II. OVERVIEW

Boussard & Gavaudan Holding Limited ("BGHL") is a Guernsey closed-ended investment company and is registered with the Dutch Authority for the Financial Markets as a collective investment scheme under article 1:107 of the Dutch Financial Markets Supervision Act. BGHL invests its assets in order to provide exposure to multiple alternative investment strategies managed by the Investment Manager. The investment objective is to seek to produce long-term appreciation of its assets. BGHL seeks to achieve this by investing in BG Fund ("the Fund"). In addition, a proportion of the net assets of BGHL may, at the discretion of the Investment Manager, be invested in other hedge funds and/or other financial assets selected by the Investment Manager. BGHL aims to generate a target annualized return in excess of 10% (net of all fees).

III. SHARE INFORMATION as of 31 August 2017

V. BGHL COMPOSITION

The proceeds have been invested in BG Fund (net of a certain amount retained by BGHL for working capital requirements and other requirements).

From 1 September 2017, BGHL is exposed to BG Fund up to approximately 109% of its net asset value. BGHL maximum possible exposure to BG Fund is 110% of its net asset value. In addition, BGHL has other investments.

A. BG FUND

Eurostoxx 50 finished August down -0.8% on the month, VStoxx finished at 15.6%, up from 13.9% and iTraxx Crossover (S27) ended the month at 236bps (2bps wider).

BG Fund finished August up +0.11% for the USD A share class, primarily driven by credit special situations.

Volatility strategies

Mandatory convertible bond arbitrage

The contribution of mandatory convertible bonds was flat this month. There were no new issues. Flows were limited too.

Convertible bond arbitrage

Convertible bond contribution (excl. mandatories) to the performance of the fund was -13bps in August mainly due to bonds trading lower in a very quiet environment.

Volatility Trading

Realized Vol	Spot level 31/07 (VIX / V2X)	Monthly realized Vol (ES1 / VG1)	Difference
US	10.26	9.73	-0.53
EUROPE	13.90	12.92	-0.99
Implied Vol	Sep. Vol Index Fut as of 31/07	Sep. Vol Index Fut as of 31/08	Vol move
US	12.48	12.63	0.15
Europe	15.75	15.95	0.20

Volatility trading contributed -1bp this month.

Over August we have seen stabilisation of implied volatilities, primarily due to realised volatilities being marginally supported on most equity indices by geopolitical and US-political tensions. The recent news alerts also kept away many systematic volatility sellers and helped real money accounts in their decision to roll long dated hedges to benefit from the still-low implied volatilities at the long end of the curve.

As a consequence of the above we had a small recovery in the book at the beginning of August across positions and there were also a couple of profit taking opportunities on VIX positions. Overall, we posted a net marginal loss at the end of the month because moves ended up being quite contained (S&P500 puts and VIX calls expiring at zero) and because Eurostoxx50 long dated volatilities gave up more of their recovery than S&P500 vol.

We have increased our long gamma positions (short dated) to benefit from the current uncertainty and specific approaching events: key Central Bank meetings (ECB, FOMC), potentially tense debates in the US Senate and, to a lesser extent, the German elections. Our theta and long vega has consequently grown again while our outright directional bias has been reduced.

Equity strategies

August was an uneventful month for our equity portfolio. It contributed -13bps this month, while the Eurostoxx 50 index finished -0.8%.

After a decent performance from our telecom positions in July, the underwhelming publication of TDC numbers in August had a negative impact on the book. More broadly we gave back some of July's good performance as the telecom sector underperformed the market in the second half of the month.

August was also difficult for the media sector (the SXMP index was down almost 6%, underperforming Eurostoxx 50 by c.5%). After many months of underperformance, we decided to partially reduce our media hedges at the end of July and accordingly we suffered a loss across the media book. Advertising agencies in particular have accelerated their de-rating over August following profit warnings from WPP and others. While Publicis was ironically the only one to deliver results better than expectations, it de-rated by c.11% in August vs c.8% for its peers - partially explained by recent upward moves in EURUSD.

On the positive side, our portfolio benefited from positions on European utilities. The sector was supported by weak yield curves and the strength of energy prices. More specifically, we were positioned to capture the rally in the German names E.On and RWE. Our E.On thesis was based on a strengthening balance sheet and was fuelled by their announcement of a dividend increase. Separately, RWE published a strong set of results which showed strong cash flow generation and improving prospects. Both companies reflected renewed interest from investors following a very long period where the stocks seemed un-investable.

In the financial book, we benefited from positive stock selection in the non-life insurance sector through the reporting season.

Credit strategies

Capital Structure Arbitrage

Capital structure arbitrage was flat this month.

