## ICT AUTOMATISERING APPOINTS HANS-HENDRIK PUVOGEL AS GENERAL MANAGER AUTOMOTIVE

ICT Automatisering (ICT) is pleased to announce the appointment of Hans-Hendrik Puvogel as General Manager Automotive and Managing Director of the ICT subsidiaries in Germany and Poland. In this role, Hans Puvogel succeeds Jip van den Berg, who has fulfilled this role on an ad-interim basis.

ICT is at the forefront of the automotive industry. The challenging market and the need for innovative solutions in the automotive industry creates good opportunities for ICT. Hans-Hendrik Puvogel's main focus will be on further growing the cross-border automotive activities for the ICT Group, using domain expertise and skills from the experienced ICT teams in the Netherlands, Germany and Poland.

Before joining ICT, Puvogel (46), who has the German nationality, was the General Manager of INRIX in Europe, the leading-provider of data-as-a-service and software-as-a-service for the connected vehicle. Puvogel has an 18 year track record in building and growing international businesses, as well as experience in software and data services for the automotive and telecommunications industry.

### About ICT

ICT Automatisering's goal is to simplify and improve our clients' business, production and communication processes and to make them more flexible. We do this by using our high-grade technological expertise. We deploy this expertise in the form of inventive and effective product and market combinations. ICT is organised in line with the markets we serve. We have six verticals: Automotive, Industrial Automation, Logistics, Machine & Systems, Healthcare and Energy. Each vertical offers professionals with specific know-how and expertise of a market's products and processes. For more detailed information on ICT, visit our website at [www.ict.eu](http://www.ict.eu).
