PRESS RELEASE   Pages: 1

Barendrecht, 9 March 2006

ACQUISITION OF GERMAN COMPANY XCC FINALISED

ICT Automatisering N.V. ("ICT") has finalised the acquisition of the German company XCC Software AG (XCC), following the announcement of the intention on 28 December 2005. The acquisition strengthens ICT's position in Germany. According to expectations, XCC will directly contribute to the net profit per share in 2006.

XCC, based in Karlsruhe, is active in the field of Embedded Software Engineering Services and concentrates specifically on the automobile and machine manufacturing market. The acquisition offers ICT a good platform to further strengthen its position in the south-western region of Germany, in addition to its office in Munich which focuses on the south-eastern region in particular.

XCC has a workforce of approximately 30 and realised a turnover of approximately EUR 4 million in 2005. The results of XCC will be included in ICT's consolidated figures as per 1 January 2006.

Profile of XCC
XCC Software AG of Karlsruhe, founded in 1989, is an IT consultancy and services company focusing on customized technical and industrial software solutions. XCC specializes in Embedded Software and machine-oriented IT systems. Examples are in-car information systems, vehicle diagnosis or system platforms for prototype vehicles, as well as machine software, engineering tools, remote service applications or production portals.

Profile of ICT
ICT's activities are subdivided into the ICT Embedded and ICT Solutions divisions. ICT Embedded is market leader in the field of embedded software, in which it is a provider of software-related services. ICT Solutions focuses on the entire software development process of information systems that operate a primary process or provide information about it. Software development mainly concerns customer-specific systems. ICT's projects are conducted both in-house and at the customer's location. ICT operates from five branches in Barendrecht, Eindhoven, Deventer, Groningen and Munich (Germany).
