

Press release

Nieuwegein, The Netherlands 20 July 2007
Number 2007.017 E

Transaction in raw materials with Vinci-subsiidiary Eurovia

As announced earlier our Norwegian associate Bremanger Quarry has acquired all the shares in a sandstone quarry, with access by water and with a concession of approximately 100 million tonnes. The holder of this concession is French road construction contractor Eurovia, which is part of the Vinci group. At the same time Eurovia acquired a minority interest in Bremanger Quarry.

Subsequently, our Norwegian associate also has acquired an option on shares in Antwerp Stone Terminal (AST). AST holds the concession and licence for a terminal in the port of Antwerp and holds contracts with various suppliers of aggregates, including Bremanger Quarry. Eurovia and road construction company Van Wellen (Antwerp) are shareholders of AST.