Idiosyncratic risk and corporate news flow were mainly ignored by investors who have been essentially focused on geopolitical stories.

In a slightly more volatile environment, no new opportunities really appeared as both asset classes moved in a concerted but lackadaisical risk on/ risk off mode. Moreover, poor liquidity during the traditional holiday season prevented active trading when local discrepancies appeared.

Credit long / short

Credit long / short was -2bps in August. Credit markets experienced limited activity and no significant flows in the overall quiet summer month of August. With most market participants on the side line, cash markets moves were fairly limited and overall underperformed the month rally observed in sovereign bond markets. Rates rally was driven by a market re-assessment of Central Banks QE potential tapering policies timeline and its actual effects, as well as by North Korea/US geopolitical tensions to a lesser extent. Primary was quiet with most accounts keeping cash for expected September issuance calendar.

Credit special situations

Credit special situations contributed positively this month (+19bps) with CGG the main contributor. Firstly, the market reacted positively to the announcement at the end of July of the positive creditor committee vote on the proposed restructuring plan. Secondly, the oil sector saw renewed investor appetite on the back of a Q2 season which showed signs of market conditions stabilising for oil services companies. In addition, market participants focused on the pick-up in M&A activity from oil majors illustrated by the acquisition of Maersk Oil by Total for \$7.45bn. Based on the indicative timetable, the CGG restructuring plan is expected to be implemented by the end of February 2018 with the shareholder meeting to be held by end of October.

EcoBat also contributed positively and traded higher following very strong quarterly results.

Trading contributed net +21bps; +15bps came from quantitative equity trading, +9bps from systematic trend following, +3bps from trading using A.I and -6bps from others.

B. DIRECT INVESTMENTS OTHER THAN BG FUND

On top of its investment in BG Fund, BGHL has other investments. As of 31 August 2017, the net asset value of these investments represents less than 5% of the net asset value of BGHL.

Rasaland Investors ("RLI")

RLI is a Malta-based holding company structured as a private equity fund in terms of fees and organisation and managed by BK Partners. RLI is dedicated to investing in land, hotels and high-end resort developments in Mexico.

RLI main asset is a majority interest in ACTUR its private subsidiary. ACTUR's other shareholders are Mexican public institutions. ACTUR owns land developing assets (Mandarina and Xala projects) and a minority interest in the publicly-traded company RLH Properties (ticker: RLHA:MM). RLH Properties owns majority interests in the Four Seasons hotel in Mexico City and in four hotels in Cancun (Fairmont hotel, Rosewood hotel, Banyan Tree and the Hyatt Andaz hotels and the Camaleon PGA Golf Course) and RLH Properties owns land lots in the Mandarina area on which the One & Only hotel and the Rosewood hotel are being developed.

Based on recent indications that BGHL would only be able to exit at a material discount to RLI's NAV, BGHL decided to mark down the position by -50% in May 2017. The position is valued at 50% of the NAV calculated by RLI's administrator.

In July 2017, BGHL purchased 9,075,135 shares of Rasaland. BGHL currently holds 19,075,103 shares which represents approximately 10.1% of the share capital of RLI.

GFI Informatique ("GFI")

BGHL holds GFI shares. GFI is a major player in value-added IT services and software in Europe. GFI is listed on the Paris Euronext, NYSE Euronext (Compartment B) - ISIN Code: FR0004038099.

On 10 May 2017, Mannai Corporation ("Mannai") announced an agreement for the acquisition by Mannai of the remaining stakes held by Boussard & Gavaudan and Apax. The announcement is available here: http://www.altamir.fr/news/press-releases.html?LANG=EN&langue=EN&LangUser=EN&RefACT=ACTUS-0-351&ACT_Type1=2&ID=ACTUS-0-48598&CLIENT=ACTUS-0-351.

In accordance with this agreement, BGHL sold two thirds of its position in July 2017 at a price of &8.00 per share for a total amount of &20,232,688 and is expected to sell the remaining third in June 2018 at a price of &8.50 per share for a total amount of &11,076,851.50.

VI. BOUSSARD & GAVAUDAN INVESTMENT MANAGEMENT UPDATE

A. TRANSACTION IN THE COMPANY'S SECURITIES

Please note that transactions in the Company's securities that have been performed by officers, directors and persons referred to in the section 5:60 of the Financial Supervision Act ("Wft") are reported:

- directly on the AFM website: <u>www.afm.nl</u> (professionals > registers > notifications > insider-transactions 5:60 wft);
- on the Company's website through a link to the AFM notification: <u>www.bgholdingltd.com</u> (Investment Manager > Regulatory information).

