Deed of Novation, the Servicing Agreement, the Issuer Account Agreement, the Cash Advance Facility Agreement, the Participation Agreements, the Beneficiary Waiver Agreement, the Commingling Guarantee, the Construction Deposits Guarantee and in respect of the Issuer Accounts. Notification of the undisclosed right of pledge in favour of the Security Trustee can be validly made after bankruptcy or the granting of a suspension of payments in respect of the Issuer. Under Dutch law the Security Trustee can, in the event of bankruptcy or suspension of payments of the Issuer, exercise the rights afforded by law to pledgees as if there were no bankruptcy or suspension of payments. However, bankruptcy or suspension of payments involving the Issuer would affect the position of the Security Trustee as pledgee in some respects, the most important of which are: (i) payments made by the Borrowers to the Seller or, after notification of the assignment, to the Issuer, prior to notification of the right of pledge over the Mortgage Receivables but after bankruptcy or (preliminary) suspension of payments of the Seller or, as the case may be, the Issuer, will form part of the bankruptcy estate of the Seller or the Issuer, although the pledgee has the right to receive such amounts as a preferential creditor after deduction of certain bankruptcy-related costs, (ii) a mandatory freezing-period of up to four (4) months may apply in the case of bankruptcy or suspension of payments, which, if applicable, would delay the exercise of the right of pledge on the Mortgage Receivables and (iii) the pledgee may

be obliged to enforce its right of pledge within a reasonable period as determined by the judge-commissioner (*rechter-commissaris*) appointed by the court in the case of bankruptcy of the Seller or the Issuer, as the case may be.

To the extent that the receivables pledged by the Issuer to the Security Trustee are future receivables, the right of pledge on such future receivable cannot be invoked against the estate of the Issuer, if such future receivable comes into existence after the Issuer has been declared bankrupt or has been granted a suspension of payments. The Issuer has been advised that the assets pledged to the Security Trustee under the Issuer Rights Pledge Agreement and Issuer Accounts Pledge Agreement may be regarded as future receivables. This would for example apply to amounts paid to the Issuer Accounts following the Issuer's bankruptcy or suspension of payments.

Risk that the interest rate reset rights will not follow the Mortgage Receivables

The Issuer has been advised that a good argument can be made that the right to reset the interest rate on the Mortgage Loans after the termination of the fixed interest period, should be considered as an ancillary right and follows the Mortgage Receivables upon their assignment to the Issuer and the pledge to the Security Trustee, but that in the absence of case law or legal literature this is not certain. To the extent the interest rate reset right passes upon the assignment of the Mortgage Receivables to the Issuer or upon the pledge of the Mortgage Receivables to the Security Trustee, such assignee or pledgee will be bound by the contractual provisions relating to the reset of interest rates. If the interest reset right remains with the Seller, the co-operation of the bankruptcy trustee (in bankruptcy) or administrator (in suspension of payments) would be required to reset the interest rates. It is uncertain whether or when such co-operation will be forthcoming.

Valuations, risks of losses associated with declining property values and the effect on the housing market owing to weakening economic conditions

Valuations commissioned as part of the origination of Mortgage Loans, represent the analysis and opinion of the appraiser performing the valuation at the time the valuation is prepared and are not guarantees of, and may not be indicative of, present or future value. There can be no assurance that another person would have arrived at the same valuation, even if such person used the same general approach to and same method of valuing the property.

The security for the Notes created under the Pledge Agreements may be affected by, among other things, a decline in the value of those properties subject to the Mortgages securing the Mortgage Receivables and investments under the Insurance Policies. No assurance can be given that values of those properties have remained or will remain at the level at which they were on the date of origination of the related Mortgage Loans. In addition, a forced sale of those properties may, compared to a private sale, result in a lower value of such properties. A decline in value may result in losses to the Noteholders if such security is required to be enforced.

To the extent that specific geographic regions within the Netherlands have experienced or may experience in the future weaker economic conditions and housing markets than other regions, a concentration of the loans in such a region could exacerbate certain risks relating to the Mortgage

Loans. These circumstances could affect receipts on the Mortgage Loans and ultimately result in losses on the Notes.

See further sections 6.2 (*Description of Mortgage Loans*) and 6.4 (*Dutch residential mortgage market*).

License requirements under the Wft

Under the Wft, a special purpose vehicle which services (*beheert*) and administers (*uitvoert*) loans granted to consumers, such as the Issuer, must have a license under that act. An exemption from the license requirement is available, if the special purpose vehicle outsources the servicing of the loans and the administration thereof to an entity holding a license under the Wft. The Issuer has outsourced the servicing and administration of the Mortgage Loans and Mortgage Receivables to the Servicer. The Servicer holds a license under the Wft and the Issuer will thus benefit from the exemption. However, if the Servicing Agreement is terminated, the Issuer will need to outsource the servicing and administration of the Mortgage Loans and Mortgage Receivables to another licensed entity or it needs to apply for and hold a license itself. In the latter case, the Issuer will have to comply with the applicable requirements under the Wft. If the Servicing Agreement is terminated and the Issuer has not outsourced the servicing and administration of the Mortgage Loans and Mortgage Receivables to a licensed entity and, in such case, it will not hold a license itself, the Issuer will have to terminate its activities and settle (*afwikkelen*) its existing agreements. There are a number of licensed entities in the Netherlands to which the Issuer could outsource the servicing and administration activities. It remains, however, uncertain whether any of these entities will be willing to perform these activities on behalf of the Issuer.

European Market Infrastructure Regulation (EMIR)

The Issuer will be entering into the Swap Agreement which is an interest rate swap transaction. Regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories (**EMIR**) which entered into force on 16 August 2012 establishes certain requirements for OTC derivatives contracts, including a mandatory clearing obligation, risk-mitigation techniques for OTC derivatives contracts not cleared by a central counterparty and reporting requirements.

Under EMIR, (i) financial counterparties and (ii) non-financial counterparties whose positions in OTC derivatives (excluding hedging positions) exceed a specified clearing threshold must clear OTC derivatives contracts which are declared subject to the clearing obligation through an authorised or recognised central counterparty when they trade with each other or with third country entities. Subject to certain conditions, intragroup transactions will not be subject to the clearing obligation. At this moment central counterparties have been authorised to offer services and activities in the European Union in accordance with EMIR, but OTC derivatives contracts have not yet been declared subject to the clearing obligation. The list of authorised central counterparties can be consulted on ESMA's website.

OTC derivatives contracts that are not cleared by a central counterparty are subject to certain other risk management procedures, including, *inter alia*, arrangements for timely confirmation of OTC derivatives contracts, portfolio reconciliation, dispute resolution and arrangements for monitoring the

value of outstanding OTC derivatives contracts. EMIR also contains requirements with respect to margining. Certain of the risk mitigating requirements provided for in more detailed regulatory technical standards impose obligations on the Issuer in relation to the Swap Agreement.

The same applies with respect to the reporting requirements under EMIR. As of 12 February 2014, counterparties must report all their OTC and exchange traded derivatives contracts to an authorised or recognised trade repository or to the European Securities and Markets Authority. Under the Swap Agreement, the Swap Counterparty undertakes that it shall ensure that the details of the transaction will be reported to the trade repository both on behalf of itself and on behalf of the Issuer. EMIR may, *inter alia*, lead to more administrative burdens and higher costs for the Issuer.

In addition, there is a risk that the Issuer's position in derivatives according to EMIR might in the future exceed the clearing threshold and, consequently, the Swap Agreement may become subject to clearing requirements and margining requirements. This could lead to higher costs or complications if the Issuer enters into a replacement swap agreement or if the Swap Agreement is amended. In view hereof, it should be noted that the Security Trustee may agree, without the consent of the Noteholders, to any modification of any of the provisions of the Transaction Documents which is made in order for the Issuer to comply with its EMIR obligations (see section 4.1 (*Terms and Conditions*)).

Pursuant to Article 12(3) of EMIR any failure by a party to comply with the rules under Title II of EMIR should not make the swap transaction invalid or unenforceable. However, if any party fails to comply with the rules under EMIR it may be liable for a fine. If such a fine is imposed on the Issuer, the Issuer may have insufficient funds to pay its liabilities in full.

3 PRINCIPAL PARTIES

3.1 Issuer

The Issuer was incorporated as a private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*) under Dutch law on 2 June 2014. The official seat (*statutaire zetel*) of the Issuer is in Amsterdam, the Netherlands and its registered office is at Prins Bernhardplein 200, 1097 JB Amsterdam, the Netherlands and its telephone number is +31 20 521 47 77. The Issuer was established for the limited purposes of the issue of the Notes, the acquisition of the Mortgage Receivables and certain related transactions described elsewhere in this Prospectus. The Issuer operates under Dutch law, provided that it may enter into contracts which are governed by the laws of another jurisdiction than the Netherlands.

The Issuer has an authorised share capital of EUR 1.00 of which EUR 1.00 has been issued and is fully paid. The entire issued share capital of the Issuer is held by the Shareholder.

The sole managing director of the Issuer is Intertrust Management B.V.. Intertrust Management B.V. has elected domicile at the registered office of the Issuer at Prins Bernhardplein 200, 1097 JB Amsterdam, telephone number +31 20 521 47 77. The managing directors of Intertrust Management B.V. are R. Posthumus, A.R. van der Veen, D.J.C. Niezing, P. de Langen and O.J.A. van der Nap.

The objectives of Intertrust Management B.V. are (a) advising of and mediation by financial and related transactions, (b) finance company and (c) management of legal entities.

Intertrust Management B.V. belongs to the same group of companies as Amsterdamsch Trustee's Kantoor B.V., being the sole managing director of the Security Trustee, and the same group of companies as Intertrust Administrative Services B.V., being the Issuer Administrator. Therefore, a conflict of interest may arise. In this respect it is of note that in the management agreements entered into by each of the Directors with the entity of which it has been appointed managing director (*statutair directeur*), each of the Directors agrees and undertakes to, *inter alia*, (i) do all that an adequate managing director (*statutair directeur*) should do or should refrain from doing and (ii) refrain from taking any action detrimental to the obligations under any of the Transaction Documents. In addition each of the Directors agrees in the relevant Management Agreement that it will procure that the relevant entity will not enter into any agreement in relation to the Issuer, and/or the Shareholder other than the

Transaction Documents to which it is a party, unless permitted under the Transaction Documents, without the prior written consent of the Security Trustee and that the Security Trustee will not enter into any agreement other than the Transaction Documents to which it is a party, unless permitted under the Transaction Documents, without the prior written consent of the Issuer.

The Issuer has the corporate power and capacity to issue the Notes, to acquire the Mortgage Receivables and to enter into and perform the obligations under the Transaction Documents.

Since its incorporation there has been no material adverse change in the financial position or prospects of the Issuer and the Issuer has not (i) commenced operations, no profits and losses have been made or incurred and it has not declared or paid any dividends nor made any distributions, save for the activities related to its establishment and the securitisation transaction described in this Prospectus nor (ii) prepared any financial statements. There are no legal, arbitration or governmental proceedings involving the Issuer in the last twelve (12) months which may have, or have had, significant effects on the Issuer's financial position or profitability, nor, so far as the Issuer is aware, are any such proceedings pending or threatened against the Issuer.

The financial year of the Issuer coincides with the calendar year. The first financial year shall end on 31 December 2014.

The following table shows the capitalisation of the Issuer as of 26 June 2014 as adjusted to give effect to the issue of the Notes. A copy of the deed of incorporation including the articles of association of the Issuer may be obtained at the specified offices of the Issuer and at the specified offices of the Paying Agents during normal business hours.

The Issuer is not subject to any licence requirement under Section 2:11 of the Wft as amended, due to the fact that the Notes will be offered solely to Professional Market Parties.

The Issuer is not subject to any licence requirement under Section 2:60 of the Wft, as the Issuer has outsourced the servicing and administration of the Mortgage Loans to the Servicer. The Servicer holds a license under the Wft and the Issuer will thus benefit from the exemption.

3.2 Shareholder

The Shareholder is a foundation (*stichting*) incorporated under Dutch law on 7 May 2014. It has its official seat (*statutaire zetel*) in Amsterdam, the Netherlands and its registered office at Prins Bernhardplein 200, 1097 JB Amsterdam, the Netherlands. The Shareholder is registered with the Trade Register under number 60637897.

The objectives of the Shareholder are to, *inter alia*, acquire and hold shares in the share capital of the Issuer and to exercise all rights attached to such shares and to dispose of and encumber such shares. Pursuant to the articles of association of the Shareholder an amendment of the articles of association of the Shareholder requires the prior written consent of the Security Trustee. Moreover, the Director of the Shareholder shall only be authorised to dissolve the Shareholder, (i) after receiving the prior written consent of the Security Trustee and (ii) after the Issuer has been fully discharged for all its obligations by virtue of the Transaction Documents.

The sole managing director of the Shareholder is Intertrust Management B.V. Intertrust Management B.V. has elected domicile at the registered office of the Issuer at Prins Bernhardplein 200, 1097 JB Amsterdam, telephone number +31 20 521 47 77. 3.3 Security Trustee

The Security Trustee is a foundation (*stichting*) incorporated under Dutch law on 7 May 2014. It has its official seat (*statutaire zetel*) in Amsterdam, the Netherlands and its registered office at Prins Bernhardplein 200, 1097 JB Amsterdam, the Netherlands. The Security Trustee is registered with the Trade Register under number 60637773.

The objects of the Security Trustee are (a) to act as agent and/or trustee of the Noteholders and certain other creditors of the Issuer, (b) to acquire security rights as agent and/or trustee and/or for itself, (c) to hold, administer and enforce the security rights mentioned under (b) for the benefit of the Noteholders and certain other creditors of the Issuer and to perform acts and legal acts (including the acceptance of a parallel debt obligation from, *inter alios*, the Issuer) which are or may be related, incidental or conducive to the holding of the above security rights and (d) to perform any and all acts which are related, incidental or which may be conducive to the above.

The sole managing director of the Security Trustee is Amsterdamsch Trustee's Kantoor B.V., a private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*) incorporated under Dutch law and having its official seat (*statutaire zetel*) in Amsterdam, the Netherlands. 3.4 Seller¹ / Originator

Characteristics

Obvion N.V. is an established originator and servicer of Dutch residential mortgages.

As per 9 May 2012 Rabobank has acquired the remaining shares in Obvion from Stichting Pensioenfonds ABP and therefore as per that date Obvion is fully owned by Rabobank (trading as Rabobank Nederland). As a result of Rabobank having full control, Rabobank consolidates Obvion in its financial statements.

Rabobank has a strong commitment for being involved in Obvion. For Rabobank, Obvion is an excellent way to maintain and expand its market share in the Dutch residential mortgage market by selling mortgages through the intermediary channel.

Strategy

Corporate Social Responsibility, which includes customer care, is the heart of Obvion's strategy and all its operations. Obvion sells residential mortgage loans exclusively through independent intermediaries. Obvion is seeking to distinguish itself from competitors based on its strategy 'Obvion+' which results in the following pillars of its policy: high quality products transparency (*transparantie*), reliable advice (*betrouwbaar advies*) and focus on a financially care free (*ontzorgende dienstverlening*) mortgage during the lifetime of the mortgage.

Obvion has implemented the concept of the "integrated application and offering process" called "Obvion Totaal". In this concept applications for mortgage loans as well as applications for various insurance products and Borrower Investment Accounts can be sent to Obvion via the internet. These applications are automatically passed through to the relevant insurance companies and investment managers. Obvion monitors the timely assessment of these applications by these companies and the investment managers and the system sends an integrated offering to the intermediary. Intermediaries are able to monitor the status of their applications via the internet on an ongoing basis.

Instead of contacting and filing applications with two (2) or more companies, the intermediary only has to address Obvion. This integrated application process enables the intermediary to concentrate on its core competence which is providing his customer with professional advice on all kinds of financial planning issues.

The process of sending applications to Obvion and returning offers to the intermediaries is highly automated.

The pricing strategy of Obvion is to be in the top three of the relevant competitors meaning mortgage originators using the same distribution channel and offering the same product range. Obvion provides

¹ Source: Obvion N.V.

the management, servicing and administration of mortgage loans that it has originated and that are either on its own balance sheet or on the balance sheet of third parties.

Organisational structure

Obvion's organisational structure consists of the following departments: Legal, Human Resource Management, Compliance Finance Business Change and Information Management, Business Development, Marketing Sales and Communication, Treasury, Operations.

Operations consists of an Underwriting Department, a Servicing Department, an Arrears and Default Management Department including Anti Fraud, a Service Centre and a Support Team. The Underwriting Department is responsible for assessing the loan applications and granting the loans.

Loan modifications are dealt with by the Servicing Department. Arrears and defaults are handled by the Arrears and Default Management Department. The Anti Fraud Team concentrates on fraud prevention i.e. detect possible fraud during the underwriting process before an offering is sent to the potential borrower. Furthermore an important task of the Anti Fraud Team is fraud repression, i.e. to minimise losses in those cases where fraud has occurred (in close cooperation with the Arrears Management Team).

The Service Centre handles all queries from the intermediaries regarding loan applications, applications for insurances and applications for Borrower Investment Accounts. Furthermore, the Service Centre deals with questions from notaries and borrowers.

To adjust to changes in the number of applications and the resulting changes in workflow, Obvion has hired highly experienced flexible employees. As soon as the workflow tends to increase or peak, the number of working hours of this part of the flexible staff can be extended unilaterally by Obvion up to the agreed maximum.

To ensure that the flexible staff is competent for their various tasks, Obvion hires highly educated employees and applies the same intensive education and training program for its flexible staff as for its permanent staff.

The Secured Creditors, including, *inter alios*, the Noteholders, benefit from the security for the obligations of the Issuer towards the Security Trustee (the **Security**), which will be created pursuant to, and on the terms set out in, the Trust Deed and the Pledge Agreements, which will create, *inter alia*, the following security rights:

- (i) a first ranking pledge by the Issuer to the Security Trustee over the Mortgage Receivables and the rights as beneficiary under the Insurance Policies (the **Beneficiary Rights**) and all ancillary rights;
- (ii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights (a) against the Seller under or in connection with the Mortgage Receivables Purchase Agreement, (b) against the Issuer Account Bank under or in connection with the Issuer Account Agreement, (c) against the Servicer under or in connection with the Servicing Agreement, (d) against the Swap Counterparty and the Back-Up Swap Counterparty under or in connection with the Swap Agreement and the Conditional Deed of Novation, (e) against the Cash Advance Facility Provider under or in connection with the Cash Advance Facility Agreement, (f) against the Participants under the Participation Agreements, (g) against the Seller under or in connection with the Beneficiary Waiver Agreement and (h) against the Commingling Guarantor under or in connection with the Commingling Guarantee and against the Construction Deposit Guarantor under the Construction Deposit Guarantee; and

have regard only to the interests of the Class A Noteholders if, in the Security Trustee's opinion, there is a conflict between the interests of the Class A Noteholders on the one hand and the Class B Noteholders, the Class C Noteholders, the Class D Noteholders or the Class E Noteholders on the other hand and, if no Class A Notes are outstanding, to have regard only to the interests of the Class B Noteholders if, in the Security Trustee's opinion, there is a conflict between the interests of the Class B Noteholders on the one hand and the Class C Noteholders, the Class D Noteholders or the Class E Noteholders on the other hand and, if no Class B Notes are outstanding, to have regard only to the interests of the Class C Noteholders if, in the Security Trustee's opinion, there is a conflict between the interests of the Class C Noteholders on the one hand and the Class D Noteholders or the Class E Noteholders on the other hand and, if no Class C Notes are outstanding, to have regard only to the interests of the Class D Noteholders if, in the Security Trustee's opinion, there is a conflict between the interests of the Class D Noteholders on the one hand and the Class E Noteholders on the other hand. In addition, the Security Trustee shall have regard to the interests of the other Secured Creditors, provided that, in the case of a conflict of interest between the Secured Creditors, the Post-Enforcement Priority of Payments set forth in the Trust Deed determines which interest of which Secured Creditor prevails, it being noted that, only for the purpose of determining which party's interest prevails in the case where the Security Trustee shall only have regard to the interest of the Secured Creditors mentioned under item d of the Post-Enforcement Priority of Payments, the interest of the Secured Creditor mentioned under item d (ii) of the Post-Enforcement Priority of Payments shall prevail over the interest of the Secured Creditor mentioned under item d (i) of the Post-Enforcement Priority of Payments.

3 Covenants of the Issuer

As long as any of the Notes remains outstanding, the Issuer shall carry out its business in accordance with proper and prudent Dutch business practice and in accordance with the requirements of Dutch law and accounting practice and shall not, except to the extent permitted by the Transaction Documents, or with the prior written consent of the Security Trustee:

- (h) amend, supplement or otherwise modify its articles of association or other constitutive documents;
- (i) pay any dividend or make any other distribution to its shareholder(s) other than out of Profit as carved out of the Available Revenue Funds or issue any further shares; or
- (j) engage in any activity whatsoever which is not incidental to or necessary in connection with any of the activities which the Transaction Documents provide or envisage that the Issuer will engage in.

4 Interest

(a) *Period of accrual*

The Notes shall bear interest on their Principal Amount Outstanding (as defined in Condition 6 (*Redemption*)) from and including the date the Notes are issued (the **Closing Date**). Each Note (or, in the case of the redemption of only part of a Note, that part only of such Note) shall cease to bear interest from its due date for redemption unless, upon due presentation, payment of the relevant amount of principal or any part thereof is improperly withheld or refused. In such event, interest will continue to accrue thereon (before and after any judgement) at the rate applicable to such Note up to but excluding the date on which, on presentation of such Note, payment in full of the relevant amount of principal is made or (if earlier) the seventh (7th) calendar day after notice is duly given by the Paying Agent to the holder thereof (in accordance with Condition 13 (*Notices*)) that upon presentation thereof, such payments will be made, provided that upon such presentation payment is in fact made. Whenever it is necessary to compute an amount of interest in respect of any Note for any period, such interest shall be calculated on the basis of the actual number of calendar days elapsed in the Interest Period divided by 360 calendar days.

(b) *Interest Periods and Payment Dates*

Interest on the Notes shall be payable by reference to successive interest periods (each an **Interest Period**) and will be payable in arrear in euro in respect of the Principal Amount

Outstanding (as defined in Condition 6 (*Redemption*)) of the Notes, respectively, on the 22nd day of March, June, September and December in each year, or if such day is not a Business Day (as defined below), the next succeeding Business Day, unless such Business Day falls in the next succeeding calendar month in which event the Business Day immediately preceding such 22nd day is the relevant Business Day (each such day being a **Notes Payment Date**), subject to Condition 9(a) (*Interest*). A **Business Day** means a day on which banks are open for business in Amsterdam, the Netherlands and London, United Kingdom, provided that such day is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer 2 System (the **TARGET 2 System**) or any successor thereto is open for the settlement of payments in euro. Each successive Interest Period will commence on (and include) a Notes Payment Date and end on (but exclude) the next succeeding Notes Payment Date, except for the first (1st) Interest Period which will commence on (and include) the Closing Date and end on (but exclude) the Notes Payment Date falling in September 2014.

