## **InPost S.A. receives unconditional approval from the European Commission for the acquisition of Mondial Relay**

*Acquisition will create Europe's leading out-of-home automated solution for e-commerce*

**Luxembourg, Luxembourg – 28 May 2021.** InPost S.A., a leading e-commerce enablement platform, today announced that the European Commission has unconditionally approved its acquisition of Mondial Relay, clearing the way for completion of the transaction.

The transaction has now received all necessary regulatory approvals and is expected to close on or about July 1, 2021.

“We are delighted to receive the European Commission’s unconditional approval which allows us to move forward and successfully complete the acquisition of Mondial Relay,” said **Rafal Brzoska, Founder and CEO of InPost**. “International expansion is a key element of InPost’s growth strategy and the acquisition of Mondial Relay gives us an immediate footprint in one of Europe’s largest e-commerce markets, providing multiple levers to accelerate our overall growth and create shareholder value.”

### **About InPost S.A.**

In-Post SA (“InPost”) is the leading e-commerce enablement platform. Founded in 1999 by Rafal Brzoska in Poland, InPost provides delivery services through its network of more than 13,500 Automated Parcel Machines (“APMs”), including over 1,400 in the UK, as well as to-door couriers and fulfilment services to e-commerce merchants. In 2020, InPost handled 249 million parcel deliveries through its APMs, working with over 26,000 merchants. Strategically positioned in the fast-growing e-commerce ecosystems, InPost benefits from supportive market trends which drives further APM adoption. APMs provide consumers with a lower cost, flexible, convenient, environmentally friendly and contactless delivery option. Through its APM delivery services, InPost is creating a greener solution for e-commerce, as locker delivery results in a reduction of CO2 emissions by two-third compared to to-door deliveries in urban areas and 90% in rural areas as well as significant reduction in congestion. In addition, APMs provide a more convenient solution to parcel delivery for consumers, allowing for 24/7 access without the need for consumers to remain at home. Highly efficient IT infrastructure and rapid adoption of new technology underpin InPost’s operations and growth. InPost’s mobile application ‘InPost Mobile’ is one of the most successful apps in Poland with more than 6.5 million active users.
