

PRESS RELEASE

Share Buyback Transaction Details December 28, 2017 – January 3, 2018

January 4, 2018 – Wolters Kluwer today reports that it has repurchased 65,890 of its own ordinary shares in the period from December 28, 2017 up to and including January 3, 2018 for €2.9 million and at an average share price of €43.38

These share repurchases are part of the three-year share buyback program (2016-2018) originally announced on February 24, 2016. This program was expanded by €100 million (to €700 million) in July 2017 in order to mitigate the earnings dilution related to two disposals completed in 2017. The share buyback program includes repurchases made to offset performance share issuance.

The cumulative number and amount of shares repurchased under this three-year program is now as follows:

Share Buyback Program 2016-2018

Period	Cumulative shares repurchased in period	Total consideration (€ million)	Average share price (€)
2018 To Date	65,890	2.9	43.38
2017	7,768,288	300.0	38.62
2016	5,826,473	199.7	34.28
Total	13,660,651	502.6	36.79

Current repurchases are being executed under a third party mandate granted on September 26, 2017. Under this mandate, €50 million of share buybacks were completed in the period from November 2, 2017 up until December 31, 2017 and a further up to €50 million will be executed in the period from January 1, 2018 up to and including February 19, 2018.

Share repurchases are made within the limits of relevant laws and regulations, in particular Regulation (EU) 596/2014) and Wolters Kluwer's Articles of Association. Repurchased shares are added to and held as Treasury shares and will be used for capital reduction purposes or to meet obligations arising from share-based incentive plans.

Forward-looking Statements and Other Important Legal Information

This report contains forward-looking statements. These statements may be identified by words such as “expect”, “should”, “could”, “shall” and similar expressions. Wolters Kluwer cautions that such forward-looking statements are qualified by certain risks and uncertainties that could cause actual results and events to differ materially from what is contemplated by the forward-looking statements. Factors which could cause actual results to differ from these forward-looking statements may include, without limitation, general economic conditions; conditions in the markets in which Wolters Kluwer is engaged; behavior of customers, suppliers, and competitors; technological developments; the implementation and execution of new ICT systems or outsourcing; and legal, tax, and regulatory rules affecting Wolters Kluwer’s businesses, as well as risks related to mergers, acquisitions, and divestments. In addition, financial risks such as currency movements, interest rate fluctuations, liquidity, and credit risks could influence future results. The foregoing list of factors should not be construed as exhaustive. Wolters Kluwer disclaims any intention or obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

This press release contains information which is to be made publicly available under Regulation (EU) 596/2014.
