DSB Bank N.V. as Seller

Application has been made to list the € 980,850,000 Senior Class A Mortgage-Backed Notes due 2044 (the "**Senior Class A Notes**"), the € 17,050,000 Mezzanine Class B Mortgage-Backed Notes due 2044 (the "**Mezzanine Class B Notes**") and the € 37,300,000 Mezzanine Class C Mortgage-Backed Notes due 2044 (the "**Mezzanine Class C Notes**") on Euronext Amsterdam by NYSE Euronext ("**Euronext Amsterdam**"). The € 29,800,000 Junior Class D Mortgage-Backed Notes due 2044 (the "**Junior Class D Notes**") and the € 16,000,000 Subordinated Class E Notes due 2044 (the "**Subordinated Class E Notes**"), together with the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes, the "**Notes**") will not be listed. The Notes are expected to be issued on 15 December 2008. This Offering Circular constitutes a prospectus for the purposes of Directive 2003/71/EC (the "**Prospectus Directive**").

The Notes will carry fixed rates of interest, payable quarterly in arrear on each Quarterly Payment Date (as defined herein). The rate of interest payable on the Notes will be equal to 4.0 per cent. per annum for the Senior Class A Notes, 1.0 per cent. per annum for the Mezzanine Class B Notes, 1.0 per cent. per annum for the Mezzanine Class C Notes, 1.0 per cent. per annum for the Junior Class D Notes and 1.0 per cent. per annum for the Subordinated Class E Notes.

Payments of principal on the Notes will be made quarterly in arrear on each Quarterly Payment Date subject to and in accordance with the terms and conditions of the Notes (the "**Conditions**") through application of the Notes Redemption Available Amounts. As from the Quarterly Payment Date falling in January 2014 (the "**First Optional Redemption Date**") or any Quarterly Payment Date thereafter on which the Pro Rata Amortisation Criteria (as defined herein) are met, payments of principal on the Notes will be made, pro rata, according to their respective Principal Amount Outstanding, in the circumstances set out in, and subject to and in accordance with the Conditions. On the First Optional Redemption Date and each Quarterly Payment Date thereafter (each an "**Optional Redemption Date**") the Issuer will have the option to redeem all of the Notes (other than the Subordinated Class E Notes), in whole but not in part, at their Principal Amount Outstanding, subject to and in accordance with the Conditions. The Notes will mature on the Quarterly Payment Date falling in January 2044.

It is a condition precedent to issuance that, on issue, the Senior Class A Notes be assigned an AAA rating by Standard & Poor's Rating Services ("**S&P**"), the Mezzanine Class B Notes be assigned an AA- rating by S&P and the Mezzanine Class C Notes be assigned an A- rating by S&P. The Junior Class D Notes and the Subordinated Class E Notes will not be assigned a rating. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. For a discussion of some of the risks associated with an investment in the Notes, see section Risk Factors herein.

The holders of the Notes (the "**Noteholders**") and the other Security Beneficiaries (as defined in Description of Security) will benefit from the security provided to the Security Trustee in the form of a pledge over the Mortgage Receivables and the Beneficiary Rights (both as defined herein) and a pledge over substantially all of the assets of the Issuer in the manner more fully described herein under Description of Security. The right to payment of interest and principal on the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes will be subordinated to the Senior Class A Notes and limited as more fully described herein under Terms and Conditions of the Notes.

The Notes of each class (each a "**Class**") will be initially represented by a temporary global note in bearer form (each a "**Temporary Global Note**"), without coupons, which will be deposited with a common safekeeper for Euroclear Bank S.A./N.V., as operator of the Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**"), on or about the issue date of the Notes. Interests in each Temporary Global Note will be exchangeable for interests in a permanent global note of the relevant Class (each a "**Permanent Global Note**"), without coupons attached (the expression "Global Notes" means the Temporary Global Note of each Class and the Permanent Global Note of each Class and the expression "Global Note" means each Temporary Global Note or each Permanent Global Note, as the context may require) not earlier than forty (40) days after the Closing Date (as defined herein) upon certification as to non-U.S. beneficial ownership. Interests in each Permanent Global Note will, in certain limited circumstances, be exchangeable for Definitive Notes in bearer form as described in the Conditions.

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, acting in whatever capacity, including, without limitation, the Arranger, the Notes Purchaser, the Seller, the MPT Provider, the Issuer Administrator, the Floating Rate GIC Provider, the Listing Agent, the Paying Agent or the Reference Agent (each as defined herein), except for certain limited obligations of the Security Trustee under the Trust Deed (as defined herein) to - *inter alia* - the Noteholders. Furthermore, none of the Arranger, the Notes Purchaser, the Seller, the MPT Provider, the Issuer Administrator, the Floating Rate GIC Provider, the Listing Agent, the Paying Agent, the Reference Agent or any other person, in whatever capacity acting, other than the Security Trustee in respect of limited obligations under the Trust Deed, will accept any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. None of the Arranger, the Notes Purchaser, the Seller, the MPT Provider, the Issuer Administrator, the Floating Rate GIC Provider, the Listing Agent, the Paying Agent, the Reference Agent and the Security Trustee will be under any obligation whatsoever to provide additional funds to the Issuer (save in the limited circumstances described herein).

SUMMARY

The following is a summary of the principal features of the transaction described in this Offering Circular including the issue of the Notes. The information in this section does not purport to be complete. This summary should be read as an introduction to this Offering Circular and any decision to invest in the Notes should be based on a consideration of the Offering Circular as a whole, including any supplement thereto and the documents incorporated by reference. Where a claim relating to the information contained in this Offering Circular is brought before a court, the plaintiff investor might, under the national legislation of the Member State, have to bear the costs of translating this Offering Circular before the legal proceedings are initiated. Civil liability attaches to the Issuer, being the entity which has prepared the summary, and applied for its notification, only if the summary is misleading, inaccurate or inconsistent when read with other parts of the Offering Circular.

Capitalised terms used, but not defined, in this section can be found elsewhere in this Offering Circular, via the Index of Terms unless otherwise stated.

Risk factors

There are certain risk factors which the prospective Noteholders should take into account. These risk factors relate to, *inter alia*, the Notes, such as (but not limited to) the fact that the liabilities of the Issuer under the Notes are limited recourse obligations whereby the ability of the Issuer to meet such obligations will be dependent on the receipt by it of funds under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables and the receipt by it of other funds. Despite certain facilities, there remains a credit risk, liquidity risk, prepayment risk, maturity risk and interest rate risk relating to the Notes. Moreover, there are certain structural and legal risks relating to the Mortgage Receivables (see under *Risk Factors* below).

The Issuer

Convent 2008-I B.V. is incorporated under the laws of the Netherlands as a private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*) under number BV 1521656, having its corporate seat in Amsterdam, the Netherlands and registered with the Trade Register under number 34316895. The entire issued share capital of the Issuer is held by Stichting Holding Convent 2008-I. The Issuer is established to issue the Notes, to acquire the Mortgage Receivables and to enter into certain transactions described in this Offering Circular.

Transaction

On the Closing Date, the Issuer will (i) issue the Notes and (ii) apply the net proceeds of the Notes (other than the Subordinated Class E Notes) towards payment of the Initial Purchase Price for the Mortgage Receivables to be purchased by the Issuer on the Closing Date, consisting of any and all rights and claims of the Seller against certain borrowers under or in connection with certain selected mortgage loans secured by a first-ranking right of mortgage (*hypotheekrecht*) or first and sequentially lower ranking rights of mortgage and the Beneficiary Rights relating thereto. The net proceeds of the issue of the Subordinated Class E Notes will be used to fund the Reserve Account.

The Issuer will use receipts of principal and interest in respect of the Mortgage Receivables together with amounts it receives under the Floating Rate GIC to make payments of, *inter alia*, principal and interest due in respect of the Notes, provided that up to and including the Quarterly Payment Date falling in January 2012, the Issuer will use the principal received by it in respect of the Mortgage Receivables to purchase, subject to certain conditions and to the extent offered to the Issuer by the Seller, Further Advance Receivables, Replacement Receivables and/or Replenishment Receivables and thereafter up to and including the Quarterly Payment Date immediately preceding the First Optional Redemption Date, to purchase Further Advance Receivables and/or Replacement Receivables.

It is of note that the obligations of the Issuer in respect of the Notes will rank behind the obligations of the Issuer in respect of certain items set forth in the applicable priority of payments and that the right to payment of principal and interest on the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes will be subordinated to the Senior Class A Notes and may be limited as more fully described herein under Terms and Conditions of the Notes.

Pursuant to the Floating Rate GIC the Floating Rate GIC Provider will agree to pay a guaranteed rate of interest on the balance standing from time to time to the credit of the Issuer Accounts (see under *Credit Structure* below).

The risk that the rate of interest to be received by the Issuer on the Mortgage Receivables is not sufficient to pay the rate of interest payable by the Issuer on the Notes is hedged by various provisions made in the Mortgage Receivables Purchase Agreement, the MPT Agreement and the Issuer Administration Agreement pursuant to which following the Closing Date only Mortgage Loans that bear a fixed interest rate of at least 4.5 per cent. will become part of the Portfolio held by the Issuer.

Security structure

The Noteholders will benefit from the security granted in favour of the Security Trustee, whereas the Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking undisclosed pledge granted by the Issuer to the Security Trustee over the Mortgage Receivables, including all rights ancillary thereto in respect of the Portfolio Mortgage Loans and the Beneficiary Rights relating thereto, and (ii) a first ranking disclosed pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the MPT Agreement, the Floating Rate GIC, the Beneficiary Waiver Agreement, and in respect of the Issuer Accounts.

In order to ensure the valid creation of the security rights under Dutch law in favour of the Security Trustee, the Issuer has undertaken in the Trust Deed to pay to the Security Trustee, by way of a parallel debt, under the same terms and conditions, an amount equal to the aggregate of all its undertakings, liabilities and obligations to the Security Beneficiaries pursuant to the relevant Transaction Documents.

The Trust Deed sets out the priority of the claims of the Security Beneficiaries. See for a more detailed description *Description of Security* below.

Redemption of the Notes

Unless previously redeemed, the Issuer will redeem the Notes at their Principal Amount Outstanding, together with accrued interest, on the Quarterly Payment Date falling in January 2044 subject to and in accordance with the Conditions.

Provided that no Enforcement Notice has been served in accordance with Condition 10 and subject to the Notes not having been redeemed in full pursuant to Condition 6(e), 6(f), 6(g) or 6(i), the Issuer shall on each Quarterly Payment Date apply the Notes Redemption Available Amount towards redemption, at their Principal Amount Outstanding, of the Notes (other than the Subordinated Class E Notes). Payments of principal on the Subordinated Class E Notes will be made from the Notes Interest Available Amounts on each Quarterly Payment Date in accordance with the Interest Priority of Payments.

Subject to and in accordance with the Conditions, the Issuer may (but is not obliged to) redeem all of the Notes (other than the Subordinated Class E Notes, which will subsequently be redeemed in accordance with Condition 9(b) and Condition 6(h)) in whole but not in part, on the First Optional Redemption Date or any subsequent Optional Redemption Date or in the event of certain tax changes affecting the Notes at their Principal Amount Outstanding plus accrued but unpaid interest thereon, after payment of the amounts to be paid in priority of the Notes.

Finally, the Seller may upon the occurrence of certain events exercise the Seller Clean-up Call Option or Regulatory Call Option and repurchase and accept re-assignment of all (but not only part of) the Mortgage Receivables. The Issuer has undertaken to apply the proceeds of any such sale towards redemption of the Notes (other than the Subordinated Class E Notes).

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in the position to express a view on the likelihood of any such contingency occurring.

Factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

The Issuer believes that the factors described below represent the material risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Additional risks or uncertainties not presently known to the Issuer or that the Issuer currently considers immaterial may also have an adverse effect on the Issuer's ability to pay interest, principal or other amounts on or in connection with the Notes. Prospective Noteholders should read the information contained herein in conjunction with the detailed information set out elsewhere in this Offering Circular and should reach their own views prior to making any investment decision.

Capitalised terms used, but not defined, in this section can be found elsewhere in this Offering Circular. For the page reference of the definitions of the capitalised terms used herein see Index of Terms.

Liabilities under the Notes and limited recourse

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, acting in whatever capacity, including, without limitation, the Arranger, the Notes Purchaser, the Seller, the MPT Provider, the Issuer Administrator, the Floating Rate GIC Provider, the Listing Agent, the Paying Agent, the Reference Agent or, except for certain limited obligations under the Trust Deed as more fully described in *Description of Security*, the Security Trustee. Furthermore, none of the Arranger, the Notes Purchaser, the Seller, the MPT Provider, the Issuer Administrator, the Floating Rate GIC Provider, the Listing Agent, the Paying Agent or the Reference Agent or any other entity or person acting in whatever capacity, other than the Security Trustee in respect of limited obligations under the Trust Deed, will accept any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes.

The obligations of the Issuer under the Notes are limited recourse obligations and the ability of the Issuer to meet its obligations to pay the principal of and interest on the Notes will be dependent on the receipt by it of principal, interest and other amounts under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables and the receipt by it of interest in respect of the balances standing to the credit of the Issuer Accounts, the availability of the Reserve Account and the Excess Spread. See further under *Credit Structure* below.

Payment of principal and interest on the Notes will be secured indirectly by the security granted by the Issuer to

the Security Trustee pursuant to the Security Documents. If the security granted pursuant to the Security Documents is enforced and the proceeds of such enforcement, after payment of all other claims ranking in priority to amounts due under the Notes, are insufficient to repay in full all principal and to pay all interest and other amounts due in respect of the Notes, then, as the Issuer has no other assets, it may be unable to satisfy claims in respect of any such unpaid amounts. As enforcement of the security by the Security Trustee pursuant to the terms of the Trust Deed, the Pledge Agreements and the Notes is the only remedy available to Noteholders for the purpose of recovering amounts owed in respect of the Notes, the Noteholders shall, following the application of the proceeds of such enforcement subject to and in accordance with the Post-Enforcement Priority of Payments, have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

Risks inherent to the Notes

By acquiring the Notes, the Noteholders shall be deemed to have knowledge of, accept and be bound by the Conditions. Neither the Issuer nor the Paying Agent will have any responsibility for the proper performance by the Clearing Institutions or their participants of their obligations under their respective rules, operating procedures and calculation methods.

(i) Credit Risk

There is a risk of non-payment of principal and interest on the Notes due to non-payment of principal and interest on the Mortgage Receivables, despite the following:

- in the case of the Senior Class A Notes, the subordinated ranking of each of the other Classes of Notes;
- in the case of the Senior Class A Notes and the Mezzanine Class B Notes, the subordinated ranking of the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes;
- in the case of the Senior Class A Notes, the Mezzanine Class B Notes and the Mezzanine Class C Notes, the subordinated ranking of the Junior Class D Notes and the Subordinated Class E Notes;
- in the case of the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes, and the Junior Class D Notes, the subordinated ranking of the Subordinated Class E Notes;
- the Reserve Account; and
- the Excess Spread.

The proceeds of the Subordinated Class E Notes will be credited to the Reserve Account. Principal on the Subordinated Class E Notes will be paid out of the Notes Interest Available Amounts in accordance with the Interest Priority of Payments.

(ii) Liquidity Risk

There is a risk that interest on the underlying Mortgage Receivables is not received on time thus causing temporary liquidity problems to the Issuer, despite (i) the Excess Spread and (ii) the Reserve Account (to the extent available for such purpose).

(iii) *Prepayment Risk*

As long as the Seller on each Quarterly Payment Date up to and including the Quarterly Payment Date falling in January 2012 offers additional mortgage receivables (i.e. Replenishment Receivables) in an amount equal to the Notes Principal Available Amounts (excluding item (iv) thereof) less the Initial Purchase Price payable in respect of Further Advance Receivables and/or Replacement Receivables (if any) and less the Interest Shortfall Amount (if any), the Notes will not start redeeming until the Quarterly Payment Date falling in April 2012. However, if, *inter alia*, the Replenishment Criteria are not met or the Seller does not offer sufficient Replenishment Receivables, the Notes Principal Available Amounts (excluding item (iv) thereof) less the Initial Purchase Price payable in respect of Further Advance Receivables and/or Replacement Receivables (if any) and less the Interest Shortfall Amount (if any) will be used to redeem the Notes (other than the Subordinated Class E Notes). The level of prepayments by the Borrowers can vary and therefore, if no replenishment takes place, there is a risk that the average life of the Notes is shorter or longer than anticipated. The average lives of the Notes are subject to factors largely outside the control of the Issuer and consequently no assurance can be given that any estimates and assumptions will prove in any way to be realistic.

(iv) *Maturity Risk*

There is a risk that the Issuer will not have received sufficient principal to fully redeem the Notes at maturity. The Final Maturity Date for the Notes is the Quarterly Payment Date falling in January 2044. The Issuer has on any Optional Redemption Date the right to sell and assign all (but not only part of) the Mortgage Receivables to any party. The Issuer shall be required to apply the proceeds of such sale, to the extent relating to principal, to redeem the Notes (other than the Subordinated Class E Notes) in accordance with the Conditions. No guarantee can be given that the Issuer will exercise its option or that there will be a third party purchaser and therefore that the Notes will be redeemed on such First Optional Redemption Date or any Optional Redemption Date thereafter.

The ability of the Issuer to redeem the Notes (other than the Subordinated Class E Notes) in full on the Final Maturity Date or, as the case may be, the First Optional Redemption Date or any Optional Redemption Date thereafter and to pay all amounts due to the Noteholders on such date may depend on whether the value of the Mortgage Receivables is sufficient to redeem such Notes in full.

(v) *Structural/Legal Risk*

As to the structural/legal risks relating to the Notes reference is made to, *inter alia*, *Transfer of Legal Title to Mortgage Receivables*, *Set-off*, *Mortgage Rights*, *Insurance Policies* and *Reduced Value of Investments* below.

Rating of the Notes

The ratings to be assigned to the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes) by the Rating Agency are based on the value and cash flow generating ability of the Mortgage Receivables and other relevant structural features of the transaction, including, *inter alia*, the short-term and

long-term unsecured and unsubordinated debt rating of the other parties involved in the transaction, such as the Floating Rate GIC Provider and reflect only the view of the Rating Agency.

There is no assurance that any such rating will continue for any period of time or that they will not be reviewed, revised, suspended or withdrawn entirely by the Rating Agency as a result of changes in or unavailability of information or if, in the Rating Agency's judgement, circumstances so warrant. Future events and/or circumstances relating to the Mortgage Receivables and/or the Dutch residential mortgage market, in general could have an adverse effect on the ratings of the Notes.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time.

Value of the Notes and liquidity

Prior to this offering, there has been no public secondary market for the Notes and there can be no assurance that the issue price of the Notes will correspond to the price at which the Notes will be traded after the initial offering of the Notes. Furthermore, there can be no assurance that active trading in the Notes will commence or continue after the offering. A lack of trading in the Notes could adversely affect the price of the Notes, as well as the Noteholders' ability to sell the Notes.

Lack of liquidity in the secondary market may adversely affect the market value of the Notes

The secondary mortgage markets are currently experiencing disruptions resulting from reduced investor demand for mortgage loans and mortgage-backed securities and increased investor yield requirements for those loans and securities. As a result, the secondary market for mortgage-backed securities is experiencing limited liquidity. These conditions may improve, continue or worsen in the future. Limited liquidity in the secondary market for mortgage-backed securities has had an adverse effect on the market value of mortgage-backed securities. Limited liquidity in the secondary market may continue to have an adverse effect on the market value of mortgage-backed securities, especially those securities that are more sensitive to credit or interest rate risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, investors may not be able to sell their Notes readily. The market values of the Notes are likely to fluctuate. Any of these fluctuations may be significant and could result in significant losses to investors.

Loan to foreclosure value ratio

The Portfolio Mortgage Loans will, at origination, have a loan to foreclosure value ratio ("**LTFV**") of up to and including 160 per cent. provided that the principal amount of Portfolio Mortgage Loans which consist of one loan part that qualifies as an Interest-only Mortgage Loan, or in case of Portfolio Mortgage Loans which are made up of a combination of loan types, the principal amount of the interest-only loan part thereof, will not exceed 135 per cent. of the foreclosure value of the relevant Mortgaged Asset. Generally, in the Dutch residential mortgage market, the foreclosure value (*executiewaarde*), at origination, is approximately between 85 and 90 per cent. of the market value (*vrije verkoopwaarde*) of the relevant mortgaged property. There can be no assurance that, on enforcement, all amounts owed by a Borrower under a Portfolio Mortgage Loan can be recovered from the

proceeds of the foreclosure on the property which is subject to the Mortgage or that the proceeds upon foreclosure will be at least equal to the estimated foreclosure value of the property (see *Description of Portfolio Mortgage Loans*).

Trust Deed

The Noteholders will benefit from the security granted in favour of the Security Trustee pursuant to the Security Documents. Under the terms of the Trust Deed, the Issuer will undertake to pay to the Security Trustee, on the same terms and conditions, an amount equal to the aggregate of all amounts from time to time due and payable by the Issuer to the Security Beneficiaries (including, but not limited to, the Noteholders) in accordance with the terms and conditions of the relevant Transaction Documents (as defined in the Conditions) (such payment undertaking and the obligations and liabilities resulting from it being referred to as the "**Parallel Covenant**"). The Parallel Covenant represents an independent claim of the Security Trustee to receive payment thereof from the Issuer, provided that (i) the aggregate amount that may become due under the Parallel Covenant will never exceed the aggregate amount that may become due under all of the Issuer's obligations to the Security Beneficiaries, including the Noteholders, pursuant to the Transaction Documents and (ii) every payment in respect of such Transaction Documents for the account of or made to the Security Beneficiaries directly in respect of such undertaking shall operate in satisfaction pro tanto of the corresponding covenant in favour of the Security Trustee. The Parallel Covenant is secured by the Pledge Agreements.

It is generally assumed that under Dutch law a right of pledge cannot be validly created in favour of a person who is not the creditor of the claim that the right of pledge purports to secure. The Parallel Covenant is included in the Trust Deed to address this issue. It is noted that there is no statutory law or case law available on the validity or enforceability of a parallel covenant such as the Parallel Covenant or the security provided for such debts. However, the Issuer has been advised that there are no reasons why a parallel covenant such as the Parallel Covenant will not create a claim of the pledgee (the Security Trustee) thereunder which can be validly secured by a right of pledge such as the rights of pledge created pursuant to the Pledge Agreements.

Transfer of legal title to Mortgage Receivables

Under Dutch law a transfer of title by way of assignment of a receivable can be effected either by means of (i) a deed of assignment executed between the assignee and the assignor and a notification of the assignment to the relevant debtor or (ii) a notarial deed or a registered deed of assignment, without notification of the assignment to the relevant debtor being required (the so-called *stille cessie*). In the latter case notification to the debtor, however, will still be required to prevent such debtor validly discharging its obligations (*bevrijdend betalen*) under the receivable by making a payment to the relevant assignor. The legal ownership of the Mortgage Receivables will be transferred by the Seller to the Issuer on the relevant date of purchase and assignment through a registered deed of assignment. The Mortgage Receivables Purchase Agreement provides that such transfer of legal title to the Mortgage Receivables by the Seller to the Issuer will not be notified to the Borrowers unless certain events (referred to as Assignment Notification Events) occur. For a description of these notification events reference is made to the section *Mortgage Receivables Purchase Agreement* below.

Until notification of the transfer of legal title has been made to the Borrowers, the Borrowers can only validly

discharge their obligations (*bevrijdend betalen*) under the relevant Portfolio Mortgage Loan by making a payment to the Seller. The Seller has undertaken in the Mortgage Receivables Purchase Agreement to pay (or procure that the MPT Provider shall pay on its behalf) on the first, second and third Business Day of each calendar month all amounts received by it in respect of the Portfolio Mortgage Loans with respect to the immediately preceding Portfolio Calculation Period. However, receipt of such amounts by the Issuer is subject to the Seller actually making such payments.

Payments made by the Borrowers to the Seller prior to notification but after bankruptcy or suspension of payments in respect of the Seller having been declared, will be part of the Seller's bankruptcy estate. However, the Issuer has the right to receive such amounts by preference after deduction of the general bankruptcy costs (*algemene faillissementskosten*).

Mortgage rights

Uncertainty whether mortgage rights will follow Mortgage Receivables

The Mortgage Receivables sold to the Issuer by the Seller are secured by a mortgage right created under a mortgage deed in which the Borrower has given security over the mortgaged property for an amount which exceeds the amount of the initial Mortgage Loan by a maximum of 5 per cent. Pursuant to the mortgage deeds relating to such Mortgage Receivables, any Further Advances granted by the Seller to the relevant Borrowers are secured by the same mortgage rights. The Issuer has been advised that it is likely that such mortgage rights should be regarded as so-called "**Credit Mortgages**" (*krediethypotheken*).

Under Dutch law a mortgage right is an accessory right (*afhankelijk recht*) which follows by operation of law the receivable with which it is connected. Furthermore, a mortgage right is an ancillary right (*nevenrecht*) and the assignee of a receivable secured by an ancillary right will have the benefit of such right, unless the ancillary right by its nature is, or has been construed as, a purely personal right of the assignor or such transfer is prohibited by law. However, Dutch legal commentators have different views on whether, in the event of assignment or pledge of a receivable secured by a Credit Mortgage, the mortgage will follow such receivable. Based upon case law, the prevailing view has been for a long time that a Credit Mortgage will only follow the receivable which it secures if the relationship between the bank and a borrower has been terminated in such a manner that following the transfer, the bank cannot create or obtain new receivables against the borrower. However, in recent legal literature this view is generally disputed and it is stated that, in particular where the mortgage deed indicates that the parties intended this to happen, that the Credit Mortgage will (partially) follow the receivable to the extent that it has been assigned, irrespective of whether the banking relationship between the bank and the borrower has terminated.

In the Mortgage Receivables Purchase Agreement, the Seller represents and warrants that, upon creation of the mortgage rights securing the Mortgage Receivables, the conditions applicable to the Portfolio Mortgage Loans (the "**Mortgage Conditions**") contained a provision to the effect that, upon assignment or pledge in whole of the relevant receivable, the mortgage right will *pro rata* follow such receivable as an ancillary right. This provision is a clear indication of the intentions of the parties in respect of assignment of the receivable. In the determination of whether a Credit Mortgage follows the receivable to which it is connected, the wording of the Mortgage

Conditions in the relevant mortgage deed is an important factor. Whether such wording is the only and thus decisive factor, is not certain. However, the inclusion of this provision in the Mortgage Conditions provides support for the suggestion that, in this case, the mortgage right follows the Mortgage Receivable *pro rata* upon assignment or pledge as an ancillary right.

