Exact completes divestment of Orisoft

Exact Group B.V. ("Exact") announces that it has sold Orisoft Technology (Orisoft), based in Malaysia, to the existing Orisoft management team through a management buyout. The initiation of the divestment process for Orisoft as a non-core business activity was announced in the [H1 2012 financial results](#) press release on July 25, 2012.

Erik van der Meijden, CEO, Exact: *"During the first half of 2012 we assessed our options for sustainable growth. As a result, we have decided to apply more focus and organize the company around two business units: Cloud Solutions for our Exact Online portfolio and Business Solutions for our traditional software solutions (Exact Globe Next, Exact Synergy Enterprise and Exact Financials). The strategic review also concluded that the activities of Orisoft no longer complement the core business of Exact. We are pleased to see that with the management buyout the envisioned future plans of Orisoft stay intact."*

Realigned organization

Exact Cloud Solutions will actively target companies of up to one hundred employees with Exact Online; a true cloud solution portfolio that enables customers to benefit from fast innovation for relatively low cost. The expanding portfolio will be introduced into new international markets starting with the United States and the United Kingdom, followed by Germany and France.

Larger customers require hosted or on-premise solutions that can be adapted to their specific needs. Exact Business Solutions offers these solutions for companies up to twenty-five hundred employees, with the option for a flexible subscription model.

For Longview, Lohn XL, and the US-based manufacturing solutions Exact created the group Specialized Solutions, as the dynamics within this division require a different approach.

This new direction, increased focus, strengthened innovation, and simpler structure will put Exact in a better position to create future growth. Exact will have better customer focus, a more effective organization, and can invest in those areas that have the biggest growth potential.

Exact. And it all comes together.

Exact is a leading global supplier of business software. Since we began, in 1984, the focus has moved from supporting financial processes to providing a complete ERP

offering for small and medium businesses. Innovative solutions like Exact Globe Next, Exact Synergy Enterprise and Exact Online support over 100,000 customers – local and international companies – in the daily management of their business.

Exact develops industry-specific on-premise and cloud solutions for manufacturing, wholesale and distribution, professional services, small business, and accountancy. Exact is headquartered in Delft, the Netherlands, and has been listed on the NYSE Euronext Amsterdam since June 1999. The company's revenues in 2011 amounted to € 215.6 million.
