

PRESS RELEASE

Zeikon NV

Eede, The Netherlands – 18 February 2014

Zeikon to be delisted from Euronext on 19 March 2014

Zeikon N.V. ("**Zeikon**") announces that, in consultation with NYSE Euronext Amsterdam, Zeikon's listing will be terminated on 19 March 2014. Tuesday 18 March 2014 will be the last trading day of Zeikon shares on NYSE Euronext Amsterdam.

As a result of its public offer, XBC B.V. (the "**Offeror**") holds more than 95% of all issued Zeikon shares not held by Zeikon.

Following the delisting shareholders will no longer be able to trade Zeikon shares via the NYSE Euronext Amsterdam stock exchange in the usual way. This will adversely affect the liquidity, and possibly, the value of the Zeikon shares.

The Offeror has announced that he intends to initiate squeeze-out proceedings as soon as possible in order to acquire all Zeikon shares not already owned by him or Zeikon.

This announcement is made pursuant to Section 5:25j, second paragraph of the Act on Financial Supervision (*Wet op het financieel toezicht*).

For additional information, please contact Mr H.B. olde Bolhaar, Independent member of the Supervisory Board, or Mr C. den Ouden, CFO, reachable via the head office of Zeikon at +31 (0)117 – 37 5020.

About Zeikon

Zeikon NV (XEI: AEX) is an innovator in digital printing technology. The company designs, develops and delivers web-fed digital color presses for labels and packaging applications, document printing, as well as commercial printing. These presses utilize LED-array-based dry toner electrophotography, open workflow software and application-specific toners. As an OEM supplier, Zeikon designs and produces plate makers for newspaper offset printing applications. Zeikon also manufactures basysPrint computer-to-plate (CtP) solutions for the commercial printing market. These proven CtP systems combine the latest exposure techniques with cost-efficient UV plate technology, high imaging quality and flexibility. For the flexographic market, Zeikon offers digital platemaking systems under the ThermoFlexX brand name. ThermoFlexX systems provide high resolution plate exposure including screening, colour management, as well as workflow management. All the Zeikon solutions are designed with the overarching principles of profitability, quality, flexibility and sustainability in mind. With these guiding principles and a deep, intimate knowledge of its customers, Zeikon continues to be one of the industry's leading innovators of products and solutions.