If the Credit Mortgages would (pro rata) have followed the Mortgage Receivables upon assignment, this would imply that the mortgage rights may be co-held by the Seller and the Issuer in respect of which the rules applicable to co-ownership (*gemeenschap*) apply. The Dutch Civil Code provides for various mandatory rules applying to such co-owned rights. In the Mortgage Receivables Purchase Agreement the Seller, the Issuer and the Security Trustee will agree that the Issuer and/or the Security Trustee, as the case may be, will manage and administer such co-held rights. It is uncertain whether the foreclosure of the mortgage rights will be considered as day-to-day management, and, consequently whether, upon the Seller being declared bankrupt or being granted a suspension of payments, the consent of its bankruptcy trustee or administrator may be required for such foreclosure. The Seller, the Issuer and the Security Trustee will agree in the Mortgage Receivables Purchase Agreement that in case of foreclosure, the share (*aandeel*) in each co-held mortgage right of the Security Trustee and/or the Issuer will be equal to the outstanding principal amount of the Mortgage Receivable together with interest and costs, if any, and the share of the Seller will be equal to the Net Proceeds less the outstanding principal amount of the Mortgage Receivable together with interest and costs, if any. It is uncertain whether this arrangement will be enforceable. In this respect it will be agreed that in case of a breach by the Seller of its obligations under these arrangements or if any of such agreements are dissolved, void, nullified, or ineffective for any reason in respect of the Seller, it shall compensate the Issuer and/or the Security Trustee, as the case may be, forthwith for any and all loss, cost, claim, damage and expense whatsoever which the Issuer and/or the Security Trustee, as the case may be, incurs as a result thereof. Receipt of such amount by the Issuer and/or the Security Trustee is subject to the ability of the Seller to actually make such payments.

If (a receiver of) the Seller would, notwithstanding the arrangement set forth above, enforce the co-held Mortgages securing the Mortgage Receivables, the Issuer and/or the Security Trustee would have a claim against the Seller (or, as the case may be, its bankruptcy estate) for any damages as a result of a breach of the contractual arrangements, although such claim would be unsecured and non-preferred. A possible solution to mitigate this risk could be to convert the Credit Mortgages into Mortgages which only secure such Mortgage Receivables. This can, *inter alia*, be effectuated by partially terminating the Mortgages to the effect that the Mortgage and/or rights of pledge no longer secures other debts than the relevant Mortgage Receivable. The Seller has undertaken in the Mortgage Receivables Purchase Agreement to partially terminate (*opzeggen*) the relevant Credit Mortgages securing the Mortgage Receivables to the extent that such Credit Mortgages secure debts other than the relevant Mortgage Receivables which were sold and assigned to the Issuer pursuant to the Mortgage Receivables Purchase Agreement by giving notice of such partial termination to the relevant Borrowers prior to or at the same time as the Borrowers are notified of the assignment (see *Transfer of legal title to Mortgage Receivables* above). As a consequence of such partial termination, the Credit Mortgage would only secure the Mortgage Receivable assigned to the Issuer and would, in effect, cease to be a Credit Mortgage. The relevant statutory provisions only address termination in general, and legal commentators, although accepting the right of partial termination, do not specifically discuss partial termination of mortgage rights in the manner

described above. It is therefore unclear whether such a partial termination complies with the relevant statutory requirements. Based upon a reasonable interpretation of the statutory provisions and the views expressed by legal commentators, there are strong reasons for arguing that the Seller can effectively terminate the Credit Mortgages as described above. Under Dutch law a mortgage right can be terminated by the mortgage holder provided that upon creation of the mortgage right, the mortgage holder was granted such right by the mortgage deed. The Mortgage Conditions contained in the mortgage deeds relating to the Portfolio Mortgage Loans provide for a partial as well as a general termination right in respect of the Credit Mortgages. Should the Seller be declared bankrupt or become subject to emergency regulations, its undertaking to give a notice of partial termination would no longer be enforceable and a notice of partial termination received after such date by a Borrower would not be effective.

If the Credit Mortgages would not (pro rata) have followed the relevant Mortgage Receivables upon assignment by the Seller, this means that it is uncertain, depending on the specific facts and circumstances involved, (i) whether the Issuer and, consequently, the Security Trustee (as pledgee), would have the benefit of a mortgage right securing such Mortgage Receivables, and (ii) if subsequently a Borrower fails to comply with its obligations under the relevant Portfolio Mortgage Loan, whether the Issuer or the Security Trustee (as the case may be) would be in a position to foreclose the Credit Mortgage (respectively, as legal owner and as pledgee of the relevant Mortgage Receivables). If not, the assistance of the Seller's administrator (in the case of emergency regulations) or bankruptcy trustee (in the case of bankruptcy) would be required to effect a foreclosure which would, in whole or in part, be for the benefit of the Issuer or the Security Trustee, as the case may be. It is uncertain whether such assistance would be forthcoming.

Borrower Pledges

What is stated in the various paragraphs under *Credit Mortgages* above in respect of mortgage rights applies *mutatis mutandis* in respect of the rights of pledge (each such right a "**Borrower Pledge**") included in the deed of mortgage, unless otherwise stipulated below and provided that in respect of such Borrower Pledges the Mortgage Conditions applicable to the Portfolio Mortgage Loans neither contain a provision to the effect that upon assignment or pledge in whole or in part of the relevant receivables, the right of pledge will follow such receivable pro rata as an ancillary right. This means that in these cases there is no clear indication of the intention of the parties. The Issuer has been advised that in such a case there are strong arguments for the view that the Borrower Pledge (partially) follows the receivable as accessory and ancillary right upon its assignment, but that there is no case law explicitly supporting this advice. Consequently, it is not certain what the Dutch courts would decide if this matter were to be submitted to them, particularly taking into account the view of Dutch legal commentators on Credit Mortgages which prevailed in the past, which view continues to be defended by some legal commentators.

Set-off

Under Dutch law a debtor has a right of set-off if it has a claim which corresponds to its debt to the same counterparty and it is entitled to pay its debt as well as to enforce payment of its claim. Subject to these requirements being met, each Borrower will be entitled to set off amounts due by the Seller to it (if any) with amounts it owes in respect of the Mortgage Receivable prior to notification of the assignment of the Mortgage

Receivable to the Issuer having been made. Such amounts due by the Seller to a Borrower could, *inter alia*, result from current account balances or deposits made with the Seller. As a result of the set-off of amounts due by the Seller to the Borrower with amounts the Borrower owes in respect of the Mortgage Receivable, the Mortgage Receivable will, partially or fully, be extinguished (*gaat teniet*). Set-off by Borrowers could thus lead to losses under the Notes.

The Mortgage Conditions provide that payments by the Borrowers should be made without set-off. Although this clause is intended as a waiver by the Borrowers of their set-off rights vis-à-vis the Seller, under Dutch law it is uncertain whether such waiver will be valid. Should such waiver be invalid, the Borrowers will have the set-off rights described above in this paragraph.

After assignment of the Mortgage Receivables to the Issuer and notification thereof to a Borrower, such Borrower will also have set-off rights vis-à-vis the Issuer, provided that the legal requirements for set-off are met (see above), and further provided that (i) the counterclaim of the Borrower results from the same legal relationship as the relevant Mortgage Receivable, or (ii) the counterclaim of the Borrower has been originated and become due prior to the assignment of the Mortgage Receivable and notification thereof to the relevant Borrower. The question whether a court will come to the conclusion that the Mortgage Receivable and the claim of the Borrower against the Seller result from the same legal relationship will depend on all relevant facts and circumstances involved. But even if these would be held to be different legal relationships, set-off will be possible if the counterclaim of the Borrower has originated (*opgekomen*) and become due (*opeisbaar*) prior to notification of the assignment, and, further, provided that all other requirements for set-off have been met (see above). A balance on a current account is due at any time and, therefore, this requirement will be met. In the case of deposits it will depend on the term of the deposit whether the balance thereof will be due at the moment of notification of the assignment. The Issuer has been informed that in most cases a balance on a deposit account can be withdrawn at any time and, consequently, such balance is due (*opeisbaar*) at any time. If after the moment the Borrower receives notification of the assignment of the Mortgage Receivable, amounts are debited from or credited to the current account or, as the case may be, the deposit account, the Borrower will only be able to set-off its claim vis-à-vis the Issuer for the amount of its claim at the moment such notification has been received after deduction of amounts which have been debited from the current account or the deposit account after such moment, notwithstanding that amounts may have been credited.

If notification of the assignment of the Mortgage Receivables is made after the bankruptcy or emergency regulations of the Seller having become effective, it is defended in legal literature that the Borrower will, irrespective of the notification of the assignment, continue to have the broader set-off rights afforded to it in the Dutch Bankruptcy Code. Under the Dutch Bankruptcy Code a person which is both debtor and creditor of the bankrupt entity can set off its debt with its claim, if each claim (i) came into existence prior to the moment at which the bankruptcy become effective or (ii) resulted from transactions with the bankrupt entity concluded prior to the bankruptcy becoming effective. A similar provision applies in case of emergency regulations.

The Mortgage Receivables Purchase Agreement provides that if a Borrower sets off amounts due to it by the Seller against the relevant Mortgage Receivable and, as a consequence thereof, the Issuer does not receive the

amount which it would otherwise have been entitled to receive in respect of such Mortgage Receivable, the Seller will pay to the Issuer an amount equal to the difference between (i) the amount which the Issuer would have received in respect of the relevant Mortgage Receivable if no set-off had taken place and (ii) the amount actually received by the Issuer in respect of such Mortgage Receivable. This provision, however, will not be enforceable against the Seller after it has been declared bankrupt or has become subject to emergency regulations because a bankruptcy trustee or administrator can choose not to comply with this provision.

The Seller will also have the right to set-off any amounts owing to a Borrower against a Mortgage Receivable in respect of such Borrower. The Mortgage Receivables Purchase Agreement provides that, prior to notification of the assignment and/or pledges, the Seller will pay to the Issuer any amounts not received by the Issuer as a result of such right of set-off being invoked by the Seller. After notification of the assignment and/or pledges to the Borrowers, the Seller will no longer have any set-off right against the relevant Borrowers.

For specific set-off issues relating to Life Mortgage Loans reference is made to *Insurance Policies* below.

No independent investigation as to Mortgage Receivables, Mortgage Loans, Mortgages and Mortgaged Assets by the Issuer

None of the Issuer or the Security Trustee has undertaken or will undertake any investigations, searches or other actions in respect of the Mortgage Loans and their related Mortgages and Mortgaged Assets. Instead, each will rely on the representations and warranties to be given by the Seller in the Mortgage Receivables Purchase Agreement. The sole remedy (save as described below under *Mortgage Receivables Purchase Agreement*) of the Issuer in respect of a breach of representations and warranties by the Seller, will be to require the Seller to repurchase or procure the repurchase of, or to substitute or procure the substitution of a similar mortgage loan for, any Mortgage Receivable which is the subject of any breach of a representation of warranty. However, this will not limit any other remedies available to the Issuer and/or the Security Trustee under Dutch law if the Seller fails to repurchase, or to procure the repurchase or replacement of a Mortgage Receivable if obliged to do so. There can be no assurance that the Seller will have the financial resources to honour its obligation to repurchase any Mortgage Receivable in respect of which such a breach of representations and warranty arises.

Insurance Policies

The Life Mortgage Loans have the benefit of Life Insurance Policies, and all other Portfolio Mortgage Loans may have the benefit of a risk insurance policy (e.g. a policy relating to an insurance which pays out upon the death of the insured) (a "**Risk Insurance Policy**" and together with the Life Insurance Policies, the "**Insurance Policies**"). Such Insurance Policies are taken out by the Borrowers with several insurance companies (each an "**Insurance Company**" and collectively the "**Insurance Companies**"). The Life Mortgage Loans constitute 18 per cent. of the Provisional Pool. The Life Insurance Policies concluded in connection with these Life Mortgage Loans are taken out with non-affiliated Insurance Companies.

In this paragraph, certain legal issues relating to the effects of the assignment of the Mortgage Receivables on the Insurance Policies are set out. Investors should be aware that it is possible that (i) the Issuer will not benefit from the Insurance Policies and/or (ii) the Issuer may not be able to recover any amounts from the relevant

Borrower if the relevant Insurance Company becomes insolvent or otherwise defaults in its obligations as further described in this paragraph. As a consequence thereof the Issuer may not have a claim for such amounts on the Borrower and may, therefore, not have the benefit of the mortgage right securing such claim. In such case the rights of the Security Trustee will be similarly affected. Due to the dependency on the performance by the Insurance Companies of their obligations under the Insurance Policies, a deterioration of the credit quality of the Insurance Companies or part thereof might have an adverse effect on the ratings of the Notes.

Pledge

All rights of the Borrowers under the Insurance Policies have been pledged to the Seller (the "**Borrower Pledges**"). However, the Issuer has been advised that it is possible that the right to receive payment, including the commutation payment (*afkoopsom*), under the Insurance Policies will be regarded by a Dutch court as a future right. The pledge of a future right is, under Dutch law, not effective if the pledgor is declared bankrupt, granted a suspension of payments or if emergency regulations are imposed on it, prior to the moment such right comes into existence. This means that it is uncertain whether such right of pledge will be effective. Even if the pledge over the rights under the Insurance Policies was effective, it would be uncertain whether such right of pledge would pass to the Issuer or, as the case may be, the Security Trustee upon the assignment or pledge of the Mortgage Receivables, where the Borrower Pledges secure the same liabilities as the Credit Mortgages (see above under *Mortgage Rights*).

Appointment of beneficiary

The Seller has been appointed as beneficiary under the Insurance Policies up to the amount owed by the Borrower under the mortgage deed (the "**Beneficiary Rights**"), except for cases where another beneficiary has been appointed who will rank ahead of the Seller. In such cases it is provided that the relevant Insurance Company is irrevocably authorised by such beneficiary to apply the insurance proceeds in satisfaction of the Mortgage Receivables. It is unlikely that the Beneficiary Rights will follow the Mortgage Receivables upon assignment or pledge thereof to the Issuer or the Security Trustee. The Beneficiary Rights will, to the extent legally possible, be assigned by the Seller to the Issuer and will be pledged by the Issuer to the Security Trustee (see under *Description of Security* below), but it is uncertain whether this assignment and pledge will be effective.

Because of the uncertainty as to whether the Issuer becomes beneficiary of the Insurance Policies and whether or not the pledge of the Beneficiary Rights is effective, the Issuer will enter into a beneficiary waiver agreement at the Signing Date (the "**Beneficiary Waiver Agreement**") with the Seller and the Security Trustee. In the Beneficiary Waiver Agreement the Seller, subject to the condition precedent of the occurrence of an Assignment Notification Event, waives its rights as beneficiary under the Insurance Policies and appoints as first beneficiary (i) the Issuer subject to the dissolving condition of the occurrence of a pledge notification event (a "**Pledge Notification Event**") as referred to in the Mortgage Receivables Pledge Agreement relating to the Issuer and (ii) the Security Trustee under the condition precedent of the occurrence of a Pledge Notification Event referred to in the Mortgage Receivables Pledge Agreement relating to the Issuer. It is, however, uncertain whether such waiver and appointment will be effective, mainly because it is unclear whether or not the right to change the appointment can be validly assigned to the Issuer or is included in the rights of the Seller as pledgee or as

beneficiary under the Insurance Policies. In view of this the Seller will undertake to use its best efforts following an Assignment Notification Event to obtain the co-operation of all relevant parties to appoint the Issuer or the Security Trustee, as the case may be, as first beneficiary under the Insurance Policies. It is uncertain whether such co-operation will be forthcoming. In the event that an irrevocable authorisation to apply the insurance proceeds in satisfaction of the Mortgage Receivables as described above exists, the Seller will undertake in the Beneficiary Waiver Agreement, following an Assignment Notification Event, to use their best efforts to change the payment instruction in favour of (i) the Issuer subject to the dissolving condition of the occurrence of a Pledge Notification Event relating to the Issuer and (ii) the Security Trustee under the condition precedent of the occurrence of a Pledge Notification Event relating to the Issuer. If the Issuer or the Security Trustee, as the case may be, has not become beneficiary of the Insurance Policies and the pledge and the waiver of the Beneficiary Rights are not effective, any proceeds under the Insurance Policies will be payable to the Seller or to any other beneficiary, instead of the Issuer or the Security Trustee, as the case may be. If the proceeds are paid to the Seller, it will be obliged to pay the amount involved to the Issuer or the Security Trustee, as the case may be. If the proceeds are paid to the Seller and the Seller does not pay the amount involved to the Issuer or the Security Trustee, as the case may be, e.g. in the case of bankruptcy of the Seller or if the proceeds are paid to another beneficiary instead of the Issuer or the Security Trustee, as the case may be, this may result in the amount paid under the Insurance Policies not being applied in reduction of the Mortgage Receivable. This may lead to the Borrower invoking defences against the Issuer or the Security Trustee, as the case may be, for the amounts so received by the Seller as further discussed under *Set-off or defences* below.

Insolvency of the Insurance Companies

If any of the Insurance Companies is no longer able to meet its obligations under the Insurance Policies, e.g. in case it is declared bankrupt or subjected to emergency regulations, this could result in the amounts payable under the Insurance Policies not or only partly being available for application in reduction of the relevant Mortgage Receivables. This may lead to the Borrowers trying to invoke set-off rights and defences as further discussed under *Set-off or defences* below.

Set-off or defences

If the amounts payable under the Insurance Policies do not serve as a reduction of the Mortgage Receivable (see *Appointment of Beneficiary* and *Insolvency of Insurance Company* above), the Borrower may try to invoke a right of set-off of the amount due under the Mortgage Receivable with amounts payable under or in connection with the relevant Insurance Policy.

As set out under *Set-off* above the Borrowers have waived their set-off rights, but it is uncertain whether such waiver is effective. If the waiver is not effective, the Borrowers will, in order to invoke a right of set-off, need to comply with the applicable legal requirements. One of these requirements is that the relevant Borrower should have a claim which corresponds to his debt to the same counterparty. The Insurance Policies are contracts between the Insurance Companies and the Borrowers on the one hand and the Portfolio Mortgage Loans are contracts between the Seller and the Borrowers on the other hand. Therefore, in order to invoke a right of set-off the Borrowers would have to establish that the Seller and the Insurance Companies are to be regarded as one legal entity or that, based upon interpretation of case law, set-off is allowed, even if the Seller and the Insurance

Companies are not considered as one legal entity, since the Portfolio Mortgage Loans and the Insurance Policies are to be regarded as one interrelated relationship.

Furthermore, the Borrowers should have a counterclaim. If one of the Insurance Companies is declared bankrupt or is subjected to emergency regulations, the Borrower will have the right to unilaterally terminate the Insurance Policy and to receive a commutation payment (*afkoopsom*). These rights are subject to the Borrower Pledge (see *Borrower Pledge* above). However, despite this pledge it may be argued that the relevant Borrower will be entitled to invoke a right of set-off for the commutation payment. Apart from the right to terminate the Insurance Policies, the Borrowers are also likely to have the right to rescind the Insurance Policies and to claim restitution of premiums paid and/or supplementary damages. It is uncertain whether such claim is subject to the Borrower Pledge. If not, the Borrower Pledge would not obstruct a right of set-off with such claim by the Borrowers.

Even if the Borrowers cannot invoke a right of set-off, they may invoke other defences against the Seller, the Issuer and/or the Security Trustee. The Borrowers could, *inter alia*, argue that it was the intention of the parties involved - at least that they could rightfully interpret the mortgage documentation and the promotional materials in such manner - that the Portfolio Mortgage Loan and the relevant Insurance Policy are to be regarded as one interrelated legal relationship, and could on this basis claim a right of annulment or rescission of the Portfolio Mortgage Loan or that the Mortgage Receivable would be (fully or partially) repaid by means of the proceeds of the Insurance Policy and that, failing such proceeds, the Borrower is not obliged to repay the (corresponding) part of the Mortgage Receivable. On the basis of similar reasoning, Borrowers could also argue that the Portfolio Mortgage Loans and the Insurance Policies were entered into as a result of 'error' (*dwalig*) or that it would be contrary to principles of reasonableness and fairness (*redelijkheid en billijkheid*) for a Borrower to be obliged to repay the Mortgage Receivable to the extent that he has failed to receive the proceeds of the Insurance Policy.

Life Mortgage Loans

In respect of Life Mortgage Loans the Issuer has been advised that in a situation where Borrowers are not able to recover their claims under their Life Insurance Policies as a result of the relevant Insurance Company being declared bankrupt or becoming subject to emergency regulations, the risk that the courts will honour any set-off or other defences made by the Borrowers, as described above, is remote. However, the possibility that the courts nevertheless honour such set-off or other defences cannot be disregarded.

The above view is based on the fact that (i) the relevant Insurance Companies and the Seller are not the same entity; therefore, the legal requirement for set-off that both the debt and the claim are owed and due to the same entity is not met, (ii) such Insurance Companies do not form part of the same group of companies to which the Seller belong, and the statements made by the Seller that (iii) there are no marketing ties between the Seller and the Insurance Companies, (iv) the Life Mortgage Loan and the relevant Life Insurance Policy are not sold as one single package, i.e. the Borrowers have a free choice as to the Insurance Company with which they will take out a Life Insurance Policy in relation to their mortgage loan to be entered into with the Seller, provided that any such insurance company selected is established in the Netherlands (or acting through an establishment in the Netherlands) and (v) there is no connection, whether from a legal or commercial view, between the Life Mortgage Loans and the relevant Life Insurance Policies other than the relevant Borrower Pledge and

Beneficiary Rights.

Enforcement of Dutch security rights

The Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking undisclosed right of pledge granted by the Issuer to the Security Trustee over the Mortgage Receivables, including all rights ancillary thereto in respect of the Portfolio Mortgage Loans and the Beneficiary Rights, and (ii) a first ranking disclosed right of pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the MPT Agreement, the Floating Rate GIC, the Beneficiary Waiver Agreement, and in respect of the Issuer Accounts. Notification of the undisclosed right of pledge in favour of the Security Trustee can be validly made after bankruptcy or the granting of a suspension of payments in respect of the Issuer. Under Dutch law the Security Trustee can, in the event of bankruptcy or suspension of payments of the Issuer, exercise the rights afforded by law to pledgees as if there were no bankruptcy or suspension of payments. However, bankruptcy or suspension of payments involving the Issuer would affect the position of the Security Trustee as pledgee in some respects, the most important of which are: (i) payments made by the Borrowers to the Seller or, after notification of the assignment, to the Issuer, prior to notification of the right of pledge over the Mortgage Receivables but after bankruptcy or (preliminary) suspension of payments or emergency regulations of the Seller or, as the case may be, the Issuer, will form part of the bankruptcy estate of the Seller or the Issuer, although the pledgee has the right to receive such amounts as a preferential creditor after deduction of certain bankruptcy-related costs, (ii) a mandatory freezing-period of up to four (4) months may apply in the case of bankruptcy or suspension of payments, which, if applicable, would delay the exercise of the right of pledge on the Mortgage Receivables and (iii) the pledgee may be obliged to enforce its right of pledge within a reasonable period as determined by the judge-commissioner (*rechter-commissaris*) appointed by the court in the case of bankruptcy of the Seller or the Issuer, as the case may be.

To the extent that the Mortgage Receivables pledged by the Issuer to the Security Trustee are future receivables, the right of pledge on such future receivable cannot be invoked against the estate of the Issuer, if such future receivable comes into existence after the Issuer has been declared bankrupt or has been granted a suspension of payments. The Issuer has been advised that the assets pledged to the Security Trustee under the Issuer Rights Pledge Agreement and Issuer Accounts Pledge Agreement may be regarded as future receivables. This would for example apply to amounts paid to the Issuer Accounts following the Issuer's bankruptcy or suspension of payments. With respect to Beneficiary Rights, reference is made to the section *Appointment of beneficiary* under *Insurance Policies* above.

Interest rate reset rights

The Issuer has been advised that a good argument can be made that the right to reset the interest rate on the Portfolio Mortgage Loans, after the termination of the fixed interest period, should be considered as an ancillary right and follows the Mortgage Receivables upon their assignment to the Issuer and the pledge to the Security Trustee, but that in the absence of case law or legal literature, this is not certain. To the extent the interest rate reset right passes upon the assignment of the Mortgage Receivables to the Issuer or upon the pledge of the Mortgage Receivables to the Security Trustee, such assignee or pledgee will be bound by the contractual provisions relating to the reset of interest rates. If the interest reset right remains with the Seller, the co-operation

of the bankruptcy trustee (in bankruptcy) or administrator (in emergency regulations) would be required to reset the interest rates. It is uncertain whether or when such co-operation will be forthcoming.

Reset of interest rates following notification

The MPT Agreement and the Issuer Administration Agreement provide that following notification of the assignment of the Mortgage Receivables to the Borrowers, upon termination of a fixed rate period (*rentevaste periode*) relating thereto, the MPT Provider or the Issuer Administrator, as the case may be, acting on behalf of the Issuer, will only offer the relevant Borrowers a fixed rate not lower than 4.5 per cent per annum. The Mortgage Conditions provide that, unless agreed otherwise between the parties, upon termination of a fixed rate period the relevant Borrower will be offered a new interest rate for a new fixed rate period. The Mortgage Conditions do not contain guidelines as to how the new interest rate will be calculated or determined. The Issuer has been advised that, although the Mortgage Conditions do not contain provisions on how the new interest rate will be calculated or determined, in a situation where the new fixed rate of 4.5 per cent. offered to the relevant Borrower is significantly higher than the interest rates that are offered at that time by the majority of all other mortgage lenders in the Netherlands to the same Borrower, the relevant Borrower could argue that the agreement between the parties entails, based on interpretation thereof, that upon termination of the relevant fixed rate period the Borrower would be offered a fixed rate that would be in line with the interest rates offered to the same Borrower at that time by other Dutch mortgage lenders and/or that the principles of reasonableness and fairness (*redelijkheid en billijkheid*) require that the Borrower is offered a fixed rate that is in line with the interest rates offered to the same Borrower at that time by other Dutch mortgage lenders, in accordance with the expectations of such Borrower upon entering into the relevant Portfolio Mortgage Loan. Although there is no case law explicitly supporting this view and depending on the factual circumstances involved, the Issuer has been advised that it is highly unlikely that such defences of the Borrower would be successful, as, *inter alia*, a Dutch court would recognise that the interest rates offered by the mortgage lenders differ for various reasons. However, in the situation where a Borrower would be successful, assuming that the relevant Borrower would be able to re-finance the relevant Portfolio Mortgage Loan with another mortgage lender in the Netherlands, the Issuer may be required by a court to compensate the Borrower for the costs and other damages involved in entering into a mortgage loan with such other mortgage lender. In case the relevant Borrower would not be able to re-finance the relevant Portfolio Mortgage Loan because he does not meet the underwriting criteria of any mortgage lender active in the Dutch mortgage market at that time, the Issuer has been advised that it is highly unlikely that a Dutch court would rule that the fixed interest rate offered by the Issuer is not fair. It should be noted, however, that there is no case law explicitly supporting this view. Therefore, it is not certain what the Dutch courts would decide if this matter were to be submitted to them.

