STMicroelectronics recognized for Climate Change Leadership by CDP

Geneva, Dec 8, 2020 -- **STMicroelectronics (NYSE:STM)**, a global semiconductor leader serving customers across the spectrum of electronics, has been recognized for leadership in corporate sustainability by global environmental non-profit CDP, securing a place on its prestigious 'A List' for tackling climate change.

STMicroelectronics is one of a small number of high-performing companies out of 5,800+ that were scored by CDP. Through significant demonstrable actions and by implementing with transparency a range of initiatives, ST is leading on corporate environmental ambitions, to cut emissions and to manage climate change within its own operations and its extended supply-chain.

CDP's annual environmental disclosure and scoring process is widely recognized as the gold standard of corporate environmental transparency. In 2020, over 515 investors with over US\$106 trillion in assets and 150+ major purchasers with US\$4 trillion in procurement spend requested companies to disclose data on environmental impacts, risks and opportunities through CDP's platform. Over 9,600 responded – the highest ever.

The full list of companies that made this year's CDP A List is available here, along with other publicly available company scores: <https://www.cdp.net/en/companies/companies-scores>

Note to editors

The **full methodology** and criteria for the A List is available on CDP's website at: <https://www.cdp.net/en/companies/companies-scores>

About STMicroelectronics

At ST, we are 46,000 creators and makers of semiconductor technologies mastering the semiconductor supply chain with state-of-the-art manufacturing facilities. An independent device manufacturer, we work with our 100,000 customers and thousands of partners to design and build products, solutions, and ecosystems that address their challenges and opportunities, and the need to support a more sustainable world. Our technologies enable smarter mobility, more efficient power and energy management, and the wide-scale deployment of the Internet of Things and 5G technology.

About CDP

CDP is a global non-profit that drives companies and governments to reduce their greenhouse gas emissions, safeguard water resources and protect forests. Voted number one climate research provider by investors and working with institutional investors with assets of US\$106 trillion, we leverage investor and buyer power to motivate companies to disclose and manage their environmental impacts. Over 9,600 companies with over 50% of global market capitalization disclosed environmental data through CDP in 2020. This is in addition to the hundreds of cities, states and regions who have disclosed, making CDP's platform one of the richest sources of information globally on how companies and governments are driving environmental change. CDP is a founding member of the We Mean Business Coalition. Visit <https://cdp.net/en> or follow us @CDP to find out more.
