- Net cash position declined to EUR 2.7 million (year-end 2015: EUR 4.5 million).

#### STÉPAN BREEDVELD, CEO ORDINA, ABOUT THE RESULTS

"Despite a disappointing fourth quarter, we closed 2016 in profit and free of debt. Revenue declined in the year under review, with the largest declines in the Dutch public sector and in the financial services sector. Revenue and profitability increased significantly in Belgium/Luxembourg. In the Netherlands, the units specialising in requirements, software development and testing all delivered strong performances. All our attention is now focused on transforming this decline into growth in the Netherlands. The 11 IT outsourcing framework contacts we recently acquired in the Dutch public sector will serve as a solid foundation for this growth.

In addition, retaining and recruiting employees is crucial in the current tight labour market. In 2017, we will be looking to hire 700 professionals in the Netherlands and Belgium/Luxembourg. The labour market campaign 'Do you look beyond the code?' will back up this ambition.

In 2016, more than 900 participants attended the Ordina Open Innovation Days in Nieuwegein, Mechelen and Groningen. Innovation is also about the smart combination of our existing and new expertise in multi-disciplinary teams. This is how we are making the transition from a technology-driven to a business-driven client approach. For instance, we combined the management of the SAP environment with the development of a new online strategy for the Rotterdam Port Authority."

#### **DEVELOPMENTS Q4 2016**

#### Revenue Q4 2016

In the fourth quarter of 2016, revenue declined by 7.3% to EUR 84.2 million (Q4 2015: EUR 90.8 million). The quarter had 64 workable days (2015: 65). The impact of one working day was around EUR 1.3 million in revenue and EUR 1.0 million in (recurring) EBITDA.

As of 1 April 2016, all operational divisions in the Netherlands, with the exception of the innovation cluster, are managed by a single operational director. The presentation of the results has been adjusted to reflect that organisational structure.

#### (Recurring) EBITDA Q4 2016

Recurring EBITDA was down in the fourth quarter, at EUR 5.1 million (Q4 2015: EUR 6.8 million). The recurring EBITDA margin dropped to 6.1% (Q4 2015: 7.5%). Recurring EBITDA in Q4 2016 and Q4 2015 were boosted by exceptional items (2016: EUR 0.6 million, 2015: EUR 1.7 million). In addition, there was one working day less. The impact of one less working was around EUR 1.3 million in revenue and EUR 1.0 million in (recurring) EBITDA. Corrected for these items, recurring EBITDA in the fourth quarter was up EUR 0.4 million compared to the same period in 2015.

EBITDA increased to EUR 4.3 million in the fourth quarter (Q4 2015: EUR 3.7 million).

#### Netherlands

In the Netherlands, revenue declined by 5.8% to EUR 256.1 million (2015: EUR 272.0 million). The recurring EBITDA margin was up at 4.7% (2015: 2.8%). The improvement in returns was boosted significantly by higher productivity and the cost savings programme.

In 2015, we introduced a programme to realise structural annual cost savings of EUR 15 million, which we completed in 2016. The effect of the savings on the 2015 results was around EUR 1.5 million. The cost savings we made in 2016 boosted last year's results by around EUR 11 million. The remaining savings of around EUR 2.5 million will be seen in the results from 2017 onwards, effectively completing the realisation of cumulative annual savings of EUR 15 million.

#### Delivery

Delivery provides services to clients in the field of professional services, application management and consulting. Revenue was down by 4.9% in 2016 at EUR 234.4 million (2015: EUR 246.6 million), largely due to a decline in revenue from the project and application management activities. Recurring EBITDA increased to EUR 13.2 million in 2016, from EUR 7.9 million in 2015. The improvement in returns was largely driven by higher productivity and the cost savings programme.

#### Innovation cluster

Ordina launched its innovation cluster in 2016. The cluster comprises a number of specialised activities: Security, SMART Technologies, Codestar and Clockwork. Revenue declined by 14.4% to EUR 21.7 million (2015: EUR 25.4 million). Recurring EBITDA declined to EUR -1.2 million (2015: EUR -0.4 million) due to the fact that the cluster is in the start-up phase and is investing in proposition development. We implemented a restructuring project at our digital engagement bureau Clockwork in 2016.

#### Belgium/ Luxembourg

Revenue in Belgium/Luxembourg increased by 14.6% to EUR 87.5 million (2015: EUR 76.3 million). The recurring EBITDA margin increased to 10.4% (2015: 8.3%). The improvement in returns was largely driven by higher revenues, higher productivity and lower indirect costs.

#### MARKET DEVELOPMENTS

#### Revenue Q4 2016

In the fourth quarter of 2016, revenue was down 7.3% at EUR 84.2 million (Q4 2015: EUR 90.8 million). All markets except healthcare showed a decline. In financial services, this was largely due to the higher turnover among our employees in this sector. The increase in the healthcare sector in Q4 was driven by revenue from pharmaceutical clients in Belgium/Luxembourg.

<sup>&</sup>lt;sup>1</sup> 2015 figures have been adjusted to reflect the reclassification of a number of clients for comparison purposes.

Public sector Revenue in the public sector declined by 7.0% to EUR 116.5 million in 2016 (2015: EUR 125.3 million). This decline was primarily due to the lower revenue from project and application management activities. In 2016, Ordina was awarded 11 framework contacts in the Netherlands. These contacts form a solid foundation for growth in this market.

## Financial services

Revenue in the financial services sector was down 5.5% at EUR 101.2 million (2015: EUR 107.1 million). This decline was due to factors such as higher turnover among our employees in that sector and reorganisations in the banking sector. In addition, revenue generated by external (self-employed) staff also declined due to changes in regulations and legislation relating to the assessment of labour relations (wet DBA).

#### Industry

Revenue in the industry sector rose by 3.5% to EUR 101.1 million in 2016 (2015: EUR 97.7 million). This increase was seen in both the Netherlands and Belgium/Luxembourg. Growth in the Netherlands was driven largely by growth among clients in the logistics segment.

#### Healthcare

Revenue in the healthcare sector was up 36.6% at EUR 24.7 million in 2016 (2015: EUR 18.1 million). This increase was largely driven by growing revenues from pharmaceutical clients in Belgium/Luxembourg. We provide consultancy and build integrated technology solutions for these clients, with a focus on R&D processes, infrastructure and supply chain.

#### **EMPLOYEES**

At year-end 2016, Ordina's total number of direct employees had fallen by 160 and the total number of indirect employees by 37 FTEs. At year-end 2016, the total number of employees stood at 2,689 FTEs (year-end 2015: 2,886 FTEs). The average number of employees in 2016 was 2,709 (2015: 2,884). The average number of direct employees was down by 147 FTEs. The average number of indirect FTEs was down by 28 FTEs. The average age of our employees was slightly lower in 2016 at 40.6 years (at year-end 2015 40.9 years).