Risk related to reduced value of investments and incomplete or misleading promotional materials

The value of investments made by the Insurance Companies in connection with the Life Insurance Policies, may not provide the Borrower with sufficient proceeds to fully repay the related Mortgage Receivables at their maturity. Further, if the development of the value of the investments made under the Life Insurance Policies is not in line with the expectations of a Borrower, such Borrower may try to invoke set-off or other defences against the Seller or the Issuer, as the case may be, by arguing that he has not been properly informed of the risks involved in the investments. Apart from the general obligation of contracting parties to provide information, there

are several provisions of Dutch law applicable to offerors of financial products, such as Life Mortgage Loans. In addition, several codes of conduct apply on a voluntary basis. On the basis of these provisions offerors of these products (and intermediaries) have a duty, *inter alia*, to provide the customers with accurate, complete and non-misleading information about the product, the costs and the risks involved. These requirements have become more strict over time. A breach of these requirements may lead to a claim for damages from the customer on the basis of breach of contract or tort or the relevant contract may be dissolved (*ontbonden*) or nullified or a Borrower may claim set-off or defences against the Seller or the Issuer (or the Security Trustee). The merits of any such claim will, to a large extent, depend on the manner in which the relevant Life Mortgage Loans have been marketed by the Seller and/or its intermediaries and the promotional material provided to the Borrower. Depending on the relationship between the offeror and any intermediary involved in the marketing and sale of the product, the offeror may be liable for actions of the intermediaries which have led to a claim. The risk of such claims being made increases, if the value of investments made under the Life Insurance Policies is not sufficient to redeem the relevant Life Mortgage Loans.

In this respect it is further of note that, in the summer of 2006, the Authority for the Financial Markets has published a report on so-called unit-linked or investment insurance policies whereby the premiums are invested in certain investment funds selected by the insured. The proceeds of the insurance policy are (largely) dependent on the return of such investment funds. According to the report the promotional material provided by some of the insurance companies to its customers was not complete and misleading in some respects (i.e. in respect of transparency of costs). The report was followed by a letter of the Minister of Finance and a report issued by the Committee De Ruiter in December 2006 containing recommendations to the insurance companies to improve the information provided to the customers and to compensate the customers which were misled. This may instigate customers to make claims for compensation against the relevant insurance companies or dissolving or terminating the insurance policies taken out with such insurance companies. In connection therewith, *Stichting Verliespolis*, an initiative of, *inter alia*, the Dutch Association of House Owners (*Vereniging Eigen Huis*) and the Dutch Association of Stock Owners (*Vereniging van Effectenbezitters*) was established in December 2006. *Stichting Verliespolis* mainly focuses on the shortcomings of the relevant insurance companies in providing the insured with complete and correct (non-misleading) information and prognoses and investigates the possibilities for the insured to commence legal proceedings (individually or through class action law suits) against the relevant insurance company.

Meanwhile, the Dutch Minister of Finance has informed the Parliament that the Dutch Government intends to stimulate a balanced approach for resolving complaints, to prevent a multitude of individual disputes before a complaint institute or in public courts, and has requested the Financial Services Ombudsman and Chairman of the Complaint Institute for Financial Services (*Klachteninstituut Financiële Dienstverlening*) to propose a balanced approach to deal with complaints. This Ombudsman has concluded in its recommendation (published on 4 March 2008) that insurers in general have not provided sufficient transparency concerning the costs of unit-linked insurance products. This may, however, vary per insurer. He recommends insurers to compensate customers of unit-linked insurance products of which the costs over the duration of the policy is higher than an annual rate of 3.5 per cent. of the gross fund output at least for the incremental costs. If all parties would cooperate with these recommendations, this could accelerate a solution and could result in a compromise for an

important number of cases.

The Dutch Association of Insurers has in a public communication stated that the recommendation offers a clear framework for a solution in a cumbersome file and that it expects that insurers will take this recommendation seriously. The recommendation addresses primarily individual insurers who should decide on the basis of their portfolio if and to what extent they will adopt this recommendation. It concludes that the recommendation of the Ombudsman makes fast, clear and transparent adaptation possible and prevents lengthy legal procedures which will benefit both insurers and customers. In the press some claimant organisations (including *Stichting Verliespolis*) have announced that the recommendations are disappointing and/or do not offer customers sufficient compensation and new class actions have been announced against two insurance companies. A number of insurers has announced that they have reached agreement with certain claimant organisations on compensation of their customers for the costs of investment insurance policies entered into with them.

The above mentioned unit-linked insurance products may also be linked to Life Mortgage Loans granted by the Seller. If Life Insurance Policies related to the Portfolio Mortgage Loans would for the reasons described in this paragraph be dissolved or terminated, this will affect the collateral granted to secure these Portfolio Mortgage Loans (the Borrower Pledges and the Beneficiary Rights would cease to exist). The Issuer has been advised that, depending on the circumstances involved, in such case the Portfolio Mortgage Loans connected thereto can possibly also be dissolved or nullified, but that this will be different depending on the particular circumstances involved. Even if the Portfolio Mortgage Loan is not affected, the Borrower/insured may invoke set-off or other defences against the Issuer. The analysis in that situation is similar to the situation in case of insolvency of the insurer, except if the Seller is itself liable, whether jointly with the insurer or separately, vis-à-vis the Borrower/insured. In this situation, which may depend on the involvement of the Seller in the marketing and sale of the insurance policy, set-off or defences against the Issuer could be invoked, which will probably only become relevant if the insurer and/or the Seller will not indemnify the Borrower. Any such set-off or defences may lead to losses under the Notes.

Long leases

The mortgage rights securing the Portfolio Mortgage Loans may be vested on a long lease (*erfpacht*). A long lease will, *inter alia*, end as a result of expiration of the long lease term (in the case of a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease in the event the leaseholder has not paid the remuneration due for a period exceeding two (2) consecutive years or commits a material breach of other obligations under the long lease. If the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the mortgage right will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder against the landowner for such compensation. The amount of the compensation will, *inter alia*, be determined by the conditions of the long lease and may be less than the market value of the long lease.

Risks of losses associated with declining property values

The security for the Notes created under the Pledge Agreements may be affected by, among other things, a decline in the value of those properties subject to the mortgage rights securing the Mortgage Receivables. No

assurance can be given that values of those properties have remained or will remain at the level at which they were on the date of origination of the related Portfolio Mortgage Loans. A decline in value may result in losses to the Noteholders if such security is required to be enforced.

Subordination

To the extent set forth in Conditions 6 and 9, (a) the Mezzanine Class B Notes are subordinated in right of payment to the Senior Class A Notes, (b) the Mezzanine Class C Notes are subordinated in right of payment to the Senior Class A Notes and the Mezzanine Class B Notes, (c) the Junior Class D Notes are subordinated in right of payment to the Senior Class A Notes, the Mezzanine Class B Notes and the Mezzanine Class C Notes and (d) the Subordinated Class E Notes are subordinated in right of payment to the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes. With respect to any Class of Notes, such subordination is designed to provide credit enhancement to any Class of Notes with a higher payment priority than such Class of Notes.

If, upon default by the Borrowers, the Issuer does not receive the full amount due from such Borrowers, Noteholders may receive by way of principal repayment on the Notes an amount less than the face amount of their Notes and the Issuer may be unable to pay in full interest due on the Notes, to the extent set forth in Condition 9. On any Payment Date, any such losses on the Portfolio Mortgage Loans will be allocated as described in *Credit Structure* below.

Conflict of interest between the interests of holders of different Classes of Notes

Circumstances may arise when the interests of the holders of different Classes of Notes could conflict. The Trust Deed contains provisions requiring the Security Trustee to have regard to the interests of the Noteholders as regards all powers, trust, authorities, duties and discretions of the Security Trustee (except where expressly provided otherwise) each as a Class, but requiring the Security Trustee in any such case to have regard only to the interests of the most senior ranking Class of Noteholders, if, in the Security Trustee's opinion, there is a conflict between the interests of this Class of Noteholders on one hand and the lower ranking Class or, as the case may be, Classes of Noteholders on the other hand. In addition, the Security Trustee shall have regard to the interests of the other Security Beneficiaries, provided that in case of a conflict of interest between the Security Beneficiaries the priority of payments upon enforcement set forth in the Trust Deed determines which interest of which Security Beneficiary prevails.

Act on the Financial Supervision

Under the Act on the Financial Supervision (*Wet op het financieel toezicht*), which came into force on 1 January 2007, a special purpose vehicle which services (*beheert*) and administers (*uitvoert*) loans granted to consumers, such as the Issuer, must have a license under that act. An exemption from the license requirement is available, if the special purpose vehicle outsources the servicing of the loans and the administration thereof to an entity holding a license under the Act on the Financial Supervision. The Issuer has outsourced the servicing and administration of the Portfolio Mortgage Loans to the MPT Provider. The MPT Provider holds a license under the Act on the Financial Supervision and the Issuer will thus benefit from the exemption. However, if the MPT Agreement is terminated, the Issuer will need to outsource the servicing and administration of the Portfolio

Mortgage Loans to another licensed entity or it needs to apply for and hold a license itself. In the latter case, the Issuer will have to comply with the applicable requirements under the Act on the Financial Supervision. If the MPT Agreement is terminated and the Issuer has not outsourced the servicing and administration of the Portfolio Mortgage Loans to a licensed entity and, in such case, it will not hold a license itself, the Issuer will have to terminate its activities and settle (*afwikkelen*) its existing agreements. There are a number of licensed entities in the Netherlands to which the Issuer could outsource the servicing and administration activities. It cannot be said with certainty whether any of these entities will be willing to perform these activities on behalf of the Issuer if this materialises.

EU Council Directive on taxation of savings income

Under the EU Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Belgium, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories have adopted similar measures with effect from the same date. Pursuant to Condition 5(b)(iv), the Issuer undertakes that it will ensure that it maintains a paying agent in an EU Member State that will not be obliged to withhold or deduct any tax pursuant to the EU Council Directive 2003/48/EC. Such a paying agent may not be available which may result in the Issuer not being able to meet its obligation pursuant to the aforementioned Condition 5(b)(iv), in which case there remains a risk that under certain circumstances the interest payments under the Notes become subject to withholding tax.

Change of law

The structure of the issue of the Notes and the ratings which are to be assigned to them are based on Dutch law in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible change in Dutch law or administrative practice in the Netherlands after the date of this Offering Circular.

The Issuer will not be obliged to gross-up for taxes and may redeem the Notes

As provided for in Condition 7, if any withholding of, or deductions for, or on account of, any present or future taxes, duties or charges of whatever kind is imposed by, or on behalf of, the Netherlands or any other jurisdiction or any political subdivision or any authority therein or thereof having power to tax, the Issuer or the Paying Agent (as applicable) will make the required withholding or deduction of such taxes, duties or charges, as the case may be, and shall not be obliged to pay any additional amount to the Noteholders. In addition, when the Issuer is required to make any withholding or deduction for, or on account of, any taxes, duties, or charges of whatsoever nature from payments with respect to any Class of Notes as a result of any change in, or amendment to, the application of the laws or regulations of the Netherlands or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax then the Issuer has the right to redeem, subject to Condition 9(b), the Notes at their Principal Amount Outstanding. If this occurs, this will have an impact on the maturity of the Notes.

DSB Bank N.V. as Noteholder

On the Closing Date, DSB Bank N.V. will purchase 100 per cent. of the Notes to be issued by the Issuer. For so long as these Notes are held by DSB Bank N.V., it will be entitled to all of the rights to which the holders of such Notes are entitled (including, without limitation, voting rights). By reason of its roles as, *inter alia*, Seller and MPT Provider, DSB Bank N.V.'s interests, with respect to the holding of such Notes, may be different from that of other Noteholders. So long as DSB Bank N.V. continues to hold the Notes, in the exercise of the rights to which it is entitled under the Notes, it will be in its interests to minimise any adverse impact or potential adverse impact on DSB Bank N.V. in its other capacities.

Reliance on third parties

Counterparties to the Issuer may not perform their obligations under the Transaction Documents, which may result in the Issuer not being able to meet its obligations. It should be noted that there is a risk that, *inter alia*, either (a) DSB Bank N.V. in its capacity as Seller and MPT Provider, (b) ING Bank N.V. in its capacity as Floating Rate GIC Provider and Paying Agent, will not perform its obligations vis-à-vis the Issuer and (c) ATC Management B.V. as Director of the Issuer and Stichting Holding Convent 2008-I, Amsterdamsch Trustee's Kantoor B.V. as Director of the Security Trustee and ATC Financial Services B.V. as Issuer Administrator, will not perform their obligations under the relevant Management Agreement and the Issuer Administration agreement, respectively.

In accordance with the Conditions and the Trust Deed (as defined below): (i) payments of principal and interest on the Mezzanine Class B Notes are subordinated to, *inter alia*, payments of principal and interest on the Senior Class A Notes, (ii) payments of principal and interest on the Mezzanine Class C Notes are subordinated to, *inter alia*, payments of principal and interest on the Senior Class A Notes and the Mezzanine Class B Notes, (iii) payments of principal and interest on the Junior Class D Notes are subordinated to, *inter alia*, payments of principal and interest on the Senior Class A Notes, the Mezzanine Class B Notes and the Mezzanine Class C Notes, and (iv) payments of principal and interest on the Subordinated Class E Notes are subordinated to, *inter alia*, payments of principal and interest on the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes provided that after satisfaction of the Pro Rata Amortisation Criteria and until delivery of an Enforcement Notice payment of principal on all Notes (other than the Subordinated Class E Notes) will be made on a *pari passu* and *pro rata* basis in accordance with the Pro Rata Amortisation Priority of Payments (as defined below). See further *Terms and Conditions of the Notes* below. The obligations of the Issuer in respect of the Notes will rank behind the obligations of the Issuer in respect of certain items set forth in the applicable priority of payments. See further *Credit Structure* below.

Interest: Interest on the Notes will accrue from (and including) the Closing Date by reference to successive interest periods (each a "**Quarterly Interest Period**") and will be payable quarterly in arrear in euro in respect of the Principal Amount Outstanding (as defined in the Conditions) on the 17th day of January, April, July and October of each year, or, if such day is not a Business Day (as defined below), the next succeeding Business Day, unless such Business Day falls in the next succeeding calendar month in which event the Business Day immediately preceding such 17th day is the relevant Business Day (each

such day being a "**Quarterly Payment Date**"). A "**Business Day**" means a day on which banks are open for business in Amsterdam and London, provided that such day is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer System Two ("**TARGET 2 System**") or any successor thereto is operating credit or transfer instructions in respect of payments in euro. Each successive Quarterly Interest Period will commence on (and include) a Quarterly Payment Date and end on (but exclude) the next succeeding Quarterly Payment Date, except for the first Quarterly Interest Period which will commence on (and include) the Closing Date and end on (but exclude) the Quarterly Payment Date falling in April 2009.

The interest for the first Quarterly Interest Period will be calculated on the basis of the actual number of days elapsed in such Quarterly Interest Period divided by 365 days. For each successive Quarterly Interest Period the interest will be calculated on the basis of Actual/Actual (ICMA). See Condition 4(c).

Final Maturity

Date:

Unless previously redeemed as provided below, the Issuer will redeem any remaining Notes outstanding on the Quarterly Payment Date falling in January 2044 at their respective Principal Amount Outstanding on such date, subject to and in accordance with the Conditions.

Payment of Principal on the Notes:

Prior to the delivery of an Enforcement Notice (as defined below) and except in the circumstances described in the next paragraph, the Issuer shall on each Quarterly Payment Date apply the Notes Redemption Available Amounts (as defined below), subject to and in accordance with the Conditions and the Principal Priority of Payments, (i) *firstly*, towards redemption, at their respective Principal Amount Outstanding, of the Senior Class A Notes, until fully redeemed, (ii) *secondly*, towards redemption, at their respective Principal Amount Outstanding, of the Mezzanine Class B Notes, until fully redeemed, (iii) *thirdly*, towards redemption, at their respective Principal Amount Outstanding, of the Mezzanine Class C Notes, until fully redeemed, and (iv) *fourthly*, towards redemption, at their respective Principal Amount Outstanding, of the Junior Class D Notes, until fully redeemed.

However, on the First Optional Redemption Date and each Quarterly Payment Date thereafter until the delivery of an Enforcement Notice the Notes Redemption Available Amounts will be applied, *pari passu* and pro rata, towards redemption of each Class of Notes (other than the Subordinated Class E Notes), at their respective Principal Amount Outstanding (the "**Pro Rata Amortisation**"), subject to and in accordance with the Pro Rata Amortisation Priority of Payments, provided that on such Quarterly Payment Date (i) the aggregate Principal Amount Outstanding of the Notes (other than the Senior Class A Notes) relative to the aggregate Principal Amount Outstanding of the Senior Class A notes at that point in time is at least 2.5 times the aggregate Principal Amount Outstanding of the Notes (other than the Senior Class A Notes) relative to the aggregate Principal Amount Outstanding of the Senior Class A Notes at the Closing Date, (ii) there are no balances standing to the debit of the Principal Deficiency Ledger, (as defined below), (iii) the balance standing to the credit of the Reserve Account equals the Reserve Account Target Level (both as defined below) and (iv) the aggregate principal amount outstanding under the Portfolio Mortgage Loans that are in arrears for more than sixty (60) days (i.e. sixty (60) days (or more) delinquent loans) does not exceed 3.0 per cent. of the aggregate principal amount outstanding under all Portfolio Mortgage Loans (collectively the "**Pro Rata Amortisation Criteria**").

Payment of principal on the Subordinated Class E Notes will be made subject to and in accordance with the Conditions and the applicable priority of payments on each Quarterly Payment Date to the extent Notes Interest Available Amounts are available in accordance with the Interest Priority of Payments as set forth in the Trust Deed (as defined below).

**Optional
Redemption
of the Notes:**

The Issuer may (but is not obliged to) redeem, all (but not only some of) the Notes (other than the Subordinated Class E Notes) on the First Optional Redemption Date and on each Quarterly Payment Date thereafter (each an "**Optional Redemption Date**") at their Principal Amount Outstanding (as defined in Condition 6) plus accrued but unpaid interest thereon, less in the case of the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes an amount equal to the balance on the relevant sub-ledger of the Principal Deficiency Ledger divided by the number of Notes outstanding in the relevant Class of Notes, all subject to and in accordance with the Conditions.

**Redemption
following**

Seller Clean-up Call: In addition, on each Quarterly Payment Date following the exercise by the Seller of its Seller Clean-up Call Option (as defined below), the Issuer shall redeem all (but not only

some of) the Notes (other than the Subordinated Class E Notes) at their Principal Amount Outstanding plus accrued but unpaid interest thereon, less in the case of the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes an amount equal to the balance on the relevant sub-ledger of the Principal Deficiency Ledger divided by the number of Notes outstanding in the relevant Class of Notes, all subject to and in accordance with the Conditions.

**Redemption
following
regulatory call:**

On each Quarterly Payment Date the Seller has the option but not the obligation to repurchase the Mortgage Receivables upon the occurrence of a Regulatory Change (as defined in Condition 6 (g)) (the "**Regulatory Call Option**").

The Issuer has undertaken in the Mortgage Receivables Purchase Agreement to sell and assign the Mortgage Receivables to the Seller, or any third party appointed by the Seller at its sole discretion, in the event that the Seller exercises the Regulatory Call Option. The Initial Purchase Price will be equal to the outstanding principal amount of the Mortgage Receivables. If the Seller exercises the Regulatory Call Option, then the Issuer shall redeem all (but not only some of) the Notes (other than the Subordinated Class E Notes) plus accrued but unpaid interest thereon, less in the case of the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes an amount equal to the balance on the relevant sub-ledger of the Principal Deficiency Ledger divided by the number of Notes outstanding in the relevant Class of Notes, all subject to and in accordance with the Conditions. See *Credit Structure* below.

**Redemption
for tax
reasons:**

The Issuer may (but is not obliged to) redeem all (but not only some of) the Notes (other than the Subordinated Class E Notes) plus accrued but unpaid interest thereon, less in the case of the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes an amount equal to the balance on the relevant sub-ledger of the Principal Deficiency Ledger divided by the number of Notes outstanding in the relevant Class of Notes, all subject to and in accordance with the Conditions, if (a) the Issuer or the Paying Agent has become or would become obligated to make any withholding or deduction from payments in respect of any of the Notes (although the Issuer will not have any obligation to pay additional amounts in respect of any such withholding or deduction) and/or (b) the Issuer has become or would become subject to any limitation of the deductibility of interest on any of the Notes, as a result of (i) a change in any laws, rules or regulations or in the interpretation or administration thereof, or (ii) any act taken by any taxing authority on or after the issue date of the Notes.

Method of**Payment:**

For so long as the Notes are represented by a Global Note, payments of principal and interest will be made in euro to a common safekeeper for Euroclear and Clearstream, Luxembourg, for the credit of the respective accounts of the Noteholders.

Withholding**tax:**

All payments of, or in respect of, principal of and interest on the Notes will be made without withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or charges are required by law. In that event, the Issuer or the Paying Agent (as applicable) will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not be obliged to pay any additional amounts to such Noteholders.

Use of proceeds:

The Issuer will apply the proceeds from the issue of the Notes (other than the Subordinated Class E Notes) towards payment of the Initial Purchase Price for the Mortgage Receivables (both as described below) purchased by the Issuer on the Closing Date pursuant to the provisions of an agreement (the "**Mortgage Receivables Purchase Agreement**") to be entered into on 15 December 2008 (the "**Signing Date**") and made between the Seller, the Issuer and the Security Trustee. See further *Mortgage Receivables Purchase Agreement* below.

The proceeds from the issue of the Subordinated Class E Notes will be used to fund the Reserve Account (as defined below).

**Security for
the Notes:**

The Noteholders will benefit from the security created by the Issuer in favour of the Security Trustee pursuant to the trust deed entered into on the Signing Date between the Issuer, the Security Trustee and Stichting Holding Convent 2008-I (the "**Trust Deed**") and the Pledge Agreements (as defined in *Description of Security* below) (together with the Trust Deed, the "**Security Documents**").

Under the Trust Deed, the Issuer will undertake to pay to the Security Trustee, under the same terms and conditions, an amount equal to the aggregate of all its undertakings, liabilities and obligations to the Notes Purchaser as initial Noteholder, the Directors, the MPT Provider, the Issuer Administrator, the Paying Agent, the Reference Agent, the Noteholders and the Seller (the "**Security Beneficiaries**") pursuant to the relevant Transaction Documents, provided that every payment in respect of such Transaction Documents for the account of or made to the Security Beneficiaries directly

shall operate in satisfaction pro tanto of the corresponding covenant in favour of the Security Trustee (such a payment undertaking and the obligations and liabilities resulting from it being referred to as the "**Parallel Covenant**").

The Notes will be secured indirectly, through the Security Trustee, by (i) a first ranking pledge granted by the Issuer to the Security Trustee over the Mortgage Receivables, including all rights ancillary thereto in respect of the Portfolio Mortgage Loans (as defined below) and the Beneficiary Rights (as defined below), and (ii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the MPT Agreement, the Floating Rate GIC, the Beneficiary Waiver Agreement, and in respect of the Issuer Accounts (as defined below).

The amounts payable by the Security Trustee to the Security Beneficiaries under the Trust Deed will be limited to the net amounts available for such purpose to the Security Trustee which, for the greater part, will consist of amounts recovered by the Security Trustee from the Mortgage Receivables. Payments to the Security Beneficiaries will be made in accordance with the Post-Enforcement Priority of Payments (as defined in *Credit Structure* below). See for a more detailed description *Description of Security* below.

MORTGAGE RECEIVABLES AND PRINCIPAL CONTRACTS:

Mortgage

Receivables:

Under the Mortgage Receivables Purchase Agreement, the Issuer will purchase and accept the assignment of any and all rights and claims (the "**Mortgage Receivables**", which term for the avoidance of doubt will include upon purchase thereof any Further Advance Receivables, Replacement Receivables and Replenishment Receivables) of the Seller against certain borrowers (the "**Borrowers**") under or in connection with certain mortgage loans (which may consist of one or more loan parts (*leningdelen*)) originated by the Seller and secured by a right of mortgage (*hypotheekrecht*) (each such right of mortgage a "**Mortgage**" and each such loan a "**Mortgage Loan**"). The Mortgage Receivables relating to Life Mortgage Loans (as defined below) will hereinafter be referred to as the "**Life Mortgage Receivables**". The Seller has the benefit of Beneficiary Rights which entitles the Seller to receive final payment under the relevant Insurance Policies, which payment is to be applied towards repayment of the Mortgage Receivables. Under the Mortgage Receivables Purchase Agreement, the Seller will assign such Beneficiary Rights to the Issuer and the Issuer will accept such assignment.

On the Closing Date the Seller will sell and assign to the Issuer and the Issuer will purchase and accept assignment of the Mortgage Receivables resulting from the

Portfolio Mortgage Loans forming part of the Initial Portfolio together with the Beneficiary Rights relating thereto. The Issuer will at the same time create a first right of pledge on such Mortgage Receivables and the Beneficiary rights relating thereto in favour of the Security Trustee.