(c) *Interest on the Notes*

Except for the first Interest Period whereby interest will accrue from (and including) the Closing Date until but excluding the first (1st) Notes Payment Date at an annual rate equal to the linear interpolation between the Euro Interbank Offered Rate (**EURIBOR**) for two-months deposits in euro and the EURIBOR for three-months deposits in euro (determined in accordance with Condition 4 (*Interest*)) plus the margin as set out below, interest on the Notes for each Interest Period up to (but excluding) the First Optional Redemption Date will accrue at an annual rate equal to EURIBOR for three-months deposits in euro, plus:

- (i) for the Class A1 Notes, a margin of 0.30 per cent. per annum;
- (ii) for the Class A2 Notes, a margin of 0.53 per cent. per annum;
- (iii) for the Class B Notes, a margin of 2.00 per cent. per annum;
- (iv) for the Class C Notes, a margin of 3.00 per cent. per annum;
- (v) for the Class D Notes, a margin of 4.00 per cent. per annum; and
- (vi) for the Class E Notes a margin of 6.00 per cent. per annum.

(d) *Interest following the First Optional Redemption Date*

If on the First Optional Redemption Date (as defined in Condition 6 (*Redemption*)) the Notes of any Class have not been redeemed in full, the margin on each Class of Notes (other than the Class E Notes) will increase. The rate of interest applicable to the Notes will then be equal to the sum of EURIBOR for three-months deposits in euro, payable by reference to Interest Periods on each Notes Payment Date, plus:

- (i) for the Class A1 Notes, a margin of 0.60 per cent. per annum;

- (ii) for the Class A2 Notes, a margin of 1.06 per cent. per annum;
- (iii) for the Class B Notes, a margin of 3.00 per cent. per annum;
- (iv) for the Class C Notes, a margin of 4.00 per cent. per annum;
- (v) for the Class D Notes, a margin of 5.00 per cent. per annum; and
- (vi) for the Class E Notes, a margin of 6.00 per cent. per annum.

(e) *EURIBOR*

For the purposes of Conditions 4(b), (c) and (d) (*Interest*) EURIBOR will be determined as follows:

- (i) the Reference Agent will obtain for each Interest Period the rate equal to EURIBOR for three-months deposits in euro. The Reference Agent shall use the EURIBOR rate as determined and published jointly by the European Banking Federation and ACI - The Financial Market Association and which appears for information purposes on the Reuters Screen EURIBOR01 (or, if not available, any other display page on any screen service maintained by any registered information vendor for the display of the EURIBOR rate selected by the Reference Agent) at or about 11:00 a.m. (Central European Time) on the day that is two (2) Business Days preceding the first (1st) day of each Interest Period (each an **Interest Determination Date**).
- (ii) if, on the relevant Interest Determination Date, such EURIBOR rate is not determined and published jointly by the European Banking Federation and ACI - The Financial Market Association, or if it is not otherwise reasonably practicable to calculate the rate under (i) above, the Reference Agent will:
 - (A) request the principal euro-zone office of each of four (4) major banks in the euro-zone interbank market to provide a quotation for the rate at which three-months euro deposits are offered by it in the euro-zone interbank market at approximately 11.00 a.m. (Central European Time) on the relevant Interest Determination Date to prime banks in the euro-zone interbank market in an amount that is representative for a single transaction at that time; and
 - (B) determine the arithmetic mean (rounded, if necessary, to the nearest 0.0001 per cent., 0.00005 per cent. being rounded upwards) of such quotations as are provided; and
- (iii) if fewer than two (2) such quotations are provided as requested, the Reference Agent will determine the arithmetic mean (rounded, if necessary to the nearest 0.0001 per cent., 0.00005 per cent. being rounded upwards) of the rates quoted by major banks, of which there shall be at least two (2) in number, in the euro-zone, selected by the Reference Agent, at approximately 11.00 a.m. (Central European Time) on the relevant Interest Determination Date for three-months deposits to leading euro-zone

banks in an amount that is representative for a single transaction in that market at that time,

and EURIBOR for such Interest Period shall be the rate per annum equal to the EURIBOR for euro deposits as determined in accordance with this paragraph (e), provided that if the Reference Agent is unable to determine EURIBOR in accordance with the above provisions in relation to any Interest Period, EURIBOR applicable during such Interest Period will be EURIBOR last determined in relation thereto.

(f) *Determination of Floating Rate of Interest and calculation of the Floating Interest Amount*

The Reference Agent will, as soon as practicable after 11.00 a.m. (Central European Time) on each relevant Interest Determination Date, determine the floating rates of interest referred to in paragraphs (c) and (d) above for each relevant Class of Notes (the **Floating Rate of Interest**) and calculate the amount of interest payable, subject to Condition 9(a) (*Interest*), on each such Class of Notes for the following Interest Period (the **Floating Interest Amount**) by applying the relevant Floating Rate of Interest to the Principal Amount Outstanding of the relevant Class of Notes. The determination of the relevant Floating Rate of Interest and the Floating Interest Amount by the Reference Agent shall (in the absence of manifest error) be final and binding on all parties.

(g) *Notification of the Floating Rate of Interest and the Floating Interest Amount*

The Reference Agent will cause the relevant Floating Rate of Interest and the relevant Floating Interest Amount and the Notes Payment Date applicable to each relevant Class of Notes to be notified to the Issuer, the Security Trustee, the Paying Agents, the Issuer Administrator and to the holders of such Class of Notes. As long as the Notes are admitted to listing, trading and/or quotation on NYSE Euronext in Amsterdam, the Netherlands (**Euronext Amsterdam**) or by any other competent authority, stock exchange and/or quotation system, notice shall also be published in such other place as may be required by the rules and regulations of such competent authority, stock exchange and/or quotation system, as soon as possible after the determination. The Floating Interest Amount and Notes Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period.

(h) *Determination or calculation by Security Trustee*

If the Reference Agent at any time for any reason does not determine the relevant Floating Rate of Interest or fails to calculate the relevant Floating Interest Amount in accordance with paragraph (f) above, the Security Trustee shall determine the relevant Floating Rate of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the procedure described in paragraph (f) above), it shall deem fair and reasonable under the circumstances or, as the case may be, the Security Trustee shall calculate the Floating Interest Amount in accordance with paragraph (f) above, and each such determination or calculation shall be final and binding on all parties.

(i) *Reference Agent*

The Issuer will procure that, as long as any of the Notes remains outstanding, there will at all times be a Reference Agent. The Issuer has, subject to obtaining the prior written consent of the Security Trustee, the right to terminate the appointment of the Reference Agent by giving at least sixty (60) calendar days' notice in writing to that effect. Notice of any such termination will be given to the holders of the relevant Class of Notes in accordance with Condition 13 (*Notices*). If any person shall be unable or unwilling to continue to act as the Reference Agent or if the appointment of the Reference Agent shall be terminated, the Issuer will, with the prior written consent of the Security Trustee, appoint a successor reference agent to act in its place, provided that neither the resignation nor removal of the Reference Agent shall take effect until a successor approved in writing by the Security Trustee has been appointed.

5 Payment

- (a) Payment of principal and interest in respect of Definitive Notes will be made upon presentation of the Definitive Note and against surrender of the relevant Coupon appertaining thereto at any specified office of the Paying Agents in cash or by transfer to a euro account maintained by the payee with a bank in the Netherlands, as the holder may specify. All such payments are subject to any fiscal or other laws and regulations applicable in the place of payment.
- (b) On the Final Maturity Date (as defined in Condition 6(b) (*Final redemption*)), or such earlier date on which the Notes become due and payable, the Definitive Notes should be presented for payment together with all unmatured Coupons appertaining thereto, failing which the full amount of any such missing unmatured Coupons (or, in the case of payment not being made in full, that proportion of the full amount of such missing unmatured Coupons which the sum of principal so paid bears to the total amount of principal due) will be deducted from the sum due for payment. Each amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of five (5) years following the due date for payment of such principal (whether or not such Coupons would have become unenforceable pursuant to Condition 8 (*Prescription*)).
- (c) If the relevant Notes Payment Date is not a day on which banks are open for business in the place of presentation of the relevant Note or Coupon (**Local Business Day**), the holder thereof shall not be entitled to payment until the next following Local Business Day, or to any interest or other payment in respect of such delay, provided that in the case of payment by transfer to an euro account as referred to above, the Paying Agents shall not be obliged to credit such account until the Local Business Day immediately following the day on which banks are open for business in the Netherlands and the United Kingdom. The name of each of the Paying Agents and details of its office are set out at the back of the Prospectus and in schedule 1 of the Master Definitions and Common Terms Agreement.
- (d) The Issuer reserves the right at any time to vary or terminate the appointment of the Paying Agents and to appoint additional or other paying agents provided that no paying agent located in the United States of America will be appointed and that the Issuer will at all times

maintain a paying agent having a specified office in the European Union which, for as long as the Notes are listed on Euronext Amsterdam, shall be located in the Netherlands, and provided further that the Issuer will maintain a paying agent in an EU Member State that will not be obliged to withhold or deduct any tax pursuant to the EU Council Directive 2003/48/EC. Notice of any termination or appointment of a Principal Paying Agent or Paying Agent and of any changes in the specified offices of the Paying Agents will be given to the Noteholders in accordance with Condition 13 (*Notices*).

(b) *Final redemption*

Unless previously redeemed as provided below, the Issuer will, subject to Condition 9(b) (*Principal*), redeem any remaining Notes at their Principal Amount Outstanding, together with accrued interest, on the Notes Payment Date falling in March 2051 (the **Final Maturity Date**).

(c) *Redemption of the Notes (other than the Class E Notes) prior to delivery of an Enforcement Notice*

Provided that no Enforcement Notice has been served in accordance with Condition 10 (*Events of Default*), the Issuer shall, subject to Condition 9(b) (*Principal*), on each Notes Payment Date apply the Available Principal Funds, subject to and in accordance with the Redemption Priority of Payments towards redemption, at their respective Principal Amount Outstanding, of (i) *firstly*, the Class A1 Notes, until fully redeemed and subsequently the Class A2 Notes until fully redeemed, (ii) *secondly*, the Class B Notes, until fully redeemed,

(iii) *thirdly*, the Class C Notes, until fully redeemed and (iv) *fourthly*, the Class D Notes, until fully redeemed, provided that up to and including the Notes Payment Date immediately preceding the First Optional Redemption Date, such amount will, subject to certain conditions being met, first be applied towards payment of the purchase price for the Further Advance Receivables and/or, up to the Replacement Available Amount, towards payment of the purchase price for the New Mortgage Receivables to the extent offered by the Seller.

The principal amount so redeemable in respect of each Note (each a **Redemption Amount**) on the relevant Notes Payment Date shall be the Available Principal Funds on the Notes Calculation Date relating to that Notes Payment Date (less the amounts applied towards payment of the purchase price for any Further Advance Receivables and/or New Mortgage Receivables) divided by the number of Notes of the relevant Class subject to such redemption (rounded down to the nearest euro), provided always that the Redemption Amount may never exceed the Principal Amount Outstanding of the relevant Note. Following application of the Redemption Amount to redeem a Note, the Principal Amount Outstanding of such Note shall be reduced accordingly.

(d) *Determination of Redemption Amount and Principal Amount Outstanding:*

- (i) On each Notes Calculation Date, the Issuer shall determine (or cause the Issuer Administrator to determine) (a) the Redemption Amount and (b) the Principal Amount Outstanding of the relevant Note on the first (1st) calendar day following the relevant Notes Payment Date. Each determination by or on behalf of the Issuer of any Redemption Amount or the Principal Amount Outstanding of a Note shall in each case (in the absence of manifest error) be final and binding on all persons.
- (ii) The Issuer will cause each determination of a Redemption Amount and Principal Amount Outstanding of Notes to be notified forthwith to the Security Trustee, the Paying Agents, the Reference Agent, Euroclear, Clearstream, Luxembourg, Euronext Amsterdam and to the Noteholders. As long as the Notes are admitted to listing, trading and/or quotation on Euronext Amsterdam or by any other competent authority, stock exchange and/or quotation system, notice shall also be published in such other place as may be required by the rules and regulations of such competent authority, stock exchange and/or quotation system as soon as possible after the determination. If no Redemption Amount is due to be made on the Notes on any applicable Notes Payment Date a notice to this effect will be given to the Noteholders in accordance with Condition 13 (*Notices*).
- (iii) If the Issuer does not at any time for any reason determine (or cause the Issuer Administrator to determine) the Redemption Amount or the Principal Amount Outstanding of a Note, such Redemption Amount or such Principal Amount Outstanding shall be determined by the Security Trustee in accordance with this paragraph (d) and paragraph (c) above (but based upon the information in its possession as to the Available Principal Funds) and each such determination or calculation shall be deemed to have been made by the Issuer.

(e) *Optional redemption*

The Issuer may, at its option, on giving not more than sixty (60) nor less than thirty (30) calendar days written notice to the Security Trustee and the Noteholders in accordance with Condition 13 (*Notices*), on the Notes Payment Date falling in June 2019 (the **First Optional Redemption Date**) and on each Notes Payment Date thereafter (each an **Optional Redemption Date**) redeem, subject to Condition 9(b) (*Principal*), all (but not only part of) the Notes (other than the Class E Notes) at their Principal Amount Outstanding plus accrued but unpaid interest thereon, after payment of the amounts to be paid in priority to redemption of the Notes.

(f) *Redemption following clean-up call*

The Seller has the option to repurchase and accept re-assignment of all (but not only part of) the Mortgage Receivables which are outstanding and which right may be exercised on any Notes Payment Date on which the aggregate Principal Amount Outstanding of the Notes (in the case of a Principal Shortfall in respect of any Class of Notes, less such aggregate Principal Shortfall) is not more than ten (10) per cent. of the aggregate Principal Amount Outstanding of the Notes on the Closing Date (the **Clean-Up Call Option**). On the Notes Payment Date following the exercise by the Seller of its Clean-Up Call Option the Issuer shall redeem, subject to Condition 9(b) (*Principal*), all (but not only part of) the Notes (other than the Class E Notes) at their Principal Amount Outstanding plus accrued but unpaid interest thereon, after payment of the amounts to be paid in priority to redemption of the Notes.

(g) *Redemption of Class E Notes*

Provided that no Enforcement Notice has been served in accordance with Condition 10 (*Events of Default*), the Issuer will be obliged to apply the Available Revenue Funds, if and to the extent that all payments ranking above item (p) in the Revenue Priority of Payments have been made in full, to redeem (or partially redeem) on a *pro rata* basis the Class E Notes on each Notes Payment Date until fully redeemed. Any amount so redeemed will be deemed to be a Redemption Amount for the purpose of calculating the Principal Amount Outstanding of each of the Class E Notes in accordance with Condition 6(d) (*Determination of Redemption Amount and Principal Amount Outstanding*). Unless previously redeemed in full, the Issuer will, subject to Condition 9(b) (*Principal*), redeem the Class E Notes at their Principal Amount Outstanding, together with accrued interest, on the Notes Payment Date falling in March 2051.

(h) *Redemption for tax reasons*

The Issuer may (but is not obliged to) redeem all (but not only part of) the Notes (other than the Class E Notes) at their Principal Amount Outstanding plus accrued but unpaid interest thereon up to and including the date of redemption, subject to and in accordance with the Conditions, including, without limitation, Condition 9(b) (*Principal*), if (a) the Issuer or any of the Paying Agents has become or would become obligated to make any withholding or deduction from payments in respect of any of the Notes (although the Issuer will not have any

obligation to pay additional amounts in respect of any such withholding or deduction) and/or (b) the Issuer has become or would become subject to any limitation of the deductibility of interest on any of the Notes as a result of (i) a change in any laws, rules or regulations or in the interpretation or administration thereof, or (ii) any act taken by any taxing authority on or after the issue date of the Notes. No redemption pursuant to item (ii) may be made unless the Issuer receives an opinion of independent counsel that there is a probability that the act taken by the taxing authority leads to one of the events mentioned at (a) or (b).

7 Taxation

All payments of, or in respect of, principal and interest on the Notes will be made without withholding of, or deduction for, or on account of, any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or charges is required by law. In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not be obliged to pay any additional amounts to such Noteholders.

8 Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons shall become prescribed unless made within five (5) years from the date on which such payment first (1st) becomes due.

9 Revenue Shortfall, Principal Deficiency and Principal Shortfall

(a) Interest

In the event that on any Notes Payment Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class A Notes on such Notes Payment Date and such interest is not paid within fifteen (15) calendar days from the relevant Notes Payment Date, this will constitute an Event of Default in accordance with Condition 10(a).

Interest on the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes shall be payable in accordance with the provisions of Conditions 4 (*Interest*) and 5 (*Payment*), subject to the terms of this Condition and subject to the provisions of the Trust Deed.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class B Notes on the next Notes Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Notes Payment Date to the Class B Noteholders. In the event of a shortfall, the Issuer shall credit the Class B Notes Revenue Shortfall Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the Class B

Notes, on any Notes Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Class B Notes on that date pursuant to Condition 4 (*Interest*). Such shortfall shall not be treated as due on that date for the purposes of Condition 4 (*Interest*), but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Class B Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class B Note on the next succeeding Notes Payment Date.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class C Notes on the next Notes Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Notes Payment Date to the Class C Noteholders. In the event of a shortfall, the Issuer shall credit the Class C Notes Revenue Shortfall Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the Class C Notes, on any Notes Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Class C Notes on that date pursuant to Condition 4 (*Interest*). Such shortfall shall not be treated as due on that date for the purposes of Condition 4 (*Interest*), but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Class C Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class C Note on the next succeeding Notes Payment Date.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class D Notes on the next Notes Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Notes Payment Date to the Class D Noteholders. In the event of a shortfall, the Issuer shall credit the Class D Notes Revenue Shortfall Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the Class D Notes, on any Notes Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Class D Notes on that date pursuant to Condition 4 (*Interest*). Such shortfall shall not be treated as due on that date for the purposes of Condition 4 (*Interest*), but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Class D Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class D Note on the next succeeding Notes Payment Date.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Class E Notes on the next Notes Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of interest due on such Notes Payment Date to the Class E Noteholders. In the event of a shortfall, the Issuer shall credit the Class E Notes Revenue Shortfall Ledger, with an amount equal to the amount by which the aggregate amount of interest paid on the Class E

Notes, on any Notes Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Class E Notes on that date pursuant to Condition 4 (*Interest*). Such shortfall shall not be treated as due on that date for the purposes of Condition 4 (*Interest*), but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Class E Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Class E Note on the next succeeding Notes Payment Date.

(b) *Principal*

Until the date on which the Principal Amount Outstanding of all Class A Notes is reduced to zero, the holders of the Class B Notes will not be entitled to any repayment of principal in respect of the Class B Notes. As from that date the Principal Amount Outstanding of the Class B Notes will be redeemed in accordance with the provisions of Condition 6 (*Redemption*), provided that if, on any Notes Payment Date, there is a balance on the Class B Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Class B Note on such Notes Payment Date shall not exceed its Principal Amount Outstanding *less* the relevant Principal Shortfall on such date. The Class B Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class B Notes after the earlier of (i) the Final Maturity Date and (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

Until the date on which the Principal Amount Outstanding of the Class A Notes is reduced to zero and the Principal Amount Outstanding of the Class B Notes is reduced to zero, the Class C Noteholders will not be entitled to any repayment of principal in respect of the Class C Notes. As from that date the Principal Amount Outstanding of the Class C Notes will be redeemed in accordance with the provisions of Condition 6 (*Redemption*), provided that if, on any Notes Payment Date, there is a balance on the Class C Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Class C Note on such Notes Payment Date shall not exceed its Principal Amount Outstanding *less* the relevant Principal Shortfall on such date. The Class C Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class C Notes after the earlier of (i) the Final Maturity Date and (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

Until the date on which the Principal Amount Outstanding of the Class A Notes is reduced to zero and the Principal Amount Outstanding of the Class B Notes is reduced to zero and the Principal Amount Outstanding of all Class C Notes is reduced to zero, the Class D Noteholders will not be entitled to any repayment of principal in respect of the Class D Notes. As from that date the Principal Amount Outstanding of the Class D Notes will be redeemed in accordance with the provisions of Condition 6 (*Redemption*), provided that if, on any Notes Payment Date, there is a balance on the Class D Principal Deficiency Ledger, then

notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Class D Note on such Notes Payment Date shall not exceed its Principal Amount Outstanding less the relevant Principal Shortfall on such date. The Class D Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class D Notes after the earlier of (i) the Final Maturity Date and (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

In these Conditions, the **Principal Shortfall** means, with respect to any Notes Payment Date, an amount equal to the balance of the relevant sub-ledger of the Principal Deficiency Ledger for the relevant Class of Notes divided by the number of Notes of the relevant Class on such Notes Payment Date.

If on any Notes Calculation Date all amounts of interest and principal due under the Notes, except for principal in respect of the Class E Notes, have been paid or will be available for payment on the Notes Payment Date immediately following such Notes Calculation Date, the Reserve Account Target Level will be reduced to zero and any amount standing to the credit of the Reserve Account will on the Notes Payment Date immediately succeeding such Notes Calculation Date form part of the Available Revenue Funds and will be available to redeem or partially redeem the Class E Notes. If on the Notes Payment Date on which all amounts of interest and principal due under the Notes, except for principal in respect of the Class E Notes, have been paid or will be paid (i) no balance is standing to the credit of the Reserve Account in excess of the Reserve Account Target Level, then notwithstanding any other provisions of these Conditions the Class E Noteholders will not be entitled to any repayment of principal in respect of the Class E Notes, or (ii) a balance is standing to the credit of the Reserve Account in excess of the Reserve Account Target Level, then notwithstanding any other provisions of these Conditions the amount to be applied towards satisfaction of the Principal Amount Outstanding of each Class E Note on such date shall not exceed the balance standing to the credit of the Reserve Account in excess of the Reserve Account Target Level, divided by the number of Class E Notes then outstanding. The Class E Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Class E Notes after the earlier of (i) the Final Maturity Date and (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

(c) *General*

In the event that the Security in respect of the Notes and the Coupons appertaining thereto has been fully enforced and the proceeds of such enforcement, after payment of all other claims ranking under the Trust Deed in priority to the Class E Notes or, as the case may be, the Class D Notes or, as the case may be, the Class C Notes or, as the case may be, the Class B Notes, are insufficient to pay in full all principal and interest and other amounts whatsoever due in respect of the Class E Notes or, as the case may be, the Class D Notes or, as the case may be, the Class C Notes or, as the case may be, the Class B Notes, then the Class E Noteholders or, as the case may be, the Class D Noteholders or, as the case

may be, the Class C Noteholders or, as the case may be, the Class B Noteholders shall have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

10 Events of Default

The Security Trustee at its discretion may or, if so directed by an Extraordinary Resolution of the Class A Noteholders or if no Class A Notes are outstanding, by an Extraordinary Resolution of the Class B Noteholders or, if no Class A Notes and Class B Notes are outstanding, by an Extraordinary Resolution of the Class C Noteholders or, if no Class A Notes, Class B Notes and Class C Notes are outstanding, by an Extraordinary Resolution of the Class D Noteholders or, if no Class A Notes, Class B Notes, Class C Notes and Class D Notes are outstanding, by an Extraordinary Resolution of the Class E Noteholders (subject, in each case, to being indemnified to its satisfaction) shall (but in the case of the occurrence of the event mentioned in subparagraph (b) below, only if the Security Trustee shall have certified in writing to the Issuer that such an event is, in its opinion, materially prejudicial to the Noteholders of the relevant Class) give notice (an **Enforcement Notice**) to the Issuer that the Notes are, and each Note shall become, immediately due and payable at their or its Principal Amount Outstanding, together with accrued interest, if any of the following shall occur:

- (a) the Issuer is in default for a period of fifteen (15) calendar days or more in the payment on the due date of any amount due in respect of the Notes of the relevant Class; or
- (b) the Issuer fails to perform any of its other obligations binding on it under the Notes of the relevant Class, the Trust Deed, the Paying Agency Agreement or the Pledge Agreements and, except where such failure, in the reasonable opinion of the Security Trustee, is incapable of remedy, such default continues for a period of thirty (30) calendar days after written notice by the Security Trustee to the Issuer requiring the same to be remedied; or
- (c) if a conservatory attachment (*conservatoir beslag*) or an executory attachment (*executoriaal beslag*) on any major part of the Issuer's assets is made and not discharged or released within a period of thirty (30) calendar days; or
- (d) if any order shall be made by any competent court or other authority or a resolution passed for the dissolution or winding-up of the Issuer or for the appointment of a liquidator or receiver of the Issuer in respect of all or substantially all of its assets; or
- (e) the Issuer makes an assignment for the benefit of, or enters into any general assignment (*akkoord*) with, its creditors; or
- (f) the Issuer files a petition for a suspension of payments (*surseance van betaling*) or for bankruptcy (*faillissement*) or is declared bankrupt or becomes subject to any other regulation having a similar effect,

provided, however, that, if Class A Notes are outstanding, no Enforcement Notice may or shall be given by the Security Trustee to the Issuer in respect of the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes, irrespective of whether an Extraordinary Resolution is passed by the Class B Noteholders, the Class C Noteholders, the Class D Noteholders or the Class E Noteholders, unless an Enforcement Notice in respect of the Class A Notes has been given by the Security Trustee. In exercising its discretion as to whether or not to give an Enforcement Notice to the Issuer in respect of the Class A Notes, the Security Trustee shall not be required to have regard to the interests of the Class B Noteholders, the Class C Noteholders, the Class D Noteholders or the Class E Noteholders.

