

This is a public announcement by ICT Automatisering N.V. ("ICT") pursuant to Section 5:25i, paragraph 2 of the Dutch Financial Supervision Act (Wet op het Financieel Toezicht).

Barendrecht, the Netherlands 5 February 2014

UPDATE BRANDFORT TRANSACTION DEFINITIVE CONSIDERATION AGREED UPON

With reference to the press release of 2 December 2013, in which ICT Automatisering ("ICT") announced that it had reached conditional agreement with the shareholders of Brandfort B.V. ("Brandfort") on the acquisition of Brandfort by ICT, ICT today announces that the due diligence process has been completed and agreement was reached on the definitive consideration.

As communicated previously, the transaction will be structured as a partial exchange of shares in which ICT acquires all of the shares in Brandfort for newly issued ICT shares representing 9% of the outstanding shares post-closing; existing ICT shareholders will own 91% of the outstanding share capital of ICT. Instead of the earlier communicated pay-off of € 5.1 million of shareholders loans by ICT to the shareholders of Brandfort, the shareholders of Brandfort will, prior to closing of the transaction, convert the full balance of shareholders loans into equity. As a result, ICT will acquire a debt free company with € 1.3 million in cash on the balance sheet. In addition to the newly issued shares, ICT will pay an amount of € 1.3 million in cash to the shareholders of Brandfort.

The contemplated transaction will provide for an earn-out agreement based on the gross profit to be realized by the Brandfort activities in 2014. The earn-out can accrue to a maximum of € 2.2 million.

In 2013 Brandfort realized sales of EUR 16 million with a normalized EBIT margin of approximately 3%. It is expected that the transaction will result in an increase in earnings per share of 10% to 15% for ICT, within a year from closing of the transaction.

All other elements of the transaction will remain unchanged to what was communicated on 2 December 2013.

Brandfort and ICT have an excellent strategic fit and their combination will form an enlarged platform to accelerate growth. The transaction will provide both ICT and Brandfort access to a significant number of new clients and an even stronger relationship with the existing clients. Both ICT and Brandfort will gain access to additional geographical markets, as well as strengthen their position in key markets.

During the Extraordinary General Meeting scheduled on 11 February 2014 the Brandfort transaction will be further elaborated on with shareholders.