**Further Advance
Receivables:**

The Mortgage Receivables are secured by Mortgages that will also secure any further advances to be granted by the Seller to the relevant Borrower, subject to the terms and conditions of the relevant Mortgage Loan (the "**Mortgage Conditions**") where further advances include (i) a withdrawal of monies under a Mortgage Loan which was not previously disbursed and which is secured by the same Mortgage as the loan which was previously disbursed under such Mortgage Loan (*verhoogde inschrijving*) and (ii) withdrawals of monies which were previously repaid to repay the Mortgage Receivables (*heropname*) ((i) and (ii) hereinafter collectively defined a "**Further Advance**"). The Mortgage Receivables Purchase Agreement provides that as from the Closing Date up to and including the Quarterly Payment Date immediately preceding the First Optional Redemption Date, if, subject to the Mortgage Conditions the Seller has agreed with a Borrower to grant a Further Advance, the Issuer will on the next succeeding Quarterly Payment Date apply the Notes Principal Available Amounts (excluding item (iv) thereof), up to a maximum amount equal to the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (as defined below) (if any) and less the amounts applied towards payment of the Initial Purchase Price of any Replacement Receivables to purchase the mortgage receivables resulting from the granting of such Further Advance (the "**Further Advance Receivables**") and the Beneficiary Rights relating thereto provided, however, that the Mortgage Loan Criteria and the Further Advance Criteria are met (as described under *Mortgage Receivables Purchase Agreement* below).

When a Further Advance is granted to the relevant Borrower and the Issuer purchases and accepts assignment of the relevant Further Advance Receivable and the Beneficiary Rights relating thereto, the Issuer will at the same time create a first right of pledge on such Further Advance Receivable and Beneficiary Rights relating thereto in favour of the Security Trustee.

If, *inter alia*, (i) the Further Advance Receivables do not meet the Further Advance Criteria or (ii) the Issuer does not have sufficient funds available for payment of the Initial Purchase Price for the Further Advance Receivables, the Seller shall repurchase and accept the re-assignment of the Mortgage Receivables resulting from the Portfolio Mortgage Loan in respect of which a Further Advance is granted.

**Replacement
Receivables:**

The Mortgage Receivables Purchase Agreement provides that if (i) any of the representations and warranties relating to the Portfolio Mortgage Loans and the Mortgage Receivables proves to have been untrue or incorrect, (ii) in respect of any Further Advance Receivables, the Mortgage Loan Criteria and/or the Further Advance Criteria are not met, or (iii) any Portfolio Mortgage Loan no longer meets the Mortgage Loan Criteria as a result of an amendment of the terms of the Portfolio Mortgage Loan, unless such amendment is made as part of the enforcement procedures or is otherwise made as part of a restructuring or renegotiation of the relevant Portfolio Mortgage Loan due to a deterioration of the credit quality of the relevant Borrower, the Seller shall, if such matter is not capable of being remedied or is not remedied, at the Seller's expense, repurchase and accept re-assignment of the relevant Mortgage Receivable for a price equal to the outstanding principal amount of such Mortgage Receivable together with interest accrued up to but excluding the date of repurchase and re-assignment (each such amount (exclusive of the interest amount and any costs) a "**Replacement Available Amount**"). From the Closing Date up to and including the Quarterly Payment Date immediately preceding the First Optional Redemption Date, the Issuer will on the Quarterly Payment Date immediately following the date of repurchase apply the Notes Principal Available Amounts (excluding item (iv) thereof) up to a maximum amount equal to the lesser of (i) the aggregate Replacement Available Amounts and (ii) the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (if any), to purchase and accept assignment from the Seller any additional mortgage receivables ("**Replacement Receivables**") and the Beneficiary Rights relating thereto, subject to the fulfilment of certain conditions and to the extent offered by the Seller. Such conditions include, *inter alia*, the requirement that any Replacement Receivables should meet the Mortgage Loan Criteria (as defined below) set forth in the Mortgage Receivables Purchase Agreement, and that the purchase of such Replacement Receivables does not adversely affect the then current rating of the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes) by the Rating Agency (see *Mortgage Receivables Purchase Agreement*).

When the Issuer purchases and accepts assignment of the relevant Replacement Receivable and the Beneficiary Rights relating thereto, the Issuer will at the same time create a first right of pledge on such Replacement Receivable and Beneficiary Rights relating thereto in favour of the Security Trustee.

**Replenishment
Receivables:**

The Mortgage Receivables Purchase Agreement provides that as from the Closing Date up to and including the Quarterly Payment Date falling in January 2012, the Issuer will on each Quarterly Payment Date apply the Notes Principal Available Amounts (excluding item (iv) thereof), up to a maximum amount equal to the Notes Principal

Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (if any) and less the amounts applied towards payment of the Initial Purchase Price of the Further Advance Receivables and/or Replacement Receivables (if any), to purchase any additional mortgage receivables from the Seller ("**Replenishment Receivables**") and the Beneficiary Rights relating thereto, subject to the fulfilment of certain conditions and to the extent offered by the Seller. Such conditions include, *inter alia*, the requirement that any Replenishment Receivables should meet the Mortgage Loan Criteria set forth in the Mortgage Receivables Purchase Agreement, that the Replenishment Criteria are met and that the purchase of such Replenishment Receivables does not adversely affect the then current rating of the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes) by the Rating Agency (see *Mortgage Receivables Purchase Agreement*). For the avoidance of doubt, the Seller will not be obliged to make such offer.

When the Issuer purchases and accepts assignment of a Replenishment Receivable and any Beneficiary Rights relating thereto, the Issuer will at the same time create a first right of pledge on such Replenishment Receivable and Beneficiary Rights relating thereto in favour of the Security Trustee.

**Mandatory
repurchase of
Mortgage
Receivables:**

In the Mortgage Receivables Purchase Agreement the Seller has undertaken to repurchase and accept re-assignment of a Mortgage Receivable:

- (i) promptly following the expiration of the relevant remedy period (if any), if any of the representations and warranties given by the Seller in respect of the relevant Portfolio Mortgage Loan and/or the relevant Mortgage Receivable, including the representation and warranty that the Portfolio Mortgage Loan or, as the case may be, the Mortgage Receivable meets the Mortgage Loan Criteria, proves to have been untrue or incorrect;
- (ii) on the Quarterly Payment Date immediately following the date on which the Seller agrees with a Borrower to grant a Further Advance under the relevant Portfolio Mortgage Loan, *inter alia*, if and to the extent that (a) the Further Advance Receivables do not meet the Further Advance Criteria or (b) no sufficient funds are available at the Issuer for payment of the Initial Purchase Price of the relevant Further Advance Receivables;
- (iii) on the first Business Day of the calendar month immediately following the date on which the Seller agrees with a Borrower to amend the terms of the Portfolio Mortgage Loan and as a result thereof such Portfolio Mortgage Loan no longer meets certain criteria set forth in the Mortgage Receivables Purchase Agreement and/or the MPT Agreement, unless such amendment is made as

- part of the enforcement procedures to be complied with upon a default by the Borrower under the relevant Portfolio Mortgage Loan or is otherwise made as part of a restructuring or renegotiation of the relevant Portfolio Mortgage Loan due to a deterioration of the credit quality of the Borrower of such Portfolio Mortgage Loan; and
- (iv) within fourteen (14) days immediately following the expiration of a fixed interest rate period (*rentevastperiode*) if the Seller agrees with a Borrower upon expiration of such fixed interest rate period (*rentevastperiode*) relating to the relevant Portfolio Mortgage Loan (i) to set the fixed interest rate for the next succeeding fixed interest rate period (*rentevastperiode*) at a fixed interest rate lower than 4.5 per cent. per annum or (ii) to change the fixed interest rate payable on the relevant Portfolio Mortgage Loan into a floating interest rate.

In addition, if on a Notes Calculation Date the aggregate outstanding principal amount under the Portfolio Mortgage Loan is less than 10 per cent. of the aggregate principal amount of the Mortgage Receivables outstanding on the Closing Date the Seller may at its option (the "**Seller Clean-up Call Option**") (but without any obligation to do so) on each Quarterly Payment Date succeeding such Notes Calculation Date, repurchase and accept re-assignment of all (but not part of) the Mortgage Receivables then outstanding together with the Beneficiary Rights relating thereto. The purchase price will be calculated as described in *Sale of Mortgage Receivables* below.

Portfolio Mortgage Loans:

The Mortgage Receivables to be sold by the Seller pursuant to the Mortgage Receivables Purchase Agreement will relate to Mortgage Loans secured by a first, or first and sequentially lower, ranking Mortgage over (i) real estate (*onroerende zaak*), (ii) an apartment right (*appartementsrecht*) on real property, or (iii) a long lease (*recht van erfpacht*) (each such asset, a "**Mortgaged Asset**") situated in the Netherlands and entered into by the Seller and the relevant Borrowers which meet the criteria for such Mortgage Loans set forth in the Mortgage Receivables Purchase Agreement (the "**Portfolio Mortgage Loans**"). The Portfolio Mortgage Loans, in whole or in part, will consist of (i) Interest-only Mortgage Loans (*aflossingsvrije hypotheken*), (ii) Annuity Mortgage Loans (*annuïteitenhypotheken*), or (iii) Life Mortgage Loans (*levenhypotheken*) (all as defined below). See further *Description of Portfolio Mortgage Loans* below.

Each Portfolio Mortgage Loan may further have the benefit of a risk insurance policy (i.e. an insurance policy which pays out upon the death of the insured) (a "**Risk Insurance Policy**") taken out by the Borrower with an insurance company established in the Netherlands (each insurance company so selected an "**Insurance Company**") in the event and to the extent the relevant Portfolio Mortgage Loan exceeds 90 per cent. of the

foreclosure value (*executiewaarde*). In the case of Portfolio Mortgage Loans consisting of more than one loan part including a Life Mortgage Loan, such Risk Insurance Policy will be included in the relevant Life Insurance Policy (as defined below).

Interest-only

Mortgage Loans:

A portion of the Portfolio Mortgage Loans or parts thereof will be in the form of interest-only mortgage loans (hereinafter "**Interest-only Mortgage Loans**"). Under an Interest-only Mortgage Loan, the Borrower is not obliged to pay principal towards repayment of the relevant Mortgage Receivables (or relevant part thereof) until the earlier of maturity or death of the Borrower. Interest is payable monthly and is calculated on the outstanding balance of the Mortgage Loan (or relevant part thereof).

Annuity Mortgage

Loans:

A portion of the Portfolio Mortgage Loans or parts thereof will be in the form of annuity mortgage loans (hereinafter "**Annuity Mortgage Loans**"). Under an Annuity Mortgage Loan, the Borrower pays a fixed monthly instalment, made up of an initially high and thereafter decreasing interest portion and an initially low and thereafter increasing principal portion, and calculated in such manner that the Annuity Mortgage Loan will be fully redeemed at maturity.

Life Mortgage

Loans:

A portion of the Portfolio Mortgage Loans or parts thereof will be in the form of life mortgage loans (hereinafter "**Life Mortgage Loans**"). Such Mortgage Loans have the benefit of insurance policies combining a risk insurance and a capital insurance (i.e. insurance policies that pay out upon the earlier of the death of the insured and the agreed date) taken out by a Borrower with an Insurance Company in connection with a Life Mortgage Loan ("**Life Insurance Policies**"). Under a Life Mortgage Loan, no principal is paid until maturity but instead the Borrower pays a premium to the relevant Insurance Company on a monthly basis. The premiums paid by such Borrower are invested by the relevant Insurance Company in certain investment funds. It is the intention that a Life Mortgage Loan will be fully repaid by means of the proceeds of the relevant Life Insurance Policy. See for more detail *Risk Factors* and *Description of Portfolio Mortgage Loans*.

Sale of Mortgage

Receivables:

On the First Optional Redemption Date and any subsequent Optional Redemption Date the Issuer has the right to sell and assign all (but not only part of) the Mortgage Receivables to any party. The purchase price of a Mortgage Receivable shall be at least equal to the outstanding principal amount of such Mortgage Receivable, together with accrued interest due but unpaid and any other amount due under the relevant Portfolio

Mortgage Loan, except that, with respect to Mortgage Receivables which are in arrears for a period exceeding 90 days or in respect of which an instruction has been given to the civil law notary to start foreclosure proceedings, the purchase price shall be the lesser of (i) an amount equal to the foreclosure value of the Mortgaged Asset or, if no valuation report less than twelve (12) months old is available, the Indexed Foreclosure Value, or (ii) the sum of the outstanding principal amount together with accrued interest due but unpaid and any other amount due under the relevant Portfolio Mortgage Loan. The Issuer shall be required to apply the proceeds of such sale, to the extent relating to principal, towards redemption of the Notes (other than the Subordinated Class E Notes). For these purposes "**Indexed Foreclosure Value**" means the foreclosure value of such Mortgaged Asset as determined upon origination of the relevant Portfolio Mortgage Loan multiplied by the ratio of (i) the average housing price at the date on which the purchase price of such Mortgaged Asset is determined, over (ii) the average housing price at the time of origination of such Mortgaged Asset, as published by the Dutch Association of Real Estate Brokers and Immovable Property Experts (*Nederlandse Vereniging van Makelaars en vastgoeddeskundigen (NVM)*).

MPT

Agreement:

Under a mortgage payment transaction provider agreement to be entered into on the Signing Date between the Issuer, the MPT Provider and the Security Trustee (the "**MPT Agreement**"), the MPT Provider will agree to provide administration and management services in relation to the Portfolio Mortgage Loans on a day-to-day basis, including, without limitation, the collection of payments of principal, interest and all other amounts in respect of the Portfolio Mortgage Loans and the implementation of arrears procedures including, if applicable, the enforcement of Mortgages (see further *Mortgage Loan Underwriting and Servicing* and *MPT Agreement and Issuer Administration Agreement* below).

Issuer

Administration

Agreement:

Under an administration agreement to be entered into on the Signing Date between the Issuer, the Issuer Administrator and the Security Trustee (the "**Issuer Administration Agreement**"), the Issuer Administrator will agree to provide certain administration, calculation and cash management services for the Issuer on a day-to-day basis, including without limitation, all calculations to be made in respect of the Notes pursuant to the Conditions (see further *MPT Agreement and Issuer Administration Agreement* below).

Management

Agreements:

The Issuer, Stichting Holding Convent 2008-I and the Security Trustee will each enter into a management agreement (together the "**Management Agreements**") with the

relevant Director in which the relevant Director will undertake to act as a director of the Issuer, Stichting Holding Convent 2008-I and, the Security Trustee, respectively, and to perform certain services in connection therewith.

Security Beneficiaries

Agreement: Under a security beneficiaries agreement to be entered into on the Signing Date between the Issuer and each Security Beneficiary (excluding the Noteholders other than the initial Noteholders) (the "**Security Beneficiaries Agreement**") each Security Beneficiary agrees and confirms that the security provided pursuant to the provisions of the Security Documents shall, indirectly, through the Security Trustee, be for the exclusive benefit of the Security Beneficiaries (including for the avoidance of doubt, the Noteholders). Under the Security Beneficiaries Agreement each Security Beneficiary moreover agrees to be bound by the relevant terms and provisions of the Trust Deed including, but not limited to, the limited recourse and non-petition provisions contained therein.

CASH FLOW STRUCTURE:

Transaction

Account: The Issuer shall maintain with the Floating Rate GIC Provider an account (the "**Transaction Account**") to which, *inter alia*, (i) an amount will be credited equal to the net proceeds of the Notes (other than the Subordinated Class E Notes) less the Initial Purchase Price for the Mortgage Receivables purchased by the Issuer on the Closing Date and (ii) all amounts of interest, prepayment penalties and principal received under the Mortgage Receivables will be transferred by the MPT Provider in accordance with the MPT Agreement.

Reserve

Account: The Issuer shall maintain with the Floating Rate GIC Provider an account (the "**Reserve Account**") to which the proceeds of the Subordinated Class E Notes will be credited on the Closing Date. The purpose of the Reserve Account will be to enable the Issuer to meet the Issuer's payment obligations under items (a) up to and including (k) of the Interest Priority of Payments (as defined below) in the event of a shortfall of the Notes Interest Available Amounts on any Quarterly Payment Date. If and to the extent that the Notes Interest Available Amounts calculated on any Notes Calculation Date exceed the amounts required to meet items (a) up to and including (k) of the Interest Priority of Payments, such excess amount will be used to deposit on the Reserve Account or, as the case may be, to replenish the Reserve Account by crediting such amount to the Reserve Account up to the Reserve Account Target Level (as defined below) on the immediately succeeding Quarterly Payment Date. See *Credit Structure* below.

Floating Rate

GIC:

The Issuer, the Floating Rate GIC Provider and the Security Trustee will enter into a guaranteed investment contract (the "**Floating Rate GIC**"), whereunder the Floating Rate GIC Provider will agree to pay a guaranteed rate of interest determined by reference to one-month Euribor on the balance standing from time to time to the credit of the Transaction Account and the Reserve Account (such accounts being collectively referred to as the "**Issuer Accounts**").

Structure

Diagram:

The transaction set out in this Offering Circular can largely be depicted as follows:

CREDIT STRUCTURE

The structure of the credit arrangements for the proposed issue of the Notes may be summarised as follows.

Use of Proceeds

The Issuer will use the net proceeds from the issue of the Notes (other than the Subordinated Class E Notes) to pay the Initial Purchase Price for the Mortgage Receivables purchased by the Issuer on the Closing Date and to deposit the remaining amount into the Transaction Account. The net proceeds from the issue of the Subordinated Class E Notes will be used to fund the Reserve Account.

Mortgage Loan Interest Rates

The Portfolio Mortgage Loans pay interest on a fixed rate basis, subject to a reset from time to time. On the Provisional Pool Cut-Off Date (as defined below), the weighted average interest rate of the Mortgage Loans forming part of the Provisional Pool (as defined below) amounted to 4.84 per cent. The remaining weighted average interest reset period is 7.68 years. Interest rates vary among individual Portfolio Mortgage Loans. The range of interest rates is described further in *Description of Portfolio Mortgage Loans* below.

Cash Collection Arrangements

All payments by the Borrowers of interest and scheduled principal under the Portfolio Mortgage Loans are due on the first day of each calendar month, interest being payable in arrear. Until notification of assignment of the Mortgage Receivables has been made, all payments made by Borrowers will be paid into the relevant bank accounts maintained by the Seller (collectively the "**Collection Accounts**"). On the Closing Date the balances on these accounts are not pledged to any party, other than to the banks at which the accounts are established pursuant to the applicable general terms and conditions. The Collection Accounts will also be used for the collection of monies paid in respect of mortgages other than Portfolio Mortgage Loans and in respect of other monies belonging to the Seller.

On the first, second and third Business Day of each calendar month, the Seller shall transfer (or procure that the MPT Provider transfers on its behalf) all amounts of principal, interest, interest penalties, prepayment penalties and other amounts received by the Seller in respect of the Portfolio Mortgage Loans and paid to the Collection Accounts on or prior to such third Business Day to the Transaction Account. Thereafter and until the last Business Day of the relevant calendar month the Seller shall transfer (or procure that the MPT Provider transfers on its behalf) all amounts of principal, interest, interest penalties, prepayment penalties and other amounts received by the Seller in respect of the Portfolio Mortgage Loans and paid to the Collection Accounts to the Transaction Account on the Business Day on which the aggregate balance standing to the credit of the Collection Accounts, to the extent such balance relates to payments (including principal) made in respect of the Portfolio Mortgage Loans, exceeds € 100,000. Following an Assignment Notification Event as described under *Mortgage Receivables Purchase Agreement* below, the Borrowers are required to pay all amounts due by them under the relevant Portfolio Mortgage Loans directly to the Transaction Account.

Issuer Accounts

Transaction Account

The Issuer will maintain with the Floating Rate GIC Provider the Transaction Account to which (i) on the Closing Date an amount will be credited equal to the net proceeds of the Notes (other than the Subordinated Class E Notes) less the Initial Purchase Price for the Mortgage Receivables purchased by the Issuer on the Closing Date and (ii) all amounts received in respect of the Portfolio Mortgage Loans will be paid. The Issuer Administrator will identify all amounts paid into the Transaction Account. Payments received by the Issuer in respect of the Portfolio Mortgage Loans will be identified as principal, interest or other revenue receipts.

Reserve Account

The Issuer will maintain with the Floating Rate GIC Provider the Reserve Account. The proceeds of the issue of Subordinated Class E Notes will be credited to the Reserve Account on the Closing Date.

Amounts credited to the Reserve Account will be available for drawing on any Quarterly Payment Date to meet items (a) up to and including (k) of the Interest Priority of Payments (see under *Priority of Payments in respect of interest (prior to Enforcement Notice)* below), in the event the Notes Interest Available Amounts are insufficient to meet such items in full.

If and to the extent that the Notes Interest Available Amounts calculated on any Notes Calculation Date (as defined below) exceed the amounts required to meet items (a) up to and including (k) in the Interest Priority of Payments, the excess amount will be deposited into the Reserve Account or, as the case may be, applied to replenish the Reserve Account, to the extent required until the balance standing to the credit of the Reserve Account equals the Reserve Account Target Level.

For this purpose "**Reserve Account Target Level**" means 1.5 per cent. of the aggregate Principal Amount Outstanding of the Notes (other than the Subordinated Class E Notes) on the Closing Date provided that, on each Notes Calculation Date falling on or after the first Quarterly Payment Date on which the balance standing to the credit of the Reserve Account is equal to or greater than 3.0 per cent. of the then Principal Amount Outstanding of the Notes (other than the Subordinated Class E Notes) (the "**Reserve Account Determination Date**" and the "**Reserve Account Maximum Percentage**", respectively) and if in respect of the Notes:

- (a) the balance of the Principal Deficiency Ledger is zero;
- (b) the balance standing to the credit of the Reserve Account is equal to or greater than the Reserve Account Target Level as of the relevant Reserve Account Determination Date;
- (c) the total balance of all Portfolio Mortgage Loans which are sixty (60) days or more in arrears (including, for the avoidance of doubt, any Portfolio Mortgage Loans in respect of which enforcement procedures have commenced and the Mortgaged Asset in respect of that Portfolio Mortgage Loan has not been sold) does not exceed 10.00 per cent. of the total balance of all the Portfolio Mortgage Loans;

- (d) the total balance of all Portfolio Mortgage Loans foreclosed does not exceed 2.50 per cent. of the original principal balance outstanding of the Initial Portfolio as at the Closing Date; and
- (e) the total losses suffered by the Issuer from the Closing Date until the relevant Reserve Account Determination Date are lower than 1.00 per cent. of the original principal balance outstanding of the Initial Portfolio as at the Closing Date,

then the Reserve Account Target Level will be reduced to an amount equal, on such Reserve Account Determination Date, to the greater of 0.75 per cent. of the aggregate Principal Amount Outstanding of the Notes (other than the Subordinated Class E Notes) as at the Closing Date and 3.0 per cent. of the then aggregate Principal Amount Outstanding of the Notes (other than the Subordinated Class E Notes).

To the extent that the balance standing to the credit of the Reserve Account on any Notes Calculation Date exceeds the Reserve Account Target Level, such excess will be drawn from the Reserve Account on the immediately succeeding Quarterly Payment Date and be deposited in the Transaction Account to form part of the Notes Interest Available Amounts on such Quarterly Payment Date and be applied in accordance with the Interest Priority of Payments.

If on any Notes Calculation Date all amounts of interest and principal due in respect of the Notes, except for principal in respect of the Subordinated Class E Notes, have been paid on the Quarterly Payment Date immediately preceding such Notes Calculation Date or will be available for payment on the Quarterly Payment Date immediately following such Notes Calculation Date, the Reserve Account Target Level will be reduced to zero and any amount standing to the credit of the Reserve Account will thereafter form part of the Notes Interest Available Amounts and will be available to redeem or partially redeem the Subordinated Class E Notes until fully redeemed and thereafter towards satisfaction of the Deferred Purchase Price (as defined in *Mortgage Receivables Purchase Agreement* below) to the Seller.

Rating of the Floating Rate GIC Provider

If at any time (i) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Floating Rate GIC Provider, are assigned a rating of less than A-1 by the Rating Agency, or if such rating is withdrawn, the Issuer and/or the Issuer Administrator on its behalf will be required within thirty (30) days of any such event (i) to transfer the balance on all such Issuer Accounts to an alternative bank with the required minimum ratings or (ii) to procure that a third party, having at least the required ratings, guarantees the obligations of the Floating Rate GIC Provider, or (iii) to find another solution acceptable to the Rating Agency in order to maintain the then current ratings assigned to the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes).

Priority of Payments in respect of interest (prior to Enforcement Notice)

The "**Notes Interest Available Amounts**") will consist of the sum of the following amounts, calculated as at each Notes Calculation Date as being received during the Notes Calculation Period (as defined in the Conditions) immediately preceding such Notes Calculation Date:

- (ii) interest credited to the Issuer Accounts;
- (iii) prepayment penalties and penalty interest (*boeterente*) in respect of the Mortgage Receivables;

- (vii) amounts received as post-foreclosure proceeds on the Mortgage Receivables;
- (viii) the Interest Shortfall Amount (if any); and

Prior to the delivery of an Enforcement Notice by the Security Trustee, the Notes Interest Available Amounts, calculated as at each Notes Calculation Date, will, pursuant to the terms of the Trust Deed, be applied by the Issuer on the immediately succeeding Quarterly Payment Date as follows (in each case only if and to the extent that payments of a higher order of priority have been made in full) (the "**Interest Priority of Payments**"):

- (a) *First*, in or towards satisfaction, pro rata, according to the respective amounts thereof, (i) of the fees or other remuneration due and payable to the Directors in connection with the Management Agreements, (ii) of the fees or other remuneration and indemnity payments (if any) due and payable to the Security Trustee and any costs, charges, liabilities and expenses incurred by the Security Trustee under or in connection with the relevant Transaction Documents (including the fees and expenses payable to any legal advisors, accountants and auditors appointed by the Security Trustee), (iii) of the amounts due and

payable to the Rating Agency and (iv) by retaining 25 per cent. of the higher of (a) € 2,500 or (b) an amount equal to 10 per cent. of the amount due and payable per annum by the Issuer to its Director, pursuant to item (i) above, representing taxable income for corporate income tax purposes in the Netherlands;

- (c) *Third*, in or towards satisfaction, pro rata, according to the respective amounts thereof, of (i) the amounts due and payable to third parties under obligations incurred in the Issuer's business (other than under the relevant Transaction Documents), including, without limitation, in or towards satisfaction of amounts or provisions for any payment of the Issuer's liability, if any, to tax, and (ii) the fees and expenses due and payable to any legal advisors, accountants and auditors appointed by the Issuer;
- (d) *Fourth*, in or towards satisfaction of the amounts of interest due or accrued due but unpaid in respect of the Senior Class A Notes;
- (e) *Fifth*, in or towards making good any shortfall reflected in the Class A Principal Deficiency Ledger (as defined below) until the debit balance, if any, on the Class A Principal Deficiency Ledger is reduced to zero;
- (f) *Sixth*, in or towards satisfaction of the amounts of interest due or accrued due but unpaid in respect of the Mezzanine Class B Notes;

- (o) *Fifteenth*, in or towards satisfaction of the Deferred Purchase Price to the Seller pursuant to the Mortgage Receivables Purchase Agreement.

