

Schiphol Group's credit rating affirmed by Standard & Poor's;
outlook adjusted

Persbericht / Press Release

Schiphol, 30 June 2006

Standard & Poor's affirmed Schiphol Group's credit rating as AA- late yesterday afternoon. The outlook was adjusted from 'stable outlook' to 'negative outlook'. The decision taken by Standard & Poor's emanates from the decision taken by the Upper House of Dutch Parliament regarding the Amendment of the Dutch Aviation Act and the related privatisation of a minority interest in Schiphol Group.

Schiphol Group's capital structure may change on account of the distribution of a one-time super dividend when the company is privatised. Depending on the size of the super dividend, the credit rating may be adjusted downwards.
