InPost signs purchase agreement to acquire Mondial Relay

Luxembourg, Luxembourg. InPost S.A.¹ (“InPost”, the “Company” or together with its subsidiaries “the Group”), today announces that following the receipt of the unanimous favorable opinion of Mondial Relay’s Worker’s Council and the subsequent exercise of the put option granted to the Seller, the Company entered today into a binding share purchase agreement with respect of the acquisition of 100% of the share capital and voting rights of Mondial Relay.

The Company continues to expect the transaction to be completed by the end of the second quarter of 2021, subject to customary closing conditions, including the receipt of regulatory approvals. The proposed acquisition would allow InPost to take a major step in its ambition to become Europe’s leading out-of-home automated solution for e-commerce.

For more details related to the announcement of the proposed acquisition of Mondial Relay, please see the press release and presentation materials dated 15 March, 2021, available on the investor relations website of the company (www.inpost.eu)

About InPost S.A.

In-Post SA (“InPost”) is the leading e-commerce enablement platform. Founded in 1999 by Rafal Brzoska in Poland, InPost provides delivery services through its network of more than 12,000 Automated Parcel Machines (“APMs”), including over 1,100 in the UK, as well as to-door couriers and fulfilment services to e-commerce merchants. In 2020, InPost handled 249 million parcel deliveries through its APMs, working with over 26,000 merchants. Strategically positioned in the fast-growing e-commerce ecosystems, InPost benefits from supportive market trends which drives further APM adoption. APMs provide consumers with a lower cost, flexible, convenient, environmentally friendly and contactless delivery option. Through its APM delivery services, InPost is creating a greener solution for e-commerce, as locker delivery results in a reduction of CO2 emissions by two-third compared to to-door deliveries in urban areas and 90% in rural areas as well as significant reduction in congestion. In addition, APMs provide a more convenient solution to parcel delivery for consumers, allowing for 24/7 access without the need for consumers to remain at home. Highly efficient IT infrastructure and rapid adoption of new technology underpin InPost’s operations and growth. InPost’s mobile application ‘InPost Mobile’ is one of the most successful apps in Poland with approximately 5.7 million active users.

¹ InPost as the context dictates also refers to Integer.pl SA and its subsidiaries which from completion of the IPO is a full subsidiary of InPost S.A.