11 Enforcement

(a) *Enforcement*

At any time after the Notes of any Class become due and payable, the Security Trustee may, at its discretion and without further notice, take such steps and/or institute such proceedings as it may think fit to enforce the security created by the Issuer in favour of the Security Trustee pursuant to the terms of the Trust Deed and the Pledge Agreements, including the making of a demand for payment thereunder, but it need not take any such proceedings unless (i) it shall have been directed by an Extraordinary Resolution of the Class A Noteholders or, if all amounts due in respect of the Class A Notes have been fully paid, the Class B Noteholders or, if all amounts due in respect of the Class A Notes and the Class B Notes have been fully paid, the Class C Noteholders or, if all amounts due in respect of the Class A Notes, the Class B Notes and the Class C Notes have been fully paid, the Class D Noteholders or, if all amounts due in respect of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes have been fully paid, the Class E Noteholders and (ii) it shall have been indemnified to its satisfaction. The Security Trustee will enforce the Security pursuant to the terms of the Trust Deed and the Pledge Agreements for the benefit of all Secured Creditors, including, but not limited to, the Noteholders, and will apply the net proceeds received or recovered towards satisfaction of the Parallel Debt. The Security Trustee shall distribute such net proceeds (after deduction of the amounts due and payable to the Participants) to the Secured Creditors (other than the Participants) in accordance with the Post-Enforcement Priority of Payments set forth in the Trust Deed.

(b) *No Action against Issuer by Noteholders*

No Noteholder may proceed directly against the Issuer unless the Security Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.

(c) *Undertaking by Noteholders and Security Trustee*

The Noteholders and the Security Trustee may not institute against, or join any person in instituting against, the Issuer any bankruptcy, winding-up, reorganisation, arrangement, insolvency or liquidation proceeding until the expiry of a period of at least one (1) year after the last maturing Note is paid in full.

(d) *Limitation of Recourse*

The Noteholders accept and agree that the only remedy of the Security Trustee against the Issuer after any of the Notes have become due and payable pursuant to Condition 10 (*Events of Default*) above is to enforce the Security.

12 Indemnification of the Security Trustee

The Trust Deed contains provisions for the indemnification of the Security Trustee and for its relief from responsibility. The Security Trustee is entitled to enter into commercial transactions with the Issuer and/or any other party to the Transaction Documents without accounting for any profit resulting from such transaction.

13 Notices

With the exception of the publications of the Reference Agent in Condition 4 (*Interest*) and of the Issuer in Condition 6 (*Redemption*), all notices to the Noteholders will only be valid if (i) published in at least one daily newspaper of wide circulation in the Netherlands, or, if all such newspapers shall cease to be published or timely publication therein shall not be practicable, in such newspaper as the Security Trustee shall approve having a general circulation in Europe and (ii) as long as the Notes are admitted to listing, trading and/or quotation on Euronext Amsterdam or by any other competent authority, stock exchange and/or quotation system, notice shall also be published in such other place as may be required by the rules and regulations of such competent authority, stock exchange and/or quotation system. Any notice shall be deemed to have been given on the first date of such publication.

14 Meetings of Noteholders; Modification; Consents; Waiver; Removal Director

The Trust Deed contains provisions for convening meetings of Noteholders of any Class or one or more Classes jointly to consider matters affecting the interests, including the sanctioning by a resolution adopted at a meeting of a Class of Noteholders (an **Extraordinary Resolution**), of such Noteholders of the relevant Class of a change of any of these Conditions or any provisions of the Transaction Documents. Instead of at a general meeting, a resolution of the Noteholders of the relevant Class may be passed in writing – including by e-mail, facsimile or electronic transmission, or in the form of a message transmitted by any accepted means of communication and received or capable of being produced in writing – provided that all Noteholders with the right to vote have voted in favour of the proposal.

(a) *Meeting of Noteholders*

The Trust Deed contains provisions for convening meetings of the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders to consider matters affecting the interests, including the sanctioning by Extraordinary Resolution, of such Noteholders of the relevant Class of a change of any of these Conditions or any provisions of the Transaction Documents, provided that no change of

certain terms by the Noteholders of any Class including the date of maturity of the Notes of the relevant Class, or a change which would have the effect of postponing any day for payment of interest in respect of such Notes, reducing or cancelling the amount of principal payable in respect of such Notes or altering the majority required to pass an Extraordinary Resolution or any alteration of the date or priority of redemption of such Notes (any such change in respect of any such class of Notes referred to below as a **Basic Terms Change**) or a change in the definition of Basic Terms Change shall be effective except that, if the Security Trustee is of the opinion that such a Basic Terms Change or a change in the definition of Basic Terms Change is being proposed by the Issuer as a result of, or in order to avoid, an Event of Default, such Basic Terms Change or a change in the definition of Basic Terms Change may be sanctioned by an Extraordinary Resolution of the Noteholders of the relevant Class of Notes as described below.

A meeting as referred to above may be convened by the Issuer or by Noteholders of any Class holding not less than ten (10) per cent. in Principal Amount Outstanding of the Notes of such Class. The quorum for any meeting convened to consider an Extraordinary Resolution for any Class of Notes will be two-thirds of the Principal Amount Outstanding of the Notes of the relevant Class, as the case may be, and at such a meeting an Extraordinary Resolution shall be adopted with not less than a two-third majority of the validly cast votes, except that the quorum required for an Extraordinary Resolution including the sanctioning of a Basic Terms Change or a change in the definition of Basic Terms Change shall be at least 75 per cent. of the amount of the Principal Amount Outstanding of the Notes of the relevant Class and the majority required shall be at least 75 per cent. of the validly cast votes in respect of that Extraordinary Resolution. If at such meeting the aforesaid quorum is not represented, a second (2nd) meeting of Noteholders will be held within one (1) month, with due observance of the same formalities for convening the meeting which governed the convening of the first (1st) meeting; at such second (2nd) meeting an Extraordinary Resolution can be adopted with not less than a two-thirds majority of the validly cast votes, except that for an Extraordinary Resolution including a sanctioning of a Basic Terms Change or a change in the definition of Basic Terms Change the majority required shall be 75 per cent. of the validly cast votes, regardless of the Principal Amount Outstanding of the Notes of the relevant Class then represented, except if the Extraordinary Resolution relates to the appointment, removal and replacement of any or all of the managing directors of the Security Trustee, in which case at least thirty (30) per cent. of the Notes of the relevant Class should be represented at such second (2nd) meeting.

No Extraordinary Resolution to sanction a change which would have the effect of accelerating or extending the maturity of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes, as the case may be, or any date for payment of interest thereon, reducing or cancelling the amount of principal or altering the rate of interest payable in respect of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes or the Class E Notes, as the case may be, shall take effect unless (i) the Issuer has agreed thereto, (ii) the Swap Counterparty has agreed thereto and (iii) it shall have been sanctioned with respect to the Class A Notes by an Extraordinary Resolution of

the Class B Noteholders, the Class C Noteholders, the Class D Noteholders or the Class E Noteholders.

An Extraordinary Resolution passed at any meeting of the Class A Noteholders shall be binding on all other Classes of Noteholders, irrespective of its effect upon them, except in case of an Extraordinary Resolution to sanction a Basic Terms Change or a change in the definition of Basic Terms Change, which shall not take effect unless it shall have been sanctioned by an Extraordinary Resolution of the lower ranking Classes of Noteholders or the Security Trustee is of the opinion that it will not be materially prejudicial to the respective interests of the lower ranking Classes of Noteholders.

Without prejudice to the paragraph below, an Extraordinary Resolution (other than a sanctioning Extraordinary Resolution referred to in the previous paragraph) passed at any meeting of a Class of Noteholders (other than the Class A Noteholders) or, as the case may be, Classes of Noteholders (other than the Class A Noteholders) shall not be effective, unless it shall have been sanctioned by an Extraordinary Resolution of the Class A Noteholders or the Security Trustee is of the opinion that it will not be materially prejudicial to the interests of the Class A Noteholders.

An Extraordinary Resolution passed at any meeting of a Class of Noteholders (other than the Class A Noteholders) or, as the case may be, Classes of Noteholders (other than the Class A Noteholders), which is effective in accordance with the paragraph above, shall be binding on all other Classes of Noteholders, irrespective of its effect upon them, except in case of an Extraordinary Resolution to sanction a Basic Terms Change or a change in the definition of Basic Terms Change, which shall not take effect unless it shall have been sanctioned by an Extraordinary Resolution of the other Classes of Noteholders or the Security Trustee is of the opinion that it will not be materially prejudicial to the respective interests of the other Classes of Noteholders.

Any Extraordinary Resolution duly passed shall be binding on all Noteholders of the relevant Class (whether or not they were present at the meeting at which such resolution was passed).

(b) *Voting*

Each Note carries one vote. The Issuer and its affiliates may not vote on any Notes held by them directly or indirectly. Such Notes will not be taken into account in calculating the aggregate outstanding amount of the Notes.

(c) *Modification, authorisation and waiver without consent of Noteholders*

The Security Trustee may agree, without the consent of the Noteholders, to (i) any modification of any of the provisions of the Transaction Documents which is of a formal, minor or technical nature, is made to correct a manifest error or is made in order for the Issuer to comply with its EMIR obligations, which is not considered to be a Basic Terms Change and is notified to the Credit Rating Agencies and (ii) any other modification (except if prohibited in the Transaction Documents), and any waiver or authorisation of any breach or proposed breach of any of the provisions of the Transaction Documents, in respect of (ii) only, subject to (a) each Credit Rating Agency having provided a Credit Rating Agency Confirmation in respect of the relevant event or matter, provided that the Security Trustee is of the opinion that such event or matter is not materially prejudicial to the interests of the Noteholders or (b) the relevant event or matter having been sanctioned by an Extraordinary Resolution passed at any meeting of the relevant Class of Noteholders or, as the case may be, Classes of Noteholders, provided that such Extraordinary Resolution (A) shall have been sanctioned by an Extraordinary Resolution of the Class A Noteholders or (B) the Security Trustee is of the opinion that such event or matter will not be materially prejudicial to the interests of the Class A Noteholders. Any such modification, authorisation or waiver shall be binding on the Noteholders and, if the Security Trustee so requires, such modification shall be notified to the Noteholders in accordance with Condition 13 (*Notices*) as soon as practicable thereafter.

By obtaining a Credit Rating Agency Confirmation each of the Security Trustee, the Noteholders and the other Secured Creditors will be deemed to have agreed and/or acknowledged that (i) a credit rating is an assessment of credit only and does not address other matters that may be of relevance to the Noteholders or the other Secured Creditors (ii) neither the Security Trustee nor the Noteholders nor the other Secured Creditors have any right of recourse to or against the relevant Credit Rating Agency in respect of the relevant Credit Rating Agency Confirmation which is relied upon by the Security Trustee and that (iii) reliance by the Security Trustee on a Credit Rating Agency Confirmation does not create, impose on or extend to the relevant Credit Rating Agency any actual or contingent liability to any person (including, without limitation, the Security Trustee and/or the Noteholders and/or the other Secured Creditors) or create any legal relations between the relevant Credit Rating Agency and the Security Trustee, the Noteholders, the other Secured Creditors or any other person whether by way of contract or otherwise.

(d) *Indemnification for individual Noteholders*

In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Security Trustee shall have regard to the interests of the Class A Noteholders and the Class B Noteholders and the Class C Noteholders and the Class D Noteholders and the Class E Noteholders each as a Class and shall not have regard to the consequences of such exercise for individual Noteholders and the Security Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer any

indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

(e) *Removal of managing director of Security Trustee*

The most senior Class of Notes may by Extraordinary Resolution of a meeting of such Class remove any or all of the managing directors of the Security Trustee, provided that the other Secured Creditors have been consulted. Any managing director so removed will not be responsible for any costs or expenses arising from any such removal. Before any managing directors of the Security Trustee are so removed, the Issuer will procure that successor managing directors are appointed in accordance with the Security Trustee's articles of association as soon as reasonably practicable. The removal of a managing director of the Security Trustee will not become effective until a successor managing director is appointed.

15 Replacements of Notes and Coupons

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the office of the Principal Paying Agent or Paying Agent upon payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered, in the case of Notes together with all unmatured Coupons appertaining thereto, and in the case of Coupons together with the Note and all unmatured Coupons to which they appertain (*mantel en blad*), before replacements will be issued.

16 Governing Law

The Notes and Coupons, and any non-contractual obligations arising out of or in relation to the Notes and Coupons, are governed by, and will be construed in accordance with, the laws of the Netherlands. In relation to any legal action or proceedings arising out of or in connection with the Notes and Coupons the Issuer irrevocably submits to the jurisdiction of the Court of first instance (*rechtbank*) in Amsterdam, the Netherlands. This submission is made for the exclusive benefit of the holders of the Notes and the Security Trustee and shall not affect their right to take such action or bring such proceedings in any other courts of competent jurisdiction.

4.2 Form

Each Class of the Notes shall be initially represented by (i) in the case of the Class A1 Notes, a Temporary Global Note in bearer form, without coupons attached, in the principal amount of EUR 150,000,000, (ii) in the case of the Class A2 Notes, a Temporary Global Note in bearer form, without coupons attached, in the principal amount of EUR 550,000,000 (iii) in the case of the Class B Notes, a Temporary Global Note in bearer form, without coupons attached, in the principal amount of EUR 17,100,000, (iv) in the case of the Class C Notes, a Temporary Global Note in bearer form, without coupons attached, in the principal amount of EUR 13,100,000, (v) in the case of the Class D Notes, a Temporary Global Note in bearer form, without coupons attached, in the principal amount of EUR 14,500,000 and (vi) in the case of the Class E Notes, a Temporary Global Note in bearer form without

coupons attached, in the principal amount of EUR 7,500,000. The Temporary Global Notes representing the Class A1 Notes and the Class A2 Notes will be deposited with Euroclear as common safekeeper for Euroclear and Clearstream, Luxembourg on or about 26 June 2014. The Temporary Global Notes representing the Notes (other than the Class A Notes) will be deposited with Deutsche Bank AG, London Branch as common safekeeper for Euroclear and Clearstream, Luxembourg on or about 26 June 2014. Upon deposit of each such Temporary Global Note, Euroclear and Clearstream, Luxembourg will credit each purchaser of the Notes represented by such Temporary Global Notes with the amount of the relevant Class of Notes equal to the amount thereof for which it has purchased and paid. Interests in each Temporary Global Note will be exchangeable (provided certification of non-U.S. beneficial ownership by the Noteholders has been received) on the Exchange Date in the amount of the Notes of the relevant Class. On the exchange of a Temporary Global Note for a Permanent Global Note of the relevant Class, the Permanent Global Note will remain deposited with the relevant common safekeeper.

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with one of the International Central Securities Depositories and/or Central Securities Depositories that fulfils the minimum standard established by the European Central Bank, as common safekeeper and does not necessarily mean that the Class A Notes will be recognised Eurosystem Eligible Collateral either upon issue or at any or all times during their life. Such recognition will, *inter alia*, depend upon satisfaction of the Eurosystem eligibility criteria, as amended from time to time, which criteria will include the requirement that loan-by-loan information shall be made available to investors in accordance with the template which is available on the website of the European Central Bank. It has been agreed in the Administration Agreement that the Issuer Administrator shall use its best efforts to make such loan-by-loan information available on a quarterly basis which information can be obtained at the website of the European DataWarehouse <http://www.eurodw.eu/edwin.html> within one month after the Notes Payment Date, for as long as such requirement is effective, to the extent it has such information available. Should such loan-by-loan information not comply with the European Central Bank's requirements or not be available at such time, the Class A Notes may not be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem.

The Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes are not intended to be recognised as Eurosystem Eligible Collateral.

The Global Notes will be transferable by delivery in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as appropriate. Each Permanent Global Note will be exchangeable for Definitive Notes only in the circumstances described below. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note will be entitled to receive any payment made in respect of that Note in accordance with the respective rules and procedures of Euroclear or, as the case may be, Clearstream, Luxembourg. Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes, which must be made by the holder of a Global Note, for so long as such Global Note is outstanding. Each person must give a certificate as to non-U.S. beneficial ownership as of the date on which the Issuer is obliged to exchange a Temporary Global Note for a Permanent Global Note, which date shall be no earlier than the Exchange Date, in order to obtain any payment due on the Notes.

For as long as all of the Notes are represented by the Global Notes and such Global Notes are held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant accountholders rather than by publication as required by Condition 13 (*Notices*) (provided that, in the case of any publication required by a stock exchange, that stock exchange agrees or, as the case may be, any other publication requirement of such stock exchange will be met). Any such notice shall be deemed to have been given to the Noteholders on the seventh (7th) calendar day after the day on which such notice is delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

For as long as a Class of the Notes is represented by a Global Note, each person who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of that Class of Notes will be treated by the Issuer and the Security Trustee as a holder of such amount of that Class of Notes and the expression 'Noteholder' shall be construed accordingly, but without prejudice to the entitlement of the bearer of the relevant Global Note to be paid on the principal amount thereof and interest with respect thereto in accordance with and subject to its terms. Any statement in writing issued by Euroclear or Clearstream, Luxembourg as to the persons shown in its records as being entitled to such Notes and the respective principal amount of such Notes held by them shall be conclusive for all purposes.

If after the Exchange Date (i) the Notes become immediately due and payable by reason of accelerated maturity following an Event of Default, or (ii) either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of fourteen (14) calendar days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Security Trustee is available, or (iii) as a result of any amendment to, or change in the laws or regulations of the Netherlands (or of any political sub-division thereof) or of any authority therein or thereof having power to tax, or in the interpretation or administration of such laws or regulations, which becomes effective on or after the Closing Date, the Issuer or the Principal Paying Agent or the Paying Agent is or will be required to make any deduction or withholding on account of tax from any payment in respect of the Notes which would not be required were the Notes in definitive form, then the Issuer will at its sole cost and expense, issue:

- (a) Class A1 Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Class A1 Notes;
- (b) Class A2 Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Class A2 Notes;
- (c) Class B Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Class B Notes;
- (d) Class C Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Class C Notes;
- (e) Class D Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Class D Notes; and

- (f) Class E Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Class E Notes,

in each case within thirty (30) calendar days of the occurrence of the relevant event, subject in each case to certification as to non-U.S. beneficial ownership.

The Definitive Notes and the Coupons will bear the following legend: "ANY UNITED STATES PERSON (AS DEFINED IN THE INTERNAL REVENUE CODE), WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE INTERNAL REVENUE CODE".

The sections referred to in such legend provide that such a United States Person who holds a Note will not, with certain exceptions, be permitted to deduct any loss, and will not be eligible for favourable capital gains treatment with respect to any gain, realised on a sale, exchange or redemption of a Definitive Note or Coupon.

The following legend will appear on all Global Notes receipts and Coupons which are held by Euroclear or Clearstream, Luxembourg: "NOTICE: THIS NOTE IS ISSUED FOR DEPOSIT WITH EUROCLEAR OR CLEARSTREAM, LUXEMBOURG. ANY PERSON BEING OFFERED THIS NOTE FOR TRANSFER OR ANY OTHER PURPOSE SHOULD BE AWARE THAT THEFT OR FRAUD IS ALMOST CERTAIN TO BE INVOLVED."

Rabobank International has agreed to subscribe, or procure the subscription for the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes at their Issue Price. The Issuer has agreed to indemnify and reimburse the Managers against certain liabilities and expenses in connection with the issue of the Notes. The Managers are in certain circumstances entitled to be released from their obligations under the Subscription Agreement.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State. The expression **Prospectus Directive** means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

4.5 Use of proceeds

The aggregate proceeds of the Notes to be issued on the Closing Date amount to EUR 752,200,000. The net proceeds of the issue of the Notes (other than the Class E Notes) will be applied on the Closing Date to pay part of the Initial Purchase Price for the Mortgage Receivables purchased under the Mortgage Receivables Purchase Agreement on the Closing Date. Furthermore, the Issuer will receive an amount of EUR 19,495,908.65 as consideration for the Participations granted to the Participants in the Savings Mortgage Receivables, Switch Mortgage Receivables and Bank Savings Mortgage Receivables. The Issuer will apply this amount towards payment in part of the Initial Purchase Price for the Mortgage Receivables purchased by the Issuer on the Closing Date. The proceeds of the issue of the Class E Notes will be used to fund the Reserve Account on the Closing Date.

4.6 Taxation in the Netherlands

Dutch Taxation

The following summary outlines certain Dutch tax consequences to Noteholders in connection with the acquisition, ownership and disposal of Notes. The summary does not purport to present any comprehensive or complete picture of all Dutch tax aspects that could be of relevance to a (prospective) Noteholder who may be subject to special tax treatment. The summary is based on the current tax law and practice of the Netherlands as in effect on the date of this Prospectus, which is subject to changes that could prospectively or retrospectively affect the stated tax consequences. Prospective Noteholders should consult their own professional advisors as to their tax position.

Withholding Tax

All payments under the Notes may be made free of withholding or deduction of or for any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Taxes on Income and Capital Gains

A holder of Notes will not be subject to any Dutch taxes on income or capital gains in respect of the Notes, including such tax on any payment under the Notes or in respect of any gain realised on the disposal, deemed disposal or exchange of the Notes, provided that:

- (a) such holder is neither a resident nor deemed to be a resident of the Netherlands, nor, if he is an individual, has elected to be taxed as a resident of the Netherlands³; and
- (b) such holder does not have an enterprise or an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands and to which enterprise or part of an enterprise, as the case may be, the Notes are attributable; and

³ Please note that per 1 January 2015 the election regime will be replaced by a mandatory qualification as a 'qualifying foreign taxpayer' on the basis of certain objective criteria.

- (c) if such holder is an individual, such income or capital gain do not form "benefits from miscellaneous activities in the Netherlands" (*resultaat uit overige werkzaamheden in Nederland*), which would for instance be the case if the activities in the Netherlands with respect to the Notes exceed "normal active asset management" (*normaal, actief vermogensbeheer*) or if income and gains are derived from the holding, whether directly or indirectly, of (a combination of) shares, debt claims or other rights (a "lucrative interest"; "*lucratief belang*") that the holder thereof has acquired under such circumstances that such income and gains are intended to be remuneration for work or services performed by such holder (or a related person) in the Netherlands, whether within or outside an employment relation, where such lucrative interest provides the holder thereof, economically speaking, with certain benefits that have a relation to the relevant work or services.