Any amount due and payable to third parties (other than pursuant to any of the Transaction Documents), under obligations incurred in the Issuer's business at a date which is not a Quarterly Payment Date, may be made on such date by the Issuer from the Transaction Account to the extent that the funds available on the Transaction Account are sufficient to make such payment.

Priority of Payments in respect of principal (prior to Enforcement Notice and introduction of Pro Rata Amortisation)

The "**Notes Principal Available Amounts**" will consist of the sum of the following amounts, calculated as at each Notes Calculation Date as being received during the Notes Calculation Period (as defined in the Conditions) immediately preceding such Notes Calculation Date:

- (i) repayment and prepayment (partial or in full) of principal under the Mortgage Receivables, from any person, whether by set-off or otherwise, but, for the avoidance of doubt, excluding prepayment penalties, if any;
- (ii) Net Proceeds (as defined below) in respect of any Mortgage Receivables, to the extent such proceeds relate to principal;
- (iii) amounts received in connection with a repurchase or sale of Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement or the Trust Deed, as the case may be, or any other amounts received pursuant to the Mortgage Receivables Purchase Agreement to the extent such amounts relate to principal;
- (iv) amounts to be credited to the Principal Deficiency Ledger on the immediately succeeding Quarterly

Payment Date in accordance with the Issuer Administration Agreement; and

- (v) any part of the Notes Principal Available Amounts calculated on the immediately preceding Notes Calculation Date which has not been applied towards satisfaction of the items set forth in the Principal Priority of Payments or Pro Rata Amortisation Priority of Payments, as the case may be on the immediately preceding Quarterly Payment Date.

Prior to the delivery of an Enforcement Notice by the Security Trustee, the Issuer will, pursuant to the terms of the Mortgage Receivables Purchase Agreement, (i) apply the Notes Principal Available Amounts (excluding item (iv) thereof) up to a maximum amount equal to the lesser of (x) the aggregate Replacement Available Amounts and (y) the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (if any), to purchase any Replacement Receivables, (ii) apply the Notes Principal Available Amounts (excluding item (iv) thereof) up to a maximum amount equal to the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (if any) and less the amounts applied towards payment of the Initial Purchase Price of any Replacement Receivables (if any) to purchase any Further Advance Receivables and (iii) apply the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount and less the amounts applied towards payment of the Initial Purchase Price of any Further Advance Receivables and/or Replacement Receivables (if any) to purchase any Replenishment Receivables.

The "**Notes Redemption Available Amounts**" calculated as at each Notes Calculation Date with respect to the Notes Calculation Period immediately preceding such Notes Calculation Date will be equal to the Notes Principal Available Amounts calculated with respect to such Notes Calculation Period less the sum of:

- (i) the amount of the Notes Principal Available Amounts applied during the relevant Notes Calculation Period towards payment of the Initial Purchase Price for any Further Advance Receivables, Replacement Receivables and/or Replenishment Receivables; and
- (ii) an amount equal to the positive difference, if any, between (A) the sum of all amounts payable by the Issuer as set forth in the Interest Priority of Payments under items (a) up to and including (j) (other than items (e), (g) and (i)) and in respect of item (d) only to the extent that there is no debit balance remaining on the Class A Principal Deficiency Ledger and in respect of item (f) only to the extent there is no debit balance remaining on the Class B Principal Deficiency Ledger and in respect of item (h) only to the extent there is no debit balance remaining on the Class C Principal Deficiency Ledger and in respect of item (j) only to the extent there is no debit balance remaining on the Class D Principal Deficiency Ledger, and (B) the relevant Notes Interest Available Amounts excluding item (viii) thereof, to the extent such amount is available as Notes Principal Available Amounts after deducting the amount applied towards payment of the Initial Purchase Price for any Further Advance Receivables, Replacement Receivables and/or Replenishment Receivables (the "**Interest Shortfall Amount**").

Prior to the delivery of an Enforcement Notice by the Security Trustee and, provided that on the First Optional Redemption Date or any Quarterly Payment Date thereafter the Pro Rata Amortisation Criteria are not fulfilled,

the Notes Redemption Available Amounts, calculated as at each Notes Calculation Date, will, pursuant to the terms of the Trust Deed, be applied by the Issuer on the next succeeding Quarterly Payment Date as follows (and in each case only if and to the extent that payments or provisions of a higher priority have been made in full) (the "**Principal Priority of Payments**"):

- (a) *First*, in or towards satisfaction of principal amounts due on the Senior Class A Notes, until fully redeemed in accordance with the Conditions;
- (b) *Second*, in or towards satisfaction of principal amounts due on the Mezzanine Class B Notes, until fully redeemed in accordance with the Conditions;
- (c) *Third*, in or towards satisfaction of principal amounts due on the Mezzanine Class C Notes, until fully redeemed in accordance with the Conditions;
- (d) *Fourth*, in or towards satisfaction of principal amounts due on the Junior Class D Notes, until fully redeemed in accordance with the Conditions; and
- (e) *Fifth*, in or towards satisfaction of the Deferred Purchase Price to the Seller pursuant to the Mortgage Receivables Purchase Agreement.

Priority of Payments in respect of principal (prior to Enforcement Notice and after introduction of Pro Rata Amortisation)

On and from the First Optional Redemption Date until the delivery of an Enforcement Notice by the Security Trustee and, provided that the Pro Rata Amortisation Criteria are fulfilled, the Notes Redemption Available Amounts, calculated as at each Notes Calculation Date, will, pursuant to the terms of the Trust Deed, be applied by the Issuer on the next succeeding Quarterly Payment Date (and in each case only if and to the extent that payments or provisions of a higher priority have been made in full) (the "**Pro Rata Amortisation Priority of Payments**"):

- (a) *First*, pari passu and pro rata, in or towards satisfaction of principal amounts due on all Classes of Notes (other than the Subordinated Class E Notes), until fully redeemed in accordance with the Conditions; and
- (b) *Second*, in or towards satisfaction of the Deferred Purchase Price due to the Seller pursuant to the Mortgage Receivables Purchase Agreement.

Priority of Payments upon Enforcement

Following delivery of an Enforcement Notice any amounts to be distributed by the Security Trustee under the Trust Deed will be paid to the Security Beneficiaries in the following order of priority (and in each case only if and to the extent that payments of a higher priority have been made in full) (the "**Post-Enforcement Priority of Payments**"):

- (a) *First*, in or towards satisfaction, pro rata, according to the respective amounts thereof, of (i) the fees or other remuneration due and payable to the Directors in connection with the Management Agreements, (ii) the fees or other remuneration and indemnity payments (if any) due and payable to the Security Trustee and any costs, charges, liabilities and expenses incurred by the Security Trustee under or in connection with the relevant Transaction Documents (including the fees and expenses payable to any legal advisors, accountants and auditors appointed by the Security Trustee) and (iii) the amounts due and payable to the Rating Agency;

Allocation of Realised Losses and Principal Deficiency Ledger

A Principal Deficiency Ledger comprising four sub-ledgers, known as the "**Class A Principal Deficiency Ledger**", the "**Class B Principal Deficiency Ledger**", the "**Class C Principal Deficiency Ledger**" and the "**Class D Principal Deficiency Ledger**", respectively, (together the "**Principal Deficiency Ledger**") will be established by or on behalf of the Issuer in order to record (i) any Realised Losses (as defined below) on the Mortgage Receivables and (ii) any Interest Shortfall Amounts (each respectively the "**Class A Principal Deficiency**", the "**Class B Principal Deficiency**", the "**Class C Principal Deficiency**" and the "**Class D Principal Deficiency**", together the "**Principal Deficiency**"). Any Realised Losses and any Interest Shortfall Amount will on the relevant Notes Calculation Date be debited to the respective sub-ledgers of the Principal Deficiency Ledger in the following order: (i) to the Class D Principal Deficiency Ledger (such debit items being credited at item (k) of the Interest Priority of Payments) so long as the debit balance on such sub-ledger is not greater than the Principal Amount Outstanding of the Junior Class D Notes, (ii) to the Class C Principal Deficiency Ledger (such debit items being credited at item (i) of the Interest Priority of Payments) so long as the debit balance on such sub-ledger is not greater than the Principal Amount Outstanding of the Mezzanine Class C Notes, (iii) to the Class B Principal Deficiency Ledger (such debit items being credited at item (g) of the Interest Priority of Payments) so long as the debit balance on such sub-ledger is not greater than the Principal Amount Outstanding of the Mezzanine Class B Notes, and (iv) to the Class A Principal Deficiency Ledger (such debit items being credited at item (e) of the Interest Priority of Payments).

"Realised Losses" means, on any Notes Calculation Date, the sum of:

- (a) the aggregate outstanding principal amount of all Mortgage Receivables on which the Seller, the MPT Provider on behalf of the Issuer or the Security Trustee has foreclosed from the Closing Date up to and including such Notes Calculation Date *minus* the Net Proceeds applied to reduce the outstanding principal amount of such Mortgage Receivables;
- (b) with respect to Mortgage Receivables sold by the Issuer pursuant to the Mortgage Receivables Purchase Agreement or the Trust Deed, the amount of the aggregate outstanding principal amount of all such Mortgage Receivables *minus* the purchase price received, or to be received on the relevant Quarterly Payment Date, in respect of such Mortgage Receivables to the extent relating to principal;
- (c) the payments made by the Issuer to any Borrowers which have successfully claimed any refinancing costs and other damages incurred as a result of the Issuer only offering a 4.5 per cent. fixed rate; and

- (d) amounts received by the Seller in respect of the Portfolio Mortgage Loans after the Seller being declared bankrupt or having become subject to emergency regulations,

whereby, in case of items (a) and (b), for the purpose of establishing the outstanding principal amount of the Mortgage Receivables in case of set-off or defense to payments asserted by Borrowers any amount by which the Mortgage Receivables have been extinguished (*teniet gegaan*) will be disregarded.

"Net Proceeds" means, in relation to a Mortgage Receivable, (i) the proceeds of a foreclosure on the mortgage right securing the relevant Mortgage Receivable, (ii) the proceeds of foreclosure on any other collateral securing the relevant Mortgage Receivable, (iii) the proceeds, if any, of collection of any Insurance Policies or other insurance policies in connection with the relevant Mortgage Receivable, including but not limited to fire insurance, (iv) the proceeds of any guarantees or sureties, and (v) the proceeds of foreclosure on any other assets of the relevant debtor, after deduction of foreclosure costs in respect of such Mortgage Receivable. The term "foreclosure" shall include any lawful manner of generating proceeds from collateral, whether by public auction, by private sale or otherwise.

Interest rate hedging

The interest rate payable by the Issuer in respect of the Notes is 4.0 per cent for the Senior Class A Notes and 1.0 per cent. for each of the other Classes of Notes. The Mortgage Loan Criteria (as defined under Mortgage Receivables Purchase Agreement below) require that all Portfolio Mortgage Loans bear a fixed rate of interest, subject to a reset from time to time. On the Provisional Pool Cut-Off Date, the weighted average interest rate of the Mortgage Loans forming part of the Provisional Pool amounted to 4.84 per cent. The risk that the interest to be received on the Mortgage Receivables is not sufficient to pay the interest on the Notes is hedged by provisions made in the Mortgage Receivables Purchase Agreement, the MPT Agreement and the Issuer Administration Agreement. The Mortgage Receivables Purchase Agreement provides that (A) the Issuer shall only purchase any Replacement Receivables, Further Advance Receivables and Replenishment Receivables following the Closing Date in case the interest rate payable on the relevant Portfolio Mortgage Loan is a fixed interest rate of at least 4.5 per cent. per annum and (B) prior to notification of the assignment to the Borrowers, the Seller will be obliged to repurchase the relevant Mortgage Receivables assigned to the Issuer if it agrees with a Borrower upon expiration of a fixed interest rate period (*rentevastperiode*) relating to the relevant Portfolio Mortgage Loan (i) to set the fixed interest rate for the next succeeding fixed interest rate period (*rentevastperiode*) at a fixed interest rate lower than 4.5 per cent. per annum or (ii) to change the fixed interest rate payable on the relevant Portfolio Mortgage Loan into a floating interest rate. In addition, pursuant to the MPT Agreement and the Issuer Administration Agreement, following notification of the assignment to the Borrowers, the MPT Provider or the Issuer Administrator, as the case may be, acting on behalf of the Issuer, will be obliged to offer the relevant Borrowers upon termination of fixed interest rate period (*rentevastperiode*) only a fixed rate not lower than 4.5 per cent. The positive difference between the fixed rate received on the Mortgage Receivables and the weighted average fixed rate payable by the Issuer on the Notes (the **"Excess Spread"**) will be available for the Issuer to pay (part of) the items set forth in the Interest Priority of Payments.

Sale of Mortgage Receivables

On the First Optional Redemption Date and any subsequent Optional Redemption Date the Issuer has the right to sell and assign all (but not only part of) the Mortgage Receivables to any party. The purchase price of a Mortgage Receivable shall be at least equal to the outstanding principal amount of such Mortgage Receivable, together with accrued interest due but unpaid and any other amount due under the relevant Portfolio Mortgage Loan, except that, with respect to Mortgage Receivables which are in arrears for a period exceeding 90 days or in respect of which an instruction has been given to the civil law notary to start foreclosure proceedings, the purchase price shall be the lesser of (i) an amount equal to the foreclosure value of the Mortgaged Asset or, if no valuation report less than twelve (12) months old is available, the Indexed Foreclosure Value, or (ii) the sum of the outstanding principal amount together with accrued interest due but unpaid and any other amount due under the relevant Portfolio Mortgage Loan. The Issuer shall be required to apply the proceeds of such sale, to the extent relating to principal, towards redemption of the Notes (other than the Subordinated Class E Notes). For these purposes "**Indexed Foreclosure Value**" means the foreclosure value of such Mortgaged Asset as determined upon origination of the relevant Portfolio Mortgage Loan multiplied by the ratio of (i) the average housing price at the date on which the purchase price of such Mortgaged Asset is determined, over (ii) the average housing price at the time of origination of such Mortgaged Asset, as published by the Dutch Association of Real Estate Brokers and Immovable Property Experts (*Nederlandse Vereniging van Makelaars en vastgoeddeskundigen (NVM)*).

OVERVIEW OF THE DUTCH RESIDENTIAL MORTGAGE MARKET¹

The information provided under Overview of the Dutch Residential Mortgage Market below has been derived from publicly available information on the Dutch mortgage industry.

Mortgage Market Characteristics

Mortgage interest payments are generally tax deductible

In the Netherlands interest payments on mortgage loans that have been applied for the acquisition or improvement of a house that is being used as primary residence are deductible within certain limitations and the number of years during which interest payments can be deducted is restricted to thirty years. If a taxpayer sold a house that was occupied by him, deduction of interest on a mortgage loan to acquire a new home will be limited to the interest on a principal amount equal to the purchase price of the new home less the amount of the funds he had available, after having repaid the mortgage receivables on his former residence. Homeowners must report a percentage (0.55% in 2007) of the value of their residence (calculated in accordance with the Valuation of Real Property Act ('*Wet waardering onroerende zaken*')) as (notional) income as a benefit from occupying their residence. This notional income is balanced with the interest deduction and thus effectively reduces the tax benefit of the interest payment deduction. The notional income from an owner occupied residence currently has an upper limit. This upper limit will be abolished as per 1 January 2009. For residences with a value of over EUR 1 million the percentage for calculating the notional income will be increased to ultimately 2.35% in 2016, so further reducing the tax benefit of the interest payment deduction. Residential mortgage loans may be linked with a life insurance policy or a savings insurance policy, with the most common term of insurance being 30 years. Generally, such mortgage loans are redeemed in full at maturity. The government encourages this method of redemption by exempting from tax the capital sum received under the policy, up to a certain amount indexed annually, provided that certain conditions are met.

The Dutch market is characterised by relatively high Loan-to-Value (LTV) ratios

The tax system has had an upward effect on the average Loan-to-Value ratio. As the Dutch tax system allows a full tax deductibility of mortgage interest rate payments, it gives an incentive to homeowners to maximise their mortgage loan. The maximum Loan-to-Value in the Netherlands for existing property is generally 130 percent of foreclosure value. Foreclosure Value is typically between 85 and 90 percent of the market value. During the second quarter of 2007, the average issued mortgage for a house amounted to € 265,200 and the average house price was € 248,000.

The Netherlands has a relatively high Mortgage-Debt-to-Gross Domestic Product (GDP) ratio

Compared to other European countries the Dutch market shows a relatively high degree of mortgage indebtedness driven by the tax incentives. This has resulted – amongst others - in a relatively high Mortgage-Debt-to-GDP ratio in the Netherlands, which was almost 105 percent in 2006. Due to rising home-ownership and

Sources: Rabobank, "Dutch Housing market Quarterly", August 2007 and Fitch, "Dutch RMBS Performance Bulletin 2007", October 2007

house prices, total mortgage debt accumulation increased in the late 1990's and continued in the present decade at a strong pace. Total mortgage debt is € 538 billion (first quarter 2007) in the Netherlands, rising from € 436 billion by the end of 2004.

Default losses have always been relatively low

Since the National Credit Register (*Bureau voor Kredietregistratie, BKR*) registers all loans as well as their status, financial institutions use the historical information of the BKR to determine potential borrowers' creditworthiness. In case of default this will inevitably lead to limited access to loans for the defaulter (or no access at all) for some years. Furthermore, under Dutch law the lender is able to seize a portion of the borrower's earnings from his employer in case the borrower defaults. Available data indicate that losses peaked in the early 1980's to about 30 basis points per annum of the outstanding amount, due to a combined effect of declining house prices and an increase in unemployment levels. Since then, losses declined substantially, reaching levels of below 1 basis point per annum of the outstanding principal in the 1990's. Over the last few years, losses increased again to about 3-4 basis points per annum of all outstanding principal.

Prepayment is discouraged

Lending terms in the Netherlands generally allow a borrower to prepay up to 10 to 20 percent a year of the original amount that has been borrowed without being penalised. Full prepayment without penalty is only possible in cases of moving or decease. However, mortgagors are also allowed to prepay on an interest-reset date without a penalty. If prepayment occurs in other situations, prepayment penalties are severe: the borrower generally has to pay the lender a compensation for the lender's loss of income, if any. This compensation equals the present value of the loss in interest income up to the loans reset date. Prepayment penalties are partly tax deductible to the borrower. Declining interest rates in the mid- and late 1990's and again in the 2003-2005 period encouraged many mortgagors to refinance.

Housing market trends in recent years

Owner-Occupancy Rates are increasing

The Dutch housing market had a relatively low owner-occupancy rate of 55 percent in 2006, whereas the average owner-occupancy rate in the EU as a whole was 65 percent. However, the owner-occupancy rate in the Netherlands has been gradually increasing: in 1982 42 percent of the total housing stock was owner-occupied.

House Prices have been increasing in recent years

Strong house price appreciation occurred in the Netherlands in the 1995-2000 period, due to the combined effects of institutional changes and favourable economic conditions. Regarding the institutional changes in the late 1990's there was a change in how some mortgage lenders calculate the borrowing capacity of households. Dutch commercial banks determine the maximum borrowing capacity of a household by the percentage of the disposable household income that has to be paid on repayments and interest payments. In general, lenders formerly calculated the borrowing capacity of households based on the primary household salary only. Since the mid-1990's, some lenders also evaluated a second household salary. For double-income households this resulted in a surge of their borrowing capacity, which could be used to bid up prices of the relatively scarce

owner-occupied property. In addition, the number of double-income households has been increasing over the past decade. The economy also contributed to a buoyant housing market. High income growth, declining mortgage rates and a reduction of unemployment occurred at the same time. Since 2004, house price appreciation has continued at a modest pace of between approximately 4.0 and 5.0 percent, in a context of historically low mortgage rates and relatively low supply of newly built houses. The first quarters of 2008 show a decline in the appreciation of house prices.

History

DSB Bank's operations have their roots in the Buro Frisia company, which was founded in 1975 by Mr D. Scheringa, the current chairman and CEO of DSB Bank N.V. Initially, Buro Frisia's activities covered financial advisory services and insurance and loan intermediation. Subsequently, the predecessors of DSB Bank increasingly focussed on the consumer credit market, strengthening their activities as an intermediary in this sector, both through organic growth and through the pursuit of an active acquisition policy. In 1991, the origination of consumer loans through newly established loan and trust banks (*voorschotbanken*) was started. In 1995, using the established distribution network for consumer loans, the predecessors of DSB Bank started to sell their own life and non-life insurance products, which was followed in 1996 by their entry into the Dutch mortgage market with the intermediation of second lien mortgages and the refinancing of existing mortgages. The Dutch Central Bank (*De Nederlandsche Bank N.V.*) granted a banking licence to a predecessor of DSB Bank N.V. in 2000, after which a start was made with the origination of first lien mortgages, for its own account. Also in 2000, such predecessor began to offer savings deposits to its clients, thus creating a new source of

funding for its operations. In the course of the last few years, DSB Bank has gradually offered a wider variety of products to its clients. In 2005, a restructuring took place under which the licensed predecessor of DSB Bank N.V. merged into its parent company, which was then renamed DSB Bank N.V.

DSB Bank's Business Operations

DSB Bank is a modern and innovative financial services provider with total assets of almost € 8 billion and around 3,000 employees (1,700 FTEs). DSB Bank has made a clear choice for its market: DSB Bank exclusively provides financial services to retail clients. This clear choice for a well defined market enables DSB Bank to provide its clients with a high level of personalised financial services.

³ These figures have been extracted from the audited annual accounts of 2007 of DSB Bank, which included the audited annual accounts for the year that ended on 31 December 2006. For the financial years 2006 and 2007, DSB Bank has applied IFRS.

DSB Bank currently focuses on general banking (administration of current accounts and receipt of savings), consumer credit products, mortgage loans and the intermediation of insurance products related to the banking business. As an integral element of DSB Bank's philosophy, new products and new services are developed with a special attention to their simplicity and consumer friendliness. In general terms, DSB Bank is of the view that it can serve its clients best, and deserve its clients' trust, when its products and services have comprehensible terms and conditions and do not have a highly technical or complex nature. DSB Bank believes that this approach works to the benefit of its clients and contributes to the development of a longstanding client-bank relationship.

Marketing and distribution

DSB Bank is a marketing driven organisation with a very active approach in respect of the relevant target markets. As part of this approach, DSB Bank actively invests in the analysis of markets, market participants and consumer behaviour. Such information is used in the development of new products and in the design and execution of new marketing concepts and strategies. DSB Bank's primary marketing channels are television, radio, newspapers, magazines and the Internet. In addition, DSB Bank is the main sponsor of Dutch prime league football club AZ in Alkmaar and of several other professional sports teams, such as a Dutch ice skating team and a Dutch cycle racing team. These sponsoring activities have contributed strongly to DSB Bank's brand recognition. DSB Bank has developed national and regional branches with strong brand names, such as DSB Bank, Frisia Financieringen, Becam, Postkrediet, and Lenen.nl.

DSB Bank actively makes use of the major distribution channels, both traditional and relatively new: personal, telephone and branch office sales, as well as sales through intermediaries. DSB Bank attaches great importance to a consumer friendly and service minded approach. As such, client appointments can be made outside normal office hours, either at DSB Bank's branches or at clients' homes. In the Netherlands, DSB Bank has established a branch network of 25 offices, which provides effective national coverage.

Strategy and Outlook

It is DSB Bank's mission to become the best retail bank in the Netherlands, by offering its clients simple, high quality products and services at competitive prices. The strategy of DSB Bank remains focused on further growth in the Netherlands as an independent financial services provider in the markets of consumer credit products and mortgage loans.

The business environment in the Netherlands is highly competitive, with a few major financial conglomerates having the larger share of the market. DSB Bank believes it is well positioned to take up the challenge of increasing its market share striving for low cost levels, operational flexibility and an innovative-minded spirit. DSB Bank believes it is of vital importance to retain a high level of flexibility within the organisation in order to respond to the ever-changing market conditions.

DSB Bank expects that the larger part of its growth will be organic, although this does not mean that DSB Bank excludes growth through acquisitions altogether. As DSB Bank currently enjoys the benefits of a large number of

clients who have entrusted DSB Bank with their savings, the growth strategy of DSB Bank is not hampered by funding constraints. The main limitation for growth are DSB Bank's internal capital adequacy ratios. As a signal of creditworthiness, DSB Bank has chosen to aim at a capital adequacy ratio of 12% instead of the minimum regulatory capital adequacy ratio of 8%.

DESCRIPTION OF PORTFOLIO MORTGAGE LOANS

The Mortgage Receivables to be sold and assigned to the Issuer on the Closing Date include any and all the rights (whether actual or contingent) of the Seller against any Borrower under or in connection with the Portfolio Mortgage Loans (the "**Initial Portfolio**") selected by agreement between the Seller and the Issuer.

The Portfolio Mortgage Loans (or in case of Portfolio Mortgage Loans consisting of more than one loan part, the aggregate of such loan parts) are secured by a first-ranking, or as the case may be a first and sequentially lower ranking Mortgage, evidenced by notarial mortgage deeds (*notariële akten van hypotheekstelling*) entered into by the Seller (or any of its legal predecessor) and the Borrowers. The Mortgage secures the relevant Portfolio Mortgage Loan and is vested over property situated in the Netherlands. The Portfolio Mortgage Loans and the Mortgages securing the liabilities arising therefrom are governed by Dutch law. The Mortgages securing the Portfolio Mortgage Loans are all in the form of Credit Mortgages. See *Uncertainty whether mortgage rights will follow Mortgage Receivables* in *Risk Factors* above.

The Portfolio Mortgage Loans forming part of the Initial Portfolio will be selected from a provisional pool of mortgage loans (the "**Provisional Pool**") that have been selected in accordance with the criteria set forth in the Mortgage Receivables Purchase Agreement and will be selected in accordance with such agreement on the Closing Date. For a description of the representations and warranties given by the Seller reference is made to *Mortgage Receivables Purchase Agreement* below.

The numerical information set out below relates to the Provisional Pool which was selected on 1 December 2008 (the "**Provisional Pool Cut-Off Date**") and has been extracted without material adjustment from the databases relating to the mortgage loans originated by the Seller held at the MPT Provider. Therefore, the information set out below in relation to the Provisional Pool may not necessarily correspond to that of the Mortgage Receivables actually sold on the Closing Date. After the Closing Date, the portfolio of Mortgage Loans held by the Issuer (the "**Portfolio**") will change from time to time as a result of repayment, prepayment, substitution, amendment and repurchase of Mortgage Receivables.