Transactions in the Company's own securities are also reported on:

- the AFM website: <u>www.afm.nl</u> (professionals > registers > notifications > price-sensitive press releases);
- the Company's website: <u>www.bgholdingltd.com</u> (Investor Relations > Financial announcements).

B. BGIM'S AUM

As of 1 September 2017, BG Fund assets under management are €2.71bn.

Sincerely,

E. Boussard and E. Gavaudan

Hedge Funds Liquidation Stress Tests

Stress tests' scenarios have been improved in order to take into account liquidity issues. This scenario aims at reflecting, to some extent, how the fund would react in distressed market environment (as was the case in late 2008). These stress tests combine the three following adjustments:

Small and mid caps adjustment

In certain market conditions, small and mid caps beta may become much higher than its level in normal market conditions and thus the hedging of such positions may not be effective. To address this kind of circumstance we apply a corrective factor to the beta of small and mid caps. The factor applied on mid caps is 1.5 and 2 on small caps.

Risk arbitrage adjustment

The risk of risk arbitrage positions is taken into account differently in case the market drops by more than 10%. We consider that one third of risk arbitrage positions will collapse.

Liquidity adjustment

An average discount (realized in 2008) is applied to bond, convertible bond (including mandatory convertible bond) and loan prices in case credit spreads widen by more than 25%.

Mandatories:	Adj. price = Max(Shifted Price – 5% * Max(Credit spread shift – 25%, 0), Parity)
Others :	Adj. price = Max(Shifted Price – 5% * Max(Credit spread shift – 25%, 0), 0)

In compliance with AIFMD, BGIM will report in the newsletter the information hereafter:

• The percentage of assets which are subject to special arrangements arising from their illiquid nature:

Nothing to report

• Any new arrangements for managing the liquidity of the AIF:

Nothing to report

• The current risk profile of the AIF and a description of the risk management systems employed by BGIM to manage market risk, liquidity risk, counterparty risk and other risks, including operational risk:

Please refer to this newsletter for the current risk profile of the Fund.

The backbone of the portfolio and risk management systems at BGIM relies on several components all interfaced together to ensure a full Straight Through Processing. The main system is FusionInvest provided by Mysis used for position keeping and risk management. FusionInvest is interfaced to a real time market data vendor for real time P&L and risk calculation. Another key system is Trade Smart, the Execution Management System provided by Trading Screen that is interfaced to an in-house implemented Order Management System, itself connected in real time to FusionInvest. All figures used for qualitative and quantitative risk management are produced out of FusionInvest.

• The gross investment exposure of the Company at any time may represent a maximum of 2 times the Net Asset Value at the time of investment.

	Maximum limit	Current usage
Commitment method	200%	108%
Gross method	200%	112%

Disclaimer

The Company is established as a closed-ended investment company domiciled in Guernsey. The Company has received the necessary approval of the Guernsey Financial Services Commission and the States of Guernsey Policy Council. The Company is registered with the Dutch Authority for the Financial Markets as a collective investment scheme pursuant to article 2:73 in conjunction with 2:66 of the Dutch Financial Supervision Act (Wet op het financieel toezicht). The shares of the Company (the "Shares") are listed on Euronext Amsterdam. The Shares are also listed on the Official List of the UK Listing Authority and admitted to trading on the London Stock Exchange plc's main market for listed securities.

This is not an offer to sell or a solicitation of any offer to buy any securities in the United States or in any other jurisdiction. This announcement is not intended to and does not constitute, or form part of, any offer or invitation to purchase any securities or the solicitation of any vote or approval in any jurisdiction, nor shall there be any sale, issuance or transfer of the securities referred to in this announcement in any jurisdiction in contravention of applicable law.

Neither the Company nor BG Fund has been, and neither will be, registered under the US Investment Company Act of 1940, as amended (the "Investment Company Act"). In addition the securities referenced in this announcement have not been and will not be registered under the US Securities Act of 1933, as amended (the "Securities Act"). Consequently any such securities may not be offered, sold or otherwise transferred within the United States or to, or for the account or benefit of, US persons except in accordance with the Securities Act or an exemption therefrom and under circumstances which will not require the issuer of such securities to register under the Investment Company Act. No public offering of any securities will be made in the United States.

You should always bear in mind that:

- all investment is subject to risk;

- results in the past are no guarantee of future results;

- the investment performance of BGHL may go down as well as up. You may not get back all of your original investment; and

- if you are in any doubt about the contents of this communication or if you consider making an investment decision, you are advised to seek expert financial advice.

This communication is for information purposes only and the information contained in this communication should not be relied upon as a substitute for financial or other professional advice.