A holder of Notes will not be subject to taxation in the Netherlands by reason only of the execution, delivery and/or enforcement of the Transaction Documents and the issue of the Notes or the performance by the Issuer of its obligations there under or under the Notes.

Gift, Estate and Inheritance Taxes

No gift, estate or inheritance taxes will arise in the Netherlands with respect to an acquisition or deemed acquisition of Notes by way of a gift by, or on the death of, a holder of Notes who is neither resident, deemed to be resident for Dutch inheritance and gift tax purposes, unless in the case of a gift of Notes by an individual who at the date of the gift was neither resident nor deemed to be resident in the Netherlands, such individual dies within 180 calendar days after the date of the gift, while being resident or deemed to be resident in the Netherlands.

For the purposes of Netherlands gift, estate and inheritance tax, a gift that is made under a condition precedent is deemed to be made at the moment such condition precedent is satisfied or, if earlier, the moment the donor dies.

For purposes of Netherlands gift, estate and inheritance tax, an individual who holds the Netherlands nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the ten (10) years preceding the date of the gift or his death.

For purposes of Netherlands gift tax, an individual not holding the Netherlands nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the twelve (12) months preceding the date of the gift.

Turnover Tax

No Dutch turnover tax will arise in respect of any payment in consideration for the issue of the Notes or with respect to any payment by the Issuer of principal, interest or premium (if any) on the Notes.

Other Taxes and Duties

No Dutch registration tax, capital tax, custom duty, transfer tax, stamp duty or any other similar documentary tax or duty, other than court fees, will be payable in the Netherlands in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including the

enforcement of any foreign judgment in the Courts of the Netherlands) of the Transaction Documents or the performance by the Issuer of its obligations there under or under the Notes.

European Union Tax Considerations

Under Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest and other similar income paid by a person within its jurisdiction to, or for, an individual or certain limited types of entity established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during such period they elect otherwise) to operate a withholding tax in relation to such payments. The transitional period will end after agreement on exchange of information is reached between the European Union and certain non-European Union states. No withholding will be required where a holder of Notes authorises the person making the payments to report the payments or presents a certificate from the relevant tax authority establishing exemption therefrom. A number of third countries (including Switzerland) have adopted equivalent measures (a withholding system in the case of Switzerland), and certain British and Dutch dependent or associated territories have adopted the same measures, with effect from the same date.

On 18 March 2014, the Luxembourg Ministry of Finance filed a bill with the Luxembourg parliament to introduce, on 1 January 2015 and within the scope of the Directive, the automatic exchange of information for all interest payments made by Luxembourg financial operators to individuals resident in another Member State. This will replace the 35 per cent. withholding tax.

On 24 March 2014, the European Council formally adopted a Council Directive amending the Directive (the **Amending Directive**). The Amending Directive broadens the scope of the requirements described above. Member States have until 1 January 2016 to adopt the national legislation necessary to comply with the Amending Directive. The changes made under the Amending Directive include extending the scope of the Directive to payments made to, or collected for, certain other entities and legal arrangements. They also broaden the definition of “interest payment” to cover income that is equivalent to interest.

Financial transaction tax

The European Commission has published a proposal for a Directive for a common financial transaction tax in certain participating Member States. The proposed financial transaction tax has very broad scope and could apply to certain dealings in financial instruments (including secondary market transactions).

The financial transaction tax could apply to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in financial instruments where at least one party is a financial institution, and either (i) at least one party is established or deemed to be established in a participating Member State, or (ii) the financial instruments are issued in a participating Member State.

The proposed Directive remains subject to negotiation between the participating Member States and may be the subject of a continuing legal challenge. It may therefore be altered prior to any

implementation, the timing of which remains unclear, although it has been indicated that first steps are intended to be implemented at the latest on 1 January 2016.

4.7 Security

The Notes will be secured indirectly, through the Security Trustee, by the Trust Deed to be entered into by the Issuer and the Security Trustee, acting as security trustee for the Secured Creditors. The Issuer will agree in the Trust Deed, to the extent necessary in advance, to pay to the Security Trustee any amounts equal to the aggregate of all its liabilities to all the Secured Creditors from time to time due in accordance with the terms and conditions of the relevant Transaction Documents, including, without limitation, the Notes (the **Principal Obligations**), which payment undertaking and the obligations and liabilities resulting therefrom is herein referred to as the **Parallel Debt**.

The Parallel Debt of the Issuer to the Security Trustee will be secured by (i) a first ranking pledge by the Issuer to the Security Trustee over the Mortgage Receivables (including any parts thereof which are balanced by Construction Deposits) pursuant to the Issuer Mortgage Receivables Pledge Agreement, including all rights ancillary thereto in respect of the Mortgage Loans and the Beneficiary Rights), (ii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the Swap Agreement, the Conditional Deed of Novation, the Servicing Agreement, the Issuer Account Agreement, the Cash Advance Facility Agreement, the Beneficiary Waiver Agreement, the Participation Agreements, the Commingling Guarantee, the Construction Deposits Guarantee and (iii) a first ranking pledge granted by the Issuer to the Security Trustee over the Issuer's claims in respect of the Issuer Accounts.

The Issuer and the Security Trustee will enter into the Issuer Mortgage Receivables Pledge Agreement pursuant to which the Issuer undertakes to grant to the Security Trustee a first ranking undisclosed right of pledge (*stil pandrecht eerste in rang*) over the Mortgage Receivables purchased by and assigned to it on the Closing Date and the Beneficiary Rights relating thereto in order to create security for all liabilities of the Issuer to the Security Trustee in connection with the Trust Deed, including the Parallel Debt and any of the other Transaction Documents. Pursuant to the Issuer Mortgage Receivables Pledge Agreement, the Issuer further undertakes, in respect of any Further Advance Receivables or New Mortgage Receivables, to grant to the Security Trustee a first ranking undisclosed right of pledge on the relevant Further Advance Receivables (unless the Mortgage Receivables resulting from a Mortgage Loan in respect of which a Further Advance is granted are being repurchased and re-assigned by the Seller) or New Mortgage Receivables and any associated Beneficiary Rights on the relevant purchase date. In this respect, the Issuer and the Security Trustee acknowledge that (i) the Parallel Debt constitutes undertakings, obligations and liabilities of the Issuer to the Security Trustee which are separate and independent from and without prejudice to the Principal Obligations of the Issuer to any Secured Creditor and (ii) the Parallel Debt represents the Security Trustee's own claim (*vordering*) to receive payment of the Parallel Debt from the Issuer, provided that the aggregate amount that may become due under the Parallel Debt will never exceed the aggregate amount that may become due under all of the Principal Obligations to the Secured Creditors.

The pledge over the Mortgage Receivables provided in the Issuer Mortgage Receivables Pledge Agreement will not be notified to the Borrowers except in the case of certain Pledge Notification

Events. These Pledge Notification Events will, to a large extent, be similar to the Assignment Notification Events defined in the Mortgage Receivables Purchase Agreement. Prior to notification of the pledge to the Borrowers, the pledge will be an undisclosed right of pledge (*stil pandrecht*) within the meaning of Section 3:239 of the Dutch Civil Code. The pledge of the Beneficiary Rights will also be an undisclosed right of pledge until notification thereof to the relevant Insurance Companies.

In addition, the Issuer will vest a right of pledge on the Issuer Rights pursuant to the Issuer Rights Pledge Agreement in favour of the Security Trustee. This right of pledge secures any and all liabilities of the Issuer to the Security Trustee resulting from or in connection with the Parallel Debt. Furthermore, on the Closing Date, the Issuer will vest pursuant to the Issuer Accounts Pledge Agreement, in favour of the Security Trustee, a right of pledge in respect of any and all current and future monetary claims of the Issuer against the Issuer Account Bank, in respect of the Issuer Account Agreement and the Issuer Accounts. The pledge pursuant to each of the Issuer Rights Pledge Agreement and the Issuer Accounts Pledge Agreement will be notified to the relevant obligors and will therefore be a disclosed right of pledge (*openbaar pandrecht*).

Upon enforcement of the pledges created pursuant to the Pledge Agreements (which is after delivery of an Enforcement Notice), the Security Trustee shall apply the net proceeds received or recovered towards satisfaction of the Parallel Debt. The Security Trustee shall distribute such net proceeds (after deduction of the amounts due and payable to each of the Participants under the Participation Agreements which amounts will be paid in priority to all other amounts due and payable by the Issuer at that time under any of the other Transaction Documents) to the Secured Creditors (other than the Participants). All amounts to be so distributed by the Security Trustee will be paid in accordance with the Post-Enforcement Priority of Payments (as set forth in section 5 (*Credit structure*)).

The security provided pursuant to the provisions of the Trust Deed and the Pledge Agreements shall indirectly, through the Security Trustee, serve as security for the benefit of the Secured Creditors, including, without limitation, each of the Class A Noteholders, the Class B Noteholders, the Class C Noteholders, the Class D Noteholders and the Class E Noteholders, but amounts owing to the Class B Noteholders will rank junior to Class A Noteholders and amounts owing to the Class C Noteholders will rank junior to the Class A Noteholders and the Class B Noteholders and amounts owing to the Class D Noteholders will rank junior to the Class A Noteholders, the Class B Noteholders and the Class C Noteholders and amounts owing to the Class E Noteholders will rank junior to the Class A Noteholders, the Class B Noteholders, the Class C Noteholders and the Class D Noteholders (see section 5 (*Credit structure*)).

will, pursuant to the terms of the Trust Deed, be applied by the Issuer on the immediately succeeding Notes Payment Date in accordance with the Redemption Priority of Payments.

Cash Collection Arrangements

Payments by the Borrowers under the Mortgage Loans are collected by means of direct debit on or about the second (2nd) Business Day before the end of each calendar month. All payments made by Borrowers will be paid into the Seller Collection Accounts. On the Closing Date the balances on these accounts are not pledged to any party, other than to the banks at which the accounts are established pursuant to the applicable general terms and conditions. The Seller Collection Accounts will also be used for the collection of monies paid in respect of mortgage loans other than Mortgage Loans and in respect of other monies belonging to the Seller.

On each Mortgage Collection Payment Date, the Seller shall transfer (or procure that the Servicer shall transfer on its behalf) all amounts of principal, interest, interest penalties and Prepayment Penalties received by the Seller in respect of the Mortgage Loans and paid to the Seller Collection Accounts during the immediately preceding Mortgage Calculation Period to the Issuer Collection Account. The Commingling Guarantor will guarantee the payment by the Seller to the Issuer Collection Account of the amounts received by the Seller up to a maximum of EUR 22,400,000 subject to the Commingling Guarantee.

If at any time the Commingling Guarantor is assigned a rating less than the Requisite Credit Rating, (i) the Seller (or the Servicer on its behalf) will in the event the rating of the Commingling Guarantor is downgraded by Moody's, be required to transfer the amounts received on behalf of the Issuer to the Issuer Collection Account on a daily basis, unless another solution is found which is suitable in order to maintain the then current ratings of the Notes, and (ii) the Commingling Guarantor will within thirty (30) calendar days after the occurrence of any such event, deposit into the Issuer Collection Account an amount of EUR 22,400,000 reduced by any payment made by the Commingling Guarantor pursuant the Commingling Guarantee prior to the occurrence of any such event.

Following an Assignment Notification Event as described under section 7.1 (*Purchase, repurchase and sale*), the Borrowers will be required to pay all amounts due by them under the relevant Mortgage Loans directly to the Issuer Collection Account.

Use of proceeds

The Issuer will use the net proceeds from the issue of the Notes (other than the Class E Notes) to pay part of the Initial Purchase Price for the Mortgage Receivables purchased by the Issuer on the Closing Date. The proceeds of the Class E Notes will be used to fund the Reserve Account.

Mortgage Loan Interest Rates

The Mortgage Loans pay interest on a floating rate basis or fixed rate basis, subject to a reset from time to time. On the Cut-Off Date, the weighted average interest rate of the portfolio amounted to 4.44 per cent. The weighted average remaining interest reset period is 75.77 months. Interest rates vary among individual Mortgage Loans. The range of interest rates is described further in section 6.2 (*Description of Mortgage Loans*).

- (l) *Twelfth*, in or towards satisfaction of all amounts of interest due or accrued but unpaid in respect of the Class E Notes;
- (m) *Thirteenth*, in or towards satisfaction of all amounts of principal and other amounts due but unpaid in respect of the Class E Notes;
- (n) *Fourteenth*, in or towards satisfaction of the Swap Counterparty Default Payment to the Swap Counterparty under the terms of the Swap Agreement;
- (o) *Fifteenth*, in or towards satisfaction, *pro rata*, according to the respective amounts thereof, of any Subordinated Cash Advance Facility Amount and gross-up amounts or additional amounts, if any, due under the Administration Agreement and/or the Servicing Agreement; and
- (p) *Sixteenth*, in or towards satisfaction of the Deferred Purchase Price to the Seller pursuant to the Mortgage Receivables Purchase Agreement.

5.3 Loss allocation

A Principal Deficiency Ledger, comprising four sub-ledgers known as the Class A Principal Deficiency Ledger, Class B Principal Deficiency Ledger, Class C Principal Deficiency Ledger and Class D Principal Deficiency Ledger, will be established by or on behalf of the Issuer in order to record any Realised Losses (each respectively the Class A Principal Deficiency, the Class B Principal Deficiency, the Class C Principal Deficiency and the Class D Principal Deficiency). Any Realised Losses will, on the relevant Notes Calculation Date be debited to the Class D Principal Deficiency Ledger (such debit items being re-credited at item (m) of the Revenue Priority of Payments) so long as the debit balance on such sub-ledger is not greater than the Principal Amount Outstanding of the Class D Notes, and thereafter the Class C Principal Deficiency Ledger (such debit items being re-credited at item (k) of the Revenue Priority of Payments) so long as the debit balance on such sub-ledger is not greater than the Principal Amount Outstanding of the Class C Notes, and thereafter to the Class B Principal Deficiency Ledger (such debit items being re-credited at item (i) of the Revenue Priority of Payments) so long as the debit balance on such sub-ledger is not greater than the Principal Amount Outstanding of the Class B Notes, and thereafter such amounts shall be debited to the Class A Principal Deficiency Ledger (such debit item being re-credited at item (g) of the Revenue Priority of Payments).

5.4 Hedging

The Mortgage Loan Criteria require that all Mortgage Loans bear a floating rate of interest or fixed rate of interest, subject to a reset from time to time. The interest rate payable by the Issuer with respect to the Notes is calculated as a margin over EURIBOR, which margin will for the Notes (other than the Class E Notes) increase after the First Optional Redemption Date. The Issuer will hedge this interest

rate exposure by entering into the Swap Agreement with the Swap Counterparty and the Security Trustee. Under the Swap Agreement, the Issuer will agree to pay on each Notes Payment Date amounts equal to (a) the interest scheduled to be received on the Mortgage Receivables in respect of the relevant Notes Calculation Period (*minus* (i) with respect to any Bank Savings Mortgage Receivable, Savings Mortgage Receivable and Switch Mortgage Receivable, an amount equal to the interest amounts scheduled to be received on such Bank Savings Mortgage Receivable, Savings Mortgage Receivable and Switch Mortgage Receivable multiplied by the relevant Participation Fraction and (ii) with respect to any Mortgage Receivables in respect of which the enforcement procedures have been fully and finally terminated, an amount equal to the accrued interest thereon), plus (b) the interest credited to the Issuer Collection Account which will be zero if such interest is negative (*minus* any interest due by the Issuer to the Construction Deposits Guarantor over the collateral posted following an event the ratings assigned to the Construction Deposits Guarantor are less than the Requisite Credit Rating and/or such rating is withdrawn), and *plus* (c) Prepayment Penalties and any penalty interest (*boeterente*), less the sum of (i) certain expenses as described under (a), (b) and (c) of the Revenue Priority of Payments incurred in respect of the relevant Notes Calculation Period, and (ii) the Excess Spread. In return, the Swap Counterparty will agree to pay amounts equal to the scheduled interest due under each Class of Notes, calculated by reference to the Floating Rate of Interest applied to the Principal Amount Outstanding of the relevant Class of Notes on the first (1st) day of the relevant Interest Period. The notional amount under the Swap Agreement, however, will be reduced to the extent there will be a debit balance on any of the sub-ledgers of the Principal Deficiency Ledger at the close of business on the first day of the relevant Interest Period. As there is no principal deficiency sub-ledger in respect of the Class E Notes, the swap notional amount for the Class E Notes will be reduced to zero if and as long as there will be an outstanding debit on the Class D Principal Deficiency Ledger on the Notes Payment Date at the close of business on the first day of the relevant Interest Period.

The Swap Agreement provides that, in the event that any payment made by the Issuer to the Swap Counterparty is less than the amount which the Issuer would be required to pay to the Swap Counterparty, the corresponding payment obligation of the Swap Counterparty to the Issuer shall be reduced by an amount equal to such shortfall.

If, *inter alia*, (i) the Swap Counterparty fails to make, when due, any payment to the Issuer under the Swap Agreement or (ii) the Swap Counterparty is declared bankrupt (*failliet*), the Issuer shall promptly give notice thereof to the Back-Up Swap Counterparty in accordance with the Conditional Deed of Novation. Following such notice, the Swap Agreement shall be novated to the Back-Up Swap Counterparty in accordance with the Conditional Deed of Novation. Upon such novation (i) reference to the Swap Counterparty in respect of the Swap Agreement shall be deemed to be a reference to the Back-Up Swap Counterparty, (ii) the Swap Counterparty shall be released from its obligations under the Swap Agreement towards the Issuer, (iii) the Back-Up Swap Counterparty shall have assumed all obligations of the Swap Counterparty towards the Issuer under the Swap Agreement and (iv) the Back-Up Swap Counterparty shall have acquired all rights of the Swap Counterparty as against the Issuer under the Swap Agreement.

Payments under the Swap Agreement will be netted.

The Swap Agreement will be documented under an ISDA Master Agreement. The Swap Agreement will be terminable by one party if, *inter alia*, (i) an applicable event of default or termination event (as set out in the Swap Agreement) occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the Swap Agreement or (iii) an Enforcement Notice is served. Events of default under the Swap Agreement in relation to the Issuer will be limited to (i) non-payment under the Swap Agreement and (ii) certain insolvency events.

Upon the early termination of the Swap Agreement, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other party. The amount of any termination payment will be based on the market value of the Swap Agreement. The market value will be based on market quotations of the cost of entering into a transaction with the same terms and conditions and that would have the effect of preserving the respective full payment obligations of the parties (or based upon loss in the event that no market quotation can be obtained).

In the event that the Issuer is required to withhold or deduct an amount in respect of tax from payments due from it to the Swap Counterparty, the Issuer will not be required pursuant to the terms of the Swap Agreement to pay the Swap Counterparty such amounts as would otherwise have been required to ensure that the Swap Counterparty received the same amounts that it would have received had such withholding or deduction not been made.

In the event that the Swap Counterparty is required to withhold or deduct an amount in respect of tax from payments due from it to the Issuer, the Swap Counterparty will be required pursuant to the terms of the Swap Agreement to pay to the Issuer such additional amounts as are required to ensure that the Issuer receives the same amounts that it would have received had such withholding or deduction not been made.

In either event, the Swap Counterparty will at its own cost, if it is unable to transfer its rights and obligations under the Swap Agreement to another office, have the right to terminate the Swap Agreement. Upon such termination, the Issuer or the Swap Counterparty may be liable to make a termination payment to the other party.

If at any time the Back-Up Swap Counterparty (or its successor) is assigned a rating less than the Requisite Credit Rating or, in the event that any Notes (other than the Class E Notes) are downgraded immediately prior to a downgrade of the Back-Up Swap Counterparty, and/or if any such rating is withdrawn by Moody's, S&P or Fitch, the Swap Counterparty will be required to take certain remedial measures which may include the provision of collateral for its obligations under the Swap Agreement, arranging for its obligations under the Swap Agreement to be transferred to an entity with the Requisite Credit Rating, procuring another entity with at least the Requisite Credit Rating to become co-obligor or guarantor in respect of its obligations under the Swap Agreement, or (other than Fitch) the taking of such other suitable action as it may then propose to the Credit Rating Agencies. A failure to take such steps, subject to certain conditions, will give the Issuer the right to terminate the Swap Agreement.

The Issuer, the Swap Counterparty and the Security Trustee have entered into a credit support annex, which is a part of the Swap Agreement on the basis of the standard ISDA documentation, which provides for requirements relating to the providing of collateral by the Swap Counterparty if the Back-Up Swap Counterparty (or its successor) ceases to have at least the Requisite Credit Rating.

The Issuer will maintain a separate account or accounts, as the case may be, with an entity having at least the Requisite Credit Rating into which any collateral required to be transferred by the Swap Counterparty in accordance with the provisions set out above will be deposited. Any Swap Collateral transferred by the Swap Counterparty which is in excess of its obligations to the Issuer under the Swap Agreement will be returned to such Swap Counterparty (outside of any priority of payments) prior to the distribution of any amounts due to the Noteholders or the other Secured Creditors.

5.5 Liquidity support

Construction Deposits Guarantee

The sale of the Mortgage Receivables to the Issuer includes such parts of the Mortgage Receivables as correspond to the amounts placed in deposit with the Seller as Construction Deposits. In the event of any set-off defences of a Borrower with respect to repayment of the Mortgage Receivables based on the statement that the Construction Deposit was not made available to such Borrower, following an Assignment Notification Event, the Issuer has the right to invoke the Construction Deposits Guarantee. All amounts received by the Issuer under the Construction Deposits Guarantee following such demand will become part of the Available Principal Funds.

If at any time the Construction Deposits Guarantor ceases to have the Requisite Credit Rating, the Construction Deposits Guarantor will, within thirty (30) Business Days (or in respect of Fitch thirty (30) calendar days) after the occurrence of any such event, by way of security for its payment obligations under the Construction Deposits Guarantee, deposit an amount equal to the total amount of the outstanding Construction Deposits at that time into the Issuer Collection Account, where this amount will be administered by the Issuer on the Construction Deposits Ledger. Within such period, the Issuer will serve a notice to the Seller of the event that the Construction Deposits Guarantor is assigned a rating less than the Requisite Credit Rating. Any interest received by the Issuer over that part of the balance of the Issuer Collection Account corresponding with the amount on the Construction Deposits Ledger will be due and payable by the Issuer to the Construction Deposits Guarantor and will therefore not form part of the Available Revenue Funds. The amount of the deposit made by Construction Deposits Guarantor following the event the Construction Deposits Guarantor is assigned a rating less than the Requisite Credit Rating will not form part of the amounts to be distributed by the Security Trustee in accordance with the Post-Enforcement Priority of Payments.

Until such time as the Construction Deposits need to be paid out or the ratings assigned to the Construction Deposits Guarantor are no longer less than the Requisite Credit Rating, the Construction Deposits Cash Collateral will serve as collateral for the Issuer in the event a Borrower would invoke a right of set-off of the amount due under the Mortgage Loan with the outstanding amount payable to it under or in connection with the Construction Deposit. To the extent that the Seller makes payments of Construction Deposits to a Borrower by means of actual payment or by means of set-off, the Issuer will repay to the Construction Deposits Guarantor part of the collateral and at the same time make a debit to the Construction Deposits Ledger in an amount equal to the amount of such Construction Deposits.