The valuation of the relevant Mortgaged Asset used by the Seller at origination of a Portfolio Mortgage Loan is the valuation set forth in valuation report provided to the Seller in relation to the Mortgaged Asset when the application for the relevant Portfolio Mortgage Loan was made.

All amounts mentioned in the tables below are expressed in euro.

Mortgage Types

Life Mortgage Loans

A Life Mortgage Loan consists of a Mortgage Loan entered into by the Seller and the relevant Borrowers, which has the benefit of a Life Insurance Policy and an investment policy taken out by the Borrowers with an Insurance Company. A Life Insurance Policy is a combined risk and capital insurance policy. The investment policy is a policy used at the maturity date for repayment of the mortgage receivables. Under a Life Mortgage Loan the

Borrower pays no principal, but solely interest and a monthly premium under the Life Insurance Policy and an investment policy. The Borrower is required to enter into three separate contracts, one with the lender and the others with an Insurance Company. The selection of the Insurance Company is at the sole discretion of the Borrower. The Insurance Company most commonly selected by the Borrowers in the Portfolio Mortgage Loans as per the Provisional Pool Cut-Off Date is: REAAL Levensverzekeringen N.V.

The proceeds of the Life Insurance Policy will be applied towards the repayment of the Mortgage Receivables at maturity of such policy. The insurance proceeds are due either at the end of the term of the Life Insurance Policy (which is generally thirty (30) years) or, if earlier, upon the death of the Borrower.

Annuity Mortgage Loans

The Borrower shall pay equal instalments each month for the term of the Mortgage Loan which instalments represent both interest and principal. As the Mortgage Loan matures, the proportion of the monthly payments that represent principal will increase.

Interest Only Mortgage Loans

The Mortgage Loan should be repaid at maturity or, if earlier, upon death of the relevant Borrower.

Interest Rates

There is a fixed rate of interest payable on the Portfolio Mortgage Loans, subject to resets from time to time (usually from 1 to 15 years).

Key Characteristics

A summary of the key characteristics of the Provisional Pool as selected on the Provisional Pool Cut-Off Date. These characteristics demonstrate the capacity to, subject to the risk factors referred to under section Risk Factors above, produce funds to pay interest and principal on the Notes, provided that each such payment shall be subject to the relevant priority of payments as further described under section Credit Structure.

MORTGAGE LOAN UNDERWRITING AND SERVICING

Origination

The Mortgage Loans have been originated by DSB Bank N.V. in its ordinary course of business and are distributed by its branch offices. All mortgage loans that are pre-approved by the Sales department in its branch offices are first sent to the Control & Acceptance department for review to ensure that the mortgage loans are consistent with the underwriting guidelines. Since 2006 the Control & Acceptance department is mandated by DSB Bank N.V. to approve and to grant the mortgage loan to the applicant if the criteria are fulfilled. The Compliance department and Ernst & Young Accountants LLP takes sample files at random, after the loan being granted.

Subject to limited exceptions, new mortgage loans are accepted on the basis of the following underwriting guidelines:

Housing ratio

The maximum amount of the mortgage loan that will be granted is for an important part determined by the housing ratio. The housing ratio reflects the maximum percentage of income that can be committed to paying the interest and repayments on the mortgage loan.

Income

In general, DSB Bank N.V. only grants mortgage loans to applicants who are employed for an indefinite period of time. In certain circumstances, however, it is possible to grant mortgage loans to applicants who have a temporary working contract. In such case the loan-to-income ratio used for acceptance are set lower.

National Credit Register (BKR)

A check is completed on every applicant with the National Credit Register (*Bureau voor Krediet Registratie*). All financial commitments for consumer credits that applicants have entered into with financial institutions are recorded here until five years after full redemption. Applicants with previous payment problems as registered with the BKR were, in the past, accepted, but are not included in the Provisional Pool.

Mortgaged Assets

All collateral offered in the form of existing residential homes is valued by an independent valuer not involved in the transaction. For this purpose, only those valuers are accepted that are a member of one of the following organisations: the *Nederlandse Vereniging van Makelaars (NVM)* (Dutch Association of Real Estate Brokers), the *Landelijke Makelaars Vereniging (LMV)* (National Real Estate Brokers' Association), the *Vereniging van Registervastgoed Taxateurs (RVT)* and the *Vereniging Bemiddeling Onroerend Goed (VBO)*. These are the same valuers that are accepted for NHG-guaranteed mortgage loans.

Mortgage loans are normally granted up to 160 per cent. of the foreclosure value of the mortgaged assets. Interest-only mortgage loans, or in case of mortgage loans which are made up of a combination of loan types,

the principal amount of the interest-only loan part thereof, are normally subject to a maximum of 100 per cent. of the foreclosure value of the mortgaged assets originated as from 21 April 2008 (before 21 April 2008 higher LTFV-ratios were excepted). Occasionally, Interest-only Loans with a higher LTFV-ratio can be granted with management approval. The foreclosure value equals approximately between 85 and 90 per cent. of the appraisal value. For applicants with higher income or additional assets, mortgage loans higher than 160 per cent. of the foreclosure value can be granted with management approval.

Other underwriting conditions

In addition to the principal underwriting factors already mentioned, the following rules generally apply: (i) mortgage loans are granted only to natural persons (*natuurlijke personen*), (ii) joint and several liability for the mortgage loan (all house owners are joint and several debtors), (iii) mortgage loans are granted on the borrower's own residence only (no holiday homes or investment properties), (iv) the mortgaged property must be located in the Netherlands (v) mortgage loans in excess of € 400,000 require management approval, mortgage loans in excess of € 500,000 require the approval of the Executive Board and (vi) adequate property insurance must be obtained at all times.

Servicing

Introduction

The Portfolio Mortgage Loans will continue to be serviced by DSB Bank N.V. DSB Bank N.V. separates its mortgage servicing role into two departments, one dealing with collections for current mortgage loans (less than or equal to 2 months in arrears) (Servicing and Administration) and the other with delinquent mortgage loans (more than 2 months in arrears) (Arrears and Collection).

DSB Bank N.V. has a fully integrated software system that facilitates communications between all aspects of its network including the Servicing and Administration department and the Arrears and Collection department.

All mortgage loan information is stored and operated using the Microsoft Foxpro application. Every night the principal balance is compared to the balance of the application. This provides automated information quality checks. The mortgage loan information is duplicated and back upped (held at both the offices of DSB Bank N.V. and externally with Getronics N.V.) every night to comply with the disaster recovery plan. DSB Bank N.V.'s fall back centre is located in Nieuwegein.

Collections

In respect of the mortgage loans, payments of both principal and interest are collected by direct debit for all the mortgage loans on the first day of each month. Each month, the system automatically calculates the amount of interest and principal due.

In the case of borrowers whose balance was insufficient, the servicing of the mortgage loan will be passed to the Arrears and Collection department.

Arrears management

The Arrears and Collection department has been managing delinquent mortgage loans since DSB Bank N.V. (and its predecessors) started mortgage loan origination in 2000. The Arrears and Collection department has also been serving delinquent consumer loans for DSB Bank N.V. since 1991. The department currently has eighty three (83) full time equivalent employees. In April 2007, the management of delinquent mortgage loans was handed over to Incassobureau Inspectrum B.V. located at Heerhugowaard, a 100% subsidiary of DSB Bank N.V. It currently has 49 full time equivalent employees.

All mortgage loan arrears up to two months are being serviced from a branch situated in Rotterdam. This is done in a so called Call Center environment, personnel in this branch are mainly students who work very strictly in accordance with the collection instructions. After the arrears reach the third month, the handling is automatically transferred to Incassobureau Inspectrum B.V. in Heerhugowaard, where collection professionals are located. A separate department exist for legal affairs and administration.

If borrowers fail to meet their payment obligations by the due date, the following procedure automatically applies:

- if, 3 days after the due date, payment has not been received, the first reminder is sent out to the borrower by way of a text message, email and letter;
- if, 10 days after the due date, payment has not been received, a reminder is sent out. This letter is accompanied by a telephone call;
- if, 22 days after the due date, payment has not been received, the first formal written reminder is sent out, warning the borrower of a potential negative BKR code. This letter is accompanied by a telephone call;
- if, 40 days after the due date, payment has not been received, the second formal reminder is sent out, warning the borrower of a potential (i) negative BKR code, (ii) termination of insurance policy or investment policy associated with the mortgage loan; or (iii) sale of the mortgaged assets;
- if, 52 days after the due date, payment has not been received, the third formal warning is sent out;
- if, 60 days after the due date, payment has not been received, the fourth formal warning is sent out, warning the borrower of a potential (i) negative BKR code and (ii) handling by Incassobureau Inspectrum B.V. and (iii) voluntary salary assignment and (iv) the loan part of the client will be charged with extrajudicial costs (*buitengerechtelijke kosten*);
- if, 67 days after the due date, payment has not been received, the first letter is sent by Incassobureau Inspectrum B.V. and the borrower will be visited at home;
- if, 90 days after the due date, payment has not been received, the borrower will attract a negative BKR code;

The Arrears and Collection department will call the borrower twice every month during arrears to try to work out and find an acceptable solution to the arrears for both the borrower and the lender. The borrower will be visited at home in the first or second month of the arrears and the borrower will continue to receive monthly arrears statements during these procedures.

Foreclosure process

The Arrears and Collection department will perform a series of risk calculations to determine the lender's exposure and the optimal path for recoveries. In general a private sale is more likely to give a higher price than a public sale. Despite this, the lender has developed a process to manage a public sale, which is described below.

If there is a failure to comply with the agreed payment schemes, or if it is evident that there is no prospect of the interest and/or premium arrears being paid in the near future, the mortgage loan will be declared immediately due. Public or private sale is arranged only if there is no prospect of any acceptable solution. Apart from the public or private sale as a result of arrears of payment on mortgage loans, such sale may also result from attachment by other creditors or bankruptcy of the borrowers. In the case of attachment or bankruptcy, the auction is ordered immediately.

DSB Bank N.V. will play an active role in the public auction process and may bid for properties. In principle, bids are made up to the foreclosure value of the property, with the provision that bids never exceed the amount of the total debt. As MPT Provider under this securitisation transaction, DSB Bank N.V. will follow the procedures as described above.

If a residual debt remains after the auction or private sale, the borrowers remain liable. In principle, a new payment scheme is arranged for the residual debt. If the borrowers do not wish to agree to any payment scheme, an attachment will be carried out through an attorney at law.

After starting life as part of Bouwfonds Hypotheken, Stater started its activities in January 1997 as an independent service provider in the mortgage market. Stater has since grown to become an international force in the market with circa 1,000 employees.

Stater is a 100 per cent subsidiary of Stater N.V., of which the shares are held for 100 per cent by ABN AMRO Bank N.V.

Stater provides activities consisting of mortgage payment transactions and ancillary activities with regard to a total of more than EUR 146 billion and approximately 1 million mortgage loans. In the Netherlands, Stater has a market share of about 30 per cent.

The activities are provided in a completely automated and paperless electronic format. Stater has pioneered the use of technology through its e-transactions concept for owners of residential mortgage loan portfolios and features capabilities to enhance, accelerate and facilitate securitisation transactions.

Stater provides an origination system that includes automated underwriting, allowing loan funders to specify underwriting criteria for each loan pool. A credit-scoring model and a fraud detection system form part of automated underwriting.

In December 2007, rating agency Fitch Ratings upgraded Stater residential "primary servicer" rating to 'RPS2+NL' from 'RPS2NL' and has affirmed the residential "special servicer" rating at 'RSS3+NL'. The ratings are based on the ability of Stater to handle residential mortgage loans and effectively handle the collection (inning) and enforcement process for defaulted loans.

Ratings are awarded on a scale from 1 to 5, with 1 being the highest possible ranking. The rating Stater received for its role as "primary servicer" made Stater the top scoring service provider on the European continent.

For Stater's customers, a high rating will positively influence credit enhancement for securitizations.

The high score on both ratings boosts Stater's image on the international market and provides a stimulus for further quality improvement.

Stater's external chartered auditor has issued a SAS 70 Type II assurance report on 8 December 2008 for Stater with respect to the period of 1 January 2008 up to and including 31 October 2008.

The head office is located at Podium 1 - 3826 PA Amersfoort, the Netherlands.

Mandatory Repurchase

If at any time after the Closing Date any of the representations and warranties relating to the Portfolio Mortgage Loans and the Mortgage Receivables proves to have been untrue or incorrect, the Seller shall within fourteen (14) days of receipt of written notice thereof from the Issuer remedy the matter giving rise thereto and if such matter is not capable of remedy or is not remedied within the said period of fourteen (14) days, the Seller shall, promptly following the expiration of the relevant remedy period, at the Seller's expense, repurchase and accept assignment of the relevant Mortgage Receivable for a price equal to the outstanding principal amount of such Mortgage Receivable together with interest and reasonable costs relating thereto (including any costs incurred by the Issuer in effecting and completing such purchase and assignment) accrued up to but excluding the date of repurchase and re-assignment of the Mortgage Receivable.

If the Seller agrees with a Borrower to make a Further Advance prior to the occurrence of an Assignment Notification Event, it shall repurchase and accept re-assignment of the Mortgage Receivable resulting from the Portfolio Mortgage Loan in respect of which a Further Advance has been granted unless such Further Advance Receivables shall be purchased by and assigned to the Issuer, subject to the terms and conditions set forth below on the immediately succeeding Quarterly Payment Date (see also paragraph *Further Advance* below).

The Seller shall also undertake to repurchase and accept re-assignment of a Mortgage Receivable on the first Business Day of the calendar month immediately following the date on which it agrees with a Borrower to amend the terms of the relevant Portfolio Mortgage Loan in the event that such amendment is not in accordance with the conditions set out in the Mortgage Receivables Purchase Agreement and/or the MPT Agreement, which include the condition that such amendment does not adversely affect the position of the Issuer or the Security Trustee and that after such amendment the relevant Mortgage Loan continues to meet each of the Mortgage Loan Criteria (as set out below) and the representations and warranties contained in the Mortgage Receivables Purchase Agreement (as set out above) and does not adversely affect the rating of the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes). However, the Seller shall not be required to repurchase such Portfolio Mortgage Loan if the relevant amendment is made as part of the enforcement procedures to be complied with upon a default by the Borrower under the relevant Portfolio Mortgage Loan or is otherwise made as part of a restructuring or renegotiation of the relevant Portfolio Mortgage Loan due to a deterioration of the credit quality of the Borrower of such Portfolio Mortgage Loan.

Finally, if the Seller agrees with a Borrower upon expiration of a fixed interest rate period (*rentevastperiode*) relating to the relevant Portfolio Mortgage Loan (i) to set the fixed interest rate for the next succeeding fixed interest rate period (*rentevastperiode*) at a fixed interest rate lower than 4.5 per cent. per annum or (ii) to change the fixed interest rate payable on the relevant Portfolio Mortgage Loan into a floating interest rate, the Seller shall within fourteen (14) days immediately following the expiration of such fixed interest rate period (*rentevastperiode*), repurchase and accept re-assignment of the relevant Mortgage Receivables from the Issuer.

The Issuer will on each Quarterly Payment Date up to and including the Quarterly Payment Date immediately preceding the First Optional Redemption Date apply the amount of principal received as a result of a repurchase set forth above (if any) or, if less, an amount equal to the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (if any), to purchase and accept assignment from the Seller any additional mortgage receivables (i.e. Replacement Receivables) and the Beneficiary Rights relating thereto, subject to the fulfilment of certain conditions and to the extent offered by the Seller. Such conditions include, *inter alia*, the requirement that any such receivable should meet the Mortgage Loan Criteria set forth in the Mortgage Receivables Purchase Agreement. Upon purchase and acceptance of assignment of any Replacement Receivable and the relating Beneficiary Rights by the Issuer, the Issuer will at the same time create a first ranking right of pledge (*pandrecht eerste in rang*) in favour of the Security Trustee on such Replacement Receivable and Beneficiary Rights.

Seller Clean-up Call Option

If on a Notes Calculation Date the aggregate outstanding principal amount under the Portfolio Mortgage Loans is

less than 10 per cent. of the aggregate principal amount of the Mortgage Receivables outstanding on the Closing Date the Seller may at its option (but without any obligation to do so) on each Quarterly Payment Date succeeding such Notes Calculation Date, repurchase and accept re-assignment of all (but not part of) the Mortgage Receivables then outstanding together with the Beneficiary Rights relating thereto.

The Issuer has undertaken in the Mortgage Receivables Purchase Agreement to sell and assign the Mortgage Receivables to the Seller, or any third party appointed by the Seller at its sole discretion, in the event that the Seller exercises the Seller Clean-up Call Option. The purchase price will be calculated as described in *Sale of Mortgage Receivables* in *Credit Structure* above. The proceeds of such sale shall be applied by the Issuer towards redemption of the Notes (other than the Subordinated Class E Notes), subject to and in accordance with the Conditions.

Regulatory Call Option

The Seller may, without the obligation to do so, repurchase and accept re-assignment of all (but not only part of) the Mortgage Receivables on each Quarterly Payment Date following the occurrence of a change in the Basle Capital Accord promulgated by the Basle Committee on Banking Supervision (the "**Basle Accord**") or in the international, European or Dutch regulations, rules and instructions (which includes the solvency regulation on securitization of the Dutch Central Bank) (the "**Bank Regulations**") applicable to DSB Bank N.V. (including any change in the Bank Regulations enacted for purposes of implementing a change to the Basle Accord) or a change in the manner in which the Basle Accord or such Bank Regulations are interpreted or applied by the Basle Committee on Banking Supervision or by any relevant competent international, European or national body (including any relevant international, European or Dutch Central Bank or other competent regulatory or supervisory authority) which, in the opinion of DSB Bank N.V. has the effect of adversely affecting the rate of return on capital of DSB Bank N.V. or increasing the costs or reducing the benefit to DSB Bank N.V. with respect to the transaction contemplated by the Transaction Documents (such change a "**Regulatory Change**").

The Issuer has undertaken in the Mortgage Receivables Purchase Agreement to sell and assign the Mortgage Receivables to the Seller, or any third party appointed by the Seller at its sole discretion, in case the Seller exercises the Regulatory Call Option. The purchase price will be calculated as described in *Sale of Mortgage Receivables* in *Credit Structure* above. If the Seller exercises the Regulatory Call Option, then the Issuer shall redeem the Notes by applying the proceeds of such sale towards redemption of the Notes (other than the Subordinated Class E Notes), subject to and in accordance with the Conditions.

Replenishment Receivables

The Mortgage Receivables Purchase Agreement provides that as from the Closing Date up to and including the Quarterly Payment Date falling in January 2012 the Issuer will apply the Notes Principal Available Amounts (excluding item (iv) thereof), up to a maximum amount equal to the Notes Principal Available Amounts (excluding item (iv) thereof) less the Interest Shortfall Amount (if any) and the amounts applied towards payment of the Initial Purchase Price of the Further Advance Receivables and/or Replacement Receivables (if any), to purchase and accept assignment of any Replenishment Receivables and the Beneficiary Rights relating thereto from the Seller if and to the extent offered by it. The purchase by the Issuer of any Replenishment Receivables will be subject to a number of conditions, which include that at the relevant date of completion of the sale and purchase of such Replenishment Receivables:

- (a) the Seller will represent and warrant to the Issuer and the Security Trustee the matters set out in the clauses providing for the representations and warranties relating to the Portfolio Mortgage Loans, the Mortgage Receivables and the Seller in the Mortgage Receivables Purchase Agreement with respect to the Replenishment Receivables sold and relating to the Seller;
- (b) no Assignment Notification Event has occurred and is continuing;

- (d) the relevant Portfolio Mortgage Loan meets the Mortgage Loan Criteria; and

When the Issuer purchases and accepts assignment of the relevant Replenishment Receivable and any Beneficiary Rights relating thereto, the Issuer will at the same time create a right of pledge on such Replenishment Receivable and Beneficiary Rights relating thereto (if any) in favour of the Security Trustee.

Each of the following criteria (collectively the "**Replenishment Criteria**") applies in respect of an intended purchase of Replenishment Receivables:

MPT AGREEMENT AND ISSUER ADMINISTRATION AGREEMENT

Mortgage Portfolio Management Services

In the MPT Agreement the MPT Provider will agree to provide administration and management services to the Issuer on a day-to-day basis in relation to the Portfolio Mortgage Loans and the Mortgage Receivables, including, without limitation, the collection of payments of principal, interest and other amounts in respect of the Mortgage Receivables, all administrative actions in relation thereto and the implementation of arrears procedures including the enforcement of mortgage rights (see further *Mortgage Loan Underwriting and Servicing* above). The MPT Provider will be obliged to manage the Portfolio Mortgage Loans and the Mortgage Receivables with the same level of skill, care and diligence as mortgage loans in its own or, as the case may be, the Seller's portfolio.

The MPT Agreement may be terminated by the Issuer and the Security Trustee, acting jointly, upon the occurrence of certain termination events, including but not limited to, a failure by the MPT Provider to comply with its obligations (unless remedied within the applicable grace period), dissolution or liquidation of the MPT Provider, the MPT Provider being declared bankrupt or becoming subject to emergency regulations or if the MPT Provider no longer holds a license under the Act on the Financial Supervision (*Wet op het financieel toezicht*). In addition the MPT Agreement may be terminated by the MPT Provider upon the expiry of not less than six (6) months' notice, subject to (i) written approval of the Issuer and the Security Trustee, which approval may not be unreasonably withheld and (ii) a notification to the Rating Agency of the occurrence of termination under the MPT Agreement and provided that this will not adversely affect the then current rating assigned to the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes). A termination of the MPT Agreement by either the Issuer and the Security Trustee or the MPT Provider will only become effective if a substitute MPT provider is appointed.

Upon the occurrence of a termination event as set forth above, the Security Trustee and the Issuer shall use their best efforts to appoint a substitute MPT provider (see also below) and such substitute MPT provider shall enter into an agreement with the Issuer and the Security Trustee substantially on the terms of the MPT Agreement, provided that such substitute MPT provider shall have the benefit of a servicing fee at a level to be then determined. Any such substitute MPT provider must have experience of handling mortgage loans and mortgages of residential property in the Netherlands and hold a licence under the Act on the Financial Supervision (*Wet op het financieel toezicht*). The Issuer shall, promptly following the execution of such agreement, pledge its interest in such agreement in favour of the Security Trustee on the terms of the Issuer Rights Pledge Agreement, *mutatis mutandis*, to the satisfaction of the Security Trustee.

The MPT Provider does not have any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. The Notes will be solely the obligations and responsibilities of the Issuer and not of any other entity or person involved in the transaction, including, without limitation, the MPT Provider, except for certain limited obligations of the Security Trustee under the Trust Deed.

Substitute MPT Provider

At the Closing Date Stater Nederland B.V. will pursuant to the back-up mortgage payment transaction provider agreement entered into by Stater Nederland B.V., the Seller, the Issuer and the Security Trustee on the Signing Date (the "**Back-up MPT Agreement**") be appointed as Substitute MPT Provider by the Issuer and the Security Trustee in order to be its lawful agent to provide mortgage payment transactions services relating to the Portfolio Mortgage Loans on its behalf if at any time a Termination Event (as defined in the MPT Agreement) in respect of the MPT Provider occurs. Stater Nederland B.V. has accepted this appointment on a "best efforts" basis and agreed that it shall be capable of performing the Mortgage Portfolio Management Services (as set forth in Schedule 1 to the MPT Agreement) during the life of Portfolio Mortgage Loans in a manner and on a level as can be expected from a reasonable prudent mortgage payment transactions provider in the Netherlands, within two (2) calendar months after having finalised a due diligence investigation.

Stater Nederland B.V. will be allowed to use their own standard operating procedures (to the extent these do not materially conflict with the Mortgage Conditions).

The Substitute MPT Provider does not have any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes. The Notes will be solely the obligations and responsibilities of the Issuer and not of any other entity or person involved in the transaction, including, without limitation, the Substitute MPT Provider, except for certain limited obligations of the Security Trustee under the Trust Deed.

Issuer Administration

The Issuer Administrator will in the Issuer Administration Agreement agree to provide certain administration, calculation and cash management services respectively to the Issuer in accordance with the relevant Transaction Documents, including, *inter alia*, (a) the application of amounts received by the Issuer to the Issuer Accounts and the production of quarterly reports in relation thereto, (b) procuring that all drawings (if any) to be made by the Issuer from the Reserve Account are made, (c) procuring that all payments to be made by the Issuer under the Transaction Documents are made, (d) procuring that all payments to be made by the Issuer under the Notes are made in accordance with the Paying Agency Agreement and the Conditions, (e) the maintaining of all required ledgers in connection with the above, (f) all administrative actions in relation thereto, and (g) procuring that all calculations to be made pursuant to the Conditions under the Notes are made.

The Issuer Administration Agreement may be terminated by the Issuer and the Security Trustee, acting jointly, upon the occurrence of certain termination events, including but not limited to, a failure by the Issuer Administrator to comply with its obligations (unless remedied within the applicable grace period), dissolution or liquidation of the Issuer Administrator or the Issuer Administrator being declared bankrupt or granted a suspension of payments. In addition the issuer Administration Agreement may be terminated by the Issuer Administrator upon the expiry of not less than six (6) months' notice, subject to (i) written approval of the Issuer and the Security Trustee, which approval may not be unreasonably withheld and (ii) a notification to the Rating Agency of the occurrence of termination under the Issuer Administration Agreement and provided that this will not adversely affect the then current ratings assigned to the Notes (other than the Junior Class D Notes and the

Subordinated Class E Notes). A termination of the Issuer Administration Agreement by either the Issuer and the Security Trustee or the Issuer Administrator will only become effective if a substitute issuer administrator is appointed.

Upon the occurrence of a termination event as set forth above, the Security Trustee and the Issuer shall use their best efforts to appoint a substitute issuer administrator and such substitute issuer administrator shall enter into an agreement with the Issuer and the Security Trustee substantially on the terms of the Issuer Administration Agreement, provided that such substitute issuer administrator shall have the benefit of an administration fee at a level to be then determined. The Issuer shall, promptly following the execution of such agreement, pledge its interest in such agreement in favour of the Security Trustee on the terms of the Issuer Rights Pledge Agreement, *mutatis mutandis*, to the satisfaction of the Security Trustee.