Cash Advance Facility

On the Signing Date, the Issuer will enter into the Cash Advance Facility Agreement with the Cash Advance Facility Provider. On any Notes Payment Date (other than an Optional Redemption Date if and to the extent that on such date the Notes are redeemed in full) the Issuer will be entitled to make drawings under the Cash Advance Facility up to the Cash Advance Facility Maximum Amount. The Cash Advance Facility Agreement is for a term of 364 days. Payments to the Cash Advance Facility Provider (other than the Subordinated Cash Advance Facility Amount) will rank in priority higher than payments under the Notes. The commitment of the Cash Advance Facility Provider is extendable at its discretion.

Any Cash Advance Facility Drawing by the Issuer shall only be made on a Notes Payment Date if and to the extent that, after the application of any Available Revenue Funds, inclusive of the amounts available on the Reserve Account, and before any Cash Advance Facility Drawing is made, there is a shortfall in the Available Revenue Funds to meet items (a) up to and including (n) of the Revenue Priority of Payments in full on that Notes Payment Date, provided that no drawings may be made to meet items (e), (g), (i), (k) and (m) of the Revenue Priority of Payments, and provided further that no drawings may be made on any Notes Payment Date for shortfalls in interest:

- (a) on the Class B Notes if there was a Class B Principal Deficiency outstanding at the close of business on the first day of the Interest Period ending on such Notes Payment Date;
- (b) on the Class C Notes if there was a Class C Principal Deficiency outstanding at the close of business on the first day of the Interest Period ending on such Notes Payment Date; and
- (c) on the Class D Notes or the Class E Notes if there was a Class D Principal Deficiency outstanding at the close of business on the first day of the Interest Period ending on such Notes Payment Date.

If at any time the Cash Advance Facility Provider is (i) assigned a credit rating of less than the Requisite Credit Rating, and/or such rating is withdrawn or the Cash Advance Facility Provider refuses to comply with a request of the Issuer to extend the Cash Advance Facility for a further term of 364 days and (ii) within thirty (30) calendar days of such downgrading, withdrawal or refusal the Cash Advance Facility Provider is not replaced with a suitable alternative cash advance facility provider, or a third party having at least the Requisite Credit Rating has not guaranteed the obligations of the Cash Advance Facility Provider, or (other than Fitch) another solution which is suitable in order to maintain the then current ratings assigned to the Notes is not found (a **Cash Advance Facility Stand-by Drawing Event**), the Issuer will be required forthwith to make a Cash Advance Facility Stand-by Drawing and deposit such amount into the Cash Advance Facility Stand-by Drawing Account. Amounts so deposited into the Cash Advance Facility Stand-by Drawing Account may be utilised by the Issuer in the same manner as if the Cash Advance Facility Stand-by Drawing had not been made. A Cash Advance Facility Stand-by Drawing shall also be made if the Cash Advance Facility is not renewed prior to the commitment termination date.

5.6 Transaction Accounts

Issuer Collection Account

The Issuer will maintain with the Issuer Account Bank the Issuer Collection Account to which all amounts received (i) in respect of the Mortgage Loans, (ii) from the Participants under the Participation Agreements and (iii) from the Construction Deposits Guarantor in the event the Construction Deposits Guarantor is assigned a rating less than the Requisite Credit Rating (see *Construction Deposits Guarantee* in section 5.5 (*Liquidity support*)) will be paid. Furthermore, any drawing (other than a Cash Advance Facility Stand-by Drawing) made under the Cash Advance Facility Agreement shall be deposited into the Issuer Collection Account. The Issuer Administrator will identify all amounts paid into the Issuer Collection Account. Payments received by the Issuer on each Mortgage Collection Payment Date in respect of the Mortgage Loans will be identified as principal, interest or other revenue receipts.

Reserve Account

The Issuer will maintain with the Issuer Account Bank the Reserve Account. The proceeds of the Class E Notes will be credited to the Reserve Account on the Closing Date.

Amounts credited to the Reserve Account will be available for drawing on any Notes Payment Date to meet items (a) up to and including (n) of the Revenue Priority of Payments (see *Priority of Payments in respect of interest (prior to Enforcement Notice)* in section 5.2 (*Priority of Payments*)), in the event the Available Revenue Funds (excluding any amount to be drawn from the Reserve Account and any amount to be drawn under the Cash Advance Facility or forming part of the Cash Advance Facility Stand-by Drawing) on such Notes Payment Date are insufficient to meet such items in full.

If and to the extent that the Available Revenue Funds calculated on any Notes Calculation Date exceed the amounts required to meet items (a) up to and including (n) in the Revenue Priority of Payments, the excess amount will be deposited into the Reserve Account or, as the case may be, applied to replenish the Reserve Account, to the extent required until the balance standing to the credit of the Reserve Account equals the Reserve Account Target Level.

The Reserve Account Target Level will on any Notes Calculation Date be equal to 1.30 per cent. of the aggregate Principal Amount Outstanding of the Notes (excluding the Class E Notes) at the Closing Date.

To the extent that the balance standing to the credit of the Reserve Account on any Notes Calculation Date exceeds the Reserve Account Target Level, such excess will be drawn from the Reserve Account on the immediately succeeding Notes Payment Date and be deposited in the Issuer Collection Account to form part of the Available Revenue Funds on such Notes Payment Date and be applied in accordance with the Revenue Priority of Payments.

If on any Notes Calculation Date all amounts of interest and principal due under the Notes, except for principal in respect of the Class E Notes, have been paid on the Notes Payment Date immediately preceding such Notes Calculation Date or will be available for payment on the Notes Payment Date immediately following such Notes Calculation Date, the Reserve Account Target Level will be reduced

to zero and any amount standing to the credit of the Reserve Account will thereafter form part of the Available Revenue Funds and will be available to redeem or partially redeem the Class E Notes until fully redeemed and thereafter towards satisfaction of the Deferred Purchase Price to the Seller.

Cash Advance Facility Stand-by Drawing Account

The Issuer shall maintain with the Issuer Account Bank the Cash Advance Facility Stand-by Drawing Account into which any Cash Advance Facility Stand-by Drawing to be made under the Cash Advance Facility Agreement will be deposited.

Rating of the Issuer Account Bank

If at any time the Issuer Account Bank is assigned a rating less than the Requisite Credit Rating, and/or such rating is withdrawn, the Issuer Account Bank shall (i) replace itself on substantially the same terms by an alternative bank having a rating at least equal to the Requisite Credit Rating within a period of thirty (30) calendar days after the occurrence of any such downgrading or withdrawal as a result of which the Issuer and/or the Issuer Administrator on its behalf will be required to transfer the balance on all such Issuer Accounts to such alternative bank, (ii) procure that a third party, having at least the Requisite Credit Rating, guarantees the obligations of the Issuer Account Bank or (iii) (other than Fitch) find another solution which is suitable in order to maintain the then current ratings assigned to the Notes.

Interest on the Issuer Accounts

The rate of interest payable by the Issuer Account Bank with respect to the Issuer Accounts will be determined by reference to (i) EONIA on the balance standing from time to time to the credit of the Issuer Collection Account and the Reserve Account and (ii) three-months EURIBOR plus a margin on the balance standing from time to time to the credit of the Cash Advance Facility Stand-by Drawing, provided that the Issuer Account Bank, subject to certain conditions being met, has the right to amend the rate of interest payable by it. Should the interest rate on any of the accounts drop below zero, the Issuer will be required to make payments to the Issuer Account Bank accordingly.

5.7 Administration Agreement

The Issuer Administrator will in the Administration Agreement agree to provide certain administration, calculation and cash management services to the Issuer in accordance with the relevant Transaction Documents, including, *inter alia*, (a) the application of amounts received by the Issuer to the Issuer Accounts and the production of quarterly reports in relation thereto, (b) procuring that all drawings (if any) to be made by the Issuer from the Reserve Account are made, (c) procuring that all payments to be made by the Issuer under the Swap Agreement are made, (d) procuring that all payments to be made by the Issuer under the Notes are made in accordance with the Paying Agency Agreement and the Conditions, (e) the maintaining of all required ledgers in connection with the above, (f) all administrative actions in relation thereto and (g) procuring that all calculations to be made pursuant to the Conditions under the Notes are made.

The Administration Agreement may be terminated by the Issuer and the Security Trustee, acting jointly, upon the occurrence of certain termination events, including but not limited to, a failure by the Issuer Administrator to comply with its obligations (unless remedied within the applicable grace period), dissolution or liquidation of the Issuer Administrator or the Issuer Administrator being declared bankrupt or granted a suspension of payments. In addition the Administration Agreement may be terminated by the Issuer Administrator upon the expiry of not less than six (6) months' notice, subject to (i) written approval by the Issuer and the Security Trustee, which approval may not be unreasonably withheld and (ii) each Credit Rating Agency having provided a Credit Rating Agency Confirmation in respect of the termination. A termination of the Administration Agreement by either the Issuer and the Security Trustee or the Issuer Administrator will only become effective if a substitute issuer administrator is appointed.

Upon the occurrence of a termination event as set forth above, the Security Trustee and the Issuer shall use their best efforts to appoint a substitute issuer administrator and such substitute issuer administrator will enter into an agreement with the Issuer and the Security Trustee substantially on the terms of the Administration Agreement, provided that such substitute issuer administrator shall have the benefit of an administration fee at a level to be then determined.

The Issuer Administrator does not have any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. The Notes will be solely the obligations and responsibilities of the Issuer and not of any other entity or person involved in the transaction, including, without limitation, the Issuer Administrator.

6 PORTFOLIO INFORMATION

6.1 Stratification tables

The Mortgage Loans have been selected according to the Seller's underwriting criteria, except in the case of NHG Mortgage Loan Parts each of which has been selected according to the criteria of Stichting WEW (see section 6.3 (*Origination and servicing by Originator*)). The information set out below in relation to the Mortgage Loans may not necessarily correspond to that of the Mortgage Loans actually sold on the Closing Date. After the Cut-Off Date, the portfolio of Mortgage Loans will change from time to time as a result of repayment, prepayment, further advances, replacements and repurchase of Mortgage Receivables. For a description of the representations and warranties given by the Seller reference is made to section 7.1 (*Purchase, repurchase and sale*).

The Seller engages an external advisor to undertake, on an annual basis, an agreed-upon procedures review on the mortgage loan portfolio which at that moment may potentially be used for securitisation transactions such as the one described in this Prospectus. Accordingly, the Mortgage Receivables sold by the Seller to the Issuer on the Closing Date as well as any Further Advance Receivables and New Mortgage Receivables sold by the Seller to the Issuer after the Closing Date will not have been subject to specific agreed-upon procedures review for the transaction described in this Prospectus.

The numerical information set out below relates to the Mortgage Loans as of the Cut-Off Date and has been extracted without material adjustment from the databases relating to the Mortgage Loans

originated by the Seller held at Stater Nederland B.V. The Cut-Off Date is 1 June 2014. All amounts mentioned in this section and in the tables below are expressed in euro.

Notes

- 1 All totals and balances included in the stratification tables are based on net principal balance (i.e. net of value of saving deposits).
- 2 The weighted average coupon is based on current interest rate of the Loan Part, weighted by the net principal balance.
- 3 The weighted average maturity (in years) is based on the legal maturity date of the Loan Part and the Cut-Off Date, weighted by the net principal balance.
- 4 The weighted average seasoning (in years) is based on the origination of the Loan Part and the Cut-Off Date, weighted by the net principal balance.
- 5 The weighted average current loan to market value is based on the 'net principal balance' for each Mortgage Loan divided by the 'Market Value' upon origination of the Mortgage Loan (as adjusted by the Seller from time to time), weighted by the net principal balance.
- 6 The weighted average current loan to indexed market value is based on the 'net principal balance' for each Mortgage Loan divided by the 'indexed market value' upon origination of the Mortgage Loan (as adjusted by the Seller from time to time), weighted by the net principal balance. The indexation is based on data from the Land Registry as per the end of March 2014.
- 7 The weighted average current loan to Original Foreclosure Value for each Mortgage Loan is based on the 'net principal balance' for each Mortgage Loan divided by the 'Foreclosure Value' upon origination of the Mortgage Loan, weighted by the net principal balance.
- 8 The weighted average current loan to Indexed Foreclosure Value for each Mortgage Loan is based on the 'net principal balance' for each loan divided by the 'Indexed Foreclosure Value' upon origination of the Mortgage Loan, weighted by the net principal balance. The Indexation is based on data from the Land Registry as per the end of March 2014.
- 9 The Original Foreclosure Value of most loans is based on the Foreclosure Value upon origination of the Mortgage Loans except for a few Mortgage Loans which have been revalued on a later date. Such a revaluation has exclusively been made in respect of Mortgage Loans which have been increased or decreased or an amendment was made in respect of the Mortgage Loan and has been based on the Foreclosure Value upon the day of the alteration.
- 10 In tables 8 up to and including 13 references to "Non/partial-NHG" are references to the Mortgage Loans which do not consist or consist partially of Loan Parts which have the benefit of an NHG Guarantee.

- 11 The weighted average seasoning (in years) as mentioned in key characteristics as well as the information included in tables 4 and 5 is based on the loan start date of each Mortgage Loan.

These characteristics demonstrate the capacity to, subject to the risk factors referred to under the section 1.2 (*Risk factors*), produce funds to pay interest and principal on the Notes, provided that each such payment shall be subject to the relevant Priority of Payments as further described under section 5 (*Credit structure*).

6.2 Description of Mortgage Loans

The Mortgage Receivables to be sold and assigned to the Issuer on the Closing Date include any and all rights (whether actual or contingent) of the Seller against any Borrower under or in connection with any Mortgage Loans selected by agreement between the Seller and the Issuer. Payment for such sale shall occur on the Closing Date.

The Mortgage Loans (or in case of Mortgage Loans consisting of more than one Loan Part, the aggregate of such Loan Parts) are secured by a first-ranking, or as the case may be a first and sequentially lower ranking Mortgage, evidenced by notarial mortgage deeds (*notariële akten van hypotheekstelling*) entered into by the Seller and the Borrowers and to the extent it relates to the NHG Mortgage Loan Parts only, have the benefit of an NHG Guarantee. The Mortgages secure the relevant Mortgage Loan and are vested over property situated in the Netherlands. The Mortgage Loans and the Mortgages securing the liabilities arising therefrom are governed by Dutch law.

Based on the numerical information set out in the section 6.1 (*Stratification tables*) but subject to what is set out in section 2 (*Risk factors*), the Mortgage Loans have characteristics that demonstrate the capacity to produce funds to service any amounts due and payable under the Notes.

Mortgage types

The Mortgage Loans in whole or in part (*leningdelen*) will consist of:

- (a) Linear Mortgage Loans (*lineaire hypotheken*);
- (b) Interest-only Mortgage Loans (*aflossingsvrije hypotheken*);
- (c) Annuity Mortgage Loans (*annuïteitenhypotheken*);
- (d) Life Mortgage Loans (*levenhypotheken*);
- (e) Investment Mortgage Loans (*beleggingshypotheken*);
- (f) Savings Mortgage Loans (*spaarhypotheken*);
- (g) Switch Mortgage Loans (*switchhypotheken*); and
- (h) Bank Savings Mortgage Loans (*bankspaarhypotheken*).

Each Mortgage Loan shall have the benefit of a Risk Insurance Policy taken out by the Borrower with an Insurance Company in the event and to the extent the relevant Mortgage Loan exceeds 100 per cent. of the Foreclosure Value of the relevant Mortgaged Asset, except in the event of NHG Mortgage Loan Parts which do not include a Life Mortgage Loan, Savings Mortgage Loan or Switch Mortgage Loan which will have the benefit of a separate Risk Insurance Policy in the event and to the extent the relevant Mortgage Loan exceeds eighty (80) per cent. of the Foreclosure Value of the Mortgaged Asset. In the case of Mortgage Loans including a Life Mortgage Loan or Savings Mortgage Loan such Risk Insurance Policy will be included in the relevant Life Insurance Policy or Savings Insurance Policy.

Each of the above types of mortgage loans can be in the form of a construction mortgage loan (*bouwhypotheek*).

Linear Mortgage Loans

Under a Linear Mortgage Loan the Borrower pays a fixed amount of principal each month towards redemption of the relevant mortgage loan (or relevant part thereof) until maturity. Interest is payable monthly and is calculated on the outstanding balance of the mortgage loan (or relevant part thereof).

Interest-only Mortgage Loans

Under an Interest-only Mortgage Loan, the Borrower is not obliged to pay principal towards redemption of the relevant mortgage loan (or relevant part thereof) until maturity. Interest is payable monthly and is calculated on the outstanding balance of the mortgage loan (or relevant part thereof).

Annuity Mortgage Loans

Under an Annuity Mortgage Loan, the Borrower pays a fixed monthly instalment, made up of an initially high and thereafter decreasing interest portion and an initially low and thereafter increasing principal portion, and calculated in such manner that the Annuity Mortgage Loan will be fully redeemed at maturity.

Life Mortgage Loans

Under a Life Mortgage Loan, no principal is paid until maturity but instead the Borrower pays a premium on a monthly basis to the relevant Insurance Company under a Life Insurance Policy taken out with such Insurance Company. The premiums paid by the Borrowers are invested by the relevant Insurance Company in certain investment funds. It is the intention that a Life Mortgage Loan will be fully repaid by means of the proceeds of the Life Insurance Policy.

Investment Mortgage Loans

Under an Investment Mortgage Loan the Borrower does not pay principal prior to the maturity of the mortgage loan, but instead undertakes to invest, on an instalment basis or up front, defined amounts in certain investment funds. The amounts invested take the form of participations in the investment funds selected by the Borrower and are credited to the Borrower Investment Account in the name of the relevant Borrower. It is the intention that an Investment Mortgage Loan will be fully repaid with the proceeds of the investments held in the Borrower Investment Account.

Savings Mortgage Loans

A Savings Mortgage Loan is combined with a Savings Insurance Policy, which consists of a combined risk and capital insurance policy taken out by the Borrower with ASR Levensverzekering N.V. or Interpolis in connection with the relevant Savings Mortgage Loan. Under a Savings Mortgage Loan no principal is paid by the Borrower prior to the maturity of the loan. Instead, the Borrower pays a premium on a monthly basis, which consists of a risk element and a savings element. The Savings Premium is calculated in such a manner that, on an annuity basis, the proceeds of the Savings Insurance Policy

due by the Insurance Company to the relevant Borrower will be equal to the amount due by the Borrower to the Seller at maturity of the Savings Mortgage Loan.

Switch Mortgage Loans

A Switch Mortgage Loan is combined with a Savings Investment Insurance Policy, which consists of a combined risk and capital insurance policy taken out by the Borrower with Interpolis in connection with the relevant Switch Mortgage Loan. Under a Switch Mortgage Loan no principal is paid by the Borrower prior to the maturity of the loan. Instead, the Borrower pays a premium on a monthly basis, which consists of a risk element and a savings element, which premium is invested in certain investment funds selected by the Borrower and/or deposited into an account held in the name of the relevant Insurance Company with the Seller. The Borrowers may at any time switch (*omzetten*) their investments among such investment funds and to and from said account.

Bank Savings Mortgage Loans

A Bank Savings Mortgage Loan is combined with a Bank Savings Account held by the relevant Borrowers with the Bank Savings Account Bank. Under a Bank Savings Mortgage Loan no principal is paid by the Borrower prior to the maturity of the loan. Instead, the Borrower on a monthly basis pays a deposit into the relevant Bank Savings Account.

Interest Rates

Obvion offers the following options to the Borrowers regarding the payment of interest:

Fixed Interest

A fixed rate of interest is payable on the Mortgage Loans (or relevant part thereof), subject to resets from time to time (2, 5, 6, 7, 10, 12, 15, 20 or 30 years).

Floating Interest (not available in combination with Savings Mortgage Loans and Switch Mortgage Loans)

A variable rate of interest is payable on the Mortgage Loans (or relevant part thereof) based on the rate for one-month EURIBOR plus a margin.

"Obvion Rentevrijheid"

Depending on the type of mortgage, a Borrower can choose for a two-year interest fixation period with the so-called "*Obvion Rentevrijheid*" option. With this option, the Borrower pays a fixed rate of interest during the first 24 months of the Mortgage Loan (or relevant part thereof). During this 24 month period, the Borrower has the option to set his future interest payments either at a fixed rate for a period as mentioned under sub-paragraph *Fixed Interest* or at a floating rate as mentioned under sub-paragraph *Floating Interest* above. The 24-month "*Obvion Rentevrijheid*" option period cannot be renewed.

6.3 Origination and servicing by Originator

Obvion's Origination Process

In order to implement its strategy, Obvion develops and executes a marketing and sales plan based on market analyses carried out by Obvion that may result in the development of new mortgage products. Obvion distributes its products through professional independent intermediaries and is focussed on maintaining its clients.

This section gives an overview of the entire origination process for loans with a guarantee of Stichting WEW as well as loans without such a guarantee, starting from the distribution of the loans through intermediaries until the mortgage loan becomes active. Furthermore, it provides insight into the division of tasks between the intermediaries and Obvion in the origination process and the supporting role of Stater Nederland B.V. and its mortgage information system in the origination and arrears management process.

Independent intermediaries

Obvion distributes its mortgage loans exclusively through independent, professional (Dutch) intermediaries. The intermediaries are real estate brokers, insurance brokers or mortgage advisors. These parties can either be part of an organised network (franchise) or operate as a separate entity. Obvion cooperates with a total of approximately 1,600 intermediaries throughout the Netherlands.

Within Obvion, one (1) sales manager, twelve (12) account managers and two (2) desk account managers are responsible for the selection of and the relationship with the intermediaries. All intermediaries selected by the account managers have to be licensed according to the Wft.

Stater Nederland B.V.

Stater Nederland B.V. (**Stater**) is the leading service provider for the Dutch mortgage market. In fulfilling this role, Stater focuses on support for mortgage funders in the sale, handling and financing of mortgage portfolios.

After starting life as part of Bouwfonds Hypotheken, Stater started its activities in January 1997 as an independent service provider in the mortgage market. Stater has since grown to become an international force in the market with circa 600 employees.

Stater Nederland B.V. is a 100 per cent. subsidiary of Stater N.V., of which the shares are held for 100 per cent by ABN AMRO Bank N.V.

Stater provides activities consisting of mortgage payment transactions and ancillary activities with regard to a total of more than EUR 178 billion and more than 969,000 mortgage loans. In the Netherlands, Stater has a market share of about thirty (30) per cent as of 31 December 2013.

The activities are provided in a completely automated and paperless electronic format. Stater has pioneered the use of technology through its e-transactions concept for owners of residential mortgage

loan portfolios and features capabilities to enhance, accelerate and facilitate securitisation transactions.

Stater provides an origination system that includes automated underwriting, allowing loan funders to specify underwriting criteria for each product. A credit-scoring model and a fraud detection system form part of automated underwriting.

In July 2013, rating agency Fitch affirmed Stater residential "primary servicer" rating at 'RPS1-NL'. With this rating, which Stater received for its role as "primary servicer", Stater is the top scoring service provider in Europe. Ratings are awarded on a scale from 1 to 5, with 1 being the highest possible ranking.

In 2013 KPMG Netherlands, the company's external auditor, issued an ISAE 3402 Type II assurance report on internal processes at Stater for the period 1 January 2013 until 31 October 2013. ISAE 3402 is an internationally recognized assurance standard for reporting on control processes of service organisations. The audit by external auditors is done annually.

The head office is located at Podium 1, 3826 PA, Amersfoort, the Netherlands.

Obvion and Stater Nederland B.V.

In order to support its mortgage origination and servicing process, Obvion has entered into an agreement with Stater Nederland B.V.

Obvion is responsible for marketing and sales support. The advisory role lies with the intermediary while client retention contacts fall within the activities and responsibilities of Obvion. In addition, the entire mortgage quote, underwriting, lending and servicing process is in the hands of Obvion, with the exception of collection of regular payments of interest and/or principal under mortgage loans. This collection falls within the services rendered by Stater Nederland B.V., which is authorised to use the account of Obvion for these collection activities. Stater Nederland B.V. is also responsible for giving the civil law notary instructions and settling outgoing payments including arranging that the mortgage deed for the loan being extended is drawn up in the name of and for the account and risk of Obvion. Obvion is responsible for query handling as well as for arrears and default management and client file management. Stater Nederland B.V. also periodically provides information on the rendered services.

Mortgage offering process

The intermediary initiates the mortgage loan quote process after a client has opted for Obvion as the lender. The intermediary has all consumer brochures on the Obvion products as well as an extensive manual outlining Obvion's underwriting criteria, conditions and application forms. The intermediary enters the loan application (or change) data and passes this on to Obvion either electronically via the Obvion Portal or "HDN" – the Mortgage Data Network – or on paper. At present, more than 95 per cent. of applications are electronically sent by the intermediary to Obvion. Electronic applications are in general processed within one (1) business day whereas applications submitted by fax/mail are processed within three (3) business days.

An employee of Obvion responsible for handling applications ensures that the data received by traditional mail or by fax is entered into the Obvion portal on behalf of the intermediary. Applications entered into the Obvion Portal or received by HDN are automatically entered into iSHS, in most cases without interference of an employee of Obvion. iSHS performs acceptance checks automatically on the basis of the underwriting criteria of Obvion (including a credit score), the criteria of Stichting WEW, if applicable, and the general criteria and conditions of mortgage loans. Credit history checks with the BKR and fraud detection checks via Obvion's Fraud Prevention System ('FPS') and *Stichting Fraudebestrijding Hypotheken* iSFH (Foundation Anti-Fraud Mortgages) are automatically performed and the land registry in a number of countries is checked to find out whether the applicant has (had) any current or recent credit payment problems, to identify fraud cases and possession of other properties. If iSHS gives a 'stop' advice (i.e. if one or more of the underwriting criteria is not satisfied) the application will be individually assessed by the underwriting specialist. In this case it is up to this specialist to assess whether the failure to satisfy all the underwriting criteria is material and whether the loan entails an increased risk, and if so, whether this risk is acceptable. If the specialist decides to overrule the system, with or without demanding any additional requirements for the loan application, he/she must provide a written explanation for doing so and store that explanation in the system. These overrules are periodically evaluated by management and the Compliance Department.

If the non-fulfilment of the underwriting criteria is considered to be more than marginal but the underwriting specialist considers the risk acceptable, he/she will submit a proposal to the *Krediet Commissie Acceptatie* (Credit Underwriting Committee), which will deal with the proposal at one of its weekly meetings. The Credit Underwriting Committee consists of the manager Sales, manager Treasury and/or manager Credit Risk Treasury, manager Underwriting, a senior underwriting specialist and the underwriting specialist who submitted the proposal. Incidentally, the Credit Underwriting Committee also consists of the CEO.

In the case of an application of a loan part with an application for an NHG Guarantee, a 'stop' advice resulting from the fact that one or more criteria of Stichting WEW are not met, cannot be overruled.

In the case of an approval either by iSHS, the underwriting specialist or the Credit Underwriting Committee, Obvion will send a proposal for the mortgage loan and the applicable conditions to the client via the intermediary. This proposal is valid for two (2) or three (3) weeks (depending on the product type). The client has to accept, sign and return the proposal to Obvion within this timeframe. Upon acceptance, the proposal is valid for a period of three (3) or four (4) months (depending on the product type, calculated from the date of sending of the proposal) and granting the loan is still subject to the receipt of all required documents and final acceptance. Depending on the product type and only in the case when the mortgage loan is needed to buy a house of which delivery is delayed, an extension of the validity of the proposal up to a maximum of four (4), eight (8) or twelve (12) months is possible (depending on the product type). In that case, all relevant documents, including the purchase agreement are required and should be sent to and approved by Obvion within two (2) months after the proposal was sent to the borrower. All relevant documents received by Obvion are checked and immediately scanned into Hyarchis. At the same time notification is sent to the intermediary in order to inform the applicant that the loan will be granted. As soon as this is done, all relevant data are recorded in iSHS, after which Stater Nederland B.V. will inform the civil law notary. Subsequently the civil law notary confirms the transfer date to Obvion. Entering this date into iSHS alerts Stater

Nederland B.V. that it should transfer the amount of the mortgage loan by debiting the account of Obvion to a separate account of the civil law notary. This so-called third-party account is used temporarily until the legal transfer of the collateral has been executed. After the transaction is finalised, the civil law notary will send all relevant documents (such as the mortgage deed) to Obvion. Obvion scans the documents into the electronic file. After completion of this filing, Stater Nederland B.V. will enter the mortgage loan into the administration system of Obvion. From this moment onwards the status of the mortgage loan is 'active'.

As soon as a mortgage loan with an NHG Guarantee is active, Stichting WEW is informed of the new mortgage loan.

Application of savings mortgage loans

As per 1 October 2012 Obvion stopped selling Savings Mortgage Loans with an attached policy of ASR Levensverzekering N.V. The Savings Mortgage Loans of ASR Levensverzekering N.V. can still be included in STORM transactions and/or further advance receivables.

Until 1 October 2010, Obvion originated the SpaarGarant Mortgage Loan.

Under a Switch Mortgage Loan, borrowers had the ability to switch to the SpaarGarant Mortgage Loan until 14 December 2010. Although both the SpaarGarant Mortgage Loan and the Switch Mortgage Loan are not originated anymore these type of mortgage loans can still be included in STORM transactions and/or further advance receivables.

Next to the savings mortgage loans, Obvion sells Bank Savings Mortgage Loans with a blocked savings account held with Rabobank.

Application of bank savings mortgage loans and savings mortgage loans with an attached policy of ASR Levensverzekering N.V.

The application data of the savings mortgage loan including the application data regarding the insurance policy are entered into the Obvion Portal. The application data regarding the mortgage loan and regarding the insurance policy or bank savings account respectively are automatically passed through to the iSHS. In case of a savings mortgage loan with an attached insurance policy a calculation is made in a separate tool of ASR Levensverzekering N.V. The relevant data for the offer of the mortgage loan, the savings insurance and/or the bank savings account are automatically sent back to the Obvion Portal to produce a combined/integrated proposal for the mortgage loan as well as for the bank savings contract or savings insurance respectively

After the applicant has accepted the proposal the intermediary returns the signed proposal to Obvion. In case of a bank savings mortgage loan the applicant also has to sign a three party contract (between the borrower, the Bank Savings Account Bank and Obvion) in which parties agree to pledge the savings account to Obvion and immediately repledge the account to the Bank Savings Account Bank. As soon as Obvion has received and approved all relevant documents (including the medical acceptance by the insurance company in the case of a savings mortgage loan with an attached insurance policy), the civil law notary will be instructed to draft the relevant mortgage deed in order to

pledge the bank savings account or the savings insurance policy to Obvion. At the same time Rabobank will be requested to open the bank savings account or the insurance company will be requested to issue the (savings) insurance policy, a copy of which is sent to Obvion.

Underwriting criteria

For mortgage loans which have the benefit of an NHG Guarantee the criteria of Stichting WEW are applicable. Both these criteria and the underwriting criteria of Obvion are incorporated in iSHS. As soon as Stichting WEW or Obvion changes the criteria, Stater Nederland B.V. is ordered to update the underwriting criteria in iSHS. The most important criteria in relation to the borrower, the collateral and the loan terms and conditions are explained below. In order to qualify for an NHG Guarantee the underwriting criteria must comply with all requirements set by Stichting WEW. This therefore means that the criteria described below only apply in respect of the NHG Mortgage Loan Part to the extent permitted under Stichting WEW and to the extent no other requirements set by Stichting WEW apply (see for more information section 6.5 (*NHG Guarantee programme*)).

Code of conduct

The code of conduct for mortgage lending is applicable for all mortgage loans originated by Obvion. The code of conduct is updated from time to time (the last update was implemented as per 1 January 2014).

Other regulation

As per 1 January 2013 the Dutch Government introduced further regulation. In case of conflicts with the provisions of the Code of Conduct of August 2011 this new regulation will supersede the Code of Conduct. Compared to the Code of Conduct the most important changes are:

- Interest deductibility will only be available in respect of mortgage loans which amortise over thirty (30) years or less and are being amortised on at least an annuity basis.
- Maximum LTMV allowance to be decreased to 100 per cent. from 106 per cent. within 6 years whereby the first decrease became applicable on 1 January 2013 (105 per cent.) and the last becomes applicable on 1 January 2018 (100 per cent.).

The Collateral

The collateral must in all cases meet the following requirements:

- it is located within the Netherlands;
- it will be owned by the borrower no later than the date of conveyance of the mortgage deed;
- it is intended and suitable for permanent occupation by the borrower (no buy-to-let);
- loan applications for combined residential/retail premises are accepted, provided the residential part makes up at least fifty (50) per cent. of the estimated market value;
- the maximum loan amount to be extended for apartments/condominiums is ninety (90) per cent. of market value unless the appraisal report states that the condition of the apartment is

- "sufficient", the expected selling time of the property is qualified as "current" (can be sold within six (6) months), there are no special remarks in the valuation report and there is an active Association of Owners (*Vereniging van Eigenaren*). In that case the maximum loan amount can be 104 per cent. of market value; and
- the maximum loan amount to be extended for newly built houses is currently 104 per cent. of market value.

Borrower

The borrower must be a natural person of at least eighteen (18) years old and must have full legal capacity. If the mortgage loan is applied for by two persons, they are both jointly and severally liable for the loan and must both sign the mortgage deed.

The income must be of a continuous nature (gross wage or salary, thirteenth (13th) month and holiday allowance, other structural emoluments). To enable Obvion to determine the income of a borrower who is self-employed, the borrower must provide Obvion with balance sheet, profit and loss accounts and income tax statements over the past three (3) years. Furthermore, an extract of the Chambers of Commerce showing the registration of such borrower is required from this type of borrowers. Applications of self-employed borrowers are assessed by underwriters specialised in this type of borrowers. The underwriter can on a case by case basis ask for additional information and documents.

The loan amount is calculated on the basis of the so-called 'income ratio', which is the percentage of (gross) annual income available for mortgage loan expenses. The income ratio is established every year by NIBUD (*National Instituut voor Budgetvoorlichting*) and is applicable for all mortgage loans, including non-NHG mortgage loans. Taking the relevant mortgage interest rate (for interest fixation periods < 10 years a minimum interest rate is applicable) and the relevant income into account, this is then converted into the maximum loan amount. For 2014 the ratio, applicable for borrowers with an age of up to 65 years, ranged from 18.5 per cent. for the lowest income category (< EUR 19,500) to 37.5 per cent. for the highest income category (> EUR 110,000). In the case of double-income households, the income of both partners can be counted in full but the applicable ratio is limited to the ratio for the highest income plus one-third of the lowest income.

Another criteria is that the potential borrower has a sound credit history. A check on credit history is always carried out through the BKR. The standard policy of Obvion is to deny an application if the BKR check shows that the potential borrower has or had an A-code (under specific circumstances an exception is made in the case that the potential borrower has an A-code), indicating that the borrower is or has been in arrears on any of the financial obligations that are monitored by the BKR. In addition Obvion also checks the identity of the applicants through the identity verification system (*Verificatie Informatie Systeem; VIS*) of the BKR.

Mortgage Loan amount

The minimum principal sums of the mortgage loan (which may consist of different parts) are:

Initial mortgage loan: EUR 20,000

Further advances: EUR 5,000 (EUR 20,000 in the case of Savings Mortgage Loans and Bank Savings Mortgage Loans)

The maximum loan amount is EUR 750,000. For loan amounts in excess of this amount the upfront approval of the Credit Underwriting Committee is needed.

The maximum loan amount is currently 104 per cent. of the market value of the collateral.

Depending on the foreclosure value ratio⁵, the following risk surcharges on the mortgage base rate are applicable (NB: the base rate is applicable to mortgage loans with a foreclosure value ratio <= sixty (60) per cent.).

NHG	-0.3%
Foreclosure value ratio > 60%, <= 75 %	0.1%
Foreclosure value ratio > 75%, <= 100%	0.2%
Foreclosure value ratio > 100%, <= 125%	0.3%

In the case of a further advance in the mortgage loan, the new loan component is added to the existing loan. The new loan component is subject to the current interest rate and an applicable rate differentiation is applied to the entire loan, unless all the loan components in question are guaranteed by an NHG Guarantee. The current general terms and conditions applicable in respect of mortgage loans originated by Obvion are applicable to both the new loan component and all existing loan components.

Documents to be provided by the borrower

Valuation Report

The borrower needs to provide Obvion with an original valuation report, which must not be older than six (6) months. The valuation must be done by a certified appraiser, who is not in any way involved in the sale of the property or the financing of the mortgage loan and who should be a member of NWWI (*Nederland Woning Waarde Instituut*). The valuation report itself must be in a standardised format. In respect of mortgage loans, other than mortgage loans with an NHG Guarantee, the absence of a recent valuation report is only permitted in the case of a mortgage loan:

- (a) on a newly built property; or
- (b) on an existing property, if the loan amount does not exceed 65 per cent. of market value.

⁵ As per 1 January 2013 the appraisal reports used by Obvion will only provide the Market Value of the relevant Mortgage Asset. As of that date the Foreclosure Value is determined by Obvion as ninety (90) per cent. of the Market Value.

Under (a), prior to December 2007 foreclosure value was determined by Obvion as a percentage of the acquisition price of the property (85 per cent. or 90 per cent. depending on the acquisition price). As from December 2007 under (a) the foreclosure value was equal to the development costs of the property. However the maximum loan amount in these cases was 112.5 per cent. of foreclosure value. As per August 2011 the development costs of the property are considered to be the market value. The maximum loan amounts as of that date for newly built houses is currently 104 per cent. of the market value. With regard to (b), the value determined in the most recent appraisal report of the municipality (*WOZ-beschikking*) will be used as the market value.

Other Documents

In addition to the income data and the valuation report as described above, the applicant shall provide Obvion with a copy of the sale contract or the combined purchase agreement and building contract. In exceptional cases it is allowed not to comply fully with the code of conduct. In these cases the Code of Conduct requires explains. The applicant has to provide Obvion with documents regarding these explains. The possibilities for explains are very limited and always need approval of the Credit Underwriting Committee. In the case of an application for a savings mortgage loan, a completed application form for the savings mortgage insurance and a medical certificate will also be requested. With a life mortgage loan, either an existing policy or a copy of the insurance quote must be submitted.

Obvion's collection and servicing processes

Computer systems

The iSHS is the key computer system in the portfolio servicing activities of Obvion. In addition to iSHS, Obvion uses several other computer systems and software applications. Some of these systems and applications serve to support and process the filing of both electronic mortgage files and paper files. Next to iSHS, the most important computer system and application is HYARCHIS. The systems mentioned will be addressed in the following paragraphs.

Mortgage Information system: International Stater Hypotheek Systeem (iSHS)

By means of its automated mortgage information system iSHS, Stater Nederland B.V. offers services in relation to the assessment of applications for mortgage loans, including applications for mortgage loans with an NHG Guarantee, initiating the drafting of agreements and other documents required for the execution of mortgage loans, the payment and handling of mortgage loans and/or savings insurances and/or bank savings accounts and the collection of whatever is owed on account of mortgage loans and/or the insurances linked to these loans.

All underwriting criteria and standards specified by Obvion as well as the criteria of Stichting WEW regarding mortgage loans with an NHG Guarantee are entered into iSHS. iSHS is designed in such a way that it can automatically carry out eligibility checks with regard to the loan application after all relevant data are entered. If the loan application is in accordance with all underwriting criteria and all specific requirements are met, iSHS will automatically process a mortgage rate proposal. If the loan application fails one (or more) of the criteria, iSHS will produce a 'warning' by interrupting the process (a so-called 'stop'). During the life/maturity of a mortgage loan, iSHS handles all automated activities

and all automated communication with borrowers (e.g. communication regarding approaching of interest reset dates and arrears). Obvion handles all other (customised) communication with borrowers. All written communication will be stored in the electronic mortgage file.

Back-up facilities and security of iSHS

Obvion has subscribed to the general escrow agreement that Stater Nederland B.V. has concluded with an escrow agent. Under this agreement, the source codes of Stater Nederland B.V. can continue to be used in the event that Stater Nederland B.V. goes bankrupt or ceases to exist for some other reason. In addition, Stater Nederland B.V. will arrange for on-line, immediate back-ups of applications and all Obvion data stored in the iSHS. If any data and/or applications of Obvion are destroyed or are rendered unusable, Stater Nederland B.V. will restore these data and/or applications. Stater Nederland B.V. operates a second system in De Meern alongside the primary system in Amersfoort, which duplicates the administration of all data on a near real-time basis. iSHS is updated and upgraded regularly resulting in six (6) new releases every year. Changes in relevant legislation are, if necessary, incorporated in iSHS.

HYARCHIS

HYARCHIS is the computer system used by Obvion for the scanning and imaging of all relevant documents regarding mortgage loans. All documents (regarding origination as well as servicing) are scanned into HYARCHIS. HYARCHIS is owned by an external party (Van der Doelen groep).

Obvion Portal

Obvion has developed the Obvion Portal on the internet. The Obvion Portal enables the intermediaries to enter the application data directly into iSHS. During the data entry the application data are checked. Application data are only passed through to iSHS if they are valid.

Cash flows and bank accounts

Obvion's mortgage activities cause certain cash flows between Obvion, Stichting Pensioenfonds ABP, Stater Nederland B.V., several special purpose entities and other involved parties, such as the civil law notary, the borrowers, the insurance companies and the intermediaries.

Obvion provides the funding for the mortgage loans. For this purpose Obvion deposits funds in a bank account. The same account is used as a collection account in which amounts related to interest, prepayments, instalments or principal are paid. Obvion has authorised Stater Nederland B.V. to manage the account and execute the relevant payments on its behalf. Stater Nederland B.V. is not responsible for the collection of insurance premiums in relation to the mortgage loans originated by Obvion, if applicable. The borrower pays these premiums directly to the insurance companies.

In the case of a savings mortgage loan or switch mortgage loan, the premiums paid by the borrower to ASR Levensverzekering N.V. or Interpolis will be passed on by ASR Levensverzekering N.V. or Interpolis to Obvion on separate bank accounts of Obvion on a monthly basis. In case of a bank savings mortgage loan Obvion collects the savings moneys on behalf of Robeco Direct N.V.

Furthermore, Obvion uses a bank account for all cash flows, which are not related to principal and interest, e.g. payments of the monthly fee to Stater Nederland B.V. are paid from this account. Obvion also uses this account to pay production fees and bonuses to the intermediaries and to collect the production fees and bonuses paid by the insurance companies.

Obvion's arrears and default management

The credit management policy of Obvion is focussed on detecting/contacting borrowers who fail or have an increased risk of failing to keep up their payments as early as possible. Within the Servicing and Arrears Management team, the credit management specialists are trained in, and carry overall responsibility for, the credit control function. They maintain contact with the borrower, find out the reason for non-payment, decide what route should be followed and mitigate the risk by making payment arrangements with clients and maintain contact with bailiffs, etc. Arrears regarding mortgage loans with an NHG Guarantee are managed according to the relevant rules of Stichting WEW.

Certain actions or arrangements must be submitted to the Credit Management Committee which consists of the manager Marketing and Sales, manager Treasury, Credit Risk manager Treasury, manager Arrears and Default Management, a senior credit management specialist, and the relevant credit management specialist. The Credit Management Committee convenes every week.

Obvion evaluates the credit management experiences and the findings are reported to the underwriting specialists and management. The experiences are used to improve the underwriting policy and the underwriting process.

Arrears management process

Direct debit

Approximately the 22nd day of each month, Stater Nederland B.V. delivers direct debit instructions via Secure FTP to Equens, after which the amount payable is debited from the borrower's account two (2) business days before the end of the month. The monthly processing of the direct debits in iSHS by Stater Nederland B.V. takes place not later than the first (1st) weekend of the subsequent month.

Actions and timeline

If, after the monthly processing, iSHS identifies any borrowers who have failed to pay the monthly interest/instalments, iSHS will automatically generate a reminder that is sent to the borrower within seven (7) days. iSHS also calculates default interest penalties. If the debtor continues to fail to settle the monthly interest/instalments another automatically generated reminder/warning is sent seven (7) days later (14 days after the first (1st) arrear).

If this second (2nd) reminder/warning does not result in payment of the arrears by the borrower, Obvion informs the Intermediary. At the same time, Obvion will try to contact the borrower by phone to find out the reason of non-payment and to investigate the possibilities of making arrangements to repay the arrears. Obvion will in some cases (e.g. interest only mortgage loans) change the type of loan (e.g. to a loan on an annuity basis). In the case of a bank savings mortgage loan in some cases Obvion will pay the accrual to the bank savings account for six (6) months to ensure the savings value. After six (6)

months the bank savings mortgage loan can be changed to a different type of loan, if deemed necessary.

Obvion applies several instruments in order to prevent or minimise losses:

- In some cases an independent budget planner will be deployed. The budget planner helps the borrower to rearrange his financial situation in order to enable the borrower to pay his mortgage (interest and redemption) (approximately 37 days after the first arrear).
- Furthermore an arrears and default management specialist may decide that it could be useful that an Obvion employee pays the borrower a visit. The intention is to get more insight in the possibilities of making arrangements with the borrower to repay arrears and or to minimise losses.
- Moreover in some cases Obvion may allow a borrower to pay no or only part of the monthly payable interest for a limited period of time.
- Finally, pursuant to the applicable Mortgage Conditions the Mortgaged Assets are for residential use and have to be occupied by the relevant Borrowers at and after the time of origination. However, in exceptional circumstances Obvion may in accordance with its internal guidelines allow a borrower to let the mortgaged property under specific conditions and for a limited period of time.

On a case-by-case basis it is decided if and which of these instruments will be used.

In cases where the borrower is able to pay but does not cooperate, Obvion will instruct a bailiff to try to contact the borrower and try to establish an attachment of part of the borrower's income. If the bailiff is successful with the attachment, this phase can take approximately three (3) months.

The minimum selling price of the mortgaged property, which is a best estimate by an independent qualified valuer or surveyor of the current market value of the property, will be set for the property after approximately 75 days after the first (1st) arrear.

Should all efforts to prevent selling of the mortgaged property not be successful, the Credit Management Committee will be asked by the credit management specialist to approve that Obvion demands repayment of the loan and if necessary to foreclose the loan (approximately 105-155 days after the first (1st) arrear). The credit management specialist provides the Credit Management Committee with all relevant information in relation to the loan and the total outstanding debt, the minimum selling price of the mortgaged property, the collateral, the current financial situation of the borrower(s) and the value of any other security provided (for example insurance policies). The credit management specialist will either propose a limited period in which the customer can sell the property himself via a preferred real estate broker or he will propose an immediate auction.

After approval of the Credit Management Committee the borrower is required to repay the entire debt, including all amounts of principal, arrears, penalties and costs incurred (approximately 110-170 days after the first arrear).