USE OF PROCEEDS

The aggregate proceeds of the Notes to be issued on the Closing Date amount to € 1,065,000,000. The net proceeds of the issue of the Notes (other than the Subordinated Class E Notes) will be applied on the Closing Date to pay the Initial Purchase Price for the Mortgage Receivables purchased on the Closing Date under the Mortgage Receivables Purchase Agreement. The net proceeds of the issue of the Subordinated Class E Notes will be used to fund the Reserve Account.

DESCRIPTION OF SECURITY

The Notes will be secured indirectly, through the Security Trustee, by the Trust Deed to be entered into by the Issuer and the Security Trustee, acting as security trustee for (i) the Notes Purchaser as initial Noteholder, (ii) the Directors, (iii) the MPT Provider, (iv) the Paying Agent, (v) the Reference Agent, (vi) the Seller, (vii) the Issuer Administrator and (viii) the Noteholders (the "**Security Beneficiaries**"). The Issuer will agree in the Trust Deed, to the extent necessary in advance, to pay to the Security Trustee any amounts equal to the aggregate of all its liabilities to all the Security Beneficiaries from time to time due in accordance with the terms and conditions of the relevant Transaction Documents, including, without limitation, the Notes (the "**Principal Obligations**"), which payment undertaking and the obligations and liabilities resulting therefrom is herein referred to as the "**Parallel Covenant**".

The Parallel Covenant of the Issuer to the Security Trustee will be secured by (i) a first ranking pledge by the Issuer to the Security Trustee over the Mortgage Receivables pursuant to the Mortgage Receivables Pledge Agreement, including all rights ancillary thereto in respect of the Portfolio Mortgage Loans and the Beneficiary Rights, and (ii) a first ranking pledge by the Issuer to the Security Trustee over the Issuer's rights under or in connection with the Mortgage Receivables Purchase Agreement, the MPT Agreement, the Floating Rate GIC, the Beneficiary Waiver Agreement and in respect of the Issuer Accounts.

Pursuant to the Security Beneficiaries Agreement entered into between the Security Beneficiaries, the Issuer and the Security Trustee, each Security Beneficiary agrees to be bound by the relevant terms and provisions of the Trust Deed including, but not limited to, the limited recourse and non-petition provisions contained therein.

The Issuer and the Security Trustee will enter into a pledge agreement (the "**Mortgage Receivables Pledge Agreement**") pursuant to which a first ranking undisclosed right of pledge (*stil pandrecht eerste in rang*) will be granted by the Issuer to the Security Trustee over the Mortgage Receivables and the relating Beneficiary Rights in order to create security for all liabilities of the Issuer to the Security Trustee in connection with the Trust Deed, including the Parallel Covenant, and any of the other Transaction Documents. Pursuant to the Mortgage Receivables Pledge Agreement, the Issuer further undertakes, in respect of any Further Advance Receivables, Replacement Receivables and Replenishment Receivables, to grant to the Security Trustee on the relevant purchase date a first ranking undisclosed right of pledge over the relevant Further Advance Receivables (unless the Mortgage Receivables resulting from a Portfolio Mortgage Loan in respect of which a Further Advance is granted are being repurchased and reassigned by the Seller), Replacement Receivables or Replenishment Receivables and over any associated Beneficiary Rights. In this respect, the Issuer and the Security Trustee acknowledge that (i) the Parallel Covenant constitutes undertakings, obligations and liabilities of the Issuer to the Security Trustee which are separate and independent from and without prejudice to the Principal Obligations of the Issuer to any Security Beneficiary, and (ii) the Parallel Covenant represents the Security Trustee's own claim (*vordering*) to receive payment of the Parallel Covenant from the Issuer, provided that the aggregate amount that may become due under the Parallel Covenant will never exceed the aggregate amount that may become due under all of the Principal Obligations to the Security Beneficiaries.

The pledge over the Mortgage Receivables provided in the Mortgage Receivables Pledge Agreement will not be notified to the Borrowers except in the case of certain Pledge Notification Events. These Pledge Notification Events will, to a large extent, be similar to the Assignment Notification Events defined in the Mortgage Receivables Purchase Agreement. Prior to notification of the pledge to the Borrowers, the pledge over the Mortgage Receivables will be an undisclosed right of pledge (*stil pandrecht*) within the meaning of section 3:239 of the Dutch Civil Code. The pledge over the Beneficiary Rights will also be an undisclosed right of pledge until notification thereof to the other relevant Insurance Companies.

In addition, the Issuer will vest a right of pledge on any and all existing and future rights and claims that are owed and will be owed to the Issuer (the "**Issuer Rights**") under (i) the Mortgage Receivables Purchase Agreement, (ii) the MPT Agreement, and (iii) the Beneficiary Waiver Agreement (the "**Issuer Rights Pledge Agreement**") in favour of the Security Trustee. This right of pledge secures any and all liabilities of the Issuer to the Security Trustee resulting from or in connection with the Parallel Covenant. Furthermore, on the Closing Date, the Issuer will vest, in favour of the Security Trustee, a right of pledge in respect of any and all current and future monetary claims of the Issuer against the Floating Rate GIC Provider, in respect of the Floating Rate GIC and the Issuer Accounts (the "**Issuer Accounts Pledge Agreement**"). The pledge pursuant to each of the Issuer Rights Pledge Agreement and the Issuer Accounts Pledge Agreement will be notified to the relevant obligors and will, therefore be a disclosed right of pledge (*openbaar pandrecht*).

Upon enforcement of the pledges created pursuant to the Security Documents (which is after delivery of an Enforcement Notice), the Security Trustee shall apply the net proceeds received or recovered towards satisfaction of the Parallel Covenant. The Security Trustee shall subsequently distribute such net proceeds to the Security Beneficiaries. All amounts to be so distributed by the Security Trustee will be paid in accordance with the Post-Enforcement Priority of Payments (as set forth in *Credit Structure* above).

The security provided pursuant to the provisions of the Trust Deed and the Pledge Agreements shall indirectly, through the Security Trustee, serve as security for the benefit of the Security Beneficiaries, including, without limitation, each of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Noteholders and the Subordinated Class E Noteholders, but amounts owing to the Mezzanine Class B Noteholders will rank junior to Senior Class A Noteholders and amounts owing to the Mezzanine Class C Noteholders will rank junior to the Senior Class A Noteholders and the Mezzanine Class B Noteholders and amounts owing to the Junior Class D Noteholders will rank junior to the Senior Class A Noteholders, the Mezzanine Class B Noteholders and the Mezzanine Class C Noteholders and amounts owing to the Subordinated Class E Noteholders will rank junior to the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders and the Junior Class D Noteholders (see *Credit Structure* above).

3. Covenants of the Issuer

So long as any of the Notes remain outstanding, the Issuer shall carry out its business in accordance with proper and prudent Dutch business practice and in accordance with the requirements of Dutch law and accounting practice and shall not, except to the extent permitted by the Transaction Documents, or with the prior written consent of the Security Trustee:

4. Interest

(a) *Period of Accrual*

The Notes shall bear interest on their Principal Amount Outstanding (as defined in Condition 6) from and including the Closing Date. Each Note (or, in the case of the redemption of only part of a Note, that part only of such Note) shall cease to bear interest from its due date for redemption unless, upon due presentation, payment of the relevant amount of principal or any part thereof is improperly withheld or refused. In such event, interest will continue to accrue thereon (before and after any judgement) at the rate applicable to such Note up to but excluding the date on which, on presentation of such Note, payment in full of the relevant amount of principal is made or (if earlier) the seventh day after notice is duly given by the Paying Agent to the holder thereof (in accordance with Condition 13) that upon presentation thereof, such payments will be made, provided that upon such presentation payment is in fact made. Whenever it is necessary to compute an amount of interest in respect of any Note for any period, such interest shall be calculated on the basis of the actual number of days elapsed in the Quarterly Interest Period divided by 360 days.

(b) Interest Periods and Payment Dates

Interest on the Notes shall be payable by reference to successive interest periods (each a "**Quarterly Interest Period**") and will be payable in arrear in euro in respect of the Principal Amount Outstanding (as defined in Condition 6) of the Notes, respectively, on the 17th day of January, April, July and October in each year, or if such day is not a Business Day (as defined below), the next succeeding Business Day, unless such Business Day falls in the next succeeding calendar month in which event the Business Day immediately preceding such 17th day is the relevant Business Day (each such day being a "**Quarterly Payment Date**"). A "**Business Day**" means a day on which banks are open for business in Amsterdam and London, provided that such day is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer Two System (the "**TARGET 2 System**") or any successor thereto is operating credit or transfer instructions in respect of payments in euro. Each successive Quarterly Interest Period will commence on (and include) a Quarterly Payment Date and end on (but exclude) the next succeeding Quarterly Payment Date, except for the first Quarterly Interest Period, which will commence on (and include) the Closing Date and end on (but exclude) the Quarterly Payment Date falling in April 2009.

(c) Interest on the Notes

Interest on the Notes for each Quarterly Interest Period will be as from the first Quarterly Payment Date up to (but excluding) the First Optional Redemption Date (as defined in Condition 6) accrue at an annual rate equal to:

- (i) for the Senior Class A Notes, 4.0 per cent. per annum;
- (ii) for the Mezzanine Class B Notes, 1.0 per cent. per annum;
- (iii) for the Mezzanine Class C Notes, 1.0 per cent. per annum;
- (iv) for the Junior Class D Notes, 1.0 per cent. per annum; and
- (v) for the Subordinated Class E Notes, 1.0 per cent. per annum.

The interest for the first Quarterly Interest Period will be calculated on the basis of the actual number of days elapsed in such Quarterly Interest Period divided by 365 days. For each successive Quarterly Interest Period the interest will be calculated on the basis of Actual/Actual (ICMA). For the avoidance of doubt, Actual/Actual (ICMA) refers to a fraction equal to "number of days accrued/number of days in year" as such terms are used in Rule 251 of the statutes, by-laws, rules and recommendations of the International Capital Markets Association (the "**ICMA Rule Book**") calculated in accordance with Rule 251 of the ICMA Rule Book as applied to non US dollar denominated straight and convertible notes issued after 31 December 1998.

(d) Calculation of the Interest Amount

The Reference Agent will, as soon as practicable after 11.00 a.m. (Central European Time) on the day that is two (2) Business Days preceding the first day of each Quarterly Interest Period calculate the amount of interest payable on this Class of Notes for the following Quarterly Interest Period (the "**Interest Amount**") by applying the applicable rate of interest to the Principal Amount Outstanding of

the relevant Class of Notes. The calculation of the Interest Amount by the Reference Agent shall (in the absence of manifest error) be final and binding on all parties.

(e) Notification of the Interest Amount

The Reference Agent will cause the relevant Interest Amount and the Quarterly Payment Date applicable to each relevant Class of Notes to be notified to the Issuer, the Security Trustee, the Paying Agent, the Issuer Administrator, Euronext Amsterdam by NYSE Euronext ("**Euronext Amsterdam**") and to the holders of such Class of Notes by an advertisement in the English language in the Daily Official List (*Officiële Prijscourant*) of Euronext Amsterdam, for as long as required and www.atccapitalmarkets.com. The Interest Amount and Quarterly Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Quarterly Interest Period.

(f) Calculation by Security Trustee

If the Reference Agent at any time for any reason fails to calculate the relevant Interest Amount in accordance with paragraph (d) above, the Security Trustee shall calculate the Interest Amount in accordance with paragraph (d) above, and each such calculation shall be final and binding on all parties.

(g) Reference Agent

The Issuer has, subject to prior written consent of the Security Trustee, the right to terminate the appointment of the Reference Agent by giving at least ninety (90) days' notice in writing to that effect. Notice of any such termination will be given to the holders of the relevant Class of Notes in accordance with Condition 13. If any person shall be unable or unwilling to continue to act as reference agent (as the case may be) or if the appointment of the Reference Agent shall be terminated, the Issuer will, with the prior written consent of the Security Trustee, appoint a successor reference agent (as the case may be) to act in its place, provided that neither the resignation nor removal of the Reference Agent shall take effect until a successor approved in writing by the Security Trustee has been appointed.

Each amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of five years following the due date for payment of such principal (whether or not such Coupons would have become unenforceable pursuant to Condition 8).
- (iii) If the relevant Quarterly Payment Date is not a day on which banks are open for business in the place of presentation of the relevant Note or Coupon ("**Local Business Day**"), the holder thereof shall not be entitled to payment until the next following Local Business Day, or to any interest or other payment in respect of such delay, provided that in the case of payment by transfer to an euro account as referred to above, the Paying Agent shall not be obliged to credit such account until the Local Business Day immediately following the day on which banks are open for business in the Netherlands and the United Kingdom. The name of the Paying Agent and details of its office are set out below.
- (iv) The Issuer reserves the right at any time to vary or terminate the appointment of the Paying Agent and to appoint additional or other paying agents provided that no paying agent located in the United States of America will be appointed and that the Issuer will at all times maintain a paying agent having a specified office in the European Union which, for as long as the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes) are listed on Euronext Amsterdam shall be located in the Netherlands, and provided further that the Issuer will maintain a paying agent in an EU Member State that will not be obliged to withhold or deduct any tax pursuant to the EU Council Directive 2003/48/EC. Notice of any termination or appointment of a Paying Agent and of any changes in the specified offices of the Paying Agents will be given to the Noteholders in accordance with Condition 13.

(including any change in the Bank Regulations enacted for purposes of implementing a change to the Basle Accord) or a change in the manner in which the Basle Accord or such Bank Regulations are interpreted or applied by the Basle Committee on Banking Supervision or by any relevant competent international, European or national body (including any relevant international, European or Dutch Central Bank or other competent regulatory or supervisory authority) which, in the opinion of DSB Bank N.V. has the effect of adversely affecting the rate of return on capital of DSB Bank N.V. or increasing the costs or reducing the benefit to DSB Bank N.V. with respect to the transaction contemplated by the

Transaction Documents (a "**Regulatory Change**").

(h) Redemption of Subordinated Class E Notes

Provided that no Enforcement Notice has been served in accordance with Condition 10, the Issuer will be obliged to apply the Notes Interest Available Amounts, if and to the extent that all payments ranking above item (m) in the Interest Priority of Payments as set forth in the Trust Deed have been made in full, to redeem (or partially redeem) the Subordinated Class E Notes on each Quarterly Payment Date.

Any amount redeemed pursuant to this Condition 6(h) shall be deemed to be a Principal Redemption Amount for the purpose of calculating the Principal Amount Outstanding of the Subordinated Class E Notes in accordance with Condition 6(d). Unless previously redeemed in full, the Issuer will, subject to Condition 9(b), redeem the Subordinated Class E Notes at their Principal Amount Outstanding on the Quarterly Payment Date falling in January 2044.

(i) Redemption for tax reasons

The Issuer may (but is not obliged to) redeem all of the Notes (other than the Subordinated Class E Notes), in whole (but not only some of), at their Principal Amount Outstanding plus accrued but unpaid interest thereon, less in the case of the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes an amount equal to the balance on the relevant sub-ledger of the Principal Deficiency Ledger divided by the number of Notes outstanding in the relevant Class of Notes, after payment of the amounts to be paid in priority to the Notes, if (a) the Issuer or the Paying Agent has become or would become obligated to make any withholding or deduction from payments in respect of any of the Notes (although the Issuer will not have any obligation to pay additional amounts in respect of any such withholding or deduction) and/or (b) the Issuer has become or would become subject to any limitation of the deductibility of interest on any of the Notes, as a result of (i) a change in any laws, rules or regulations or in the interpretation or administration thereof, or (ii) any act taken by any taxing authority on or after the issue date of the Notes. No redemption pursuant to sub-clause (ii) may be made unless the Issuer receives an opinion of independent counsel that there is a probability that the act taken by the taxing authority leads to one of the events mentioned at (a) or (b).

7. Taxation

All payments of, or in respect of, principal and interest on the Notes will be made without withholding of, or deduction for or on account of, any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or charges is required by law. In that event, the Issuer or the Paying Agent (as applicable) will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not be obliged to pay any additional amounts to such Noteholders.

8. Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons shall become prescribed unless made within five (5) years from the date on which such payment first becomes due.

9. Principal Deficiency and Subordination

(a) Interest

Interest on the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes and the Subordinated Class E Notes shall be payable in accordance with the provisions of Conditions 4 and 5, subject to the terms of this Condition and subject to the provisions of the Trust Deed.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Mezzanine Class B Notes on the next Quarterly Payment Date, the amount available (if any) shall be applied pro rata to the amount of interest due on such Quarterly Payment Date to the holders of the Mezzanine Class B Notes. In the event of a shortfall, the Issuer shall credit the Mezzanine Class B Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Mezzanine Class B Notes, on any Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Mezzanine Class B Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Mezzanine Class B Notes for such period, and a pro rata share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Mezzanine Class B Note on the next succeeding Quarterly Payment Date.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Mezzanine Class C Notes on the next Quarterly Payment Date, the amount available (if any) shall be applied pro rata to the amount of interest due on such Quarterly Payment Date to the holders of the Mezzanine Class C Notes. In the event of a shortfall, the Issuer shall credit the Mezzanine Class C Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Mezzanine Class C Notes, on any Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Mezzanine Class C Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Mezzanine Class C Notes for such period, and a pro rata share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Mezzanine Class C Note on the next succeeding Quarterly Payment Date.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Junior Class D Notes on the next Quarterly Payment Date, the amount available (if any) shall be applied pro rata to the amount of interest due on such Quarterly Payment Date to the holders of the Junior Class D Notes. In the event of a shortfall, the Issuer shall credit the Junior Class D Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Junior Class D Notes, on any Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Junior Class D Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Junior Class D Notes for such period, and a pro rata share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Junior Class D Note on the next succeeding Quarterly Payment Date.

In the event that on any Notes Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Subordinated Class E Notes on the next Quarterly Payment Date, the amount available (if any) shall be applied pro rata to the amount of interest due on such Quarterly Payment Date to the holders of the Subordinated Class E Notes. In the event of a shortfall, the Issuer shall credit the Subordinated Class E Notes Interest Shortfall Ledger (as defined in the Master Definitions Agreement), with an amount equal to the amount by which the aggregate amount of interest paid on the Subordinated Class E Notes, on any Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Subordinated Class E Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Subordinated Class E Notes for such period, and a pro rata share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Subordinated Class E Note on the next succeeding Quarterly Payment Date.

(b) Principal

Until the earlier of (i) introduction of the Pro Rata Amortisation, and (ii) the date on which the Principal Amount Outstanding of all Senior Class A Notes is reduced to zero, the holders of the Mezzanine Class B Notes will not be entitled to any repayment of principal in respect of the Mezzanine Class B Notes. As from that date the Principal Amount Outstanding of the Mezzanine Class B Notes will be redeemed in accordance with the provisions of Condition 6, provided that, if, on any Quarterly Payment Date there is a balance on the Class B Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Mezzanine Class B Note on such Quarterly Payment Date shall not exceed its Principal Amount Outstanding less an amount equal to the balance on the Class B Principal Deficiency on such date

divided by the number of Mezzanine Class B Notes then outstanding. The Mezzanine Class B Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Mezzanine Class B Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

Until the earlier of (i) introduction of the Pro Rata Amortisation, and (ii) the date on which the Principal Amount Outstanding of all Senior Class A Notes is reduced to zero and the Principal Amount Outstanding of the Mezzanine Class B Notes is reduced to zero, the Mezzanine Class C Noteholders will not be entitled to any repayment of principal in respect of the Mezzanine Class C Notes. As from that date the Principal Amount Outstanding of the Mezzanine Class C Notes will be redeemed in accordance with the provisions of Condition 6, provided that, if, on any Quarterly Payment Date there is a balance on the Class C Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Mezzanine Class C Note on such Quarterly Payment Date shall not exceed its Principal Amount Outstanding less an amount equal to the balance on the Class C Principal Deficiency on such date divided by the number of Mezzanine Class C Notes then outstanding. The Mezzanine Class C Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Mezzanine Class C Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

Until the earlier of (i) introduction of the Pro Rata Amortisation, and (ii) the date on which the Principal Amount Outstanding of all Senior Class A Notes is reduced to zero, the Principal Amount Outstanding of the Mezzanine Class B Notes is reduced to zero and the Principal Amount Outstanding of the Mezzanine Class C Notes is reduced to zero, the Junior Class D Noteholders will not be entitled to any repayment of principal in respect of the Junior Class D Notes. As from that date the Principal Amount Outstanding of the Junior Class D Notes will be redeemed in accordance with the provisions of Condition 6, provided that, if, on any Quarterly Payment Date there is a balance on the Class D Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Junior Class D Note on such Quarterly Payment Date shall not exceed its Principal Amount Outstanding less an amount equal to the balance on the Class D Principal Deficiency on such date divided by the number of Junior Class D Notes then outstanding. The Junior Class D Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Junior Class D Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

If on any Notes Calculation Date all amounts of interest and principal due in respect of the Notes, except for principal in respect of the Subordinated Class E Notes, have been paid or will be available for payment on the Quarterly Payment Date immediately following such Notes Calculation Date, the Reserve Account Target Level will be reduced to zero and any amount standing to the credit of the

Reserve Account will on the Quarterly Payment Date immediately succeeding such Notes Calculation Date form part of the Notes Interest Available Amounts and will be available to redeem or partially redeem the Subordinated Class E Notes. If on the Quarterly Payment Date on which all amounts of interest and principal due in respect of the Notes, except for principal in respect of the Subordinated Class E Notes, have been paid or will be paid (i) no balance is standing to the credit of the Reserve Account in excess of the Reserve Account Target Level, then notwithstanding any other provisions of these Conditions the Subordinated Class E Noteholders will not be entitled to any repayment of principal in respect of the Subordinated Class E Notes, or (ii) a balance is standing to the credit of the Reserve Account in excess of the Reserve Account Target Level, then notwithstanding any other provisions of these Conditions the principal amount payable on the redemption of each Subordinated Class E Note on such date shall not exceed the balance standing to the credit of the Reserve Account in excess of the Reserve Account Target Level, divided by the number of Subordinated Class E Notes then outstanding. The Subordinated Class E Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Subordinated Class E Notes after the earlier of (i) the Final Maturity Date and (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Issuer Accounts.

(c) General/limited recourse

In the event that the Security in respect of the Notes and the Coupons appertaining thereto has been fully enforced and the proceeds of such enforcement, after payment of all other claims ranking under the Trust Deed in priority to the Subordinated Class E Notes or, as the case may be, the Junior Class D Notes or, as the case may be, the Mezzanine Class C Notes or, as the case may be, the Mezzanine Class B Notes, are insufficient to pay in full all principal and interest and other amounts whatsoever due in respect of the Subordinated Class E Notes or, as the case may be, the Junior Class D Notes, or, as the case may be, the Mezzanine Class C Notes or, as the case may be, the Mezzanine Class B Notes, the Subordinated Class E Noteholders or, as the case may be, the Junior Class D Noteholders or, as the case may be, the Mezzanine Class C Noteholders or, as the case may be, the Mezzanine Class B Noteholders shall have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

10. Events of Default

The Security Trustee at its discretion may or, if so directed by an Extraordinary Resolution of the Senior Class A Noteholders or if no Senior Class A Notes are outstanding, by an Extraordinary Resolution of the Mezzanine Class B Noteholders or, if no Senior Class A Notes and Mezzanine Class B Notes are outstanding, by an Extraordinary Resolution of the Mezzanine Class C Noteholders or, if no Senior Class A Notes, Mezzanine Class B Notes and Mezzanine Class C Notes are outstanding, by an Extraordinary Resolution of the Junior Class D Noteholders, or if no Senior Class A Notes, Mezzanine Class B Notes, Mezzanine Class C Notes and Junior Class D Notes are outstanding, by an Extraordinary Resolution of the Subordinated Class E Noteholders (subject, in each case, to being indemnified to its satisfaction) (in each case, the "**Relevant Class**") shall (but in the case of the occurrence of the event mentioned in

subparagraph (b) below, only if the Security Trustee shall have certified in writing to the Issuer that such an event is, in its opinion, materially prejudicial to the Noteholders of the Relevant Class) give notice (an "**Enforcement Notice**") to the Issuer that the Notes are, and each Note shall become, immediately due and payable at their or its Principal Amount Outstanding, together with accrued but unpaid interest, if any of the following shall occur:

- (a) the Issuer is in default for a period of fifteen (15) days or more in the payment on the due date of any amount due in respect of the Notes of the Relevant Class; or
- (b) the Issuer fails to perform any of its other obligations binding on it under the Notes of the Relevant Class, the Trust Deed, the Paying Agency Agreement or the Pledge Agreements and, except where such failure, in the reasonable opinion of the Security Trustee, is incapable of remedy, such default continues for a period of thirty (30) days after written notice by the Security Trustee to the Issuer requiring the same to be remedied; or
- (c) if a conservatory attachment (*conservatoir beslag*) or an executory attachment (*executoriaal beslag*) on any major part of the Issuer's assets is made and not discharged or released within a period of thirty (30) days; or
- (d) if any order shall be made by any competent court or other authority or a resolution passed for the dissolution or winding-up of the Issuer or for the appointment of a liquidator or receiver of the Issuer in respect of all or substantially all of its assets; or
- (e) the Issuer makes an assignment for the benefit of, or enters into any general assignment (*akkoord*) with, its creditors; or
- (f) the Issuer files a petition for a suspension of payments (*surseance van betaling*) or for bankruptcy (*faillissement*), is declared bankrupt or becomes subject to any other regulation having a similar effect,

provided, however, that, if Senior Class A Notes are outstanding, no Enforcement Notice may or shall be given by the Security Trustee to the Issuer in respect of the Mezzanine Class B Notes, the Mezzanine Class C Notes, the Junior Class D Notes or the Subordinated Class E Notes, irrespective of whether an Extraordinary Resolution is passed by the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Notes or the Subordinated Class E Noteholders, unless an Enforcement Notice in respect of the Senior Class A Notes has been given by the Security Trustee. In exercising its discretion as to whether or not to give an Enforcement Notice to the Issuer in respect of the Senior Class A Notes, the Security Trustee shall not be required to have regard to the interests of the Mezzanine Class B Noteholders or the Mezzanine Class C Noteholders or the Junior Class D Noteholders or the Subordinated Class E Noteholders.