If the mortgage property will not be sold within a period of 6 months either the selling strategy will be adjusted or a notary will be instructed to prepare the auction of the mortgaged property (approximately 130-180 days after the first (1st) arrear). In respect of a mortgage loan with an NHG Guarantee Obvion is required to ask permission from Stichting WEW in accordance with the terms and conditions of the NHG Guarantee and to notify the parties, directly involved, if it wants to sell the mortgaged property.

In case of an auction, the civil law notary can make a last effort to reach a settlement with the borrower. If the notary is not successful, the public auction proceedings are initiated and Obvion or the notary, on behalf of Obvion, starts enforcing any other collateral (including, but not limited to, the rights of any pledge granted by the relevant borrower as security for its payment obligations towards Obvion). Prior to this auction, the civil law notary will place an auction advertisement, inviting interested parties to deposit a private bid in writing at the offices of the civil law notary. In a number of cases at least one of these bids will cover the entire amount owing to Obvion. However, the bid must reflect a realistic market price. The official receiver will decide whether the private sale can be approved or not. If no acceptable bid is received in response to the auction advertisement, public auction proceedings will be started.

The mortgaged property will then be sold in a public auction within approximately sixty (60) days after the notary is instructed (approximately 185-240 days after the first arrear).

Obvion will also be represented by a third party at this auction to ensure that the collateral will be sold for at least the minimum selling price. If nobody offers the minimum selling price, this third party appointed by Obvion will buy the property at this price for subsequent sale at a more appropriate time and price.

During the arrears management process Obvion can choose to have iSHS send monthly dunning letters to the borrower, stating the amounts that are in arrears plus default interest penalties. In any case iSHS automatically sends notification (i) to the BKR after the borrower has been in arrears for 120 days and (ii) to Stichting WEW as frequent as the NHG Conditions require.

At any time during the arrears management period, the credit management specialist can reach agreement with the borrower on a payment arrangement. The first possibility is that the borrower pays the entire amount in a lump sum, the second is that a repayment schedule is agreed with the borrower. The aim is to minimise the repayment term while taking into account the borrower's financial means. If necessary, the credit management specialist will obtain additional information from a company specialised in 'bad debtors', such as a bailiff. The credit management specialist is responsible for the decision regarding a repayment schedule, provided that the arrangement is made for a period of not more than twelve (12) months.

In the exceptional case of a period lasting longer than twelve (12) months, the credit management specialist must submit the proposed arrangement together with an explanatory statement to the manager of his team, who will then make a decision. The individual payment arrangements are recorded in iSHS.

Management of deficits after foreclosure

When all the collateral has been executed, beneficiary rights have been exercised and guarantees have been collected, it is established whether there is still any remaining outstanding debt.

Obvion notifies the borrower of the outstanding debt, as he will remain liable for the repayment of this amount. Unless the borrower pays or makes arrangements with Obvion to pay the deficit, Obvion will ask a bailiff or a firm specialised in collecting this kind of debt to use all his efforts and all the legal means at his disposal to get as much as possible of the deficit paid back by or on behalf of the borrower.

One of the possibilities at the bailiff's disposal is attachment of income. In addition to the attachment of current income, in the Netherlands it is also possible to attach all future income of a natural person above the minimum subsistence level applicable to that person.

6.4 Dutch residential mortgage market

Compared to other mortgage markets in Europe, the Dutch residential mortgage market is typified a range of relatively complex mortgage loan products⁶. Generous tax incentives have resulted in various loan structures. Most of these structures share the common characteristic of bullet repayment of principal at maturity. Historic practices and culture have also shaped the Dutch residential mortgage market in quite a unique way⁷.

Most mortgage loan products reflect the tax deductibility of mortgage loan interest and enable borrowers to defer repayment of principal so as to have maximum tax deductibility. This is evidenced by relatively high LTV values and the extensive use of interest-only mortgage loans (which only need to be redeemed at maturity)⁸. For borrowers who want to redeem their mortgage loan without losing tax deductibility, alternative products such as 'bank saving mortgage loans' were introduced. The main feature of a bank savings mortgage loan is that the borrower opens a deposit account which accrues interest at the same interest rate that the borrower pays on the associated mortgage loan. At maturity, the bank savings are used to redeem the mortgage loan.

In the period prior to the credit crisis increased competition and deregulation of the Dutch financial markets resulted in the development of tailor-made mortgage loans consisting of different loan parts and features, including mortgage loans involving investment risks for borrowers. More focus on transparency and financial predictability have resulted in simpler mortgage loan products in recent years.

Dutch mortgage loans predominantly carry fixed rates of interest that are typically set for a term between 5 and 15 years. Rate term fixings differ by vintage however. Historically low mortgage interest rates in the last decade provided an incentive for households to refinance their mortgage loans with a long-term fixed interest rate (up to as much as 30 years). More recently, a steep mortgage interest rate

⁶ Due to new regulation, borrowers have been restricted to annuity or linear mortgage loans since January 2013 if they want to make use of tax deductibility. See paragraph "Recent regulatory changes" below

⁷ Rabo Credit Research, Dutch RMBS: a Primer (2013)

⁸ Dutch Association of Insurers, Dutch Insurance Industry in Figures (2012)

curve has shifted borrower's preferences to a shorter rate term fixing⁹. Compared to countries where floating mortgage rates are the norm, Dutch mortgage borrowers are relatively well-insulated against interest rate fluctuations¹⁰.

Even though Dutch house prices have declined since 2008, the principal amount outstanding of Dutch mortgage loans has continued to increase until the second quarter of 2011. Since then the aggregate outstanding mortgage debt of Dutch households is stabilising. The Dutch mortgage market is still supported by a gradual increase in the levels of owner-occupation and an environment of low mortgage loan interest rates.

Tax deductibility and regulation

Prior to 2001, all interest payments on mortgage loans were deductible in full from taxable income. As from January 2001, tax deductibility was made conditional in three ways. Firstly, deductibility applies only to mortgage loans on the borrower's primary residence (and not to secondary homes such as holiday homes). Secondly, deductibility is only allowed for a period of up to 30 years. Lastly, the highest marginal tax rate was reduced from 60 per cent. to 52 per cent. in 2001. However, these tax changes did not have a significant impact on the rate of mortgage loan origination, mainly because of the ongoing decrease of mortgage interest rates at that time.

On top of these limitations that came into force in 2001, tax deductibility of mortgage loan interest payments has been further restricted for borrowers that relocate to a new house and refinance their mortgage loan as from 1 January 2004. Under this new tax regulation (*Bijleenregeling*), tax deductibility in respect of interest on the mortgage loan pertaining to the new house is available only for that part of the mortgage loan that equals the purchase price of the new house less the realised net profit on the old house. Other housing related taxes partially unwind the benefits, but even despite restrictions implied in the past, tax relief on mortgage loans is still substantial. More meaningful restrictions to tax deductibility have been imposed per 1 January 2013 (see recent regulatory changes).

Underwriting standards follow from the Code of Conduct for Mortgage Lending, which is the industry standard. Since 1 August 2011, the requirements for mortgage lending have been tightened by the Financial Markets Authority (AFM). This has resulted in a revised Code of Conduct for Mortgage Lending (*Gedragcode Hypothecaire Financieringen*). It limits the risks of over-crediting. Under those tightened requirements, the principal amount of a mortgage loan may not exceed 104 per cent. of the market value of the mortgaged property plus transfer tax (2 per cent.). In addition, only a maximum of 50 per cent. of the market value of the mortgaged property may be financed by way of an interest-only mortgage loan. In addition, the revised Code of Conduct provides less leeway for exceptions using the 'explain' clause.¹¹ Consequence is that banks are less willing to deviate from the rules set by the revised Code of Conduct. This will make it more difficult for especially first-time buyers to raise financing as they used to be overrepresented as borrowers of mortgage loans subject to an explain

¹¹ Under the "explain" clause it is in exceptional cases possible to deviate from the loan-to-income and loan-to-value rules set forth in the Code of Conduct

clause. In practice, expected income rises of first-time buyers were frequently included, which led to additional borrowing capacity¹².

Recent regulatory changes

Mortgage loans taken out for houses purchased after 1 January 2013 have to be repaid in full in 30 years and at least on an annuity basis in order to be eligible for tax relief (the linear option is also possible). Tax benefits for mortgage loans, of which the underlying property was bought before 1 January 2013, have remained unchanged. Grandfathering of these tax benefits is possible in case of refinancing and/or relocation. However, any such mortgage loans will again be tested against the Code of Conduct for Mortgage Lending, with the most important condition being that no more than 50 per cent. of the mortgage loan may be repaid on an interest-only basis.

As from 2014, the maximum interest deductibility for mortgage loans for tax purposes will decrease annually at a rate of 0.5 percent-point from the main income tax rate of 52 per cent. down to 38 per cent. in 2042.

In addition, the maximum LTV will be gradually lowered to 100 per cent. in 2018, by 1 per cent. per annum (2014: max LTV: 104 per cent. including transfer tax). This guideline has been inserted in special underwriting legislation, which has become effective per 1 January 2013. This new legislation overrules the Code of Conduct for Mortgage Lending currently.

The transfer tax (stamp duty) was temporarily lowered from 6 per cent. to 2 per cent. on 1 July 2011. With effect from 15 June 2012, it will remain permanently at 2 per cent.

Finally, interest paid on any outstanding debt from a mortgage loan remaining after the sale of a home (negative equity financing) can be deducted for tax purposes for a period of up to 10 years. This measure will be in place from 2013 up to and including 2023.

Recent developments in the housing market¹³

The Dutch housing market has shown clear signs of recovery since the second half of 2013. Existing house prices (PBK-index) continued to increase in the first quarter of 2014, albeit by a modest 0.5 per cent. This is in line with the rise in sales numbers. Compared to a year ago, however, prices have fallen (-1.5 per cent.), and by comparison with the peak in 2008, the price drop amounts to 21 per cent.

In the first quarter of 2014, considerably more houses changed hands than in previous quarters. The Land Registry registered a total of 28,963 transactions, which was the highest number since 2008. Forward looking indicators, such as the sales figures by the Dutch association of real estate agents (NVM), suggest that the more positive sales momentum will prevail in the second quarter of 2014.

Forced sales

¹² M.T. van der Molen, "Aanschaffen woning is makkelijker" (2012)

¹³ Rabobank Economic Research Department, Dutch Housing Market Quarterly, June 2013

The number of arrears and involuntary sales of residential property by public auction ("forced sale") in the Netherlands is traditionally very low compared to international standards¹⁴. Especially in the second half of the 1990s, when the demand for residential property was exceptionally strong, house sales by auction, even in the event of a forced sale, almost never occurred or were required. Moreover, the 1990s were characterised by very good employment conditions and a continuing reduction of mortgage interest rates. In the years before 2001, the total number of forced sales was therefore limited compared to the number of owner-occupied houses.

The relatively prolonged economic downturn from 2001 to 2005 led to a significant rise in the amount of mortgage loan payment arrears and correspondingly forced house sales. The number of forced sales in the Netherlands reported by the Land Registry (*Kadaster*) rose from 695 in 2002 to about 2,000 forced sales from 2005 onwards. This increase was mainly the result of a structural change in the Dutch mortgage loan market during the nineties: instead of selling single income mortgage loans only, lenders were allowed to issue double income mortgage loans. The subsequent credit crisis and the related upswing in unemployment led to a rise of the number of forced sales. The Land Registry recorded 2,488 forced sales in 2012. In 2013 the number of forced sales amounted to 1,863. Recent numbers on forced sales could be distorted by the fact that originators increasingly attempt to circumvent such sales, for example by selling the property in the normal market using an estate agent.

Recent research confirms that the number of households in payment difficulties in the Netherlands is low from an international perspective and that problems mainly have 'external' causes such as divorce or unemployment as opposed to excessively high mortgage debt¹⁵.

The proportion of forced sales is of such size that it is unlikely to have a significant impact on house prices. The Dutch housing market is characterised by a large discrepancy between demand and supply, which mitigates the negative effect of the economic recession on house prices. In the unforeseen case that the number of forced sales were to increase significantly, this could have a negative effect on house prices. Decreasing house prices could in turn increase loss levels should a borrower default on his mortgage loan payment obligations.

Even though in a relative sense the increase over the last years is substantial, the absolute number of forced sales is still small compared to the total number of residential mortgage loans outstanding. There is no precise data of the number of residential mortgage loans outstanding in the Netherlands. However, based on the published total amount of residential mortgage debt outstanding¹⁶ and the current average mortgage loan principal amount it is estimated that the total number of residential mortgage loans outstanding in the Netherlands exceeds 3 million. A total of approximately 2,500 forced sales per year since 2005 therefore corresponds to approximately 0.1 per cent. of the total number of residential mortgage loans outstanding.

6.5 NHG Guarantee programme

NHG Guarantee

In 1960, the Dutch government introduced the 'municipal government participation scheme', an open ended scheme in which both the Dutch State and the municipalities guaranteed, according to a set of defined criteria, residential mortgage loans made by authorised lenders to eligible borrowers to purchase a primary family residence. The municipalities and the Dutch State shared the risk on a 50/50 basis. If a municipality was unable to meet its obligations under the municipality guarantee, the Dutch State would make an interest free loan to the municipality to cover its obligations. The aim was to promote house ownership among the lower income groups.

Since 1 January 1995 Stichting WEW, a central privatised entity, is responsible for the administration and granting of the NHG Guarantees, under a set of uniform rules. An NHG Guarantee covers the outstanding principal, accrued unpaid interest and disposal costs. Irrespective of scheduled repayments or prepayments made on the mortgage loans, an NHG Guarantee reduces on a monthly basis by an amount which is equal to the amount of the principal portion of the monthly instalment calculated as if the mortgage loan were being repaid on a thirty year annuity basis (as of January 2013, all new mortgage loans should be repaid on a thirty year annuity or linear basis.). Information on Stichting WEW and the NHG Guarantee can be found on www.nhg.nl.

Financing of Stichting WEW

Stichting WEW finances itself, *inter alia*, by a one-off charge to the borrower of 1.00 per cent. (as of 1 January 2014) of the principal amount of the mortgage loan. Between 1 January 2010 and 31 December 2011 this was 0.55 per cent., between 1 January 2012 and 30 October 2012 this was 0.70 per cent. and between 1 November 2012 and 31 December 2013 this was 0.85 per cent.. Besides this, the NHG scheme provides for liquidity support to Stichting WEW from the Dutch State and, in respect of guarantees issued prior to 1 January 2011, from the participating municipalities. Should Stichting WEW not be able to meet its obligations under guarantees issued, the Dutch State will provide subordinated interest free loans to Stichting WEW of up to fifty (50) per cent. and, only in respect of guarantees issued as from 1 January 2011, 100 per cent. of the difference between Stichting WEW's own funds and a pre-determined average loss level. In respect of guarantees issued prior to 1 January 2011 the municipalities participating in the NHG scheme will provide subordinated interest free loans to Stichting WEW of the other fifty (50) per cent. of the above mentioned difference. Both the "keep well" agreement (*achtervangovereenkomst*) between the Dutch State and Stichting WEW and the "keep well" agreements between the municipalities and Stichting WEW contain general 'keep well' undertakings of the Dutch State and the municipalities to enable Stichting WEW at all times (including in the event of bankruptcy (*faillissement*), suspension of payments (*surseance van betaling*) or liquidation (*ontbinding*) of Stichting WEW) to meet its obligations under guarantees issued.

The NHG Conditions

Under the NHG scheme, the lender is responsible for ensuring that the guarantee application meets the NHG Conditions. If the application qualifies, various reports are produced that are used in the processing of the application, including the form that will eventually be signed by the relevant lender

and forwarded to Stichting WEW to register the mortgage and establish the guarantee. Stichting WEW has, however, no obligation to pay any loss (in whole or in part) incurred by a lender after a private or a forced sale of the mortgaged property if such lender has not complied with the NHG Conditions, which were applicable at the date of origination of the mortgage loan, unless such non-payment is unreasonable towards the lender.

In respect of mortgage loans offered as of 1 January 2014, the NHG Conditions stipulate that in determining the loss incurred by a lender after a private or a forced sale of the mortgaged property, an amount of ten (10) per cent. will be deducted from such loss and thus from the payment to be made by Stichting WEW to the lender. The lender will subsequently not be entitled to recover the remaining amount due under the mortgage loan from the borrower, unless the borrower did not act in good faith with respect to his inability to repay the mortgage loan and has failed to render his full cooperation in trying to have the mortgage loan repaid to the lender to the extent possible.

The specific terms and conditions for the granting of the NHG Guarantees, such as eligible income, purchasing or building costs etc., are set forth in published documents that will be subject to change from time to time (available on www.nhg.nl).

The NHG scheme has specific rules for the level of credit risk that will be accepted. The credit worthiness of the applicant must be verified with the BKR.

To qualify for an NHG Guarantee various conditions relating to valuation of the property must be met. In addition, *inter alia*, the mortgage loan must be secured by a first ranking mortgage right and/or a first ranking right of pledge (or a second ranking mortgage right and/or a second ranking right of pledge in case of a further advance). Furthermore, the borrower is required to take out insurance in respect of the mortgaged property against risk of fire, flood and other accidental damage for the full reinstatement value thereof. To the extent applicable, the borrower is also required to create a first ranking right of pledge in favour of the lender on the rights of the relevant borrower against the insurance company under the relevant life insurance policy connected to the mortgage loan or to create a first ranking right of pledge in favour of the lender on the proceeds of the investment funds or the balance standing to the credit of the bank savings account associated with a bank savings mortgage loan (*Spaarrekening(en) Eigen Woning*). The terms and conditions also require a risk insurance policy which pays out upon the death of the borrower/insured for the period that the amount of the mortgage loan exceeds eighty (80) per cent. of the value of the property for at least the amount equal to the amount of the mortgage loan that exceeds eighty (80) per cent. of the value of the property.

The mortgage conditions applicable to each mortgage loan should include certain provisions, among which the provision that any proceeds of foreclosure on the Mortgage and the right of pledge on the life insurance policy, the investment funds or the balance standing to the credit of the bank savings account associated with a bank savings mortgage loan (*Spaarrekening(en) Eigen Woning*) shall be applied firstly towards repayment of the mortgage loan guaranteed under the NHG scheme.

Furthermore, according to the NHG Conditions interest-only mortgage loans are allowed, provided that the interest-only part does not exceed fifty (50) per cent. of the value of the property.

An NHG Guarantee could be issued up to a maximum amount of EUR 350,000 (as of 17 September 2009 up to 30 June 2012). As of 1 July 2012 up to 30 June 2013 the maximum amount of an NHG Guarantee for mortgage loans issued as of 1 July 2012, was EUR 320,000. As of 1 July 2013 the maximum amount decreased. As a result the maximum amount of an NHG Guarantee for mortgage loans issued as of 1 July 2013, is EUR 290,000. From 1 July 2014 onwards such maximum amount will further decrease to EUR 265,000. This revised maximum amount will apply for mortgage loans offered on or after 1 July 2014.

Claiming under the NHG Guarantees

When a borrower is in arrears with payments under the mortgage loan, the property is subject to an attachment, a forced sale is threatening and/or there are calamities, the lender informs Stichting WEW in writing within thirty (30) calendar days of the occurrence of any such event. Stichting WEW may approach the lender and/or the borrower in order to attempt to solve the problem or to obtain the highest possible proceeds out of the enforcement of the security. If an agreement cannot be reached, the lender reviews the situation to endeavour to generate the highest possible proceeds from the property. The situation is reviewed to see whether a private sale of the property, rather than a public auction, would generate proceeds sufficient to cover the outstanding mortgage loan. Notice should be given to Stichting WEW in case of a private sale. Irrespective of its cause, a forced sale of the mortgaged property is only allowed with the prior written permission of Stichting WEW.

Within one (1) month after the receipt of proceeds in relation to the private or forced sale of the property, the lender must make a formal request to Stichting WEW for payment, using standard forms, which request must include all of the necessary documents relating to the original mortgage loan and the NHG Guarantee. After receipt of the claim and all the supporting details, Stichting WEW must make payment within two (2) months. If the payment is late, provided the request is valid, Stichting WEW must pay statutory interest (*wettelijke rente*) for the late payment period.

In the event that a borrower fails to meet its obligation to repay the mortgage loan and no payment or no full payment is made to the lender under the NHG Guarantee by Stichting WEW because of the lender's culpable negligence, the lender must act vis-à-vis the borrower as if Stichting WEW were still guaranteeing the repayment of the mortgage loan during the remainder of the term of the mortgage loan. In addition, the lender is not entitled to recover any amounts due under the mortgage loan from the borrower in such case. This is only different if the borrower did not act in good faith with respect to his inability to repay the mortgage loan and has failed to render his full cooperation in trying to have the mortgage loan repaid to the lender to the extent possible.

Woonlastenfaciliteit

Furthermore, the NHG Conditions contain provisions pursuant to which a borrower who is in arrears with payments under the existing mortgage loan may have the right to request the lender for a so-called *woonlastenfaciliteit* as provided for in the NHG Conditions. The aim of the *woonlastenfaciliteit* is to avoid a forced sale by means of a bridging facility (*overbruggingsfaciliteit*) to be granted by the relevant lender. The bridging facility is guaranteed by Stichting WEW. The relevant borrower needs to meet certain conditions, including, *inter alia*, the fact that the payment arrears are caused by a divorce, unemployment, disability or death of the partner.

7 PORTFOLIO DOCUMENTATION

7.1 Purchase, repurchase and sale

Under the Mortgage Receivables Purchase Agreement the Issuer will purchase and accept from the Seller the assignment of the Mortgage Receivables and the Beneficiary Rights relating thereto by means of a registered Deed of Assignment and Pledge as a result of which legal title to the Mortgage Receivables and the Beneficiary Rights relating thereto is transferred to the Issuer. The assignment of the Mortgage Receivables and the Beneficiary Rights relating thereto from the Seller to the Issuer will not be notified to the Borrowers and the relevant Insurance Companies, except in special events as further described hereunder (**Assignment Notification Events**). Until such notification the Borrowers will only be entitled to validly pay (*bevrijdend betalen*) to the Seller. The Issuer will be entitled to all proceeds in respect of the Mortgage Receivables following the Closing Date and to all amounts of principal in respect of the Mortgage Loans, which were received by the Seller between the Cut-Off Date and the Closing Date.

Purchase Price

The purchase price for the Mortgage Receivables will consist of (i) the Initial Purchase Price, which in respect of the Mortgage Receivables purchased on the Closing Date will be equal to EUR 764,147,179.28 which shall be payable on the Closing Date or, in respect of the Further Advance Receivables and New Mortgage Receivables, on the relevant Notes Payment Date and (ii) a Deferred Purchase Price. The Initial Purchase Price for the Mortgage Receivables purchased on the Closing Date will be paid by the Issuer by applying the (i) net proceeds received from the issue of the Notes (other than the Class E Notes) and (ii) the amounts received as consideration for the Participations granted to the Participants.

The Initial Purchase Price for each Mortgage Receivable purchased by the Issuer on the Closing Date pursuant to the Mortgage Receivables Purchase Agreement will be equal to its Outstanding Principal Amount on the Cut-Off Date. The Initial Purchase Price for any New Mortgage Receivable or Further Advance Receivable will be equal to its Outstanding Principal Amount on the first (1st) day of the calendar month wherein such New Mortgage Receivable or Further Advance Receivable is purchased.

The Deferred Purchase Price for the Mortgage Receivables purchased by the Issuer pursuant to the Mortgage Receivables Purchase Agreement will be equal to the sum of all Deferred Purchase Price Instalments on any Notes Payment Date and each such instalment will be equal to (i) any amount remaining after all payments as set forth in the Revenue Priority of Payments under (a) up to and including (r), (ii) any amount remaining after all payments as set forth in the Redemption Priority of Payments under (a) up to and including (e) and (iii), after an Enforcement Notice, the amount remaining after payments as set forth in the Post-Enforcement Priority of Payments under (a) up to and including (o) have been made on such date (see section 5.2 (*Priority of Payments*)).

The proceeds of the Notes (other than the Class E Notes) will be applied by the Issuer to pay part of the Initial Purchase Price (see section 4.5 (*Use of proceeds*)). The sale and purchase of the Mortgage Receivables is conditional upon, *inter alia*, the issue of the Notes. Hence, the Seller can be deemed to have an interest in the issue of the Notes.

Purchase of Further Advance Receivables and New Mortgage Receivables

Further Advance Receivables

The Mortgage Receivables Purchase Agreement provides that as from the Closing Date up to and including the Notes Payment Date immediately preceding the First Optional Redemption Date, the Issuer shall use the Available Principal Funds to purchase and accept assignment of any Further Advance Receivables (and relating Beneficiary Rights) resulting from Further Advances granted by the Seller to a Borrower in accordance with the underwriting criteria and procedures prevailing at that time and which may be expected from a reasonably prudent mortgage lender in the Netherlands. The Initial Purchase Price payable by the Issuer in respect of the purchase and assignment of any Further Advance Receivables shall be equal to the aggregate Outstanding Principal Amount of such Further Advance Receivables at the date of completion of the sale and purchase thereof on the relevant succeeding Notes Payment Date.

The purchase by the Issuer of any Further Advance Receivables will be subject to a number of conditions, which include that at the relevant date of completion of the sale and purchase of such Further Advance Receivables:

- (a) the Seller will represent and warrant to the Issuer and the Security Trustee the matters set out in the clauses providing for the representations and warranties relating to the Mortgage Loans, the Mortgage Receivables and the Seller in the Mortgage Receivables Purchase Agreement with respect to the Further Advance Receivables sold and relating to the Seller;
- (b) no Assignment Notification Event has occurred and is continuing;
- (c) the Mortgage Loan (including the Further Advance) meets the Mortgage Loan Criteria;
- (d) each of the Further Advance Criteria (as described below) are met; and
- (e) the Available Principal Funds are sufficient to pay the Initial Purchase Price for the relevant Further Advance Receivables.

Further Advance Criteria

Each of the following criteria (collectively the **Further Advance Criteria**) applies in respect of an intended purchase of Further Advance Receivables:

- (a) the weighted average Original Loan to Original Foreclosure Value Ratio of all the Mortgage Receivables, including the Mortgage Receivables to be purchased by the Issuer, does not exceed the weighted average Original Loan to Original Foreclosure Value Ratio of the Mortgage Receivables as at the Closing Date by more than one (1) per cent.;
- (b) the aggregate Outstanding Principal Amount of all Interest-only Mortgage Receivables does not exceed seventy (70) per cent. of the aggregate Outstanding Principal Amount of all Mortgage Receivables;

- (c) the cumulative aggregate Outstanding Principal Amount of the Mortgage Receivables to be purchased by the Issuer may in aggregate not exceed ten (10) per cent. of the aggregate Outstanding Principal Amount of the Mortgage Receivables as at the Closing Date;
- (d) the aggregate of the Realised Losses incurred as from the Closing Date up to the relevant purchase date for the relevant Mortgage Receivables does not exceed 0.40 per cent. of the initial aggregate Outstanding Principal Amount of the Mortgage Receivables at the Closing Date;
- (e) the Mortgage Receivables to be purchased by the Issuer will not have a legal maturity beyond March 2049;
- (f) not more than 1.5 per cent. of the aggregate Outstanding Principal Amount of the Mortgage Receivables are Mortgage Receivables under which amounts are due and payable which have remained unpaid for a consecutive period exceeding ninety (90) calendar days;
- (g) there has been no failure by the Seller to repurchase any Mortgage Receivable which it is required to repurchase pursuant to the Mortgage Receivables Purchase Agreement;
- (h) as a result of the purchase of the relevant Mortgage Receivables the aggregate Outstanding Principal Amount of the Mortgage Receivables due from self-employed Borrowers does not exceed eleven (11) per cent. of the aggregate Outstanding Principal Amount of all Mortgage Receivables at that time;
- (i) there is no debit balance standing to the Principal Deficiency Ledger;
- (j) the aggregate Outstanding Principal Amount of all Mortgage Receivables with a related Construction Deposit does not exceed seven (7) per cent. of the aggregate Outstanding Principal Amount of all Mortgage Receivables; and
- (k) the aggregate amount of the Construction Deposits does not exceed EUR 2,500,000.

If either (i) any of the representations and warranties set out in the Mortgage Receivables Purchase Agreement in respect of the Mortgage Loan and the Mortgage Receivables is not true or correct with respect to the Further Advance Receivables, or (ii) the Further Advance Receivables do not meet the above conditions and the Further Advance Criteria, or (iii) the Issuer does not have sufficient funds available for payment of the purchase price for the Further Advance Receivables, or (iv) the Further Advance is granted on or following the Notes Payment Date immediately preceding the First Optional Redemption Date, the Seller shall repurchase and accept the re-assignment of the Mortgage Receivables resulting from the Mortgage Loan in respect of which a Further Advance is granted and the Beneficiary Rights relating thereto.

When Further Advances are granted to the relevant Borrower and the Issuer purchases and accepts assignment of the relevant Further Advance Receivable and the Beneficiary Rights relating thereto, the Issuer will at the same time create a right of pledge on such Further Advance Receivable and the Beneficiary Rights relating thereto in favour of the Security Trustee.

New Mortgage Receivables

The Mortgage Receivables Purchase Agreement provides that as from the Closing Date up to and including the Notes Payment Date immediately preceding the First Optional Redemption Date, the Issuer shall apply the Available Principal Funds up to the Replacement Available Amount to purchase and accept assignment of any New Mortgage Receivables, to the extent offered by the Seller, and the Beneficiary Rights relating thereto. The Initial Purchase Price payable by the Issuer in respect of the purchase and assignment of any New Mortgage Receivables shall be equal to the aggregate Outstanding Principal Amount of such New Mortgage Receivables at the date of completion of the sale and purchase thereof on the relevant succeeding Notes Payment Date.

The purchase by the Issuer of any New Mortgage Receivables will be subject to a number of conditions, which include that at the relevant date of completion of the sale and purchase of such New Mortgage Receivables:

- (a) the Seller will represent and warrant to the Issuer and the Security Trustee the matters set out in the clauses providing for the representations and warranties relating to the Mortgage Loans, the Mortgage Receivables and the Seller in the Mortgage Receivables Purchase Agreement with respect to the New Mortgage Receivables sold and relating to the Seller;
- (b) no Assignment Notification Event has occurred and is continuing;
- (c) the purchase price payable in respect of the New Mortgage Receivables does not exceed the Replacement Available Amount;
- (d) the Mortgage Loan to which the New Mortgage Receivable relates meets the Mortgage Loan Criteria); and
- (e) each of the Further Advance Criteria are met.

When the Issuer purchases and accepts assignment of the relevant New Mortgage Receivable and relating Beneficiary Rights, the Issuer will at the same time create a first right of pledge on such New Mortgage Receivable and relating Beneficiary Rights in favour of the Security Trustee.

Mandatory Repurchase

If at any time after the Closing Date any of the representations and warranties as set out in section 7.2 (*Representations and warranties*) proves to have been untrue or incorrect, the Seller shall within fourteen (14) calendar days (or such longer period as the Issuer may agree) after receipt of written notice thereof from the Issuer or the Security Trustee remedy the matter giving rise thereto and if such matter is not capable of remedy or is not so remedied within the said period of fourteen (14) calendar days (or such longer period as the Issuer may agree), the Seller shall on the Notes Payment Date immediately following the expiration of such period repurchase and accept, at the Seller's expense, re-assignment of the relevant Mortgage Receivable for a price equal to its Outstanding Principal Amount together with interest and reasonable costs relating thereto (including any costs incurred by the Issuer in effecting and completing such purchase and assignment) accrued up to but excluding the date of repurchase and re-assignment of the relevant Mortgage Receivable.

If the Seller agrees with a Borrower to make a Further Advance prior to the occurrence of an Assignment Notification Event, the Seller shall repurchase and accept re-assignment of the Mortgage Receivable resulting from the Mortgage Loan in respect of which a Further Advance has been granted unless such Further Advance Receivables shall be purchased by and assigned to the Issuer, subject to the terms and conditions set forth above on the immediately following Notes Payment Date (see also paragraph *Purchase of Further Advance Receivables and New Mortgage Receivables* above).

The Seller shall also undertake to repurchase and accept re-assignment of a Mortgage Receivable against a purchase price equal to its Outstanding Principal Amount together with accrued interest on the Notes Payment Date immediately following the date on which an amendment of the terms of the relevant Mortgage Loan becomes effective, in the event that (i) such amendment is not in accordance with the conditions set out in the Mortgage Receivables Purchase Agreement and/or the Servicing Agreement, which include the condition that such amendment does not adversely affect the position of the Issuer or the Security Trustee and that after such amendment the relevant Mortgage Loan continues to meet each of the Mortgage Loan Criteria (as set out below) and the representations and warranties contained in the Mortgage Receivables Purchase Agreement (as set out above) or (ii) the Seller does agree with the Borrower to modify the terms of a Savings Mortgage Loan or a Bank Savings Mortgage Loan into any other form of mortgage loan. However, the Seller shall not be required to repurchase such Mortgage Receivable if the relevant amendment as referred to under item (i) above is made as part of the enforcement procedures to be complied with upon a default by the Borrower under the relevant Mortgage Loan or is otherwise made as part of a restructuring or renegotiation of the relevant Mortgage Loan due to a deterioration of the credit quality of the Borrower of such Mortgage Loan.

Furthermore, the Seller shall on the Notes Payment Date immediately following the date on which subject to the terms of a Switch Mortgage Loan, a switch by a Borrower of whole or part of the premiums deposited into the Switch Savings Account into an investment in one or more Switch Investment Funds becomes effective, repurchase and accept re-assignment of the relevant Mortgage Receivable against a purchase price equal to its Outstanding Principal Amount together with accrued interest.

Finally, the Seller shall on the Notes Payment Date immediately following the date on which (i) it becomes aware that an NHG Mortgage Loan Part no longer has the benefit of an NHG Guarantee for the full amount of such NHG Mortgage Loan Part, as adjusted in accordance with the NHG Conditions, as a result of an action taken or omitted to be taken by the Seller or the Servicer or (ii) it has notified the Issuer that the Seller, while it is entitled to make a claim under the NHG Guarantee, will not make such claim, repurchase and accept re-assignment of the relevant Mortgage Receivable equal to its Outstanding Principal Amount together with accrued interest.

Optional repurchase

On each Notes Payment Date, the Seller may, but is not obliged to, repurchase and accept re-assignment of all (but not only part of) the Mortgage Receivables if on the Notes Calculation Date immediately preceding such Notes Payment Date, the aggregate Principal Amount Outstanding of the Notes (in case of a Principal Shortfall in respect of any Class of Notes, less such aggregate Principal

Shortfall) is not more than ten (10) per cent. of the aggregate Principal Amount Outstanding of the Notes on the Closing Date. The purchase price will be at least equal to an amount sufficient to redeem the Notes (other than the Class E Notes), subject to and in accordance with the Conditions and the Redemption Priority of Payments, at their Principal Amount Outstanding plus accrued but unpaid interest thereon.

Assignment Notification Events

7.4 Portfolio conditions

See also Section 7.3 (*Eligibility criteria*).

7.5 Servicing Agreement

In the Servicing Agreement the Servicer will agree to provide administration and management services to the Issuer on a day-to-day basis in relation to the Mortgage Loans and the Mortgage Receivables, including, without limitation, the collection of payments of principal, interest and other amounts in respect of the Mortgage Receivables, all administrative actions in relation thereto and the implementation of arrears procedures including the enforcement of Mortgages (see further section 6.3 (*Origination and servicing by Originator*)). The Servicer will be obliged to manage the Mortgage Loans and the Mortgage Receivables with the same level of skill, care and diligence as mortgage loans in its own or, as the case may be, the Seller's portfolio.

The Servicer which holds a license under the Wft to act as offeror (*aanbieder*) and servicer (*bemiddelaar*) has, in accordance with the terms of the Servicing Agreement, appointed Stater Nederland B.V. as its sub-mpt provider to carry out (part of) the activities described above. The Issuer and the Security Trustee have consented to the appointment of Stater Nederland B.V. as mpt-provider.

The Servicing Agreement may be terminated by the Issuer and the Security Trustee, acting jointly, upon the occurrence of certain termination events, including but not limited to, a failure by the Servicer to comply with its obligations (unless remedied within the applicable grace period), dissolution or liquidation of the Servicer or the Servicer being declared bankrupt or granted a suspension of payments or if the Servicer no longer holds a licence under the Wft. In addition, the Servicing Agreement may be terminated by the Servicer upon the expiry of not less than six (6) months' notice, subject to written approval of the Issuer and the Security Trustee, which approval may not be unreasonably withheld and each Credit Rating Agency having provided a Credit Rating Agency Confirmation in respect of the termination. A termination of the Servicing Agreement by either the Issuer and the Security Trustee or the Servicer will only become effective if a substitute servicer is appointed.

Upon the occurrence of a termination event as set forth above, the Security Trustee and the Issuer shall use their best efforts to appoint a substitute servicer and such substitute servicer shall enter into an agreement with the Issuer and the Security Trustee substantially on the terms of the Servicing Agreement, provided that such substitute servicer shall have the benefit of a servicing fee at a level to be then determined. Any such substitute servicer must have experience of handling mortgage loans and mortgages of residential property in the Netherlands and hold a licence under the Wft to act as offeror (*aanbieder*) and servicer (*bemiddelaar*). The Issuer shall, promptly following the execution of such agreement, pledge its interest in such agreement in favour of the Security Trustee on the terms of the Issuer Rights Pledge Agreement, *mutatis mutandis*, to the satisfaction of the Security Trustee.

Upon the occurrence of an Assignment Notification Event, the Servicer will use its best efforts, within three (3) months of the occurrence of such event, to identify an entity that has the experience and/or capability of servicing assets similar to the Mortgage Receivables and procure that such entity would act as back-up servicer.

The Servicer does not have any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. The Notes will be solely the obligations and

responsibilities of the Issuer and not of any other entity or person involved in the transaction, including, without limitation, the Servicer.

7.6 Sub-participation

Under each of the Insurance Savings Participation Agreements the Issuer will grant to the relevant Insurance Savings Participant a sub-participation in the relevant Savings Mortgage Receivables or Switch Mortgage Receivables, as the case may be. Under the Bank Savings Participation Agreement the Issuer will grant to the Bank Savings Participant a sub-participation in the Bank Savings Receivables.

Insurance Savings Participation Agreements

In each Insurance Savings Participation Agreement the relevant Insurance Savings Participant undertakes to pay to the Issuer:

- (a) at the Closing Date or, in the case of the purchase and assignment of New Mortgage Receivables or Further Advance Receivables to which a Savings Insurance Policy or Savings Investment Insurance Policy is connected, at the relevant Notes Payment Date, an amount equal to the aggregate Initial Insurance Savings Participations;
- (b) on each Mortgage Collection Payment Date an amount equal to the Switched Savings Participation; and
- (c) on each Mortgage Collection Payment Date an amount equal to the amounts scheduled to be received by the relevant Insurance Company during the Mortgage Calculation Period immediately preceding such Mortgage Collection Payment Date, as Savings Premium in respect of the relevant Savings Insurance Policies or Savings Investment Insurance Policies,

provided that in respect of each Savings Mortgage Receivable and Switch Mortgage Receivable no amounts will be paid to the extent that as a result thereof the Insurance Savings Participation in such Savings Mortgage Receivable or Switch Mortgage Receivable would exceed the Outstanding Principal Amount of such Savings Mortgage Receivable or Switch Mortgage Receivable at such time.

As a consequence of such payments each of the Insurance Savings Participants will acquire an Insurance Savings Participation in the relevant Savings Mortgage Receivables or Switch Mortgage Receivables, which is equal to the Initial Insurance Savings Participation increased during each Mortgage Calculation Period with the Insurance Savings Participation Increase.

In consideration for the undertaking of each of the Insurance Savings Participants described above, the Issuer will undertake to pay to the relevant Insurance Savings Participant on each Mortgage Collection Payment Date an amount up to the Insurance Savings Participation in each of the Savings Mortgage Receivables and Switch Mortgage Receivables in respect of which amounts have been received during the immediately preceding Mortgage Calculation Period (i) by means of repayment and prepayment under such Mortgage Receivables from any person, whether by set-off or otherwise, but, for the avoidance of doubt, excluding Prepayment Penalties, if any, and, furthermore, excluding amounts paid as partial prepayments on such Mortgage Receivables to the extent such partial prepayment does not

exceed the difference between (a) the Outstanding Principal Amount of the relevant Mortgage Receivable and (b) the Insurance Savings Participation therein, (ii) in connection with a repurchase of such Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement and any other amounts received pursuant to the Mortgage Receivables Purchase Agreement to the extent such amounts relate to principal, (iii) in connection with a sale by the Issuer of such Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement or the Trust Deed to the extent such amounts relate to principal and (iv) as Net Foreclosure Proceeds on such Mortgage Receivables to the extent such amounts relate to principal (the **Insurance Savings Participation Redemption Available Amount**).

Bank Savings Participation Agreement

In the Bank Savings Participation Agreement the Bank Savings Participant undertakes to pay to the Issuer:

- (a) at the Closing Date or, in the case of the purchase and assignment of New Mortgage Receivables or Further Advance Receivables to which a Bank Savings Account is connected, at the relevant Notes Payment Date, an amount equal to the aggregate Initial Bank Savings Participations; and
- (b) on each Mortgage Collection Payment Date an amount equal to the amounts scheduled to be received by the Bank Savings Account Bank during the Mortgage Calculation Period immediately preceding such Mortgage Collection Payment Date, as Bank Savings Deposits in respect of the relevant Bank Savings Mortgage Loans,

provided that in respect of each Bank Savings Mortgage Receivable no amounts will be paid to the extent that as a result thereof the Bank Savings Participation in such Bank Savings Mortgage Receivable would exceed the Outstanding Principal Amount of such Bank Savings Mortgage Receivable at such time.

As a consequence of such payments the Bank Savings Participant will acquire a Bank Savings Participation in the relevant Bank Savings Mortgage Receivables, which is equal to the Initial Bank Savings Participation increased during each Mortgage Calculation Period with the Bank Savings Participation Increase.

In consideration for the undertaking of the Bank Savings Participant described above, the Issuer will undertake to pay to the Bank Savings Participant on each Mortgage Collection Payment Date an amount up to the Bank Savings Participation in each of the Bank Savings Mortgage Receivables in respect of which amounts have been received during the immediately preceding Mortgage Calculation Period (i) by means of repayment and prepayment under such Mortgage Receivables from any person, whether by set-off or otherwise, but, for the avoidance of doubt, excluding Prepayment Penalties, if any, and, furthermore, excluding amounts paid as partial prepayments on such Mortgage Receivables to the extent such partial prepayment does not exceed the difference between (a) the Outstanding Principal Amount of the relevant Mortgage Receivable and (b) the Bank Savings Participation therein, (ii) in connection with a repurchase of such Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement and any other amounts received pursuant to the Mortgage

Receivables Purchase Agreement to the extent such amounts relate to principal, (iii) in connection with a sale by the Issuer of such Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement or the Trust Deed to the extent such amounts relate to principal and (iv) as Net Foreclosure Proceeds on such Mortgage Receivables to the extent such amounts relate to principal (the **Bank Savings Participation Redemption Available Amount**).

Reduction of Participations

If:

- (a) (a) a Borrower invokes a right of set-off or any other defence against any person in respect of the relevant Savings Mortgage Receivables or Switch Mortgage Receivables based upon a default in the performance, whether in whole or in part and for any reason, by the relevant Insurance Company of its payment obligations under the relevant Savings Insurance Policy or Savings Investment Insurance Policy, as the case may be, or (b) set-off takes place or the Borrower invokes a right of set-off or any other defence against any person in respect of the relevant Bank Savings Mortgage Receivables as a result of the Seller or the Bank Savings Account Bank being declared bankrupt or becoming subject to a suspension of payments or emergency regulations, as the case may be, or if, for whatever reason, the Bank Savings Account Bank does not pay the amounts standing to the credit of the relevant Bank Savings Account when due and payable, whether in full or in part, under the relevant Bank Savings Mortgage Loan; or
- (b) (a) an Insurance Savings Participant fails to pay any amount due by it to the Issuer under or in connection with the relevant Insurance Savings Participation Agreement in respect of the relevant Savings Mortgage Receivables or Switch Mortgage Receivables, as the case may be or (b) the Bank Savings Participant fails to pay any amount due by it to the Issuer under or in connection with the Bank Savings Participation Agreement in respect of the relevant Bank Savings Mortgage Receivables,

and, as a consequence thereof, the Issuer will not have received any amount which it would have received if such defence or failure to pay would not have been made in respect of such Savings Mortgage Receivables, Switch Mortgage Receivables or Bank Savings Mortgage Receivables, the Participation of the relevant Participant in respect of such Mortgage Receivables will be reduced by an amount equal to the amount which the Issuer has failed to so receive and the calculation of the Participation Redemption Available Amount shall be adjusted accordingly.

Enforcement Notice

If an Enforcement Notice is given by the Security Trustee to the Issuer, then and at any time thereafter the Security Trustee on behalf of each of the Participants may, and if so directed by a Participant shall, by notice to the Issuer:

- (a) declare that the obligations of the relevant Participant under the relevant Participation Agreement are terminated; and

- (b) declare the relevant Participation to be immediately due and payable, whereupon it shall become so due and payable, but such payment obligations shall be limited to the Participation Redemption Available Amount received or collected by the Issuer or, in the case of enforcement, the Security Trustee under the relevant Savings Mortgage Receivables, Switch Mortgage Receivables or Bank Savings Mortgage Receivables.

Termination

If one or more of the Savings Mortgage Receivables and/or Switch Mortgage Receivables and/or Bank Savings Mortgage Receivables are (i) repurchased by the Seller from the Issuer pursuant to the Mortgage Receivables Purchase Agreement or (ii) sold by the Issuer to a third party pursuant to the Mortgage Receivables Purchase Agreement or the Trust Deed, the Participation in such Savings Mortgage Receivables and/or Switch Mortgage Receivables and/or Bank Savings Mortgage Receivables will terminate and the Participation Redemption Available Amount in respect of such Savings Mortgage Receivables and/or Switch Mortgage Receivables and/or Bank Savings Mortgage Receivables will be paid by the Issuer to the relevant Participant. If so requested by the relevant Participant, the Issuer will use its best efforts to ensure that the transferee of the Savings Mortgage Receivables, Switch Mortgage Receivables and Bank Savings Mortgage Receivables will enter into a participation agreement with the relevant Participant in a form similar to the Participation Agreement entered into with such Participant. Furthermore, any Participation envisaged in each of the Participation Agreements shall terminate if at the close of business on the relevant calculation date the relevant Participant has received in full the Participations in respect of the relevant Savings Mortgage Receivables, Switch Mortgage Receivables or Bank Savings Mortgage Receivables.