11. Enforcement

(a) Enforcement

At any time after the Notes of any Class become due and payable, the Security Trustee may, at its discretion and without further notice, take such steps and/or institute such proceedings as it may think fit to enforce the Security pursuant to the terms of the Trust Deed and the Pledge Agreements, including the making of a demand for payment thereunder, but it need not take any such proceedings unless (i) it shall have been directed by an Extraordinary Resolution of the Senior Class A Noteholders or, if all amounts due in respect of the Senior Class A Notes have been fully paid, the Mezzanine Class B Noteholders or, if all amounts due in respect of the Senior Class A Notes and the Mezzanine Class B Notes have been fully paid, the Mezzanine Class C Noteholders or, if all amounts due in respect of the Senior Class A Notes, the Mezzanine Class B Notes and the Mezzanine Class C Notes have been fully paid, the Junior Class D Noteholders or, if all amounts due in respect of the Senior Class A Notes, the Mezzanine Class B Notes, the Mezzanine Class C Notes and the Junior Class D Notes have been fully paid, the Subordinated Class E Noteholders and (ii) it shall have been indemnified to its satisfaction. The Security Trustee will enforce the Security pursuant to the terms of the Trust Deed and the Pledge Agreements for the benefit of all Security Beneficiaries, including, but not limited to, the Noteholders, and will apply the net proceeds received or recovered towards satisfaction of the Parallel Covenant. The Security Trustee shall distribute such net proceeds to the Security Beneficiaries in accordance with the Post-Enforcement Priority of Payments set forth in the Trust Deed.

(b) No Action against Issuer by Noteholders

No Noteholder may proceed directly against the Issuer unless the Security Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.

(c) Undertaking Noteholders and Security Trustee

The Noteholders and the Security Trustee undertake that they will not institute against, or join any person in instituting against, the Issuer any bankruptcy, winding-up, reorganisation, arrangement, insolvency or liquidation proceeding until the expiry of a period of at least one (1) year after the last maturing Note is paid in full.

(d) Limitation of Recourse

The Noteholders accept and agree that the only remedy of the Security Trustee against the Issuer after any of the Notes have become due and payable pursuant to Condition 10 above is to enforce the Security.

12. Indemnification of the Security Trustee

The Trust Deed contains provisions for the indemnification of the Security Trustee and for its relief from responsibility. The Security Trustee is entitled to enter into commercial transactions with the Issuer and/or

any other party to the Transactions without accounting for any profit resulting from such transaction.

13. Notices

With the exception of the publications of the Reference Agent in Condition 4 and of the Issuer in Condition 6, all notices to the Noteholders will only be valid if published in at least one daily newspaper of wide circulation in the Netherlands, or, if all such newspapers shall cease to be published or timely publication therein shall not be practicable, in such newspaper as the Security Trustee shall approve having a general circulation in Europe and, as long as the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes) are listed on Euronext Amsterdam, in the English language in the Daily Official List (*Officiële Prijscourant*) of Euronext Amsterdam to the extent required and on www.atccapitalmarkets.com. Any such notice shall be deemed to have been given on the first date of such publication.

14. Meetings of Noteholders; Modification; Consents; Waiver

(a) *Meeting of Noteholders*

The Trust Deed contains provisions for convening meetings of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Noteholders and the Subordinated Class E Noteholders to consider matters affecting the interests, including the sanctioning by Extraordinary Resolution, of such Noteholders of the relevant Class of a change of any of these Conditions or any provisions of the Transaction Documents, provided that no change of certain terms by the Noteholders of any Class including the date of maturity of the Notes of the relevant Class, or a change which would have the effect of postponing any day for payment of interest in respect of such Notes, reducing or cancelling the amount of principal payable in respect of such Notes or altering the majority required to pass an Extraordinary Resolution or any alteration of the date or priority of redemption of such Notes (any such change in respect of any such class of Notes referred to below as a **"Basic Terms Change"**) shall be effective except that, if the Security Trustee is of the opinion that such a Basic Terms Change is being proposed by the Issuer as a result of, or in order to avoid, an Event of Default, such Basic Terms Change may be sanctioned by an Extraordinary Resolution of the Noteholders of the relevant Class of Notes as described below.

A meeting as referred to above may be convened by the Issuer or by Noteholders of any Class holding not less than 10 per cent. in Principal Amount Outstanding of the Notes of such Class. The quorum for any meeting convened to consider an Extraordinary Resolution for any Class of Notes will be two-thirds of the Principal Amount Outstanding of the Notes of the relevant Class, as the case may be, and at such a meeting an Extraordinary Resolution shall be adopted with not less than a two-third majority of the validly cast votes, except that the quorum required for an Extraordinary Resolution including the sanctioning of a Basic Terms Change shall be at least 75 per cent. of the amount of the Principal Amount Outstanding of the Notes of the relevant Class and the

majority required shall be at least 75 per cent. of the validly cast votes in respect of that Extraordinary Resolution. If at such meeting the aforesaid quorum is not represented, a second meeting of Noteholders will be held within one month, with due observance of the same formalities for convening the meeting which governed the convening of the first meeting; at such second meeting an Extraordinary Resolution can be adopted with not less than a two-thirds majority of the validly cast votes, except that for an Extraordinary Resolution including a sanctioning of a Basic Terms Change the majority required shall be 75 per cent. of the validly cast votes, regardless of the Principal Amount Outstanding of the Notes of the relevant Class then represented, except if the Extraordinary Resolution relates to the removal and replacement of any or all of the managing directors of the Security Trustee, in which case at least 30 per cent. of the Notes of the relevant Class should be represented at such second meeting.

No Extraordinary Resolution of the Noteholders of a Class of Notes to sanction a Basic Terms Change in respect of the relevant Class of Notes, shall take effect unless it shall have been sanctioned by a resolution which is passed at a meeting of all Noteholders and adopted with a majority of 51 per cent. of the validly cast votes, regardless of the Principal Amount Outstanding of the Notes then represented.

An Extraordinary Resolution of the Mezzanine Class B Noteholders and/or the Mezzanine Class C Noteholders and/or the Junior Class D Noteholders and/or the Subordinated Class E Noteholders shall only be effective when the Security Trustee is of the opinion that it will not be materially prejudicial to the interests of the Senior Class A Noteholders and/or, as the case may be, the Mezzanine Class B Noteholders and/or, as the case may be, the Mezzanine Class C Noteholders and/or, as the case may be, the Junior Class D Noteholders or it is sanctioned by an Extraordinary Resolution of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders or the Junior Class D Noteholders, as the case may be. The Trust Deed imposes no such limitations on the powers of the Senior Class A Noteholders, the exercise of which will be binding on the Mezzanine Class B Noteholders, the Mezzanine Class C Noteholders, the Junior Class D Noteholders and the Subordinated Class E Noteholders, irrespective of the effect on their interests.

Any Extraordinary Resolution duly passed shall be binding on all Noteholders of the relevant Class (whether or not they were present at the meeting at which such resolution was passed).

(b) Voting

Each Note carries one vote. The Issuer and its affiliates may not vote on any Notes held by them directly or indirectly. Such Notes will not be taken into account in calculating the aggregate outstanding amount under the Notes.

(c) Modification, authorisation and waiver without consent of Noteholders

The Security Trustee may agree, without the consent of the Noteholders, to (i) any modification of

any of the provisions of the Transaction Documents which is of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification (except if prohibited in the Transaction Documents), and any waiver or authorisation of any breach or proposed breach of any of the provisions of the Transaction Documents which is in the opinion of the Security Trustee not materially prejudicial to the interests of the Noteholders, provided that (i) the Security Trustee has notified the Rating Agency and (ii) the Rating Agency has confirmed that the then current rating of the Notes (other than the Junior Class D Notes and the Subordinated Class E Notes) will not be adversely affected by any such modification, authorisation or waiver. Any such modification, authorisation or waiver shall be binding on the Noteholders and, if the Security Trustee so requires, such modification shall be notified to the Noteholders in accordance with Condition 13 as soon as practicable thereafter.

(d) *Indemnification for individual Noteholders*

In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Security Trustee shall have regard to the interests of the Senior Class A Noteholders and the Mezzanine Class B Noteholders and the Mezzanine Class C Noteholders and the Junior Class D Noteholders and the Subordinated Class E Noteholders each as a Class and shall not have regard to the consequences of such exercise for individual Noteholders and the Security Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

15. Replacements of Notes and Coupons

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the office of the Paying Agent upon payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered, in the case of Notes together with all unmatured Coupons appertaining thereto, and in the case of Coupons together with the Note and all unmatured Coupons to which they appertain (*mantel en blad*), before replacements will be issued.

16. Governing Law

The Notes and Coupons are governed by, and will be construed in accordance with, the laws of the Netherlands. In relation to any legal action or proceedings arising out of or in connection with the Notes and Coupons the Issuer irrevocably submits to the jurisdiction of the Court of first instance (*rechtbank*) in Amsterdam, the Netherlands. This submission is made for the exclusive benefit of the holders of the Notes and the Security Trustee and shall not affect their right to take such action or bring such proceedings in any other courts of competent jurisdiction.

THE GLOBAL NOTES

Each Class of the Notes shall be initially represented by (i) in the case of the Senior Class A Notes a Temporary Global Note in bearer form, without coupons attached, in the principal amount of € 980,850,000, (ii) in the case of the Mezzanine Class B Notes a Temporary Global Note in bearer form, without coupons attached, in the amount of € 17,050,000, (iii) in the case of the Mezzanine Class C Notes a Temporary Global Note in bearer form, without coupons attached, in the amount of € 37,300,000, (iv) in the case of the Junior Class D Notes a Temporary Global Note in bearer form without coupons attached, in the amount of € 29,800,000, (v) in the case of the Subordinated Class E Notes a Temporary Global Note in bearer form without coupons attached, in the amount of € 16,000,000. Each Temporary Global Note will be deposited with Euroclear Bank S.A./N.V. as common safekeeper and operator of the Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**") on or about 17 December 2008. Upon deposit of each such Temporary Global Note, Euroclear and Clearstream, Luxembourg will credit each purchaser of Notes represented by such Temporary Global Note with the amount of the relevant Class of Notes equal to the amount thereof which it has purchased and paid for. Interests in each Temporary Global Note will be exchangeable (provided certification of non-U.S. beneficial ownership by the Noteholders has been received) not earlier than forty (40) days after the issue date of the Notes (the "**Exchange Date**") for interests in a permanent global note (each a "**Permanent Global Note**"), in bearer form, without coupons attached, in the amount of the Notes of the relevant Class (the expression "**Global Notes**" meaning the Temporary Global Notes of each Class and the Permanent Global Notes of each Class and the expression "**Global Note**" means any of them, as the context may require). On the exchange of a Temporary Global Note for a Permanent Global Note of the relevant Class, the Permanent Global Note will remain deposited with the common safekeeper.

The Notes are intended to be held in a manner which will allow Eurosystem eligibility. This simply means that the Notes are intended upon issue to be deposited with one of the international central securities depositaries as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The nominal amount of Notes represented by the Global Notes shall be the aggregate amount from time to time entered in the records of Clearstream, Luxembourg and/or Euroclear. The records of Clearstream, Luxembourg and/or Euroclear (the records that each of Clearstream, Luxembourg and/or Euroclear holds for its customers which reflect the amount of such customer's interest in the Notes) shall be conclusive evidence of the nominal amount of Notes represented by the Global Notes and, for these purposes, a statement issued by Clearstream, Luxembourg and/or Euroclear (which statement shall be made available to the bearer upon request) stating the nominal amount of Notes represented by the Global Notes at any time shall be conclusive evidence of the records of Clearstream, Luxembourg and/or Euroclear at that time.

The Global Notes will be transferable by delivery. Each Permanent Global Note will be exchangeable for definitive notes to bearer (the "**Definitive Notes**") only in the circumstances described below. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note will be entitled to

receive any payment made in respect of that Note in accordance with the respective rules and procedures of Euroclear or, as the case may be, Clearstream, Luxembourg. Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes, which must be made by the holder of a Global Note, for so long as such Global Note is outstanding. Each person must give a certificate as to non-U.S. beneficial ownership as of the date on which the Issuer is obliged to exchange a Temporary Global Note for a Permanent Global Note, which date shall be no earlier than the Exchange Date, in order to obtain any payment due on the Notes.

For so long as any Notes are represented by a Global Note, such Notes will be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as appropriate.

For so long as all of the Notes are represented by the Global Notes and such Global Notes are held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant accountholders rather than by publication as required by Condition 13 (provided that, in the case of any publication required by a stock exchange, that stock exchange agrees or, as the case may be, any other publication requirement of such stock exchange will be met). Any such notice shall be deemed to have been given to the Noteholders on the seventh day after the day on which such notice is delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

For so long as a Class of the Notes are represented by a Global Note, each person who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of that Class of Notes will be treated by the Issuer and the Security Trustee as a holder of such amount of that Class of Notes and the expression 'Noteholder' shall be construed accordingly, but without prejudice to the entitlement of the bearer of the relevant Global Note to be paid on the principal amount thereof and interest with respect thereto in accordance with and subject to its terms. Any statement in writing issued by Euroclear or Clearstream, Luxembourg as to the persons shown in its records as being entitled to such Notes and the respective principal amount of such Notes held by them shall be conclusive for all purposes.

If after the Exchange Date (i) the Notes become immediately due and payable by reason of accelerated maturity following an Event of Default, or (ii) either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of fourteen (14) days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Security Trustee is available, or (iii) as a result of any amendment to, or change in the laws or regulations of the Netherlands (or of any political sub-division thereof) or of any authority therein or thereof having power to tax, or in the interpretation or administration of such laws or regulations, which becomes effective on or after the Closing Date, the Issuer or the Paying Agent is or will be required to make any deduction or withholding on account of tax from any payment in respect of the Notes which would not be required were the Notes in definitive form, then the Issuer will at its sole cost and expense, issue:

- (i) Senior Class A Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Senior Class A Notes;

- (ii) Mezzanine Class B Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Mezzanine Class B Notes;
- (iii) Mezzanine Class C Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Mezzanine Class C Notes;
- (iv) Junior Class D Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Junior Class D Notes; and
- (v) Subordinated Class E Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Subordinated Class E Notes.

in each case within thirty (30) days of the occurrence of the relevant event, subject in each case to certification as to non-U.S. beneficial ownership.

TAXATION IN THE NETHERLANDS

This is a general summary and the tax consequences as described here may not apply to a holder of Notes. Any potential investor should consult his tax adviser for more information about the tax consequences of acquiring, owning and disposing of Notes in his particular circumstances.

This taxation summary solely addresses the principal Dutch tax consequences of the acquisition, the ownership and disposition of Notes. It does not consider every aspect of taxation that may be relevant to a particular holder of Notes under special circumstances or who is subject to special treatment under applicable law. Where in this summary English terms and expressions are used to refer to Dutch concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Dutch concepts under Dutch tax law.

This summary is based on the tax law of the Netherlands (unpublished case law not included) as it stands at the date of this Offering Circular. The law upon which this summary is based is subject to change, perhaps with retroactive effect. Any such change may invalidate the contents of this summary, which will not be updated to reflect such change. This summary assumes that each transaction with respect to Notes is at arm's length.

Withholding tax

All payments under the Notes may be made free from withholding or deduction of or for any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority of the Netherlands or in the Netherlands.

Taxes on income and capital gains

The summary set out in this section *Taxes on income and capital gains* only applies to a holder of Notes who is neither resident nor deemed to be resident in the Netherlands for the purposes of Dutch income tax or corporation tax, as the case may be, and who, in the case of an individual, has not elected to be treated as a resident of the Netherlands for Dutch income tax purposes (a **"Non-Resident holder of Notes"**).

Individuals

A Non-Resident holder of Notes who is an individual will not be subject to any Dutch taxes on income or capital gains in respect of benefits derived or deemed to be derived from Notes, including any payment under Notes and any gain realised on the disposal of Notes, except if:

1. he derives profits from an enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net value of such enterprise, other than as a shareholder, such enterprise either being managed in the Netherlands or carried on, in whole or in part, through a permanent establishment or a permanent representative in the Netherlands and his Notes are attributable to such enterprise; or
2. he derives benefits or is deemed to derive benefits from Notes that are taxable as benefits from miscellaneous activities in the Netherlands (*resultaat uit overige werkzaamheden in Nederland*).

If a holder of Notes is an individual who does not come under exception 1. above, and if he derives or is deemed to derive benefits from Notes, including any payment thereunder and any gain realised on the disposal thereof, such benefits are taxable as benefits from miscellaneous activities in the Netherlands if he, or an individual who is a connected person in relation to him as meant by article 3.91, paragraph 2, letter b or c, of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), has a substantial interest (*aanmerkelijk belang*) in the Issuer.

A person has a substantial interest in the Issuer if such person – either alone or, in the case of an individual, together with his partner (partner), if any – owns, directly or indirectly, either (a) a number of shares representing five per cent. or more of the total issued and outstanding capital (or the issued and outstanding capital of any class of shares) of the Issuer, or (b) rights to acquire, directly or indirectly, shares, whether or not already issued, representing five per cent. or more of the total issued and outstanding capital (or the issued and outstanding capital of any class of shares) of the Issuer, or (c) profit participating certificates (*winstbewijzen*) relating to five per cent. or more of the annual profit of the Issuer or to five per cent. or more of the liquidation proceeds of the Issuer.

A person who is entitled to the benefits from shares or profit participating certificates (for instance a holder of a right of usufruct) is deemed to be a holder of shares or profit participating certificates, as the case may be, and such person's entitlement to such benefits is considered a share or a profit participating certificate, as the case may be.

Furthermore, a holder of Notes who is an individual and who does not come under exception 1. above may, *inter alia*, derive benefits from Notes that are taxable as benefits from miscellaneous activities in the following circumstances, if such activities are performed or deemed to be performed in the Netherlands:

- (a) if his investment activities go beyond the activities of an active portfolio investor, for instance in case of the use of insider knowledge (*voorkennis*) or comparable forms of special knowledge; or
- (b) if he makes Notes available or is deemed to make Notes available, legally or in fact, directly or indirectly, to certain parties as meant in articles 3.91 and 3.92 of the Dutch Income Tax Act 2001 under circumstances described there.

Attribution rule

Benefits derived or deemed to be derived from certain miscellaneous activities by a child or a foster child who is under eighteen years of age, are attributed to the parent who exercises, or the parents who exercise, authority over the child, regardless of whether the child is resident in the Netherlands or abroad.

Entities

A Non-Resident holder of Notes other than an individual will not be subject to any Dutch taxes on income or capital gains in respect of benefits derived or deemed to be derived from Notes, including any payment under Notes or any gain realised on the disposal of Notes, except if:

- (a) such Non-Resident holder of Notes derives profits from an enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net value of such enterprise, other than as a holder of securities, such enterprise either being managed in the Netherlands or carried on, in whole or in part, through a permanent establishment or a permanent representative in the Netherlands, and its Notes are attributable to such enterprise; or
- (b) such Non-Resident holder of Notes has a substantial interest (as described above under Individuals) or a deemed substantial interest in the Issuer.

A deemed substantial interest may be present if its shares, profit participating certificates or rights to acquire shares or profit participating certificates in the Issuer have been acquired or are deemed to have been acquired on a non-recognition basis.

General

Subject to the above, a Non-Resident holder of Notes will not be subject to income taxation in the Netherlands by reason only of the execution (*ondertekening*), delivery (*overhandiging*) and/or enforcement of the documents relating to the issue of Notes or the performance by the Issuer of its obligations under such documents or under the Notes.

Gift and inheritance taxes

A person who acquires Notes as a gift, in form or in substance, or who acquires or is deemed to acquire Notes on the death of an individual, will not be subject to Dutch gift tax or to Dutch inheritance tax, as the case may be, unless:

- (i) the donor is, or the deceased was resident or deemed to be resident in the Netherlands for purposes of gift or inheritance tax, as the case may be; or
- (ii) the Notes are or were attributable to an enterprise or part of an enterprise that the donor or the deceased carried on through a permanent establishment or a permanent representative in the Netherlands at the time of the gift or of the death of the deceased; or
- (iii) the donor made a gift of Notes, then became a resident or deemed resident of the Netherlands, and died as a resident or deemed resident of the Netherlands within 180 days of the date of the gift.

Other taxes and duties

No Dutch registration tax, transfer tax, stamp duty or any other similar documentary tax or duty, other than court fees, is payable in the Netherlands in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including the enforcement of any foreign judgment in the courts of the Netherlands) of the Transaction Documents or the performance by the Issuer of its obligations under the Transaction Documents or under the Notes or in respect of or in connection with the transfer of the Notes.

PURCHASE AND SALE

The Notes Purchaser has, pursuant to a notes purchase agreement dated the Signing Date by and between the Notes Purchaser, the Issuer and the Seller (the "**Notes Purchase Agreement**"), severally agreed with the Issuer, subject to certain conditions, to subscribe for the Notes at their issue price. The Issuer has agreed to indemnify and reimburse the Notes Purchaser against certain liabilities and expenses in connection with the issue of the Notes.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), the Notes Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular to the public in that Relevant Member State other than:

- (a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than € 43,000,000; and (3) an annual net turnover of more than € 50,000,000, as shown in its last annual or consolidated accounts; or
- (c) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Notes shall require the Issuer or the Notes Purchaser to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive

For the purposes of this provision, the expression an offer of Notes to the public in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The Netherlands

The Notes Purchaser has represented and agreed that (a) it is a PMP and (b) it has offered or sold and will offer or sell, directly or indirectly, as part of the initial distribution or at any time thereafter, the Notes exclusively to PMP's.

United Kingdom

The Notes Purchaser has represented, warranted and agreed that (i) it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom and (ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer.

United States

Legend I

Regulation S. The Notes have not been registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under any state securities laws of the United States. Therefore, the Notes may not be offered, sold, assigned, transferred, pledged encumbered or otherwise disposed of within the United States to or for the account or benefit of any U.S. Person (as defined in Regulation S promulgated under the Securities Act) unless the offer or sale would qualify for a registration exemption under the Securities Act and state securities laws. Accordingly, the Notes are only being offered outside the United States to persons other than U.S. Persons in reliance upon Regulation S under the Securities Act. Each purchaser (not including the Note Purchaser) of Notes offered outside the United States pursuant to Regulation S and each subsequent purchaser of such Notes in re-sales during the period which expires on and includes the 40th day after the later of the commencement of the offering of the Notes and the closing date of the offering of the Notes will be deemed to have represented, agreed and acknowledged as follows:

1. The purchaser is not a U.S. Person and was located outside the United States at the time the offer to buy the Notes was made to the purchaser and at the time the buy order for the Notes was originated.
2. The purchaser will not offer, sell or otherwise transfer the Notes except (a) pursuant to an effective registration statement under the Securities Act, or (b) outside the United States in an offshore transaction in compliance with Regulation S, or (c) pursuant to any other exemption from registration under the Securities Act (if available), and in each case in accordance with any applicable securities laws of any state of the United States.

Legend II

Securities Act of 1933. The Notes have not been registered under any US federal or state securities laws. The offer and sale of the Notes in the United States or to or for the account or benefit of US Persons will be made solely to selected investors who qualify as "accredited investors" (i) in reliance on the "private placement" exemption from registration provided in Section 4(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder and (ii) in reliance on appropriate exemptions from state registration and qualification requirements where available. Each prospective US investor will be required to execute a Subscription Agreement which, among other things, contains representations and warranties as to its accredited investor status, as defined in Regulation D, and general suitability for an investment in the Notes. An investor must also represent and warrant that (a) it is acquiring the Notes for its own account, for investment only and not with a

view for the resale or distribution thereof, and (b) it is aware that the Notes have not been registered under the Securities Act or any applicable state securities laws, there is currently no market for the Notes and no market is likely to develop and the right to transfer the Notes is restricted by the Securities Act, applicable state securities laws and the Offering Circular. The Notes have not been registered under the Securities Act and are, therefore, “restricted securities” for purposes of the Securities Act. Accordingly, the Notes may not be resold in the United States unless they are registered under the Securities Act and applicable state securities laws or an exemption from such registration is available. There is no public market for the Notes and none is expected to develop.

Investment Company Act of 1940. The Issuer will not be registered under the US Investment Company Act of 1940, as amended (the “**1940 ACT**”), and it is not intended that the Issuer will operate as a registered investment company thereunder. As a result, the Issuer will not be subject to regulation under the 1940 Act, which includes rules for the protection of investors that, among other things, (i) require investment companies to have a majority of disinterested directors and (ii) regulate the relationship between an investment adviser and an investment company. Investors in the Notes will, therefore, not have these protections under the 1940 Act. Each prospective US investor will be required to execute a Note Purchase Agreement which, among other things, contains representations and warranties as to its qualified purchaser status.

Service of Process. The Issuer and its respective officers are not residents of the United States and all or a substantial portion of the assets of such persons are located outside of the United States. As a result, it may not be possible for investors to effect service of process within the United States on such parties or to enforce against them judgments of United States courts. Further, civil liabilities predicated on federal or state securities laws, in original actions or in actions for enforcement of judgments of United States courts, may not be enforceable in jurisdictions located outside of the United States.

Notice to investors

The Notes have not been and will not be registered under the Securities Act or any other applicable securities laws, and may not be offered or sold in the United States except pursuant to an effective registration statement or in accordance with an applicable exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and such other laws. Accordingly, the Notes (and any interests therein) are being offered and sold outside the United States to non-US persons in compliance with Regulation S under the Securities Act.

The Notes will be represented upon issuance by a temporary global security which is not exchangeable for definitive securities until the expiration of the 40-day distribution compliance period and, in the case of persons other than distributors, until certification of beneficial ownership of the Notes by a non-U.S. person or a U.S. person who purchased the Notes in a transaction that does not require registration under the Securities Act.

The Notes will bear a legend to the following effect:

"THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE 'SECURITIES ACT'), OR THE SECURITIES LAWS OF ANY STATE OF

THE UNITED STATES, AND PRIOR TO THE DATE THAT IS 40 DAYS AFTER THE LATER OF THE COMMENCEMENT OF THE OFFERING OF THE NOTES AND THE ISSUE DATE MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED IN THE UNITED STATES OR TO A US PERSON (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) EXCEPT PURSUANT TO AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES."

Because of the foregoing restrictions, purchasers of Notes are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of such securities offered and sold.

The Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) and are subject to United States tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to United States persons (see *Purchase and Sale below*).

In connection with the issue of the Notes, the Notes Purchaser or any other appointed person acting for the Notes Purchaser, may over-allot or effect transactions that stabilise or maintain the market price of the Notes at a level that might not otherwise prevail. However, there is no obligation on the Notes Purchaser to undertake these actions. Any stabilisation action may be discontinued at any time but will, in accordance with the rules of Euronext Amsterdam, in any event be discontinued at the earlier of thirty (30) days after the issue date of the Notes and sixty (60) days after the date of allotment of the Notes. Stabilisation transactions will be conducted in compliance with all applicable laws and regulations, as amended from time to time.
